**NOTE:** The failure to include an explanatory providing full particulars in connection with a "No" response may result in dismissal of the application. See Instructions, paragraph L for additional information regarding completion of explanatory exhibits.

**SECTION II - Legal and Financial**

1. **Certification.** Applicant certifies that it has answered each question in this application based on its review of the application instructions and worksheets. Applicant further certifies that where it has made an affirmative certification below, this certification constitutes its representation that  
   ☐ Yes ☐ No
the application satisfies each of the pertinent standards and criteria set forth in the application instructions and worksheets.

2. **Eligibility.** Each application must answer "Yes" to one and "No" to two of the three following certifications. An applicant should not submit an explanatory exhibit in connection with these Question 2 "No" responses.

   The applicant certifies that it is:
   a. a nonprofit educational institution; or  
   b. a governmental entity other than a school; or  
   c. a nonprofit educational organization, other than described in a. or b.

3. For applicants checking "Yes" to question 2(c) and applying for a new noncommercial educational television station only, the applicant certifies that the applicant's officers, directors and members of its governing board are broadly representative of the educational, cultural, and civic segments of the principal community to be served.

4. a. The applicant certifies that the Commission has previously granted a broadcast application identified here by file number that found this applicant qualified as a noncommercial educational entity with a qualifying educational program, and that the applicant will use the proposed station to advance a program similar to that the Commission has found qualifying in applicant's previous application.

   b. Applicants who answered "No" to Question 4(a), must include an exhibit that describes the applicant's educational objective and how the proposed station will be used to advance an educational program that will further that objective according to 47 C.F.R. Section 73.503 (for radio applicants) and 47 C.F.R. Section 73.621 (for television applicants).

5. The applicant certifies that its governing documents (e.g., articles of incorporation, by-laws, charter, enabling statute, and/or other pertinent organizational document) permit the applicant to advance an educational program and that there is no provision in any of those documents that would restrict the applicant from advancing an educational program or complying with any Commission rule, policy, or provision of the Communications Act of 1934, as amended.

6. a. **Parties to the Application.** List separately each party to the application including, as applicable, the applicant, its officers, directors, five percent or greater stockholders, non-insulated partners, members, and all other persons and entities with attributable interests. If another entity hold an attributable interest in the applicant, list separately, as applicable, its officers, directors, five percent or greater stockholders, non-insulated partners, and board members. Create a separate row for each individual or entity. Attach additional pages if necessary.

b. Applicant certifies that equity and financial interests not set forth above are non-attributable pursuant to 47 C.F.R. Section 73.3555 and that there are no agreements or understandings with any non-party that would give influence over the applicant's programming, personnel, or finances to that non-party.

7. Other Authorizations. List call signs, locations, and facility identifiers of all other broadcast stations in which applicant or any party to the application has an attributable interest pursuant to the notes to 47 C.F.R. Section 73.3555.

8. Character Issues. Applicant certifies that neither applicant nor any party to the application has or has had any interest in or connection with:
a. any broadcast application in any proceeding where character issues were left unresolved or were resolved adversely against the applicant or party to the application; or
b. any pending broadcast application in which character issues have been raised.

9. Adverse Findings. Applicant certifies that, with respect to the applicant, any party to the application, and any non-party equity owner in the applicant, no adverse finding has been made, nor has an adverse final action been taken by any court or administrative body in a civil or criminal proceeding brought under the provisions of any law related to any of the following: any felony; mass media-related antitrust or unfair competition; fraudulent statements to another government unit; or discrimination.

If the answer is "No," attach an exhibit a full disclosure concerning the persons and matters involved, including an identification of the the court or administrative body and the proceeding (by dates and file numbers), and a description of the disposition of the matter. Where the requisite information has been earlier disclosed in connection with another application or as required by 47 C.F.R. Section 1.65, the applicant need only provide: (i) an identification of that previous submission by reference to the file number in the case of an application, the call letters of the station regarding which the application or Section 1.65 information was filed, and the date of filing; and (ii) the disposition of the previously reported matter.

