Basic Information
The JMU Summer Art Education Program provides exciting art courses for children ages 6-15. 2010 classes will be held June 14-17 and June 21-24, with optional Friday classes, on the JMU campus. Students who have completed kindergarten may register for the classes listed in this brochure. Morning classes are from 9am-noon; afternoon classes are from 1-4pm. Each week will end with an exhibit/reception on Thursday from 4-5pm.

Class Structure
Certified art educators will guide students through an intensive four-day course, providing a solid foundation for creating art. Students will work with professional artists in small classes to develop ideas into completed works of art. Enrollment is limited to ten students and is on a first-come, first-served basis.

Enrollment Procedure
To register, fill out the form on the back, detach, and return to the address provided. An enrollment packet will be mailed to you by June 1 if you register by May 28th. This includes your child’s schedule, a receipt and two forms to fill out and return the first day of class. If you would like to receive your enrollment packet via email, please provide your email address on the registration form and check here ___. We reserve the right to cancel classes with fewer than 10 students enrolled.

FUN FRIDAYS!
We are now offering a Friday class each week for students who wish to extend their art activities. You may sign up for a morning (9-noon) or afternoon (1-4pm) class, but we would recommend that you bring your lunch and stay all day! Ages will be mixed and we will use this opportunity for fun, one-day projects that will serve as an enrichment experience and truly complement our week of artistic endeavors. Register today!

Instructors: Valerie L. Smith and Lori Swortzel

Mission
Students will work with certified art teachers as they learn to see art, create art, understand art, and make informed judgments about art. Students will learn how images have been used to communicate important ideas, thoughts, and feelings throughout history and into contemporary times. The lessons demonstrate that education in the arts is fundamental to language acquisition, creative thinking, and an educated imagination.

Location
The Studio Center at 106 Grace Street

Lunch/Snacks
Students taking both morning and afternoon classes each week should bring their own lunch. Short workshops are planned during the 12-1pm hour. An additional $5 should be added to the enrollment fee for students staying all day. A break/snack period will take place during each class. Parents are encouraged to provide a healthy snack. Snack and drink machines are also conveniently located at the Studio Center.

Your donations for scholarships and supplies are warmly welcomed.

June 14-17 and 21-24

JMU SUMMER ART PROGRAM
Bringing Art to Our Community Since 1978
**WEEK ONE**
June 14-17 (Monday-Thursday)

**GRAPHIC DESIGN** -Laura Pinnow
Do you love art and computers? Come and learn how to create original art works combining text and graphics. We will explore different ways of manipulating pictures and photographs and add words to create posters and other forms of media. Even if you have never used a digital art program or edited a photo, you can do this!
A digital camera is not required for this class, but you may find it helpful to bring one.

**THROWING ON THE WHEEL** -Barbara Gautcher
Learn how to throw on the pottery wheel. All areas of throwing on the wheel will be introduced and explored: wedging, centering, pulling, and trimming. Work that is dry will be fired Wednesday evening. Other work will be picked up later on an individual basis.

**LOVE, PEACE AND TIE DYE** -Robin Goble
Learn about the visual culture of the 1960s while making your own tie dyed designs. Create art based on the work of Andy Warhol and other famous artists of that time period. Be inspired by the POP Art and Minimalist movements of the 1960s. Display your artwork at our “Coffee House”.

**CLAY & STOP MOTION ANIMATION** -Laura Pinnow
If you are interested in creating videos that you can produce and edit yourself, this is the class to take! We will explore animation using the Stop-Motion technique using clay characters and also everyday objects. Students need to bring a digital camera with a 1G memory card.
A small tripod would be helpful if you can bring one.

* Look on the back for information about Fun Fridays! *

**WEEK TWO**
June 21-24 (Monday-Thursday)

**GRAPHIC DESIGN** -Laura Pinnow
Do you love art and computers? Come and learn how to create original art works combining text and graphics. We will explore different ways of manipulating pictures and photographs and add words to create posters and other forms of media. Even if you have never used a digital art program or edited a photo, you can do this!
