Professional Knowledge and Skills

11. **Health and Safety:** Follows safety guidelines and manages personal health

Objective: The child will demonstrate caution with common dangers and let someone know when they are hurt or sick.

Activities:

1. Role-play and model solutions about dangerous situations; strangers, ball going into street, broken glass, hot/cold items, etc.
2. Use puppets/baby dolls that help show where they are hurt or how they are sick; Make available a doctor kit for the child to play with and to be used in telling illness.
3. Read books about going to the doctor and dentist as well as how a fireman and policeman are community helpers.
