

# CyberCITIZENSHIP

Educator's Edition

This CyberCitizenship Project includes an Educator's Edition Guide, CyberCitz Posters, and Youth Edition Website ([www.jmu.edu/iiia/CyberCitz](http://www.jmu.edu/iiia/CyberCitz)) to go live Dec. 15. Podcasts on various subjects will be available on the website. To order additional Hardcopy guides, please contact JMU at (540) 568-4442 or [elliottcj@jmu.edu](mailto:elliottcj@jmu.edu).

*"The digital natives we teach need basic common sense about network safety and ethics. The JMU Cyber Guide will be an excellent tool for teachers wishing to integrate basic net safety into their daily teaching."*

— Joe Showker  
ITRT Rockingham County Schools

*"Your digital life can and will spill over into your real life. Remember, what happens on the web, STAYS on the web."*

— Kyosuke  
(Rachel's virtual boyfriend)

## Enhance Your CyberCharacter

**WHAT?** Your behavior—both online and offline—reflects your character. Choose to make good decisions regardless of your environment. Keep your reputation spotless.

**HOW?** Choose carefully what information you will share with the world. Keep personal stuff private.

**WHY?** Remember you only have one chance to make a good impression. When you put something on the Internet, digital footprints ensure nothing ever goes away.

### Check out these things

**inside:** general Internet safety tips... Email tips... social networking ... new technologies... surfing the web... gaming safely online... the dark side... family internet contract and more!

*This Project was produced to augment the Internet Safety Guidelines from the Virginia Department of Educational Technology.*

**Safety  
Security  
Ethics**
