The minor is designed for students interested in the field of historical archaeology, a discipline that integrates the research interests and methods of archaeology and history. The minor is designed to complement existing majors in anthropology and history, and it may also be of interest to students in art history and public administration. While guided by the theoretical underpinnings of history and

anthropology, the minor in historical archaeology is highly field and research oriented. Students enrolling in the program should anticipate courses that require significant effort outside of the classroom.

The minor is a minimum of 22 credit hours. Two courses (six credits) may be double counted between the minor and the student's major.

Required Courses	Credit Hours
ANTH/HIST 331. Historical Archaeology	3
ANTH 494. Field Techniques in Archaeology	4
HIST 396. Introduction to Public History	3
Capstone research course <sup>1</sup>	3
ANTH/HIST 496. Research Thesis	
Choose three of the following:	9
Of these, one course must be chosen from the history/anthropology options and one must be from the geology and geography options. <sup>2</sup>	
ANTH 455. Archaeology: Methods of Analysis and Interpretation	
HIST 492. American Material Culture	
HIST 493. Historic Preservation	
HIST 494. Introduction to Museum Work	
GEOL 340. Soils and Land Use	
GEOG 366. Geographic Information Systems

<sup>1</sup> The personalized capstone course can take place over one or two semesters and will require the student to work closely with a faculty adviser. The project will require the student to define a research topic, establish a theoretical and methodological base for the project, gather data, interpret the results, and prepare an appropriate statement of findings.

<sup>2</sup> Access to the geology and geography courses will be competitive and will require some computer experience.

## Human Science

The Human Science minor is a multidisciplinary program that brings together elements of biology, anthropology and psychology to understand our species, *Homo sapiens*, as a complex biological and social organism. Goals for the students in this minor are twofold: (1) Through a set of basic core courses in the three disciplines students will gain a multidisciplinary, scientific understanding of human beings; and (2) Students will then pursue their own interests in human science through elective courses in three disciplines.

The human science minor is appropriate for students whose career goals would be enhanced by a program that focuses on the scientific, multidisciplinary study of humans. Such careers include the health-oriented professions, law, government, public policy and academic study in the humanities, and social and life sciences. Furthermore, graduates of the human science minor will be taught to think synthetically across the natural and social sciences, and thus will be better prepared to grapple with the complex problems of the 21<sup>st</sup> century. Consequently, they will be well situated to take advantage of the rapidly developing and diverse career opportunities of the coming years and decades.

The human science minor requires 24 credits hours: 15 hours of required courses and another 9 hours of electives.

Required Courses (15 credit hours)	
GANTH 196. Biological Anthropology	3
GPSYC 101. General Psychology	3
BIO 270. Human Physiology	
or BIO 370. Animal Physiology	4
BIO 290. Human Anatomy	4
HSC 400. Human Science Seminar	1

Note: HSC 400 may only be taken after all other minor courses, including electives, are completed.
