Faculty Responsibility

It is the responsibility of all faculty who engage in any course or research related field activity to have fully read the policies and procedures contained in this manual.

It is also the responsibility of faculty members to make this manual available for any/all students participating in field research, course related trips, volunteer activities, and make sure that they complete and submit the appropriate form(s) included in this manual.

This manual as well as all necessary forms contained within will be posted on the Biology department website.
Department of biology motor vehicles

The JMU Department of biology has the following vehicles that are available for department related use.

485: 2006 GMC Savana - 12 passengers max, including driver

640: 2009 Ford E350 - 12 passengers max, including driver

733: 2011 Ford E350 - 12 passengers max, including driver

Prioritized use for all vans:

1. Class/lab trips
2. Research use that does not require going off road
3. Individual or small group road trips (professional meetings, etc).
4. On-campus/in-town trips/meetings/errands

791: 2013 Chevy Suburban 4X4 – 8 passengers max, including driver

Prioritized use:

1. Research/field/off-road use
2. Individual or small group road trips (professional meetings, etc).
3. On-campus/in-town trips/meetings/errands

797: 2010 Subaru Forester AWD – 5 passengers max, including driver.

Prioritized use:

1. On-campus/in-town trips/meetings/errands
2. Individual or small group road trips (professional meetings, etc).
3. Research/field/off-road use

Vans 485, 640, 733, and the suburban 791 have a calendar on the biology website and are scheduled through the Biology dept. office. The Subaru Forester 797 is scheduled by emailing Billy Flint.
Policies and procedures for travel and department vehicle use

Required Documentation

- **Travel Authorization form**: required anytime your travel will incur any cost (except for fueling university vehicles) that is paid for by the Biology Department, either up front or through a reimbursement. Each individual incurring cost must submit this form. The TA form available in a folder at the loading dock.

- **Travel Documentation form** (p. 10): required anytime your travel does not require you to submit a Travel Authorization form. It is required anytime you are leaving campus on department or university related business or that you are representing the university. This form must be completed for each vehicle leaving campus.

- **Student Research Field Safety form** (p. 11): required for any student who is leaving campus to participate in student research. This form must be completed once per semester or once per research course (BIO 49X).

- **Course Field Trip Information form** (p. 13): required for any student leaving campus for a course related activity. This form must be completed once for each field trip the student is participating in.

- **Driver Information Form** (p. 15): required for any employee or student before they can drive a Biology Department vehicle. This form only needs to be submitted once per individual.
  - Any new driver of a JMU vehicle must first attend a brief training session before they will be allowed to reserve or drive a Biology dept. vehicle. Please see Billy Flint to schedule a training appointment.

- **Non-university Passenger Waiver form** (p. 16): required for any individual who wants to ride in a department vehicle but is not a student or an employee of JMU.

- **Non-university Passenger Assumption of Risk form** (p. 17): required of any individual who plans to participate in a department related activity but is not a student or employee of JMU.

Vehicle Reservation

- Check the vehicle booking schedule which is located on the JMU Dept. of Biology website as a Department Link in the Faculty & Staff page. [http://www.jmu.edu/biology/van_bookings.shtml](http://www.jmu.edu/biology/van_bookings.shtml)

- Make sure that a vehicle is available during the time that you wish to reserve it.

- Send an email to: biodept@jmu.edu with a very clear request to reserve a specific vehicle for a specific date and time range.

- If a Dept. of biology vehicle is not available, you may reserve a vehicle through the JMU transportation dept. (page 19) or it may be possible to use a personal vehicle (page 21).
• Only biology department faculty, staff or graduate students may reserve department vehicles, though undergraduate students may also drive vehicles.

