Campus Safety: “A Shared Responsibility”

Safety on the campus of James Madison University is a natural source of concern for parents, students and university employees. Education - the business of James Madison University - can only take place in an environment in which each student, employee and visitor feels safe and secure. JMU recognizes this and employs a number of security measures to protect the members of its community.

JMU is located in the City of Harrisonburg, which is nestled in the Shenandoah Valley of Virginia. Although the Harrisonburg area, with its small-town feel and neighborly attitude, has a relatively low crime rate, crime prevention remains a high priority in the campus community. JMU does its part to ensure the safety of its students and employees through a professionally trained and supervised police force and a closely screened and well-trained residence life staff which work in concert with a campus community that is informed, aware, and alert; all sharing the responsibility of making the JMU campus a safe place to study, work and live. You can obtain additional information about JMU at this link http://www.jmu.edu/about/files/jmu-factsheet-12-2012.pdf.

Police Protection

The James Madison University Police Department has received accreditation from the Virginia Law Enforcement Professional Standards Commission after in-depth review of every aspect of the agency’s organization, management, operations, and administration to assure the highest standards are practiced. James Madison University provides full-service police protection to the campus community through its Office of Public Safety. The JMU Police Department is headed by a Chief of Police who reports to the Senior Vice President for Administration and Finance. The jurisdiction of the JMU Police includes, but is not limited to, a core campus of 721 acres and 148 buildings to include all university, -owned, -leased, or -controlled property, the adjacent streets and sidewalks and an expanded off-campus jurisdiction within designated neighboring areas of the City of Harrisonburg through a Concurrent Jurisdiction Agreement. There are 38 sworn and commissioned police officers, all with comprehensive arrest powers. There are 30 full-time officers and they are augmented by eight special event officers. Full time officers are members of a patrol division, an investigative division or an operations division. Patrol officers patrol the campus 24 hours a day, seven days a week. They enforce state statutes along with regulations of the university while protecting property, providing assistance to the JMU community and responding to reported criminal incidents and traffic concerns. Four patrol officers and a sergeant are members of the JMU/Harrisonburg Joint Patrol Task Force which augments the Harrisonburg Police Department in the surrounding extended patrol jurisdiction of the JMU Police Department in the off-campus student housing areas adjacent to campus. The forensic unit consists of evidence gathering response personnel that work in concert with investigators which handle reported cases that require in-depth follow-up investigations. The operations division provides for the coordination of communications, crime prevention/analysis, and special events coordination to ensure appropriate levels of supervision, personnel, security, and traffic control are provided to ensure safety at these venues and provide for emergency situations that may arise. JMU full time officers along with special event officers provide coverage for events to include athletic events, concerts, speaking engagements, and other programs. Special event officers are primarily assigned to work special and/or athletic events but are subject to other assignments when necessary.

The authority, responsibility and training of JMU law enforcement personnel are the same as required of any police officer in Virginia. All police officers have completed a basic academy training program, and are required to complete 40 hours of in-service training biennially along with specialized in-house training. All are certified by the Virginia Department of Criminal Justice Services as police officers and are trained in...
all phases of law enforcement, including the use of firearms. Officers carry standard issue or approved firearms at all times and must maintain firearms proficiency through semi-annual classroom training, qualification, and certification at a firing range.

JMU law enforcement personnel receive training and certification in many specialty areas. The JMU Police Department has certified bike patrol officers, certified evidence technicians, certified breathalyzer operators, trained crime prevention specialists and officers trained in ground search and rescue. Many officers are trained and are certified instructors in specialties areas to include defensive tactics instructors, OC (chemical weapon) instructors, firearms and patrol rifle instructors, First Aid/CPR/AED instructors, field training instructors, active shooter training instructors, and a blood borne pathogen instructor.

The JMU Police Department utilizes Automatic External Defibrulators (AEDs) in the field. All sworn personnel are trained on the proper use of AEDs and basic life support techniques (Cardio-pulmonary Resuscitation - CPR) along with first responder first aid. AED units and first aid kits are deployed into the field each shift by officers on patrol and to special events.

Law Enforcement Authority of Campus Police Personnel, Written Memorandums of Understanding (Mutual Aid and Concurrent Jurisdiction Agreements) and Investigation of Alleged Criminal Offenses

JMU Police have the authority to enforce all regulations and laws, both of the University and of the Commonwealth of Virginia, within their jurisdiction which includes all university-owned, -leased or -controlled property, the adjacent streets, and sidewalks and an expanded off-campus patrol jurisdiction within designated neighboring areas of the City of Harrisonburg which was enacted through a Concurrent Jurisdiction Agreement with the City of Harrisonburg. The JMU Police work closely and maintain a close working relationship with state and local police including but not limited to the Harrisonburg Police Department, the Rockingham County Sheriff’s Office and the local contingent of the Virginia State Police on incidents that occur on and off campus. A Mutual Aid agreement with law enforcement and criminal justice agencies within and bordering Rockingham County is a reciprocal agreement for cooperation in furnishing police services and for the use of their joint police forces, their equipment and materials for their mutual protection, defense and maintenance of peace and good order. This enables cooperation with the Harrisonburg Police Department, the Rockingham County Sheriff’s Office and the local contingent of the Virginia State Police on incidents that occur on and off campus. Additionally a Mutual Aid agreement with the Department of State Police, for the use of their joint forces, both regular and auxiliary equipment, and materials when needed in the investigation of any felony criminal sexual assault or medically unattended death occurring on property owned or controlled by the institution of higher education or any death resulting from an incident occurring on such property has been enacted. James Madison University, as an agency of the Commonwealth of Virginia, may request resources and assistance from the Virginia State Police in the emergency response to, investigation of, or prevention of any other crime occurring at JMU dependent on availability of resources.

When a James Madison University student is involved in an off-campus offense, JMU Police officers may assist in the investigation in cooperation with local, county, state or federal law enforcement. The Harrisonburg Police Department and the JMU Police Department communicate on serious incidents occurring on-campus or in the immediate neighborhood and business areas surrounding campus as many JMU students live in apartment complexes and neighborhoods surrounding the university. While the Harrisonburg police exercise primary jurisdiction in areas off campus within the City of Harrisonburg, JMU Police officers have the authority to respond to student and non-student related incidents that occur in close proximity to campus in the aforementioned designated expanded off-campus jurisdiction. This option is exercised primarily by officers assigned to the JMU/Harrisonburg Joint Patrol in the expanded jurisdiction at the request of the Harrisonburg Police Department. JMU officers have direct radio communication with the Harrisonburg Police Department and fire and rescue services to facilitate rapid response in any emergency situation.

Reporting a Crime or Emergency

All crime, suspicious activity or emergencies that occur on the campus of James Madison University should be reported promptly to the James Madison University Police through the communications unit for response and documentation. This can be done in person at Anthony-Seeger Hall or by telephone. The on-campus emergency number, 540-568-6911, directly connects to the JMU Police Department and should be used when fire, police or medical response is required. This number can be found in the on-line JMU telephone directory. Courtesy telephones have this information on an attached label affixed to the telephone. **It should be noted that when using a cell phone to call University Police, callers should dial 540-568-6911 as dialing 9-1-1 directly may route them to another agency.** If you should be routed to another agency, you need to advise them of your specific location at James Madison University so that they may relay this information to the JMU Police Department communications center. The JMU Police Department Communication Center houses a network of speed-dialed lines providing direct access to the Harrisonburg/Rockingham Emergency Communication Center for local fire and rescue services and other local police departments. Two 800 telephone numbers are available to the University and can be utilized during an emergency situation. These numbers will be provided at that time and may be used to disseminate recorded messages and/or to receive calls into a centralized call center so that
the standard emergency phone lines will not be overwhelmed. The police department also utilizes another emergency number, 540-442-6911, that can be accessed if the JMU telephone network becomes disabled. For information, escort services and other non-emergencies, students and employees should dial 540-568-6913. The telephone number for parking concerns is 540-568-3300.

There are telephones provided at the main entrance to each of the residence halls. There are interior courtesy telephones located in the hallways of residence halls. Areas of Rescue Assistance (ARA) phones are located in many stairwells and outdoor emergency “Blue Light” phones are located across campus to include parking lot and other remote areas. These telephones are housed in highly visible yellow call boxes and feature one-button speed dialing for instant communication with the JMU Police with location of the activated telephone automatically identified to the police communications officer.

If you are witness, a victim or have knowledge of a criminal activity, information may also be reported anonymously by utilizing the JMU Police Department’s on-line “Silent Witness” program. For this information to be included in crime statistics, however, enough information has to be given to determine a crime has occurred and the location. This can be accessed on line at http://www.jmu.edu/pubsafety/SilentWitness.shtml the University Police will assist students in reporting crimes to other law enforcement agencies if needed.

The JMU Police Department Communications Division which supports the police department in emergency and non-emergency situations is maintained 24 hours a day, seven days a week. The Communications Division consists of 15 telecommunicators including a supervisor, 8 full time and 6 part time employees. By mutual agreement with state and federal agencies, the JMU Police Department maintains a VCIN/NCIC (Virginia Crime Information Network/National Crime Information Center) communication terminal. All communicators are certified through NCIC/VCIN as Level A Operators and are responsible for manning a terminal 24 hours a day with nationwide access to query criminal information and receive updates via teletype on in progress or recently occurred crimes. They are also responsible for monitoring alarm panels for all fire and intrusion alarms on campus and allowing vehicles access to campus via the campus gate system. All communicators are certified through the Virginia Department of Criminal Justice Services and the regional Criminal Justice Training Academy. Initially, they receive training in a Basic Communication Officer Academy as well as 80 hours of in house training with a certified communications trainer. Additionally, all communicators maintain the required certifications through NIMS/ICS to meet federal standards.

**Response to a Crime or Emergency**

Upon notification of a criminal activity, emergency, or request for assistance, the James Madison University Police Department has the responsibility of responding to, and summoning the necessary resources to assist, mitigate, investigate, and document the incident. The call will initiate a response from the JMU Police Department, immediate or otherwise, as dictated by the nature of the incident. The responding officer will be informed of the reported incident and will arrange for necessary resources to include but not be limited to crime investigation, victim services, medical services or the utilization of other available resources. Criminal actions will be thoroughly documented in an appropriate report with intent of seeking closure of the incident.

**Emergency Response and Evacuation Procedures**

The James Madison University Police Department has the responsibility of responding to, and summoning the necessary resources to mitigate, investigate, and document any situation that may cause a significant emergency or dangerous situation to the JMU community. In addition, the JMU Police Department has the responsibility to respond to such incidents to determine if the situation does, in fact, pose a threat to the community and notify the campus community or the appropriate segments of the community that may be affected by the situation.

The James Madison University Police Department will, upon confirmation of an emergency, activate procedures to notify the individuals impacted and respond to and mitigate the threat to the health or safety of those individuals by utilizing appropriate measures to include
emergency notification, emergency evacuation, “shelter in place” or other measures deemed necessary using the National Incident Management System (NIMS) structure. The JMU Police enjoy autonomous authority to activate the emergency measures upon their confirmation of the emergency or dangerous situation and determine the content and scope of the notification. The position titles of those persons given such autonomous authority include the Chief of Police, the Deputy Chief in the absence of the Chief, and any of the three Lieutenants (operations, patrol, and investigations) in the absence of the Chief and Deputy Chief or an appointed designee. In weather related instances, communication personnel, upon verification of an emergency by the National Weather Service, may issue weather related warnings. Concurrently or contemporaneously, based upon the incident, the official initiating the emergency notification based upon the incident will inform the Vice President of Administration and Finance and the Director of Media Relations of the emergency at hand and the justification for the implementation of emergency measures. The Chief of Police or his designee will act as the incident commander and with the assistance from other personnel or organizations such as risk management, facilities management, health services, and also information from external sources such as the National Weather Service, will assess possible health hazards to human health and the environment, considering both the direct and indirect effects. The incident commander ensures notification of facility employees and may coordinate an internal response and/or act as a liaison to external emergency responders. The types of incidents that may cause an immediate threat to the campus community could include, but are not limited to, emergencies such as an active shooter on campus, hostage/barricade situation, a riot, suspicious package with confirmation of a device, a tornado, a fire/explosion, suspicious death, structural damage to a university-owned or controlled facility, biological threat (anthrax, etc.), significant flooding, a gas leak, hazardous materials spill, criminal or terrorist activity, train wreck, or a possible meningitis outbreak.

James Madison University police officers and supervisors along with communication staff receive training in “Incident Command” and “Responding to Critical Incidents on Campus”. When a serious incident occurs that causes an immediate threat to the campus, the first responders to the scene are usually the James Madison University Police, the Harrisonburg Fire Department, and the Harrisonburg Rescue Squad. These agencies typically respond and work together to manage the incident. Depending upon the incident, other local agencies may provide support and response to include the Harrisonburg Police Department, other local law enforcement agencies along with state and federal agencies at the request of the Chief of Police. The Chief of Police/Incident Commander, or his designee, is responsible for determining the appropriate department or segments of the campus community to receive a notification, determine the content of the notification and initiate protocols for the implementation of the emergency notification system through the established procedures. Implementation of notification systems to be conducted by the Emergency Management and Crime Prevention and Analysis officer, Director of Media Relations, Deputy Chief, communication staff, or other designated personnel as needed.

Building coordinators are utilized and are responsible for developing emergency evacuation plans and guidelines, contingency plans and continuity of operations plans for their designated areas of responsibility in conjunction with the Department of Public Safety Emergency Management and Crime Analysis Coordinator and Safety Coordinator. The Chief of Police/Incident Commander or designee will, upon confirmation of an emergency that necessitates evacuations, will order an evacuation or if the situation warrants instructions to “shelter in place”.

Evacuation drills are performed both live and in table top exercises. The purpose of evacuation drills is to prepare building occupants for an organized evacuation in case of fire or other emergency. Evacuation drills for residence halls are coordinated by the JMU Police and the Office of Residence Life each semester. Students learn the location of the emergency exits in the building and are provided guidance about the direction they should travel when exiting each facility for a short-term evacuation.

If an incident occurs and the buildings or areas around you become unstable, or if the air outdoors becomes dangerous due to toxic or irritating substances, it is usually safer to stay indoors, because leaving the area may expose you to that danger. Thus, to “shelter-in-place” means to make a shelter of the building that you are in, and with a few adjustments this location can be made even safer and more comfortable until it is safe to go outside.

Basic “Shelter-in-Place” Guidance

If an incident occurs and the building you are in is not damaged, stay inside-seeking an interior room-until you are told it is safe to come out. If your building is damaged, take your personal belongings (purse, wallet, JAC card, etc.) and follow the evacuation procedures for your building (close your door, proceed to the nearest exit, and use the stairs instead of the elevators). Once you have evacuated, seek shelter at the nearest University building quickly. If police or fire department personnel are on the scene, follow their directions.

How You Will Know to “Shelter-in-Place”

A shelter-in-place notification may come from several sources, including the JMU Police Department, Office of Residence Life, other University employees, or other authorities utilizing the University’s emergency communications tools.

How to “Shelter-in-Place”

No matter where you are, the basic steps of shelter-in-place will generally remain the same but can be modified for specific situations. Should the need ever arise; follow these steps, unless instructed otherwise by local emergency personnel.
If “sheltering in place” for toxic substances or irritants:

1. If you are inside, stay where you are. Collect any emergency shelter-in-place supplies and a telephone to be used in case of emergency. If you are outdoors, proceed into the closest building quickly or follow instructions from emergency personnel on the scene.
2. Locate a room to shelter inside. It should be an interior room above ground level without windows or with the least number of windows present. If there is a large group of people inside a particular building, several rooms maybe necessary.
3. Shut and lock all windows (tighter seal) and close exterior doors.
4. Turn off air conditioners, heaters, and fans.
5. Make a list of the people with you, a staff member should call the JMU Police Department with this information so they know where you are sheltering. If only students are present, one of the students should call in the list.
6. Keep advised by monitoring text messaging and following any and all guidelines provided by the mass communication systems.
7. Make yourself comfortable.
8. If a computer is available please check the main JMU website for additional instructions.

Long term evacuations are detailed in the Emergency Response Plan located in the Comprehensive Safety Plan. It is designed to establish a framework for James Madison University to both avoid preventable emergency situations and to respond effectively and safely to emergencies when they occur. This includes assessing an emergency situation, coordinating a response effort, minimizing adverse effects, and, most importantly, ensuring that individuals are informed, safely evacuated or sheltered and accounted for with reasonable assurance.

This plan incorporates the many regulatory requirements concerning the development and implementation of a campus emergency plan into one meaningful and usable document. Information regarding detailed procedures can be located in the University’s Comprehensive Safety Plan.

All members of the James Madison University community are required to notify the JMU Police Department of any situation or incident on campus that involves a significant emergency or dangerous situation that may involve an immediate or ongoing threat to the health and safety of students, employees or visitors on campus.

### Emergency Notification System

James Madison University is committed to the immediate notification of the campus community, without delay, upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health and safety of students or employees occurring on campus, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. The comprehensive mass-communication system includes the following components which may be activated independently or in-conjunction with each other, based upon the circumstances, to notify the university community of the existence of an emergency and provide updated information as necessary throughout the duration of any incident. The JMU Police enjoy autonomous authority to activate the emergency notification system upon their confirmation of the emergency or dangerous situation and determine the content and scope of the notification. The position titles of those persons given such autonomous authority include the Chief of Police, the Deputy Chief in the absence of the Chief, and any of the three Lieutenants (operations, patrol, and investigations) in the absence of the Chief and Deputy Chief or an appointed designee. Concurrently or contemporaneously, the official initiating the emergency notification will inform the Vice President of Administration and Finance and the Director of Media Relations of the emergency at hand and the justification for the broadcast of the related notification. University authorities regularly schedule drills, exercises, and appropriate follow-through activities, designed for assessment and evaluation of emergency plans and capabilities.

The comprehensive mass-communication system includes the following components which may be activated independently or in-conjunction with each other based on the circumstances of the emergency to notify the university community of the existence of emergency and provide updated information as necessary throughout the duration of any incident.

#### Emergency Horns & Sirens

JMU currently utilizes two different systems that produce audible signals to warn students, staff, and visitors on campus of impending emergency situations or hazardous conditions.

1. **Madison Alert** - One component of the University’s emergency communications system is Madison Alert Horn, Siren and Public Address system, a campus wide outdoor horn and public address system used to
communicate with constituents in the open exterior areas of the campus. It can be activated to alert members of the University community of an imminent threat to public safety on campus. The following horns and sirens are used as part of this system.

_**Emergency Siren:** - **MP3** - This signal is intended to immediately get the attention of members of the JMU Community. When students, staff and visitors hear this siren they should immediately try to seek shelter in a secure location and/or following any verbal instructions that accompany this alarm.

_All Clear Horn: **WAV** - **MP3** - This signal consists of three consecutive 5 second horn blasts and indicates that it is now safe to resume normal activities on campus._

2. **James Madison University Lightening Prediction System** - A second component of the University's emergency communications system is the Severe Weather Early Warning System. This separate system is completely automated and continuously monitors weather conditions in proximity to the University's Main Campus, Memorial Hall complexes, and Upark fields. When the system detects atmospheric conditions that have a high probability of producing an electrical storm (lightning) close to campus the system will activate a series of horns and strobe lights in designated areas on campus. The following horns are used as part of this system.

_**Red Alert Horn:** **WAV** - **MP3** - This signal consists of a single, 5 second horn blast which indicates that there is an imminent danger of a lighting strike on campus. When students, staff and visitors hear this horn they should immediately try to seek shelter in a safe location such as a building or vehicle away from water and electrical sources until the severe weather passes and the All Clear signal is given._

_All Clear Horn: **WAV** - **MP3** - This signal consists of three consecutive 5 second horn blasts and indicates that it is now safe to resume normal activities on campus._

**Other Forms of Mass Communication in Place**

_Radio AM1610 – In the event of campus emergency, information will be broadcast over the radio station AM1610._

_JMU Web Page – University Web Page (black page)  This simple page helps to ensure that servers and systems remain accessible if an incident occurs. This black page displays in lieu of all other jmu.edu web pages and only allows the user to read specific posted information relative to any ongoing emergency situation._

_Blast E-Mail – An e-mail will be distributed to the inbox of all members of the JMU community with an email account to warn them of a campus emergency. Blast email gives the University the ability to expeditiously reach the entire campus community with critical information in the event of an emergency._

_Emergency Notification (SMS Text Messaging) – The JMU community can now register to receive text and voice messages over their cell phones during a campus emergency. Faculty and staff and students may register through MY Madison at [http://isapps.jmu.edu/ecampus/ecampus_EmergencyNotification.htm](http://isapps.jmu.edu/ecampus/ecampus_EmergencyNotification.htm)_

_Building Coordinators - through face to face contact - All building coordinators are periodically trained on how to respond to various emergencies on campus and how to disseminate information within their buildings._

_ORL Hall Directors and Resident Advisors -through face to face contact - All residence halls staff are periodically trained on how to respond to various emergencies on campus and how to disseminate information within their buildings._

_Phone Trees – Interdepartmental & building phone trees can be implemented._

_Emergency Fax Notification – This is similar in concept to bulk e-mail only utilizing the campus fax machine network._

_Police loudspeakers/public address systems located in patrol cars._

_Programmable Mobile Traffic Signs – Mobile signs that can be positioned to provide information to specific areas._

_Local media/Campus TV/Radio broadcasts_
In order to disseminate emergency information to the larger community, radio station AM1610 will be programmed to broadcast emergency information and local media will be contacted.

For a comprehensive overview of Emergency Notification and Procedures you may go to http://www.jmu.edu/pubsafety/emergencynotification.shtml. In addition to detailed information on Emergency Horns & Sirens, this site includes interactive training in emergency procedures and a companion follow-up self-evaluation and review of information retention through a multiple choice testing site. At http://www.jmu.edu/pubsafety/documents/EmergencyProceduresPoster.pdf more detailed information on the official JMU mass communication systems plus related the poster and advice on response to a hostile intruder, fire, and weather emergencies can be found.

The University conducts numerous emergency response exercises each year, such as table top exercises, field exercises, and tests of the emergency notification systems on campus. Systematic tests of the Emergency Notification System will be conducted at least annually to include documentation of the exercise with the date, time and description of the test and whether the test was announced. These tests are designed to assess and evaluate the emergency plans and capabilities of the institution. Various drills are conducted throughout the year to familiarize students and faculty and staff with emergency procedures and individual roles.

All members of the JMU community are instructed to notify the JMU police of any situation or incident on or near campus that involves a significant emergency or dangerous situation that may pose an immediate or on-going threat to the health and safety of students, staff and visitors to the campus.

Timely Warnings

The James Madison University Police Department will develop timely warning notifications to notify the campus community in the event that a situation arises on campus that, in the judgment of the Chief of Police or his designee, after reviewing the facts and circumstances of the incident, constitutes an ongoing or continuing threat to the campus community. Timely Warnings are evaluated on a case by case basis depending on the facts of the case and the information known. Community alerts may also be developed to notify the campus community in the event that a situation arises off campus, that, in the judgment of the Chief of Police or his designee, after reviewing the facts and circumstances of the incident, constitutes an ongoing or continuing threat to the off campus community. The warning will be issued by means of rapid response mass-communication technology providing the JMU Community with immediate notification to students, faculty and staff through the issuance of:

- “Blast” bulk e-mailings originating from the Public Safety Office to all student and employee e-mail accounts, and/or;  
- Text messaging to the campus community via cell phones.  
- Companion posters may be sent to various residence life listservs and other address book listings as attachments.  
- The Office of Public Safety may also post a notice on the campus-wide electronic bulletin board at the University Police web site: http://www.jmu.edu/pubsafety/IncidentListings.shtml

The Chief of Police, the Deputy Chief in the absence of the Chief, and any of the three Lieutenants (operations, patrol, and investigations) in the absence of the Chief and Deputy Chief or a designee will determine and approve the content of the message. The Emergency Manager/Crime Analyst or designee will disseminate the timely warning or community alert. Concurrently or contemporaneously, based upon the incident, the official initiating the timely warning notification will inform the Vice President of Administration and Finance and/or the Director of Media Relations of the notification and the justification for the implementation.

A copy of the notice may be reprinted and posted in residence halls, on-campus sorority houses, and in the Center for Off-Campus Living. The electronic bulletin board is immediately accessible via computer by all faculty, staff and students at http://www.jmu.edu/pubsafety/IncidentListings.shtml. Updates will also be posted at this web site that can be accessed by the JMU community.

Anyone with information warranting a timely warning/crime alert should report the circumstances to the JMU Police office, by phone (540-568-6911) or in person at the communication center within the Office of Public Safety, Anthony-Seeger Hall, located at the Southwest corner of West Grace and South Main Streets.

*There is absolutely NO THIRD PARTY DELAY in the sending of the message to all e-mail accounts since no prior authorization outside of the Office of Public Safety is required.

Timely Warnings and Community alerts for situations that may pose a threat to others can be generated from reports made to Campus Security Authorities as identified by James Madison University in addition to the JMU Police and/or the local police agencies having concurrent jurisdiction. The department may not issue Timely Notices/ Community Alerts for instances in which the perpetrators have been apprehended and the threat of imminent danger for members of the JMU community has been mitigated by the apprehension or in which a report was not
filed with the JMU Police Department and the JMU Police Department was not notified of the crime in a manner that would allow the department to post a “timely” warning for the community.

Crime statistics are gathered monthly and annually from JMU Campus Security Authorities via fax, online and campus mail reporting utilizing a report/survey form supplied by the Clery Act Compliance Officer. Any crime report made to a Campus Security Authority can be immediately transmitted to the JMU Police via fax machine, e-mail or conventional campus mail.

**Campus Security Authorities**

“**Campus security authority**” is a Clery-specific term that encompasses four groups of individuals and organizations associated with an institution: a campus police department or a campus security department of an institution; any individual or individuals who have responsibility for campus security but who do not constitute a campus police department or a campus security department; any individual or organization specified in an institution’s statement of campus security policy as an individual or organization to which students and employees should report criminal offenses; and an official of an institution who has significant responsibility for student and campus activities.

Although every institution wants its campus community to report criminal incidents to law enforcement, we know that this doesn’t always happen. Even at institutions with a police department on campus, a student who is the victim of a crime may be more inclined to report it to someone other than the campus police. For this reason, the Clery Act requires all institutions to collect crime reports from a variety of individuals and organizations that Clery considers to be “campus security authorities”. Data is collected from a wide variety of “Campus Security Authorities” to provide the most accurate crime statistics possible. A campus security authority’s primary responsibility is “to report allegations made in good faith to the reporting structure established by the institution” in the Clery geography.

The James Madison University Police Department encourages members of the JMU community to promptly and accurately report crimes to the JMU Police or the appropriate police agency. The James Madison University Police Department does not allow voluntary confidential reporting. If a complainant files a report with the JMU Police Department, the information may not be able to be kept confidential.

Although we encourage the reporting of campus criminal activity directly to the James Madison University Police, in some instances members of the campus community may choose to file a report with one of these Campus Security Authorities:

“Pastoral Counselors” and “Professional Counselors”, when acting in their role of a pastoral or professional counselor are not considered campus security authorities and are not required to report crimes for inclusion into the annual disclosure of crime statistics. This exemption is intended to protect the counselor-client role. At a minimum, this provides crime victims valuable counseling and referral information.

**Pastoral Counselor**

An employee (in the case of JMU, they are affiliates) of an institution who is associated with a religious order or denomination, recognized by that religious order or denomination as a person who provides confidential counseling and who functions within the scope of that recognition as a pastoral counselor.

**Professional Counselor**

An employee of an institution whose official responsibilities include providing psychological counseling to members of the institution’s community and who is also functioning within the scope of his/her license or certification.

JMU pastoral and professional counselors are encouraged to tell their clients about reporting procedures outlined in this document. Victims of sexual violence have the option of keeping their report in complete confidence, protecting their right to anonymity, when making a report through the JMU Counseling and Student Development Center or affiliated pastoral counselors.

Crimes may also be reported anonymously by utilizing the JMU Police Department's “Silent Witness”. For this information to be included in crime statistics, however, enough information has to be given to determine a crime has occurred and the location. ### Emergencies Involving Students or Faculty and Staff

For emergencies involving students, the JMU Police can call upon the services of the **Behavioral Assessment Team (BAT)** chaired by the Dean of Students with members from the Counseling Center, the Health Center, Judicial Affairs, Public Safety, the Office of Residence Life, Disability Services, and also Academic Programs, along with representatives from other university offices on an as needed basis to assess and intervene with students whose behavior may present a threat to themselves or the safety of the university community. JMU is committed to improving community safety through a proactive, coordinated, objective, and thoughtful approach to the identification, assessment, intervention, management, and prevention of situations that pose, or may reasonably pose, a threat to the safety and wellbeing of the campus community. Any member of the university community who is concerned about the behavior of a JMU student is encouraged to contact the Dean of Students Office at 540-568-5468, the JMU Counseling Center at 540-568-6552, the JMU Police at 540-568-6913 or other member of the BAT team.

or the safety of the university community. The FSAT is chaired by the Director of Human Resources, and constituted as an ad hoc committee that includes members from the Counseling Center, Human Resources, Public Safety, and other university offices as appropriate. Any member of the university community who is concerned about the behavior of an employee is encouraged to contact human resources at 540-568-7916.

The BAT and FSAT will meet as needed to assess and intervene with students or faculty and staff members whose behavior may present a threat to themselves or the safety of the university community. Any member of the university community who believes that the behavior of an individual who is on campus or who is a member of the community may present a threat to self or others in the university community should report the person to the appropriate team.

The Victim/Witness Assistance Program, established through a cooperative effort between the Commonwealth Attorney’s Office, the JMU Police, Harrisonburg and Rockingham County law enforcement agencies, the State police, and the Harrisonburg-Rockingham Community Services Board, is designed to lessen the impact of criminal acts on the victims and witnesses of crimes and to ensure that such individuals receive fair treatment while participating in the criminal justice system. The JMU police can help arrange assistance by from the Victim/Witness coordinator and also provides a brochure outlining Virginia’s Crime Victim and Witness Rights Act information.

