Dear Student,

As a James Madison University student, you have many opportunities to make choices that will affect your success at JMU and your future life. Some of them will be made in organizational or social settings outside the classroom. Many of these choices, however, are important ones concerning your academic preparation at JMU. This document, the James Madison University 2014-2015 Undergraduate Catalog, is an important reference for you (whether you use the printed version or the online version at http://www.jmu.edu/catalog/14). This catalog offers a comprehensive view of academic life at JMU and the thousands of different courses available to you as you craft your learning experiences.

Take care in choosing your classes. You need to carefully select the necessary courses to fulfill your particular degree requirements and also consider other educational experiences as well. Challenge yourself as you make your decisions. Consult with your academic adviser and other resources as necessary. Explore the world of knowledge and opportunities here at JMU. Remember: your educational foundation at James Madison University will help prepare you for all of life's opportunities.

Your intellectual enrichment and your collegiate experience will foster personal growth and include life-forming decisions. Enjoy your college days. I extend my best wishes to you for a wonderful and rewarding year at JMU.

Sincerely,

Jonathan R. Alger
President

2014-2015 University Calendar

Fall Semester 2014

August 19-20, Tuesday-Wednesday
  Residence halls open for freshmen on assigned days.
  Dining Services open on Tuesday, August 19th and fall meal plans begin at 5 p.m.
  for freshmen.

August 22, Friday
  Opening Faculty Meeting.
  Freshman Assessment Day.
  Residence halls open for transfer and international students.

August 23, Saturday
  Residence halls open for returning students.

August 25, Monday
  Classes meet as scheduled.

September 12, Friday
  Last day to withdraw from the university with cancellation of tuition charges and
  refund.

October 10-12, Friday-Sunday
  Family Weekend.

October 10, Friday
  First Block courses end.

October 13, Monday
  Second Block courses begin.

October 15, Wednesday
  Last day to submit an application for a baccalaureate degree if graduation
  requirements are to be met in May 2015.

October 16, Thursday
  Mid-semester grades due in the Office of the Registrar.

October 21, Tuesday
  First Block course grades due in the Office of the Registrar.

October 27, Monday
  Registration begins for 2015 spring semester.

October 31 - November 1, Friday-Saturday
  Homecoming.

November 17, Monday
  Last day for students to submit work to faculty for 2014 spring semester and 2014
  summer session for removal of “incomplete” grades.

November 21, Friday
  Dining Services closes at 7:30 p.m.

November 22, Saturday
  Thanksgiving holiday begins and residence halls close.

November 29, Saturday
  Residence halls open. Dining Services open at 4:30 p.m.

December 1, Monday
  Classes resume.

December 5, Friday
  Last day of classes.
  Last day for faculty to turn in removal of incomplete grades for 2014 spring semester
  and 2014 summer session to the Office of the Registrar.

About The University
James Madison University is a public, comprehensive university and is the only university in America named for James Madison. The university places great emphasis on the quality of the undergraduate student experience in its bachelor's level programs and offers a complementary array of distinguished master's, educational specialist and doctoral programs aimed at meeting specific state and national needs. JMU provides a total education to students — one that has a broad range of the liberal arts as its foundation and encompasses an extensive variety of professional and pre-professional programs, augmented by a multitude of learning experiences outside the classroom. The value and quality of the JMU experience has been recognized repeatedly in many national publications.

Enhancing quality in student learning is a priority for JMU. A national study found that 81 percent of employers want colleges to place more emphasis on "critical thinking and analytic reasoning" and 75 percent want more emphasis on "ethical decision making" (Raising the Bar: Employers’ Views on College Learning in the Wake of the Economic Downturn, AAC&U and Hart Research Associates (2010)). In 2013 JMU launched a major university-wide effort called The Madison Collaborative: Ethical Reasoning in Action with the purpose of teaching ethical reasoning skills to every student at the university.

The Madison Collaborative does not promote any particular version of right or wrong. Instead, beginning with freshman orientation and then continuing in campus programming, the General Education curriculum and courses in the majors, it teaches students how to apply a set of reasoning skills to evaluate implications of different courses of action in their personal, professional and civic lives. The Madison Collaborative ties directly to the university's mission of "preparing educated and enlightened citizens."

Mission Statement
We are a community committed to preparing students to be educated and enlightened citizens who lead productive and meaningful lives.

History
Since its establishment in 1908, James Madison University has grown from a small state normal and industrial school for women to today's coeducational comprehensive university with a fall 2012 enrollment of 19,927 students.

The university was founded in 1908 as the State Normal and Industrial School for Women at Harrisonburg, with Julian Ashby Burruss as its first president. The school opened its doors to its first student body in 1909 with an enrollment of 209 students and a faculty of 15. Its first 20 graduates received diplomas in 1911. In 1914, the name of the school was changed to the State Normal School for Women at Harrisonburg. The school received authorization to award bachelor's degrees in 1916. During this initial period of development, Burruss’ administration established the campus plan and constructed six buildings.

After Burruss resigned in 1919, Dr. Samuel Page Duke became the second president. Duke’s administration erected nine major buildings. In 1924, the university became the State Teachers College at Harrisonburg and continued under that name until 1938, when it was named Madison College in honor of James Madison, the fourth president of the United States. In 1946, the Duke administration admitted men as regular day students. Following the retirement of Duke, Dr. G. Tyler Miller became the third president of the university in 1949 and remained until 1970. Miller’s administration enlarged the campus by 240 acres and constructed 19 buildings. The administration also revamped the curriculum. In 1954, the expanding school received authority to grant master’s degrees. The university became a coeducational institution in 1966.

Dr. Ronald E. Carrier became JMU’s fourth president in 1971. His administration changed Madison College into a university. In 1977, the university adopted its current name, James Madison University. The Carrier administration nearly tripled the number of students and university faculty members and constructed some 30 major campus buildings. Doctoral degrees were authorized in 1994.

Dr. Linwood H. Rose was named JMU’s fifth president in September 1998. Under his leadership, JMU was continually recognized in national publications as one of the nation’s finest institutions of its type. More than 20 new academic programs were implemented, 25 major buildings were constructed, a Phi Beta Kappa chapter was installed and the university successfully completed its first capital campaign. Before being named president, Rose had served as a member of the institution’s administration for 23 years.

Mr. Jonathan R. Alger became JMU’s sixth president in July 2012. Before coming to JMU, Mr. Alger served as the Senior Vice President and General Counsel at Rutgers University. In his first year in office, Mr. Alger embarked on an extensive Listening Tour with constituencies on and off campus to discuss the university’s future as an institution fully engaged with ideas and the world. He also appointed the Madison Future Commission to help craft a comprehensive strategic plan for the next chapter of the university’s history and provided leadership for the university’s ten-year reaffirmation of accreditation.

Undergraduate Degrees
Bachelor of Arts
Bachelor of Business Administration
Bachelor of Fine Arts
Bachelor of Individualized Studies
Bachelor of Music
Bachelor of Science
Bachelor of Science in Nursing
Bachelor of Social Work

Graduate Degrees
Doctor of Audiology

  Dean, College of Visual and Performing Arts
- Phillip M. Wishon, Ph.D.
  Dean, College of Education

## Administration

The general responsibility for the administration of the university has been assigned to the president, who is appointed by the JMU Board of Visitors. When the board is in recess, its executive committee may exercise the power of the board.

Assisting the president in the administration of the university are the provost and senior vice president for academic affairs, the senior vice president for administration and finance, the senior vice president for student affairs and university planning, the vice president for access and enrollment management, the vice president for university advancement, the executive director for campus and community programs, university counsel, and the executive assistant to the president.

Appointment to these positions and to the university’s instructional and administrative faculty is made by the JMU Board of Visitors upon the recommendation of the president.

JMU consists of the following colleges and academic administrative units:
- College of Arts and Letters
- College of Business
- College of Education
- College of Health and Behavioral Studies
- College of Integrated Science and Engineering
- College of Science and Mathematics
- College of Visual and Performing Arts
- Libraries and Educational Technologies
- The Graduate School
- University Studies

JMU Alumni
Office of Alumni Relations
Phone: (540) 568-6234
Website: http://www.jmu.edu/alumni

JMU benefits from an active, enthusiastic and supportive alumni association. With more than 110,000 graduates, the JMU Alumni Association strives to develop a continuing interest in the university by providing opportunities for service, fellowship, networking and loyalty for JMU alumni, parents of current students and friends of the university. The association provides scholarship opportunities for incoming JMU freshmen as well as currently enrolled students. Alumni chapters across the country sponsor events, programs, services and various forms of communication for a diverse constituency. The alumni association also hosts annual programming on campus, including homecoming, reunions, senior week and an annual alumni volunteer conference.

The JMU Alumni Association is directed by a board of directors who represent the interests of all graduates by reviewing and setting the strategy for the association. JMU's quarterly magazine, Madison, provides information about the university to all alumni, parents of currently enrolled students, friends and businesses, corporations, and foundations associated with JMU. The e-Newsletter, Madison Update, is a popular way for alumni to stay informed about alumni and campus activities. Further information about all of these programs, products and services is available at http://www.jmu.edu/alumni.

JMU Foundation
The James Madison University Foundation, Inc., a 501(c) 3 organization was established in 1969 to promote the welfare, efficiency, service to the public, and objectives of James Madison University and to encourage private gifts of money, securities, land, or other property of whatever character for such purposes, and to that end to take, hold, receive, and enjoy any gift, grant, devise or bequest, for the benefit of James Madison University in the manner designated, for the general purposes and improvement of James Madison University, and to accept, execute and administer any trust in which it may have an interest under the terms of the instrument creating the trust.

Gifts received by the foundation are used to support the university in many ways, such as:
- construction of buildings
- endowed chairs for distinguished faculty members
- purchase of library resources
- purchase of specialized equipment for university classrooms and laboratories
- renovation and additions to existing facilities
- scholarships for students
- special academic opportunities for students
- special academic programs

Accreditation
James Madison University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate, masters and doctorate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call (404) 679-4500 for questions about the accreditation of James Madison University.

The Commission should only be contacted concerning an institution’s significant non-compliance with a requirement or standard. Normal inquiries about James Madison University (such as admission requirements, financial aid, education programs, etc.) should be directed to JMU, not the Commission’s office.

Admissions
Office of Admissions
Phone: (540) 568-5881
Fax: (540) 568-3332 (fax)
Location: Sonner Hall, MSC 0101

The enrollment for the university is authorized by the State Council of Higher Education in Virginia. The number of students admitted each year is limited by the resources available to the university.

Visiting the University
We encourage prospective students to attend a group information session and a walking tour of campus. To check our visitation schedule and make a reservation, visit http://www.jmu.edu/admissions/visit.

First Year Student Admission
JMU's admission process is competitive. In fact, we receive more qualified applications than we can accommodate. For the 2013 admissions process, approximately 60 percent of applicants were admitted with 88 percent of the applicants being competitive. There is not a prescribed formula for gaining admission. The admissions committee works to select the strongest candidates from a high quality pool. We consider the following factors in evaluating applicants: program of study, academic achievement, standardized test scores, Secondary School Report Form and recommendation, extracurricular activities, and an optional personal statement. Each applicant is rated in the following four areas, listed in order of importance:

Academic Program
Competitive applicants should minimally have the following:
- four years of math with at least one full year beyond algebra II (i.e. pre-calculus, trigonometry, discrete, statistics, analysis, etc.). Computer and consumer math do not count and will not be evaluated as a full year beyond algebra II;
- three years of laboratory science (preferably including biology, chemistry and physics; general science or earth science does not count as a lab science);
- three to four years of the same foreign language or two years of two different foreign languages;
- four years of English; and
- four years of social studies.

Students who challenge themselves with the upper-level courses offered in their high school (i.e. Honors-level courses, Advanced Placement classes, dual enrollment) increase their competitiveness. Although schools provide different opportunities, applicants should pursue the most demanding college preparatory programs available. Because strong students come from many different types of schools, we evaluate applicants within the context of their high schools.

Academic Achievement
To evaluate achievement in high school, we evaluate grades in the core subject areas: mathematics, English, foreign language, social studies and lab sciences. A competitive candidate is an "A/B" student in core courses. We look at performance throughout the entire high school career.

Standardized Tests
Performance on the SAT I or ACT helps discern past academic achievements and potential for future academic success. SAT IIs are not required for or considered in the admissions process.

Extracurricular Activities
We are looking for quality rather than quantity. For instance, we like to see what applicants have done in clubs, organizations and athletics beyond just being members. We also consider community service and part-time jobs. We look at the variety and depth of your involvement. Applicants must be academically competitive before extracurricular activities are reviewed.

Application Deadlines
Early Action Admission
Early Action is more competitive than the Regular Decision process. To be admitted through Early Action, a student needs to be superior in curriculum, grades, test scores and extracurricular activities. The university will offer non-binding early notification admission to qualified first year student applicants. The deadline for early notification is November 1. Successful candidates will be notified in mid-January and must submit a room or tuition deposit by May 1 to enroll at the university. Most students who are not selected for early notification are considered under the university's regular admission process.

For the last two years, 45 to 50 percent of students deferred from Early Action to Regular Decision were eventually admitted. Students who apply Early Action do not have an advantage over students who apply Regular Decision.

Regular Decision Admission
Because Early Action is more competitive than Regular Decision, students who apply through Regular Decision are not at a disadvantage. Applications must be submitted by January 15 to be considered for regular decision admission. All applicants will receive notification of their admission status the first week of April. Admitted students must submit a tuition deposit by May 1 to enroll at the university.
Application Procedure for First Year Student Admission
To access the application, apply online by filling out the application and submitting it electronically with an electronic payment. Students applying to James Madison University must:

- Carefully complete and submit the application, along with the nonrefundable application fee.
- Request that a counselor send a copy of their transcript and a letter of recommendation to:
  Office of Admissions
  MSC 0101
  James Madison University
  481 Bluestone Drive
  Harrisonburg, VA 22807
- Submit their Scholastic Aptitude Test or American College Testing Assessment scores. Applicants should request SAT or ACT scores be forwarded to James Madison University directly from the College Board or American College Testing, respectively.
- Be in good standing and eligible to continue or graduate from high school or earning a GED, at the time of application.
- Have completed or be in the process of completing at least 24 credits at the college or university level, after graduating from high school or earning a GED, at the time of application.
- Competitive transfer applicants must successfully complete college course work in the following areas: English, math, lab science and social science. The more college level course work a student completes, the less emphasis the admission committee places on the high school transcript.
- Be in good standing and eligible to continue or graduate from their previous institution(s). It is the student’s responsibility to provide the JMU Office of Admissions with official transcripts of work completed from all colleges attended. Concealment of previous attendance at a college or university is cause for cancellation of admission and registration. (Students with holds on their academic records will not be considered for admission until holds are released).
- The university recommends students have a “B” cumulative grade point average (3.0 on a 4.0 scale) to be competitive for admission.

Transfer Admission Requirements
To transfer to JMU, a student must:

- Complete a one-page personal statement (optional) for review by the Admissions Committee.
- Indicate a major.
- Submit their Scholastic Aptitude Test or American College Testing Assessment scores. Applicants should request SAT or ACT scores be forwarded to James Madison University directly from the College Board or American College Testing, respectively.
- Have completed or be in the process of completing at least 24 credits at the college or university level, after graduating from high school or earning a GED, at the time of application.
- Be in good standing and eligible to continue or graduate from high school or earning a GED, at the time of application.
- Submit their Scholastic Aptitude Test or American College Testing Assessment scores. Applicants should request SAT or ACT scores be forwarded to James Madison University directly from the College Board or American College Testing, respectively.
- Be in good standing and eligible to continue or graduate from their previous institution(s). It is the student’s responsibility to provide the JMU Office of Admissions with official transcripts of work completed from all colleges attended. Concealment of previous attendance at a college or university is cause for cancellation of admission and registration. (Students with holds on their academic records will not be considered for admission until holds are released).
- The university recommends students have a “B” cumulative grade point average (3.0 on a 4.0 scale) to be competitive for admission.

Application Procedure for Transfer Admission
To apply for transfer admission to the university, applicants must:

- Complete a one-page personal statement (optional) for review by the Admissions Committee.
- Indicate a major.
- All materials are due by October 15 for spring admission, February 1 for summer admission, and March 1 for fall admission.

Evaluation of Transfer Credits
Credit will be awarded for those courses equivalent to courses offered at JMU in which the student has earned a grade of "C" or better. After the student has been approved for admission, the Office of the Registrar will evaluate the transcript(s) of each transfer student to show the credits accepted by the university. The academic unit head of the program in which the student is majoring will determine the credits required for graduation.

Advanced Placement
Applicants for admission who have completed advanced work in secondary school may apply for advanced credit in certain subjects at JMU. Students may apply to the College Board for permission to take one or more of the tests offered through the Advanced Placement program at the following address:

Advanced Placement Examinations
P.O. Box 6671
Princeton, NJ 08541-6671
http://apcentral.collegeboard.com/apc/Controller.jsp

For a full listing of available AP courses and credit opportunities, refer to the table on the next page.

International Admission
The Office of Admissions is responsible for the admission and enrollment of undergraduate international students. It also evaluates “A” Level examinations for academic credit.

Credit will be awarded for those courses equivalent to courses offered at JMU in which the student has earned a grade of "C" or better.

All non-U.S. citizens and nonpermanent residents of the U.S. must complete the international student application. This application and an international student information guidebook are available in the Office of Admissions, located in Sonner Hall.

In addition to regular first year student and transfer admission requirements, international students must present evidence of English proficiency and documentation of sufficient financial resources.

## 2014-2015 Academic Year Advanced Placement Courses

The score necessary to earn college credit at JMU, the corresponding course title at JMU and the credit hours which can be earned appear below. The grading scale is from one to five with five being the highest score. Credit hour equivalencies are reviewed annually by academic departments.

NOTE: This information is subject to change at the discretion of James Madison University. For the 2014-15 academic year, the scores displayed in the online catalog (http://www.jmu.edu/catalog/14) supersede the scores in the printed undergraduate catalog.

International Examinations Credit

JMU will follow the recommendations of the National Council on the Evaluation of Foreign Educational Credentials when awarding academic credit based on international examinations. Questions regarding the evaluation of international examinations should be directed to the Office of Admissions.

Cambridge International Examinations

Students who participated in the Cambridge International Examination program may be awarded general education or other credit. Evaluation of credit will be directed by University Programs in coordination with the appropriate departmental undergraduate office.

For a full listing of available Cambridge International Examination courses and credit opportunities, refer to the table below.

### 2014-2015 Cambridge International Examination Courses

The grade necessary to earn college credit at JMU, the corresponding course title at JMU and the credit hours which may be earned appear below. The acceptable grading scale is A, B, or C; although the acceptable grade for credit may vary between courses and the level of the exam taken. Credit hour equivalencies are reviewed annually by academic units.

French Baccalaureate

Students with scores of 12/20 or higher on examinations in subjects studied at a coefficient of 4 or 5 may be awarded general education or other credit. Evaluation of credit will be directed by University Programs in coordination with the appropriate departmental undergraduate office. The “Total Score” of the French Baccalaureate is not used to determine credit eligibility.

German Abitur

Students who participated in the Thirteenth Class (Dreizehnte Klasse) German Abitur program may be awarded general education and other credit for examination scores of 10 or higher (15-point scale). Evaluation of credit will be directed by University Programs in coordination with the appropriate departmental undergraduate office.

International Baccalaureate

JMU recognizes the International Baccalaureate diploma and individual IB courses by awarding credit on IB higher-level examinations in essentially the same manner in which credit is allowed for Advanced Placement courses.

1 This information is subject to change at the discretion of James Madison University. For the 2014-2015 academic year, the scores displayed in the online catalog (http://www.jmu.edu/catalog/14) supersede the scores in the printed undergraduate catalog.

2 BIO 100 does not count toward major or minor requirements in biology or toward general education requirements, but is elective credit toward a degree.

Typically, credit hours will be awarded for each higher-level examination on which a score of five, six or seven has been earned. Credit hour equivalencies are reviewed annually by academic departments.

Some standard-level examinations will also be considered for credit. The university encourages the completion of the IB diploma and will give special consideration for admission to students who have completed the IB program. The grading scale is from one to seven, with seven being the highest score.

For a full listing of available IB courses and credit opportunities, refer to the table below.

United Kingdom “A” Level Examinations

Credit will be awarded to those students who receive a “C” or higher on an “A” level exam. Credit will be comparable to completing the two-course introductory sequence (six credit hours) in the subject.

http://www.jmu.edu/catalog/14
Special Admission Requirements

In addition to regular first year student and transfer admission requirements, students who want to major in music, musical theatre or dance must also complete an on-campus audition. Incoming freshman intending to major in graphic design, interior design or studio art are highly encouraged to submit a portfolio and be interviewed.

Art

Phone: (540) 568-6216/6661
Email: art-arhistory@jmu.edu
Website: http://www.jmu.edu/art

Art History Majors

Students intending to major in art history are not required to submit a portfolio or additional material for review, but should follow the regular JMU admissions process. To enroll in the museum studies concentration in art history, students must have a 3.3 GPA in the major and a minimum of nine credits in Art History (ARTH) and General Education Art History (GARTH) courses.

Graphic Design Majors

All prospective freshmen, transfer and change of major students intending to major in graphic design must meet JMU admission requirements as stated in the Undergraduate Catalog. In addition to meeting JMU admission requirements, all students are required to submit a portfolio to the school's SlideRoom account (https://jmuart.slideroom.com). The deadline for submitting portfolios to the school's SlideRoom site is the first Monday after the last portfolio feedback day in January. There is a $10 charge for this submission. Additionally, transfer and change of major students will need to upload unofficial transcripts and a statement of intent to the school's SlideRoom account that explains their educational and artistic goals, articulating the reasons for choosing this area of study. The submission of a portfolio is seen as evidence of a student's interest and potential for future success in art. It is also an opportunity for all students to be considered for a scholarship. All scholarship awards are based on merit and vary in amount, up to the full cost of tuition.

The School of Art, Design and Art History offers students the opportunity for feedback on their portfolio, prior to the digital submission, through several on-campus and off-campus portfolio review days. This portfolio review event will provide an opportunity for feedback on actual artwork, as well as an opportunity to meet with faculty from the school. Tours of facilities and program info sessions will take place at on-campus events. All students (prospective, transfer, change of major) are strongly encouraged to attend a Portfolio Feedback Day prior to submitting their portfolio. For these in-person feedback sessions, it is highly recommended that students show actual works of art; however, a portfolio that consists of printed images is acceptable. Further, if time-based media examples, e.g., video and animation, are included, students will need to bring their own digital device for presentation purposes. Refer to the SADAH website for the dates of the upcoming Portfolio Feedback Days and for additional portfolio requirements.

Students seeking official acceptance into the graphic design major must enroll in GRPH 208 and submit a portfolio representing work completed in GRPH 200, Computer Graphics; GRPH 202, Design Methodology; and GRPH 206, Introduction to Typography. Students not admitted may reapply the following semester.

Interior Architecture Majors

All prospective freshmen, transfer and change of major students intending to major in interior architecture must meet JMU admission requirements as stated in the Undergraduate Catalog. In addition to meeting JMU admission requirements, all students are required to submit a portfolio to the school's SlideRoom account (https://jmuart.slideroom.com). The deadline for submitting portfolios to the school's SlideRoom site is the first Monday after the last portfolio feedback day in January. There is a $10 charge for this submission. Additionally, transfer and change of major students will need to upload unofficial transcripts and a statement of intent to the school's SlideRoom account that explains their educational and artistic goals, articulating the reasons for choosing this area of study. The submission of a portfolio is seen as evidence of a student's interest and potential for future success in art. It is also an opportunity for all students to be considered for a scholarship. All scholarship awards are based on merit and vary in amount, up to the full cost of tuition.

The School of Art, Design and Art History offers students the opportunity for feedback on their portfolio, prior to the digital submission, through several on-campus and off-campus portfolio review days. This portfolio review event will provide an opportunity for feedback on actual artwork, as well as an opportunity to meet with faculty from the school. Tours of facilities and program info sessions will take place at on-campus events. All students (prospective, transfer, change of major) are strongly encouraged to attend a Portfolio Feedback Day prior to submitting their portfolio. For these in-person feedback sessions, it is highly recommended that students show actual works of art; however, a portfolio that consists of printed images is acceptable. Further, if time-based media examples, e.g., video and animation, are included, students will need to bring their own digital device for presentation purposes. Refer to the SADAH website for the dates of the upcoming Portfolio Feedback Days and for additional portfolio requirements.

Students seeking official acceptance into the interior architecture major must enroll in IARC 208 and submit a portfolio representing work completed in IARC 200, Interior Architecture Studio I, and IARC 202, Interior Architecture Studio II. Students not admitted may reapply the following year.

Studio Art Majors

All prospective freshmen, transfer and change of major students intending to major in studio art must meet JMU admission requirements as stated in the Undergraduate Catalog. In addition to meeting JMU admission requirements, all students are required to submit a portfolio to the school's SlideRoom account (https://jmuart.slideroom.com).

http://www.jmu.edu/catalog/14
The deadline for submitting portfolios to the school’s SlideRoom site is the first Monday after the last portfolio feedback day in January. There is a $10 charge for this submission. Music
Phone: (540) 568-3851
Email: music_admit@jmu.edu
Website: http://www.jmu.edu/music

Auditions for music are given on three specific dates in January and February. It is important that students indicate their intention to participate in the audition process by January 15.

Nursing
Phone: (540) 568-6314
Website: http://www.nursing.jmu.edu

In addition to the regular first year student and transfer admission requirements, students who intend to major in nursing must submit a B.S.N. Admission Application. Applications, admission criteria, and admission deadlines may be found on the Department of Nursing website.

Theatre and Dance
Phone: (540) 568-6342
Email: theatredance@jmu.edu
Website: http://www.jmu.edu/theatredance

Admissions to the theatre, musical theatre, and dance programs are by audition for performers or portfolio review for design/technical theatre, theatre studies (directing, dramaturgy, theatre scholarship, etc.) or theatre education students. Theatre and musical theatre auditions/portfolio reviews are held in January and early February for first year student applicants. Auditions and portfolio reviews for transfer students are held in the late fall and mid-spring. Refer to the Theatre and Dance websites for more information on requirements for admission to the programs at http://www.jmu.edu/theatre/thadmis.htm (theatre) and http://www.jmu.edu/theatre/madmis.htm (musical theatre).

Dance program auditions take place in November and in February. Transfer students must audition at one of these audition dates. For the dates of the dance audition and for information on what is required in order to audition, refer to http://www.jmu.edu/theatre/dadmis.htm.

Credit for Military Service
JMU encourages veterans to apply for admission as full-time or part-time students. Information regarding VA Educational Benefits is available from the veterans’ coordinator, 504 Warren Hall. Veterans who have one or more years of active military duty will be granted six hours of health and kinesiology elective credit (providing they have no previous credit in this area). Students must submit a Report of Separation (DD-214) to receive this credit. Additional credit may be given for successfully completing certain service schools. This credit will be determined based on recommendations in A Guide to the Evaluation of Educational Experiences in the Armed Services. The Office of the Registrar should be consulted.

Credit is allowed for courses taken at the Defense Language Institute. The amount of credit varies with the type of courses successfully completed. JMU must receive an official transcript. Credit allowed is based on the recommendation in A Guide to the Evaluation of Educational Experiences in the Armed Services. For those languages not offered at JMU, a maximum of 12 hours is accepted.
The following table.

A student will be placed on academic suspension if that student's cumulative grade point average falls below 2.0. Students who are placed on academic probation at the end of the fall semester may enroll for the spring semester; however, students on academic probation will be restricted to a course load of no more than 12 credit hours each semester until their cumulative grade point average has improved sufficiently enough to remove them from academic probation. The university might also require students on academic probation to confer regularly with their academic advisers and to participate in educational skills development programs.

### Academic Good Standing

Undergraduate students who maintain a cumulative grade point average of at least 2.0 are considered to be in academic good standing and are eligible for continued enrollment at JMU.

### Academic Probation

Academic probation is an indication of serious academic difficulty and applies whenever a student's cumulative grade point average falls below 2.0. Students who are placed on academic probation at the end of the fall semester may enroll for the spring semester; however, students on academic probation will be restricted to a course load of no more than 12 credit hours each semester until their cumulative grade point average has improved sufficiently enough to remove them from academic probation. The university might also require students on academic probation to confer regularly with their academic advisers and to participate in educational skills development programs.

### Academic Suspension

A student will be placed on academic suspension if that student's cumulative grade point average is below the minimum required for continued enrollment. These requirements are set forth in the following table.

<table>
<thead>
<tr>
<th>Total Number of Hours for Standing 1</th>
<th>Cumulative GPA for Academic Suspension</th>
</tr>
</thead>
<tbody>
<tr>
<td>1-27</td>
<td>less than 1.500</td>
</tr>
<tr>
<td>28-44</td>
<td>less than 1.650</td>
</tr>
<tr>
<td>45-59</td>
<td>less than 1.750</td>
</tr>
<tr>
<td>60-74</td>
<td>less than 1.850</td>
</tr>
<tr>
<td>75-89</td>
<td>less than 1.900</td>
</tr>
<tr>
<td>90-104</td>
<td>less than 1.994</td>
</tr>
<tr>
<td>105-119</td>
<td>less than 1.999</td>
</tr>
<tr>
<td>120 or above</td>
<td>less than 2.000</td>
</tr>
</tbody>
</table>

1 Total Number of Hours for Standing includes all hours attempted at JMU plus:
   (1) Credit hours transferred to JMU.
   (2) Credit hours earned by departmental exam and AP credit.
   (3) Credit hours for courses taken on a credit/no credit basis (whether the final grade was CR or NC). For instance, in the example below a student has attempted 60 credit hours at JMU and received 30 credits for transfer work and two hours of no credit work. The hours attempted plus the no credit and transfer hours place this student in the 92 credit hour category, even though the total number of hours earned is equal to 82. With a cumulative GPA of 1.991, the student is subject to suspension.

<table>
<thead>
<tr>
<th>JMU Hrs</th>
<th>Trans</th>
<th>NC</th>
<th>JMU Hrs</th>
<th>Cum. Hrs</th>
<th>Hrs for</th>
<th>Cum. Quality</th>
</tr>
</thead>
<tbody>
<tr>
<td>Attempted Hrs</td>
<td>Hrs</td>
<td>Earned</td>
<td>Standing</td>
<td>Pts Earned</td>
<td>GPA</td>
<td></td>
</tr>
<tr>
<td>60</td>
<td>30</td>
<td>2</td>
<td>52</td>
<td>82</td>
<td>92</td>
<td>119.5</td>
</tr>
</tbody>
</table>

Students who take fewer than nine credit hours in their first semester at JMU will not be reviewed for academic standing that semester. As a rule, academic suspension will be invoked at the end of spring semester (and summer session for students who attend summer session); however, in exceptional cases where academic performance is persistently unsatisfactory, or in cases where students fail to meet continued enrollment conditions, the university may choose to suspend students at the end of fall semester.

Suspended students who wish to rectify their academic deficiencies may enroll in the immediately following summer session. If the student uses a summer session to raise his/her cumulative grade point average to at least the minimum required for continued enrollment on academic probation, then that student will be eligible to enroll for the fall semester under the restrictions described under academic probation. Students unable to raise their grade point average to the minimum required conditions for continued enrollment will be academically suspended and ineligible for continued enrollment at JMU.

The period of suspension is a minimum of one calendar year following a first suspension. Following a second suspension, the period of suspension is a minimum of two calendar years. Students who are academically suspended for a second time are eligible to apply to return to JMU by agreeing to apply for the Transfer Equivalent Option upon their approved return to JMU. Re-entry is not guaranteed but is contingent upon review by an academic review committee chaired by the Director of Academic Student Services. Such review may result in denial or conditional re-entry.

### Academic Dismissal

A student who is suspended a third time will be permanently dismissed from the university. No appeal of this dismissal will be considered, nor will students dismissed for academic deficiency be allowed to exercise the transfer equivalent option.

### Adding a Course, Changing Sections or Changing Credit Options

Students may add a course and change sections or credit options according to deadlines and instructions published on the Registrar's website. Students should note that adding a course may result in a tuition increase.

Dropping and withdrawing both result in the termination of a student's enrollment in that course.

### Dropping a Course

Dropping a course must be completed before the drop deadline, which is the second Tuesday of a regular semester. There is no fee for dropping a course, and the dropped course will not appear on the student's transcript. Depending on the student's course load, dropping a course might result in a tuition reduction.

### Withdrawing from a Course

A student may terminate enrollment in a course by withdrawing from the course after the drop deadline but before the course adjustment deadline. A student who withdraws from a course will receive a grade of "W" for the course, and this grade will be recorded (and remain) on the student's transcript regardless of the status of the student in the course at the time of the withdrawal.

[http://www.jmu.edu/catalog/14](http://www.jmu.edu/catalog/14)
In extraordinary situations, a student unable to complete some course requirements after the course adjustment deadline (approximately one week after midterm grades are due for a regular semester) may request that the instructor consider awarding a grade of "WP" (Withdrawn Passing) or "WF" (Withdrawn Failing). A student should not assume that a late withdrawal will be provided by the instructor. There is no obligation for the instructor to assign a "WP" or "WF" grade. The instructor determines the form (e.g., verbal, written) and timing of requests for a "WP" or "WF" grade. The student must ensure that the request is made in an appropriate manner and at an appropriate time. In response to such a request, the instructor may choose to record a grade of "WP" or "WF," but is not obligated to do so and may record any grade other than "W." The course instructor may also suggest that the student contact the Office of the Dean of Students about withdrawing from the university. Withdrawing from a course will not result in a tuition reduction. Students considering withdrawing from a course should be aware that graduate and professional schools and future employers might hold differing opinions on a student's withdrawal from a course. For this reason, a student should withdraw from a course only after serious consideration.

Course Load
The university considers full-time enrollment in a term to be a minimum of 12 credit hours. In all programs, the normal load per semester is 15 or 16 credit hours. A student with a cumulative grade point average of 3.25 or better may register for as many as 21 credit hours per semester. Any student in academic good standing may take a maximum of 19 credit hours without securing special permission.

Students in academic good standing who wish to exceed these credit per semester limitations must secure permission from the head of the academic unit in which they are majoring. The university strongly recommends that a student who earns a semester grade point average of less than 2.0 not register for more than 16 credit hours the following semester. A student on probation may not take more than 12 credit hours per semester without appropriate approval.

Academic Probation and Course Load
Students on academic probation must get the approval of the office of the dean of their major college if they wish to take more than 12 credit hours per semester. Students should note that an undergraduate course load of at least 12 credit hours a semester is required for a student to live in a residence hall.

Summer Session Course Load
During summer session, undergraduate students may take six credit hours for each four-week term, nine credit hours for each six-week term and 12 credit hours for each eight- and ten-week term. The head of the academic unit in which the student is majoring must approve overloads at the time of registration. Students are reminded that summer course work is intensive because of the condensed instructional time-frame and are encouraged to plan their summer schedules with the demanding workload in mind.

Attendance
A student's participation in the work of a course is clearly a precondition to receiving credit in that course. Because of the wide variety of courses and teaching methods at JMU, the university recognizes that the nature of a student's participation in the work of a course cannot be prescribed on a university-wide basis. For this reason, classroom attendance is not a matter subject to regulation by the university. Attendance in class and in the laboratory is a matter between the student and the faculty member in that class or laboratory.

Absence Policy
Instructors' policies govern how many excused absences will be allowed and how these excused absences will be handled in their classes. However, certain absences are often considered legitimate:

- Scheduled absences (known in advance at the start or within the first two weeks of the semester).
- Religious observance where the nature of the observance prevents student from attending class.
- Scheduled necessary medical procedures.
- Participation in intercollegiate athletic competitions.
- Functions or performance activity related to academics (music, debate, workshop, academic conferences, etc.).

Faculty are strongly encouraged to publish, as part of the course syllabus and/or discuss during the initial class session, how many excused absences will be allowed, any mandatory and/or unrepeatable components of the course, and the expected procedure for requesting and obtaining approval for scheduled absences. Students are required to notify the faculty by no later than the end of the Drop-Add period the first week of the semester of potential scheduled absences and determine with the faculty if mutually acceptable alternative methods exist for completing the missed classroom, lab, clinical/field or other required activities. This allows students to drop the course if it is determined that missed academic activities cannot be rescheduled in a reasonable fashion or that the absences would prevent adequate mastery of the material. Students are to submit verification of scheduled absences to the faculty by no later than the first class period of the second week of the semester. Examples of unexpectedly rescheduled absences (initially scheduled for one time, then changed with limited notice) and unforeseeable unscheduled absences (compelling, verifiable circumstances beyond the student's control) include:

- Activity season extended due to achieving berth in playoffs (verified by athletic director).
- Death in immediate family (verified by funeral director and/or copy of obituary).
- Disaster services or armed services activation for duty (verified by copy of official notification).
- Inclement weather postponement of the event or postponement and rescheduling of the event by external parties, e.g., illness of featured speaker (verified by event coordinator).
- Jury duty or court-ordered appearance (verified by clerk of the court).
- Other unavoidable compelling verifiable absence.
- Student illness or injury (verified by health care provider).

Students are to notify the faculty of each unexpected absence and determine with the faculty if mutually acceptable alternative methods exist for completing or demonstrating mastery of missed learning activities within one week of becoming aware of the projected absence.
If required by the faculty, students are to submit verification of any absence to the faculty prior to the absence if possible and upon return to class if not possible prior to the absence. Faculty may consider the absence as unexcused if the student fails to comply with published notification and verification timeframes or procedures.

Auditing
In order to audit a class, a student must have the permission of the instructor and the head of the academic unit offering the class. Audited courses will not affect a student’s attempted and earned credit hours or grade point average, but tuition will be billed for the course.

Catalog of Record
Students are generally subject to the curricular and graduation requirements contained in the undergraduate catalog in effect upon or subsequent to their enrollment at JMU, with approval of the students’ major program and the Office of the Registrar. Students who leave and re-enter the university must consult with their academic unit head for designation of the appropriate catalog of record.

Aging Credit
With the exception of undergraduates enrolled in adult degree programs, students are expected to complete all baccalaureate major and degree requirements within seven years of their original entry date to JMU or previous higher educational institution(s). If required by the academic unit, academic work completed more than seven years prior to the students’ anticipated graduation date might be subject to review by the major and minor academic units and the General Education Program for applicability to the undergraduate degree program. Additional standards may apply in programs leading to licensure or certification.

Changes in Requirements
James Madison University is a progressive educational institution, and its offerings and requirements in the undergraduate catalog are under continual examination and revision. Revisions often affect currently enrolled students. Although the university attempts to alert students to these revisions through the academic advising process, individual reports of academic progress and various campus publications, responsibility for meeting all curricular and other graduation requirements rests with the students, who are encouraged to consult regularly with their program advisers as well as Career and Academic Planning.

Classification
The classification of students depends upon the number of credit hours they have earned.

<table>
<thead>
<tr>
<th>Classification</th>
<th>Credit Hours</th>
</tr>
</thead>

</tr>
</tbody>
</table>

Course Adjustment
A course adjustment is any change to a student’s registered course schedule. A course adjustment can include any of the following: changing a credit option, changing a section, adding a course, dropping a course or withdrawing from a course. Deadlines for processing specific course adjustments are stated on the Registrar’s website. The end of the course adjustment period (approximately one week after midterm grades are due for a regular semester) is the deadline for withdrawing from a course and changing credit options for a semester course. First semester first year students (students who have taken 27 or fewer credit hours) must secure the prior approval of their faculty adviser for any course adjustments. Each student is responsible for knowing his/her registered course schedule and for making any desired course adjustments prior to the published registration deadlines.

Confidentiality of Educational Records

The Family Educational Rights and Privacy Act of 1974
James Madison University adheres to and annually informs students of the Family Educational Rights and Privacy Act of 1974, as amended. This act, with which the institution intends to fully comply, was designated to protect the privacy of educational records. Under the Family Educational Rights and Privacy Act (FERPA), students have certain rights with respect to their education records. These rights include:

The right to inspect and review the student’s education records within 45 days of the day the university receives a request for access.

The student should submit to the registrar, dean, head of the academic unit or other appropriate official written requests that identify the record(s) he/she wishes to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading.

The student may ask the university to amend a record that he/she believes is inaccurate or misleading. The student should write the university official responsible for the record, clearly identify the part of the record he/she wants changed, and specify why it is inaccurate or misleading. If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of his/her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests.

http://www.jmu.edu/catalog/14
A school official is a person employed by the university in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the university has contracted (such as an attorney, auditor or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility. Upon request, the university may disclose education records without consent to officials of another school in which a student seeks or intends to enroll. The following is considered “Directory Information” at James Madison University and may be made available to the general public unless the student notifies the Office of the Registrar in person or in writing within five days after the first day of class registration: Student’s name, telephone numbers, addresses, major and minor fields of study, college of major and year (first year, sophomore, etc.), enrollment status (full-time/part-time) including credit hours, dates of attendance, degree sought and time, degrees conferred, awards and honors conferred, participation in officially recognized activities and sports, weight and height of members of athletic teams, the most recent previous educational agency or institution attended by the student, fraternity and/or sorority and educational societies.

The right to file a complaint with the U.S. Department of Education concerning alleged failures by James Madison University to comply with the requirements of FERPA.

Credit Hours

The JMU academic calendar is based on the semester system. The unit of credit is the credit hour. A credit hour represents one 50 minute class period (or its equivalent in other forms of instruction) each week in the semester for lectures, or two 50-minute class periods for each week in the semester for laboratory or fieldwork. A minimum of 750 minutes of instruction or equivalent is required for each credit hour.

Credit/No-credit Course Registration

The credit/no-credit option has been established to encourage students to explore academic areas with which they are unfamiliar. Such academic exploration allows students to fully integrate field-based learning activities into appropriate programs of study. The design of the credit/no-credit option allows students to participate in courses outside of their major and minor fields of concentration without jeopardizing their academic records. In some cases, the credit/no-credit option might also help to reduce academic pressures and competition for grades.

Students electing to take courses under this option should be selective in choosing the courses that they take as credit/no-credit. Graduate and professional schools and future employers, however, might hold differing opinions of such a nontraditional grading system. For this reason, students should consult with their academic advisers for information concerning the inclusion of credit/no-credit course grades within their programs.

Students are eligible to take a course on a credit/no-credit basis if they have completed at least 28 credit hours at JMU and have attained a 2.25 cumulative grade point average or higher. Transfer students may take courses on the credit/no-credit option only if they have completed 28 credit hours with at least 14 hours at JMU. JMU allows students to register for kinesiology activity courses on a credit/no-credit basis at any time without regard to minimum hours completed or grade point average. Also, grades for student teaching are assigned on a credit/no-credit basis. Except for field-based courses (which may be defined by an academic unit as credit/no-credit), the following courses may not be taken as credit/no-credit:

- Courses used to meet General Education requirements
- Courses used to meet declared major requirements
- Courses used to meet declared minor requirements
- Any course listed by subject name in the major or minor program, even if the course does not specifically satisfy a requirement for the major or minor
- Courses being repeated that were previously taken for a letter grade
- Degree requirements

Students should also keep in mind the following factors when considering the credit/no-credit option:

- Students can take up to 15 credit hours on a credit/no-credit basis.
- The university limits the maximum number of credit/no-credit courses a student can take to four credit hours per semester or one course of more than four credit hours per semester.
- Student teaching is not counted as a part of these credit/no-credit totals.
- Students registering for classes should complete the required paperwork with the Office of the Registrar for courses that they plan to take on a credit/no-credit basis, and all changes to and from the credit/no-credit option must be completed by the end of the course adjustment period.
- The credit/no-credit option will only apply to final grades. All course work and quizzes will be graded as if the student were taking the course for graded credit.
- Students taking a course on a credit/no-credit basis will only be identified to the instructor after final grades have been submitted.
- Instructors will submit letter grades to the university registrar who will then change all grades of “A” through “C” to “CR” (credit) for those students enrolled under the credit/no-credit option. (The university makes exceptions to this process for field-based courses designated by the academic unit.) Students will receive credit hours, but they will not receive quality points for the work completed. Therefore, the grade of “CR” will not affect a student’s cumulative grade point averages.
- A grade of “NC” (no-credit) will be recorded for all grades of “C-” and below, and the student will not receive credit hours or quality points for the grade of “NC.” The fact that the student took the course will remain on that student’s transcript, but the grade assigned in that class will not affect that student’s cumulative grade point average.

http://www.jmu.edu/catalog/14
Credit Opportunities
The university offers the following options to enable students to earn credit toward their degree outside the traditional classroom setting:
- Admission of High School Students as Special Students
- Admission of first year students with Advanced Placement
- Credit by Examination
- Independent Study

Credit by Examination
College degrees represent growth and maturity in certain fundamental knowledge and skills rather than a mere accumulation of credit hours. In recognition of the fact that some persons may achieve academic competence through nontraditional means, such as private study, technical employment or prior instruction, JMU endorses the concept of credit by examination. By permitting a student to earn credit by academic unit examination for knowledge already gained, highly motivated or academically advanced persons are able to accelerate their program. It is the student’s responsibility to ascertain what preparation and background are necessary for taking advantage of this means of acceleration, before attempting an examination. Any enrolled undergraduate student may apply to take an examination for credit in selected courses in the undergraduate curriculum. Permission to take an examination for credit must be obtained from the head of the academic unit in which credit is sought. A student will not be permitted to take the examination for credit option with any of the following conditions:
- The student is presently enrolled in the course.
- The student has previously completed the course.
- The course is a prerequisite for a course in which the student is currently enrolled or has completed.
- The course is numbered at a lower level than courses in which the student is currently enrolled or has previously completed without the expressed approval of the academic unit head.
- A student’s grade in a course was assigned due to a violation of the Honor System.

Each academic unit will use its own discretion in developing the form of the examination and in determining the procedure to be followed. Students may earn as many as 30 credit hours through credit by academic unit examination, with no more than 12 credit hours in any one discipline. To receive credit, a student must make a grade of “C” or better on the examination. Each academic unit shall determine what constitutes a “C” for that academic unit. No academic unit shall require a grade higher than a “C” for passing the examination. The examination for a course can be taken only once in a given semester. A nonrefundable fee must be paid prior to the administration of an examination for credit. (Refer to the Tuition and Fees section of this catalog.) Each academic unit will determine its time schedule for giving examinations.

Independent Study
Every academic unit at JMU offers a course designed to give capable students an opportunity to do faculty-supervised independent studies. Such courses often carry more than the normal three credit hours for a semester’s work. In addition, these independent study courses allow especially capable students to work at their own, often accelerated pace. Arrangements for independent study should be made with individual faculty members.

Final Examinations
Students are expected to attend final examinations during the times scheduled for those examinations. Extenuating circumstances, however, might prompt faculty members to approve a student’s request for an exception to attending the final examination. Students whose requests for exceptions are disapproved by the relevant faculty members have the right to appeal to the relevant academic unit head or academic dean. No appeal will be favorably considered without prior consultation with the faculty member.

Final Examinations Missed Due to Inclement Weather or Emergency
In response to inclement weather and other emergencies, the university may be forced to cancel final exams. When the university closes due to weather or other types of emergencies, faculty will administer regularly scheduled final examinations at an official make-up time designated by the university unless otherwise announced in the course syllabus. The official make-up time will be designated as part of the closing announcement. Unless otherwise notified, make-up examination locations will be the same as locations for regularly scheduled exams.

If it is determined that exams cannot be given because of inclement weather or other emergency, faculty will assign final grades to students based on the exams, tests and projects completed prior to the regularly scheduled exam dates.

Grade Review Procedure
Maintaining standards of excellence and the integrity of the teaching/learning process are important values to JMU faculty. The university and its faculty members also recognize that grades may sometimes be inaccurately assigned. If such disagreements occur, students have a right to voice their opinion concerning a particular course grade. Evaluation of student work and assignment of grades to students based on the exams, tests and projects completed prior to the regularly scheduled exam dates.

Grade Change Procedure
If a student (graduate, undergraduate or post-baccalaureate) believes that a grade was assigned in error, because of a mistake in calculation or an error in recording a grade, the student should consult the faculty member (or faculty members, in the case of a jointly taught course) before the Friday of the second week of classes in the regular semester following the semester of the contested grade to resolve the discrepancy. Requests for review of spring semester or summer session grades must be initiated no later than the Monday of the third week of classes in the subsequent fall semester. It is the student’s responsibility to maintain all documentation for his/her classes, including copies of assignments and grades earned.

http://www.jmu.edu/catalog/14
A copy of the Grade Change Form will be forwarded to the dean. The only basis for this type of change is an error in grade assignment or calculation.

If the faculty member does not agree to change a grade based on an error in recording the grade, the student may activate the grade review process listed below.

**Grade Review Process**

If a student (graduate, undergraduate or post-baccalaureate) believes that a final course grade was unfairly awarded, that student may initiate the grade review process. Students should be aware that, as a result of review, a grade may be raised, lowered or left the same.

Evaluation of student work and assignment of grades on the basis of academic criteria are the responsibilities of and prerogative exercised by the faculty member teaching that particular course. Grades should be assigned on a fair and scholarly basis.grounds for grade review are limited to two categories.

1. The grade was assigned in a manner other than that listed in the course syllabus or as amended by the faculty member with appropriate notice.
2. The grade was assigned in a manner other than that used for other students in the class.

**Activating the Grade Review Process**

To activate the grade review process, the student should follow these steps.

1. The student submits a Grade Review Form (available at [http://www.jmu.edu/registrar/forms.shtml](http://www.jmu.edu/registrar/forms.shtml) or the Office of the Registrar) to the appropriate faculty member by Monday of the third week of classes in the regular semester that follows the semester for which the contested grade was given. The student should attach a written explanation of reasons for the dispute, including any documentation relating to the disputed grade. Requests for review of spring semester or summer session grades must be initiated no later than the Monday of the third week of classes in the subsequent fall semester.

2. The student communicates with the faculty member by Friday of the third week of classes to attempt to resolve the concern.
   - If the student and the faculty member reach an agreement that the grade should be changed, the faculty member changes the grade by submitting a Grade Change Form to the appropriate academic unit head for that individual's signature. A copy of this signed Grade Change Form will be forwarded to the dean. A copy of the Grade Review Form, with resolution noted, will be forwarded to the Office of the Registrar. For graduate students whose grade of "C," "U" or "F" is to be changed, notice of the grade change must also be sent to The Graduate School before that change occurs.
   - If no resolution is reached, the faculty member signs the Grade Review Form and records a written response on the reverse side of the form by Friday of the seventh week of classes. The student receives the original copy of this form, the relevant faculty member receives a copy of the form and the sender retains a copy of the form.
   - If all involved parties agree that the grade should be changed, the faculty member submits a Grade Change Form to the academic unit head and the appropriate individual signs the form. A copy of the form will be forwarded to the dean. A copy of the Grade Review Form, with resolution noted, will be forwarded to the Office of the Registrar. Notice of the grade change must also be sent to The Graduate School before the grade change occurs for graduate students who have a grade of "C," "U" or "F" changed to some other grade.

After the review process outlined has been completed, if the academic unit head and faculty member agree that a grade should not be changed, a student can also request that the form, documentation and responses be reviewed by the dean of the college in which the class was taught. The college dean’s responsibility is to ascertain whether all parties have had an opportunity to present all relevant facts and have received a fair and impartial hearing at each level, and to review whether the faculty member has acted appropriately in assigning the grade.

To enter this phase of the process, a student should follow these procedures.

1. The student contacts the dean by Friday of the eighth week of classes and requests that the dean review the overall process.
2. The college dean reviews the process to be sure the student and the faculty member have had a fair hearing, and whether the faculty member has acted appropriately in assigning the grade.
   - If the relevant college dean believes that due process was not followed during the review process, or that the faculty member has not acted appropriately in assigning the grade, the dean consults with the relevant faculty member and academic unit head or cluster coordinator in an attempt to resolve the dispute.
3. The relevant college dean sends a written response to all involved parties by Friday of the tenth week of classes.
   - This written response is appended to the Grade Review Form. The dean returns the original copy to the student, retains a copy for him/herself and sends a copy to the relevant academic unit head and the relevant faculty member.
   - If it is agreed that the student’s grade should be changed, the relevant faculty member submits a Grade Change Form to the academic unit head. The recipient then signs the form and forwards a copy to the dean. A copy of the Grade Review Form, with resolution noted, will be forwarded to the Office of the Registrar. Notice of the grade change must also be sent to The Graduate School before the grade change occurs for graduate students who have a grade of "C," "U" or "F" changed to some other grade.

If the dean determines that the grade will not be changed, there is no further review available to the student. The entire process will not extend past the end of the semester following the contested grade with the exception of grades given for summer session courses.

[http://www.jmu.edu/catalog/14](http://www.jmu.edu/catalog/14)
Special Circumstances

Students who spend a semester abroad should submit the Grade Review Form to the relevant faculty member by the Monday of the third week of classes in the semester following the semester during which the grade was given. These students must also notify the faculty member of their semester absence from campus. Students can complete a written explanation of the reasons for the dispute and submit relevant documentation upon their return to campus, but that student cannot submit the request after the end of that semester.

If a faculty member is not on campus when a student wants to initiate a grade review, the student should contact the academic unit head to begin the process. The academic unit head will contact the faculty member for his/her decision on whether the grade should be changed.

Grades for block courses are officially recorded at the end of the semester; therefore, a grade review process for a block grade should follow the same procedure as for a semester course.

Graduation

Graduation Requirements

The faculty adviser and the academic unit head make the official check on major and minor course requirements for graduation. The Office of the Registrar makes the final check on courses required for the final term, total credit earned, the General Education program, degree requirements and the cumulative GPA earned at the university, as well as other university-wide requirements.

To receive a degree from JMU, a student must:

- Meet the General Education requirements.
- Have a cumulative grade point average of 2.0 or better at JMU.
- Have earned at least 50% of credit hours accepted by JMU from accredited senior (four-year) institutions of higher education, leading to the degree for which they are candidates.
- Meet the major and degree requirements of one of the curricula in which all graduation requirements are met.
- Be enrolled at JMU during the semester in which the requirements for the degree are completed.
- Have earned at least 50% of credit hours accepted by JMU from accredited senior (four-year) institutions of higher education, including JMU (80 credits for degree programs of 120 credits).
- Be enrolled at JMU during the semester in which the requirements for the degree are completed.
- Have earned a minimum of 25% of credit hours at JMU (30 credits for degree programs of 120 credits).
- Have earned at least 14 credit hours per fall and spring semester during his/her career at JMU.
- Be eligible to graduate with honors for students who entered JMU prior to 1996 and thereafter.
- Meet the major and degree requirements of one of the curricula in which all graduation requirements are met.
-毕业论文
- Meet the major and degree requirements of one of the curricula in which all graduation requirements are met.
- Have earned at least 25% of credit hours at JMU (30 credits for degree programs of 120 credits).
- Be enrolled at JMU during the semester in which the requirements for the degree are completed.
- Have earned at least 50% of credit hours accepted by JMU from accredited senior (four-year) institutions of higher education, including JMU (80 credits for degree programs of 120 credits).

A student expecting to graduate at the end of any semester must file an Application for a Bachelor’s Degree, available at the registrar’s office, with the university registrar as specified in the University Calendar. Responsibility for meeting graduation requirements rests with the student.

A student who has applied to graduate may participate in commencement exercises only if the student has fulfilled or is reasonably expected to fulfill all applicable graduation requirements prior to the date of the commencement exercises. A student who is reasonably expected to fulfill all applicable graduation requirements no later than the end of summer session may participate in the spring commencement exercises immediately preceding the summer term.

Attendance at commencement exercises is expected. If a student is unable to attend commencement, the university registrar must be notified at least 21 days prior to commencement.

Permission to participate in (or actual participation in) commencement exercises does not mean or imply that a student has fulfilled all applicable graduation requirements.

Graduation with Honors

Before becoming eligible for graduation with honors, a student must successfully complete the following:

- Enrollment at JMU for a minimum of four semesters.
- Completion of a minimum of 60 credit hours at JMU.
- A minimum cumulative grade point average of 3.50 on all course work completed at James Madison University, including any work completed beyond four semesters or 60 credit hours.

Graduation honors will then be determined as specified in the following table based on all course work, including course work taken at other colleges.

<table>
<thead>
<tr>
<th>Honor Level</th>
<th>Grade Point Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cum laude</td>
<td>3.50-3.699</td>
</tr>
<tr>
<td>Magna cum laude</td>
<td>3.70-3.899</td>
</tr>
<tr>
<td>Summa cum laude</td>
<td>3.9 and above</td>
</tr>
</tbody>
</table>

All grades received in all courses attempted will be used to calculate the grade point average in consideration for graduation with honors. Grades and credits completed at other colleges will be converted to the JMU grading system.

Cumulative Averages Required for Graduation Honors

<table>
<thead>
<tr>
<th>Honor Level</th>
<th>Grade Point Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>Honors</td>
<td>Average</td>
</tr>
<tr>
<td>Cum laude</td>
<td>3.50-3.699</td>
</tr>
<tr>
<td>Magna cum laude</td>
<td>3.70-3.899</td>
</tr>
<tr>
<td>Summa cum laude</td>
<td>3.9 and above</td>
</tr>
</tbody>
</table>

These standards apply only to students entering JMU for the first time in fall 1996 and thereafter.

Requirements for graduation with honors for students who entered JMU prior to 1996 are regulated by the catalog in effect at the time they enrolled.

Graduation honors will be noted in the printed commencement program. The graduation honors printed in the program will be based on the grade point average at the end of the semester preceding the semester in which final graduation requirements are met. However, for students who participate in the May ceremony but complete requirements in summer session, the honors noted in the commencement program will be based on the grade point average earned at the end of the preceding fall semester. Final graduation honors recorded on the diploma and transcript will be determined by the grade point average at the end of the semester in which all graduation requirements are met.

Graduation Awards

The title of Valedictorian is an honor bestowed by the Faculty Senate on behalf of the JMU faculty. Criteria were established by the Faculty Senate. It is given to the May graduate with the highest grade point average who has also earned at least 100 credit hours at James Madison University as of the fall semester prior to the student’s May graduation. The student must have completed an average of at least 14 credit hours per fall and spring semester during his/her career at JMU. The grade point average will be calculated using grades recorded on the official transcript through the fall semester of the student’s last year of undergraduate enrollment.

http://www.jmu.edu/catalog/14
Meetings, the unit head initiates the process as follows.

1. The unit head will meet with the student to discuss the matter and confer with the relevant faculty member. Following these discussions, the student will be asked to submit a written statement explaining the reason for the grievance. Supportive documentation should also be submitted.

2. The academic unit head will sign the written statement and other relevant materials as the initial record of the grievance. These materials will be directed to the committee and a written copy will be given to the student.

3. If either the student or the respondent is dissatisfied with the action taken by the academic unit head, the action may be appealed to the dean. The decision of the dean is final.

4. If the academic unit head is the party against whom the grievance is filed, the dean will receive the report of the committee, the student's academic transcript, and any additional materials provided by the student. If the dean is the party against whom the grievance is filed, the Provost and Senior Vice President for Academic Affairs will handle the appeal.

5. Following the final disposition of the grievance, a brief written summary of the complaint and outcome is filed with the dean as per University Policy 3110.

6. Following exhaustion of campus-based procedures, students may direct complaints to the State Council of Higher Education for Virginia. Additional information is available at http://www.schev.edu/students/studentcomplaint.asp.

**Harassment**

It is the established policy of JMU to provide a safe work environment for faculty, staff, and students. Harassment is offensive verbal or physical conduct. Questions, assistance, or violations related to this policy should be directed to the university's Office of Equal Opportunity, 1017 Harrison Street, (540) 568-6991.

As an alternative, the student may deal with harassment in any of the following ways. If a student believes that he/she has been harassed by a staff member, faculty member, or by a student employee, the student should take one or more of the following actions:

- Discuss the matter with the faculty or staff member involved, explaining why a particular comment or action was offensive.
- Discuss the matter with the immediate supervisor of the faculty or staff member, giving an account of the comment or action in question.
- Request additional materials from any person or entity relevant to the charges.
- Make a recommendation on the grievance to the academic unit head.

The academic unit head may accept the recommendation of the committee, reject the recommendation, or partially accept and partially reject the recommendation. The academic unit head will take any action he/she deems appropriate on the grievance.

Students who hold a baccalaureate degree from another institution may not earn a second baccalaureate degree at James Madison University.

1. Each academic unit head will appoint an advisory committee made up of faculty and students from the academic unit that will hear grievances of students. The advisory committee may take any of the following actions:
   - Examine materials submitted by the student and the party_grieved against ("respondent").
   - Interview the student and the respondent.
   - Interview any witnesses requested by the student, the respondent, or the committee.
   - Request additional materials from any person or entity relevant to the charges.

2. The academic unit head may accept the recommendation of the committee, reject the recommendation, or partially accept and partially reject the recommendation. The academic unit head will take any action he/she deems appropriate on the grievance.

3. If either the student or the respondent is dissatisfied with the action taken by the academic unit head, the action may be appealed to the dean. The decision of the dean is final.

4. If the academic unit head is the party against whom the grievance is filed, the dean will receive the report of the committee and stand in the place of the head of the academic unit for the purpose of making the decision on the grievance. If the dean is the party against whom the grievance is filed, the Provost and Senior Vice President for Academic Affairs will handle any appeal.

5. Following the final disposition of the grievance, a brief written summary of the complaint and outcome is filed with the dean as per University Policy 3110.

Following exhaustion of campus-based procedures, students may direct complaints to the State Council of Higher Education for Virginia. Additional information is available from their website at http://www.schev.edu/students/studentcomplaint.asp.

**Graduation with Second Baccalaureate Degree**

A student may only earn two different baccalaureate degrees through concurrent or consecutive enrollment at James Madison University.

The following requirements must be met to earn a second degree:

- Earn a minimum of 150 credit hours, including a minimum of 60 hours at JMU.
- Meet all degree and university graduation requirements for both degree programs.
- Meet all prerequisite and course requirements in two different major fields.

A student who has met graduation requirements for one degree may participate in the commencement activities for that degree and continue with the second degree provided the following occur:

- The second degree and major have been officially declared by the student, prior to the submission of the graduation application for the first degree, and appear on the student's academic transcript.
- No lapse in enrollment occurs between the completion of the first degree and the continued pursuit of the second. If an unapproved lapse occurs, the student will not be permitted to continue with the second degree.
- At the time of completion of the first degree, the student must also have completed at least 12 credit hours in the major required for the second degree. A student who has earned less than that may not continue with the second degree if he/she decides to complete the first degree and participate in commencement exercises.

Students who hold a baccalaureate degree from another institution may not earn a second baccalaureate degree at James Madison University.

**Grievance Procedure for Students**

This policy applies to student grievances related to the instructional process that do not concern grades, discrimination or harassment. Policies for grievances concerning these matters are outlined elsewhere.

To initiate the grievance procedure, the student should submit a written statement explaining the reason for the grievance. Supportive documentation should also be included. The academic unit head meets with the student and confers with the relevant faculty member. Following these meetings, the unit head initiates the process as follows.

1. The unit head will meet with the student to discuss the matter and confer with the relevant faculty member. Following these discussions, the student will be asked to submit a written statement explaining the reason for the grievance. Supportive documentation should also be included.

2. The academic unit head will sign the written statement and other relevant materials as the initial record of the grievance. These materials will be directed to the committee and a written copy will be given to the student.

3. If either the student or the respondent is dissatisfied with the action taken by the academic unit head, the action may be appealed to the dean. The decision of the dean is final.

4. If the academic unit head is the party against whom the grievance is filed, the dean will receive the report of the committee, the student's academic transcript, and any additional materials provided by the student. If the dean is the party against whom the grievance is filed, the Provost and Senior Vice President for Academic Affairs will handle any appeal.

5. Following the final disposition of the grievance, a brief written summary of the complaint and outcome is filed with the dean as per University Policy 3110.

Following exhaustion of campus-based procedures, students may direct complaints to the State Council of Higher Education for Virginia. Additional information is available from their website at http://www.schev.edu/students/studentcomplaint.asp.

**Harassment**

It is the established policy of JMU to provide a safe work environment for faculty and staff members and students free from all forms of harassment, intimidation and exploitation. Prohibited harassment is offensive verbal or physical conduct. Questions, assistance, or violations related to this policy should be directed to the university’s Office of Equal Opportunity, 1017 Harrison Street, (540) 568-6991.

As an alternative, the student may deal with harassment in any of the following ways. If a student believes that he/she has been harassed by a staff member, faculty member or by a student employee, the student should take one or more of the following actions:

- Discuss the matter with the faculty or staff member involved, explaining why a particular comment or action was offensive.
- Discuss the matter with the immediate supervisor of the faculty or staff member, giving an account of the comment or action in question.

If the student believes that he/she has been harassed by a student, the student should take one or more of the following actions:

- Discuss the matter with the accused, explaining why a particular comment or action was offensive.
- Bring a charge of harassment to the Office of Student Accountability and Restorative Practices in Frederickson Hall, C-Section.
If a student employee believes that he/she has been a victim of harassment, he/she should take one or more of the following actions:

- Discuss the matter with the accused, explaining why a particular comment or action was offensive.
- Discuss the matter with the immediate supervisor of the accused, giving an account of the comment or action in question.
- Contact the student employment office at (540) 568-3269.

Regardless of who the alleged harasser is, a student may discuss the matter with the Associate Vice President for Student Affairs, the Director of the Counseling Center or the Office of Equal Employment, giving full details of the alleged harassment. The student will be advised of proper university procedures that can be pursued. If requested, complaints will be held in confidence and counseling will be provided. No investigation or action against the accused person will be taken on a student’s behalf unless the student consents to be identified, if necessary, to the individual accused in connection with the investigation.

A student also has the option of filing a formal charge of harassment with the U.S. Department of Education. Contact information is available from the affirmative action office at 1017 Harrison Street.

**Honor System**

The academic program at JMU operates under an Honor System that dates back to the 1909-10 academic session. Students adopted the present Honor System in order to uphold individual and community integrity. Each student is expected to observe complete honesty in all academic matters and to report instances where another student has violated the Honor System.

A student Honor Council administers the Honor System, and every student who matriculates at the university, whether graduate or undergraduate, becomes a member of the Honor System. The university expects the cooperation of faculty members and administrators in upholding this Honor System. The Student Handbook provides full information on the Honor System, and the Honor Council office provides students with assistance in understanding Honor System policy. All incoming JMU students are required to complete an online Honor System Tutorial and test during their first semester.

The Honor Council encourages all members of the JMU community to familiarize themselves with the Honor Code and Honor System procedures. The Honor Council office is located in Johnston Hall, room 222, and the website is at http://www.jmu.edu/honor.

**Inclement Weather or Emergency**

When the university is closed due to inclement weather or other emergencies, all classes are cancelled. Policies regarding class cancellations are specified in the syllabus for each course.

**Makeup Days for Classes**

When it is necessary to cancel classes due to weather or other emergencies, faculty have several options for making up the missed instructional time.

- Hold class at the regularly scheduled time on the official university make-up day, normally the Saturday immediately following the missed class.
- Hold class at a time acceptable to all class members other than the regularly scheduled time or the official make-up day. Time and location will be arranged by the academic unit.

- Accommodate the missed instructional time within remaining class meeting time.
- Hold class through electronic means.

**Major Information**

Students entering JMU should confer with their advisers in order to determine a major program of study. If entering students have not decided on a specific major, they may register as undeclared. JMU encourages undeclared students to discuss their interests with representatives from the office of Career and Academic Planning, professors, academic unit heads and fellow students to find a major program best suited to each student’s goals and interests.

Failure to do so could extend the time that students will need to fulfill graduation requirements. Students who would like assistance in identifying career options related to their specific majors can participate in the Major and Career Decisions Program through the office of Career and Academic Planning. The program helps students decide on career direction by assessing their career interests, skills and abilities as well as providing information about career options.

**Declaration of Major**

All students must declare their major by the beginning of their sophomore year. To declare a major, students should obtain a Change or Declaration of Major Form from the Office of the Registrar. Students must take this form to the head of the academic unit they wish to enter. Academic units accept students on the basis of their academic records and on the satisfaction of other criteria the academic units might establish. Academic units assign advisers for students who are beyond the level of a first year student. The Change or Declaration of Major Form is due in the Office of the Registrar by the third Friday of the first semester of sophomore year. Declaration by the deadline will ensure eligibility for continued enrollment at the university.

Transfer students who enter JMU with 30 or more credit hours must declare a major upon acceptance to the university.

**Change of Major**

Students who would like to change their major should obtain a Change or Declaration of Major Form from the Office of the Registrar. Students must take this form to the head of the academic unit they wish to enter. Academic units accept students on the basis of their academic records and on the satisfaction of other criteria the academic units might establish. Academic units assign advisers for students who are accepted as majors.

**Military Service**

**Class Registration for Active Duty Students**

James Madison University supports active duty students in the armed forces by providing assistance with class registration when necessary and by request. Active duty students needing assistance should provide a copy of their active duty orders to the Office of the Registrar prior to the first day of class to qualify for assistance under this policy. The Office of the Registrar will serve as an additional resource for the student and the academic unit(s) to assist with the creation of an appropriate class schedule to ensure the service member remains on track to degree completion in a timely manner.

http://www.jmu.edu/catalog/14
Facilities or services in a future session will be refunded in full. For returning students, deposits made with the intent of securing to active duty military service before beginning the planned their acceptance of the offer of admission. If a student is deployed for new students, an enrollment deposit is required to confirm. Deposits

    If the student elects to receive an "I" (Incomplete), the regulation concerning grades assigned for the semester in which the call will be suspended until the student returns to campus. Should the student not return to JMU, the "I" will revert to a "W" (Withdrawal).
    If the student leaves at a point in the semester after which a significant amount of work has been completed, the student may request the assignment of a grade for work completed. This option requires joint agreement of the student and faculty member(s).

Undergraduate and Graduate Students

Academic Credit
If an enrolled student is deployed to active duty military service during the semester, the student will have three options concerning grades assigned for the semester in which the call to active duty occurs.

    If the student leaves at any time during the semester and elects to receive a full tuition refund, no notation of courses or grades will be recorded on the student's transcript.
    If the student elects to receive an "I" (Incomplete), the regulation regarding conversion of an "I" to "F" grade will be suspended until the student returns to campus. Should the student not return to JMU, the "I" will revert to a "W" (Withdrawal).
    If the student leaves at a point in the semester after which a significant amount of work has been completed, the student may request the assignment of a grade for work completed. This option requires joint agreement of the student and faculty member(s).

Documentation
Students should complete Withdrawal or Leave of Absence forms and include a copy of the applicable military orders to qualify for the considerations detailed in this policy.

The Withdrawal Process is appropriate for students who are enrolled in a semester, are deployed to active duty military service and must begin that duty before the current semester has ended. Withdrawal forms are available through the Office of the Dean of Students located in Taylor Hall Room 300. A Leave of Absence is appropriate for students who are deployed to active duty military service, but do not need to begin duty during a current semester; for example, if duty will begin during a future semester before classes begin. The Leave of Absence Form is available online at http://www.jmu.edu/registrar/wm_library/non_returning_loa_notice.doc

Room and Board
If an enrolled student is deployed to active duty military service during the semester, the student's dining and residence hall contract will be adjusted as follows:

    Board fees will be prorated from the dining hall opening date.
    A per diem refund of the room rent will be issued based on the student's official check-out date.

Textbooks
When a student is called to active duty, a full refund for textbooks purchased for the semester in progress is available through the university bookstore by presenting the textbooks and a copy of the applicable military orders.

Tuition Charges and Student Account Balances
If an enrolled student is deployed to active duty military service during the semester, the student can:

    Drop all classes and all tuition charges will be waived with:
      Personal payments refunded
      Financial aid adjusted as required
      Financial aid refunds repaid by student if appropriate
      Maintain all or part of enrollment with:
        Tuition adjusted accordingly
        Financial aid adjusted as required
        Financial aid refunds repaid by student if appropriate

If there are unpaid student account balances at time of deployment, the university will work with individual students on payment arrangements. No collection actions will occur during deployment; however, student must resolve any unpaid balances prior to subsequent enrollment.

Undergraduate Students

Deferral of Enrollment
If an undergraduate student has been admitted to James Madison University and is called to active military duty or enlists in the National Guard before enrolling, the student may request a deferral of admission using the process below.

The student must submit a letter to the Director of Admissions requesting a deferment. In the letter the student should provide the reason for the request (call to active duty or National Guard boot camp will not end until after the start of the semester that the student intended to enroll) and indicate the term they wish to enroll (the term can be changed if needed).

The request is reviewed by the director of admissions who sends a letter notifying the student that his/her request has been granted.
and indicates when JMU expects the student to enroll. The director of admissions will also inform the following offices of the deferment: Registrar’s Office; University Business Office; Financial Aid & Scholarships; Orientation Office; Residence Life, Career & Academic Planning; and University Advising (for transfer students). During the semester prior to scheduled enrollment, JMU will send the student a letter explaining what needs to be done prior to the start of his/her enrollment at JMU.

If the student’s discharge from the service is delayed, the student contacts the director of admissions and requests an extension of his/her deferment. The director will approve the delay and inform the following offices: University Business Office; Financial Aid & Scholarships; Orientation Office; Residence Life, Career & Academic Planning; and University Advising (for transfer students).

Evaluation of Undergraduate Transfer Credits for Military Students

Credit will be awarded for those courses equivalent to courses offered at JMU in which the student has earned a grade of “C” or better.

The Office of the Registrar and the academic unit head of the program in which the student is majoring will determine the credits required for graduation.

With the exception of some Virginia community college degrees in General Studies, JMU General Education requirements will be waived for those students who have completed either the Associate of Arts, Associate of Science, or the Associate of Arts and Sciences degree at a Virginia community college. For the complete listing of degrees associated with a Virginia Community College that waive all General Education requirements, go to the Transfer Advising website at http://www.jmu.edu/transfer. Students who complete one of these associate degrees and are offered admission will receive junior-level status; however, due to varying major and degree requirements, junior-level status does not guarantee graduation in two years. For more details, consult the Office of Admissions or the JMU Virginia Community College Transfer Guide.

For questions pertaining to transfer credit for military education and training, contact the Office of the Registrar at (540) 568-6281 or transfer_credit@jmu.edu.

Re-entry

Formerly enrolled undergraduate degree-seeking students who have not attended JMU for one or more semesters and who wish to return to their studies at JMU are classified as re-entry students. The re-entry process is contingent upon the student’s length of absence and academic standing at the time of departure. To avoid delays in registration, the Intent to Enroll Form (for undergraduate students who have been absent from JMU for less than two years) or the Office of Admissions Re-entry Form (for students who have been absent for two or more years) must be submitted by the indicated deadline for the anticipated semester of return. All registration holds must be cleared before the student will be eligible to register.

Re-entry after Absence of Less Than Two Calendar Years

Undergraduate Students in Good Standing

Students who left the university in good standing and who have been absent for one semester or more must submit an Intent to Enroll Form to the Office of the Registrar.

Undergraduate Students on Academic Probation or Suspension

Students who were on academic probation or suspension when they left the university for active military duty, and who have been absent for one semester or more, must submit an Intent to Enroll Form directly to the Director of Academic Student Services. A personal statement describing the student’s intended academic and study plans must accompany the form. Re-entry and continued enrollment are not guaranteed, but are contingent upon review by an academic review committee chaired by the Director of Academic Student Services. Such review may result in denial or conditional re-entry.

Re-entry after Absence of Two Calendar Years or More

http://www.jmu.edu/catalog/14
Students who are eligible to apply for re-entry after an absence of two or more calendar years, regardless of their academic standing at the time of departure, must apply for readmission via the Office of Academic Student Services. Readmission is not automatic but subject to committee review of the application, the personal statement and evaluation of work completed at JMU, as well as work completed at other institutions during the student’s absence from JMU.

If a degree-seeking student leaves James Madison University after earning a portion of General Education credits and earns an approved Virginia Community College System (VCCS) Associate Degree, JMU will accept it in fulfillment of General Education requirements. Students who earn the approved degree while on academic suspension status from James Madison University are only eligible to re-enter James Madison University by agreeing to apply for the Transfer Equivalent Option upon their approved return to James Madison University.

Reinstatement into Specific Undergraduate Program of Study

When a student with a declared major wishes to return to the same program at the university after an absence of more than two years, the course work taken prior to withdrawal must be reviewed by an adviser/academic unit head prior to the student's re-enrollment. This counseling is required to assure that the previously completed course work is current and applicable to the major. The adviser will assist the student to develop an appropriate academic plan for degree completion. Students without declared majors wishing to return to study should consult with an adviser in Career and Academic Planning to receive assistance in developing an academic plan.

Graduate Students

Deferral of Enrollment

If a graduate student has been admitted to James Madison University and is called to active military duty before enrolling, the student may request a deferral of admission using the process below.

1. The student must submit a request (i.e., letter or email) to the Graduate Program Director requesting a deferral. In the communication, the student should provide the reason for the request (call to active duty) and indicate the term he/she wishes to re-enroll (the term can be changed if needed).

2. The Graduate Program Director approves the deferral and informs the Director of Graduate Admissions that the deferral has been approved.

3. The Director of Graduate Admissions notifies the student that the request has been approved and informs the student to notify The Graduate School and their Graduate Program Director at least 30 days prior to the first class day of the return semester.

4. If the student's discharge from the service is delayed, the student contacts the Director of Graduate Admissions and requests an extension of his/her deferral. The Director of Graduate Admissions will approve the delay and inform the Graduate Program Director.

Leave of Absence

A military leave of absence is granted to graduate students deployed for active military service. The graduate program director of the program in which the student is enrolled must request a military leave of absence for a student in a graduate program. The request must be approved by the dean of The Graduate School.

Continuous enrollment is granted for a specified time period that may not exceed four semesters total, excluding summer session. Any extension of the approved continuous enrollment period must be requested by the student 30 days prior to the deadline and approved by the dean of The Graduate School.

When a student on leave plans to resume graduate study, he/she must inform the graduate program director and The Graduate School at least 30 days prior to the first class day of the return semester. All registration holds must be cleared before the student will be eligible to register.

In the case of a military leave of absence, the time clock related to the time limit for the completion of the degree (i.e., master's and educational specialist students must complete all degree requirements within six years; doctoral students must complete all degree requirements within eight years) will be stopped at the semester in which the leave begins. The time clock will resume upon the student's return to the program. While all academic credit, including transfer credits taken before enrollment in the graduate program, will remain on the graduate transcript, courses originally approved to be counted toward the degree program which now fall outside of the original time limit must be reviewed and approved by the program director in terms of content relevancy. In some cases, additional course work may be warranted due to outdated information.

Misconduct in Research and Other Scholarly Work

Policy 2205, concerning Misconduct in Research and Other Scholarly Work, applies to all individuals involved in the performance of scholarly and creative activity and research conducted at JMU, whether performed under external or internal funding. It applies to all scientists, trainees, technicians and other staff members, students, fellows, guest researchers or collaborators. Misconduct as defined under this policy means fabrication, falsification, plagiarism or other practices that seriously deviate from those that are commonly accepted within the scientific and academic community for proposing, conducting or reporting research. Misconduct by a student under this policy may result in disciplinary action up to and including expulsion from the university, loss of fellowship or scholarship and potential criminal prosecution.

Non-returning Students and Leave of Absence

Students who plan to complete their current semester but who will not return to JMU for the subsequent semester (excluding summer term) must notify the Office of the Registrar in writing to ensure cancellation of housing assignments, courses for which they have pre-registered and tuition charges.

Students who are planning a temporary interruption in their studies at JMU should formally request a leave of absence by completing a Non-Returning/Leave of Absence Notice found at http://www.jmu.edu/registrar/forms.shtml or in the Office of the Registrar. Questions concerning the status of non-returning or leave of absence should be directed to the Office of the Registrar or to http://www.jmu.edu/registrar.
Prerequisite and Eligibility Requirements

Students should consult the appropriate catalog to determine prerequisite or eligibility requirements for course selections. Without special permission, students cannot take for credit a course for which the prerequisite has not been met or for which they are not eligible. In addition, students cannot take for credit a course that is a prerequisite to a course they have already taken. Many courses require other courses as prerequisites. Students should be aware that a course in which they receive a grade below "C" probably does not adequately prepare them to take a course which requires the first as a prerequisite. Before continuing on to a succeeding course, students should discuss their level of preparation with the professor of the second course and decide whether or not they need to retake the first course to improve their understanding as well as their grade.

Re-entry to the University

Degree-seeking students who have not attended JMU for one or more semesters and who wish to return to their studies at JMU are classified as re-entry students. The re-entry process is contingent upon the student's length of absence and academic standing at the time of departure. To avoid delays in registration, the Intent to Enroll Form (for students who have been absent from JMU for less than two years) or the Undergraduate Re-entry Form (for students who have been absent for two or more years) must be submitted by the indicated deadline for the anticipated semester of return. The Intent to Enroll form is available at http://www.jmu.edu/registrar/forms.shtml. The Re-entry Form is available at http://www.jmu.edu/acstudserv/vm_library/Re_Entry_Form.pdf. All registration holds must be cleared before the student will be eligible to register.

Re-entry after Absence of Less Than Two Calendar Years

Students in Good Standing

Students who left the university in good standing and who have been absent for one semester or more must submit an Intent to Enroll Form directly to the Director of Academic Student Services, MSC 7506. A personal statement citing the reason for departure and interim activities must accompany the form. Re-entry and continued enrollment are not guaranteed, but are contingent upon review by an academic review committee chaired by the Director of Academic Student Services. Such review may result in denial or conditional re-entry.

Students on Academic Probation

Students who left the university on academic probation, and who have been absent for one semester or more, must submit an Intent to Enroll Form directly to the Director of Academic Student Services, MSC 7506. A personal statement citing the reason for departure and interim activities must accompany all Intent to Enroll Forms. Students must submit all documents to the Director of Academic Student Services, MSC 7506. Re-entry and continued enrollment are not guaranteed but contingent upon review by an academic review committee chaired by the Director of Academic Student Services. Such review may result in denial or conditional re-entry.

Re-entry after Second Suspension or Absence Exceeding Two Calendar Years

Students who are eligible to apply for re-entry after an absence of two or more calendar years, regardless of their academic standing at the time of departure, must apply for readmission through the Office of Academic Student Services. Readmission is not automatic but subject to committee review of the application, the personal statement citing the reason for absence and evaluation of work completed at JMU as well as work completed at other institutions during the student's absence from JMU.

If a degree-seeking student leaves James Madison University after earning a portion of General Education credits and earns an approved Virginia Community College System (VCCS) Associate Degree, JMU will accept it in fulfillment of General Education requirements. Students who earn the approved degree while on academic suspension status from James Madison University are only eligible to re-enter James Madison University by agreeing to apply for the Transfer Equivalent Option upon their approved return to James Madison University.

Semester Honors Lists
To qualify for the honor of being placed on the President’s List, a student must earn a grade point average of 3.900 or above and carry a course load of at least twelve graded credit hours (i.e., exclusive of credit hours taken on a credit/no credit basis).
To qualify for the Dean’s list, a student must meet the President’s List requirement for course load and earn a grade point average of 3.500-3.899.

Student Teaching
Student teaching should be a full-time experience. Only in exceptional cases will additional course work be approved during the student teaching period.
Moreover, student teachers cannot expect to work or participate in excessive extracurricular activities during their student teaching period as any interference with student teaching might lower the quality of the individual’s performance. Students with problems or special needs must contact the Education Support Center. All student teaching grades are assigned on a credit/no-credit basis.

Transcript
The permanent academic record or transcript is the official record of a student’s grades earned to date, and it includes the date of graduation, degree received and date of withdrawal or dismissal. The Office of the Registrar may release a student’s transcript upon receipt of a written request from the student or former student and for authorized research purposes.

Transfer Equivalent Policy for Readmitted Students
A student who returns to JMU after a separation of two calendar years and who maintains a minimum 2.0 GPA for 12 credit hours attempted at JMU after his/her return is eligible to apply for the transfer equivalent policy. This policy allows a student a quality point status equivalent to that of a transfer student admitted to the university.

The student’s new GPA will initially be that attempted in the 12 credit hours taken upon readmission. In order to exercise this option, the student must submit a Transfer Equivalent Option (TEO) Form to the Director of Academic Student Services.

The following regulations govern this option:

- The option must be exercised within 30 days of receiving written correspondence from the Director of Academic Student Services indicating TEO requirements have been met.
- A student with outstanding “I” grades is not eligible to apply.
- A student who leaves the university while in good standing is not eligible to apply.
- All grades will remain a part of the transcript.
- An eligible student will receive degree credit for only those courses for which grades of “C” or better were earned prior to readmission.
- Quality points earned for any course completed prior to readmission will not count in determining the student’s new cumulative grade point average.
- A student whose application for the transfer equivalent policy has been approved may request that credit hours for pre-approved courses taken at another institution be transferred to JMU. The request will be reviewed by the office of the major college dean and the Office of the Registrar.

http://www.jmu.edu/catalog/14
The option will be extended only once during the student's enrollment at JMU. A student interested in this option must re-apply to the university through the Office of Academic Student Services according to established deadlines.

Transfer of Credit from Other Institutions

A student wishing to earn credits at another institution, either in the summer or during a regular session, must obtain permission from the Office of the Registrar in advance of taking courses from another institution. Following consultation with the head of the academic unit if necessary, the Office of the Registrar will make the determination concerning the course and its application toward a JMU degree. For a student on academic suspension status, a maximum of 12 semester hours will be accepted as transfer credits. These hours will be considered once the student has been re-admitted and has earned a minimum semester grade point average of 2.0 in at least 12 credit hours attempted during the semester of return.

The General Education program allows students to transfer credit for a particular course based on a comparison of course objectives and content at JMU with those at the other institution. Once students have enrolled for classes at JMU, however, they are expected to complete the General Education program here. The Associate Vice Provost for University Programs or a Cluster Coordinator must approve any exception to this policy. After students have enrolled for classes, some restrictions will be applied to transferring in credit for the General Education program. These restrictions include the following policies:

- Students will be allowed to transfer in no more than three courses for General Education credit.
- No more than one transferred course may be applied to any one cluster.
- Transfer credit will not be awarded for course offerings in Cluster Four, The American Experience (GHIST 225, GIUST 225, and GPOSC 225) due to the content and unique features of these courses.

Special exceptions to these policies will be reviewed on an individual basis. Such exceptions may include those students who wish to participate in study abroad programs or other special circumstances. The student is responsible for having an official transcript mailed to the Office of the Registrar when the work has been completed. Credit hours will be awarded for approved courses carrying a "C" or better grade (2.0 quality points). Grades for courses taken at another institution are not included in grade point average calculations although they will be used in determining graduation honors for eligible students.

Undergraduate Grading System

Maintaining standards of excellence and the integrity of the teaching/learning process are important values to JMU faculty. Evaluation of student work and assignment of grades on the basis of academic criteria are the responsibilities and prerogative exercised by the faculty member. A faculty member has the responsibility to evaluate student performance on a fair and scholarly basis in accordance with university faculty.

The university keeps a complete record of each student's work and makes grades available to students through the online student information system (MyMadison) at the end of each semester. Mid-semester grades in all courses are also made available through the online student information system (MyMadison) to new first year students, if assigned. Grades are not mailed to students.

Letter grades and quality points express the academic achievement of a student in a specific course. Quality point values are earned for each semester credit hour.

A course in which a grade of "F" is received does not result in earned credit hours, but does count as credit hours attempted in computing the grade point average. A course in which a grade of "WP" or "WF" is received neither results in earned credit hours nor counts as credit hours attempted in computing the grade point average.

The academic achievement of a student in a specific course is expressed by letters as in the following table. In certain circumstances, a grade of "I" (recorded by faculty and denoting incomplete work in a given course) will be given for a course. An "I" grade will automatically be converted to a permanent "F" grade at the end of the next regular semester. Any student receiving an "I" grade should follow the university policy on incomplete grades.

http://www.jmu.edu/catalog/14
Grade Point Average
The university computes a student’s grade point average for any period by dividing the number of quality points earned during that period by the number of credit hours attempted during the same period. For instance, during a period in which a student attempts 16 credit hours and earns 40 quality points, the student’s GPA is 2.5.

A student’s cumulative GPA is computed by dividing the total number of quality points earned at JMU by the total number of credit hours attempted at JMU.

Except as set forth under the Graduation with Honors policy, all references to grade point average denote the grade point average derived from course work taken at JMU.

Incomplete Grades
The “I” symbol is used to indicate incomplete work in a given course and is awarded only when a student is unable to complete course work because of illness or another equally compelling reason.

Courses in which a student receives a grade of “I” must be completed by the end of the next regular semester, or the grade is recorded permanently as “F.” (See the University Calendar for the dates by which grade changes must be reported to the Office of the Registrar.) A student seeking a grade of “I” must make that request to the relevant faculty member before the end of the semester in which that course is taking place.

Quality Points
The grade of “B” in a three credit-hour course earns nine quality points; the grade of “C” in the same course would earn six quality points.

The following do not affect quality points earned, credit hours attempted or GPA:
- Grades received at other institutions (except when used in determining graduation honors for eligible students).
- Audited courses.
- “I,” “CR,” “NC,” “W,” “WP” or “WF” grades.

Repeating Courses
A student may repeat any of the graded courses that he/she has taken during an undergraduate career at JMU. All grades will be included when calculating the student’s grade point average. There are, however, certain exceptions to this rule.

Students may elect to repeat up to two courses during their enrollment in an undergraduate career at JMU on a “repeat forgiveness” basis. As a result of the “repeat forgiveness” option, the university will exclude the previous grade and credit hours earned for the repeated course when it calculates the student’s cumulative GPA and earned credit hours total, regardless of whether the previous grade was higher or lower than the repeat attempt.

Both grades will appear on the transcript, and the recalculation of the cumulative GPA will occur after the repeat/forgiveness attempt. The student must either declare the “repeat forgiveness” option at registration or complete the appropriate adjustment form prior to the end of the course adjustment period. A student may not exercise the repeat/forgiveness option for courses in which that student was assigned a grade as a result of an Honor Code violation. Courses taught on a topic basis are repeatable; however, these courses may only be designated with a repeat credit or repeat/forgiveness credit option if both course attempts have the same topic (i.e. a second attempt of the course G HUM 200. Western Classics may only be assigned as a repeat credit or repeat/forgiveness credit if both course attempts have the same topic (i.e. a second attempt of the course G HUM 200 was taken with the topic “Western Classics”).

All grades will appear on the student’s transcript, but a course that has been repeated will only be counted once toward satisfying graduation requirements. Courses taken at other institutions do not qualify to be taken as “repeat forgiveness.” Courses taken in a different JMU career (i.e. Continuing Education) and subsequently transferred to an undergraduate JMU career are not repeatable. Students may request approval to retake these courses utilizing the audit grading basis only.

Withdrawal from the University
Students withdraw from the university when their enrollment is terminated before these students have completed the semester for which they registered. Students who decide to withdraw during the first three weeks of the semester must complete the Non-Returning/Leave of Absence Notice available at http://www.jmu.edu/registrar/forms.shtml and submit it to the Office of the Registrar. Students desiring to withdraw after the third week of the semester must contact the Office of the Dean of Students at (540) 568-8468 to schedule an appointment.

http://www.jmu.edu/catalog/14
This chart lists majors, minors and concentrations. Degrees available for majors are listed in parentheses after the name of the major. Concentrations are listed below respective major programs with no block designation. A solid box (■) in the minor column designates an area offered only as a minor. An open box (□) in the minor column designates an area offered as both a concentration and a minor. For information on teacher licensure, see page 42.

---

1. The foreign language requirement may be satisfied by successful completion of the second semester of the intermediate level of the student's chosen language (typically 232), or by placing out of that language through the Department of Foreign Languages, Literatures and Cultures' placement test.
2. The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
3. Any GPHIL or PHIL course except GPHIL 120 or GPHIL 150. Consult the list of courses satisfying Bachelor of Arts degree requirements at [http://www.jmu.edu/registrar/BA_and_BS_Degree_Courses.shtml](http://www.jmu.edu/registrar/BA_and_BS_Degree_Courses.shtml).
4. Includes education courses leading to licensure in teacher education.
5. Students are strongly encouraged to complete one of the following sequences: MATH 107-108, MATH 135-235, MATH 155-220, MATH 156-220, MATH 220 and one from MATH 321-327, or MATH 235-236.
6. Scientific Literacy requirement to be chosen from the list of courses satisfying Bachelor of Science degree requirements at [http://www.jmu.edu/registrar/BA_and_BS_Degree_Courses.shtml](http://www.jmu.edu/registrar/BA_and_BS_Degree_Courses.shtml).
7. The Adult Degree Program contains a set of requirements each individualized study major must fulfill. The university recognizes this alternate general education program as a nontraditional equivalent to The Human Community.
## Subject Abbreviations

Course Descriptions are listed in alphabetical order by subject. Courses that may meet General Education requirements are preceded by a bold, italic G or an asterisk. If the course is part of a course sequence, the asterisk appears after the course subject abbreviation and number.

The abbreviations shown in this section are also listed on MyMadison (https://mymadison.jmu.edu/) and student transcripts.

## Teacher Education Licensure

Students interested in teacher licensure will major in an academic field and complete all of the requirements for the teacher education program. Depending on the field of study, initial licensure is earned at the bachelor’s or master’s level. The following chart describes the licensure areas, degree required, major field of study and academic unit.

<table>
<thead>
<tr>
<th>Licensure Area</th>

Academic Terms and Definitions

Degree Requirements
A degree is an academic title conferred on students who complete a unified program of study. Degrees vary according to the major program. JMU offers eight undergraduate degrees that incorporate course requirements unique to the degree and major discipline. Majors culminating in Bachelor of Arts and Bachelor of Science degrees share common sets of course requirements appropriate to the degree with specific distinctions.

Bachelor of Arts degree – The B.A. is distinguished by its humanistic emphasis. Students who complete a B.A. may satisfy the degree requirements by taking courses that advance their understanding of human culture through analysis of ideas; perception of differences; appreciation of art and creative products through understanding art forms, beauty, and symmetry; knowledge of theories and principles of form, substance, argument and philosophy; understanding of the interaction between language and culture; and achievement of linguistic competency in a second language.

Bachelor of Science degree – The B.S. is distinguished by its scientific emphasis. Students who complete a B.S. may satisfy the degree requirements by taking courses that advance their understanding of the use of scientific analysis, experimentation and the application of scientific principles and facts in solving problems; understanding of the crucial role of mathematical reasoning; and understanding analysis and techniques in comprehending problems in the natural or social sciences.

Lists of courses satisfying Bachelor of Arts and Bachelor of Science degree requirements are found at http://www.jmu.edu/registrar/BA_and_BS_Degree_Courses.shtml.

Program of Study Components
A program of study, or course of study, refers to any set of courses and experiences identified by the university as satisfying the requirements of a program or program component for a student or students. The following terms describe programs of study at James Madison University.

Major – A coherent set of required and elective courses approved by the Board of Visitors and meeting state criteria that, when completed by a student, signifies a degree of preparation in a field or fields of study. The credit hour requirements for the major are set by the respective colleges and academic units and may not consist of less than 30 hours. A student must formally declare a major.

Minor – A cohesive set of required and elective courses that, when completed by a student, connotes knowledge and skills in a discipline, region or topic area, but not at the depth of a major. The minor is designed for students who are not majoring in the same area and typically requires between 18-24 credit hours, as set by the respective academic unit and college. A student must formally declare the minor for it to appear on the transcript of record. A minor is not required for graduation.

Concentration – A prescribed set of courses associated with a major or minor that is designed to focus a student's course of study according to interest and/or career goals. A concentration is not a required component of all majors and/or minors. The student must formally declare the concentration for it to appear on the transcript of record. The concentration will be noted on the transcript only after the student graduates.

Cognate – A set of courses outside the major that is designed to complement other components of the student’s course of study and to support selected professional goals. A cognate is not a required component of a program. A student does not have to formally declare a cognate and it will not appear on the transcript of record.

Core – A defined group of courses within a particular major or minor that is required of all students completing that major or minor.

Track – A prescribed set of courses within a concentration. A track is not a required component of all concentrations. A student does not have to formally declare a track and it will not appear on the transcript of record.

Pre-professional Program – A defined set of courses or course options and requirements that serve as prerequisites to upper or graduate-level professional program components or courses. A pre-professional program may coincide with a major, minor or concentration, or it may be comprised by courses from two or more disciplines and concentrations.

Pre-professional Advisory Program – This program includes a set of recommended courses for students who wish toshape their undergraduate experience toward a related professional goal beyond the undergraduate degree, such as the pre-law, pre-medicine, pre-dentistry and pre-health programs. Pre-professional advisory programs appear on the transcript during a student's undergraduate career, but do not appear on the transcript after graduation.

Pre-professional Licensure and Degree Program – This program must be related to a student’s major as part of a planned progress toward professional credentialing, such as the pre-professional teacher education programs. It creates a distinct set of knowledge or skills that qualifies one to practice in a particular area or work in a specific field. This designation appears on the transcript.

Professional Program – A defined group of courses or course options designed to prepare a student for a specific professional career, certificate or license. A professional program may coincide with a major, minor or concentration, or it may be comprised by courses from two or more disciplines and concentrations. The student must formally declare the professional program for it to appear on the transcript of record. The professional program will be noted on the transcript only after the student graduates.

Licensure Program – A set or sequence of courses and experiences required for a student to be eligible to obtain a license issued by an agency, group or professional organization.

Certificate Program – A prescribed set or sequence of courses that results in a student receiving a certificate issued by the university when the identified courses and experiences are completed satisfactorily and when all other conditions have been met in accordance with the definitions and policies governing certificates.

These definitions apply to all programs of study except in cases where program nomenclature specified by the accrediting agency differs from the nomenclature stated by James Madison University.

Student Services
and Learning Resources

Academic Affairs Mission Statement
Phone: (540) 568-6616
Website: http://www.jmu.edu/acadaffairs
The Division of Academic Affairs is a community of scholars engaging students in the collaborative construction and application of knowledge through intellectual pursuits in teaching, learning, research, inquiry, creative activity and service.

Administration and Finance Mission Statement
Phone: (540) 568-6434
Website: http://www.jmu.edu/adminfinance
The Division of Administration and Finance is committed to the preparation of students to be educated and enlightened citizens who will lead productive and meaningful lives. The division supports the university’s commitment to excellence by empowering our staff to communicate effectively with the university community and provide proactive approaches to satisfy customer expectations.

Student Affairs and University Planning Mission Statement
Phone: (540) 568-3685
Website: http://www.jmu.edu/stuaffairs
We are a community committed to preparing students to be educated and enlightened citizens who lead productive and meaningful lives.

Business Services
Bookstore
211 Bluestone Drive, MSC 2902
Phone: (540) 568-6121
Website: http://www.jmu.edu/bookstore
The JMU Bookstore stocks all textbooks used by the academic units, as well as a large selection of general and technical books. The store also sells school, office and computer supplies, software, clothing, gifts, magazines and greeting cards. For students’ convenience, the bookstore provides services including special orders for books, textbook buy back, gift certificates, film processing, bus tickets and computer services.

Card Services
Warren Hall, Third Floor, MSC 3532
Phone: (540) 568-6446
Website: http://www.jmu.edu/cardctr
Card Services issues the JMU access card (JAC), the official identification card for all members of the university community. JAC allows access to various campus facilities and services. It is also used for meal plans, dining dollar declining balance accounts and FLEX declining balance accounts, all of which are administered by Card Services. FLEX declining balance accounts are honored for purchases or services in the following areas: bookstore, on-campus copy centers and copy machines, game room, library fines, Mister Chips convenience store, postal services, University Health Center, UREC, printing labs across campus, Masterpiece Theatre, Parking Services, UPB movies, on-campus vending machines, Warren Hall Ticket Office and all dining services locations as well as many off-campus locations.

Copy Centers
Medical Arts, Suite 31, MSC 5722
Phone: (540) 568-7300
HHS, Room 1002, MSC 4311
Phone: (540) 568-8731
Website: http://www.jmu.edu/copycenter
The University Copy Centers are owned and operated by the university as a service to the campus community. Two locations provide a full range of photocopying services. Academic coursepack service, copyright permission service, full color copying, digital copying and digital file storage, network printing, binding, laminating and express photocopying service are available. Hours of operation vary by location. All centers are closed for university holidays.

Dining Services
Gibbons Hall, Entrance 7, MSC 0901
Phone: (540) 568-6751
Website: http://www.jmu.edu/dining
To meet the varied needs of individual students, Dining Services provides different meal plans. All on-campus residents choose from among three meal plans, which come with the “Student Housing and Food Contract.” They are the 19-Meal Plan, the 14-Meal Plan and Any-11-Premier Meal Plan. Commuters, who do not automatically have meal plans, may purchase any of the on-campus plans and have the additional options of a ten, five and three meal plan. The department also offers declining balance accounts that operate like debit cards. Students using this plan, called Dining Dollars, get a 5-percent discount and pay no sales tax on anything they buy. Cash sales are also welcome at all Dining Services locations.

Parking Services
Parking Deck, 381 Bluestone Drive, MSC 1301
Phone: (540) 568-3300
Website: http://www.jmu.edu/parking
All vehicles parked on property owned, operated or leased by James Madison University are required to display a valid JMU parking permit. For information regarding the university’s parking regulations refer to the Parking and Traffic Regulations Handbook. A copy of the handbook may be obtained free of charge upon request at the Parking Services office. Updated information can be obtained throughout the academic year on the website.

http://www.jmu.edu/catalog/14
Career and Academic Planning coordinates academic advising for all first year students and undeclared students, assists students in choosing or changing their major and deciding upon a career direction; and provides a variety of job search programs and graduate school application services.

Freshman Academic Advising
Academic advising is vital to student success. The adviser assists students in shaping their educational experience to meet specific intellectual, personal and career goals. Advisers do not decide the student's goals or program, but help students learn how to develop appropriate goals, make good choices that enhance learning and personal growth, and succeed in and out of the classroom. During summer orientation, all new students are assigned to faculty or professional advisers who discuss with them the university's various programs of study, academic policies and procedures, advanced placement/exemption testing, and registration procedures. Advisers continue to work with first year students until midway through the spring semester, at which time first year students that have declared a major are assigned to advisers in their academic unit. Students remaining undeclared are assigned to a professional adviser in Career and Academic Planning. First year students must declare their major by the beginning of their sophomore year. Refer to Academic Policies and Procedures for information on declaring a major.

JMU students are responsible for the educational choices they make, both short and long term, but they can make those choices in a supportive environment. Effective academic advising is a relationship between student and adviser. Students must be aware of their own interests, values and goals; knowledgeable about relevant policies and requirements; and willing to take the initiative to seek assistance when it is needed. Advisers should respond to the student as an individual, be aware of student progress and help the student make connections between academic choices and career possibilities.

Graduate School Application and Information Resources
Workshops and programs on the graduate school application process are offered throughout the year. Career and Academic Planning also offers practice tests for graduate and professional school admission. Numerous resources related to graduate and professional schools can be found on the Career and Academic Planning website.

Career Advising and Decision-Making
Career and Academic Planning helps students understand the process of deciding on an appropriate major and relate that decision to possible career paths.

Students can meet with professionals and attend various programs to enhance their knowledge of majors, explore career fields, learn career decision-making strategies, discover more about their own interests and strengths, and plan to eventually launch an effective job search.

Career and Life Planning Course (IS 202)
The career and life planning course is for first year students who want to explore the relationship between academic majors and career fields, identify their major and career interests, and learn effective decision-making strategies for choosing a major and a career.

Academic and Career Resource Center
The resource center provides information and assistance related to choosing a major and career planning, internship/summer jobs, job search tools and career trend information. A tool available to all students is FOCUS, a web-based career exploration tool available in the resource center and online. Directories with employer contact information and graduate school options are also available. Resources include books, printed materials, handouts, databases, career software and Web-based information. Information is organized on a self-help basis so that students and faculty may browse at their leisure. Staff members are available to answer questions and help students use resource materials.

Employment, Internship and Job Search Services
Employer Relations and Recruiting Services
Business, industry, government and educational employers come to JMU throughout the year to conduct job interviews with graduating seniors and students seeking internships. Information about the interview program, participating employers and interview sign-ups is available on the Career and Academic Planning website. To interview, students must create a profile on Recruit-a-Duke, an online system that connects students with employment and interviewing opportunities.

Resume Development
Assistance with writing resumes is available to students in many forms. Students may access resume writing support via the Career and Academic Planning website. Resume writing workshops and other related services are available throughout the year, and students may make an appointment with an academic and career adviser to receive individual assistance. Resume PREP, a program offered each fall allows students to get resume feedback from employers to help with final revisions.

Career Fairs
The office sponsors a number of career fair events each year to provide students with the opportunity to interact with employers and obtain employment-related information.

Job Search
Job search related programs are offered throughout the academic year, including presentations on job search strategies for targeted industries, behavioral interviewing, networking and evaluating job offers. Students may also meet individually with an academic and career adviser to tailor their job search.

JMU offers Interview Stream, a web-based interviewing practice application that students may use at any time. Interview Stream allows students to record a practice interview related to their major or career choice and to have that recording reviewed and critiqued by CAP staff, faculty or others.

http://www.jmu.edu/catalog/14
Community Service-Learning

Community Service-Learning (CS-L) programs allow students to learn and develop through active participation in thoughtfully organized community service. Students, faculty, staff and community agencies partner to help prepare students for lifelong community service and civic engagement. Students can serve in over 80 community agencies through service-learning courses or by coming to the CS-L office during the first three weeks of each semester. In addition to local service opportunities, Alternative Break Programs are student led and developed service trips to locations in the United States and abroad. Trips are offered at Thanksgiving, spring and May breaks. Local trips are also offered on weekends. Trips fill up quickly, so check the CS-L website regularly for sign up details. For students eligible for Federal Work Study, America Reads and Community Work Study places students in elementary schools to tutor in reading and in community service agencies that address a variety of community needs.

Center for Multicultural Student Services

The Center for Multicultural Student Services celebrates the diversity of JMU students by fostering student growth and development, heightening awareness and educating its constituents regarding ethnic and cultural diversity.

The purpose of CMSS is:

- To assist the university in its goal of recruiting and retaining a diverse student population through a variety of programs and services designed to assist students in achieving their academic and career aspirations.
- To encourage the development of a climate in which the accomplishments of multicultural students are appreciated.
- To create an environment through which multicultural students can continue to share in and contribute to the mainstream of campus life.

The office works diligently to provide the following services:

- Cultural Programming and Awareness
- Leadership Development
- Recruitment and Retention
- Student Support

Counseling Center

The Counseling Center provides free, confidential personal counseling services to all full-time JMU students. Appointments can be made in person or over the phone (540-568-6552). After-hours crisis services may be accessed by contacting the Office of Public Safety (540-568-6911).

Counseling at the Counseling Center frequently involves issues such as relationship problems, self-esteem, depression, anxiety/stress, eating and body image concerns and difficulty adjusting to college life. Services include:

- Personal Counseling: Individual counseling provides students with the opportunity to freely explore any personal problems or concerns, which have a negative impact on the quality of their lives. The Counseling Center operates under a short-term treatment model under which the student and counselor collaboratively identify and address the student's primary concerns within a limited number of sessions. Students who request or require longer-term treatment are referred to community resources.
- Specialized Treatment Programs:
  - #tacklinganxiety: This treatment program provides proven strategies to effectively reduce anxiety, worry and panic symptoms.
  - You've Got This: This treatment program helps students to develop realistic perspectives and effective skills for coping with the stress of both daily college life and challenging personal situations.
- Group Counseling: Each semester, students may participate in small group experiences on issues related to their needs (e.g., depression, eating disorders, anxiety, grief, etc.).
- Sexual Trauma Empowerment Program: The Counseling Center provides crisis, individual and group counseling to students who are survivors of sexual assault. Advocacy and support services include assistance with medical, judicial and legal referrals.
- Psychiatric Services: The Counseling Center has a psychiatrist who prescribes medications that may be helpful to students dealing with psychological issues. Only students who are currently engaged in ongoing treatment at the Counseling Center are eligible to receive these services. The cost of any medication and/or necessary lab work is the financial responsibility of the student. Students who are exclusively interested in psychiatric services are provided an off-campus referral.
- Consultation: In person or over the phone, the Counseling Center provides consultation to students, faculty, staff and others who are concerned about the unusual, problematic or potentially harmful behavior of others.
- Outreach Programming: Workshops on a wide variety of mental health topics may be requested by visiting the Counseling Center online.
- Peer Mentor Program: This program is designed to help first year and transfer multicultural and international students make a successful transition from high school to the university.

