

TECHFACTURING

Get in gear with James Madison University and Blue Ridge Community College!

Hey Kids!

Do you ever wonder what high-tech things are happening in your own backyard?

Do you ever wonder how Hershey's Kisses are made?

Or Little Debbie Snack Cakes?

If so, this is the camp for you!

Hey Parents!

The pipeline of science and engineering talent is decreasing, while demand for these disciplines is on the rise. Employment opportunities in science, technology, engineering, and math occupations have grown faster than the numbers of students graduating with manufacturing/engineering degrees. TECHFACTURING can help your child get started on this pathway to success!

Registration deadline: June 26, 2009

Questions? Call 540-453-2346.

To register online, visit www.jmu.edu/outreach, and click on "Community Members."

July 20-22, 2009
