Professors

Associate Professors
J. Dyche, J. Irons, N. Lawrence, M. Reis-Bergan, B. Saville, T. Zinn

Assistant Professors

Lecturer
K. DuVall

Mission Statement
The mission of the Department of Psychology is to educate students in, and contribute to, the science of psychology.

Goals
The vision of the Department of Psychology is to sustain and advance a nationally recognized department focused on promoting scientific proficiency within the interdisciplinary field of psychology. To that end, the curriculum is designed to provide students with a strong foundation in psychological science that reflects multiple perspectives within the discipline. The hallmarks of our program are learning opportunities that promote the skills necessary to conduct and evaluate research and to interpret findings. The department trains our students to be responsive to emerging trends and apply their knowledge of psychological science as responsible global citizens.

The Department of Psychology is a dynamic contributor to the General Education program and the university community through the delivery of high quality courses and other educational experiences emphasizing psychological science. We also contribute to the M.A. program in psychological science. Our faculty strive to create and implement creative and effective pedagogy, embracing the dual role of teacher/scholar. The department will foster a collegial and collaborative environment within which divergent opinions as well as cultural diversity are respected, valued and promoted.

Co-curricular Activities and Organizations
- Psychology Club. This club is open to all students with an interest in psychology.
- ABPsi. The JMU student circle of the Association of Black Psychologists is open to all students interested in promoting the field of psychology among all people.
- Psi Chi. The local chapter of the national honor society in psychology is open to students with a strong interest in psychology and an exceptional academic record.
- Peer Advising. These students serve as peer-consultants to psychology majors and minors. Students are trained during their junior year and serve as advisers during their senior year.
- Active Minds. This organization promotes mental health, awareness and education and works to reduce the stigma of mental illness.

Special Admission Requirements
Students interested in completing the intermediate and advanced courses required for the psychology major must meet the department’s progression standards and be fully admitted to the major.

Students who meet all of the following criteria will be allowed to change their status from declared to fully admitted and will be permitted to make progress in the psychology major beyond a few preliminary courses. Equivalent courses completed at another university for which the student has earned JMU approved transfer credit are acceptable.

- Complete PSYC 101. General Psychology, with a grade of "C-" or better.
- Complete MATH 220, MATH 205, MATH 231, MATH 235 or another acceptable math course (http://psyc.jmu.edu/ug/mathchart.html) with a grade of "C-" or better.
- Complete any of the following:
  - Earn a grade of "B" or better in PSYC 101 taken at JMU.
  - Complete any PSYC course at JMU and earn a 3.00 grade average in the course
  - Complete at least 15 credits at JMU and earn an overall cumulative GPA of 3.00 or better
  - At the time of admission to JMU, be a student who is transferring at least 30 credits including the prerequisite courses (general psychology and math) or general psychology and either psychological statistics or research methods in psychology.
- Complete an online orientation and application, available from the Department of Psychology website.

New transfer students who have earned at least 30 JMU approved transfer credits including the prerequisite courses in general psychology and math (statistics or calculus) or general psychology and either psychological statistics or research methods in psychology are automatically admitted to the major.

Students should apply for full admission to the major when they make the decision to pursue a psychology degree. Admission decisions are made at the end of each semester and during the summer. Students not admitted to the major may reapply the following semester.
Retention
All psychology courses taken must carry a grade of “C-” or better to apply to the major. A psychology course completed with a grade of “D” may be credited toward graduation requirements but may not be included in courses credited toward the psychology major.

Prerequisites
Psychology majors must complete G PSYC 101 and two statistics and research methodology courses (PSYC 210-211 or PSYC 212-213) before enrolling in courses numbered 330 and above. The prerequisite for PSYC 210 and PSYC 212 is any mathematics course numbered 205 or above. Most psychology courses numbered 330 and above have specific prerequisites. See course listings for details. Non-psychology students may enroll in the 300 and 400-level courses only if they have fulfilled course prerequisites.

Registration and Assessment
During registration, psychology majors will be given priority for course selection. Graduating majors must participate in assessment activities. Assessment information helps the faculty modify the psychology curriculum to meet student needs.

