Impressive and Exceptionally Smart

Dell Latitude notebooks meet the wide-ranging needs of a large academic environment – needs that include powerful performance, portability, and flexibility. Commonality of components, modules and docking solutions are designed to help lower total cost of ownership.

Dell Latitude prototypes are subjected to incredibly rigorous stress-testing before they are approved for production. Every model undergoes shock and fatigue tests in conditions worse than those they are likely to encounter under normal use. These tests, along with tough new magnesium alloy chassis and patented Strike Zone technology, mean that your new Latitude is designed to withstand almost anything that might happen to it in the course of a day. You can be sure you are getting a quality notebook, and that makes good business/academic sense.

Each Latitude D630 & D830 includes:
- Accupoint and Touchpad
- Internal Gigabit Ethernet
- Internal 56K Modem
- Internal Dell Wireless Card 802.11a,g
- AC Power Adapter

Our Price: $1,293.00 | Dell Small Business: $1,489.00