10. Alien Ownership and Control. Applicant certifies that it complies with the provisions of Section 310 of the Communications Act of 1934, as amended, relating to interests of aliens and foreign governments.

11. Program Service Certification. Applicant certifies that it is cognizant of and will comply with its obligations as a commission licensee to present a program service responsive to the issues of public concern facing the station's community of license and service area.

12. Local Public Notice. Applicant certifies compliance with the public notice requirements of 47 C.F.R. Section 73.3580.

13. Anti-Drug Abuse Act Certification. Applicant certifies that neither applicant nor any party to the application is subject to denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act.

Section IV Point System Factors - New and Major Change Applications Only (used to select among mutually exclusive radio and television applications for new stations and major modifications) NOTE: Applicants will not receive any additional points for amendments made after the close of the application filing window.

1. Established Local Applicant: Applicant certifies that for at least the 24 months immediately prior to application, and continuing through the present, it qualifies as a local applicant pursuant to 47 C.F.R. Section 73.7000, that its governing documents require that such localism be maintained, and that it has placed documentation of its qualifications as an established local applicant in a local public inspection file and has submitted to the Commission copies of the documentation. ⚫ Yes ⚫ No

2. Diversity of Ownership: (a) Applicant certifies that the principal community (city grade) contour of the proposed station does not overlap the principal community contour of any other authorized station (comparing radio and television to television, including non-fill-in translator stations other than those identified in 2(b) below) in which any party to the application has an attributable interest as defined in 47 C.F.R. Section 73.3555, that its governing documents require that such diversity be maintained, and that it has placed documentation of its diversity qualification in a local public inspection file and has submitted to the Commission copies of the documentation. ⚫ Yes ⚫ No

(b) Is the application’s certification to 2(a) based on its exclusion of translator station(s) that will be replaced with a full service station pursuant to the authorization requested here? If Yes, applicant must include an exhibit identifying the translator station authorization for which it will request cancellation upon commencement of operation of the proposed full service station (i.e., upon its filing of a license application and receipt of program test authority). ⚫ Yes ⚫ No [Exhibit 12]

3. State-wide Network: Applicant certifies that (a) it has NOT claimed a credit for diversity of ownership above; (b) it is one of the three specific types of organizations described in 47 C.F.R. Section 73.7003(b)(3); and (c) it has placed documentation of its qualifications in a local public inspection file and has submitted to the Commission copies of the documentation. ⚫ Yes ⚫ No

4. Technical Parameters: Applicant certifies that the numbers in the boxes below accurately reflect the new area and population that its proposal would serve with a 60 dBu (FM) or Grade B (TV) signal measured in accordance with the standard predicted contours in 47 C.F.R. Section 73.713(c) (FM) and 73.683(TV) and that it has documented the basis for its calculations in the local public inspection file and has submitted copies to the Commission. Major modification applicants should include the area of proposed increase only (exclude any area already within the station's existing service area). (Points, if any, will be determined by FCC)

New area served in square kilometers (excluding areas of water): 2182
Population served based on the most recent census block data from the United States Bureau of Census using the centroid method: 27190

SECTION V - Tie Breakers - New and Major Change Applications Only (used to choose among competing radio and television applications receiving the same number of points in Section IV)

1. Existing Authorizations. By placing a number in the box, the applicant certifies that it and other parties to the application have, as of the date of filing and pursuant to 47 C.F.R. Section 73.3555, attributable interests in the stated number of relevant broadcast station authorizations. Radio applicants should count all attributable full service radio stations, AM and FM, commercial and noncommercial, and FM translator stations other than fill-in stations or those identified in IV (2)(b) above. TV applicants should count all attributable full service TV stations, commercial and noncommercial and TV translator stations other than fill-in stations or those identified in IV(2)(b) above. 6 (number of commercial and non-commercial licenses and construction permits)