**Police Crime Log Information**

The Daily Crime Log at James Madison University contains entries of crimes or alleged crimes that have been reported to the JMU Police Department for the required geographic locations to include on campus, non-campus, and on public property within the campus or immediately adjacent to and accessible from the campus and the extended patrol jurisdiction. It also contains information regarding crimes or alleged crimes that the JMU Police Department has been made aware of through other sources to include Judicial Affairs, the Office of Residence Life, third party reports, and outside police agencies. Entries in the crime log include reports of crimes that occur within the extended patrol jurisdiction of the JMU Police Department that are reported directly to the JMU Police. Crime listings generated by the Harrisonburg Police Department electronic crime listings report found at [https://www.crimereports.com/](https://www.crimereports.com/) may also be added to the daily crime log to include areas in the extended patrol jurisdiction. The Crime log is updated within two business days upon receipt of the information. The Crime Log information appears on the JMU Police Department website page at [http://www.jmu.edu/pubsafety/DailyCrimeLog.shtml](http://www.jmu.edu/pubsafety/DailyCrimeLog.shtml). The JMU Police maintains accessibility to the crime log 24/7, 365 days a year in the police department communications area electronically. The most recent 60 day period of the daily crime log is also open for public inspection in a paper format.

According to Federal law, an institution may withhold any of the required fields of entry; the nature, date, time, location and/or disposition of the crime or alleged crime if any of the following conditions apply:

The disclosure is prohibited by law:

- If disclosure would jeopardize the confidentiality of the victim.
- If disclosure would jeopardize an ongoing criminal investigation or the safety of an individual.
- If disclosure would cause a suspect to flee or evade detection.
- If disclosure would result in the destruction of evidence.

The information temporarily withheld from the log for any of the aforementioned justifications will be posted once the possibility of adverse or harmful effects are no longer likely to occur.

The JMU Police Department requests local police agencies keep the institution informed on an immediate basis of crimes that may require timely warnings. We are committed to an open line of communication to enable us to routinely review incidents occurring in the expanded geographical areas beyond our campus and contiguous areas that could serve as a potential threat to members of our campus community especially those apartment complexes with heavy concentrations of off-campus resident students and places where students often frequent.

**Campus Police Cadet Program**

Through the Campus Police Cadet Program, carefully screened students are employed to act as additional eyes and ears for the JMU Police alerting police of incidents for possible further investigation, providing services during special events, and building and campus security. They
are in radio contact with the JMU police at all times. Cadets are mainly on duty in the evening and late night, patrolling their assigned areas providing escort services to students walking across campus and to and from parking lots. Following cadet duty hours, JMU police officers escort students as needed. Cadets are also responsible for patrolling and securing academic and administrative buildings on campus each evening. Normally there are 35 cadets assigned to walking patrol and escorts during the fall and spring semesters. During the summer, cadets also provide building lockup and security.

Prior to the beginning of the fall semester each year, a two day “Cadet Academy” is held to provide training. All current cadets and newly hired cadets are required to attend. During the academy, policies and procedures are explained and the cadets receive information and training in radio usage, special events, sexual assault and harassment, drug usage on campus, judicial affairs procedures and the role of the JMU Police.

**University Housing**

The Office of Residence Life at James Madison University is committed to designing and maintaining a caring environment that encourages academic success, respect, personal growth and responsibility to one’s community. Approximately 6,200 undergraduate students reside in 47 residence halls on the JMU campus. All sororities are housed on-campus. There are no longer any fraternities located on campus. Freshmen are required to live on campus, with the exception of day student commuters. Upper-class students select residence hall assignments dependent upon availability.

Off-campus housing includes apartments, private homes, individual rooms or apartments within private homes, and off-campus fraternity houses. The University does not provide supervision for unaffiliated off-campus housing.

University housing provides coeducational housing for such lifestyle options as first year, upper class, and substance-free. There are also a number of residential learning communities. These communities are facilitated by academic departments and include Honors, International, Pre-professional Health, Psychology, Biology, Visual & Performing Arts, and Education. A Faculty in Residence (FIR) program was created to house a university professor in the residence halls in the hopes of increasing interaction between students and educators. Five FIRs have been created in Chesapeake Hall, Potomac Hall, Shenandoah Hall, Eagle Hall, and Wayland Hall.

Each residence hall has set visitation hours which may be further reduced by a vote of the residents. Guests must be escorted by a hall resident at all times. Guidelines state overnight guests in the residence halls must be of the same sex.

Access to on-campus housing by university employees is on an “as needed” basis and incorporates strict card key control procedures during hours of restricted access. All university repair and maintenance personnel must be in uniform or wear a JMU photo ID to allow for easy identification by residents. Residence halls are staffed with hall directors and a number of resident advisors. These individuals, living in the halls and on call 8:00 p.m. to 8:00 a.m. daily, are members of the university’s residence life staff and receive extensive training in the enforcement of residence hall security policies.

All residence hall doors accessing resident living areas remain locked 24 hours daily, seven days a week. Unrestricted access to certain administrative, dining service, public assembly, and meeting rooms in Chandler, Huffman, and Frederikson Halls is permitted generally 7:30 a.m. to 5:00 p.m., weekdays. Interior doors separating public access from residential room areas remain locked at all times in these halls. Currently perimeter security to all university-owned residence halls is maintained by automated card access. Some rooms at Rockingham Hall feature direct exterior access while others are accessed from a central interior corridor. A student who enters or leaves a residence hall is responsible for securing the door. Propping or otherwise preventing any door from being completely secure is a serious safety violation. A propped door alarm in many residence halls issues an alarm when the door is propped for a set time period.

A resident director or adviser is on duty each evening in the office at the main entrance of each hall from 8 p.m. to 11 p.m. Sunday through Thursday and also from 8 p.m. to 2 a.m. the following morning both Friday and Saturday. This individual is in immediate telephone contact with JMU police, if necessary. Following this desk assignment detail, the person on duty remains on call, with the office phone transferred to his or her apartment or room.

All residence halls and on-campus sororities are closed during Thanksgiving, Spring Break and semester breaks. During low occupancy periods, such as the summer terms, students remaining on campus are moved into one concentrated area of the residence life complex to enhance security effectiveness. The JMU Police remain in service during all breaks. Over extended breaks, the doors of all vacated halls are secured from access by even the assigned residents by means of a temporary programming change in the card access software.

Inspections are conducted periodically by representatives from residence life, facilities management, locksmiths shop, police and safety and engineering to survey the security and integrity of university housing. In addition, a committee of students meets monthly to discuss security concerns and to provide feedback to the residence life staff. Repairs are made promptly, locks quickly replaced when keys are lost or stolen, and reports of potential safety hazards, such as broken windows, receive immediate response.
JMU students are expected to maintain a high level of maturity, responsibility and common sense regarding their behaviors and actions. Residence hall policies can be found at [http://www.jmu.edu/orl/policies/index.html](http://www.jmu.edu/orl/policies/index.html). The following are possible disciplinary actions that might be taken after a student violates the residence hall policies, rules or regulations.

**Missing Student**

At James Madison University each student living in an on-campus student housing facility will be given the option to register a confidential contact person(s) whom the institution shall notify if the student is determined missing by the JMU Police for 24 hours. Residents of on-campus student housing will register this contact information on line with the Office of Residence Life upon moving into university housing where it will be maintained electronically. Resident students are advised that contact information will be considered confidential, accessible only to authorized campus officials and law enforcement and will not be disclosed outside of a missing person investigation. University officials must notify a custodial parent or guardian when the student is under 18 years of age and not emancipated and is determined to be missing, in addition to any additional contact person designated by the student. If a member of the JMU community has reason to believe that a student is missing, whether or not the student resides on campus, all possible efforts are made to locate the student to determine his or her state of health and well-being through the collaboration of the JMU Police, the Office of Student Affairs and other appropriate law enforcement agencies. Anytime a member of the University community has reason to believe that a student who resides in on-campus housing is missing, he or she should *immediately* notify the JMU Police Department to initiate an investigation. There is no time minimum period for reporting a person. If the student is an off-campus resident, the University Police will secure authorization from Student Affairs officials to make a welfare entry into the student's room and the Office of Residence Life will be contacted to provide missing person emergency contact information in furtherance of a missing person investigation. If an off-campus student resident, the University Police will informally enlist the aid of the neighboring police agencies having jurisdiction. Concurrently university officials will endeavor to determine the student's whereabouts through contact with friends, associates, and/or employers of the student. Information gathered to include whether or not the student has been attending classes, labs, recitals, and scheduled organizational or academic meetings; or appearing for scheduled work shifts will be investigated. If located, verification of the student's state of health and intention of returning to campus will be determined. A referral will be made to the Office of Counseling and Student Development and/or the University Health Center if appropriate. Notification of a custodial parent or guardian or failing that any other available family member within 24 hours of receiving the initial report is made to determine if they know of the whereabouts of the student in addition to contact information provided by the student. If the student is an off-campus resident, appropriate family members or associates are encouraged to make an official missing person report to the law enforcement agency within the appropriate jurisdiction. The JMU Police will cooperate, aid, and assist the primary investigative agency in all ways prescribed by law. The JMU Police Department is an active participant partnering in the Rockingham County/Harrisonburg City/James Madison University Mutual Aid Compact. If the student is an on-campus resident, the JMU Police will open an official investigation and retain status as the primary investigative unit. All pertinent law enforcement agencies, be they neighboring municipal, county, or state; those located along suspected travel corridors; or place of original domicile, will be notified and requested to render assistance, through direct telephone contact, email, in person visit, Virginia Crime Information Network (VCIN) message, and/or radio transmission with a comprehensive BOL message based on the totality of up-to-date information. *Suzanne's Law* requiring local police to notify the National Crime Information Center (NCIC) when someone between 18 and 21 is reported missing was signed into law by President George W. Bush in the Spring of 2003 as part of the national "Amber Alert" Bill. The federal law is named after Suzanne Lyall, a State University of New York at Albany student who has been missing since 1998. The law is intended to impel police to initiate prompt investigations of young persons who have gone missing.

Upon closure of the missing person investigation, all parties previously contacted will be advised of the status of the case.

To summarize, when a student who resides in an on-campus student housing facility is determined to have been missing for 24 hours, the University is legally obligated, if the student has designated a contact person, to notify that contact person within 24 hours; if the student is

Hazing

Hazing is a very serious concern. Many hazing incidents could be avoided if members were better educated about what constitutes hazing, alternatives to hazing and the university hazing policy. Though it is the responsibility of each member of an organization to uphold the hazing policy it is the officer’s responsibility to educate each member, set a no-tolerance policy, lead by example, and report any hazing that has occurred. Groups can lose their recognition and individuals can be judicially sanctioned for allowing/ignoring or taking part in any form of hazing. JMU is an institution of higher learning devoted to excellence in teaching, research and service to the people of the Commonwealth and the nation. The University is committed to developing students through academic and co-curricular activities. Hazing is an unproductive and hazardous custom that is incongruous with this responsibility and has no place in college life, either on or off campus. No individual student or recognized student organization may engage in or plan any activity that may be defined as hazing. In addition, no individual or recognized organization may by physical or mental stress or by subtle or covert technique, impair, make captive, or destroy an individuals’ freedom of thought and choice.

In keeping with JMU’s expectations for a positive academic environment, the university unconditionally opposes any situation created intentionally to produce mental or physical discomfort, embarrassment, harassment or ridicule. Hazing, under Virginia law, is defined as activities for the initiation or induction into an organization which include calisthenics or other strenuous physical activity; exposure to inclement weather; consumption of food, liquid, beverage, drug or other substance; confinement in any room or compartment; spraying, painting or pelting with any substance; burying in any substance; burning, branding or tattooing or another activity which may result in physical injury or endanger the health or life of the individual being hazed. Further information can be obtained at http://info.jmu.edu/fsl/hazing-policy/.

Alcohol and Drugs

The impact of alcohol and other drugs is a concern that JMU recognizes affects the health and safety of all members of the campus community. Alcohol, if misused, can endanger your well-being, and have serious legal, health, and academic consequences. The abuse of alcohol can increase the risk of accidents due to impaired judgment and coordination, can damage the brain, liver and heart, create physical and psychological dependence, and lead to unwanted sexual activity. It can also cause social relations to quickly deteriorate, or exacerbate or induce psychological and behavioral problems.

JMU hopes all community members stay safe and act responsibly if they choose to drink. Remember, the legal drinking age is 21. Underage drinking puts you at risk for both criminal and judicial sanctions. Set your own alcohol limit and stick to it. Pace your consumption of alcoholic beverages. Designate a nondrinker in your group to watch out for potential problems. Don’t leave your group of friends and don’t put yourself at risk by leaving with a new acquaintance. Monitor your drink at all times and discard your drink if it has been out of your sight.

The JMU Health Center and the JMU Counseling and Student Development Center can provide additional information about these concerns.
Alcohol Policies

JMU is committed to working against the illicit use of drugs and alcohol among students and employees. JMU police officers enforce all Virginia State laws and university policies concerning the purchase, possession, consumption, sale and storage of alcoholic beverages and drugs, including the following:

Judicial Affairs Policies - Alcohol

J38-101.7 Students shall not misuse or abuse alcohol regardless of their age. This includes but is not limited to; driving under the influence, providing alcohol to those underage, or consuming alcohol to the point of hospitalization.

Criminal Sanctions – Alcohol

Virginia’s Alcohol Beverage Control Act contains a variety of laws governing the possession, use and consumption of alcoholic beverages. The act applies to the students and employees of this institution. As required by the Federal Drug-Free Schools and Communities Act of 1989, the pertinent laws, including sanctions for their violation, are summarized below:

- It is unlawful for any person under age 21 to purchase or possess any alcoholic beverage. Violation of the law exposes the violator to a misdemeanor conviction for which the punishment is either confinement in jail for up to 12 months, a fine up to $2,500 or both. Additionally, such person’s Virginia driver’s license may be suspended for a period of not more than one year.

- It is unlawful for any person to sell alcoholic beverages to persons under the age of 21. Violation of the law exposes the violator to a misdemeanor conviction for which the punishment is either confinement in jail for up to 12 months, a fine up to $2,500 or both.

- It is unlawful for any person under the age of 21 to use or to attempt to use an altered or fictitious I.D. to purchase alcoholic beverages. Punishment is confinement in jail for up to 12 months and a fine of $2500, either or both. Driving

Upon a second conviction, punishment is either confinement in jail for up to one year, a fine up to $2,500 or both.

• Possession of less than one-half ounce of marijuana with intent to sell or otherwise distribute, upon conviction, exposes the violator to a misdemeanor conviction for which the punishment is confinement in jail for up to 12 months and a fine up to $2500, either or both. If the amount of marijuana involved is more than one-half ounce to five pounds, the crime is a felony with a sanction of imprisonment from one to ten years or, in the discretion of the jury or the court trying the case without a jury, confinement in jail for up to one year and a fine up to $2500, either or both. If the amount of marijuana involved is more than five pounds, the crime is a felony with a sanction of imprisonment from five to thirty years.

Convictions for violations of these laws could result in fines, loss of driver’s license and imprisonment. University sanctions could include penalties ranging from fines, probation, sanctioned education programs, restitution, and special assignments/restrictions to suspension from the university. Further information concerning policies can be found at http://www.jmu.edu/judicial/about/alcoholpolicy.shtml. Further information on sanctions can be found at http://www.jmu.edu/judicial/student/stusanctions.shtml.

Alcohol and Drug Policies Overview

THREE STRIKES

Once found responsible for an alcohol /drug violation(s) students will receive a strike. Strikes are cumulative over your entire career at JMU. Students may be suspended, using the standard guideline of 3 strikes, for a minimum of one semester. Students may be suspended prior to a third strike for violations which pose health or safety concerns to the student or the community. Examples of health and safety concerns include, but are not limited to, supplying alcohol to minors, hospitalizations, DUIs, and keg registration violations.