• Please follow these vehicle reservation guidelines
  • No speculative reservations. Only reserve vehicles for specific dates and times you know you will need the vehicle. If for any reason you will no longer need to use the vehicle, you must cancel your reservation immediately.
  • For field research use: Only reserve a vehicle for up to one week in advance and then only for the specific hours that you know you will be using it. If for any reason you will no longer need to use the vehicle, you must cancel your reservation immediately.
  • For class use: Instructional courses have priority. It is ok to reserve a vehicle for any date during the current semester as long as you only reserve for specific days and times that you know that you will. If for any reason you will no longer need to use the vehicle, you must cancel your reservation immediately.
  • For other uses (meetings, etc.): You may reserve a vehicle for any date during the current semester to attend already scheduled events that you know you will be participating in.
  • If for any reason you will no longer need to use a vehicle that you have reserved, you must cancel your reservation immediately.

  **Vehicle Keys**

  • Keys are located in lock boxes in the receiving room near the loading dock.
  • Any Bioscience key can be used to release a vehicle key. The building key cannot be removed from the lock box until the vehicle key is returned. There is a video link on the van bookings page which demonstrates how to check out vehicle keys. [http://www.jmu.edu/biology/van_bookings.shtml](http://www.jmu.edu/biology/van_bookings.shtml)

  **Parking**

  • All Dept. of biology vehicles have designated parking spaces in the D2 parking lot across from the Bioscience building and should always be returned to their appropriate space after use.
  • Whenever possible, please have someone stand behind the vehicle and help direct you to back out of the parking space safely.
  • If you do not feel confident that you can park a vehicle without incident, please find a faculty member or graduate student to help.
  • Any fines incurred because of illegal parking will be paid by the driver.
Vehicle / Equipment Maintenance

- All trash must be removed from the vehicle following use.
- Vehicles must not be returned to the parking lot low on fuel (see fueling section p.8).
- Any field equipment used must be cleaned and returned and the mud room kept clean.
- Any issues with the department vehicles must be reported to Billy Flint immediately.

Field equipment use and storage

There is an assortment of waders, boots and nets available for teaching or research related use in Bioscience room 1033E (Mud room). Any equipment used needs to be cleaned and returned immediately following its use. The Mud room must be kept as clean and organized as possible. Please do not borrow any equipment from any cabinets or drawers or from room 1033F without asking permission from the owner(s) of the equipment.

Field equipment and Vehicle cleaning

We have a ShopVac and a deep sink in the mud room (1033E) that can be used for cleaning as needed. However, to reduce campus input into the Chesapeake Bay, we are no longer allowed to wash equipment or vehicles at the loading dock as it may produce runoff that will drain into a storm drain. Please rinse out equipment as much as possible at your field site before returning to campus. And additional cleaning that needs to be done at Bioscience will have to be done either inside at a sink, or outside in a grassy area where runoff cannot reach a storm drain. We are in the process of having a hose station installed on the east side of the building outside of room 1029. Vehicles must be washed at a Miracle Car Wash location in Harrisonburg. You will generally not be asked to wash a vehicle unless your direct use has made it especially dirty.
**Watercraft**

The following watercraft are available for department related use.

**VA 2285 BD** - 2003 Crestliner 16’ Jon boat. Weight capacity 920lbs.

Transported with 2003 Tennessee trailer. License plate number: 64271S

**VA 9036 BC** - 2003 Zodiac 11’ Inflatable boat. Weight capacity – 5 people (3+1+1) / 1330lbs.

2, 14’ Old Town canoes.

**Outboard motors:**

Motorguide BD1241QS – 12VDC electric – 41lbs thrust. Located in Bioscience 1033F. For use on either boat.

The Jon boat and trailer are currently located in the JMU grounds dept. storage lot which is located behind the JMU recycling office/warehouses off of South Main Street. There is a gate that is locked on weekends and after 5pm on weekdays that blocks access to that lot. We do have an electronic key that will open the gate, so be sure to obtain this key from Billy Flint if you need access to the boat after hours.

There are also oars available for operating the boats in Bioscience room 1033F.

Personal Floation Devices (PFDs – also formerly called ‘life vests’) are located in Bioscience 1033F, and should ALWAYS be worn anytime any individual is in any boat/canoe that is in the water.
Fueling

Biology vehicles should be returned to their parking spot with the gas tank at least half full. If the fuel tank is less than half full when you are done using it, please refill the tank completely.

While it is the previous user’s responsibility to have refueled the van before returning it, it is the current van user’s responsibility to check the fuel level of the van before they use the van and make advanced plans to refuel before their trip if necessary. If you know that you will need most of a tank of gas, you definitely plan to refuel before your trip.

A full tank of gas will go approx. 350 miles in the vans and the Forester and 475 miles in the Suburban.

For local van use, you should always refuel at the JMU gas pump which is located at the Vehicle Maintenance and Repair Garage which is behind the University Services Building off of West Grace Street.

If you will be taking a Biology vehicle on a trip that you know will require you to refuel away from JMU, you must file a Travel Authorization form with the Biology dept. office. If this is approved, you will need to obtain the fuel credit card from the office or save any fuel receipts to submit to Janina for reimbursement upon your return.

Before you can refuel at the JMU gas pump, you will need to obtain a fuel pin number by either going in person to the JMU Department of Transportation located at 1603 South Main Street, or by sending an email to Teresa Fansler at fansletl@jmu.edu. Be sure to always have your fuel pin number BEFORE you take out a Biology van in the event that you will have to refuel. Forgetting your pin number is not an acceptable excuse for returning the Biology van low on fuel.

Each van also has an unique fuel “key” – which is a little disc-shaped plastic device that is located within the clipboard case in each van, or on the key ring of the Forester and Suburban.

Before you attempt to refuel, you will need to have your pin number, the van fuel key and the van’s odometer reading ready as the fuel pump will ask for each of these things in very quick succession. If you delay at all, the process will time out and you will have to start over.
Department of Biology Travel Documentation Form

Driver – once for each student who will drive a Dept. vehicle.
Class field trip – once for each class for which they will be traveling off site.
Research – once for each faculty member they are performing research under.

Follow all forms on file and should have read the Dept. Field Manual.

In addition, any students leaving campus must have at least one of the following forms completed.

This form must be filled out individually for each vehicle leaving campus.

Name of all persons present in vehicle:
Phone number:

Approving Faculty Mentor Signature:

When do you plan to return? Date and approx. time:

When are you leaving? Date and approx. time:

Closest road intersection or GPS coordinates:

What is your destination? Place name and physical address:

If personal vehicle, list make, model, year, and license plate:

What vehicle are you taking?

Name of person who reserved or owns vehicle used:
Students should be aware that fieldwork activities have inherent hazards. JMU faculty and staff will seek to minimize these hazards by imposing appropriate safety precautions. However, to reduce the risk of accidents, students must abide by the following provisions:

- Undergraduate students must not work alone outside Harrisonburg city limits.
- Always leave your itinerary with someone.
- Check the weather forecast before proceeding to the field.
- Do not access private property without permission.
- In the field, always carry JMU identification and a letter from your research advisor on JMU letterhead.
- Carry a cell phone with you; however, do not depend solely on a cell phone as the signal may not carry to remote areas.
- Wear appropriate clothing, footwear, and personal protective equipment.

I have received and understand the safety instructions provided. I agree to abide by these safety instructions and the provisions listed above. I recognize that field work will involve moderate physical activity and other activities that pose a risk of personal injury. In the event of an emergency, please notify the contact listed below.

Students should be aware that fieldwork activities have inherent hazards. JMU faculty and staff will seek to minimize these hazards by imposing appropriate safety precautions. However, to reduce the risk of accidents, students must abide by the following field trip provisions:

- Obey all safety instructions given by the field trip leader. Students not conforming to these instructions may be dismissed from the trip.
- Stay with the group or working teams except by clear arrangement with the field trip leader. Immediately alert the trip leader if someone becomes separated from the group or team.
- Immediately report any accident, injury, or illness to the field trip leader.
- Wear appropriate clothing, footwear, and personal protective equipment as advised by the field trip leader.
- Prior to the trip, notify the field trip leader of any disability (i.e. injuries, phobias, etc.) or medical condition (i.e. heart condition, asthma, allergies, etc.) that may impact your ability to participate safely. Carry a sufficient supply of any necessary medication.
- All participants must travel in University vehicles unless personal vehicle use is approved by the instructor, and all passengers must wear seat belts.
- After a trip, all participants must assist with clean up. This may include removing trash from vehicles, cleaning and storing equipment, and reporting any damage to vehicles or equipment.