Degree and Major Requirements
Bachelor of Arts in Psychology
Degree Requirements
Required Courses
General Education 1 41
Foreign Language classes (intermediate level required) 0-14
Philosophy course(s) (in addition to General Education courses) 3
Major requirements (listed below) 44
Electives 18-32 120

Major Requirements 2
The courses listed below are required of all students pursuing a Bachelor of Arts degree, or any other bachelor’s degree program except Bachelor of Science, regardless of whether psychology is their first or second major.

Major Requirements – B.A.  Credit Hours
G PSYC 101. General Psychology 3
Methodology Core 3
(choose one of the following sequences):
PSYC 210. Psychological Measurement and Statistics and PSYC 211. Psychological Research Methods
PSYC 212. Psychological Research Design and Data Analysis I and PSYC 213. Psychological Research Design and Data Analysis II
SS Content Core – Psychology as a Social Science 9
(choose at least three of the following):
PSYC 330. Psychology of Personality
PSYC 335. Abnormal Psychology
PSYC 345. Social Psychology
PSYC 365. Developmental Psychology
NS Content Core – Psychology as a Natural Science 9
(choose at least three of the following):
PSYC 375. Sensation and Perception
PSYC 382. Cognitive Psychology
PSYC 385. Biopsychology
PSYC 390. Psychology of Learning
PSYC 395. Comparative Animal Behavior
Upper Level Specialty Content Courses 3
(choose at least one of the following):
PSYC 400. Advanced Topics
PSYC 410. Industrial/Organizational Psychology
PSYC 412. Psychology of Motivation
PSYC 420. Advanced Psychological Statistics
PSYC 425. School Psychology
PSYC 427. Tests and Measurement
PSYC 428. Educational Psychology
PSYC 430. Clinical Psychology
PSYC 435. Community Psychology
PSYC 440. Counseling Psychology
PSYC 450. Child Abuse and Neglect
PSYC 452. Child Psychopathology
PSYC 460. Community Psychology within Developing Societies 5
PSYC 465. Black/African Psychology 5
PSYC 475. Psychology of Adulthood
PSYC 480. Applied Behavior Analysis

Psychology electives (at least three hours of these electives must be at the 400 level) 9

Capstone course 6
(choose one of the following):
PSYC 492. History of Psychology
PSYC 493. Laboratory in Psychology
PSYC 495. Field Placement in Psychology
PSYC 497. Senior Seminar in Psychology
PSYC 499. Honors Thesis

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 All psychology majors are required to complete at least one course that satisfies our sociocultural awareness requirement. Courses that meet this requirement appear in various sectors of the curriculum and can be used to meet other major requirements.
3 PSYC 210 and PSYC 211 are offered every semester; PSYC 212 is offered only during the fall semester; PSYC 213 is offered only during the spring semester.
4 Some sections of this course may meet the sociocultural awareness requirement depending on the content; when this course does meet the requirement it will be listed in the notes section of the course listing in MyMadison.
5 Course meets sociocultural awareness requirement.
6 Prior approval is required for students to enroll in more than one Psychology capstone course.

2 All psychology majors are required to complete at least one course that satisfies our sociocultural awareness requirement. Courses that meet this requirement appear in various sectors of the curriculum and can be used to meet other major requirements.
3 Some sections of this course may meet the sociocultural awareness requirement depending on the content; when this course does meet the requirement, it will be listed in the notes section of the course listing in MyMadison.
4 Some sections of this course may meet the sociocultural awareness requirement depending on the content; when this course does meet the requirement, it will be listed in the notes section of the course listing in MyMadison.
5 Course meets sociocultural awareness requirement.
6 Prior approval is required for students to enroll in more than one capstone course.

Concentration

Behavior Analysis Concentration

This concentration prepares students for employment with agencies that provide behavior analytic services and/or for pursuing a graduate degree in behavior analysis. This course sequence includes the course work requirements necessary to sit for the Board Certified Associate Behavior Analyst (BCABA®) national certification examination.