Job vacancy publications for all career fields are available through the resource center. Recruit-a-Duke, JMU's online job search system, also gives students access to vacancy listings.

Internships

Internships are available with the federal government, other governmental agencies, nonprofit organizations and private entities. Students interested in internships should contact Career and Academic Planning or the appropriate academic unit office to obtain additional information. Credit must be arranged in advance with the appropriate academic unit head and the Office of the Registrar.
Computer Literacy
JMU is committed to providing an educational environment that is consistent with current technology in an information society. The university provides all students with the opportunity to have some experience with computers. The General Education Program requires all students to pass a basic computer proficiency test in their first semester at JMU. Other academic units also offer courses emphasizing computer applications for individual disciplines.

Computer Ownership
JMU strongly supports and encourages student use of computers. At some point in each student’s college career, he or she will need to purchase a computer in order to meet the curricular expectations of a particular program. Recommended computer configurations for use in specific departments and majors can be found online at www.jmu.edu/computing/purchase.

Office of the Dean of Students
Taylor Hall, Room 300, MSC 3534
Phone: (540) 568-6468
Website: http://www.jmu.edu/deanofstudents
Staff are committed to providing students with impartial, independent and confidential support regarding university policies, procedures and regulations. Specific types of assistance include:
- Assisting students who are considering withdrawing from the university prior to the end of the semester.
- Facilitating communications and connections with university personnel and departments.
- Facilitating the resolution of student issues and concerns.
- Notifying faculty of extended class absences.
- Providing confidential, impartial facilitation of communication.
- Providing direction to students on procedures and regulations.
- Referring students to resources to increase the likelihood of their success.
- Responding to the informational and personal concerns of students, parents, faculty and staff.
- Supporting and empowering students and families in crisis and/or challenging situations.

Office of Disability Services
Student Success Center, Suite 1202
Email: disability-svcs@jmu.edu
Phone: (540) 568-6705
Website: http://www.jmu.edu/ods
The Office of Disability Services is comprised of the following areas:
Disability Services
Disability Services collaborates with the JMU community by providing programs and services that support the university in creating inclusive, equitable environments that value disability, diversity and accessibility. Services include:
- Equal access to university programs and services
- Provision and coordination of reasonable accommodations
- Disability-related support services
- Liaison to faculty, staff and students on disability related issues

Accessible Media & Technology
Student Success Center, Suite 1202
E-mail: alt-media@jmu.edu
Phone: (540) 568-5046
http://www.jmu.edu/ods/accommodations/accessible-media
Accessible Media and Technology provides course materials in alternative formats for students with qualifying disabilities, manages the Accessible Technology Labs and supports university faculty and staff with designing accessible course materials. Services include:
- Textbooks and articles in alternative formats such as audio, large print, accessible PDFs and Braille
- Captioning for videos and recorded audio
- Educational programs on creating accessible course materials
- Accessible Technology Computer Labs with specialized software and furniture are located in Carrier Library, Room 119 and in Rose Library, Room 1204.

Learning Strategies Instruction
Student Success Center, Suite 1202
E-mail: lsi@jmu.edu
Phone: (540) 568-6705
http://www.jmu.edu/lsi
Learning Strategies Instruction (LSI) is the direct-instruction of research-based strategies designed to improve the actual process of learning. Available to any JMU student, LSI promotes learning efficiency in current courses and targets individual needs for:
- Organization
- Vocabulary
- Note-taking
- Reading comprehension
- Studying
- Test-taking
- Time management

Screening & Referral
Student Success Center, Suite 1202
This office provides a one- and a half hour clinical interview exploring a broad range of historical, academic, study habits/skills, academic frustrations and emotional components. A screening does not yield a diagnosis; rather, it assists in the decision-making process for recommending the next step in the process.

Office of Equal Opportunity
1017 Harrison St., MSC 5802
Voice/TDD: (540) 568-6991
Website: http://www.jmu.edu/oeo
The Office of Equal Opportunity promotes the practice of and adherence to the equal opportunity policies of James Madison University. Bringing diversity to JMU, the program assists in the identification and recruitment of qualified individuals who normally have been underrepresented in the university. It also sponsors workshops on various subjects such as sexual harassment, disabilities and affirmative action.

http://www.jmu.edu/catalog/14
The Honors Program seeks to meet the educational needs of talented, highly motivated students by offering increased opportunities for an enriched and challenging curriculum. It is administered by the directors of the Honors Program and the Honors Faculty Fellows. Under the guidance of recognized teacher-scholars, this program offers students the opportunity to cultivate the habits of critical thinking, independent analysis and creative expression through small classes and independent study. The program offers a setting in which students who share a similar enthusiasm for learning are brought together in intellectual fellowship and provides public recognition for superior academic achievement. The program consists of various modes of study.

**Track One Honors Scholars**

High-achieving high school seniors apply to enter the Honors Program as Track One Honors Scholars. Track One Honors Scholars complete a total of 27 hours in honors, including six credit hours of honors courses in General Education, nine credit hours of electives in courses designated “Honors” or honors options, six credit hours in cross disciplinary honors seminars or colloquia and six credit hours of independent study—the senior honors project. Track One Honors Scholars are expected to maintain at least a 3.25 grade point average. Designation as an Honors Scholar will appear on the student’s record after completing the program.

**Track Two Honors Scholars**

The Track Two Honors Scholars Program is open to first- and second-year students with at least a 3.50 grade point average. Students must also submit an application to the program office in which they give their reason for wanting to participate in the Honors Program. Once admitted into Track Two, students are expected to maintain at least a 3.25 grade point average. The designation Honors Scholar will appear on the student’s records after completing the program. Candidates for Track Two Honors complete at least 24 credit hours in honors, including a six-credit hour senior honors project, six credit hours in honors seminars and twelve credit hours of electives in honors courses.

**Track Three Honors Project**

Students in their junior year who are not already in the Honors Program but have a cumulative GPA of at least 3.50 are eligible to apply to enter the Honors Program to pursue independent research leading to the completion of a six-credit honors project during their senior year. Once admitted into Track Three, students are expected to maintain at least a 3.25 grade point average. A degree with distinction in the major field is awarded to students completing this project with a grade of “B” or better and approval of the major academic unit.
Honorary Societies
The following honorary and professional societies recognized by the Association of College Honor Societies maintain active chapters on the JMU campus:

- Beta Gamma Sigma (business)
- Golden Key National Honor Society
- Kappa Delta Pi (education)
- Omicron Delta Epsilon (economics)
- Omicron Delta Kappa (scholarship and leadership)
- Percy H. Warren Chapter of Mortar Board Honor Society
- Phi Alpha Theta (history)
- Phi Beta Kappa
- Phi Kappa Phi National Honor Society
- Phi Sigma Tau (philosophy)
- Sigma Tau Delta (English)

Other honorary and professional societies at JMU include:
- American Production and Inventory Control Society (resource management)
- Beta Alpha Psi (accounting)
- Delta Sigma Pi (professional business society)
- Data Processing Management Association (information systems)
- Delta Sigma Pi (professional business society)
- Eta Sigma Delta (hospitality and tourism management)
- Eta Sigma Gamma (honorary)
- Financial Management Association (finance)
- Institute of Management Accountants (accounting)
- Kappa Delta Pi (education)
- Kappa Pi (art)
- National Association of Social Workers Program Unit
- Order of Omega (Greek leadership)
- Phi Alpha Kappa (professional business society)
- Phi Chi Theta (business and economics)
- Phi Epsilon Kappa (physical education honorary)
- Phi Mu Alpha Sinfonia (music)
- Pi Mu Epsilon (mathematics)
- Pi Sigma Epsilon (marketing)
- Rotaract (business)
- SIGGRAPH (digital media production)
- Sigma Alpha Iota (music)
- Society for Collegiate Journalists
- Society for Human Resources Management
- Society of Professional Journalists
- Society of Human Resource Management
- Tau Beta Sigma (band)

Office of International Programs
JMAC 6, Suite 22 & Suite 23, MSC 5731
Phone: (540) 568-6419
Website: http://www.jmu.edu/international

Semester Abroad Programs
Recognizing its responsibility to provide international experiences to JMU students, the university sponsors semesters abroad in Antwerp, Beijing, Florence, London, Salamanca and Scotland. JMU students experience life in a different culture and gain direct access to the historical, artistic, and sociopolitical traditions of the environment while pursuing an approved course of study toward their bachelor’s degree.

The programs are open to all students in good academic standing. Applicants should have at least a 2.0 grade point average.

Semester in Antwerp
Offered during the fall and spring semesters, the Semester in Antwerp program is an experience based program, blending classroom theory with field trips to actual European businesses and sites of historic and cultural interest. While in Belgium, students attend classes onsite at the University of Antwerp with business faculty who specialize in European Integration and the effects of economic and monetary union. This program is open only to business majors who have been accepted into COB 300. No foreign language is needed to participate in this program.

Semester in Beijing
The Semester in Beijing is a JMU summer program that is open to all majors. Classes are taught by English-speaking Chinese faculty at Tsinghua University, one of China’s most beautiful and prestigious universities. Courses focus on Chinese language, culture, business, history, politics and the arts. Among the program activities, students meet with business leaders and government officials, tour major historical and cultural sites, and interact with Chinese students on their campus. Proficiency in the Chinese language is not a requirement; however, students do enroll in one language course during the semester. Participants may earn a minor in Chinese Business Studies by successfully completing the program and taking MKTG 380, either before or after participating in the program.

Semester in Florence
The program curriculum for the Semester in Florence program highlights the Renaissance tradition of the city through art, literature and culture-related courses, as well as focusing on 20th- and 21st-century Italy and Europe through politics and history. Previous background in Italian is not required; however, students must take at least 3 credit hours of Italian while in Florence. Offered all 3 semesters, fall, spring, and summer, this program gives students the opportunity to complete 6 credits toward the JMU General Education requirement for arts and humanities. Interested students can also earn substantial credit toward a minor in Modern European Studies. The semester in Florence program (Fall and Spring) offers excellent opportunities for hospitality management majors and general business minors.

Semester in London
During the Semester in London, students study both classic and modern literature and then examine those great works in context, exploring how history influenced the present in Europe’s most cosmopolitan city. Internships are also available as part of the program. With more than 200 possible intern sites in London, positions are widely varied and open to all majors. This unique opportunity allows students to build essential life and career skills while experiencing the British lifestyle first-hand. This program is offered during the fall, spring and summer. Interested students can also earn substantial credit toward a minor in British Communication and Media.

Semester in Salamanca
Offered fall, spring and summer, the Semester in Salamanca program gives students the opportunity to experience the cultural richness of Spain, as their exposure to theaters, concerts, cinemas and other performing arts groups will unveil a new aspect of learning.

http://www.jmu.edu/catalog/14
All courses are taught in Spanish; thus, all applicants must have completed the intermediate level of Spanish (SPAN 232) prior to departure. Upon arrival in Salamanca, students enroll in a 3-credit intensive language class at the level appropriate to their needs during their first month abroad. This requirement permits time for students to adapt to Spanish language and culture before entering regular semester courses.

**Semester in Scotland**

Students spend four weeks in Edinburgh and four weeks in St. Andrews as part of the Semester in Scotland program. This study abroad opportunity is open to all majors. Classes are taught by JMU professors and faculty members from the University of Edinburgh and University of St. Andrews, two of the best and most prestigious universities in the United Kingdom. Participating students take 12 credits in General Education courses. Course offerings vary each summer but will always cover courses in Clusters 2, 3, 4 and 5 of JMU’s General Education curriculum.

**Program Cost**
The programs’ costs differ, but all programs include tuition, housing, a basic food allowance, course-related travel, including extended weekend trips, instructional events, such as theater, concerts, historical tours and guest lectures, and some social activities. All programs exclude the costs of students’ travel to and from the program site. Loans and scholarships may be applied, and semester abroad scholarships and assistantships are available. Students live in a central, convenient part of each city and have ready access to the faculty member in residence or the on-site director if any health problems or emergencies arise. Students enrolled in JMU-sponsored study abroad programs will be covered by a medical insurance policy for the period of time that they are participating in the JMU program.

**International Exchange Programs**
The university is committed to increasing the opportunities for students’ global awareness. Numerous exchange programs with schools and universities abroad are available. JMU’s exchange programs are based at prestigious universities around the world, such as LaTrobe University and Flinders University in Australia; University of Leicester in England; Nanzan University, Hiroshima University, Nanzan University, and Ritsumeikan University in Japan; Yonsei University in South Korea; the Universidad de Salamanca in Spain; American University of Cairo and Misr International University in Egypt; American University of Sharjah in UAE; University of Versailles in France; and Malmo University in Sweden. Language requirements and curricula vary. Exchanges are available to all majors and minors. Students should consult the Office of International Programs for application deadlines and further information.

**Study at Oxford, Cambridge or St. Andrews**
The university also offers the opportunity to study abroad for a semester or a full academic year at three of Great Britain’s oldest and most respected universities: the University of Cambridge and the University of Oxford in England and the University of St. Andrews in Scotland. Participants will take part in tutorials across a wide range of topics and live with and share all of the benefits of regular university students.

Study at Oxford, Cambridge or St. Andrews is open to all JMU students possessing a 3.3 grade-point average; students do not need to be honors students to participate in this program.

**Summer Abroad Programs**

During the summer, many international courses and travel study classes are offered. Specific course offerings and departments and schools vary from year to year. A typical summer schedule might include classes in Argentina, Australia, Belgium, Cameroon, Canada, China, Costa Rica, England, France, Germany, Ghana, Greece, India, Ireland, Italy, Japan, Jordan, Kenya, Lebanon, Madagascar, Malta, Mexico, Montreal, Morocco, the Netherlands, the Philippines, Scotland, South Africa, Spain and Turkey. Information regarding courses to be offered each summer can be obtained in the Office of International Programs.

**External Abroad Programs**

Students may apply to participate in other approved study abroad programs. The university will accept credits earned abroad at approved institutions in accordance with its policy of accepting transfer credits. Approval of proposed study programs must be obtained from the Office of International Programs and the head of the academic unit in which the transfer credit will be awarded. Applications and program resources are available in the Office of International Programs.

**JMU Learning Centers**

**Student Success Center, Room 1138**
Phone: (540) 568-2932
Website: http://www.jmu.edu/learning

JMU’s Learning Centers support students, faculty and staff through the following programs and services:

**Communication Center**

**Student Success Center, Room 1155**
Phone: (540) 568-1759
Website: http://www.jmu.edu/commcenter

The Communication Center provides resources and assistance with digital and oral communication projects and promotes students’ communication excellence through attention to process, innovation, and audience-centered design. The center offers consultations, class workshops, and online resources for faculty and students across campus.

Services for digital communication include:
- One-on-one consultations for choosing the most effective online tools and planning a project
- Resources and tutorials on effective digital design, communication, navigation, and usability
- Usability testing for digital projects
- Collaborating with faculty to design effective digital assignments

Services for oral communication include:
- Speech preparation assistance
- Assistance with speech outlines and research
- Speech anxiety reduction strategies
- Developing audience-centered presentations and visual aids
- Enhancement of speech delivery and style

http://www.jmu.edu/catalog/14
English Language Learner Services  
Student Success Center, Room 1155  
Phone: (540) 568-2881  
Website: http://www.jmu.edu/ELLS  
In addition to opportunities to work on academic skills in a cooperative environment, multilingual learners can seek consultation on such topics as:  
- Reading, writing, listening, speaking  
- American academic culture  
- Multilingual writing groups

Peer-Assisted Study Sessions  
Student Success Center, Room 1119  
Phone: (540) 568-2932  
Website: http://www.jmu.edu/pass  
Peer-Assisted Study Sessions (PASS) help students successfully complete historically challenging courses. Students work together in regularly scheduled out-of-class study sessions that are facilitated by peer educators. These sessions are designed to help students master course content and develop their organizational, study and learning skills. Refer to the PASS website for a current list of supported courses.

Science & Math Learning Center  
Student Success Center, Room 1107  
Phone: (540) 568-3379  
Website: http://www.jmu.edu/smlc  
The Science and Math Learning Center (SMLC) provides support to JMU students enrolled in first and second year science and mathematics courses by providing a secure, supportive learning environment that fosters independent thinking. The center provides a free, walk-in tutoring service by both faculty and trained peer tutors in the following subject areas: physics, chemistry, mathematics and statistics. Consult the website for a current list of supported courses.

University Writing Center  
Student Success Center, Room 1121  
Phone: (540) 568-1759  
Website: http://www.jmu.edu/uwc  
The University Writing Center works directly with student and faculty writers, provides resources on writing strategies, and supports writing across campus. The center provides:  
- Individualized writing consultations  
- Online writing resources for students and faculty  
- Faculty consultations for designing assignments and responding to student writing  
- In-class workshops on writing-related issues for any academic course or department  
- Satellite locations at  
  - Rose Library, Main Lobby  
  - Carrier Library, Main Lobby  
  - Athletic Performance Center

JMU Libraries  
Website: http://www.lib.jmu.edu

Carrier Library  
Phone: (540) 568-6150

Music Library  
Phone: (540) 568-6041

Rose Library  
Phone: (540) 568-2731  
The JMU Libraries provide collections, technology, knowledgeable staff and comfortable spaces where people connect with ideas and each other to discover, create and share knowledge. The Libraries house nearly 850,000 items including books, periodicals and audiovisual materials, and also offer access to significant collections of online resources. Carrier Library houses the arts, humanities and social sciences collections and provides spaces for individual and collaborative study. Carrier Library is also home to the Media Resources Center, Special Collections, a computer lab and a coffee shop. The Music Library serves the students and faculty of the School of Music as well as offering its specialized resources to the greater university community. Rose Library houses the science, technology and health sciences collections and provides spaces for individual and collaborative study. Rose Library also has a coffee shop and a 24-hour study area with a secure entrance and a computer lab. Librarians collaborate closely with instructional faculty to help students develop information literacy skills. Liaison librarians are linked with each academic program to provide a variety of services such as library instruction for course-related activities, collection development and research consultations with students and faculty. The library website is a gateway to the services and collections of the Libraries. Through the website users can search all library resources, access online resources and find subject guides highlighting the most important research resources in many areas. Information about the libraries such as hours and equipment availability, as well as online services such as Ask a Librarian, Interlibrary Loan and Book a Group Study are also available from the website.

Orientation Office  
Student Success Center, Room 2200, MSC 1010  
Phone: (540) 568-1787  
Website: https://www.jmu.edu/orientation  
The Orientation Office provides a variety of academic and social programs and services to support new students’ transition to the university. All first year students entering in the fall semester attend a one-day orientation program in June or July and a five-day program in August. All transfer students entering in the summer and fall semesters attend a one-day orientation program in early June and a three-day program in August. For all new students entering in the spring semester, orientation activities are offered during one-day orientation programs. All orientation programs provide new students with academic advising, information about essential student services and insights on how to be a successful student. There are numerous opportunities to meet new people, learn about key academic resources and get involved in campus and community activities.
Public Safety
Anthony-Seeger Hall, MSC 6801
Phone: (540) 568-6913
Website: http://www.jmu.edu/pubsafety
The Office of Public Safety consists of law enforcement and safety services. The office supports and advances the educational purposes of the university through the provision of a safe and secure environment for learning, working and personal development.

Police
The university police are commissioned officers with comprehensive law enforcement powers. University police continually patrol JMU's campus and facilities, providing full-service protection to the JMU campus community.

The Campus Police Cadet Program carefully screens and trains students to aid the university police. Cadets are on duty from 7 p.m. until 2 a.m. each weeknight and until 3 a.m. on weekends. Cadets are responsible for patrolling the campus and securing academic and administrative buildings each evening. In addition, they provide escort services to students walking across campus. When cadets are off duty, university police officers escort students as needed.

Safety
The university safety engineer is responsible for conducting safety surveys and inspections; investigating fires, hazardous material spills and other dangerous conditions; and providing environmental and workplace safety and health awareness training.

Office of the Registrar
Student Success Center, Room 5300, MSC 3528
Phone: (540) 568-6281
Website: http://www.jmu.edu/registrar
The Office of the Registrar is responsible for the following activities:
- Add and drop registration procedures
- Athletic certification
- Class schedule preparation
- Commencement activities
- Degree audits
- Diploma issuance
- Enrollment verifications
- Student records
- Transfer credit evaluation
- Transcript issuance
- Veteran's Affairs

Residence Life
Huffman Hall, MSC 2401
Phone: (540) 568-4663
Website: http://www.jmu.edu/orl
The Office of Residence Life oversees multiple functions related to living and learning at James Madison University. Offices and programs within the department focus on student learning, student development and successful transitions throughout the university experience.

Student Learning Initiatives coordinates developmental programming in the residence halls, oversees all Residential Learning Communities and works specifically with first year students through its First Year Resource Center. Community Development oversees the selection, training and supervision of residence hall staff, develops policies and procedures for hall operations and administers the delivery of programs and services designed to promote student success. Housing Operations manages all university-sponsored housing facilities, including the administration of contracts and room assignments. Business Operations coordinates all maintenance and housekeeping services and manages residence hall summer projects.

Office of Student Accountability and Restorative Practices
Student Success Center, Room 2122
Phone: (540) 568-6218
Website: http://www.jmu.edu/judicial
The Office of Student Accountability and Restorative Practices collaborates with partners to facilitate civic responsibility and student development in order to provide opportunities for the cultivation and restoration of the university community.

Student Government Association
Taylor Hall, Room 203, JMU Box 3523
Phone: (540) 568-6376
Website: http://sga.jmu.edu
Students, faculty and administration share the responsibility for governing JMU. They are represented on the University Council, on its commissions and on standing and special committees reporting to these bodies. The Student Government Association collectively represents the university student population. SGA promotes the welfare of students by providing the medium through which students can actively voice their concerns and by serving as a liaison between the students, faculty and administration at JMU.

Student Handbook
Website: http://www.jmu.edu/judicial/handbook.shtml
The student handbook contains a wealth of information about university policies and regulations, university facilities and student organizations.

Student Success
Student Success Center, Room 3010, MSC 1012
Phone: (540) 568-3787
Website: http://www.jmu.edu/stusuccess
At JMU, all students can be successful if they rise to the challenges they face as students, take full advantage of the many academic and student support services available to them on the campus, and participate deeply in engagement opportunities on campus and beyond.
Student Success is the name of JMU's pervasive philosophy of collaborative, campus-wide efforts to coordinate programs and support services that help students become more efficient, effective and engaged learners; address students' physical and emotional health; and provide advice and assistance for a variety of financial, curricular, technical and employment concerns. The James Madison University Student Success Center houses university departments that support student learning, student health, and student service. These departments include: Campus Police (substation); Card Services; Career and Academic Planning; Centennial Scholars; Center for Faculty Innovation/Center for Instructional Technology experimental classrooms; Community Service-Learning; Information Technology Computing Support; Counseling Center; Dining Services; Financial Aid and Scholarships; Learning Centers; Multicultural Awareness and Student Health AVP; Office of Disability Services; Orientation; Registration Services; Student Accountability and Restorative Practices; Student Affairs Technical Services; Student Success Center Management; Student Success Programs AVP; University Business Office; and University Health Center. The Student Success Center is a comprehensive facility unlike any other in scale and scope of programs, services and resources. All of the departments in the center collectively contribute to the success of all JMU students.

In addition to a pervasive philosophy in a comprehensive facility, student success also designates a cross-divisional set of departments focusing on academic achievement, decision-making, civic engagement, individual responsibility and equitable access to the college experience. As an organizational unit, Student Success Programs is a joint effort of the Academic Affairs division and the Student Affairs/University Planning division. The departments in the Student Success Programs unit are Community Service Learning, the Office of Disability Services, The Learning Centers, Orientation and Student Success Center Management.

University Health Center
Student Success Center
Phone: (540) 568-6178
Website: http://www.jmu.edu/healthcenter

The University Health Center partners with students to empower them to make informed choices by providing a holistic approach to student health, education, wellness and outreach services in a confidential, inclusive and respectful environment. The University Health Center is staffed by a medical team of board-certified providers, a registered dietitian, professional health educators and substance abuse prevention specialists who administer care in a confidential and professional manner. Students must enter their immunization dates into http://jmu.edu/MyJMUHealth and have an Immunization Form completed and verified by a health care provider on file at the University Health Center. State law requires that all full-time students provide this documentation. See http://jmu.edu/MyJMUHealth for additional information and to download the Immunization Form.

The Health Center offers free regular office visits for full-time students and low-cost specialty services. In addition, the Health Center offers:

- Allergy clinic
- Appointment medical clinic
- Health education and outreach
- International travel clinic
- Lab services
- LGBT & Ally Education Program
- Limited pharmacy dispensing
- Nutritional counseling
- Peer education
- Sexual assault education, advocacy, and support
- Specialty clinic
- Student health insurance
- Substance abuse prevention & recovery
- Walk-in medical clinic
- Women’s health clinic

University Recreation
University Recreation Center, MSC 3901
Phone: (540) 568-8737
Website: http://www.jmu.edu/recreation

University Recreation (UREC) promotes and advances healthy lifestyles through participation opportunities, educational experiences and supportive services. The qualified staff is committed to excellence and attentive to the developmental needs of participants. Educational programming areas include Adventure, Aquatics, Fitness, Group Fitness, Informal Recreation, Intramural Sports, Nutrition, Safety, Sport Clubs, TEAM Challenge Course, Wellness and Youth Programs.

The main UREC facility is located near the JMU Convocation Center on the east side of campus. It is a multi-level fitness and wellness center with over 140,000 square feet of activity space. Building highlights include a 33-foot climbing wall, six racquetball courts, four basketball/volleyball courts, indoor track, cardio theatre, indoor pool, locker rooms, massage studio, a TRX Training Center and group fitness/multipurpose studios. UREC also houses an equipment center where sports and camping/outdoor equipment can be checked out or rented. Personal training, fitness/nutrition analysis and massage services are also available for a fee.

UREC also encompasses several satellite facilities. University Park, located near campus at 1090 Devon Lane, includes opportunities for drop-in recreation, structured Intramural Sports and Sport Club programs, as well as a team and leadership development program. Facilities include an open event lawn, tennis, sand volleyball and basketball courts, large multipurpose turf, pavilion, TEAM Challenge Course and a disc golf course. Additional UREC satellite facilities include East Campus Fields, spaces within Godwin and Memorial Halls, and several fields and courts around campus.

A valid JACard is needed to enter UREC and University Park. Online registration and in-person registration at UREC is available for educational programs, Group Fitness classes, services and Intramural Sports.

University Unions
Taylor Hall, Room 205B, MSC 3501
Phone: (540) 568-3341
Website: http://jmu.edu/madisonunions

The University Unions Department reflects a broad range of programs, facilities and services created to build a sense of community for the campus as a whole.

http://www.jmu.edu/catalog/14
The facilities are the gathering places for the campus, with meeting rooms, assembly spaces, lounges and support services available. They are places where ideas come to life, learning is put into practice and the various constituencies of the campus find common ground.

University Unions is comprised of the following units:

**The Dux Center**
Taylor 102, MSC 3501  
Phone: (540) 568-5901  
Website: http://www.jmu.edu/dux

The Dux Center (pronounced “dukes,” which is Latin for “to lead” or “leadership”) is JMU’s leadership resource clearing house for students. The premier program sponsored by the Dux Center is Kijji Citizens of Influence.

The Dux Center also provides information about leadership programs offered by areas across campus. Students may check out equipment, books and other resources useful for leadership development, team building and experiential learning leadership activities.

Professional staff in the Dux Center are certified trainers for the DISC Personality Assessment program and can provide customized workshops to help people learn more about themselves, how to connect with others and how to build teams more effectively. They also serve as leadership consultants, assisting individuals, groups and organizations in the development of their leadership capabilities.

**Madison Union Scheduling**
Room 233, MSC 3501  
Phone: (540) 568-6330  
Website: http://www.jmu.edu/madisonunion

**Festival Conference and Student Center Scheduling**  
Phone: (540) 568-1716  
Website: http://www.jmu.edu/eventmanagement

University Unions provides a comprehensive approach to the coordination of services necessary for campus events and coordination of scheduled meetings and conferences throughout the year.

**Facilities Services (University Unions)**  
Madison Union, MSC 3501  
Phone: (540) 568-5555  
Festival Conference and Student Center, MSC 4201  
Phone: (540) 568-1715

Four buildings house the programs and services which the University Unions provide for the JMU community. They are the Madison Union (Grafton-Stovall Theatre, Warren Hall and Taylor Hall) and Festival Conference & Student Center. Facilities Services address physical building, operations and information concerns in these spaces.

**Fraternity & Sorority Life**
Warren Hall, Room 404, MSC 3501  
Phone: (540) 568-4195  
Website: http://info.jmu.edu/fsl

The Office of Fraternity & Sorority Life works with social fraternities and sororities to foster cooperation and communication amongst the chapters, the university and the community.

Staff members advise the InterFraternity and Panhellenic Councils, as well as Greeks Advocating the Mature Management of Alcohol (GAMMA), Greek InterVarsity and Order of Omega Greek Leadership Honor Society. Staff members also work with individual chapters to promote the development of character, leadership, scholarship and service.

**Office of Student Activities and Involvement**  
Taylor Hall, Room 205A, MSC 3501  
Phone: (540) 568-8157  
Website: http://info.jmu.edu/osai

The Office of Student Activities and Involvement houses Student Organizations, Student Government, Mad4U, Make Your Mark on Madison Leadership Program and the University Program Board. The Office of Student Activities and Involvement provides a wide range of educational, social and cultural events, as well as support services for all JMU student clubs and organizations. Student Organization Night at the beginning of each semester offers an opportunity for all students to meet members of clubs, learn about organizations and discover how to become involved with them.

**Taylor Down Under**  
Phone: (540) 568-7853 or (540) 568-5555

Taylor Down Under, located on the ground floor of Taylor Hall, is comprised of a lounge, the Corner Pocket Game Room and a coffee bar. The TDU lounge area is a popular hangout for all students. This area offers computers for student use, television, evening entertainment on the TDU Stage, comfortable seating and an information desk.

**University Program Board**  
Taylor Hall, Room 234, MSC 3505  
Phone: (540) 568-6217  
Website: http://info.jmu.edu/upb

Campus entertainment is scheduled through the University Program Board, a student organization advised through the University Unions. Concerts, films, speakers, trips and numerous other activities designed to complement the educational mission of JMU are arranged by the UPB. The board also solicits collaborative programs with other student organizations, university departments and schools. Committees for which students may volunteer include film, special events, center stage, spirit and traditions, and spotlight sounds.

**Withdrawal from the University**  
Office of the Dean of Students  
Taylor Hall, Room 300, MSC 3534  
Phone: (540) 568-6468  
Website: http://www.jmu.edu/deanofstudents

The Office of the Dean of Students assists students who are considering withdrawing from the university after the first three weeks of the semester but prior to the end of a semester. The student and staff member discuss personal, financial and academic implications including pertinent policies and procedures directly involved with their withdrawal. The staff member will provide and assist the student with the proper withdrawal application form. Requests for withdrawal are not accepted after the semester has ended.

http://www.jmu.edu/catalog/14
University and Post-Graduate Resources

The Graduate School

Dr. Melissa Alemán, Interim Dean

Grace Street House
17 West Grace Street
Harrisonburg, VA 22807
Phone: (540) 568-6131
Website: http://www.jmu.edu/grad

The Graduate School coordinates graduate and post-graduate education throughout the university. The JMU Graduate School was established in 1954 when the State Board of Education authorized the university to offer programs leading to the Master of Science in Education degree. There have been over 16,000 graduate degrees awarded through 2013-2014, and enrollment growth and ongoing development of graduate programs of distinction are key strategic initiatives of the university.

It is the mission of The Graduate School to support, facilitate and promote excellence in lifelong education through graduate programs of distinction, innovative outreach programs and a diverse student body.

The Graduate School is authorized to offer graduate programs leading to master's, Educational Specialist, Doctor of Audiology, Doctor of Philosophy, Doctor of Musical Arts and Doctor of Nursing Practice degrees. Many graduate programs also offer concentration areas. Refer to The Graduate Catalog for details.

The Graduate School offers the following programs and degrees:

- Accounting (M.S.)
- Adult Education/Human Resource Development (M.S.Ed.)
- Art Education (M.A.)
- Assessment and Measurement (Ph.D.)
- Biology (M.S.)
- Business Administration (M.B.A.)
- Clinical Mental Health Counseling (M.A./Ed.S.)
- College Student Personnel Administration (M.Ed.)
- Communication and Advocacy (M.A.)
- Communication Sciences and Disorders (Clinical Audiology) (Au.D.)
- Communication Sciences and Disorders (M.S.; Ph.D.)
- Computer Science (M.S.)
- Counseling and Supervision (Ph.D.)
- Education – Fifth year format (M.A.T.)
- Education (M.A.T.; M.Ed.)
- English (M.A.)
- Health Sciences (M.S.)
- History (M.A.)
- Integrated Science and Technology (M.S.)
- Kinesiology – Fifth year format (M.A.T.)
- Kinesiology (M.S.)
- Mathematics (M.Ed.)
- Music (M.M.)
- Nursing (M.S.N.; D.N.P)
- Occupational Therapy (M.O.T.)
- Performance/Conducting, Pedagogy, Literature (D.M.A.)
- Physician Assistant Studies (M.P.A.S.)
- Political Science – European Union Policy Studies (M.A.)
- Psychological Sciences (M.A.)
- Public Administration – Fifth year format (M.P.A.)
- Public Administration (M.P.A.)
- Public Administration – Offered in Roanoke (M.P.A.)
- School Counseling (M.Ed.)
- School Psychology (M.A.; Ed.S.)
- Special Education – Fifth year format (M.A.T.)
- Special Education (M.A.T.; M.Ed.)
- Speech Pathology (Clinical) (M.S.)
- Speech Pathology (Distance Learning in Virginia) (M.S.)
- Strategic Leadership (Ph.D.)
- Studio Art (M.A.; M.F.A.)
- Writing, Rhetoric and Technical Communication (M.A.)

All graduate program inquiries should be addressed to:
The Graduate School
James Madison University

Outreach & Engagement

Dr. James Shaeffer, Associate Vice Provost
Ica House
127 W. Bruce Street
MSC 6806
Harrisonburg, VA 22807
Phone: (540) 568-4253
Website: http://www.jmu.edu/outreach

Outreach & Engagement is part of University Programs, a division of Academic Affairs. Outreach & Engagement offers credit and non-credit programs as well as targeted one-time courses, certificate programs and complete degree programs at a distance. Outreach & Engagement serves as a catalyst by utilizing JMU resources to create mutually beneficial partnerships, advance educational opportunities and empower individuals and our extended communities. Outreach & Engagement works with faculty, academic units, students and community organizations to design, market and deliver a wide array of programs. Outreach & Engagement also oversees the enrollment of non-degree seeking students, who are individuals who enroll in credit courses, but are not seeking a degree.

Certificate Program Admission

Individuals who wish to pursue a certificate must apply to the program and be approved before registering for classes. Individuals must complete the Certificate Application available at http://www.jmu.edu/outreach. Virginia residents must also complete the “Checklist and Application for Virginia In-State Tuition Rates.” A non-refundable $45 application fee must accompany the application. Although certificate program students are considered non-degree seeking students, applicants for certificate programs need only complete the Certificate Application once for the semester in which they wish to begin the program. Students must take at least one course in their certificate program in every twelve month period, or they will be deactivated from the program and will need to reapply if they wish to continue. Applications for certificate programs are forwarded to the appropriate academic unit for review. A list of available certificate programs can be found at the Outreach & Engagement website under “Certificate Programs” at http://www.jmu.edu/outreach/certificates.shtml.

Non-degree Seeking Student Admission

The non-degree seeking student classification includes adult non-degree students, high school non-degree students and teacher licensure students. Individuals seeking enrollment as a non-degree seeking student must complete the “Non-degree Seeking Student Application.” Virginia residents must also complete the “Checklist and Application for Virginia In-state Tuition Rates.” A non-refundable $20 application fee must accompany the application. Non-degree seeking students must submit the application and processing fee each semester they enroll in courses.

Non-degree seeking students can enroll and register for up to 11 hours of credit per semester. If additional credits are needed, students should contact the Outreach & Engagement office. Course prerequisites may apply. Courses at the 500 or 600 level and above require approval by the appropriate department head. Non-degree seeking students can complete the non-degree student application and the in-state form by going to http://www.jmu.edu/outreach and clicking “Apply Online Now” or “Outreach Forms.”

Students should register online during the dates identified for non-degree seeking students following the instructions at http://www.jmu.edu/registrar and clicking “For Students” then “Registration Dates and Deadlines.” Walk-in registration and course adjustments are also permitted for non-degree seeking students.

The courses taken in the non-degree seeking student category carry university credit, and they may be transferred into a degree program, once admitted, at the discretion of the program.

Non-credit Courses and Certificates

JMU Outreach & Engagement offers a wide variety of non-credit courses for workforce and professional development. These programs are available for supplementing and updating knowledge, skills and abilities. Some non-credit courses and workshops award continuing education units (CEUs) as a uniform measure of professional development and to signify the student has completed the course or workshop.

Senior Citizen Tuition Waiver

Legal residents of the State of Virginia who have reached 60 years of age before the beginning of an academic term and who have a taxable income that did not exceed $15,000 for the year proceeding the term may register for and enroll in courses as full-time or part-time students and pay no tuition but will incur a $20 application fee as well as fees established for the purpose of paying for course materials, such as laboratory fees. Senior citizens who have a taxable income higher than $15,000 may choose to register to audit courses under the same policy, subject to instructor and department approval. Senior citizens shall be subject to the admissions requirements of the institution and a determination by the institution of its ability to offer the course or courses for which the senior citizen registers. A senior citizen shall only be admitted to a course in which enrollment is sought after all tuition-paying students have been accommodated. A senior citizen tuition waiver form must be submitted to Outreach & Engagement to determine eligibility according to section 23-38.56 of the Code of Virginia.

Forms can be found at the Outreach & Engagement Office or on their website.

http://www.jmu.edu/catalog/14
Tuition and Fees

University Business Office
Student Success Center, Room 5100
Phone: (640) 568-8505
Website: http://www.jmu.edu/ubo

Tuition and fee charges for the 2014-2015 sessions are available online at http://www.jmu.edu/ubo. The tuition and fees listed contribute to general maintenance and operation, instruction, and other university service costs, including recreational and health-service facility costs. The fees also support student activities such as the Student Government Association, University Program Board and student publications.

The amounts listed for tuition do not include certain academic fees, course fees, the cost of books or supplies. The university reserves the right to adjust tuition and fee charges because of rising costs or other conditions upon approval of the JMU Board of Visitors.

For a full description of the tuition and fee rates, refer to the Registration and Student Record Services Handbook or the University Business Office website.

Billing and Registration

Registration for returning students is conducted in March for the summer semester, April for the fall semester and November for the spring semester. Students will be notified in April and May by email when their initial electronic billing statement Madison Money Manager (M3) is ready for the summer semester, early August for the fall semester and mid-December for the spring semester. Thereafter, all new charges, payments and adjustments will be posted electronically in the real-time section – “Account History” – of M3. Authorized Users will only be emailed when students have a balance on their account.

New students who attend an orientation session will be notified of the amounts due through the electronic billing statement in early August.

Students are encouraged to review their financial account for amounts due after any registration or course adjustment activity or meal plan addition or change. Students may access their financial account by using the student information MyMadison link on the Registrar’s website or through the Web link provided in the billing email. Students are strongly encouraged to set their parents up as “Authorized Users” in the M3 system to assure the timely payment of their student account and to avoid unnecessary delays in communicating information. Student account balances are due in full by the first week of classes.

To keep university costs as low as possible, the Commonwealth of Virginia has instituted the following financial policies:

- There is a $50 fee for each check returned due to non-sufficient funds or stop-payment.
- There is a late fee applied to all delinquent accounts. If a student has a balance due that is not covered by financial aid or the installment payment plan by the payment due date (Friday of the first week of classes), a late payment fee will be applied to the account which cannot be waived. Financial aid must be accepted and the installment plan must be set up by the due date to avoid the late payment fee. The late payment fee is 3% of the balance due and is non-negotiable.
- Student account balances are due in full by the first week of classes to avoid a late fee and/or hold.

Payment of Tuition and Fees

Payment may be made by the following means:

- Remitting payment by check or cash to the University Business Office, Student Success Center, Room 5100 by mail or in person.
- Remitting an electronic check payment or credit card payment online through M3 or through the University Business Office website. This service is provided by an outside vendor.
- Contracting with our third party vendor in M3 to set up the installment payment plan no later than the payment due date (Friday of the first week of classes) for an amount that covers the entire balance due.
- Accepting financial aid, completing the Master Promissory Note (MPN) when applicable and the Loan Request Form (LRF) by the payment due date (Friday of the first week of classes) for an amount that covers the entire balance due.
- Any combination of personal payments, installment payment plan and/or financial aid that covers the entire balance due.
- Personal payments may be made by a combination of personal check, cash, money order, cashiers check, electronic check and credit cards.

Payments drawn on foreign banks must be converted to U.S. dollars prior to transmittal to the university or payment must be remitted through the M3 system Western Union link. The student’s account number (campus ID number) should be included on all payments to ensure its application to the proper account.

Debts owed to the university are governed by the following policies:

- No credit for university work may be given to any student for a diploma, teacher’s license or transfer purposes until all debts to the university have been settled.
- Until a student’s account is paid in full, he/she will be ineligible for readmission or registration for a future semester.
- Upon recommendation of the director of the University Business Office and with the approval of the Assistant Vice President for Finance, students in debt to the university may be suspended from their classes or may be withdrawn.

Audit Fees and Internships

A student registering to audit a course or for an internship will pay the same tuition and fees as one who registers for credit.

Examination for Credit Fee

Arrangements for attempting credit by departmental examination may be made by paying a nonrefundable $25 fee to the University Business Office and presenting the receipt to the Office of the Registrar.

http://www.jmu.edu/catalog/14
Late Fee
As of July 1, 2009 the Commonwealth of Virginia has passed legislation requiring late fees to be placed on past due balances owed to the university. The mandatory late fee is 3% of the balance due.

Returned Check Fee
A $50 per check fee is assessed for checks returned unpaid to the university. If a check is returned, the University Business Office staff will notify the student by email. If the student does not make appropriate alternative payment as specified, the student’s class registration will be canceled and the student may be withdrawn from the university. The university will also hold the student’s records, future registration, transcripts, teaching license and diploma until the check is redeemed.

Service Fee
Electronic Student Account payments made by credit card through MyMadison or at UBO’s website will be assessed a service fee by the outside vendor. This fee is based on the total charges paid. The calculated amount is displayed separately, assessed at the time payment is made and cannot be refunded. There is no fee charged for electronic check payment.

Specialized Class Fees
Certain courses which use off-campus facilities have additional charges which will be determined at the time the course is offered. Certain courses may require additional fees.

Collection of Past Due Accounts
Financial Information and Disclosure Statement
Students are expected to access financial information through M3 in MyMadison. Failure to receive email notification of posted electronic billing statement is not a justification for granting immunity in financial matters. Failure to access available data through self-service access via MyMadison or to read and comply with university regulations will not exempt students from whatever financial penalties they may incur.

Course Cancellation
Failure to attend a course after registering is not justification for elimination of charges. A student must officially drop a course to qualify for a refund or release of charges by the drop/add deadline posted by the Office of the Registrar. Failure to pay will not release a student from the responsibility for these charges.

Outstanding Debts/Delinquent Accounts
Students with outstanding debts are denied any registration activity and access to an official transcript of their grades until all debts are paid in full. Student accounts are subject to the financial policies of James Madison University, as specified in the undergraduate catalog. Unless students resolve the debt, the university will advance the matter to the next step in the collection process.

Collection Activities
Once an account is 60 days past due, the delinquent balance is subject to transfer to a collection agency. At that point, repayment arrangements must be made directly with the collection agency, and the account holder is responsible for the additional fees associated with collection efforts. The fee associated with collection efforts are 33.33% of the outstanding balance, which is the standard and customary amount for the collection industry.

Collections in the Commonwealth of Virginia
The university pursues debt in accordance with the guidelines set forth by the Commonwealth of Virginia in the Virginia Debt Collection Act. Virginia state law requires that the university make every attempt to collect past due amounts owed to state agencies. If, after 60 days, full payment of a debt has not been received, the student account will be placed with a collection agency. Students are responsible for any collection fee incurred at a rate of 33.33% of the total due.

Students also risk tarnishing their credit rating and will be subject to further enforcement proceedings. Collection efforts are costly to the student. Avoid them by paying on time. Agencies charge the university a 33.33% fee that must be reimbursed by the student. Collection fees cannot be appealed. If a student finds that his/her account has been referred to a collection company, he/she should contact the company immediately to make payment arrangements. Additionally, the account can be listed by the Credit Bureau as a bad debt, a delinquent account can be collected in full from income tax refunds, lottery winnings, or other refunds due from the state, and the account may be turned over to the Virginia Attorney General’s Office for litigation. Timely payment is strongly encouraged so that collection efforts can be avoided.

University Agents
Todd, Bremer and Lawson, Inc.
Post Office Box 36788
Rock Hill SC 29732-0512
Phone: 1-800-849-6669
Fax: 1-803-328-5211

Williams and Fudge
Post Office Box 11590
Rock Hill SC 29731-6266
Phone: 1-800-849-9791
Fax: 1-803-329-0797

Setoff Debt Collection Act
Under the provisions of this act, an individual’s Virginia income tax refund or lottery winnings will be subject to the university’s claim for any unpaid balance of tuition and fees. Any communication disputing an amount owed must be submitted in writing to the director of the University Business Office.
Eligibility for In-state Tuition

Eligibility for in-state tuition charges is based on the provisions of Section 23-7.4 of the Code of Virginia in effect on the first day of classes for each term. Students who exceed the minimum number of credit hours required for graduation by 25 percent should refer to the UBO website for additional tuition charges. A link to the Code of Virginia guidelines can be found on the website of the Assistant Vice President for Finance and the University Business Office. This statute limits in-state tuition to those with Virginia domiciliary status. Domicile is defined as the "present, fixed home to which you return following temporary absences and at which you intend to stay indefinitely." If there is any question of the right to classification as a domicile of Virginia, it is the student's obligation, prior to the first day of classes for the semester, to raise the question with JMU administrative officials.

Restriction on In-state Tuition

In accordance with Virginia law, in-state students initially entering a Virginia public institution during or after the fall 2006 semester will be assessed a surcharge for any credit hours over 125% of their degree program requirements. Exceptions may apply when credit hours are required for an additional program.

Dependent Students

To qualify for in-state tuition, a dependent student or an unemancipated minor shall establish by clear and convincing evidence that, for a period of at least one year prior to the date of the alleged entitlement, the person through whom he/she claims eligibility was domiciled in Virginia and had abandoned any previous domicile, if such existed. A link to the Code of Virginia, as well as Residency Guidelines, can be found on the University Business Office website under the section "Residency Requirements."

Independent Students

The statute defines an independent student as one whose parents have surrendered the right to his or her care, custody and earnings; have ceased to support him/her and have not claimed him/her as a dependent on federal and state income tax returns for at least 12 months prior to the alleged eligibility.

To qualify for in-state tuition, an independent student shall establish by clear and convincing evidence that for a period of at least one year immediately prior to the date of the alleged entitlement, he/she was domiciled in Virginia and had abandoned any previous domicile, if such existed.

Domiciliary status shall not ordinarily be conferred by the performance of acts which are auxiliary to fulfilling educational objectives or are required or routinely performed by temporary residents of the commonwealth. Mere physical presence or residence primarily for educational purposes shall not confer domiciliary status. A matriculating student who has entered an institution and is classified as an out-of-state student shall be required to rebut by clear and convincing evidence the presumption that he/she is in the commonwealth for the purpose of attending school and not as a bona fide domiciliary.

Initial determinations of eligibility are made by the Office of Admissions (incoming first year students, re-entries and transfers) and The Graduate School (graduate students and continuing education and special students). Decisions on returning degree-seeking students are made by the director of the University Business Office.

To establish eligibility after entering JMU as an out-of-state student, an applicant must complete the reclassification form posted on the University Business Office website. For information on special provisions of Section 23-7.4, contact the Office of Admissions, The Graduate School or the University Business Office.

Once a student receives an initial determination of eligibility, he/she may appeal for a review of the application by contacting the office which made the decision. If there is any question of the right to classification as a domicile of Virginia, it is the student's obligation prior to or at the time of registration to raise the question with the administrative officials of James Madison University. Any party aggrieved by a final administrative decision shall have the right to petition within 30 days for a review by the Circuit Court of Rockingham County.

A change to in-state status may be made only when the completed application for reclassification form is received by the University Business Office prior to the first day of classes for that semester. Students are responsible for paying out-of-state tuition rates until in-state status has been approved.

Room and Board

Part-time students cannot purchase a housing contract without prior approval of the Office of Residence Life. Students residing in university housing, except university-sponsored apartments, automatically have a comprehensive 14-Plus Meal Plan included with their housing contract. Other resident meal plans are described in the JMU Student Handbook. Residents of university-sponsored apartments are only charged for the room portion of their housing contract. These students and commuter students may purchase one of several meal plans through Card Services in the Student Success Center on the second floor and can have the charge posted to their student account.

Any commuter contract purchased after the first week of classes is due immediately. A commuter contract must be purchased each semester.

If students arrive late by 10 or fewer days, their boarding fee will not decrease. The only exception, however, is lateness because of hospital confinement. If students are late because of seven-day or longer stays in the hospital, the university will consider adjusting the board fee. Contact Card Services in the Student Success Center on the second floor; (540) 568-6446 for additional information.
Refunds
Any overpayment of a student account can be either refunded or posted to a future semester as a payment. An overpayment created by a credit card payment must be refunded back to the credit card. All overpayments are refunded to the student except for Parent PLUS loans, which are refunded to the parent. All student refunds are processed through the university's vendor, Higher One. Each student has the option of receiving his/her refund through direct deposit to a current bank account, using a Higher One bank account or by paper check mailed to his/her home address. Selection is made when the student logs into the Higher One website at www.MyOneMoney.com and uses the unique number on the black Higher One card that he/she received in the mail. If a student has not received a Higher One card, he/she needs to contact the University Business Office at (540) 568-6505, by email ubo@jmu.edu or by going to the UBO’s office in the Student Success Center during regular business hours.
Parents who are eligible to receive a refund on their federal Parent PLUS loan will receive a paper check at the home address of record.
Students who officially withdraw from the university by the deadline for fall semester or by the deadline for spring semester will be refunded all tuition and fees except the tuition and room deposit.
Withdrawing after the end of this period will not reduce tuition charges. Board fees will be prorated from the dining hall opening date. After the deadline dates, refunds will be for only a pro rata share of the board fee. Room refunds will be made in accordance with the Residence Life refund schedule as stated in the current Residential Contract.
Students who withdraw from the university due to physical or mental health reasons certified by an appropriate health care provider or for unavoidable emergency or extenuating circumstances approved by the Dean of Students will be refunded a pro rata share of tuition, fees and board. Refunds for withdrawal from the university are calculated from last date of attendance as approved by the Dean of Students. Room refunds will be made in accordance with the Residence Life refund schedule as stated in the current Residential Contract.
For further information on withdrawal from the university, see the section Withdrawal from the University.

Room and Tuition Deposits
New Students
For new students, a deposit of $250 is required to confirm their acceptance of the offer of admission. When a student pays the deposit, the money is applied to the student’s account. The deadline for this deposit is May 1. Refunds after the stated deadlines will be made only for personal illness certified by a physician or other extenuating circumstances approved by the director of Admissions.

Returning Students
For returning students who want to live in university residential facilities, a signed room and board contract must be submitted online to the Office of Residence Life at http://www.jmu.edu/orl/rooms/index.html. A contract fee will be billed through the student’s financial account.

http://www.jmu.edu/catalog/14
Financial Aid, Scholarships and Student Employment

Scholarships, Grants and Loans

The Office of Financial Aid and Scholarships helps qualified students secure a financial aid package designed to meet their financial needs. An award package may consist of grants, scholarships, loans and work-study. Students interested in information on financial assistance programs should visit the financial aid website, contact the Office of Financial Aid and Scholarships at the above address or send an email to fin_aid@jmu.edu. The website includes a link to JMU Terms and Conditions for Financial Aid — Consumer Information, which provides information regarding general financial aid rules and required disclosures.

Application Procedures and Deadlines

All financial aid applicants must undergo a standardized federal “needs analysis” by completing the Free Application for Federal Student Aid (FAFSA). To receive priority consideration, it is essential that applicants ensure their FAFSA has reached the federal government by March 1 prior to the academic year for which they are seeking financial assistance. Failure to apply by the priority filing date may cause delays in receiving aid and can result in less attractive aid packages.

A student must complete a FAFSA before financial aid eligibility can be determined for the following sources of aid:

- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant
- Commonwealth Award
- Virginia Guaranteed Assistance Program
- Federal Subsidized Direct Loan
- Federal Unsubsidized Direct Loan
- Federal Perkins Loan
- Federal Parent PLUS Direct Loan
- Federal Grad PLUS Direct Loan
- Federal Work-Study Program
- Need-based JMU Foundation Scholarships
- University Grant

When students file the FAFSA, the federal processor calculates their Expected Family Contribution (EFC). The EFC is an estimate of the family’s ability to contribute to the student’s overall educational expenses for one year. JMU calculates the student’s financial “need” by subtracting the EFC from the Cost of Attendance (described later). Due to limited funding, grants are awarded to students who have the highest financial need, and in many cases to those who met the priority FAFSA filing date. Financial aid recipients must complete the FAFSA each school year. Amounts and types of assistance may vary from year to year. If funds are available, the Office of Financial Aid and Scholarships continues to assist students who meet the following conditions:

- Complete the FAFSA, with priority given to those who apply by the priority filing date of March 1, prior to the academic year for which they are seeking financial assistance.
- Meet general eligibility requirements for aid as defined by the FAFSA.
- Maintain Satisfactory Academic Progress (described later).

The financial aid office sends an electronic notification to students offered financial assistance by JMU. The aid notice has important information, so the recipient should follow all instructions to ensure the completion of required forms. Students can find consumer information regarding the financial aid process, including pertinent rules and regulations, through the financial aid website. If any of the information included in the financial aid package or award notification is incorrect, the student should immediately notify the Office of Financial Aid and Scholarships. Financial aid is awarded based on FAFSA information, as well as the student’s status at JMU (e.g., academic level, enrollment status and residency).

Parents of dependent undergraduate students may qualify for a Federal Parent PLUS Direct Loan. For those eligible to apply for the Parent PLUS, the financial aid office sends award notifications to parents with instructions for applying. The parent award notice does not include any information about student awards.

Federal and state regulations also require the Office of Financial Aid and Scholarships to consider any outside sources of assistance when awarding financial aid. These outside sources can be JMU scholarships, private scholarships, veteran’s benefits, tuition waivers, etc. The student’s financial aid package may fluctuate throughout the year based on changes in FAFSA information, JMU status or the receipt of additional aid. Financial aid notices are usually sent to returning students in early summer. New students may receive aid notices in the spring prior to enrollment.

Cost of Attendance

An important part of determining a student’s eligibility for financial aid is calculating a Cost of Attendance. In accordance with federal regulations, JMU has developed a Cost of Attendance (i.e., budget) for anticipated expenses a student may incur during the current school year. These expenses include tuition, room, board, books and supplies, travel and personal. Room and board can refer to either residence hall or off-campus living expenses, depending upon a student’s response on the FAFSA. Expenses are also considered for students who live at home with parents or relatives, but the Cost of Attendance is lower than for those living elsewhere. Travel expenses include items such as gasoline, vehicle maintenance and insurance. Personal expenses include laundry, clothing and entertainment. Many of the elements in the Cost of Attendance are estimates, so it is possible for a student to spend more or less than anticipated during any given year.
Satisfactory Academic Progress
Website: http://www.jmu.edu/financialaid/sap.shtml
In order to qualify for financial assistance, federal regulations indicate that a student must meet certain academic requirements as determined by the Office of Financial Aid and Scholarships. State, federal and some institutional aid programs are subject to the Satisfactory Academic Progress (SAP) policy. For a complete description of the policy, refer to the SAP website.

Understanding Satisfactory Academic Progress (SAP)
According to federal regulations, the Office of Financial Aid and Scholarships must ensure that students meet both qualitative (grade-based) and quantitative (time-related) requirements before certifying eligibility for financial aid. The term qualitative refers to grade point average (GPA). Quantitative components include both pace and maximum time. Refer to the pertinent sections below for a detailed description of each SAP component.

Students who have not completed the required number of hours or achieved the required cumulative GPA are not eligible to receive financial aid until such time that they meet the requirements. If extenuating circumstances contributed to students’ inability to meet SAP requirements, they may request reconsideration by submitting an Appeal Form with appropriate supporting documentation. This form is available on the SAP website at http://www.jmu.edu/financialaid/sap.shtml.

GPA Requirement
Students must fulfill GPA requirements as described by the academic suspension policy in the current JMU catalog. For more information, refer to “Academic Policies and Procedures.”

Pace Requirement
Undergraduate students must be making satisfactory progress toward degree requirements by earning passing grades in at least 80 percent of the classes attempted. The Office of Financial Aid and Scholarships includes transfer credits, course withdrawals, incompletes and use of the “repeat forgiveness” option in the calculation of attempted hours.

Maximum Time Requirement
Undergraduate students who have attempted more than 150 credit hours are not eligible for financial aid. The Office of Financial Aid and Scholarships includes transfer credits, course withdrawals, incompletes and use of the “repeat forgiveness” option in the calculation of attempted hours.

Evaluation Process
All undergraduate students who file a Free Application for Federal Student Aid (FAFSA) are subject to the SAP policy. Upon receipt of the results of a student’s FAFSA each year, the Office of Financial Aid and Scholarships will evaluate the student’s SAP status before awarding financial assistance. If students were unable to meet SAP requirements during their previous enrollment, they will receive notification regarding their area(s) of deficiency. Students who do not meet SAP standards cannot receive financial aid.

Appeals Process
If extenuating circumstances contributed to students’ inability to meet SAP requirements, they may request reconsideration by submitting an Appeal Form with appropriate supporting documentation. This form is available on the SAP website. Students who wish to appeal must do so by a prescribed deadline.

2014-15 Appeal Deadlines
- Summer 2014 – Monday, June 30, 2014
- Fall 2014 – Monday, September 8, 2014
- Spring 2015 – Monday, January 26, 2015

Students choosing not to appeal may become eligible for future assistance by attending without financial aid and resolving their academic deficiency.

Grants
Federal Pell Grant
Pell grants are generally awarded only to undergraduate students who are seeking their first bachelor’s degree and whose Expected Family Contribution (EFC) falls within the federally prescribed range.

Federal Supplemental Educational Opportunity Grant
SEOG is awarded to Pell-eligible students with the highest financial need as long as funds continue to be available.

Commonwealth Award
The Commonwealth Award is a need-based grant for Virginia residents who are seeking an undergraduate degree. The maximum award will not exceed the cost of tuition and fees. Awards will be made as long as funds are available, with priority given to those who met the FAFSA priority filing date.

Virginia Guaranteed Assistance Program
VGAP is a need-based grant for undergraduate, full-time, dependent, Virginia residents who graduated from a Virginia high school with at least a 2.5 GPA. The maximum award will not exceed the cost of tuition and fees and a $500 academic year allowance for books. Awards will be made as long as funds are available, with priority given to those who met the FAFSA priority filing date.

University Grants
These institutional grant programs are primarily available to undergraduate students. The FAFSA is used to determine each student’s need level, and grants are awarded accordingly. Awards are made as long as funds continue to be available.

Student Loans
Federal Perkins Loan
Perkins is a need-based federal loan, which is awarded to students with the highest financial need. The interest rate is fixed at five percent and the student does not begin repaying the loan until nine months after he/she graduates or drops below half-time status. Awards will be made as long as funds are available.
**Federal Direct Loan Program**

The Direct Loan (subsidized and unsubsidized) is a long-term, low-interest loan, for which undergraduate students may apply. Interest rates for Direct Loans disbursed on or after July 1, 2013 are as follows:

- Undergraduate Subsidized Direct Loans = 3.86%
- Undergraduate Unsubsidized Direct Loans = 3.86%

Once disbursed, this interest rate is fixed over the life of the loan. Interest rates on new loans will change on an annual basis each July 1st. Visit the financial aid website for up-to-date information and interest rates.

For a subsidized loan, the government will pay the interest while the student is in school. For an unsubsidized loan, the student can either pay the interest while in school or have it capitalized (i.e., added to the principle). Payments on the principle amount do not begin until six months after the student graduates or drops below half-time status.

Students must be making satisfactory academic progress and be enrolled at least half-time for the period covered by the loan. Each year, dependent undergraduate students may borrow up to $5,500 at the first-year level (no more than $3,500 subsidized), up to $6,500 at the sophomore level (no more than $4,500 subsidized) and up to $7,500 at the junior and senior levels (no more than $5,500 subsidized). Independent undergraduate students may borrow no more than $9,500 at the first-year level, up to $10,500 at the sophomore level and no more than $12,500 at the junior and senior levels. Dependent undergraduate students may not borrow more than $31,000 in Direct Loan funds during their undergraduate career (no more than $23,000 subsidized). Independent students may borrow no more than $57,500 during their undergraduate career (no more than $31,000 subsidized). For students who received prior Federal Stafford Loans at JMU or another institution, the career total is the sum of all Direct and Stafford Loans.

**Federal Parent PLUS Direct Loan**

Biological parents, adoptive parents or any stepparent of a dependent undergraduate student listed on the FAFSA may apply for a loan through the Parent PLUS Direct Loan program. The borrower must be a citizen or permanent resident of the United States. In addition, the student must be making satisfactory academic progress and be enrolled at least half-time for the period covered by the loan. A student must complete a FAFSA before Parent PLUS Direct Loan eligibility can be determined.

Parent PLUS borrowers may apply for an amount up to the Cost of Attendance minus any other financial aid received by the student for that academic year. The interest rate on the Parent PLUS is disbursed after July 1, 2013 is 6.41%. Once disbursed this interest rate is fixed over the life of the loan. Interest rates on new loans will change on an annual basis each July 1st. Visit the financial aid website for up-to-date information and interest rates. Interest begins to accrue on the date of the first loan disbursement. The first payment is due after the last disbursement for the loan period. Parents who wish to delay repayment on the PLUS loan should contact the Direct Loan Servicing Center.

**Alternative/Private Loans**

Some banks offer credit-based alternative loans to students and parents who either do not qualify for the Direct or PLUS Direct loans or cannot receive enough money through these loan programs to cover their educational expenses. Terms of these private loans vary. Undergraduate borrowers are typically required to have a credit-worthy co-signer. The financial aid office strongly encourages students and parents to exhaust other sources of aid before pursuing an alternative loan. Interested individuals may obtain more information about alternative loan options from the financial aid website.

**JMU Scholarships**

Website: [http://www.jmu.edu/scholarships](http://www.jmu.edu/scholarships)

Many scholarships for students are established through the JMU Foundation and individual university departments. Scholarships are awarded either through the Office of Financial Aid and Scholarships or by the appropriate college or division according to established criteria. Awards are based upon merit and/or need. To be considered for need-based scholarships, students must complete the FAFSA. For information on specific scholarships, students should visit the scholarships website.

**Private Off-campus Scholarships**

Private off-campus scholarships include those awarded to students by outside (non-JMU) organizations. These scholarships are credited to the student’s account upon receipt of the funds. If this type of scholarship is to be used to pay tuition and fees, the funds must be received prior to the payment due date for that semester. Mail all off-campus scholarship checks to:

- James Madison University Business Office
- Student Success Center
- Harrisonburg, VA 22807

The student is responsible for compliance with the provisions of the scholarship (i.e., grade reporting, verification of attendance, etc.).

**Virginia Tuition Waivers**

Website: [http://www.jmu.edu/financialaid/aidprog.shtml](http://www.jmu.edu/financialaid/aidprog.shtml)

Virginia Military Survivors and Dependent Education Program (VMSDEP)

This program provides eligible students, as confirmed by the Virginia Department of Veterans Services (DVS), with waiver of all tuition and mandatory fees at a Virginia public college or university. In addition, as funds are available, eligible students may receive a stipend to offset other educational expenses, such as room and board.

**Virginia Line of Duty**

Students whose parent or spouse was disabled or killed in the line of duty while employed or serving as a public safety officer or firefighter with the Commonwealth of Virginia or one of its political subdivisions shall be entitled to free undergraduate tuition and the payment of required fees under certain conditions.

http://www.jmu.edu/catalog/14
Student Employment
Website: http://www.jmu.edu/stuemploy

JMU employs both graduate and undergraduate students in academic, administrative or service-oriented areas. Students must be degree-seeking and enrolled on at least a half-time basis during the academic year to be employed in these positions. They receive payment for their services via direct deposit twice a month. Wages earned in student positions are not applied directly toward the cost of tuition; however, they serve as a source of income for weekly living expenses. There are three work programs at JMU.

Federal Work-Study Program
Federal Work-Study jobs are part of the financial aid package for students who demonstrate financial need as determined by their FAFSA. Students who are offered Federal Work-Study will need to apply and interview with employers to secure a position; however, employment is not guaranteed. These jobs provide a student with the opportunity to earn a paycheck throughout the year. The money earned through this program is not counted as income when the student applies for financial aid next year if the student reports FWS earned on the FAFSA.

Institutional Employment
Institutional employment positions are on-campus positions available to degree-seeking JMU students regardless of financial need. To obtain additional information concerning available on-campus positions, refer to JobLink at http://joblink.jmu.edu. There are approximately 2,000 Institutional Employment positions available on campus each year. Students may not work more than 20 hours per week in any on-campus position during the fall and spring semesters.

Off-Campus Part-Time Jobs
The Off-Campus Part-Time Job Program is designed to assist students in securing off-campus, part-time employment regardless of their financial aid eligibility. The program’s coordinator works with local employers to promote hiring JMU students and to assist with advertising their opportunities. Additionally, the program is centered on creating real-world experiences for students that will not only increase self-knowledge but also develop marketable skills that will provide a solid foundation for securing career options beyond graduation.

University Withdrawal
If students withdraw from the university, the University Business Office may adjust their charges based upon their withdrawal date and the JMU Refund Policy. For the university refund policy, refer to the University Business Office website at http://www.jmu.edu/ubo.

Regardless of any adjustment to a student’s charges, if he/she withdraws from the university, financial aid may be adjusted based on the percentage of the semester completed before withdrawal. In some cases, Federal Return of Title IV Funds regulations may require that aid be returned to the federal government for students who withdraw from JMU before 60 percent of a term has been completed. Financial aid is awarded for the entire term, which is generally a 15-week period during the fall and spring semesters. If a student does not complete the entire 15 weeks, then the Return of Title IV Fund rules will determine how much financial aid has been earned. In summer school, only the modules the student is scheduled to attend are used in the Reurn of Title IV Fund calculations. The student can keep the earned amount for the term, but the unearned portion must be immediately returned to the federal government. In some situations, this will leave the student with a balance owed to the university. Funds are returned to the federal government in the following order: Unsubsidized Direct, Subsidized Direct, Perkins, Grad PLUS, Parent PLUS, Pell and SEOG. For a sample calculation, see JMU Terms and Conditions for Financial Aid – Consumer Information at http://www.jmu.edu/finaid.

Additionally, the VGAP, Commonwealth Award, JMU Grant and University Grant programs follow the same Federal Return of Title IV Funds calculation when determine how much assistance a student is allowed to keep upon withdrawing from JMU.
Colleges of the University

Mission Statement
The College of Arts and Letters serves multiple vital needs of JMU students. First, it offers high-quality programs of specialized study in the social sciences, humanities and communication and in several pre-professional and cross disciplinary areas. Second, the college provides a challenging array of courses designed to promote lifelong learning by sharpening analytical abilities; improving computational and communications skills; cultivating a facility with written expression; enhancing cultural awareness, intensifying moral and aesthetic sensitivity and fostering awareness of the contingent nature of knowledge. Linking these two missions is a college-wide commitment to free but rigorous and controlled inquiry into human nature.

Goals
In addition to the special goals of each major, all programs in the college are committed to helping the students achieve the following common objectives:

- Improve foundational skills fostered by general education courses: writing, critical thinking, information access through technology and, where appropriate, foreign languages.
- Develop the ability to use writing to acquire knowledge and to communicate ideas effectively through writing-intensive courses required in the major.
- Enrich cultural perspectives essential to effective citizenship in the 21st century; global awareness and appreciation of American cultural diversity.
- Provide significant active-learning experiences through field courses, research projects, internships, studies abroad and simulations.

Majors and Minors
Students may select from a broad spectrum of major and minor programs in the seven departments and three schools. The departments and schools fully describe their programs in the “Academic Units” section.

Cross Disciplinary Activities
In addition to departmental majors and minors, the college offers a wide array of interdepartmental majors, minors, pre-professional programs, general education courses, annual events and supporting services, some of which reach out to the regional community. Information on cross disciplinary programs offered by the College of Arts and Letters may be found in the “Cross Disciplinary Programs” section.

Pre-professional Programs
Pre-law
Dr. Jessica Adolino, Coordinator
Phone: (540) 568-6413
Email: adolinjr@jmu.edu

Students who plan to apply to law school may select their major from a wide range of fields, depending upon their interests. The scope of the law is broad and offers room for individuals of varied educational and intellectual backgrounds.

Pre-theology
Dr. Iain S. Maclean, Coordinator
Phone: (540) 568-7059
Email: macleaix@jmu.edu

The pre-theology program prepares students to enter professional schools of religion (divinity schools, seminaries, theological schools). These professional schools prepare the student for a variety of careers, such as ministry, religious education and religious work with youth and others. The program at JMU will provide excellent preparation not only for acceptance at these schools but also for enriched professional training.

A student in this program may major in any field he/she chooses, although the American Association for Theological Schools recommends substantial pre-professional training in philosophy and religion. This professional accrediting agency also recommends a broad background in English language and literature; history (American and European); both the physical and the life sciences; the social sciences (particularly psychology, anthropology and sociology); biblical and classical (Greek and Latin) languages and, of course, religion, including the Bible, history of religious traditions and theology.

Resource and Service Centers
Archaeology Collection
Dr. Dennis Blanton, Coordinator
Phone: (540) 568-7390
Email: blantodb@jmu.edu

The archaeology collection contains artifacts dating from early in prehistory through the modern era that were excavated from numerous Virginia archaeological sites. It also includes an extensive library of site reports, field records, maps and artifact identification guides. Artifact study collections spanning the 12,000 year occupation of Virginia’s Ridge and Valley Province are being developed for teaching and research purposes. The collection is an important teaching and research asset of the Department of Sociology and Anthropology.

http://www.jmu.edu/catalog/14
The Center for Public Broadcasting’s mission is to inform, connect and engage communities through journalism, broadcasting and outreach. It serves over 50,000 listeners in the Shenandoah Valley, Charlottesville and Farmville areas.

The center comprises a network of non-commercial public radio stations, serving Harrisonburg at 90.7 FM, Charlottesville at 103.5 FM, Lexington at 89.9 FM and Winchester at 94.5 FM, and one standalone station, WEMC, serving Harrisonburg at 91.7 FM. The WMRA network stations are licensed to the James Madison University Board of Visitors. WEMC is licensed to Eastern Mennonite University, but is operated entirely by the center. Much of WMRA’s programming is rebroadcast by WMLU 91.3 FM, the station owned by Longwood University in Farmville, Virginia. WMRA and WEMC are members of National Public Radio, and are affiliated with Public Radio International and American Public Media. The stations broadcast 24 hours per day year-round, offering extensive in-depth news coverage and classical, folk, blues and jazz music. The center also operates Valley Voice Radio Reading Service for the print-impaired. Listeners and local businesses contribute nearly three-quarters of the center’s annual budget.

Center for Public Broadcasting/

Annual Events

Conference on Global Issues
Dr. Giuliana Fazzion
Phone: (540) 568-6068
Email: fazziongx@jmu.edu

The Department of Foreign Languages, Literatures and Cultures organizes a yearly conference on global issues, held in the spring. The conference brings together scholars and researchers from a variety of disciplines to address and assess specific global issues, issuing a call for papers in the fall on an announced topic. Proposals for papers, panels and workshops should be sent to the coordinator.

History Day
Dr. Steven Guerrier
Phone: (540) 568-6523
Email: guerrisw@jmu.edu

Each spring JMU hosts the regional competition for National History Day. The contest is open to students in grades six through 12, with categories including media presentations, performances and historical papers. Judging and comments are provided by professional historians. Winners at the state level participate in the National History Day Competition at the University of Maryland in June.

MadRush

The MadRush Undergraduate Research Conference features outstanding work by undergraduate humanities and social science majors. Held every spring, it attracts students from across the eastern United States and has become one of the largest humanities and social science undergraduate research conferences in the region.

Madison Writing Awards

Madison Writing Awards (MWA) is a university-wide biennial competition that celebrates writing across the curriculum in all undergraduate academic programs. Students are recognized for their achievements in an awards ceremony and through the online publication of their work. These awards reflect the commitment of the School of Writing, Rhetoric and Technical Communication and the College of Arts and Letters to prepare students for educated and enlightened global citizenship.

Visiting Scholars Program
Prof. Dietrich Maune
Phone: (540) 568-6472
Email: maunedx@jmu.edu

The Visiting Scholars Committee organizes campus visits during the year by 12-15 people who have made significant contributions in their fields. The scholars, who represent a wide variety of disciplines, expose students and faculty members to different perspectives and encourage intellectual exploration. During a visit, a scholar meets with at least one group of students in a class or informal setting and gives a public presentation and discussion of his/her work.

Mission Statement
The JMU College of Business is a learning community committed to excellence in:
- preparing students to be engaged, principled business professionals and leaders;
- advancing scholarship in business disciplines; and
- enhancing organizational performance through our outreach activities.

Vision Statement
To be regarded as a leader in preparing collaborative business partners engaged with ideas and the world.

Values
**Integrity:** We are a community dedicated to honesty, mutual respect, ethical reasoning and responsible behavior.

**Intellectual Growth:** We value academic excellence achieved through the intellectual curiosity and growth of both faculty and students, and through the creation and maintenance of a challenging and rigorous learning environment that encourages critical thinking and life-long learning.

**Community:** We value a supportive, inclusive culture where diverse ideas, backgrounds, and experiences strengthen our community, contributing to a global and multi-cultural mindset.

**Engagement:** We value an engaged, active learning environment inside and outside the classroom. We enrich the student experience through mutually beneficial internal and external relationships.

**Innovation/Collaboration:** We value initiative, creativity, collaboration and entrepreneurial spirit. We promote new ideas and solutions that advance intellectual growth and have a positive impact.

Overview
The College of Business offers baccalaureate degree programs leading to a Bachelor of Business Administration (B.B.A.), a Bachelor of Arts (B.A.) and a Bachelor of Science (B.S.). All degree programs offered by the College of Business are accredited by AACSB International – The Association to Advance Collegiate Schools of Business. The following academic majors are offered as a B.B.A.: accounting, computer information systems, economics, finance, international business, management and marketing. Students may also earn a B.A. or B.S. in economics. Quantitative Finance is offered as a B.S. degree. The B.B.A. degrees essentially require the same general structure consisting of the four components shown below:
- General Education component
- B.B.A. core component
- Major component
- Non-business electives component

General Education Component
General Education is required of all students regardless of their major or professional program. While much of the general education component of a student's baccalaureate program is completed during the first two years of study, a student has four years to complete this component. Typically, students complete their General Education course requirements during their last two years of study.

B.B.A. Core Component
B.B.A. majors must complete all of the B.B.A. core components as part of their degree program. The following courses comprise the B.B.A. Lower-Level Core Component:

- COB 191. Business Statistics (3 credits)
- COB 202. Interpersonal Skills (3 credits)
- COB 204. Computer Information Systems (3 credits)
- COB 218. Legal Environment of Business (3 credits)
- COB 241. Financial Accounting (3 credits)
- COB 242. Managerial Accounting (3 credits)
- COB 291. Introduction to Management Science (3 credits)
- ECON 201. Principles of Economics (Micro) (3 credits)
- MATH 205 or 235. Introductory Calculus or Calculus with Functions (3-4 credits)

The following courses comprise the B.B.A. Upper-Level Core Component:

- COB 300A. Integrated Functional Systems: Management (3 credits)
- COB 300B. Integrated Functional Systems: Finance (3 credits)
- COB 300C. Integrated Functional Systems: Operations (3 credits)
- COB 300D. Integrated Functional Systems: Marketing (3 credits)
- COB 487. Strategic Management (3 credits)

1 MATH 220 may be substituted for COB 191 if MATH 220 was taken prior to declaring a B.B.A. major at JMU.
2 COB 241 must be completed before COB 242 is taken.
3 COB 191 and MATH 205 or MATH 235 must be completed before COB 291 is taken.
4 Calculus is required but not used in calculating the B.B.A. core GPA.
5 All four COB 300 courses must be taken during the same semester.
6 COB 487 must be taken during the senior year.

Major Component
The eight academic majors offered by the College of Business consist of 24-33 credit hours. Students pursuing a B.B.A. degree may take major courses after being formally accepted into the college and after they have enrolled/completed COB 300. The major program component of the B.B.A. degree is designed to be completed in three traditional semesters after COB 300. Students should plan their course work with that timetable.

Acceptance into the College of Business permits a student to enroll in COB 300 and to be formally accepted as a business B.B.A. major. However, some majors in the college may impose standards that exceed those of the college as a whole. A student must meet both the College of Business requirements and the requirements of the major in which he/she seeks to enroll. Refer to the appropriate sections of the catalog for specific degree requirements for the individual majors in the College of Business.

http://www.jmu.edu/catalog/14
Non-business Elective Component
The B.B.A. degree requires a minimum of 120 credit hours of undergraduate course work. Fifty percent of this work, 60 credit hours, must be taken outside of the College of Business. In counting the 60 credit hours of non-business courses, B.B.A. students may include all hours taken in general education (usually 41), up to nine hours of economics courses (including GECON and ECON) and three hours of COB 191. The remaining hours, to bring the total to 60, must be taken from any academic unit outside the College of Business. Students should carefully select these non-business electives to help them gain additional knowledge and expertise for their careers and personal lives.

Recommended Course Sequence
In order to remain on a four-year graduation track, students should follow the recommended course sequence below:

Courses to be Completed During the First Year
- COB 191. Business Statistics (3 credits)
- COB 201. Computer Information Systems (3 credits)
- ECON 201. Principles of Economics (Micro) (3 credits)
- GECON 200. Introduction to Macroeconomics (3 credits)
- MATH 205 or MATH 235. Introductory Calculus or Calculus with Functions (3-4 credits)

Courses to be Completed During the Sophomore Year:
- COB 202. Interpersonal Skills (3 credits)
- COB 218. Legal Environment of Business (3 credits)
- COB 241. Financial Accounting (3 credits)
- COB 242. Managerial Accounting (3 credits)
- COB 291. Introduction to Management Science (3 credits)

Progression Standards for the College of Business
Admission to the College of Business and COB 300
Any student admitted to JMU can declare any major offered by the College of Business. However, students are not formally accepted into the College of Business until certain requirements are met. Students are formally admitted into the College of Business as a B.B.A. major at JMU.

The B.B.A. core GPA is calculated using grades earned in the B.B.A. lower-level core excluding calculus (MATH 205 or MATH 235). Only grades earned at JMU will be used. The university policy for calculating repeat-credit and repeat-forgive will be followed.

Students with a 2.7 B.B.A. core GPA are assured admission into the College of Business and COB 300. Students who meet all of the requirements above but fail to achieve a 2.7 B.B.A. core GPA will be admitted to the College of Business and COB 300 based on B.B.A. core GPA, pending resource and space availability.

Consult with the major department for further progression requirements in the specific degree programs.

1 Requirements for admission into the College of Business are effective based on when a student intends to enroll in COB 300. Students are advised to consult the College of Business Academic Services Center for current requirements.

Declaration of a Business Major or Minor
JMU students pursuing a major outside the College of Business who wish to change their current major to a B.B.A. major in the College of Business must be in good academic standing at the university on the date they submit a “Change or Declaration of Major” form. This policy affects students desiring to change their major to one of the following: accounting, computer information systems, economics (B.B.A. degree only), finance, international business, management and marketing. Likewise, JMU students pursuing a major outside the College of Business who wish to declare a minor within the College of Business must also be in good academic standing at the university at the time they declare the minor. The following business minors are open to all JMU students: Chinese business studies, economics and business analytics. A minor in computer information systems is open to select majors.

Business as a Second Major
A student enrolled in any JMU degree program other than the B.B.A. program who wishes to select a B.B.A. major field (i.e., accounting, computer information systems, economics, finance, international business, management or marketing) as a second major must complete the following courses:
- All B.B.A. core courses, as shown above; and
- All requirements specific to the major selected.

Transfer Credit Policy
AACSB International-accredited colleges of business generally allow only a limited amount of business course work prior to the junior year. Because of that restriction, accredited colleges are required to detail a process for accepting transfer courses. To meet that requirement, the JMU College of Business has established the following transfer credit policy: The College of Business normally does not award transfer credit for courses that were taken at the 100 or 200 level if those courses are offered at the 300 or 400 level at JMU. If a transfer student wishes to receive credit for such a course, the following steps must be taken:

1. The student must present the course syllabus and appropriate course materials to the department head of the relevant academic program in the JMU College of Business.

http://www.jmu.edu/catalog/14
2. The department head must determine that the course covers material similar to that covered at JMU. If the material is not deemed sufficiently similar, then the student must take the course at JMU. This decision is final and may not be appealed.

3. If the material is considered sufficiently similar, the student may take a comprehensive examination covering the JMU course material and must pass it with at least a grade of 70 percent, or the student may choose to complete the course itself.

4. If the student passes the comprehensive examination, the academic unit director will report that result to the College of Business Academic Services Center, which will prepare a course substitution form.

Additionally, each academic program in the College of Business will accept no more than two courses for transfer credit toward the major. The major is defined as the course work required by a major field of study in addition to the lower- and upper-level B.B.A. core courses. For a course to be considered for acceptance in the student’s major, it must have been completed in an AACSB International-accredited business program at a four-year university. Certain majors within the College of Business may have more restrictive policies on transfer credit. Those policies are explained in later sections of the catalog.

The JMU College of Business prescribes that at least 50 percent of the business credit hours required for the B.B.A. degree be earned at JMU. Specifically, this statement means that no fewer than 28 of the required credit hours in the College of Business be completed at JMU. Required credit hours include the B.B.A. Core and the courses required for the major. The following B.B.A. core courses do not count toward meeting this requirement: COB 191, ECON 201 and GECON 200.

Individual academic programs in the College of Business may have transfer credit limitations in addition to this overall requirement. Refer to the specific academic major.

Internships for Business Majors

Students with majors in the College of Business are encouraged to participate in at least one formal business internship prior to graduation. Most commonly, students serve as interns in business organizations during the summer between their junior and senior years, but internships are not restricted to that period of time.

In some cases, students may receive academic credit for internships. In such cases, the maximum amount of credit that may be obtained is three credit hours. The minimum requirements for such academic credit are the following:

- The student must have at least junior standing.
- The internship must be approved in advance by the Faculty Internship Coordinator and the department head in the student’s major, and the student must be registered for the class credit during the internship experience.
- The intern must complete a minimum of 200 hours of work experience.
- The intern’s immediate supervisor must submit at least one performance evaluation to the Faculty Internship Coordinator.
- The intern must submit a final written paper and participate in an exit interview with the Faculty Internship Coordinator.

- Internships in more than one program are permitted. However, double counting (i.e., receiving credit for a single internship experience in more than one major) is not permitted.

Some majors in the College of Business may have higher requirements than these minimum standards.

Computer Competency Requirements

All students majoring in the College of Business must be able to use current information technology tools and demonstrate the ability to learn new tools as part of their preparation for the professional world. Many business courses help students develop basic information technology skills in such areas as spreadsheet analysis, database management and Web page development. However, course work alone cannot provide students with the level of proficiency needed by employers and graduate schools. Consequently, students must take personal responsibility for developing their skills beyond the basics taught in various classes.

Personal Computers

Many courses in the JMU business curriculum make extensive use of computers and software. Students are given hands-on experience in using computer technology to solve complex business problems.

Computer labs are conveniently located in several academic buildings and residence halls. These labs are intended for quick, short-term use by students as an adjunct to their class time. Relying solely on the labs for lengthy or complex assignments, however, is unrealistic; therefore, students should make arrangements to have their own personal computers outside the university-provided labs.

Since computers are essential in today’s business environment, students with majors in the College of Business are strongly encouraged to purchase their own personal computers. Computers are available at discount prices from the university bookstore; however, computers meeting the recommended configuration may be purchased from many retail and internet sources. Various vendors also provide rental and leasing programs. Because technology is continually advancing, students should consult http://www.jmu.edu/computing/purchase/dept.shtml to obtain the latest specifications on recommended minimum hardware configuration.

College of Business Academic Programs

Chinese Business Studies Minor

The Chinese business studies minor can be completed by taking one Chinese language course, POSC 371 (Topics in Comparative Politics), HIST 341 (Selected Themes in World History), IBUS 298 or IBUS 498 – I (Business Environment in China and Southeast Asia), IBUS 298 or IBUS 498 – II (Chinese Business Operations), and MKTG 380 (Principles of Marketing). Note that business majors will take COB 308D rather than MKTG 380.

http://www.jmu.edu/catalog/14
MKTG 380 (or COB 300D) will be taken at JMU. The other five courses will be taken in conjunction with the JMU Study in China Program, and will be taught by professors or instructors from Chinese universities. Students in this minor will:
- Become aware of China's history and culture.
- Learn about China's political, social and economic systems.
- Become familiar with China's government, and business operations.
- Understand China's economic role in Asia and the world.

European Business Concentration
The European business concentration can be completed by taking COB 300A-D (Integrated Functional Systems: Management, Finance, Operations, Marketing–12 credit hours) and COB 301 (European Integration, Culture and History–3 credit hours) in Belgium as part of the Semester in Antwerp program. These two courses will be taught in the context of the European Union and, as a part of the curriculum, students will visit and study European businesses (e.g., European high-tech startup companies, businesses in the Port of Antwerp) and the institutions that comprise the European Union (e.g., the Council of Europe, the European Parliament). In addition, students will visit business, governmental and cultural institutions in such countries as France, England, Germany, Luxembourg, Norway, the Netherlands, Austria and others, depending on which semester the student goes abroad. Students in this concentration will:
- Acquire an in-depth understanding of the European business environment.
- Learn about the institutions of the European Union.
- Gain an understanding of the issues surrounding economic and monetary union.
- Apply the integrated functional systems to the European market.
- Understand the role of culture in conducting business in Europe.

This concentration is only available to students who complete COB 300 and COB 301 with the Semester in Antwerp program.

General Business Minor
The general business minor is only available to students who declare and complete one of the following majors: chemistry, engineering, health services administration, hospitality management, physics or sport and recreation management. Students should submit a declaration of minor form to the College of Business Academic Services Center (Zane Showker Hall 205) to officially declare the general business minor.

The following courses must be successfully completed with a minimum 2.00 grade point average in order to graduate with the general business minor:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTG 244. Accounting for the Non-Business Major</td>
<td>3</td>
</tr>
<tr>
<td>COB 204. Computer Information Systems</td>
<td>3</td>
</tr>
<tr>
<td>ECON 201. Principles of Economics (Micro)</td>
<td>3</td>
</tr>
<tr>
<td>FIN 345. Finance for the Non-Financial Manager</td>
<td>3</td>
</tr>
<tr>
<td>MGT 305. Management and Organization Behavior</td>
<td>3</td>
</tr>
<tr>
<td>MKTG 380. Principles of Marketing</td>
<td>3</td>
</tr>
</tbody>
</table>

1 Engineering majors may substitute ENGR 221 and ENGR 322 for MGT 305.

Matriculated JMU students may only take one minor course for transfer credit. Students who plan to take a course for transfer credit should complete the Permission to Take Courses for Transfer Credit form, including all signatures, prior to registering for the course elsewhere.

Mission Statement

The mission of the James Madison University College of Education is to prepare educated and enlightened individuals who can skillfully contribute to the common good of society and who can enter competently into positions of teaching and educational leadership, civic responsibility, and national service. The personal and professional development of students is accomplished by emphasizing excellence and continuous innovation in quality undergraduate, graduate and professional programs.

The College of Education is distinguished through faculty and student achievements, academic rigor, excellence in teaching, student and faculty interactions and relationships, technological innovations, and national recognitions. The college maintains relevance through active and growing interactions with other colleges within the university and with local, state, regional, national and international communities.

The college is committed to providing:

- Undergraduate programs that are composed of or complemented by strong liberal arts preparation, in-depth specialty studies and opportunities for students to develop professional knowledge and skills.
- Graduate programs that support initial teacher licensure emphasizing advanced knowledge in a specialty area and the development of effective leadership and professional skills for addressing the needs of a changing society.
- Continuing professional development and in-service programs in cooperation with public and private schools and agencies, other colleges, institutions, and businesses.

The undergraduate and graduate education programs are accredited by the National Council for Accreditation of Teacher Education and approved by the Virginia State Board of Education.

The basic philosophy of the college is reflected in these goals:

- To educate men and women for the multiple professions included in the college at both the undergraduate and graduate levels, not merely by transmitting skills and knowledge but by stimulating creativity, developing cognitive abilities and encouraging the testing of hypotheses and reinterpretation of the human experience.
- To encourage a balanced faculty orientation toward teaching, research, scholarship, community service and professionalism that recognizes individual strengths and preferences of the college's faculty.
- To create an environment that fosters an atmosphere of open communication among students, faculty members and community.
- To anticipate societal needs and provide necessary resources for implementing effective off-campus programs now and in the future.

The college has undergraduate and graduate programs that are designed to lead to majors and minors in pre-professional education, initial teacher licensure, advanced programs for teachers, educational leadership, adult education, human resource development and military science.

The college is organized into five departments:

- Department of Early, Elementary and Reading Education
- Department of Educational Foundations and Exceptionalities
- Department of Learning, Technology and Leadership Education
- Department of Middle, Secondary and Mathematics Education
- Department of Military Science

Programs and Licensure

The College of Education offers undergraduate minors and pre-professional education programs across a range of concentrations in both teaching and non-teaching areas. Students who wish to pursue a teacher licensure program complete a major in one of several approved fields of study, in addition to an undergraduate pre-professional education program.

With the exception of the four-year Teaching English to Speakers of Other Languages, teacher licensure programs in the College of Education are completed during a fifth year Master of Arts in Teaching (MAT) program.

Advisement

Inclusive Early Childhood, Elementary and Middle Education

Students interested in inclusive early childhood (early childhood education and early childhood special education), elementary, or middle education major in Interdisciplinary Liberal Studies (IDLS) and complete a pre-professional education program for their specific teacher licensure area.

Each IDLS major is assigned two advisers. One adviser is the education adviser who guides the student through the specific pre-professional program requirements. The other adviser is the IDLS adviser who will guide the student through the IDLS major requirements.

An initial education adviser is assigned when the student declares the licensure program. This is typically done during a student’s second semester of the first year at JMU. Once a student has completed all the requirements for admission into teach education (typically during the first semester of the sophomore year), the education program adviser is assigned. The IDLS adviser is assigned when the first year student advising folders are transferred to the IDLS office (second semester, first year). Students are expected to check with advisers regularly to ensure timely graduation.

Teaching English to Speakers of Other Languages and Special Education

Students interested in Teaching English to Speakers of Other Languages (TESOL) or special education may major in IDLS but have the option to select majors that will provide the needed preparation for their selected pre-professional education program. Students choosing to enroll in the TESOL program often major in modern foreign languages, while students pursuing the field of special education, may major in psychology. Students enrolled in the TESOL or special education licensure programs are assigned two advisers. One adviser is the education adviser who guides the student through the specific pre-professional program requirements. The other adviser is the major adviser who will guide the student through the major requirements.

Typically, the education adviser is assigned when the student declares the licensure program. This may be as early as the second semester of the first year at JMU. The major adviser is assigned when the first year student advising folders are transferred to the major departments (second semester, first year). Students are expected to check with advisers regularly to ensure timely graduation.

Secondary Education

Students seeking licensure in secondary education major in the subject area in which they wish to become licensed (i.e., biology, history, chemistry, etc.) and complete a pre-professional licensure program in secondary education at the undergraduate level.

http://www.jmu.edu/catalog/14
Students enrolled in a secondary education licensure program are assigned two advisers. One adviser is the education adviser who guides the student through the specific pre-professional program requirements. The other adviser is the major adviser who will guide the student through the major requirements. Students should plan on consulting both advisers regularly. Typically, the education adviser is assigned when the student declares the licensure program. This may be as early as the second semester of the first year at JMU. The major adviser is assigned when the first year student advising folders are transferred to the major departments (second semester, first year). Students are expected to check with advisers regularly to ensure timely graduation.

Licensure Programs
The College of Education offers the following pre-professional licensure programs:

- Inclusive Early Childhood Education (Early Childhood Education and Early Childhood Special Education)
- Elementary Education
- Middle Education
- Secondary Education
- Special Education (K-12 General Curriculum)
- Teaching English to Speakers of Other Languages (ESL K-12) (can be completed at undergraduate level)

The College of Education offers the following undergraduate minors:

- Educational Media
- Human Resource Development
- Military Leadership

The following endorsements are also available:

- Algebra I
- Gifted and Talented
- Journalism

Undergraduate students pursuing licensure to teach by completion of the graduate M.A.T. programs described in this catalog should:

- Meet requirements indicated by the respective program prior to submitting an application to The Graduate School.
- Apply for admission to The Graduate School according to departmental deadlines.
- Complete all pre-professional studies requirements before enrolling in graduate courses in education.

See the JMU Graduate Catalog for more information on the requirements for the M.A.T. and the M.Ed. degrees and for teacher licensure in the identified areas.
Professional Education Unit

Dr. Phillip M. Wishon, Head

The mission of the James Madison University professional education unit is to prepare caring, knowledgeable, skilled and reflective educators who believe that all students can learn and succeed. Our candidates and faculty are committed to lifelong learning and aspire to meet educational needs in a changing, pluralistic and democratic society. The personal and professional development of candidates is accomplished by emphasizing excellence and continuous innovation in quality undergraduate, graduate and professional programs. The Professional Education Unit is comprised of all programs across the university designed to lead to licensure or advanced study in education. The initial teacher licensure programs of the unit include the following:
- Art Education
- Dance Education
- Inclusive Early Childhood Education (Early Childhood Education and Early Childhood Special Education)
- Elementary Education
- Foreign Language Education
- Middle School Education
- Music Education
- Physical Education
- Special Education K-12
- Teaching English to Speakers of Other Languages (TESOL)
- Theater Education

These initial licensure programs are offered at the undergraduate level:
- Art Education
- Dance Education
- Music Education
- TESOL (ESL)
- Theater Education

These initial licensure programs are offered at the graduate level for those having baccalaureate degrees:
- Early Childhood Education
- Special Education: Birth-Age 5 (ECSE)
- TESOL
- Middle School Education
- Physical Education
- Secondary Education
- Special Education K-12

Advanced programs are offered at the graduate level for licensed teachers or other school personnel:
- Educational Leadership
- Educational Technology
- Master of Music
- Master of Art Education
- Special Education
- Mathematics
- Mathematics Specialist K-8
- Reading Education
- School Counseling
- School Psychology
- Speech-Language Pathology

Professional Education Coordinating Council

The Professional Education Coordinating Council (PECC) is the official governing body within the university responsible for the preparation of teachers and other school personnel. The membership of the PECC includes the coordinators or representatives of all initial licensure and advanced study programs in education, a representative from the IDLS major, the director of assessment and the directors of the Education Support Center and the Educational Technology and Media Center. The Dean of the College of Education serves ex officio as head of the Professional Education Unit. The Associate Dean of the College of Education serves as the chair of PECC.

Teacher Education Conceptual Framework

The JMU conceptual framework is a guiding set of principles, beliefs, and concepts that provide a basis for designing, implementing, monitoring, assessing, and changing programs that prepare teachers and other educators who work closely with children and others in school settings. The overarching purpose, therefore, is to produce resilient, effective educational professionals for a dynamic and changing society. The JMU Conceptual Framework is grounded in the best of what we know about learning, teaching, and development, and is further based on a moral mission; that is, the work of teachers affects the lives of human beings. In a human sense, it makes a difference in people’s lives; in a larger sense, education contributes to societal development and democracy.

The conceptual framework reflects our recognition that teaching is a complex and difficult task, requiring a significant degree of education, preparation, and experiences in order to meet the learning needs of all children, regardless of age, culture, condition or ability. The programs at JMU rely on collaborative partnerships with schools and other community agencies, strong field-based teacher development, a continuum of skills development and reflective professional practice. Program completers, therefore, should be skilled and adept in a set of competencies that are based on the propositions found in the Conceptual Framework. These competencies include demonstrating:
- Certain personal qualities and dispositions reflective of a professional educator.
- Deep understanding of the content to be taught and ways to effectively teach the content.
- An understanding of the impact of research on learning and development and how culture influences development.
- An understanding of how students differ in approaches to learning and creating instructional opportunities for diverse learners.
- Skill in effective planning for learning.
- Skill in a wide variety of instructional strategies and technologies.
- Skill at creating positive, effective learning environments.
- The use of effective verbal, non-verbal, and media techniques that foster inquiry, collaboration, and positive interactions.
- Skill in a variety of effective assessment techniques.
- The ability to reflect on practice, adjust teaching methods and techniques, and seek professional growth.
- Skill in developing positive relationships with parents, colleagues and families.

http://www.jmu.edu/catalog/14
Teacher Licensure Programs

Students interested in teacher licensure will major in an academic field and complete all of the requirements for the teacher education program. Depending on the field of study, initial licensure is earned at the bachelor or master’s level. The following chart describes the licensure areas, degree required, major field of study and academic unit for students who will enroll in their licensure programs as undergraduates.

2 Program is under revision

Education Support Center

Dr. Maggie Kyger, Associate Dean
Website: http://www.jmu.edu/coe/esc

The Education Support Center (ESC) has four major responsibilities for assisting students with their pursuit of a teaching license:
- Monitor admission to, and retention in, the professional education program;
- Coordinate field experiences for all programs;
- Approve applications for Virginia Licensure; and
- Serve as the center for information about professional education programs.

Information and application materials for admission to teacher education, appeals, registration for PRAXIS exams, student teaching and licensure are available on the Education Support Center website. Also on the website is information regarding costs associated with required tests and subscriptions to Tk20.

Admission to Teacher Education

Candidates who want to pursue a course of study leading to the initial Virginia teaching license must be admitted to the teacher education program. Admission is a prerequisite to most education courses; candidates not admitted to teacher education will be blocked from registering for those courses.

Deadline

Freshmen are expected to apply to Teacher Education by April 15th of their freshmen year and complete all admission requirements in order to enroll in required education courses. Undergraduate candidates must complete all teacher education admissions requirements by the first day of registration for the semester in which they want to enroll in required education course work.

Transfer, post-baccalaureate and graduate candidates should apply during the first term of enrollment at JMU.

Students can check the status of their admission to the teacher education program online at the ESC website at http://www.jmu.edu/coe/esc.
Field Experiences
Field experiences (including practica and internships) are required for candidates in all programs of the professional education unit. The number and nature of these experiences may differ based on program structure and candidates’ individual needs and/or goals. Transportation and other arrangements for the practicum and internship courses/experiences will be the candidate’s responsibility.

Student Teaching
Student teaching is required as an integral part of the sequence of professional experiences in all teacher education programs. Its purpose is to enable pre-service teachers to apply acquired skills, understandings and attitudes in K-12 classrooms or comprehensive child development programs. Each individual licensure program determines the length of its particular student teaching experience. The Education Support Center coordinates the student teaching program with participating school divisions, assigning all candidates to their student teaching sites and assisting in the planning and supervision of their work. Experienced teachers serve as cooperating teachers who coach and mentor the student teachers in their classrooms. University supervisors have the major responsibility for the supervision and evaluation of student teachers. Student teaching is graded on a credit/no-credit basis.

Candidates must student teach in the area for which they are seeking licensure or endorsement. A candidate enrolled in multiple teacher licensure programs must complete a student teaching experience in each area.

Student teaching placements are made in accredited Virginia public and private schools, programs, and agencies. Most placements are made within approximately one hour’s driving distance from campus. Some programs also place students in northern Virginia, Richmond and/or Tidewater, and Roanoke. Other local and non-local placement sites may be assigned in accordance with individual program and/or student needs. All placements are based on availability and efficiency of appropriate supervision.

Student teaching is a full-time experience. Permission to take additional course work other than that required by the program will be made only in exceptional cases. Student teachers should not expect to work or participate in excessive extracurricular activities during student teaching. Students with problems and/or special needs must contact the Director of the Education Support Center for prior approval.

Opportunities exist for qualified candidates to complete a portion of their student teaching at international locations. Those interested in pursuing this option must meet additional requirements and have permission of their programs at time of application to student teach. Refer to the ESC website for additional information at http://www.jmu.edu/coe/esc.

Admission Criteria
The requirements for admission to teacher education are listed below. Note: Some teacher education programs may have additional requirements for acceptance into their own programs. Consult the program area coordinator for more specific information.

</tr>
<tr>
<td>Specific program requirements</td>
<td>X</td>
<td></td>
</tr>
</tbody>
</table>
Licensure Criteria
A statement indicating completion of an approved teacher education program will be entered on the candidate’s transcript once:
- all education requirements have been met, including a cumulative 2.5 GPA for undergraduates and a 3.0 for graduates,
- an appropriate degree is awarded, and
- passing scores on all state mandated assessments are achieved.

Out-of-State Licensure
It is recommended that candidates applying for out-of-state licenses first obtain the Virginia license. Out-of-state licensure requirements and application forms must be obtained directly from the desired state agencies. Note: Other states may have additional testing and GPA requirements that the applicant must meet.

Educational Technology and Media Center
Dr. Richard G. Clemens, Director
Phone: (540) 568-6302
Website: http://www.jmu.edu/coe/etmc/
The primary goal of the Educational Technology and Media Center (ETMC) is to support students, faculty and staff in their effective use of technologies for learning. This goal is achieved through access, instruction and promotion of educational technologies available within the center.
ETMC houses more than 5,000 items including K-12 textbooks, DVDs and videotapes, software, and a variety of other instructional resources. The center houses the children and youth literature collection of James Madison University totaling more than 15,000 volumes.
Computers throughout the facility allow students to work with computer-assisted instruction, web page creation, word processing, digital images, analog and digital video, page layout, data analysis, and the creation of multi-media computer presentations. The growing capabilities in instructional technology are evident in this center where interactive video conferencing, video-streaming and other newly emerging technologies expand the potential for learning in multiple environments. Faculty also have access to mobile carts housing laptops, iPads and other mobile device technologies for use in their instructional practice.
For students desiring licensure in Virginia’s schools, ETMC provides opportunities to learn and use many forms of instructional technology. ETMC has a range of production facilities including traditional media, audio and video editing areas, and digital technologies that enable students and faculty to produce a wide variety of instructional materials. College of Education students may also check out digital cameras, camcorders and audio recorders for their instructional practice.

Mission, Vision and Values

Mission
We engage students, faculty and communities in learning, scholarship and service in health and behavioral studies to inspire responsible contributions to our world.

Vision
CHBS aspires to excellence in discovery and real-world impact on the health and well-being of individuals and communities that we serve.

Values
We promote and support departments, programs and initiatives that advance a culture of excellence and uphold the following values:

Scholarship & Professional Development
We participate actively in research and continual professional development.
- Research refers to systematic examination of phenomena using scientific methods and includes the Scholarship of Teaching and the Scholarship of Learning as well as:
  - Basic Research—leads to understanding of fundamental questions.
  - Applied Research—relates basic research to find solutions to everyday problems.
  - Translational Research—relates basic research to professional applications that enhance human health and wellbeing in a multi-disciplinary environment.
- Professional Development includes activities designed to enhance professional knowledge and skills.

Innovation
We pursue creative approaches/trends that strive toward new and effective solutions, while respecting successful traditions and established best practices.

Diversity
We appreciate that salient differences exist among and between peoples, programs, disciplines and professions and that such differences include—and influence—values, beliefs, interests, and worldviews.

Engaged Learning
We raise and respond to questions with a spirit of active inquiry and discovery, both individually and collectively; engage in reflective-active approaches to new information for problem-solving; develop lifelong learning skills.

Integrity
We act in a manner consistent with stated personal, professional, stated college values.

Service
We contribute expertise and energy to the needs of various constituencies (university, professional and extra-university).

Collaboration
We recognize commonalities, respect differences, and search cooperatively for possibilities to engage in interprofessional and interdisciplinary work.

Majors and Minors
Students may select from a variety of majors, minors, programs and concentrations that are available through the departments in the College of Health and Behavioral Studies. Programs offered include the following:

Majors
- Athletic Training
- Communication Sciences and Disorders
- Dietetics
- Exercise Science
- Health Assessment and Promotion
- Health Sciences
- Health Services Administration
- Health Studies
- Kinesiology
- Nursing
- Physical and Health Education Teacher Education
- Psychology
- Public Health Education
- Social Work

Minors
- Chronic Illness
- Coaching Education
- Communication Sciences and Disorders
- Family Studies
- Gerontology
- Nonprofit Studies
- Sport Communication
- Substance Abuse Prevention

Cross Disciplinary Programs, Outreach Programs, Partnerships, Academic Centers and Institutes
The College of Health and Behavioral Studies places a high value on partnerships with the community. These partnerships and our outreach programs are integral to our academic programs and assist us in meeting our responsibility to participate in efforts to enhance the well-being of our community. We value the impact of experiential activities on the enrichment of student learning. Many of the programs within the college are cross disciplinary in nature, reflecting our commitment and supporting the mission of the college. Further details about these cross disciplinary programs are provided in the “Cross Disciplinary Programs” section of the catalog and on the CHBS website.

http://www.jmu.edu/catalog/14
Mission
The College of Integrated Science and Engineering encompasses programs whose common focus is solving problems that impact the world at large through both the application of science and technology and the consideration of the social context in which the problem sits.

Over the past several decades, remarkable developments in science and technology have altered our lives and our society, bringing both great opportunities and challenges. Continued prosperity and societal harmony depend on the integration of scientific knowledge, the creative use of engineering design, technical capabilities in computing and other fields, the application of ethical principles and an understanding and appreciation of cultural commonalities and differences. Consequently, there is a need for individuals who understand the importance of specialization, as well as cross-disciplinary connections, and also the integration of knowledge for practical application. These individuals must have the flexibility to be able to operate in an environment of uncertainty and complexity, the drive to seize such opportunities as they arise and the vision and creativity to create new opportunities as needed. Our faculty is dedicated to producing graduates with a scientific and technical knowledge base and a matching set of interpersonal, organizational and technical skills. To this end, our faculty members not only educate our students, they also inspire and serve as role models.
The college places importance on carrying out its role within the community of Academic Affairs, working collaboratively with other colleges and supporting division-wide programs and priorities.

Mission Statement
The College of Integrated Science and Engineering, by supporting its constituent academic programs, seeks to build a community of students, faculty and staff who share a common purpose of improving our world through the cultivation of integrated sciences and engineering.

