

Connecting via URL

Open a browser and navigate to: <https://sslvpn.jmu.edu>

Enter your JMU eID and password in the appropriate fields

- In the "Secondary password from Duo" field, do one of the following:
 - Type **push** to receive a push notification
 - Type **sms1** to receive a set of passcodes via SMS
 - Enter the passcode generated by the Duo Mobile app
 - Touch your Yubikey token
- Click the "Sign In" button
- If you receive an Internet Security box from Juniper Networks, click "Allow"

Once you are connected, you will have a list of applications you can access.

Click on "electronic Research Administration"

The screenshot displays the Ivanti Connect Secure interface. At the top, a welcome message reads "Welcome to the Ivanti Connect Secure, tillmace." Below this, there are two main sections: "Client Application Sessions" and "Web Bookmarks".

The "Client Application Sessions" section shows a single session for "Ivanti Secure Access Client" with a "Start" button. A note below it states: "Note that launching Ivanti Secure Access Client will terminate your browser session because of the security policy specified by your administrator."

The "Web Bookmarks" section lists several bookmarks:

- Library Resources**: These resources require Network Connect. Please start Network Connect before clicking the link.
- electronic Research Administration (test)**
- electronic Research Administration**: This bookmark is highlighted in yellow, and a purple arrow points to it from the left.
- Hourprd**: FM timecard application
- Timeclock Plus - Manager (Community Service-Learning FWS only)**
- Timeclock Plus - Employee (Community Service-Learning FWS only)**

You should then login to eRA as normal.