PARENTAL NOTIFICATION

This policy applies to those students who are under the age of 21. Parental notification will occur after the first alcohol and/or drug violation(s) and any subsequent violation thereafter. Cases that may involve parental notification include those where students’ cases have been adjudicated on-campus and the student has been found responsible or when a student is arrested or received a citation off-campus for an alcohol and/or drug charge(s).

OFF-CAMPUS ADJUDICATION

Once a JMU student has been convicted or received a citation for any felony or alcohol/drug violation(s) in Harrisonburg or Rockingham County they will be subject to university disciplinary action.

ENLIGHTENED CITIZEN AMNESTY POLICY

Students who voluntarily report they are in need of medical attention, have medical attention requested for them by a bystander, or bystanders who voluntarily report that someone else is in need of medical attention due to the consumption of alcohol or drugs may
Students found responsible for violating Alcohol and Drug regulations may be subject to attending Substance Education Programs

### By the Numbers

This two-hour program examines the reason for the establishment of community standards. An overview of VA laws and university policies is given. Students discuss personal values, community resources, and risk-reduction strategies for avoiding negative consequences of alcohol use. This short course was designed for minor alcohol violations.

### Calling the Shots

This three-week program guides students towards making future decisions more consistent with their values and in compliance with the law. Harrisonburg and/or JMU police participate in this program to answer students’ questions and address risk-reduction strategies. This program was designed for students who violated alcohol policy.

### BASICS

The University Health Center’s Substance Abuse Prevention Office coordinates BASICS - Brief Alcohol Screening and Intervention for College Students. The BASICS program is comprised of two 50-minute interview sessions. The first session retrieves information from the student about his/her substance use, using a self-assessment instrument. The second session is a feedback session designed to help the student assess his/her own behavior and potential risks, identify potential changes, and help reduce future problems related to substance abuse.

### BASICS II

The University Health Center’s Substance Abuse Prevention Office coordinates BASICS II - Brief Alcohol Screening and Intervention for College Students (Level II). BASICS II is appropriate when a student has previously participated in BASICS (Brief Alcohol Screening and Intervention for College Students) either as a judicial or other mandated referral. Comprised of two 50-minute sessions, BASICS II provides personalized feedback by examining the ongoing consequences of alcohol use and current or previous action plans to reduce alcohol-related risk. BASICS II is not therapy or substance abuse treatment.

### High Expectations

The University Health Center’s Substance Abuse Prevention Office coordinates High Expectations. The program is comprised of two 50-minute interviews. The first meeting retrieves information from the student about his/her marijuana or other drug use, using a self-assessment instrument. The second meeting is a feedback session designed to help the student assess his/her own behavior and potential risks, identify potential changes, and help reduce future problems related to marijuana or other drug use.

available to employees or students; and a clear statement that the institution will impose sanctions on employees in addition to students (consistent with local, state, and federal law), and a description of those sanctions, up to and including expulsion or termination of employment and referral for prosecution, for violations of the Commonwealth of Virginia’s standards of conduct.

This policy is applicable to all employees of the university, whether classified or non-classified, full- time or part-time salaried or hourly, and includes all instructional and administrative & professional faculty.

For further information including but not limited to prohibitions, rehabilitation and sanctions one can go to http://www.jmu.edu/JMUpolicy/1110.shtml within the university’s Manual of Policies and Procedures. Through comprehensive awareness programs, members of the University community learn more about the University's efforts to enhance their safety and become aware of their personal stake in their own security and that of others. A sample listing of crime prevention and personal safety programs presented by various offices of James Madison University in Academic year 2012-2013 will follow at the end of this document.

**Maintenance of Campus Facilities**

Facilities and landscaping at James Madison University are maintained in a manner that minimizes hazardous conditions and provides a safe and secure learning and working environment for its students, employees and visitors. Lighting and shrubbery tours are conducted at least once an academic year by representatives from segments of the campus community to include student government representatives, staff from Student Affairs, and staff from Facilities Management and Public Safety. Safety and security concerns are identified and recommendations for improvements are made. In addition, the University Safety Coordinator makes regular safety and health inspections, serves as a liaison with public health and safety officials and schedules safety lectures and training and follows up on recommendations with appropriate departments.

JMU students, faculty and staff have access to academic, recreational and administrative facilities on campus. The general public may attend cultural and recreational events on campus, with access limited to the facilities in which these events are scheduled.

The University's trespass policy enforced by the JMU Police and posted in university housing is as follows:

**Only those persons having legitimate business with James Madison University, members of the University community and their invited guests are permitted in this building.**

The University reserves the right to exclude all persons not conforming to acceptable behavior from these premises. Those who disregard this warning are to be considered in violation of criminal trespass (under cited Virginia code provisions) and are liable for prosecution.
JMU police officers may serve verbal or written trespass notices on non-members of the University community present on campus and may make immediate arrests of persons in secure areas for which they have no legitimate business. If a person served with a prior trespass notice reappears on campus, or if a person is found in a posted facility with no legitimate purpose in that building, he or she is subject to immediate arrest.

**Campus Sex Crimes Prevention Act and Sex Offender Registry and Access**

Incarceration may remove a sex offender from the streets but it does nothing to prevent the offender from committing another crime when released.

The Federal Campus Sex Crimes Prevention Act (CSCPA)(section 1601 of Public Law 106-386) is a law that provides for the tracking of convicted, registered sex offenders enrolled as students at institutions of higher education, or working or volunteering on campus. The law requires institutions of higher education to issue a statement advising the campus community where law enforcement agency information provided by a State concerning registered sex offenders may be obtained. It also requires sex offenders already required to register in a State to provide notice, to the appropriate state agency, as required under State law, of each institution of higher education in that State at which the person is employed, carries on a vocation, or is a student.
The CSCPA amended the Jacob Wetterling Crimes against Children and Sexually Violent Offender Registration Act, the Jeanne Clery Act and the Family Educational Rights and Privacy Act of 1974. The CSCPA covers not only individuals actually employed by an institution, but also those who are employed at an institution such as third party contractors (food service, custodial, etc.) through outsourcing.

This act provides special requirements relating to registration and community notification for sex offenders who are enrolled in or work at institutions of higher education. CSCPA also amended the Clery Act, an annual crime reporting law, and the Family Educational Rights and Privacy Act of 1974 to allow the disclosure of this information regarding students. As provided in the Wetterling Act, any person required to register under a state sex offender registration program must notify the state regarding each institution of higher education in the State of which the person is employed, carries on a vocation, or is a student and must also alert the state of any change in enrollment or employment status.

In the Commonwealth of Virginia convicted sex offenders must register with the Sex Offender and Crimes against Minors Registry. The purpose of the Sex Offender and Crimes against Minors Registry shall be to assist the efforts of law-enforcement agencies and others to protect their communities and families from repeat sex offenders and to protect children from becoming victims of criminal offenders by helping to prevent such individuals from being allowed to work directly with children.

The JMU Office of Residence Life Housing Contract provides for the cancellation of the housing contract of a sex offender, or any other convicted person, who is disruptive to the educational environment of the residence hall.

**Crimes of Violence: Sexual Assault, Domestic Violence, Dating Violence and Stalking**

*James Madison University prohibits domestic violence, dating violence, sexual assault and stalking. Victims who report they have been a victim of domestic violence, dating violence, sexual assault or stalking, whether it occurred on or off-campus, will be provided an explanation of his or her rights and options.*

*Beginning with the 2014 Annual Security Report dating violence, domestic violence, and stalking will be added to sex offences for reporting purposes*

**Sexual Assault**

The JMU Police Department recognizes the fact that sexual assault (rape, forcible sodomy, sexual battery, object penetration, and attempts thereof) are personal violent crimes that have great psychological and physical effects on the victims. It is the policy of the JMU Police Department to assist sexual assault victims in a supportive manner, using appropriate crisis intervention skills. Because of the seriousness of these offenses and the delicate nature of the investigations involved, it is important for the department to undertake diligent investigations in order to increase the reporting of these crimes. Reducing recidivism and serial criminal offenses through the apprehension and prosecution of the assailants is a department priority. The thorough, complete and accurate collection of evidence is a vital and often key requirement for the successful investigation and prosecution of sexual assaults.

Virginia defines sexual assault “means those offenses involving sexual penetration or sexual contact with any person by force or threat of force, fear, intimidation, ruse, or through the use of a person’s mental incapacity or physical helplessness, or any other attempt to force sexual penetration/contact on any person.

To constitute lack of consent, acts must be committed by force, intimidation or through use of the victim’s mental incapacity or physical helplessness. Intoxication may indicate an inability to give consent.

If a sexual offense should occur, the victim should take the following actions:

- The victim should go to a safe place and contact a friend or family member for support.
- Call the JMU police if the incident occurred on campus at 540-568-6911; if the incident happened in the City of Harrisonburg call the Emergency 911, or Business 540-434-4436 for assistance.
- The responding officer’s primary responsibility will be the victim’s physical well-being and emergency medical needs. An investigation will follow to include the obtaining preliminary statements, preserving the
crime scene, and collection of evidence. An investigator trained in sexual assault will respond and continue the investigation.

- The JMU Police will contact the Counseling and Student Development Center upon request. **Victims have the option of keeping their report of sexual assault in complete confidence, protecting their right to anonymity, when making a report through the JMU Counseling and Student Development Center.**
- The victim should preserve the crime scene and/or evidence. Do not destroy the physical evidence that may be found in the vicinity of the crime. If the crime occurred in the victim's home, the victim should not clean or straighten until the police have had an opportunity to collect evidence.
- Do not shower, bathe, or douche. Do not urinate, if possible. Do not eat, drink liquids, smoke or brush teeth if oral contact took place.
- Keep the clothes worn during the offense. If clothes are changed, place clothes in a paper bag (evidence deteriorates in plastic).
- Get prompt medical attention at Rockingham Memorial Hospital or the University Health Center. If you have not yet called the police, you can go to the ER at the hospital, tell them you were sexually assaulted, and they will call the police for you. They will then perform a Physical Evidence Recovery Kit (PERK) which collects evidence to use in pressing charges. (The Virginia Supreme Court can pay expenses related to the PERK kit exam. The Criminal Injuries Compensation Fund applies, per Virginia Code Section 19.2-368.18).
- Tell someone all details remembered about the assault.
- Write down all details remembered as soon as possible.
- The victim can contact one of the following resources. Institutional personnel will assist the student in notifying these resources.

  - Student Wellness & Outreach: 540-568-2831
  - CARE: 540-568-6411
  - Counseling & Student Development Center: 540-568-6552

If an incident is reported to the JMU Counseling and Student Development Center, a professional staff member will be assigned to work with the victim on deciding whether or not to pursue legal action and will connect the victim with local programs and agencies, such as the Collins Center and the Victim/Witness Assistance Program. Victims have the option of keeping their report of sexual assault in complete confidence, protecting their right to anonymity, when making a report through the JMU Counseling and Student Development Center.

Following any incident, victims are encouraged to make a report to JMU Police Department or local police if they have not done so previously. This action does not obligate prosecution, but it does make legal action possible if the decision to prosecute is made at a later date. The earlier an incident is reported, the easier it is to collect valuable evidence and investigate the incident.

Additionally a Mutual Aid agreement with the Department of State Police, for the use of their joint forces, both regular and auxiliary, equipment, and materials when needed in the investigation of any felony criminal sexual assault or medically unattended death occurring on property owned or controlled by the institution of higher education or any death resulting from an incident occurring on such property has been enacted.

Protective orders are civil court orders meant to protect victims who have experienced or are reasonably in fear of physical violence, sexual assault or stalking by another individual. The JMU Police Department will explain and provide assistance in the process of obtaining protective orders. An emergency protective order (EPO) aims to protect the health or safety of any person regardless of a decision to arrest. The patrol officer shall request an emergency protective order for the victim for any act involving violence, force, or threat that results in bodily injury, OR places one in reasonable apprehension of death, sexual assault, or bodily injury. Such acts include, but are not limited to, any forceful detention, stalking, or criminal sexual assault in violation of Article 7 (§ 18.2-61 et seq.) of Chapter 4 of Title 18.2, OR any criminal offense that results in bodily injury or places one in reasonable apprehension of death, sexual assault, or bodily injury. An emergency protective order is issued by a judge or magistrate, upon request of a law enforcement officer or an alleged victim. To obtain an emergency protective order, the alleged victim must have been subjected to an act of violence, force, or threat, and the judge or magistrate finds that (i) there is probable danger of a further such act being committed by the respondent against the alleged victim or (ii) a petition or warrant for the arrest of the respondent has been issued for a criminal offense resulting from the commission of an act of violence, force, or threat.

An emergency protective order can:

1. Prohibit acts of violence, force, or threat or criminal offenses resulting in injury to person or property,
2. Prohibit contacts by the respondent with the petitioner or the petitioner’s family or household members, and
3. Grant other conditions that the judge or magistrate deems necessary to prevent (i) acts of violence, force, or threat, (ii) criminal offenses resulting in injury to person or property, or (iii) communication or other contact of any kind by the respondent.
This remains in effect for 72 hours unless the 72 hour period expires at a time that Court is not in session. In that case, the order is extended until 5:00 p.m. on the next business day that the Court is in session. The victim may request a preliminary protective order, within a reasonable period of time following the incident, through the general district court. A preliminary protective order (PPO) is issued by a judge, upon request of an alleged victim or law enforcement officer. To obtain a preliminary protective order, the alleged victim must have been subjected to an act of violence, force, or threat, or a petition or warrant has been issued for the arrest of the alleged perpetrator for any criminal offense resulting from the commission of an act of violence, force, or threat. An alleged victim must appear before a judge in person to request a preliminary protective order.

A preliminary protective order can:

1. Prohibit acts of violence, force, or threat or criminal offenses that may result in injury to person or property,
2. Prohibit contacts by the respondent with the petitioner or the petitioner’s family or household members, and
3. Grant other conditions that the court deems necessary to prevent (i) acts of violence, force, or threat, (ii) criminal offenses resulting in injury to person or property, or (iii) communication or other contact of any kind by the respondent.

A preliminary protective order is valid for 15 days, or until the date of the next hearing scheduled at the time of issuance of the preliminary protective order for a permanent or full protective order. A full protective is issued by a judge, following a hearing at which both the petitioner and respondent are present.

A full protective order can:

1. Prohibit acts of violence, force, or threat or criminal offenses that may result in injury to person or property,
2. Prohibit contacts by the respondent with the petitioner or the petitioner’s family or household members, and
3. Grant other conditions that the court deems necessary to prevent (i) acts of violence, force, or threat, (ii) criminal offenses resulting in injury to person or property, or (iii) communication or other contact of any kind by the respondent.

A Protective Order is valid for any period of time up to a maximum of two years. It is very important to keep a copy of the protective order with you at all times. Show these to the police officer, magistrate, prosecutor, or judge if he/she violates the order.

If you are a student or an employee victim, please inform the JMU Police of any protection orders. Officers shall enforce protective orders from other states or possessions of the United States as if they were issued in the Commonwealth of Virginia.

