

APT ALTERNATIVE: A SNAPSHOT

Do You Plan to Participate in the APT Alternative?

- Let us know your decision by mid-February!
- Look for an e-mail with a survey link to indicate your decision.

What programs are eligible?

- Those that have earned exemplary status for the past two years or more
- Those that did not complete an alternative last year

What is the Alternative?

- An opportunity to implement or plan program-level changes this semester and submit a one-page summary of your efforts/plans instead of the full APT report

You will still need to:

- Collect data
- Obtain department head approval by June 1

Note: If you opt for the alternative option, your scores will be repeated (frozen) for the current year using the previous year's scores.

What are the options for the Alternative?

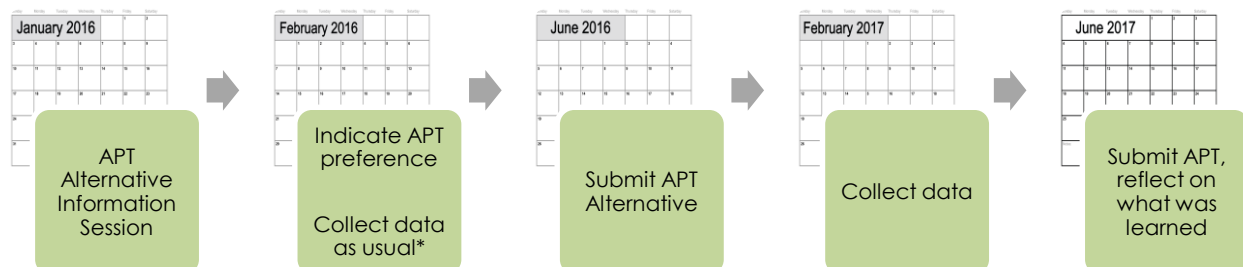

Implement:

- Work with your faculty and/or PASS to implement program-level changes related to student learning and assessment

Plan:

- Work with your faculty and/or PASS to develop a plan for future changes related to student learning and assessment

Example Alternative Process

*This is assuming an A-Day collection process. Adjust the timeline for your own data collection needs.
*You might need this data to report in the June 2017 report.

Continue implementation or planning ...
