## Professional Knowledge and Skills

10. **Critical Thinking and Problem Solving:** Analyzes and resolves problems that arise in completing assigned tasks

**Objective:** The child will identify a need and ask for help.

### **Activities:**

1. Provide opportunities for your child to ask for help; at mealtime set out cereal without a spoon- child has to ask for spoon; put toys in containers that they must ask for help in opening.
2. Role play situations where people need help; dropping groceries, spilling juice, etc. Model how to ask for and give help.