University judicial action, criminal prosecution and civil suits are all options available to victims of sexual assault. Along with criminal prosecution, University judicial action is an option that can be pursued in lieu of/or concurrent with legal prosecution. Judicial proceedings will provide a prompt, fair, and impartial investigation and resolution conducted by officials who receive annual training on issues related to sexual assault, domestic violence as well as dating violence and stalking. To begin a university judicial action, the counselor, police or victim should contact the Office of Judicial Affairs at 540-568-6218 to speak with a judicial advisor. The accused has the right to a presumption of not being responsible for a violation until proven responsible as determined by a preponderance of the evidence present at the hearing. During judicial proceedings, both the victim and the accused may be present and may have an attorney and/or adviser present to provide support and advice. Both the victim and the accused will be informed simultaneously in writing of the results of any disciplinary proceeding, and be informed of any changes to the result and when the results become final. The right to appeal to a higher judicial body or university administrative official can be made within 3 days of receiving the judicial decision from JMU. Student victims will be provided assistance and have the option to change their academic, living, transportation, and working situations after an alleged incident, if such changes are reasonably available. Judicial response to referral(s) related to act(s) of sexual violence can result in a charge of “Sexual assault” against the accused; (J34-100 Student Handbook Sexual Assault)

Sexual assault is defined as sexual contact without consent and includes but is not limited to:

- intentional touching, either of the victim or when the victim is forced to touch, directly or through clothing, another person’s genitals, breasts, thighs or buttocks;
- rape (sexual intercourse without consent whether by an acquaintance or a stranger);
- attempted rape;
- sodomy (oral sex or anal intercourse) without consent; or sexual penetration with an object without consent

Consent means words or actions that show a knowing and voluntary agreement to engage in mutually agreed-upon sexual activity. Consent cannot be gained by force, intimidation, by ignoring or acting in spite of the objections of another, by previous consent, or by taking advantage of the victim’s incapacitation or physical helplessness where the accused student knows or reasonably should have known of such incapacitation. Incapacitation means the physical and/or mental inability to make informed, rational judgments. States of incapacitation
include, without limitation, sleep and blackouts. Where alcohol and/or drugs are involved, one does not have to be intoxicated or drunk to be considered incapacitated; incapacity is determined by how the alcohol and/or drugs consumed impacts a person’s decision-making capability. Verbal misconduct, without accompanying physical contact as described above, is not defined as sexual assault. Verbal misconduct may constitute harassment, which is also prohibited under university regulations.

Accusing students who report a sexual assault will not be charged with alcohol or drugs, even if alcohol and drugs were involved.

The institution will, upon written request, disclose to the victim of a crime of violence (as that term is defined in Section 16 of Title 18, United States Code), or a non-forcible sex offense, the report on the results of any disciplinary proceeding conducted by the institution against a student who is the alleged perpetrator of such crime or offense. If the victim is deceased as a result of such crime or offense, the next of kin of such victim shall be treated as the alleged victim for these purposes.

Volunteer On-campus Sexual Assault Victim Advocacy and Support Organizations

CARE, and its Campus Assault Response Helpline (540)568-6411, was established to serve James Madison University students by James Madison University students thus creating an environment that offers compassion and support for sexual assault survivors. CARE volunteers offer a free and confidential support system including a telephone helpline service and Peer Assistant program. CARE surrounds both its volunteers and the students it serves in a warm and supportive atmosphere. CARE is not possible without the help and support of volunteers and contributors. Non-emergency contact may be made with CARE through the James Madison University Women’s Resource Center at (540)568-3407.

Rockingham/Harrisonburg Community Based Sexual Assault Services

The Collins Center - The Collins Center of Harrisonburg and Rockingham, Inc. is a grass roots organization currently located at 165 S. Main St., Suite “D,” Harrisonburg, VA 22801. In October of 1987, Shirley Collins, a well-known community member, was sexually assaulted in Harrisonburg. She died of the injuries she sustained during that assault. The community was devastated and many people were moved to take action. In response, community leaders, allied professionals and private citizens developed a task force to analyze how sexual violence was affecting the community. A needs assessment indicated that many people were seeking services for sexual assault and abuse, but few resources were available that could address their comprehensive needs. As a result, CASA was incorporated in 1988 and began providing services in October of 1989. The name of the organization was changed to the Collins Center in 2007. All Collins Center services are free and confidential.

The Collins Center addresses the needs of women, men and children who have experienced the trauma of sexual violence through crisis intervention, advocacy and support. The agency also strives to reduce the occurrence of sexual violence by raising awareness of this issue in our community. The Collins Center staff and volunteers work to achieve this mission through the provision of direct victim services, allied professional training and community education programs. The philosophy behind the agency’s services is to promote empowerment as the basis for decision-making and dealing with one’s own unique situation.

Services provided by The Collins Center include crisis intervention, support groups, court advocacy, workshops, education, information, and referrals. The Collins Center can be reached by calling the 24-hour hotline, 434-2272. The Collins Center non-emergency office line is 432-6430.

Sexual Assault Nurse Examiners, Rockingham Memorial Hospital (RMH) - Sexual Assault Nurse Examiner’s program, otherwise known as SANE, is a program set up specifically to gather forensic evidence from victims of sexual assault. SANE nurses are on call for duties to be performed at the RMH Emergency Room. As a routine, police investigators suggest that victims receive an exam by a SANE nurse if they are interested in pressing charges, though SANE exams are administered to walk-in victims. If a SANE nurse is unavailable a qualified RMH Emergency Room physician will administer the recovery of forensic evidence utilizing the PERK (physical evidence recovery) kit.

SANE nurses are trained in examination techniques, forensic practice, how to collaborate with law enforcement officers, and how to present evidence as an expert witness in the courtroom. The SANE exam is an evidentiary exam, not a diagnostic one. If the victim does not wish to support a police investigation or declines a forensic exam, she/he will be referred to the Emergency Room Physician. There is a SANE nurse available 24/7 and exams are done for both adult and pediatric victims.

For the exam, the SANE nurse obtains a brief medical history and may ask some detail about the assault that will help to know what areas of physical examination are most important for a thorough collection of forensic evidence. Blood, hair, and specific body fluids will be collected and packaged in a manner prescribed by the Virginia State Crime Lab (we are
located in the Roanoke region - that lab is about two hours distant). Specimens are labeled in detail and then sealed in a box that is remitted to law enforcement, following the rules of chain-of-custody. The investigating agency is then responsible for carrying the sealed evidence to the crime lab.

At the completion of the exam, the victim is offered prophylaxis for sexually transmitted diseases (STDs) and pregnancy and is given follow-up instructions depending on any findings during the exam. Follow-up can be through a private physician, University Health Center, and/or the Public Health Department of Rockingham/Harrisonburg.

When the victim is a student from a local college/university, the SANE nurse requests of the victim that they allow the nurse call a professional counselor from that school to let them know of the assault. The SANE nurses are bound by the limits of confidentiality, however, and may be able to only let the counselor know that an assault occurred on a student, but be unable to name that student if the victim wishes not to be named. The SANE nurses’ experience has been that students rarely decline their school’s counseling services.

The SANE team works in concert with the SART (Sexual Assault Response Team). SART is composed of representatives from SANE, local law enforcement (Harrisonburg city and JMU Police, Rockingham County Sheriff’s Office), the Commonwealth Attorney’s (local prosecutor) Office, Harrisonburg-Rockingham Department of Social Services (primarily Child Protective Services), Citizens against Sexual Assault, First Step (for victims of domestic violence), JMU’s Sexual Assault Prevention Office, and representatives from Eastern Mennonite University and Bridgewater College. SART meets quarterly to discuss how communications can be maintained and improved, debrief members about problems with particular cases, and use the meeting to educate each of the members about the varied roles played by each with victims of sexual assault.

The JMU Police Department along with the JMU community is committed to ending sexual violence in our community by encouraging its community members to be a courageous bystander with safe and positive options for bystander interventions to prevent harm or intervene.

Bystander intervention recommendations include:

- **Notice the event and interpret it as an emergency**
  
  We often choose to ignore the situation, look away, or call it something else. It is important to remember that no one has a right to be violent, even if two people are dating.

- **Take Responsibility for acting**

- **Decide How to Act**
  
  In a situation potentially involving sexual assault, relationship violence, or stalking approach everyone as a friend, do not be antagonistic and avoid using violence. Be honest and direct whenever possible. Recruit help if necessary and remember to keep yourself safe and if things get out of hand or become too serious, contact the police.

- **Choose to Act**

While you can never completely protect yourself from sexual assault, there are some things you can do to help reduce your risk of being assaulted. Avoid dangerous situations by:

- Be aware of your surroundings. Knowing where you are and who is around you may help you to find a way to get out of a bad situation.
- Try to avoid isolated areas. It is more difficult to get help if no one is around.
- Walk with purpose. Even if you don’t know where you are going, act like you do.
- Trust your instincts. If a situation or location feels unsafe or uncomfortable, it probably isn’t the best place to be.
- Try not to load yourself down with packages or bags as this can make you appear more vulnerable.
- Make sure your cell phone is with you and charged and that you have cab money.
- Don’t allow yourself to be isolated with someone you don’t trust or someone you don’t know.
- Avoid putting music headphones in both ears so that you can be more aware of your surroundings, especially if you are walking alone.
- When you go to a social gathering, go with a group of friends. Arrive together, check in with each other throughout the evening, and leave together.
Don't leave your drink unattended while talking, dancing, using the restroom, or making a phone call. If you've left your drink alone, just get a new one. Date rape drugs are colorless, tasteless, and odorless substances that can be placed in any drink, not just alcohol, undetected. They are strong relaxants the effects of which can be felt as soon as fifteen minutes after ingestion. The side effects of date rape drugs include possible blackouts, coma, impaired judgment, memory impairment, dizziness, headaches, confusion and loss of coordination. Alcohol can intensify these side effects. Date rape drugs often cause memory loss. Some date rape drugs remain in the system for as little as 6-8 hours, making immediate testing imperative.

Common date rape drugs are rohypnal, GHB, ketamine, and alcohol. Alcohol remains the most commonly used date rape drug both on and off college campuses. Today it remains the substance most frequently associated with date rape, and the most easily accessible sedating substance. When large enough quantities are consumed alcohol can have a tremendous sedating effect leaving anyone vulnerable to assault.

If you suspect or suspect someone you know has been drugged and/or assaulted, first, go to a safe place; call the JMU police at 540-568-6911 or the local police if off campus by dialing 911. Go to the University Health Center and/or the local hospital’s emergency room for immediate treatment and testing.

**Most importantly, remember that whether you follow these tips or not, if someone sexually assaults you, it is not your fault. You are never to blame for someone else’s actions. No one deserves or wants to be raped.**

Prevention, intervention and education programs specifically addressing rape, acquaintance rape and other sexual offenses are regularly sponsored by a variety of organizations at James Madison University. The JMU Health Center, Student Wellness & Outreach, the Counseling and Student Development Center, and the Women’s Resource Center are among the groups that present programs throughout the year in classes, residence halls and student organizations. Programs on sexual assault occur at least once each semester in all residence halls and the topic is addressed at freshman orientation.

**Student Wellness and Outreach (SWO) Educational Programming and Other Services for Addressing Sexual Assault and Intimate Partner Violence**

*Student Wellness & Outreach (SWO) delivered 17 educational programs focused on campus sexual assault prevention and intimate partner violence during the 2012-2013 academic years, which constituted 12% of SWO’s total health education programming. These programs reached 865 JMU students over the course of 25 hours of educational contact.*

**Programs & Services**

**Sexversations** Sexversations is a sexual assault outreach program facilitated by CARE (Campus Assault ResponsE) that uses guided and facilitated candid conversations to educate students on sexual assault. This program is framed around 4 learning objectives that address defining “sexual assault”, defining “consent” as it pertains to sexual assault, responding to situations in their own lives that could be leading towards sexual assault occurring, identifying primary campus resources related to sexual assault and beginning conversations about sex, and sexual assault.

**Intimate Partner Violence (IPV) Program** The IPV program is coordinated by CARE (Campus Assault ResponsE) and is designed to engage and educate students on what factors constitute relationship abuse and ways to support survivors. This program also discusses healthy relationship and resources on and off campus that JMU students can utilize. Learning objectives for the program include identifying differences between domestic and intimate partner violence, recognizing the Power and Control Wheel, explaining 3 out of the 8 constructs of the Power of Control Wheel, and identifying ways to support survivors and list resources on and off campus.
The James Madison University Police Department assigns domestic or family violence complaints a high priority. The nature and seriousness
of crimes committed between family or household members are not mitigated because of the relationships or living arrangements of those involved. Therefore, law enforcement must exercise leadership in the community in responding to domestic violence. An immediate criminal justice response can make a major difference in the disputants' lives. If an assault should occur, the victim should go to a safe place and contact a friend or family member for support. Call the JMU police if the incident occurred on campus at 540-568-6911; if the incident happened in the City of Harrisonburg call the Emergency 911, or Business 540-434-4436 for assistance. With all due consideration for their own safety, the policy of the JMU Police department responding to a domestic disturbance complaint shall (1) restore order; (2) arrest persons when probable cause exists that a crime has occurred; (3) provide safety and security for the crime victim(s); and, (4) help participants contact appropriate agencies to help prevent future occurrences.

Virginia defines domestic abuse as “any threat or act of violence, including forceful detention which results in physical injury or places one in reasonable apprehension of bodily injury and which is committed by a person against such person’s family or household member”. In essence domestic violence is any violent or controlling behavior by a person toward a spouse or partner. Although the partner is the primary target, domestic abuse also affects the children in the household, extended family members, and even the community at large.

If anyone has been abused by spouse or domestic partner and they want to report it as a crime; call the JMU police if the incident occurred on campus at 540-568-6911; if the incident happened in the City of Harrisonburg call the Emergency 911, or Business 540-434-4436 for assistance. Victims have the option of keeping their report of domestic violence in complete confidence, protecting their right to anonymity, when making a report through the JMU Counseling and Student Development Center. Institutional personnel will assist the student in notifying these authorities, if the student requests the assistance of these personnel.

The JMU Police will arrest the aggressor when probable cause exits by the totality of the circumstances which may include:

1. Evidence that any of the parties acted in self-defense.
2. A history of violence (prior assault convictions) of the parties involved, including history of calls for service.
3. The relative severity of injuries inflicted on all parties, plus consideration whether the injuries were offensive or defensive.
4. The relative size, bulk, and strength of the parties involved.
5. Evidence from persons involved in or witnesses to the incident.
6. The likelihood of future injury to any party.
7. Current or previous protection orders filed against either party.

As with any crime, it is important to preserve evidence. Physical evidence can include injuries of the victim, evidentiary articles that substantiate an attack and the crime scene itself. Photographs of injuries and the crime scene showing a struggle occurred can be invaluable.

Protective orders are civil court orders meant to protect victims who have experienced or are reasonably in fear of physical violence, sexual assault or stalking by another individual. The JMU Police Department will explain and provide assistance in the process of obtaining protective orders.

