## Discovering College

---

*So you want to go to college?*

*Let us show you what it's  
all about*

Spend a morning with college students

Come visit a college:

**JMU: Friday, November 13, 2009**  
**PVCC: Friday, March 26, 2010**  
**Lynchburg: Friday, April 16, 2010**

**9:00 am – welcome, introduction and continental breakfast**

High school students and their teachers will be welcomed to campus by college students. The high school students will hear a short presentation about life at college to gain a better understanding of what it is like to attend a post-secondary institution. There will be a short icebreaker/introduction game for students to become acquainted.

**– attend a college class**

Students will attend a class that will be taught by a college professor. When the class is over the students will travel to the dining hall or designated room for lunch with college students.

**– lunch; campus exploration**

Students will have time to eat lunch at the dining hall or a designated room and explore campus. Lunch will be free to all participants. College students will accompany the high school students to lunch and on the tour.

**– Q&A session with students and Office of Disability Services (ODS) personnel**

Everyone will meet again to hear information from ODS about what a student needs to do when applying to or attending college. Then the college students will answer questions and offer suggestions that may help.

**1:30 pm – students will leave campus**

Check with your special education teacher to get a registration form. Limited space so be sure to register early.

Forms are due back to your teacher soon. Check the registration deadline on the form.