2. Pending Applications. By placing a number in the box, the applicant certifies that it and other parties to the application have, as of the date of filing and pursuant to 47 C.F.R. Section 73.3555, attributable interests in the stated number of pending applications for new or major changes to relevant broadcast stations. Radio applicants should count all attributable full service radio stations, AM and FM, commercial and noncommercial, and FM translator stations other than fill-in stations or those identified in IV(2)(b) above. TV applicants should count all attributable full service TV stations, commercial and noncommercial, and TV translator stations other than fill-in stations or those identified in IV(2)(b) above. 3 (number of pending commercial and non-commercial applications)

Section VI -- Certification

I certify that the statements in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith. I acknowledge that all certifications and attached Exhibits are considered material representations. I hereby waive any claim to the use of any particular frequency as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and request an authorization in accordance with this application. **NOTE:** In addition to the information called for in this section, an explanatory exhibit providing full particulars must be submitted for each question for which a "No" response is provided.

### CERTIFICATION

**AUXILIARY ANTENNA APPLICANTS ARE NOT REQUIRED TO RESPOND TO ITEMS 12-15.**

13. **Main Studio Location.** The proposed main studio location complies with 47 C.F.R. Section 73.1125.

   - Yes  No

   See Explanation in [Exhibit 13]

14. **Community Coverage.** The proposed facility complies with 47 C.F.R. Section 73.315. (Channels 221 and above) or 47 C.F.R. Section 73.515 (Channels 220 and below).

   - Yes  No

   See Explanation in [Exhibit 14]

15. **Interference.** The proposed facility complies with all of the following applicable rule sections. Check all that apply:

   - Yes  No

   See Explanation in [Exhibit 15]

- **Contour Overlap Requirements.**
  - 47 C.F.R. Section 73.509
    - Exhibit Required.  [Exhibit 16]

- **Spacing Requirements.**
  - 47 C.F.R. Section 73.207 with respect to station(s)

- **Grandfathered Short-Spaced.**
  - 47 C.F.R. Section 73.213(a) with respect to station(s)
    - Exhibit Required.  [Exhibit 17]

- **Contour Protection.**
  - 47 C.F.R. Section 73.215(a) with respect to station(s)
    - Exhibit Required.  [Exhibit 18]

- **Television Channel 6 Protection.**
  - 47 C.F.R. Section 73.525 with respect to station(s)
    - Exhibit Required.  [Exhibit 19]

16. **Reserved Channels Above 220.**

   - **Availability of Channels.** The proposed facility complies with the assignment requirements of 47 C.F.R. Section 73.203.
     - Yes  No
     
     See Explanation in [Exhibit 20]

17. **International Borders.** The proposed antenna location is not within 320 kilometers of the common border between the United States and Canada or Mexico.

   - Yes  No
   - Canada  Mexico

   If "No," specify the country and provide an exhibit of compliance with all provisions of the relevant International Agreement.

18. **Environmental Protection Act.** The proposed facility is excluded from environmental processing under
47. C.F.R. Section 1.1306 (i.e., The facility will not have a significant environmental impact and complies with the maximum permissible radiofrequency electromagnetic exposure limits for controlled and uncontrolled environments). Unless the applicant can determine compliance through the use of the RF worksheets in Worksheet #7, an **Exhibit is required**.

By checking "Yes" above, the applicant also certifies that it, in coordination with other users of the site, will reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic exposure in excess of FCC guidelines.

19. Community of License Change - Section 307(b). If the application is being submitted to change the facility's community of license, then the applicant certifies that it has attached an exhibit containing information demonstrating that the proposed community of license change comports with the fair distribution of service policies underlying Section 307(b) of the Communications Act of 1934, as amended (47 U.S.C. Section 307(b)).

An exhibit is required unless this question is not applicable.

**PREPARER'S CERTIFICATION ON PAGE 8 MUST BE COMPLETED AND SIGNED.**

Section VII, Question 18

This question was answered correctly. The facility is excluded from environmental processing under 47 C.F.R. Section 1.1306. The applicant has determined compliance through the use of the RF worksheets in Worksheet #7.

No exhibit is required. The exhibit, Exhibit 22, was inadvertently attached, and does not apply to the instant application.

This correction will not cause any change in the applicant’s comparative position.