A special kind of Protective Order, called a Family Abuse Protective Order, exists for victims who have experienced or are in fear of physical threat/violence, sexual assault or stalking by a family member. Regardless of whether an arrest is made, if the responding officer has probable cause to believe that a danger of acts of family abuse exists, the officer shall seek an emergency protective order on behalf of the victim. Family abuse includes any act involving violence, force, or threat that results in bodily injury or places one in reasonable apprehension of death, sexual assault, or bodily injury and that is committed by a person against such person's family or household member. Such act includes, but is not limited to, any forceful detention, stalking, criminal sexual assault in violation of Article 7 (§ 18.2-61 et seq.) of Chapter 4 of Title 18.2, or any criminal offense that results in bodily injury or places one in reasonable apprehension of death, sexual assault, or bodily injury. An abused/family household member may petition the Juvenile and Domestic Relations Court for a Preliminary Protective Order (PPO). After an ex parte hearing and based on immediate and present danger of family abuse or evidence sufficient to establish probable cause that family abuse has recently occurred, the court may issue a PPO (protecting the petitioner or his or her family, or both). At the hearing where the PPO is issued, a hearing date for a permanent or full protective order shall be set. The PPO is valid for up to 15 days. In addition to the restrictions and prohibitions placed in a PPO, the full protective order may require an abuser to pay for the victim and children to live elsewhere, and for the abuser to receive treatment or counseling. The victim must attend a protective order hearing at the Juvenile and
If you are not able to obtain a family abuse protective order you may still be able to obtain a general emergency protective order (EPO) which aims to protect the health or safety of any person regardless of a decision to arrest. An emergency protective order is issued by a judge or magistrate, upon request of a law enforcement officer or an alleged victim. To obtain an emergency protective order, the alleged victim must have been subjected to an act of violence, force, or threat, and the judge or magistrate finds that (i) there is probable danger of a further such act being committed by the respondent against the alleged victim or (ii) a petition or warrant for the arrest of the respondent has been issued for a criminal offense resulting from the commission of an act of violence, force, or threat.

An emergency protective order can:

1. Prohibit acts of violence, force, or threat or criminal offenses resulting in injury to person or property,
2. Prohibit contacts by the respondent with the petitioner or the petitioner’s family or household members, and
3. Grant other conditions that the judge or magistrate deems necessary to prevent (i) acts of violence, force, or threat, (ii) criminal offenses resulting in injury to person or property, or (iii) communication or other contact of any kind by the respondent.

An emergency protective order expires at 11:59 p.m. on the third day following issuance. If the expiration occurs on a day that court is not in session, the emergency protective order shall be extended until 11:59 p.m. on the next day that the court that issued the order is in session. The victim may request a preliminary protective order, within a reasonable period of time following the incident, through the general district court. A preliminary protective order (PPO) is issued by a judge, upon request of an alleged victim. To obtain a preliminary protective order, the alleged victim must have been subjected to an act of violence, force, or threat, or a petition or warrant has been issued for the arrest of the alleged perpetrator for any criminal offense resulting from the commission of an act of violence, force, or threat. An alleged victim must appear before a judge in person to request a preliminary protective order.

A preliminary protective order can:

1. Prohibit acts of violence, force, or threat or criminal offenses that may result in injury to person or property,
2. Prohibit contacts by the respondent with the petitioner or the petitioner’s family or household members, and
3. Grant other conditions that the court deems necessary to prevent (i) acts of violence, force, or threat, (ii) criminal offenses resulting in injury to person or property, or (iii) communication or other contact of any kind by the respondent.

A preliminary protective order is valid for 15 days, or until the date of the next hearing scheduled at the time of issuance of the preliminary protective order for a permanent or full protective order. A full protective is issued by a judge, following a hearing at which both the petitioner and respondent are present.

A protective order can:

1. Prohibit acts of violence, force, or threat or criminal offenses that may result in injury to person or property,
2. Prohibit contacts by the respondent with the petitioner or the petitioner’s family or household members, and
3. Grant other conditions that the court deems necessary to prevent (i) acts of violence, force, or threat, (ii) criminal offenses resulting in injury to person or property, or (iii) communication or other contact of any kind by the respondent.

A full protective order is valid for any period of time up to a maximum of two years. It is very important to keep a copy of the protective order with you at all times. Show these to the police officer, magistrate, prosecutor, or judge if he/she violates the order.

If you are a student or employee victim, please inform the JMU Police of any protection orders. Officers shall enforce protective orders from other states or possessions of the United States as if they were issued in the Commonwealth of Virginia.

The victim may also apply for an arrest warrant. If a warrant is issued, the alleged perpetrator will be arrested. An arrest warrant charges someone with committing a crime, usually assault and battery.

Along with criminal prosecution, University judicial action is an option that can be pursued in lieu of/or concurrent with legal prosecution. Judicial proceedings will provide a prompt, fair, and impartial investigation and resolution conducted by officials who receive annual training on issues related to domestic violence as well as dating violence, sexual assault and stalking. The accused has the right to a presumption of not being responsible for a violation until proven responsible as determined by a preponderance of the evidence present at the hearing. To begin a university judicial action, the counselor, police or victim should contact the Office of Judicial Affairs at 540-568-6218 to speak with a judicial.
advisor. During campus judicial proceedings, both the victim and the accused may be present and may have an attorney and/or adviser present to provide support and advice. Both the victim and the accused will be informed simultaneously in writing of the results of any disciplinary proceeding, and be informed of any changes to the result and when the results become final. The right to appeal to a higher judicial body or university administrative official can be made within 3 days of receiving the judicial decision from JMU. Student victims will be provided assistance and have the option to change their academic, living, transportation, and working situations after an alleged incident, if such changes are reasonably available. Judicial response to referral(s) related to act(s) of domestic violence can result in a charge of “Violence to Persons” (J43-100 Student Handbook) against the accused; “no student shall engage or attempt to engage in any form of violence directed toward another person or group of people” (J43-101). Sanctions may include disciplinary probation and educational programs and may result in suspension from the university.

**Red flags in a relationship:**

**Do you...**

- Feel afraid of your partner most of the time?
- Feel that you can't do anything right?
- Get embarrassed by your partner’s behavior toward you?
- Believe that you deserve to be hurt or mistreated?
- Avoid topics or situations out of fear of angering your partner?

**Does your partner...**

- Humiliate, criticize or yell at you?
- Blame you for his behavior?
- Threaten to hurt you?
- Threaten to take your kids away?
- Threaten to harm your kids or pets?
- Force you to have sex?
- Act jealous and possessive?
- Keep you from seeing friends and family?
- Limit your access to money or necessities?
- Keep you from getting a job or going to school?
- Constantly check up on you?
- Threaten to kill or hurt himself if you leave?

Pay attention to the “red flags “and trust your instincts. Survivors of domestic violence frequently report that their instincts told them that there was something wrong early on but they disregarded the warning signs and didn’t know that these signs were indicative of an abusive relationship. Always take time to get to know a potential partner and watch for patterns of behavior in a variety of settings. Keeping in touch with your support system and participating in good self-care can lower your risk of being involved in an abusive relationship.
The JMU Police Department along with the JMU community is committed to stopping domestic violence in our community by encouraging its community members to be a courageous bystander with safe and positive options for bystander interventions to prevent harm or intervene. Bystander interventions:

- Speak up when you hear threatening language.
- Hold people accountable for their actions.
- Respectfully challenge comments that degrade women.

**Dating Violence**

James Madison University is committed to providing on-campus security, education, training, and victim services to combat violence against all persons. “Dating violence” is defined as violence committed by a person “who is or has been in a social relationship of a romantic or intimate nature with the victim;” and “where the existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved in the relationship” 20 U.S.C. 1152(f) (1).

**Red flags in a relationship might include your partner:**

- Always wanting to know where you are and who you are with
- Not wanting you to spend time with others
- Getting angry if you do not answer a call or text immediately
- Always blaming you for their mistakes
- Calling you names or constantly putting you down
- Yelling constantly, throwing or punching objects
- Pressuring you to do more sexually than you are ready for

Pay attention to the “red flags” and trust your instincts. Instincts may have told them that there was something wrong early on but they disregarded the warning signs and didn’t know that these signs were indicative of an abusive relationship. Understand barriers to getting help such as fear of being judged, embarrassment and not wanting to admit that it’s a real problem. Always take time to get to know a potential partner and watch for patterns of behavior in a variety of settings. Keeping in touch with your support system and confide in them. Participating in good self-care can lower your risk of being involved in an abusive relationship.

Go to a safe place. Contact a friend or family member for support if possible. The Officer’s primary responsibility will be the victim’s physical well-being and emergency medical needs with an investigation to follow to include the obtaining preliminary statements, preserving evidence, and documentation. Stalking behaviors can include:

- Showing up at your home or place of work unannounced or uninvited.
- Sending you unwanted text messages, letters, emails and voicemails.
- Leaving unwanted items, gifts or flowers.
- Constantly calling you and hanging up.
- Use social networking sites and technology to track you.
- Spreading rumors about you via the internet or word of mouth.
- Making unwanted phone calls to you.
As with any crime, it is important to preserve evidence.

As with any crime, it is important to preserve evidence. Physical and evidentiary articles that substantiate the crime such as text messages, phone calls, e-mails, pictures of injuries, medical records, and eyewitness reports should be protected.

If you feel you are being stalked and want to report it as a crime; you should immediately call the call the JMU Police if the incident occurred on campus at 540-568-6911; if the incident happened in the City of Harrisonburg call the Emergency 911, or Business 540-434-4436 for assistance. If you are in immediate danger, go to a safe place. Contact a friend or family member for support if possible. The Officer’s primary responsibility will be the victim’s physical well-being and emergency medical needs followed by an investigation to include obtaining preliminary statements, preserving evidence, and documentation with possible arrest. Victims have the option of keeping their report of stalking in complete confidence, protecting their right to anonymity, when making a report through the JMU Counseling and Student Development Center. Institutional personnel will assist the student in notifying these authorities, if the student requests the assistance of these personnel.

Helpful information can be found at this link http://www.dcjs.virginia.gov/victims/documents/stalking.pdf. Talking to someone who is trained to work with victims and survivors may help alleviate some of the symptoms that may be interfering with other aspect of your life.

The JMU Counseling & Student Development Center (CSDC) offers support and counseling for individuals who have experienced dating violence. That support may be through individual or group counseling. Counseling is also available for friends and partners of people who have experienced this kind of violence. Additionally, the JMU CSDC offers psycho-educational programs for students on issues of relationships (this includes such topics as avoiding "toxic" relationships and violence to oneself by a dating partner). Bystander intervention can be as simple as calling the police if you witness a serious situation in progress.

As with any crime, it is important to preserve evidence. Physical and evidentiary articles that substantiate the crime such as text messages,
voicemails, videos, letters, photos, cards, unwanted items or gifts and emails should be saved. You should also write down the times, places and dates all the incidents occurred. You should include the names and contact information of people who witnessed what happened and provide this information to the police. Protective orders are civil court orders meant to protect victims who have experienced or are reasonably in fear of physical violence, sexual assault or stalking by another individual. The JMU Police Department will provide assistance in the process of obtaining protective orders. An emergency protective order (EPO) aims to protect the health or safety of any person regardless of a decision to arrest. An emergency protective order (EPO) is issued by a judge or magistrate, upon request of a law enforcement officer or an alleged victim. To obtain this emergency protective order, the alleged victim must have been subjected to an act of violence, force, or threat, and the judge or magistrate finds that (i) there is probable danger of a further such act being committed by the respondent against the alleged victim or (ii) a petition or warrant for the arrest of the respondent has been issued for a criminal offense resulting from the commission of an act of violence, force, or threat.

An emergency protective order can:

1. Prohibit acts of violence, force, or threat or criminal offenses resulting in injury to person or property,
2. Prohibit contacts by the respondent with the petitioner or the petitioner’s family or household members, and
3. Grant other conditions that the judge or magistrate deems necessary to prevent (i) acts of violence, force, or threat, (ii) criminal offenses resulting in injury to person or property, or (iii) communication or other contact of any kind by the respondent.

This remains in effect for 72 hours unless the 72 hour period expires at a time that Court is not in session. In that case, the order is extended until 5:00 p.m. on the next business day that the Court is in session. The victim may request a preliminary protective order, within a reasonable period of time following the incident, through the general district court. A preliminary protective order (PPO) is issued by a judge, upon request of an alleged victim. To obtain a preliminary protective order, the alleged victim must have been subjected to an act of violence, force, or threat, or a petition or warrant has been issued for the arrest of the alleged perpetrator for any criminal offense resulting from the commission of an act of violence, force, or threat. An alleged victim must appear before a judge in person to request a preliminary protective order.

A preliminary protective order can:

1. Prohibit acts of violence, force, or threat or criminal offenses that may result in injury to person or property,
2. Prohibit contacts by the respondent with the petitioner or the petitioner’s family or household members, and
3. Grant other conditions that the court deems necessary to prevent (i) acts of violence, force, or threat, (ii) criminal offenses resulting in injury to person or property, or (iii) communication or other contact of any kind by the respondent.

A preliminary protective order is valid for 15 days, or until the date of the next hearing scheduled at the time of issuance of the preliminary protective order for a permanent or full protective order. A full protective is issued by a judge, following a hearing at which both the petitioner and respondent are present.

A protective order can:

1. Prohibit acts of violence, force, or threat or criminal offenses that may result in injury to person or property,
2. Prohibit contacts by the respondent with the petitioner or the petitioner’s family or household members, and
3. Grant other conditions that the court deems necessary to prevent (i) acts of violence, force, or threat, (ii) criminal offenses resulting in injury to person or property, or (iii) communication or other contact of any kind by the respondent.

A full protective order is valid for any period of time up to a maximum of two years. It is very important to keep a copy of the protective order with you at all times. Show these to the police officer, magistrate, prosecutor, or judge if he/she violates the order.

If you are a student or employee victim, please inform the JMU Police of any protection orders. Officers shall enforce protective orders from other states or possessions of the United States as if they were issued in the Commonwealth of Virginia.

A student victim of stalking has the right, in addition to filing charges through the criminal justice system, can file a complaint with the university’s Office of Judicial Affairs, relative to acts of violence toward them or another or committed by JMU student(s). Regardless of whether the act of violence occurred on or off-campus since the University reserves the right to hold students accountable for certain types of off-campus behavior. Disciplinary action will result if a student’s behavior jeopardizes the educational atmosphere or mission of the institution. Along with criminal prosecution, University judicial action is an option that can be pursued in lieu of/or concurrent with legal prosecution. Judicial proceedings will provide a prompt, fair, and impartial investigation and resolution conducted by officials who receive annual training on issues related to dating violence, as well as domestic violence, sexual assault and stalking. The accused has the right to a presumption of not being responsible for a violation until proven responsible as determined by a preponderance of the evidence present at
the hearing. To begin a university judicial action, the counselor, police or victim should contact the Office of Judicial Affairs at 540-568-6218 to speak with a judicial advisor. During campus judicial proceedings, both the victim and the accused may be present and may have an attorney and/or adviser present to provide support and advice. Both the victim and the accused will be informed simultaneously in writing of the results of any disciplinary proceeding, and be informed of any changes to the result and when the results become final. The right to appeal to a higher judicial body or university administrative official can be made within 3 days of receiving the judicial decision from JMU. Student victims will be provided assistance and have the option to change their academic, living, transportation, and working situations after an alleged incident, if such changes are reasonably available. Judicial response to referral(s) related to act(s) of dating violence can result in a charge of “Violence to Persons” (J43-100 Student Handbook) against the accused; “no student shall engage or attempt to engage in any form of violence directed toward another person or group of people” (J43-101). Sanctions may include disciplinary probation and educational programs and may result in suspension from the university.

