Theme for 2010: *What can you do to change the environment for the better?*
The Gandhi Center seeks to advance the understanding of, appreciation for, and practice of nonviolence in all of its forms. One way to better appreciate the concept of nonviolence is to be more aware of the world around us, either through politics, the economy, social and cultural trends, or the environment. For the Drawing Peace Contest this year, the Mahatma Gandhi Center for Global Nonviolence has decided to focus on the effect of youth on present and future environmental issues.
