

Statement of Proposed Activities and Risk Club Purple & Gold

Our activities will include distributing information to students about JMU, its history, and traditions; participating in and assisting with the Madison Week activities; and participating in and assisting with Homecoming and Parent's weekend. We will attend athletic events together and may travel to away games as a group, schedule permitting. In addition, we plan to conduct at least one service project in the Harrisonburg community each semester.

Risks associated with these activities include injury due to moving objects during set up and clean up from Homecoming, Parents' Weekend, and Madison Week activities; and injury or death due to car accident during travel in university vehicle, commercial transportation or privately owned vehicle.