Goals
The goals of the College of Integrated Science and Engineering are:

- To promote a student-centered focus in teaching, scholarship and service that encompasses excellence, collegiality and professionalism.
- To foster, among both faculty and students, life-long professional development, personal growth, and commitment to ethical behavior.
- To contribute to the betterment of society at local, regional, national and global levels with a focus on sustainable solutions.
- To prepare students to enter professions of value to our community, through the study of applied science and engineering within a social context, or to undertake advanced study.
- To support a community of faculty that pursues high-quality, innovative and cross-disciplinary instruction, scholarship and service.
- To emphasize innovation.
- To encourage partnerships both within and outside the university.

Academic Programs
Students may select from a variety of majors, minors, programs and concentrations that are available through the departments in the College of Integrated Science and Engineering. Programs offered include the following:

Majors
- Engineering
- Geographic Science
- Intelligence Analysis
- Integrated Science and Technology
- Computer Science
- Biotechnology

Minors
- Computer Science
- Environmental Information Systems
- Environmental Management
- Environmental Science
- Environmental Studies
- Geographic Science
- Integrated Science and Technology
- Materials Science
- Science, Technology and Society
- Telecommunications
- Urban and Regional Studies

Cross Disciplinary Programs,
Outreach Programs, Partnerships
and Academic Centers
The College of Integrated Science and Engineering highly values partnerships with the community. These partnerships and our outreach programs are integral to our academic programs and assist us in fulfilling the responsibility we feel to serve our community. CISE values the impact of experiential activities on the enrichment of student learning. A listing of CISE centers, outreach programs and partnerships may be found on the CISE website at http://cise.jmu.edu/.

Graduate Programs
The College of Integrated Science and Engineering offers the following graduate degrees:

- Computer Science (M.S.)
  - Information Security
  - Digital Forensics
- Computer Science – Fifth Year Format (M.S.)
  - Information Security
  - Digital Forensics
- Integrated Science and Technology (M.S.)
- Integrated Science and Technology (M.S.) – joint degree program with the University of Malta

Mission
The College of Science and Mathematics is dedicated to excellence in undergraduate education and research. Our outstanding programs are student-centered and designed to prepare students for responsible positions at all levels in research, industry, education, medicine and government. We emphasize learning by doing science and provide active learning experiences in a range of settings. We also encourage collaborative research between students and faculty, internships and other experiences that facilitate transitions to work or graduate/professional education.

We provide the following:
- Foundational understanding of science and mathematics for the educated citizen.
- The educational basis and technical skills to prepare science and mathematics students for the workforce.
- The theoretical and practical foundations for success in professional and graduate programs.
- An exemplary program in mathematics and science for prospective teachers.

Science and Mathematics Programs
The college offers a variety of academic programs, majors, minors, concentrations, cross disciplinary programs and tracks. Most of these are listed below. For an explanation and contact point of each, visit the departmental website at http://www.jmu.edu/csm.
- Actuarial/Financial Mathematics
- American Chemical Society Accredited Degree
- Applied Physics
- Astronomy minor
- Biochemistry minor – for biology or chemistry majors
- Biochemistry concentration
- Biology – major and minor
- Biophysical chemistry major
- Biotechnology major
- Chemical Education concentration
- Chemistry – major and minor
- Chemistry/Business concentration
- Computational and Applied Mathematics
- Computational Sciences
- Earth Resources
- Earth Science
- Ecology
- Environmental and Engineering Geology
- Environmental Science minor
- Environmental Studies minor
- Forestry – M.S. Program
- Fundamental Physics
- Geology – major and minor
- Human Science minor
- Individual Option – Physics
- Materials Chemistry concentration
- Materials Science minor
- Mathematics – major and minor
- Medical Technology
- Microbiology
- Molecular Biology and Physiology
- Pre-dentistry
- Pre-medicine
- Pre-optometry
- Pre-pharmacy
- Pre-Veterinary Medicine
- Physics – major and minor
- Physics/Engineering – Combined M.S. Program
- Plant Sciences
- Pure Mathematics
- Statistics – major and minor
- Teaching Licensure for Secondary Teaching Available:
  - Biology
  - Chemistry
  - Earth Sciences
  - Mathematics
  - Physics

Some of these cross disciplinary programs are listed in the Cross Disciplinary Programs section of the catalog. These include: the biochemistry and molecular biology minor, the environmental science minor, the environmental studies minor, the materials science program, and pre-health areas such as pre-medical and pre-dental. The college also supports the following resource and service centers, collections, events and outreach programs that enhance teaching, scholarly activity and community relations.

Resource and Service Centers
Astronomy Park
Sean Scully

Email: scullyst@jmu.edu
Website: http://csma31.csm.jmu.edu/physics/scully/outreach.html

Located on the east side of campus near the physics and chemistry building is a permanent area for sky observing on campus. There are permanent mounts for six portable 10-inch computer controlled telescopes and an area for a portable 14-inch telescope. This site provides a convenient area for sky observing for introductory astronomy students. Students are able to easily see the moon, planets, nebulae, galaxies, star clusters as well as the sun using the appropriate solar filters. The department is also equipped with CCD cameras, spectrometers, a photometer and multiple solar filters that provide more advanced students with experience in astrophotography and data collection techniques. The public is invited to attend public star gazes which are held several times each semester.

http://www.jmu.edu/catalog/14
The Center for Computational Mathematics and Modeling

*Dr. James Sochacki*

Phone: (540) 568-6614  
Email: sochacjs@jmu.edu

This cross disciplinary institute for scientific computing, houses state-of-the-art graphics workstations and a 16 PII node beowulf computer system. The beowulf computer system is a parallel computing environment that can be used on large-scale problems. Faculty and students will have access to this "super computer" from the center and from their offices. The center also operates an Immersive 360° Visualization System. The center uses mathematics both to simulate real-world phenomena and to generate visual data.

Faculty members from the sciences, economics and business disciplines interact with mathematicians to model problems that they are researching with undergraduate students.

Center for Materials Science

*Dr. Chris Hughes*

Phone: (540) 568-8069  
Website: [http://csm.jmu.edu/materialsscience](http://csm.jmu.edu/materialsscience)

The educational mission of the Center for Materials Science is to develop and maintain an innovative interdisciplinary and multidisciplinary undergraduate program in materials science that will increase the maturation of students, their research experience and their employment opportunities. The mission includes the integration of undergraduate education with basic and applied research in materials science.

Faculty in the Center for Materials Science have expertise in a wide variety of areas including inorganic and organic synthesis, microfabrication, nanotechnology, thin film growth and surface modification, materials characterization and modeling and simulation of complex systems. The facilities include a class 10000 clean room, electron beam lithography and many types of microscopy and other analytical techniques. A more complete description of the instrumentation and facilities is available at [http://csm.jmu.edu/materialsscience/facilities.html](http://csm.jmu.edu/materialsscience/facilities.html). Collaborative work is welcome and can include consultation with faculty, assignment of student projects or simply access to facilities.

Department of Chemistry & Biochemistry LC/MS Facility

*Dr. Christine A. Hughey*

Phone: (540) 568-6633

The LC/MS instruments housed in the facility include: (1) an Agilent 6460 triple quadrupole (QQQ) mass spectrometer coupled to two Rapid Resolution LC pumps and a diode array detector, (2) an Agilent 6224 time of flight (TOF) mass spectrometer coupled to an Infinity UHPLC pump, and (3) an Agilent 6530 quadrupole time of flight (q-TOF) mass spectrometer coupled to an Infinity UHPLC pump. All three instruments are equipped with an electrospray source. The time of flight instruments afford the high mass accuracy and high resolution necessary for identification of unknowns in complex mixtures. The MS/MS capability of the q-TOF affords additional structural information. The sensitivity of the QQQ makes this instrument ideal for small molecule quantitation. Together, these three instruments provide a robust platform for the qualitative and quantitative analysis of biological and environmental samples.

Medicinal Research Collaborative

*Dr. Kyle Seifert*

Phone: (540) 568-2286

*Dr. Kevin Caran*  
(540) 568-6632  
Website: [http://csma31.csm.jmu.edu/chemistry/faculty/minbiole/JMUMRC](http://csma31.csm.jmu.edu/chemistry/faculty/minbiole/JMUMRC)

The Medicinal Research Collaborative is an assembly of researchers who share ideas and pool resources to advance medicinal research at James Madison University. Members come from a variety of scientific departments and represent a diversity of expertise. And since members of the collaborative often team up on research, the MRC presents a set of highly interdisciplinary projects that aim to advance fundamental science that supports medicine. Key liaisons include researchers at SRI - Shenandoah Valley, a non-profit organization with a new research site in Harrisonburg, as well as other members of the JMU community with ties to medicine and intellectual property.

Electron Microscopy Center

*Lance Kearns*

Phone: (540) 568-6421  
Email: kearnsle@jmu.edu  
Website: [http://csm.jmu.edu/materialsscience/microscopy.html](http://csm.jmu.edu/materialsscience/microscopy.html)

The Electron Microscopy Center serves faculty, staff and students who wish to use the scanning electron microscopy in scientific investigations. The center also provides demonstrations for public school groups and specialized educational programs.

http://www.jmu.edu/catalog/14
The James Madison University Meteorite Collection is a growing collection of the many sorts of meteorites to strike the Earth, and is located on the second floor or the physics/chemistry building. The display is open to the public year-round during university business hours, and after hours by special arrangement.

Microscopy Facility
Dr. Joanna B. Mott
Phone: (540) 568-6733
Email: mottjb@jmu.edu
Website: http://csm.jmu.edu/biology/microscopy

The Biology Department’s Microscopy Facility is equipped with several light and fluorescence microscopes, including a Nikon C1 Confocal Laser Scanning Microscope, enabling time lapse imaging, 3-D image reconstruction and fluorescence imaging. The facility has a dedicated staff member who can provide training on the equipment and help faculty and students with any microscopy aspects of their research projects.

Mineral Museum
Lance Kearns
Phone: (540) 568-6421
Email: kearnsle@jmu.edu
Website: http://www.jmu.edu/geology/museum.html

Housed with the Department of Geology, the JMU Mineral Museum contains more than 700 exceptionally beautiful display specimens that provide mineralogy students with outstanding visual examples of some of the finest crystals from around the world. Each year, numerous educational groups, mineralogical societies and individual collectors visit the collection.

Observatory
Dr. Jon Staib
Phone: (540) 568-6153
Email: staibja@jmu.edu

Located at the Stokesville, Virginia Campground, a 14-inch telescope is permanently mounted under a 16-foot dome. A set of 10 piers surround the observatory building and provide easy set-up for the observatory's eight, eight-inch telescopes. This site provides dark-sky observing for introductory astronomy students. A photometer, solar filters and a CCD imaging system provide more advanced students with experience in astrophotography and data collection techniques. During the summer months, public access is regularly available on Friday and Saturday nights.

Office of Statistical Services
Dr. Rickie Domangue
Phone: (540) 568-6968
Email: domangrj@jmu.edu

Through this office, statistics faculty members and students provide JMU and the local community with assistance in the design and analysis of statistical surveys and experiments. Students obtain practical experience and an appreciation for the impact of statistical methods on today’s society.

Planetarium - John C. Wells
Planetarium
Mr. Shanil Virani
Phone: (540) 568-4071
Email: viranisn@jmu.edu
Website: http://www.jmu.edu/planetarium

Located in Miller Hall, the planetarium serves as a teaching laboratory for both the undergraduates and the local community alike. The facility is used as a resource for introductory astronomy classes and well as welcoming school groups from the region. Several public planetarium shows are offered every month that vary with the seasons. The planetarium is equipped with a GOTO-Chronos/Digistar-3 hybrid planetarium system that offers full dome video as well as exceptionally clear and accurate simulations of the night sky.

Science and Mathematics Learning Center
Dr. Alicia James
Phone: (540) 568-4369
Website: http://www.jmu.edu/smlc

The College of Science and Mathematics has established a Learning Center for Science and Mathematics located on the second floor of Roop Hall. The center, which is a part of the JMU Student Success Center, provides extra help with math and science for students in general education and beginning science courses. The center is staffed by five full-time coordinators and carefully selected upper level science and mathematics majors.

Shenandoah Valley Regional NMR Facility
Dr. Jun Yin
Phone: (540) 568-3683
Email: yinjx@jmu.edu
Website: http://www.jmu.edu/chemistry/svmmr

This nuclear magnetic resonance facility has been established with grants from The National Science Foundation (9650132), The Merck Foundation, and matching funds provided by James Madison University, Eastern Mennonite University and Bridgewater College.

NMR spectrometers at the facility include a Bruker Avance DPX-300 NMR, equipped with a variable temperature 5mm QNP (capable of observing $^1$H, $^13$C, $^19$F or $^31$P) or a broad band tunable probe and a Dell host computer.

http://www.jmu.edu/catalog/14
The facility also has a Bruker Avance DRX-400 NMR, equipped with a six position autosampler, a variable temperature 10mm broad band tunable probe, variable temperature 5mm broad band tunable probe with a Z gradient and a Dell host computer. Recently a Bruker Avance Ultra High Shield Plus 600 NMR was installed, equipped with a variable temperature 5mm broad band tunable probe, BST upper shim stack, Bruker Orthogonal Shim System (BOSS-2), and Bruker Smart Magnet System (BSMS) shim and Digital Lock control unit and a Dell host computer. These instruments are housed at JMU and accessed remotely by the participating regional colleges and universities. Currently the systems are running TOPSPIN 1.3 software.

A website, http://csm.jmu.edu/nmr/, has been established as a means of communicating the efforts of the Regional NMR Consortium to the local scientific community and other interested parties. This group is composed of chemists from Bridgewater College, Eastern Mennonite University, James Madison University and Mary Baldwin College.

Annual Events

Physics is Phun Science Show

Dr. Kevin Giovanetti
Phone: (540) 568-6353
Email: giovanek@jmu.edu

During the spring the Department of Physics and Astronomy in conjunction with the Society of Physics Students offers science shows to student groups from grades 6-12. Topic rooms are arranged with presentations and demonstration in various areas of physics and the visiting students rotate among the rooms. JMU faculty and students share their experience and knowledge of science in an engaging format. Typical shows run about two hours.

Science Fair

Dr. Thomas DeVore
Phone: (540) 568-7938
Email: devoretc@jmu.edu

The Shenandoah Valley Regional Science Fair has been administered by the JMU science faculty for the past 36 years. The science fair is a competition open to all students in grades 6-12 who live in Virginia’s Shenandoah Valley.

SUMS Conference

Dr. Elizabeth Theta Brown
Email: brownet@jmu.edu
Dr. Laura Taalman
Phone: (540) 568-6184
Email: taalmala@jmu.edu
Website: http://www.jmu.edu/mathstat/sums

Each fall the Department of Mathematics and Statistics hosts the Shenandoah Undergraduate Mathematics and Statistics (SUMS) Conference, a one-day undergraduate research conference. The SUMS Conference gives undergraduates from JMU and around the country who have completed original mathematical research a chance to present their work to their peers.

http://www.jmu.edu/catalog/14
College of Visual and Performing Arts

Dr. George Sparks, Dean
Phone: (540) 568-7131
Location: Shirley Hanson Roberts Center

General Information
Mission Statement............................... 91
Majors and Minors............................... 91
Resources and Events ......................... 91

Academic Units
School of Art, Design and
Art History ........................................ 138
Dr. Katherine Schwartz, Director

School of Music .................................. 266
Dr. Jeffrey Bush, Director

School of Theatre and Dance.............. 305
Dr. Terry Brino-Dean, Director
Mission Statement
The College of Visual and Performing Arts is founded on the belief that artistic expression reveals the essential nature and diversity of human experience. Embracing traditional practices as well as contemporary approaches and technologies, the College provides a stimulating environment in which students create, perform, interpret, research, teach and think critically about the arts. The College actively supports creative and scholarly endeavors, collaboration between faculty and students, and interdisciplinary exchange. We are committed to making the arts an integral part of the life of the university and advancing their visibility, accessibility and understanding throughout the region and the world.

Goals
The programs in the college are committed to achieving the following common objectives:

- To prepare students to be articulate, effective, and inspiring performers, educators, creators, scholars and professionals in the arts.
- To attain recognition and leadership in the arts at the regional, national and global levels.
- To enhance, develop and sustain undergraduate and graduate programs of distinction.
- To support cultural, aesthetic and intellectual diversity, and to foster interdisciplinary exchange.
- To offer students instruction and learning experiences that incorporate the latest technology, research and practices.
- To engage the surrounding community as an active partner in promoting and experiencing the arts.

Majors and Minors
CVPA offers majors and minors from the following schools:

- School of Art, Design and Art History
- School of Music
- School of Theatre and Dance

Resources and Events
artWorks Gallery
Phone: (540) 568-6918
Website: http://www.jmu.edu/jmuarts/galleries/artworks.shtml

The artWorks Gallery features rotating exhibits of JMU undergraduate and graduate student work. The gallery is managed by students in the School of Art, Design and Art History. The gallery is located a short walk from Duke Hall on the second floor of 131 Grace Street, JMU, Harrisonburg, VA. The artWorks Gallery is a curricular component of the School of Art, Design and Art History.

Forbes Center for the Performing Arts
Ms. Regan Byrne, Executive Director
Phone: (540) 568-7000
Website: http://www.jmu.edu/jmuarts

Comprised of the Dorothy Thomasson Estes Center for Theatre and Dance and the Shirley Hanson Roberts Center for Music Performance, the Forbes Center houses five state-of-the-art performance venues: the Mainstage Theatre (450 seats), the Concert Hall (600 seats), the Recital Hall (196 seats) the Studio Theatre (200 seats) and the Earlynn J. Miller Dance Theatre (200 seats). The center is home to the Masterpiece Season, a variety of cultural events for JMU and the entire community. The schools of Art, Design and Art History, Music, and Theatre and Dance all take an active role in this series that also includes the Encore Series and Family Series featuring visiting artist performances that have included Imago Theatre, Liz Leeman Dance Exchange and Denyce Graves.

Institute for Visual Studies
Dr. David Ehrenpreis, Director
Phone: (540) 568-5656
Website: http://www.jmu.edu/ivs

The Institute for Visual Studies is a center for scholarly, scientific and creative inquiry into the nature and workings of images. An incubator of new ideas, the institute fosters discovery, and the generation of artworks, products, and applications by multidisciplinary teams of students and faculty. The Institute for Visual Studies is a collaboration among faculty representing all colleges at the university. It is located in Roop Hall, room 208.

Madison Art Collection
Dr. Kathryn Stevens, Director
Phone: (540) 568-6934
Email: madisonart@jmu.edu
Website: http://www.jmu.edu/madisonart

The Madison Art Collection provides unique opportunities for students, faculty and the non-academic community to learn about a wide range of world cultures while exploring objects drawn from its holding of over 35,000 objects. Exhibitions, class projects and special programming allow public access to the areas of collection strength, which include funerary objects from ancient Egypt, ceramics and glassware from classical Greece and Rome, West African masks and textiles, Russian icons, Japanese Edo prints, and Russian icons. The Madison Art Collection also houses a significant collection of European and American objects, such as letters and manuscripts from King George I of England, Florence Nightingale and Victor Hugo as well as the archive of American Emmy award-winning production designer Charles Lisanby, the only artistic designer to be inducted in the Academy of Television Arts and Sciences Hall of Fame. Scholars may apply for access to study Madison Art Collection objects at the Charles Lisanby Center, located in the Festival Conference and Student Center.
The Madison Art Collection has two exhibition venues, both located in the Festival Conference and Student Center. The Lisanby Museum showcases exhibits drawn from the permanent collection and uses technological applications such as smart device applications and QR codes to allow visitors to craft their experience with the objects. Prism Gallery and Prism International exhibit works emphasizing aspects of diversity, including areas of culture, religion, gender and sexuality.

**New Image Gallery**  
Phone: (540) 568-6918  
Website: http://www.jmu.edu/jmuarts/galleries/newImage.shtml

New Image Gallery is a professional photography gallery featuring contemporary photography of regional and national significance. New Image Gallery is located on the second floor of 131 Grace Street, JMU, Harrisonburg, VA. New Image Gallery is a curricular component of the School of Art, Design and Art History.

**Sawhill Gallery**  
Mr. Gary Freeburg, Director  
Phone: (540) 568-6918  
Website: http://www.jmu.edu/jmuarts/galleries/sawhill.shtml

Sawhill Gallery is a professional art gallery featuring changing exhibitions of international, national and regional significance. In addition to providing exhibitions of contemporary art, a hallmark of the gallery’s mission is to demonstrate art’s multicultural and interdisciplinary dynamic. Sawhill Gallery is located in Duke Hall, Room 1022, on the corner of Main and Grace Streets. For more information on current exhibitions and hours of operation, call (540) 568-6918. Sawhill Gallery is sponsored by the College of Visual and Performing Arts and the School of Art, Design and Art History.
Mission Statement
In the liberal arts tradition, General Education: The Human Community aspires to create informed global citizens of the 21st century. We challenge our community of students and faculty to engage in personal and collective reflection, development, and action.

Philosophy
General Education: The Human Community is the core academic program of James Madison University in which students come to understand how distinct disciplines look at the world from different vantage points. Courses in The Human Community are organized into five clusters, each emphasizing unique tools, rationales, and methodologies. Taken together, courses in a student’s chosen major and The Human Community complement and complete each other. Both are integral and essential components of a student’s full and proper education.

Goals
Students understand the historical and contemporary distinctions and interconnections among people, institutions, and communities that create, preserve, and transmit culture and knowledge in the arts, sciences, mathematics, social sciences, and humanities.

Students become skilled in questioning, investigating, analyzing, evaluating, and communicating.

Students participate in a variety of aesthetic and civic experiences reflecting human concerns and values that transcend the limits of specialization.

Structure
The Human Community credit hour requirements are:

Cluster One: Skills for the 21st Century
Gretchen Anne Hazard, Coordinator

Cluster One is the cornerstone of General Education: The Human Community at JMU. Through course work in three areas and a required information literacy test, this cluster requires students to demonstrate:

- Critical thinking skills
- Effective oral presentation skills
- Effective writing skills
- Competency in information literacy

Competence in these areas is fundamental to subsequent study in major and professional programs. Therefore, all students are required to complete Cluster One requirements during their first academic year at JMU.

Cluster One Structure
Cluster One consists of nine credits and a competency test. All students must earn credit for one course in each of three areas representing the primary content of the cluster: Critical Thinking, Human Communication and Writing. In addition to the three courses, students are required to demonstrate competency in information literacy by passing the Madison Research Essentials Test (MREST).

Enrollment in Cluster One courses is required of students in their first academic year at JMU. Cluster One areas and courses are not repeatable without permission. To secure permission to take a second Cluster One course, students must submit a “Cluster One Request Form” available on the General Education website under “Forms.” Requests will be accepted for permission to enroll in an open section of an appropriate class one week prior to the beginning of each semester and through the end of the open enrollment period. Permission to enroll is given based on course availability; there are no overrides available in Cluster One courses.

Cluster One Requirements
Cluster One skills in writing, human communication, information literacy and critical thinking are essential to academic success and, for that reason, should be taken during a student’s first year at JMU. While Cluster One courses must be completed in the first year, the courses may be taken in any order.

Critical Thinking
In this area, students study various techniques and approaches to critical thinking such as analyzing and evaluating information, arguments, premises and concepts. Critical thinking fosters inquiry and problem solving abilities. Depending upon the course, the content focuses on the function of language, basic business principles, issues in recent history, mediated communication, informal logical reasoning or problem solving in science and technology. Cluster One offers six classes that meet this requirement.

Choose one of the following:
- GBUS 160. Business Decision Making in a Modern Society
- HIST 150. Critical Issues in Recent Global History
- GSAT 160. Problem Solving Approaches in Science and Technology
- GMAD 150. Mediated Communication: Issues and Skills
- GPHIL 120. Critical Thinking
- GPHIL 150. Ethical Reasoning

Students pursuing a Bachelor of Arts (B.A.) degree may not use either GPHIL 120 or GPHIL 150 to fulfill the B.A. philosophy course requirement.

Students who have received credit for one critical thinking class are not eligible to receive credit for a second critical thinking class without permission.

Human Communication
In this area, students are introduced to the study of human communication as a process. Emphasis is on examining the role of self-concept, perception, culture, verbal and nonverbal dimensions in the communication process; using power and managing conflict and applying critical listening skills. Depending upon the course, the content focuses on an overview of the principles and practices of interpersonal, small group and public communication, or constructing informative and persuasive speeches with an emphasis on individual public speaking contexts, or constructing informative and persuasive group presentations. Cluster One requires completion of one of three courses offered in human communication.

Choose one of the following:
- GCOM 121. Fundamental Human Communication: Presentations
- GCOM 122. Fundamental Human Communication: Individual Presentations
- GCOM 123. Fundamental Human Communication: Group Presentations

Students who have received credit for one GCOM class are not eligible to receive credit for a second GCOM class.

Writing
This area of Cluster One emphasizes the process of constructing focused, logical, coherent and well-supported documents. Students employ research to produce writing stylistically appropriate to its audience, purpose and occasion. Students are introduced to a variety of writing genres. Students are required to edit their writing for clarity and control of conventions.

Complete the following:
- GWRTC 103. Critical Reading and Writing

http://www.jmu.edu/catalog/14
General Education  95

GWRTC Credit and Waiver

Students may receive credit or waiver for GWRTC 103 under the following conditions:

- an AP minimum score of 4 on the English Language and Composition or the English Literature and Composition test.
- a Higher-Level IB English score of 5.
- transfer or dual enrollment credit for GWRTC 103.
- successful completion of the GWRTC 103 Waiver by Examination.

Students who have received credit for GWRT 101 are not eligible to receive credit for WRTC 100. Students who have received credit for GWRT 102 are not eligible to receive credit for WRTC 100 or GWRTC 103. Students may not repeat GWRTC 103 for credit.

Information Literacy

Information literacy is the ability to locate, evaluate and use information effectively to accomplish a purpose. Cluster One requires completion of the Madison Research Essentials Test (MREST). All entering students must pass the MREST by the deadline announced by the university.

Cluster One Learning Objectives

After completing Cluster One: Skills for the 21st Century, students should be able to use reading, writing, human communication, critical thinking and information literacy skills for inquiring, learning, thinking and communicating in their personal, academic and civic lives.

Critical Thinking

After completing course work in critical thinking, students should be able to:

- Evaluate claims in terms of clarity, credibility, reliability and accuracy.
- Demonstrate the ability to identify, analyze and generate claims, arguments and positions.
- Identify and evaluate theses and conclusions, stated and unstated assumptions, and supporting evidence and arguments.
- Apply these skills to one’s own work and the work of others.

Human Communication

After completing course work in communication, students should be able to:

- Explain the fundamental processes that significantly influence communication.
- Construct messages consistent with the diversity of communication purpose, audience, context, and ethics.
- Respond to messages consistent with the diversity of communication purpose, audience, context, and ethics.
- Utilize information skills expected of ethical communicators.

Writing

After completing course work in writing, students should be able to:

- Demonstrate an awareness of rhetorical knowledge, which may include the ability to analyze and act on understandings of audiences, purposes and contexts in creating and comprehending texts.
- Employ critical thinking, which includes the ability, through reading, research and writing, to analyze a situation or text and make thoughtful decisions based on that analysis.
- Employ writing processes.
- Demonstrate an awareness of conventions, the formal and informal guidelines that define what is considered to be correct and appropriate in a variety of texts.
- Compose in multiple environments using traditional and digital communication tools.

Information Literacy

After completing the MREST, JMU’s information literacy test, and course work in critical thinking, human communication and writing, students should be able to:

- Recognize that information is available in a variety of forms including, but not limited to, text, images and visual media.
- Determine when information is needed and find it efficiently using a variety of reference sources.
- Evaluate the quality of the information.
- Use information effectively for a purpose.
- Employ appropriate technologies to create an information-based product.
- Use information ethically and legally.

http://www.jmu.edu/catalog/14
Cluster Two: Arts and Humanities
Dr. Dennis Beck, Interim Coordinator

Cluster Two shows students what it means to live lives enriched by reflection, imagination and creativity. It does so by offering each individual a multidisciplinary experience within the arts and humanities, those areas of endeavor that humans have long valued for their intrinsic worth and that invite a deeper appreciation of the human experience. The broadly stated goals for Cluster Two are:
- To introduce students to cultural, historical, aesthetic and theoretical expressions of and questions about human experience.
- To expose students to multiple academic disciplines in the arts and humanities and their methods and unique perspectives.
- To inspire a deeper awareness of how the interplay between culture and expression affects both collective and individual identities.
- To foster appreciation of the aesthetic and formal qualities of literary, visual and performing arts.
- To engage students in thinking critically and communicating clearly about enduring questions concerning human life, culture and history.

Cluster Two Structure
Students complete nine credits by choosing one course from each of three groups: Human Questions and Contexts; Visual and Performing Arts; and Literature.

Group One:
Human Questions and Contexts
Students will take one course from the list below. GANTH 205 takes an interdisciplinary approach to questions about American identity and shows how they reflect a complex interplay of cultural, historical, religious and ideological perspectives. The GANTH and GIST courses introduce students to the great cultures of the world by surveying the common patterns of experience that characterized Western, Middle Eastern, Asian, African, Meso- and South American societies in the past. The GHM courses are interdisciplinary, in-depth explorations of specific topics, cultures, periods or themes. The GPHIL and GREL courses explore the great inquiries into human existence and the ways different cultures across different time periods constructed their responses to questions concerning humans’ existence and their relationship to nature, ultimate reality and the universe. Thus all of the courses in Group One emphasize central questions about the human condition and ways of studying values and beliefs as they are shaped by class, gender, race, historical events, philosophy and religion.

Choose one of the following:
GAMST 200. Introduction to American Studies
GANTH 205. Buried Cities, Lost Tribes: The Rise and Fall of Early Human Societies
GIST 101. World History to 1500
GIST 102. World History Since 1500
GHUM 102. God, Meaning, and Morality
GHUM 250. Foundations of Western Culture
(Topics vary by section. Examples include: Ancient Greece, Rome)

Group Two:
Visual and Performing Arts
Students will take one course from the list below. GARTH 205 and GARTH 206 are global art history surveys that introduce students to the visual arts, whose history often has been interconnected with developments in music, dance and theatre/film. These surveys are organized chronologically, but focus distinctly on artistic perception and experience. The global music surveys explore history and the arts through the study of music: its development, aesthetics, forms and styles, and its context within the cultural communities that produced it. GART 200 and GMUS 200 are introductions to art or music in general culture; GTHEA 210 studies theatre as an art form including acting, directing, design, costuming, lighting; GMUS 203 explores America's music landscape and examines the interconnections among music, art and literature in historical periods.

Choose one of the following:
GART 200. Art in General Culture
GARTH 205. Survey of World Art I: Prehistoric to Renaissance
GARTH 206. Survey of World Art II: Renaissance to Modern
GMUS 200. Music in General Culture
GMUS 203. Music in America
GMUS 206. Introduction to Global Music
GTHEA 210. Introduction to Theatre

Group Three: Literature
Students will choose a course from the list below. The literature surveys provide students with extensive reading experiences of representative genres and authors and various critical approaches to literary texts, as well as opportunities to explore the complex ways that the literature both reflects and helps change or create the cultural and intellectual contexts of the times in which they are written. Students are expected to learn strategies for reading and interpreting any literary text so that they come to deepen their appreciation of the aesthetics, rhetorical strategies and meaning of a range of literary texts. Through the humanistic study of literature, students will also obtain a better understanding of themselves and their own culture as well as those of others.

Choose one of the following:
GENG 221. Literature/Culture/Ideas
GENG 222. Genre(s)
GENG 235. Survey of English Literature: From Beowulf to the 18th Century
GENG 236. Survey of English Literature: 18th Century to Modern
GENG 239. Studies in World Literature
GENG 247. Survey of American Literature: From the Beginning to the Civil War

http://www.jmu.edu/catalog/14
Cluster Two Learning Objectives

After completing Group One, Human Questions and Contexts, students will be able to:
- Use critical and comparative analysis to question their own and others’ beliefs about and responses to the world or universe.
- Apply the methods of the discipline(s) studied to material from the humanities.
- Identify, evaluate and produce arguments using appropriate concepts and techniques and formulate logical arguments on the same basis.
- Demonstrate an understanding of broader cultural, historical or conceptual contexts of particular issues, ideas, objects or events – past and present.
- Experience humanities events (such as exhibits, films, performances or public lectures) more discerningly.

After completing Group Two, Visual and Performing Arts, students will be able to:
- Explain how artistic works and culture are interrelated.
- Recognize that the arts are accessible and relevant to their lives.
- Demonstrate disciplinary literacy (vocabulary, concepts, creative processes) in a major art form.
- Produce an informed response to the form, content and aesthetic qualities of artistic works.
- Experience arts events more discerningly.
- Acknowledge relationships among the arts.

After completing Group Three, Literature, students will be able to:
- Generate increasingly nuanced questions (interpretations, ideas) about literature and explain why those questions matter.
- Use appropriate vocabulary and tactics to analyze specific literary expressions of culture and the relationship between the reader, the author and text.
- Define ways that texts serve as arguments and identify rhetorical and formal elements that inform these arguments.
- Recognize appropriate contexts (such as genres, political perspectives, textual juxtapositions) and understand that readers may interpret literature from a variety of perspectives.
- Articulate a variety of examples of the ways in which literature gives us access to the human experience that reveals what differentiates it from, and connects it to, the other disciplines that make up the arc of human learning.

The courses in Group Three are designated as writing-infused. Students will write a minimum of 5,000 words (approximately 15 pages double-spaced in a standard font) in assignments that may include both informal and formal, ungraded and graded forms. The extensive opportunity to produce and receive feedback on various genres of academic writing will help students sharpen their responses to interesting and thought-provoking texts and promote more engaged and sophisticated reading strategies.
Cluster Three: The Natural World

Dr. Scott Paulson, Coordinator

Scientific investigations into the natural world use analytical methods to evaluate evidence, build and test models based on that evidence, and develop theories. Mathematical studies of form and pattern can create a language that assists in these investigations. Courses in this cluster provide students with the opportunity to develop problem-solving skills in science and mathematics at the college level. Students will be introduced to a substantial body of scientific facts, concepts, models and theories, and they will also gain experience in using basic mathematics to obtain knowledge about the natural world. Each track is multidisciplinary and interdisciplinary, thereby demonstrating boundaries and connections among mathematics, the sciences and other aspects of culture.

Cluster Three: Track I and Track II

All students begin either Track I or Track II in Cluster Three during their first year and should complete it by the end of their sophomore year. Individual courses in the tracks satisfy requirements in a number of major and professional programs on campus. Students are encouraged to select appropriate courses in Cluster Three on the basis of their backgrounds, interests and educational objectives.

Track I

In this track, students take one course from each of three groups and are required to have at least one lab experience. Group 1 consists of mathematics courses, and Groups 2 and 3 consist of science courses. The groups may be taken in any order, except for courses denoted by an asterisk (*), which have a mathematics and/or science prerequisite or corequisite.

Group 1. Choose one of the following:
- ISAT 151. Topics in Applied Calculus in ISAT
- ISAT 251. Topics in Applied Statistics in ISAT
- MATH 103. The Nature of Mathematics
- MATH 105. Quantitative Literacy and Reasoning
- MATH 205. Introductory Calculus I
- MATH 220. Elementary Statistics
- MATH 231. Calculus with Functions I
- MATH 235. Calculus I

Group 2. Choose one of the following:
- CHEM 120. Concepts of Chemistry
- CHEM 131. General Chemistry I (CHEM 131L required lab corequisite)
- GSCI 100. Environmental and Energy Sustainability
- GSCI 112. Environmental Issues in Science and Technology (includes lab)
- GSCI 101. Physics, Chemistry and the Human Experience*
- GSCI 121. The Physical Nature of Light and Sound (includes lab)
- PHYS 140. College Physics I (PHYS 140L required lab corequisite)
- PHYS 215. Energy and the Environment *
- PHYS 240. University Physics I*

Group 3. Choose one of the following:
- GANTH 196. Biological Anthropology
- ASTR 120. The Solar System
- ASTR 121. Stars, Galaxies and Cosmology
- GBCI 103. Contemporary Biology
- BIO 114. Organisms (includes lab)
- BIO 222. Interdisciplinary Biology for Engineering and Physical Sciences
- BIO 270. Human Physiology (includes lab)*
- GGEOL 102. Environment: Earth
- GGEOL 115. Earth Systems and Climate Change
- GGEOL 110. Physical Geology (includes lab)
- GGEOL 205. Evolutionary Systems (includes lab)
- GGEOL 210. Applied Physical Geography*
- GGEOL 211. Introduction to Oceanography
- GISAT 113. Biotechnology Issues in Science and Technology
- GPSYC 122. The Science of Vision and Audition

Lab Experience. Choose one of the following:
- Group 2 course with a lab
- Group 3 course with a lab
- GSCI 104

Track II

In addition to the science and math content, Track II emphasizes the learning environment and the unifying themes that link each of the individual classes. Track II is meant to serve primarily, but not exclusively, IDLS majors. MATH 107 must be taken prior to GSCI 163; GSCI 161 and GSCI 162 are corequisites; GSCI 163 and GSCI 164 are corequisites. Corequisite pairs may be taken in any order.

- MATH 107. Fundamentals of Mathematics I
- GSCI 161. Science Processes
- GSCI 162. The Science of the Planets
- GSCI 163. The Matter of Matter
- GSCI 164. Physical Science: Learning Through Teaching
- GSCI 165. The Way Life Works

Cluster Three Learning Objectives

After completing Cluster Three: The Natural World, students should be able to meet the following objectives grouped under three learning goals:

- Describe the methods of inquiry that lead to mathematical truth and scientific knowledge and be able to distinguish science from pseudoscience.
- Use theories and models as unifying principles that help us understand natural phenomena and make predictions.
- Recognize the interdependence of applied research, basic research, and technology, and how they affect society.
- Illustrate the interdependence between developments in science and social and ethical issues.
- Use graphical, symbolic and numerical methods to analyze, organize and interpret natural phenomena.
- Discriminate between association and causation, and identify the types of evidence used to establish causation.
- Formulate hypotheses, identify relevant variables, and design experiments to test hypotheses.
- Evaluate the credibility, use, and misuse of scientific and mathematical information in scientific developments and public-policy issues.

http://www.jmu.edu/catalog/14
Cluster Four: Social and Cultural Processes

Dr. Raymond M. Hyser, Coordinator

Courses in Cluster Four require students to think critically about their own society and its relationship to the larger global community. These courses develop responsible and enlightened global citizenship by examining a wide variety of the processes that shape the human experience. Students will take one course that focuses on the American experience and one course that examines the global experience.

Cluster Four Structure

Cluster Four courses are not sequenced so that either part of the cluster may be taken first or they may be taken concurrently. Students may not take GPOSC 200 and GPOSC 225 to complete the Cluster Four requirement.

The American Experience

Each of the American Experience courses provides students with an understanding of the major themes and concepts that structure American life today. GHIST 225 does so through a contextual and document-based study of the American historical experience that emphasizes the interaction of people, ideas and social movements. JUST 225 frames questions regarding historic and contemporary events in terms of justice, highlighting how societal structures interact with individual lives and vice versa. GPOSC 225 focuses on the evolution and contemporary operation of the American political system by examining its fundamental principles and current dynamics.

Choose one of the following:
- GHIST 225. U.S. History
- JUST 225. Justice and American Society
- GPOSC 225. U.S. Government

The Global Experience

Each of the courses in the Global Experience is an investigation into a series of global issues that are of great importance to the human community. Topics discussed will vary from course to course. Issues are examined in a systemic context that allows students to see connections between disciplines. The unifying theme is an analysis of overarching structures at the global level that condition people’s behavior and which are shaped by that behavior. From this perspective the study of global issues requires more than studying current events; it involves placing these global issues in a systemic context.

Choose one of the following:
- GAFST 200. Introduction to Africana Studies
- GANTH 195. Cultural Anthropology
- GECON 200. Introduction to Macroeconomics
- GEGOG 200. Geography: The Global Dimension
- GPOSC 200. Global Politics
- GSOCI 110. Social Issues in a Global Context

Cluster Four Learning Objectives

American Experience

Students completing this part of Cluster Four will be able to identify, conceptualize and evaluate:
- Social and political processes and structures using quantitative and qualitative data
- Key primary sources relating to American history, political institutions and society
- The nature and development of the intellectual concepts that structure American political activity
- The history and operation of American democratic institutions
- The history and development of American society and culture
- The history and development of American involvement in world affairs

Global Experience

Students completing this part of Cluster Four will be able to identify, conceptualize and evaluate:
- Basic global problems
- Global political, social, cultural and economic systems that shape societies
- The issues involved in analyzing societies different from one’s own
- Theoretical models used in studying global problems
- The strengths and limitations of solutions to global problems across and within cultures

http://www.jmu.edu/catalog/14
Cluster Five: Individuals in the Human Community

Dr. Georgia N. L. J. Polacek, Coordinator

Through studying the many variables that influence human behavior in contemporary society, students gain an understanding of the relationship between the individual and a diverse community and develop a sense of responsibility for self and community. Students explore how individuals develop and function in the social, psychological, emotional, physical and spiritual dimensions.

Cluster Five Structure

In Cluster Five, students learn about themselves as individuals and as members of different communities. The courses within this six credit-hour cluster may be taken concurrently or individually, in any order.

Students are required to complete one course each in the Wellness and Sociocultural Domains.

Students are expected to complete Cluster Five course work during their first two years at the university.

Wellness Domain

Courses in this area examine the dimensions of health and wellness. An emphasis is placed on the factors that influence health and wellness, particularly individual behaviors.

Students will participate in self-assessments that provide information about their health and wellness behaviors and their overall health status. In addition, students will learn strategies that improve lifetime health and wellness. Courses include a physical wellness component as a part of the course requirements.

Choose one of the following:
- HTH 100. Personal Wellness
- KIN 100. Lifetime Fitness and Wellness

Sociocultural Domain

Courses in this area focus on sociocultural and psychological aspects of individuals interacting within societal contexts. Students study the formation and functions of social relationships and reflect on personal responsibilities to diverse communities within which people function throughout life. Students explore sociocultural and psychological aspects of personal belief systems, self-identity and assumptions about others.

Courses in this area enable students to develop ethical and scientifically-based critical thinking about human behavior and social interaction.

Choose one of the following:
- PSYC 101. General Psychology
- PSYC 160. Life Span Human Development
- SOCI 140. Microsociology: The Individual in Society

Cluster Five Learning Objectives

After completing Cluster Five: Individuals in the Human Community, students will be able to do the following:

In the Wellness Domain
- Understand the dimensions of wellness, the various factors affecting each dimension and how dimensions are interrelated.
- Understand the relationship between personal behaviors and lifelong health and wellness.
- Assess their own levels of health and wellness and understand how these levels impact their quality of life.
- Identify and implement strategies to improve their wellness.

In the Sociocultural Domain
- Understand how individual and sociocultural factors interact in the development of the beliefs, behaviors and experiences of oneself and others.
- Discern the extent to which sources of information about the sociocultural domain are reputable and unbiased.
- Evaluate the extent to which the approach to and uses of psychosocial research are ethical and appropriate.

Minors

Students should be aware that most minors have prerequisites, meaning that certain courses must be completed before a student can enroll in other courses. Consult with the minor adviser for additional information and recommendations for scheduling.

Africana Studies

Dr. Aderonke Adesanya, Coordinator
Phone: (540) 568-3486  Email: adesanaa@jmu.edu
Website: http://www.jmu.edu/africana

The minor in Africana studies broadens students' world perspectives by enhancing their acquaintance with and understanding of the peoples, issues of identities and institutions of Africa as well as the African Diaspora. The Africana program engages cross disciplinary approaches to understand and to encounter Africa and the African Diaspora in a global context. The cross disciplinary character of the program is further enhanced by the fact that courses taken to fulfill program requirements are drawn from several departments. From these course offerings, students will examine and engage with some of Africana studies key contributing disciplines, concepts, methods and topics including the development of new identities.

The minor program in Africana studies is open to all undergraduate students at JMU. Courses taken to complete the Africana studies minor can also be used to satisfy the student's major, as well as General Education requirements.

The Africana studies minor requires:

- successful completion of 19 credit hours according to the requirements listed below.
- no more than nine hours from a single discipline.

Required Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>

</table>

1 Course topic and content must focus on Africa and/or the African Diasporas as well as be approved by the program coordinator(s).
2 Research must have an African and/or African Diaspora focus.

Other appropriate courses not listed above may be considered for the minor. Please consult program coordinator.

In addition to taking these courses, students are encouraged to participate in travel or study programs to Africa, the Caribbean and other relevant areas. Students who want to earn credit hours through participation in an accredited travel/study program are encouraged to do so with the prior approval of the program coordinator.

American Studies

Dr. Laura Henigman, Coordinator
Phone: (540) 568-3752  Email: henigmnk@jmu.edu
Website: http://www.jmu.edu/americanstudies

The minor in American studies is based on the desirability of fostering an understanding of the whole of American civilization through study in a variety of fields and topics. Students will select courses in three groups – multicultural studies, ideas and the arts, and history and politics – and from diverse fields including literature, history, the fine arts, philosophy and the social sciences. The American studies program is a flexible one that students can relate to their own individual interests and needs while exploring the interrelationships among diverse aspects of American culture and its changing ideas and values.

The minor program in American studies is open to all undergraduate students at JMU. The requirement is the successful completion of 24 hours. Three of the 24 hours must consist of AMST 200, Introduction to American Studies. Students must take two courses from each of the groups listed and one elective course chosen from any of the groups. See the program coordinator for additional courses that may be substituted.

http://www.jmu.edu/catalog/14
### Core Requirements

</table>

### Multicultural Studies

Choose two from the courses below: 6

- ANTH 265. People and Cultures in Latin America and the Caribbean
- ANTH 312. The Native Americans
- ENGL 247. Survey of African American Literature
- HIST 320. Women in United States History
- HIST 355 or HIST 356. Afro-American History
- SOCI 336. Race and Ethnicity

### Ideas and the Arts

Choose two from the courses below: 6

- ARTH 480. American Art to 1870 or
- ARTH 482. American Art from 1870
- ARTH 484. Art of the Americas
- ENGL 247. Survey of American Literature: From the Beginning to the Civil War or
- ENGL 248. Survey of American Literature: From the Civil War to the Modern Period
- GMUS 203. Music in America
- PHIL 370. American Philosophy
- POSC 330. American Political Thought
- SMAD 372. Media History
- THEA 485. American Theatre

### History and Politics

Choose two from the courses below: 6

- GIST 225. United States History
- GPOSC 225. U.S. Government
- HIST 310. American Business History
- HIST 369. Political Parties and Elections or
- POSC 385. The U.S. Congress
- SOCM 346. Free Speech in America

Program director may approve course substitutions, including AMST 490.

### Asian Studies

**Dr. Yongguang Hu, Coordinator**

Phone: (540) 568-3807  
Email: hu2yx@jmu.edu  
Website: [http://web.jmu.edu/history/undergrad_minor.html](http://web.jmu.edu/history/undergrad_minor.html)

The purpose of this cross disciplinary program is to broaden the students’ perspective by enhancing their understanding and appreciation of Asian culture and institutions. This program combines the offerings of several academic units, such as anthropology, art, design and art history, economics, English, geography, history, international business, foreign languages, political science, and religion and philosophy.

The minimum requirement for a minor in Asian studies is 18 credit hours. These 18 hours can include any of the following courses. Special topics courses not listed can be applied to the minor degree with approval of the program coordinator. A maximum of eight hours of Chinese, Japanese, Korean or Hindi language may be included to satisfy credit hour requirements of the minor.

Courses Credit Hours

**Books Arts**

Dawn McCusker, Coordinator

Phone: (540) 568-6500  
Email: mccuskdm@jmu.edu

The minor in book arts is a cross disciplinary program designed to broaden students’ understanding of the value and role of the art of the book in general culture while enhancing written and visual creativity, artistic production and the ability to think independently. Students enrolled in any degree program may minor in book arts by completing a minimum of 21 credit hours. The minor is subject to the approval of the School of Art, Design and Art History director.

A total of six credit hours may be double counted between the minor and the major.

**British Communication and Media**

Mr. Dietrich Maune, Coordinator

Phone: (540) 568-3039  
Email: maunedx@jmu.edu

The cross disciplinary British communication and media minor enables students to expand their knowledge of communication and media in Great Britain, and to enhance their appreciation of the impact culture has on communication and media. Students must participate in the JMU Semester or Summer in London program to complete this minor.

The minor requires at least 18 credit hours, chosen from courses offered both at JMU and in London. Students may double-count a maximum of six credit hours toward both a major and this minor.

**Courses**

**Credit Hours**

Classical Studies
Dr. Stephen Chappell, Coordinator
Phone: (540) 568-4708 Email: chappesx@jmu.edu
Website: http://www.jmu.edu/philrel/phil/classical.html

The minor in classical studies introduces students to the literature, culture, philosophy, history and languages of Greco-Roman civilization.

Required Courses
Choose one of the following:

- GPHUM 250. Foundations of Western Culture: The Greek Experience
- GPHUM 259. Foundations of Western Culture: The Roman Experience

Choose seven of the following:

- GRK 101-102. Elementary Greek
- GRK 231-232. Intermediate Greek
- LAT 101-102. Elementary Latin
- LAT 231-232. Intermediate Latin
- GARTH 205. Survey of Work Art I: Prehistoric to Renaissance
- ARTH 322. Ancient Art
- ARTH 340. Early Medieval Art
- ARTH 424. Arts of Ancient Egypt
- CLAS 100. Greek and Latin Roots of English Words
- CLAS 265. Greek and Roman Classics in Translation
- CLAS 337. Human Values: The Classical Tradition
- CLAS 360. Topics in Greek and Roman Culture
- ENG 305. Mythology
- GPHUM 300. World to 1500
- HIST 369. Greek History, 3000 BC - AD 267
- HIST 391. Travel Studies Seminar
- HIST 455. World Political and Social Thought to Early Modern Times
- HIST 474. The Byzantine Empire
- HIST 487. The Roman Republic
- HIST 488. The Roman Empire
- HIST 489. Selected Topics in World History (when topic is related to Greece or Rome)
- PHIL 340. Ancient Greek Philosophy
- PHIL 460. Topics in Classical Philosophy
- POSC 310. Political Theory Ancient to Early Modern
- REL 240. Jesus and the Moral Life
- REL 344. Christianity in the Roman Empire
- REL 346. Religions in Greece and Rome
- REL 360. History of Western Religious Thought
- REL 460. Topics in Ancient Jewish and Early Christian Literature

Creative Writing
Ms. Laurie Kutchins, Coordinator
Phone: (540) 568-3756 Email: kutchil@jmu.edu
Website: http://www.jmu.edu/english/undergraduate/minors.html

The cross disciplinary minor in creative writing is designed to give students an opportunity to develop their writing talents across a number of literary forms and communication contexts. By developing course selections in poetry, fiction and creative nonfiction matched with those in stage and screenplay writing, students may tailor the program to suit a variety of artistic and professional interests. The choice of at least one course from a group involving literary analysis and media criticism ensures perspective on current issues affecting readers and viewers, writers and their creative works.

Cross Disciplinary Programs: Minors

The minimum requirement for a minor in creative writing is 18 hours. Two courses may be double-counted between the minor and the major. Students electing this minor may acquire more information from the creative writing adviser of the Department of English, the School of Media Arts and Design, or the School of Theatre and Dance.

Required Courses
Select four or five core courses from two or more departments

- ENG 391. Introduction to Creative Writing – Nonfiction
- ENG 392. Introduction to Creative Writing – Poetry
- ENG 393. Introduction to Creative Writing – Fiction
- ENG 394. Advanced Nonfiction
- ENG 395. Advanced Poetry Writing
- ENG 396. Advanced Fiction Writing

Select one or two courses from the following:

- SMAD 250. Scriptwriting (subject to availability)
- SMAD 251. Screenplay Writing
- SMAD 311. Feature Writing
- SMAD 340. Advanced Screenplay Writing
- SMAD 498. Senior Seminar (when topic is appropriate)
- THEA 347. Playwriting (crosslisted with ENG 347)
- THEA 440. Seminar in Theatre (when topic is appropriate)
- THEA 447. Advanced Playwriting

Criminal Justice
Dr. Peggy Plass, Coordinator
Phone: (540) 568-7151 Email: plassms@jmu.edu

The cross disciplinary minor in criminal justice is designed for students who are preparing for careers in law enforcement, corrections, judicial administration or other areas related to the study or management of crime, either directly upon graduation or after further graduate training. The requirement for a minor in criminal justice is 21 credits.

Environmental Information Systems

Dr. Steven P. Frysinger, Coordinator

Phone: (540) 568-2710  Email: frysinsp@jmu.edu
Website: http://www.jmu.edu/EnvironmentalInfoSys

The cross disciplinary minor in environmental information systems is designed for undergraduates interested in using computer and information management technology to solve environmental problems and improve environmental stewardship. Some examples of environmental information systems are database systems to track and report hazardous materials in factories, decision support systems to facilitate risk analysis and management, GIS-based natural resource inventory systems and automated business management systems to support and document environmental compliance.

The environmental information systems minor requires a minimum of 24 credit hours. Core courses are intended to ensure knowledge of the foundation disciplines. Electives should be chosen in consideration of the student's particular interests within the general field of environmental information systems. At least one elective course must be outside of the student's major. Students are advised to check prerequisites of listed courses.

Required Courses  Credit Hours
Core Courses  16
CS 139. Algorithm Development  4
ISAT 340. Software Development  3
ISAT 320. Fundamentals of Environmental Science and Technology I  3
ISAT 321. Fundamentals of Environmental Science and Technology II  3
GEOG 215. Geospatial Tools I – Cartography and GIS  3
Elective Courses  8
CS/BSAN 364. Decision Support Systems  3
CS 239. Advanced Computer Programming  4
CS 474. Database Design and Application  3
GEOG 216. Geospatial Tools II – Remote Sensing and GPS  3
GEOG 366. Introduction to Geographic Information Science  3
GEOG 385. Principles of Remote Sensing  4
GEOG 466. GIS and Geographic Databases  3
ISAT 341. Modeling and Simulation  3
ISAT 420. Environmental Analysis and Modeling  3
ISAT 426. Environmental Information Systems  3

24

1 Or equivalent by permission of director.

Note: ISAT 252 or CS 221 substitute for CS 139; CS 331 substitutes for CS 239; CS 474 substitutes for ISAT 340; ISAT 340 or CSB 204 substitute for CS 274; CS 330 substitutes for CS 474.

Environmental Management

Dr. Steven P. Frysinger, Coordinator

Phone: (540) 568-2710  Email: frysinsp@jmu.edu
Website: http://www.jmu.edu/environmentalmgt

The cross disciplinary environmental management minor prepares students to apply the principles of environmental science and engineering to contemporary environmental problems in natural resource, industrial and public policy contexts. The minor is particularly suitable for students interested in professional careers in industrial environmental management, natural resources management, and environmental policy and planning. After fulfilling prerequisite requirements in biology and statistics, students pursue the minor by completing core courses and electives. The environmental management minor strives to develop graduates who can apply science and technology to a broad range of practical environmental problems in a variety of professional settings.

Students are expected to be literate and competent in the sciences and mathematics underlying environmental problem solving. The environmental management minor requires a total of 29 credits, including prerequisite courses. The prerequisites must have been completed successfully before the student may be enrolled in the environmental management minor. Prerequisite courses may be fulfilled as part of the student’s major. At least one elective course must be outside of the student’s major.

Prerequisites  Credit Hours
BIO 124. Ecology and Evolution  4
Three hours from one of the following:
ISAT 251. Topics in Statistics for ISAT  3
MATH 220. Elementary Statistics  3
MATH 265. Data Analysis  3
MATH 318. Introduction to Probability and Statistics  3

Required Courses  Credit Hours
ISAT 320-321. Fundamentals of Environmental Science and Technology I-II  6
CHEM 241. Organic Chemistry I  3
ISAT 302. Instrumentation and Measurement of the Environment  1
ENVT 400. Capstone Seminar  3

Concentration  Credit Hours
See descriptions below  9

22

Concentrations

Students completing the environmental management minor must concentrate in one of three areas: natural resources, industrial systems or environmental policy. Students should be aware that some of the listed courses may have additional prerequisites.

Natural Resources

ISAT 424. Natural Resource Management
Choose two of the following courses:
BIO 402. Forest Ecology
BIO 456. Landscape Ecology
BIO 457. Biological Applications of Geographic Information Systems
BIO 459. Freshwater Ecology
BIO 465. Environmental Toxicology
CHEM 354. Environmental Chemistry Field Camp
CHEM/GEOL 355. Geochemistry of Natural Waters
GEOG 340. Biogeography
GEOG 341. Wilderness Techniques
GEOG 342. Management and Protection of Natural Resources
GEOG 343. Wildlife Management
GEOL 340. Soils and Land Use
ISAT 420. Environmental Analysis and Modeling
ISAT 425. Environmental Hydrology
ISAT 429. Sustainability: An Ecological Process

Industrial Systems

ISAT 422. Environmental Management
Choose two of the following courses:
HTH 352. Environmental Health
HTH 450. Epidemiology
ISAT 423. Environmental Remediation
ISAT 427. Industrial Hygiene
ISAT 428. Industrial Ecology

Environmental Policy

ISAT 421. Environmental Policy and Regulation
ISAT 422. Environmental Management or
ISAT 424. Natural Resource Management
One of the following courses:
BIO 465. Environmental Toxicology
ECON 305. Environmental Economics
ECON 340. Economics of Natural Resources
GEOG 325. Environmental Ethics
GEOG/ISAT 429. Sustainability: An Ecological Process
HIST 427. US Environmental History
ISAT 411. Energy Economics and Policy

http://www.jmu.edu/catalog/14
Environmental Science

Dr. Bruce Wiggins, Coordinator
Phone: (540) 568-8196 Email: wigginba@jmu.edu
Website: http://www.jmu.edu/environment/science.shtml

The environmental science minor is a cross disciplinary program that can be elected by any student. Students pursuing programs ranging from the physical, natural or social sciences to education, journalism or business could benefit from this broadly-based environmental curriculum. The program draws from courses that focus on the application of scientific concepts and principles to the understanding of environmental problems and their solutions. The minor draws upon the expertise of faculty in the areas of biology, chemistry, geography, physics and integrated science and technology.

The environmental science minor:

- provides a scientific background to those students interested in environmental law, environmental economics and environmental sustainability.
- broadens the student’s understanding of how sciences are linked to environmental questions.
- complements any major by focusing on courses related to environmental issues.

The minimum requirement for a minor in environmental science is 24 credit hours taken from the four groups outlined below. Students wishing to complete more than one of the environmental majors (environmental management, environmental science and environmental studies) may receive dual credit for the capstone course (ENVT 400), but may not receive dual credit for any other courses that might be shared by the minors. Pre-approved study abroad and/or internship experiences may be substituted for courses that might be shared by the minors. Pre-approved study abroad and/or internship experiences may be substituted for courses that might be shared by the minors. All students must complete the capstone course ENVT 400. Students must have completed 15 hours of their environment minor in order to enroll in the capstone.

Cross Disciplinary Programs: Minors

http://www.jmu.edu/catalog/14
Environmental Studies

Dr. Pete Bsumek, Coordinator

Phone: (540) 568-3388  Email: bsumekpk@jmu.edu
Website: http://www.jmu.edu/environment/studies.shtml

The environmental studies minor provides an interdisciplinary education engaging socio-cultural, scientific and technical issues raised by the often-conflicting needs and desires of globally interacting societies. Designed to complement any major, the goals of the environmental studies minor include:

- to help undergraduates develop an awareness of the cultural, political and scientific aspects of the world’s environmental problems.
- to better prepare students for further study at the graduate or professional school level and careers in the expanding field of environmental professions.

The minimum requirement for a minor in environmental studies is 24 credit hours taken from the four categories outlined. No more than three courses from a single subject (e.g., GEOG, GEOL, ANTH, ENG, etc.) may count toward completion of the environmental studies minor. Students wishing to complete more than one of the environment minors (environmental management, environmental science and environmental studies) may receive dual credit for the capstone course (ENVT 400), but may not receive dual credit for any other courses that might be shared by the minors.

Courses

Introduction to Environmental Literacy 1  3
GANTH 196. Biological Anthropology
GEOG 103. Contemporary Biology
GENG 221. Literature, Nature, Environment (this section only)
ENVT 200. Environmental Systems Theory
GEOL 102. Environment: Earth
GEOL 115. Earth Systems and Climate Change
GISAT 112. Environmental Issues in Science and Tech
GEOG 210. Physical Geography

Socio-Cultural Approaches to Environmental Studies 2  15
ANTH 373. Anthropological Perspectives on Environment and Development
ECON 305. Environmental Economics
ECON 340. Economics of Natural Resources
ENG 371. Literature and the Environment
ENG 372. Eco-Criticism and Environmental Ethics
GEOG 290. Human Interactions with the Physical Environment
GEOG 300. Population Geography
GEOG 310. Environmental Issues
GEOG 311. Endangered Environments
GEOG 320. Human Dimensions of Global Change
GEOG 322. Agricultural Systems
GEOG 325. Environmental Ethics
GEOG 341. Wilderness Techniques
GEOG 342. Management and Protection of Natural Resources
GEOG 343. Wildlife Management
GEOG 345. Geography of Poverty
GEOG/ISAT 429. Sustainability: An Ecological Process
GEOG 430. Geography of Crop Plants
HIST 427. U.S. Environmental History
ISAT 421. Environmental Policy and Regulation
PSC 484. Environmental Regulatory Policy and Politics
SLED 354. Communication, Environment and Environmentalism
SOC 311. Sociology of the Environment
WRTC 416/SCOM 485. Rhetoric of Environmental Science and Technology

Approved special topics courses

Approved internship programs
Approved study abroad courses

Environmental Science Literacy 3
BIO 451. Ecological Systems
BIO 452. Population Ecology
BIO 456. Landscape Ecology
BIO 457. Environmental Toxicology
BIO 459. Freshwater Ecology
GEOS 327. Climatology
GEOS 340. Biogeography
GEOL 211. Introduction to Oceanography
GEOL 310. Management of Marine Resources
GEOL 340. Soils and Land Use
ISAT 320. Fundamentals in Environmental Science

Senior Seminar Capstone Course
ENVT 400. Capstone Seminar  24

1 Minimum of three credit hours; can be double-counted with GenEd credits.
2 Minimum of 15 credit hours; only two courses with the same course subject may be taken.
3 Minimum of 3 credit hours

Family Studies

Dr. Nancy T. Poe, Minor Adviser

Phone: (540) 568-6955  Email: poent@jmu.edu
Website: http://www.jmu.edu/cisat/minors/family_issues.html

The minor in family studies is designed for undergraduates seeking enhancement of their major, desiring to increase understanding of self and relationships, and seeking to make a positive contribution to society. A substantial knowledge of family-related issues, family processes, policies, laws, services and the interrelationship of families and societies will enhance majors in many fields including anthropology, early and middle education, health sciences, management, nursing, psychology, social work and sociology. The minor encourages students to make connections between their major field and family studies, thereby adding value to the major. The family studies minor requires a minimum of 18 credit hours with no more than six credit hours in the student’s major.

One introductory course is required: either FAM 133 or SOCI 276. One course must be selected from each of these areas: Families in society, family and intimate relationships, and human development in the family. An additional course must be selected from any of the three areas or from family studies electives. A capstone course, FAM 400, is also required. At least four courses in the minor, including the introductory course, must have been completed prior to enrolling in FAM 400.

Required Courses

Introductory course (choose one of the following):  3
FAM 133. Contemporary Family
SOCI 276. Sociology of the Family

Families in Society (choose one of the following):  3
ECON 306. Economics of Women and the Family
GERN/SOCI 280. Social Gerontology
HIST 466. The Family 1400-1800
SOCI 303. Sociology of Death and Dying
SOCI 337. Sociology of Gender
SOWK 338. Issues and Policies in Family Services
SOWK 342. Child Welfare Services

Family and Intimate Relationships (choose one of the following):  3
HTH 372. Human Sexuality
PSYC 276. Psychology of Human Intimacy
PSYC 450. Psychology of Child Abuse and Neglect
SOWK 340. Violence in Families

Human Development in the Family (choose one of the following):  3
FAM 306. Child Development
FAM 335. Parent-Child Relationships Across the Lifespan

Approved internship programs
Approved study abroad courses

http://www.jmu.edu/catalog/14
GERN 304. Death and Dying: Thanatology 1, 5 3
GERN 365. Developmental Psychology 1, 7 3
GERN 470. Psychology of the Young Adult 1 3
GERN 475. Psychology of Adulthood 1 3
SOWK 387. Working with Teenagers 3

GERN 300. Family Issues and Applications 1 3
Additional family studies course (choose additional course from B, C, D or one of the following): 3
FAM 375. Grant Writing for Agencies 3
FAM 386. Youth Empowerment Strategies 3
FAM 487. Special Topics in Family Issues 3
FAM 490. Special Studies in Family Issues 3
FAM Elective 3

Required Courses Credit Hours
GERN 400. Skills and Techniques 1 3
GERN 495. Field Experience/Seminar 1 3
Major elective (must be a course in which the content is at least 50 percent in gerontology) 3
Elective (must be a course in which the content is at least 50 percent in gerontology) 3

1 Course has one or more prerequisites.

Film Studies
Kevin Reynolds, Coordinator
Phone: (540) 568-8183
Email: reynoljk@jmu.edu
Website: http://smad.jmu.edu/minor.html

The minor in film studies is designed for students who wish to extend their critical understanding of visual communication and narrative form by studying how movies tell stories, convey information and influence audiences. Because the program is cross disciplinary, it examines films as both art and entertainment, bringing together the literary traditions of English and the communication perspectives of media arts and design. Together, the aim is to explore cinema’s pictorial “language,” investigate its commercial consequences and evaluate its impact across cultures as a medium for enacting the human story.

Six credit hours may be double-counted between the minor and major. Information is available from the film studies adviser of the School of Media Arts and Design or the Department of English.

Required Courses Credit Hours
ENG 381. An Introduction to Film to 1960 3
SMAD 460. Movies and Society 3
SMAD 463. Film Adaptations 3
SMAD 498. Senior Seminar (when topic is film) 3

Cross Disciplinary Programs: Minors 109

Humanitarian Affairs
Prof. Sarah O’Connor, Coordinator
Phone: (540) 568-6242
Email: oConnosh@jmu.edu
Website: http://www.jmu.edu/cds/regional_area_studies/index.shtml

The cross disciplinary humanitarian affairs minor provides students with a global perspective on the major humanitarian crises facing the human community today. Students will investigate the impacts of natural disasters, disease, hunger and famine, poverty, conflict, and national and international policies on the welfare of human communities around the world.

Humanitarian Affairs
Dr. Dennis Blanton, Minor Adviser
Phone: (540) 568-7390
Email: blantodb@jmu.edu
Website: http://www.jmu.edu/humanitarian

The minor is designed for students interested in the sub-field of humanitarian studies, a discipline that integrates the research interests and methods of anthropology and history. The minor is designed to complement existing majors in anthropology and history, and it may also be of interest to students in art history and public administration. While guided by the theoretical underpinnings of history and anthropology, the minor in humanitarian studies is field- and research-oriented. Students enrolling in the program should anticipate courses that require significant effort outside of the classroom.

Two courses (six credits) may be double-counted between the minor and the student’s major.

Required Courses Credit Hours
ANTH/HIST 331. Historical Archaeology 3
ANTH 494. Field Techniques in Archaeology 4
HIST/ARTH 396. Introduction to Public History 3
Capstone research course 1 3
ANTH/HIST 496. Research Thesis 3
Choose three of the following:
ANTH/HIST 496. Research Thesis 9

1 The personalized capstone course can take place over one or two semesters and will require the student to work closely with a faculty advisor. The project will require the student to define a research topic, establish a theoretical and methodological base for the project, gather data, interpret the results and prepare an appropriate statement of findings.
2 Access to geology and geography courses is competitive and will require some computer experience.

Gerontology
Dr. B. J. Bryson, Minor Adviser
Phone: (540) 568-6980
Email: byrsonbj@jmu.edu
Website: http://www.jmu.edu/socwork/gerontology.html

The cross disciplinary minor in gerontology is designed for any undergraduate major desiring a concentration of study in gerontology for personal understanding or career preparation.

Required Courses Credit Hours
GERN/SOCI 280. Social Gerontology 3
GERN 305. Programs and Services for the Elderly 1 3

http://www.jmu.edu/catalog/14
They will also explore solutions to various humanitarian crises and evaluate the problems of practicing humanitarianism in the world today. Students will become acquainted with the organizations that address these crises and the challenges they face. Finally, students will acquire knowledge and skills that prepare them for careers in governmental and non-governmental organizations that address humanitarian issues.

The minor in humanitarian studies is open to all undergraduate students at JMU. Three of the required 18 credit hours must consist of HUMN 201. In addition, students are strongly encouraged to choose HUMN 490 as three of the other fifteen credits hours needed to complete the minor. The international experience must be one that will enhance the student’s knowledge of humanitarian issues and be approved by the humanitarian affairs minor coordinators. This experience can be completed abroad or with an international organization in the United States.

Core Requirements Credit Hours
HUMN 201. Introduction to Humanitarian Affairs 3
Choose five of the following, with no more than two from any single discipline:
HUMN/GEOG 301. Introduction to Natural Disasters 3
HUMN 350. Topics in Humanitarian Assistance 3
HUMN/GEOG 390. GIS for Humanitarian Assistance 3
HUMN 490. Humanitarian Affairs Field Experience 1
ANTH/SOCI 313. Processes of Social and Cultural Change 3
ANTH 366. Anthropology of War 3
ANTH 373. Anthropological Perspectives on Environment and Development 3
BIO 354. Global Climate Change and Life: Ecological and Biological Impacts of Climate Variability 3
BIO 420. Medical Parasitology 3
ECON 270. International Economics 3
ENGR 360. Water in Africa, Technology, Education and Reciprocity 3
GEOG 215. Geospatial Tools I – Cartography and GIS 3
GEOG 280. Human Geography: The Cultural Landscape 3
GEOG 300. Population Geography 3
GEOG 322. Agricultural Systems and Global Food Production 3
GEOG 323. Geography of Human Genetics and Infectious Disease 3
GEOG 335. Geography of Africa 3
GEOG 339. Geography of Caribbean 3
GEOG 345. Geography of Poverty 3
GEOG 375. Political Geography 3
ISAT 459. Awareness and Understanding of Chemical, Biological, and Radiological Weapons of Mass Destruction 3
JUST 235. Justice in the Global Community 3
JUST 341. Gender and Justice 3
JUST 345. Restorative Justice 3
JUST 357. Environmental Justice 3
JUST 375. Genocide in the 20th Century 3
JUST 377. Global Futures 3
JUST/POSC 392. Peace Studies 3
NPS 300. Introduction to Nonprofits 3
NUTR 380. Global Nutrition 3
POSC 200. Global Politics 3
POSC/JUST 331. Human Rights in Theory and Practice 3
POSC 340. Third World Development 3
POSC 347. Comparative Public Policy 3
POSC 348. The Politics of Cultural Pluralism 3
POSC 395. International Law 3
POSC 396. International Organizations 3
POSC 397. Politics of International Economic Relations 3
PSYC 460. Community Psychology in Developing Societies 3
SCOM 331. Communication and Conflict 3
SCOM 332. Mediation 3
SCOM/JUST 333. Negotiation 3
SCOM 334. Alternative Dispute Resolution 3
SOWK 288. Social Welfare 3
SOWK/SOCI 348. Introduction to Developing Societies 3
SOWK 375. Grant Writing for Agencies 3
WRTC 314. Writing in the Public Sphere 3
WRTC 484. Writing for Nonprofits 3
WRTC 486. Writing in the Community 3

1 When used for credit in the humanitarian affairs minor, the international experience must be approved and supervised by the minor coordinator or designated faculty member.

Interdisciplinary Social Science
Dr. David Dillard, Coordinator
Phone: (540) 568-3757 Email: dillarpd@jmu.edu
Website: http://www.jmu.edu/iss

The cross disciplinary social science minor offers a program of integrated study that exposes students to diverse methodologies, philosophies and controversies that define the social sciences. It is a required minor for secondary education students who wish to teach social studies. The ISS minor incorporates economics, geography, history and political science and is offered in two forms for secondary education students. Secondary education students will major in either history or political science and then complete the ISS minor that corresponds to the major. Through this minor and the completion of the B.A. degree in history or political science, students will gain the content knowledge necessary for success in secondary education in social studies. Student not selecting the secondary education licensure program may declare either form of the ISS minor.

History Major with ISS Minor
For history major requirements, see Page 214.

Degree Requirements
General Education 1 41
Foreign Language classes (intermediate level required) 2 0-14
Philosophy course (in addition to General Education courses) 3
Major requirements 33-34
Minor requirements (listed below) 26
Electives 2-16 120

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 The foreign language requirement may be satisfied by successful completion of the second semester of the intermediate level of the student’s chosen language (typically 232), or by placing out of that language through the Department of Foreign Languages, Literatures and Cultures’ placement test.

Political Science Major with ISS Minor
For political science major requirements, see Page 288.

Degree Requirements
General Education 1 41
Foreign Language classes (intermediate level required) 2 0-14
Philosophy course (in addition to General Education courses) 3
Major requirements 33
Minor requirements (listed below) 22
Electives 7-21 120

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 The foreign language requirement may be satisfied by successful completion of the second semester of the intermediate level of the student’s chosen language (typically 232), or by placing out of that language through the Department of Foreign Languages, Literatures and Cultures’ placement test.
ISS Minor Requirements

To be licensed to teach secondary school social studies, the student must satisfactorily complete requirements for a baccalaureate degree in either history or political science and complete the ISS minor that is paired with that major.

Latin American and Caribbean Studies

Dr. William Van Norman, Coordinator

Phone: (540) 568-7318 Email: vannormc@jmu.edu
Website: http://www.jmu.edu/lacs/index.shtml

This cross disciplinary minor helps students to acquire a deeper understanding of Latin America and the Caribbean. All minors must attain proficiency in Spanish, Portuguese or French at or above the intermediate level (SPAN/PORT/FR 232 or equivalent). In addition to the language requirement, the minor consists of 18 approved credit hours. Across those 18 credits, students must select courses in at least three different disciplines. Participants in the minor are encouraged to explore the possibility of studying in a Latin American or Caribbean country for a semester or summer session. See the website for changes in required courses.

Courses Credit Hours

Complete two courses from among the following: 6

- ANTH 265. Peoples and Cultures of Latin America and the Caribbean
- GEG 337. Geography of Latin America
- GUM 252. Cross Cultural Perspectives: Latin American Cultures

- SPAN 395. Latin American Poetry of the 20th Century
- SPAN 408. Aspects of Latin American Civilization
- SPAN 415. The Spanish-American Novel
- SPAN 446. Special Topics in Linguistics, Literature or Civilization
- SPAN 465. Cinema and Literature
- SPAN 490. Special Topics in Spanish

1 GUM 252 is typically offered in several sections each semester; many of these sections do not focus on Latin America. Students must take the version focused on Latin America for GUM 252 to count as part of the Latin American studies minor. GUM 252 counts as a history course unless taught by faculty from another discipline.

2 This is a special topics or special studies course. It may count for the minor, but only if it deals with Latin America or the Caribbean. Contact the coordinator for approval.
Logic and Reasoning
Coordinator: Dr. Tracy Lupher
Phone: (540) 568-6394

Coordinator: Dr. Thomas Adajian
Phone: (540) 568-6394

Logic and reasoning are central to human inquiry. The minor brings together several disciplines which take logic and reasoning as part of their subject matter, emphasize the core logical elements that are common across disciplines and show how to apply these common logical concepts and tools in different domains. The requirement for a minor in logic and reasoning is 18-19 credit hours from a set of core courses and six credit hours from electives.

**Medieval and Renaissance Studies**

Dr. Peter Eubanks, Coordinator
Phone: (540) 568-3511 Email: eubankpj@jmu.edu
Website: http://www.jmu.edu/medren

The Medieval and Renaissance Studies minor focuses on the period from the fall of Rome (5th century C.E.) to 1700. The minor allows students to take courses in art history, English, history, music, philosophy, political science, religion, and a range of languages (Arabic, French, Spanish, German, Italian and Latin as well as medieval languages such as Old English and Middle English) in the original or in translation. Students focus on either the Medieval or the Renaissance periods or combine course work from both periods.

The minor requires 18 credits total from the list below, with the following restrictions. The 18 credit hours must include courses from at least three distinct disciplines. Note that all foreign language courses (ARAB, FR, GER, ITAL and LAT) fall into the single discipline of foreign languages and literatures. At least four of the six required classes must be taken from the intermediate or advanced categories. It is recommended that students take one introductory course before taking the 300 or 400 level classes.

Other courses with significant Medieval and/or Renaissance content may be counted toward the minor with the approval of the coordinator. In addition, students interested in pursuing a three-credit hour focused individual research project should contact individual faculty members with whom they might wish to work to determine the feasibility of this option in their particular cases. Only one such independent study will count toward the minor.

Approval of the minor coordinator will also be required in the following two cases. First, courses with an asterisk will count toward the minor only if their content is focused on the Medieval and/or Renaissance periods. Second, because the content of HUM 200, HUM 250 and HUM 252 may vary, the minor coordinator will determine the appropriate disciplinary category for these courses.

**Introductory Courses**

<table>
<thead>
<tr>
<th>Course</th>

Middle Eastern Communities and Migrations

Dr. Shah Mahmoud Hanifi, Coordinator

Phone: (540) 568-1743  Email: hanifism@jmu.edu
Website: http://www.jmu.edu/mecm

This minor concentrates on social and political issues involving Muslim, Christian and Jewish populations in their own right and in relation to one another in the territory between the Nile and Indus rivers during the modern period. The program is also designed to accommodate consideration of other communities including Hindu and other South Asians, Anatolian and Central Asian Turks, and Mediterranean peoples in the larger area stretching from North Africa to Southeast Asia as well as Middle Eastern diaspora communities in Europe and the Americas from the ancient period to the present.

The cross disciplinary orientation of the program emphasizes comparison and a synthesis of local, regional, trans-national and global perspectives. The program provides an intellectual foundation that can be usefully applied and built upon in graduate school, the private sector or government service. Students are required to take 18 credits comprised of six credits of core course work and 12 credits of electives structured as follows:

### Core Courses

Students must take two of the following three courses to fulfill the six-credit core course work required for the minor:

- **GHuman 252. Islamic Civilization**  
  Credit Hours: 3
- **HIST 269. Premodern Middle East**  
  Credit Hours: 3
- **HIST 270. The Modern Middle East**  
  Credit Hours: 3

Choose any of the following courses to fulfill the remaining 12 credits.

#### Regular Offerings

- **Department of Foreign Languages, Literatures and Cultures**
  - ARAB 101. First Semester Arabic  
    Credit: 3
  - ARAB 102. Second Semester Arabic  
    Credit: 3
  - ARAB 111-112. Intensive Arabic  
    Credit: 6
  - ARAB 211-212. Intensive Arabic  
    Credit: 6
  - ARAB 231. Third Semester Arabic  
    Credit: 4

#### Modern European Studies

Dr. John Scherpereel, Coordinator

Phone: (540) 568-3933  Email: scherpja@jmu.edu

The minor in modern European studies provides a cross disciplinary understanding of social dynamics in Europe from the Enlightenment (18th century) through the present. All minors must attain proficiency in French, German, Italian, Spanish or another European Union language at or above the intermediate level (FL 232 or above).

Students must complete 18 credit hours in addition to the language requirement. These 18 credit hours must include six core credits and 12 elective credits. Six elective credits must cover culture and thought, and six elective credits must cover history and society. The minor's 18 credits must be distributed across at least three disciplines and must include at least one history course.

Cross Disciplinary Programs: Minors 113

Additional Courses

The following three-credit courses are offered at varying intervals and can count toward the MECM minor if they are structured to include substantial content relating to the foci and goals of the program. Contact the program coordinator to apply one of these courses to the MECM minor.

- **Department of English**
  - ENG 430. Studies in Comparative Literature  
    Credit: 3

- **Department of Foreign Languages, Literatures and Cultures**
  - ARAB 330. Business Arabic  
    Credit: 3
  - ARAB 340. Intermediate Arabic Conversation  
    Credit: 3
  - ARAB 400. Arabic Advanced Conversation  
    Credit: 3
  - ARAB 446. Special Topics in Arabic Literature  
    Credit: 3
  - ARAB 447. Special Topics in Arabic Civilization and Culture  
    Credit: 3
  - ARAB 448. Special Topics in Arabic Linguistics: Advanced Arabic Grammar  
    Credit: 3

- **Department of Political Science**
  - POSC 340. Political Development in the Third World  
    Credit: 3
  - POSC 361. Topics in International Relations  
    Credit: 3
  - POSC 371. Topics in Comparative Politics  
    Credit: 3
  - POSC 435. Seminar in International Terrorism  
    Credit: 3

- **Department of Philosophy and Religion**
  - REL 309. Jihad in Islamic Traditions  
    Credit: 3
  - REL 300. Selected Topics in Religion  
    Credit: 3

The College of Arts and Letters departments offer a number of courses listed generically, usually at the 300- and 400-level (including disciplinary capstone and methodology courses, often numbered 395) that can also count toward the MECM minor under certain circumstances.

1 No more than nine credits of foreign language course work can be used toward minor requirements.
2 Offered every fall semester.
3 Offered every spring semester.
4 Offered May-June summer term only.
5 Offered every third semester.
6 Offered every fall or spring semester.
7 Offered every two years.
8 Offered every fall and spring.

Nonprofit Studies
Dr. Karen Ford, Minor Adviser
Phone: (540) 568-6875 Email: fordka@jmu.edu
Website: http://www.jmu.edu/socwork/nonprofit.html

The nonprofit studies minor prepares students from a variety of disciplines to understand the unique role of nonprofit organizations in American society today. Emphasis is placed on history, theory, legal issues and management topics. The minor includes a capstone seminar and a field experience in a nonprofit agency with the focus to be determined in conjunction with the adviser.

The nonprofit studies minor requires a minimum of 18 credits.

Political Communication
Dr. Valerie Sulfaro, Coordinator
Phone: (540) 568-3997 Email: sulfarva@jmu.edu
Website: http://www.jmu.edu/commstudies/pc_minor.shtml

The program in political communication is designed for those students wishing to supplement their major programs with an emphasis on communication skills, knowledge and abilities specifically relevant to participation in political environments. Students must complete a core set of courses, an internship in the field of political communication and a selection of electives. All political communication minors are required to take a PCOM internship in the Department of Political Science or the Department of Communication Studies. Before enrolling for a PCOM internship, students should have attained junior status, completed the PCOM core requirements and taken at least one upper level PCOM course.

To view the full catalog, visit http://www.jmu.edu/catalog/14
Some academic units may have additional prerequisites for their internship course. All SCOM majors with a minor in PCOM are required to take SCOM 495 for their PCOM internship requirement (and to have met the prerequisites for this course). POSC, INTA and PPA majors minoring in PCOM must complete POSC 493 to fulfill the internship requirement. All other majors may take either POSC 493 or SCOM 318 as a means of satisfying their internship. Before pursuing any internship, students must consult with the PCOM coordinator to ensure that the internship is suitable for the minor.

For majors in SCOM who minor in PCOM, a maximum of six credits of course work from the minor can be counted toward the requirements for their major. For SMAD majors, only three credits from the minor maybe counted toward the requirements for their major.

There is no limit on double counting between the POSC major and the PCOM minor. All students must complete 25-26 credit hours for the minor.

**Electives**

Choose at least six credits from the following: 3-6

- CS/ISAT 344. Intelligent Systems
- CS 444. Artificial Intelligence
- MATH 238. Differential Equations
- MATH 248. Numerical Methods
- MATH 341. Nonlinear Dynamics and Chaos
- PHYS 371. Introduction to Digital Electronics
- PHYS 372. Microcontrollers and Their Applications

**Supervised Robotics Project Course**

Choose one of the following: 3-4

- CS 497. Independent Study
- ENGR 431/432. Engineering Design V and VI
- ISAT 493. Senior Capstone Project III
- PHYS 497. Topics in Physics

1. A basic preparation course may be waived by the minor adviser if a student has completed a comparable course or experience.
2. Must be an ISAT 252 section taught using a procedural programming language (e.g., Python).
3. Must be an approved section of SCI 101 and SCI 104, with a robotics theme.
4. At least one elective must be from a different department from the core course.

---

**Robotics**

**Dr. Ralph Grove**

Phone: (540) 588-6288 Email: groverf@jmu.edu

The interdisciplinary minor in robotics is intended to offer STEM majors and other students with an interest in science and technology a fundamental understanding of scientific and technical issues involved in the design, construction and application of robots.

**Educational Goals**

- Students will have a basic understanding of robot control systems, sensors, motion, circuits and the overall design of robots.
- Students will be able to design and develop autonomous robots and robot control software.
- Students will develop an understanding of how advances in robotics technology can be used in diverse real-life applications.
- Students will learn to work on an interdisciplinary team developing a technical product.

**Russian Studies**

**Dr. Maria Galmarini, Co-coordinator**

Phone: (540) 568-3578 Email: galmarmx@jmu.edu

**Dr. Stephany Plecker, Co-coordinator**

Phone: (540) 568-3578 Email: pleckesg@jmu.edu

This minor offers students a broad, cross disciplinary perspective on Russian culture, history, political institutions, economy and geography. This program deepens the students’ understanding and knowledge of the Russian and non-Russian peoples of the former Soviet Union, and prepares them for careers in teaching, government and international business.

http://www.jmu.edu/catalog/14
Science, Technology and Society

Dr. Kevin Borg, Coordinator

Phone: (540) 568-5761  Email: borgkl@jmu.edu
Website: http://www.jmu.edu/sts

Science, technology and society (STS) is an internationally recognized field of cross disciplinary study that integrates philosophical, social scientific and humanistic studies to better understand the natural and human-built world. The minor offers students the opportunity to critically examine science, technology and medicine as methods for reasoning about and acting upon the natural world and as expressions of human cultures, past and present.

Students learn to scrutinize the ideas, reasoning, values, practices and artifacts embedded in the world they inhabit today. They explore how choices made within various historical, social, economic and political contexts sometimes influence the development of science, technology and medicine. They also see how the adoption and diffusion of ideas, artifacts and techniques can then influence individuals, society, politics and culture. Courses in this minor draw students together from diverse majors across the campus and encourage open inquiry into the role of science and technology in society.

The minor in STS is open to all undergraduate students at JMU. Courses taken to complete the STS minor can also be used to satisfy the student’s major, as well as General Education requirements.

The STS minor requires 18 credit hours with at least one course each from the history, sociology and ISAT courses listed.

- HIST 427. U.S. Environmental History
- HIST 443. Modern American Technology and Culture
- ISAT 231. Political Economy of Technology and Science
- ISAT 311. Role of Energy in Modern Society
- ISAT 411. Energy Economics and Policy
- ISAT 421. Environmental Policy and Regulation
- ISAT 456. Ethical, Legal and Social Implications of Biotechnology
- ISAT 464. Telecommunications in the Public Interest
- ISAT 471. Transportation: Energy, Environment and Society
- ISAT 477. Complex Systems and How They Fail
- PHIL 396. Philosophy of Physics
- PHIL 397. Philosophy of Space and Time
- PHIL 398. Philosophy of Quantum Theory
- PHIL 410. Philosophy of Science
- SOCI 311. Sociology of the Environment
- SOCI 316. Space, Time and the Human Social Environment
- SOCI 366. Sociology of Knowledge
- SOCI 375. Medical Sociology
- WMST/ISAT 485. Gender Studies in Science
- WRTC 358. Writing About Science and Technology
- WRTC 416/SCOM 465. Rhetoric of Environmental Science and Technology
- WRTC 458. Scientific and Medical Communication

Special topics courses not listed can be applied to the minor with prior approval of the program coordinator.
Substance Abuse Prevention

Katherine Ott Walter, Adviser

Phone: (540) 568-8972  Email: ottwalrk@jmu.edu

This cross disciplinary substance abuse prevention minor provides the student with the foundational knowledge and skills necessary to assist communities in designing science-based prevention programs to encourage healthy attitudes and behaviors toward alcohol, tobacco and other drugs. Course work in this minor will help prepare the student for the Certified Prevention Professionals- ATOD exam, which they can take after one year of prevention-related paid work experience and additional prevention-specific training.

http://www.jmu.edu/catalog/14
The minor in urban and regional studies prepares students for careers or graduate training in government. While satisfying the B.A. or B.S. requirements of their chosen major, students may complement that major with a 24 credit hour minor in urban and regional studies drawn from the following courses.

**World Literature**

**Dr. Ramenga Mtaali Osotsi, Coordinator**

**Phone:** (540) 568-6560

The undergraduate minor in world literature provides students with a chance to study literature from the following areas: Africa, Australasia, Latin America, Middle East, Central Asia, East Asia, South Asia, and a special interest area (Native America, African America, Caribbean, and sections of Europe traditionally not covered in an average student's classroom experience). By offering a broad yet substantial introduction to literatures produced beyond their traditional Western experience, the minor provides students with a bridge to new cultures and languages. Through a careful examination of literary traditions produced by others, students will be encouraged to develop a clear understanding of the relationship between culture and literature as well as the capacity to think outside the parameters of their own cultural background. Courses that contribute to this minor address both the cultural contexts from which given works emerge and to which they respond, as well as the actual formal literary qualities of the works. By exploring various literary traditions, students will better understand how literature both reflects and interrogates culture. Students interested in the shape of tomorrow's world will benefit from this exposure to a global perspective on human cultures. This is also good foundation for students aiming to study, especially comparative literature, at the graduate level.

**Website:** [http://www.jmu.edu/catalog/14](http://www.jmu.edu/catalog/14)
The program is sponsored jointly by the Department of English and the Department of Foreign Languages, Literatures and Cultures. World literature courses offered by the English department study different non-English language-literatures. No prior foreign language training is assumed or required.

The minimum requirement for a minor in World Literature is 21 credits with a least 9 credit hours drawn from each department. All texts and instruction for courses from the Department of English and for 200-level and 400-level courses from the Department of Foreign Languages, Literatures and Cultures are in English. All other courses offered by the Department of Foreign Languages, Literatures and Cultures are taught in the target language, allowing students to study literature in the original language.

When designing their plan of study, students should note that the gateway course and one 200-level course in foreign languages and literatures can count toward general education or major requirements, but no other courses in the minor program can. Students must take course work from the Department of Foreign Languages, Literatures and Cultures component in two or more language-literatures (e.g., French and Spanish or German and Russian). The program coordinator and the head of each of the sponsoring departments will have a list of world literature courses at the time of registration. Students should consult the program coordinator about new courses and appropriateness of topics of special studies/special topics courses. Some of these courses may include several sections per term (e.g., GHUM 200, Great Works) and only those sections indicated in the schedule of classes will satisfy the world literature requirement.

Mission Statement
The educational mission of the Center for Materials Science is to develop and maintain an innovative interdisciplinary and multidisciplinary undergraduate program in materials science that will increase the maturation of students, their research experience and their employment opportunities. The mission includes the integration of undergraduate education with basic and applied research in materials science.

Goals
- To develop an undergraduate interdisciplinary, multidisciplinary curriculum in materials science.
- To integrate undergraduate education with basic and applied research.
- To increase funding for applied and basic research in materials science. (Faculty and students focus on problems of interest to industry and government in materials processing, materials characterization, materials applications and thermal sciences including thermal structural interactions and infrared analysis.)

Minor Requirements
The minor in materials science includes four major components:

- A choice of an entry-level introductory course in materials science.
- A lecture or laboratory course that emphasizes more specialized areas in materials science.
- Materials science electives that can include all specialized courses.
- Research or an additional materials science lecture or laboratory experience.

Courses for the minor are offered through the departments of chemistry, geology and environmental studies, integrated science and technology, mathematics, or physics.

Courses

Courses Credit Hours
Choose one of the following:

- MATS/CHEM/PHYS 275. An Introduction to Materials Science 3
- MATS/GEOL 395. Geologic Perspectives in Materials Science 3
- MATS/ISAT 430. Materials Science in Manufacturing 3

Choose one of the following:

- MATS/PHYS 381. Materials Characterization 3
- MATS/PHYS 432. Selection and Use of Engineering Materials and Manufacturing Processes 3
- MATS/ISAT 43B. Micro-Nanofabrication and Applications 3

Materials Science Electives 9
Research or additional materials science laboratory course 3

Concentration Requirements
The concentration in materials science consists of 12 credits hours of course work approved by the student’s adviser and by the director of the center. Appropriate courses may be chosen from materials science offerings in the areas of chemistry, geology and environmental studies, integrated science and technology, mathematics, and physics. This concentration must be pursued in conjunction with a designated major in chemistry, geology and environmental studies, integrated science and technology, biology, mathematics, or physics.

Courses

Courses Credit Hours
Choose one of the following:

- MATS/CHEM/PHYS 275. An Introduction to Materials Science 3
- MATS/GEOL 395. Geologic Perspectives in Materials Science 3
- MATS/ISAT 430. Materials Science in Manufacturing 3

MATS Electives 6
Research or Materials Science Laboratory Course 3

Research in Materials Science
Register for Research in Materials Science under one of the following:

CHEM 497. Undergraduate Research (in materials science, 2-4 credits)
GEOL 497. Problems in Geology (in materials science, 1-3 credits)
ISAT 491, 492, 493. Thesis (in materials science, 6 credits)
PHYS 49BR. Undergraduate Physics Research (in materials science, 2-4 credits)
MATS 49BR. Undergraduate Materials Science Research (1-3 credits, repeatable to 6 credits)

Materials Science Elective Courses

Courses Credit Hours
CHEM 300. Introduction to Petrology 3
MATS/PHYS 337. Solid State Physics 3
MATS/PHYS 381. Materials Characterization (Lecture/Lab Course) 3
MATS 382. Microfabrication Laboratory (Lecture/Lab Course) 3
PHYS 380. Thermodynamics and Statistical Mechanics or
CHEM 331. Physical Chemistry I 3
MATS/ISAT 431. Manufacturing Processes 3
MATS/ISAT 432. Selection and Use of Engineering Materials and Manufacturing Processes 3
MATS/ISAT 43B. Micro-Nanofabrication and Applications 3
CHEM 445. Polymer Chemistry 3
MATS/GEOL 398. X-RAY Characterization of Solid Materials 3

Special Topics in materials science registered under:

CHEM 480. Selected Topics in Chemistry (materials science) 1-3
GEOL 398. Topics in Geology (materials science) 1-4
ISAT 480. Selected Topics in ISAT (i.e., light metals) 1-4
MATH 483. Selected Topics in Applied Mathematics (materials science) 3
MATS 49BR. Undergraduate Materials Science Research 3
PHYS 497. Topics in Physics (materials science) 1-4

Academic Advising
Faculty members in the Center for Materials Science are dedicated advisers who will assist students in developing a minor that will enhance their academic experience with the goal of improving their employment and post-graduate opportunities.

http://www.jmu.edu/catalog/14
Environmental Programs at James Madison University

Website: http://www.jmu.edu/environment

At JMU, environmental study is embedded in a variety of disciplines. Students from throughout the university have the opportunity to study environmental issues by majoring in an environmental program or choosing a minor that complements any major.

Majors and Concentrations

Students wishing to major in a field that addresses the environment can choose from the following:

**Biology (B.S.)**
The biology major offers a concentration in ecology and environmental biology.

**Earth Science (B.A.)**
The B.A. in Earth science degree is designed to integrate all the Earth sciences in a systems approach to understanding the Earth.

**Economics (B.A., B.S. and B.B.A)**
Students can pursue a concentration in environmental and natural resource economics within the economics major.

**Engineering (B.S.)**
The JMU engineering program empowers and motivates students to engineer systems for sustainable societies.

**Geographic Science (B.S.)**
The geographic science major, housed in the Department of Integrated Science and Technology, offers a concentration in environmental conservation, sustainability and development.

**Geology (B.S.)**
Within the geology major, students can select a concentration in environmental and engineering geology.

**Integrated Science and Technology (B.S.)**
The ISAT major offers a concentration in environment.

**Minors**

Any of the environment minors may be taken in conjunction with any STEM (Science, Technology, Engineering and Mathematics) area major. They also may be taken in conjunction with a major from any other JMU academic area in order to explore environmental issues from differing perspectives. The minor coordinators can assist a student in selecting a combination of major and minor study that best responds to a student's particular environmental interests and career goals.

Students should be aware that most minors have prerequisites, meaning that certain courses must be completed before a student can enroll in other courses. Consult with the minor adviser for additional information and recommendations for scheduling.

**Environmental Information Systems**
The cross disciplinary minor in environmental information systems is designed for undergraduates interested in using computer and information management technology to solve environmental problems and improve environmental stewardship.

**Environmental Management**
The cross disciplinary environmental management minor prepares students to apply the principles of environmental science and engineering to contemporary environmental problems in natural resource, industrial and public policy contexts. The minor is particularly suitable for students interested in professional careers in business, natural resources management and environmental policy and planning.

**Environmental Science**
The environmental science minor draws from courses that focus on the application of scientific concepts and principles to the understanding of environmental problems and their solutions. This is a multidisciplinary program that can be elected by any student. For example, students pursuing programs ranging from the physical, natural or social sciences, to education, journalism or business, all benefit from this broadly based environmental curriculum.

**Environmental Studies**
The environmental studies minor provides a cross disciplinary education engaging socio-cultural, scientific and technical issues raised by the oft-conflicting needs and desires of globally interacting societies.

**Centers and Institutes**

**Center for Materials Science**
Website: http://csm.jmu.edu/materialsscience

The Center for Materials Science at James Madison University was established in 1996 as a resource to integrate undergraduate education with basic and applied research in materials science. The center is a multidisciplinary initiative of the College of Integrated Science and Engineering and the College of Science and Mathematics. Faculty in five different departments participate in the center. The center provides students the opportunity to develop broad multidisciplinary skills and knowledge in the science of materials.

**Center for Health and Environmental Communication**

Dr. Peter Bsumek, bsumekpk@jmu.edu
Dr. Sharlene Thompson, thompssr@jmu.edu

The Center for Health and Environmental Communication (CHEC) is housed in the School of Communication Studies. The CHEC utilizes the expertise of the school’s faculty and students to facilitate original academic research, coordinate community outreach and advocacy projects, and serve as a community resource on matters related to understanding and improving public and private communication in the health and environmental contexts. The CHEC recognizes that how we communicate is as important as what we communicate. Central to its mission is facilitating constructive and productive communication between experts and non-experts, between clients and providers, between communities, and between community members and decision makers.

http://www.jmu.edu/catalog/14
Collaboration for Environment, Health and Safety
Website: http://www.jmu.edu/cehs
The Center for Environment, Health & Safety (CEH&S) was created to acknowledge and facilitate the many industrial environmental and occupational safety and health management endeavors with which JMU faculty, staff and students are involved. CEH&S serves as a conduit to the faculty involved and/or interested in environment, health and safety functions and projects. It is hoped that this presence will allow the university to better serve the industrial community while providing practical experience for students and faculty. CEH&S is administratively located in the College of Integrated Science and Technology, while its function is university wide.

Institute for Energy and Environmental Research
Website: http://www.jmu.edu/ieer/index.shtml
The Institute for Energy and Environmental Research (IEES) builds on JMU’s recognized leadership in the Commonwealth of Virginia for developing and implementing innovative alternative energy solutions and applied environmental research programs. In addition to working with faculty, staff and students at JMU, the Institute for Energy and Environmental Sustainability, housed within the Office of the Vice Provost for Research and Public Service, facilitates strategic alliances with external partners to advance the university’s research and service projects.
Initiatives within IEES include Valley 25x’25, Virginia Wind Energy Collaborative and the Virginia Coastal Energy Research Consortium. JMU is also home to the Alternative Fuel Vehicle Lab, which provides opportunities for students to convert and adapt vehicles to operate on renewable fuels.

JMU Farm
Dr. Carole Nash, Faculty Sponsor
Phone: (540) 568-6805
Email: nashcl@jmu.edu
The JMU farm, located in Port Republic, consists of 12 hectares (30 acres) of second growth forest, 300 meters (1000 feet) of frontage on the North River (just upstream of the formation of the Shenandoah River) and an historic brick house. This facility is intended to:
- provide an ideal space in which to disseminate environmental information to school students and community groups.
- support on-going JMU student projects involving air quality, surface and ground water quality, and alternative energy systems.
- provide an inviting off-campus venue for workshops, meetings and symposia.
The facility can be reserved for JMU-related events by contacting the Office of Academic Resources at (540) 568-3744.

Institute for Innovation in Health and Human Services

Dr. Rhonda M. Zingraff, Director
Phone: (540) 568-2705
Location: ISAT/CS Building, Room 367

Mission
The Institute engages students in career preparation by promoting scholarship, providing interprofessional learning experiences, and connecting our campus with communities through innovative programs that advance quality of life.

The following centers, programs and activities connect our campus with communities while advancing scholarship and achieving exceptional learning experiences.

Adult Health and Development Program (AHDP)
Nancy Owens, Director
The Adult Health and Development Program is an intergenerational program designed to promote health in older adults (those 55+). College students work one-on-one with older adults from the local community. An individualized program is designed to meet each program participant’s unique needs. The program develops a sense of positive health and well-being in the older adult and promotes a sense of community on a broader scale.

Alvin V. Baird Attention and Learning Disabilities Center
Dr. Trevor Stokes, Director
The mission of the Alvin V. Baird Attention and Learning Disabilities Center is to develop and promote evidence-based interventions for children and adolescents with attention and learning challenges, while educating families, teachers, students and professionals about best practices for their assessment and treatment. Attention and learning factors are present across a range of developmental and psychological disorders, which are the focus of activities at the Baird Center. These include: attention deficit hyperactivity disorders, autism and pervasive developmental disorders, disruptive behavior disorders, mood disorders and psychological factors related to medical conditions.

Blue Ridge Area Health Education Center
Deb Stranges, Director
The Blue Ridge Area Health Education Center (AHEC) at JMU strives to improve the health of communities through education, collaboration and cooperation. It focuses on the health care needs of vulnerable populations. The AHEC fosters partnerships that utilize academic and community resources and directs these resources to health and human service gaps that exist within communities. The AHEC program has been a traditional link between academic health and human service programs and communities, utilizing student, faculty and other academic resources to the benefit of the communities.

Blue Ridge Area Health Education Center
Deb Stranges, Director

Email: zingraam@jmu.edu
Website: http://www.iihhs.jmu.edu

Campus Suicide Prevention Center of Virginia
Dr. Jane Wiggins, Director
The goal of the Campus Suicide Prevention Center of Virginia is to reduce risk for suicide on Virginia’s college and university campuses. Specifically, this program supports the individuals and teams on each campus as they work to build the infrastructure necessary to promote mental health for all students, identify and support those with mental health concerns, and effectively respond to individuals who are at risk for suicide.

Caregivers Community Network
Stacy Hansen, Director
Caregivers Community Network (CCN) provides services, companionship and support for those who care for frail older family members. CCN also provides services for those with memory loss or Alzheimer’s disease. CCN can help to give caregivers a break and provide valuable time for attention to family concerns. Services are evidence-based and customized for each individual.

Claude Moore Precious Time Pediatric Respite Care Program
Melissa Leisen, Faculty Director
Darcy Bacon, Program Director
The Claude Moore foundation awarded this program grant funds to provide respite care to families who have special needs children. This respite program relies on students from nursing, social work, psychology, and other health and human service majors to provide caregivers with supportive assistance in meeting the demands of their family responsibilities.

Community Health Interpreter Service
Deb Stranges, Director
Linguistic and cultural barriers seriously compromise the quality of health care received by hundreds of Shenandoah Valley residents. To address this challenge, the Community Health Interpreter Service provides training to bilingual persons to serve as interpreters for persons with limited English proficiency during health care encounters. The program schedules interpreters upon request from area health care providers.

Counseling and Psychological Services
Dr. Tim Schulte, Director
Counseling and Psychological Services (CAPS) is a teaching, research and service mental health clinic. CAPS offers affordable outpatient mental health services to the Harrisonburg and Rockingham County community while providing students in the Department of Graduate Psychology experience in assessment and treatment of psychological problems.

http://www.jmu.edu/catalog/14
developed training modules for Virginia’s home health workforce. The Home Visiting Consortium is a statewide network of the Institute for Innovation in Health and Human Services, and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Page County (HFSC) and the two that operate in IIHHS providing case management services as needed. Staffed by a nurse practitioner and nurse case manager, this new model of healthcare delivery to homeless populations exemplifies a model of service that aims to break the cycle of homelessness by providing healthcare delivery with positive long term results.

Healthcare for the Homeless
Suitcase Clinic
Dr. David Cockley, Director
Dr. Bill Grant, Director
The Healthcare for the Homeless Suitcase Clinic provides health care at the point of contact in local shelters and human service agencies. Specifically, it provides on-site primary care services to homeless clients enrolled in local shelters while simultaneously providing case management services as needed. Staffed by a nurse practitioner and nurse case manager, this new model of healthcare delivery to homeless populations exemplifies a model of service that aims to break the cycle of homelessness by providing healthcare delivery with positive long term results.

Health Policy Office
Dr. David Cockley, Director
Dr. Bill Grant, Director
The JMU Health Policy Office is a research and education arm of the Institute for Innovation in Health and Human Services. It provides research expertise on the tracking, development and analysis of relevant local, regional and federal public health policies. Particular emphasis is placed on addressing policies that impact rural communities, disadvantaged populations, and the geriatric and immigrant populations that are prominent in the western Virginia region. The center also supports the education arm of the university by providing interdisciplinary resources for the instruction and application of health policy in organizational and community settings.

Healthy Families Page County (HFPC)
Emily Akerson, Director
Healthy Families Shenandoah County (HFSC)
Yvonne Frazier, Program Manager
Healthy Families programs are based on a national program model and the two that operate in IIHHS provide education, resources and support for the most vulnerable first-time parents in Page and Shenandoah Counties through voluntary home visiting services.

Home Visiting Consortium
Heather Taylor, Coordinator
The Home Visiting Consortium is a statewide network of the early childhood home visiting programs which receive state funds and serve families of children through age five. Seeking to increase the quality and effectiveness of home visiting services, the consortium has identified a core set of knowledge areas and developed training modules for Virginia’s home health workforce.

Interprofessional Autism Services Clinic
Dr. Trevor Stokes, Director
The Interprofessional Autism Clinic provides in-depth assessment and multi-disciplinary intervention for children ages 3-5 years old with Autism or suspected Autism. The clinic is staffed with a licensed occupational therapist, a licensed speech and language pathologist, and a licensed clinical psychologist, in addition to graduate and undergraduate students enrolled in each of these academic programs. The clinic merges intervention methods from these disciplines and approaches can be individualized to meet each child’s unique needs.

Interprofessional Services for Learning Assessment
Dr. Tim Schulte, Director
The ISLA program offers diagnostic evaluation, consultation and support services for adults enrolled in a college or university. Evaluation teams consisting of professionals from clinical psychology, communication sciences, clinical neuropsychology, special education and nursing identify areas of need and design positive ways to promote meaningful learning and educational experiences.

Occupational Therapy Clinical Education Services
Elizabeth Richardson, Director
A pediatric occupational therapy practice established to address a significant gap in locally available occupational therapy services, this clinic offers teaching, research, practice and service opportunities and expands the interprofessional education and practice capacities of the university.

Office on Children and Youth
Kim Hartzler-Weakley, Director
The Office on Children and Youth (OCY), a partnership program, promotes positive youth development through collaborations with youth-serving organizations. It serves as a central point of contact for services for children and youth in the Shenandoah Valley to support, coordinate and examine the needs of our children and youth. OCY analyzes trends in risk behaviors and produces data which enables the community to develop priority areas for youth programs.

