Call For Papers: RESEARCH AND DEVELOPMENT

The Journal of ERW and Mine Action, published three times a year, seeks articles for its peer-reviewed Research and Development (R&D) section. All technical articles on current trends and developments in the field of mine action and conventional weapons destruction will be considered.

Topics include, but are not limited to, the testing of new technologies or methodologies related to:

- Detection and neutralization of landmines, ERW, ordnance and IEDs
- Demining toolbox, including manual or mechanical equipment
- Data fusion and information technology
- Biosensors (animals, plants, etc.)
- GIS, mapping and terrain analysis
- Stockpile storage and destruction

R&D articles normally follow scientific methods and present testing methodology and results for new technologies or procedures. Informational pieces describing new products must include data from testing or field use. Overly promotional articles are not accepted.

PEER REVIEW

R&D articles are submitted to three experts for anonymous peer review. Two of the three reviewers must approve the article for publication. Reviewers may approve publication, suggest revisions before publication or reject the article for publication. Reviewer comments are passed anonymously to authors. Results of the review process are typically available one month after article submission.

DEADLINE

As the R&D section is an essential part of every issue of The Journal, R&D articles are accepted on a rolling basis. Deadlines for upcoming issues can be read here: http://jmu.edu/cisr/journal/cfps.shtml. As the review process is extensive, please submit your article as early as possible.

SUBMISSION GUIDELINES

ARTICLE LENGTH: 1,000–3,000 words

GRAPHICS/PHOTOS: Photo file size should be at least 500 KB. Submit all graphics by email. When submitting images, you are giving The Journal permission to use the images, with proper credit, in any media or publication under CISR’s control.

CONTACT INFORMATION/BIOGRAPHY: Articles should contain each author’s name and full contact information at the end of the article (i.e., phone, email and mailing address). Please include a headshot photo and bio (up to 60 words) of each author. Consider including credentials, books authored and other biographical information.

SUBMIT ALL MATERIALS TO:
Editor-in-Chief, The Journal of ERW and Mine Action Center for International Stabilization and Recovery James Madison University, 800 S. Main Street, MSC 4902 Harrisonburg, VA 22807 / USA Phone: +1 540 568 2503 Email: cisreditor@gmail.com or crawf2lc@jmu.edu Website: http://jmu.edu/cisr