THE PRESIDENT OF JAMES MADISON UNIVERSITY, DR. LINWOOD ROSE, IS A DIRECTOR ON THE BOARD OF DIRECTORS OF PUBLIC TELEVISION STATIONS WVPT AND WVPY. NO ATTRIBUTABLE INTEREST IS HELD.
Section III, Question 2.
47 U.S.C. Section 307(b) Fair Distribution of Service

The proposed station will provide a first noncommercial educational aural service to (a) at least 10 percent of the people residing within the station's 60 dBu (1mV/m) service contour and (b) to a minimum of 2,000 people.

Figure 1. shows first service to 18,965 persons, 69.7% of the total within the proposed station's 60 dBu contour.

Section VII, Question 13.
Main Studio Location

The Board of Visitors of James Madison University hereby requests a waiver of Section 73.1125 of the Commission’s rules in order to operate its proposed new noncommercial FM station at Buckingham, Virginia as a satellite station without a main studio in the city of license or the principal city contour or within 25 miles from the reference coordinates of the center of its city of license. For the reasons which follow, James Madison University (“JMU”) believes that the public interest would be served by a waiver of the rule, a provided for in Section 73.1125 (b) (2).

JMU’s application for a new noncommercial educational station on FM Channel 218 (91.5 mHz) at Buckingham contemplates that the proposed station will at least initially originate no programming locally and will, in essence, be a satellite station for radio programming originated by JMU at noncommercial educational station WMRA, Harrisonburg, Virginia. WMRA is the anchor station of a regional network covering much of the Shenandoah Valley and Piedmont regions of the state. At present, listeners in the Buckingham area are on the fringe of public radio service and are only able to receive a poor quality signal in many locations. There has been community interest in receiving WMRA’s programming because Buckingham is not currently served by public radio.

JMU is committed to the goal of providing high quality noncommercial programming even if a full schedule of such programming could not ordinarily be independently produced by separate FM stations throughout the region. A waiver of the main studio rule is in the public interest because the proposed satellite station at Buckingham would fulfill an otherwise unmet programming need. JMU is convinced that the Buckingham station could not provide the highest quality noncommercial programming if required to operate as a wholly separate entity. The station’s programming in all areas, such as public affairs, will be of much higher quality due to its ability to draw on the programming produced for WMRA. Therefore, JMU determined that a satellite station at Buckingham would provide public radio service to the area in a manner consistent with the realities of funding for public broadcasting.
Community needs of Buckingham will be met by the station’s programming. WMRA broadcasts local, regional, national news and public affairs segments in its MORNING EDITION and ALL THINGS CONSIDERED programs. WMRA’s locally-produced talk show, INSIGHT, draws on guests from throughout the region, often addresses issues of local and regional importance, and will seek guests and callers from the Buckingham area. WMRA airs listener-contributed essays in its CIVIC SOAPBOX feature, and will draw on contributions from the Buckingham area. Moreover, WMRA will transmit public service announcements for the Buckingham area, and will include that region in its weather forecasts and Emergency Alert System announcements. JMU also plans to provide coverage of significant events and issues in the Buckingham region, including political campaigns and election results.

JMU will provide for toll-free telephone access from Buckingham to the main studio in Harrisonburg. We will provide postage-paid copies of public file materials to persons living in the Buckingham area through telephone or email inquiry.

For these reasons, JMU believes that the proposed satellite operation will best meet the need for public radio service in the Buckingham area at this time by assuring its availability to tens of thousands more listeners on a dependable basis.

Section VII, Question 15e.
Television Channel 6 Protection

Figure 1. shows a tabulation of television channel 6 stations considered as per Section 73.525 of the rules. WTVR, Richmond, Virginia is seen as the critical station.

Because the proposed station will utilize vertical polarization only, and the predicted interference area is entirely outside the limit of a city of 50,000 persons, we have multiplied the proposed E.R.P. by a factor of 1/40 for the purposes of this evaluation.

Figure 2. is a detailed view of the interference area, and shows an affected population of 322 persons. Accordingly, the proposal meets the requirements of Section 73.525 (c).
