Mission Statement
The School of Music mentors students in a community that supports and promotes music and musicians. Specifically, the school’s mission is to:

- Select undergraduate and graduate majors and minors who have demonstrated a commitment to developing their musical skills and talents.
- Motivate music enthusiasts to explore musical concepts by exposing them to and including them in music performance, composition and education.
- Foster a sense of community that encourages intellectual curiosity, creative endeavor, cultural diversity and respect for various perspectives.
- Encourage excellence from faculty members as educators, researchers, performers, clinicians and supporters so that they develop students into motivated, competent professionals and outstanding world citizens.
- Provide music majors and non-music majors with knowledge of music and develop appropriate skill levels and musicianship.
- Offer curricula that prepare students to be professionals in music performance, composition, education or industry.
- Broaden students’ understanding of music through innovative teaching, creative experiences and scholarly research.
- Provide a wide variety of cultural events for the JMU and Shenandoah Valley communities.
- Expose students to current technology employed in the music field, such as computers, music instruction software, electronic devices and advanced audio and visual equipment.
- Prepare D.M.A. students to teach, at the college level, not just in their principal areas, but also in many of the core curriculum classes, such as theory, music history, and music appreciation.

The School of Music is an accredited institutional member of the National Association of Schools of Music.

Master of Music

Admission Criteria and Degree Requirements
A student entering a graduate degree program in music is expected to have completed an undergraduate degree with a major in music or its equivalent and have a grade point average of 3.0 or better in music studies.

In addition to The Graduate School requirements, the School of Music administers its own diagnostic examinations in written theory, ear training and music literature prior to the student’s first semester. The school also requires successful completion of any deficiencies by the time 18 credit hours of study have been completed.
In addition to these general requirements, conducting majors must pass examinations in conducting, and those in choral conducting must pass tests in sight singing, keyboard skills and language diction. The faculty/student ratio also allows for a close relationship and provides the opportunity for individualized instruction in many areas.

The School of Music offers a Master of Music degree with concentration options in conducting, music education, performance and composition. The program seeks to provide an opportunity for the highest level of musical development and professional training for each student, appropriate for careers in teaching, performance and composition of music. Conducting majors will undertake a comprehensive study of the literature of their medium, develop advanced insights into the musical ideas and structure of the major works, and refine their conducting and rehearsal skills.

Performance majors will specialize in activities that develop the technical mastery and musical maturity essential to the art of making music involving their chosen instrument or voice. Student composers will immerse themselves in the techniques and aesthetics of musical creation and will become aware, through intensive examination, of the music and musical thought of all style periods, especially that of the present and immediate past. Music education students will examine the foundations and principles underlying the practices of their profession and will develop both scholarly and technical abilities essential to a continuing development as effective teachers and leaders.

All concentrations in the Master of Music degree program must complete a minimum requirement of 32 hours of graduate credit (30 hours in the music education concentration). In addition to opportunities to broaden and improve skills through music electives, music education majors have the option to pursue courses selected from programs in elementary, secondary or higher education. Graduate students who major in non-music programs may elect the graduate music minor, earning a minimum of 12 hours of graduate credit in courses approved by the music school’s coordinator of graduate studies.

As per JMU graduate school requirements, successful completion of the Master of Music degree includes an oral comprehensive examination to be arranged at a date convenient for the master’s candidate, adviser and comprehensive committee.

Students electing to minor in music are expected to have completed an undergraduate minor in music or must demonstrate acceptable competencies or skills appropriate to an undergraduate minor at JMU.

Post-baccalaureate, post-master’s and other qualified students may enroll in certain courses on a limited basis. For details concerning requirements and deadlines, contact the director of graduate studies for the School of Music.

**Assistantships**

Teaching and non-teaching graduate assistantships in music are awarded each year on a competitive basis. Specific assignments in applied music, ensembles, music education, theory and literature, accompanying, and administration are based on students’ qualifications and the School of Music’s needs. In addition to an attractive stipend, all assistantships include tuition scholarship for nine graduate credit hours during each fall and spring semester. For more detailed information, procedures for application and deadlines, contact the director of graduate studies for the School of Music.