Promotores de Salud Program
Deb Foy, Coordinator
Promotores de Salud, a Hispanic lay health promoter program, trains Hispanic women and men to be lay health resource persons in their community. Promotores focus on specific health issues within the Hispanic community, providing family, friends, neighbors and co-workers with effective and culturally-appropriate health information. The program provides a cultural bridge between Hispanic residents and health and human services providers, reducing health disparities and fostering healthy living for all in our community.

The Reading Road Show, Gus Bus Program
Kim Hartzler Weakley, Director
This initiative is a mobile literacy program serving low-income neighborhoods and day care centers in Harrisonburg, Rockingham County and Page County with a customized vehicle that provides...
a book exchange program, story time, nutritional support and resource referral information for families in need.

Shenandoah Valley Child Development Clinic
Kim Hartzler-Weakley, Program Director
Ginger Griffin, Clinic Director

The Shenandoah Valley Child Development Clinic (CDC) provides individualized, interdisciplinary evaluations that may include medical, social work, nursing, educational, psychological, speech/language and audiology components depending upon the specialized needs of the child/adolescent. Children/adolescents evaluated may have developmental, educational, emotional or behavioral concerns. The CDC provides care coordination services and assists families in decisions that address their developmental, educational, emotional or behavioral concerns. Services are provided on a sliding fee scale and Medicaid/FAMIS are accepted. Training opportunities are available in the CDC for students from a variety of disciplines.

Shenandoah Valley Migrant Education Program
Kim Hartzler-Weakley, Director

The Migrant Education Program (MEP) provides free, supplemental education services to children and youth aged 3-21 of migrant and highly mobile agricultural workers. Services include tutoring/mentoring, school readiness initiatives, dropout prevention activities, educational interpretations (Spanish/English) and facilitation of families' stabilization in the community. The SVMEP serves as a point of contact for the Hispanic Services Council, a networking organization of agencies interested in the Latino population.

Smart Beginnings Shenandoah Valley
Diar Kaussler, Director

Smart Beginnings reflects a collaboration between the Virginia Early Childhood Foundation, the area United Way and IIHHS. The goal of this program is to work in partnership with parents and other community leaders to enhance development for children ages 0-5 so that all children will be healthy and ready to learn when they enter school. Seven counties in the valley have parents, child care professionals, business leaders, schools, faith-based organizations and government officials involved in SBV.

Speech-Language-Hearing Applied Laboratory
Stacey Pavelko, Director

The JMU Speech-Language-Hearing Applied Laboratory, formerly referred to as the JMU Speech and Hearing Center, provides communication evaluation and treatment services to individuals with known or suspected speech and/or hearing impairments. This center assists residents of the Shenandoah Valley ranging in age from infants to senior citizens. Hearing testing and aid advising is available for those with concerns regarding hearing. Evaluation and treatment of communication impairments, including speech, sound disorders, language impairments, voice disorders and stuttering problems, are additional services offered in the applied laboratory.

Graduate students supervised by faculty who are licensed audiologists or speech-language pathologists serve as clinicians in this lab.

Teen Pregnancy Prevention Initiative
Kim Hartzler-Weakley, Director

The Teen Pregnancy Prevention (TPP) program is designed to help teenagers make healthy choices and avoid risky behaviors with special emphasis on teen sexual activity and drug and alcohol use. TPP presents the best practices in school- and community-based prevention services.

The Health Place
Emily Akerson, Director

The Health Place (THP), a satellite of the Institute for Innovation in Health and Human Services, promotes collaborative and interprofessional health and human services that are affordable, accessible, responsive to and advance the health needs of Page County residents.

Training /Technical Assistance Centers
Cheryl Henderson and John McNaught, Co-Directors

The mission of Virginia's Training/Technical Assistance Centers (T/TAC) is to improve educational opportunities and contribute to the success of children and youth with disabilities (birth through 22 years). The centers provide quality training and technical assistance in response to local, regional and state needs. T/TAC services increase the capacity of schools, school personnel, service providers and families to meet the needs of children and youth. The Region 5 T/TAC serves as the fiscal agent for the Northwestern T/TAC Consortium, which includes the Region 4 T/TAC located at George Mason University.

Valley AIDS Network
Alexandra de Havilland, Executive Director

The Valley AIDS Network (VAN) provides case management, medical and dental assistance, transportation support, client advocacy, housing assistance, and nutritional support services to people living with HIV/AIDS in this region. Through information, education, outreach and referral, VAN aims to prevent the spread of the HIV virus in the Central Shenandoah Valley.

Valley Program for Aging Services
Beth Bland, Director

An institute partnership program, the mission of Valley Program for Aging Services (VPAS) is to assist individuals age 60 and older with a range of services that enhance their dignity, privacy and ability to live independently for as long as is appropriate. VPAS' services include: adult day care; information and assistance; case coordination; disease prevention and health promotion; emergency assistance; health education and screening; home delivered meals, personal care and homemaker services in a person's home; legal assistance; congregate meals, socialization, recreation and transportation in senior centers; insurance counseling; elder abuse prevention and the Long Term Care Ombudsman program; medication management; and public information and education.

Pre-professional Health Programs
Dr. Sharon Babcock, Coordinator
Phone: (540) 568-6652   Email: pph@jmu.edu
Website: http://www.iihhs.jmu.edu

The Institute for Innovation in Health and Human Services offers advising and evaluation services for students pursuing professional health careers. Pre-professional health programs are not majors or minors; they are preparation programs that outline a set of JMU courses and requirements that commonly serve as prerequisites for admission to graduate-level professional programs. Schools of professional health are most concerned with the overall scope and quality of a student's undergraduate performance and it is important that students select a major based on their interests and aptitudes. Program coordinators are available to assist students in making career decisions.

Service activity and experience in a health-care setting are highly recommended to students considering a professional health career. Requirements for these types of activities vary among programs; students should inquire with their respective program coordinator for guidance. Student organizations provide multiple venues to participate in community service and to interact with health professionals; thus, students are encouraged to participate in American Medical Student Association, Pre-Physician Assistant Club or the Pre-Veterinary Society. Pre-Optometry Club, Pre-Pharmacy Society, Pre-Physical Therapy Society, Pre-Physician Assistant Club or the Pre-Veterinary Society.

The pre-professional programs outlined are intended as guidelines and will fulfill the admissions requirements of many, but not all, graduate professional programs. Since different professional schools have unique requirements, students must inquire with their school(s) of interest for definitive admission requirements.

Pre-dentistry 1

Courses  Credit Hours
BIO 114. Organisms 4
BIO 214. Cell and Molecular Biology 4
CHEM 131-132. General Chemistry I-II (including laboratories 131L-132L) 8
CHEM 241-242. Organic Chemistry I-II (including laboratory 242L) 8
CHEM 361. Biochemistry I 3
PHYS 140-150. College Physics I-II (including laboratories 140L-150L) 8
Mathematics (calculus and statistics) 6 - 7

English (ENG, GENG, GHUM 200, or GWRTC) 6

Students are strongly encouraged to take additional course work in psychology, anatomy (BIO 290 or 320), physiology (BIO 370) and microbiology (BIO 380). NOTE: Students should check admission requirements of individual dental schools.

Pre-forensic Studies 1

Dr. Leslie Harlacker and Dr. Donna Amenta, Coordinators
Phone: (540) 568-2829   (540) 568-7384
Email: harlacla@jmu.edu   amentads@jmu.edu

Forensic studies refer to a wide array of disciplines that apply the knowledge and techniques of science to the investigation of crime and the courts of law. Preparation guidelines are provided below for three common areas of graduate study in forensic studies.

Forensic Biology
A biology or chemistry major is recommended with the following:

Courses  Credit Hours
BIO 114. Organisms 4
BIO 214. Cell and Molecular Biology 4
BIO 224. Genetics and Development 4
BIO 324. Human Genetics 3
BIO 343. Immunology 3
BIO/CHEM 361. Biochemistry 3
CRJU 215. Introduction to Criminal Justice 3

Pre-medicine 1

Dr. Sharon Babcock, Coordinator
Phone: (540) 568-6652   Email: babcocksk@jmu.edu

Special Admission Requirements

The pre-medical program at JMU is a pre-professional advisory program that outlines a set of courses, activities and attributes that serve as pre-requisites for admission to doctoral-level programs in medicine (M.D. and D.O.). Strong candidates for medical school must demonstrate excellence in academic preparation, development of personal attributes that are expected of a physician, and involvement in meaningful extracurricular activities related to medicine. For pre-medical students, excellence in academic preparation encompasses completion of requirements for a selected major field of study, a strong foundation in the natural sciences (biology, chemistry and physics) and mathematics, as well as success in advanced course work. Students from any major, as long as they have the basic science preparation, are equally prepared for acceptance to medical school. Access to timely information and appropriate guidance is an increasingly important element of a pre-med student’s academic preparation and development.

Declaring Pre-Medicine
Incoming freshmen and incoming transfer students can declare pre-medicine without verification from the Pre-Professional Health advising office. Students will have completed fewer than 13 credit hours in biology, chemistry, physics and math at JMU.

Courses Credit Hours
GANTH 196. Biological Anthropology 3
BIO 290. Human Anatomy 4
BIO 270. Human Physiology or BIO 370 Animal Physiology 4
BIO 325/ANTH 395. Forensic Anthropology 4

Choose two of the following:
MATH 321: ANOVA and Experimental Design 3
MATH 324: Applied Nonparametric Statistics 3
MATH 421: Applied Multivariate Statistical Analysis 3

Students are encouraged to take additional course work in anatomy such as BIO 410. Advanced Anatomy.

Pre-forensic Chemistry

A biology or chemistry major is recommended with the following:

Courses  Credit Hours
CHEM/PHYS/MATS 375. Introduction to Materials Science 3
CHEM 331. Physical Chemistry 3
CHEM 351. Analytical Chemistry 4
CHEM/BIO 361. Biochemistry 3
CRJU 215. Introduction to Criminal Justice 3

Forensic Anthropology

An anthropology (biological anthropology concentration) or biology major is recommended with the following:

Courses  Credit Hours
GANTH 196. Biological Anthropology 3
BIO 290. Human Anatomy 4
BIO 270. Human Physiology or BIO 370 Animal Physiology 4
BIO 325/ANTH 395. Forensic Anthropology 4

Choose two of the following:
MATH 321: ANOVA and Experimental Design 3
MATH 324: Applied Nonparametric Statistics 3
MATH 421: Applied Multivariate Statistical Analysis 3

Students are encouraged to take additional course work in anatomy such as BIO 410. Advanced Anatomy.
Currently enrolled JMU students who have completed fewer than 13 credit hours in biology, chemistry, physics and math at JMU will need to submit a declaration of major form requesting permission to declare the pre-medicine program and submit it to the Pre-Professional Health Advising Office in the Health and Human Services Building, room 2154. Once the office verifies the student has taken fewer than 13 credit hours of biology, chemistry, physics and math at JMU, the student’s request will be approved. Current JMU students who have completed 13 or more credit hours in biology, chemistry, physics, and math at JMU will need to submit a major declaration form requesting permission to declare a pre-medicine and submit it to the Pre-Professional Health Advising Office in the Health and Human Services Building room 2154. If the overall GPA and the GPA in biology, chemistry, physics and math courses (BCPM GPA) are both ≥ 3.00 the declaration request will be approved. A declaration request will not be approved if overall GPA and/or BCPM GPA are < 3.00.

Access to Pre-Medicine Advising
Declared pre-medicine students who progress successfully will have sequential access to three levels of pre-medicine advising: entry, benchmark and applicant. These three levels of advising are developmental (rather than chronological) in nature and students can enter (declare) the advisory program at any point in their academic career if they meet the admissions standards.

Declared pre-medicine students who have completed fewer than 13 credit hours of biology, chemistry, physics, and/or math course work at JMU will have access to entry level (Level 1) advising. Once pre-medicine students complete 13 or more credit hours in biology, chemistry, physics and/or math course work at JMU, they will be subject to performance queries twice a year. Performance queries will be conducted after summer grades and fall semester grades are posted. Students who achieve and/or maintain an overall 3.00 GPA and a GPA ≥ 3.00 in biology, chemistry, physics and math (BCPM GPA) will have access to targeted advising events that emphasize excellence in academic preparation (including planning for advanced coursework), as well as continued development of personal attributes, and participation in meaningful activities.

Students whose performance queries reveal an overall GPA < 3.00 and/or a BCPM GPA < 3.00 are at very high risk and are non-competitive applicants for a medical school. Targeted advising will focus on developing academic skills and career exploration. Once pre-medicine students have participated in targeted advising (Level 2), those who are unable to attain or maintain an overall GPA and a BCPM GPA ≥ 3.00 will have the pre-medicine declaration administratively dropped. Since the pre-medicine advisory program is not a major, minor, or concentration, this action (drop declaration) will have no impact on students’ degree program(s).

Students with 13 or more credit hours in biology, chemistry, physics and math at JMU who wish to re-enter the pre-medicine advisory program can re-declare if their overall GPA and BCPM GPA are both ≥ 3.00. This standard will apply to students who either requested to drop the pre-medicine program voluntarily or were dropped administratively.

http://www.jmu.edu/catalog/14
Institute for National Security Analysis

Dr. Noel Hendrickson, Director
Phone: (540) 568-8941
Location: ISAT/CS Building, Room 370, MSC 4102

Mission
The Institute for National Security Analysis (INSA) seeks to engage the security and analytical communities in government and private industry with the most relevant analytic methods through original research, curriculum development, presentations and publications, and placement of aspiring analysts into positions in the intelligence field. INSA partners include government agencies and private corporations seeking to improve the breadth and depth of their analytic methods and the rigor of their analytical workforce.

Overview
Our nation’s greatest national security asset is also its most neglected: the reasoning methods of our analysts, strategists and decision makers. The fundamental purpose of the Institute for National Security Analysis is to help transform our national reasoning so it can more adeptly engage unexplored, complex and multidimensional challenges with innovative, rigorous and transdisciplinary methods to produce proactive, reliable and integrated solutions.

Most external support for the defense, homeland security and intelligence communities (from academia or business) offer one of three types of assistance:
- new technologies to improve the collection and/or exploitation of data,
- policy-making support through high-level strategic proposals, or
- complete analysis on specialized topics.

By contrast, INSA offers support for the most central element of defense, homeland security and intelligence analysis: the cognitive process by which analysts reason to well-justified conclusions for their decision makers. The majority of intelligence failures evolve from errors in the reasoning process of analysts. That reasoning process is typically taken for granted in favor of technology, policy, or specialized subject matter expertise. Hence, most external organizations operate by telling analysts what to think, but INSA seeks to support them by educating analysts how to think.

Activities
Discovering Analytic Methods
- Multidimensional thinking: A systematic approach to advanced critical thinking and reasoning designed specifically to meet the unique challenges of intelligence analysis.
- Counterfactual reasoning: A comprehensive approach to analysis of possible future events that considers how they come to be, how they related to other causal forces and what their ultimate outcome might be.
- Perspectival thinking: A strategy for understanding a controversial issue from the point of view of another person in another culture or context.

Developing Analytic Methods
- Forming effective visualizations: A strategy for analysts to use in representing their conclusions clearly and concisely for others.
- Taking a systems perspective: A guide for analysts to follow in exploring the interconnectedness of problems and the potential for feedback and unintended consequences.
- Assessing analytic confidence: A way to teach analysts to evaluate and to explain the degree that their conclusions are justified.

Delivering Analytic Methods
- Presentations and publications: Disseminating research through speaking and writing in traditional academic venues.
- Workshops and conferences: Unique events geared specifically for INSA partners in intelligence and national security on both INSA methods and other major topics.
- Recruiting and placement of future analysts: Connecting agencies and organizations seeking uniquely qualified future analysts with students with first-hand education and training in rigorous analytical approaches available.
Mahatma Gandhi Center for Global Nonviolence

Gary Race, Director
Phone: (540) 568-7249/ (540) 568-4060
Location: The Annex, 725 South Mason Street

Email: GandhiCenter@jmu.edu
Website: http://www.jmu.edu/gandhicenter

Mission
Our mission is to promote justice and nonviolence through education, scholarship and engagement.

Leadership
The Gandhi Center is led by an advisory board composed of faculty and community members who work closely with the director in articulating and implementing our vision. This active board has sponsored two outstanding Nobel Laureate visits and encourages a range of center activities through its example and enthusiasm.

Teaching
The Gandhi Center brings students and faculty together for discussion, learning and outreach. Faculty and community members provide regular workshops and seminars designed to advance the study and understanding of nonviolent solutions to human conflict. Faculty affiliated with the Gandhi Center are invited to make use of the center’s special topics course and to assist in sponsoring student-led volunteer projects. Our teaching and outreach reaches across disciplines, engaging students and faculty from across campus in the peace-making projects of the center. The center works closely with groups across campus with similar goals and assists in sponsoring lectures from visiting scholars who promote the goals of global justice.

Research
The Gandhi Center supports research across disciplines with particular emphasis on scholarship that bridges theory and practical application: theories and critiques of nonviolence; transnational and cross-cultural dimensions of nonviolence nonviolent praxis through everyday modes of living; alternative visions of nonviolent approaches to human relations and world affairs; and alternative moral and political theories. Additionally, nonviolent solutions to conflict from a variety of religious, social and cultural traditions are consulted as partners and heirs to the Gandhian traditions, as we seek the widest possible portfolio for understanding and ameliorating human conflict. We recognize the leadership and contributions of great men, women and groups of every nation and region in our mission. The center is an active participant in the international Peace and Justice Studies Association.

Student Volunteers and Interns
Recognizing that the work of our students is the lifeblood of the Gandhi Center, we facilitate and support a number of student-led and implemented programs. These include recognized annual events: The Global Nonviolence Peace Camp for Children; an international art contest, “Drawing Peace,” “Journaling for Peace,” Smithland Elementary, “The Gandhi Center Refugee Integration Partnership” and Alternative Weekend/Break building projects in the community. Service and the promotion of Nonviolence are a pivotal parts every interns experience at the center. Students are asked to serve as volunteers at the center for at least one semester prior to applying for an internship. Internships may be taken for academic credit, at the discretion of the director. The program began in 2006.

The Gandhi Award/Community Service Award
The Community Service Award is presented to a local community member who advanced nonviolence and social justice. In 2013 Dr. Vida Huber and Dr Howard Zehr were the inaugural recipients. The Mahatma Gandhi Global Nonviolence Award is bestowed upon individuals with global recognition who believe humans everywhere are to be peacemakers, support nonviolence, love their enemies, seek justice, share their possessions with those in need and express and demonstrate these beliefs in their words, life and actions. The inaugural award was given in 2007 to the Most Reverend Desmond Tutu, Archbishop Emeritus of Cape Town, South Africa and 1984 Nobel Peace Laureate. The second award was given in 2009 jointly to former U.S. President and 2002 Nobel Peace Laureate Jimmy Carter and former first lady Rosalynn Carter.

The Gandhi Statue
The government of India has presented a larger than life-size bronze statue of Mahatma Gandhi as a gift to the university in recognition of the work of the Gandhi Center. The statue was dedicated and unveiled on October 2, 2008, the International Day of Nonviolence and the birth anniversary of the Mahatma, by His Excellency Ronen Sen, Ambassador of India to the United States of America. The statue, which is located on the ground floor of JMU’s Rose Library, is the first of Mahatma Gandhi in the Commonwealth of Virginia.

http://www.jmu.edu/catalog/14
Nelson Institute for International and Public Affairs

Dr. Peggy S. Plass, Director
Phone: (540) 568-7151
Location: Moody Hall, Room 213, MSC 1205

Mission
Nelson Institute for International and Public Affairs is a concrete manifestation of James Madison University’s commitment to meet both the educational requirements of its students in a changing world and its own need to respond to the “real world” challenges faced by society today.

Goals
The institute advances several university priorities:
- offering quality academic programs.
- being innovative in developing programs.
- developing optimal student competencies in written and oral communication, critical thinking, information systems, and quantitative literacy.

Activities
The Nelson Institute Seminars provide justice studies majors and other interested JMU students the opportunity to engage in directed, practical, problem-solving exercises in the field of justice studies in small group (“task force”) settings under the supervision of a faculty member. The seminars provide a space where students are charged with finding a solution to a contemporary policy problem. They offer a unique opportunity for students to engage in policy-oriented research that integrates classroom instruction, out-of-class group learning activities, and civic engagement and service learning opportunities. The institute also provides students with the opportunity to present their findings to a regional or national audience.

As a complement to the seminars, the Nelson Institute brings guest speakers to JMU who are experts in the subject of the seminar to enhance the learning experience. Funding is made available to help students present their research at regional and national conferences as well as to travel to talk with government, NGO and private sector officials about the policy problem they are working on. Students present their results at a variety of venues including the College of Arts and Letters’ student conference, Mad Rush, the conference organized by the Department of Foreign Languages and Literatures and Cultures, and regional conferences such as the Virginia Social Science Association meeting.
School of Accounting

Dr. Paul A. Copley, Director

Phone: (540) 568-3081
Location: Zane Showker Hall, Room 334
Website: http://www.jmu.edu/cob/accounting

Adviser
Amanda Reedy

Professors
C. Baril, P. Copley, D. Fordham, A. Gabbin, T. Louwers, N. Nichols, D. Riordan, M. Riordan, B. Roof

Associate Professors
L. Betancourt, J. Briggs, D. Hayes, R. Richardson, W. VanDenburgh

Assistant Professor
S. Cereola

Lecturers
M. Brown, S. Ferguson, K. Foreman, L. Manktelow, E. Shiffl ett

Mission
The School of Accounting is committed to preparing students to be active and engaged citizens who are able to apply accounting and business knowledge for the betterment of individuals and organizations. We value an environment of educational excellence in which:

- Students develop both technical and interpersonal skills necessary for successful professional accounting careers;
- Faculty create and disseminate meaningful intellectual contributions and actively participate in the academic and professional communities; and
- Stakeholders, including alumni, recruiters and others, desire long-term and mutually beneficial relationships with the school.

Mission Statement
The mission of the undergraduate accounting program is to prepare students for entry into high-quality graduate programs and for positions in business that do not require postgraduate education. Since the B.B.A. degree is part of the College of Business, it reflects the distinctive competencies of the college. In addition, the program delivers foundation accounting courses to all students in the College of Business and to students in a variety of programs across the university.

The school also offers a master of science in accounting. Its mission is to prepare students for success in the accounting profession by strengthening the students’ technical expertise, enhancing their understanding of professional responsibility and improving their business skills necessary to compete in today’s complex and ever changing business environment.

Goals
The accounting faculty has identified strategic and tactical goals in three major areas: learning objectives for students, intellectual contributions for faculty and service to our profession and the community.

Learning Environment Objectives
We engage in the scholarship of teaching to prepare students for professional accounting careers in public accounting, industry or the public sector. We provide a learning environment that encourages a commitment to lifelong learning and develops a diverse set of skills in students, including technical competence, information technology proficiency, critical thinking, teamwork and communication.

Intellectual Contributions Objectives
We engage in the scholarships of discovery, application of knowledge and instructional development to advance knowledge in the field of accounting, to improve business practice, to encourage and support innovative teaching methods and curricula and to foster the intellectual and professional growth of our faculty.

Service Objectives
We serve our school, college, university, accounting profession and business and academic communities through active participation and leadership in academic, professional and business organizations.

Career Opportunities
The programs of study offered by the accounting program provide an educational experience intended to prepare students for a variety of careers in the accounting, financial, auditing, consulting and information systems fields. Some of the job titles held by graduates of our program include the following:

- Audit Partner
- Business Analyst
- Business Consultant
- Chief Financial Officer
- Comptroller
- Computer Systems Consultant
- Controller
- Cost Accountant
- Cost Analyst
- Division Controller
- Forensic Auditor
- Fraud Examiner
- Information Systems Coordinator
- Internal Auditor
- Systems Consultant
- Tax Adviser
- Tax Partner

http://www.jmu.edu/catalog/14
Our graduates find employment with all of the “Big Four” international public accounting firms, dozens of local and regional public accounting firms, government agencies and major international companies. Many of our graduates work for business consulting firms. The field of accounting has one of the highest demands for new graduates of any area in today’s market, and accounting graduates enjoy some of the highest starting salaries in the College of Business.

Co-curricular Activities and Organizations
- Beta Alpha Psi is the honor fraternity for accounting majors.
- Association of Information Technology Professionals serves students with a technology/consulting interest.

Programs of Study
Two programs are available to accounting majors. The first is the four-year major in accounting, leading to the Bachelor of Business Administration (B.B.A.) degree. The second is the five-year Professional Program in Accounting, which leads to the award of the B.B.A. and the Master of Science in Accounting (M.S.A.) degree at the end of five years. Students should meet with their adviser during their junior year to discuss these options.

Students who choose to complete the four-year undergraduate program will have the requisite accounting, business and general education to pursue a variety of career opportunities in accounting and business.

Students are advised that 150 hours, or five years, of college education are required to sit for the Certified Public Accountant’s examination in most states. The five-year professional program is therefore recommended for those electing a career in public accounting. The professional program allows the student to concentrate in the areas of taxation or systems; it also provides a well-rounded background in accounting and other related business disciplines. A student must be admitted to the M.S.A. program in order to enroll in graduate courses. Admission to the M.S.A. program is competitive. M.S.A. program admission requirements are included in the graduate catalog. Students may apply following their junior year, and early application for admission is encouraged.

Special Admission Requirements
To register for ACTG 302, ACTG 303, ACTG 343 or ACTG 377, a student must have:
- Been admitted to COB 300.
- Completed COB 241 and COB 242 with a “B” or better in each.
- Scored 80 percent or higher on the COB 241 assessment exam.

The assessment exam is administered in the second week of COB 242 and by appointment for students transferring credit for COB 242. Students who do not meet the 80 percent threshold will meet with the director of the School of Accounting to outline steps for improving their proficiency in financial accounting. Students may take the exam no more than twice.

Accounting Major Progression Standards
Students are required to earn a “C-” or better in all upper level prerequisite accounting courses before continuing to the next course in the sequence. Students receiving a “D+” or lower in any upper level accounting course must repeat the course and earn a “C-” or better in order to be awarded a B.B.A. degree with a major in accounting.

Any student having a total of three “W’s,” “WF’s,” “D+’s,” “D’s” or “F’s” in required 300 or 400-level accounting courses will be dropped from the major and not permitted to register for additional accounting courses.

Any student having a total of two “W’s,” “WF’s,” “D+’s,” “D’s” or “F’s” in any (single) required 300 or 400-level accounting major course will be dropped from the major and not permitted to register for additional accounting courses.

Degree and Major Requirements
The Bachelor of Business Administration degree in accounting requires a minimum of 120 credit hours of undergraduate work. Fifty percent of this work, or 60 credit hours, must be taken outside of the College of Business.

1. Up to seven hours of core requirements in economics and calculus may also be taken for General Education credit. Students who take the General Education packages and courses recommended by the College of Business will have only 38 credit hours of additional B.B.A. core requirements.
2. Any course offered by the university.
3. The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

24
Non-Business Electives

In counting the 60 credit hours of non-business courses, B.B.A. students may include all hours taken in General Education (usually 41), up to a total of nine hours in economics (GECON courses must be counted as economics) and three hours of COB 191, Business Statistics. The remaining hours, to bring the total to 60, must be taken from departments outside the College of Business. Students should carefully select these non-business electives to help them gain additional knowledge and expertise for their careers and personal lives. A list of approved electives is available from the College of Business Academic Services Center.

Students are responsible for their own progress toward graduation. Students must work closely with their advisers and the College of Business Academic Services Center to ensure scheduling of courses consistent with their personal degree completion target, and then study diligently to successfully complete the scheduled course work on time.

Recommended Schedule for Majors

First Two Years

Students planning to major in accounting must complete the 29-30 hour lower-division B.B.A. curriculum prior to enrolling in upper-division core courses normally taken in the first semester of the junior year. It is expected that the lower-division core curriculum will be completed during the first two years of study along with all, or most, of the university General Education curriculum. Failing to complete all lower-division core requirements on time will delay enrollment in upper-division core and major courses until at least the second semester of the junior year.

Certifications

Many graduates desire to gain certifications in their selected area of specialization. The Certified Public Accountant (CPA) is the best known of these certifications. To obtain a CPA license in Virginia, candidates must meet a 150-hour education requirement, including 30 credits in accounting and 24 in business. Forty-eight states require students to meet the 150-hour educational requirement. The five-year professional program is highly recommended for those electing a career in public accounting. Alternatively, the combination of an accounting B.B.A. with a minor in computer information systems can also satisfy CPA exam education requirements.

In addition to the CPA exam, graduates of our program sit for the Certified Management Accountant (CMA) exam, the Certified Internal Auditor (CIA) exam, the Certified Information Systems Auditor (CISA) exam and others.

Transfer Credit

In general, all upper-division accounting course work (300-499) must be completed at JMU. Transfer credit for upper-division courses is awarded only in unusual circumstances. In no case will transfer credit be awarded for more than one upper-division course, and in no case will transfer credit be awarded for either of the corporate financial reporting courses (ACTG 343 or ACTG 344). Contact the accounting adviser for more information on transfer credit.

http://www.jmu.edu/catalog/14
Adult Degree Program
Pamela G. Hamilton, Director
Phone: (540) 568-6824
Location: Ice House, 127 W. Bruce Street, Room 332

Mission Statement
The Adult Degree Program (ADP) provides returning adult students with the opportunity to complete their bachelor's degree. This program differs from other degree programs presently offered at JMU in that ADP students tailor their major to meet their career and educational goals while still meeting JMU general education and degree requirements.

Admission
Applicants must have a minimum of 30 credit hours with a grade of "C" or better for each credit hour of college work. Applicants should be 22 or older.

Degrees Offered
ADP students have the opportunity to earn a Bachelor of Individualized Study (B.I.S.), a Bachelor of Arts (B.A.) or a Bachelor of Science (B.S.). The general education core requirements differ by degree.

Program Requirements
- Completion of IS 200. Individualized Study Major Program Development is required.
- A minimum of 120 credit hours will be required for graduation. The specific program agreement will be designed in consultation with a faculty adviser.
- A program agreement for meeting the requirements of the degree must be submitted to the Adult Degree Program office for approval while enrolled in the IS 200 course.
- A minimum of 41 general education credit hours in the seven areas of social and behavioral science, humanities, natural science, written communication, oral communication, mathematics and U.S. history must be completed.
- To earn a B.S. degree, a student must earn the above 41 credit hours, plus an additional three hours to meet the quantitative literacy requirement for a total of 47 general education credit hours.
- To earn a B.A. degree, a student must earn the above 41 credit hour requirements, plus an additional three hours of philosophy and six hours of foreign language at the intermediate (200) level for a total of 50 general education credit hours.
- A student’s concentration, or field of study, consists of a minimum of 30 credits, at least 24 of which must be upper-division credit (300- and 400-level courses). The concentration shall include classes from two or more academic disciplines and represent a coherent body of knowledge, which may require course work beyond the 30 minimum credit hours.
- Academic modules, some of which are available online, have been developed in cooperation with academic units at the university. Students can use these modules when developing their concentration. Current modules include:
  - Autism Spectrum Disorders
  - Business Technology
  - Communication Studies
  - Entrepreneurship
  - Hospitality and Tourism Management
  - Human Resource Development
  - Social Science
  - No more than 30 credit hours of course work can be selected from courses taught by the College of Business. This 30 credit hour limit includes COB courses transferred from other colleges and nontraditional credit earned in the COB.
  - The concentration must be completed with a GPA of 2.0 or better.
  - A minimum of 15 credit hours in the concentration must be JMU credits.
  - IS 498, Individualized Study Project, is a capstone course that is directly related to the student’s concentration or field of study. The project is coordinated by a content area faculty member and must be completed with a minimum grade of “C”. A final oral report must be presented on the project.
  - ADP requires all students to take the Honor Code test.
  - Each graduate must have earned a minimum of 30 credit hours at JMU (a maximum of eight non-traditional credits may be applied to the JMU hours requirement).
  - At least 60 credit hours must be earned from four-year institutions.
  - ADP students are expected to participate in assessment activities. Assessment information is used to assist faculty in modifying curricula.
  - There is no residency requirement; however, program agreements that extend beyond six years may need to be amended if university policies change that affect the original program agreements.

Mechanisms for Earning Credit
The number of credits, which might be accepted or earned through the following methods, is determined by the student’s approved program. It is reasonable to expect that the unique educational needs, background and personal circumstances of each student will determine to a great extent the manner in which credit has been and will be earned.
- Transfer credit
- Credit by departmental examination
- Credit for sponsored learning or independent studies
- Regular course work
- Credit for experiential learning through portfolio evaluation (See below)
- Credit for educational programs of the Armed Forces
- College Level Examination Program (CLEP)
- American Council on Education College Credit Recommendation Service (ACE)

Website: http://www.jmu.edu/adultdegree/

http://www.jmu.edu/catalog/14
Experiential Learning Assessment
College level learning, acquired through other than traditional classroom experience, must be documented by the student. Procedures for doing so have been established by the ADP office. Requests for experiential learning credit should be submitted as soon as possible after an ADP student completes IS 200 and IS 203. Experiential learning credit is not transferable to a traditional degree program. ADP students requesting experiential learning credit must complete IS 203, Portfolio Development Workshop. A fee is charged for each learning component evaluated by academic units for credit.

College Credit Recommendation Service
ADP accepts some but not all credits as recommended in the National Guide to Educational Credit for Training Programs and the Guide to Educational Credit by Examination prepared by the American Council on Education. Additional information on program policies and procedures is available through the ADP website.

College-Level Examination Program
The Adult Degree Program at JMU participates in the College-Level Examination Program. CLEP is a national program of credit by examination that offers students an opportunity to obtain recognition for achievement in specific college courses. Interested individuals may schedule a CLEP test by directly contacting the Adult Degree Program office. Requests for specific information on CLEP examinations should be directed to:
College-Level Examination Program
Box 592
Princeton, NJ 08540
Credit/No-Credit
Students enrolled in ADP may take courses on a credit/no-credit basis if they have completed 28 credit hours of college course work and have a 2.25 cumulative GPA.
Courses in the area of concentration, including the senior project, may not be taken on a credit/no-credit basis. Other provisions of the credit/no-credit option, as described in this catalog, will also be in effect.

Service-members Opportunity College
JMU has been designated as an institutional member of Service-members Opportunity College. As an SOC member, the university recognizes the unique nature of the military lifestyle and has committed itself to easing the transfer of relevant course credits, providing flexible academic residency requirements and crediting learning from appropriate military training and experiences.

General Education
General Education course work is designed to provide returning adult students with knowledge and skills that form the foundation for completing a baccalaureate degree, including a professional concentration, in the individualized study major.

Courses* Credit Hours
Social/Behavioral Science 6
Any courses in the areas of sociology, psychology, economics, history, anthropology, geography and political science.
Humanities 6
Any courses in the areas of philosophy, religion and G HUM courses. Only the following type courses from the art, foreign languages, English, music and dance/theatre academic units count as humanities credit: art appreciation, art history, literature, theatre and dance history, theatre and dance appreciation, foreign language literature or culture, music appreciation or history.
Natural Sciences 6
Any courses in the areas of biology, chemistry, geology, physics and G SCI.
Written Communication 6
Any courses within the area of English composition.
Oral Communication 3
Choose from G COM 121, G COM 122, SCOM 231 or SCOM 242.
Mathematics 3
Any course in the area of mathematics.
U.S. History 4
Choose from G POSC 225 or G HIST 225.
Additional General Education credit 7
May be fulfilled through exceeding minimum in categories 1-7 or by courses accepted by General Education.

*Transfer credits with the number “000” do not fulfill general education requirements.

Assistant Professors

Mission Statement
The School of Art, Design and Art History is a collaborative community that fosters independent thought and creativity, embraces the diversity of cultural expression and cultivates excellence in the making and understanding of visual art.

Goals
The School of Art, Design and Art History discerns the following five distinct goals for the teaching of art at JMU:

- To prepare future professional artists and designers.
- To educate future art historians and museum specialists with a global perspective on the visual arts.
- To develop and license future elementary and secondary art teachers.
- To enrich the general education of non-art majors.
- To supply professional instruction in the visual arts for students who wish to enrich their education by studying art as a second major or minor.

To meet these goals, the School of Art, Design and Art History offers three degrees, a choice of four majors and select areas of emphasis. PK-12 Licensure is available to every School of Art, Design and Art History major, regardless of their degree track. Minors are offered in select areas. All degrees require a minimum of 120 credit hours. A full description of degree requirements is listed under Degree Requirements. Currently available degrees, majors and areas of emphasis are as follows.

Bachelor of Arts
- Art History
- Studio Art

Bachelor of Fine Arts
- Graphic Design
- Interior Architecture
- Studio Art

Bachelor of Science
- Studio Art
- Studio Art with an emphasis in Industrial Design

Career Opportunities and Marketable Skills
Art students at JMU have the opportunity to prepare for a wide variety of art and art-related career fields. Because the School of Art, Design and Art History educates art students as critical thinkers and creative problem solvers, graduates have an enhanced ability to think independently, respond flexibly, work productively and compete successfully for employment in career fields that value original and thoughtful creativity. Some possible careers include:

- Advertising Designer
- Artist
- Art Critic
- Art Educator
- Art Historian
- Ceramicist
- Conservator
- Gallery Owner
- Graphic Designer
- Illustrator
- Industrial Designer
- Interior Architect
- Jeweler
- Multimedia Designer
- Museum Curator/Educator
- Painter
- Photographer
- Printmaker
- Sculptor
- Textile Designer

To discuss specific career options, students should contact the school and make an appointment with a member of the faculty.

Accreditation
Supplementing JMU’s general accreditation, all degrees offered by the School of Art, Design and Art History are professionally accredited by the National Association of Schools of Art and Design. In addition, the B.F.A. in interior architecture is professionally accredited by the Council for Interior Design Accreditation (formerly the Foundation for Interior Design Educational Research).

http://www.jmu.edu/catalog/14
Special Admission Requirements

Art History Majors

Students intending to major in art history are not required to submit a portfolio or additional material for review, but should follow the regular JMU admission requirements as stated in the Undergraduate Catalog. In addition to meeting JMU admission requirements, all students are required to submit a portfolio to the school's SlideRoom. The deadline for submitting portfolios to the school's SlideRoom site is the first Monday after the last portfolio feedback day in January. There is a $10 charge for this submission. Additionally, transfer and change of major students will need to upload unofficial transcripts and a statement of intent to the school's SlideRoom account that explains their educational and artistic goals, articulating the reasons for choosing this area of study. The submission of a portfolio is seen as evidence of a student's interest and potential for future success in art. It is also an opportunity for all students to be considered for a scholarship. All scholarship awards are based on merit and vary in amount, up to the full cost of tuition.

The School of Art, Design and Art History offers students the opportunity for feedback on their portfolio, prior to the digital submission, through several on-campus and off-campus portfolio review days. This portfolio review event will provide an opportunity for feedback on actual artwork, as well as an opportunity to meet with faculty from the school. Tours of facilities and program info sessions will take place at on-campus events. All students (prospective, transfer, change of major) are strongly encouraged to attend a Portfolio Feedback Day, prior to submitting their portfolio. For these in-person feedback sessions, we highly recommend showing actual works of art, however, a portfolio that consists of printed images is acceptable. Further, if time-based media examples are included, e.g., video, animation, the student will need to bring their own digital device for presentation purposes. Refer to the SADAH website for the dates of the upcoming Portfolio Feedback Days and for additional portfolio requirements.

Students seeking official acceptance into the Interior Architecture major must enroll in IARC 208 and submit a portfolio representing work completed in IARC 200, Interior Architecture Studio I, and IARC 202, Interior Architecture Studio II. Students not admitted may reapply the following year.

Graphic Design Majors

All prospective freshmen, transfer and change of major students intending to major in graphic design must meet JMU admission requirements as stated in the Undergraduate Catalog. In addition to meeting JMU admission requirements, all students are required to submit a portfolio to the school's SlideRoom account. The deadline for submitting portfolios to the school’s SlideRoom site is the first Monday after the last portfolio feedback day in January. There is a $10 charge for this submission. Additionally, transfer and change of major students will need to upload unofficial transcripts and a statement of intent to the school's SlideRoom account that explains their educational and artistic goals, articulating the reasons for choosing this area of study. The submission of a portfolio is seen as evidence of a student’s interest and potential for future success in art. It is also an opportunity for all students to be considered for a scholarship. All scholarship awards are based on merit and vary in amount, up to the full cost of tuition.

Degree and Major Requirements

Bachelor of Arts in Art History

Coordinator: Dr. John Ott
Phone: (540) 568-6319

The Bachelor of Arts in art history is intended for students who wish to study the history of the visual arts, including the cultural and social context in which they were created. It is the mission of the art history program to educate students with a global perspective on the arts.

Western art history is emphasized, coupled with opportunities to study the art of select non-Western traditions. Students majoring in art history will develop a general knowledge of the principle monuments and artists of all major historical art periods. Students also will:

- Become acquainted with the art history of non-Western cultures.
- Locate unfamiliar works within major style periods and cultures.
- Describe, analyze and interpret the form and content of individual works of art in relation to the cultures from which they originate.
- Recognize major art media.
- Understand at least three major historical periods of art in detail.
- Become familiar with art history theory and methods of analysis and criticism.
- Research and write about significant artists, artistic events, periods and artistic concepts.

The art history program encourages majors and minors to participate in internship opportunities at museums, galleries and other art related settings, and it provides up-to-date information about jobs and graduate programs in art history and related fields. Visiting scholars, campus art exhibitions, trips to major museums and the JMU Studies Abroad Program provide students with opportunities to study and apply their art history knowledge outside the classroom. Upon completion of the art history major, students will have been exposed to a broad background and knowledge of the opportunities for graduate school and employment. The art history program also advocates interdisciplinary education and actively supports students who double major with other disciplines.

Major Requirements

The major in art history requires 39 credit hours in art history and studio courses, as the following chart shows. At least six of these credit hours must be 400-level art history courses.

Core courses at the 200 level are broad interpretive overviews of art history that combine lecture and discussion to permit students to learn the content and chronology of world art history, to learn how art historians collect, analyze and synthesize evidence and engage in introductory exercises in the discipline. They generally include short formal writing assignments and exams with essay sections.

Distributives at the 300 level also combine lecture and discussion, more narrowly survey specific periods or cultures and address aspects of art historical methodology. These courses require longer formal writing assignments and include student research. Courses at the 400 level are seminars on specialized topics that center on advanced student research. A single course may not fulfill more than one distribution requirement.

Internship/Independent Study Credit

A maximum of three credits of art history internship, independent study, or honors course work may be applied toward the major in art history. A student may petition the art history coordinator to apply six credit hours toward the art history major if the internship or independent study course work is directly relevant to the student’s interests and career goals.

Concentration Requirements

Museum Studies Concentration

The museum studies concentration enriches the art history curriculum by offering course work that examines the critical role that museums have played in constructing the discipline and pedagogy of art history. History and theory-oriented classes will introduce students to the role and function of museums in society and the ways in which museums both reflect and perpetuate the values of the cultures that create them. Experiential practica or internship courses will expose students to the wide range of work conducted in museums, including curatorial, collections management, conservation, education, design and installation, media and public relations, publications, development and administration.

While the concentration is academic and not vocational, it offers students valuable hands-on experience beneficial for admission into graduate school and entry into the competitive market of art-related professions. Virginia is a state that boasts a plethora of art museums, house museums, history museums, and historic and archaeological sites. Art history majors who complete the concentration will be well positioned for seeking employment in regional and state museums.

The museum studies concentration consists of five courses (15 credit hours). Students are required to complete three core courses and two elective courses. Students may only count three credit hours toward both the art history major and the museum studies concentration.

A 3.3 GPA in the minimum of nine credits in Art History (ARTH) and General Education Art History (GARTH) courses are required to enroll in the concentration. To apply, students submit an unofficial transcript to the area coordinator. Students may apply to the concentration in the fall or spring semester, but no later than the last day of the course add registration deadline.

1 The General Education program contains a set of requirements each student must fulfill. The
   number of credit hours necessary to fulfill these requirements may vary.
2 The foreign language requirement may be satisfied by successful completion of the second
   semester of the intermediate level of the student's chosen language (typically 220) or by
   placing out of that language through the Department of Foreign Language, Literature and
   Culture's placement test.

Bachelor of Arts in Studio Art

Coordinator: Jessica Harrod
Phone: (540) 568-3860

The Bachelor of Arts (B.A.) degree is intended for students interested in pursuing a program of art study that promotes lifelong learning with an emphasis on the humanities. The B.A. in studio art is designed for students who seek a breadth of knowledge in the visual arts and who have an interest or background in the humanities. Students majoring in studio art will:
- Grasp how artworks are created.
- Understand how the visual arts relate to the culture that influences them.
- Gain an overview of the sequences of style and meaning evident in the history of art.
- Improve their ability to articulate their ideas and knowledge about art to others.
- Learn about career opportunities in art and closely related fields.

Total | 120 |

1 The six credits of studio art electives (300-400 level) must be taken in a single studio area.
2 The foreign language requirement may be satisfied by successful completion of the second
   semester of the intermediate level of the student's chosen language (typically 220) or by
   placing out of that language through the Department of Foreign Language, Literature and
   Culture's placement test.

Requirements for Art History as a Second Major

Students in any degree program may study art history as a second major by completing the 39 credit art history requirement. Students studying art history as a second major do not need to complete the requirements for the B.A. degree if their first major will complete the requirements for a different baccalaureate degree. However, non-B.A. degree students completing art history as a second major are strongly encouraged to complete the B.A. foreign language requirement.
Bachelor of Fine Arts in Graphic Design

Coordinator: Trudy Cole
Phone: (540) 568-3488

The graphic design major provides professional education within a liberal arts environment. Students learn the vocabulary, visual perception, methods, processes, craft and technology of graphic design, which includes specialized courses in print design, computer graphics, illustration, web design, package design and special topics courses addressing current design issues and problems.

The study of the historical and cultural context of the designer broadens students' knowledge base and nurtures their creativity. Frequent field trips, guest speakers and internship opportunities provide students with exposure to the professional field.

Admission Requirements
Admission to the B.F.A. in graphic design is selective and competitive for a limited number of reserved seats in upper-division (300-400 level) graphic design courses. Declaration of graphic design as a major and completion of lower-division (100-200) prerequisite art courses does not guarantee admission into the program. Admission to upper-division GRPH courses is based on completion of all prerequisite art courses and merit as determined by a faculty review of portfolios submitted in satisfaction of the course GRPH 208, Portfolio Review.

GRPH 208, Portfolio Review, is a 0 credit, pass/fail course that functions as a prerequisite to enrollment in all 300-400 level graphic design courses. Students should enroll in GRPH 208 during the semester following completion of GRPH 200, GRPH 202 and GRPH 206 (or concurrently with GRPH 206). GRPH 208 portfolios are reviewed each semester. Students enrolled in GRPH 208 will be emailed at the beginning of the semester and will be informed of the exact time and location of the GRPH 208 portfolio review.

NOTE: Any art major may take GRPH 200, GRPH 202 and GRPH 206, but is restricted from taking any 300-400 level graphic design course until GRPH 208 has been taken and passed.

Accepted students who receive a passing grade for GRPH 208 will be able to register for GRPH upper-division courses for the following semester. Students not accepted will have one opportunity to reapply in the following semester or may choose to continue in another major within the School of Art, Design and Art History.

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

Major Requirements

The graphic design major requires 78 credit hours in art, art history and art-related courses. Of these hours, 30 must be in graphic design courses, as the following list shows.

http://www.jmu.edu/catalog/14
Bachelor of Fine Arts in Interior Architecture
Coordinator: Ronn Daniel
Phone: (540) 568-5850
The B.F.A. in interior architecture educates future design leaders. It is an intensive program focused on rigorous design processes. Interior architecture is approached holistically – emphasizing investigations into the nature of materials and objects, interior space, ergonomics, history and theory, programmatic invention, functional poetics and collaboration across disciplines. The curriculum instills purpose, craft, technological competencies and versatile thinking.

Admission Requirements
Admission to the B.F.A. in interior architecture is selective and competitive for a limited number of reserved seats in upper-division (300-400 level) interior architecture courses. Declaration of interior architecture as a major and completion of lower-division (100-200) prerequisite art courses does not guarantee admission into the program. Admission to upper-division IARC courses is based on completion of all prerequisite art courses and merit as determined by faculty review of portfolios submitted in satisfaction of the course IARC 208, Portfolio Review.
IARC 208 is a 0 credit, pass/fail course that functions as a prerequisite to enrollment in 300-400 level interior architecture courses. Students should enroll in IARC 208 during the semester in which they are enrolled in IARC 202. IARC 208 portfolios are reviewed during the spring semester (February) prior to pre-registration. Students should contact the area coordinator of interior architecture to determine the exact time and location for the IARC 208 portfolio review.

NOTE: Any art major may take IARC 200 and IARC 202, but is restricted from taking any 300-400 level interior architecture course until IARC 208 has been taken and passed.
Accepted students who receive a passing grade for IARC 208 will be able to register for IARC upper division courses for the following semester. Students not accepted will have one opportunity to reapply the following spring semester or may choose to continue in another major within the School of Art, Design and Art History.

Bachelor of Fine Arts in Studio Art
Coordinator: Jessica Harrod
Phone: (540) 568-3860

The Bachelor of Fine Arts degree in studio art is intended for those students whose goal is the professional production of visual art. Only those students serious about preparing for a studio career in the visual arts and willing to commit the time and energy necessary to achieve professional competence in their chosen area of studio concentration should enroll.

These areas of concentration within the B.F.A. in studio art degree seek to:

- Develop students’ visual vocabulary.
- Foster a deeper understanding of the formal visual relationships present in the art and design process.
- Enhance their aesthetic awareness of art forms.
- Promote the competency to independently seek further professional growth.

Students develop competency in several media (painting, drawing, sculpture, ceramics, fiber, metals and jewelry, printmaking, photography, glass, mixed-media) and foster a professional command of at least one medium. Upon completion of the degree, students are prepared to pursue the professional production and exhibition of their own art or more in-depth study at the graduate school level.

- ART 252. Introductory Painting
- ART 260. Introductory Photography: Black and White
- ART 270, ART 272 or ART 274. Printmaking
- ART 280. Sculpture
- ART 350. Figure Drawing

Studio Concentration (choose one of the following): 2 15

- Ceramics
  - ART 220. Introductory Ceramics: Potter’s Wheel
  - ART 222. Introductory Ceramics: Handbuilding
  - ART 320. Intermediate Ceramics: Molds and Casting
  - ART 322. Intermediate Ceramics: Surface Development
  - ART 420. Advanced Ceramics: Portfolio Development (repeatable up to 9 credits)
- Fiber Arts
  - ART 230. Introduction to Fiber Processes
  - ART 330. Intermediate Fiber Processes
  - ART 430. Advanced Fiber Processes (repeatable up to 9 credits)
- Metals and Jewelry
  - ART 240. Metal and Jewelry
  - ART 340. Intermediate Metal and Jewelry
  - ART 440. Advanced Metal and Jewelry

Complete an additional 6 credits in ART 340 and/or ART 440

Painting and Drawing

- ART 252. Introductory Painting
- ART 350. Figure Drawing
- ART 352. Intermediate Painting
- ART 452. Advanced Painting

Complete an additional six credits from 400-level painting and drawing courses

Photography

- ART 260. Introductory Photography: Black and White
- ART 360. Intermediate Photography: Digital

Complete three of the following courses:

- ART 362. Intermediate Photography: Experimental Black and White
- ART 364. Intermediate Photography: Large Format
- ART 460. Advanced Photography: Alternative Processes
- ART 462. Advanced Photography: The Prehistory of Photography, Magic and Illusion
- ART 464. Advanced Photography: The Photograph as Document
- ART 466. Advanced Photography: Performance for the Lens
- ART 468. Advanced Photography: Screen-based Photo/Video
- ART 469. Advanced Photography: Portfolio Development
Art and art-related electives may include courses from graphic design, interior architecture, art education and internships but excludes courses taken to fulfill the studio concentration.

1 Courses cannot be double-counted in studio concentration.
2 Credits taken to fulfill the studio concentration must be taken in a single studio area.
3 Excludes ARTH 490, ARTH 495 and ARTH 499.
4 Studio art and art-related electives may include courses from graphic design, interior architecture, art education and internships but excludes courses taken to fulfill the studio concentration.

Recommended Schedule for Majors

First Year Credit Hours
ART 102. Two-Dimensional Design 3
ART 104. Drawing I 3
ART 106. Three-Dimensional Design 3
ART 108. Drawing II 3
ART 205. Foundations Seminar 3
Cluster One: Skills for the 21st Century 9
General Education courses 3
Total 30

Second Year Credit Hours
GARTH 205. Survey of World Art I: Prehistoric to Renaissance 3
GARTH 206. Survey of World Art II: Renaissance to Modern 3
Required two- and three-dimensional studio art electives 9
Studio concentration 6
General Education courses 9
Total 30

Third Year Credit Hours
Art history elective (300-400 level) 3
Required two- and three-dimensional studio art electives 9
General or art electives (any level) 3
ART 305. Seminar in Aesthetics 3
General Education courses 6
Total 30

Fourth Year Credit Hours
Art history elective (300-400 level) 3
Studio concentration 6
General or art electives 9
General Education courses 12
Total 30

Bachelor of Science in Studio Art
Coordinator: Jessica Harrod
Phone: (540) 568-3860

The Bachelor of Science degree in studio art is designed for students who seek a breadth of knowledge in the visual arts and who have a preferred interest or stronger background preparation in math, the natural sciences or the social sciences. The major of studio art allows students to study in one of two areas: studio art or studio art with an emphasis in industrial design. The studio art major allows students to:

- Develop students’ visual vocabulary.
- Provide a range of elective options that complement the major in studio art.

Degree Requirements

Required Courses Credit Hours
General Education requirements 1 41
Quantitative requirement 2 3
Scientific Literacy requirement 3 3
University electives 28
Major requirements (listed below) 45
Total 120

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 In addition to course work taken to fulfill General Education requirement.

Major Requirements

The studio art major requires 45 credit hours in art and art history courses, as the following chart shows.

Required Courses Credit Hours
ART 102. Two-Dimensional Design 3
ART 104. Drawing I 3
ART 106. Three-Dimensional Design 3
ART 205. Foundations Seminar 3
GARTH 205. Survey of World Art I: Prehistoric to Renaissance 3
GARTH 206. Survey of World Art II: Renaissance to Modern 3
3-D Studio Art courses (choose one of the following): 3
- ART 220. Introductory Ceramics: Potter’s Wheel
- ART 222. Introductory Ceramics: Handbuilding
- ART 230. Introduction to Fiber Processes
ART 280. Sculpture
Studio art electives (300-400 level) 6
General art electives (any level) 15
Art history elective (300-400 level) 3
Total 45

1 The six credits of studio art electives (300-400 level) must be taken in a single studio area. Graphic design and interior architecture course credits cannot double count as a concentration area.
2 Studio art credits cannot be double-counted.
3 Must include a minimum of nine credit hours in studio art. Up to six hours in art history may be included.
4 Excludes ARTH 490, ARTH 495 and ARTH 499.

Bachelor of Science – Industrial Design Emphasis

Coordinator: Audrey Barnes
Phone: (540) 568-7670

The studio art major with an emphasis in industrial design seeks to:
- Integrate knowledge of the visual arts with applied design technology.
- Enhance problem-solving and communication skills in the creation of design concepts.
- Develop student knowledge that optimizes the function, value and appearance of manufactured products and systems.

Degree Requirements

Required Courses Credit Hours
General Education requirements 1 41
Quantitative requirement 2 3
Scientific Literacy requirement 3 3
Major requirements (listed below) 78
Total 125

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 Math and ISAT courses may double count in the emphasis.
3 Excludes ARTH 490, ARTH 495 and ARTH 499.
4 May be fulfilled by successfully completing ISAT 141.
5 The total credit hours are typically fewer because of the option of double counting several courses with General Education.
Major and Emphasis Requirements

The industrial design emphasis requires 60 credit hours in art and art history courses and a combined 18 credits in electives from ISAT and COB, as the following list shows.

Teaching Licensure

Coordinator: Dr. Katherine Schwartz
Phone: (540) 568-6464

Art education professional PK-12 licensure is available to all studio and design majors. In addition to the general education and academic major requirements, students desiring PreK-12 teaching licensure in art must complete 23 credits of additional course work in art education, education and psychology, and 16 credits of student teaching. It is necessary to be admitted to the teacher education program prior to enrolling in professional education courses. For a complete description of admission and retention policies and procedures for teacher education, refer to the College of Education.
Students seeking licensure are encouraged to consult regularly with the program coordinator of art education. The undergraduate degree leading to licensure must include the following minimum requirements in art:

- Nine credits must be earned in art history and art appreciation.
- Six credits must be earned in ceramics and crafts, with a minimum of one course in ceramics.
- Six credits must be earned in three-dimensional media, with one course in sculpture.
- Twelve credits must be earned in four different two-dimensional media.
- Twenty-seven studio credits, with a minimum of six credits in each of three separate studio areas.

Course Requirements
The following is a list of the required courses leading to PK-12 art licensure and a suggested sequence of when each may be taken.

<table>
<thead>
<tr>
<th>Required Courses</th>

<td>16</td>
</tr>
</tbody>
</table>

1 GPSYC 160 may double-count toward General Education Cluster Five.

Minor Requirements
Students may select a minor from the following areas. A minimum of 18 credit hours is required for any minor. The art minors attempt to:

- Broaden students’ understandings of the value and role of the visual arts in general culture.
- Deepen their appreciation for personal artistic production.
- Enhance their creativity and ability to think independently.

Art Minor
Students enrolled in any degree program may minor in art by completing a minimum of 18 credit hours in art, graphic design, industrial design or interior architecture courses, as the following chart shows. The student’s minor program is subject to approval by the school director.

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 102. Two-Dimensional Design</td>

</tr>
<tr>
<td>ARED 302 and ARED 400)</td>
<td>18</td>
</tr>
</tbody>
</table>

1 Art studio courses are restricted to ART, GRPH, INDE and INDU courses.

Art History Minor
Students enrolled in any degree program may minor in art history by completing a minimum of 18 credit hours in art history courses. At least six of these credit hours must be 400-level art history courses. The student’s minor program is subject to approval by the program director.

<table>
<thead>
<tr>
<th>Required Courses</th>

<td>18</td>
</tr>
</tbody>
</table>

1 For studio art, graphic design and interior architecture majors, required ARTH courses in the art emphasis program may count toward the art history minor. Excludes ARTH 390, ARTH 400, ARTH 460 and ARTH 490.

Book Arts Minor
For more detailed information on this cross disciplinary minor, refer to the book arts entry in the cross disciplinary minor section.
Mission Statement
The Department of Biology holds as its primary core value a commitment to providing superlative teaching for students. To accomplish this mission, we will create an environment for learning that will include opportunities for undergraduate research, a broadly based academic program, a supportive, diverse and collaborative faculty, an understanding of the process of science and a recognition of the importance of community outreach and involvement.

2 See additional information regarding this affiliate program.

Students interested in pursuing any of these career opportunities should contact the biology office. An appropriate advisor will be assigned for mentoring and course selection purposes.

Co-Curricular Activities and Organizations
Biology majors participate in activities such as:
- Weekly departmental seminars
- Tri-Beta, a national biology society
- Pre-professional health clubs and honor society
- EARTH, an environmental action club
- Summer and academic-year research opportunities
- Summer courses at biological field stations
- Internships with various organizations
- Aiding in teaching as student assistants
- Presenting papers at meetings
- Volunteering at Rockingham Memorial Hospital and with the rescue squad

Special Requirements
To be used as prerequisites for biology courses, grades of "C-" or higher should be earned in the following: BIO 103, BIO 114, BIO 124, BIO 214, BIO 224, CHEM 131, CHEM 131L, CHEM 132 and CHEM 132L. In order to be considered as possible transfer credit for BIO 114 and 124, the entire year of a freshman course must be completed at the "C" or higher level.
It is the student’s responsibility to provide evidence to demonstrate that the subject content of the sequence taken is the same as BIO 114 and BIO 124 combined. Matriculated JMU students may not obtain BIO 114 and 124 through transfer credit. In order for BIO 270 and BIO 290 credit to be transferred, both semesters of an Anatomy and Physiology course (A&P I and A&P II) must be completed at the “C” or higher level. A single semester of either of these sequences transfers as BIO 000. Practical hands-on experience in the field and/or laboratory is important content of laboratory based courses.

Transfer credit for courses including laboratories will only be awarded for those having skill and application content comparable to that of JMU courses. A maximum of four hours of lower division biology elective credit applicable toward the major or minor may be transferred as BIO 200. Upper division biology credits applicable toward the major or minor are transferred as specific courses or as BIO 300 or BIO 426. Credits not applicable toward the major or minor, but applicable toward the 120 hour degree requirement, are transferred as BIO 000. A maximum of eight credit hours of first year (100) level BIO courses may be applied to the biology major or minor requirements.

### Degree and Major Requirements

#### Bachelor of Science in Biology

The department offers a four-year B.S. degree program for a major in biology and for a major in biology qualifying for the Secondary Collegiate Professional License. Requirements for the B.A. degree can be met by adding the completion of an intermediate level foreign language and three credit hours in philosophy. Students may not receive dual credit toward the biology major for 300- and 400-level BIO courses that are applied toward the biotechnology major.

Biology majors must complete 40 credit hours of biology courses including 20 credit hours at the 300 and 400 level. Specific requirements include four core courses (BIO 114, BIO 124, BIO 214 and BIO 224), at least two upper-division laboratory courses and one course from a list of courses with an emphasis on organismal diversity. In addition, biology majors must complete a set of cognate courses in chemistry, mathematics, statistics and physics that are listed below. Students are encouraged to participate in independent research with a faculty mentor. Credits earned doing research will count toward the biology major but some restrictions apply.

When requested, senior biology majors are expected to participate in program assessment test activities as a graduation requirement. Assessment information helps the department modify the curriculum to meet student needs.

**Additional Biology Course Requirements**

Students in the biology major must complete at least 24 credit hours of approved biology courses and at least 20 of these must be at the 300 and 400 levels. Also, one course must be from a group of courses on organismal diversity, and two courses must have a laboratory component. Courses in both lists may count for both requirements. Three credits of independent research (BIO 497 and/or BIO 499) may be used for one, but only one, of the laboratory courses.

1) Choose at least one course from the following list of organismal diversity courses:

- BIO 305. Ornithology
- BIO 309. Marine and Freshwater Invertebrates
- BIO 310. General Entomology
- BIO 320. Comparative Anatomy of Vertebrates
- BIO 340. Morphology and Anatomy of Vascular Plants
- BIO 345. Animal Field Biology
- BIO 360. Plant Biology
- BIO 364. Human Uses of Plants
- BIO 380. General Microbiology
- BIO 386. Field Botany
- BIO 412. Mammalogy
- BIO 470. Morphology of Nonvascular Plants
- BIO 486. Systematics of Vascular Plants

2) Choose at least two courses from the following list of laboratory courses:

- BIO 305. Ornithology
- BIO 310. General Entomology
- BIO 318L. Principles of Animal Development (must be taken with BIO 316)
- BIO 320. Comparative Anatomy of Vertebrates
- BIO 340. Morphology and Anatomy of Vascular Plants
- BIO/MATH 342. Mathematical Models in Biology
- BIO 343L. Immunology Laboratory (must be taken with BIO 343)
- BIO 345. Animal Field Biology
- BIO 364L. Laboratory in Human Uses of Plants (must be taken with BIO 364)
- BIO 370. Animal Physiology
- BIO 380. General Microbiology
- BIO 386. Field Botany
- BIO/GEOL 400. Geology and Ecology of the Bahamas
- BIO/GEOG 402. Forest Ecology
- BIO 403. Animal Communication
- BIO 410. Advanced Human Anatomy
- BIO 412. Mammalogy
- BIO 416. Human Embryology
- BIO 420L. Medical Parasitology Lab (must be taken with BIO 420)
- BIO 432. Light Microscopy
- BIO 445. Neurobiology
- BIO 448. Medical Microbiology
- BIO 451. Ecological Systems
- BIO 452. Population Ecology
- BIO 455. Plant Physiology
- BIO 456. Landscape Ecology

http://www.jmu.edu/catalog/14
BIO 457. Biological Applications of Geographic Information Systems
BIO 459. Freshwater Ecology
BIO 460. Plant Cell and Tissue Culture
BIO 465. Environmental Toxicology
BIO 470. Morphology of Nonvascular Plants
BIO 480. Advanced Molecular Biology
BIO 481. Genomics
BIO 482. Human Histology
BIO 486. Systematics of Vascular Plants
BIO 490. Biomechanics

Only one Topics in Biology (BIO 426/427) may fulfill one of the laboratory course and/or organismal requirements. A list of the topics that may be used is available in the biology department office. These can be repeated with a change in topic, but only 12 credits from BIO 426/427 can be applied toward the 40-hour biology course requirement.

When choosing additional biology courses to complete the 40 credit hour requirement, students are strongly encouraged to discuss their career interests with an adviser who can help select courses best suited to their needs. Students are encouraged to participate in independent research and teaching courses with a faculty mentor, though a maximum of eight credits of BIO 492, BIO 494, BIO 495, BIO 496, BIO 497, BIO 499 and ISCI 450 can be counted toward the biology major.

Cognate Requirements
The following five groups of support courses are required for the biology major. Consult your academic adviser about which courses are appropriate.

Required Courses Credit Hours
1) Complete all of the following: 11
   CHEM 131. General Chemistry I
   CHEM 131L. General Chemistry Laboratory
   CHEM 132. General Chemistry II
   CHEM 132L. General Chemistry Laboratory
   CHEM 241. Organic Chemistry I
2) Choose one of the following: 3
   CHEM 242. Organic Chemistry II
   BIO/CHEM 361. Biochemistry I
   CHEM 353. Environmental Chemistry
   GEOL/CHEM 355. Geochemistry of Natural Waters
3) Choose one of the following sets of courses: 4
   MATH 231. Calculus with Functions I
   MATH 232. Calculus with Functions II
   or
   MATH 235. Calculus I
4) Choose one of the following courses: 3
   MATH 220. Elementary Statistics
   MATH 285. Data Analysis
   MATH 318. Introduction to Probability and Statistics
5) Choose one of the following sets of courses: 8
   PHYS 140-140L. College Physics I with Laboratory
   PHYS 150-150L. College Physics II with Laboratory
   or
   PHYS 240-240L. University Physics I with Laboratory
   PHYS 250-250L. University Physics II with Laboratory

College of Science and Mathematics: Department of Biology 151

Recommended Schedule for Majors
First semester first year biology majors are encouraged to start with a 14-15 hour course load. This will generally include BIO 114, CHEM 131 and CHEM 131L, and/or a math course plus General Education. The work load will then be increased in the second semester based on the level of first semester success.

First Year Credit Hours
BIO 114. Organisms 1 4
BIO 124. Ecology and Evolution 4
CHEM 131-132. General Chemistry Lectures 1 6
CHEM 131L-132L. General Chemistry Laboratories 2
Mathematics courses 1 4-8
General Education: Cluster One 9-12

Second Year Credit Hours
BIO 214. Cell and Molecular Biology 4
BIO 224. Genetics and Development 4
CHEM 241. Organic Chemistry I 3
CHEM 242, BIO/CHEM 361, CHEM 353 or GEOL/CHEM 355 3
Mathematics course 3-4
General Education: from Clusters Two, Four and Five 12

Third Year Credit Hours
Upper-level biology laboratory courses 8
Biology electives 8
Physics courses 8
General Education: from Clusters Two, Four and Five 7
Electives 6

Fourth Year Credit Hours
Upper-level biology laboratory course 4
Biology electives 9
General Education: from Clusters Two, Four and Five 3
Electives 15

Concentrations
Concentration in Ecology and Environmental Biology
Students choosing a concentration in ecology and environmental biology (biology/EEB majors) must complete 40 credit hours of biology courses. Specific requirements include four core courses and at least 24 credit hours chosen from a list of elective courses at the 300 and 400 level. This must include one course with an emphasis on organismal diversity and at least two upper-division laboratory or field courses. Three credit hours of independent research (BIO 497 and/or BIO 499) may be used for one, but only one, of the laboratory courses.

In addition, biology/EEB majors must choose from a set of cognate courses that include chemistry, geography, mathematics, statistics and physics. Students are encouraged to participate in independent research with a faculty mentor. Credits earned doing research will count toward the biology/EEB major, but some restrictions apply.

1 Chemistry beyond the minimum requirement is recommended in many areas of biology. Consult with your adviser about which courses are appropriate. Students counting CHEM 242 or GEOL/CHEM 355 toward their cognate requirement may petition to count BIO/CHEM 361 for biology major credit. BIO/CHEM 361 may not be used for both a chemistry cognate and a biology major elective.
2 Mathematics beyond the minimum requirement is desirable in many areas of biology. Consult your adviser about which courses are appropriate.
3 Statistics beyond the minimum requirement is desirable in many areas of biology. Consult your adviser about which courses are appropriate.

http://www.jmu.edu/catalog/14
The biology/EEB concentration differs from the biology major in the following ways:

1) Students must take two additional cognate courses:
   - MATH 321. Analysis of Variance and Experimental Design or BIO 454. Introduction to Biometrics
   - GEOG 368. Introduction to Geographic Information Science or BIO 457. Biological Applications of Geographic Information Systems

2) For their upper-level biology course requirements, students must complete at least 24 credit hours from the following list. At least one of these must be an organismal diversity course and at least two must be laboratory/field courses. With prior approval from the concentration coordinator, BIO 426 and/or BIO 427 may be substituted. Students are strongly encouraged to discuss their career interests with an adviser who can help select courses best suited to their needs. Students are encouraged to participate in independent research with a faculty mentor (to a maximum of eight credits).

In addition to the courses listed below, a maximum of eight credits of BIO 494, BIO 495, BIO 496, BIO 497, BIO 499 and ISCI 450 can be counted toward the biology/EEB concentration.

BIO 305. Ornithology 1,2
BIO 309. Marine and Freshwater Invertebrates 1
BIO 310. General Entomology 1,2
BIO 320. Comparative Anatomy of Vertebrates 1,2
BIO 340. Morphology and Anatomy of Vascular Plants 1,2
BIO/MATH 342. Mathematical Models in Biology
BIO 345. Animal Field Biology 1,2
BIO 354. Global Climate Change and Life
BIO 360. Plant Biology 1
BIO 370. Animal Physiology 1
BIO 380. Plant Biology 1
BIO 386. Field Botany 1,2
BIO 395. Comparative Animal Behavior
BIO/GEOL 400. Geology and Ecology of the Bahamas
BIO/GEOG 402. Forest Ecology 2
BIO 403. Animal Communication 2
BIO 404. Evolutionary Analysis
BIO 412. Mammalogy 1,2
BIO 451. Ecological Systems 2
BIO 452. Population Ecology 1
BIO 453. Microbial Ecology and Evolution
BIO 454. Introduction to Biometrics
BIO 455. Plant Physiology
BIO 456. Landscape Ecology 2
BIO 457. Biological Applications of Geographic Information Systems 2
BIO 458. Freshwater Ecology
BIO 465. Environmental Toxicology 2
BIO 466. Toxicology Seminar
BIO 470. Morphology of Nonvascular Plants 1,2
BIO 486. Systematics of Vascular Plants 1,2

1 Meets the requirement for an organismal diversity course.
2 Meets one of the two requirements for laboratory/field courses.

Note: It is highly recommended that students take additional upper-level elective courses in geography/GIS (such as GEOG 466, GIS and Geographic Databases, or GEOG 467, GIS Project Management) and in statistics (such as MATH 322, Applied Linear Regression, or MATH 324, Applied Nonparametric Statistics). Students should consult with their adviser about which courses are appropriate.

### Biotechnology

**Director:** Dr. Matra Bechtel  
**Phone:** (540) 568-5526  
**Website:** [http://www.jmu.edu/biology/biotechnology.shtml](http://www.jmu.edu/biology/biotechnology.shtml)

In cooperation with the Department of Integrated Science and Technology and the Department of Chemistry and Biochemistry, the Department of Biology offers a four-year, cross-disciplinary B.S. degree program for a major in biotechnology. Students majoring in biotechnology will be prepared to enter the biotechnology workforce or to pursue graduate education in a wide array of fields including medical, agricultural or industrial biotechnology. Fields of research in biotechnology include applied molecular biology, bioinformatics and genomics.

Biotechnology majors must complete 47-53 credit hours of science foundation courses, 17 credit hours of biotechnology transition and core courses, and 15 credit hours of elective courses. Students may not receive dual credit toward the biotechnology major for 300 and 400-level biology courses that are applied toward the biology major. Refer to Biotechnology for a complete description of the major.

### Dual Degree Programs

#### Forestry

James Madison University Liaison: Heather Griscom  
**Phone:** (540) 568-5525

This dual degree program makes it possible for the student to earn a B.S. degree in biology from James Madison University and a Master of Forestry degree from Virginia Tech in five years. During the first three years at JMU, the student must complete 96 credit hours, all JMU general education requirements, the biology core requirements, BIO 455 and five additional hours in biology.

Also, the student must take the cognate courses for biology majors in chemistry, mathematics and physics, courses in business (ACTG 241, ECON 201 and ECON 200) and a course in geology (GEOL 110).

During the fourth year of study the student will take further courses (at least 30 hours) at Virginia Tech for credit toward the B.S. in biology from JMU. A total of 38 semester hours of biology and biology-related courses (taken at JMU and Virginia Tech) will be required for the JMU B.S. in biology, which will be conferred after the fourth year of study. If the student’s academic record is satisfactory, then they will be admitted into the graduate program of the Department of Forestry at Virginia Tech, where they will spend approximately three semesters (12 months) taking additional forestry and forestry-related courses to obtain the degree of Master of Forestry. To apply for the dual degree program, the student must have the permission of the dean of the College of Science and Mathematics. Information about the program can be obtained from the Department of Biology. Students are encouraged to inquire as early as possible in their undergraduate careers.

http://www.jmu.edu/catalog/14
Minor Requirements
Biochemistry and Molecular Biology Minor
For more detailed information on this cross disciplinary minor, refer to the Biochemistry and Molecular Biology page.

Biology Minor
Students choosing to minor in biology must complete the following courses:

<table>
<thead>
<tr>
<th>Courses</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIO 114. Organisms</td>
<td>4</td>
</tr>
<tr>
<td>BIO 124. Ecology and Evolution</td>
<td>4</td>
</tr>
<tr>
<td>BIO 214. Cell and Molecular Biology</td>
<td>4</td>
</tr>
<tr>
<td>BIO 224. Genetics and Development</td>
<td>4</td>
</tr>
<tr>
<td>Biology elective (300-level and above)</td>
<td>3-4</td>
</tr>
<tr>
<td></td>
<td><strong>19-20</strong></td>
</tr>
</tbody>
</table>

Credit by Examination
When evidence of sufficient background or preparation is presented, the Department of Biology offers credit by examination in many of its non-lab courses at the discretion of the course instructor or coordinator. Students seeking such credit should make arrangements with the course instructor or coordinator and obtain approval of the department head.

Teaching Licensure
Biology majors need courses in physics and geology as well as inorganic and organic chemistry for many science education positions.

In addition to the general education and academic major requirements, biology majors desiring secondary teacher licensure must be admitted to teacher education, complete the pre-professional program in secondary education at the undergraduate level and complete the graduate level Master of Arts in Teaching degree.

It is critical that students seeking licensure consult regularly with both their education adviser and their major adviser to support their progression through the programs. For a full description of the program in secondary teaching, refer to the Department of Middle, Secondary and Mathematics Education, in addition to the College of Education.
Department of Biotechnology

Other 300- and 400-level courses may meet the requirements but permission must be sought from the biotechnology program director.

Students are highly encouraged to include academic credit for research, up to 8 credits of which may be applied to the elective requirement.

Recommended Schedule for Majors

First semester, first year biotechnology majors are encouraged to start with a 14-15 hour course load. This will generally include a biology course (four credit hours), CHEM 131 and CHEM 131L, and/or a math course, plus General Education. The work load will then be increased in the second semester based on the level of success during the first semester.

Lecturer
D. Warnaar

Mission Statement
The Department of Chemistry and Biochemistry offers the B.S. degree for a major in chemistry, with concentrations that meet the American Chemical Society Accredited Programs requirements for programs in biochemistry, materials chemistry and in chemistry/chemical education. In addition, the department offers a B.S. degree in biophysical chemistry. It also offers minors in chemistry, biochemistry and molecular biology, and materials science. The programs are designed to provide the theoretical and practical instruction in chemistry and related areas to prepare students for careers in chemistry, biochemistry, medicine, dentistry, paramedical areas, forensic sciences, chemical engineering and other technology based areas. The department also recognizes its responsibility to provide courses for non-chemistry majors who need a basic understanding of the principles of chemistry either for their chosen major or their general education.

Career Opportunities
- Graduate school in chemistry, biochemistry or related areas (ACS Certified Degrees preferred)
- Professional employment as a chemist or biochemist (ACS Certified Degrees preferred)
- Professional school (medical, dental, veterinary, pharmacy, business and law)
- Chemical engineering
- Environmental science
- Forensic science
- Immunology
- Industrial hygiene
- Pharmaceutical chemistry
- Pharmacology
- Production supervision
- Quality control
- Research assistant
- Scientific writing
- Some forms of development work
- Technical library science
- Toxicology

Co-Curricular Activities and Organizations
- American Chemical Society Student Affiliate Chapter
- Alpha Chi Sigma Professional Fraternity (Coed)
- Iota Sigma Pi

Electives
The well-prepared student is encouraged to take as many of the additional departmental offerings as possible as electives with particular attention being given to junior and/or senior research projects.

Concentrations

Concentration I: American Chemical Society Certified Programs
Required Courses for all ACS Certified Programs
All ACS Certified Programs require a minimum of 400 hours of laboratory and research.

Core Chemistry Courses

- CHEM 352. Instrumental Analysis 3
- CHEM 352L. Instrumental Analysis Laboratory 2
- CHEM 432. Physical Chemistry II 3
- CHEM 438L. Physical Chemistry Laboratory 2

Required Cognate Courses for all ACS Certified Programs
In addition, to ensure a sound background in physics and mathematics the following courses are required.

Required Courses

- MATH 235-236. Calculus II 8-12
  (or MATH 231, MATH 232 and MATH 236)
- PHYS 240-250. University Physics I-II 6
- PHYS 140L-150L. General Physics Laboratories 2

Program Specific Courses

ACS Certified Chemistry

- CHEM 470. Inorganic Chemistry II 3
- MATH 237. Calculus III 4
- MATH 238. Linear Algebra and Differential Equations 4

ACS Certified Biochemistry

- BIO 380. General Microbiology 4
- BIO 480. Molecular Biology 4
- CHEM 362. Biochemistry II 3
- CHEM 366L. Biochemistry Laboratory 2

Note: This program also meets the recommended undergraduate degree requirements of the American Society for Biochemistry and Molecular Biology for a major in biochemistry.

ACS Certified Materials Chemistry

- CHEM 375. Introduction to Materials Science 3
- CHEM 445. Polymer Chemistry 4
- PHYS 381. Materials Characterization Lab 3
  (Substituted for CHEM 438L)
- MATH 237. Calculus III 4
- MATH 238. Linear Algebra with Differential Equations 4
- ISAT 432. Selection and Use of Engineering Materials 3

ACS Certified Chemical Education

See Licensure Programs.

Concentration II: General Program in Chemistry
Students following the general concentration must take, in addition to the core courses, the following:

<table>
<thead>
<tr>
<th>Courses</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 338L. Applied Physical Chemistry Laboratory</td>
<td>2</td>
</tr>
<tr>
<td>CHEM 352L. Physical Chemistry Laboratory</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 438L. Physical Chemistry Laboratory</td>
<td>2</td>
</tr>
<tr>
<td>MATH 235-236. Calculus I-II</td>
<td>8-12</td>
</tr>
<tr>
<td>(or MATH 231, MATH 232 and MATH 236)</td>
<td></td>
</tr>
<tr>
<td>PHYS 240-250. University Physics I-II</td>
<td>6</td>
</tr>
<tr>
<td>PHYS 140L-150L. General Physics Laboratories</td>
<td>2</td>
</tr>
<tr>
<td>Upper division chemistry elective</td>
<td>3</td>
</tr>
</tbody>
</table>

Concentration III: Chemistry/Business Program
This program is designed for business-oriented chemistry students preparing for careers in patent law, technical sales, technical service and related areas. Students following the chemistry/business concentration must take, in addition to core courses, the following courses:

<table>
<thead>
<tr>
<th>Courses</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 338L. Applied Physical Chemistry Laboratory</td>
<td>2</td>
</tr>
<tr>
<td>ACTG 244. Accounting for Non-Business Majors</td>
<td>3</td>
</tr>
<tr>
<td>COB 204. Computer Information Systems</td>
<td>3</td>
</tr>
<tr>
<td>ECON 201. Principles of Economics (Micro)</td>
<td>3</td>
</tr>
<tr>
<td>MGT 305. Management and Organizational Behavior</td>
<td>3</td>
</tr>
<tr>
<td>MKTG 360. Principles of Marketing</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 140-150. College Physics I-II</td>
<td>6</td>
</tr>
<tr>
<td>PHYS 140L-150L. General Physics Laboratories</td>
<td>2</td>
</tr>
<tr>
<td>Chemistry or approved science courses</td>
<td>5</td>
</tr>
<tr>
<td>Suggested Elective: COB 218. Legal Environment of Business</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: Although business electives may be taken by students in this concentration, the total number of business credit hours may not exceed 27.

Recommended Schedule for Chemistry Majors

First Year

In order to complete this minor, prerequisite courses in mathematics and physics are required. These courses collectively fulfill the nine-credit approved technical elective package for the Bachelor of Science in Engineering.

Materials Science Minor
Refer to Cross Disciplinary Programs for more detailed information on this cross disciplinary minor.

Credit by Examination
The chemistry and biochemistry department offers credit by examination for CHEM 131 and 132, General Chemistry I-II. Students who want permission to take the examination must apply to the department head. Details regarding approval to take the examination and examination dates will be provided when the application is received.

Teaching Licensure
Students interested in becoming teachers must meet specific curriculum requirements in their major as part of the undergraduate academic degree. Chemistry majors must also complete a course in biology and a course in geology.

In addition to the general education and academic major requirements, chemistry majors desiring secondary teacher licensure must be admitted to teacher education, complete the pre-professional program in secondary education at the undergraduate level and the graduate level Master of Arts in Teaching degree.

It is critical that students seeking licensure consult regularly with both their education adviser and their major adviser to support their progression through the programs. For a full description of the program in secondary teaching, refer to the Department of Middle, Secondary and Mathematics Education, in addition to the College of Education/Professional Education Unit section of the catalog.
Department of Communication Sciences and Disorders

Dr. Cynthia O’Donoghue, Department Head

Assistant Professor
C. Clinard, C. Jacobson, C. Kuo, Y. Nie, S. Pavelko

Instructors
S. Ingram, M. Powell

Mission Statement
The Department of Communication Sciences and Disorders is committed to providing comprehensive, state-of-the-art undergraduate pre-professional education that includes discipline-specific course work and observation. In keeping with university requirements, this includes a broad-based General Education component. The department also provides graduate-level course work and practicum experiences for those interested in entering professional practice in either speech-language pathology or audiology, a university teaching and research position, or a management/administrative position in service delivery settings. The department is committed to advancing the state of knowledge in both basic and applied aspects of communication sciences and disorders through its master’s and doctoral research degrees and the research activities of its faculty and students and to providing service to the profession, university and client communities at local, state, national and international levels. Through its Applied Laboratory, the department seeks to provide outreach services to the region as part of the clinical teaching component of its mission and to provide a clinical research resource for students and faculty.

Goals
- Providing course work and observation at the undergraduate level, including study of the underlying science and development of human communication, and an introduction to disorders that may occur in human communication.
- Providing course work at the undergraduate level that will prepare students for:
  - Graduate study in the areas of speech-language pathology or audiology
  - Graduate school in a related discipline and
  - A liberal education in the discipline of communication sciences and disorders.
- Offering a minor in communication sciences and disorders for undergraduate students majoring in other fields.

Programs of Study
The department offers a B.A. and B.S. in communication sciences and disorders. The department also offers the M.S. in speech-language pathology (professional preparation), the M.S. in communication sciences and disorders (research), the Au.D. (Doctor of Audiology) and the Ph.D. in communication sciences and disorders with emphases in audiology, speech-language pathology and/or speech and hearing science. Inquiries concerning these graduate programs should be directed to the dean of The Graduate School or the appropriate department graduate coordinator. A master’s degree is the minimum requirement for competency/certification endorsed by the American Speech-Language-Hearing Association and for Virginia licensure in speech-language pathology. In audiology, a doctoral degree is the minimum requirement for competency/certification endorsed by the American Speech-Language-Hearing Association and for new Virginia licensure applicants.

Applied Speech, Hearing and Language Laboratory
The JMU applied teaching laboratory for CSD students provides the following services for communicatively impaired individuals of the university community and its service area. Appointments for services may be made by any member of the community.

Areas of Service Delivery
- Speech-language and/or hearing assessments
- Intervention programs in speech, language and hearing disorders
- Preventative and educational consultation
- Referrals for other professional services when indicated

Career Opportunities
With relevant graduate degrees:
- Audiologist in medical centers, medical practice, private practice
- Clinical supervisor
- Hearing scientist
- Researcher, university professor
- Speech-language pathologist in the public schools, rehabilitation centers, medical environment, private practice
- Speech scientist

http://www.jmu.edu/catalog/14
Co-curricular Activities and Organizations
- National Student Speech-Language-Hearing Association
- Student Academy of Audiology

Degree and Major Requirements
Bachelor of Arts in Communication Sciences and Disorders

Degree Requirements
Required Courses | Credit Hours
--- | ---
General Education 1, 2 | 41
Foreign Language classes (intermediate level required) 3 | 0-14
Philosophy course(s) (in addition to General Education courses) | 
University electives | 28-34
Major requirements (listed below) | 48

1. A biological sciences course is required. It may be taken as part of the General Education courses or as a non-departmental required course.
2. The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
3. The foreign language requirement may be satisfied by successful completion of the second semester of the intermediate level of the student's chosen language (typically 232) or by placing out of that language through the Department of Foreign Languages, Literatures and Cultures' placement test.

Minor Requirements

Communication Sciences and Disorders

The minor program in communication sciences and disorders requires a minimum of 18 credit hours in courses with CSD prefixes, excluding CSD 300 and CSD 314. Students are advised to check prerequisites for courses.

1. A biological sciences, physics and/or chemistry course is required. It may be taken as part of the General Education courses, as part of the B.S. requirement or as a non-departmental required course.

Assistant Professors

Lecturers/Instructors

Mission Statement
The School of Communication Studies promotes an academic environment in which students, faculty and staff develop innovative communication practices and facilitate constructive dialogue in the classroom and community to inspire responsible citizenship in a diverse world. We are committed to the teaching of communication theory and criticism, the development of communication and advocacy skills, the research of communication processes and practices, and the application of generated knowledge about human communication toward the betterment of self and community. Accordingly, members of the School of Communication Studies strive to create a learning environment whereby:

- Individuals are academically well-rounded, diverse in experience and reflective in their methods, research, and skill sets for approaching communication;
- Scholarship is communication focused, but inter-disciplinary in approach, and produces meaningful dialogue within our academic disciplines and communities;
- Professional service, outreach to communities, and advocacy for human betterment is valued by and from each individual.

Goals
As the school offers courses and programs in communication studies, the school seeks to fulfill the following goals:

- To prepare all JMU students who take a communication studies course to use oral communication skills effectively.
- To prepare students with a major or minor in communication studies for graduate and professional study as well as for careers in communication and communication-related professions.
- To provide co-curricular opportunities which enhance and reinforce communication competencies for all JMU students.

Career Opportunities and Marketable Skills
Students of communication studies develop skill competencies required for effective interaction and leadership in communities, workplaces, and groups. Some of these skills include:

- Speaking
- Interacting in small groups
- Using nonverbal communication skills such as use of space, voice, gaze and facial expressions
- Constructing persuasive messages and campaigns
- Using computers for word processing, statistical analysis, desktop publishing, graphic design, web page construction and browsing the Internet
- Analyzing communication at all levels including interpersonal, small group and organizational
- Persuading successfully
- Using language effectively
- Writing effectively
- Mediating and resolving conflicts
- Listening and problem solving

Such careers are part of the following fields:

- Consulting
- Entertainment
- Hospitality Industry
- Management
- Personnel
- Politics
- Sales
- Teaching

Study in communication studies also serves as valuable pre-professional preparation for graduate and professional studies in the following fields:

- Communication
- Counseling
- Law
- Management
- Ministry

Students who study communication studies acquire skills that enable them to interact with others effectively. These skills include:

- Speaking in front of groups
- Interacting effectively in small groups
- Using nonverbal communication skills such as use of space, voice, eyes and facial expressions
- Constructing persuasive messages and campaigns

http://www.jmu.edu/catalog/14
Co-curricular Activities and Organizations

To enhance courses and programs in communication studies, the school offers a variety of co-curricular activities and organizations open to all JMU students. Co-curricular activities involve practical communication experiences for which credit is available, either through the various practicums or one of the school's applied courses. Co-curricular organizations are student clubs and honorary societies associated with the school's individual programs of study.

Activities

Institute for Conflict Analysis and Interventions: Activities concern the use of methods of alternative dispute resolution for resolving conflicts.

- Annual Communication Studies Conference: Annual program highlighting undergraduate scholarship in which students deliver professional presentations to the JMU community on a variety of topics that reflect the diverse research methodologies and areas of study in the School of Communication Studies.
- International Undergraduate Research Conference: Annual conference provides a forum for undergraduate research in the School of Communication Studies. Varieties of topics reflect the diverse research methodologies and areas of study in the School of Communication Studies.
- Debate Team: Affords students interested in debating intercollegiate tournament competition and local audience experiences.
- Individual Events Team: Intercollegiate tournament competition and local audience experiences for students interested in public speaking and the oral interpretation of literature can be acquired through individual events team participation.
- Health Communication Institute: Students interested in effective communication with health communication professionals can work with the institute in a practicum or directed project.

Organizations

- Delta Sigma Rho-Tau Kappa Alpha: A chapter of a national honorary organization for students competing in intercollegiate debate and individual events.
- International Association of Business Communicators: A chapter of a national organization for students and professionals interested in business communication and public relations.
- Lambda Pi Eta: A chapter of a national honorary organization for students interested in communication.
- Destination Imagination: Students interested in effective conflict resolution and mediation skills can participate in the activities.
- Public Relations Student Society Association: An award-winning student organization for students pursuing careers in public relations.
- Health Communication Institute: Students interested in effective communication with health communication professionals can work with the institute in a practicum or directed project.

Admission to the Major

Admission to JMU does not guarantee admission to the School of Communication Studies. All students interested in majoring in the program must apply for a limited number of spaces while first completing SCOM 240 and SCOM 241. In order to register for these classes, students must change their major to “SCOM declared” to register for SCOM 240 and SCOM 241. The School of Communication Studies reviews applications for admission to the major each semester. Students must submit their applications (which can be accessed from the SCOM website and submitted by email) in the semester in which they are completing the SCOM 240 and SCOM 241 requirements. Applications are due by November 15 (fall semester) and April 15 (spring semester). Students who have applied by the above deadlines will be notified of the department’s admission decision at the end of the semester in which they complete the SCOM 240 and SCOM 241 requirements.

Admission to the major is based on availability to the most qualified students as determined by performance in SCOM 240 and SCOM 241. It is possible for a student to be accepted into the major but not into their first choice concentration.

Students who are not admitted may file one more additional application in the next regular semester. Students reapplying must apply in two consecutive semesters of enrollment at the university. If a student reapplies after retaking SCOM 240 and SCOM 241 (whether repeat or repeat/forgive), the school will look only at their highest grades earned when evaluating their second application.

Successful completion of a major in the School of Communication Studies requires, at the very least, a minimum of four semesters after a student is fully admitted to the School. Depending upon the student’s particular circumstances and degree progress, more than four semesters may be required for completing the major. Once admitted to the School of Communication Studies, a student cannot retroactively apply more than nine hours of SCOM courses, including SCOM 240 and SCOM 241, to his/her major.

Policy for Students Transferring from Another Institution

Students transferring from other institutions are held to the same policies and guidelines as other applicants. However, once admitted to the School of Communication Studies, transfer students may petition for SCOM credit for courses taken at previous institutions. As with other applicants, they cannot retroactively apply more than nine hours of SCOM courses taken at JMU, including SCOM 240 and SCOM 241, to their major or minor once admitted to the School of Communication Studies.

Minimum Grades

Any course taken to fulfill a degree requirement in communication studies must be completed with a minimum grade of “C” (2.0).
A communication studies course completed with a grade of “C-” or “D,” including courses to fulfill JMU’s baccalaureate degree requirements, may be credited toward graduation but may not be included as course work toward a communication studies major or minor. Additionally, courses completed with a grade less than “C” will not count as fulfilling prerequisites for future courses, and enrolled students may be administratively removed from courses for which they have not completed a required prerequisite with a grade of “C” or higher.

Limitations in Applied Courses
No more than six hours combined credit in SCOM 318, Practicum in Communication Studies; SCOM 390, Directed Projects and SCOM 495, Internship in Communication Studies may be counted toward a major in communication studies.

Double Counting
Students with a communication studies major are allowed to count toward the major a maximum of six hours of credit earned to satisfy requirements in another major or minor.

Degree and Major Requirements
The School of Communication Studies offers the Bachelor of Science and Bachelor of Arts degrees with a major in communication studies. Students must take at least 39 hours of work in communication studies beyond the General Education requirement.

All programs must include at least five elements:
- Twelve hours of required courses.
- Successful completion of SCOM 394, Core Assessment in Communication Studies, upon completion of the core requirements.
- Fifteen hours of courses within distribution areas to meet the school depth requirement.
- Nine hours of free elective courses in communication studies at the 300 or 400 level and three hours at the 200, 300 or 400 level.
- Twelve hours of course work at the 300 level or above outside of the major program of study; or a second major or minor.

2 In addition to course work taken to fulfill General Education requirement.
3 A minimum of 12 credit hours of university electives must be at the 300 level or above, or students must earn a second major or minor.

In addition, students pursuing a B.S. in communication studies must complete MATH 220. Elementary Statistics or a school-approved statistics course with a grade of "C" (2.0) or better. School-approved statistics courses include, but are not limited to, COB 191, Business Statistics. MATH 220 can count as either a General Education or a B.S. quantitative requirement, but not both.

Concentrations

Advocacy Studies

This concentration prepares students to understand, critically evaluate and engage the communication theories, processes, media institutions and communication technologies that citizens, political leaders, government officials, public administrators, interest groups and community service organizations use to campaign, deliberate, adjudicate, govern and advocate for social change. Skilled advocates adopt, develop and implement diverse sets of communication strategies that help clients articulate interests and goals, determine social systems and audiences most likely to achieve goals, identify effective media and appropriate goal oriented messages, and develop plans for implementing change.

http://www.jmu.edu/catalog/14
In addition to the 12 hours of required communication studies courses, students studying advocacy must complete the following 18 hours from among the depth requirements. The school also recommends that students enroll in an internship during their junior or senior year.

### Conflict Analysis and Intervention

This concentration prepares students to analyze conflict interaction and explore various methods of formal and informal conflict intervention in interpersonal, workplace, legal, political, religious and intercultural contexts. Included among the conflict intervention processes studied are family therapy, community dialogue, negotiation and mediation. A concentration in conflict analysis and intervention can prepare students for careers in human services, human resources, government, peacebuilding, conflict intervention and humanitarian agencies, and dispute resolution. It is also useful for students who wish to pursue the study of law or careers in business management, diplomacy and international relations.

In addition to the 12 hours of required communication studies courses, students studying conflict analysis and intervention must complete the following 18 hours from among the depth requirements. Additionally, students are encouraged to enroll in an internship during their junior or senior year.

### Cultural Communication

This concentration prepares students to analyze, engage and manage communication situations where cultural identity becomes relevant to the persons involved in the interaction. Students analyze communication processes and theories that help explain dynamics of intercultural interactions in personal and professional contexts. The concentration affords students cultural competencies necessary for personal growth and professional success in increasingly diverse work and social settings. Communication skills learned here prepare students for careers in education, management and training, international relations, and law.

In addition to the 12 hours of required communication studies courses, students studying communication and culture must complete the following hours from among the depth requirements. Additionally, students are encouraged to enroll in an internship during their junior or senior year.

### Health Communication Studies

This concentration prepares students for careers in patient advocacy, health promotion and education, social marketing, health-related public relations, health-related writing, pharmacy sales and health-related advertising. Students will gain strong writing and research skills, project management expertise, leadership and team building, as well as gain knowledge in the areas of interpersonal doctor-patient communication, health campaigns and public health, culture and health, ethics and health and organizational communication.

In addition to the 12 hours of required communication studies courses, students studying health communication must complete the following hours from among the depth requirements. Students are encouraged to enroll in an internship during their junior or senior years.

Interpersonal Communication Studies
Students analyze how messages are used to manage personal relationships in social and professional contexts. By examining research, theory, and processes of interpersonal communication, students learn important principles for managing impressions and building rapport, identifying needs and pursuing influence goals, reducing relational uncertainty and adapting to change. Students completing the concentration learn to communicate the value of healthy relationships, are well prepared for graduate school, and develop relational skills for excelling in careers such as peer counseling, education, family and human services, sales and management, aging services, ministry and community leadership.

In addition to the 12 hours of required communication studies courses, students must complete the following 18 hours from among the depth requirements. Students are encouraged to enroll in an internship as well as become involved in a research or community service project during their junior or senior years.

Courses Credit Hours
SCOM 320. Introduction to Interpersonal Communication 3
SCOM 440. Family Communication 3
Choose one of the following 3
SCOM 247. Small Group Communication
SCOM 248. Intercultural Communication
SCOM 334. Alternative Dispute Resolution
SCOM 370. Introduction to Health Communication
SCOM 432. Senior Seminar in Conflict Analysis and Intervention
Choose one of the following research requirements: 3
SCOM 381. Communication Criticism
SCOM 383. Communication Research Methodologies
SCOM 385. Qualitative Communication Research Methods
SCOM 386. Communication Survey Research
Choose one of the following: 3
SCOM 332. Mediation
SCOM 340. Principles and Processes of Interviewing
Choose one of the following: 3
SCOM 314. Communication in Romantic Relationships
SCOM 331. Communication and Conflict
SCOM 345. Nonverbal Communication

Students are encouraged to enroll in SCOM 330, Special Topics in Interpersonal Communication, in partial fulfillment of their SCOM elective requirement.

Organizational Communication Studies
Organizational communication involves the study of the ways people interact within organizations, such as business, government, education, and nonprofit groups. The specific focus of this concentration is internal and external communication of organizations. This concentration prepares students for careers in business, consulting, training, and event planning and for the study of law.

College of Arts and Letters: School of Communication Studies 167

In addition to the 12 hours of required communication studies courses, students studying organizational communication must complete the following 18 hours from among the depth requirements. Additionally, students are encouraged to enroll in an internship during their junior or senior year.

Courses Credit Hours
SCOM 350. Organizational Communication 3
SCOM 358. Business and Professional Communication Studies 3
SCOM 425. Leadership Communication 3
SCOM 450. Advanced Studies in Organizational Communication 3
Choose one of the following: 3
SCOM 447. Facilitating Public and Organizational Engagement
SCOM 449. Communication Training
Communication research course (depth requirement) 3

Public Relations Studies
This concentration focuses on the management of communication between organizations and their internal and external publics with the goal of mutual understanding and influence. Public relations practitioners work with specific audiences relative to focused goals. Preparation for a career in public relations should include a broad educational base and a variety of communication skills.

In addition to the 12 hours of required communication studies courses, students studying public relations must complete the following 18 hours from among the depth requirements in order to receive a letter upon graduation that verifies that they have completed a program of public relations studies. The school also recommends that students enroll in an internship during their junior or senior year.

Courses Credit Hours
SCOM 260. Introduction to Public Relations 3
SCOM 261. Public Relations Techniques I: Written 3
Choose one of the following: 3
SCOM 361. Public Relations Techniques II: Visual
SCOM 367. Advanced Public Relations Writing
Choose one of the following: 3
SCOM 383. Communication Research Methodologies
SCOM 386. Communication Survey Research
SCOM 460. Public Relations Management 3
SCOM 461. Public Relations Campaigns 3

Minor Requirements

Admission to the Minor
Admission to JMU does not guarantee admission to a minor in the School of Communication Studies. All students interested in minoring in the program must apply for a limited number of spaces while first completing SCOM 240 and SCOM 241. In order to register for these classes, students must first submit their application for an SCOM minor. Applications can be accessed on the SCOM website and must be submitted by email. The School of Communication Studies reviews applications for admission to the minor each semester. Students who have applied will be notified of the department’s admission decision at the end of the semester in which they complete the SCOM 240 and SCOM 241 requirements.

http://www.jmu.edu/catalog/14
Admission to an SCOM minor is based on availability to the most qualified students as determined by performance in SCOM 240 and SCOM 241.

Students who are not admitted may file one more additional application in the next regular semester. Students reapplying must apply in two consecutive semesters of enrollment at the university. If a student reapplies after retaking SCOM 240 and SCOM 241 (whether repeat or repeat/forgive), the school will look only at their highest grades earned when evaluating their second application.

Successful completion of any minor in the School of Communication Studies requires, at the very least, a minimum of two semesters after a student is fully admitted to the School. Depending upon the student’s particular circumstances and degree progress, more than two semesters may be required for completing the minor. Once admitted to the School of Communication Studies, a student cannot retroactively apply more than nine hours of SCOM courses, including SCOM 240 and SCOM 241, to his/her minor. Also, once admitted to an SCOM minor, a student cannot automatically transfer into the SCOM major without reapplying in a subsequent semester, and there is no guarantee of acceptance.

Communication Studies Minor
A minor in communication studies requires 18 hours of course work in communication studies beyond the General Education requirement, including SCOM 240, SCOM 241 and a minimum of nine hours at the 300 level and three hours at the 400 level. Before a student begins a minor in communication studies, the school director and the student’s adviser must approve his or her planned program of study.

Conflict Analysis and Intervention Minor
The minor in conflict analysis and intervention prepares students to analyze conflict interaction and explore various methods of formal and informal conflict intervention in a wide variety of contexts. The program is intended for students not majoring in communication studies who wish to supplement and augment their major area of study. The requirements for a conflict analysis and intervention studies minor are 18 credit hours.

Cultural Communication Minor
The minor in cultural communication is designed to provide students with principles and theories of communication processes that help explain dynamics of intercultural interactions in personal and professional contexts. The program is intended for students not majoring in communication studies who wish to augment their major area of study, develop skills of cultural competence and increase their awareness of diversity.

Health Communication Minor
The minor in health communication is designed to provide students not majoring in communication studies with conceptual and applied knowledge about communication interaction and its effects on health care, health care practitioners and patients/clients. Students will gain strong writing and research skills, project management expertise, leadership and team building skills as well as gain knowledge in the areas of interpersonal doctor-patient communication, health campaigns and public health, culture and health, ethics and health, and organizational communication. It is designed for students pursuing careers in related health care fields or for students who have an interest in health communication.

Political Communication Minor
The School of Communication Studies and the Department of Political Science offer a joint minor in political communication with emphases on political campaigning and interest groups. The purpose of this minor is to provide students with conceptual, practical and applied knowledge in the fields of public and private interest groups and political campaigns. For a full description of this minor, refer to Political Communication Minor. This minor is exempt from the School of Communication Studies minor admissions policy.

Sport Communication Minor
The School of Communication Studies administers a cross disciplinary minor in sport communication. For a full description of this minor, refer to the sport communication minor entry in the cross disciplinary minor section.

Associate Professors
R. Pal, H. Reif, P. Wang

Assistant Professors
C. Guo, J. May

Lecturers
L. Atkins, C. Cole, J. Jewett, J. Karabelas, M. Ratcliffe, R. Simmons, T. Wood

Mission
The Department of Computer Information Systems and Business Analytics is committed to:

- Educating students by creating an active, experiential learning environment that prepares them to apply knowledge of information systems, operations, business analytics and business for the betterment of organizations and society; and
- Serving the academic community and business communities through appropriate research and service.

Objectives
Computer information systems (CIS) is offered as a major through the Department of Computer Information Systems and Business Analytics. This program prepares business students for careers as information systems professionals. The program of study focuses on the development and management of information systems in a business environment. Students develop the technical skills and organizational insights required to analyze, design, implement and administer information systems. The CIS curriculum includes hands-on projects, laboratory exercises, case analysis and business simulations to build strong technical and analytical skills, effective oral and written communication skills, and the ability to work independently and in team-oriented environments. Students are offered the opportunity to gain practical experience through internships and co-op programs. The department faculty endorses the program educational objectives listed below.

The CIS B.B.A. program will produce graduates with the ability to:

- Understand the processes that support the delivery and management of information systems in a business environment;
- Apply sound analysis and design methodologies toward creating technological solutions for the enhancement and improvement of business processes;
- Implement system solutions using state of the art software development, database and telecommunications technologies;
- Communicate effectively, in both oral and written form, in order to serve as liaisons between business-oriented end-users and technically-oriented computing specialists;
- Work effectively in multi-disciplinary teams with the ability to manage themselves and their colleagues; and
- Develop self-directed, lifelong learning skills.

Career Opportunities
Computer information systems professionals analyze business opportunities and problems, then design and build solutions using the power of information technologies. Students in the CIS program gain the business and technical skills that will prepare them to move quickly from technical to leadership roles within the organization.

- Consulting
- Business Analyst
- Business Intelligence Specialist
- Computer Forensics Specialist

- Chief Security Officer
- Data Warehousing Manager
- Information Systems Manager
- Program Manager
- Project Manager
- IT Professional Staff
- Computer Support Specialist
- Database Administrator

http://www.jmu.edu/catalog/14
Co-curricular Activities and Organizations
The Association of Information Technology Professionals (AITP) is the oldest and most successful IT professional association. AITP is comprised of over 200 local chapters in the United States and Canada with over 13,000 professional and student members. The James Madison University Chapter of the AITP, founded in 1980, provides a valuable link to the business world by giving students exposure to career opportunities in the computer information systems field. JMU students are active participants in the Annual AITP National Collegiate Conference.

Accreditation
The B.B.A. in computer information systems is accredited by the Accreditation Board for Engineering and Technology (ABET)'s Computing Accreditation Commission.

Degree and Major Requirements
Bachelor of Business Administration in Computer Information Systems
The B.B.A. in computer information systems requires a minimum of 120 credit hours of undergraduate work. Sixty credit hours will typically be taken outside the College of Business. In counting the 60 credit hours of non-business courses, B.B.A. students may include all hours taken in General Education (usually 41), up to a total of nine hours in economics (GECON courses must be counted as economics) and three hours of COB 191, Business and Economic Statistics. The remaining hours will be taken from any department outside the College of Business. Students should carefully select these non-business electives to help them gain additional knowledge and expertise for their careers and personal lives. The credit hour requirements for each of the program components are listed below.

Concentrations
Concentration in Cooperative Education
Coordinator: Dr. Tom Dillon

The cooperative education concentration in CIS and BSAN offers highly qualified undergraduate majors the opportunity to participate in a six- to eight-month professional experience with well-recognized industry leaders in information technology and operations. Students will be awarded 12 hours of academic credit that will substitute for two required courses in the CIS and BSAN curriculum and for six credits of special topics (CIS 498).

Students must demonstrate competency via examination in the two required courses selected in order to receive credit in those courses. Students who have at least a 3.0 grade point average, are majors in CIS and have fulfilled all of their COB core requirements except COB 487, Strategic Management are eligible to apply on a competitive basis through the CIS and BSAN office.

