Department of Early, Elementary and Reading Education
Dr. Martha Ross, Head
Phone: (540) 568-3473
Location: Memorial Hall, Room 3100
E-mail: rossmk@jmu.edu
Web site: http://welcome.coe.jmu.edu/earlyed/

Professors
T. Harris, G. Ivey, D. Martin, M. Ross

Associate Professors
M. Baker, D. Carrington, G. Font, M. Hughes, J. Kindig, D. Sluss

Assistant Professors
N. Brubaker, J. Ohn, A. Papero, H. Pence, P. Sullivan

Instructors
S. Barnes, S. Hutchinson

Early Childhood Education
PreKindergarten Through Third Grade
Bachelor’s Level Licensure Program
The early childhood program draws heavily from research and theories in child development and teaching and learning. Through course work and extensive field experiences, the teacher candidate is prepared to design activities that have an interdisciplinary focus, reflect an understanding of the individual child’s development and learning and support the young child in constructing knowledge about self and the world.

The JMU program prepares teachers for grades PreK-3 and is based on the following three assumptions:

- Classroom teachers must have a strong liberal education.
- Classroom teachers should possess a broad range of knowledge that provides a context for understanding individual behavior and major social issues in a modern democratic and technological society.
- Classroom teachers must have professional preparation that develops critical thinking and problem-solving skills to become educational decision makers who consciously choose appropriate curriculum based on an understanding of how children develop and learn.

The courses in the Early Childhood Education program are sequentially organized throughout four semesters to help candidates develop an understanding of how children learn and interact in classroom settings as well as a familiarity with methods and materials appropriate for teaching. Field experiences are provided along with course work to enable candidates to apply their knowledge in a variety of classroom settings. Candidates must be accepted in teacher education and have passed Praxis I to begin ECED course work.

Assessment occurs each semester and performance will be reviewed at each assessment gate and candidates must demonstrate satisfactory performance before moving on to the next semester. Satisfactory performance includes a “C” or better in course work, demonstration of professional behaviors, acceptable performance in practicums and on key assessments.

To be recommended for licensure in PreK-3, candidates must satisfy the following requirements:

- complete the General Education and degree requirements of the university.
- complete a major in IDLS.
- meet all admission and retention requirements for teacher education and the ECED program.
- complete the 28 credit hour pre-professional program.
- complete student teaching and ECED 481.

Candidates in this program must meet with the head of the EER department, declare the pre-professional licensure program in early childhood education, be assigned a date to start the program, and be assigned an adviser in early childhood education in addition to their first year or major adviser. A limited number of candidates can start the program each semester; therefore, candidates should meet with department head during their first semester of enrollment at JMU.

The IDLS major is assigned two advisers. One adviser is the adviser for the education pre-professional licensure program who will guide the student through the licensure program requirements. The other adviser is the IDLS adviser who will guide the student through the IDLS major requirements. Students should plan on consulting both advisers regularly. Typically, the education adviser is assigned when the student meets with the head of his or her licensure program and elects the licensure program. This may be as early as the first semester of the first year. The IDLS adviser is assigned when the first year student advising folders are transferred to the IDLS office (second semester, first year). Students are required to check with advisers regularly to ensure timely graduation.
Student Teaching
Candidates must apply to student teach one year prior to their student teaching semester. At that time, students must be fully accepted into teacher education, and have completed EDUC 360 and all early childhood course work with a 2.5 better in education course work. Students in the early childhood program must also register for ECED 481, Fieldwork in Family and Community during their student teaching semester.

Degree and Major Requirements
General Education requirements1 41
Interdisciplinary Liberal Studies Major 39
Early Childhood Licensure Pre-professional Course Work 28
Student Teaching and Seminar 18
1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

Recommended Schedule for Early Childhood Education
The following program sample is intended as a guide for students planning to complete the pre-professional licensure program in early childhood education. Individual student's enrollment and progress in the program will be influenced by the major and the availability of space and student teaching placements. Students must complete a program plan with both the major adviser and the education adviser to ensure that individual course prerequisites are met.

Students should take General Education and core requirements courses during their first and second years.

Pre-Professional Licensure Courses
Third Year
EDUC 360. Foundation of American Education 3
ECED 371. Practicum in Early Childhood Education 1
ECED 372. Introduction to Early Childhood Education 3
ECED 441. Practicum in Child Development 1
ECED 442. Child Development 3
READ 366. Early Literacy Development and Acquisition 3
ECED 401D. Diversity and Differentiation 3
ECED 412. Science and Social Studies for the Young Child 3
ECED 443. Practicum in Primary Grades 1
Major requirements 12
126
Fourth Year
ECED 444. Children and Math 3
ECED 461. Practicum in Curriculum 3
READ 436. Literacy Learning in the Elementary Grades 3
Major requirements 6
15
Student Teaching
ECED 480K. Student Teaching (kindergarten) 8
ECED 480P. Student Teaching (primary) 8
ECED 481. Fieldwork in Families and Communities 2
Major requirements 6

Elementary Education
PreKindergarten Through Sixth Grade Master’s Level Licensure Program
The Elementary Education Master of Arts in Teaching Program prepares candidates to teach students in grades PreK-6. Drawn from research and theories in child development, teaching, and learning, the course work and field experiences prepare teacher candidates to employ an interdisciplinary approach to instruction that reflects an understanding of the diverse nature of learners and their families.

The JMU elementary program seeks to foster in its candidates an empathic understanding of the ways that children are affected by social contexts and by the children's own abilities/disabilities; the knowledge and pedagogical skills to support each child's right to success; and belief in the value of each child. Our candidates are guided in:

- critically challenging conventional wisdom and common practices to identify hidden assumptions and activities that constrain or privilege some at the expense of others;
- learning to ask questions and developing an inquiring approach motivated by the desire to understand the world in its myriad complexities;
- reflecting deeply on and constructing positive relationships with others;
- expressing knowledge, skills, and attitudes in ways that communicate with others and provide a forum for the creative and academic expression of profession and the self;
- developing an appreciation for the global connection of all humanity and our interdependence on the finite, natural resources of the earth;
- experiencing life among people whose social contexts are unlike the candidates' own to broaden and deepen respect for and sensitivity to various cultures and social contexts; and
- knowing and appreciating the process of human unfolding throughout the cycles of life from conception onward, particularly throughout the period of childhood.

The courses in the Elementary Education program are sequentially organized throughout the junior and senior years, and continue in the graduate program. Field experiences are provided along with course work to enable candidates to apply their knowledge in a variety of settings. Candidates must be accepted in teacher education and have passed Praxis I to begin the ELED course work.
Assessment occurs each semester and performance will be reviewed at the end of each semester. Candidates must demonstrate satisfactory performance before moving on to the next semester. Satisfactory performance includes a 2.5 or better in education course work, demonstration of professional behaviors, acceptable performance in practicums and on key assessments. Candidates in this program must meet with the Head of the Department of Early, Elementary and Reading Education to declare the minor in elementary education, be assigned a date to start the program and be assigned an adviser in elementary education. A limited number of candidates can start the program each semester, therefore, candidates should meet with the department head during their first semester of enrollment at JMU.

Degree and Major Requirements
Candidates in the Elementary Education program will complete the IDLS major or equivalent and the pre-professional undergraduate courses and be accepted for graduate study. The program of study for elementary education is as follows:

<table>