**Objectives**

Students graduating from the M.M. program (with concentrations in Composition, Conducting, Music Education, and Performance) will be able to:

**Composition:**
1. formulate a personal creative style of composition.
2. demonstrate the fundamental concepts of form, harmony, counterpoint and orchestration.
3. differentiate and apply the techniques and aesthetics of musical creation.
4. apply the core principles of effective research as scholars and composers.

**Conducting:**
1. demonstrate application of physical conducting skills and rehearsal techniques through the performance of advanced repertoire in the student’s area of specialization.
2. formulate advanced insights into the artistic and formal structure of music through score study in the student’s area of specialization.
3. describe the musical and formal elements of the major literature in the student’s area of specialization (vocal/choral or instrumental).
4. apply the core principles of effective research as scholars and conductors.

**Music Education:**
1. communicate effectively both verbally and in writing.
2. articulate, critique, and synthesize the foundations and principles of music education.
3. demonstrate advanced methodologies in the student’s area of specialization.
4. apply the core principles of effective research as scholars and practitioners.

**Music Performance:**
1. demonstrate application of musical and technical mastery in the student’s area of specialization (instrumental or voice).
2. identify and describe the standard solo, chamber, and ensemble repertoire in the student’s area of specialization.
3. apply the core principles of effective research as scholars and performers.
Master of Music Curriculum

The courses in each Master of Music degree concentration are to be distributed among courses in the major area, cognate courses in music, approved electives and a significant major project.

Concentration projects are:
- Conducting – a lecture recital
- Music education – a thesis, document or research project in MUED 691
- Performance – a recital or lecture recital
- Composition – a composition project

All entering students who apply for admission to the Master of Music degree program are required to complete a core curriculum comprised of 10-11 credits which will serve as a basis for designing their programs of study. The core curriculum is composed of the following: MUS 600, Research Methods (three credits); specified literature courses (six credits for conducting students, three for all others - choice to be governed in part by placement examination); a theory course designated for the particular concentration (two-three credits); and MUAP, applied study or ensembles (two credits minimum).

All students are expected to complete the core curriculum at the earliest opportunity, in a sequence approved by their adviser.

Prior to the end of the first semester, or after completion of nine hours of credit in the Master of Music program, students will submit a program of study form to the graduate coordinator upon approval by their adviser.

At least one-third of the required credits in a program must be earned in the area of concentration. At least one-half (15-16 credits) of the required total credits must include courses from the 600 level and above. No more than six credits in workshops (501) may be used to meet minimum requirements for the degree.

Comprehensive Final Examination

Each student in the Singing Health Emphasis must successfully pass a written and oral practical examination administered by the Singing Health Specialist Coordinating Committee. This final examination is in addition to the comprehensive examination for the M.M. in Vocal Performance.

Doctor of Musical Arts

The Doctor of Musical Arts (D.M.A.) degree program is the most advanced course of study offered in the School of Music at James Madison University. The program has been designed to make graduates more marketable in higher education by emphasizing pedagogy and literature along with advanced performance or conducting skills. The program seeks candidates who have the potential to pursue the highest level of achievement in conducting/performance and teaching.

The degree requires completion of a minimum of ninety (90) credit hours, including 18 hours of applied instruction plus 6 elective credits; 22 hours of literature, analysis and topical Seminars; 18 hours of recitals, documents and research methods; 6 hours of pedagogy and 20 hours of area-specific courses.

During the degree program, exceptionally qualified students may earn up to 30 credit hours by examination and/or transfer. After completion of all course work and three recitals, D.M.A. students must pass comprehensive written and oral examinations.

Doctor of Musical Arts Admissions Requirements

- The Graduate School Application, available online
- D.M.A. Program Application (part of The Graduate School application)
- Official transcripts of all undergraduate and graduate course work
- Written statement of future goals (professional and educational)
- Curriculum vitae (C.V.)
- Three current letters of recommendation from professors, employers and other professionals qualified to judge the applicant’s ability to complete doctoral studies
- A live audition (or a high-quality audio/video recording for conditional admission)

Additional Requirements for International Applicants

- TOEFL of at least 550 (written test) ^
- A financial statement prior to application

^ See the Office of International Programs website for other requirements and information for international students.
Assistantships

Financial Aid is administered by the Office of Financial Aid and Scholarships in Warren Hall. The chief source of aid for graduate study is through assistantships awarded by the school. Teaching assistantships are awarded each year on a competitive basis. In keeping with the pedagogical nature of the D.M.A. degree at James Madison University, all doctoral assistantships will include a variety of supervised teaching experiences: assisting professors in classes and/or being responsible for teaching a class, teaching applied lessons (for performers), and conducting ensembles (for conductors). In addition to a stipend, assistantships include a tuition award. Approximately seven doctoral teaching assistantships per year will be offered on a competitive basis.