I have received and understand the safety instructions provided by the field trip leader. I agree to abide by these safety instructions and the provisions listed above. I recognize that the course will involve moderate physical activity and other activities that pose a risk of personal injury. In the event of an emergency, please notify the contact listed below.

Driving a JMU-owned vehicle is an important responsibility. By signing and dating this form, drivers acknowledge the basic requirements and expectations for operating a JMU-owned vehicle.

In order to operate a JMU-owned vehicle, **the driver must meet the following conditions:**
- Be a JMU student or employee or be affiliated with a JMU-sanctioned program.
- Have a valid driver’s license.
- Be at least 19 years old.
- Have at least two years of driving experience.

The driver of a JMU-owned vehicle must abide by University Policy #4303 (Use of State Vehicles) which includes, but is not limited to, the following requirements:
- Travel must be associated with the mission of the Department, club activity, or JMU program.
- Personal travel and non-essential stops or detours are prohibited.
- The driver and all passengers must wear seatbelts.
- Distracted driving is prohibited (i.e. using cell/smart phones, GPS devices, etc. while moving).
- Carrying non-JMU passengers is prohibited (i.e. friends, family, general public, etc.)
- Possession or use of alcoholic beverages or drugs and smoking are prohibited.
- The vehicle must be safeguarded while parked (windows rolled up, doors locked, etc.).
- If a breakdown occurs, the JMU Maintenance Garage and JMU Public Safety must be called.

In the event of an accident, the driver must:
- Immediately call campus Public Safety at 568-6911 if the incident occurs on or near the JMU campus or the State Police for all other incidents.
- Follow all instructions in the Accident Information Packet found in the vehicle clipboard.

I have read and understand the basic requirements and expectations for operating a JMU-owned vehicle. I agree to abide by these provisions and applicable motor vehicle laws and regulations. I understand that any deviations may not be covered by the University insurance policy and may become the legal and financial responsibility of the driver.

Non-University Passenger Waiver Form
Allowing Non-University Passengers in University Vehicles

I am the Dean/Director over the employee/office which has requested that ________________________, (name) a non-university passenger, be transported in a university vehicle, not in the ordinary course of business of the university under the terms of University Policy 4303, Section 5.3.

I hereby certify the following to be true and correct:

A university vehicle is being used to transport university employees and/or students on ___________ (date) from __________________ (starting point) to ___________________ (destination).

I have approved this trip, which is for legitimate business reason. The vehicle has seats which are not being used to transport university employees and/or students. The non-university passengers are not being transported as a convenience or favor to those individuals.

I find that the non-university passenger’s travel is of benefit to the university and is related to official university business.

The non-university passenger (or the parent, if the passenger is under 18) has signed an assumption of risk document which is attached hereto. (Failure to attach a signed assumption of risk document nullifies this form and the non-university passenger will not be transported).

I hereby approve of the non-university passenger’s transportation in a university vehicle.

Participation in James Madison University (JMU)-sponsored travels is entirely voluntary, and conditional upon compliance with University policies, rules, and instructions. In determining whether you will participate in the activity, you should be aware that JMU cannot ensure your safety or undertake financial responsibility for you or your personal property in the event that you are injured or your personal property is damaged or lost while participating in the activity.

In consideration of JMU permitting your participation in the activity, you must agree to assume the risk associated with the activity, as well as with travel to and from the activity. As is the case with many other activities in which you may engage, you should determine whether you or your family have health or accident insurance in effect to adequately cover you should you be injured while participating in this activity. JMU faculty and staff will seek to minimize travel hazards by implementing appropriate safety measures. However, to reduce the risk of accidents, travelers must abide by the following travel provisions:

- Obey all safety instructions given by the travel leader. Travelers not conforming to these instructions may be dismissed from the trip.
- Stay with the group or working teams except by clear arrangement with the travel leader. Immediately alert the trip leader if someone becomes separated from the group.
- Immediately report any accident, injury, illness, or “near miss” to the travel leader.
- Wear appropriate clothing, footwear, and personal protective equipment.
- It is recommended that prior to the trip; you notify the field trip leader of any specific difficulties or medical condition that may impact your ability to participate safely and meaningfully. Carry a sufficient supply of any necessary medication.
- All participants must observe state law restricting the use of tobacco products or alcoholic beverages at any time in state vehicles.

