You’re Invited to a JMU-RMH Collaborative Event

Transformation of Care
A new way of thinking about healthcare delivery

Presented by members of the Sentara Healthcare leadership team

Wednesday, October 10, 2012, 5–8pm
JMU Festival Conference and Student Center

To register, call RMH Healthsource at 564-7200.

The U.S. healthcare system is entering a time of significant change as we address challenges such as
- increasing demand for services,
- physician and nurse shortages, and
- fewer dollars to care for more customers.

RMH is a member of Sentara Healthcare, a nationally known, statewide health system of 10 community, not-for-profit hospitals. Sentara’s leading-edge response to the coming challenges is a strategy to transform health care delivery to create an Integrated Clinical Enterprise. This enterprise includes:
- Organized care across the continuum
- Seamless coordination of care
- Providers paid for the value of the outcomes
- New health plan models

In this collaborative educational event, participants will
- Learn about Sentara’s strategy from those that have designed it; and
- Work in small groups to identify opportunities for the JMU-RMH Collaborative to be involved in different aspects of the strategy.

Heavy hors d’oeuvres and cash bar available.