Emergency Notification

James Madison University's Washington Semester program and WISH officials are committed to the immediate notification of the program participants, without delay, upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health and safety of students or staff occurring on or near WISH Woodley Park, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. The JMU Washington Semester Faculty-Member-in-Residence (FMIR) enjoys autonomous authority on activation upon confirmation of an emergency, message content and messaging and takes into account the safety of the community while determining the content of the notification before initiating the notification system.
Concurrently or contemporaneously, the official initiating the Emergency Notification System will inform the JMU Police and the Washington Semester academic program officials (Political Science Department at JMU’s main Harrisonburg campus) that an Emergency is at hand and will provide the justification for the dissemination of the related notification. WISH Woodley Park officials are to regularly schedule drills, exercises, and appropriate follow-through activities, designed for assessment and evaluation of emergency plans and capabilities.

The means and methods of Emergency Notification System includes the following components which may be activated independently or in-conjunction with each other based on the circumstances to notify the University community of the existence of an emergency, and updated information and as necessary throughout the duration of any incident.

The FMIR and WISH officials have five methods of notifying the students within the building: posting fliers, text-messaging, email, telephone and word of mouth. WISH officials have easy access to knock on each door and notify student program residents of any immediate issue.

Systematic tests of the Emergency Notification System will be conducted annually. All members of the JMU community are instructed to notify the FMIR or WISH officials of any situation or incident on or near the building that involves a significant emergency or dangerous situation that may pose an immediate or on-going threat to the health and safety of students, staff and visitors to the building.

Missing Student

At James Madison University each student living in an on-campus student housing facility will be given the option in advance to identify a contact person(s) whom the institution shall notify if the student is determined missing by the Metro Police.

Such resident students shall be advised that contact information will be considered to be confidential, accessible only to authorized campus officials and law enforcement and will not be disclosed outside of a missing person investigation. Likewise, students under 18 years of age and not emancipated, University officials must notify a custodial parent or guardian when the student is determined to be missing, in addition to any additional contact person designated by the student.

If a member of the JMU Community has reason to believe that a student is missing, whether or not the student resides on campus, all possible efforts are made to locate the student to determine his or her state of health and well-being through the collaboration of the Metro Police and the Washington Semester FMIR. Though it is suggested that reports should be made directly to the FMIR that a student has been missing for 24 hours, reports may be made to any WISH official in his or her absence; the official to whom the report was made, shall make a direct report immediately to the Metro Police.

A welfare entry shall be made into the student’s room by the FMIR or any WISH official. If, by chance a student participant resides off site, the aid of the Metro Police or neighboring police agency having jurisdiction will be elicited. Concurrently university officials will endeavor to determine the student’s whereabouts through contact with friends, associates, and/or employers of the student. Whether or not the student has been attending classes and scheduled organizational or academic meetings; or appearing for scheduled work shifts will be established.

If located, verification of the student’s state of health and intention of returning to the building is made. When and where appropriate a referral will be made to the Office of Counseling and Student Development and/or the University Health Center on the main Harrisonburg campus.

If not located, notification of a custodial parent or guardian or failing that any other available family member within 24 hours of receiving the initial report is made to determine if they know of the whereabouts of the student. If the student is an off-site resident, appropriate family members or associates are encouraged to make an official missing person report to the law enforcement agency with jurisdiction. The main Harrisonburg campus University Police will cooperate, aid, and assist the primary investigative agency in all ways prescribed by law.

If deemed appropriate pertinent law enforcement agencies, be they neighboring municipal, county, or state; those located along suspected travel corridors; or place of original domicile, will be notified and requested to render assistance, through direct telephone contact or visit, Virginia Crime Information Network (VCIN) message, and/or radio transmission with a comprehensive BOL message based on the totality of up-to date information.

Suzanne’s Law requires local police to notify the National Crime Information Center (NCIC) when someone between 18 and 21 is reported missing was signed into law by President George W. Bush in the Spring of 2003 as part of the national “Amber Alert” Bill The federal law is named after Suzanne Lyall, a State University of New York at Albany student who has been missing since 1998.

Upon closure of the missing person investigation, all parties previously contacted will be advised of the status of the case.

To reiterate, when a student who resides in WISH Woodley Park is determined to have been missing for 24 hours, the University and its Washington Semester Program officials are legally obligated, if the student has designated a contact person, to notify that contact person within 24 hours; if the student is under 18 years of age and is not emancipated, the aforementioned officials must notify the student’s custodial parent or guardian and any other designated contact person within 24 hours; and within 24 hours inform, first, the Metro Police and then the main Harrisonburg campus University Police that the student is missing.
Office of International Programs
The Semesters in the Overseas London, Antwerp and Florence (Branch Campuses)

The office of International Studies provides several options for overseas study to include Semester Abroad, Short Term and Exchange opportunities.

The Semester in s London (UK), Antwerp (Belgium) and Florence (Italy) are designated as branch campuses. For crime statistics and other safety/security information of these programs see http://www.jmu.edu/pubsafety/righttoknow.shtml . The program Semester in Salamanca is not considered a separate campus. Students stay with host families and this arrangement does qualify as non-campus.

Short-term programs generally run in the summer and occasionally during spring break. Depending on the program parameters, these programs may fall in non-campus reporting requirements.

In exchange programs, students study at one of our partner institutions in Australia, England, Egypt, Japan, South Korea, Spain, Sweden, or the United Arab Emirates while being immersed in the cultures of some of the world’s most exciting and provocative cities. While participating in a JMU exchange program, you will pay room & board to the overseas institution. There is no reporting requirement for these programs.

Policy for Reporting Annual Disclosure of Crime Statistics and Developing Information for this Report

The James Madison University Police Department through the Office of Public Safety is charged with the responsibility for collecting data, preparing, and distributing the Annual Security and Fire Safety Report. This report was prepared to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. Crime statistics are gathered monthly and annually from JMU Campus Security Authorities via fax, online and campus mail reporting utilizing a report/survey form supplied by the Clery Act Compliance Officer. Any crime report made to a Campus Security Authority can be immediately transmitted to the JMU Police via fax machine, e-mail or conventional campus mail. The report is available electronically at http://www.jmu.edu/pubsafety/righttoknow.shtml . A hard copy print version of the annual report is also prepared annually. Each year e-mail and conventional mail notification are made to all enrolled students and employees.

“Your Right to Know”

A copy of the JMU Annual Security Report and Annual Fire Safety Report for the Harrisonburg campus and the three overseas branch campuses; Florence, Antwerp, and London, are available upon request.

The Annual Security Report includes statistics for the most recent three-year period of reported crimes, including "hate" motivated crimes, that occurred on campus, in certain off-campus buildings or property owned or controlled by JMU or its affiliates, and on public property within, or immediately adjacent to, and accessible from the campus. This report also includes information regarding the law enforcement authority of the university police, means of immediate notification of students and staff upon confirmation of a significant emergency on campus; protocols for students missing more than 24 hours including voluntary student contact information in cases where the student is missing along with missing person investigation procedures; policies concerning campus security, information on crime prevention, alcohol and drug use, sexual assault, the state sex offender registry and the reporting of any crimes that may occur on the campus.

The Annual Fire Safety Report includes campus housing fire statistics for the most recent three-year period; a description of each on-campus student housing facility fire safety system; the number of fire drills held during the previous calendar year; policies or rules on portable electrical appliances, smoking, and open flames in student housing; procedures for student housing evacuation in the event of fire; policies regarding fire safety education and training programs provided to the students, faculty, and staff; procedures that students and employees should follow in the case of a fire; a list of the titles of each person or organization to which students and employees should report that a fire occurred; and plans deemed necessary for future improvements in fire safety.

You can obtain a copy of any of these reports by contacting the Office of Public Safety, MSC 6810, James Madison University, Harrisonburg, VA 22807 or request that a copy be mailed to you by calling (540)568-6769/6913. This information is also available electronically by clicking on the “Your Right to Know” link http://www.jmu.edu/pubsafety/righttoknow.shtml .

Prospective student and employees are informed of the report and how it may be secured through the admissions process and human resources respectively. New employees also receive a copy of the report at Phase II Orientation training. A report is also made available to the general public upon request.

Clery Act mandated crime statistics for the most recent three-year period reflect crime reports, arrests and referrals, reported to Campus
Under the Clery Act the JMU campuses must annually distribute statistics on the reported occurrences of the following Clery offences.

**Murder and Non-negligent Manslaughter** – The willful (non-negligent) killing of one human being by another.

**Negligent Manslaughter** – The killing of another person through gross negligence.

**Sex Offense Forcible (F)** – Any sexual act directed against another person, forcibly and/or against that person’s will; or not forcibly or against the person’s will where the victim is incapable of giving consent: forcible rape; forcible sodomy; sexual assault with an object; and forcible fondling. (*Beginning with the 2014 Annual Security Report dating violence, domestic violence, and stalking will be added to sex offences for reporting purposes*)

**Sex Offense Non Forcible (N)** – Unlawful, non-forcible sexual intercourse: incest; statutory rape.

**Robbery** – The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

**Aggravated Assault** – An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. It is not necessary for an injury to result when a gun, knife or other weapon is used in the commission of the crime.

**Burglary** – The unlawful entry of a structure to commit a felony or a theft. For reporting purposes this definition includes: unlawful entry with intent to commit a larceny or felony; breaking and entering with intent to commit a larceny; housebreaking; safecracking; and all attempts to commit any of the aforementioned.

**Motor Vehicle Theft** – The theft or attempted theft of a motor vehicle. (Classify as motor vehicle theft all cases where automobiles are taken by persons not having lawful access even though the vehicles are later abandoned–including joyriding.)

**Arson** – Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc..

**Hate Crimes** – Any crime that manifests evidence that the victim was intentionally selected because of the victim’s actual or perceived race; religion; gender; sexual orientation; ethnicity or physical/mental disabilities. (*Beginning with the 2014 Annual Security Report national origin and gender identity will be added to the Hate Crimes*) This includes murder and nonnegligent manslaughter, negligent manslaughter, forcible sex offenses, nonforcible sex offenses, robbery, aggravated assault, burglary, motor vehicle theft, arson, and also larceny-theft, simple assault, intimidation, and destruction/damage/vandalism.

**Simple Assault** – Assaults and attempted assaults where no weapon was used and which did not result in a serious or aggravated injury to the victim. (Currently, this crime category only applies to hate crimes.)
Larceny-Theft - The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. (Currently, this crime category only applies to hate crimes.)

Vandalism - To willfully or maliciously destroy, injure, disfigure, or deface any public or private property, real or personal, without the consent of the owner or person having custody or control by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by local law. (Currently, this crime category only applies to hate crimes.)

Intimidation - To intentionally say or do something which would cause a person of ordinary sensibilities to be fearful of bodily harm. (Currently, this crime category only applies to hate crimes.)

The Clery Act also requires disclosure of statistics for liquor law violations, drug law violations, and weapons possession. Reports of these violations are made differently, and reflect the total number of individuals arrested or referred for campus disciplinary action, rather than total number of incidents.

**Liquor Law Violation** – The violation of laws or ordinances prohibiting: the manufacture, sale, transporting, furnishing, possessing of intoxicating liquor; maintaining unlawful drinking places; bootlegging; operating a still, furnishing liquor to a minor or intemperate person; using a vehicle for illegal transportation of liquor; drinking on a train or public conveyance; or any attempts to commit any of the foregoing violations. Note: this list does not include public drunkenness and driving under the influence.

**Drug Law Violation** – Violations of State and local laws related to the possession, sale, use, growing, manufacturing, and making of narcotic drugs. The relevant substances include; opium or cocaine and their derivatives (morphine, heroin, codeine); marijuana; synthetic narcotics (Demerol, methadone(s); and dangerous non-narcotic drugs (barbiturates, Benzedrine).

**Weapon Law Violation** – The violation of laws regulating weapons.

**Disciplinary Referrals** – incidents in which a student was not arrested but was referred for campus disciplinary action

These offenses must be reported according to their occurrence in the following Clery locations, or geographic categories:

**Campus** – (i) any building or property owned or controlled by an institution within the same reasonably contiguous geographic area and used by the institution in direct support of, or in a manner related to, the institution’s educational purposes, including residence halls; and (ii) any building or property that is within or reasonably contiguous to the area identified in paragraph (i) of this definition, that is owned by the institution but controlled by another person, is frequently used by students and supports institutional purposes (such as a food or other retail vendor).

**Non-Campus /Affiliated** – (i) Any building or property owned or controlled by a student organization that is officially recognized by the institution; or (ii) any building or property owned or controlled by an institution that is used in direct support of, or in relation to the institution’s educational purposes, is frequently used by students, and is not within the same reasonably contiguous geographic area of the institution.

**Public Property** - “public property” is defined by the Clery Act regulations as all public property including thoroughfares, streets, sidewalks, and parking facilities that is within the campus, or immediately adjacent to and accessible from the campus. Include the sidewalk across the street from your campus, but do not include public property beyond the sidewalk.

The Individual's Responsibility

Although JMU works hard to ensure the safety of all individuals within its community, students and employees must also take responsibility for their own personal safety and that of their personal belongings. Simple, common sense precautions are the most effective means of maintaining personal security.

Although the JMU campus is well lighted and appears safe, all members and guests of the University community, walking across campus or to/from parking lots should remember to use well-lighted paths and avoid isolation. Walk with others. At night, whether male or female, utilize the emergency “blue light” and other courtesy phones plus the university cadet and police escort services. Always be aware that you may be a potential victim of crime. Stay alert and attuned to people and circumstances around you. Students living in residence halls should keep their room doors locked at all times and should never prop open external doors. All guests in the halls should be escorted by a resident at all times.

Do not leave property unattended. Valuable personal property should be engraved with the owner’s vehicle operator’s permit number (not Social Security number) by using equipment available through Residence Life or the Public Safety office. Bicycles should be registered with JMU Police and secured with a lock. Cars should be locked and parked in well-lighted areas with valuable items removed from the vehicle or locked in the trunk. Students and employees should notify JMU Police or residence hall staff of any individual present in a building or on campus that arouses suspicion in any way or appears to have no legitimate business in the area.

A sanctioned alcohol/drug program, IMPACT, is designed on a three-tiered system. Each program becomes progressively more intense as the severity of the substance use violations increase. Students’ individual needs regarding alcohol or drug intervention are determined prior to placement.

**By the Numbers**

This two-hour program examines the reason for the establishment of community standards. An overview of VA laws and university policies is given. Students discuss personal values, community resources, and risk-reduction strategies for avoiding negative consequences of alcohol use. This short course was designed for minor alcohol violations.
Calling the Shots*

This three-week program guides students towards making future decisions more consistent with their values and in compliance with the law. Harrisonburg and/or JMU police participate in this program to answer students' questions and address risk-reduction strategies. This program was designed for students who violated alcohol policy.

BASICS*

The University Health Center’s Substance Abuse Prevention Office coordinates BASICS - Brief Alcohol Screening and Intervention for College Students. The BASICS program is comprised of two 50-minute interview sessions. The first session retrieves information from the student about his/her substance use, using a self-assessment instrument. The second session is a feedback session designed to help the student assess his/her own behavior and potential risks, identify potential changes, and help reduce future problems related to substance abuse.