I have read and understand the foregoing explanation of the risks inherent in the voluntary travel activity. I am at least eighteen years of age, and it is my decision to participate in the activity, if accepted by James Madison University. I hereby accept the risk of injury to me and to my personal property as a result of participating in the activity, and, as further consideration for its permitting me to participate in the activity, I hereby release James Madison University from any and all damages, injuries, claims, causes of actions, or losses of any kind which I may have resulting in whole or in part from my participation in off-campus travel activities. I further release the following property owners (if applicable)

Property owner ________________________________________________________________

- and their employees, officers, affiliates, agents, and advertising and promotional agencies – from any and all damages, injuries, claims, causes of actions, or losses of any kind which I may have resulting in whole or in part from my participation in off-campus travel activities.

I understand that if I have any question about the foregoing at any time in the future, I may contact the JMU University Risk Management Office at 540-568-6495 or riskmanagement@jmu.edu, who has sole authority in this matter.

Witness (print/signature) __________________________________________________

Person to contact in case of emergency:

Name: ________________________________ Cell phone: __________________________
Fieldwork hazards and precautions

Clothing. Appropriate clothing is essential anytime you are in the field. Clothing can protect against excessive sun exposure, cold and/or wet conditions, can inhibit poisonous plants and animals from accessing your skin, and can protect you from injuries.

Snakes. Any student participating in field research should familiarize themselves with the venomous snakes that occur in our area of the state. Those are the Copperhead and Timber Rattlesnake. If you are not confident that you can correctly identify these species, you should avoid approaching or handling any snake species. http://www.virginiaherpetologicalsociety.com/reptiles/snakes/snakes_of_virginia.htm

Ticks. You are likely to be exposed to ticks anytime you are out in the field. You should always immediately remove any ticks you see either walking on or that have become attached to you. Upon returning home, you should thoroughly check yourself for ticks. If you develop any unusual rashes or become ill, make an appointment to see a doctor as soon as possible.

Poison ivy. Learn how to identify poison ivy, and avoid it. If you come into contact this plant, wash the exposed area with soap and water as soon as possible to prevent a rash from developing. Appropriate clothing can help protect you from exposure.

Bears. Bears are not uncommon in many of the natural areas near JMU. If you encounter a bear, do not attempt to approach or feed it. In the unlikely event that it approaches you or displays aggressive behavior, do not run or use fearful or submissive body postures. Shout, throw objects at it, and as a last resort, fight back.

Weather. Do not attempt to conduct or continue field work if weather conditions are unsafe. Unsafe weather conditions include excessively hot or cold temperatures, thunderstorms, snowstorms, hurricanes or tornadoes – or if there is a watch or warning for any of those weather conditions. Do not attempt to access or cross a body of water that is too swift either on foot or in a watercraft. Never attempt to drive a vehicle across a road covered in water.
Reserving vehicles through the JMU Motor Pool

The Motor Pool Operations is located at 1603 South Main Street, approximately three blocks south of the main campus, diagonally across from Wendy's. Operating hours are 7:00am to 5:00pm Monday through Friday. Vehicles must be picked up during normal business hours.

Vehicles must be scheduled online through the Biology Office using the computer vehicle request program, AiM.

Questions can be directed to the Administrative staff at 8-8147 or 8-7429. Rental vehicles are located in a secured area and will require card access to return vehicles after normal operating hours. Each vehicle is equipped with an access card for entry. Card access is not required to exit the secured area. The Motor Pool Operation has a wide range of vehicles to meet our customer needs.

The Biology department will get charged EITHER the minimum per day OR the per mile charge, depending on which is greater – but not both charges. Also, we do NOT have to refill the motor pool vehicles back up with fuel before returning them (as long as we can make it back without running out completely).