Students who want to participate in a co-op program must apply both to the CIS and BSAN program office and the participating firm at least three months in advance of the start of the co-op. Co-ops typically begin in January or May and last six to eight months. Course substitutions must be approved in conjunction with the co-op coordinator in the CIS and BSAN office and the co-op coordinator in the firm.

A program of study must be placed on file for each student who is accepted for a co-op prior to beginning the co-op experience. Students may participate in a co-op during their junior or senior years, but they are limited to one co-op. Students who want to participate in a co-op as postgraduates may do so as special students. These students will receive a certificate on successful completion of the co-op experience. Prerequisite: CIS majors with junior standing and a minimum 3.0 grade point average.
Minor Requirements

Computer Information Systems Minor

Coordinator: Dr. Michel Mitri

The minor in computer information systems is primarily structured to provide students in various disciplines on campus with the opportunity to study business-oriented information systems.

Admission to the CIS minor is based on a student’s performance in one course from each of the following seven competency areas:

- One introductory information-systems course (COB 204 or equivalent as determined by the department head)
- One introductory computer programming course (CIS 221, ISAT 252, CS 139 or equivalent as determined by the department head)
- One calculus course (MATH 205, MATH 231, MATH 235, 3SAT 151 or equivalent as determined by the department head)
- One statistics course (COB 191, MATH 220 or equivalent as determined by the department head)
- One critical thinking course (student’s Cluster One critical thinking course or equivalent as determined by the department head)
- One writing course (GWRTC 103 or equivalent as determined by the department head)
- One quantitatively-oriented economics/business course (GECON 200, ECON 201, COB 241, COB 242, COB 291 or equivalent as determined by the department head)

Admission is based on weighted average of student's highest grades in one course from each of the seven competency areas and is subject to space availability of CIS & BSAN course. Students seeking to add the CIS minor can submit an application at any time.

Business Analytics Minor

Business analytics is a technical approach to analyzing problems and making business-related decisions. It uses statistical methods, management science techniques, and mathematical modeling to forecast the implications of various choices and identify the best alternatives. Business analytics focuses on the effective use of data and information to provide fact-based insights and drive positive business actions. The minor in business analytics prepares students to solve complex decision problems in a business environment with a combination of quantitative skills and hands-on expertise using current software applications.

The program is open to any undergraduate with an interest in business analytics.

Required Courses

Choose one of the following:

- COB 191. Business Statistics
- GSAT 251. Topics in Applied Statistics
- MATH 220. Elementary Statistics
- MATH 285. Data Analysis
- MATH 318. Introduction to Probability and Statistics
- COB 291. Introduction to Management Science

Recommended Schedule for Majors

Computer information systems majors should follow the course schedule described here to complete the final two years of their program. It is possible to deviate from this program, but care must be taken to ensure that all course prerequisites are met.

First Two Years

Students normally take the 29-30 hour lower-division B.B.A. core curriculum along with many of the General Education curriculum. All lower-division core requirements must be completed before enrolling in the upper-division core courses. It is recommended that CIS 221. Principles of Programming be completed in the second semester of the second year.

Third Year

Department of Computer Science

Dr. Sharon Simmons, Department Head

Phone: (540) 568-2770  
Location: ISAT/CS Building, Room 222  
Website: http://www.cs.jmu.edu

Professors  
- D. Bernstein, C. Fox, S. Frysinger, R. Grove, M. Heydari, R. Mata-Toledo, D. McGraw, S. Simmons, B. Tjaden

Associate Professors  
- M. Aboutabl, F. Buchholz, M. Norton, S. Wang

Assistant Professor  
- M. Kirkpatrick, M. Lam, C. Mayfield, F. Rahman, N. Sprague

Lecturer  
- N. Harris

Mission Statement

The Computer Science department strives to be an intellectual community that continually explores the broad field of computing, applies this knowledge to solve problems in a variety of domains and engages with the profession and society at large. Undergraduates join this community when they become majors, participating with faculty and other students in exploring computing through classes, projects, clubs and internships.

Goals

The goals of the Computer Science department are to:
- Offer small classes that provide opportunities for personal interaction with students.
- Provide a broad, inclusive and up-to-date computing curriculum.
- Provide students opportunities for professional and community engagement and real world experiences.
- Help students to become computing problem solvers and good communicators.
- Produce graduates who will succeed in the computing profession.

Career Opportunities and Marketable Skills

Computing technology pervades modern society, and demand for computing professionals is strong and projected to remain strong for the foreseeable future. Careers in computing range from technical positions specifying, designing, building and maintaining networks and systems of all kinds, through project leadership and technical management. The Computer Science major prepares students for entry-level technical positions as programmers, software developers, requirements analysts, software designers, testers, software quality assurance professionals, system architects, network engineers, information security specialists and computing consultants.

Co-curricular Activities and Organizations

The James Madison University Student Chapter of the Association for Computing Machinery is the local student chapter of the national association for computing professionals. The JMU chapter of Upsilon Pi Epsilon, the international honor society in computer science, recognizes outstanding academic achievement by students and outstanding contributions to education by faculty. The department also sponsors the Cyber Defense, Digital Forensics and Women in Technology clubs. Students are encouraged to intern in a business or government organization during the summer. Students may receive elective credit toward their major requirements for internship experiences.

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

http://www.jmu.edu/catalog/14
Major Requirements Credit Hours
Choose one: 3-4
CS 139. Programming Fundamentals
CS 149. Programming Fundamentals (Advanced)
Choose one: 3-4
CS 159. Advanced Programming
CS 239. Advanced Computer Programming
CS/MATH 227. Discrete Structures I
CS/MATH 228. Discrete Structures II
CS 240. Algorithms and Data Structures
CS 260. Technical Communication for Computer Science
CS 345. Software Engineering
CS 350. Computer Organization
CS 430. Programming Languages
CS 450. Operating Systems
CS 460. TCP/IP Networks
CS 474. Database Design and Application
Computer Science electives above CS 300 9
CS 240. Algorithms and Data Structures 3
CS/MATH 228. Discrete Structures II 3
Computer Science courses above CS 300 18-20
Choose one of the following statistics courses: 3-4
MATH 220. Elementary Statistics
MATH 318. Introduction to Probability and Statistics

The credit/no-credit option may not be applied to any courses specifically listed above, nor may that option be applied to Computer Science electives. Students must achieve a cumulative grade point average of 2.0 or better in all courses used to satisfy the above requirements.

Certificates
Periodically, the department may offer a collection of two or more advanced courses in a particular area of study.
Students successfully completing those courses will obtain a certificate in that area of study. Examples of possible certificate programs include networking, software engineering and information security.

U.S. Government Requirements for Computer Scientists
The U.S. government standard for occupational category GS-1550: Computer Science Series includes a requirement of 15 hours in statistics and mathematics including differential and integral calculus. This means that students considering a career as a computer scientist with the U.S. government (including DoD, NASA, etc.) must complete more math courses than the minimum requirement for a B.S. degree. Recommended calculus sequences for these students are MATH 235-236 or MATH 231-232-236. However, only the U.S. Office of Personnel Management can give final approval of individual qualifications.

Minor Requirements

Computer Science Minor
Minor Adviser: Dr. Michael Kirkpatrick
Courses Credit Hours
Choose one: 3-4
CS 139. Algorithm Development
CS 149. Programming Fundamentals (Accelerated)
Choose one: 3-4
CS 159. Advanced Programming
CS 239. Advanced Computer Programming
Choose four: 12
CS 240. Algorithms and Data Structures
CS/MATH 228. Discrete Structures II
Computer Science courses above CS 300 18-20

Robotics Minor
Minor Adviser: Dr. Ralph Grove
The robotics minor provides students with appropriate preparation the opportunity to investigate technical issues in the design, construction and application of robots. For a full description of the requirements for the minor in Robotics, see Cross Disciplinary Programs.

Telecommunications Minor
Minor Adviser: Dr. Mohamed Aboutabl
The Department of Computer Science, in cooperation with other departments, offers a cross disciplinary minor in telecommunications. The program is intended to augment major programs in preparing students to become network and telecommunications professionals. For a full description of the requirements for the minor in telecommunications, see Cross Disciplinary Programs.

Instructor  
M. Reish

Inclusive Early Childhood Education  
Master’s Level Licensure Program

Birth – 3rd Grade

The inclusive early childhood program draws heavily from research and theories in child development, family systems, special education, differentiated teaching and learning. Through course work and extensive field experiences, the teacher candidate is prepared to design activities that have an interdisciplinary focus, reflect an understanding of the individual child’s development and learning, recognize the importance of family and developmental influences, support the young child in constructing knowledge about self and the world, and involve parents in supporting the child’s growth and development.

The JMU program prepares teachers for endorsements in Early Childhood Special Education, birth to five, and Early Childhood Education, PreK-3. The program is based on these three assumptions:

- Early childhood educators must have a strong liberal education.
- Early childhood educators should possess a broad range of knowledge that provides a context for understanding individual behavior, family and environmental influences and major social issues in a modern democratic and technological society.
- Early childhood educators must have professional preparation that develops critical thinking and problem-solving skills to become educational decision makers who consciously choose appropriate curriculum based on an understanding of how children develop and learn.

The courses in the Inclusive Early Childhood Education program are sequentially organized throughout four undergraduate and two graduate semesters to help candidates develop an understanding of how children learn and interact in learning environments as well as familiarity with methods and materials appropriate for teaching and working in a collaborative way with families and other professionals.

Field experiences are provided along with course work to enable candidates to apply their knowledge in a variety of family and learning settings. Candidates must be accepted in teacher education to begin upper level IECE course work.

Assessment occurs each semester, and performance will be reviewed at each assessment gate. Candidates must demonstrate satisfactory performance before moving on to the next semester. Satisfactory performance includes a “C” or higher in all education course work and an overall 2.5 GPA, demonstration of professional behaviors, and acceptable performance in practica and on key assessments.

To be recommended for licensure in ECSE and PreK-3, candidates must satisfy the following requirements:

- Complete the General Education and degree requirements of the university.
- Complete a major in IDLS.
- Meet all admission and retention requirements for teacher education and the IECE program.
- Complete the 49 credit hour pre-professional program with an overall 2.75 GPA.
- Be admitted to graduate school.
- Complete the 30 hour graduate program including student teaching

Candidates in this program must meet with an IECE program adviser to declare the pre-professional licensure program in inclusive early childhood education.

The IDLS major is assigned two advisers. One adviser is the adviser for the education pre-professional licensure program who will guide the student through the licensure program requirements. The other adviser is the IDLS adviser who will guide the student through the IDLS major requirements. Students should plan on consulting both advisers regularly. Typically, the education adviser is assigned when the student meets with the head of his or her licensure program and elects the licensure program. This may be as early as the first semester of the first year. The IDLS adviser is assigned when the first year student advising folders are transferred to the IDLS office (second semester, first year). Students are required to check with advisers regularly to ensure timely graduation.

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

Recommended Schedule for IECE

Students should take General Education, IDLS requirements, EXED 200, EDUC 300 and EDUC 310 during their first and second years.

Third Year Fall  Credit Hours
IECE 300. Programming and Practices in Inclusive Early Childhood Education 3
IECE 303. Development and Assessment of Infants and Toddlers 3
IECE 311. IECE Programming and Practices Practicum 1

Third Year Spring  Credit Hours
IECE 321. Practicum Supporting the Development of Infants and Toddlers 2
IECE 322. Teaching Young Children 3
IECE 324. Development and Assessment of the Young Child 3
READ 366. Early Literacy Development and Acquisition 3

Fourth Year Fall  Credit Hours
IECE 423. Practicum in Teaching Young Children 2
IECE 450. Contemporary Family Issues in Inclusive Education 3
IECE 466. Seminar in Managing Classrooms and Guiding Behavior 1

Fourth Year Spring  Credit Hours
IECE 461. Practicum in Primary Grades 3
IECE 460. Instructional Practices in Numeracy 3
IECE 462. Instructional Practices in Natural Sciences for Young Children 3
IECE 464. Instructional Practices in Social Sciences for Young Children 3
READ 436. Literacy Learning in the Elementary Grades 3

First Graduate Year Fall  Credit Hours
IECE 612. Effective Teaching in Inclusive Early Childhood Education 3
IECE 613. Advanced Field Experience in Inclusive Early Childhood Education II 3
IECE 614. Individualized Behavior Intervention for Young Children 3
IECE 632. Creativity and Play 3
EXED 625. Medical Aspects Impacting Young Children 3

First Graduate Year Spring  Credit Hours
IECE 620. Seminar in Inclusive Early Childhood Education 3
Student Teaching
IECE 680. Student Teaching in Inclusive Early Childhood Education 12

Elementary Education
Pre-Kindergarten Through Sixth Grade Master's Level Licensure Program

The Elementary Education Program prepares candidates to teach students in grades PreK-6. Drawn from research and theories in child development, teaching, and learning, the course work and field experiences prepare teacher candidates to employ an interdisciplinary approach to instruction that reflects an understanding of the diverse nature of learners and their families.

The JMU elementary program seeks to foster in its candidates an empathic understanding of the ways that children are affected by social contexts and by the children’s own abilities/disabilities; the knowledge and pedagogical skills to support each child’s right to success; and belief in the value of each child. Our candidates are guided in:

- Critically challenging conventional wisdom and common practices to identify hidden assumptions and activities that constrain or privilege some at the expense of others.
- Learning to ask questions and developing an inquiring approach motivated by the desire to understand the world in its myriad complexities.
- Reflecting deeply on and constructing positive relationships with others.
- Expressing knowledge, skills, and attitudes in ways that communicate with others and provide a forum for the creative and academic expression of profession and the self.
- Developing an appreciation for the global connection of all humanity and our interdependence on the finite, natural resources of the earth.
- Experiencing life among people whose social contexts are unlike the candidates’ own to broaden and deepen respect for and sensitivity to various cultures and social contexts.
- Knowing and appreciating the process of human unfolding throughout the cycles of life from conception onward, particularly throughout the period of childhood.

The courses in the Elementary Education program are sequentially organized throughout the junior and senior years and continue in the graduate program. Field experiences are provided along with course work to enable candidates to apply their knowledge in a variety of settings. Candidates must be accepted in teacher education to begin the ELED course work.

Assessment occurs each semester, and performance will be reviewed at the end of each semester. Candidates must demonstrate satisfactory performance before moving on to the next semester. Satisfactory performance includes a “C” or higher in all education course work and an overall 2.5 GPA, demonstration of professional behaviors, and acceptable performance in practica and on key assessments.

Candidates in this program must meet with the head of the Department of Early, Elementary and Reading Education to declare the minor in elementary education, be assigned a date to start the ELED courses and be assigned an adviser in elementary education. A limited number of candidates can start the ELED course work each semester.

Recommended Schedule for Elementary Education

Students should take General Education, IDLS requirements and EDUC 300 during their first and second years.

Third Year  Credit Hours
ECEC 372. Introduction to Early Childhood Education 3
ELED 308. Child Development Birth Through Adolescence 3
ELED 310. Considering Diversity in Elementary Education 3
ELED 311. Practicum in Learners and Learning 3

### Student Teaching

Candidates must apply to student teach one year prior to their student teaching semester. At that time, students must be fully accepted into teacher education, be admitted unconditionally to graduate school and have a 3.0 graduate GPA.
Department of Economics

Dr. Ehsan Ahmed, Department Head

Phone: (540) 568-3064
Location: Zane Showker Hall, Room 234
Website: www.jmu.edu/cob/cis

Professors

Associate Professors
N. Cavusoglu, J. Doyle, W. Grant, S. Milliman, A. Smith, J. Subrick

Assistant Professors
V. Bhatt, B. Brunton, A. Neveu

Instructor
P. Heap

Mission Statement
The Department of Economics is committed to students’ intellectual development by fostering an understanding and appreciation of economic forms of explanation and their relationships to other social sciences. Economics faculty members are dedicated to sound and effective pedagogy, to scholarship of the highest quality and to outreach to the local and business community.

The department provides an intellectual foundation for the appreciation and understanding of economic theory and policy. This foundation is developed within a broader educational perspective that stresses the importance of imaginative thinking, free inquiry and the pursuit of life-long learning. In this way, the program prepares students with the economic literacy necessary to cope with the challenges inherent in a world of accelerating change.

Goals
- Help students develop analytical and critical thinking skills.
- Promote interdisciplinary and cross-disciplinary forms of instruction.
- Seek continuous improvement in the quality of classroom instruction.
- Serve the community through outreach services.
- Help students pursue careers and additional education.

 Marketable Skills
- Analytical thinking capabilities highly valued by business, government and the nonprofit sector.
- Writing and research skills applicable to a wide variety of careers.
- Statistical and econometric skills used in business and finance.
- Preparation in critical thinking valued by graduate schools, including law, business, and arts and sciences.
- Analytical skills valued by employers for internships in business, government and consulting.

Co-curricular Activities and Organizations
- Economics Club (open membership)
- Omicron Delta Epsilon (national honor society in economics)

Admission to the Major
Students wishing to pursue a B.B.A. degree program in economics must be formally admitted to the program in order to enroll in the required core courses: ECON 331, ECON 332 and ECON 385. In order to be admitted as either a B.A. or B.S. candidate, the student must have at least three semesters remaining at JMU to complete the degree requirements. In order to be admitted as a B.B.A. candidate, the student must also meet all of the College of Business admission requirements (described in the College of Business section of the catalog).

To declare an economics major, students must submit the “Change or Declaration of Major” form and a copy of an unofficial transcript to the department head’s office in Showker Hall, Room 434

Degree and Major Requirements
Economics majors choose from a B.A., B.S. or B.B.A. degree. The B.A. and B.S. degrees are traditional liberal arts degrees that lead to a variety of career and graduate school options; the B.B.A. is designed to prepare students for careers in business.

The B.B.A. degree in economics requires a minimum of 120 credit hours of undergraduate work of which 60 credit hours must be taken outside the College of Business. The 60 credit hours of non-business courses may include all General Education program credits, up to nine hours in economics (including ECON 200) and three hours of COB 191. The remaining hours must be taken from any academic unit outside the College of Business. It is recommended that students carefully select non-business electives to effectively complement their economics and business education.

Bachelor of Arts in Economics
The minimum requirement for a B.A. degree in economics is 33 credit hours of economics, including 18 credit hours of core courses and 15 credit hours of electives. It is also necessary for the student to complete the foreign language and philosophy requirements for a B.A. degree as well as complete the General Education program.

http://www.jmu.edu/catalog/14
Degree Requirements

Required Courses  Credit Hours
General Education 1  41
Foreign Language classes (intermediate level required) 2  0-14
Philosophy course(s) (in addition to General Education courses) 3  3
Major requirements (listed below) and electives  63-74  120

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 The foreign language requirement may be satisfied by successful completion of the second semester of the intermediate level of the student’s chosen language (typically 233), or by placing out of that language through the Department of Foreign Language, Literatures and Cultures’ placement test.

Major Requirements

Required Economics Courses  Credit Hours
ECON 200. Introduction to Macroeconomics 3
ECON 201. Principles of Economics (Micro) 3
ECON 331. Intermediate Microeconomic Theory 3
ECON 332. Intermediate Macroeconomic Theory 3
ECON 385. Econometrics 3
ECON 488. Senior Capstone Seminar in Economics 3
Economics electives (at least six credits must be at the 400 level, not including ECON 488, ECON 490 or ECON 499) 15
Total  33

Students need to complete ECON 331, ECON 332 and ECON 385 with a grade of “C” or better.

Recommended Schedule for B.A. in Economics Majors

First Two Years
During the first two years, students should complete:
- Most of the General Education program
- ECON 201. Principles of Economics (Micro)
- ECON 200. Introduction to Macroeconomics
- Choose one of the following:
  - MATH 205. Introductory Calculus I
  - MATH 231. Calculus with Functions I
  - MATH 235. Calculus I
Students are encouraged to take ECON 331, and/or ECON 332 in their sophomore year, which can only be taken once the prerequisites of ECON 200, ECON 201 and the prerequisite math course are completed.

Third and Fourth Years
B.A. economics majors should complete ECON 331, ECON 332, and preferably ECON 385 by the end of their junior year. While most majors will complete the 400-level requirements in economics during their senior year, students may take a 400-level course during their junior year if the prerequisite for the course has been met. ECON 488 should be taken during the senior year.

Bachelor of Science in Economics
The minimum requirement for a B.S. degree in economics is 33 credit hours of economics including 18 credit hours of core courses and 15 credit hours of electives. It is also necessary for the student to complete the quantitative and scientific literacy requirements for a B.S. degree as well as complete the General Education program.

Degree Requirements

Required courses  Credit Hours
General Education 1  41
Quantitative requirement 2  3
Scientific Literacy requirement 2  3-4
Major requirements (listed below) and electives  73-77  120

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 In addition to course work taken to fulfill General Education requirement.

Major Requirements

Required Economics Courses  Credit Hours
ECON 201. Principles of Economics (Micro) 3
ECON 200. Introduction to Macroeconomics 3
ECON 331. Intermediate Microeconomic Theory 3
ECON 332. Intermediate Macroeconomic Theory 3
ECON 385. Econometrics 3
ECON 488. Senior Capstone Seminar in Economics 3
Economics electives (at least six credits must be at the 400 level, not including ECON 488, ECON 490 or ECON 499) 15
Total  33

Students need to complete ECON 331, ECON 332 and ECON 385 with a grade of “C” or better.

Recommended Schedule for B.S. in Economics Majors

First Two Years
During the first two years, students should complete:
- Most of the General Education program
- ECON 201. Principles of Economics (Micro)
- ECON 200. Introduction to Macroeconomics
- Choose one of the following:
  - MATH 205. Introductory Calculus I
  - MATH 231. Calculus with Functions I
  - MATH 235. Calculus I
Students are encouraged to take ECON 331 and/or ECON 332 in their sophomore year, which can only be taken once the prerequisites of ECON 200, ECON 201 and the prerequisite math course are completed.

Third and Fourth Years
B.S. economics majors should complete ECON 331, ECON 332, and preferably ECON 385 by the end of their junior year. While most majors will complete the 400-level requirements in economics during their senior year, students may take a 400-level course during their junior year if the prerequisite for the course has been met. ECON 488 should be taken during the senior year.

Bachelor of Business Administration in Economics
The minimum requirement for a B.B.A. degree in economics is 33 credit hours of economics including 18 credit hours of core courses and 15 credit hours of electives. B.B.A. students also complete the core business requirements as well as complete the General Education program.

Economics electives (at least six credits must be at the 400 level, not including ECON 488, ECON 490 or ECON 499) 15

Students need to complete ECON 331, ECON 332 and ECON 385 with a grade of “C” or better.

Recommended Schedule for B.B.A. in Economics Majors

First Two Years

During the first two years, students should complete:

- The 29-30 hour, lower-division B.B.A. core curriculum (failing to complete these courses before the first semester of the junior year could delay admission to the degree program and enrollment in COB 300).
- Most of the General Education curriculum
- ECON 201. Principles of Economics (Micro)
- GECON 200. Introduction to Macroeconomics

Choose one of the following:

- MATH 205. Introductory Calculus I
- MATH 231. Calculus with Functions I
- MATH 236. Calculus I

Students are encouraged to take ECON 331 or ECON 332 in their sophomore year, which can only be taken once the prerequisites of GECON 200, ECON 201 and the prerequisite math course are completed.

Third and Fourth Years

B.B.A. economics majors should take COB 300 A, B, C, D in the fall semester of their junior year and complete ECON 331, ECON 332, and preferably ECON 385 by the end of their junior year.

While most majors will complete the 400-level requirements in economics during their senior year, students may take a 400-level course during their junior year if the prerequisite for the course has been met. ECON 488 should be taken during the senior year.

In addition, students must choose Option A or Option B.

Option A

Credit Hours

(For students with specific interests in forests, fisheries and wildlife) 8

BIO 114. Organisms (4 credits)
BIO 124. Ecology and Evolution (4 credits)

33

Option B

Credit Hours

(For students interested in pollution prevention and control) 9-10

Choose one of the following: (3-4 credits)
- GRSAT 112. Environmental Issues in Science and Technology (4 credits)
- GEOL 115. Earth Systems and Climate Change (3 credits)
- GEOL 210. Physical Geography and Lab (4 credits)

Choose one of the following: (3 credits)
- GEOL 325. Environmental Ethics (3 credits)
- GEOL/GRSAT 429. Sustainability: An Ecological Perspective (3 credits)

Choose one of the following: (3 credits)
- ISAT 320. Fundamentals of Environmental Science and Technology I (3 credits)
- ISAT 321. Fundamentals of Environmental Science and Technology II (3 credits)

42-43

Concentration in Financial Economics

The minimum requirement for a B.A., B.S. or B.B.A. degree in economics with a concentration in financial economics is 27 credit hours of required economics courses and 12 credit hours of required finance courses (in addition to the other requirements for these degrees described on the previous pages).

The Department of Educational Foundations and Exceptionalities offers programs in special education, inclusive education, teaching English to speakers of other languages and gifted education.

Special Education Master’s Level Licensure Program

The special education pre-professional program enables one to become knowledgeable about the characteristics, diagnosis and remediation of children with disabilities accessing the general education curriculum. Students completing the five-year licensure program are prepared to serve as teachers of students with disabilities in a variety of educational placements and delivery models.

The licensure program is designed to prepare resilient, culturally responsive educators who are advocates for children and youth with disabilities, are qualified for the complexity of their professional roles and are reflective problem-solvers.

The program includes extensive field experiences. Assessment of candidate performance includes evaluation of performance in individual courses and practicum, as well as other criteria. At various points throughout the program, there are formative and summative assessments where faculty committees review the overall performance of each candidate. Formative assessments will be used to advise candidates and develop a plan of actions for addressing any concerns that have been identified by the faculty. Summative assessments will be used to identify those candidates who are not making satisfactory progress towards advancement to the next sequences of courses and experiences. If progress is unsatisfactory, the candidate will not be allowed to continue until any identified deficiencies are corrected. In some cases, a candidate will be allowed to continue in the next semester, but there will be a plan of action for addressing any concerns that have been identified by the faculty.

Students should consult with the department head, undergraduate coordinator or their assigned adviser early during the first year or as soon thereafter as possible to obtain information concerning General Education, IDLS or other liberal arts or science majors, and special education requirements as well as the requirements for admission to teacher education.

The IDLS major is assigned two advisers. One adviser is the adviser for the education pre-professional licensure program who will guide the student through the licensure program requirements. The other adviser is the IDLS adviser who will guide the student through the IDLS major requirements. Students should plan on consulting both advisers regularly. Typically, the education adviser is assigned when the student meets with the head coordinator of his or her licensure program and elects the licensure program. This may be as early as the first semester of the first year. The IDLS adviser is assigned when the first year student advising folders are transferred to the IDLS office (second semester, first year). Students are required to check with advisers regularly to ensure timely graduation.

It is important for students to understand that they must meet the requirements for a baccalaureate degree and successfully complete all undergraduate pre-professional courses and experiences prior to being fully admitted to the M.A.T. program. Students must complete the M.A.T. program satisfactorily in order to be recommended for a teaching license in special education through JMU.

Students should note that prerequisites and corequisites are required for many of the courses included in the pre-professional special education program. Exceptions to meeting those requirements must be approved by the Educational Foundations and Exceptionalities department head.

Students should also be aware that program requirements may change at any time reflecting changes in teacher licensure enacted by the Virginia Department of Education or other accrediting agencies after the catalog copy is approved. Therefore, it is especially important for students to confer with their advisers and the program coordinator on a regular basis.

http://www.jmu.edu/catalog/14
Special Education Licensure Programs

General Curriculum K-12

Completion of the five-year professional program may lead to eligibility for a Virginia teaching license for the special education general curriculum K-12.

Assessment occurs each semester and performance will be reviewed at each assessment gate. Candidates must demonstrate satisfactory performance before moving on to the next semester. Satisfactory performance includes a “C” or better in course work, demonstration of professional behaviors, and acceptable performance in practicums and on key assessments.

To be recommended for licensure, all students must meet the following requirements:

- Complete General Education and IDLS/liberal arts or science major requirements.
- Complete the special education pre-professional program as it corresponds to the related teaching track.
- Meet all admission and retention criteria for teacher education.
- Meet admission requirements for the special education M.A.T. program.
- Complete the graduate portion of the licensure program.

Inclusive Early Childhood Education

Master’s Level Licensure Program

Birth – Grade 3

The inclusive early childhood program draws heavily from research and theories in child development, family systems, special education, differentiated teaching and learning.

Through course work and extensive field experiences, the teacher candidate is prepared to design activities that have an interdisciplinary focus, reflect an understanding of the individual child’s development and learning, recognize the importance of family and developmental influences, support the young child in constructing knowledge about self and the world, and involve parents in supporting the child’s growth and development.

The JMU program prepares teachers for endorsements in Early Childhood Special Education, birth to five, and Early Childhood Education, PreK-3. The program is based on these three assumptions:

- Early childhood educators must have a strong liberal education.
- Early childhood educators should possess a broad range of knowledge that provides a context for understanding individual behavior, family and environmental influences and major social issues in a modern democratic and technological society.
- Early childhood educators must have professional preparation that develops critical thinking and problem-solving skills to become educational decision makers who consciously choose appropriate curriculum based on an understanding of how children develop and learn.

The courses in the Inclusive Early Childhood Education program are sequentially organized throughout four undergraduate and three graduate semesters to help candidates develop an understanding of how children learn and interact in learning environments as well as familiarity with methods and materials appropriate for teaching and working in a collaborative way with families and other professionals.

Field experiences are provided along with course work to enable candidates to apply their knowledge in a variety of family and learning settings. Candidates must be accepted in teacher education to begin upper level IECE course work.

Assessment occurs each semester and performance will be reviewed at each assessment gate. Candidates must demonstrate satisfactory performance before moving on to the next semester. Satisfactory performance includes a “C” or higher in all education coursework and an overall 2.5, demonstration of professional behaviors, acceptable performance in practica and on key assessments.

To be recommended for licensure in ECSE and PreK-3, candidates must satisfy the following requirements:

http://www.jmu.edu/catalog/14
- Complete the General Education and degree requirements of the university.
- Complete a major in IDLS.
- Meet all admission and retention requirements for teacher education and the IECE program.
- Complete the 49 credit hour pre-professional program with an overall 2.75 GPA.
- Be admitted to graduate school.
- Complete the 30 hour graduate program including student teaching.

Candidates in this program must meet with an IECE program adviser to declare the pre-professional licensure program in inclusive early childhood education.

The IDLS major is assigned two advisers. One adviser is the adviser for the education pre-professional licensure program who will guide the student through the licensure program requirements. The other adviser is the IDLS adviser who will guide the student through the IDLS major requirements. Students should plan on consulting both advisers regularly. Typically, the education adviser is assigned when the student meets with the head of his or her licensure program and elects the licensure program. This may be as early as the first semester of the first year. The IDLS adviser is assigned when the first year student advising folders are transferred to the IDLS office (second semester, first year). Students are required to check with advisers regularly to ensure timely graduation.

IECE 680. Seminar in Inclusive Early Childhood Education 12
Both programs prepare students to work effectively in promoting English language acquisition of children and adults who are not native English speakers. These programs also promote development of skills in cross-cultural competence and draw heavily upon theories of linguistics, research on social and cultural variables that influence second language acquisition, and the knowledge required to facilitate second language learning. Candidates currently enrolled in initial teaching licensure programs may be able to complete the TESOL requirements in conjunction with completing their other preparation program. With careful planning, dual licensure is possible. Candidates interested in dual licensure should consult with the TESOL coordinator and the other program area adviser for more information.

Non-Licensure TESOL Minor
The non-licensure minor program in TESOL is designed for students in various fields who wish to acquire professional knowledge related to teaching English to speakers of other languages, but who do not want to pursue Virginia teaching licensure. Students who minor in TESOL will develop an understanding of the U.S. educational system, acquire skills in cross-cultural competence, and become familiar with the processes of first and second language acquisition. Students will gain a foundational knowledge of appropriate practices to assist and assess English language learners. The TESOL non-licensure minor requires a minimum of 18 credit hours; 15 credits are required core courses and three credits are electives selected in consultation with an adviser for this program.

Requirements
Required Courses 15
EDUC 300. Foundations of American Education
EDUC 310. Teaching in a Diverse Society
TESL 426. Concepts in First and Second Language Acquisition
TESL 428. Assessment for Curriculum Development in English as a Second Language
READ 430. Development, Assessment and Instruction of Literacy, K-12
Electives (Choose one of the following courses; 3
some may have an additional practica requirement)
EDUC 370. Educational Technology Practicum
READ 435. Literacy Development and Instruction for TESOL 1
EXED 440. Classroom Management and Professional Collaboration
ENG 308. Introduction to Linguistics
TESL 470. Instructional Strategies for TESOL 2
1 This course has an additional 1 credit practicum, TESL 383
2 This course has an additional 3 credit practicum, TESL 381

Teaching English to Speakers of Other Languages (TESOL) PK-12: Undergraduate Licensure Program
James Madison University’s College of Education, through the Education Foundations and Exceptionalities department offers licensure preparation for PK-12 Teaching English to Speakers of Other Languages (TESOL). This program draws on theories of linguistics, research on social and cultural variables that influence second language acquisition and the knowledge required to facilitate second language learning. The TESOL program will prepare future educators to understand and implement more equitable and effective ways of working with English Language Learners in a variety of contexts, including inclusion in content/general education classes, sheltered-ESL classes and pullout classes.

Completion of this four-year program leads to eligibility for a Virginia teaching license for PK-12 English as a Second Language. The College of Education’s TESOL Program is interested in candidates who are committed to social justice and to creating affirming and academically challenging learning environments. Candidates must also complete a major in a liberal arts discipline closely associated with a teaching area (e.g., biology, history, mathematics, psychology, chemistry, English, etc. but not business administration, nursing, engineering, etc.).

Students considering PK-12 initial licensure in TESOL through the English Language Learning Academy follow the process described below. Students pursuing initial licensure in other approved areas may also be admitted to the TESOL Program and simultaneously achieve initial licensure in TESOL.

All teacher education admission requirements are submitted through the Education Support Center, located in Memorial Hall, room 7230. Candidates must be fully admitted into teacher education before they can register for certain designated undergraduate education courses.

Teacher education candidates must maintain an overall GPA of 2.5 or better and complete general education courses with a minimum grade of “C.” Candidates must also complete academic major content courses and TESOL course work with a minimum grade of “C.”

Recommended Schedule for TESOL

Student Teaching
Candidates must apply to student teach one year prior to their student teaching semester. At that time, students must be fully accepted into teacher education, be admitted unconditionally to graduate school and have a 3.0 graduate GPA.

Assistant Professors

Mission Statement
James Madison University engineering graduates will improve the sustainability of our world by analyzing problems and designing solutions in the context of technical, economic, environmental and social interactions.

Objectives
The JMU Engineering program empowers and motivates students to engineer systems for sustainable societies. Engineering graduates will be able to:

- Identify, analyze and solve engineering problems by modeling and exploring complex interdependent socio-technical systems using appropriate tools and technologies.
- Manage engineering projects in a timely and budget-conscious manner, individually and in multidisciplinary teams.
- Design sustainable solutions to meet technical, financial, environmental, and societal requirements; and effectively use various methods to communicate those solutions to diverse audiences.
- Conduct themselves with integrity, and perform in a professional and ethical manner.
- Lead a meaningful and productive life and contribute to the successes of their communities.
- Continuously pursue learning throughout their professional careers.
- Be successfully employed in engineering or related fields, or accepted into graduate programs.

The Bachelor of Science in Engineering is a single interdisciplinary engineering degree that integrates many traditional engineering disciplines with coursework in business, project management, engineering, design and liberal arts. The focus of the program are sustainability, engineering design and systems analysis.

Engineering for a sustainable world is, in short, a body of knowledge and set of holistic analytical design skills that contribute to the development of products, processes, services, and infrastructures that simultaneously protect the environment, conserve resources, and meet human needs at an acceptable financial cost. By reframing traditional engineering practice, sustainability provides a way of moving toward the development of sustainable societies, where human quality of life is advanced with a minimum impact on finite resources and the environment. Traditional approaches to engineering, such as mechanical, electrical or chemical are not offered in this program.

Rather, this modern, project-based, engineering curriculum spans many areas of engineering to create adaptable engineers with practical know-how. The curriculum is ABET accredited and prepares students for the Fundamentals of Engineering (FE) pre-licensure examination. Graduates will be prepared to succeed in the engineering workforce or in advanced engineering degree programs by accumulating a professional portfolio of engineering project experiences throughout the curriculum.

Career Opportunities
Upon graduation, alumni will be prepared for a wide range of opportunities in the engineering workforce or in graduate school. Typical fields of engineering that students will be prepared to enter include sustainable design, process design, product design, project engineering, project management and systems engineering. Other industry options include product service system design, technical sales, management training and technical marketing.

A wide range of graduate school options include master’s and doctoral programs in civil engineering, environmental engineering, industrial engineering, materials engineering, mechanical engineering and systems engineering. Other post-graduation options include business school, law school, AmeriCorps, Peace Corps, military service, entrepreneurship (starting a small business), applied science fields, international experiences, medical school and careers in politics/public policy.

Some examples of the industries that hire engineers include, among others, design and build companies, aeronautic firms, automobile manufacturers, colleges and universities, computer service and software firms, consulting firms, energy systems firms, federal contractors, federal, state and local governments (e.g., NASA, EPA, NIST, DOD, DOE), non-profit agencies, manufacturing firms, inspection agencies, mining and petroleum firms, pharmaceutical and medical research companies, research and development laboratories, telecommunication companies, and waste management and recycling firms.

http://www.jmu.edu/catalog/14
Admission to the Major
The B.S. in engineering admits a limited number of students each year. To be eligible to apply for admission, students must have completed the following:
1. All courses (or approved equivalents) required for the engineering major with a grade of “C” or higher:
   - MATH 235, 236, 237, 238
   - PHYS 240, 140L, 250, 150L
   - CHEM 131, 131L and CHEM 132, 132L or CHEM 133E, 133LE
   - ENGR 112, 212, 221, 231, 232
Any of the above courses may only be repeated once to be considered for admission.
2. No more than 85 students (including transfer students with qualifying transcripts) will be admitted to the major at the junior-level. If more than 85 students meet the above standards, enrollment will be limited to the top 85 students. For on-campus students, the admission criterion will be grade point average (GPA) in the five ENGR courses (112, 212, 221, 231, 232). In the event of a tie, GPA in the lower-division MATH, CHEM and PHYS courses required for the engineering major (listed in #1) will be used as a tie-breaker. The student coordinator will work with the engineering Academic Unit Head to assess the relative merit of transfer students. Students who are not among the top 85 in their cohort may elect to wait one year and be considered with the next cohort, if they so choose, though the same selection criteria applies.

Progressing in the Major
Once admitted to the engineering program, students must maintain an in-major and cumulative GPA of 2.0 or higher. Once admitted, any course required as part of the engineering major may only be repeated once.

Bachelor of Science in Engineering with a Minor in General Business
This program prepares the student for entry-level engineering management and project management positions. The student is prepared to plan, organize, direct, and control engineering projects, programs, and/or facilities. Also, the program provides a foundation for graduate study in engineering management.
A grade point average of 2.0 in the business minor is required for graduation. This program of instruction also will require a total of 126 credit hours. The engineering major with business minor program is coupled and must be completed together; if a student does not receive a degree in engineering, the business minor will not be awarded. Additionally, there is a limit of 27 College of Business credit hours that can be taken, which includes the ENGR 221 and ENGR 322 courses.

Location: Keezell Hall, Room 215 Website: http://www.jmu.edu/english

Professors

Associate Professors

Assistant Professors

Mission Statement
The Department of English offers to all students, wherever their professional and vocational interests lie, skills in critical thinking, analysis and writing along with an appreciation of the great literary heritage of Western civilization, with particular emphasis upon British and American literature. The program also promotes global awareness and the appreciation of cultural diversity through numerous opportunities for world or multicultural studies. Our goal is that, through the humanistic study of a variety of literature, students will obtain a better understanding of themselves, their culture and other cultures with which they must invariably come into contact.

A senior requirement ensures that each major will have a final capstone experience through courses designed to integrate earlier training and focus it toward postgraduate needs and opportunities.

Goals
To build upon the skills introduced in the General Education program, the Department of English strives to:

- Provide students advanced instruction in writing styles ranging from expository and creative writing to literary criticism.
- Help students master advanced skills in analytical and critical thinking.
- Develop skills in research and information access.

Career Opportunities
Careers that involve critical thinking, document analysis or oral and written communication such as:

- Consulting
- Editing
- Graduate school in English, creative writing and composition
- Law school
- Public relations
- Publishing
- Research
- Teaching

Co-curricular Activities and Organizations

- Sigma Tau Delta (the National English Honor Society)
- gardy loo! (a literary magazine)
- Sister Speak (JMU's feminist journal)

Degree and Major Requirements

Students majoring in English earn the B.A. degree unless they are completing an English major with an interdisciplinary focus or an additional major in a degree program other than the B.A. The minimum requirement for a major in English is 36 credit hours of course work in the major.

The department recommends that students choose a variety of courses covering contemporary and early literature, as well as period, genre and linguistics courses. In addition to core courses, English majors must take nine credit hours of English electives on or above the 300 level. Courses taken to fulfill General Education Cluster Two requirements may also fulfill requirements in the English major. Students may complete credit requirements by taking additional electives.

The minimum requirement for a major in English with an interdisciplinary focus is 36 credit hours of course work; 24 of these hours must be in English courses, with 15 hours at the 300 level or above. Twelve hours from another discipline or disciplines must be chosen in conference with the student’s adviser and approved by the department head. For more information about the interdisciplinary focus, contact a departmental adviser.

Degree Requirements

Required Courses Credit Hours

| General Education | 41 |
| Foreign language classes (intermediate level required) | 0-14 |
| Philosophy course (in addition to General Education courses) | 3 |
| University electives | 26-40 |
| Major requirements (listed below) | 36 |

120

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

2 The foreign language requirement may be satisfied by successful completion of the second semester of the intermediate level of the student’s chosen language (typically 232) or by placing out of that language through the Department of Foreign Languages, Literatures and Cultures’ placement test.

Major Requirements

All students must include in their program the following core courses:

Core Courses Credit Hours

| ENGS 299: Writing About Literature | 1 |

3
Choose one from the following:

ENG 235: Survey of English Literature: From Beowulf to the 18th Century
ENG 247: Survey of American Literature: From the Beginning to the Civil War

Choose one from the following:

ENG 221: Literature/Culture/Ideas
ENG 222: Genre(s)
ENG 235: Survey of English Literature: From Beowulf to the 18th Century
ENG 236: Survey of English Literature: Victorian Era through the 20th Century
ENG 239: Studies in World Literature
ENG 247: Survey of American Literature: From the Beginning to the Civil War
ENG 248: Survey of American Literature: From the Civil War to the Modern Period
ENG 260: Survey of African-American Literature

Choose one from the following:

ENG 235: Survey of English Literature: From Beowulf to the 18th Century
ENG 236: Survey of English Literature: Victorian Era through the 20th Century
ENG 239: Studies in World Literature
ENG 247: Survey of American Literature: From the Beginning to the Civil War
ENG 248: Survey of American Literature: From the Civil War to the Modern Period
ENG 260: Survey of African-American Literature

Choose one course at the 200 or 300 level
Choose five courses from the 300 level
Choose two courses from the 400 level

The courses selected must include the following:

One course at the 300 or 400 level, pre-1900:

ENG 301. Old English Language and Literature
ENG 306. The Bible as Literature
ENG 311. Medieval Literature and Culture
ENG 313. Sixteenth Century British Literature
ENG 315. Seventeenth Century British Literature
ENG 316. Early Modern Drama
ENG 317. Shakespeare's Tragedies and Romances
ENG 318. Shakespeare's Comedies and Histories
ENG 319. Teaching Shakespeare
ENG 320L. Shakespeare on the Page and Stage in London
ENG 401. Advanced Studies in Medieval Literature
ENG 402. Advanced Studies in British Literature before 1700

One course at the 300 or 400 level, pre-1900:

ENG 301. Old English Language and Literature
ENG 306. The Bible as Literature
ENG 311. Medieval Literature and Culture
ENG 313. Sixteenth Century British Literature
ENG 315. Seventeenth Century British Literature
ENG 316. Early Modern Drama
ENG 317. Shakespeare's Tragedies and Romances
ENG 318. Shakespeare's Comedies and Histories
ENG 319. Teaching Shakespeare
ENG 320L. Shakespeare on the Page and Stage in London
ENG 321. Restoration and Eighteenth Century British Literature
ENG 322. Restoration and Eighteenth Century British Drama
ENG 325. Romantic Literature
ENG 327. The Gothic
ENG 329. Victorian Literature
ENG 330. The Nineteenth Century British Novel
ENG 342. Early American Literature

Recommended Schedule for Majors

Prior to declaring a major in English, students should consult with an assigned English adviser to plan a course of study tailored to their interests and goals. Students should contact the department office (Kezez Hall, Room 215) to request an adviser. The following chart shows a typical four-year program.

**First Year**

<table>
<thead>
<tr>

**Total: 29-31**
Teaching Licensure

Students interested in becoming teachers must meet specific curriculum requirements in their major as part of the undergraduate academic degree. English majors desiring secondary teacher licensure must complete READ 254, include among their core courses the surveys of both English and American literature (GENG 235, GENG 236, GENG 247 and GENG 248), and include among their electives the following:

Choose one of the following:
- ENG 309. Traditional English Grammar
- ENG 310. Modern English Grammar

Choose one of the following:
- ENG 317. Shakespeare's Tragedies and Romances
- ENG 318. Shakespeare's Comedies and Histories
- ENG 319. Teaching Shakespeare
- ENG 320L. Shakespeare on the Page and Stage in London

At least one course at any level in American literature
At least one course at any level in British literature
At least one course at any level in world literature

In addition to the general education and academic major requirements, English majors desiring secondary teacher licensure must be admitted to teacher education, complete the pre-professional program in secondary education at the undergraduate level and complete the graduate level Master of Arts in Teaching degree.

It is critical that students seeking licensure consult regularly with both their education adviser and their major adviser to support their progression through the programs. For a full description of the program in secondary teaching, refer to the Department of Middle, Secondary and Mathematics Education, in addition to the College of Education section of the catalog.

Minor Requirements

The minimum requirement for a minor in English is 18 credit hours. At least nine hours must be taken in courses at the 300 level or above. A General Education required course cannot double count as a minor requirement. A minor in English does not meet requirements for the Secondary Teaching License.

American Studies Minor

American Studies is a cross disciplinary program of study that promotes an enhanced understanding of the whole of American civilization, past and present through examination of the diverse aspects of our culture and changing patterns of ideas and values.

Courses come from the departments within the College of Arts and Letters and students will take courses from within three groupings: Multicultural Studies, Ideas and the Arts, and History and Politics.

Creative Writing Minor

The cross disciplinary minor in creative writing is designed to give students an opportunity to develop their writing talents across a number of literary forms and communication contexts.

Film Studies Minor

The cross disciplinary minor in film studies is designed for students who wish to extend their critical understanding of visual communication and narrative form by studying how movies tell stories, convey information and influence audiences.
Mission Statement
The Department of Finance and Business Law strives to prepare students for decision-making roles in an increasingly technological and global environment.

Goals
To support its mission, the Program of Finance and Business Law is committed to the following:
- Creating an educational environment that fosters an intellectual curiosity about the functioning of commerce and the facilitating role of finance and business law.
- Using an integrative instructional approach to provide a quality comprehensive educational, cultural and social experience for students.
- Raising expectations and aspirations of students.
- Providing a proper balance between challenge and support in the education process.
- Providing the larger university community with access to the basic principles and applications of finance for essential life cycle decisions through courses designed for non-finance students and through innovative and contemporary curriculums.

Career Opportunities
The finance major is designed to prepare students for careers in the financial management of industrial and commercial enterprises; commercial, retail and mortgage banking; investment analysis and portfolio management; real estate; insurance; finance positions in federal, state and local governments; and graduate study.

Job titles held by graduates of the programs include:
- Analyst, Real Estate Development
- Analyst, Structured Finance
- Assistant Treasurer
- Associate, Forensic Technology
- Business Systems Analyst

Degree and Major Requirements
The Department of Finance and Business Law offers programs leading to the Bachelor of Business Administration (B.B.A.) degree in finance and the Bachelor of Science (B.S.) degree in quantitative finance. As part of the JMU assessment program, graduating seniors are required to participate in assessment activities. Assessment information is used to assist the College of Business and department faculty in curricula.

http://www.jmu.edu/catalog/14
Bachelor of Business Administration in Finance

The B.B.A. degree with a major in finance requires a minimum of 120 credit hours of undergraduate coursework. Fifty percent of this work, or 60 credit hours, must be taken outside of the College of Business. In counting the 60 credit hours of non-business courses, students may include all hours taken in General Education, up to a total of nine hours in economics (GECON courses must be counted as economics) and three hours of COB 191, Business and Economic Statistics. The remaining hours, to bring the total to 60, must be taken from any department outside the College of Business. Students should carefully select these non-business electives to help them gain additional knowledge and expertise for their careers and personal lives.

Students enrolled at James Madison University who wish to change their major to finance must first complete the change of major form, available from the Registrar’s Office website, signed by either the Department of Finance and Business Law department head or the finance major adviser. Further, students must be in good academic standing to change their major to finance and, if they have taken any FIN prefix courses at the time of the change request, must meet the prerequisites for the required courses in the finance major.

Students who plan to major in finance and earn a score on the Math Placement Exam sufficient for placement into MATH 235 are strongly encouraged to enroll in MATH 235.

Required major courses provide finance majors with a foundation in financial management, investments and institutions. Electives within the major permit students to obtain an additional emphasis and explore other areas within the field of finance.

Degree Requirements

Courses Credit hours
B.B.A. core courses 1 44-45
Finance major requirements 26
Free elective 2 3
General Education courses 3 41
Non-business electives 6-7

120

1 Up to seven hours of core requirements in economics and calculus may also be taken for General Education credit.
2 Any course offered by the university.
3 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

Major Requirements

Finance Major Core Courses
FIN 302. Spreadsheet Skills in Finance
FIN 360. Analytical Methods in Finance
FIN 371. Principles of Investments
FIN 488. Advanced Financial Policy

In addition to these core courses, the student majoring in finance must successfully complete 12 credit hours of finance elective courses. Finance electives include any 300-level or 400-level finance course other than FIN 301, FIN 345, FIN 499 and the finance major core courses.

A student may choose up to one of the following courses to satisfy the finance elective credit hours: ACTG 313, ACTG 343, ACTG 344, ACTG 377, BLAW 470, BLAW 494, BLAW 496, BLAW 497, BLAW 498, CIS 330, ECON 331 and ECON 385. A finance major cannot take more than 10 credit hours of FIN-prefix courses in any one semester without permission of the finance department chair.

Recommended Schedule for Majors

First Two Years
Students planning to major in finance must complete the 29-30 hour, lower-division B.B.A. core curriculum prior to enrolling in upper-division core courses, normally taken in the first semester of the junior year. It is expected that the lower-division core curriculum will be completed during the first two years of study along with all, or most, of the university General Education curriculum. Failing to complete all lower-division B.B.A. core requirements on time will delay enrollment in upper-division core and major courses until at least the second semester of the junior year.

Third and Fourth Years
Finance majors will follow the course schedule below to complete the final two years of their program. It is possible to deviate from this program, but care must be taken to ensure that all course prerequisites are met. Finance majors are encouraged to enroll in FIN 360 during the same semester as COB 300 or during the semester following completion of COB 300. Note that students taking FIN 360 during the same semester as COB 300 will have more choices in finance electives in subsequent semesters because FIN 360 is a prerequisite for most finance courses. It is anticipated that students will complete the finance requirements in three semesters following COB 300.

Junior Year

First Semester Credit Hours
COB 300A. Integrated Functional Systems: Management 3
COB 300B. Integrated Functional Systems: Finance 3
COB 300C. Integrated Functional Systems: Operations 3
COB 300D. Integrated Functional Systems: Marketing 3
FIN 360. Analytical Methods in Finance 3

15

Second Semester Credit Hours
FIN 302. Spreadsheet Skills in Finance 1
FIN 371. Principles of Investments 3
Finance elective 3
General Education or non-business electives 5

15

Senior Year

First Semester Credit Hours
Finance electives 6
General Education, free electives or non-business electives 9

15

Second Semester Credit Hours
COB 487. Strategic Management 3
FIN 488. Advanced Financial Policy 3
Finance elective 3
General Education, free electives or non-business electives 6

15
Concentrations

Though not required, finance majors may elect a concentration. The two concentrations are financial analysis and risk management. Students electing these concentrations will be taking specific electives in place of the required four electives for the major. Finance majors who wish to declare a concentration may do so once accepted into COB 300 or during any semester following. A student must earn a 2.0 in the courses designated for a concentration in order to have successfully completed the concentration.

Financial Analysis Concentration

Many James Madison University finance graduates go on to careers in financial analysis, and the need for financial analysts remains strong. The financial analysis concentration helps prepare students for these careers and also Levels I and II of the Chartered Financial Analysis exam. Students wishing to declare and complete the financial analysis concentration must have a minimum of a "B" in COB 241 and COB 242.

Required Courses

<table>
<thead>
<tr>
<th>Course</th>

<td>Choose one of the following:</td>
<td>3</td>
</tr>
<tr>
<td>ACTG 343: Corporate Financial Reporting I</td>
<td></td>
</tr>
</tbody>
</table>

12

Risk Management Concentration

A focus in risk management is designed for finance majors pursuing a more in-depth review of the issues facing organizations and the tools needed to address these uncertainties. In the risk management concentration, students focus on the theory of risk management, risk identification, risk measurement and applications in the form of risk modeling techniques such as Value-at-Risk and Monte Carlo simulations.

Required Courses

<table>
<thead>
<tr>

</tr>
<tr>
<td>FIN 475: Financial Modeling and Risk Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

12

Because FIN 380, Elemental and Derivative Securities Analysis, is a prerequisite for FIN 450, students electing this concentration are required to take FIN 380, bringing the number of credit hours for this concentration to 15. Therefore, a student with this concentration is required to complete 28 credit hours in finance.

Bachelor of Science in Quantitative Finance

The B.S. degree with a major in quantitative finance is designed to prepare students for careers in financial engineering, structured finance, financial modeling, securitization, actuarial science, financial analysis and portfolio management. The focus of this major is on problem solving in the quantitative areas of finance with an added emphasis on the application of complex securities to a variety of financial situations.

The quantitative finance program, which is an interdisciplinary major with many courses co-listed with the math department, is a highly structured program requiring minor fields in both mathematics and economics, though many students choose to double major in mathematics and quantitative finance. If the double major is selected, students are required to take GECON 200, ECON 201 and ECON 331, but are not required to complete the economics minor. Students electing this program should consult with their major adviser as early as possible to identify the appropriate course sequencing. Students electing to double major in mathematics and quantitative finance should also consult with a mathematics adviser as soon as possible.

Students enrolled in James Madison University who wish to change their major to quantitative finance must first complete the change of major form, available from the Registrar's Office website, signed by either the Department of Finance and Business Law department head or the quantitative finance major adviser.

Risk Management Concentration
Though not required, quantitative finance majors may elect the risk management concentration. Student electing this concentration will be taking specific electives and two additional electives. Students may add this concentration to their program when they progress to FIN 380. Quantitative finance majors who wish to declare the risk management concentration may do so after successfully completing FIN 250 or any semester following.

A focus in risk management is designed for qualitative finance majors pursuing a more in-depth review of the issues facing organizations and the tools needed to address those uncertainties. In the risk management concentration, students focus on the theory of risk management, risk identification, risk measurement and applications in the form of risk modeling techniques such as Value-at-Risk and Monte Carlo simulations.

Required Courses  
Credit Hours  
FIN 450. Financial Risk Management 3
FIN 451. Risk Management II 3
FIN 471. Advanced Topics in Investments 3
FIN 475. Financial Modeling and Risk Analysis 3

FIN 450 is a requirement for quantitative finance majors and FIN 451. FIN 471 and FIN 475 are possible electives for this major. Students electing this concentration take two courses beyond the typical quantitative finance major.

Transfer Credit
In general, all finance course work must be completed at JMU. Transfer credit for finance courses is awarded only in certain circumstances. In no case will transfer credit be awarded for FIN 488, Advanced Financial Policy. Contact the program director for more information on transfer credit.

Mission Statement
The Department of Foreign Languages, Literatures and Cultures is a central site on campus for the implementation of James Madison University internationalization efforts. Through its course offerings, study abroad programs, organizations and clubs, and the presence of faculty with research areas in diverse foreign cultures, the department embodies cultural diversity, particularly international diversity, at JMU. The strong presence of international students and faculty on campus is a critical indicator of this recognition of international diversity.

The Department of Foreign Languages, Literatures and Cultures offers students and the community a broad range of educational courses and programs that help develop foreign language competence, a global perspective, and an understanding of foreign cultures both ancient and modern.

The department’s mission is to ensure that all graduates with a B.A. have sufficient knowledge of a modern foreign language to build fluency in that language when future personal or professional needs require it; prepare language majors for success as professionals in language-related career fields; enhance the education of non-language majors by providing them foreign language skills that complement their chosen major; teach understanding and appreciation of foreign cultures and provide basic knowledge about the literature, culture, and intellectual achievements of countries other than the U.S.; play a leading role in internationalizing the college curriculum; provide opportunities for language and cultural study abroad; support cross-listed courses for the departments of English and History as part of their major requirements, and the General Education program with courses for the Cluster Two requirements.

The department also plays an important role in the university cross disciplinary minors by offering courses for Russian Studies, Latin American Studies, World Literature and Classical Studies.

Goals and Objectives
The department strives to fulfill this mission by pursuing the following goals. Within each area, students should:

Knowledge
- Be familiar with a variety of linguistic principles in both the target language and their own.
- Understand the major literary movements of the target culture and be familiar with selected major literary texts of the target culture.
- Be familiar with the great ideas of humanity and of Western civilization in particular, especially as they have originated in or influenced the target culture.
- Understand the institutions and history of the target culture.
- Understand similarities and differences between the target culture and their own.

Skills
- Demonstrate reading, writing, listening and speaking skills in both English and the target language.
- Think critically, analytically and objectively.
- Make and formulate informed aesthetic and linguistic judgments.
- Research a topic thoroughly using both traditional and online sources.
- Use computers effectively for a variety of purposes, from word processors and spell checkers in the target language to terminological databases and machine-aided translation tools.

Experiences
- Ponder what it means to be human in response to literary and cultural studies.
- Engage great texts and great ideas.
- Realize what it is like to be a foreigner with incomplete cultural and linguistic competence.
- See the world through the filter of another language and culture.
- Realize that every language is an imperfect vehicle, riddled with traps and ambiguities.

Attitudes
- Embrace life-long learning.
- Approach issues from interdisciplinary, global and historical perspectives.

Program

The department offerings address a wide spectrum of student needs. Our program seeks to:

- Offer a minor and a major in a specific language.
- Strongly recommend a second major and/or minor in another discipline.
- Offer advanced courses for cross disciplinary programs.
- Offer basic courses required for Bachelor of Arts candidates.
- Organize and participate in Honors courses.
- Provide General Education courses in Cluster Two and reinforce Cluster One goals in all courses.

Faculty

The faculty members of the department strive to:

- Meet the ever-evolving needs of the students.
- Develop innovative teaching techniques, courses and programs while preserving a traditional core.
- Engage consistently in scholarship.
- Provide dutiful service to the college, the university and the profession.
- Be a role model for students as educators and as human beings.

General Objectives

All language majors are expected to acquire:

- Knowledge of critical thinking methods and the ability to apply them.
- Know-how with regard to computers, including word processing skills and the ability to use software devoted to grammar exercises, vocabulary development, literature and culture.
- An appreciation and affective feel for other cultures in addition to an intellectual perspective.

Specific Objectives

The Department of Foreign Languages, Literatures and Cultures offers programs designed to:

- Teach students to understand and speak a language with relative ease.
- Develop skills in reading and writing.
- Provide an acquaintance with foreign literatures.
- Develop an appreciation of foreign cultures.
- Prepare students for professions in education, government work and international trade or for research leading to advanced degrees.

Co-curricular Activities and Organizations

The department supports the following organizations:

- Le Cercle Francophone
- Dobro Slovo
- German Club
- Il Circolo Culturale Italiano
- Phi Sigma Iota
- Russian Club
- El Club de Español
- Sigma Delta Pi

Minimum Grades

A student must receive a minimum grade of "C-" for course credits to count toward any major or minor in the Department of FLLC.

Degree and Major Requirements

Bachelor of Arts in Modern Foreign Languages

Students can earn both a B.A. in Modern Foreign Languages and a minor in a specific language. Currently the department provides:

- Four years of instruction in Arabic, French, German, Italian and Spanish.
- Three years of instruction in Chinese and Japanese.
- Two years of instruction in Ancient Greek, Latin, Korean, Persian, Portuguese, Russian and Swahili.

The minimum requirement for a major in languages is 33 upper-division credit hours in a specific language.

<td>15-43</td>
</tr>
<tr>
<td>Major requirements (listed below)</td>
<td>33</td>
</tr>
<tr>
<td>Total</td>
<td>120</td>
</tr>
</tbody>
</table>

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 The foreign language requirement and the second language requirement may be satisfied by successful completion of the second semester of the intermediate level of the student’s chosen language (typically 232) or by placing out of that language through the Department of Foreign Languages, Literatures and Cultures' placement test. The second language is not required of double majors or education minors.
3 The number of university electives varies depending on the number of actual credits earned with the first and second language requirements. These language requirements may be fully or partly satisfied through the Department of Foreign Languages, Literatures and Cultures' placement tests, but these tests do not confer actual credits and subsequently the number of university electives students take will vary.

Major Requirements

All language sections share certain core requirements.

### Additional Language

Students majoring in modern foreign languages must complete the intermediate level of a second language unless they are:

- Completing a second major
- Completing an education minor
- Completing two degrees
- Completing a pre-professional health program

If the student has a previous background in a second language, the second language requirement may also be satisfied by placing out of it through the Department of Foreign Languages, Literatures and Cultures' placement test. However, in this case, the student must proportionally increase the number of university electives as indicated in the B.A. Degree Requirements.

### Teaching Licensure

Coordinator: Mary O'Donnell
Phone: (540) 568-3512
Email: odonneme@jmu.edu

In conjunction with the College of Education, the department offers programs leading to the teaching license in French, German, Italian and Spanish. In addition to the general education and academic major requirements, students desiring PreK-12 teaching licensure in French, German, Italian or Spanish must be accepted for admission to the teacher education program offered by the College of Education prior to enrolling in professional education courses. The required licensure courses consist of 32 hours of credit.

Students interested in teacher licensure in French, German, Italian or Spanish must also meet the specific curriculum requirements of their foreign language major as part of the undergraduate academic degree.

http://www.jmu.edu/catalog/14
For a complete description of admission and retention policies and procedures for teacher education, refer to the College of Education. Students seeking licensure are encouraged to consult regularly with the teaching licensure coordinator.

Required Courses Credit Hours
GSPYC 160. Life Span and Human Development 3
EDUC 300. Foundations of American Education 3
EXED 303. Foundations of Classroom and Behavior Management 3
READ 420. Content Area Literacy, K-12 2

Business Spanish Adviser: Andrea Naranjo
Phone: (540) 568-6327
The professional minor in business Spanish is intended for students who wish to consolidate and improve their knowledge of Spanish in several business areas. The main aim of the minor is to teach students how to use specific business terms in Spanish and to handle selling techniques, negotiation strategies, product presentations, commercial activities, marketing, and business correspondence in Spanish. Students acquire a greater knowledge of Spanish as well as deeper understanding of Spanish or Hispanic societies and their business cultures.

The minor comprises one linguistic component, one elective component, one translation/interpretation component and three profession-specific linguistic components for a total of 18 credit hours.

Required Courses Credit Hours
SPAN 300. Grammar and Communication 3
One elective Spanish course from: SPAN 307, SPAN 308, SPAN 320, SPAN 407, SPAN 408, or SPAN 447 3
SPAN 330. Business Spanish 3
SPAN 430. Advance Business Spanish 3

### Law Enforcement Spanish

**Adviser:** Stephen C. Gerome  
**Phone:** (540) 568-6851

The professional minor in law enforcement Spanish provides a framework for learning the appropriate Spanish usage for thematic areas such as victim reporting, field interviews, investigations, traffic stops and armed and dangerous calls, as well as medical emergencies and other public safety situations. The minor is designed to prepare students to understand cultural differences and to identify and communicate terminology and phraseology needed for effective cross-cultural communication in the public safety arena. It is intended for all future public safety professionals, including law enforcement officers (federal, state and local agencies), firefighters, lawyers, probation/parole officers, corrections officers, emergency medical technicians, social workers, court service officers, and victim-witness coordinators.

The minor comprises one linguistic component, one elective component, one translation/interpretation component and three profession-specific linguistic components for a total of 18 credit hours.

### Medical Spanish

**Adviser:** Javier Fernández-Torres  
**Phone:** (540) 568-6851

For health service professionals, knowledge of medical Spanish is no longer an option but a necessity. Unless they have a reasonable level of Spanish, communication with patients whose only language is Spanish will be difficult. Courses in medical Spanish are therefore hugely relevant today. The minor in medical Spanish is intended for all future health service professionals, including physicians and their assistants, nurses, pharmacists, dentists, physical therapists, occupational therapists, medical laboratory technicians, emergency medical technicians, medical aides, medical interpreters, healthcare industry professionals, and psychologists.

The minor comprises one linguistic component, one elective component, one translation/interpretation component and three profession-specific linguistic components for a total of 18 credit hours.

### Spanish-English Translation and Interpretation

**Phone:** (540) 568-6851

Translation and interpretation are two of today's fastest-growing professions. An obvious requirement for anyone wishing to enter these professions is the ability to speak two languages fluently. Students who wish to make a positive impact as a translator or interpreter, however, require more than just the ability to speak two languages well. What they need is the linguistic, cultural and technical expertise they can only get from courses designed specifically to prepare them for the demands of these challenging professions. In the minor in translation and interpretation, students take their first steps toward acquiring this expertise.

The minor comprises one linguistic component, one elective component and four profession-specific linguistic components for a total of 18 credit hours.

International Education and Studies Abroad
The department strongly supports – and greatly benefits from – the university's excellent Studies Abroad programs. Majors are strongly encouraged to spend a significant amount of time abroad. Students are urged to check with their language advisers to see which courses taken abroad count toward the language major. Majors in modern foreign languages must take 33 credit hours of foreign language courses specified by the department. Students are required to take 18 of those in courses taught in the Department of Foreign Languages, Literatures and Cultures based on the main JMU campus.

Minors in modern foreign languages must take 18 credit hours of foreign language courses specified by the department. Students are required to take nine of those in courses taught in the Department of Foreign Languages, Literatures and Cultures based on the main JMU campus.

Placement Tests
The score a student receives from the online placement test will be valid for registering in a language class that takes place up to and including the second semester of the sophomore year at JMU. A student who chooses to wait until his/her junior year to begin language study will be required to repeat the online placement test. Students will be placed in a class according to the new score, even if this means starting in a lower-level class than was indicated by the first placement test. In this circumstance, the student will take more classes to fulfill the language requirement for the B.A. degree.

The faculty of the Department of Foreign Languages, Literatures and Cultures strongly recommend that students begin their required language classes no later than the second semester of the sophomore year, and ideally as soon as possible after taking the online placement exam.

Heritage Speakers and International Students
Heritage speakers who would like to pursue a major or minor in FLLC studies in their heritage language must take the JMU Foreign Language placement test. Placement into level 300 is required in order to qualify to take the examination for credit for 300. Students who pass the examination for credit for 300 are entitled to register in other FLLC courses that have 300 as a prerequisite or to proceed to take the examination for credit for 320.

International students who are admitted to JMU and would like to pursue a major or minor in FLLC studies in their native language(s) need to take the examination for credit for 300 and 320 and then register for more advanced courses.

Heritage Speakers and International students who need to satisfy a language requirement need to complete a waiver form after being tested for proficiency.

Heritage Speakers and International students who wish to take elective credits in their language need to be tested for proficiency.

For testing of languages not offered by FLLC department, contact the department.
Department of Geology and Environmental Science

Dr. Stephen A. Leslie, Department Head

Professors

Associate Professor
A. Courtier, J. Haynes, E. Johnson, S. Whitmeyer

Assistant Professors
Y. Admassu

Instructors
C. Kearns, S. Whitmeyer

Mission Statement
Our mission is to serve two vital needs of the JMU students. First, the majors in geology present high-quality programs of specialized study focusing on Earth materials, internal and external Earth processes, analysis of Earth history and application of geology to environmental and engineering issues. In support of this mission is a commitment to foster the ability to think analytically and to communicate both within the discipline and with non-scientists. Course work and research experiences prepare the student for postgraduate study or professional careers that are subject to rapidly changing societal needs. Second, our department strives to enhance the university’s general education program by offering timely and challenging courses that provide insight into Earth processes and human-environment interactions. These courses promote life-long liberal learning by fostering critical thinking and an awareness of natural science.

Goals
Provide a stimulating, intellectual environment for students in geology and environmental science that will generate interest and enthusiasm for learning and will provide a solid foundation for graduate work and careers in geology and environmental science. Teach science as science is practiced. Since the advancement of scientific knowledge often occurs within a social context – collaboration among scientists, conferences, seminars – the goal is to develop a similar mode of operation for the geology program. Provide high-quality, relevant general studies courses within the discipline that focus on the fundamental science in the societal context (e.g., environmental change, climate change, hazards). These courses will incorporate critical thinking and an appreciation of human-environment interactions.

Career Opportunities
- Earth Science Teacher
- Engineering Geologist
- Environmental Geologist
- Environmental Scientist/Specialist
- Geochemist
- Government or Industry Geologist
- Geological Oceanographer
- Geomorphologist
- Geophysicist
- Hydrogeologist
- Meteorologist
- Science Museum Curator
- Paleoclimatologist/paleoceanographer
- Paleontologist
- Petroleum Geologist
- Soil Scientist

Co-Curricular Activities and Organizations
The department encourages majors and minors to participate in the student Geology Club, which sponsors field trips, camping excursions, and hosts educational activities for elementary school students. Geology majors are encouraged to apply to be laboratory teaching assistants and research assistants for faculty in the department. Majors and minors are also strongly encouraged to become members of one or more of the following geoscience organizations and to present their research at the affiliated regional or national meetings:
- Geological Society of America (GSA)
- American Association of Petroleum Geologists (AAPG)
- American Geophysical Union (AGU)
- National Association of Geoscience Teachers (NAGT)

Degree and Major Requirements
There are two bachelor degrees offered in the Department of Geology and Environmental Science, a B.S. in geology and a B.A. in Earth science. Both degree options have a research requirement that includes a formal presentation. The B.S. degree has two concentrations: a general geology concentration designed for students who want to take a wider range of geology elective courses and an environmental and engineering geology concentration designed for students who want to focus their geology electives toward applied environmental science.

http://www.jmu.edu/catalog/14
The B.A. in Earth science prepares individuals to work in a wide range of professional public sector service careers where preparation in Earth science and communication of science to nonscientific audiences is a requirement or an asset. This includes the preparation of Earth science teachers.

Bachelor of Arts in Earth Science

The B.A. in Earth science degree is designed to integrate all the Earth sciences in a systems approach to understanding the Earth. This includes incorporating and integrating subjects such as oceanography, meteorology and astronomy. The emphasis is on the preparation of individuals to work in a wide range of professional public sector service careers where preparation in Earth science and communication of science to non-scientific audiences is a requirement or an asset.

Choose one of the following: 2-6 credits

- GEOL 291. Geowriting and Communication
- GEOL 491. Geological Literature Research
- GEOL 494. Internship
- GEOL 497. Problems in Geology

Electives

- 9-20 credits

Total: 120 credits

Recommended Minors for the Bachelor of Arts in Earth Science

The B.A. Earth science degree recommends (but does not require) that students complete a minor in a complementary program (see list below), suitable toward the career goals of the student. Approved minors include:

<table>
<thead>
<tr>
<th>Minor</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Astronomy</td>
<td>12</td>
</tr>
<tr>
<td>Biology</td>
<td>12-16</td>
</tr>
<tr>
<td>Business Analytics</td>
<td>18-19</td>
</tr>
<tr>
<td>Chemistry</td>
<td>20</td>
</tr>
<tr>
<td>Economics</td>
<td>18</td>
</tr>
<tr>
<td>Environmental Information Systems</td>
<td>24</td>
</tr>
<tr>
<td>Environmental Management</td>
<td>19</td>
</tr>
<tr>
<td>Environmental Science</td>
<td>15</td>
</tr>
<tr>
<td>Environmental Studies</td>
<td>18</td>
</tr>
<tr>
<td>Humanities Affairs</td>
<td>18</td>
</tr>
<tr>
<td>Geographic Science</td>
<td>19</td>
</tr>
<tr>
<td>Mathematics</td>
<td>14-18</td>
</tr>
<tr>
<td>Nonprofit Studies</td>
<td>19-21</td>
</tr>
<tr>
<td>Physics</td>
<td>14-22</td>
</tr>
<tr>
<td>Political Science</td>
<td>19</td>
</tr>
</tbody>
</table>
In addition to the general education and academic major requirements, Earth science majors desiring secondary teacher licensure must be admitted to the pre-professional program in secondary education at the undergraduate level and complete the graduate level Master of Arts in Teaching degree. It is critical that students seeking teaching licensure consult regularly with both their education adviser and their major adviser to support their progression through the programs.

For a full description of the program in secondary teaching, refer to the Department of Middle, Secondary and Mathematics Education, in addition to the College of Education section of the catalog.

## Minor Requirements

### Geology Minor

The requirement for a minor in geology is a minimum of 18 credit hours of geology approved by the student's geology adviser.

### Geophysics Minor

The minor in geophysics is designed to provide adequate training for professional work or graduate school in geophysics in the broad sense. No more than 10 credits from the geophysics minor may be used to double count with a major. The requirements for the geophysics minor are a minimum of 21 credits, including at least one semester each of geology, mathematics and physics, distributed as follows:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 110. Physical Geology</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 110L. Physical Geology Lab</td>
<td>1</td>
</tr>
<tr>
<td>GEOL 167. History and Philosophy of the Geosciences</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 230. Evolution of Earth</td>
<td>4</td>
</tr>
<tr>
<td>MATH 205. Introductory Calculus I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 131-131L General Chemistry I</td>
<td>4</td>
</tr>
</tbody>
</table>

1 Credit hours for courses in the minor that are already required courses for the B.A. in Earth Science major have been subtracted from the total hours listed here.

Students may also propose a minor that is not listed above to their adviser for approval.

### Recommended Schedule for B.A. Degree in Earth Science

#### First Year

<table>
<thead>
<tr>
<th>Cluster One: Skills for the 21st Century</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 110. Physical Geology</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 110L. Physical Geology Lab</td>
<td>1</td>
</tr>
<tr>
<td>GEOL 167. History and Philosophy of the Geosciences</td>
<td>3</td>
</tr>
<tr>
<td>GEOL 230. Evolution of Earth</td>
<td>4</td>
</tr>
<tr>
<td>MATH 205. Introductory Calculus I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 131-131L General Chemistry I</td>
<td>4</td>
</tr>
</tbody>
</table>

#### Second Year

| GEOL 211. Introduction to Oceanography | 3            |
| GEOL 291. Geowriting and Communication | 1            |
| GEOL 320. Meteorology                  | 3            |
| GEOL 367. Genesis of Solid Earth Materials | 4 |
| GEOL 377. Earth Surface Processes      | 3            |
| Foreign language courses \(^1\)         | 1-8          |
| General Education courses              | 12           |

#### Third Year

| GEOL 467. Stratigraphy, Structure and Tectonics | 4           |
| Choose one of the following:                   | 3           |
| ASTR 220. Astronomy                            |             |
| GEOL 272. Planetary Geology                    |             |
| Cognate science and mathematics                 | 9-12         |
| General Education courses                      | 9            |

#### Fourth Year

| GEOL 477. Contemporary Issues in the Geosciences | 3           |
| Cognate science                                  | 3-4          |
| Choose one from the following:                   | 2-6          |
| GEOL 491. Geological Research Literature        |             |
| GEOL 494. Internship                            |             |
| GEOL 497. Problems in Geology                   |             |
| GEOL 499. Honors in Geology                     |             |
| Geology electives                               | 4-6          |
| Electives                                       | 12-20        |

#### Teaching Licensure

Students interested in becoming teachers must meet specific curriculum requirements in their major as part of the undergraduate academic degree. The B.A. in Earth science includes state course requirements in astronomy, meteorology and oceanography, to total no less than 32 hours in the Earth sciences (including geology) and a minimum of 16 hours total in physics, chemistry and biology.

1 Additional elective courses permitted upon approval from minor adviser.

Note for geology majors: The geology major requires a sequence of math and physics courses (see major program for details). The following sequence of courses will satisfy the major requirements and is strongly recommended for students interested in geophysics. In particular, MATH 236 is a prerequisite for several courses included in the geophysics minor.

MATH 235-236. Calculus I & II
PHYS 240-250. Physics I & II I and Lab
Department of Health Sciences

Dr. Paula Maxwell, Interim Department Head

Phone: (540) 568-6510  
Location: Health and Human Services Building, Room 3126  
Website: http://www.healthsci.jmu.edu

Professors
H. Amato, J. Gloeckner, R. Koslow, P. Maxwell, J. Thompson, D. Wenos, M. Wessel

Associate Professors

Assistant Professors

Instructors
L. Blosser, E. Richardson

Lecturers
A. Fink, T. Howley, R. Prodoehl, M. Stickney

Mission Statement
The purpose of the Department of Health Sciences is to contribute to the liberal arts education of all students and prepare students for professional careers in the health sciences and/or for entry into professional programs.

Goals
The goals of the Department of Health Sciences are to:
- Promote the health and well-being of the JMU community.
- Support the general education program.
- Educate health professionals.
- Provide service to the community, the state, the region and the nation.
- Conduct, disseminate, and publish research/scholarship in health sciences.

Career Opportunities
- Athletic Trainer
- Registered Dietitian
- Health Administrator
- Health Assessment and Promotion Specialist
- Health Fitness Specialist
- Occupational Therapist (Graduate Program)
- Physician Assistant (Graduate Program)
- Public Health Educator
- Substance Abuse Prevention Professional

Co-curricular Activities and Organizations
- American College of Sports Medicine
- Madison Athletic Training Student Association
- Eta Sigma Gamma (Health Sciences Honor Society)
- Health Administration Student Association
- JMU Dietetic Association
- JMU Physician Assistant Student Society
- JMU Student Occupational Therapy Association
- Pre-OT Society
- Pre-PT Society

Special Admission Requirements
Admission to JMU does not guarantee admission to all academic majors and minors. Special applications are required for admission to the clinical portions of the athletic training program, dietetics program, and the occupational studies program.

Deadline Notice for Change or Declaration of Majors
Deadlines for change or declaration of major forms are as follows:

Semester | Deadline
--- | ---
Summer | February 15
Fall | February 15
Spring | September 15 of the previous year

Forms received in the health sciences office after the deadline will be processed the following semester. In addition, students changing their major to health sciences after February 15 of the sophomore year should expect an additional semester(s) to complete the program. The number of additional semesters required to complete the program will depend on the timing of the change to health sciences as well as the number of summer courses completed.

Degree and Major Requirements
The Department of Health Sciences offers the following degrees:
- Bachelor of Science in Athletic Training
- Bachelor of Science in Dietetics
- Bachelor of Science in Health Services Administration
- Bachelor of Science in Health Sciences with a concentration in:
  - Health Assessment and Promotion
  - Health Studies
  - Occupational Studies
  - Public Health Education

The physician assistant program and the occupational therapy program are available at the master’s degree level.

http://www.jmu.edu/catalog/14
Bachelor of Science in Athletic Training

This major prepares students to sit for the national certification examination through the Board of Certification. Areas of study include injury prevention, clinical examination and diagnosis, acute care of injuries and illnesses, therapeutic interventions, psychosocial strategies and referrals, healthcare administration, evidence-based practice, and professional development and responsibility. The Athletic Training Education Program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). This program is comprised of both academic and clinical requirements.

Any student may declare athletic training as his/her major upon entering JMU and enroll in the pre-professional phase of the program. Students must apply to the professional phase of the program for a limited number of seats at the end of their sophomore year or upon completion of required prerequisite courses. Performance in the prerequisite courses is a strong consideration in the admission process. In order to make a formal application, students must have completed the following courses with a grade of “C” or better, or be currently enrolled or planning to enroll in May:

- BIO 270. Human Physiology
- BIO 290. Human Anatomy
- ATEP 205. Introduction to Athletic Training
- ATEP 206. Recognition and Management of Athletic Injuries
- ATEP 291. Pre-Professional Practicum in Athletic Training

The athletic training program application and supporting documents are available to students while enrolled in ATEP 291 or by contacting the program director. Applications can be submitted to the program director after January 15, but must be submitted no later than April 1 to be considered for full admission.

Specific program requirements, including academic, clinical and technical standards, may be found on the Athletic Training Curriculum website (http://www.athleticsci.jmu.edu/AT) or in the Athletic Training Curriculum Handbook, which can also be found on the ATEP website.

Bachelor of Science in Dietetics

The Bachelor of Science in dietetics is the first step toward registration as a dietitian. The Registered Dietitian (RD) credential is a national credential that requires completion of a Didactic Program in Dietetics (DPD), a Dietetic Internship (DI), and successful completion of the national registration examination. The DPD at James Madison University is accredited by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics, 120 S. Riverside Plaza, Suite 2000, Chicago, IL 60606-6995, (312) 899-4876. The program in dietetics gives the student a wide view of dietetics careers including clinical dietetics, administrative dietetics, community dietetics, food service, education and research.

Special Admission Requirements

Any student admitted to JMU can declare dietetics as his/her major and will be permitted to enroll in NUTR 280 Nutrition for Wellness and NUTR 295 Foundations of Nutrition Practice. However to make progress in the major beyond the first few courses students need to apply and be admitted to the professional program.

http://www.jmu.edu/catalog/14
Students wishing to be admitted to the dietetics program at JMU must apply in the spring semester no later than February 15 during which admission requirements will be met, usually in the sophomore year.

Students applying for admission must have a cumulative GPA of at least 3.0 in the following courses, with no grade lower than a “C.”

- CHEM 131 and 131L. General Chemistry I
- CHEM 132 and 132L. General Chemistry II
- BIO 270. Human Physiology
- GCOM 121, 122, or 123. Human Communication
- GPSC 225. U.S. Government
- GPSYC 101. General Psychology or GPSYC 160. Life Span and Human Development
- GWR TC 103. Critical Reading and Writing
- MATH 220. Elementary Statistics
- NUTR 280. Nutrition for Wellness
- NUTR 295. Foundations of Nutrition Practice

Retention and Receiving Didactic Program in Dietetics Verification

To remain in the major, students must maintain a GPA of at least 3.0 in the major and earn grades of “C” (2.0) or higher in all remaining required courses. Transfer credit will not be accepted for the following courses: NUTR 363, NUTR 446, NUTR 482, NUTR 484 and NUTR 490. All successful graduates will receive four copies of a signed verification statement from the James Madison University DPD as soon as final transcript verifying all grades and degree confirmation is available.

1 Offered only in spring semester.
2 Offered only in fall semester.
3 These courses may count for both General Education and the major depending on General Education course choice.
4 Field Experience Practicum should be completed during summer between junior and senior years.

Bachelor of Science in Health Services Administration

The program in health services administration prepares the student for entry-level administrative positions, and staff positions requiring administrative skills, in various health services organizations including hospitals, hospital systems, managed care organizations, retirement and long term care facilities, ambulatory care organizations, and public health organizations. The student is prepared to plan, organize, direct and control health programs and/or facilities. In addition, the program provides the foundation for graduate study in health services administration and related fields. The health services administration program is approved as a Full Certified undergraduate program by the Association of University Programs in Health Administration (AUPHA).

Upon completion of all JMU and program requirements, the student is awarded the B.S. in Health Services Administration. No more than 30 hours may be taken in the College of Business.

Bachelor of Science in Health Sciences

The B.S. degree with a major in health sciences consists of health science course requirements in addition to general education requirements and B.S. requirements. For specialization in a professional area, concentrations are available in health assessment and promotion, health studies, occupational studies, and public health education.

Health Science Core

All students pursuing the B.S. in Health Sciences must complete the following core courses:

<table>
<thead>
<tr>
<th>Course Description</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 120. Concepts of Chemistry</td>
<td>3</td>
</tr>
<tr>
<td>or CHEM 131/132+L General Chemistry</td>

Bachelor of Science in Health Sciences

The B.S. degree with a major in health sciences consists of health science course requirements in addition to general education requirements and B.S. requirements. For specialization in a professional area, concentrations are available in health assessment and promotion, health studies, occupational studies, and public health education.

Health Assessment and Promotion Concentration

This concentration prepares students for positions in wellness, hospital, and corporate-based health promotion and assessment programs. Students are trained to develop and implement comprehensive health promotion activities by combining health education, assessment techniques and fitness concepts. HAP students master a variety of clinical assessments and begin to develop health communication skills prior to graduation.

The concentration includes 12-18 hours of electives which can be used to complete any minor requirements or which pre-professional students can use to finish prerequisites for their selected professional program. Additionally, this broad-based program provides a strong foundation for related graduate studies. Upon completion, students are prepared to enroll in the Health Fitness Specialist and/or the Physical Activity in Public Health Specialist certifications sponsored by the American College of Sports Medicine.

Concentration Requirements

Students must complete the General Education requirements, the B.S. degree requirements, the health sciences core and the health assessment and promotion core requirements.

Required Courses/Recommended Schedule for Health Assessment and Promotion Concentration

Evidence of CPR/First-Aid certification must be presented for graduation.

First Year Credit Hours
CHEM 120. Concepts of Chemistry 1 3
G HTH 100. Personal Wellness 3
HTH 150. Introduction to Health Sciences 1
HTH 210. Medical Terminology 3
MATH 220. Elementary Statistics 1 3
General Education courses 15-17
28-30

Second Year Credit Hours
BIO 270. Human Physiology 1 4
BIO 280. Human Anatomy 4
ATEP 205. Introduction to Athletic Training 3
NUTR 280. Nutrition for Wellness 3
General Education courses 15-18
30

Third Year Credit Hours
HTH 308. Therapeutic Assessment 1 3
HTH 245. Foundations of Infectious Disease 3
HTH 351. Health Behavior Change 3
HTH 389. Practicum in Health Education 3
HTH 471. Health Aspects of Gerontology 3
NUTR 382. Sports Nutrition 1 3
HTH 320. Statistical Methods for Health Science Research 3
General Education courses 3-4
Core and elective courses 6
30-31

Fourth Year Credit Hours
HTH 408. Health Research Methods 3
HTH 441. Rehabilitative Biomechanics 3
HTH 442. Chronic Diseases 1 3
HTH 450. Epidemiology 3
HTH 458. Health Program Planning and Evaluation 3
HTH 480. Health Assessment Techniques 1 3
HTH 482. Advanced Health Assessment Techniques 2 3
Core and elective courses 6
HTH 495. Internship in Health Organizations 3
30-31

Health Studies Concentration

The health studies concentration is designed for students interested in understanding the causes of disease, strategies for promoting wellness, and the scientific basis and methodologies for analysis of health concerns. The health studies concentration combines a broad foundation of health-related course work with a choice of preparatory courses suitable for entry into graduate programs in medicine, dentistry, optometry, occupational therapy, physical therapy, pharmacy, physician assistant and veterinary medicine.

Students must complete the core course requirements for a major in health sciences and the requirements for the concentration in health studies. Students are encouraged to identify individual professional program requirements to select courses within the concentration requirements that will be most suitable for the graduate program of their choice.

Recommended Schedule for Health Studies Concentration

First Year Credit Hours
G HTH 100. Personal Wellness 3
MATH 220. Elementary Statistics 3
HTH 150. Introduction to Health Sciences 1
Pre-professional courses 4-8
General Education courses 13-17
30-32

Second Year Credit Hours
CHEM 120 + L. Concepts of Chemistry 3-8
HTH 210. Medical Terminology 3
HTH 231. Population Health Determinants 3
HTH 340. Chronic Disease and Disabilities 3
HTH 351. Health Behavior Change 3
General Education, pre-professional courses and electives 9-17
30

Third Year Credit Hours
Choose one of the following:
BIO 270. Human Physiology 4
BIO 280. Human Anatomy 4
HTH 210. Medical Terminology 3
HTH 231. Population Health Determinants 3
HTH 340. Chronic Disease and Disabilities 3
HTH 351. Health Behavior Change 3
HTH 354. U.S. and Global Health Care Systems 3
General Education, pre-professional courses and electives 9-17
30

1 BIO 270, CHEM 120 and MATH 220 may be counted for both general education and the major.
2 Offered only in spring semester.
3 Offered only in fall semester.

http://www.jmu.edu/catalog/14
Occupational Studies Concentration

This concentration is only available to those students who have been officially accepted to The Graduate School at James Madison University through the early-entry program for the Master in Occupational Therapy (M.O.T.) program. Students in this concentration must have completed all prerequisite courses for JMU’s M.O.T. program through the health studies concentration by the end of their junior year, have applied to the M.O.T. program by January 10 of their junior year and have successfully gained admission to The Graduate School and the M.O.T. program as senior-level students.

Students accepted to the early-entry program are accepted by The Graduate School and the occupational therapy program, but remain as undergraduate students during the first year in the program. Thus, students in this program complete the bachelor’s and master’s degrees in 5½ years rather than the traditional 6½ year program (assuming students’ progress through the degrees in the intended timeline).

Students wishing to pursue the early-entry program for OT must declare their major as health sciences with a health studies concentration and complete the following requirements of that concentration to be eligible to apply for admission.

- Complete a minimum of 85 credits by the end of the junior year, including all General Education requirements.
- Complete the following prerequisite courses with a grade of “C” (2.0) or higher:
  - GSOCI 140. Microsociology: The Individual in Society
  - GANTH 195. Cultural Anthropology (or an anthropology-focused course)
  - BIO 270. Human Physiology (with lab)
  - BIO 290. Human Anatomy (with lab)
  - HTH 441. Rehabilitative Biomechanics (or comparable physics or kinesiology course)
  - MATH 220. Elementary Statistics
  - PSYC 160. Life Span Human Development
  - PSYC 250. Intro to Abnormal Psychology
  - HTH 210. Medical Terminology
  - HTH 408. Health Research Methods

Students who are seeking a JMU undergraduate health sciences degree in occupational studies must complete all General Education requirements and the following additional Health Sciences core courses by the end of spring semester of the year offered admission into the Occupational Studies Program.

- GANTH 100. Personal Wellness
- CHEM 120. Concepts of Chemistry (lecture only)
- HTH 245. Foundations of Infectious Disease
- NUTR 280. Nutrition for Wellness
- HTH 320. Statistical Methods for Health Sciences Research
- HTH 351. Health Behavior Change
- HTH 354. U.S. and Global Health Care Systems
- HTH 450. Epidemiology

In addition to the course requirements listed above, students must:

- Submit documentation of a minimum of 40 hours of observation of occupational therapy services (documentation form can be found in the application packet).
- Take GRE exams (verbal, quantitative and writing) by November 15 of the junior year and submit scores to The Graduate School at JMU.
- Submit application to the M.O.T. program including application to the OT program and to The Graduate School. Although accepted by The Graduate School during the junior year admission process, actual entry to the graduate level of the M.O.T. program will be delayed one year from the application to allow students to complete the undergraduate degree.

Upon official acceptance into The Graduate School and the occupational therapy program, early-entry students will be switched from the health sciences major-health studies concentration to the health sciences major-occupational studies concentration. Students in this program start course work during the summer prior to the senior year and complete their undergraduate courses/first year OT courses during the senior year to earn their bachelor’s degree. Upon completion of the bachelor’s degree and successful completion of all OT program requirements for the first year, students in this program transition to graduate level status in the M.O.T. program. For accreditation information see the graduate catalog.

Curriculum

Once accepted to the occupational therapy early-entry option, students complete the following courses during their senior year. All of the following courses are required and must be taken in the sequence specified. Students must be enrolled full-time.
Exceptions to this requirement are rare and are only granted by the program coordinator. Students must perform satisfactorily from an academic standpoint in a manner that is consistent with MU graduate school and occupational therapy program policies.

Students enrolled in this program have the option of earning a minor in gerontology, substance abuse or special education (non-teaching) if appropriate course work is completed.

Students pursuing occupational therapy but who are not able to gain admission via the early-entry program may remain as health sciences majors (or change to another preferred major) to complete their bachelor’s degree. Qualified students not accepted to the early-entry program are encouraged to re-apply to the traditional M.O.T. program upon completion of their bachelor’s degree.

For more information on this program, including the complete application process and requirements, see the Graduate Catalog at [http://www.jmu.edu/catalog](http://www.jmu.edu/catalog).

**Public Health Education Concentration**

This concentration prepares the student for entry-level public health education positions or health-related positions in a wide variety of government, community, and voluntary health agencies, such as health departments and community-based health programs. This concentration also provides a strong foundation for students to pursue a Master of Public Health degree. Students completing this concentration are eligible to sit for the Certified Health Education Specialist (CHES) exam. The program has been approved by the Society for Public Health Education and the American Association for Health Education.

**Concentration Requirements**

Students must complete the General Education requirements, the B.S. degree requirements, health sciences core and the public health education requirements.

In order to graduate in May of the senior year, a student must save HTH 423, HTH 458 and HTH 471 to be completed the third block of the senior year. The internship, HTH 495, is completed the fourth block. The internship is full-time supervised work at a professional site for eight weeks; thus, semester long courses cannot be taken the spring semester of the senior year.

Students who need additional courses must complete their internship during the summer after their senior year.

1 Offered fall semester only.
2 BIO 270, CHEM 120 and MATH 220 may be counted for both general education and the major.
3 Offered first eight weeks of spring semester.
4 Offered only in spring or summer.

Master Level Degrees

In addition to undergraduate programs, the Department of Health Sciences offers several advanced degrees. For more information about any of the programs listed, refer to the JMU Graduate Catalog or gain access through the Health Sciences website at the Health Sciences website.

- Master of Occupational Therapy
- Master of Physician Assistant Studies
- Master of Science in Health Sciences/Dietetics Concentration
- Master of Science in Health Sciences/Nutrition and Physical Activity Concentration

Physical and Health Education Teacher Education Certification

This program is housed in the Department of Kinesiology and culminates in a Master of Arts in Teaching degree.

Credit by Examination

The Department of Health Sciences offers credit by examination for a limited number of the courses taught in the department. Students who want permission to take an examination must apply to the department head during the regular registration period. Students will receive details regarding approval and examination dates after they apply. Examinations will be given only in courses offered during the semester.

Mission Statement
The Department of History supports the academic mission of James Madison University by providing the highest quality educational experiences within the liberal arts tradition that meet students’ needs and prepare students for meaningful careers and active citizenship. The department focuses on the student as individual learner and global citizen. Our dedicated faculty members are classroom innovators and scholars who work responsibly and supportively with students to expand their knowledge and skills and to create a foundation for their lifelong learning.

Goals
To carry out the above mission, the Department of History seeks the following goals, which focus on student knowledge, skills and experiences.

Knowledge
Students studying history at JMU will:
- Acquire knowledge of the world’s great literary, philosophical, religious and artistic traditions.
- Comprehend the historical and social context of major political, intellectual, religious, economic and cultural developments.
- Comprehend the major achievements in the fine arts in world civilizations and the achievements’ historical, social and cultural context.
- Evaluate the evidence, ideas and models needed to perceive how people relate to each other, to institutions and to communities as well as to make judgments about the world.
- Discern the values, ethics and legal issues in world civilizations, including their own, and how these issues relate to Western ideas of a free society.

Skills
Students studying history at JMU will:
- Read, write and speak critically, mastering how to make informed judgments based on existing evidence.
- Locate printed and online information sources to research a topic exhaustively.
- Critically evaluate textual evidence by identifying a thesis, noting sources used in the argument, discerning the conclusions and determining the perspective, bias and reliability of the argument.
- Write clear, well-organized, grammatical prose.
- Solve problems.
- Communicate persuasively.
- Use computers effectively.
- Speak a foreign language proficiently.

Experience
Students studying history at JMU will:
- Handle responsibility to become independent, creative and self-directed learners and complete scholarly projects on time.
- Consider thoughtfully a number of perspectives before supporting one.
- Develop ways of perceiving, evaluating and behaving within cultural systems different from their own.
- Understand the importance of change and continuity over time, different peoples’ responses to change and the importance of cause and effect in history.
- Discern the dynamics of an increasingly multicultural society.

Career Opportunities and Marketable Skills
Career opportunities open to those receiving a B.A. in history include:
- Archiving
- Education
- Industry
- Local, state and federal government
- Museum curation
- Private business

With additional training, many graduates pursue careers in law or academia. Many graduates also have pursued careers in the health and technology professions.

Students completing an undergraduate degree in history possess marketable abilities in:
- Analyzing
- Researching
- Writing

They also possess computer abilities and skills in:
- Database development
- Statistical analysis
- Website development
- Word processing

Co-curricular Activities and Organizations
- Phi Alpha Theta (National Honor Society for History)
- The Madison Historians
Degree and Major Requirements
Bachelor of Arts in History

The requirements for a major in History consist of introductory-, mid- and upper-level courses. All courses introduce students to the nature of history and survey the globe in a historical context. In addition to involving reading, writing and critical thinking, these courses develop students’ elementary computer skills in identifying and interpreting research sources and presenting research results. The 100- and 200-level courses are world or regional surveys, covering extensive periods of time, while the 300- and 400-level courses focus on specific nations, time periods or themes. The upper-level courses also require more extensive analysis of sources, texts and interpretations. Courses at the 400 level are capstones where students are expected to show an advanced ability to meet all department objectives. Majors in History are strongly encouraged to continue study in foreign languages beyond the minimum university requirement and, when appropriate, to integrate their foreign language studies into their History courses.

This major requires three core courses. Two of these courses are introductory level: HIST 101, World History to 1500 and HIST 102, World History Since 1500. The third required course is HIST 395, History Seminar. This seminar on research methods teaches students the most sophisticated computer applications for research and writing.

In addition to the core requirements, majors must take eight elective courses: two on the 200 level and six on the 300 and 400 levels. At least three of the six upper division courses must be taken at the 400 level. For students writing a senior honors thesis, only three hours of HIST 499, Honors Thesis, may be counted among the three 400-level courses required for the major.

Majors must also complete one course at the upper division level in each of the following fields: U.S. history; European history; and World History.

</table>

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 The foreign language requirement may be satisfied by successful completion of the second semester of the intermediate level of the student’s chosen language (typically 225) or by placing out of that language through the Department of Foreign Languages, Literatures and Cultures’ placement test.

Major Requirements

Core Requirements

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 101. World History to 1500</td>
<td>3</td>
</tr>
<tr>
<td>HIST 102. World History Since 1500</td>
<td>3</td>
</tr>
<tr>
<td>Any two courses at the 200-level, including HIST 225. U.S. History '6-7</td>
<td>3</td>
</tr>
<tr>
<td>HIST 395. History Seminar</td>
<td></td>
</tr>
<tr>
<td>Electives: Six 300- or 400-level courses</td>
<td>18</td>
</tr>
</tbody>
</table>

1 HUM 252 can also fulfill this requirement when it focuses on Latin America and is taught by History faculty.
2 This course fulfills the College of Arts and Letters writing-intensive requirement for the major.

HIST courses can be double-counted toward General Education credit. HIST 395 may not be counted toward the 300/400 level course requirement. History majors must have completed HIST 395 in order to enroll in any 400-level history course. All other students wishing to enroll in any 400-level history course are not required to have taken HIST 395, but must get an override from the faculty member teaching the 400-level history course. The faculty member will then submit the override to the department office.

Concentration
Public History

Historians today practice their discipline in a variety of careers as well as in more traditional academic settings. Those historians who work in museums, archives, government agencies, libraries, historic preservation organizations, businesses, contract history firms, cultural resource management firms and historic sites are known as public historians because they use their skills as historians to serve a public audience. The concentration in Public History trains students in the broad range of skills and issues associated with public history while providing them with a solid general background in history.

Students pursuing the public history concentration augment their foundation of traditional history courses by taking introductory and specialized public history courses and completing a semester-long internship. History majors opting to pursue the public history concentration will complete seven elective courses, six of which must be 300/400 level history courses. The public history concentration consists of five courses (15 credit hours).

Students are required to complete two public history core courses and three elective courses. Two of the three elective courses should be chosen from the list of primary electives; the remaining elective course may be chosen from either the primary or secondary list of elective courses.

http://www.jmu.edu/catalog/14
History Major with Public History Concentration

Core Requirements

- HIST 101. World History to 1500  
- HIST 102. World History Since 1500  
- Any two 200-level History courses  
- HIST 395. History Seminar  
- Seven electives  
- 300/400-level HIST courses

Primary Electives

- HIST 340. Internship in History  
- HIST 396. Introduction to Public History

Public History Concentration

Required Courses

- HIST 340. Internship in History  
- HIST 396. Introduction to Public History

Teaching Licensure

Students interested in becoming teachers must meet specific curriculum requirements in their major as part of the undergraduate academic degree. History majors desiring secondary teaching licensure must complete HIST 225.

In addition to the general education and academic major requirements, history majors desiring secondary teacher licensure must be admitted to teacher education, complete the pre-professional program in secondary education at the undergraduate level and complete the graduate level Master of Arts in Teaching degree.

It is critical that students seeking licensure consult regularly with both their education adviser and their major adviser to support their progression through the programs. For a full description of the program in secondary teaching, refer to the Department of Middle, Secondary and Mathematics Education, in addition to the College of Education section of the catalog.

History and Business

Many graduate business schools encourage applications from liberal arts majors. History majors who wish to prepare specifically for admission to a Master of Business Administration degree program should schedule from the following courses.

A history major may choose no more than 27 credit hours in this program from courses offered by the College of Business. Students should consult regularly with the associate dean of the College of Business. In addition to the major in history, students are advised to choose from the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>

</tbody>
</table>

Minor Requirements

Departmental Minor

History Minor

The minor in history is available with the B.A., B.S. or any other degree. The minor requires 21 credit hours of history, including HIST 101 and HIST 102. At least six of the remaining 15 hours must be at the 300 or 400 level with at least one of these courses in world history.

Cross Disciplinary Minors

For more information about the following minors, refer to Cross Disciplinary Programs.

African Studies Minor

The minor in African studies broadens students’ world perspectives by enhancing their acquaintance with and understanding of the peoples, cultures and institutions of Africa and the African diaspora. The minimum requirement for a minor in African studies is 22 credit hours.

American Studies Minor

American studies is a cross disciplinary program of study that promotes an enhanced understanding of the whole of American civilization, past and present through examination of the diverse aspects of our culture and changing patterns of ideas and values. Courses come from the departments within the College of Arts and Letters and students will take courses from within three groupings: multicultural studies, ideas and the arts and history and politics.

Asian Studies Minor

The purpose of this cross disciplinary program is to broaden the students’ perspective by enhancing their understanding and appreciation of Asian culture and institutions. The minimum requirement for a the Asian studies minor is 18 credit hours.

http://www.jmu.edu/catalog/14
**Classical Studies Minor**
The minor in classical studies introduces students to Greco-Roman civilization. The requirement is successful completion of 24 credit hours.

**Historical Archaeology Minor**
The cross disciplinary minor in historical archaeology is designed for students interested in a discipline that integrates the research interests and methods of archaeology and history.

**Latin American and Caribbean Studies**
This minor allows students to acquire a deeper understanding of Latin America. In addition to a B.A. degree language requirement in Spanish, the Latin American and Caribbean studies minor consists of a minimum of 18 credit hours.

**Russian Studies Minor**
This minor offers a broad, cross disciplinary perspective on Russian culture, history, political institutions, economy and geography. The minimum requirement for the Russian studies Minor is 18 credit hours.

**Women’s Studies Minor**
The women’s studies minor is an 18 credit hour cross disciplinary program that explores the scholarship related to gender and equity issues affecting women.

**Credit by Examination**
The Department of History offers credit by examination for GHIST 101, GHIST 102 and GHIST 225. Students who want permission to take an examination must apply in writing to the department head during the regular registration period. The examinations are administered during the first month of each semester at a time and place set by the department. Additional information on credit by examination may be found at the Department of History website.
Hospitality Management

Mission Statement
The mission of the Hospitality Management Program is to develop a community of learners through quality education that integrates theory, practice and personal growth in the hospitality, sport and recreation industries. The hospitality leaders of tomorrow must be educated and enlightened citizens who will lead productive and meaningful lives. The James Madison University Hospitality Management Program prides itself in developing creative hospitality leaders who make a difference.

The program mission is to develop hospitality leaders through sound theoretical course work, innovative learning activities, mentoring opportunities, exposure to premier hospitality organizations and interaction with dynamic industry professionals. Together with alumni, students, parents and friends of the program, JMU-HM will be recognized as the preferred provider for hospitality graduates.

Goals
- To expose students to a rigorous academic and experiential learning program, including a 400-hour internship prior to graduation.
- To provide an intimate educational setting of small classes, team learning experiences and meaningful personal contacts with faculty and industry professionals.
- To promote the use and development of technology, critical thinking and communication skills in hospitality leadership.
- To ensure that all HM students have a meaningful choice of job opportunities upon graduation.
- To build a set of leadership skills while providing students exceptional financial acumen.
- To maintain a faculty of knowledgeable and respected industry professionals, dedicated to continuous improvement via internships, authorship, industry contacts and participation at national and international industry conferences.

Career Opportunities
The hospitality field, also known as the mega-industry, includes many career opportunities. Recent statistics include:
- Hospitality management provides $96.3 billion in tax revenues or federal, state and local governments.
- Total hospitality employment in the U.S. includes 15.4 million jobs.
- Pleasure travel volume was 950.4 million; personal trips with business travel accounted for over 251 million trips in the United States alone.
- The World Tourism Organization forecasts a growth in international tourist arrivals of between 3% and 4% in the next year. International visitors spend $79.4 billion a year.
- The travel field is America’s largest services exporter, with international travelers spending over $110 billion in the United States.
- The US hotel and motel industry consists of about 40,000 companies that operate 48,000 properties, with combined annual revenue over $120 billion.
- The restaurant industry’s total economic effect is $1.5 trillion.
- The restaurant industry remains one of the nation’s largest private-sector employers with its 12.7 million employees, comprising 9% of the U.S. workforce.
- The restaurant industry is projected to add 1.3 million career and employment opportunities by 2020.
- Dining is the most popular domestic trip activity and is included in 31% of all domestic trips. On a typical day, 130 million Americans will visit a restaurant.
- The private club industry represented by The Club Managers Association of America had $13 billion in revenue in 2008 employing 290,749 associates.

Co-Curricular Activities and Organizations
- Professional Convention Management Association (PCMA) is a student organization that provides both educational and social programs to the hospitality management major. This group plans and coordinates an annual trip to the PCMA Annual Convention.
- The National Society of Minorities in Hospitality (NSMH) is a student organization that explores the issues, challenges and opportunities for minorities in mega-industry. It participates in both regional and national conventions in association with industry leaders.
- The James Madison University Student Chapter of Club Managers Association of America (JMU CMAA) is instrumental in exposing students to the profession of club management and its many career opportunities.
- Eta Sigma Delta (ESD) is an honor society recognizing hospitality and tourism students for outstanding academic achievement, meritorious service and demonstrated professionalism.
Degree and Major Requirements

The B.S. degree in Hospitality Management requires a minimum of 120 credit hours of undergraduate course work. All HM majors must complete the general business minor courses for hospitality management, HM core courses, HM required courses and six credit hours of HM 400 level electives.

