\*\*\*If you have questions about a test, or did not receive a test as scheduled, please contact the Local Chairman or Vice-Chairman. Contact information can be found at the link below.

NOTE: Statewide drills may replace local schedules.

NOTE: Stations are reminded that these coordinated tests must be run within 60 minutes of reception (or 15 minutes after program begins if the station was off air at test time). This requirement is per FCC rules. Stations are not required to run a local test on weeks that a coordinated test is conducted.
