

# SUMS 2010

Saturday, October 23 at James Madison University

Join us for the sixth annual Shenandoah Undergraduate Mathematics and Statistics one-day undergraduate research conference in Harrisonburg, Virginia.

Register, submit student talks and posters, or apply for travel funding online by the general registration deadline of Friday, October 8.

Opening speaker:  
Ravi Ramakrishna, Cornell University

*Elliptic Curves:  
What are they and why should we care?*

Closing speaker:  
Cliff Stoll, Acme Klein Bottle Company

*Low Dimensional Topology for Fun and Profit - or how to extract money from the 4th dimension...*