Required Courses

Geographic Science
Dr. Mary Tacy, Program Operations Coordinator
Phone: (540) 568-6722
Website: http://www.gs.jmu.edu

Mission Statement
The mission of the faculty of the Geographic Science Program at JMU is to help students realize their abilities as geographers by focusing on the role of human beings in their relationship with the earth and with one another. Our goal is to provide students with the intellectual and technical skills to synthesize information, become critical thinkers, and develop into more informed citizens, so they can have successful and rewarding careers. Through scholarship, teaching, and service, the faculty in the Geographic Sciences Program are dedicated to bettering our community, nation, and world.

Goals
Through the study of geography students will:
- Understand and properly use the terminology and concepts that are central to the discipline of geography, and explain how these concepts evolved over time.
- Effectively use appropriate geospatial technologies to address questions about human interactions within the built or natural environments.
- Be productive participants in research efforts aimed at measuring, describing, analyzing and explaining the underlying processes giving rise to geographic phenomena.
- Work effectively in multidisciplinary teams.

- Evaluate human-environment interactions from a holistic point of view that addresses geographic, as well as political, social, economic and ethical, factors affecting those interactions.
- Demonstrate civic responsibility and appreciation for culture and physical diversity from local to global scales.

Career Opportunities
The geography major is divided into two concentration areas. Each of these offers a unique set of career opportunities.

Applied Geographic Information Science (AGIS) Concentration
JMU Geographic Science graduates with an AGIS concentration are prepared to gain professional employment with government and industry or go on to graduate programs. Public agencies where they find employment include local and regional planning agencies, mapping organizations such as the U.S. Geological Survey, intelligence agencies such as the National Geospatial Intelligence Agency, and also in the environmental science field with the U.S. Forest Service, the National Park Service, the Environmental Protection Agency and other agencies.

JMU AGIS graduates find opportunities in industry with companies such as ESRI, Digital Global, Lockheed, BAE Systems, Astrium, SAIC, Sanborn, and many others.

Environmental Conservation, Sustainability and Development Concentration
Geographic Science graduates trained in resource analysis, environmental conservation and sustainable development find jobs with local, state and federal governments, non-profit organizations, and for-profit agencies.

Bachelor of Science in Geographic Science

Degree Requirements

Required Courses | Credit Hours
--- | ---
General Education | 41-44
Quantitative requirement (in addition to General Education) | 3
Scientific Literacy requirement (in addition to General Education) | 3-4
Major requirements | 53
Electives | 18-22
| **Total** | 120

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary. GRSAT 251 for the math requirement in Cluster 3 is strongly recommended, as is GEOS 200 in Cluster 4.

2 The foreign language requirement may be satisfied by successful completion of the second semester of the intermediate level of the student's chosen language (typically 232) or by placing out of that language through the Department of Foreign Languages, Literatures and Cultures' placement test.

Co-curricular Activities and Organizations
- Geography Club
- Gamma Theta Upsilon (International Geographical Honor Society)

Degree and Major Requirements

Bachelor of Arts in Geographic Science

Degree Requirements

Required Courses | Credit Hours
--- | ---
General Education | 41
Foreign Language classes (intermediate level required) | 0-14
Philosophy course(s) (in addition to General Education courses) | 3
Major requirements | 53
Electives | 18-22
| **Total** | 120

In addition to the geography core courses, students must choose one of two concentrations, listed in the “Concentrations” section. All courses for the major must be taken on a graded basis. Students must earn a “C” or better in each of the core courses as they are prerequisites to most concentration courses.

Concentrations

Applied Geographic Information Science Concentration

In addition to the geography core requirements, students in the AGIS concentration must complete the following course work.

Required Courses | Credit Hours
--- | ---
GEOG 365. Geography and Geospatial Visualization | 3-6
GEOG 366. Introduction to Geographic Information Science | 3
GEOG 305. Principles of Remote Sensing | 3
Choose fifteen credit hours from the following electives: | 15
GEOG 406. Forest Inventory: A Geospatial Approach | 
GEOG 465. Topics in GIS (3 credits) | 
GEOG 466. GIS and Geographic Databases (3 credits) | 
GEOG 467. GIS Project Management (3 credits) | 
GEOG 468. Internet Geographic Information Systems (3 credits) | 
GEOG 469. Applications of GIS (3 credits) | 
GEOG 485. Processing Remotely Sensed Data (3 credits) | 
GEOG 486. High Resolution Imagery (3 credits) | 
Cognate course (three credit hours selected from one of the following): | 3
GEOG 300. Geography: The Global Dimension | 
GEOG 301. Population Geography | 
GEOG/HUMN 301. Introduction to Natural Disasters Response | 
GEOG 310. Environmental Issues | 
GEOG 311. Endangered Environments | 
GEOG 315. Field Studies in Geography | 
GEOG 320. Human Dimensions of Global Change | 
GEOG 321. Agricultural Systems | 
GEOG 325. Environmental Ethics | 

In addition to the geography core courses, students must choose one of two concentrations, listed in the “Concentrations” section. All courses for the major must be taken on a graded basis. Students must earn a “C” or better in each of the core courses as they are prerequisites to most concentration courses.

http://www.jmu.edu/catalog/14
Environmental Conservation, Sustainability and Development Concentration

The environmental conservation, sustainability and development (ECSD) concentration focuses on the geographical contexts within which people and places interact. Required and elective course work allows students to explore spatial and temporal patterning between human communities and the natural environment at multiple scales. The curriculum addresses global issues such as global climate change and globalization; environment and human interactions including political, economic, physical and ethical factors; human and ecological aspects of sustainable development; natural resource management including energy, forests, wildlife and biodiversity; cultural ecology; regional geography and population issues.

In addition to the geography core requirements, all students in the environmental conservation, sustainability and development concentration must complete the following course work.

**Required Courses**

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>One 300- or 400-level ECSD course</td>
<td>3</td>
</tr>
<tr>
<td>GEOG 470. Senior Seminar in ECSD or</td>
<td>3</td>
</tr>
<tr>
<td>GEOG/ISAT 429. Sustainability: An Ecological Perspective</td>
<td>18</td>
</tr>
<tr>
<td>ECSD Electives 1</td>
<td></td>
</tr>
<tr>
<td>Cognate course (three credits selected from the following)</td>
<td>3</td>
</tr>
</tbody>
</table>

**Notes:**

1. At least six credits must be at the 400-level.

Each student selects four courses from the list below. These 300-level courses are identified on their concentration form, which will be reviewed and approved by the student's academic adviser.

**ECSD Electives**

- GEOG/ISAT 429. Sustainability: An Ecological Perspective
- GEOG 200. Geography: The Global Dimension
- GEOG 300. Population Geography

- GEOG 491. International Studies
- GEOG 495. Internship in Geography
- GEOG 497. Independent Study
- ISAT 425. Environmental Hydrology

Cognate course (3 credit hours selected from the following courses):

- GEOG 325. Cartography and Geospatial Visualization
- GEOG 366. Introduction to Geographic Information Science
- GEOG 385. Principles of Remote Sensing

**Minor Requirements**

**Geographic Science Minor**

The minor in geographic science consists of the following courses for a total of not less than 19 credit hours.

**Required Courses**

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG 210. Physical Geography</td>
<td>4</td>
</tr>
<tr>
<td>GEOG 215. Geospatial Tools I – Cartography and GIS</td>
<td>3</td>
</tr>
<tr>
<td>GEOG 280. Human Geography: The Cultural Landscape</td>
<td>3</td>
</tr>
<tr>
<td>Three additional geographic science courses</td>
<td>9-12</td>
</tr>
</tbody>
</table>

**Total:** 19-22 credit hours

**Credit by Examination**

Credit by examination is offered for some courses taught in the program of geographic science. Students who want permission to take an examination must apply to the GS program operations coordinator during the first week of the semester.

http://www.jmu.edu/catalog/14
Mission Statement
The IA program will prepare students to solve problems in national, international or business intelligence settings. They will apply the principles of logic and reasoning, data mining and data synthesis with the influences of cultural and political factors to arrive at a holistic solution. This requires the student to have a firm understanding of logic, reasoning, and aspects of how the human mind operates (cognitive psychology) joined with an understanding of cultural and political factors that may influence the relevance of data and a solid understanding of different technologies that facilitate the collecting and evaluation of data.

Career Opportunities
IA students can find employment in an array of government agencies, including the military, as well as select U.S. and multinational corporations.

<tr>
<td>CIS 424. Computer Security Management</td>
<td>3</td>
</tr>
<tr>
<td>ISAT 348. Business Intelligence</td>
<td>3</td>
</tr>
</tbody>
</table>

15

Select one from the national security concentration.

Additional IA Courses, Requirements and Recommendations

IA 280. Selected Projects in Information Analysis (not a required course) | 3           |
| IA 480. Selected Topics in Information Analysis (not a required course) | 3           |
| GOSAT 251. Analytic Methods III: Introduction to Statistical Reasoning and Data Analysis or MATH 220. Elementary Statistics | 3           |

These are General Education Cluster Three courses required for the IA major. They will be recorded as General Education, not IA, credits. All IA majors will be encouraged to do a not-for-credit internship in intelligence analysis.

Location: ISAT Building, Room 121

Mission Statement
The Integrated Science and Technology Bachelors Program prepares graduates to excel in a complex, technological world by empowering them to become critical thinkers and lifelong learners able to provide multi-disciplinary solutions to scientific and technological challenges with sensitivity to social, ethical and global considerations.

The foundational concept of the ISAT Program, which distinguishes it from other science and technology based programs, is its integration of multiple disciplines within a student's four-year course of study. The unique integrative character of the program is carried by the curriculum content, pedagogy, and departmental culture.

Goals
We measure our success by achieving the following ten goals. ISAT graduates will be able to:

- Apply and integrate mathematics, physical science, biological science, and technology.
- Apply sound experimental methodology.
- Understand the professional requirements for the acquisition and use of information and data.
- Work effectively in multidisciplinary teams.
- Solve technological problems and understand their societal implications.
- Understand and apply the principles of professional ethics.
- Communicate effectively on social, scientific and technical matters.
- Analyze science and technology within broader global, political, economic and social contexts.
- Become autonomous, self-directed learners who recognize the need for lifelong learning.
- Use the computer as an effective problem-solving tool.
- Examine a problem and assemble the tools and knowledge needed to solve it.

Career Opportunities
The ISAT major prepares graduates for a wide variety of careers because of the breadth of science, technology, economic, and societal studies coupled with the integrative, problem-solving focus of the program. The program prepares students for a professional career and the majority of students enter the workforce upon graduation. However, a significant number choose to continue their education through a variety of graduate programs.

ISAT graduates have successfully built careers over a wide range of professions. Examples include technical and operational consulting, biotech lab research, network reliability and security improvement, energy and environmental policy development, information management, renewable energy development, manufacturing process development, and environmental management. Some graduates start their own businesses, some work in small start-ups involved with new technology applications while others work in Fortune 500 companies. Graduates have also chosen to start their careers in other directions including government agencies, Peace Corps and other forms of public service, education, and politics.

Students who choose graduate studies have a wide range of options. ISAT graduates have successfully completed graduate studies in areas such as engineering, business, microbiology, environment, computer science, law, and medicine. The flexibility of the ISAT program allows students to select appropriate elective courses as they prepare for the graduate program of their choice.

Co-curricular Activities and Organizations
- ISAT Honor Society
- Environmental Management, JMU Student Chapter
- The American Society of Mechanical Engineers, JMU Student Chapter
- Association for Facilities Engineering, JMU Student Chapter
- Virginia Biotechnology Association, JMU Student Chapter
- Society of Automotive Engineers International, JMU Student Chapter
- Society of Manufacturing Engineering, JMU Student Chapter
- IEEE Computer Society, JMU Student Chapter
- Armed Force Communications and Electronics Association (AFCEA), JMU Student Chapter
- American Wind Energy Association, JMU Student Chapter

Program Accreditation
The ISAT Bachelor's degree program is accredited by the Applied Science Accreditation Commission of Accreditation Board for Engineering and Technology (ABET).

Degree and Major Requirements
Bachelor of Science in Integrated Science and Technology

Degree Requirements
While completing the ISAT courses, the student will also pursue the university's general education curriculum that is required of all students and is a cornerstone of the education received by every student. The required ISAT courses are listed below. A total of 120 credit hours are required for graduation.

In addition, a grade equal to or higher than "C-" is required for ISAT 151, ISAT 152, and ISAT 251.

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

Major Requirements
The Bachelor of Science degree in integrated science and technology produces a graduate broadly acquainted with basic
science, technology and social science. All students pursue a common program through their sophomore year that provides a foundation of science and an introduction to its technology applications. Studies are integrated and include mathematics, statistics, physics, chemistry, biology, knowledge-based systems, environmental science, modern production, energy, and the role of science and technology in society. During their junior and senior years, all students pursue deeper study of strategically significant areas that include applied biotechnology, energy, environmental studies, engineering and manufacturing, information and knowledge management, and telecommunications. Each student selects a concentration in any of these areas and pursues additional study in the concentration culminating in a senior project. Students rely heavily upon the computer as a problem-solving tool throughout the curriculum, work in teams extensively and engage in laboratory experiences in the requisite sciences.

First Year Student and Sophomore Courses
Issues in Science and Technology
This sequence of four courses engages students in the practice of science, both to motivate and to provide understanding of science and technology in the context of important current social issues. Current areas from which issues are selected are living systems, the environment, modern production and energy.

Social Context of Technology and Science
This two-course sequence introduces the student to the broader issues encountered in science and technology problem-solving, particularly social, ethical, economic and legal issues.

Analytical Methods
This sequence of five courses provides students with basic methods and tools for understanding and analyzing problems in science and technology. Subjects are taught in an integrated manner with applications as the unifying factor. Topics include calculus, elements of the physical sciences, statistics, project management, the computer, knowledge-based systems, and instrumentation and measurement.

Junior and Senior Courses
Strategic Sectors in Science and Technology
Students complete 19-21 credit hours of instruction in strategic sectors during their junior year. The strategic sectors, developed from national critical technologies lists, represent areas of current strategic importance in the world economy. The sectors are applied biotechnology, energy, environment, engineering/manufacturing, information/knowledge management and telecommunications.

Concentration Requirements
Students are provided the opportunity to focus their program of study by taking four additional courses in a particular area of concentration. The current areas for a concentration are as follows:
- Applied Biotechnology
- Energy
- Engineering and Manufacturing
- Environment
- Information and Knowledge Management
- Telecommunications

Students also have the option to tailor their area of concentration with the help of their adviser and the approval of the ISAT program director.

Senior Capstone Project
This is the capstone experience of the senior year. Working as part of a team of students and interdisciplinary faculty, seniors will propose, develop, manage, analyze and report on a project that addresses a real-world problem.

Recommended Schedule for Majors

First Year
Fall Semester
- ISAT 101. ISAT First Year Student Seminar 1
- ISAT 112. Environmental Issues in Science and Technology 4
- ISAT 151. Topics in Applied Calculus in ISAT 4
- 9

Spring Semester
- ISAT 113. Biotechnology Issues in Science and Technology 4
- ISAT 131. Technology, Science and Society 3
- ISAT 152. Topics in Applied Physics in ISAT 4
- 11

Second Year
Fall Semester
- ISAT 251. Topics in Applied Statistics in ISAT 3
- ISAT 211. Modern Production Issues in Science and Technology 3
- ISAT 231. Political Economy of Technology and Science 3
- 9

Spring Semester
- ISAT 212. Energy Issues in Science and Technology 3
- ISAT 252. Programming and Problem Solving 3
- ISAT 253. Instrumentation and Measurement in ISAT 3
- 9

Third Year
Fall Semester
- ISAT Strategic Sector I 3
- ISAT Strategic Sector I Lab 1
- ISAT Strategic Sector II 3
- ISAT Strategic Sector III 3
- ISAT Strategic Sector III Lab 1
- 11

Spring Semester
- ISAT Strategic Sector I 3
- ISAT Strategic Sector II 3
- ISAT Strategic Sector II Lab 1
- ISAT Strategic Sector III 3
- ISAT 491. Senior Capstone Project I 1
- 11

Fourth Year
Fall Semester
- ISAT 492. Senior Capstone Project II 2
- ISAT Concentration I 3
- ISAT Concentration II 3
- 8
Integrated Science and Technology Major with Pre-health Preparation

Students majoring in ISAT desiring to prepare for higher education in health careers (dentistry, optometry, medicine, pharmacy, physical therapy, veterinary) may waive some required ISAT courses if they take equivalent courses required by the pre-health programs.

Required Courses for Pre-Health ISAT Courses Waived
BIO 114, BIO 214 ISAT 113
CHEM 131, CHEM 132 ISAT 152, ISAT 212
PHYS (140, 150) or (240, 250) ISAT 151
MATH 205, 235 or 231 ISAT 251
MATH 220

These equivalencies are not generally granted outside of a pre-health preparation program. Students who begin a preparation but do not finish it may be able to have some of the courses waived. Contact Paul Henriksen, Coordinator for Students, for more information.

Minor Requirements

Integrated Science and Technology Minor

The minor in ISAT mirrors the major in ISAT by having a breadth component and a depth component. The breadth component is satisfied through nine credit hours in Issues in Science and Technology and the Foundations of Instrumentation and Measurement. The depth component is satisfied through focused study in a concentration area requiring either nine or ten additional credit hours.

Students should note that many courses have ISAT prerequisites outside the minor (although equivalents to ISAT prerequisite courses will be accepted). In planning a sequence of courses for the minor, students are encouraged to meet with an ISAT adviser to ensure that all needed prerequisites will be taken in due course. In addition, before a student pursuing an ISAT minor can take any ISAT course, a grade equal to or higher than “C-” is required for all ISAT foundation courses that are prerequisites for another required ISAT foundation course.

The minimum requirements for the minor in ISAT are as follows:

<table>
<thead>
<tr>
<th>Courses</th>
<th>Credit Hours</th>

Cross Disciplinary Major and Minor Programs

ISAT faculty members participate in several cross disciplinary programs. These include a major in biotechnology and minors in the following:

- Environmental Information Systems
- Environmental Management
- Environmental Science
- Environmental Studies
- Materials Science
- Science, Technology and Society
- Telecommunications

Assistant Professors

Interdisciplinary Liberal Studies (IDLS) is the undergraduate major for students pursuing teaching licensure in inclusive early childhood education (early childhood education, preK-3 and early childhood special education, birth to five), elementary education (PreK-6), middle grades education (6-8) and special education (K-12). The IDLS major meets Virginia teacher competencies by providing breadth and integration across the content areas of English and language arts, history, social sciences, mathematics, natural sciences, and technology.

IDLS requirements vary by education program, as outlined in this section. Students declaring the IDLS major must also declare one of the teacher education programs listed. Detailed information on teacher education programs is in the College of Education section of this catalog.

In the unusual circumstance that a student exits the education licensure pre-professional program late in his/her college career, the IDLS director may permit the student to complete the IDLS degree with the addition of an appropriate minor.

<tr>
<td><strong>Total</strong></td>
<td><strong>120</strong></td>
</tr>
</tbody>
</table>

The IDLS middle education curriculum consists of 46 hours of core requirements and 36-42 hours in the content concentrations, depending upon which concentrations are selected. Students will select two concentrations from four: science, mathematics, social studies and language arts. Mathematics and science concentrations are 18 hours. Language arts and social studies concentrations are 21 hours. Any combination of concentrations will satisfy the teacher licensure endorsement requirements for Middle Grades licensure in Virginia. The Middle Grades curriculum of IDLS is open only to Middle Grades licensure students.

Core Requirements for IDLS Middle Education

Students follow the General Education check sheet for their catalog year, and complete these specific IDLS core requirements:

- **Cluster 2**: Must select G.HIST 102 from Group One
- **Cluster 3**: Must select Track 2 (the G.SCI 16X series); must complete the series with G.SCI 166; must take MATH 108 in addition to MATH 107
- **Cluster 4**: Must select GEOCON 200
- **Cluster 5**: Must select PSYC 160

Middle Education Concentration Options

Middle education students will complete the required courses for any two of the four concentration areas: science, mathematics, language arts and social studies. IDLS middle education concentrations provide depth and integration beyond core requirements. The current list of concentration courses is available on the IDLS website.

IDLS Advisement

IDLS majors are assigned two advisers, one to guide them through teacher education program requirements and another to guide them through IDLS major requirements. Students should check with both advisers regularly to ensure timely graduation. These advisers are assigned when students officially declare their education program and IDLS major. To declare, students must acquire education and IDLS academic unit head signatures on a “Change or Declaration of Major” form.

Teacher Licensure

To be eligible for teacher licensure in inclusive early childhood, elementary, middle school and special education, students graduating with the Bachelor of Science degree in IDLS must complete the appropriate teacher education program at the undergraduate and graduate (Master of Arts in Teaching) levels.
International Affairs
Dr. Yi Edward Yang, Coordinator
Phone: (540) 568-3328
Location: Miller Hall, Room 2157

Mission
The major in international affairs provides an interdisciplinary understanding of foreign cultures and societies, the dynamics of world politics and other nations’ worldviews and their consequent actions.

A liberal arts program (B.A. degree), the international affairs major combines interdisciplinary, intercultural and multilingual education. It offers students a choice between two concentrations: international relations and comparative study. The courses for these concentrations stem from a broad variety of traditional liberal studies disciplines. The major also allows students to incorporate a minor in Africana, Asian, Latin American, Middle Eastern, Modern European or Russian studies, as well as the Studies Abroad programs. Because of limited course offerings, certain specializations may require language training from another university.

Major and Degree Requirements
Bachelor of Arts in International Affairs

International affairs is a 50-credit hour major, with a 32-credit common core and 18 credits of concentration study. For further information and a complete list of the distribution requirements and eligible courses, contact the coordinator.

</tr>
<tr>
<td></td>
<td><strong>120</strong></td>
</tr>
</tbody>
</table>

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

2 The foreign language requirement may be satisfied by successful completion of the second semester of the intermediate level of the student’s chosen language (typically 223), or by placing out of that language through the Department of Foreign Languages, Literatures and Cultures’ placement test. The international affairs major requires an additional year of language study. That is, students must have three years of a foreign language appropriate to their course of study in the major. Students majoring in international affairs who use proficiency in a native language to meet the INTA language requirement must make the following substitutions for the two 300-level foreign language courses: AMST 200 and one of the following courses: HIST 225, HIST 247 or HIST 248. Students who have a diploma from a U.S. high school may take six credits of any foreign language, at any level, instead of the above two courses. These courses must focus on grammar, oral and written communication; they cannot be literature, cinema or civilization courses.

3 If students have taken a GPHIL course to meet their General Education requirements, they must take an additional course to meet the B.A. degree philosophy requirement. GPHIL 120 and GPHIL 150 cannot be used to fulfill the B.A. philosophy requirement.

<td>3</td>
</tr>
</tbody>
</table>

1 Students should complete these core economics requirements before enrolling in upper-level economics courses. Students double majoring in economics and international affairs may substitute ECON 370 for ECON 270 to meet their core requirement.

2 Students should note that MATH 220 is a prerequisite for INTA 295. If taken in the summer from an INTA faculty member, POSC 295 will count as INTA 295.

3 This course fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisites: Completion of all courses in the core requirement of the major and senior standing.

4 Students in the international relations concentration must count POSC 370 in the core. HIST 330 must be taken as an international relations requirement (listed under the international relations concentration requirements). In other words, students who are following the international relations concentration must take both POSC 370 and HIST 330.

5 Students must be proficient at the third-year level of a foreign language. In most languages this will require the completion of courses numbered 300 and 330. Some languages may not use this course numbering. In this instance, students must take two 300-level courses that focus on grammar, oral and written communication. The second 300-level course may not be a literature, cinema or civilization course. Some languages cannot be completed through the 300-level at JMU. Students studying these languages may have to complete course work during the summer or abroad at a specialized language program. Students should consult with the Department of Foreign Languages, Literatures and Cultures on this point. Each student’s foreign language must be appropriate for their track. French is acceptable for the Africa and Middle East tracks.

Concentrations

International Relations Concentration

The following international relations, cross-area and area courses are required in addition to the core courses listed under Major Requirements. Students in the international relations concentration must complete the requirements for all four headings.

http://www.jmu.edu/catalog/14
Students may use three credits of INTA 301W for cross-area, area or international relations credit. INTA 301W will always count as a political science course. The precise manner in which INTA 301W will count toward the major will be determined in consultation between students wishing to take INTA 301W and the international affairs coordinator.

1. No course taken for this requirement may be used to fulfill a requirement elsewhere in the major.

2. HIST 330 must be one of the courses taken to fulfill the international relations courses for the international relations concentration.

3. @GHUM 252 will only count here when the topic is “Gandhi, Nonviolence and Global Transformation.”

4. When course topic is appropriate for the chosen concentration. Students should consult with the INTA coordinator about the suitability of a particular course.

http://www.jmu.edu/catalog/14
Comparative Study Concentration

The following international/cross-area courses and area courses are required in addition to the core courses listed under Major Requirements. Students in the comparative study concentration must complete the requirements for all three areas. Students may use three credits of INTA 301W for international/cross-area or area credit. INTA 301W will always count as a political science course. The precise manner in which INTA 301W will count toward the major will be determined in consultation between students wishing to take INTA 301W and the international affairs coordinator.

International and Cross-Area Courses

Complete two courses: 1

(Each course must come from a different field of study. The potential fields are listed below.)

Cross-Cultural
- GANTH 195. Cultural Anthropology
- SDC/ANTH 313. Processes of Social and Cultural Change
- SSCI/ANTH 396. Race and Ethnicity
- SSCI/SOWK 349. Introduction to Developing Societies
- ANTH 340. The Invention of Race
- SCOM 248. Intercultural Communication

Economics
- ECON 312. Comparative Economic Systems
- ECON 365. Economic Development

Geography
- GEOG 280. Human Geography: The Cultural Landscape
- GEOG 300. Population Geography
- GEOG 325. Environmental Ethics
- GEOG 344. Economic Geography and Development Issues
- GEOG 345. Geography of Poverty
- GEOG 375. Political Geography
- GEOG 380. Cultural Geography

History
- HIST 330. U.S. Diplomatic History
- HIST 456. The Global Economy and Nationalism

Humanities
- GHUM 252. Gandhi, Nonviolence and Global Transformation

Political Science
- POSC 340. Political Development in the Third World
- POSC 347. Comparative Public Policy
- POSC 348. The Politics of Cultural Pluralism
- POSC 349. Comparative Political Behavior
- POSC 361. Topics in International Politics
- POSC 370. U.S. Foreign Policy
- POSC 371. Topics in Comparative Politics
- POSC/JUST 392. Peace Studies
- POSC 395. International Law
- POSC 396. International Organizations
- POSC 397. The Politics of International Economic Relations
- POSC 398. Simulations
- POSC 430. International Security and Conflict Management
- POSC 458. International Political Analysis

Area Requirements

Students may choose from five tracks to fulfill the area requirement: Africa, Asia, Europe, Latin America or the Middle East. Students must complete four courses for their specific area. These courses must come from at least three fields of study. The potential fields are listed below. At least one of these courses must be a history course. Students with advanced language skills may also enroll in a 400-level literature course to meet the culture requirement. The following lists the potential courses for each of these areas.

Africa Track

Area Courses

Complete four courses: 1

(These courses must come from at least three fields of study. The potential fields are listed below.)

Africana Studies
- AFST 200. Introduction to Africana Studies

Culture
- ANTH 280. Peoples and Cultures of Sub-Saharan Africa
- ANTH 395. Special Topics in Anthropology
- ARTH 210. African Art and Culture in the Humanities
- ARTH 310. African Art: The Sahara and Northern Sahel
- ARTH 312. African Art: Sub-Saharan
- ARTH 419. Topics in African Art
- ARTH 424. Arts of Ancient Egypt
- ENG 432. Studies in African Literature
- REL 300. Selected Topics in Religion
- REL 305. Islamic Religious Tradition
- SSCI/SOWK 349. Introduction to Developing Societies

Economics
- ECON 365. Economic Development

Geography
- GEOG 335. Geography of Africa

History
- HIST 263. Africa
- HIST 341. Selected Themes in World History
- HIST 361. Class and Ethnicity in Africa
- HIST/ANTH 436. Afro-Latin America
- HIST 470. Modern Africa
- HIST 473. The Islamic World
- HIST 489. Selected Topics in World History

Political Science
- POSC 353. African Politics
- POSC 371. Topics in Comparative Politics

Asia Track

Area Courses

Complete four courses: 1

(These courses must come from at least three fields of study. The potential fields are listed below.)

Culture
- ANTH 295. Peoples and Cultures of East Asia
- ANTH 395. Special Topics in Anthropology

Area Requirements

1 No course taken for this requirement may be used to fulfill a requirement elsewhere in the major.
2 Students double majoring in economics and international affairs may count ECON 372 (International Finance and Payments) as an international and cross-area course, in the economics box.
3 GHUM 252 will only count here when the topic is “Gandhi, Nonviolence and Global Transformation.”
4 When course topic is appropriate for the chosen concentration. Students should consult with the INTA coordinator about the suitability of a particular course.

Internships
A maximum of three credits in the major may be earned through an internship. Students must consult with the international affairs coordinator PRIOR to doing an internship to check on its applicability to the major.

Study Abroad and Washington Semester
Many of the courses available to students through JMU's Office of International Programs and the Washington Semester program can be used to fulfill requirements in the INTA major. Students planning to go abroad should keep this in mind in working out their schedules and must consult the INTA coordinator for course approvals and substitutions.

If you have questions about the Washington Semester, review the program website (http://www.jmu.edu/polisci/washington.shtml) and contact the program director, Dr. David Jones (jones3da@jmu.edu).

Location: Zane Showker Hall, Room 435
Website: http://www.jmu.edu/cob/ibus

Professors
I. Clarke, S. Elwood, S. Gallagher, R. Horn, R. Jerome, D. Riordan, M. Rosser

Associate Professors
Q. Liu, M. White

Assistant Professors
N. Cavusoglu, H. He, D. Parker

Lecturer
D. Zisk

Mission Statement
The mission of the Program of International Business is to provide nationally competitive undergraduate education in the study of international business. The program is interdisciplinary and designed to prepare students for participation in organizations that require a broad business perspective, applicable skills in global business and an understanding of the complexity of the globalized world. The program also prepares students for graduate programs in business and related fields.

Goals
- To provide a strong foundation in the international implications for the business disciplines.
- To develop students’ cultural understanding through course work and a required semester abroad.
- To enable students to gain proficiency in a second language.
- To enable students to develop extensive knowledge of a specific region of the world related to the second language.
- To develop students’ competencies in addressing specific managerial issues related to international business, such as ethical considerations, managing foreign exchange risk, managing a multicultural work force, etc.
- To facilitate students’ continuing development of written and oral communication skills.

Career Opportunities
- Consumer marketing and business-to-business marketing, including sales, consumer relations and market analysis.
- Consulting, including management analysis, strategic planning, expansion overseas and market entry strategies.
- Marketing research, including database management and account analysis.
- Corporate finance, financial analyst, project management, junior analyst-finance, planning and administration.
- Capital management, credit manager, assistant treasurer – funds flow and risk management.
- Banking and financial institutions, lending officer and marketing officer.
- Foreign commercial service officer in the U.S. Department of Commerce.
- Careers that require analytic acumen and the ability to adapt quickly to diverse and changing environments.

Co-curricular Activities and Organizations
International Business Club. This student club is open to all JMU students. It sponsors speakers, informational sessions and social events.

Epsilon Chi Omicron. This organization, founded in 1987 at JMU, is the international honor society for international business. The purpose of the organization is to encourage and recognize scholarly achievement. Membership requires an outstanding academic record while at JMU.

Madison Marketing Association. This student club is affiliated with the American Marketing Association, a national marketing association for marketing professionals, faculty and students. MMA is open to all JMU students. MMA is comprehensive with its marketing programming and offers students information and activities in direct marketing, retailing and marketing management.

Pi Sigma Epsilon. This is a professional fraternity, which focuses on programming and extracurricular experiences in marketing, personal selling and sales management.

Financial Management Association. FMA is an organization designed for those interested in pursuing a career in the financial arena.

Degree and Major Requirements
Bachelor of Business Administration in International Business
The B.B.A. degree in international business requires a minimum of 120 credit hours of undergraduate work. Fifty percent of this work, 60 credit hours, must be taken outside of the College of Business. In counting the 60 credit hours of nonbusiness courses, B.B.A. students may include all hours taken in general education (usually 41), up to a total of nine hours in economics (GECON courses must be counted as economics) and three hours of COB 191, Business and Economic Statistics. The remaining hours, to bring the total to 60, must be taken from any department outside the College of Business. Students should purposefully select these non-business electives to help them gain additional knowledge and expertise for their careers and personal lives.

http://www.jmu.edu/catalog/14
Students planning to major in international business must complete the 30 to 31 hour, lower-division B.B.A. curriculum prior to enrolling in upper-division core courses, normally taken in the first semester of the junior year. It is expected that lower-division core curriculum along with the university general education curriculum will be completed during the first two years of study. Failing to complete all lower-division core requirements on time will delay enrollment in upper-division core and major courses until at least the second semester of the junior year.

The foreign language requirements of the major begin at the advanced level. Consequently, students with little or no foreign language training must use elective credits to obtain proficiency through the intermediate level.

**Major Requirements**

Students majoring in international business must carefully plan their individual course work because not all required courses are offered each semester and because each student in the major is required to study or work abroad. The study/work abroad requirement is for a minimum of seven weeks outside of the United States, unless express permission is granted by the program director for another option. The primary language spoken in the country chosen by each student for the study/work abroad requirement is not to be English and must be the language chosen by the student to meet the IBUS language requirement. Approval of the study/work abroad requirement must be obtained from the program director (approval forms are available online or outside Zane Showker Hall, room 436). International students should see the program director to determine appropriate requirements for this aspect of the curriculum.

International business majors must select a world region on which to concentrate that coincides with their selected language. For example, an international business major who selects French as his/her second language could choose Europe, Africa or Asia as a world region. Also, a student who selects Spanish as the second language could select either Europe or the Americas. The acceptable world regions are Africa/Middle East, Americas, Asia and Europe.

As part of the JMU assessment program, graduating seniors are required to participate in assessment activities. Assessment information is used to assist the COB faculty in modifying curricula and co-curricular events.

All international business majors will take the following required international business core courses:

**Required Courses**

- BLAW 497. Legal Aspects of International Business
- IBUS 480. International Business Theory and Policy
- MGT 340. International Management
- Foreign language 300. Grammar and Communication
- Foreign language 307-308. Civilization
- Foreign language 330. Business
- Foreign language 375. Business and Society 1

3 Students choosing Spanish to meet the IBUS language requirement should take either SPAN 485 or SPAN 486 to fulfill this requirement.

The remaining courses will depend upon which of the following three concentrations the student selects:

- General International Business
- Marketing
- Finance

The requirements for each of the three concentrations are outlined below.

**Recommended Schedule for Majors**

**First Year**

<table>

Department of Justice Studies
Dr. Glenn P. Hastedt, Director
Phone: (540) 568-7124  
Location: Moody Hall, Room 213  
Email: hastedjp@jmu.edu  
Website: http://www.jmu.edu/justicestudies

Mission Statement
Justice studies is committed to offering an interdisciplinary, intellectually challenging and vocationally relevant course of study for persons interested in academic or applied careers in justice studies at the community, national or global level.

Goals
To carry out this mission, justice studies seeks to:
- Help students develop a comprehensive understanding of justice studies.
- Examine and explain justice and injustice and their impact on individuals, communities, institutions and/or nations.
- Understand human behavior and interactive systems with a focus on negotiation and conflict resolution in justice contexts.
- Sharpen students’ ability to think and reason critically, to practice sound methodological skills and to communicate effectively.
- Prepare students to utilize and produce scholarship in the field of justice studies.

Career Opportunities
- Peace Corps
- Non-government organizations
- Law enforcement
- Corrections
- Law
- Nonprofit groups (national and international)
- Human services
- Domestic and international security
- Intelligence analysis
- Diplomatic Corps
- Research and graduate study
The justice studies major includes opportunities for field work and career-related internships as part of the curriculum.

Transfer Credit
A maximum of three courses may be transferred into the justice studies major from other institutions. No transfer credit will be given for any course offered in the major at the 300 or 400 level.

Choose one of the following (which is not required for your track):
- JUST 210, Introduction to Crime and Criminal Justice
- JUST 212, Theories of Crime and Criminal Justice
- JUST 221, Social Justice Theories
- JUST 223, Social Justice Interventions and Policies
- JUST 235, Justice in the Global Community

Students must select one of the following tracks:
- Track A, Crime and Criminology
- Track B, Global Justice and Policy
- Track C, Social Justice

Transfer Credit
A maximum of three courses may be transferred into the justice studies major from other institutions. No transfer credit will be given for any course offered in the major at the 300 or 400 level.

http://www.jmu.edu/catalog/14
**Track A. Crime and Criminology**

This track focuses on the nature, causes and solutions for crime, primarily but not exclusively in the United States.

All students in Track A must take JUST 210, Crime and Criminal Justice, and JUST 212, Theories of Crime and Criminal Justice.

Students select six additional courses from the following. At least four of the six electives must have a JUST identifier.

<table>
<thead>
<tr>

</tbody>
</table>

1 These courses may be taken for elective credit in Track A when the topic is appropriate. Students should seek approval from their advisors or the academic unit head.

**Track B. Global Justice and Policy**

This track explores issues of justice in a global context. Most prominent among them are questions of security, equity and equality. Courses in this track address the individual, group and state dimensions of these and related issues in a diverse set of policy areas including democratization, cultural identity, developmental, environmental protection, conflict resolution and human rights.

All students in Track B must take POSC 230, International Relations and JUST 235, Justice in the Global Community.

Students select six additional courses from the following. At least four of the six elective courses must have a JUST identifier.

</table>

1 Only one course from this option may be counted towards the major.

2 These courses may be taken for elective credit in Track B when the topic is appropriate. Students should seek approval from their advisor or the department head.

**Track C. Social Justice**

This track is designed to investigate what is fair, equitable and just for society. Emphasizing the oppression and liberation of vulnerable, exploited and marginalized populations, this curriculum promotes sustainable and just solutions to social, political and economic problems.

Students in Track C must take JUST 221, Social Justice Theories, and JUST 223, Social Justice Interventions and Policies.

Students select six additional courses from the following. At least four of the six electives must have a JUST identifier.

http://www.jmu.edu/catalog/14
Courses

Choose from the following:

ANTH 340. The Invention of Race
HIST/SOCI 338. U.S. Urban Social History
JUST 301. Special Topics in Justice Studies
JUST 315. Mental Illness and Criminal Justice
JUST 322. Understanding Violence
JUST 324. Death Penalty
JUST 334. Media and Justice
JUST 341. Gender and Justice
JUST 343. Interpersonal Dynamics and Justice
JUST 344. Marginalized Populations
JUST 357. Environmental Justice
JUST 375. Genocide in the 20th Century
JUST/POSC 392. Peace Studies
JUST 401. Internship in Justice Studies
JUST 402. Advanced Research in Justice Studies
JUST 403. Nelson Institute Seminar
JUST 404. Community Based Research
POSC 326. Civil Rights
POSC 348. Politics of Cultural Pluralism
POSC 383. Women and Politics
PSYC 310. Psychology of Women and Gender
PSYC 320. Diversity Issues in Psychology
REL/SOCI 322. Sociology of Religion
REL 450. Religion and Society
SDCI 336. Race and Ethnicity
SDCI 354. Social and Cultural Stratification
SDCI 367. Sociology of Sexuality

Note: Other courses may be substituted with adviser’s and department chair’s consent.

Criminal Justice Minor

Minor Adviser: Peggy Plass
Phone: (540) 568-7151
Location: Moody 118

The cross disciplinary minor in criminal justice is designed for students who are preparing for careers in law enforcement, corrections, judicial administration or other areas related to the study or management of crime, either directly upon graduation or after further graduate training.
Mission Statement
The Department of Kinesiology is dedicated to the development of future leaders in professions that maximize the potential of individuals and society through physical activity. Programs include exercise science and teacher education in physical education and health.

The department is committed to providing:
- Outstanding undergraduate programs based on the criteria of relevant professional associations, which will enable graduates to be successful in their professional endeavors.
- Programs that build upon the strong liberal studies background provided through General Education.
- Opportunities that challenge students to think critically.
- Use of technological advances.
- An appreciation of the global community.
- Quality graduate programs that complement the undergraduate programs and provide qualified students with an opportunity for advanced study in the kinesiology discipline.
- Contributions to the university’s general education curriculum through programs designed to promote lifelong fitness and wellness.
- Service to JMU, the professions and local community through our unique knowledge and expertise.
- Research and development projects that push back the boundaries of knowledge and promote effective practice in the kinesiology discipline.

Career Opportunities and Marketable Skills
- Athletic coach
- Exercise specialist
- Fitness facility manager
- Physical and health education teacher education
- Pre-professional health programs (pre-physical therapy, pre-medicine, pre-physician's assistant, pre-occupational therapy)

Degree and Major Requirements
Bachelor of Science in Kinesiology
Listed below is the undergraduate major program in kinesiology offered by the Department of Kinesiology. Students are advised to be certain they complete all General Education requirements before applying for graduation.

Degree Requirements
<table>
<thead>

</tr>
</tbody>
</table>

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

Concentrations
Exercise Science Concentration
This concentration is endorsed by the American College of Sports Medicine. The concentration prepares students to pursue graduate education in exercise science, pre-professional or an allied health field. Graduates acquire the knowledge, skills and abilities needed to enroll in the Health Fitness Instructor certification program sponsored by the American College of Sports Medicine.

Students interested in physical therapy, medicine or other pre-professional health programs should review the pre-professional health programs section for prerequisite courses and recommendations for entrance to graduate professional health programs. Pre-professional health program coordinators are available to assist students with career planning and preparation.

Admission Policy
Any student can declare the exercise science concentration; however, students must apply to be fully admitted to the major for a limited number of spaces. Declaring the exercise science concentration does not guarantee full admission to the major.

To apply for admission to the exercise science concentration, students must complete the following prerequisite courses:
- BIO 270. Human Physiology
- BIO 290. Human Anatomy
- CHEM 131. and CHEM 131L. General Chemistry and Lab

http://www.jmu.edu/catalog/14
### Concentration Requirements

The following courses are required of all students who choose the exercise science concentration.

### Physical and Health Education Teacher Education Concentration

The Physical and Health Education Teacher Education (PHETE) concentration is committed to educating future leaders in the profession of teaching physical and health education. The program encourages the teacher candidate to advocate for effective educational changes, work collaboratively and collectively for social change, and to continue to grow professionally.

The PHETE concentration is a five-year Master of Arts in Teaching (M.A.T.) program. Upon successful completion of the first four years, students earn a Bachelor of Science (B.S.) degree in kinesiology. The fifth year M.A.T. degree provides the requisite courses to obtain a Virginia teaching license in Health and Physical Education (PreK-12). It is necessary to be admitted to the teacher education program prior to enrolling in professional education courses. Specific requirements are available from the PHETE coordinator. Evidence of current CPR/first aid certification must be presented before graduation.

Students must meet all admission requirements for entry into the teacher education pre-professional program by the beginning of the fall semester of their junior year. Admission requirements are listed on the Teacher Education website.

Students must be admitted to the teacher education pre-professional program before they can enroll in professional education courses. For more information contact the Physical and Health Education Teacher Education coordinator, Dr. Jackie Williams, Godwin Hall, Room 317, 540-568-6957, williaja@jmu.edu.

Minor Requirements

Coaching Education Minor

This minor prepares students for the coaching profession on the high school and younger level by complying with the requirements of the National Council for Accreditation of Coaching Education at Level 3, intermediate coach. Evidence of CPR/first aid certification must be presented prior to beginning the coaching practicum. To enroll in the practicum, all of the minor courses except KIN 450 must be successfully completed (minimum of a "C") and the student's overall GPA must be 2.0. To successfully complete the minor, students must:
- Complete the American Sport Education Program (ASEP) Coaching Principles course and earn ASEP certification (part of KIN 450).
- Earn a minimum grade of a "C" in each of the six courses and a "satisfactory" on the practicum (KIN 473).

Educational Media Minor
Coordinator: Dr. Rich Ingram
Phone: (540) 568-8965
The educational media minor prepares students for employment in education, business, communications, non-profit and consulting fields where the effective design of information, instruction and media are important. Students who minor in educational media will develop psychological and technological skills intended to enhance the major program of study and prepare for the workplace. Students who successfully complete the minor will possess skills appropriate for teaching, training, designing instruction and developing related multimedia. Underlying theories and concepts integrated into the course work include but are not limited to the diffusion of information, learning theory, message design, group dynamics and materials evaluation.

The educational media minor requires a minimum of 18 credit hours selected in consultation with an adviser for this program.

Required Courses Credit Hours
PSYC 160. Life Span Human Development 3
LTLE 150. Information in Contemporary Society 3
LTLE 370. Instructional Technology 3
LTLE 372. Visual Literacy 3
LTLE 374. Photography for Learning 3
LTLE 376. Video for Learning 3
LTLE 378. Web Design for Learning 3
LTLE 385. Foundations of Instructional Design 3

Human Resource Development Minor
Coordinator: Prof. Randy Snow
Phone: (540) 568-8842
The human resource development minor prepares students to develop and implement professional development and performance improvement programs and materials. The minor is designed to provide students from a wide variety of content disciplines additional experiences and skill bases to seek employment in public and private sectors in the fields of training and development and performance improvement.

Students who minor in human resource development must complete 18 hours of course work, including LTLE 370.

Lecturers

Mission Statement
We use diverse methods in exploring and explaining the tools and techniques to understand, facilitate and build relationships between individuals, organizations and their environment. Management is often described as getting work done through others. Therefore, it is the most broadly applicable of all the disciplines in the College of Business. No matter what you go on to do – working in industry, starting a business, volunteering or serving in the public sector – you will interact with people. A crucial component of management is the ability to think critically and strategically in order to solve problems and make decisions that move organizations, departments and teams in directions that benefit long-term performance. In our classes you will learn about organizations, identifying, developing and leading people and, most importantly, begin to think in a matter that enables you to uniquely understand others.

As a department we serve our own majors, all students in the College of Business and the business minor, as well as non-business students in specialized courses.

Goals
The overall goals of the management program are:

- To prepare the graduates of our major for a wide variety of management careers and leadership roles.
- To provide instruction relating to the study and practice of management to all undergraduate and graduate students in the College of Business and a wide range of majors throughout JMU.

Objectives
After studying management, students will possess an advanced understanding of:

The Functions of Management: Management majors should understand the leadership and interpersonal skills essential to getting work done through others so that they can attain organizational objectives in culturally diverse and global business environments.

The Legal and Ethical Environment of Management: Management majors should comprehend the ethical and legal limits on a manager’s behavior in accomplishing management functions.

Effective Decision Making and Problem Solving Solutions: Management majors should develop critical thinking skills demonstrated by their ability to integrate information from diverse sources, use logic and reasoning to develop solutions, and discern the most appropriate course of action in decisions and problems.

Organizational Strategy and Design: Management majors should be able to explain the external and internal variables that influence the formulation, implementation and evaluation of organizational strategy and organization design.

Career Opportunities
- Project Manager
- Human Resources Generalist or Specialist
- Management Consultant/Analyst
- Operations or Logistics Manager
- Labor Relations Specialist
- Small Business Owner/Manager
- Customer Relations Manager
- Sales Manager

Co-curricular Activities and Organizations
Net Impact, one of 250 chapters worldwide, seeks to inspire, educate and equip students, faculty and organizational professionals in activities that use the power of business to create a more socially and environmentally sustainable world.

Society for Human Resource Management (SHRM) provides students with extracurricular opportunities to learn more about the field of human resource management through speakers, facility tours, networking events with the local business community and other activities.

ENACTUS (formerly SIFE) is a multidisciplinary organization providing a forum for undergraduates to initiate and implement entrepreneurial community service projects. (http://www.jmu.edu/cob/centers/center-for-entrepreneurship/organizations/sife.shtml)

http://www.jmu.edu/catalog/14
Degree and Major Requirements
Bachelor of Business Administration in Management

The B.B.A. degree in management requires a minimum of 120 credit hours of undergraduate work. Fifty percent of this work, 60 credit hours, must be taken outside of the College of Business. In counting the 60 credit hours of non-business courses, B.B.A. students may include all hours taken in general education (usually 41), up to a total of nine hours in economics (ECON courses must be counted as economics) and three hours of COB 191, Business Statistics.

The remaining hours, to bring the total to 60, must be taken from any department outside the College of Business. Students should carefully select these non-business electives to help them gain additional knowledge and expertise for their careers and personal lives. The credit hour requirements for each of the program components are as follows:

Degree Requirements

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Education requirements</td>
<td>41</td>
</tr>
<tr>
<td>B.B.A. lower-level core courses</td>
<td>30</td>
</tr>
<tr>
<td>B.B.A. upper-level core courses</td>
<td>15</td>
</tr>
<tr>
<td>Management major requirements</td>
<td>24</td>
</tr>
<tr>
<td>Non-business electives</td>
<td>8-11</td>
</tr>
</tbody>
</table>

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

Major Requirements
First Two Years

Students planning to major in management must complete the 30-31 hour, lower-division B.B.A. core curriculum prior to enrolling in upper-division core courses normally taken in the first semester of their junior year. It is expected that the lower-division core curriculum will be completed during the first two years of study along with, all or most, of the university general education curriculum. Failing to complete all the lower-division core requirements on time will delay enrollment in upper-division core and major courses until at least the second semester of their junior year. Students enrolling in any 400-level course with a MGT prefix must have senior standing (90 credit hours). Because of the demands of group, team and outside of classroom applied assignments, students will not be allowed to enroll in more than four courses with a MGT prefix in any given semester.

All management majors will take the three required management core courses and one applied course.

Required Courses

<table>
<thead>

</tr>
<tr>
<td>MGT 390. Organizational Behavior</td>
<td>3</td>
</tr>
<tr>
<td>Plus one applied course to be fulfilled by one of the following:</td>
<td>3</td>
</tr>
<tr>
<td>MGT 425. Project Management</td>
<td></td>
</tr>
<tr>
<td>MGT 467. Management Consulting</td>
<td></td>
</tr>
<tr>
<td>MGT 494 or MGT 495. Internship</td>
<td></td>
</tr>
</tbody>
</table>

The remaining five management courses, one of which is the applied course, will be determined by whether a student chooses a concentration. Students who do not pursue a concentration may choose any five management courses, one of which must be an applied course, to fulfill their degree requirements. Students in management may choose to concentrate in human resource management or technology, innovation and entrepreneurship (TIE). The requirements for the two concentrations are delineated in the following sections.

Concentrations

Human Resource Management Concentration

The concentration in human resource management is designed for the management major who desires to concentrate in the effective management of human capital. This concentration focuses on the development of knowledge and problem-solving skills within the component areas of human resource management. The human resource management concentration consists of the eight courses shown below.

<table>

</tr>
</tbody>
</table>

Technology, Innovation and Entrepreneurship (TIE) Concentration

The concentration in technology, innovation and entrepreneurship is intended to prepare students for entrepreneurially-oriented careers. The educational approach will be broad-based and designed for students who seek to start their own business or have a career in a small business, as well as those who aspire to be innovative in corporate settings or manage technology workers.

The concentration will provide the theoretical framework and practical skills required for entrepreneurial success in organizations of all sizes. The technology, innovation and entrepreneurship concentration consists of the eight courses shown below. Note that TIE students must complete an applied class, either MGT 425, MGT 467 or MGT 495.

Department of Marketing

Dr. Andy Wood, Department Head

Phone: (540) 568-3858
Location: Zane Showker Hall, Room 535

Website: http://www.jmu.edu/cob/marketing

Professors
I. Clarke, T. Clarke, V. Larsen

Associate Professors
D. Boyd, W. Faranda, M. Tokman

Assistant Professors
R. Cereola, J. Guthrie

Lecturers
S. Hertzenberg, R. McMillen, L. Miller, C. Snyder

Mission Statement
The Marketing Department prepares students by developing specialized skills in the management of customer relationships through the creation, communication and delivery of value to customers. Students majoring in marketing are introduced to the marketing management process, which is a systematic review of the principal activities required to understand:

- The context in which products and services must be marketed.
- Customer needs.
- Strategic options.
- Marketing program development.
- Evaluation of marketing effectiveness.

The marketing curriculum focuses on traditional and online marketing skills needed in various business settings and industries. The curriculum seeks to develop competence in five areas: factual and conceptual knowledge, problem solving skills, communication skills, experiential learning, and use of information technology.

Students will be prepared to enter corporate, small business or not-for-profit environments with highly valued skills and an understanding of the need for continuous learning.

Goals
- To deliver a solid foundation of the concepts and theories of the marketing discipline, including market environmental issues; strategic marketing planning, implementation and evaluation; marketing research; buyer behavior and market segmentation; and development of marketing programs.
- To engage students in critical thinking processes, requiring in-depth analysis of qualitative and quantitative market data and development of subsequent marketing strategies based on this analysis.
- To enable students to evaluate marketing alternatives and commit to a course of action, using financial, organizational, environmental and ethical criteria as bases for decision making.
- To teach students a variety of information technology tools and techniques to improve marketing and overall business performance and deliver greater value to customers.
- To facilitate students’ continuing development of listening, writing and oral communication skills.
- To develop students’ marketing-based interpersonal skills, such as group-based negotiation, consensus building, delegation and performance evaluation.
- To integrate classroom study with exposure to industry practices throughout the marketing curriculum and ensure marketing students access to experiential learning opportunities in marketing career tracks.

Career Opportunities
- Consumer marketing and business-to-business marketing: sales, direct marketing, market analysis, product development, Web-based marketing and customer relationship management.
- Communications: advertising account management, communications management, technical writing, media planning and coordination and public relations.
- Consulting: marketing consultation, data analysis and data sales.
- Marketing research: database management, market research analyst and project management.
- Product/Brand management: business-to-business sales, product specialist, channel development and promotional marketing.
- Retailing: store management, merchandise buying, trend analysis, Internet sales and visual merchandising.
- Not-for-profit marketing: fund-raising, public relations and customer service.
- Sports/events marketing: merchandising, contract administration, event marketing, trade show management and e-commerce marketing.

Co-curricular Activities and Organizations
- Madison Marketing Association. This student club is affiliated with the American Marketing Association, a national marketing association for marketing professionals, faculty and students. MMA is open to all JMU students. MMA is comprehensive with its marketing programming and offers students information and activities in direct marketing, retailing and marketing management.
- Pi Sigma Epsilon. PSE is a professional fraternity, which focuses on programming and extracurricular experiences in marketing, personal selling, and sales management.
- Mu Kappa Tau. This is an honorary marketing fraternity for students with high scholastic records. Admission is by invitation only. The club invites speakers and engages in joint programming with other JMU student organizations.

http://www.jmu.edu/catalog/14
Degree and Major Requirements
Bachelor of Business Administration in Marketing

Marketing majors conform to the general structure of the B.B.A. degree program. The B.B.A. degree in marketing requires a minimum of 120 credit hours of undergraduate course work.

Degree Requirements

Required Courses Credit Hours
General Education requirements 1 41
B.B.A. lower-level core courses 30
B.B.A. upper-level core courses 15
Marketing major requirements 27
Non-business electives 7 120

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 When B.B.A. lower-level core courses are used to meet General Education requirements (e.g., GEC112 and MATH 205), the number of non-business elective hours a student must take to get 120 hours increases from 7 to 13.

Fifty percent of course work, or 60 credit hours, must be taken outside of the College of Business. In counting the 60 credit hours of non-business courses, B.B.A. students may include all hours taken in general education (usually 41), up to a total of nine hours in economics and three hours of COB 191 or MATH 220. The remaining hours to bring the total to 60 must be taken from any academic unit outside the College of Business. Students should carefully select these non-business electives to help them gain additional knowledge and expertise for their careers and personal lives.

Major Requirements

Students planning to major in marketing must complete the 30 hour lower-division B.B.A. core requirements (see the College of Business section for the list of courses) prior to enrolling in upper-division B.B.A. core and marketing courses. Upper-division courses normally begin in the first semester of the junior year. The lower-division core curriculum should be completed during the first two years of study along with all, or most, of the university general education curriculum. Failing to complete all lower-division core requirements on time will delay enrollment in upper-division core and major courses. Two upper-division B.B.A. core courses are required: COB 300 (parts A, B, C and D) and COB 487.

Marketing Curriculum

The marketing curriculum consists of 27 credit hours in marketing. The required courses equip students with knowledge and skills all marketers should have. Elective courses allow students to pursue areas of special interest and prepare for specific career tracks in marketing.

Students will complete a concentration in one of the following:
- General Marketing
- Marketing Information Systems
- Sales and Business Marketing

Concentrations

Marketing has many aspects and marketers engage in a wide variety of activities. Marketing concentrations enable students to prepare for specific career paths within marketing.

General Marketing Concentration

This concentration maximizes students' opportunities to customize a degree that will prepare them for a preferred career path.

Sales and Business Marketing Concentration

This concentration prepares students for careers in sales that focus on business customers and, in most cases, on the selling of relatively large ticket items.

Courses in this concentration build on the content of MKTG 430. Students should complete this course as soon as possible after completing COB 300.

Marketing Information Systems Concentration

Information technologies play an integral role in most marketing campaigns. This concentration prepares students to facilitate the use of these technologies by marketing teams. This concentration also prepares students for careers in technology sales or consulting.

While students who take this concentration are released from taking one marketing elective and may count COB 204 toward completion of the CIS minor, they should be aware that this concentration requires the completion of 15 credit hours beyond what is normally required to receive the marketing degree. Declaration of this concentration does not guarantee admission to the CIS minor.

No specific electives are required, but MKTG 465 and MKTG 470 may be particularly good matches for this concentration.

Required Courses Credit Hours
Computer Information Systems minor 18
Core Courses 15
Choose three marketing electives from the following list of courses 9
MKTG 386. Services Marketing
MKTG 388. Retail Marketing
MKTG 405. Survey Research
MKTG 450. Business Marketing
MKTG 460. Global Marketing
MKTG 465. CRM Technology for Sales Professionals
MKTG 466. Advanced Selling
MKTG 470. Strategic Internet Marketing
MKTG 477. Internet Marketing Practicum
MKTG 480. Product Development and Management
MKTG 490. Special Studies in Marketing
MKTG 499C. Honors 33

Recommended Schedule for Majors
Marketing majors should follow the course schedule below to complete the final two years of their program. It is possible to deviate from this program but care must be taken to ensure that all course prerequisites are met.

Third Year
First Semester Credit Hours
COB 300A. Integrated Functional Systems: Management 3
COB 300B. Integrated Functional Systems: Finance 3
COB 300C. Integrated Functional Systems: Operations 3
MKTG 385. Consumer Behavior 3
or MKTG 384. Integrated Marketing Communications 15
Second Semester Credit Hours
MKTG 384. Integrated Marketing Communications 3
or MKTG 385. Consumer Behavior
MKTG 430. Professional Selling 3
Marketing elective 3
General education or non-business electives 6 15

Fourth Year
First Semester Credit Hours
MKTG 482. Marketing Analytics 3
Marketing electives 6
General Education or non-business electives 6 15
Second Semester Credit Hours
COB 487. Business Policy 3
MKTG 485. Marketing Management 3
Marketing elective 3
General Education or non-business electives 6 15

Transfer Credit Policy
The marketing program will accept no more than two courses for transfer credit toward the major. In addition to this general College of Business policy, there are restrictions on which courses will be accepted for transfer credit.

Students must take the following courses at JMU:
• MKTG 482. Marketing Analytics
• MKTG 485. Marketing Management
Department of Mathematics and Statistics

Dr. David C. Carothers, Department Head
Phone: (540) 568-6184
Location: Roop Hall, Room 305
Website: http://www.math.jmu.edu

Professors
D. Carothers, R. Domangue, S. Garren, H. Hamdan, J. Hanson, P. Kohn, R. Lee, J. Liu, L. Lovin, S. Lucas,

Associate Professors
E. Arnold, E. Brown, R. Field, N. Jahan, B. Jones, K. Nashimoto, S. Prins, R. Thelwell, D. Walton, L. Xu

Assistant Professors
A. Stevens, E. Strawbridge, J. Webb, C. Williams, C. Woodruff

Instructors
A. Casiple, C. Cunningham, D. Hall, G. Jansen, J. Kimmel, J. Philipp, C. Watson

Mission Statement
The Department of Mathematics and Statistics provides a program of study in the mathematical sciences that meets the needs of a wide variety of students and makes a continuing contribution to the advancement of mathematical and statistical knowledge and its dissemination. The program provides opportunities for in-depth study that can lead to careers as mathematicians and statisticians in private and public sectors, teachers of mathematics, and further study in graduate school. The program provides support for the mathematical and statistical needs of students in the natural sciences, integrated sciences, social sciences, and professional and pre-professional programs. The program meets the general education needs of all students, providing an understanding of mathematical and statistical thinking and approaches to problem solving.

We are committed to promoting mathematics and statistics as an art of human endeavor as well as a fundamental method of inquiry into the sciences and a vast array of other disciplines. We are committed to encouraging an attitude of appreciation and support for mathematics and statistics in current university students and, through them, the next generation of citizens. We are also committed to fostering an appreciation for the effective use of applied mathematics and statistics in connection with and support of other disciplines for those students majoring in other subjects.

Goals
As a major in mathematics or statistics, a student can expect to use and build on skills such as:
- Thinking critically
- Formulating and solving problems
- Communicating solutions clearly, both orally and in writing
These skills have been gained in previous courses in mathematics, statistics and other areas. As the breadth of knowledge of the subject grows, students gain an increased understanding and appreciation of the fact that mathematics is truly a universal language whose creation and applications cut across all boundaries of race, class, culture and time.

There also will be opportunities for students to experience the challenges and rewards of faculty-mentored research, individually or as a member of a team, as they investigate mathematical and statistical problems that extend beyond those normally encountered in the classroom. Students increase their abilities to prove theorems, understand complex structures and apply mathematics and statistics in many real-world settings. The program students choose will make it possible for them to acquire strong preparation for graduate work or for professional applications in mathematics and statistics, teaching, natural and social sciences or other technical areas.

Programs
The Department of Mathematics and Statistics offers the B.A. and B.S. degrees with a major in mathematics and the B.S. degree with a major in statistics. There is a program for a major in mathematics that qualifies a student for initial teaching licensure. A concentration in computational sciences is also available. Minors are offered in mathematics and statistics.

The department also recognizes the importance of providing courses for non-specialists who need to make effective use of mathematics or statistics in their chosen careers.

The university is an institutional/educational member of the American Mathematical Society, the American Statistical Association, the Mathematical Association of America, and the Society for Industrial and Applied Mathematics.

Students are strongly encouraged to participate in the numerous undergraduate research opportunities as well as individual and small group projects available in the department. Opportunities exist through the Center for Mathematical Modeling, the Office of Statistical Services, honors theses and independent studies with individual faculty mentors.

http://www.jmu.edu/catalog/14
Majors in the department are expected to participate in assessment activities. Assessment information is used to assist faculty members in modifying curricula.

<td>3</td>
</tr>
</tbody>
</table>

**Additional Requirements for Students Seeking Secondary Teaching Licensure**

Students seeking secondary teaching licensure must (in addition to the required core courses):

- Complete the 22-24 credit hours which comprise the pre-professional (undergraduate) education program in secondary education.
- Complete 12 credit hours of mathematics courses as follows:
  - One of MATH 310 or MATH 315
  - MATH 415
  - MATH 470
  - MATH 475

Students seeking secondary teaching licensure earn the Bachelor of Arts or Bachelor of Sciences degree and then complete the Master of Arts in Teaching degree.

It is necessary to be admitted to the teacher education program prior to enrolling in pre-professional education courses. For a full description of the program in secondary education, refer to the College of Education, Department of Middle, Secondary and Mathematics Education.

**Additional Requirements for Students Not Seeking Secondary Teaching Licensure**

Students not seeking secondary teaching licensure track must complete (in addition to the required core courses) one of the following options, each consisting of 12 credit hours of mathematics courses:

- One of MATH 411, MATH 431, MATH 434 or MATH 435, and nine hours of mathematics electives numbered 310 or above.
- One of the pairs of courses MATH 426 and 427, MATH 440 and MATH 441, or MATH 448 and MATH 449, and six hours of mathematics electives numbered 310 or above.

The option chosen and the courses chosen to satisfy an option by a student are made in consultation with the student’s adviser and are dependent upon the student’s interests and career objectives. Students interested in pursuing graduate studies in mathematics are strongly urged to complete both MATH 411 and MATH 431.

Bachelor of Science in Statistics

The Department of Mathematics and Statistics offers a major in statistics to meet the needs of both the public and the private sectors for graduates with degrees in statistics. The required courses provide a balance of applications and theory, which allows students to prepare for immediate employment or graduate studies by proper selection of the program electives.

Degree Requirements

1 MATH 235 or MATH 231 must be included.
Electives
MATH 324. Applied Nonparametric Statistics
MATH 325. Survey Sampling Methods
MATH 326. Statistical Quality Control
MATH 328. Time Series Analysis
MATH 354/BIO 454. Introduction to Biometrics
MATH 410. Advanced Calculus
MATH 423. Stochastic Processes
MATH 424. Statistical Decision Theory
MATH 427. Probability and Mathematical Statistics II
MATH 429. Research Project in Statistics

45-47

1 Waived for those who have "C-" or better in MATH 318. No additional course will be required to substitute for MATH 220 if the requirement is waived.

Recommended Schedule for Statistics

First Year
Skills for the 21st Century (Cluster One) 9
MATH 220. Elementary Statistics 3
MATH 236. Calculus II 4
MATH 280. SAS Programming and Data Management 3
General Education courses 11

Second Year
MATH 237. Calculus III 4
MATH 318. Introduction to Probability and Statistics 4
MATH 321. Analysis of Variance and Experimental Design 3
MATH 322. Applied Linear Regression 3
General Education courses/electives 16

Third Year
MATH 300. Linear Algebra 3
MATH 327. Categorical Data Analysis 3
General Education courses/electives 24

Fourth Year
MATH 421. Applied Multivariate Statistical Analysis 3
MATH 426. Probability and Mathematical Statistics I 3
Electives 24

1 MATH 248. Computers and Numerical Algorithms may be substituted.
2 MATH 238. Linear Algebra with Differential Equations may be substituted.

Statistics Minor
The minor in statistics is open to any student not majoring in mathematics or statistics. A minor in statistics requires a minimum of 18 credit hours. Students seeking the minor in statistics must complete one of the following options.

Option 1
Students completing Option 1 must obtain prior approval of the courses to be counted in the minor from the statistics minor adviser, Dr. Nusrat Jahan.

Required Courses

Choose one of the following: 3-4
MATH 220. Elementary Statistics
MATH 318. Introduction to Probability and Statistics or equivalent
Choose four of the following: 12
MATH 280. SAS Programming and Data Management
MATH 321. Analysis of Variance and Experimental Design
MATH 324. Applied Nonparametric Statistics
MATH 325. Survey Sampling Methods
MATH 326. Statistical Quality Control
MATH 327. Categorical Data Analysis
MATH 328. Time Series Analysis
MATH 354/BIO 454. Introduction to Biometrics
MATH 421. Applied Multivariate Statistical Analysis
MATH 423. Stochastic Processes
MATH 424. Statistical Decision Theory
MATH 426. Probability and Mathematical Statistics I
MATH 427. Probability and Mathematical Statistics II

Option 2
Students completing Option 2 must obtain prior approval of the courses to be counted in the minor from the statistics minor adviser, Dr. Samantha Prins.

Required Courses

Choose two of the following: 6
MATH 321. Analysis of Variance and Experimental Design
MATH 326. Statistical Quality Control
MATH 423. Stochastic Processes
MATH 426. Probability and Mathematical Statistics I

21

Minor Requirements

Mathematics Minor
The mathematics minor is open to students not majoring in mathematics or statistics. Each student must obtain prior approval of all courses to be counted in the minor from the mathematics adviser, Dr. Peter D. Koh, or from the department head.

A minor in mathematics requires a minimum of 18 credit hours. At least six hours must be earned within the JMU Department of Mathematics and Statistics.

Core Courses
MATH 235-236. Calculus I-II 8
or MATH 232 and MATH 236
Mathematics courses numbered 237 or above, excluding mathematics courses numbered 301-309 10

Credit by Examination
The Department of Mathematics offers credit by examination for some of the courses taught in the department. Students who want to take an examination must apply to the department head. Upon application students will receive details regarding approval to take the examination.

Professors

Associate Professors
M. Grundmann, D. Kim, A. Vilela, D. Wendelken

Assistant Professors
S. Hokanson, T. Mitchell, R. Parkhurst, S. Wright, N. Zheng

Mission Statement
The mission of the School of Media Arts and Design consists of five interrelated areas:

- To encourage a learning and teaching environment that emphasizes the creative process and is distinctly innovative, cooperative, collegial and challenging.
- To be recognized as a regional and national leader in providing a multidisciplinary program that embraces and integrates new and evolving technologies with the teaching of the traditional concepts, values and skills of our disciplines.
- To build programs that help students acquire the ability to learn independently as well as to motivate and facilitate learning in a team environment.
- To stress the development of a broad understanding of the foundations of our related disciplines while acquiring a depth of knowledge in at least one area of concentration.
- To support a strong program of co-curricular, extracurricular and internship activities, which enrich an understanding of the role of our disciplines in society.

Goals
To help fulfill the above mission, the school requires students:

- To write clearly, concisely, accurately and effectively for a mass media situation: journalistic, cinematic or electronic.
- To demonstrate computer literacy.
- To demonstrate competency in information gathering for a variety of media situations.
- To recall the process involved in producing a publication (newspaper, magazine, radio, television or multimedia presentation).
- To understand how mass media businesses operate.
- To demonstrate competency in conducting pertinent media research.
- To recognize the history, theories, functions and effects of mass media in society.
- To recall the history of legal and regulatory constraints on the mass media and new information technologies.
- To recognize ethical constraints on the mass media.
- To apply knowledge of the media in professional environments under academic supervision.

Career Opportunities
The school incorporates the fields and study of mass communication, journalism, telecommunication, digital video production, interactive media and mediated visual and aural expression. It offers a program of study that prepares students for careers in the media and/or a corporate environment; careers that rely on mass media and related areas of expertise or graduate study in mass communication and related areas, such as advanced visual communication or digital production.

Co-curricular Activities and Organizations
Majors and interested non-majors are encouraged to participate in the co-curricular activities and organizations associated with the school. Co-curricular activities entail practical media arts and design experiences for which credit is available through practicums or other applied courses. Co-curricular organizations are student clubs and honorary societies associated with the school’s programs of study.

Co-curricular Activities
- The Breeze is the student newspaper.
- Curio is a feature magazine covering life in the Shenandoah Valley.
- WMRA-FM is the campus public radio station.

Co-curricular Organizations
- SMAD Club is a student organization that promotes the School of Media Arts and Design, brings in speakers and organizes departmental events.
- Madison AAF, a chapter of the American Advertising Federation, is a club for those interested in careers in advertising.
- Society of Professional Journalists is the JMU chapter of a national organization for students and professionals working in the various fields of journalism.

http://www.jmu.edu/catalog/14
Special Admission and Retention Requirements

Admission to the School of Media Arts and Design is limited and competitive. Students interested in majoring in the programs offered by the school must apply for a limited number of spaces in the major. An admission committee in the school reviews applications and offers admission based on availability to the most qualified students. A student may apply no more than two times to the school for admission.

There are two application periods for admission to SMAD: September and January.

September Application Period

The September application process is only for new transfer students matriculating to JMU in the fall semester who have declared the SMAD major. These students must be officially admitted to JMU as transfer students for the fall semester and must have earned at least 30 hours of JMU approved post high school college credit. They must be degree-seeking students and must be enrolled in at least 12 hours at JMU during the fall semester. The application is due on Friday of the second week of the fall semester.

January Application Period

Currently enrolled JMU students (including transfer students matriculating in January) may apply during the January application period. Students applying to the major at JMU must be degree-seeking and have completed at least 12 hours or be enrolled in at least 12 hours at JMU. The application is due on the last Friday in January.

Process

Students interested in this major must “declare” SMAD as a major and apply to become a “fully admitted” major. Declaring a SMAD major does not guarantee the student will be fully admitted into the SMAD major. Students must declare SMAD as a major prior to being eligible to enroll in SMAD 101. A declared SMAD student may take SMAD 101, but the student is restricted from SMAD courses beyond SMAD 101 until being accepted (fully admitted) into the major.

A complete application to the major includes the following:

- Completion of SMAD 101 or enrollment in SMAD 101.
- Completion of the SMAD Admission Test with sections on English grammar and usage, timed writing samples and basic computer knowledge. (Instructions for the SMAD Admission Test are given in SMAD 101).
- An application letter/personal essay expressing reasons for your interest in your first choice and second choice concentrations. Conduct research and then indicate what you know about careers in the concentration.
- A completed change of major form (available in the SMAD office).
- A completed SMAD major card (available in the SMAD office).
- A completed SMAD questionnaire (available in the SMAD office).
- Unofficial transcripts (If you are a transfer student, you must include the record of JMU transfer credit evaluation).
- Completed SMAD Application Package Checklist.

The student will present the required information in a manila folder to the main SMAD office with the student’s last name, first name and student identification number on the tab of the folder. The student must supply the folder.

Following the review by the SMAD Admission Committee, students will be notified about their acceptance into the major. If accepted, students will be eligible to register for SMAD courses. Students not accepted into the major will be notified and may reapply the following January or a later January. Students may apply to the major no more than two times.

Change of Concentration

Students accepted into the major must pick a concentration. Students who wish to change concentrations after being accepted into the major may do so only during the annual application period. To change a concentration, a letter must be submitted explaining why you want to change concentrations. This letter should be addressed to the Admission Committee and be no more than two pages in length. A Change of Concentration form must accompany the letter. A student, after consulting with his/her adviser and gaining approval of the admissions committee, will be permitted to change concentrations; however, there are no guarantees that the change request will be granted.

Minimum Grades

If a student enrolled in SMAD 101 is accepted in the major and makes an “F” in the course, the student will be dropped from the major and can reapply. If a student enrolled in SMAD 101 is accepted in the major and makes a “D+” or “D” in the course, the student may continue to take classes in the major; however, the student must retake SMAD 101 again in the next semester and earn at least a “C-.” Students are limited to taking SMAD 101 twice. Failure to achieve a grade of at least a “C-” after the second time will result in being dropped from the major and the student may not reapply. To graduate with a degree in media arts and design, a student must have a grade point average of 2.0 (“C”) or better in the major.

Limitations in Applied Courses

Of the 120 hours of course work required for graduation, a student may count no more than six hours of combined credit in SMAD 295 and SMAD 395, Practicums; SMAD 390, Directed Projects; and SMAD 495, Internship, toward a major in media arts and design.

http://www.jmu.edu/catalog/14
Degree and Major Requirements
A student must complete a minimum of 36 hours in SMAD courses. In addition to courses from the School of Media Arts and Design, students must complete at least 78 hours of course work outside the school.

1 Students may receive SMAD credit for either SMAD 301 or SMAD 301L, but not both.

Concentrations

Converged Media
This concentration serves students interested in digital convergence—the delivery of content via multiple media formats such as text, images, audio, video and interactive websites. Students are involved in content creation and distribution using diverse communications media and are prepared for a variety of roles in media industries. Class work and practical experiences are grounded in online media and provide students with opportunities to develop additional skills using other media formats. At the same time, the program encourages students to obtain a broad liberal arts education so they will understand the theories, design, legalities and applications of convergence in society.

Course Requirements

Digital Video and Cinema

This professionally-oriented program helps students develop practical skills in the converging media of high definition television and film, while instilling a critical understanding of how those media are used to tell stories, convey information and persuade audiences. The program offers preparation in writing, production and post-production within an ongoing examination of how new digital technologies are reshaping the commercial and artistic potential of visual media. Digital video and cinema students are encouraged to complement their concentration with a minor in film studies, creative writing, art or theatre.

Course Requirements Credit Hours
Concentration Core Requirements 12
(Required of all digital video and cinema concentrators.)
SMAD 302. HD Video Production 3
SMAD 407. Business and Management of Digital Media 3

2 These courses satisfy concentration requirements when the topic is appropriate.
3 Students may receive SMAD credit for either SMAD 463 or SMAD 463L, but not both.

http://www.jmu.edu/catalog/14
Integrated Advertising and Corporate Communication

This professionally-oriented concentration provides students with knowledge and skills to create and manage advertising and corporate communication programs emphasizing new media. In addition to theoretical concepts underlying advertising and corporate communication, students learn strategic creative writing, effective message design, management and media production. Students also learn strategic planning, implementation and evaluation of new media technologies and research and analysis of current trends and applications. The program reviews ethical and legal issues involving the creative advertising process, corporate communication and the use of new media. Students planning careers in integrated advertising and corporate communication should obtain a broad liberal arts education to better understand the characteristics that make the diversified communication process effective across various media and organizations.

Journalism

This professionally-oriented program enables students to develop reporting, writing, editing and production skills needed to work in magazines, newspapers, video/broadcast and new media journalism through course work, internships and other practical experiences. At the same time the program encourages students to obtain a broad liberal arts education so they will understand many of the issues facing contemporary society.

### Teaching Licensure

In addition to the general education and academic major requirements, media arts and design majors desiring to add an endorsement in journalism to a secondary teacher license in another content area must be admitted to teacher education, complete the pre-professional program in secondary education at the undergraduate level and complete the graduate level Master of Arts in Teaching degree.

It is critical that students seeking licensure consult regularly with both their education adviser and their major adviser to support their progression through the programs. For a full description of the program in secondary teaching, refer to the Department of Middle, Secondary and Mathematics Education.

### Minor Requirements

#### British Communication and Media Minor

The cross disciplinary British communication and media minor enables students to expand their knowledge of communication and media in Great Britain and to enhance their appreciation of the impact culture has on communication and media. Students must participate in the JMU Semester or Summer in London program to complete this minor.

#### Creative Writing Minor

The cross disciplinary minor in creative writing is designed to give students an opportunity to develop their writing talents across a number of literary forms and communication contexts.

#### Film Studies Minor

The cross disciplinary minor in film studies is designed for students who wish to extend their critical understanding of visual communication and narrative form by studying how movies tell stories, convey information and influence audiences.

#### Political Communication Minor

The program in political communication is designed for those students wishing to supplement their major programs with an emphasis on communication skills, knowledge and abilities specifically relevant to participation in political environments.

#### Sport Communication Minor

This cross disciplinary minor consists of course work offered in communications, media arts and design, and kinesiology for students with an interest in sports media and communication.

#### Telecommunications Minor

The cross disciplinary minor in telecommunications is designed to augment the student’s major program with a package of courses that will prepare the graduate to obtain a position as a telecommunication/network professional and fill a societal need in one of the fastest growing areas of technology.

Middle Education
Grades Six Through Eight Master’s Level Licensure Program

The undergraduate pre-professional program in middle education is designed to prepare teachers of grades 6-8. This program provides the requisite course offerings and experiences that form the foundation for admission to the Master of Arts in Teaching (M.A.T.) program. The JMU middle education program is based on the following four assumptions:

- Classroom teachers should possess a broad liberal education that provides a context for understanding individual behavior and major social issues in a contemporary democratic and technological society.
- Middle level classroom teachers should possess extensive knowledge and expertise in the content areas in which they teach and understand essential interdisciplinary concepts related to the respective content areas.
- Middle level classroom teachers must have extensive professional knowledge and be able to practice and demonstrate teaching skills that are effective and appropriate for students between the ages of 10 and 14.
- Middle level classroom teachers must have strong problem-solving skills, must be reflective in professional thought and practice, and must be ethically, morally and professionally responsible.

Teacher candidates must meet a set of content and subject-specific criteria that are approved by the Virginia Department of Education. In some states, middle grade teachers must meet minimum preparation requirements in two of the four core subject areas (mathematics, social studies/history, science, English/language arts). In order to meet these requirements, candidates are advised to major in Interdisciplinary Liberal Studies, a major that will allow them to complete dual content concentrations as well as meet the necessary subject-matter competencies.

The IDLS major is assigned two advisers. One adviser is the adviser for the education pre-professional licensure program who will guide the student through the licensure program requirements. The other adviser is the IDLS adviser who will guide the student through the IDLS major requirements. Students should plan on consulting both advisers regularly. Typically, the education adviser is assigned when the student meets with the head of his or her licensure program and elects the licensure program. This may be as early as the first semester of the first year. The IDLS adviser is assigned when the first year student advising folders are transferred to the IDLS office (second semester, first year). Students are required to check with advisers regularly to ensure timely graduation.

The middle education program enables teacher candidates to become knowledgeable about the developmental characteristics of middle school students, and to create, design and implement curriculum activities that are interdisciplinary in nature and related directly to the social, emotional, physical and intellectual needs of children between the ages of 10 and 14.

Candidates should consult with the department head or an adviser in middle education early during the first year or as soon thereafter as possible to obtain information concerning the requirements for admission to teacher education. Candidates should contact the IDLS director for the general education requirements for the IDLS major.

Candidates should note that they must be fully admitted to teacher education prior to registering for the courses included in the pre-professional middle education program. Candidates should also note that actual requirements may differ from the catalog requirements listed because of changes enacted by the Virginia Department of Education or other accrediting agencies after the catalog copy is approved. Therefore, it is especially important for candidates to confer with education advisers on a regular basis. It is important for candidates to understand that they must meet the requirements for a baccalaureate degree and successfully complete all undergraduate pre-professional courses and experiences prior to being admitted to the M.A.T. program. Candidates must earn a grade of “B-” or better in all required pre-professional undergraduate courses in the education program to continue in and complete the pre-professional program. Consult the graduate catalog for M.A.T. graduate requirements. Admission
to and satisfactory completion of the M.A.T. program are required for a recommendation from James Madison University for licensure in middle grades education.

Completion of the five-year professional program in middle education is designed to lead to a Virginia teaching license with an endorsement in middle education. To be recommended for licensure, all candidates must meet the following requirements:

- Complete General Education and IDLS requirements.
- Complete the middle education pre-professional program.
- Meet all admission and retention criteria for teacher education including satisfactory Praxis I and II scores.
- Meet admission requirements for the middle education M.A.T. program.
- Complete the graduate portion of the licensure program.
- Meet performance and behavior standards as indicated by ratings on the program Professional Dispositions Checklist.

### Degree and Major Requirements

1 Prior to or during enrollment in MSSE 370, candidates will be required to complete a 20-hour mentoring project.
2 Choose practicum to correlate with the two content 470 courses. Students complete course twice in appropriate content for a total of six credit hours.

### Graduate Courses

Candidates beginning the graduate portion of the program must meet all graduate school requirements and criteria for admission (e.g., 2.7 or higher GPA, passing Praxis II scores); it is expected that candidates will complete the graduate admission process early in their senior year. In addition, candidates must meet all graduate level graduation requirements (culminating teaching project, etc.). See The Graduate Catalog for additional details.

### Secondary Education

#### Grades Six through Twelve Master’s Level Licensure Program

The undergraduate program in Secondary Education is designed to provide candidates with the prerequisite course offerings and experiences that form the required foundation for admission to the Master of Arts in Teaching (M.A.T.) program. Completion of the M.A.T. program is required for a recommendation for licensure in secondary education through JMU. Undergraduate candidates who are planning to pursue licensure to teach in an academic area at the secondary school level should complete the 22 credit hour pre-professional program in education.

Candidates should also complete a major or the equivalent in one of the arts and sciences disciplines closely associated with the desired teaching area. The state approved licensure areas in the secondary education program at JMU include: English, foreign languages, mathematics, the natural sciences, and history/social science. Foreign language is a PreK-12 licensure area that is based in secondary education. Licensure endorsements for other teaching areas (e.g., algebra I, journalism, and gifted education) are available as add-on programs. Candidates should contact the departmental office for information concerning those programs.

Candidates should consult with the department head or an adviser in secondary education early during the first year or as soon thereafter as possible to obtain information concerning completing the related general education and content area requirements, as well as the undergraduate and graduate education requirements.

The secondary education licensure program is an integrated program of undergraduate and graduate requirements and experiences. It is important for candidates to understand that they must meet the requirements for a baccalaureate degree and that the appropriate undergraduate pre-professional courses and experiences must be completed satisfactorily before they will be admitted to the M.A.T. program.

[http://www.jmu.edu/catalog/14](http://www.jmu.edu/catalog/14)
Candidates must earn a grade of “B-” or better in all required pre-professional undergraduate courses in the education program and at least a “C-” in content course work to continue in and complete the pre-professional program. Consult the graduate catalog for M.A.T. graduate requirements. Admission to and the satisfactory completion of the M.A.T. program are required in order to receive a recommendation through JMU for a teaching license at the secondary school level.

Candidates should note that they must be fully admitted to teacher education prior to registering for courses in the pre-professional secondary education program. Candidates should also note that actual teacher licensure requirements may differ from the catalog requirements listed for a program because of changes enacted by the Virginia Department of Education or accrediting agencies after the catalog copy is approved. Therefore, it is important for students to confer with their education advisers on a regular basis. The program in secondary education, including the undergraduate component and the M.A.T., is designed to prepare teachers who are reflective decision-makers. Teachers who are reflective decision-makers are able to choose from among known educational alternatives to maximize student learning in a variety of instructional situations.

### Recommended Schedule for Secondary Education

The requirements listed below comprise the pre-professional (undergraduate) education program in secondary education. The courses listed must be satisfactorily completed prior to full admission to teacher education and to the graduate M.A.T. program.

Requirements should be completed in the following sequence:

#### First Year

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MSSE 101</td>
<td>Orientation to the Profession</td>
<td>2</td>
</tr>
</tbody>
</table>

#### Second Year

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYC 160</td>
<td>Life Span Human Development</td>
<td>3</td>
</tr>
<tr>
<td>EDUC 300</td>
<td>Foundations of American Education</td>
<td>3</td>
</tr>
</tbody>
</table>

Students must declare the secondary education pre-professional licensure program and be fully admitted into Teacher Education prior to enrolling in the remaining courses. Contact the departmental office to determine the requirements for admission to teacher education. The first three courses listed are corequisite offerings and must be completed before enrolling in the next three courses which are also corequisites.

### Foreign Language Education

#### PreK-12

The licensure program in foreign languages is based in the secondary education program, but it leads to a PreK-12 license. The foreign language program differs from the secondary (6-12) programs in that licensure candidates must take MSSE 570F, Methods of Language Teaching, and their practicum, MSSE 571F, must include field experiences at the elementary (PreK-6) school level. The content of MSSE 570F includes coverage of teaching foreign language methods for elementary school children as well as teaching foreign language to middle and high school students. The required practicum experiences include observations and teaching experiences across the PreK-12 grade levels.

Candidates seeking foreign language certification are required to complete 22 credits of pre-professional studies in education at the undergraduate level and 35 credits in professional studies at the graduate level. Foreign language candidates register for EDUC 675M and EDUC 675S, Internships.

**http://www.jmu.edu/catalog/14**
English Language Learning Academy

The mission of the English Language Learning Academy (ELLA) is to provide language learning opportunities and support through licensure, minor, clinical and direct service programs. Through outreach efforts to businesses, industries and schools, ELLA offers opportunities for individuals to develop the knowledge and skills necessary to support their development as contributing professionals and citizens of our community.

The English Language Learning Academy offers initial PreK-12 licensure program in Teaching English as a Second Language (TESL) at the bachelor’s and post-baccalaureate levels, and operates the ESL Career Development Academy.

Program Advising

First-year candidates planning to become teachers in secondary schools are advised to enroll in MSSE 101, Orientation to the Profession. Candidates should contact an education adviser concerning job opportunities in the various secondary subject areas, proper sequence of education courses, practicum opportunities in local secondary schools and special programs. By consulting regularly with their program adviser in secondary education, candidates can continually evaluate their academic objectives.

Vocational Education Courses

For persons employed by school divisions, to teach in vocational programs, the following courses are available and can be used by trade and industrial education teachers to upgrade their provisional license to the technical professional teaching license.

Department of Military Science

Lt. Col. Richard Showalter, Department Head

Phone: (540) 568-6264/6048
Location: Memorial Hall, Suite 1123 J

Email: showalrk@jmu.edu
Website: http://www.jmu.edu/rotc/index.html

Mission Statement
The James Madison University Army ROTC Duke Battalion mission is to recruit, develop, educate and provide quality leadership training, practical hands-on experience and Army values character development in order to commission agile and adaptive leaders to serve as the future officer leadership in the Army, Army Reserve or Army National Guard. Additionally, it is our mission to motivate young people through caring leadership to be better citizens committed to lifelong service of the community and nation.

Goals
The program offers two, three and four year options, allowing students to complete the requirements to earn a commission as an Army officer. The three and four year programs consist of a basic course and an advanced course. A two year option allows students with at least two academic years remaining in either undergraduate or graduate studies to complete all requirements for commissioning as a second lieutenant in the active Army, Army National Guard or Army Reserves. Additionally, students not intending to pursue a career in the military will gain valuable leadership, teambuilding and communication skills, which transfer into marketable civilian job skills.

Career Opportunities and Marketable Skills
Army ROTC provides students with highly marketable leadership skills. The curriculum imparts leadership principles, concepts of human development, and aspects of health and fitness. Practical application of classroom instruction in lab develops one's leadership style, communication and organizational skills, and strengthens personal character. Development of these skills implicitly builds one's self-confidence, discipline and professional attributes.

Army Reservists or Army National Guardsmen who are continuing their education full time may be eligible for the Simultaneous Membership Program, which combines Reserve Forces duty with Army ROTC on campus and enables the student to earn approximately $5,000 in two years. Graduates of the program earn an Army commission and may serve four years in career areas as diverse as medical service, signal, infantry, law enforcement, aviation or nursing.

Co-curricular Activities and Organizations
- Color Guard
- JMU Cannon Crew
- JMU Ranger Group
- Scabbard and Blade Military Honor Society
- Army Ten Miler Team
- Ranger Challenge

Special Admission and Retention Requirements
Advanced military science courses are normally taken during the junior and senior years, or during graduate school. Qualified students pursuing a commission as a second lieutenant are contracted and paid a subsistence allowance of $300-$500 per month for up to 10 months during the school year. Prior to commissioning, each cadet must successfully complete the four-week ROTC Leader Development Assessment Course (LDAC) at Ft. Knox, Kentucky. Cadets must maintain at least a 2.0 GPA, meet DoD medical fitness standards and meet Army physical fitness and weight control standards.

Degree Requirements
The Military Science curriculum is divided into two phases:

Phase One: Basic Military Science

<table>
<thead>
<tr>
<th>Courses</th>
<th>Credit Hours</th>

<td>2</td>
</tr>
<tr>
<td>MSCI 202. Developing Leader Skills</td>
<td>2</td>
</tr>
</tbody>
</table>

http://www.jmu.edu/catalog/14
The basic course is open to all JMU students. There is no military obligation incurred for taking 100- and 200-level military science courses. This curriculum is designed to help students in the near-term as leaders on campus. The classes will also help students be more effective leaders in the long-term, whether they serve in the military or as leaders in civilian life. Topics addressed include problem solving, critical thinking, problem-solving methods, leadership theory, followership, group cohesion, goal setting, feedback mechanisms, physical fitness and land navigation.

Lessons are taught in a seminar format, emphasizing student discussions and practical exercises. Courses are open to all students with no prerequisites and no military obligation. Students must enroll in both the lab and the classroom instruction. Placement credit for the basic course may be awarded through multiple programs including: prior military service, basic training, or successful completion of the ROTC summer leadership training course at Ft. Knox, Ky.

**Phase Two: Advanced Military Science**

The advanced course focuses on instruction and case studies which build leadership competencies and military skills in preparation for future responsibilities as Army officers and successful completion of the Leader Development Assessment Course (LDAC) at Ft. Knox, KY. Instruction includes the principles of war, decision-making processes, planning models and risk assessment. Advanced leadership instruction focuses on motivational theory, the role and actions of leaders, and organizational communications. Courses are only open to advanced course-contracted cadets with prerequisites and a military obligation is incurred.

The Air Force Reserve Officers’ Training Corps (AFROTC) at James Madison University is established under a cross-town agreement with the University of Virginia. JMU students will take AFROTC classes at the University of Virginia for JMU credit. AFROTC offers students the opportunity to receive US Air Force officer training while completing undergraduate studies. The four-year program is designed for students who join during their first year of college. Students take all four years of air science classes and attend a four-week summer field training encampment at an Air Force Base between their second and third years. AFROTC is the largest of three programs available through the Air Force to earn a commission and serve as an officer in the United States Air Force. Students may also enroll in AFROTC during their second year of college. Those students will dual enroll in both the AIRS 100- and 200-level courses during their second year of college and attend a four week summer field-training encampment.

Unless the student earns an AFROTC scholarship, there is no service obligation inside the first two years of the four year program. However, all students who enter into the Professional Officer Course (the last two years) enter into a contractual obligation with the Air Force to serve on active duty upon commissioning.

**Air Force Reserve Officers Training Corps**

AFROTC Detachment 890

Email: afrotc@virginia.edu
Website: http://www.virginia.edu/afrotc

**Department Head and Professor**

Colonel Steven T. Hess

**Assistant Professors**

J. Hubal, N. Rourke

**Mission Statement**

The Air Force ROTC Program is designed to recruit, educate and commission officer candidates through college campus programs based on Air Force requirements. Units are located at 144 college and university campuses throughout the United States and Puerto Rico. Students from schools near Air Force ROTC host institutions can attend classes through 1025 separate crosstown enrollment programs or consortium agreements.

**Goals**

The Air Force Reserve Officers’ Training Corps (AFROTC) at James Madison University is established under a cross-town agreement with the University of Virginia. JMU students will take AFROTC classes at the University of Virginia for JMU credit. AFROTC offers students the opportunity to receive US Air Force officer training while completing undergraduate studies. The four-year program is designed for students who join during their first year of college. Students take all four years of air science classes and attend a four-week summer field training encampment at an Air Force Base between their second and third years. AFROTC is the largest of three programs available through the Air Force to earn a commission and serve as an officer in the United States Air Force. Students may also enroll in AFROTC during their second year of college. Those students will dual enroll in both the AIRS 100- and 200-level courses during their second year of college and attend a four week summer field-training encampment.

Unless the student earns an AFROTC scholarship, there is no service obligation inside the first two years of the four year program. However, all students who enter into the Professional Officer Course (the last two years) enter into a contractual obligation with the Air Force to serve on active duty upon commissioning.
After graduation and commissioning as second lieutenants in the Air Force, graduates serve in any number of career fields for a four year active duty service commitment. Interested and qualified students may compete to become Air Force pilots or combat systems officers. Successful pilot and combat systems officers candidates serve 10 and six year active duty service commitments, respectively. Active duty may be delayed after graduation for those who wish to immediately pursue a graduate degree.

Co-curricular Activities and Organizations

- Arnold Air Society
- Drill Team

Special Admission and Retention Requirements

The Professional Officer Course is normally taken during the junior and senior years. Qualified students pursuing a commission as a second lieutenant are contracted and paid a subsistence allowance of $300-$500 per month. Prior to commissioning, each cadet must successfully complete the four-week ROTC Field Training Course at Maxwell AFB, Alabama. Cadets must maintain at least a 2.5 GPA, meet DoD medical fitness standards and meet Air Force physical fitness and weight control standards.

Degree Requirements

The Air Science curriculum is divided into two phases:

**Phase One: General Military Courses**

<table>
<thead>
<tr>

<td>3</td>
</tr>
<tr>
<td>AIRS 420. National Security Affairs/Preparation for Active Duty II (spring, fourth year)</td>
<td>3</td>
</tr>
</tbody>
</table>

The Leadership Laboratory (LLab) course taken during your first year is a weekly laboratory that touches on the topics of Air Force customs and courtesies, health and physical fitness, and drill and ceremonies. The second year LLab course provides you with the opportunity to demonstrate fundamental management skills and prepares you for Field Training. The third year LLab course provides you the opportunity to develop your fundamental management skills while planning and conducting cadet activities. Finally, the fourth year LLab course provides you with the opportunity to use your leadership skills in planning and conducting cadet activities. It prepares you for commissioning and entry into the active-duty Air Force.

**AFROTC Scholarships**

Merit-based financial scholarships may be offered to highly academically competitive and qualified students already enrolled in the program. Awardees may be offered an AFROTC scholarship for full or partial college tuition, incidental fees and textbook allowances and a monthly subsistence allowance of $300-$500 dependent on academic year. Scholarship students incur a military obligation.

Mission Statement
The mission of the School of Music is to provide the highest level of musical training in a comprehensive program that prepares students in conducting, music education, music industry, music performance, theory, composition and music history to prepare them to be thoughtful and productive citizens. Specifically, the school’s mission is to:

- Select undergraduate and graduate majors and minors who have demonstrated a commitment to developing their musical skills and talents.
- Motivate music enthusiasts to explore musical concepts by exposing them to and including them in music performance, composition and education.
- Foster a sense of community that encourages intellectual curiosity, creative endeavor, cultural diversity and respect for various perspectives.
- Encourage excellence from faculty members as educators, researchers, performers, clinicians and supporters so that they develop students into motivated, competent professionals and outstanding world citizens.
- Provide music majors and non-music majors with knowledge of music and develop appropriate skill levels and musicianship.
- Offer curricula that prepare students to be professionals in music performance, composition, education or industry.
- Broaden students’ understanding of music through innovative teaching, creative experiences and scholarly research.
- Provide a wide variety of cultural events for the JMU and Shenandoah Valley communities.
- Expose students to current technology employed in the music field, such as computers, music instruction software, electronic devices and advanced audio and visual equipment.
- Prepare D.M.A. students to teach at the college level, not just in their principal areas but also in many of the core curriculum classes, such as theory, music history and music appreciation.

The School of Music is an accredited institutional member of the National Association of Schools of Music.

Objectives
The ten major degree concentrations are each designed to establish a set of skills and a knowledge base necessary for success as a practitioner in specific career areas in the broad field of music. These objectives are achieved through School of Music classes.

- Through core music classes, to attain a general level of functional musicianship sufficient to begin and sustain a professional career in the music field.
- To gain awareness and basic competency in composition and analysis of the standard forms and styles of western music.
- To gain a broad historical perspective on the development of the forms and styles of western music, as well as diverse world musics.
- To develop a knowledge base enabling the placement of music within stylistic and chronological eras through cues that can be aurally identified.
- To develop a minimal ability to use a piano keyboard in the study, analysis and performance of music.
- To learn and practice the basic skills of conducting a musical ensemble and leading a rehearsal.
- Through attendance at musical performances, to gain awareness and acceptance of a broad variety of music, as well as of the traditional practices of concert musicians through listening to and watching others perform.

- Through specialized classes in each concentration, music students will attain skills and attitudes necessary for the establishment and maintenance of a career as a professional musician.
- To learn and practice the basic skills of conducting a musical ensemble and leading a rehearsal.
- Through attendance at musical performances, to gain awareness and acceptance of a broad variety of music, as well as of the traditional practices of concert musicians through listening to and watching others perform.
- Students in all concentrations will take weekly lessons in a primary instrument until they have mastered the skills of performance on that instrument sufficiently well to pass the graduation level for the specific concentration and to successfully complete a senior recital in performance or composition.
- Students in all concentrations will perform regularly in both solo and ensemble situations, allowing them to gain a variety of professional-level performing experiences. At least one ensemble per semester is required of all music students until they have completed all the major requirements for the B.M. degree.
Career Opportunities
The various programs offered by the school can lead students to a wide range of careers. Programs in performance or composition are intended for students who desire to continue their musical training in graduate programs that will prepare them for professional careers in performance, composition and/or teaching at the college level.

Those who elect the emphasis in music industry will be prepared for positions in a broad area of music-business occupations and for admission to graduate professional schools of business.

The music education program prepares students to teach vocal and/or instrumental music in public schools.

The music theatre program is designed to prepare vocal music majors for the field of popular Broadway musical theatre performance as well as for careers in opera and operetta.

The jazz studies program prepares students for the rigors of graduate study in jazz performance, equips students with the jazz vocabulary necessary for professional performance, and provides knowledge and skills necessary for employment in private instruction or as a jazz specialist in public schools.

The following list of careers is only a small sample of possibilities.
- Artists' manager
- Composer
- Conductor
- Entertainment lawyer
- Music educator
- Music journalist
- Music librarian
- Music software developer
- Orchestra manager
- Performing artist
- Professional accompanist
- Professor/Teacher
- Record producer

Co-curricular Activities and Organizations
These activities are open to all JMU students without audition:
- Concert Band
- Marching Royal Dukes
- Men's and Women's Choruses

These activities are open to all JMU students with audition or instructor permission:
- Brass Band
- Brass Ensembles
- Camerata Strings
- Chamber Orchestra
- Chorale
- Clarinet Choir
- Collegium Musicum
- Flute Choir
- Guitar Ensemble
- Horn Choir
- Jazz Band
- Jazz Chamber Ensembles
- Jazz Ensemble
- Madison Singers
- Opera Theatre
- Opera Theatre Orchestra
- Percussion Ensemble
- Piano Accompanying
- Steel Drum Band
- String Ensembles
- Symphonic Band
- Symphony Orchestra
- Treble Chamber Choir
- Trombone Choir
- Trumpet Ensemble
- Tuba and Euphonium Ensemble
- Wind Symphony
- Woodwind Ensembles

Admission Requirements
Students choosing to major in music must possess a solid background and experience in the performance medium they elect for their major, and they should display sufficient musical talent to indicate promise in their field.

To be considered for undergraduate admission to the music program, all entering first year students, transfer students and previously enrolled students seeking re-admission must complete the following:
- Submit an application for admission to JMU's Office of Admission.
- Submit the Undergraduate Music Application Form and request an audition date from those indicated on the form.
- Successfully complete an audition.

Audition guidelines may be found at http://www.jmu.edu/music/auditions/undergraduate.html.

Students are encouraged to contact the applied faculty on their area of performance expertise with specific questions about their audition. General questions about the music degree programs may be answered by an admissions assistant at (540) 568-3851 or by sending message to music_admit@jmu.edu.

Audition, Exam and Placement Test
No student will be accepted into the music degree programs until an audition is successfully completed and passed. A piano placement test will also be taken but has no bearing on acceptance. The piano test primarily determines keyboard skills class-level placement.

All candidates are expected to perform the entrance audition on one of the scheduled audition dates. The school does not encourage special appointments and will arrange them only when applicants have serious conflicts with the scheduled auditions.

http://www.jmu.edu/catalog/14
Degree and Major Requirements

Bachelor of Music Degree

The Bachelor of Music degree offers six specialized majors: performance, composition, music industry, music education, jazz studies and music theatre. All music majors must complete the general education program and a 30 credit hour core program of music courses common to all the majors’ curricula. The remaining hours are specified under each of the various majors and concentrations.

Music majors must perform in at least one adviser-approved ensemble each semester in which they enroll for at least 12 credit hours. An exception is made for music education majors during the student-teaching semester. All music students should enroll in class piano each semester until they meet the keyboard skills requirements appropriate to their specific degree or concentration. Grading seniors must participate in assessment activities including assessment day, as represented by MUS 220.

Another vital aspect of the programs is attendance at recitals and concerts. Attending these events contributes to the breadth of students’ knowledge of music literature. Hearing performances also allows students to observe performing techniques from the student to the professional levels. Consequently, undergraduate music majors must attend a minimum of 10 recitals per semester for six semesters, totaling 60 attendances during their degree studies. Students must continue to register for MUS 195 until they fulfill this requirement.

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

Major Requirements

Core Requirements

Choose one of the following:

- MUS 101. Keyboard Skills II
  - (required for music industry majors and prerequisite for MUS 202)
- MUS 303. Keyboard Skills IV
  - (all music majors except music industry; must be passed prior to student teaching)
- MUS 141-142. Theory I: Writing and Analysis Techniques
- MUS 143-144. Theory I: Aural Perception and Analysis
- MUS 195. Recital Attendance (six semesters)
- MUS 206. Introduction to Global Music
- MUS 220. Assessment Tests-School of Music
- MUS 241-242. Theory II: Writing and Analysis Techniques
- MUS 243-244. Theory II: Aural Perception and Analysis
- MUS 317. Basic Conducting
- MUS 373, MUS 374, MUS 375. Music History

http://www.jmu.edu/catalog/14
Recommended Schedule for First Year Majors

The first year of study shares a common curriculum for all concentrations. The year is devoted to courses from the basic music core requirements, general education courses, ensemble participation and applied study in the student's major applied area.

A typical first year course of study might be:

**First Year**

**First Semester**

Bachelor of Music in Music Theatre

Coordinator: Dr. Charles Dotas
Phone: (540) 568-6180

Degree Requirements

Required Courses  
General Education courses 1  38-41
Core music program courses  30
Major concentration courses and electives  60  
128-131

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

2 Approved music electives may not be fulfilled by additional ensemble credits.

3 Bachelor of Music in Music Theatre majors must participate in MUAP 345, Opera Theatre, for at least four semesters. They may elect to fulfill the ensemble requirement in their remaining semesters by taking any of the credited vocal ensembles of the school—Men’s or Women’s Chorus, Treble Chamber Choir, Chorale, Madison Singers, Opera Theatre. A minimum of one credit of ensemble must be selected each semester.

Vocal Track

(Applied study in voice or piano)

Degree Requirements

Required Courses  
General Education courses 1  35-41
Core music program courses  30
Major concentration courses and electives  42
Professional education sequence  20  
120-133

1 Approved electives include: MUS 446. Jazz Composition, MUS 480. Advanced Seminar in Musicology and MUS 485. Advanced Jazz Topics Seminar.

College of Visual and Performing Arts: School of Music 271

MUED 473. Jazz Procedures and Techniques  2
MUAP 355. Jazz Chamber Ensemble  4
(Approved music study (primary instrument), Level 1-4 5
Ensembles (one each semester) 7  8
Approved jazz electives 8  5  
60

1 Additional requirements: Admission to the Jazz Studies program by successful completion of Level IV in applied music study (primary instrument) and jazz performance audition, no sooner than end of second year as approved music major.
2 MUAP 332 (3 credit hours) taken after acceptance into the Jazz Studies program, MUAP 332 (2 credit hours) recommended for students interested in preparing for the Jazz Studies audition. Student must be enrolled in MUAP 332 during the semesters in which the Half Recital and Graduation Recital are presented.
3 MUAP 332 is a co-requisite with MUAP 332 and can be repeated each semester.
4 Students accepted into the Jazz Studies program must enroll in MUAP 335 each semester until graduation.
5 Additional requirements: Admission to the Jazz Studies program by successful completion of Level IV in applied music study (primary instrument) and jazz performance audition, no sooner than end of second year as approved music major.
6 To be taken during the first and second years. Students accepted into Jazz Studies program may continue applied music study (in addition to applied jazz study) with consent of primary applied instructor.
7 Prior to acceptance into Jazz Studies program, ensemble placement determined by primary instrument and applied faculty and Ensemble Committee. Students accepted into the Jazz Studies program must enroll in MUAP 335 Jazz Ensemble (or MUAP 348 Jazz Band with jazz studies coordinator permission) each semester until graduation. Students in the Jazz Studies program are encouraged to continue participation in additional School of Music ensembles.
8 Approved electives include: MUS 446. Jazz Composition, MUS 480. Advanced Seminar in Musicological Topics and MUS 485. Advanced Jazz Topics Seminar.

Bachelor of Music in Music Education

Coordinator: Dr. Gary K. Ritcher
Phone: (540) 568-6753

The Bachelor of Music degree in Music Education is designed primarily for those preparing to teach vocal or instrumental music in public schools. In addition to the School of Music requirements outlined below, students seeking a degree in music education must meet all the criteria for admission to the teacher education program and complete the professional education sequence for teaching licensure.