Entrance Examinations

Prior to the first week of classes, all applicants must take JMU School of Music diagnostic examinations in music history, written theory and ear training. The results are used for placement and advising. Applicants for assistantships in areas related directly to these examinations may be required to take them before assistantships are granted.

Objectives

Students graduating from the D.M.A. program (with Concentrations in Performance, Pedagogy and Literature or Conducting, Pedagogy and Literature) will be able to:

Performance, Pedagogy and Literature:
1. demonstrate application of musical and technical mastery through the performance of advanced repertoire in the student’s area of specialization (instrumental or voice).
2. create and deliver effective pedagogical instruction.
3. analyze the standard solo, chamber and ensemble repertoire in the student’s area of specialization (instrumental or voice).
4. communicate effectively about music through a) writing and b) speaking.

Conducting, Pedagogy and Literature:
1. demonstrate application of musical and physical conducting skills through the performance of advanced repertoire in the student’s area of specialization (instrumental or vocal).
2. demonstrate effective rehearsal techniques through the preparation of representative repertoire in the student’s area of specialization (instrumental or vocal).
3. create and deliver effective pedagogical instruction.
4. formulate advanced insights into the artistic and formal structure of music through score study in the student’s area of specialization.
5. communicate effectively about music through a) writing and b) speaking.

Students will be required to show competency in three languages in addition to English: French, Italian and German. Transcripts of previous college study must show a minimum of four semesters of two of the languages and two semesters of the third language, or credit through the intermediate level in two of the languages and through the beginning level of the third language. In some cases where languages have been learned through means other than traditional college classes, competency equivalents can be shown by taking the JMU Foreign Language Placement tests for French, German and Italian and placing at the 300-level for two of the languages and at the 231-level for the third. If neither option applies, the languages must be taken at JMU as a remedial requirement.

1 This track requires 16 credits of the applied instruction in the core requirements to be on a primary instrument and 8 credits on a secondary instrument. Eight additional credits will be used in the 20 credit hours for a third instrument. It also requires two of the required recitals in the core to be on the primary instrument and the third recital to be divided between the second and third instruments (50% each).

**Course Offerings**

**Music**

**MUS 520. Piano Technology**, 1-2 credits.
The acoustical and mechanical design and history of the piano theory of tuning and temperaments; advanced procedures and techniques of regulating and voicing pianos. Additional hour of credit for tuning lab.

**MUS 540. Jazz Improvisation Laboratory II**, 1 credit.
 Presents intermediate to advanced improvisation skills in the jazz idiom alone for graduate music majors. Emphasis is on the theoretical analysis of chord progression as well as creative musical application. A research paper dealing with advanced musical improvisation concepts is required. **Prerequisite:** Permission of instructor.

**MUS 541. Vocal Arranging**, 2 credits.
Students explore the art of arranging songs for solo and choral groups with or without accompaniment. Multiple styles and choral ensemble types are included. Those enrolled in 541 are responsible for rehearsing and leading performances sung by the class and university ensembles.

**MUS 542. Instrumental Arranging**, 2 credits.
Arranging for various instrumental ensembles, including techniques of orchestration. Class projects include orchestrating excerpts for brass, woodwind and string ensembles, and a complete arrangement for full wind ensemble or symphony orchestra.

**MUS 543-544. Counterpoint**, 2 credits each semester.
Modal and tonal counterpoint. Two, three and four voice forms, florid counterpoint. Study of imitative techniques and form analysis. **Prerequisite:** MUS 242 or equivalent.

**MUS 548. History and Literature of Wind Performance**, 3 credits.