With the assistance of their faculty advisers, students majoring in psychology select their area courses and psychology electives to meet their own individual needs and goals. Within the structure of the program, students may choose the courses of greatest interest to them.
Recommended Schedule for Majors
The following program sample is intended as a guide. Courses must be taken in the sequence outlined; however, the semester during which a particular course is taken depends on a number of factors, including readiness to take MATH 220, the semester the psychology major is started and other majors or minors the student is completing.

Students are encouraged to meet regularly with their psychology academic adviser to plan their personal course schedule. Because of course sequencing requirements, even with the most compressed program, a minimum of five semesters (or four semesters and summer school) is required to complete the psychology major.

First Year
First Semester
- MATH 220. Elementary Statistics 1 3
- PSYC 101. General Psychology 3
- General Education courses 9
- Total Credit Hours 15

Second Semester
- General Education, B.A./B.S. degree requirement, B.S. Psychology Cognate, and/or minor program courses
- Total Credit Hours 15

Second Year
First Semester
- PSYC 210. Psychological Measurement and Statistics or PSYC 212. Psychological Research Design and Data Analysis I 2
- General Education, B.A./B.S. degree requirement, B.S. Psychology Cognate, minor program, and/or psychology elective courses
- Total Credit Hours 12

Second Semester
- PSYC 211. Psychological Research Methods 3 or 4
- PSYC 213. Psychological Research Design and Data Analysis II 4
- General Education, B.A./B.S. degree requirement, B.S. Psychology Cognate, minor program, and/or psychology elective courses
- Total Credit Hours 12

Third Year
Courses
- SS content core courses
- NS content core courses
- Minor program courses or electives
- Total Credit Hours 30

Fourth Year
Courses
- Psychology Upper level Specialty Content Course
- Psychology 400 level elective
- Psychology capstone course
- Psychology, minor program or elective courses
- Total Credit Hours 21

1 A preliminary math course may be suggested after placement examinations. If suggested, the preliminary course should be taken first semester and MATH 220 second semester. Other 200-level mathematics courses may be substituted for MATH 220. Any MATH course numbered 205 or above is an acceptable prerequisite for the psychology major.
2 Any MATH course numbered 205 or above is a prerequisite for PSYC 210 and PSYC 212. MATH 220 is recommended.
3 PSYC 210 is a prerequisite for PSYC 211.
4 PSYC 212 is a prerequisite for PSYC 213.

Recommended Courses
The following courses are recommended for all psychology majors especially those who plan to pursue advanced study at the graduate level after earning their bachelor’s degrees.

- Participate in experiential learning, such as:
  - PSYC 290. Directed Studies in Psychology
  - PSYC 402. Independent Study in Psychology
  - PSYC 405. Field Placement in Psychology

- Taking an advanced statistics courses is highly recommended. Consider the following:
  - MATH 280. SAS Programming and Data Management.
  - MATH 321. Analysis of Variance and Experimental Design
  - MATH 322. Applied Linear Regression
  - MATH 324. Applied Nonparametric Statistics
  - MATH 325. Survey of Sampling Methods
  - MATH 327. Categorical Data Analysis

- A minor or a selection of courses from other departments that complements the psychology major for the professional field you are pursuing might be very helpful. Discuss your professional goals with your faculty adviser and ask for recommendations. Consider taking courses that emphasize writing skills, quantitative skills, critical thinking and analysis, and/or oral communication.

Students should discuss their career aspirations with their academic adviser throughout their academic program. Students interested in applying to graduate school should discuss the necessary preparation with their adviser early in their academic program. Students are encouraged to visit the department’s Peer Advising Office in Miller Hall where materials are available about career and graduate school opportunities.

Other Psychology Programs
Graduate Programs
The Department of Graduate Psychology at James Madison University offers the following graduate degree programs:

Master of Arts
- Clinical Mental Health Counseling
- Psychological Sciences
- School Psychology

Master of Education
- School Counseling
- College Student Personnel Administration

Educational Specialist
- Counseling Psychology
- School Psychology

Doctor of Philosophy
- Assessment and Measurement
- Combined/Integrated Program in Clinical and School Psychology
- Counseling and Supervision

Additional information about these programs, including admission requirements and procedures, is available at http://psyc.jmu.edu/gradpsyc.