Teaching Licensure Requirements

Students who want to pursue the music education program must earn acceptance into the teaching licensure program offered by the College of Education.

Professional Education Sequence

Required Courses  
EDUC 300. Foundations of American Education  3
EDUC 480. Student Teaching (senior year)  12
PSYC 160. Life Span Human Development  3
Pre-adolescent and Adolescent Child  2
READ 420. Content Area Literacy, K-12  2
20

Vocal Track

(Applied study in voice or piano)

Degree Requirements

Required Courses  
General Education courses 1  35-41
Core music program courses  30
Major concentration courses and electives  42
Professional education sequence  20  
130-133

1 PSYC 160 may double count as a Cluster 5 course in General Education.

Choose one of the following: | 2
MUED 470. Marching Band Procedures | 2
MUED 472. Survey of String and Orchestra Repertoire | 2
MUED 474. Classroom Guitar Pedagogy | 2

MUS 141-142. Writing and Analysis Techniques | 6-9
MUS 150. Introduction to Technological Applications in Music | 1
MUS 319. Intermediate Instrumental Conducting | 2
MUS 395. Junior or Senior Half Recital | 0
MUS 442. Instrumental Arranging | 3
Applied music study (major instrument) | 13
Ensembles (one each semester for seven semesters) | 7

Endorsement in Both Vocal and Instrumental Music

Students desiring licensure in both instrumental and vocal music must complete the requirements of both concentrations, including 12 credits of student teaching in each area. All students desiring double endorsement should consult the coordinator of music education to plan their programs. Double licensure may add over a year to the student's program.

Minor Requirements

General Music Minor

Open to all JMU undergraduate students, the general music minor develops both the performing and non-performing musician's understanding of music. The minor requires the successful completion of six hours drawn from three areas – fundamentals, literature and history, and electives – for a total of 18 credit hours. Students must earn 50 percent of the required curriculum at JMU.

Required Courses | Credit Hours
---|---
MUS 131. Fundamentals of Music | 3-6
MUS 141-142. Writing and Analysis Techniques | 6-9
MUS 200. Music in General Culture | 2
MUS 203. Music in America | 2
MUS 206. Introduction to Global Music | 2
MUS 356. The History of Jazz in America | 3
MUS 357. Music Theatre History | 1
MUS 373, 374, 375, 376. Music History | 1
Electives – Any music course may count in this category, examples include: | 1

All music ensembles | 1
MUI 221. Survey of the Music Industry | 1
MUI 315. Songwriting | 1
MUI 422. Concert Production and Promotion | 1
MUED 380. Music in Elementary School | 1
MUS 204. History of Rock | 1
MUS 240/440. Jazz Improvisation | 1
MUS 456. Choral Literature | 1

http://www.jmu.edu/catalog/14
Music Industry Minor
Open to all JMU undergraduate students, the music industry minor provides students majoring in other disciplines with a foundation for exploring career opportunities in the entertainment industry. The minor requires successful completion of MUI 221, Survey of the Music Industry; MUI 323, Legal Aspects of the Music Industry and of an additional 12 elective credit hours. Students must earn 50 percent of the required curriculum at JMU.

Required Courses
- MUI 221. Survey of the Music Industry 3
- MUI 231. Legal Aspects of the Music Industry 3
- MUI 250. Portfolio Review 0

Electives – Any music industry course may count in this category, examples include:
- MUI 324. Introduction to Audio Devices
- MUI 330. Publishing
- MUI 400. Multi-track Recording Techniques I
- MUI 405. Logic Pro
- MUI 411. Film Scoring: Music in Entertainment and Broadcast Media
- MUI 422. Concert Production and Promotion
- MUI 430. Artist Management
- MUI 435. Marketing of Recorded Music
- MUI 440. Entrepreneurship in the Music Industry
- MUI 492. Internship in Music Industry

18

Jazz Studies Minor
Open to all undergraduate students at JMU, the jazz studies minor helps students majoring in other disciplines understand and perform the jazz art form. The minor requires the successful completion of 15 credit hours in specified music courses and five credit hours in jazz ensembles. Students must earn 50 percent of the required curriculum at JMU.

Required Courses
- MUS 141. Writing and Analysis Theory I 3
- MUS 143. Theory Lab I 1
- MUS 240. Improvisation Lab I 2
- MUS 356. History of Jazz in America 3
- MUS 440. Improvisation Lab II (repeat three times) 6

Ensembles (choose from the following):
- MUAP 347. Jazz Ensembles
- MUAP 348. Jazz Band
- MUAP 355. Jazz Chamber Ensemble

H. Taylor

Mission Statement
We engage students, faculty and communities through dynamic and innovative nursing education, practice and scholarship to influence health in our world.

Purposes
In order to support and accomplish this mission the nursing faculty has identified the following purposes:

- Prepare nursing professionals who provide culturally competent, holistic, evidence-based nursing care to individuals, families, aggregates and communities in a wide variety of settings.
- Promote a community of learning that models professional values and lifelong professional development for both faculty and students.
- Promote service-learning activities that include collaborative, interdisciplinary initiatives and partnerships between nursing education and the practice arena to meet the future health needs of consumers.
- Conduct research and creative scholarship to generate nursing knowledge and disseminate that knowledge through collaboration, publication and presentations.

Career Opportunities and Marketable Skills
- Preparation as a professional nurse leading to a Bachelor of Science in Nursing (B.S.N.) degree.
- Eligibility to take the National Certification and Licensure (NCLEX) exam to become a registered nurse (R.N.).
- Preparation for entry-level positions in a wide range of health care settings.
- Upon completion of the R.N. – B.S.N. program of study, students may be eligible for leadership positions in a wide range of health care settings.
- Preparation for graduate study in nursing.

Co-curricular Activities and Organizations
- JMU Chapter of the Virginia Nursing Student Association
- Pi Mu At-Large Chapter of Sigma Theta Tau International Nursing Honor Society
- B.S.N. Student Advisory Council

Accreditation
The JMU nursing program is approved by the Virginia Board of Nursing. The baccalaureate and master’s programs at James Madison University are accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, (202) 887-6791.

Program Options
The Department of Nursing offers two program options. The generic B.S.N. program is designed to prepare undergraduate students to practice at the baccalaureate level of professional nursing. The R.N. to B.S.N. program provides flexible learning opportunities at the baccalaureate level for students who are graduates of community college or diploma schools and are licensed registered nurses (R.N.).

Special Admission and Retention Requirements

Generic B.S.N. Program
Admission to the nursing program is limited and competitive. Each semester 90 students are enrolled in junior level nursing courses. All students, including transfer students, must complete the B.S.N. Admission application following admission to the university. B.S.N. admission applications are available on the nursing department website.

A completed B.S.N. admission application must be received by December 1 to be considered for the following fall semester and by July 1 to be considered for admission for the spring semester of the following year. Students not admitted to the program must reapply to be considered in the applicant pool for the following admission cycle.

http://www.jmu.edu/catalog/14
To be considered for admission to the nursing major, students must:

- Be currently enrolled as a JMU student as a declared nursing major.
- Have earned a minimum JMU cumulative GPA of 3.00 as verified by the academic record (admission is competitive, based on cumulative GPA and nursing pre-requisite course grades and limited to a set number of qualified students).
- Have completed and/or enrolled in 36 academic credits at the time of application.
- Complete the following nursing prerequisite courses (or approved equivalents) with a grade of “C-” or higher: CHEM 120, MATH 220 and at least two of the required biology courses (BIO 270, BIO 280 or BIO 290) by the end of the fall semester of the sophomore year (to be considered for the following fall) or by the end of spring semester (to be considered for the following spring).

In order to begin the nursing program, at time of entry to the first full semester, students must:

- Have completed all required nursing prerequisite courses (CHEM 120, MATH 220, PSYC 160, NUTR 280, BIO 270, BIO 280, and BIO 290).
- Have completed JMU general education requirements.
- Maintain a GPA of at least 3.00 or higher.
- Meet the department’s technical standards

Admission criteria are available at http://www.nursing.jmu.edu. Students must meet the department’s technical standards for nursing practice. Technical standards are basic physical, cognitive and psychosocial skills and abilities that are required for nursing practice. The technical standards are posted on the nursing website.

The nursing curriculum is designed as a full time program. The B.S.N. program director must approve any deviation from the full time enrollment pattern as outlined in the catalog. Once fully admitted to the program, the student must earn a minimum grade of “C-” or “Pass” in each required nursing course to remain in good standing in the nursing program. A grade of “D”, “F” or “Fail” is considered a failure. A student who for the first time receives a failure in a second nursing course will not be permitted to continue in the program.

Other academic and related policies in effect for students in the nursing program are outlined on the department website.

R.N. to B.S.N. Program

The R.N. to B.S.N. program provides flexible online learning opportunity for students who are graduates of community college or diploma schools and are licensed registered nurses (R.N.). Classes are offered online to allow students to maintain employment while completing the B.S.N. degree. The program provides a foundation for professional practice and will equip students for further opportunities afforded through graduate study and advance practice. JMU will award nurses up to 37 portfolio credits for their prior learning and work experience, as well as 40 transfer credits toward the General Education requirements for a B.S.N.

Thirteen additional general education credits will be required but may be taken concurrently at a local community college and transferred to JMU for credit. Students will complete 30 credits in the R.N. to B.S.N. program in three semesters of full time study or five semesters of part-time study, thus completing a total of 120 semester hours for the baccalaureate degree. Nurses apply for admission to the R.N. to B.S.N. program once all prerequisite courses have been completed and this has been documented through an academic transcript submission/review process. Additional program eligibility criteria include:

- Associate Degree or Diploma in Nursing from an accredited college/university.
- Completion of the General Education courses required for the Bachelor of Science. May be taken concurrently with nursing course work but must be completed prior to graduation.
- Cumulative GPA of 2.5 or better on a 4-point scale.
- TOEFL scores greater than 570 for international applicants.
- Completion of all prerequisite courses with a grade of “C-” or better.
- Current unrestricted R.N. license in any state, Washington, D.C., or a U.S. possession or territory or an equivalent credential in another country.
- Employment as an R.N. for a minimum of four months and/or plans to practice concurrently with course work.
- Graduates of foreign nursing schools, who are licensed outside of the United States, are required to pass the Qualifying Exam of the Commission on Graduates of Foreign Nursing Schools (CGFNS) prior to application and include the exam report with their application materials.
- Ability to meet the department’s technical standards for nursing practice (posted on the nursing website).

Employed applicants must complete the transcript review process prior to submitting an application. The R.N./B.S.N. program admissions coordinator can be contacted to begin the transcript review process.

Admission to the program is contingent on admission to the university. A supplemental application to the program is available on the department website under the R.N to B.S.N program tab. Once fully admitted to the program, the student must earn a minimum grade of “C-” or “Pass” in each required nursing course to remain in good standing in the nursing program. A grade of “D”, “F” or “Fail” is considered a failure. A student who for the first time receives a failure in a nursing course may, with department approval, repeat the course. A student who receives a failure in a second nursing course will not be permitted to continue in the program.

Elective Nursing Credits | 2

1 Contained in General Education Cluster Three.
2 Contained in General Education Cluster Five.

Students can seek fall or spring admission to the program. Students must complete 36 credit hours before they will be considered for admission to the program.

Cluster One normally is completed during the first year. General Education courses in clusters two, three, four and five can be scheduled flexibly as desired by the student across the first and second years.

Most students can complete general education and prerequisite courses in four semesters, but some students find it necessary to enroll in summer school or an additional year to complete the work satisfactorily.

Major Requirements
Additional information regarding the nursing curriculum can be found on the nursing department website.

Department of Philosophy and Religion

Dr. Charles R. Bolyard, Department Head
Phone: (540) 568-6394 Email: bolyarcr@jmu.edu
Location: Cleveland Hall, Room 112 Website: http://www.jmu.edu/philrel

Professors
C. Bolyard, D. Flage, W. Hawk, S. King, A. Kirk, I. MacLean, S. Mittal, W. O’Meara, A. Wiles

Associate Professors

Assistant Professors
P. Fleming, A. Levinovitz, M. Piper, D. Widmann Abraham

Mission Statement
The department offers a combined major in philosophy and religion. Students may choose one of four concentrations: either philosophy, religion, philosophy with an interdisciplinary focus or religion with an interdisciplinary focus. Whether concentrating in philosophy or religion, students in the department acquire the following fundamental skills and knowledge: the ability to think critically and rigorously with increased capabilities for problem solving and analysis of arguments; thorough familiarity with the literature, major figures, issues and phenomena of the discipline; and the ability to express themselves clearly, soundly and persuasively in oral and written form. These skill areas are the foundation and substance of a major in philosophy and religion. On the basis of this training, students should be prepared to express their own creative thought in a disciplined and effective manner.

Goals
Philosophy Program
Students completing a major with a concentration in philosophy are expected to know the major movements, problems, writings, concepts and terms in the history of Western philosophy. The program concentrates on major figures such as Plato, Aristotle, Descartes, Locke, Berkeley, Hume and Kant; on problems arising in contemporary movements such as analytic philosophy, existentialism and American philosophy and on the major subdivisions of philosophy, including logic, ethics, metaphysics, epistemology, aesthetics, philosophy and law, philosophy of science and philosophy of religion.

Religion Program
The study of religion by its nature includes different disciplinary approaches and critical methodologies. Students completing a major with a concentration in religion will gain experience in these approaches and will improve in the following skills and competencies:
- Mastery of the key concepts of global religious traditions (e.g., Hinduism, Buddhism, Judaism, Christianity, Islam), and the historical and contemporary expressions of these religions in their social, political and cultural contexts.
- Specialized knowledge in at least one religious tradition or specialized area of comparative and issues-oriented study and a broad competence in at least two others.
- Use of this knowledge to reflect upon problems in interpreting religious texts.
- Skill in the comparative and multi-disciplinary analytical methods used in the academic study of religion.
- Ability to articulate research and arguments effectively orally and in writing.
- Skill in evaluating different cultural perspectives on particular questions and issues, formulating sound arguments and examining claims for strengths and weaknesses.

All students who concentrate in religion take a 400 level capstone seminar during their senior year that will provide them extensive opportunity for research, critical and creative thought and oral and written expression.

Career Opportunities and Marketable Skills
Many of the department’s majors enter graduate school in philosophy or religion, law school or seminary. Alternatively, a departmental major graduating with a concentration in religion might move directly into work connected with religious service, into the human services fields or into teaching. A concentration in philosophy leads most directly into teaching or law school. A student’s opportunities are by no means limited to these more obvious options, however. While there is no direct path from philosophy and religion to many specific jobs, students who have majored in philosophy and religion successfully find satisfying employment. Employers seek many of the capacities that the study of philosophy and religion develops such as:
- Problem-solving.
- Effective communication in speaking and writing.
- Organization and analysis of ideas and issues.
- Assessment of the pros and cons of arguments and issues.
- Reduction of complex information to essential points.
- Persuasion.

These capabilities represent transferable skills useful in almost every work environment. Many students of philosophy and religion ultimately find careers in business or industry, in government or public service and in law, human services and communications.

http://www.jmu.edu/catalog/14
Students should work with the office of Career and Academic Planning for help in finding suitable employment.

**Preparation for Law School**

*Dr. William Hawk, Contact*

Phone: (540) 568-4088  
Email: hawkwj@jmu.edu

Students who plan to attend law school should seriously consider philosophy as an undergraduate major. Philosophy majors have historically scored very well on the Law School Admission Test. Philosophy courses emphasize the kinds of skills that prepare students for the LSAT and the law school curriculum: reading, comprehending and analyzing complex texts; organizing and synthesizing information and drawing reasonable inferences from it; analyzing and evaluating the reasoning and arguments of others; and researching and writing essays and papers.

Law schools recommend that students choose an undergraduate major that challenges them and provides them with an understanding of what shapes human experience. Philosophy does an outstanding job on both counts. The requirements of the major leave students plenty of opportunity to acquire a broad education by exploring other areas.

**Preparation for Seminary**

*Dr. Iain Maclean, Contact*

Phone: (540) 568-7059  
Email: macleanix@jmu.edu

The pre-seminary adviser will help majors and minors design undergraduate programs that will prepare them for further study in theological seminaries and university divinity schools. Academic counseling of students takes place within guidelines provided by the American Association of Theological Schools. The department offers rich opportunities for the study of the history, content and interpretation of the Bible; historical and modern theology; particular religious traditions; and cross-cultural topics in religious studies. Class assignments require students to think critically about a variety of theological and ethical issues; to read original and classical expressions of religious thought; and to become knowledgeable about specialized terms and the major spiritual and intellectual interpreters of the Hebrew and Christian traditions.

Students are encouraged to visit various seminaries and the department welcomes seminary representatives to the campus to discuss the possibilities for further theological education with students. Interested students may receive academic credit for practical supervised field work with social agencies and churches in order to help them find the particular forms of ministry (pastoral, campus, youth, missions, social, counseling) for which they are best suited. Qualified students are also encouraged to undertake an independent study and write an honors thesis in their junior and senior years.

For more information on pre-seminary study, contact Dr. Iain Maclean by phone at (540) 568-7059 or by email.

**Co-curricular Activities and Organizations**

A student-led Society of Philosophy and Religion, a philosophy honor society (Phi Sigma Tau), a religion honor society (Theta Alpha Kappa) and the Religion Majors Club provide excellent opportunities for fellowship and student participation in the intellectual and social activities of the department.

**Degree and Major Requirements**

**Bachelor of Arts in Philosophy and Religion**

**Degree Requirements**

1. Depending on the manner in which they are taught, the following topics classes may be counted toward the history requirement if they are approved by petition to the academic unit head: PHIL 350, PHIL 351, PHIL 400,PHIL 405, PHIL 410 and PHIL 415.
2. Depending on the manner in which they are taught, the following topics classes may be counted toward the metaphysics/epistemology requirement if they are approved by petition to the academic unit head: PHIL 390, PHIL 391 and PHIL 415.
3. If the student takes PHIL 101 as part of Cluster 2 in the General Education program it can double count as one course of this elective section. Neither PHIL 120 nor PHIL 150 can be used as an elective.

**Interdisciplinary Philosophy Concentration**

This option is designed for students who want to concentrate in philosophy but also apply philosophical ideas to work in other departments. Part of the requirements for this concentration is a cognate of nine credit hours from a different but related discipline.

REL 330. Religions of Africa and the African Diaspora 3
REL 341. Modern Philosophy 3
Choose one of the following metaphysics/epistemology courses: 1
REL/PHIL 218. Philosophy of Religion 3
PHIL 300. Knowledge and Belief 3
PHIL 311. Metaphysics 3
PHIL 392. Philosophy of Mind 3
PHIL 394. Self and Identity 3
PHIL 410. Philosophy of Science 3
PHIL 420. Philosophy of Language 3
Philosophy electives (nine credits must be at the 300 level or above) 3
Choose three courses from one or more disciplinary areas outside of philosophy 12
Cognate of three courses (nine credits must be at the 300 level or above) 3

1 Depending on the manner in which they are taught, the following topics classes may be counted toward the metaphysics/epistemology requirement if they are approved by petition to the academic unit head: PHIL 390, PHIL 391, and PHIL 475.
2 If the student takes PHIL 101 as part of Cluster 2 in the General Education program it can double count as one course of this elective section. Neither PHIL 120 nor PHIL 150 can be used as an elective.

Religion Concentration
Core Requirements Credit Hours
PHIL 101. Religions of the World 3
REL 200. Exploring Religion 3
Capstone (choose one of the following): 3
REL 410. Dharma/Adharma: Morality & Ethics in Hindu Society 3
REL 440. Topics in Religion in America 3
REL 460. Topics in Ancient Jewish and Early Christian Literature 3
REL 475. Inter-Religious Dialogue 3
Track Requirements 12
Choose 4 courses from one track. This will be your home track.
Breadth Requirements 12
Choose 4 additional courses: one from each of the other tracks, and one more from any of the three other tracks. None of these can be cross-listed in your home track.

Courses
Track 1: Eastern Traditions
PHUM 252. Cross Cultural Perspectives 9
(REL 308. Islam in South Asia 3
REL 310. Hindu Traditions 3
REL 312. Religions of East Asia 3
REL 313. Hindu Ethics 3
REL 314. Gandhi 3
REL 316. Topics in Hinduism 3
REL/PHIL 385. Buddhist Thought 3
REL 386. Topics in Buddhist Studies 3
REL 410. Dharma/Adharma: Morality & Ethics in Hindu Society 3)

Track 2: Western Traditions
PHUM 252. Cross-Cultural Perspectives: (when topic is Islamic Civilization) 9
(REL 201. Introduction to Hebrew Bible/Old Testament 3
REL 202. Jesus and the Beginnings of Christianity 3
REL 240. Jesus and the Moral Life 3
REL 270. Western Religious Ethics 3
REL 305. Islamic Religious Traditions 3
REL 306. Women and Gender in Islam 3
REL 308. Islam in South Asia 3
REL 320. Judaism 3
REL 325. Catholicism in the Modern World 3
REL 330. Religions of Africa and the African Diaspora 3

Track 3: Biblical Studies and Theology
PHUM 102. God, Meaning and Morality 3
REL 201. Introduction to Hebrew Bible/Old Testament 3
REL 202. Jesus and the Beginnings of Christianity 3
REL/PHIL 218. Philosophy of Religion 3
REL 270. Western Religious Ethics 3
REL 325. Catholicism in the Modern World 3
REL 340. Introduction to Christianity 3
REL 360. History of Christian Thought 3
REL/PHIL 375. The 19th Century: Age of Ideology 3
REL/PHIL 377. Hermeneutics 3
REL 380. Contemporary Theologies 3
REL 460. Topics in Ancient Jewish and Early Christian Literature 3
REL 475. Inter-Religious Dialogue 3

Track 4: Religion and Society
PHUM 252. Gandhi, Non-violence and Global Transformation 9
REL 280. Religion and Science 3
REL 303. Lived Religion: Ritual Practice and Ethnographic Method 3
REL 306. Women and Gender in Islam 3
REL 315. Women and Religion 3
REL/SOC 322. Sociology of Religion 3
REL 330. Religions of Africa and the African Diaspora 3
REL 332. Born Again Religion 3
REL 334. New Religious Movements 3
REL 338. African-American Religion 3
REL 348. Christianity in Global Context 3
REL/IA 363. Apocalypticism, Religious Terrorism and Peace 3
REL 370. Mysticism 3
REL 450. Religion and Society 3
REL 475. Inter-Religious Dialogue 3

Interdisciplinary Religion Concentration
This option is designed for students who want to concentrate in religion but also integrate their work in religion with work in another, complementary disciplinary area. A student electing this option will fulfill the requirements for the regular concentration in religion, with one change: nine credits from one or more disciplinary areas outside of religion (must be chosen in consultation with the adviser) will substitute for six of the religion elective credits required for the concentration in religion. Accordingly, the total required elective credits for the interdisciplinary concentration will be 18 (nine religion elective credits, nine interdisciplinary elective credits), giving a total of 38 credit hours to complete the program.

Core Requirements Credit Hours
PHIL 101. Religions of the World 3
REL 200. Exploring Religion 3

http://www.jmu.edu/catalog/14
Capstone (choose one of the following courses): 3
REL 410. Dharma/Adharma: Morality and Ethics in Hindu Society
REL 440. Topics in Religion in America
REL 460. Topics in Ancient Jewish and Early Christian Literature
REL 475. Inter-Religious Dialogue

Track Requirements 12
Choose four courses from one track. This will be your home track.

Breadth Requirements 6
Choose two additional courses outside of your home track. These two courses cannot be from the same track and neither can they be cross-listed with a course in your home track.

Interdisciplinary Requirements 9
Choose three courses from other disciplines (in consultation with your adviser).

Recommended Schedule for Majors
The following outline is a sample four-year program. The actual courses and sequence a student takes may vary.

First Year Credit Hours
Introductory courses in major 6
Foreign language courses 1 6-8
General Education courses 1 6-18
30

Second Year Credit Hours
Required courses in major 6
Choose from the following: 6
Foreign language courses
Electives
General Education courses 18
30

Third Year Credit Hours
Requirements and electives in philosophy or religion 12
Electives (may be outside of major) 12
General Education courses 6
30

Global Religion and Global Issues
The minor is intended for students who want to better understand the role played by religion in contemporary global events: from religious terrorism to nonviolence, from the suppression of women to the advocacy of civil rights. In this minor, students will study major global religions and their impact on real-world social and political issues. The minor may be of particular interest to students in the social sciences but all students with an interest in the subject are welcome.

Required Courses Credit Hours
REL 101. Religions of the World 3
One Global Religious Traditions course 3
One Religion and Social/Political Engagement course 3
Three electives chosen from either group 9
18

Global Religious Traditions
REL 305. Islamic Religious Traditions
REL 308. Islam in South Asia
REL 310. Hindu Traditions
REL 312. Religions of East Asia
REL 320. Judaism
REL 330. Religions of Africa and the African Diaspora
REL 348. Global Christianity
REL 385. Buddhist Thought

Religion and Social/Political Engagement
REL 306. Women and Gender in Islam
REL 314. Gandhi
REL 315. Women and Religion
REL 350. Islamic Law and Society
REL/IA 363. Apocalypticism, Religious Terrorism and Peace
REL 380. Contemporary Theologies
REL 450. Religion and Society
REL 475. Inter-Religious Dialogue

Philosophy
Required Courses Credit Hours
PHIL 101. Introduction to Philosophy 3
Choose two of the following: 6
PHIL 340. Ancient Greek Philosophy
PHIL 341. Modern Philosophy
PHIL 342. Medieval Philosophy
PHIL 375. 19th Century Philosophy and Theology
Three electives, at least two of which must be above PHIL 300 1 9
18

1 Neither PHIL 120 nor PHIL 150 can be used as electives.

Religious Studies
Foundational Courses Credit Hours
REL 101. Religions of the World 3
Choose one course in each track. (At least one of these must be 300 or 400 level) 12
Choose one elective. 3
18
Department of Physics and Astronomy

Dr. C. Steven Whisnant, Department Head
Phone: (540) 568-6109
Location: Physics/Chemistry Building, Suite 2186
Website: http://csma31.csm.jmu.edu/physics

Professors
K. Giovanetti, C. Hughes, I. Niculescu, S. Whisnant
Associate Professors
H. Butner, G. Niculescu, S. Paulson, S. Scully, B. Utter
Assistant Professors
G. Albright, A. Banu, A. Constantin, C. Constantin, K. Feitosa, K. Fukumura, J. Haraldson, E. Jeffery, M. Mattson, G. Scarel, S. Virani

Mission Statement
The mission of the Department of Physics and Astronomy is the preparation of scientifically enlightened citizens. Science literacy is promoted by the production of teachers, researchers, technical professionals and knowledgeable individuals through the integration of classroom and experiential learning.

Vision
We strive to be a leading undergraduate physics and astronomy department by building a research-active, student-centered community.

Values
Excellence, integrity and mutual respect are the core values that define our department. The vigorous pursuit of research with undergraduates is central to extending our understanding of nature and the engagement of students directly in the practice of physics and astronomy.

Service to the university, the public and the profession is essential for continued vitality of science education and research.

Goals
To help students:
- Develop competence in using computers for computation, data acquisition, numerical control, device development and information acquisition and processing.
- Improve written and oral technical communication skills.

Co-curricular Activities and Organizations
- Society of Physics Students

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 The foreign language requirement may be satisfied by successful completion of the second semester of the intermediate level (typically 232) of the student’s chosen language or by placing out of that language through the Department of Foreign Languages, Literatures and Cultures’ placement test.
3 Some of the courses required for the major complete Cluster Three of General Education. PHI 101 is part of Cluster Two.

Program Concentrations
Each student, in consultation with his/her faculty adviser, will choose one of the following program concentrations:
- Individual Option
- Professional
- Physics Specialist
Major Core Requirements

Courses | Credit Hours
---|---
PHYS 105. Foundations of Physics | 1

Choose one of the following:

PHYS 140-150. College Physics I-II | 6
PHYS 240-250. University Physics I-II | 2

Choose one of the following:

PHYS 140L-150L. College Physics I-II Laboratory | 2
PHYS 246-247. Data Acquisition and Analysis Techniques in Physics I, II | 4

PHYS 260. University Physics III | 4
PHYS 270. Modern Physics | 4
MATH 235, MATH 236 and MATH 237. Calculus I-III | 12
CHEM 131 + 131L. General Chemistry with Lab | 4

Choose one of the following:

BIO 114. Organisms | 4
GEO 110. Physical Geology | 4
PHYS 391-392. Seminar | 1
PHYS 491-492. Physics Assessment and Seminar | 1

In addition, the student must complete one of the following concentrations.

Individual Option

The individual option is a course of study chosen specifically to match the interest and career plans of the student. This option will allow custom designed interdisciplinary majors such as the history of physics and physics and the fine arts.

A student electing the individual option must complete the major core requirements of the B.A. in physics and will select a program consisting of a coherent collection of a minimum of 26 additional credits of physics courses numbered above 270, astronomy courses numbered above 301, and courses in related fields. This individualized program must be selected in consultation with a faculty adviser in the department and must be approved by that adviser, the department head and one other faculty member in the department.

The individualized program, as approved by the department and accepted by the student, becomes the major requirements for the student.

Students are expected to review progress toward completion of the selected program of study with their faculty adviser.

Professional

Students in this concentration must complete the following courses in addition to core requirements:

Required Courses | Credit Hours
---|---
MATH 238. Linear Algebra with Differential Equations | 4
PHYS 340. Mechanics | 3
PHYS 350. Electricity and Magnetism | 3

Three credits chosen from PHYS courses at the 300-level or higher | 3

Students are expected to review progress toward completion of the selected program of study with their faculty adviser.

Physics Specialist

Students in this concentration must complete the following courses in addition to core requirements:

Required Courses | Credit Hours
---|---
MATH 238. Linear Algebra with Differential Equations | 4
Choose one of the following:

PHYS 340. Mechanics | 3
PHYS 350. Electricity and Magnetism | 3

Choose two of the following:

ASTR 220. General Astronomy I | 6
PHYS/CHEM/MATS 275. An Introduction to Materials Science | 4
PHYS 326. Biophysics | 4

Option TBD

Students are expected to review progress toward completion of the selected program of study with their faculty adviser.

Bachelor of Science in Physics

Degree Requirements

Required Courses | Credit Hours
---|---
General Education | 41
Quantitative requirement (in addition to General Education) | 3
Scientific Literacy requirement (in addition to General Education) | 3-4
University electives | 2-8
Major core requirements (listed below) | 40
Major program concentration requirements | 25-31

Total | 120

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.

Major Core Requirements

Courses | Credit Hours
---|---
Choose one of the following:

PHYS 140-150. College Physics I-II | 6
PHYS 240-250. University Physics I-II | 2
PHYS 246, PHYS 247. Data Acquisition and Analysis Techniques in Physics I, II | 4

PHYS 260. University Physics III | 4
PHYS 270. Modern Physics | 4

Cognate Disciplines

CHEM 131-132. General Chemistry I-II | 6
CHEM 131L-132L. General Chemistry Lab I-II | 2
MATH 235-237. Calculus I-III | 12
PHYS 248. Computer Methods in Engineering and Science | 4

Program Concentrations

Each student, in consultation with his/her faculty adviser, will choose one of the following program concentrations:

- Applied Physics
- Physics/Engineering Combined Program
- Fundamental Studies
- Individual Option
- Multidisciplinary

Applied Physics Concentration

The applied physics concentration is designed to prepare students for careers in a wide variety of scientific areas including laboratory and industrial settings. It is separated into three tracks: computational physics, materials physics, and electronics and instrumentation.

http://www.jmu.edu/catalog/14
All students in the applied physics concentration must complete the following courses:

**Required Courses (in addition to core requirements) Credit Hours**
- PHYS 344, PHYS 345, PHYS 346. Advanced Physics Laboratory I, II, III 3
- PHYS 360. Analog Electronics 4
- PHYS 391-392. Seminar 1
- PHYS 491-492. Assessment and Seminar 1
- PHYS/ASTR 498R. Applied Physics Research 2
- MATH 238. Linear Algebra with Differential Equations 4
- Additional physics courses approved by the physics adviser 3

In addition to the required courses, students must complete one of the following tracks: Electronics and Instrumentation, Materials Physics, or Computational Physics.

**Electronics and Instrumentation Courses Credit Hours**
- PHYS 350. Electricity and Magnetism 3
- PHYS 371. Digital Electronics 2
- PHYS 372. Microcontrollers and Applications 2
- PHYS 380. Thermodynamics and Statistical Mechanics 3
- Additional physics courses approved by the physics adviser 2-3

**Materials Physics Courses Credit Hours**
- PHYS 340. Mechanics 3
- PHYS 350. Electricity and Magnetism 3
- PHYS/MATS 275. An Introduction to Materials Science 3
- PHYS/MATS 381. Material Characterization with Lab 3

**Computational Physics Courses Credit Hours**
- PHYS 340. Mechanics 3
- PHYS 380. Thermodynamics and Statistical Mechanics 3
- Choose one of the following pairs of courses: 3
  - PHYS/MATH 265. Introduction to Fluid Mechanics or PHYS/MATH 266. Introduction to Solid Mechanics
- Additional physics courses approved by the physics adviser 2-6

**Fundamental Studies Concentration**
The fundamental studies concentration is designed to prepare students for immediate post-baccalaureate employment or for entrance to advanced study in physics or related areas.

**Required Courses (in addition to core requirements) Credit Hours**
- MATH 238. Linear Algebra with Differential Equations 4
- PHYS 340. Mechanics 3
- PHYS 344, PHYS 345, PHYS 346. Advanced Physics Laboratory I, II, III 3
- PHYS 350. Electricity and Magnetism 3
- PHYS 360. Analog Electronics 4
- PHYS 380. Thermodynamics and Statistical Mechanics 3
- PHYS 391-392. Seminar 1
- PHYS 460. Quantum Mechanics 3
- PHYS 491-492. Assessment and Seminar 1

**Multidisciplinary Concentration**
The multidisciplinary concentration is designed to provide a solid foundation in physics for those students whose interests extend beyond traditional physics fields. The four tracks of business, technical and scientific communication, biophysics and secondary education open doors to the pursuit of graduate degrees in law, the medical sciences, business and education, and other career paths that require a technical background. Additionally, the concentrations in business and technical and scientific communication concentrations are excellent preparation for jobs in industry.

The following are also required for all tracks in the multidisciplinary concentration.

**Courses Credit Hours**
- BIO 114. Organisms 4
- MATH 238. Linear Algebra with Differential Equations 4
- PHYS/CHEM/MATS 275. An Introduction to Materials Science 3
- PHYS 340. Mechanics 3
- PHYS 350. Electricity and Magnetism 3
- PHYS 380. Thermodynamics and Statistical Mechanics 3
- PHYS 391-392. Seminar 1
- PHYS 491-492. Assessment and Seminar 1

Two credits from the following:
- PHYS/ASTR 398. Independent Study in Physics and Astronomy (2 credits)
- PHYS/ASTR 498R. Undergraduate Research in Physics or Astronomy (2 credits)
- ISCI 450. Interscience Research (2 credits)
- PHYS 494. Internship in Physics (2 credits)
- PHYS 499. Honors (6 credits)
The student must choose one of the following tracks:

- Business
- Technical and Scientific Communication
- Biophysics
- Geophysics
- Secondary Education

### Business Track Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>COB 204. Computer Information Systems</td>

<tr>
<td>FIN 345. Finance for the Non-Financial Manager</td>
<td>3</td>
</tr>
<tr>
<td>MGT 305. Management and Organizational Behavior</td>
<td>3</td>
</tr>
</tbody>
</table>

- **Total Credit Hours:** 18

Note: No more than 27 hours may be taken in the College of Business.

### Technical and Scientific Communication Track Courses

Choose six credits:

- Physics course numbered above 300
- ASTR 480. Astrophysics
- GWRTC 103. Critical Reading and Writing
- WRTC 300. Professional Editing
- WRTC 316. Research Methodologies
- WRTC 350. Foundations of Technical Communication

- **Total Credit Hours:** 24

### Biophysics Track Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 326. Biophysics</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 241-242. Organic Chemistry I &amp; II</td>
<td>6</td>
</tr>
<tr>
<td>CHEM 242L. Organic Chemistry Laboratory</td>
<td>2</td>
</tr>
<tr>
<td>CHEM/BIO 361. Biochemistry I</td>
<td>3</td>

</tr>
<tr>
<td>BIO 370. Animal Physiology</td>
<td>4</td>
</tr>
<tr>
<td>BIO 490. Biomechanics</td>
<td>4</td>
</tr>
</tbody>
</table>

- **Total Credit Hours:** 26

### Geophysics Track Courses

Choose one of the following:

- GEOL 110. Physical Geology
- GEOL 210. Applied Physical Geology

Choose one of the following:

- ASTR 220. Astronomy
- GEOL 272. Planetary Geology
- GEOL 365. Structural Geology
- GEOL 440. Geophysics

At least three credits from a field- or geographic-based course:

- GEOG 215. Cartography and GIS
- GEOG 216. Remote Sensing and GPS
- GEOL 399. Field Geology (Ireland)
- GEOL 444. Field Geophysics

At least nine credits from the following:

- GEOL 280. Mineralogy
- GEOL 300. Petrology
- GEOL/MATS 295. Geologic Perspectives in Materials Science
- GEOL 396. X-Ray Characterization
- GEOL 415. Evolution of North America
- GEOL 460. Geohydrology

**PHYS/MATH 265. Fluid Mechanics**  
**PHYS/MATS 337. Solid State Physics**  
**PHYS 360. Analog Electronics**  
**PHYS/MATS 381. Materials Characterization**  
Any other 300- or 400-level geology or physics course (Upon approval from adviser).  

- **Total Credit Hours:** 24

### Secondary Education Track Required Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GPSYC 160. Life Span Human Development</td>
<td>3</td>
</tr>
<tr>
<td>EDUC 370. Instructional Technology</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: Students must be fully admitted into pre-professional teacher education prior to enrolling in these courses:

- EDUC 310. Teaching in a Diverse Society | 3            |
- MSSE 370. General Instruction Methods for Grades 6-12 | 3            |
- MSSE 371. Clinical Experience in Adolescent Education | 1            |
- MSSE 470S. Natural Sciences Teaching Methods, Grades 6-8 | 3            |
- MSSE 471S. Field Experience in Middle School Natural Science | 3            |
- READ 440. Literacy-Based Learning in Secondary Education | 3            |

- **Total Credit Hours:** 22

Note: Students interested in becoming teachers must meet specific curriculum requirements in their major as part of the undergraduate academic degree.

In addition to the general education and academic major requirements, physics majors desiring secondary teacher licensure must be admitted to teacher education, complete the pre-professional program in secondary education at the undergraduate level and complete the graduate level Master of Arts in Teaching degree.

It is critical that students seeking licensure consult regularly with both their education adviser and their major adviser to support their progression through the programs. For a full description of the program in secondary teaching, refer to the Department of Middle, Secondary and Mathematics Education, in addition to the College of Education section of the catalog.

### Individual Option Concentration

The individual option is a course of studies chosen specifically to match the interest and career plans of the student. This option will allow custom designed interdisciplinary majors such as chemical physics, as well as majors designed for students whose educational and career goals are not met by the existing concentrations in the major.

A student electing the individual option must complete the core requirements for the B.S. in physics and will select a program consisting of a coherent collection of a minimum of 25 additional credits of physics courses numbered above 260, astronomy courses numbered above 301 and courses in related fields.

This individualized program must be selected in consultation with a faculty adviser in the department, and must be approved by that adviser, the department head and one other faculty member in the department.

The individualized program, as approved by the department and accepted by the student, becomes the major requirements for that student.

http://www.jmu.edu/catalog/14
Recommended Schedule for Majors

First Year Credit Hours
CHEM 131-132. General Chemistry I-II 6
CHEM 131L-132L. General Chemistry Laboratory 2
General Education, Cluster One: Skills for the 21st Century 9-12
MATH 235-236. Calculus I-II 8
PHYS 246. Data Acquisition and Analysis Techniques in Physics I 1
Choose one of the following: 6
PHYS 140-150. College Physics I-II
PHYS 240-250. University Physics I-II
32-35

Second Year Credit Hours
MATH 237. Calculus III 4
MATH 238. Linear Algebra with Differential Equations 4
MATH 248. Computer Methods in Engineering and Science 4
PHYS 260. University Physics III 4
PHYS 270. Modern Physics 4
PHYS 247. Data Acquisition and Analysis Techniques in Physics II 1
General Education courses 11
32

Third and Fourth Years
During their junior and senior years, students will select courses to complete the specific program track which they are following. These course selections will be made with the assistance of a faculty adviser.

Minor Requirements

Astronomy Minor
The minimum requirement for a minor in astronomy is 21 credit hours selected as follows:

Astronomy Minor Electives Credit Hours
Choose one of the following: 6
PHYS 140-150. College Physics I-II
PHYS 248-250. University Physics I-II
Choose one of the following: 2
PHYS 140L-150L. General Physics Laboratory I-II
PHYS 248-247. Data Acquisition and Analysis Techniques in Physics I, II
ASTR 220-221. General Astronomy I-II 7
ASTR 320. Astronomical Techniques 3
One course selected from the following: 3
GEOL 272. Planetary Geology
ASTR 480. Astrophysics
HON 300Z. Life Beyond Earth
PHYS 297, PHYS 397 or PHYS 497. Topics in Physics (appropriate topics could include the relativity, cosmology, cosmic rays or other astronomy-related topics with approval of minor adviser).
ASTR 297, ASTR 397, ASTR 497. Topics in Astronomy
21

Physics Minor
The minimum requirement for a minor in physics is 22 credit hours selected as follows:

Physics Minor Electives Credit Hours
Choose one of the following: 6
PHYS 140-150. College Physics I-II
PHYS 248-250. University Physics I-II
Choose one of the following: 2
PHYS 140L-150L. General Physics Laboratory I-II
PHYS 248-247. Data Acquisition and Analysis Techniques in Physics I, II
PHYS 260. University Physics III 4
Ten credits selected from the following: 10
Physics courses numbered above 260
ASTR 320. Astronomical Techniques
ASTR 480. Astrophysics
22

Department of Political Science

Dr. Charles H. Blake, Department Head

Phone: (540) 568-6149
Location: Miller Hall, Room 2120
Email: blakech@jmu.edu
Website: http://www.jmu.edu/polisci

Professors
J. Adolino, C. Blake, S. Hammond, D. Jones, H. Lubert, R. Roberts, K. Rutherford, V. Sulfaro

Associate Professors
M. Adams, A. Broscheid, J. Byrne, M. Cohen, K. Ferraiolo, M. Jamal, B. Kaussler, J. Keller, T. LaPira, L. Peaslee, J. Scherpereel, N. Swartz, Y. Yang

Assistant Professors

Lecturer
E. Chisek

Mission Statement
The Department of Political Science offers strong major and minor programs sharing a focus on public concerns. We are committed to providing our students with the tools and competence to succeed in their lives, their graduate education and their careers by instilling academic rigor, information access and research skills, dedication to life-long learning and respect for diversity in cultures, nations and institutions of democracy.

Goals
To carry out the above mission, the Department of Political Science seeks to:

- Offer strong major programs: the B.A. in political science, the B.S. in public policy and administration and the B.A. in international affairs (cross disciplinary).
- Offer strong minor programs: political science, public policy & administration and political communication (cross disciplinary).
- Enhance critical thinking, communication and information gathering skills.
- Foster active learning through research, simulations and internships.

Career Opportunities
The political science department offers programs that lead students to careers in the following fields:
- Administration and management
- Federal, state and local government
- International organizations
- Law
- Not-for-profit organizations
- Politics
- Private sector

To enhance the marketability of its students, the political science department supports career-related internships. For information contact the political science office, Miller Hall, Room 2120, (540) 568-6149 or contact the internship coordinator, Dr. Tim LaPira.

Co-curricular Activities and Organizations
- Pi Alpha Alpha: public administration honor society
- Pi Sigma Alpha: political science honor society
- Pre-Law Society
- Sigma Iota Rho: international affairs honor society
- PASO: JMU Public Affairs Student Organization

Majors in the Department of Political Science
The Department of Political Science offers the B.A. degree with a major in political science, the B.S. degree with a major in public policy and administration and the B.A. degree with a major in international affairs.

Bachelor of Arts in Political Science
For a major in political science, the student must satisfactorily complete a minimum of 33 credit hours, including:

- A 14-hour core introducing students to the conduct of political inquiry in the major areas of the discipline, an awareness of global issues and cultural diversity, and the techniques of original research.
- A 15-hour depth requirement in which students take at least one course from three of the major areas of political inquiry and acquire additional experience in the application of research techniques.
- A four-hour capstone experience designed to bring together knowledge gained in different courses into a coherent whole, to foster a capacity for lifelong learning, to connect the major to experiences outside the university and to provide the opportunity to work individually with a faculty member.

For information about the political science major contact:
Dr. Scott Hammond
Miller Hall, Room 2127
(540) 568-6313

1 POSC 225 is a prerequisite for POSC 295.

Electives

In addition to the core requirements, political science majors must elect 15 hours of approved courses from the 300 level or above and at least one from three major areas of political inquiry. Students are encouraged to complete the core requirements before taking any course above the level of POSC 301.

Elective Courses

Choose one course from three of the following areas: 9

Comparative Politics

- POSC 337. Politics of Russia and the Former Soviet Union
- POSC 340. Political Development in the Third World
- POSC 344. Politics of European Union
- POSC 345. Politics of Western Europe
- POSC 346. Politics of Central and Eastern Europe
- POSC 347. Comparative Public Policy
- POSC 348. The Politics of Cultural Pluralism
- POSC 349. Comparative Political Behavior
- POSC 350. Latin American Politics
- POSC 352. African Politics
- POSC 354. Politics of the Middle East
- POSC 355. East Asian Politics
- POSC 371. Topics in Comparative Politics
- POSC 383. Women in Politics
- POSC/HIST 457. Comparative Empires

International Relations

- POSC 361. Topics in International Relations
- POSC 370. U.S. Foreign Policy
- POSC/JUST 372. Ethics and International Politics
- POSC/JUST 392. Peace Studies
- POSC 395. International Law
- POSC 396. International Organizations
- POSC 397. Politics of International Economic Relations
- POSC 430. International Security and Conflict Management
- POSC 435. International Terrorism
- POSC 458. International Political Analysis

Political Theory

- POSC 310. Political Theory: Ancient to Early Modern
- POSC 315. Political Theory: Early Modern to the 19th Century
- POSC 316. Contemporary Political Theory
- POSC 321. Political Theory and Ideology
- POSC 330. American Political Thought
- POSC 381. Topics in Political Theory

American Government

- POSC 302. State and Local Government
- POSC 325. Constitutional Law
- POSC 326. Civil Rights
- POSC 351. Topics in American Politics
- POSC 358. Public Policymaking
- POSC 362. Political Behavior
- POSC 365. American Political Campaigning
- POSC 368. Interest Groups and Public Policy
- POSC 369. Political Parties and Elections
- POSC 380. The U.S. Presidency
- POSC 382. Religion and Politics

Bachelor of Science in Public Policy and Administration

Coordinator: Liliokanaio Peaslee
Miller Hall, Room 2167
(540) 568-5629

The major in public policy and administration provides students with a general foundation in the nature of public policy, the public workplace and its political, legal and managerial environments. This major prepares students for professional employment and leadership in government and nonprofit organizations. The program consists of a core of courses offering general knowledge essential for understanding and working in the public arena. This core provides students with an appreciation of the political culture and economic environment of public work, measurement techniques and a basic understanding of the policy process.

Students are offered a choice between two concentration options: public policy or public management.

In the public policy concentration students acquire knowledge of the nature, dynamics, implementation and substance of public policy and its analysis. Courses address:

- Policy processes.
- Techniques for analyzing policy options.
- The dynamics and substance of particular policy issues.

The public management concentration emphasizes management and management-related skills. Courses address:

- The legal environment of public work.
- Organization theories.
- Management theories and applications.
- Management best practices.

In addition, courses in both concentrations heighten students’ critical, analytical and communication skills through case studies, exercises and the intensive writing requirement. The public policy concentration requires a senior seminar experience that seeks to bring policy theory and analytical skills to bear on a practical issue of public policy. Public management students must complete the dual capstone requirements of a public management seminar and an internship, requiring an integration of knowledge from both general studies and major studies by focusing students on specific cases and workplace applications.

http://www.jmu.edu/catalog/14
Because the public policy and administration major develops techniques and skills applicable to varied career paths in public service, students are encouraged to choose a complementary minor with a narrower, substantive focus. The minors recommended for students’ consideration include criminal justice, environmental information systems, environmental management, environmental studies, family studies, gerontology, health information systems, nonprofit studies, political communication, substance abuse intervention, telecommunications, urban and regional studies, communication studies, conflict analysis and intervention, sociology, technical and scientific communication, economics, human resource development, computer science, public health and integrated science and technology.

Interested students may apply to participate in the Fifth Year Master of Public Administration degree program, which allows qualified students to earn an M.P.A. degree with one additional year of study. Students should apply for this program in their sophomore year. See the The Graduate Catalog for more information.

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 In addition to course work taken to fulfill General Education requirements.
3 The cross disciplinary minor in political communication is designed for students interested in pursuing careers in political management. For a full description of this minor, see Cross Disciplinary Studies.

### Cross Disciplinary Major

#### Bachelor of Arts in International Affairs

The major in international affairs provides a cross disciplinary understanding of foreign cultures and societies, the dynamics of world politics and how other nations perceive the world and why they act the way they do. For a full description of this major, see International Affairs.

### Minor Requirements

#### Political Communication Minor

The cross disciplinary minor in political communication is designed for students interested in pursuing careers in political management. For a full description of this minor, see Cross Disciplinary Studies.

Public Policy and Administration Minor
The minor in public policy and administration seeks to give students a foundation in the nature and practice of public policy and public administration. Students get exposure to the application of policy and administration by doing an internship capstone course. The minor in public policy and administration requires 20 credit hours of course work.

2 When PPA 483 is an administration-related course.

Washington Semester Program
The political science department offers a Washington Semester Program. In the fall semester the focus is on U.S. policy and politics. In the spring the focus is on global and international politics. In both semesters students have the opportunity to do a Washington-based internship and take a course from specialists in the field. Housing is arranged by JMU. The U.S. policy and politics program is especially designed for students who are majoring or minoring in political science or public policy and administration. The global semester encourages students from all majors that have an international or global focus to enroll. If you have questions about the Washington Semester, contact the program director, Dr. David Jones (jones3da@jmu.edu).
Department of Psychology

Dr. Kevin J. Apple, Interim Department Head

Phone: (540) 568-6114
Location: Miller Hall, Room 1120
Website: http://www.psyc.jmu.edu/undergraduate

Professors
M. Reis-Bergan, M. Stoloff

Associate Professors
J. Dyche, J. Irons, J. Kurtz, N. Lawrence, M. Lee, B. Saville, T. Zinn

Assistant Professors
V. Chan, K. Fogler, D. Holt, K. Jakobsen, M. Shoup-Knox, D. Szwedo

Lecturer
K. DuVall

Mission Statement
The mission of the Department of Psychology is to educate students in, and contribute to, the science of psychology.

Goals
The vision of the Department of Psychology is to sustain and advance a nationally recognized department focused on promoting scientific proficiency within the interdisciplinary field of psychology. To that end, the curriculum is designed to provide students with a strong foundation in psychological science that reflects multiple perspectives within the discipline. The hallmarks of our program are learning opportunities that promote the skills necessary to conduct and evaluate research and to interpret findings. The department trains our students to be responsive to emerging trends and apply their knowledge of psychological science as responsible global citizens.

The Department of Psychology is a dynamic contributor to the General Education program and the university community through the delivery of high quality courses and other educational experiences emphasizing psychological science. We also contribute to the M.A. program in psychological science. Our faculty strive to create and implement creative and effective pedagogy, embracing the dual role of teacher/scholar. The department will foster a collegial and collaborative environment within which divergent opinions as well as cultural diversity are respected, valued and promoted.

Co-curricular Activities and Organizations
- Active Minds. This organization promotes mental health, awareness and education and works to reduce the stigma of mental illness.
- Psi Chi. The local chapter of the national honor society in psychology is open to students with a strong interest in psychology and an exceptional academic record.
- Psychology Club. This club is open to all students with an interest in psychology.
- Psychology Service Organization. This organization strives to meet the needs of the JMU and local communities by sponsoring and participating in service projects.

Special Admission Requirements
Students interested in completing the intermediate and advanced courses required for the psychology major must meet the department’s progression standards and be fully admitted to the major.

Students who meet all of the following criteria will be allowed to change their status from declared to fully admitted and will be permitted to make progress in the psychology major beyond a few preliminary courses. Equivalent courses completed at another university for which the student has earned JMU approved transfer credit are acceptable.

- Complete PSYC 101. General Psychology, with a grade of “C-” or better.
- Complete MATH 220, MATH 205, MATH 231, MATH 235 or another acceptable math course (http://psyc.jmu.edu/ug/mathchart.html) with a grade of “C-” or better.
- Complete any one of the following:
  - Earn a grade of “B” or better in PSYC 101 taken at JMU.
  - Complete any PSYC course at JMU and earn a 3.00 grade average in the course
  - Complete at least 15 credits at JMU and earn an overall cumulative GPA of 3.00 or better
- At the time of admission to JMU, be a student who is transferring at least 30 credits including the prerequisite courses (general psychology and math) or general psychology and either psychological statistics or research methods in psychology.
- Complete an online orientation and application, available from the Department of Psychology website.

New transfer students who have earned at least 30 JMU approved transfer credits including the prerequisite courses in general psychology and math (statistics or calculus) or general psychology and either psychological statistics or research methods in psychology are automatically admitted to the major.

Students should apply for full admission to the major when they make the decision to pursue a psychology degree. Admission decisions are made at the end of each semester and during the summer. Students not admitted to the major may reapply the following semester.

http://www.jmu.edu/catalog/14
Retention
All psychology courses taken must carry a grade of "C-" or better to apply to the major. A psychology course completed with a grade of "D" may be credited toward graduation requirements but may not be included in courses credited toward the psychology major.

Prerequisites
Psychology majors must complete PSYC 101 and two statistics and research methodology courses (PSYC 210-211 or PSYC 212-213) before enrolling in courses numbered 330 and above. The prerequisite for PSYC 210 and PSYC 212 is any mathematics course numbered 205 or above. Most psychology courses numbered 330 and above have specific prerequisites. See course listings for details. Non-psychology students may enroll in the 300 and 400-level courses only if they have fulfilled course prerequisites.

Registration and Assessment
During registration, psychology majors will be given priority for course selection. Graduating majors must participate in assessment activities. Assessment information helps the faculty modify the psychology curriculum to meet student needs.

Degree and Major Requirements
Bachelor of Arts in Psychology

Degree Requirements
Required Courses Credit Hours
General Education 1 41
Foreign Language classes (intermediate level required) 0-14
Philosophy course(s) (in addition to General Education courses) 3
Major requirements (listed below) 44
Electives 18-32
120

Major Requirements
The courses listed below are required of all students pursuing a Bachelor of Arts degree, or any other bachelor’s degree program except Bachelor of Science, regardless of whether psychology is their first or second major.

Major Requirements – B.A. Credit Hours
PSYC 101. General Psychology 3
Methodology Core 2 8
Choose one of the following sequences:
PSYC 210. Psychological Measurement and Statistics and PSYC 211. Psychological Research Methods
PSYC 212. Psychological Research Design and Data Analysis I and PSYC 213. Psychological Research Design and Data Analysis II
SS Content Core – Psychology as a Social Science
Choose at least three of the following:
PSYC 330. Psychology of Personality
PSYC 335. Abnormal Psychology
PSYC 345. Social Psychology
PSYC 385. Developmental Psychology
NS Content Core – Psychology as a Natural Science
Choose at least three of the following:
PSYC 375. Sensation and Perception
PSYC 380. Cognitive Psychology
PSYC 385. Biopsychology
PSYC 390. Psychology of Learning
PSYC 395. Comparative Animal Behavior

Upper Level Specialty Content Courses 3
Choose at least one of the following:
PSYC 325. Counseling Psychology
PSYC 400. Advanced Topics
PSYC 410. Psychology of the Workplace
PSYC 415. Forensic Psychology
PSYC 420. Advanced Psychological Statistics
PSYC 425. School Psychology
PSYC 427. Tests and Measurement
PSYC 428. Educational Psychology
PSYC 430. Clinical Psychology
PSYC 435. Community Psychology
PSYC 450. Child Abuse and Neglect
PSYC 452. Child Psychopathology
PSYC 460. Community Psychology within Developing Societies
PSYC 475. Psychology of Adulthood
PSYC 480. Applied Behavior Analysis
Psychology electives (at least three hours of these electives must be at the 400 level) 9
Capstone course 4 3
Choose one of the following:
PSYC 493. Laboratory in Psychology
PSYC 498. Honors Thesis
Other course section that meets the sociocultural competency requirement

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 PSYC 210 and PSYC 211 are offered every semester; PSYC 212 is offered only during the fall semester. PSYC 213 is offered only during the spring semester.
3 Some sections of this course may meet the sociocultural awareness requirement depending on the content; when this course does meet the requirement it will be listed in the notes section of the course listing in MyMadison.
4 Prior approval is required for students to enroll in more than one Psychology capstone course.

Bachelor of Science in Psychology

Degree Requirements
Required Courses Credit Hours
General Education 1 41
Quantitative requirement (in addition to General Education) 3
Scientific Literacy requirement (in addition to General Education) 3-4
Major requirements (including cognate, listed below) 47-51
Electives 18-32
120

Major Requirements
The courses and cognate described below are required of all students pursuing a Bachelor of Science degree, regardless of whether psychology is their first or second major.

Major Requirements – B.S. Credit Hours
PSYC 101. General Psychology 3
PSYC 385. Biopsychology 3
Methodology Core 2 8

http://www.jmu.edu/catalog/14
Choose one of the following sequences:
- PSYC 210: Psychological Measurement and Statistics
  and PSYC 211: Psychological Research Methods
- PSYC 212: Psychological Research Design and Data Analysis I
  and PSYC 213: Psychological Research Design and Data Analysis II

SS Content Core – Psychology as a Social Science 9
Choose at least three of the following:
- PSYC 330: Psychology of Personality
- PSYC 335: Abnormal Psychology
- PSYC 345: Social Psychology
- PSYC 365: Developmental Psychology
- PSYC 385: Biopsychology

Choose at least two of the following:
- PSYC 375: Sensation and Perception
- PSYC 380: Cognitive Psychology
- PSYC 390: Psychology of Learning
- PSYC 395: Comparative Animal Behavior

NS Content Core – Psychology as a Natural Science 6
Choose at least two of the following:
- PSYC 375: Sensation and Perception
- PSYC 380: Cognitive Psychology
- PSYC 390: Psychology of Learning
- PSYC 395: Comparative Animal Behavior

Upper Level Specialty Content Courses 3
Choose at least one of the following:
- PSYC 400: Advanced Topics
- PSYC 410: Psychology of the Workplace
- PSYC 415: Forensic Psychology
- PSYC 420: Advanced Psychological Statistics
- PSYC 425: School Psychology
- PSYC 427: Tests and Measurement
- PSYC 428: Educational Psychology
- PSYC 430: Clinical Psychology
- PSYC 435: Community Psychology
- PSYC 450: Child Abuse and Neglect
- PSYC 452: Child Psychopathology
- PSYC 460: Community Psychology within Developing Societies

PSYC 475: Psychology of Adulthood
PSYC 480: Applied Behavior Analysis

Psychology electives 9
(at least three hours of these electives must be at the 400 level)

Capstone course 4

Choose one of the following:
- PSYC 492: History of Psychology
- PSYC 493: Laboratory in Psychology
- PSYC 495: Field Placement in Psychology
- PSYC 497: Senior Seminar in Psychology
- PSYC 499: Honors Thesis

Sociocultural Competency 0
Choose one of the following:
- PSYC 220: Psychology and Culture
- PSYC 308: Health Psychology
- PSYC 310: The Psychology of Women and Gender
- PSYC 320: Diversity Issues in Psychology
- PSYC 325: Counseling Psychology
- PSYC 410: Psychology of the Workplace
- PSYC 460: Community Psychology within Developing Societies

Other course section that meets the sociocultural competency requirement

Cognate Requirements

Quantitative Competency 6-9
(This may include credit hours that count toward General Education and degree requirements.)
Choose one of the following:
- Two 200-level MATH courses
- or one 200-level MATH course and six credits of additional MATH courses at any level

Scientific Literacy 6-8
(These courses are taken in addition to the General Education requirement. They may count toward the B.S. degree requirement, second major and/or minor requirements.)
Choose at least two courses from the list of courses meeting B.S. degree scientific literacy requirements.

Concentration

Behavior Analysis Concentration
This concentration prepares students for employment with agencies that provide behavior analytic services and/or for pursuing a graduate degree in behavior analysis. This course sequence includes the course work requirements necessary to sit for the Board Certified Associate Behavior Analysis (BCABA®) national certification examination.

Required Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYC 180: Introduction to Behavior Analysis 1</td>
<td>3</td>
</tr>
<tr>
<td>PSYC 390: Psychology of Learning</td>
<td>3</td>
</tr>
<tr>
<td>PSYC 480: Applied Behavior Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

Choose one of the following:
- PSYC 402: Independent Study: Practicum – Behavior Analysis
- PSYC 403: Independent Research – Behavior Analysis
- PSYC 402: Independent Study: Readings – Behavior Analysis
- PSYC 402: Independent Study: Teaching – Behavior Analysis

Choose one of the following:
- PSYC 493: Laboratory in Psychology
- PSYC 497: Senior Seminar in Psychology
- PSYC 499: Honors Thesis

1 Cannot be taken by students who have completed PSYC 390 or PSYC 480.
2 Only certain sections will qualify; consult with the concentration coordinator before enrolling.
3 This course will count toward the experience requirements for the Board Certified Associate Behavior Analysis (BCABA®) National Certification Examination.

With the assistance of their faculty advisers, students majoring in psychology select their area courses and psychology electives to meet their own individual needs and goals. Within the structure of the program, students may choose the courses of greatest interest to them.
Recommended Schedule for Majors

The following program sample is intended as a guide. Courses must be taken in the sequence outlined; however, the semester during which a particular course is taken depends on a number of factors, including readiness to take MATH 220, the semester the psychology major is started and other majors or minors the student is completing.

Students are encouraged to meet regularly with their psychology academic adviser to plan their personal course schedule. Because of course sequencing requirements, even with the most compressed program, a minimum of five semesters (or four semesters and summer school) is required to complete the psychology major.

First Year
First Semester  Credit Hours
MATH 220. Elementary Statistics 1 3
PSYC 101. General Psychology 3
General Education courses 9 15

Second Semester  Credit Hours
General Education, B.A./B.S. degree requirement, B.S. Psychology Cognate and/or minor program courses 15

Second Year
First Semester  Credit Hours
PSYC 210. Psychological Measurement and Statistics 4
or PSYC 212. Psychological Research Design and Data Analysis I 2
General Education, B.A./B.S. degree requirement, B.S. Psychology Cognate, minor program and/or Psychology elective courses 12 16

Second Semester  Credit Hours
PSYC 211. Psychological Research Methods 3 or 4
PSYC 213. Psychological Research Design and Data Analysis II 4
General Education, B.A./B.S. degree requirement, B.S. Psychology Cognate, minor program and/or Psychology elective courses 12 16

Third Year
Courses  Credit Hours
SS content core courses 9
NS content core courses 9
Minor program courses or electives 12 30

Fourth Year
Courses  Credit Hours
Psychology Upper level Specialty Content Course 3
Psychology 400 level elective 3
Psychology capstone course 3
Psychology, minor program or elective courses 21 30

1 A preliminary math course may be suggested after placement examinations. If suggested, the preliminary course should be taken first semester and MATH 220 second semester. Other 200-level mathematics courses may be substituted for MATH 220. Any MATH course numbered 205 or above is an acceptable prerequisite for the psychology major.

2 Any MATH course numbered 205 or above is a prerequisite for PSYC 210 and PSYC 212. MATH 220 is recommended.

3 PSYC 210 is a prerequisite for PSYC 211.

4 PSYC 212 is a prerequisite for PSYC 213.

Recommended Courses

The following courses are recommended for all psychology majors especially those who plan to pursue advanced study at the graduate level after earning their bachelor’s degrees.

Participate in experiential learning, such as:
- PSYC 202. Directed Studies in Psychology
- PSYC 203. Directed Research in Psychology
- PSYC 402. Independent Study in Psychology
- PSYC 403. Independent Research in Psychology
- PSYC 495. Field Placement in Psychology

Taking an advanced statistics course is highly recommended. Consider the following:
- MATH 280. SAS Programming and Data Management.
- MATH 321. Analysis of Variance and Experimental Design
- MATH 322. Applied Linear Regression
- MATH 324. Applied Nonparametric Statistics
- MATH 325. Survey of Sampling Methods
- MATH 327. Categorical Data Analysis

A minor or a selection of courses from other departments that complements the psychology major for the professional field you are pursuing might be very helpful. Discuss your professional goals with your faculty adviser and ask for recommendations. Consider taking courses that emphasize writing skills, quantitative skills, critical thinking and analysis and/or oral communication.

Students should discuss their career aspirations with their academic adviser throughout their academic program. Students interested in applying to graduate school should discuss the necessary preparation with their adviser early in their academic program. Students are encouraged to visit the department's Peer Advising Office in Miller Hall where materials are available about career and graduate school opportunities.

Other Psychology Programs

Graduate Programs

The Department of Graduate Psychology at James Madison University offers the following graduate degree programs:

- Master of Arts
  - Clinical Mental Health Counseling
  - Psychological Sciences
  - School Psychology

- Master of Education
  - School Counseling
  - College Student Personnel Administration

- Educational Specialist
  - Counseling Psychology
  - School Psychology

- Doctor of Philosophy
  - Assessment and Measurement
  - Combined/Integrated Program in Clinical and School Psychology
  - Counseling and Supervision

Additional information about these programs, including admission requirements and procedures, is available at http://psyc.jmu.edu/gradpsyc/.

http://www.jmu.edu/catalog/14
Department of Social Work

Dr. Lisa McGuire, Department Head

Phone: (540)-568-6980
Location: HHS Building, Room 2127

Website: http://www.jmu.edu/socwork

Mission Statement
The Department of Social Work prepares generalist social workers committed to strengthening community life for diverse individuals, families and organizations and promoting social justice through advocacy and action. It offers a program, accredited by the Council on Social Work Education, which leads to the B.S.W. degree. In addition, the department offers minors in family studies, gerontology and nonprofit studies.

The Department of Social Work is committed to the following:

- Preparing students to work effectively in a broad spectrum of social service agencies by providing an environment geared to addressing poverty, multiple forms of oppression, social injustice and other human rights violations.
- Preparing students for advanced academic study by providing an environment geared toward achieving academic excellence.
- Being recognized by our students, graduates, field agencies and the professional community for excellence and integrity in academic programs, advancement of professional knowledge and professional service.
- Being responsive and oriented to the professional, local community and university’s service region by providing supportive services and continuing education opportunities.

Career Opportunities and Marketable Skills

Career Opportunities
- Aging services
- Child and adult day care centers
- Children and youth services
- Community action agencies
- Criminal justice agencies
- Domestic violence programs
- Family service agencies
- Homeless shelters
- Hospitals/home health programs/hospices
- Income maintenance programs
- Legal services agencies
- Mental health services
- Mental retardation/developmental disabilities services
- Nursing homes and residential communities
- Residential treatment facilities
- School programs
- Substance abuse programs
- Vocational rehabilitation services

Marketable Skills
- Advocacy
- Assessment/analysis
- Case management/brokering
- Communication
- Community outreach
- Crisis intervention
- Intake/referral
- Intervention/service planning
- Interviewing
- Networking
- Policy analysis
- Problem solving
- Program development/evaluation
- Recording/writing
- Relationship/interpersonal
- Research
- Service provision
- Team/group/collaborative

Co-Curricular Activities and Organizations
The Social Work Organization (SWO) offers the opportunity to socialize, meet professionals and volunteer in the community. Membership in SWO is open to any student interested in a career in the helping professions.

Phi Alpha Honor Society for Social Work’s purpose is to promote academic excellence among social work students. Membership in Phi Alpha is by invitation to students with a minimum of nine credit hours in required social work course, holding a major grade point average (GPA) of 3.25 and a cumulative GPA of 3.0.

National Association of Social Workers serves the critical and diverse needs of the entire social work profession. The National Association of Social Workers-Program Unit, a student unit of this nationally recognized organization, is under the auspices of the Whitney Young District, Virginia NASW. Membership is open to all social work majors and provides opportunities for both social and professional enrichment.

http://www.jmu.edu/catalog/14
Admission Requirements

Social Work Program

Students may declare a major in social work at any time; however, they must apply for admission to the social work program the semester following completion of SOWK 287, Introduction to Social Work, and SOWK 288, Social Welfare. For unconditional admittance, students must have a cumulative GPA of 2.0 with no single grade lower than a “C” (2.0) in SOWK 287 and SOWK 288, and have completed the 20 hours of community service work required in SOWK 287. Students are evaluated on the basis of community service and life experiences, academic performance, communication skills, work related habits, ability to work with others, motivation, value orientation and career plans. Students must complete this process or admission to upper-level courses will be restricted. See the Social Work Handbook or the Social Work website for guidelines.

Applications are reviewed by two or more social work faculty members who make a recommendation to the head of the social work department. The student will be notified of the decision in writing. Decisions are to admit, to admit conditionally, not to admit, or to defer decision. You will have one opportunity per semester to resubmit the application. If you fail to submit or resubmit a document that is still incorrect, you will be required to wait until the next semester deadline to resubmit. While this could potentially slow your progression in the major, it acknowledges your role of accountability in the process, a quality that will be essential for professional practice.

If admitted conditionally, the conditions for acceptance will be described. If the decision is deferred, the student will be notified in writing as to why. If not admitted, the student may appeal the decision to the head of the Department of Social Work.

Field Practicum Application

Students admitted into the social work practicum are seniors who have completed the core social work requirements, with no grade lower than a “C” (2.0) in SOWK 287, SOWK 288, SOWK 305, SOWK 317, SOWK 320, SOWK 335, SOWK 465, SOWK 466 and SOWK 467, have an overall GPA of 2.0, and who have completed 50 community service hours related to human services after SOWK 287, are eligible for field practicum.

During the field practicum, students spend four days a week for one semester completing a minimum of 472 hours of directed field practice. Students seeking admission to SOWK 481, Social Work Field Practicum I, and SOWK 482, Social Work Field Practicum II, must complete a field placement application and interview with the director of field placement. The field placement director, with the assistance of social work faculty members, will determine the acceptance and placement of students.

See the Social Work Handbook or the Social Work website for the field application, documentation of community service guidelines and guidelines for the placement process. Students must have no grade lower than a “C” (2.0) in SOWK 481, SOWK 482 and SOWK 494, which is taken concurrently with the field practicum.

| Total                                                                | 27-33        |

http://www.jmu.edu/catalog/14
Minor Requirements

Family Studies Minor
Minor Adviser: Nancy T. Poe

The cross disciplinary minor in family studies is designed for undergraduates seeking enhancement of their major, desiring to increase understanding of self and relationships, and seeking to make a positive contribution to society. For a full description of the requirements for this minor, see Cross Disciplinary Programs.

Gerontology Minor
Minor Adviser: B.J. Bryson

The cross disciplinary minor in gerontology is designed for any undergraduate major desiring a concentration of study of aging for personal understanding or career preparation. For a full description of the requirements for this minor, see Cross Disciplinary Programs.

Nonprofit Studies Minor
Minor Adviser: Karen Ford

The nonprofit studies minor prepares students from a variety of disciplines to understand the unique role of nonprofit organizations in American society today. Emphasis is placed on history, theory, legal issues and management topics. The minor includes a capstone seminar and a field experience in a nonprofit agency with the focus to be determined in conjunction with the adviser. For a full description of the requirements for this minor, see Cross Disciplinary Programs.

Sociology Program

Mission Statement
The mission of the sociology program is to develop students’ ability to analyze the social world by using diverse sociological theories and research methods that stress the importance of social, cultural and historical contexts for understanding relationships between social actors and structures.

Goals and Objectives
To fulfill its mission, the sociology program cultivates the sociological imagination, providing students the following sets of skills and experience. Upon completion of the B.A. or B.S. degree in sociology, students will be able to:

- Recognize and understand the social dimension of the human experience and the diverse social arrangements and practices found within and across societies and cultures.
- Recognize how developing a sociological lens is a practical skill for living a productive and meaningful life.
- Identify and understand sociology’s major theories, schools of thought and analytical paradigms.
- Identify and understand sociology’s origin, development and practice within its social and historical contexts.
- Demonstrate the use of skills in investigating the social world utilizing methodological components such as concept formation, measurement strategies, data analysis, summary and presentation of findings.
- Demonstrate the use of the scholarly tools needed to practice sociology, including rigor, perceptiveness, creativity, logical consistency, tenacity and discipline.
- Recognize the norms of the scholarly community and of a participatory society, including collegiality, openness to public scrutiny, testing reinterpretation and refutation.

Career Opportunities and Marketable Skills
Working as a professional sociologist most often requires a graduate degree, but the following careers, some supplemented with collateral training, are representative of our previous graduates.

- Criminologist, probation/parole officer, police officer, corrections officer
- Teacher, professor, social worker, researcher, case manager, biostatistician
- Admissions officer, demographer, data analyst, personnel interviewer
- Nursing home director, hospice coordinator, day care provider/director, epidemiologist
- Mediator, congressional aide, writer/author, advocacy worker, job analyst
- Population specialist, management trainee, sociologist, market research analyst
- Secret service agent, customs/immigration officer, labor relations specialist
- Personnel administrator, public relations specialist, public health statistician
- Urban/regional planner, race relations specialist, underwriter, fundraiser
- Education specialist, community services director

A major in sociology provides skills and perspectives that enhance all careers. Students who study sociology gain:

- Increased general knowledge.
- Broadened viewpoints informed by sociological perspectives.
- Sensitivity to organizational issues and social change.
- Abilities in critical thinking, analysis, writing and communication, examination of attitudes and values and enhancement of computer skills.

Further information about careers in sociology is available from the American Sociological Association website under “Careers and Jobs.”

http://www.jmu.edu/catalog/14
Co-curricular Activities and Organizations
- Alpha Kappa Delta, the Sociological Honorary Society
- Student Research Symposium
- The Sociology Club

1. The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2. The foreign language requirement may be satisfied by successful completion of the second semester of the intermediate level of the student’s chosen language (typically 232) or by placing out of that language through the Department of Foreign Language’s placement test.

Major Requirements

To earn the B.A. degree with a sociology major, students must complete a minimum of 39 credit hours in sociology. Of these credit hours, 18 are required courses; the remaining 21 credit hours are electives chosen from over 30 sociology courses.

Students must earn at least a “C-” in all sociology classes or any course that is substituted for a sociology core course. If a student earns below a “C-” in a course, he/she can re-take the course once in order to meet the “C-” standard.

Courses

- **GSOCI 110. Social Issues in Global Context** 3
- **GSOCI 140. Microsociology: The Individual in Society** 3
- **SOCI 200. Development of Social Thought and Method** 3
- **SOCI 231. Introduction to Social Statistics** 3
- **SOCI 300. Sociological Inquiry** 3
- **SOCI 480. Senior Seminar** 3
- Sociology electives 3

1. The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2. In addition to course work taken to fulfill General Education requirement.

Major Requirements

To earn the B.S. degree with a sociology major, students must complete a minimum of 39 credit hours in sociology. Of these credit hours, 18 are required courses; the remaining 21 credit hours are electives chosen from over 30 sociology courses. Students must observe the prerequisite sequencing of required courses as shown in the course descriptions.

Students must earn at least a “C-” in all sociology classes or any course that is substituted for a sociology core course. If a student earns below a “C-” in a course, he/she can re-take the course once in order to meet the “C-” standard.

Courses

- **GSOCI 110. Social Issues in Global Context** 3
- **GSOCI 140. Microsociology: The Individual in Society** 3
- **SOCI 200. Development of Social Thought and Method** 3
- **SOCI 231. Introduction to Social Statistics** 3
- **SOCI 300. Sociological Inquiry** 3
- **SOCI 480. Senior Seminar** 3
- Sociology electives 21

Concentrations

The sociology program encourages majors to select electives that create a coherent program of study suited to their special needs and interests. Such a focus would involve four or more courses from the following concentration groupings:

- **Environment, Technologies and Innovations**
  - **SOCI 311. Sociology of the Environment**
  - **SOCI 313. Processes of Social and Cultural Change**
  - **SOCI 315. Technology and Society**
  - **SOCI 344. Work and Society**
  - **SOCI 346. Introduction to the Developing Societies**
  - **SOCI 354. Social and Cultural Stratification**
  - **SOCI 360. Social Movements**
  - **SOCI 361. Sociology of Organizations**
  - **SOCI 366. Sociology of Knowledge**
  - **SOCI 375. Medical Sociology**

- **Political and Global Analysis**
  - **SOCI 214. Social Deviance**
  - **SOCI 260. Sociology of Culture**
  - **SOCI 313. Processes of Social and Cultural Change**
  - **SOCI 321. Politics in Society**
  - **SOCI 342. Muslim Movements in the Middle East**
  - **SOCI 344. Work and Society**
  - **SOCI 346. Introduction to Developing Societies**
  - **SOCI 361. Sociology of Organizations**
  - **SOCI 375. Medical Sociology**

- **Community Action and Evaluation**
  - **SOCI 265. Sociology of the Community**
  - **SOCI 276. Sociology of Families**
  - **SOCI 280. Social Gerontology**
  - **SOCI 321. Politics in Society**
  - **SOCI 331. Sociology of Religion**
  - **SOCI 327. Juvenile Delinquency**

Anthropology Program

Mission Statement

Anthropology is unique among the social sciences in that it celebrates humans as biological organisms and as innovative, creative, culture-bearing beings. Through course work, field schools, study abroad, independent studies and internships, students learn about cultural, linguistic, and biological diversity, human biological characteristics, and the human past as revealed by archaeology. The anthropology program provides globally-oriented courses that stress critical thinking, method and theory, gathering and interpreting data, intensive reading and writing, hands-on learning and the research methods and techniques used by anthropologists to understand contemporary human problems.

Goals

The Anthropology program has the following goals:

- To introduce students to the nature of culture and of diverse cultural systems, their social organization and how anthropologists interpret cultural differences and similarities.
- To introduce students to the relevance of human biology for understanding contemporary human populations and biological variation and disease and to provide them with the fundamentals of evolutionary theory and the fossil and genetic evidence that supports it.
- To develop student understanding of cultural origins and the development of human societies through the analysis of material remains (artifacts) left by prehistoric and historic cultures.
- To encourage an integrative approach to understanding the human condition that incorporates the contributions of all sub-disciplines of anthropology.

Career Opportunities and Marketable Skills

An undergraduate degree in Anthropology provides a solid foundation for a wide range of rewarding careers. Students with a B.A. or B.S. degree in anthropology have gone on to become:

- Graduate students in archaeology, cultural anthropology, biological anthropology, linguistics and area studies programs
- Professors of anthropology in each of the sub-disciplines
- Professional students in law, medicine, education, international affairs, public policy and public health
- Americorps and Peace Corps volunteers
- Archivists
- Business executives
- City planners and government officials
- College librarians
- Field archaeologists
- Cultural affairs directors
- Historical preservationists
- Museum and zoo curators and staff
- International aid workers and development consultants
- Management trainees
- Nurses, medical technicians and physicians assistants
- Forensic analysts
- Coroners
- Technical writers
- Conservation scientists and practitioners

[http://www.jmu.edu/catalog/14](http://www.jmu.edu/catalog/14)
The anthropology major is a liberal arts program that stresses such marketable skills as:
- Data analysis
- Computer skills
- Critical thinking
- Global knowledge
- Research skills
- Rigorous writing and presentation skills

Co-curricular Activities and Organizations
- Lambda Alpha, Anthropology Honors Society
- Student Anthropology Club

Major requirements (listed below) and electives | 40-41
Total | 120

Concentrations

Cultural Anthropology

Cultural anthropology is at the core of anthropology. It provides students with in-depth experience in the interpretation and comparison of cultures. It is closely linked to the humanities and to other social sciences. Students learn what culture is, how different cultural systems and forms of social organization work, how language both reflects and constitutes culture and methodological and theoretical frameworks for interpreting cultural differences and similarities. Students work closely with cultural anthropology faculty to choose a series of electives from both within and outside of the department to refine their own research interests.

Students are encouraged (but not required) to become proficient in a foreign language beyond the level required for the B.A. and to develop a regional area of specialization through course work or a minor (e.g. Latin American studies, Africana studies, Middle Eastern studies, Asian studies). Outside upper-level electives are recommended in history, sociology, economics, religion, modern foreign languages and political science. Students are encouraged to pursue study abroad, ethnographic field school and internship opportunities.

http://www.jmu.edu/catalog/14
Archaeology

Archaeology is the study of the development and change of human societies from the prehistoric past to the present through the identification, gathering and interpretation of material remains. While a major contributor to biological anthropology and forensics, archaeology is most closely tied to cultural anthropology and has been described as cultural anthropology in the past tense. As demonstrated by the emergence of discipline of historical archaeology, the field has strong ties to the practice of history. Students planning a career in archaeology might enroll in an archaeological field school. Those interested in historical archaeology should consider the cross disciplinary historical archaeology minor. Archaeology students are also encouraged to take ANTH 435, Ethnographic Genres and Methods. This sub-discipline shares strong methodological and thematic ties with history, geology, geography, biology and art history and upper-level course electives from these areas are encouraged. Students may consider co-majoring or minoring in these fields as a complement to their education.

Electives: 6

1 Students should take two of GANTH 195, GANTH 196 or ANTH 197 and at least one anthropology elective before taking ANTH 375.
2 Students may take up to two adviser approved electives at the 300 or 400 level from courses outside of the program.
3 Suggested electives include: ANTH 406, Language and Culture; area studies courses such as ANTH 265, Peoples and Cultures of Latin America and the Caribbean; ANTH 322, Native Americans; ANTH 280, Peoples and Cultures of Sub-Saharan Africa; ANTH 295, Peoples and Cultures of East Asia; and upper-division courses addressing topical issues which are generally more theoretically intense such as ANTH 390, Topics in Cultural Studies; ANTH 313, Culture Process and Change; ANTH 323, Visual Anthropology; ANTH 370, Topics in the Anthropology of Gender; and ANTH 395, Special Topics.
4 One upper-division course and two electives.

Electives 2, 3 12

Biology

The focus of biological anthropology is the study of human biology from an evolutionary perspective. Biological anthropology is interested in understanding how and why the human species became what it is today. Thus, it involves the study of human evolution, human biology and its variation, human ecology (how humans interrelate with their environment) and primate behavior and biology (to place humans in the proper comparative context). Biological anthropologists also recognize that human culture, and learned behavior in general, are fundamentally important to understanding the human condition which leads them to emphasize a bi-cultural approach in which both biology and culture are integrated into a holistic understanding of humanity. Students work closely with biological anthropology faculty to choose electives from both within and outside of the department to refine their own research and scholarly interests. Upper-level electives in biology, psychology and/or geographic sciences are recommended depending on the student’s particular goals. Students might consider taking a minor or second major in these disciplines. Students are strongly encouraged to gain practical experience in biological anthropology through study abroad, internships or independent study with faculty.

Electives 5-6 10-11

1 Students should take two of GANTH 195, GANTH 196 or ANTH 197 and at least one anthropology elective before taking ANTH 375.
2 Students may take up to two adviser approved electives at the 300 or 400 level from courses outside of the program.
3 Students may take up to two adviser approved electives at the 300 or 400 level from courses outside of the program.
4 An archaeological field school is strongly encouraged for any students wishing to pursue professional or graduate opportunities. ANTH 435, Ethnographic Genres and Methods, is also recommended.

http://www.jmu.edu/catalog/14
Mission Statement
The mission of the Sport and Recreation program is to develop a community of learners through quality education that integrates theory, practice, and personal growth in the hospitality, sport and recreation industries.

We are dedicated to the development of future leaders in sport and management professions through a course of study that maximizes the potential of individuals and society.

Sport and Recreation Management is committed to providing:
- An outstanding undergraduate program based on the criteria of relevant professional associations, which will enable graduates to be successful in their professional endeavors.
- A program that builds upon the strong liberal studies background provided through General Education.
- Opportunities that challenge students to think critically, to use technology and to appreciate the global community.
- Research and development projects that push back the boundaries of knowledge and promote effective practice in sport and recreation management.

Career Opportunities
Graduates with this degree will be employed in professional sport organizations, semi-professional sport organizations, collegiate athletics, sport marketing agencies, sport broadcasting venues, facility management in both sport and recreation, community recreation agencies, commercial recreation agencies, theme parks, military recreation as well as hotels, resorts and other hospitality and entertainment venues.

Careers in sport and recreation management are plentiful. The listing below offers examples of possible career paths and is not meant to be comprehensive.
- Fitness/Health Club Manager
- Sports Agent
- Sports Event Coordinator
- Athletic Director
- Athletic Coach
- Aerobics Instructor
- Sportscaster
- Media Relations Specialist
- Sports Information Specialist
- YMCA Youth Leader
- Recreation Professional
- Sports Marketing Specialist
- Community Center Director
- Corporate Fitness Leader
- Director of Stadium Operations
- Director of Ticket Operations
- Professional Sports Scout
- Promotion Director
- Youth Programs Director
- Campus Recreation Director
- Athletic Contract Manager
- Sports Camp Director
- Sports Agent
- Athlete
- Event Coordinator
- Media Relations Specialist
- Sports Information Specialist
- YMCA Youth Leader
- Recreation Professional
- Sports Marketing Specialist
- Community Center Director
- Corporate Fitness Leader
- Director of Stadium Operations
- Director of Ticket Operations
- Professional Sports Scout
- Promotion Director
- Youth Programs Director
- Campus Recreation Director
- Athletic Contract Manager
- Sports Camp Director

Co-Curricular Activities and Organizations
In order to enhance the educational, experiential, networking and professional opportunities for our students, sport and recreation management (SRM) offers and encourages involvement in a wide variety of co-curricular activities and SRM-related conferences and organizations. Co-curricular activities also include required practicum and internship experiences for which academic credit is given. Below is a list of SRMs most prominent activities:

Conferences and Events
- Sports Events Marketing Experience (SEME)
- Sport Industry Networking and Career Conference (SINC)
- National Intramural Recreational Sports Association (NIRSA) Annual Conference and Recreational Sports Expo
- National Recreation and Parks Association (NRPA) National Conference
- Association of Outdoor Recreation Education Annual Conference

Professional Organizations
- National Intramural Recreational Sports Association (NIRSA)
- National Recreation and Parks Association (NRPA)
- North American Society for Sport Management (NASSM)
- American Alliance for Health, Physical Education, Recreation and Dance (AAHPERD)
- Association of Outdoor Recreation and Education

JMU Clubs and Organizations
- Phi Epsilon Kappa
- SRM Major’s Club (SLAM)
- Sports Clubs

http://www.jmu.edu/catalog/14
Practicums and Internships
SRM requires its students to complete a practicum and an internship. Both count as academic credit hours. These are opportunities for the student to gain valuable experience by working in his/her field of choice in a sport or recreation-related agency. The opportunities are almost endless.

While enrolled in SRM 482. Internship in Sport and Recreation Management, students may only take one additional course (three or four credit hours). The additional course must be approved in advance by the site supervisor and the director of SRM.

School of Theatre and Dance
Terry Brino-Dean, Director
Cynthia Thompson, Associate Director
Phone: (540) 568-6342
Location: Forbes Center for the Performing Arts
Website: http://www.jmu.edu/theatredance

Professors
W. Buck, P. Johnson, S. O’Hara, C. Thompson, K. Trammell

Associate Professors

Assistant Professors
J. Burgess, M. Conti, R. Corriston, I. DeSanctis, Z. Dorsey, B. Lambert, R. Lustig, J. Stewart

Mission Statement
The School of Theatre and Dance is rooted in the belief that the relevant artist is the thinking artist who couples the mastery and embodiment of concrete skills with knowledge of and sensitivity to the cultural environments of ideas, artistic forms and other persons. The school trains and educates artists, scholars and teachers in the rich traditions and current practices of dance, theatre and musical theatre. Dedicated to the value of the intensive B.A., the school’s programs blend liberal arts education and critical thinking with intensive, pre-professional training and practice. Faculty foster an environment that values and cultivates creative, passionate, disciplined, curious, innovative, engaged, articulate, collaborative and independent-thinking artists and scholars. Committed to a teaching approach that emphasizes mentorship and individual attention to students, faculty members of the school empower students in the development of their own personal strengths, provide them with tools and opportunities to realize their potential, and equip them for successful work in professional environments, graduate programs and as lifelong learners.

Objectives
To realize this mission, the School of Theatre and Dance strives to:

- Develop in students the ability to work productively and sensitively in creative and collaborative processes.
- Offer multiple opportunities for students to self-initiate and self-produce work in a context supportive of experimentation.
- Produce performances and creative experiences of high quality.
- Present performances by and learning experiences with visiting artists.
- Motivate students to take active responsibility for their work, processes and careers.
- Promote, support and enable faculty professional development so that teachers continue to provide the education for students that only growing, current and active creative artists and scholars can provide.
- Inspire and prepare students to be advocates for the arts.
- Foster an understanding of the roles of the artist and the arts in society.
- Advance dynamic partnerships with diverse communities.

Career Opportunities
For information about career opportunities in theatre and dance, contact the appropriate coordinator:

- Theatre Coordinator: Dr. Terry Brino-Dean
- Dance Coordinator: Ms. Cynthia Thompson
- Musical Theatre Coordinator: Ms. Kate Arecchi

Co-curricular Activities and Organizations
The School of Theatre and Dance offers a number of co-curricular activities and organizations. They allow students to apply and experiment with the theories they learn in the classroom and gain practical experience in their field.

- Alpha Psi Omega
- Associate Dance Ensemble
- Children’s Playshop
- Contemporary Dance Ensemble
- Dance Studio Productions
- Dance Theatre
- Studio Theatre Productions
- Experimental Series Productions
- Mainstage Productions
- National Honor Society for Dance Arts
- Stratford Players
- Virginia Repertory Dance Company
- USITT Student Chapter

Special Admission and Retention Requirements
Admission to the dance concentration is competitive and an audition/interview is required. Contact the school office by calling (540) 568-6342 or visit the School of Theatre and Dance website for current audition information.

Admission to the musical theatre concentration is competitive and an audition/interview is required. Contact the school office by calling (540) 568-6342 or visit the School of Theatre and Dance website for current audition information.

Admission to the theatre concentration is competitive and an audition or portfolio review and interview is required. Contact the school office by calling (540) 568-6342 or visit the School of Theatre and Dance website for current audition information.

http://www.jmu.edu/catalog/14
A grade of "C" or better must be achieved in all courses that apply to a major in the School of Theatre and Dance. All School of Theatre and Dance majors must complete the General Education program. Theatre/Musical Theatre concentration students cannot take DTHEA 210, Introduction to Theatre, to meet the visual and performing arts requirements. Courses from other departments may not be counted both for the School of Theatre and Dance major and for another major.

Degree and Major Requirements
Bachelor of Arts in Theatre and Dance
The School of Theatre and Dance offers one B.A. major with a choice of three concentrations: theatre, dance or musical theatre. A theatre and dance major must fulfill core requirements and the requirements of a particular concentration.

Degree Requirements
Required Courses Credit Hours
General Education 1 41
Foreign Language classes (intermediate level required) 2 0-14
Philosophy course (in addition to General Education courses) 3
University electives 4-31
Major requirements (listed below) 42-58
120

1 The General Education program contains a set of requirements each student must fulfill. The number of credit hours necessary to fulfill these requirements may vary.
2 The foreign language requirement may be satisfied by successful completion of the second semester of the intermediate level of the student's chosen language (typically 232) or by placing out of that language through the Department of Foreign Languages, Literatures and Cultures' placement test.

Major Requirements
All students pursuing a B.A. degree in the School of Theatre and Dance must complete the core requirements listed below.

Core Requirements Credit Hours
Choose one of the following: 2-3
DANC 140. Elementary Modern Dance 1
DANC 142. Elementary Ballet
DANC 143. International Folk Dance
DANC 144. Ballroom Dance
DANC 146. Jazz Dance 2
DANC 245. Dance Improvisation 1
DANC 325. Dance in Community (3 credits) 3
DANC 390. New Directions in Dance 3
THEA/DANC 171. Performance Production 3
THEA 273. Visual Aspects 3
THEA/DANC 100. Theatre and Dance Colloquium (6 enrollments) 0
8-9

1 DANC 140 and DANC 245 are not core options for the dance concentration.
2 DANC 146 is not a core option for the musical theatre concentration.
3 DANC 325 and DANC 390 are not core options for the musical theatre concentration or the theatre concentration options.

Concentrations
In addition to meeting the core requirements, students must choose a concentration and complete the concentration requirements. The concentrations and their requirements are listed here.

Theatre Program
Coordinator: Dr. Terry Brino-Dean
Phone: (540) 568-4850

Courses Credit Hours
Core Courses 8-9
Concentration General Requirements 4
Theatre Practicum 4
Choose four different areas of main stage productions for one credit each from scenery, lighting, costumes, management or performance.
THEA 204 or 304. Theatre Practicum: Scenery
THEA 205 or 305. Theatre Practicum: Lighting
THEA 206 or 306. Theatre Practicum: Costume
THEA 207 or 307. Theatre Practicum: Management
THEA 298 or 308. Theatre Practicum: Performance
THEA 211. Performance Analysis 3
THEA 251. Acting I: Basic Acting 3
THEA 315. The European Theatre Tradition to 1800 3
THEA 316. The European Theatre Tradition from 1800 3
THEA 481. Theory and Performance Studies 3
Choose one of the following: 3
THEA 441. Senior Seminar in Theatre
THEA 442. Senior Seminar (1 credit) and
THEA 499. Honors Thesis (2 credits)
Performance Requirements (choose one) 3
THEA 351. Acting II: Intermediate Acting
THEA 355. Directing
Design/Technology Requirements (choose one) 3
THEA 271. Technical Theatre
THEA 331. Technical Costuming
THEA 332. Survey of Costume
THEA 374. Stage Lighting
THEA 376. Scene Design
Track Options 9
Theatre concentrators may fulfill the requirements for one or more tracks listed below or complete nine THEA credits not already applied to the major. 2

Theatre Studies Track
Choose any nine THEA credits not already applied to the major or six THEA credits and one of the following courses:
ENG 317. Shakespeare's Tragedies and Romances
ENG 318. Shakespeare's Comedies and Histories
ENG 320L. Shakespeare on the Page and Stage in London
ENG 333. Modern Drama
ENG 334. Contemporary Drama
THEA 449. London Theatre
THEA 485. American Theatre

Performance Track
THEA 452. Acting III: Contemporary Scene Study
THEA 453. Acting IV: Approaches to Heightened Language
THEA 460. Auditioning and Professional Issues

Design/Technology Track
Choose two courses not already applied to the major:
THEA 333. Costume Design
THEA 374. Stage Lighting
THEA 375. Sound Design
THEA 378. Scene Design

http://www.jmu.edu/catalog/14
Choose one course not already applied to the major:
THEA 271. Technical Theatre
THEA 331. Technical Costuming
THEA 332. Survey of Costume
THEA 336. Stage Makeup
THEA 371. Advanced Technical Theatre
THEA 375. Sound Design
THEA 471. Stage Management
THEA 473. Advanced Design and Rendering
THEA 390/490. Special Topics (with permission)

Theatre Education Track
(Students who complete the theatre education track fulfill the requirements to earn PreK-12 teaching licensure in theatre. This track requires 12 THEA credits.)
THEA 303. Topics in Theatre (Methods – Primary)
THEA 303. Topics in Theatre (Methods – Secondary)
THEA 310. Theatre for Young Audiences
THEA 490. Special Studies in Theatre (Practicum)

For the theatre education track, the following courses (20 credit hours) are required in addition to the track courses with THEA designations:

G/PSYC 160. Life Span Human Development (may double count)
EDUC 300. Foundations of American Education
EDUC 480. Student Teaching
READ 420. Content Area Literacy, K-12

1 THEA 390, Directed Projects; THEA 490, Special Studies; THEA 499, Honors; No more than four hours of practicums may be applied to the theatre concentration, and no more than 10 hours of special studies (including practicums) may be applied to the theatre concentration.
2 Students in tracks receive track-related advising. In order to formally pursue a track option, students must apply for the track at the end of the sophomore year.

Recommended Schedule for Theatre Concentration

First Year

Teacher Licensure in Theatre
Adviser: Leah Kirkpatrick
Phone: (540) 568-2337

In addition to general education and theatre and dance requirements, students desiring PreK-12 teaching licensure in theatre must complete eight credits of additional coursework in education and psychology and 12 credits of student teaching. Within the major requirements, students interested in licensure must complete 12 hours of theatre education courses as part of their theatre education track. It is necessary to be admitted to the teacher education program prior to enrolling in professional education courses. For a complete description of admission and retention policies and procedures for teacher education, refer to the College of Education.

Students seeking licensure are encouraged to consult regularly with the program adviser of theatre education. The undergraduate degree leading to licensure must include the following minimum requirements in theatre:
- Theatre education track requirements (12 credits)
- All theatre and dance major core requirements (8 credits)
- All theatre concentration non-track requirements (28 credits)
- Directing to fulfill the concentration performance requirement (three credits)

The following is a list of the required courses leading to PK-12 theatre licensure and a suggested sequence of when each may be taken. The first four theatre courses are track requirements; THEA 355 fulfills the performance requirement for the concentration and Virginia teacher licensure.

Required Theatre Courses

THEA 310. Theatre for Young Audiences (second or third year) 3
THEA 303. Topics in Theatre (Methods–Primary) (second or third year) 3
THEA 303. Topics in Theatre (Methods–Secondary) (second or third year) 3
THEA 490. Special Studies in Theatre (Practicum) (fall semester fourth year) 3
THEA 355. Directing (must be taken to fulfill the concentration performance requirement) 3

Required Education and Psychology Courses

PSYC 160. Life Span Human Development 3
EDUC 300. Foundations of American Education 3
READ 420. Content Area Literacy, K-12 2
EDUC 480. Student Teaching 12

Two semesters for a total of four credits: 1
DANC 240. Intermediate Modern Dance I

Two semesters for a total of four credits:
DANC 340. Intermediate Modern Dance

One semester for a total of two credits:
DANC 440. Advanced Modern Dance

Select four credits from the following courses:
DANC 242. Intermediate Ballet I
DANC 342. Intermediate Ballet II

48-49

The student is required to complete 10 credits in modern and four credits in ballet technique, with placement to be assessed in conference with dance faculty. Modern, ballet and jazz technique classes all have an advanced level course in the curriculum. The requirements listed above are the minimum level expected of dance concentration students. Most majors will take additional technique courses as university electives throughout their study in the dance program.

Recommended Schedule for Dance Concentration

First Year
DANC 110. Associate Ensemble (fall)
DANC 171. Performance Production
DANC 210. Associate Ensemble (spring)
DANC 240. Intermediate Modern (fall and spring)

Teacher Licensure in Dance
Adviser: Suzanne Miller-Corso
Phone: (540) 568-3924

In addition to general education and theatre and dance requirements, students desiring PreK-12 teaching licensure in dance must complete additional course work in kinesiology, health science, education and psychology and 12 credits of student teaching. It is necessary to be admitted to the teacher and dance education program prior to enrolling in professional education courses.

Course Requirements
Students seeking licensure are encouraged to consult regularly with the faculty adviser of dance education. The undergraduate degree leading to licensure must include the following minimum requirements in dance:

- Credit must be earned in each area: ballet, folk, jazz and modern dance (8 credits)
- Credit must be earned beyond the beginning level of ballet, folk, jazz and modern dance (3 credits)
- Credit must be earned in dance composition, dance improvisation and dance production (minimum of 7 credits)
- Credit must be earned in human anatomy, kinesiology, and injury prevention and care for dance (9 credits)
- Credit must be earned in history of dance (3 credits)

Creative Writing Minor

The cross disciplinary minor in creative writing is designed to give students an opportunity to develop their writing talents across a number of literary forms and communication contexts.

Film Studies Minor

The cross disciplinary minor in film studies is designed for students who wish to extend their critical understanding of visual communication and narrative form by studying how movies tell stories, convey information and influence audiences.

Credit by Examination

A student may earn credit for a course in the School of Theatre and Dance by passing an examination. The school administers credit by examination tests during only the first two weeks of a fall or spring semester. The tests will not be offered during summer sessions. A student can take a credit by examination test only once during a semester.

A student must request permission for credit by examination by the end of the semester that precedes the semester in which he/she wants to take the examination. Theatre and dance majors who want to meet a major requirement through examination must take the examination before their final year of study. The school does not offer credit by examination for performance or design courses such as acting, directing, scene design, lighting design, costume design, makeup, stage management, dance technique, composition and ensembles.

Mission Statement
The School of Writing, Rhetoric and Technical Communication is a community committed to preparing its students — both writers and technical and scientific communicators — for lives of enlightened, global citizenship.

Goals
The goals of WRTC are to help students:
- Develop into accomplished writers and editors.
- Evaluate the effectiveness of communication based upon the principles of rhetoric.
- Develop proficiency in critical thinking, technological and analytical skills.
- Create for themselves an area of expertise applicable to work as professional communicators.

Career Opportunities
In the WRTC major, students learn the kinds of research, analytical and reasoning skills that will allow them to become successful professionals in a wide range of fields. WRTC graduates can expect career opportunities in writing, editing or production positions with a variety of business, educational or industry employers, including the computer hardware and software industry, law firms, journalism, health care providers, pharmaceutical manufacturers, education, engineering companies, publishing houses, environmental organizations, not-for-profit or political organizations and technical translation groups of multinational corporations.

Professional Activities and Organizations
Internships
The WRTC internship is a requirement for all B.A. and B.S. students. It allows students to utilize the preparation that they received from their WRTC course work to design, write, edit and produce professional documents for internship providers in academia, business, industry and government. Information about internships may be obtained through the WRTC website.

Lexia
Lexia is a student-run, online journal that publishes innovative student work in WRTC. Its mission is to publish a range of quality texts that best represent the work of WRTC students and the disciplines of writing, rhetoric and technical communication.
Lexia is created and managed by students enrolled in WRTC 328: Practicum. These practicum students develop the criteria used to evaluate essays, read and discuss each submission and work individually with winning essayists to polish their work for publication at http://www.jmu.edu/lexia/.

STC Student Chapter
The Society for Technical Communication offers a unique opportunity for members to seek recognition for their work and obtain professional contacts. STC is comprised of over 23,000 individual members throughout the world, making it the largest organization of its kind. The James Madison University STC Student Chapter was established in the fall of 1999, offering students a venue for exploring networking and applied skills.

Service to the University
English as a Second Language
WRTC 100 is available for English as a second language (ESL) students and others who wish to enhance their writing preparation prior to taking GWRTC 103.

http://www.jmu.edu/catalog/14
Honors Program
WRTC faculty regularly offer honors sections of WRTC 103.

Interdisciplinary Liberal Studies
WRTC faculty are active participants in creating and sustaining the Interdisciplinary Liberal Studies (IDLS) major for teacher education students, K-8.

Madison Writing Awards
The Madison Writing Awards (MWA) is a university-wide competition that celebrates writing across the curriculum in all academic programs. These awards reflect the commitment of James Madison University, the College of Arts and Letters and the School of Writing, Rhetoric and Technical Communication to prepare students for educated and enlightened global citizenship through the outlets of writing and rhetoric. The MWA biennial awards ceremony features a showcase of winning pieces as well as the presentation of cash prizes.

Degree and Major Requirements
The study of writing, rhetoric and technical communication includes two concentrations in the undergraduate major: technical and scientific communication and writing and rhetoric. The WRTC major emphasizes scholarly, humanistic and social scientific perspectives on the function and application of communication technologies, with instruction in areas such as:

- literacy studies
- rhetorical traditions
- writing pedagogy
- editing
- Web theory and design
- publications management
- knowledge and information management
- writing for professional communities such as government, medical, scientific and academic

In addition to offering students the rhetorical tools with which to excel as professional communicators, the B.A. and B.S. programs also prepare graduates for academic studies in writing, rhetoric and technical communication at the master’s level as well as for professional programs such as law school.

The B.A. and B.S. programs in WRTC unite three disciplines into a flexible yet historically and theoretically grounded degree program. The WRTC degree teaches students to think in ways that cross disciplinary lines and to demonstrate accomplishment in multiple genres of writing, rhetoric and technical communication. Students work with their WRTC advisers to design a program that fits their unique educational needs and career aspirations.

Course requirements differ between the B.A. and B.S. programs and students are advised to maintain regular contact with their WRTC adviser to ensure timely graduation. Requirements and eligible courses for the B.A. and B.S. in each of the two concentrations are outlined below.

Bachelor of Arts in Writing, Rhetoric and Technical Communication

Prerequisites

Prerequisites for most WRTC 200 and above level courses require completion of WRTC 200 and WRTC 201. Students may enroll in some courses for which they have not taken the prerequisite courses with permission of the instructor.

Concentrations

All students must choose a concentration in either technical and scientific communication or writing and rhetoric. In addition to the 16 credit hours of core requirements, students must take an additional 21 credit hours of WRTC electives, 12 of which are concentration-specific.

http://www.jmu.edu/catalog/14
**Technical and Scientific Communication**

All technical and scientific communication (TSC) concentrators must take WRTC 350 and choose three additional WRTC courses from the following list of TSC electives. In addition, TSC concentrators must take one WR elective, one crossover elective and one community-based learning elective.

**TSC Concentration Courses**

- WRTC 350. Foundations of Technical Communication 3
- TSC Electives (Choose three of the following): 9
  - WRTC 352. Online Design I
  - WRTC 354. Document Design
  - WRTC 356. Web Theory and Design
  - WRTC 358. Writing About Science and Technology
  - WRTC 450. Digital Rhetoric
  - WRTC 452. Online Design II
  - WRTC 454. Publication Management
  - WRTC 456. Usability Testing
  - WRTC 458. Scientific and Medical Communication

**WR Electives (Choose one of the following):**

- WRTC 330. Rhetorical Analysis and Criticism
- WRTC 332. Computers and Writing
- WRTC 334. Introduction to Popular Writing
- WRTC 336. Tutoring Writing
- WRTC 338. Genre Theory
- WRTC 340. Writing as Leading
- WRTC 342. Writing Place
- WRTC 430/SCOM 343. Contemporary Rhetorical Theory and Practice
- WRTC 432. Rhetoric of the Personal Narrative
- WRTC 434. Advanced Popular Writing
- WRTC 436. Teaching Writing

**Crossover Electives (Choose one of the following):**

- WRTC 310. Semiotics
- WRTC 312. Studies in Literacy
- WRTC 314. Writing in the Public Sphere
- WRTC 316. Research Methodologies in WRTC
- WRTC 326/SCOM 354. Environmental Communication and Advocacy
- WRTC 410. Sociolinguistics
- WRTC 412. Language and Information Management
- WRTC 414. Major Theorists in WRTC
- WRTC 416/SCOM 465. Rhetoric of Environmental Science and Technology
- WRTC/SCOM/WMST 420. Feminist Rhetorics
- WRTC 426. Special Topics in Writing, Rhetoric and Technical Communication

**Community-Based Learning Electives (Choose one of the following):**

- WRTC 478. Writing in the Legal Professions
- WRTC 480. Writing for Business and Industry
- WRTC 482. Writing for Government
- WRTC 484. Writing for Nonprofits
- WRTC 486. Writing in the Community
- WRTC 488. Writing in the Health Sciences

---

**Recommended Schedule for B.A. Majors**

Students are encouraged to begin their WRTC course work as soon as possible in their degree plans. The following sample program of study illustrates how a WRTC major might earn a B.A. degree.

