20. **Internet Use and Security:** Uses the Internet appropriately for work

Objective: The child will be supervised and directed to use age appropriate websites through parent involvement.

Activities:

1. Have a discussion with your child regarding the internet rule; must have an adult with you when you are on the internet (standard suggestion for young children). If possible, put a password that only adults would know.
2. Take a virtual field trip with your child; pointing out the websites that are allowed.
3. Keep the computer in a common area where children have supervision and easy access to an adult.
4. Bookmark children's favorite sites for easy access.