High Expectations*

The University Health Center’s Substance Abuse Prevention Office coordinates High Expectations. The program is comprised of two 50-minute interviews. The first meeting retrieves information from the student about his/her marijuana or other drug use, using a self-assessment instrument. The second meeting is a feedback session designed to help the student assess his/her own behavior and potential risks, identify potential changes, and help reduce future problems related to marijuana or other drug use.
Annual Fire Safety Report

“Your Right to Know”

http://www.jmu.edu/pubsafety/righttoknow.shtml

October 1, 2013

In compliance with amendments to the Higher Education Opportunity Act of 2008

The Higher Education Opportunity Act (HEOA) requires two new safety-related requirements on institutions that participate in federal student financial aid programs which follow:

- Fire Log: Institutions must keep a fire log that states the nature of the fire, date, time, and general location of each fire in on-campus student housing facilities.
- Annual Fire Safety Report: Institutions with on-campus student housing facilities must publish annually a fire safety report that provides information on campus fire safety practices and standards.

Fire Safety Oversight

While fire safety is the responsibility of each of us as members of the campus community, the oversight of fire prevention rests with the Office of Public Safety. The safety coordinator working through the Office of Risk Management provides consistent monitoring and compliance enforcement of all applicable fire and safety laws, codes, best work practices and standards in all campus facilities and on the campus grounds. The Safety Coordinator is a liaison with other departments, outside agencies of public safety, and the University community and is responsible for compliance and reporting of the Annual Fire Safety Report. The Safety Coordinator ensures that all constituencies have been properly informed as to correct safety measures and reporting procedures and maintains Master Fire Safety Plans. The Safety Coordinator tracks pending Fire Safety oriented state and federal legislation and prepares, schedules, and conducts compliance awareness sessions for appropriate senior campus officials on matters pertaining to fire safety and schedules, coordinates and conducts semi-annual fire safety inspection of all campus facilities in cooperation with the State Fire Marshal’s representative.

Reporting

All fire-related incidents should be reported to the James Madison University Police Department Communications Division for response and documentation. The Communication Division is maintained 24 hours a day, seven days a week and is responsible for monitoring all fire alarms. Fire alarm panels monitoring all residence halls are located in the communication center. If a fire occurs in any building, community members should immediately notify the JMU Police Communication Center by dialing 6911 from any on-campus telephone or (540-568-6911) from any cell phone or off-campus telephone. The telephone call will initiate a response from the University police department through a network of speed-dialed lines providing direct access to Harrisonburg/Rockingham Emergency Services for local and state law enforcement, fire and rescue services which can summon the fire department quickly.

If a member of the JMU community finds evidence of a fire that has been extinguished, the community member should immediately notify JMU Police Department Communications to document the incident and begin the process of investigation.
Evacuation

The JMU campus fire alarm systems alert community members of potential hazards. Community members are required to heed an activated fire alarm system and/or upon notification by Public Safety or a Building Coordinator to evacuate the building immediately. The fire alarm system provides audible and visible notification. A loud buzzer and flashing strobe lights notify occupants that the fire alarm system has been activated.

When the fire alarm activates, all occupants should ensure that nearby persons are aware of the emergency, quickly proceed from their current location to a marked EXIT.

1. When the building evacuation alarm is activated during an emergency, leave by the nearest marked exit and alert others to do the same.

2. Feel doors for heat – don’t open doors that are warm to touch. If you cannot exit due to fire and/or smoke place items around door openings to prevent smoke from entering the area and call 568-6911 and give your exact location.

3. Assist the handicapped into an “AREA OF RESCUE” in the building.

4. If you must exit through smoke stay low and crawl – the air at floor level is less hot and cleaner.

5. All occupants should know where primary and alternative exits are located, and be familiar with the various evacuation routes available. Floor plans with escape routes, alternate escape routes, exit locations and designated meeting sites are posted in conspicuous locations throughout the building.

6. Elevators must NOT be used to evacuate the building in the event of an emergency. Occupants should use the stairs to evacuate the building. If you are caught in the elevator, push the emergency phone button. The emergency phones in elevators on campus connect to the JMU Police Communication Center.

7. Exit the building and proceed to designated meeting sites. Once outside, proceed to a clear area that is at least 500 feet away from the affected building. Keep streets, fire lanes, hydrant areas and walkways clear for emergency vehicles and personnel. Know your area assembly points. Stay there until an accurate head count attendance is taken and assist in the accounting for all building occupants.

8. Do NOT re-enter the building until directed to do so by University Police or Fire Department personnel.

Regulations/Policy

Smoking Regulations

Smoking is not permitted within buildings, facilities, structures, or vehicles owned, leased or rented by the university, including parking garages, covered walkways, temporary enclosed structures, trailers, and tents as well as structures placed on state-owned property by contractors or vendors. This includes individual offices. Smoking is permitted outdoors on university grounds, plazas, sidewalks, malls and similar open pedestrian-ways, unless such areas are designated as non-smoking areas, provided smokers are 25 feet or more in distance away from an entrance or exit of any facility, including parking garages. Smokers are required to use ash urns to dispose of their smoking material waste, and are prohibited from littering state-owned property with smoking material waste.

Candles, Incense and Open Flames

Candles, incense and other items producing an open flame or ember may not be burned in residence halls. Residents may not have candles of any kind in their hall. Violations may be subject to disciplinary action and/or fines.

Electrical Appliances

To prevent fire hazards, the State Fire Marshal’s Office and the Office of Public Safety established the following policies to reduce the possibility of electrical-related fires.
These appliances and items are prohibited in residence halls:

- Air conditioners
- Any appliances with an open heating element
- Ceiling fans
- Coffee makers without automatic shut-off
- Electrical cords under carpets
- Extension cords
- Fuel-powered equipment
- Gasoline, propane, flammable liquids or gases
- Halogen lamps
- Hot plates
- Keg refrigeration devices
- Microwave ovens
- Refrigerators larger than 4.4 cubic feet
- Sandwich grills
- Space heaters
- Toaster ovens
- Wireless routers
- Only one refrigerator (no more than 4.4 cubic feet) is permitted per room.

Any appliance with a heavy electrical draw, such as a hair dryer, an iron, a television or a refrigerator, is to be plugged directly into an outlet or surge protector.

Curtains

Any curtains or drapes in student rooms must be fire treated or made from fabric that is fire retardant. If curtains are fire treated, students must have proof of treatment. This proof can be an attached manufacturer's tag, a receipt for professional treatment or the can of spray treatment used. No draperies should be hung at or near doorways. Hanging or suspending any type of paper or fabric from the ceiling is prohibited.

Students found with inappropriate appliances/items in their room or suite will have 24 hours to remove the items and may be subject to a $50 fine if they do not promptly remove the items. A follow-up inspection will occur to verify removal.

Training

Hall Directors and Resident Advisors are assigned to each residence hall. These individuals receive training from the Office of Public Safety at the beginning of each school year outlining fire and emergency evacuation procedures. Hall Directors and Resident Advisors also participate in a training program provided by the Harrisonburg Fire Department providing hands on training stressing fire safety as part of their orientation process.

On the day students move into their on-campus residence halls, they are required to attend a community meeting with their Resident Advisers (RA). At that one hour meeting, the RA outlines fire and emergency evacuation procedures, distributes a fire safety instructional brochure, and discusses policies and procedures regarding electrical appliances, smoking, and open flames. Students also receive a copy of the ORL Guidebook Calendar that contains policies and procedures regarding fire and personal safety.

The James Madison University’s Comprehensive Safety Plan can be located at http://www.jmu.edu/safetyplan/fire/index.shtml and provides in depth information on fire safety to the JMU community.

Fire Drills

A fire drill is a “supervised practice of a mandatory evacuation of a building for a fire”. Properly conducted fire drills can help minimize problems if an actual fire emergency occurs. Fire evacuation diagrams are posted on each residence hall floor and an education program is conducted during the first week of each semester.

Each residence hall must hold a pre-announced, walk-through fire drill during the first few days of each semester. During each pre-announced fire drill, staff members will be required to open doors to all residence hall rooms to ensure evacuation and check for possible safety issues.

JMU mandates at least one unannounced fire drill in every residence hall every eight weeks.
Residence hall staff members may make a room-by-room check to ensure that all occupants leave the building in the event of any fire alarm. Residents are not permitted to re-enter the building until authorized to do so by Campus Police or the fire department. Students may be held responsible for violations found during fire alarms or room inspections.

**Violations**

**False Alarms**

Residence halls are completely evacuated for all fire alarms. No student may activate any alarm or attempt to manipulate any electrical or mechanical device for the purpose of creating a false fire alarm.

**Failure to Evacuate**

No student may disregard a fire alarm signal or refuse to evacuate a building or a section of a building where a fire alarm is sounding. This is a violation of Commonwealth law and can result in judicial action and/or a fine.

**Tampering with Fire Safety Equipment or Devices**

No student may operate or tamper with any firefighting equipment without authorization, except for the purpose of extinguishing a fire. In addition, no student may tamper with or otherwise misuse any fire detection or early warning device, emergency lighting, evacuation systems, or emergency telephones. Tampering with or misusing such items is a violation of Commonwealth laws and can result in judicial action and/or a fine.

**Obstruction of Fire Evacuation Routes**

Due to fire safety regulations, students may not store loft bed construction materials, boxes, trash, bicycles, furniture or other items in hallways or other public areas or within 18 inches of the ceiling in a sprinkled building and 24 inches of the ceiling in a non-sprinkled building. No student may purposefully prevent someone from swiftly and safely evacuating a building. No student may enter or exit from a fire escape except during a fire drill or in the case of an actual fire.

**Fireworks, Explosives and Flammable Substances**

Possessing, storing or using any fireworks or explosives is strictly prohibited. This is a violation of Commonwealth law and can result in judicial action and/or a fine.

**Definitions**

**Fire:**

Rapid oxidation of combustible material accompanied by heat, light and smoke of combustible material, which is found outside of its normal appliance, whether or not it is extinguished prior to arrival of emergency; any instance of open flame or other burning in a place not intended to contain the burning or in an uncontrolled manner.

**Fire related Deaths:**

Number of persons who were fatalities because of a fire incident, including death resulting from a natural or accidental cause while involved in fire control, attempting a rescue, or persons escaping from the fire scene (an individual who dies within one (1) year of injuries sustained as a result of a fire.

**Fire-related injury:**

Number of persons receiving injuries from fire-related incidents, including an injury from a natural or accidental cause who received medical treatment at a local medical facility. This includes first responders attempting to control the fire, attempting a rescue, or persons escaping from the fire scene. Persons may include students, faculty, staff, visitors, firefighters, or any other individual.
Fire drill:
A supervised practice of a mandatory evacuation of a building for a fire.

Cause of fire:
The factor or factors that give rise to a fire. The causal factor may be, but is not limited to, the result of an intentional or unintentional action, mechanical failure, or act of nature.

Value of property damage:
The estimated value of the loss of the structure and contents, in terms of the cost of replacement in like kind and quantity. This estimate should include contents damaged by fire, and related damages caused by smoke, water, and overhaul; however, it does not include indirect loss, such as business interruption.

Fire safety system:
Any mechanism or system related to the detection of a fire, the warning resulting from a fire, or the control of a fire. This may include sprinkler systems or other fire extinguishing systems, fire detection devices, stand-alone smoke alarms, devices that alert one to the presence of a fire, such as horns, bells, or strobe lights; smoke-control and reduction mechanisms; and fire doors and walls that reduce the spread of a fire.

### On-campus Student Housing Fire Safety Systems

Any student housing facility that is owned or controlled by the institution, or is located on property that is owned or controlled by the institution, and is within the reasonably contiguous geographic area that makes up the campus is considered an on-campus student housing facility.

### Daily Fire Log

The safety coordinator working through the office of Risk Management and Public Safety maintains the James Madison University Daily Fire Log and posts specific incidents within two (2) business days of receiving a report of an incident and reserves the right to exclude reports from a log in certain circumstances as permitted by law. The Fire Log is kept electronically and can be found on site at the James Madison University Police Department located in Anthony Seeger Hall and also at the Office of Risk Management located at 131 Grace Street Harrisonburg, Virginia for public inspection, upon request, during normal business hours.

The Daily Fire Log contains:

1. **The number and cause of each fire in an on-campus student housing facility.**

   **Unintentional Fire** - A fire that does not involve an intentional human act to ignite or spread into an area where the fire should not be.

James Madison University continually strives to make the James Madison University campus safe and secure and seeks to constantly to improve this mission in the area of fire safety through self-evaluation, training, and the utilization of best practices.
EMERGENCY PROCEDURES

POLICE/FIRE/MEDICAL EMERGENCY DIAL: 540-568-6911
Dial just 6911 from any on-campus phone or 540-442-6911 from a cell phone if JMU phone circuits are not working.

FIRE
* Activate the nearest fire alarm pull station and call 568-6911 if possible to report the location and cause of the fire if you know what it is.
* EVERYONE MUST LEAVE IMMEDIATELY when a fire alarm is activated, even if there are no obvious signs of an emergency!
* DO NOT use the elevator!
* Remain calm and assist others in safely getting out.
* Confine the fire by closing all doors and windows if possible.
* Extinguish the fire if you have been trained and it is safe to do so.
* Evacuate the building to a safe location away from the structure.
* Take any personal belongings you may need with you. (including wallets, purses, keys, cell phones, etc.)
* If circumstances permit, secure your area by closing doors and locking them if you would normally do so when you leave for the day.
* Follow directions given by emergency personnel and respond to location designated by your building coordinator outside the structure to await further instructions and so that everyone can be easily accounted for before leaving the area.
* Do not re-enter until authorized to do so by public safety.

OFFICIAL JMU COMMUNICATIONS
During a campus emergency, JMU will distribute information to the campus community utilizing the following methods:
* Madison ALERT - Campus Horn & PA System
* JMU Radio AM-1610 Broadcasts
* JMU Web page at www.jmu.edu
* blast e-mail to "__@jmu.edu" accounts
* SMS Text Messages to registered users -
  > Faculty & Staff register through MyMadison
  > Students register through e-campus
* Building Coordinators
* ORL Hall Directors & Resident Advisers
* Interdepartmental & Building Phone Trees
* Emergency FAX Notifications to JMU Departments
* Police Loundspeakers and PA Systems
* Thurgood System "RED ALERT" Horns
* Local Media/Campus TV/Radio Broadcasts

HOSTILE INTRUDER
* Remain calm, do not engage the intruder.
* If safely possible, try to escape the area quickly and quietly.
* If attempting to escape, do not carry phones or other objects in your hands. As you move through open areas keep your HANDS ELEVATED with OPEN PALMS visible, especially if encountering responding law enforcement officers. Follow all the instructions officers may give you.
* If you CANNOT SAFELY EXIT the building, seek shelter in a room where the doors can be locked or barricaded securely.
* Close and lock windows, lower blinds, remain out of sight, turn off lights.
* Once secured inside, take cover behind concrete walls; thick desks, filing cabinets, away from windows and doors.
* Remain quiet; turn off cell phone ringers.
* ONLY ONE PERSON from the room should call Police at 568-6911 and tell them where you are, where the intruder is and the condition of others with you. Follow their instructions. If you cannot speak, leave the line open so the dispatcher can hear what is going on.
* Assist others if they are injured.
* Do not respond to any unfamiliar voice commands until you can be sure that they are coming from a police officer.
* Do not open the door until you can be positive that it is a police officer or a recognized campus official coming to help you.

WEATHER EMERGENCY
* Listen for the JMU Lightning Prediction System’s audible air horn alarms:
  SINGLE 15-second air horn blast - RED ALERT
  THREE 5-second air horn blasts - ALL CLEAR
* Seek shelter inside a building until notified by University officials that it is safe to leave.
* If flooding occurs, seek higher ground and avoid walking through standing or moving water.
