Professional Knowledge and Skills

16. **Mathematics:** Uses mathematical reasoning to accomplish tasks

Objective: Child will accomplish a variety of tasks using mathematical reasoning.

Activities:

1. Have your child follow a recipe using correct measurements.
2. Have your child use the TV guide to determine times of favorite shows, movies, etc.
3. Have your child use sale ads to determine best buys when grocery shopping.

Objective: Child will make calculations related to purchases.

Activities:

1. Implement a savings system and budget for your child to use for desired purchases.
2. Practice counting change with your child.
3. Have your child practice making purchases within the community.
