

Workplace Readiness Skills for the Commonwealth Grades 11 – Post High Home

Professional Knowledge and Skills

10. **Critical Thinking and Problem Solving:** Analyzes and resolves problems that arise in completing assigned tasks

Objective: The student will solve problems that occur in a home environment.

Activities:

1. Given a problem situation talk your son/daughter through the process of resolving the issue (e.g. power outage, emergencies).
2. Have your son/daughter determine what household problems can be resolved at home and which ones require outside help.
3. Have your son/daughter determine how to get assistance when he/she needs money.
