2004 JMU Summer Art Education Program
Ages 6-8 and 9-12

The JMU Summer Art Education Program provides exciting art courses for children ages 6-12. Classes will be held June 14th-17th and June 21st-24th on the JMU campus. Students who have completed kindergarten may register for the classes listed in this brochure.

Mission
Students will work with certified art teachers as they learn to see art, create art, understand art, and make informed judgments about art. Students will learn how images have been used to communicate important ideas, thoughts, and feelings throughout history and into contemporary times. The lessons demonstrate that education in the arts is fundamental to language acquisition, creative thinking, and an educated imagination.

Class Structure
Certified Art Educators will guide students through an intensive four-day course, providing a solid foundation for creating art. Students will work with professional artists in small classes to develop ideas into completed works of art. Enrollment is limited to ten students and is on a first-come, first-served basis.

Your donations for scholarships and supplies are warmly welcomed.

Location:
The Studio Center at 106 Grace Street.
Website for map:
http://www.mu.edu/map/map_northwest.shtml

Lunch:
Students taking both morning and afternoon classes are encouraged to bring their own lunch.

The Summer Art Education Program is supported by:

- Copy Center, JMU
- Kappa Pi International Art & Art History Honors Fraternity
- Massanutten Regional Library
- Oasis Gallery
- Sawhill Gallery
- School of Art and Art History, JMU
- WMRA-FM
Week 1

Meagan Tetreault
**Mosaics:** Create your own tile mosaic as you learn about the ancient Greeks and Romans.

Cyndi Gusler
**Painting:** Enter the wonderful world of color and design as you create paintings using a variety of techniques and media.

Margaret Morris
**Exploring Egypt:** Create your own mummy case, Egyptian mask, canopic jar, and pyramid landscape drawing.

Rob Mitchell
**Printmaking:** Explore! Explore! Using a number of printing techniques, you will learn how to reproduce your artwork.

Lori Swortzel
**Exploring sculpture:** Through mixed media, examine a wide range of sculpture materials and techniques as you create 3D works of art in the style of ancient artists.

Leah Jester
**Drawing:** Adventure into the wonderful world of drawing using a variety of materials. You will produce amazing art as you study the drawings of the masters.

Week 2

Barbara Gautcher
**Figurative sculpture:** Inspired by figurative sculptures in the Madison Art Collection, you will produce magnificent sculptures of the human figure in a variety of media.

Laura Pinnow
**Board games:** Create your own to play with family and friends. Milton Bradley does not have a “monopoly” on board games. Inspired by ancient Greek and Roman children’s games, design your own board and gaming pieces.

Tisha McMillan
**Sculpture:** A study of West Africa through mixed media sculpture. Explore the history and traditions of Ghana while creating sculptural pieces inspired by West African art and culture.

Valerie Smith
**Ceramics:** Play with Clay! Explore a variety of hand-building techniques including pinch, coil and slab as you create exciting ceramic works of art.

Trina Graham
**Creating with color:** Come and experiment with various media, including paint, Model Magic, and Jell-o in order to learn about color. “Mystery colors” will emerge as you explore the world of color.

Lori Swortzel
**Portraiture:** Let’s face it, it will be fun to discover how to draw, paint, and sculpt portraits as you take an in-depth look in the mirror, at the people around you, and at historic portraits.