**Late / Cancellation / No Show**

If the customer is going to be late picking up a vehicle, please notify the Transportation Department as soon as possible at 8-8147 or 8-7429. If the customer needs to cancel a vehicle, we require they contact the Transportation department 24 hours prior to scheduled pick up to avoid a departmental charge. The charge will reflect the minimum daily fee of that vehicle if not cancelled within 24 hours. Cancellations related to inclement weather are excluded from minimum charge. "No Show" for vehicle pick up will be handled the same as failure of cancellation and the charges will remain the same.

**Emergency Breakdowns**

Motor Pool customers are provided a Best Roadside Service card in the key packet received when the JMU Motor Pool vehicle is picked up. This card is only available for use with JMU Motor Pool vehicles.
Personal Vehicle Use

JMU Financial Procedures Manual Subsection .334 of the Travel Procedure (Section 4215)

.334 Personal Automobiles

University employees may use personal automobiles when traveling on Official University business. The University usually considers a personal automobile cost beneficial for occasional travel planned for distances up to an average of 100 miles per day.

Campus visitors, such as consultants and speakers, University Board of Visitors members and certain prospective employees may be reimbursed for all personal vehicle mileage at the maximum mileage reimbursement rate.

.334.1 Current Mileage Rates

Current Mileage Rates are available in an online table. Travelers who do not have access to the Network may call the Office of Accounts Payable for mileage rates.

To receive the higher mileage reimbursement rate for personal vehicle mileage exceeding an average of 100 miles per day per trip, the employee must request the University Transportation Manager to certify that one of the following apply:

- A State-owned vehicle/OFMS rental is not available or accessible.
- It is in the interest of the University to use a personal vehicle.
- The use of a personal vehicle is cost beneficial to the State.

The employee must submit a cost/benefit analysis and a completed Personal Vehicle Use Form (PVUF) to the Transportation Manager. In preparing the cost/benefit analysis, the employee should consider all cost associated with getting, parking, operating and returning a State-owned vehicle, to the cost of operating a personal automobile. Refer to Facilities Management Website @ http://drive.facmgt.jmu.edu:81/cars/index_html for instructions and forms on obtaining necessary certification. A Personal Vehicle Use Form, approved by the Transportation Manager, must be attached to the Travel Expense Reimbursement Voucher in order to receive the higher mileage rate.

If the higher mileage rate is used for reimbursement, the traveler’s Senior Vice President, or Associate/Assistant Vice President, Dean, or Associate/Assistant Dean, Director that reports directly to the VP, must sign as approval the Travel Expense Reimbursement Voucher.
Employees electing to use their personal vehicle as a matter of convenience for trips exceeding an average of 100 miles per day will be reimbursed for mileage at the reduced rate.

The Personal Vehicle Use Statement at the top of the Travel Expense Reimbursement Voucher should be checked appropriately when the traveler is a state employee.

.334.2 Mileage versus Air Costs

When travel is by personally-owned automobile, the total of the expenses reimbursed, including meals and lodging, should not exceed the total cost of the trip using the most economical public air transportation available, also including meals and lodging. The traveler's Senior Vice President, or Associate/Assistant Vice President, Dean and Associate/Assistant Dean may grant exceptions to this policy when justified. Comparative statements must be attached to the travel voucher for reimbursement.

Personal Vehicle Mileage Rates

The following chart provides the current and future (Effective January 1, 2009) mileage rates for the use of personally-owned vehicles for approved University travel for the first 15,000 miles in a fiscal year. Refer back to Subsection .334 of the Travel Procedure (Section 4215) for additional information.

**Cost Benefit Analysis (completed by traveler)**

The traveler must submit a cost/benefit analysis to the Transportation Manager to receive maximum mileage reimbursement. In preparing the cost/benefit analysis, the traveler should consider all costs associated with **getting, parking, operating, and returning a State-owned vehicle**, to the cost of operating a personal vehicle.

Submit Original form (BEFORE TRAVELING) with all required approvals to the Transportation Office, MSC 5401. Retain a photocopy in Department Office.

