

## We are changing the face of construction and we want you to join us!

We invite all SWaM contractor and suppliers to learn about opportunities with the following project:

### **James Madison University**

### **CISAT A3B Biotechnology Building**

The CISAT A3b – Biotechnology Building is to be located on the CISAT section of the James Madison University campus in Harrisonburg, VA. It will contain approximately 90,000 gross square feet of teaching, research and technological resource space. Facility areas will include special interactive media classrooms and labs devoted to hands-on learning and experience in multi-disciplinary subjects. The primary focus of the building will be the educational and pedagogical needs of JMU's Biotechnology and related interdisciplinary programs.

Construction of the project is to start Summer/Fall 2010 with completion by Mid-2012. Skanska USA Building, Inc. will develop and distribute bid packages in Summer 2010 and will manage the subcontractor prequalification process.

#### **For project information, please contact:**

Curtis Elswick, Assistant Project Manager, at 540-344-0123 or [curtis.elswick@skanska.com](mailto:curtis.elswick@skanska.com)

#### **For bidding information, please contact:**

Lee Mahaley, Preconstruction Director, at 919-941-7916 or [lee.mahaley@skanska.com](mailto:lee.mahaley@skanska.com)

#### **For SWaM outreach information, please contact:**

Renee Jones, Diversity Manager, at 919-941-7900 or [renee.jones@skanska.com](mailto:renee.jones@skanska.com)

The SWaM program is sponsored by Skanska in association with:
