Call for Papers

Issue 21.1

Articles due 1 October 2016
Publication: March 2017

The Journal invites government bodies, nongovernmental organizations, military personnel, researchers, academics and industry experts to contribute their articles or case studies. We are actively looking for theoretical and practice-based non-promotional contributions.

Spotlight

East Africa

What CWD programs are currently operating in the East African countries of Eritrea, Ethiopia, Mozambique, Kenya, Somalia, Zambia, and Zimbabwe. How does the presence of non-state actors such as Al Shabaab and Al Qaeda affect the security situation for organizations on the ground?

Feature

Improvised Explosive Devices (IED) & Pressure Plate IEDs

As the number one cause of military casualties, IEDs are now also becoming one of the greatest threats to civilians. How are traditional humanitarian conventional weapons destruction (CWD) programs dealing with the increasing prevalence of improvised explosive devices (IED) and pressure plate IEDs? What is the nexus between traditional CWD programs and military counter-IED programs? What can organizations learn from the military’s experience with these weapons?

Special Report

Bosnia and Herzegovina 20 Years On

Following the end of the Bosnian War in December 1995 and the Balkan floods of May 2014, Bosnia and Herzegovina continues to suffer from landmines and explosive remnants of war (ERW) contamination. The Journal is seeking articles on lessons learned and remaining challenges for ongoing programs in the region.

In Every Issue

Field Notes: This section of The Journal features articles, case studies, and experiences by practitioners and subject-matter experts. Field Notes accepts articles on a variety of subjects on a rolling basis.

Research and Development: This is a peer-reviewed technical section of The Journal. Scientific and technical articles on current trends and developments in the field of mine action and conventional weapons destruction will be considered on a rolling basis.