08/08
Driver Responsibilities

A. General Operation:
Operators should practice defensive driving by anticipating and observing the actions of other drivers and controlling the vehicle in a manner so as to avoid accidents. When operating the vehicle be aware that averting your eyes from the road may cause an accident. Use 'best judgment' when changing climate control settings, using the radio, or accessing other settings on the vehicle's dashboard. All state operators should perform a walk-around visual inspection of a state vehicle prior to moving. Smoking and the use of other tobacco products are prohibited in State vehicles.

B. Official Use Only:
Operators shall use fleet vehicles for official state business only. Operators guilty of misuse are subject to disciplinary action by their agency and may lose their privilege to operate a fleet vehicle. Vehicles are to be operated in a manner which avoids even the appearance of impropriety.

C. Relatives:
Family members of state employees are permitted to ride in fleet vehicles only when travel is directly related to official state business. Even then, state employees are encouraged to use personal vehicles. Transportation Officers should be consulted regarding agency-specific policies regarding this matter.

D. Hourly and Part-Time State Employees and Non-State Employees:
An agency may permit students, part-time or hourly employees, and volunteers to state service to operate or ride in fleet vehicles if on official business for the agency. Individuals not employed by the state may accompany state employees operating fleet vehicles when they have an interest in the purpose of the trip and their presence is directly related to official state business.

Non-state employees may be authorized to operate a fleet vehicle if they are performing a contracted function for the state and if such contract specifies that the state will provide such vehicle. Non-state employees, when authorized by the agency to operate a fleet vehicle, are subject to the same rules and regulations as state employees concerning the use and maintenance of the vehicle.

E. Hitchhikers and Pets:
Hitchhikers and pets are not allowed to ride in any State vehicle.

F. Cellular Phones or Handheld Devices
Cell phones, blackberries, smart-phones, or other electrical devices must be operated
via a hands-free device. Any other use such as text messaging or emailing is prohibited while the vehicle is in drive and/or in motion.

G. Eating
Eating food is prohibited while driving.

H. Compliance with Motor Vehicle Laws:
It is the responsibility of each individual operator to observe all motor vehicle laws of Virginia. Operators must not knowingly operate vehicles that do not comply with legal requirements.

It is the responsibility of each agency and institution to guarantee employees possess a valid driver's license prior to authorizing use of a fleet vehicle.

All violations and fines, including parking citations, are the responsibility of the assigned driver at the time of such violation. Abuse of motor vehicle laws by an operator may result in the loss of the privilege of a fleet vehicle.

I. Alcoholic Beverages and Drugs:
Under no circumstances may a customer operate a vehicle while under the influence of intoxicating beverages, drugs or other substances. Conviction of such offenses will result in the loss of the privilege of a state vehicle. No state vehicle may be used to transport alcoholic beverages unless it is operated by an employee of the Alcoholic Beverage Control Board or other law enforcement personnel in the performance of their official duties.

J. Parking and Storage of Fleet Vehicles:
Individuals and agencies are responsible for secure and safe storage and parking of vehicles. Fleet vehicles shall not be left on residential streets or highways overnight unless it is necessary due to mechanical failure or emergency, or if you have received approval from the Transportation Manager. When a fleet vehicle is parked on a municipal street it shall be the responsibility of the driver's agency to ensure payment of all parking fees and any parking fines assessed against the vehicle. The vehicle may be parked in a commercial or municipal parking facility provided the driver or the driver's agency pays parking fees. The assigned driver shall be responsible for towing fees resulting from improper parking.

K. Toll Charges:
Toll charges incurred during travel in a fleet vehicle are the responsibility of the operator and/or agency.

L. Out-of-State Travel:
Any use of a fleet vehicle outside of Virginia or the directly connected states should be discussed in advance with the Transportation Manager for verification of appropriate insurance coverage. The commercial credit card provided with each fleet vehicle is normally accepted nationwide for the procurement of fuel. Verify credit card acceptance with the commercial establishment prior to authorizing purchasing fuel.

