

BEST VALUE

The JMU Bookstore Computer Program offers the best value in Dell and Apple computer systems for JMU students. We offer reliable, full-featured computers with enough power to last all four years at prices up to 20% less than the manufacturers' standard retail prices. We work closely with JMU's Information Technology staff to ensure our computers have the right components and warranty to receive the highest level of on-campus support. We also work with the individual colleges to make sure our computer configurations meet or exceed their recommendations. Other stores may advertise lower prices, but once you upgrade their computers to match ours you'll probably pay more for a less reliable computer with limited on-campus support.

TO MEET JMU IT SYSTEM RECOMMENDATIONS	JMU BOOKSTORE	DELL ONLINE	OTHER RETAIL
OPERATING SYSTEM SUPPORT (WINDOWS XP PRO, APPLE OS X)	INCLUDED	UPGRADE \$70 - \$80	UPGRADE \$100 - \$200
