“Understanding Sensory Processing”

Presented by

Dianne Koontz Lowman, Ed. D.

**Virginia Dept. of Education T/TAC Coordinator
James Madison University**

What: Does your child wear shorts year round? Does your child gag when she eats food? Does he cover his ears when he hears loud noises? If the answer to these or similar questions is **yes** then come learn how different people respond to sensory input from the “seven” senses. We will look at reactions of individuals who are hypersensitive as well as hyposensitive to sensory input from the environment around them. In addition, a list of activities that calm and alert the system will be generated. A handout of practical suggestions will be provided.

Where: The Lucy Simms Center Auditorium
620 Simms Avenue
Harrisonburg, VA

When: Monday, October 15, 2007
6:30 PM - 6:45 PM -- SVAP Update
6:45 PM - 8:00 PM -- Presentation/Questions
8:00 PM - 8:30 PM -- Networking

If Rockingham County Schools are closed or inclement weather prevails this event will be cancelled.

Directions: From I-81, use Harrisonburg Exit # 247B/Route 33 West. Go to 3rd stoplight. Turn right (at Sheetz) onto Vine Street. Go through 2 stoplights to Old Furnace Rd. Go one block then turn left onto Washington St., at the water tower. Go one block and turn left onto Simms Ave. Simms Center is on the left. Use the stairs facing Simms Ave.