**M. Driving Under Adverse Weather Conditions:**
Operators who drive a fleet vehicle during adverse weather conditions are cautioned to take extreme care to ensure the safety of driver and passengers. Repairs for any damage to the vehicles resulting from their operation during adverse weather conditions will be charged to the using agency if it is found damage was caused by the driver's negligence.

**N. Responsibility for Loss or Damage of Personal or Agency-Owned Property:**
James Madison University Transportation Department is not responsible or liable for loss or damage to any personal or agency-owned property or belongings transported or left in a vehicle issued by James Madison University Transportation Department. It is the responsibility of each operator to report vehicle defects to the Transportation Department.

**O. Loss of Fleet Vehicle Keys:**
James Madison University Transportation Department is not responsible for any costs associated with keys being lost, stolen or locked-in the vehicle. Any costs for duplicate keys, locksmith services, or damage to vehicle resulting from forced entry by any customer or associate shall be the responsibility of the agency assigned the vehicle. If locked out of the vehicle contact the Facilities Management Garage (540) 568-6364, Monday through Friday 6:30am - 4:00pm. On nights, weekends and holidays, call Campus Police (540) 568-6911.

**P. Seatbelts:**
Seatbelts must be used in accordance with state law. Customer is responsible for proper child seats in state vehicles.
Risk Management-Automobile Accident Procedures

The Commonwealth of Virginia's Risk Management Plan applies to any accident, regardless of damage or location, including private property, involving:

* A JMU driver, in a JMU owned vehicle is involved in an accident where a non-JMU owned vehicle or non-JMU owned property is damaged and/or there is physical injury involved.
* A JMU driver, while conducting official university business/travel, is involved in ANY accident involving a rental vehicle (even if no other vehicle is involved). This coverage would also include any damage, theft or breakdown of a vehicle rented by the university, which occurs while the vehicle is under our care.

Filing an Automobile Claim

The following instructions must be followed if a JMU driver in a state/university vehicle, or a vehicle rented by the university, is involved in ANY automobile accident (even single-car and even on private property), or if the vehicle becomes disabled (breaks down), has been stolen, or has become damaged in some other way:

1. First, the driver must notify the State police, cellular: emergency dial #77, if the accident, theft, breakdown or damage has occurred off-campus. If the accident, theft, breakdown or damage occurs on campus, contact Campus Police at 568-6911 or 568-6912.
2. The driver must avoid making any statements regarding who is or is not at fault in the accident.
3. The driver must secure a copy of the accident report from the officer at the scene. If it is not possible to secure a copy of the accident report at the scene make arrangement to acquire a copy and secure the following information:
   a. Investigating Law Enforcement Agency Name
   b. Investigating Law Enforcement Agency Phone Number
   c. Investigating Law Enforcement Agency Fax Number
   d. Investigating Officers Name and Unit Number
   e. Date and Time of Report
   f. CFS# (Call For Service) or Report Number
4. The driver must complete an Automobile Loss Notice
5. The driver of the JMU vehicle (or rental vehicle) involved in the accident must contact the Third Party Agent (TPA) designated by the Division of Risk Management to initiate a claim. The TPA is currently Capstone ISG (1-866-729-9655). Copies of the police report, the Auto Loss Notice form, and any other documentation or witness statements must be forwarded to the insurance agency as soon as possible. The driver should keep copies of all forms submitted for their personal records.
NOTE: It is the responsibility of the JMU driver involved to initiate contact with the TPA and collect and submit all required information in a timely manner.

6. The driver must report the accident to the JMU Risk Management office. If the vehicle involved in the accident was JMU owned, then the driver must also report the accident to the JMU Motor Pool. In addition, the driver must also forward copies of all forms and documents submitted on the claim to the JMU Risk Management office in the event the TPA asks for assistance with the claim.
   a. JMU Risk Management office contact information:
      Telephone (540) 568-6495
      Fax (540) 568-2878
   b. JMU Motor Pool contact information:
      Telephone (540) 568-8147
      Fax (540) 568-3168

7. The driver involved in the accident/damage and the university itself will both be required to assist fully in any further investigation or inquiry involved in the claim.

Contact Paula Miller at (540) 568-6495 or for additional information, JMU Public Safety at (540) 568-6912.
