

The Office of Sponsored Programs Presents...

Grants Resource Center Workshops!

The Office of Sponsored Programs is offering custom workshops for faculty and staff to receive an overview of how to best take advantage of the Grants Resource Center's (GRC) resources and services.

James Madison University's subscription to the Grants Resource Center provides us with a comprehensive suite of tools, services and expertise to improve your college or department's efficiency and success in securing competitive grants from federal and private sponsors.

The workshop will include tips on how to use the following GRC services:

Publications

GRC's three regular publications provide members with federal and private funding opportunity alerts, federal meeting coverage, and successful proposal development strategies and advice.

GrantSearch Database

This database contains **over 1,500 funding opportunities** that are cyclical, make multiple awards, and are national/regional in scope.

Faculty Alert System

Faculty and staff can sign up for monthly email notifications about funding opportunities related to their interests.

Funded Proposal Library

GRC obtains funded proposals regularly and provides access through their website. The proposals listed are provided by sponsors to showcase best practices, successful principal investigators, and proposal writers.

AND MORE!

Contact the Office of Sponsored Programs *today* to schedule a workshop for your college or department!

The Office of Sponsored Programs currently has the available spring dates to visit your department or college:

- Friday, March 16
- Friday, March 30
- Wednesday, April 12
- Friday, April 27
- Thursday, May 10
- Friday, May 25

If any of the above dates do not work for your department, please let us know and we will schedule a date and time that does.

Phone: 8-6872

Email: jmu_grants@jmu.edu

The OSP is also available during the summer to conduct workshops. Please contact us to schedule a date and time that works best for your faculty and staff!