1 Completion of an intermediate level foreign language is required for the B.A. degree (usually six hours if begun at the intermediate level) unless the language requirement is satisfied by an exemption test. In that case, university electives may be substituted for additional hours indicated as foreign language courses.

Recommended Schedule for B.S. Majors

Students are encouraged to begin their WRTC course work as soon as possible in their degree plans. The following sample program of study illustrates how a WRTC major might earn a B.S. degree.

Minor Requirements (WRTC 200. Introduction to Studies in Writing, Rhetoric and Technical Communication)

http://www.jmu.edu/catalog/14
Course Descriptions

Semester course listings are available on the university’s website. Consult the Registrar’s Office website or https://mymadison.jmu.edu/ for information about dates, deadlines and registration procedures. Some courses are not offered every semester.

A G in bold and italics or an asterisk (*) preceding the course prefix and number indicates a course which potentially meets general education requirements. (If the course is part of a course sequence, the asterisk appears after the appropriate course’s prefix and number.) See the General Education section for additional information.

If a course has a separate laboratory period, the number of lecture hours and the number of laboratory hours per week will be shown in parentheses immediately following the course title.
Accounting

College of Business

ACTG 244. Accounting for Non-Business Majors. 3 credits.
For non-business majors only. Introduces basic business and accounting topics such as revenue, investments, expenditures, liabilities, credit, cash management and taxation. Heavy emphasis is placed on the measurement of operating performance and interpretation and use of accounting data for organizational decision-making. Not recommended for students seeking admission to MBA programs. Prerequisite: Sophomore standing or higher.

ACTG 302. Introduction to the Profession: Role of Accountants. 1 credit.
This class relies heavily on discussions with practicing accountants in public accounting, industry and government. Topics include career preparation and the role of accountants in business and capital markets. Written assignments are used to enhance communication skills. Prerequisites: Completion of both COB 241 and COB 242 with a "B" or better. Prerequisite or corequisite: COB 300.

ACTG 303. Basic Spreadsheet Skills for Analysis and Reporting of Accounting Information. 1 credit.
This class provides students with hands-on learning and practice with basic Excel skills necessary in the workplace. Topics include creating and printing professional documents, navigating through workbooks, creating and editing formulas, using basic logical and statistical functions and creating charts. Prerequisite or corequisite: ACTG 302 or permission of the department head.

ACTG 304. Advanced Spreadsheet Skills for Analysis and Reporting of Accounting Information. 1 credit.
This class provides students with hands-on learning and practice with advanced Excel skills. This class focuses on preparing students to become Microsoft Certified Application Specialists in Excel. Topics include customizing charts, using advanced financial, logical, and statistical functions, pivot tables and pivot charts, evaluation of formulas and collaboration of workbooks. Prerequisite: Completion of ACTG 302 with grade of "C-" or better.

ACTG 313. Accounting Information Systems. 3 credits.
Covers the use of accounting systems for the collection, organization, analysis and reporting of accounting data. Topics include: internal controls, documentation of accounting systems, transaction processing cycles, auditing information technology, e-commerce, computer and information systems security, and integration of business functions in the accounting process. Prerequisites or corequisites: ACTG 303 and ACTG 343.

Provides a theoretical framework to explain and critically evaluate financial reporting by businesses. In addition to studying the authoritative standards for preparing financial statements, students develop the ability to read, use, analyze and interpret financial statements. Students gain an understanding that managers can shape the financial information communicated to investors and creditors. Prerequisite or corequisite: ACTG 302 or permission of the department head.

ACTG 344. Corporate Financial Reporting II. 3 credits.
Continues the development of a theoretical framework to read, use, analyze, interpret, explain and critically evaluate financial reporting by businesses. Selected topics include financial instruments, leases, pensions, deferred taxes, stockholders’ equity and other corporate reporting issues. Prerequisite: ACTG 343 with grade of "C-" or better.

Designed to introduce students to the federal income tax system, including individual and business entity taxation. Topics include income, exclusions, deductions and property transactions. Also facilitates development of research skills. Prerequisite or corequisite: ACTG 302 or permission of the department head.

ACTG 410. Auditing. 3 credits.
A study of techniques available for gathering, summarizing, analyzing and interpreting the data presented in financial statements and procedures used in verifying the fairness of the information. Also emphasizes ethical and legal aspects and considerations. Prerequisites: ACTG 313, ACTG 303 and ACTG 344 with grades of "C-" or better.

ACTG 420. Operational Auditing. 3 credits.
This course is a study of the basic principles and techniques of operational auditing. It covers organizing and conducting operational audit engagements and addresses regulatory compliance issues. Prerequisites: ACTG 313 and ACTG 343 with grades of "C-" or better. Prerequisite or corequisite: ACTG 344.

ACTG 440. Advanced Information Technology for Accountants. 3 credits.
This course is offered only for accounting majors seeking a minor in CIS. Topics include legacy systems, the systems development life cycle, telecommunications, distributed processing, networking and information security, taught from an accounting perspective. Prerequisite: ACTG 313 with a grade of "C-" or better and declared CIS minor.

ACTG 450. Governmental and Nonprofit Accounting and Reporting. 3 credits.
Focuses on budgeting, accounting and financial reporting principles associated with private and public nonprofit organizations. Includes survey of state, local, municipal and federal government accounting. Prerequisite: ACTG 343 with grade of "C-" or better. Prerequisite or corequisite: ACTG 344.

ACTG 475. Accounting Decision Making and Control. 3 credits.
The study of cost accounting concepts and information used by business organizations to make strategic, organizational and operational decisions. Topics include the role of planning and control in attaining organizational goals and objectives; the relationship among cost structure, cost behavior, and operating income; traditional and activity-based costing approaches to product costing, differential analysis in decision making; and ethical issues for accountants. Prerequisite: ACTG 343 with a grade of "C-" or better. Prerequisite or corequisite: ACTG 304.

ACTG 483. International Accounting and Financial Reporting. 3 credits.
Designed to develop a fundamental knowledge of the assumptions, environmental considerations and techniques underlying the collection and reporting of financial information on an international scale. Prerequisite: COB 300. Open to international business majors only.

ACTG 490. Special Studies in Accounting. 1-6 credits each semester.
Designed to give capable students in accounting an opportunity to do independent study under faculty supervision. Admission only by recommendation of the instructor and permission of the director.

ACTG 498. Honors. 5 credits
See catalog section "Graduation with Honors."

Africana Studies

Cross Disciplinary Studies

AFST 200. Introduction to Africana Studies. 3 credits.
An introductory survey of basic theoretical concepts to analyze the Black experience, with special focus on the general historical process common to Africa and the African Diaspora.

AFST 400. Selected Topics in Africana Studies. 3 credits.
Selected topics are studied in depth. Course may be repeated when content changes.

ARTH/AFST 488. African-American Art. 3 credits.
This course examines visual arts produced by people of African descent in the United States from the colonial period until the present. Course themes include debates about the relationship between racial identity and artistic production; the complex interchange between African-American art and the cultural traditions of Africa and Europe; black artists’ engagement with popular representations of African-Americans; and the intersection of race with class, gender, and sexuality. Prerequisite: GARTH 206, GARST 200 or permission of the instructor.

AFST 489. Africana Studies Senior Research Experience. 1 credit.
In this research-oriented experience, students design and complete research projects relevant to their interests in Africana Studies, as well as connect their projects to previous course work and experiences within the Africana Studies minor. Prerequisites: GARST 200, senior standing and permission of the instructor.

AIRS

College of Education

AIRS 100. Leadership Laboratory. 0 credits.
This course is a mandatory laboratory in leadership and followership development for AFROTC cadets. As a complement to the air science classes, this laboratory focuses on applying leadership principles and understanding leaders’ responsibilities while emphasizing the benefits of practical experience. JMU students will take AFROTC classes at the University of Virginia for JMU credit. Corequisite: Any Air Force ROTC class.

http://www.jmu.edu/catalog/14
AMST 200. Introduction to American Studies. 3 credits.
This course will highlight the student's role in interrogating the cultural and political function of representations of America in literature, history, philosophy, religion, popular culture, music and art. Students will gain an understanding of why definitions of American identity matter and learn about the contemporary debates that inform the discipline of American Studies today. Questions about the changing role of national studies in the face of globalization are central.

AMST 490. Special Studies in American Studies. 3 credits.
Independent study of a topic appropriate to the cross disciplinary method of American studies.

Anthropology

Department of Sociology and Anthropology

GANTH 195. Cultural Anthropology. 3 credits (C, R).
An introduction to the nature of culture and its relationship to language, economics, politics, kinship and other institutions in diverse cultures. The course also provides an overview of the theories, methods and ethical responsibilities involved in the study of cultural systems and ethnographic writing.

GANTH 196. Biological Anthropology. 3 credits (B, R).
An introduction to the origins, evolution and genetic variability of humans and their relationship to nonhuman primates. Examination of the fossil record, the relationship between biology and culture and human genetics are included. Theories and methods used in the study of biological anthropology are also introduced.

ANTH 197. Archaeology. 3 credits (A, R).
An introduction to the goals, methods and theory of anthropological archaeology. The course examines the variety of techniques archaeologists use to reconstruct the past from material remains. Archaeological ethics and the impact of the past on contemporary society are also considered.

ANTH 201. The Discipline of Anthropology. 1 credit (R).
This required course introduces students to the subdisciplines of cultural, biological, linguistic and archaeological anthropology and the logic of their integration within the larger discipline of anthropology. Students will be introduced to current research questions within anthropology and how they are addressed from the perspective of the various subdisciplines.

Prerequisites: Major status or permission of the instructor. It is recommended that students have had at least one of the introductory-level ANTH courses (GANTH 195, GANTH 196 or ANTH 197).

GANTH 205. Buried Cities, Lost Tribes: The Rise and Fall of Early Human Societies. 3 credits (A).
This course takes an archaeological and comparative perspective on the origins of human institutions, including art, architecture, religion, centralized political formations and urban life. The development and collapse of early societies in multiple world regions, including Mesopotamia, Egypt, the Indus Valley, Mesoamerica and the Andes will be explored.

ANTH 250. Anthropology of the American Southwest. 3 credits (A, C).
This course examines the development of Southwestern societies from early hunter-gatherers to the Native American communities of today. Major issues of anthropological interest, such as the adoption of agriculture, the development of village life, migration and abandonment, the spread of religious "cults," the extent of Mesoamerican influence and the effects of the Spanish conquest are explored.

ANTH 265. Peoples and Cultures of Latin America and the Caribbean. 3 credits (C).
Anthropological and historical perspectives on the cultures of Latin America and the Caribbean through such themes as colonialism, nationalism, ethnicity, development, aesthetic traditions, gender, religion and urban and rural resistance movements.

ANTH 280. Peoples and Cultures of Sub-Saharan Africa. 3 credits (C).
This is an introductory course emphasizing cultural diversity of sub-Saharan African societies. Basic anthropological concepts are used in analyzing African economics, political systems, marriage patterns and family organization, religious beliefs and the impacts of colonialism and post-colonial development practices.

ANTH 295. Peoples and Cultures of East Asia. 3 credits (C).
This introductory course examines the peoples and cultures of the core East Asian countries – China, Japan and Korea. The course is organized around anthropological perspectives on topics such as nationalism, consumption, gender, ethnicity and development but also emphasizes the cultural, social and historical characteristics of various groups in these nations, in addition to important cultural flows within region.

http://www.jmu.edu/catalog/14
ANTH 300. The Anthropology of Food. 3 credits (B, C).
This course explores anthropological approaches to food production, distribution, preparation and consumption in the contemporary world. Topics include food preferences and taboos, food and the senses, ritual and identity, technological risks, diet and nutrition, cuisine and class and the political economy of food. Prerequisite: Any lower-level course in anthropology or permission of the instructor.

ANTH/SCOM 305. Language and Culture. 3 credits (C).
An introduction to linguistic anthropology. Explores the complex relationships between language and culture through topics such as language acquisition and socialization; language, thought and worldview; language and identity; multilingualism, how and why languages change, literacy, and the politics of language use and language ideologies.

ANTH 312. The Native Americans. 3 credits (A, C).
A study of the nature of Indian societies occupying different environmental areas of North America at the time of earliest historic contact. Indian groups such as Shawnee, Mandan, Nuuanumit, Natchez, Creek, Iroquois and Sioux will be considered.

ANTH/SOCI 312. Processes of Social and Cultural Change. 3 credits (A, C).
Investigates the procedures through which a society operates and the manner in which it introduces and incorporates changes. Issues considered include belief, innovation, directed change, coercive change, revitalization and revolution.

ANTH 315. Human Evolution. 3 credits (B).
An overview of the fossil record and other evidence for human evolution. Discusses the emergence of the hominids as a lineage distinct from other apes. Provides evidence for the evolution of bipedalism, tool use, hunting, gathering, major increases in brain size, language and material culture and the hypotheses that have been developed to explain the emergence of these characteristics. Prerequisites: GANPATH 196, or BIO 114 and BIO 124, or permission of the instructor.

ANTH 316. Human Evolutionary Psychology. 3 credits (B).
An exploration of human behavior from an evolutionary perspective. Emphasis is placed on the critical evaluation of adaptive hypotheses purported to explain fundamental human behaviors such as survival and mating strategies, reproduction and parenting, kinship and cooperation, dominance and aggression, cultural evolution and religion. Prerequisite: GANPATH 196 or permission of the instructor.

ANTH 317. Primate Evolutionary Ecology. 3 credits (B).
This course explores the interface between an organism and its environment, illustrated with examples from the primates. Behaviors related to feeding, moving, grouping and socializing are considered from an evolutionary perspective. Topics to be discussed include feeding ecology, functional anatomy, the ecology of primate social systems, ranging behaviors, community ecology and the role humans play in shaping primate communities. Prerequisite: GANPATH 196 or permission of the instructor.

ANTH 318. The Evolution of Primate Sexuality and Reproduction. 3 credits (B).
A survey of non-human primate sexuality from an evolutionary perspective. Emphasis is placed on the diversity of behavioral, anatomical and physiological aspects of mating and reproduction across the order Primates. Where appropriate, comparisons with human sexuality are made. Prerequisite: GANPATH 196 or permission of the instructor.

ANTH 319. Human Osteology. 3 credits.
An analysis of the individual bones and teeth that comprise the human skeleton. Emphasis is placed on learning individual bones and teeth as well as the numerous osteological and dental landmarks that characterize them. Applied topics such as bone growth and the analysis of age, sex, stature, pathology and geographic ancestry will also be addressed. Prerequisite: GANPATH 196 or permission of the instructor.

ANTH 322. Human Variation and Adaptation. 3 credits (B).
This course will assess human biology from an evolutionary and anthropological perspective, emphasizing an integrative, holistic understanding. The origin and current distribution of human biological variation will be explored, including geographic, sex and individual variation. Health and disease, growth and development, aging, nutrition and mental health will also be addressed. Prerequisite: GANPATH 196 or permission of the instructor.

ANTH 323. Visual Anthropology. 3 credits (C).
This course explores the anthropological use of visual data for the description, analysis, communication and interpretation of human behavior. Topics include biological, cross-cultural and historical understandings of vision; the social life of visual things; visual cultural production and consumption; and visualization after colonialism, globalization and postmodernity.

ANTH 325. Aztec, Maya and Their Predecessors. 3 credits (A, C).
Survey of the Olmec, Toltec, Teotihuacan, Maya and Aztec civilizations and the factors leading to their development, persistence and decline.

ANTH 327. Ancient North American Civilizations. 3 credits (A).
Studies the emergence of Native American societies prior to historic contact. Emphasizes prehistoric developments in the eastern United States.

ANTH/HIST 331. Historical Archaeology. 3 credits (A).
The course introduces students to the purposes, subject matter, methodology and historical background of the discipline of historical archaeology. Building on research issues and methodologies of anthropological archaeology and history, the multidisciplinary aspects of this field are introduced through field trips, projects, guest lectures, readings and classroom presentations. Prerequisites: ANTH 187 or HIST equivalent.

ANTH 333. Celts, Vikings and Tribal Europe: Art and Culture from 500 to 1100 AD. 3 credits (A).
Building on a heritage of archaeology, art, history, material culture, mythology and literature, the course introduces students to the cultures and traditions of the Celtic, Viking (Norwegian, Danish and Swedish) and Germanic tribal and theocratic cultures that shaped the early civilizations of northern Europe, Britain and Ireland from ca. 500 A.D. to 1100 A.D.

ANTH 340. The Invention of Race. 3 credits (C).
Examines the historical and cultural construction of race in Western thought. Themes include the origins of racial thinking, the slave trade, race and religion, race and science, the ways race is implicated in colonialism and nationalism and the relation between race and other social qualities, including gender, class, sexuality and ethnicity.

ANTH 350. Magic, Witchcraft and Religion. 3 credits (C).
Anthropological study of religion in society. The influence of religion on the development of social, legal, governmental and economic aspects of culture is emphasized.

ANTH/SOCI 352. Birth, Death, Sex: Exploring Demography. 3 credits (B, C).
Fertility (birth) and mortality (death) and their biological and social determinants in cross-cultural and evolutionary/historical frameworks. Explorations of the dynamic between the material constraints on and symbolic significance of, reproduction, sexuality and death within a cultural context. Critical examination of population growth as a global “problem.” Basic demographic methods. Prerequisite: Any lower-level course in anthropology or sociology or permission of the instructor.

ANTH 360. Medical Anthropology. 3 credits (B, C).
This course takes an anthropological approach to the study of health, illness and healing; how do different cultural systems and social institutions influence the experience and interpretation of different bodily states? Material covers critical analyses of Western medicine and ethnomedicine in both specific cultural settings and their global circulation. Topics include disease, epidemics, illness narratives, public health, suffering, pharmaceuticals, disability and health care systems. Prerequisite: GANPATH 195 or permission of the instructor.

ANTH 364. U.S./Latin American Borders. 3 credits (C).
This course examines the experiences of Latin American migrants to the United States. It stresses the cultural expression of those experiences, globalization and its effects on local communities in Latin America, the U.S. responses to migration and migrants. Prerequisite: One course on Latin America.

ANTH 366. Anthropology of War. 3 credits (A, C).
This course examines the causes, conduct and consequences of warfare in non-state societies using both ethnographic and archaeological data. Case studies drawn from throughout the world are used to examine topics such as the co-evolution of war and society, the impact of colonialism on native warfare, the process of making peace and claims about the biological “inevitability” of war.

ANTH/SOCI 388. Contemporary American Culture. 3 credits (C).
This course analyzes contemporary American society in relation to popular cultural formations and representations. Cultural expressions found in music, literature, theatre, film, television, cyberspace and sports will be examined with respect to values, sentiments, identity constructions and lived experiences of differentially situated social actors.

ANTH 370. Topics in the Anthropology of Gender. 3 credits (C).
This course examines the many ways in which gender is constructed and negotiated in different historical and social contexts. Topics will vary with the instructor to include both cultural and biocultural perspectives.

ANTH 372. Anthropological Perspectives on Environment and Development. 3 credits (C).
This seminar provides a history of key ideas and figures in environmental anthropology, as well as examines why this field is, by necessity,
interdisciplinary. Within this context, we will use specific case studies to examine ways in which the concepts and theories of "development" and "environment" have been produced, perpetuated, manipulated and challenged in different geographic and politico-economic circumstances. 

Prerequisite: GANTH 195 or permission of the instructor.

An examination of the major theoretical traditions in social and cultural anthropology. Important theoreticians and the historical contexts in which their work emerged are discussed. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisites: GANTH 195 and junior standing.

ANTH 377. Space/Culture/Power. 3 credits (C).

An introduction to social-scientific approaches to space. We will think critically about how people across cultures shape — and are shaped by — the spaces we occupy. Drawing on examples from around the world we examine the intersections of space, culture and power through such topics as segregation, maps, architecture, prisons, schools, migration politics and more. The course encourages students to think of space — and its intersections with culture and power — in new and sophisticated ways. Prerequisite: GANTH 195.

ANTH/SDCI 390. Topics in Cultural Studies. 3 credits (C).

This course explores contemporary culture through a "cultural studies" lens, an interdisciplinary perspective interested in using empirical knowledge to challenge more just human relations. Specific topics of investigation will vary by semester, but each course will cover cultural studies’ intellectual history and its application to cultural expressions found in everyday life, film, music and text.

ANTH 391. Study Abroad. 1-6 credits (May be A, B, C, F).

Designed to encourage students to enhance their academic programs through studying abroad. Arrangements must be made with a faculty mentor who will direct the study with preparatory instructions and final requirements. May be repeated up to 12 credits.

ANTH 395. Special Topics in Anthropology. 3 credits (May be A, B or C). Examination of selected topics which are of current importance to anthropology. May be repeated for credit when course content changes.

ANTH 405. Topics in Linguistic Anthropology. 3 credits (C).

Examines current issues in the anthropology of language. Topics vary by semester, but each course will include hands-on analysis of social interaction and/or investigation of contemporary case studies of language policy, ideologies and use.

ANTH 410. Spatial Analysis for Anthropologists. 4 credits (A, B and C).

The course teaches students how to identify and solve anthropological problems with spatial data. Hands-on experience is stressed in the acquisition, analysis and display of spatial data using Geographic Information Systems software. Topics include the mapping of race and ethnicity, the acquisition, analysis and display of spatial data using Geographic Information Systems software. Topics include the mapping of race and ethnicity, the application of cultural expressions found in everyday life, film, music and text.

ANTH 415. Anthropological Genetics. 3 credits (B).

Surveys the theory and methods of evolutionary genetics as applied to human evolution and human diversity. Emphasizes human evolution as illuminated by genetics, as well as the intersection of human genetics with social issues such as race, bioethics and eugenics. Prerequisite: GANTH 196.

ANTH 430. Primate Conservation Biology. 3 credits (B).

A discussion-based course that examines the impact of human activities on biodiversity, with an emphasis on the primates. Concepts and theories in conservation biology will be explored and applied to understanding the threats to wild primates and evaluating conservation strategies. Cultural and political perspectives and philosophical and ethical arguments for conserving biodiversity will also be considered. Prerequisite: GANTH 196 or BIO 124 or permission of the instructor.

ANTH 435. Ethnographic Genres and Methods. 4 credits (C,F).

Explores ethnographic methods and conventions of ethnographic writing through close reading, analysis and production of ethnographic texts. Students develop critical skills in assessing ethnographic practice by examining how ethnographies are shaped by authors’ fieldwork experiences, intellectual traditions and theoretical perspectives. Students engage in fieldwork and craft their own ethnographic accounts. Prerequisite: ANTH 375.

ANTH/HIST 436. Afro-Latin America. 3 credits (C).

Latin America and the Caribbean were the first and largest parts of the Western Hemisphere to be populated by Africans. Afro-Latin America examines cultural formations Africans brought to these regions. Beginning with an overview of the slave trade, it examines the histories of Africans and African-descent people throughout Latin America, as well as contemporary Afro-Latin American culture(s). Prerequisites: One course in either Latin American or African studies (any discipline); upper-division status or permission of the instructor.

ANTH 455. Archaeology: Methods of Analysis and Interpretation. 4 credits (A, F).

A review of the nature of inquiry, recent theory and the means by which archaeologist acquire, analyze and interpret their data. In addition to practical training in methods of analysis used in contemporary practice, students will gain experience in designing, conducting and reporting archaeological research. Prerequisites: GANTH 195 and ANTH 197.

ANTH 485. Anthropology Course Assistantship. 1-3 credits.

Students participate as course assistants in anthropology. Assistantships provide students with a sense of what it is like to teach an anthropology course by allowing them to work closely with faculty members through different phases of course preparation, presentation and evaluation. Assistantships also allow for a deeper understanding of course material by providing opportunities for student assistants to lead discussion and to help their peers review the material outside of the classroom. Prerequisites: Students must have junior/senior standing; must have earned a grade of "B" or better in the course for which he/she will serve as assistant and may register by faculty invitation only. May be repeated up to six credits; only three credits can count toward the major. A student may only serve as a course assistant to the same course twice.

ANTH 486. Internship in Anthropology. 1-6 credits (May be A, B or C).

Designed to encourage students to enhance their academic programs by employing and refining anthropological skills through internships in public or private agencies. Arrangements must be made with a faculty member who will oversee the internship. Prerequisite: By permission only. May be repeated up to six credits.

ANTH 490. Special Studies in Anthropology. 1-3 credits (May be A, B or C). Course offers students an opportunity to do independent study under staff supervision. Prerequisite: Admission only by recommendation of the instructor. More than one repeat requires department head approval.

ANTH/ARTH/HIST 492. Material Culture. 3 credits (A).

A broad introduction to the multidisciplinary "field" of material culture studies through readings, written assignments, in-class exercises and field trips. The course introduces ways of looking at and learning from objects and examines how scholars from several disciplines have used material culture in their work. Prerequisite: HIST 395. Instructor's permission required to waive HIST 395 prerequisite for non-history majors.

ANTH 494. Field Techniques in Archaeology. 4-8 credits (A, F).

Laboratory course directed at teaching students the basic field techniques and procedures of historic and prehistoric archaeology. Classroom lectures will present techniques and relevant aspects of method and theory.

ANTH/HIST 496. Research Thesis. 3 credits (A).

Students will gather, analyze and interpret archaeological/historical data over two semesters. Students will work on a project that demonstrates theory, research design, data gathering and analysis, culminating in a written thesis. The course meets the capstone requirement for the historical archaeology minor but is also available to students in history and anthropology. Prerequisite: Junior or senior standing.

ANTH 499. Honors Thesis. 6 credits. (May be A, B, or C). Three semesters. An independent research topic initiated and completed by qualified senior majors who want to graduate with distinction.

Arabic

Department of Foreign Languages, Literatures and Cultures

ARAB 101. Elementary Arabic I. 4 credits.

The fundamentals of modern standard Arabic through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. If a student has had two or more years of the language in high school, he/she will not receive credit for the course.

ARAB 102. Elementary Arabic II. 4 credits.

The fundamentals of modern standard Arabic through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. If a student has had two or more years of the language in high school he/she will not receive credit for the course. Prerequisite: ARAB 101.
ARAB 111. Intensive Arabic I. 6 credits.
The fundamentals of Arabic through intensive listening, speaking, reading and writing. This four-week course is the equivalent of ARAB 101-102.

ARAB 212. Intensive Arabic II. 6 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading at the intermediate level. This four-week course is the equivalent of ARAB 231-232. Prerequisite: ARAB 102 or ARAB 111 or permission of the instructor.

ARAB 231. Intermediate Arabic I. 3 credits.
A thorough review of first-year grammar and vocabulary building. Conversation, composition and reading will be chosen to reach competency at the lower intermediate level Arabic. Prerequisite: ARAB 102 or ARAB 111 or permission of the instructor.

ARAB 232. Intermediate Arabic II. 3 credits.
A thorough review of grammar and vocabulary building, conversation, composition and reading. Prerequisite: ARAB 231 or permission of the instructor.

ARAB 300. Arabic Grammar and Communication. 3 credits.
Intensive training in grammatical structures and their application to oral composition and reading. Prerequisite: ARAB 212 or ARAB 232 or permission of the instructor.

ARAB 307. A History of Islamic Civilization. 600-1600 A.D. 3 credits.
A study of society, economics, politics, culture and the arts of the Islamic world from the rise of Islam to the establishment of the gunpowder empires (Ottoman, Safavid, and Mughal). Instruction is in English.

ARAB 308. Contemporary Islamic Civilization. 3 credits.
A study of society, economics, politics, culture and the arts of the Islamic world, with a focus on the Arabic-speaking regions, from 1700 A.D. to the present. Instruction is in English.

ARAB 320. Arabic Oral and Written Communication. 3 credits.
Intensive training in the use of modern, everyday Arabic with emphasis on conversation and composition. Readings in Arabic will provide a context for discussion and writing. Prerequisite: ARAB 300 or permission of the instructor.

ARAB 330. Business Arabic. 3 credits.
A study of commercial and trade vocabulary and customs in conjunction with practice in commercial communication, including letter writing, interviews and interpretations. Instruction is in Arabic. Prerequisite: ARAB 300 or permission of the instructor.

ARAB 339. Literatures of the Islamic World 600-1500 A.D. 3 credits.
A thorough analysis of selected passages from important authors from early Arabic and Persian literature up to the beginning of the 16th century AD. The material studied will include Arabic poetry and prose from the period just before the rise of Islam to about 1500, and Persian poetry and prose from the spread of the use of New Persian in the 10th century to about 1500. Prerequisite: ARAB 300 or permission of the instructor.

ARAB 340. Intermediate Arabic Conversation. 3 credits.
Course emphasizes oral communication at the intermediate level. Students will use the vocabulary they have learned in the previous Arabic language classes. In addition, students will acquire new vocabulary from in- and out-of-class conversational situations. Prerequisite: ARAB 212 or ARAB 232 or permission of the instructor.

ARAB 371. Advanced Arabic Grammar and Translation. 3 credits.
Arabic/English translation applied in several fields. In this course students analyze the main grammatical differences between Arabic and English with the focus on producing accurate and idiomatic translations into both languages. Prerequisite: ARAB 300 or permission of the instructor.

ARAB 400. Advanced Arabic Writing and Conversation. 3 credits.
Discussions and writings deal with topics of current interest. Prerequisite: ARAB 300 or permission of the instructor.

ARAB 410. Media Arabic. 3 credits.
An introduction to the vocabulary and language of Arabic press media and to the history of mass media in the Arabic speaking world. The focus is on print and Internet media, although media broadcasting in other forms is also covered. Prerequisite: ARAB 300 or permission of the instructor.

ARAB 446. Special Topics in Arabic Literature. 3 credits.
Study of a particular topic in Arabic Literature. May cover all or specific Arabic literature genre. May be repeated if content changes. Prerequisite: ARAB 300 or permission of the instructor.

ARAB 447. Special Topics in Arabic Civilization and Culture. 3 credits.
Students will study a particular topic in the civilization and culture of Arabic countries. Course may be repeated if content changes. Prerequisite: ARAB 300 or permission of the instructor.

ARAB 448. Special Topics in Arabic Linguistics. 3 credits.
Students will study a particular topic in Arabic linguistics. Topics could include an introduction to Arabic sociolinguistics and psycholinguistics. Course may be repeated if content changes. Prerequisite: ARAB 300 or permission of the instructor.

ARAB 490. Special Studies in Arabic. 3 credits.
Special topics or independent studies in Arabic. Prerequisite: Permission of the instructor.

Art
School of Art, Design and Art History
All ART courses are restricted to declared art, art history, graphic design and interior design majors during the fall and spring semesters. During May and summer sessions, ART courses are open to all students who meet the additional stated course prerequisites. Non-majors wishing to enroll in an ART course during fall and spring semesters may request the permission of the instructor.

ART 102. Two-Dimensional Design (0, 6). 3 credits.
Application and appreciation of the principles and elements of design, with emphasis on line, form, color and texture as applied to two-dimensional space.

ART 104. Drawing I (0, 6). 3 credits.
An introductory course composed of problems in landscape, perspective, figure and still-life in several media.

ART 106. Three-Dimensional Design (0, 6). 3 credits.
A course exploring the basic problems in three-dimensional design.

ART 108. Drawing II (0, 6). 3 credits.
A continuation of ART 104 involving more complex problems with emphasis on composition and expressive possibilities of a variety of media including ink, pencil, conte, charcoal and experimental materials. Prerequisite: ART 104.

ART 200. Art in General Culture. 3 credits. Offered fall and spring.
An exploratory course that aims to develop a non-technical, general cultural understanding of the space arts, such as architecture, painting, sculpture and industrial design. Emphasis is on the contemporary.

ART 205. Foundations Seminar. 3 credits.
A required course for studio art majors focused on the exploration and exchange of ideas related to embarking on a studio art career. Contemporary issues and responsibilities faced by emerging artists are emphasized. Students will investigate various visual art disciplines offered by JMU, write an artist's statement, and construct a website and digital portfolio. Corequisites: ART 102 and ART 104.

ART 220. Introductory Ceramics: Potter's Wheel (0, 9). 3 credits.
Explores the aesthetics, conceptualization and design of functional objects. Investigates tactility and the process of realizing form and the effective use of the wheel as a creative tool. Introduces historic and contemporary approaches, firing techniques and glaze application. Prerequisites: ART 102, ART 104 and ART 106.

ART 222. Introductory Ceramics: Handbuilding (0, 9). 3 credits.
Foming techniques will be explored for both vessel and sculptural work. Addresses construction concerns such as timing, structure and mass. Conceptual issues of hand-formation and ceramic sculpture discussed. Introduces historic and contemporary approaches, firing techniques and glaze application. Prerequisites: ART 102, ART 104 and ART 106.

ART 230. Introduction to Fiber Processes (0, 9). 3 credits.
Introduction to and practice in basic weaving and other fiber arts. Emphasis will be placed on floor loom weaving and surface design on the fabric. Prerequisites: ART 102 and ART 104.

ART 240. Metal and Jewelry (0, 9). 3 credits.
An introduction to designing and executing jewelry and related objects through various fabrication and finishing techniques, and the exploration of metal as a medium of personal aesthetic expression. Prerequisites: ART 102 and ART 104.

ART 252. Introductory Painting (0, 9). 3 credits.
Introduction to basic materials and techniques in oil or acrylic painting. This class extends previous practice with design and drawing through introductory experiences in painting. Prerequisites: ART 102 and ART 104.

ART 260. Introductory Photography: Black and White (0, 9). 3 credits.
A creative approach to photography with emphasis on understanding materials and techniques. (Students must provide a fully manual 35mm camera and a light meter which may be built into the camera or separate.) Prerequisites: ART 102 and ART 104.

http://www.jmu.edu/catalog/14
ART 270. Printmaking: Screenprint (0, 9). 3 credits.
An introduction to the history and techniques of screenprinting. Lectures, demonstrations and projects will involve photographic and nonphotographic stencils, related digital processes and color registration. Prerequisites: ART 102 and ART 104.

ART 272. Printmaking: Relief, Intaglio and Monotype (0, 9). 3 credits.
An introduction to the history and techniques of relief, intaglio and monotype printing. Lectures, demonstrations and projects will involve oil based and water soluble inks, linocut, woodcut, wood engraving, collagraph, drypoint, engraving, line etching, aquatint, softground, color registration and related photographic processes. Prerequisites: ART 102 and ART 104.

ART 274. Printmaking: Lithography (0, 9). 3 credits.
An introduction to the history and techniques of lithography printing. Lectures, demonstrations and projects will involve stone and plate lithography, color registration and related photographic processes. Prerequisites: ART 102 and ART 104.

ART 276. Introductory Book Arts: Materials and Structures. 3 credits.
This course offers students an opportunity to engage in the techniques, structures, tools, and materials used in creating artists' books. A broad range of studio practice will be explored as they examine the relationship of verbal, visual, and structural content in books. Students will complete group and individual projects. Prerequisites: ART 102 and ART 104.

ART 280. Sculpture (0, 9). 3 credits.
Problems in three-dimensional form using traditional and modern techniques. Processes of modeling in clay, mold making, casting, carving in wood and stone and welded metal sculpture are explored. Prerequisite: ART 102.

ART 304. Methods of Art Criticism. 3 credits.
The practical analysis and interpretation of works of art through oral and written forms. Emphasis is on the practice of art criticism in public settings such as the school classroom, art museum and college art studio. Formerly ARED 304.

ART/PHIL 305. Seminar in Aesthetics. 3 credits.
Readings and discussions in the persistent philosophical problems of the arts centering on consideration of the work of art, the artist and the audience. Prerequisite: GART 200, GARTH 205, GARTH 206 or GPHIL 101.

ART 320. Intermediate Ceramics: Molds & Casting (0, 9). 3 credits.
Mold-making systems and processes for ceramic slip casting and press molding. Conceptual issues of multiples, reproductions and material transformation discussed. Also suitable for students wanting to utilize molds with other materials in their artistic production. Prerequisite: ART 220 or ART 222.

ART 322. Intermediate Ceramics: Surface Development (0, 9). 3 credits.
Research and experimentation with ceramic materials and finishes, glaze formulation, and application for finishing ceramic artwork. Forming processes may include any combination of the potter's wheel, handbuilding and mold making. Prerequisite: ART 220 or ART 222 or by permission.

Introduction to surface design techniques such as painting and printing on fabric. Further work may be in this area (in which case no prerequisites apply) or in weaving or other fiber techniques. Prerequisite: ART 230 or permission of the instructor.

ART 340. Intermediate Metal and Jewelry (0, 9). 3 credits, repeatable.
An intermediate course offering further exploration of metal as a medium of personal aesthetic expression as well as more advanced technical experience and experimentation. Prerequisite: ART 240.

ART 350. Figure Drawing (0, 9). 3 credits.
An introductory course with problems stressing the fundamental skills, approaches and concepts involved in drawing the human figure. Prerequisites: ART 104 and ART 108.

ART 352. Intermediate Painting. 3 credits.
Intermediate experiences in materials and techniques in oil, acrylic and non-traditional painting media. This class extends previous experiences introduced in ART 252, with a focus on developing a more personal iconography and content. A variety of materials, techniques, surfaces, and philosophies of working are discussed in lecture, demonstration, and in both individual and group critique. Prerequisite: ART 252.

ART 354. Watercolor (0, 9). 3 credits.
Study of and practice in transparent and opaque watercolor techniques. Prerequisites: ART 102 and ART 104.

ART 360. Intermediate Photography: Digital (0, 9). 3 credits.
An intensive exploration of digital photography with an introduction to digital camera techniques, combinations of traditional and digital photographic methods, image manipulation and modes of output. Prerequisite: ART 260.

ART 362. Intermediate Photography: Experimental Black and White (0, 9). 3 credits.
Intensive exploration of advanced black and white photography using alternative cameras, pinhole, a variety of film speeds and papers and sequential concepts. Prerequisite: ART 260.

ART 364. Intermediate Photography: Large Format (0, 9). 3 credits.
An exploration of medium format and view camera techniques, film exposure and advanced black and white printing. Prerequisite: ART 260.

ART/GRPH 375. Letterpress. 3 credits.
This studio course offers students an opportunity to engage in the process and product of letterpress printing through various techniques and conceptual approaches. Instruction focuses on text and image relationships by integrating metal and wood type, and other type-high surfaces. Emphasis will be placed on the acquisition of skills and vocabulary and the creative use of type and image. The course will address the history of letterpress and its contribution to contemporary art and design. Prerequisite: ART 276; Also for GRPH credit: GRPH 208.

ART/GRPH 376. Intermediate Book Arts: Concept, Content, Form. 3 credits.
This course challenges the student to develop a limited edition handmade artist's book. The appropriate format for each individual's concepts are identified, adapted, customized, applied, and produced. Content development, book design, integration of various media, and the functionality of various bookmarking materials are explored. We will consider the artist's book as a sculptural form and locate it within the broader context of contemporary writing and visual art. Prerequisites: ART 270, ENG 391, ENG 392 or ENG 393. Also for GRPH credit: GRPH 306.

ART 380. Intermediate Sculpture (0, 9). 3 credits.
A study in casting techniques for sculpture using the lost wax process. Foundry operations, cold cast methods, ceramic shell and fiberglass are also explored. Prerequisite: ART 280.

Independent activity at the intermediate level, such as research or studio practice, under faculty supervision. Projected studies in any area of the school's offering must be arranged with the instructors who will direct them. Offered only with the consent of the instructor.

ART 392. Topics in Art. 3 credits.
Study of selected topics in art at the intermediate level. May be repeated when course content changes. See MyMadison for current topics.

ART 420. Advanced Ceramics: Portfolio Development (0, 9). 1-3 credits, repeatable.
Self-directed, focused course of study with supervision of the instructor. This course is the culmination of ceramic study, resulting in a body of work suitable for exhibition and that is representative of the student's research and development. Prerequisites: ART 320 and ART 322 or permission.

ART 430. Advanced Fiber Processes (0, 9). 1-3 credits, repeatable.
A series of fiber projects selected by the student with the approval of the instructor. Prerequisite: ART 330.

ART 440. Advanced Metal and Jewelry (0, 9). 1-3 credits, repeatable.
A series of metal arts projects selected by the student with the approval of the instructor. Prerequisite: ART 340.

ART 450. Advanced Figure Drawing. 1-3 credits, repeatable.
An advanced drawing course stressing inventive and in-depth approaches to portraying the human figure. Prerequisite: ART 350.

ART 452. Advanced Painting (0, 9). 1-3 credits, repeatable.
Advanced problems in media selected by the student with the advice of the instructor. Prerequisite: ART 352.

ART 454. Advanced Watercolor (0, 9). 1-3 credits, repeatable.
Advanced problems in the use of watercolor and related water-based media. Prerequisite: ART 354.

ART 460. Advanced Photography: Alternative Processes (0, 9). 1-3 credits, repeatable.
Advanced study in photography focusing on alternative processes and experimental approaches including non-silver 19th century techniques, Polaroid and liquid emulsion among others. Prerequisite: ART 360, ART 362 or ART 364.

An exploration of the culture and trends leading to the invention of photography, facilitating the formation of concepts and objects which create wonder. Prerequisite: ART 360, ART 362 or ART 364.

http://www.jmu.edu/catalog/14

ART 466. Advanced Photography: Performance for the Lens. 3 credits. An exploration of technical, conceptual, and theoretical approaches to making, staging, and directing performance-based photographic work using film, digital or video cameras. Prerequisite: ART 360, ART 362 or ART 364.

ART 468. Advanced Photography: Screen-Based Photo/Video. 3 credits. An exploration of technical, conceptual, and theoretical approaches to making screen-based photographic projects culminating in a fully developed online presentation. Prerequisite: ART 362.

ART 469. Photography: Portfolio Development (0, 9). 1-3 credits, repeatable. An intensive exploration in photography focusing on a theme or process that results in a cohesive body of work from a self-directed project and a written artist’s statement. Prerequisite: ART 360, ART 362 or ART 364.

ART 470. Advanced Printmaking (0, 9). 1-3 credits, repeatable. Advanced projects in printmaking to be determined by the student and instructor. Prerequisite: ART 270, ART 272 or ART 274 as appropriate.

ART 480. Advanced Sculpture (0, 9). 1-3 credits, repeatable. Advanced study in sculpture focusing on projects chosen by the student in consultation with the instructor from an array of materials and processes used in contemporary sculpture. Prerequisite: ART 380.

ART 490. Independent Studies in Art. 1-3 credits, repeatable. Independent activity, such as research or studio practice, under faculty supervision. Projected studies in any area of the school’s offering must be arranged with the instructors who will direct them. Offered only with consent of the instructor.

ART 491. Studio Assistant. 1-3 credits, repeatable. An on-campus program monitored on an individual basis designed to provide practical studio experience in the visual arts. Students will learn safe studio practices and management skills, including material use, inventory control and the proper operation of equipment found within various individual classroom studios. Prerequisite: Permission of the instructor.

ART 492. Topics in Art. 3 credits. Offering varies. Study of selected topics in art, art history, graphic design or interior design at the advanced level. May be repeated when course content changes. See MyMadison for current topics.

ART 493. Contemporary Art Theory. 3 credits. This is a reading, research and discussion seminar designed for upper level undergraduate and first-year graduate level studio art majors addressing historic and contemporary issues surrounding vision, the senses and aesthetics in the theory and practice of art.

ART 494. The Open Studio: An Interdisciplinary Approach to Creative Arts. 3 credits. Introduction to the interdisciplinary studio through discussion of the history of interdisciplinary art and exposure to contemporary examples from dance, theatre, music, creative writing, visual art, film and video. Emphasis on production of original work that evidences the use of other media or collaborative work by artists from different disciplines. Prerequisite: Permission of the instructor(s) and advanced skill level in one or more of the creative arts.

ART 495. Capstone Seminar: Three-Dimensional Art. 3 credits. A team-taught, intensive seminar for B.F.A. in studio art seniors with concentrations in metals/jewelry, ceramics, fibers or sculpture, or an emphasis in integrated 3D. Capstone seminar is designed to be a transition into professional life, to help students organize and prepare themselves for graduation and to provide opportunities to work with faculty on professional concerns beyond the studio. Corequisite: ART 497.

ART 497. Capstone Studio: Three-Dimensional Art. 3 credits. An intensive studio for B.F.A. in studio art seniors with concentrations in metals/jewelry, ceramics, fibers or sculpture, or an emphasis in integrated 3D. Working closely with their concentration advisor, students refine their artistic voice, build their portfolio and develop their senior thesis presentation. The course culminates in a professional-quality body of work ready for exhibition. Corequisite: ART 495.

ART 498. Internship in Art. 1-8 credits. An program prepared and monitored on an individual basis. Internships are designed to provide practical experience in the arts. Prerequisites: Permission of the instructor and ARTH 394 if in museums and galleries.

ART 499. Honors. 6 credits total for three semesters (1, 2, 3).

Art Education
School of Art, Design and Art History
ARED 300. Art Activities in the Elementary School (1, 4). 3 credits. A study of the aims and philosophy of art education in elementary school with an emphasis on child growth and development through art. Experience with art techniques and materials suitable from nursery school through grade eight with emphasis on appropriate motivational and teaching methods. Includes intensive field experiences for elementary grade levels.

ARED 302. Secondary Art Education Methods. 3 credits. The study of art education methods, philosophy and contemporary practices as related to the middle and senior high school in public education. Includes class presentations, observation and practice in the secondary grades. Prerequisites: PSYC 270 and EDUC 360.

ARED 390. Independent Studies in Art Education. 1-3 credits. Independent activity at the intermediate level, such as research or studio practice, under faculty supervision. Projected studies in any area of the school’s offering must be arranged with the instructors who will direct them. Offered only with the consent of the instructor.

ARED 392. Topics in Art Education. 3 credits. Study of selected topics in art education at the intermediate level. May be repeated when course content changes. See MyMadison for current topics.

ARED 400. Visual Arts Across the Curriculum (1, 4). 3 credits. Explores ways in which the art teacher can promote relationships between art and other subjects within the public school curriculum. Emphasis will be placed on how art experiences can be used to teach skills and concepts associated with other subjects. Includes a range of intensive field experiences at the middle grade level.

ARED 490. Independent Studies in Art Education. 1-3 credits, repeatable. Independent activity, such as research or studio practice, under faculty supervision. Projected studies in any area of the school’s offering must be arranged with the instructors who will direct them. Offered only with consent of the instructor.

ARED 491. Studio Assistant. 1-3 credits, repeatable. An on-campus program monitored on an individual basis designed to provide practical studio experience in the visual arts. Students will learn safe studio practices and management skills, including material use, inventory control, and the proper operation of equipment found within various individual classroom studios. Prerequisite: Permission of the instructor.

ARED 496. Internship in Art Education. 1-8 credits. A program prepared and monitored on an individual basis. Internships are designed to provide practical experience in the arts. Prerequisites: Permission of the instructor and ARTH 394 if in museums and galleries.

Art History
School of Art, Design and Art History
GARTH 205. Survey of World Art I: Prehistoric to Renaissance. 3 credits. Offered fall and spring. An introduction to the art and architecture of the world from cave painting through European pre-Renaissance art. Includes ancient through medieval art in Europe and the Near East, as well as Asian and African arts.

GARTH 206. Survey of World Art II: Renaissance to Modern. 3 credits. Offered fall and spring. Introduction to art and architecture of the world from the Renaissance through Modern ages. Includes European Renaissance, Baroque, Enlightenment, 19th and 20th centuries, as well as Asian and African arts.

ARTH 210. African Art and Culture in the Humanities. 3 credits. An interdisciplinary introduction to African art and culture with topics focusing on life ways, music, religion, philosophy, art, literature and cinema. This course provides a strong background for upper-division course work in the arts of African and the African Diaspora, as well as for students pursuing degrees in history and anthropology. May be counted as HUM 252.

ARTH 300. Art History Seminar. 3 credits. Exploration of various methodological approaches in the history of art, including connoisseurship, iconography, formalism, psychological studies and interpretations of art and society. Students will examine contrasting interpretations of major works of art. Seminar format. Prerequisite: GARTH 205, GARTH 206 or permission of the instructor.
ARHT 303. History of Design. 3 credits. This course is an investigation into the domains of graphic and industrial design. The material will explore these disciplines through reading, lecture and an acquired visual literacy of the contextual, ideational and philosophical agendas.

ARHT 304. History of Photography. 3 credits. A survey of photography as an art form from its discovery to the present day. Emphasis is on 20th-century developments and recent contemporary trends.

ARHT 305. History of Decorative Arts. 3 credits. A history of the decorative arts in Europe and America from c. 1200 to c. 1930. This course provides a stylistic and contextual analysis, concentrating on domestic furnishings, including textiles, furniture, metals, ceramics and glass. Prerequisite: GARTH 205 or GARTH 206.

ARHT 310. African Art: The Sahara and Northern Sahel. 3 credits. An introduction to the arts and cultures of northern and northeastern Africa. The diverse, rich heritage of Africa's arts will be explored through the major style areas of Saharan and northern sub-Saharan Africa including prehistoric rock arts, Egypt, northern Africa, Christian northeastern Africa and Islamic North Africa.

ARHT 312. African Art: Sub-Saharan. 3 credits. A survey of the arts and cultures of sub-Saharan Africa, focusing on the major style areas of the continent. Coverage will include: the historic sites of Nigeria, the Guinea Coast, and central, eastern and southern Africa. Prerequisite: GARTH 205 or GARTH 206.

ARHT 313. Masterpieces of Italian Renaissance Art. 3 credits. (Semester in Florence only) A Renaissance painting and sculpture (1280-1550), including the works of Giotto, Donatello, Masaccio, Fra Angelico, Botticelli, Leonardo and Michelangelo. Weekly visits to the Uffizi, San Marco, the Accademia and other Florentine museums.

ARHT 314. Masterpieces of Spanish Art. 3 credits. (Semester in Salamanca only) A survey of art in Spain from prehistoric cave painting through 20th-century art. Emphasis is given to 17th-18th century Baroque and modern artists including El Greco, Velasquez, Goya, Gaudio and Picasso. Visits to Altamira, the Alhambra, the Prado, Toledo, Santillana del Mar and other sites.

ARHT 316. Masterpieces of British Art. 3 credits. (Semester in London only) Survey of painting and sculpture in Britain (1530-1960) concentrating on 18th/19th-century painting. British art is viewed in the context of European civilization. Weekly visits to London museums including the Portrait Gallery, Sir John Soane's House, the Wallace Collection and the Tate Gallery.

ARHT 320. Travel Study in Art History. 3 credits. Art history credit is available to students participating in formal travel study programs with an emphasis on an art history. Students maintain a journal with an emphasis on their art history experiences and write a research paper. Prerequisites: Permission of the program leader and art history coordinator.

ARHT 322. Ancient Art. 3 credits. A comparative study of major examples of art and architecture from the ancient world. Certain selected topics in pottery, painting and numismatic arts will be studied in depth. Prerequisite: GARTH 205.

ARHT 332. Islamic Art and Architecture. 3 credits. This course will consider art from the age of the prophet Muhammad through the sixteenth century. The political and cultural contexts in which Islamic art developed will lay the foundations for understanding later traditions. These may include the role of the mosque in Muslim society; calligraphy and illustrated books; palace building and the arts of luxury; and modes of figurative representation, including issues of gender. Prerequisite: GARTH 205.

ARHT 346. Italian Renaissance Art. 3 credits. A survey of the development of Italian Renaissance art and architecture 1300-1550, including the revival of classical art, the development of Humanism, the invention of perspective and the formation of the High Renaissance style. Prerequisite: GARTH 206.

ARHT 380. Nineteenth Century Art. 3 credits. A study of European art (1775-1890) concentrating on Neoclassicism, Romanticism, Realism, Impressionism and Post-Impressionism in France. Prerequisite: GARTH 206.

ARHT 370. History of Interior Architecture. 3 credits. Survey of the evolution of design in interiors from ancient to modern times with emphasis on period and furniture styles and architectural backgrounds.

ARHT 372. Modern Art from 1900-1945. 3 credits. A survey of European and American painting and sculpture from 1890 to the present day. Cubism and its off-shoots. Surrealism, American Abstract Expressionism, Pop art, Conceptual art and Realism are among the movements studied. Prerequisite: GARTH 206.

ARHT 376. Modern Architecture. 3 credits. Survey of architecture from 1851 to the present day. Thematic investigations will include regional, philosophical and technical developments in architectural space. Architects may include Labrouste, Berlage, Wagner and Richardson, through Wright, Mies, Le Corbusier, to the avant-garde Muncutt, Siza, Novel and Mockbee. Prerequisite: GARTH 206.

ARHT 380. American Art to 1870. 3 credits. American painting, sculpture, architecture and decorative arts from the Colonial period through 1870. Topics will include Colonial portraiture, African-American aesthetics, the definition of folk art, nationalism and landscape painting, and the question of American exceptionalism. The course will also introduce students to problems of interpretation in current scholarship. Prerequisite: GARTH 206.

ARHT 382. American Art from 1870. 3 credits. American painting, sculpture, architecture and decorative arts from 1870 to 1945. This course will address topics such as the American Renaissance, the Harlem Renaissance, Chicago School architecture, masculinity in Western American art, notions of decay in turn-of-the- -century art and American modernism. It will also introduce methodological debates in current scholarship. Prerequisite: GARTH 206.

ARHT 389. Topics in Art History. 3 credits. Study of selected topics in art, art education, art history, graphic design, interior design or industrial design at the intermediate level. May be repeated when course content changes. See MyMadison for current topics.

ARHT 390. Independent Studies in Art History. 1-3 credits. Independent activity at the intermediate level, such as research or studio practice, under faculty supervision. Projected studies in any area of the school's offering must be arranged with the instructors who will direct them. Offered only with the consent of the instructor.

ARHT/HIST 394. Introduction to Museum Work. 3 credits. A study of the philosophy and practice of museum work including the areas of exhibit design, conservation registration, education and administration. Subject is taught from the perspective of the museum profession and is applicable to diverse discipline and types of collections.

ARHT/HIST 396. Introduction to Public History. 3 credits. An introduction to the varied and interdisciplinary “field” of public history, such as community/local history, historic preservation, archives, historical archaeology, museum studies, business and policy history, documentary editing and publishing, and documentary films, through readings, class discussions, occasional guest speakers and occasional field trips.

ARHT 403. Topics in Italian Art. 3 credits. (Semester in Florence only) Topics in Italian art may include studies of major artists or themes of Italian art, design and architecture from ancient times to the present. Topics may include the history of conservation and restoration, food culture and its representations or Italian cinema. May be repeated when course content changes.

ARHT/HIST 406. Monticello. 3 credits. A seminar on the architecture and material culture of Thomas Jefferson's Monticello. The course will examine the house's design, artwork, decorative arts, mechanical devices, landscape/garden design and Mulberry Row. Topics will include African-American artisans at the Monticello, Jefferson's Indian Hall and European and African-American domestic life in the Federal Period. Required field trips.

ARHT/HIST 408. The Museum: Histories and Controversies. 3 credits. This seminar centers on art museums in the United States. Topics include the historical development of museums, related cultures of display, recent debates on institutional mission and responsibility, and contemporary artists who employ the museum as medium, subject matter or site. Required field trips. Prerequisite: GARTH 206.

http://www.jmu.edu/catalog/14
ARTH 410. African Art: The Sahara & Northern Sahel. 3 credits.

An introduction to the arts and cultures of northern and northeastern Africa. The diverse, rich heritage of Africa's arts will be explored through the major style areas of Saharan and northern sub-Saharan Africa including prehistoric rock arts, Egypt, northern Africa, Christian northeastern Africa, and Islamic North Africa. Prerequisite: ARTH 205 or ARTH 206, or permission of the instructor.

ARTH 418. Modern and Contemporary African Art. 3 credits.

This course examines the rise of Modern and Contemporary art movements throughout Africa, from 1959 to the present. As colonial influence diminished, important artists, art schools and exhibition tactics have emerged. Developments in painting, sculpture, photography, video and film illustrate the tensions and triumphs of contemporary African nationhood. Course work centers on a substantial research paper based on primary source material. Additional assignments required for graduate level course.

ARTH 419. Topics in African Art. 3 credits. Offering varies.

Topics in African art will deal with the current thematic or methodological issues such as contemporary African arts and artists, arts of the African Diaspora, a particular media (such as architecture or the textile arts), portraiture and identity, the royal arts of Africa, African film and performance, or gender in the arts of Africa. See MyMadison for current topics. Prerequisite: GARTH 205, GARTH 206 or ARTH 210.

ARTH 424. Arts of Ancient Egypt. 3 credits.

A study of the arts and culture of Ancient Egypt (c. 3000 B.C. to c. 300 B.C.). This course will focus on the art and architecture of the Old and New Kingdoms and also examine the enduring fascination with this unique artistic heritage from the excavations of Napoleon to the present. Prerequisite: GARTH 205 or GARTH 206.

ARTH 430. Far Eastern Art. 3 credits. Offering varies.

Topics in Medieval Art may include the study of major buildings and artistic monuments in the medieval Mediterranean and in Western Europe, art in service of empire building, medieval audiences and modes of reception, and the afterlives of monuments into the contemporary period. Prerequisite: GARTH 205.

ARTH 442. Art of Later Middle Ages. 3 credits.

A study of Western European arts and architecture in the later Middle Ages with concentration on Romanesque and Gothic styles (1000-1400). Examines church construction and allied arts around the millennium and the development of Gothic architecture, sculpture and painting in France, Italy, and England. Prerequisite: GARTH 205.

ARTH 444. Gothic and Gothic Revival Architecture. 3 credits.

Survey of Gothic architecture in France, England and Italy 1150-1500 and its influence in England and America 1750-1910. Examines the design of major cathedrals and regional European Gothic styles. Explores their influence upon Walpole, Pugin, Ruskin and other champions of Gothic Revival. Prerequisite: GARTH 205 or GARTH 206.

ARTH 446. Renaissance Art and the East. 3 credits.

This seminar explores artistic exchange between the Christian west and competing cultures in the east from c. 1250-1600, focusing on the powers of Italy and their interaction with the Islamic dynasties, the Mamluks of Egypt and the Ottomans in Turkey, as well as the Christian state of Byzantium. Special topics of interest may include palace architecture and imperial ceremony; urban planning; portraiture and caricature; the exchange of luxury goods; and the use of art as a diplomatic tool. Prerequisite: GARTH 206 or a course in medieval and renaissance studies.

ARTH 448. Studies in Leonardo and Michelangelo. 3 credits.

Seminar that examines the artworks of Leonardo da Vinci and Michelangelo Buonarroti. Discusses issues such as the artist's creative process, the development of the artist's style, the patron's role in artwork and inter-relationships between the artist's visual and literary works. Prerequisite: GARTH 206.

ARTH 449. Topics in Renaissance Art. 3 credits. Offering varies.

Topics in Renaissance art may include studies of major Italian or Northern Renaissance artists, the development of linear perspective, the Renaissance tomb chapel, or art and politics of the Protestant Reformation. Prerequisite: GARTH 206.

ARTH 450. Baroque Art. 3 credits.

A survey of European art and architecture of the 17th century. This course will focus on Baroque art and its cultural context in Italy, France, Britain and Holland. Prerequisite: GARTH 206.

ARTH 452. Eighteenth Century Art. 3 credits.

Survey of the major European artistic movements of the 18th century. This course will focus on the development of the Rococo and Neo-classical styles in architecture, sculpture and painting. Prerequisite: GARTH 206.

ARTH 459. Topics in Seventeenth and Eighteenth Century Art. 3 credits. Offering varies.

Topics in this course may include studies of particular artists such as Rembrandt, Caravaggio or Watteau, studies of particular styles such as the Rococo or thematic studies such as the history of garden design or the development of art theory. See MyMadison for current topics. Prerequisite: GARTH 205, GARTH 206 or a course in medieval and renaissance studies.

ARTH 460. Nineteenth Century Art. 3 credits.

A study of European art (1750-1890) concentrating on Neoclassicism, Romanticism, Realism, Impressionism and Post-Impressionism in France. Prerequisite: GARTH 205 or GARTH 206.

ARTH 464. Romanticism and Enlightenment. 3 credits.

Advanced seminar examining the intersection between art and nationalism from the late-eighteenth century to the present. Topics may include propaganda, monuments and the construction of national memory. Particular attention will be devoted to the shifting nature of commemorative practice throughout the modern period. Prerequisite: GARTH 205 or GARTH 206.

ARTH 469. Topics in Nineteenth Century Art. 3 credits. Offering varies.

Topics in nineteenth century art may include studies of major artists, such as Caspar David Friedrich or Edouard Manet, specific artists groups like the pre-Raphaelite brotherhood, or thematic issues such as the relationship between art and nationalism. See MyMadison for current topics. Prerequisite: GARTH 206.

ARTH 471. Commemoration and Controversy: Public Art in America. 3 credits.

This course examines the socio-historical, political, cultural, and philosophical dimensions of public art in American society, from the early Republic to the present day. Topics may include: the nature of public art, its uses and functions, as well as civic and official attitudes towards art in the public sphere. Issues of censorship, propaganda, and the "culture wars" of the 1980s and 90s will be highlighted. Prerequisite: GARTH 205.

ARTH 472. Modern Art Since 1945. 3 credits.

A study of the many developments and trends in American and European art since 1945. This course will focus on such movements as abstract expressionism; pop, conceptual art, installation art, video, film and computer art with an understanding of the theoretical basis of those movements and the development of the art market during this period. Prerequisite: GARTH 206.

ARTH 474. The New Media and Contemporary Art. 3 credits.

Advanced seminar that addresses the impact of digital culture and technology on how we make, evaluate and “speak” about art. Focus on a variety of media including video, multi-media installations, conceptual art, computer generated imagery, virtual “reality,” contemporary film and digital photography. Prerequisite: ARTH 372 or ARTH 472.

ARTH 479. Topics in Twentieth Century Art. 3 credits. Offering varies.

Topics in twentieth century art may include studies of contemporary painters (i.e., Gerhard Richter), sculptors (i.e., Kiki Smith or Mona Hatoum), performance and video artists (i.e., Bill Viola) or thematic issues such as the pre-Raphaelite brotherhood, or thematic issues such as the relationship between art and nationalism. See MyMadison for current topics. Prerequisite: ARTH 206.

ARTH 484. Art of the Americas. 3 credits.

Art of indigenous peoples in the Americas (Meso, Central, South and /or North) before European contact. The course will examine domestic and state architecture, painting, textiles, ceramics, metalwork, and earthworks throughout the context of geographic, state, religious and social issues. Other topics include museum display, repatriation and western taxonomies.

http://www.jmu.edu/catalog/14
ASTR/AFST 488. African-American Art, 3 credits.
This course examines visual arts produced by people of African descent in the United States from the colonial period until the present. Course themes include debates about the relationship between racial identity and artistic production; the complex interchange between African-American art and the cultural traditions of Africa and Europe; black artists’ engagement with popular representations of African-Americans; and the intersection of race with class, gender, and sexuality. Prerequisite: GARTH 206 or GAFST 200.

ARTH 498. Topics in Art History, 3 credits. Offering varies.
Study of selected topics in art history at the advanced level. May be repeated when course content changes. See MyMadison for current topics.

Offering varies.
Independent activity, such as research or studio practice, under faculty supervision. Projected studies in any area of the school’s offering must be arranged with the instructors who will direct them. Offered only with consent of the instructor.

ARTH 491. Exhibition Seminar. 3 credits.
Advanced seminar explores museum theory and practice through the collaborative design of an exhibition for an on-campus gallery space. The course focuses on developing and researching the exhibition topic, investigating the specific art objects and preparing critical educational materials or catalogue. The class project also includes mounting the exhibit in a real or virtual installation space. Prerequisite: GARTH 206 OR GARTH 426.

ARTH/ANTH/HIST 492. Material Culture. 3 credits.
A broad introduction to the multidisciplinary “field” of material culture studies through readings, written assignments, in-class exercises and field trips. The course introduces ways of looking at and learning from objects and examines how scholars from several disciplines have used material culture in their work. Prerequisite: HIST 395. Instructor’s permission required to waive HIST 395 prerequisite for non-history majors.

ARTH/HIST 493. Historic Preservation. 3 credits.
An introduction to the philosophy and techniques of historic preservation, guidelines for restoration, state and national register forms and procedures, historic architecture, structural analysis, restoration techniques, as well as the business aspects of historic preservation projects. Field trips are a major component of the course. Prerequisite: HIST 395. Instructor’s permission required to waive HIST 395 prerequisite for non-history majors.

ARTH 495. Internship in Art History, 1-3 credits.
An off-campus program prepared and monitored on an individual basis. Internships are designed to provide practical experience in the arts. Prerequisite: Permission of the instructor and ARTH 294 if in museums and galleries.

ARTH 499. Honors. 6 credits total for three semesters (1,3,2).

Astronomy

Department of Physics and Astronomy

*ASTR 120. The Solar System. 3 credits.
An introductory course in astronomy, which includes the following topics: motions of celestial objects, eclipses, historical development, the nature of light, telescopes, properties and evolution of the solar system.

*ASTR 121. Stars, Galaxies and Cosmology. 3 credits.
An introductory course in astronomy which includes the following topics: the Sun, stellar properties, stellar evolution, black holes, the Milky Way, galactic evolution, quasars, cosmology.

ASTR 220. General Astronomy I: The Night Sky, the Solar System and Stars. 3 credits.
ASTR 220 is the first in a two-course sequence in general astronomy intended for students with a background in physics. Topics covered include: appearance and movements of the night sky; astronomical coordinate systems and timekeeping; seasons, eclipses and planetary configurations; planetary motions and gravitation; fundamental forces; electromagnetic radiation and its detection; content, structure, formation and evolution of solar system; observations and models of the Sun, stellar interior models; stellar magnitudes and spectra, classifications; Hertzsprung-Russell diagram. Prerequisite: PHYS 140 or PHYS 240.

ASTR 221. General Astronomy II: Star Systems, the Interstellar Medium and Cosmology. 4 credits.
ASTR 221 is the second in a two-course sequence in general astronomy intended for students interested in science. Topics covered include: stellar evolution; variability and high-energy phenomena in stars and multiple-star systems; content, structure, and dynamics of the Milky Way, external galaxies, quasars and AGN; large-scale structure and the distance scale of the universe; the Big Bang model and alternative cosmologies, possible geometries and eventual fates of the universe. An observational astronomy laboratory component is part of this course. The lab component will cover basics of telescope set up and operation as well as astronomical coordinate systems. Prerequisite: ASTR 220.

ASTR 297. Topics in Astronomy. 1-4 credits.
Topics in astronomy at the second year level. May be repeated for credit when course content changes. Topics selected may dictate prerequisites. Students should consult instructor prior to enrolling for course. Prerequisite: Permission of the instructor.

ASTR 301. Searching for Life in the Universe. 3 credits.
A study of the search for life in the universe, with emphasis on teacher preparation. Topics include how life on earth can guide the search, conditions for life within our solar system, extraterrestrial planets that may be conducive to life, possible radio communications with other civilizations and technologies necessary for search. Significant time is spent developing student lesson plans. Prerequisites: GSCI 161, GSCI 162, GSCI 163 and GSCI 164.

ASTR 328. Astronomical Techniques. 3 credits.
An overview of modern astronomical techniques with an emphasis on quantitative data collection and analysis. The design and use of various astronomical devices will be covered. Topics will include visible light telescopes and radio telescopes as well as CCD data collection in addition to other current astronomical techniques. Data reduction software will also be addressed. Prerequisites: ASTR 220 and ASTR 221.

ASTR 397. Topics in Astronomy. 1-4 credits.
Topics in astronomy at the intermediate level. May be repeated for credit when course content changes. Topics selected may dictate prerequisites. Students should consult instructor prior to enrolling for course. Prerequisite: Permission of the instructor.

ASTR/PHYS 398. Independent Study in Physics or Astronomy. 1-3 credits, repeatable to 4 credits.
An individual project related to some aspect of physics or astronomy. Must be under the guidance of a faculty adviser. A student may not earn more than a total of four credits for PHYS/ASTR 398.

ASTR 489. Topics in Astronomy. 1-4 credits.
Topics in astronomy at the advanced level. May be repeated for credit when course content changes. Topics selected may dictate prerequisites. Students should consult instructor prior to enrolling for course. Prerequisite: Permission of the instructor.

ASTR/PHYS 489R. Undergraduate Research in Physics or Astronomy. 1-4 credits, repeatable to 6 credits.
Research in a selected area of physics or astronomy as arranged with a faculty research adviser. A student may not earn more than a total of six credits for PHYS/ASTR 489R. Prerequisite: Proposal for study must be approved prior to registration.

Athletic Training Education Program

Department of Health Sciences

AITE 205. Introduction to Athletic Training (2, 3). 3 credits. Offered fall, spring and summer.
This course provides a broad introduction to the profession of athletic training. Lectures will focus on the domains of athletic training. Emphasis will be placed on basic emergency management as well as injury prevention including environmental issues, strength and conditioning, and selection of equipment. Laboratory will mirror lecture. Prerequisite: AITE or HS major, coaching minor, or permission of the instructor.
ATEP 206. Recognition and Management of Athletic Injuries. 3 credits. Offered spring and summer.

Building on the concepts learned in ATEP 205, the course will recognize the...consequences of muscular and joint injuries. Additional topics include rehabilitation...security and pre-season assessment. Prerequisite: ATEP 204A.

ATEP 204A. Lower Quarter Evaluation (2, 2). 3 credits. Offered fall.

This course systematically focuses on orthopedic and...effects of athletic injuries. The lower quarter consists of the lower extremity,...management of normal medical and infectious conditions. Other topics include...and professional journals are included in course content. Sport specific activities and clinical applications involving health promotion and injury prevention are key components of this course. Prerequisite: ATEP 202.

ATEP 205. Rehabilitation in Athletic Training: Lower Extremity (2, 2). 3 credits. Offered spring.

This course explains the rehabilitation process of lower extremity muscular and joint injuries related to athletic activities. Additional topics include...prevalence of injuries associated with the physically active, utilization of...assessment. Prerequisite: BIO 290 and admission to the clinical component of the athletic training curriculum.

ATEP 306. Therapeutic Modalities (3, 3). 4 credits. Offered fall.

This course provides a thorough overview of tissue injury, inflammatory response, and rehabilitation. Specific physiopathology applications to musculoskeletal injuries is covered. Theory, application and clinical decision-making processes using therapeutic modalities during rehabilitation will be emphasized. Documentation, purchasing and maintenance are also addressed. Prerequisites: ATEP 206 and admission to the component of the athletic training curriculum.

ATEP 307. Acute Care of Injuries and Illnesses. 3 credits. Offered fall.

This course is designed for student athletic trainers to meet the educational competencies for national accreditation in the following areas: development of risk management/...prevention of injuries associated with the physically active, utilization of diagnostic tools and an overall understanding of protective equipment. Prerequisite: ATEP 306.

ATEP 305. Measurements and Testing in Athletic Training. 2 credits. Offered fall.

The purpose of this course is to introduce and develop proficiency with measurement techniques frequently used in athletic training. Students will learn clinical evaluation techniques such as manual muscle testing, goniometry, volumetric measurements and girth measurement. How these measures are used in research and clinical settings will also be presented. Prerequisite: Admission to clinical component of athletic training curriculum.

ATEP 355. Infectious Disease Control. 1 credit. Offered spring.

Discussion includes theories of origins, statistics and characteristics of the causative pathogen, incubation, illness patterns, transmission, prevention and treatment of infectious and noninfectious disease. Emphasis is placed on STDS, HIV, Hepatitis and OSHA regulations. Prerequisite: Admission to clinical component of athletic training curriculum.

ATEP 378. Pharmacology for Athletic Trainers. 2 credits. Offered fall.

This course is designed for students to understand knowledge, skills and values that an entry-level certified athletic trainer must possess in pharmacological applications, including awareness of the indications, contraindications, precautions and interactions of medications, and the governing regulations relevant to physically active individuals. Prerequisite: Admission to clinical component of athletic training curriculum.

ATEP 377. General Medicine in Athletic Training. 2 credits. Offered spring.

This course is designed for students to understand knowledge, skills and values that an entry-level certified athletic trainer must possess in order to recognize, treat and refer when dealing with general medical conditions and disabilities related to athletes or others involved in physical activity. Prerequisite: Admission to clinical component of athletic training curriculum.

ATEP 392. Level II Practicum in Athletic Training. 3 credits. Offered fall.

This course focuses on clinical performance and application of didactic knowledge. Clinical rotations, clinical competencies, inservices, case studies and professional journal are included in course content. Sport specific activities and clinical applications involving equipment fitting are key components of this course. Prerequisite: ATEP 392.

ATEP 405. Rehabilitation in Athletic Training: Upper Extremity. 3 credits. Offered fall.

This course explains the rehabilitation process of upper extremity muscular and joint injuries related to athletic activities. Additional topics include prevention of athletic injuries and rehabilitation. Prerequisite: ATEP 302.

ATEP 406. Organization and Administration in Athletic Training. 3 credits. Offered spring.

This course is an overview of managerial issues including legal concerns, OSHA guidelines, budgeting/purchasing and staffing. In addition, this course provides a variety of experiences culminating in the knowledge and skills needed to meet entry-level competencies set by the National Athletic Trainers’ Association. Prerequisite: Permission of the instructor.

ATEP 454. Level V Practicum in Athletic Training. 2-3 credits. Offered fall.

This course focuses on clinical performance and application of didactic knowledge. Clinical rotations, clinical competencies, inservices, case studies and professional journal are included in course content. Sport specific activities and clinical applications involving management of upper extremity injuries are key components of this course. Prerequisite: ATEP 393.

ATEP 495. Level VI Practicum in Athletic Training. 2 credits. Offered fall.

This course focuses on clinical performance and application of didactic knowledge. Clinical rotations, clinical competencies, inservices, case studies and professional journal are included in course content. Sport specific activities and clinical applications involving management of neuromuscular and cranial nerve assessment and neurological evaluation are key components of this course. Prerequisite: ATEP 494.

Biology

Department of Biology

GBIO 103. Contemporary Biology (3, 3). 3 credits.

An in-depth exploration of selected biological concepts connected to current...field. Biology and biotechnology majors receive registration priority in the fall.

http://www.jmu.edu/catalog/14
In this course students will learn about variation within populations, the mechanisms of evolution, phylogeny and classification, population and community ecology, animal behavior and ecosystems dynamics. Labs will include investigations in laboratory and field settings. Prerequisite: Grades of "C-" or better in BIO 114, GEOL 110, GEOG 210 or GISAT 112.

BIO 201. Trelawny Learning Community Seminar. 1 credit.
Introduction to the biology major and biological research for first-year students in the Trelawny Learning Community. In addition to lab/field work with faculty or graduate students for 2-3 hours per week, students attend a weekly seminar. Seminar includes research skill and team-building exercises, guest speakers and case studies geared toward a career in science. Faculty and students interact with community members to provide perspectives on the major and research in a scientific network. Prerequisite: Membership in the Trelawny Learning Community. Corequisite: BIO 114.

BIO 202. Trelawny Learning Community Seminar II. 2 credits.
The second part of the research skills seminar for first-year students in the Trelawny Learning Community. Students will have already begun research projects during fall semester, and will continue their projects into spring semester while continuing to build research skills. Students will take part in community, campus, and social events and gain experience helping to run a research-based event. Prerequisite: BIO 201. Corequisite: BIO 124.

BIO 203. Viral Discovery (0, 4). 2 credits.
An exploratory laboratory experience, designed for incoming freshmen. Students will learn about the life cycle and ecology of viruses infecting bacteria. Soil samples will be collected, and techniques for isolation and purification of the viruses will be performed by the students. Isolated viruses will be visualized using electron microscopy. The genomic material will be isolated and prepared for nucleic acid sequencing.

BIO 204. Viral Genome and Bioinformatics (0, 4). 2 credits.
A computer-based laboratory experience, designed for students completing the Viral Discovery course. Students will learn to identify genes in a viral genome, compare the predicted proteins with known proteins in databases, describe the contents of the genome and note all the relevant information for publication. Students will also research the role of bacteriophages in ecology and evolution. Prerequisite: BIO 203 or ISAT 169.

BIO 214. Cell and Molecular Biology (3, 3). 4 credits.
Prerequisite: MATH 231 or MATH 235.
Students will explore the physiology, metabolism and reproductive biology of prokaryotic and eukaryotic cells. Topics will include the structure and function of macromolecules, theoretical and mechanistic aspects of metabolism, bioenergetics and signal transduction. Labs will include investigations that introduce students to various biochemical techniques. Prerequisites: Grades of "C-" or better in BIO 114 and CHEM 131. Students not meeting these prerequisites prior to the start of classes will be administratively dropped.

BIO 222. Interdisciplinary Biology for Engineering and Physical Sciences (3, 3). 3 credits.
Case studies and an issues-based approach will provide a framework to understand the science of biology, to stimulate critical thinking, and to appreciate the interdisciplinary nature of biological investigations. This interdisciplinary biology course is intended for students who have at least sophomore status and who are physical science, engineering or mathematics majors. This course is not available for credit toward the major or minor in biology or biotechnology. Prerequisite: MATH 221 or MATH 225.

BIO 224. Genetics and Development (3, 3). 4 credits.
The final course in the introductory series will explore how genetic information is utilized throughout the lifetime of an organism. Labs will use make use of common model organisms highlighting the growing base of knowledge on the genetics and molecular biology of developmental processes. Prerequisite: Grade of "C-" or better in BIO 214.

BIO 226. Introductory Topics in Biology (Variable). 1-4 credits.
Introductory studies in specific areas of biology. May be repeated for credit when course content changes.

*BIO 270. Human Physiology (3, 2). 4 credits.
An introduction to basic physiological principles using humans as the primary organism. Physiological adaptations will be examined at the molecular through organismal levels. Intended for students in health-related fields and Cluster 3 of the General Education program. Not available for biology or biotechnology major credit. Prerequisites or corequisites: CHEM 120 or CHEM 131 or equivalent, and MATH 220 or equivalent.

BIO 280. Allied Health Microbiology (2, 4). 4 credits.
An introduction to the biology and significance of microorganisms. Emphasis will be placed on human- and health-related aspects of microbiology. Credit may not be earned in both BIO 280 and BIO 380. Not available for biology or biotechnology major credit. Prerequisite: CHEM 120, GSCI 101, GBIO 103 or equivalent.

BIO 290. Human Anatomy (3, 3). 4 credits.
A study of the basic body plan is reinforced by studies of dissected human cadavers and computer simulations. Emphasis is on the major body structures and systems.

BIO 301. Introductory Neuroscience. 3 credits.
This course will examine molecular control of neuronal function. Topics will include the structure and function of neuronal excitability, chemical and contact-mediated neuronal communication, developing and reorganizing nervous systems, sensation and perception, learning and memory formation, repair from neuronal damage, and the neuronal pathways of sensation and motor control. In the context of these subjects, we will review the neuronal alterations that cause some common brain diseases. Prerequisites: CHEM 131, and BIO 214 or ISAT 261.

BIO 305. Ornithology (1, 4). 3 credits.
Introduction to avian biology with exercises in field identification. Prerequisite: BIO 124 or permission of the instructor.

BIO 309. Marine and Freshwater Invertebrates (3, 0). 3 credits.
This is a course on animal diversity, the goal of which is to provide an understanding of diverse ways animals function, reproduce and interact with their environment. Invertebrate groups will be surveyed. How evolution has resulted in the great richness and diversity of life on earth today will be explored using the principles of adaptation and phylogenetic analysis. Prerequisite: BIO 124 or equivalent.

BIO 310. General Entomology (2, 4). 4 credits.
This laboratory and field study of insects. Morphology, physiology and behavioral aspects will be emphasized. Collection, identification and preservation of local insects by standard procedures will be part of the course. Prerequisite: BIO 124 or permission of the instructor.

BIO 312. Animal Welfare (3, 0). 3 credits.
An examination of the biological basis of animal welfare. Topics include the evolution of domestic animals, physiological and behavioral measurements of stress, welfare assessment and pain perception. Case studies examine the use of animals for companionship, food, medical research and entertainment. Prerequisite: BIO 124 or permission of the instructor.

BIO 316. Animal Development (3, 0). 3 credits.
This course integrates cell and molecular biology and genetics to understand the processes and mechanisms underlying body plan formation and organ formation in vertebrate animals and insects. The course additionally covers the development of muscle, skeleton and nervous tissues, the postembryonic phenomena of growth, metamorphosis and regeneration, and the developmental basis of evolutionary changes in animal anatomy. Prerequisite: BIO 224.

BIO 316L. Animal Development Lab (0, 3). 1 credit.
This course complements BIO 316 with hands-on laboratory experience. Emphasis will be on microscope study of chick and frog embryos to better understand embryonic processes and anatomy, learning the tools and techniques for manipulating live embryos, and designing and carrying out independent research projects using developmental biology techniques and reagents. Corequisite or prerequisite: BIO 316.

BIO 320. Comparative Anatomy of Vertebrates (2, 4). 4 credits.
A study of the evolution of vertebrate organ systems that integrates structure, function and development. Prerequisite: BIO 124, BIO 250 or equivalent.

BIO 324. Human Genetics (3, 0). 3 credits.
An intermediate genetics course with an emphasis on human biology. Topics include cytogenetics, pedigree analysis, quantitative traits, mutation, epigenetics, genomics and ethical issues raised by developing technologies. Prerequisite: BIO 224.

A detailed study of the comparative morphology and anatomy of tracheophytes. Prerequisite: BIO 124.

http://www.jmu.edu/catalog/14
BIO/MATH 342. Mathematical Models in Biology. 3 credits.
Introduction to dynamical models (discrete and continuous time) applied to biology. Tools of mathematical analysis from linear and nonlinear dynamics will be taught, including stability analysis of equilibria, as well as appropriate use of software packages. Emphasis will be on model development and interpretation in the context of applications, including effective written and oral presentation. Prerequisite: MATH 232 or MATH 225 or equivalent.

BIO 343. Immunology (3, 0). 3 credits.
A study of the molecular and cellular basis of the immune system. Topics include the properties of antigens and immunoglobulins, the development and regulation of humoral and cell-mediated immunity, resistance and immunization to infectious diseases, allergies, and autoimmune and immunodeficiency disorders. Prerequisite: BIO 214 or permission of the instructor.

BIO 343L. Immunology Laboratory (0, 4). 1 credit.
This course is designed to give the theory and application of many of the methods currently used in clinical and research immunology. Laboratory exercises will focus on methods for identifying, quantifying and assessing functional activities of immune cells and molecules. Students will gain experience using experimental animals and in animal cell culture techniques. Corequisite: BIO 343.

BIO 345. Animal Field Biology. 3 credits.
The course is designed to use the nutritional and energetic relationships between plants and animals to lead into the evolutionary relationship of the different animal phyla. Field study and lab specimens will be used to develop understanding of the ecological relationships of humans and local animals, insects and plants. Prerequisites: BIO 114 or equivalent.

BIO/GEOL 350. Invertebrate Paleontology (3, 2). 4 credits.
The evolution and ecological structure of the biosphere from the origin of life to the present, emphasizing the evolution and paleobiology of animal life as shown by the fossil record. Lectures discuss methods used to interpret the fossil record and cover topics such as phylogeny and systematics, functional morphology, biostratigraphy, paleoecology, evolution and extinction. Laboratories focus on the major groups of invertebrates that are common in the geologic record. Prerequisite: GEOL 230, BIO 114 or permission of the instructor.

BIO 353. Basic Ecology (3, 3). 4 credits.
Ecological principles are presented in a context which will aid pre-college teachers to understand the background science of the subject and apply it to instruction. Prerequisite: Course is open only to IDSLS majors and biology or biotechnology majors enrolled in the secondary education licensure pre-professional program. GSCI 166 or equivalent.

BIO 354. Global Climate Change and Life: Ecological and Biological Impacts of Climate Variability (2, 3). 3 credits.
Global climate change is important to the distribution, diversity, health and survival of organisms. The biota have changed through evolution in part as a response to selection pressures from these variations. Living things can also adjust to change through phenotypic flexibility. This course examines, in a seminar/discussion format, the potential ecological impacts of past and current patterns of climate alteration on organisms. Prerequisite: BIO 124 or equivalent.

BIO 360. Plant Biology (3, 0). 3 credits.
An introduction to the biology of plants including evolution, diversity, form and function, ecology and biotechnology. Prerequisites: BIO 124 and/or BIO 214. 

BIO/CHEM 361. Biochemistry I (3, 0). 3 credits.
An introduction to the molecules and chemical reactions of living systems. Structure and function of important classes of biomolecules are explored and the relationship of structure to function is stressed. Basic metabolic sequences are discussed. Prerequisites: CHEM 241 and permission of the instructor.

BIO 364. Human Uses of Plants (3, 0). 3 credits.
A survey of past, present and future uses of plants with emphasis on economically important plant families. Uses of cultivated plant origins, biodiversity and germplasm preservation are considered. Prerequisite: BIO 124 or permission of the instructor.

BIO 364L. Laboratory in Human Uses of Plants (0, 3). 1 credit.
An investigative examination of plants and their constituents with an emphasis on their physiological ecology, adaptations and economic utilization by humans. Prerequisite or corequisite: BIO 364.

BIO 366. Plants and Environment (3, 3). 4 credits.
An exploration of contemporary environmental issues as they relate to ecological principles. Ecological changes and organismal adaptations will be viewed from an evolutionary context. Past and present resource management by humans will be examined along with implications for the future. Prerequisites: Course is open only to IDSLS majors and biology or biotechnology majors enrolled in the secondary education licensure pre-professional program. GSCI 166 or equivalent.

Design and function of cellular and organ physiology will be explored in both non-human and human animals. Class activities will emphasize problem-solving and collaborative and independent learning. The laboratories will utilize computer simulations and animal/human experiments to examine principles of both physiology and scientific investigation. Prerequisites: BIO 214 and CHEM 132 or permission of the instructor. One semester each of calculus and statistics is recommended.

BIO 380. General Microbiology (2, 4). 4 credits.
A study of the structure and function of microorganisms and their relationship to humans and to the environment. Credit may not be earned in both BIO 280 and BIO 380. Prerequisite: BIO 214 or permission of the instructor.

BIO 386. Field Botany (3, 3). 4 credits.
An in-depth survey of vascular plants in the field with emphasis on identification, diversity of form and function, and field collections. Laboratory topics will include techniques for sampling plant communities, identifying local flora and preserving botanical materials. Prerequisite: BIO 124.

BIO/PSYC 395. Comparative Animal Behavior (3, 0). 3 credits.
This course covers aspects of the development, function and evolution of the behavior of nonhuman animals. Topics include intraspecies communication, feeding, aggression, territoriality, reproductive behavior and social behavior. Prerequisites: Psychology majors: PSYC 211 or PSYC 213; biology or biotechnology majors: BIO 114 and 124 and one of the following (‘C’ or better): MATH 205, 220, 231, 235, 285, 318.

BIO/GEOL 400. Geology and Ecology of the Bahamas. 3 credits.
This course explores the geology and ecology of the shallow-water marine environment by examining the preeminent modern example, the Bahamas platform. The Bahamas provide an excellent model for understanding modern and ancient carbonate and reef deposits and a variety of terrestrial/aquatic habitats. Biological processes are responsible for many of the geological features of the Bahamas, so the course considers the biology/ecology of marine organisms in addition to geological topics. Prerequisites: GEOL 110, GEOL 211 or a 200-level GEOL or BIO course; at least four hours of additional lab science, at least sophomore status, and permission of the instructor.

BIO 402. Forest Ecology. 4 credits.
A study of the function, structure and composition of forested ecosystems. The effect of physical geography on the distribution of forest communities will be explored. Issues of forest management and restoration will also be considered. Field laboratory topics will include dendrology and sampling techniques within different forest successional stages. Prerequisite: BIO 124 or equivalent.

BIO 403. Animal Communication. 3 credits.
In this integrated lecture and lab course, students will develop an understanding of how and why animals communicate. This course will explore animal communication from diverse perspectives, including the physical nature, design features and evolution of signals, and will do so through in-depth examination of examples of communication systems. Prerequisites: BIO and MATH 220, MATH 285 or MATH 318 or permission of the instructor.

BIO 404. Evolutionary Analysis (3, 0). 3 credits.
An examination of the place of theoretical thought in biology. The concepts of phylogenetic relationships and the mechanisms of organic change expressed through the principles of organic evolution will be stressed. Prerequisite: BIO 224 or permission of the instructor.

BIO/GEOL 405. Vertebrate Paleontology (3, 1). 3 credits.
A study of the origin and evolution of the vertebrates. Emphasis will be on understanding how the processes of Earth evolution and biological evolution have interacted through time to produce a coherent picture of vertebrate history. Prerequisite: GEOL 230, BIO 124 or permission of the instructor.

BIO 410. Advanced Human Anatomy (1, 6). 3 credits.
An advanced study of topics in human anatomy using dissection techniques. Prerequisites: BIO 280 and/or BIO 320 and permission of the instructor.

BIO 412. Mammalogy. 4 credits.
An introduction to the study of mammals, incorporating evolutionary history, general physiology, reproductive biology, systematics, ecology, wildlife management and behavior, followed by review of mammalian taxonomic orders. Lecture is reinforced with laboratory and field experience. Completion of BIO 320 recommended. Prerequisite: BIO 124 or equivalent.
BIO 414. Clinical Anatomy for Occupational Therapists. 4 credits.
This course offers an in-depth study of the structure of the musculoskeletal and peripheral nervous systems of the human body. Specific structural and neural pathologies will be examined in regards to impact on occupational performance. Laboratory experiences involving cadaver dissection, skeletal material, models and audiovisual technology will be utilized. Prerequisite: Admission to the Occupational Therapy program.

BIO 416. Human Embryology (3, 3). 4 credits.
An introduction to human development. Topics include the molecular and cellular process of gametogenesis, fertilization, gastrulation and organogenesis, as well as the macroscopic changes that occur from conception to birth. This course will provide a basis for understanding congenital malformations, cloning and stem cell research. Prerequisite: BIO 224 or BIO 280.

BIO 420. Medical Parasitology (3, 0). 3 credits.
The study and medical implications of parasites that infect humans. Class activities will emphasize parasite morphology, modes of transmission, mechanisms of host entry and infection, nictie selection, life cycles, pathogenesis, diagnosis, and treatment and control. Prerequisite: BIO 214 or permission of the instructor.

BIO 420L. Medical Parasitology Lab (0, 3). 1 credit.
This course will introduce students to the techniques and procedures currently used in clinical and research parasitology. Laboratory exercises will focus on diagnostic methods and the use of animal models that illustrate parasitic life cycles, including their infectious stages and modes of transmission. Corequisite or prerequisite: BIO 420.

BIO 426. Topics in Biology. 1-4 credits.
Studies in specified areas of biology. May be repeated for credit when course content changes. Prerequisite: See MyMadison for prerequisites for specific topics.

BIO 427. Topics in Biology with Laboratory. 1-4 credits.
Laboratory studies in special areas of biology to accompany BIO 426 or stand alone. May be repeated for credit when course content changes. Prerequisite: See MyMadison for prerequisites for specific topics.

BIO 432. Light Microscopy (2, 4). 4 credits.
This course covers the principles behind light microscopy, from the properties of light to the latest technologies in microscopy. Students will get hands-on experience with the different kinds of microscopes, including the confocal microscope. The course also covers fluorescent probes, advanced fluorescence techniques, digital imaging, methods of quantification and figure preparation for publication, with an emphasis on biological applications. Prerequisite: BIO 222 or BIO 224.

BIO 440. Functional Neuroscience for Occupational Therapists. 3 credits.
This course will examine functional performance of all aspects of the human nervous system. Specific nervous system conditions will be introduced and their impact on occupational performance, performance components and environmental contexts discussed. Prerequisite: Admission to the Occupational Therapy program.

BIO 444. Virology (3, 0). 3 credits.
A study of the fundamental aspects of both basic and medical virology. Credit may not be earned in both BIO 444 and BIO 544. Prerequisites: BIO 214 and BIO 224 or permission of the instructor.

Molecular, cellular and network mechanisms underlying behavior will be studied using problem-solving, discussion, lecture and critical reading of the primary literature. Similarities and differences between nervous systems and computers will be explored. Laboratories will utilize contemporary electrophysiology and computer simulation to examine the neurobiology of simple animal model systems. Prerequisite: BIO 214.

BIO 447. Evolution and Ecology of Infectious Disease (3, 0). 3 credits.
An introduction to the evolution and ecology of pathogenic microorganisms, with an emphasis on the bacteria. Emphasis will be placed on the study, discussion, and critique of scientific literature, as well as formal presentation of scientific information and data. Prerequisite: BIO 280 OR BIO 380.

BIO 448. Medical Microbiology (3, 3). 4 credits. Offered fall.
This class focuses on microorganisms of medical importance, mainly bacteria and viruses. Lecture follows an organism-by-organism approach. Key topics for each organism include general cell structure, unique structures/functions, epidemiology of the disease that the organism causes, mechanisms of pathogenesis, isolation and identification of the organism, and treatment options. Prerequisite: BIO 380.

BIO 450. Evolutionary and Societal Impacts of Developmental Biology (3, 0). 3 credits.
Discussion-based course on topical issues in developmental biology and how they impact animal evolution, bioethics, human identity and environmental science. Prerequisite: BIO 224.

Theoretical and applied aspects of distribution and abundance, population regulation, interactions between populations and conservation will be studied in selected organisms, including humans. Credit may not be earned in both BIO 452 and BIO 552. Prerequisite: BIO 124.

BIO 453. Microbial Ecology and Evolution (2, 4). 3 credits.
The ecology of microorganisms will be covered, including those important in human health and in natural environments. Emphasis will be placed on the study and critique of scientific literature. Credit may not be earned in both BIO 453 and 553. Prerequisites: BIO 124, and BIO 280 or BIO 380.

BIO 454/MATH 354. Introduction to Biometrics (3, 1). 4 credits.
This course discusses the role of statistics in biological research and interpretation of biological phenomena. The course will cover topics of sampling, correlation, regression analysis, tests of hypotheses, commonly observed distributions in natural populations, nonparametric tests, goodness-of-fit tests and ANOVA. In order to fully comprehend the statistical analysis of those distributions, students will review approximately half a dozen publications from different fields of biology. Prerequisite: MATH 220 or equivalent.

BIO 455. Plant Physiology (3, 3). 4 credits.
Function and structure of plants including water relations, mineral nutrition, transport phenomena, metabolism, growth and development, and selected topics in physiological ecology. Credit may not be earned in both BIO 455 and BIO 555. Prerequisite: CHEM 241 or CHEM 342.

BIO 456. Landscape Ecology (3, 3). 4 credits.
The functional and descriptive study of the interaction of the mosaic of ecosystems that comprise the landscape prevalent in a region. Prerequisite: BIO 124.

This course will explore the various ways that geographic information systems (GIS) can be used to answer biological questions. Students will use GIS software to study applications in ecology, conservation biology and environmental biology. No prior GIS experience is required. Prerequisites: BIO 124 or permission of the instructor.

Functional relationships and productivity of freshwater communities are examined as they are affected by their physical, chemical and biotic environment. Organisms inhabiting lakes, ponds, rivers, streams and estuaries are studied at the population, community and ecosystem levels. Credit may not be earned in both BIO 459 and BIO 559. Prerequisites: BIO 124, CHEM 131 and CHEM 132.

BIO 460. Plant Cell and Tissue Culture (2, 4). 4 credits.
Theory and practice of growing isolated plant cells, tissues and organs. Credit may not be earned in both BIO 460 and BIO 560. Prerequisites: BIO 114 and CHEM 132.

BIO 465. Environmental Toxicology (2, 4). 4 credits.
The study of the types, sources and biological effects of environmental pollutants. Class activities will include discussions of foundational material covering the biological effects of a broad range of pollutants. Labs will focus on the use of simulation models, geographic information systems and other software currently used in environmental toxicology for the analysis of environmental data. Credit may not be earned in both BIO 465 and BIO 565. Prerequisite: BIO 224 or equivalent.

BIO 466. Toxicology Seminar (3, 0). 3 credits.
Readings and discussions of the primary scientific literature with a focus on the biological effects of toxins at the genetic, cellular, physiological and ecological level. Prerequisite: BIO 224 or equivalent.

Comparative morphology, ecology and taxonomy of representative algae, fungi and bryophytes. Credit may not be earned in both BIO 470 and BIO 570. Prerequisite: BIO 124.

BIO 472. Human Metabolism (3, 0). 3 credits.
This course will focus on the cellular physiological mechanisms responsible for regulation of normal human metabolism and place them in the context of the development of chronic disease processes. Prerequisites: CHEM 241 and BIO 214 or permission of the instructor.

http://www.jmu.edu/catalog/14
BIO 475. Advanced Cell Biology (3, 0). 3 credits.
This seminar-style course covers topics in advanced cell and molecular biology. Class format will be discussions from assigned review articles, followed by student-led presentations of assigned primary literature. Students write a research grant proposal and give an oral presentation of their proposal in class. Prerequisite: BIO 224.

BIO 477. The Genetics of Cancer (3, 0). 3 credits.
Exploration of the genetic and epigenetic factors that drive the evolution of cancer cells, taking into account both inherited and environmental contributions to this process. The cellular mechanisms debilitated or subverted during cancer development will be studied, and student teams will demonstrate their understanding of the material through the diagnosis, genetic characterization and treatment of a hypothetical cancer patient. Prerequisite: BIO 224.

BIO 480. Advanced Molecular Biology (3, 4). 4 credits.
Cellular constituents and genetics are emphasized at the molecular level. Credit may not be earned in both BIO 480 and BIO 580. Prerequisite: BIO 224, and CHEM 241 or CHEM 342.

BIO 481. Genomics (3, 3). 4 credits.
An advanced biology course designed for students to learn about the structure and function of genomes, to develop facility in web-based tools and resources, and to appreciate the power and limitations of current resources and knowledge. Focus is on the biological questions that genomics can help to answer. Laboratory exercises will be sequencing and analyzing genomic DNA. Prerequisite: BIO 224.

BIO 482. Human Histology (3, 3). 4 credits.
Microscopic structure of cells, tissues and major organ systems of the body. Basic anatomical and physiological function is presented to emphasize the histological significance of the examined organ systems. Prerequisite: BIO 270, BIO 290 or equivalent.

BIO 483. Bioinformatics (3, 3). 4 credits.
Focuses on building databases and computer programs to manage and analyze biological sequence data, and secondarily on theoretical aspects. The overall objective is to learn current information about the intersection of information science and biology, to develop facility in the many web-based tools and resources for further studies and research in genomics/bioinformatics, and to appreciate the power and limitations of current resources and knowledge. Prerequisite: BIO 224.

BIO 486. Systematics of Vascular Plants (2, 4). 4 credits.
Study of systematic theory and an overview of the classification and evolution of higher plants with particular attention to flowering plant families. Techniques for plant identification and collection and for construction of phylogenies will be taught in lab. Prerequisite: BIO 124 or permission of the instructor.

The interactions of organisms with their physical environment. Concepts from fluid and solid mechanics are applied to biological form and function. Prerequisite: BIO 114 or permission of the instructor.

BIO 492. Mentored Biology Course Assistant (0, 4). 1 credit.
Students are trained in research theory and techniques. Students must contact and make arrangements with a supervising instructor at the term prior to registration. May be repeated for a maximum of two credits when course content changes. Prerequisite: GPA of 2.5 or higher and permission of the instructor.

BIO 497. Biological Research (0, 4-8). 2 credits.
Students pursue a lab or field research project in a selected area of biology. Students must contact and make arrangements with a supervising instructor in the term prior to registration and complete a 2-3 page proposal no later than five weeks after the start of the course. Course may be repeated. Prerequisite: GPA of 2.5 or greater.

BIO 499. Senior Project (0, 8). 2 credits.
Three semester courses taken as Parts A, B and C, 2 credits each. Expectations, requirements and prerequisites are defined in the department senior project policy. Students must contact and make arrangements with a supervising instructor in the term prior to registration.

Biotechnology
College of Science and Mathematics and College of Integrated Science and Technology
BIOT 260. Biotechnology Seminar. 1 credit.
An introduction to biotechnology. Topics will include research opportunities, careers and current topics in biotechnology. Not available for biology major or minor credit.

Business Analytics
College of Business
BSAN 391. Quantitative Business Modeling. 3 credits.
This course addresses a wide range of complex business problems through quantitative modeling and appropriate computer applications, especially spreadsheets. Approaches include optimization and sensitivity analysis, multi-objective decision making and risk analysis. Prerequisites: COB 291 or equivalent with a grade of "B-" or higher and junior or senior standing.

BSAN/CIS 392. Descriptive and Predictive Analytic Methods. 3 credits.
This course integrates advanced analytical methods from statistics and management science for enhanced understanding of business performance and improved predictive capabilities. The emphasis is on applying computer applications for statistical modeling and analysis of data from a variety of business processes to support managerial decision-making. Prerequisites: COB 291 or equivalent with a grade of "B-" or higher and junior or senior standing.

BSAN/CIS 393. Predictive Analytics and Data Mining. 3 credits.
This course focuses on quantitative techniques and computer applications that allow the extraction of useful, previously unrecognized information from large data sets for predictive purposes. By effectively sifting through databases such as those generated by many businesses, data mining allows the analyst to recognize potentially important patterns and to target business opportunities. Prerequisites: COB 291 or equivalent with a grade of "B-" or higher and junior or senior standing.

BSAN/CIS 490. Special Studies in Computer Information Systems or Business Analytics. 1-3 credits.
This advanced course in information and/or business analytics designed to give qualified students an opportunity to complete independent study under faculty supervision. Prerequisites: Senior standing, recommendation of the instructor and written approval of the department head prior to registration.

BSAN 498. Special Topics in Business Analytics. 3 credits.
An advanced course designed to allow exploration of current topics in business analytics. Course content will vary. See adviser for current content. Prerequisite: Permission of the instructor.

Business Law
College of Business
BLAW 314. Real Estate Law. 3 credits.
A study of the principles of law-governing interests in real estate including acquisition, encumbrance, transfer, rights and obligations of parties, and state and federal regulations thereof. Prerequisites: COB 219 and junior standing.

BLAW 470. Financial Products: Regulation and Protection. 3 credits.
An inquiry into the legal environment of the financial marketplace. Topics explored include the role of regulatory agencies, the design of contracts.
which minimize credit risk and maximize marketability, and methods of protecting the proprietary component of innovative financial products. Prerequisites: COB 218 and junior standing.

BLAW 494. White Collar Crime. 3 credits.
A study of white collar crime in America, a unique type of criminal activity that primarily affects businesses. The course explores the substance of white collar crime and focuses on the unique elements of various crimes through the study of actual cases. The course also examines how white collar crimes are prosecuted and defended in state and federal courts. Students are introduced to federal and state criminal procedure, substantive defenses, and the use of sentencing guidelines. Prerequisite: COB 300.

BLAW 495. Contract Law, Sales and Secured Transactions. 3 credits.
A study of the law of contracts, Article Two of the Uniform Commercial Code, product liability, legal liability of accountants, secured transactions and bankruptcy with an emphasis on the role these play in professional and personal decision making. The courts, the legislature and the interaction of these two branches of government in responding to a changing society are subjects throughout. Prerequisites: COB 218 and COB 300.

BLAW 496. The Law of Business Organizations, Negotiable Property Instruments and Property and Property. 3 credits.
A study of Article Three of the Uniform Commercial Code, agency, partnerships, corporations, securities regulations, real property, trusts and decedents estates with an emphasis on the role these play in professional and personal decision making. Prerequisites: COB 218 and COB 300 or permission of the instructor.

BLAW 497. Legal Aspects of International Business. 3 credits.
Survey of legal implications of international business dealings including foreign sales transactions, distribution arrangements, the management of technology and legal aspects of the multinational corporation. The foreign legal environment, relevant conventions and trade regulations, and the transnational reach of regulatory law will be considered. Prerequisites: COB 218 and senior standing.

BLAW 499. Special Topics in Business Law. 3 credits.
This course is designed to allow explorations of areas of current topics in business law. Course content will vary by semester and instructor. For current content, consult the adviser. Prerequisites: COB 300 and permission of the instructor.

Chemistry

Department of Chemistry and Biochemistry

CHEM 100. Chemistry Today. 3 credits.
Provides the background necessary to understand how chemistry affects our daily lives. An enriched overview of the fundamental principles of chemistry is followed by applications to topics of current interest. A high school science background is assumed. Not available for major or minor credit in chemistry.

*CHEM 120. Concepts of Chemistry. 3 credits.
A one-semester introduction to the fundamental principles, laws and applications of chemistry. Examples relating to the health sciences are emphasized. Not available for major or minor credit in chemistry.

CHEM 120L. Concepts of Chemistry Laboratory. 1 credit.
A one-semester introduction to laboratory work which illustrates the fundamental principles, laws and applications of chemistry discussed in CHEM 120. Experiments relating to the health sciences are emphasized. Prerequisite or corequisite: CHEM 120.

*CHEM 131. General Chemistry I. 3 credits.
The first of a two-course general chemistry sequence for science majors. It is designed to introduce students to basic chemical concepts including atomic structure, periodic properties of the elements, nomenclature, basic stoichiometry, theories related to reactivity and bonding, and the behavior of materials. Corequisite: CHEM 131L or CHEM 135L.

CHEM 131L. General Chemistry Laboratory I. 3 credits.
A one-semester introduction to basic chemical concepts including atomic structure, periodic properties of the elements, theories related to reactivity and bonding, and the behavior of materials. Corequisite: CHEM 131L or CHEM 135L.

CHEM 132L. General Chemistry Laboratory II. 3 credits.
A one-semester introduction to laboratory work which illustrates the fundamental principles, laws and applications of chemistry discussed in CHEM 132. Experiments relating to the health sciences are emphasized. Not available for major or minor credit in chemistry.

CHEM 133E. General Chemistry for Engineers. 4 credits.
A calculus-based introduction to chemical concepts for engineering students designed to introduce students to basic chemical concepts including atomic structure, periodic properties of the elements, theories related to reactivity and bonding, the behavior or properties of the elements, theories related to reactivity and bonding, and the behavior of materials, chemical reactivity, chemical equilibrium, electrochemistry, thermodynamics and kinetics. Familiarity with chemical stoichiometry and dimensional analysis is assumed.

CHEM 133EL. General Chemistry for Engineers Laboratory. 1 credit.
A one-semester introduction to basic chemical concepts for engineering students designed to introduce students to basic chemical concepts including atomic structure, periodic properties of the elements, theories related to reactivity and bonding, the behavior or properties of the elements, theories related to reactivity and bonding, and the behavior of materials, chemical reactivity, chemical equilibrium, electrochemistry, thermodynamics and kinetics. Familiarity with chemical stoichiometry and dimensional analysis is assumed. Prerequisite or corequisite: CHEM 133E.

CHEM 135L. Special General Chemistry Laboratory. 1 credit.
An enriched laboratory course designed primarily for chemistry majors. Corequisite: CHEM 131.

CHEM 136L. Special General Chemistry Laboratory. 2 credits.
An enriched laboratory course that includes special topics and experiments not presented in the regular CHEM 132 laboratory. Prerequisites: Grades of "C-" or higher in CHEM 131 and either CHEM 133L or CHEM 135L. Corequisite or prerequisite: CHEM 132.

http://www.jmu.edu/catalog/14
The major objective for this course is to teach the modern method of scientific problem solving using organic compounds as models. Emphasis will be on the chemical language (nomenclature and terminology), molecular electronic concepts, theories of organic reactions, stereochemistry and structure elucidation of organic compounds. Credit cannot be earned in both CHEM 241L and 242L. Prerequisite: Grade of "C-" or higher in CHEM 132.
CHEM 241L. Concepts of Organic Chemistry Laboratory. 1 credit.
Laboratory work will include training in the techniques of organic chemistry, preparation of compounds and some organic qualitative analysis. Prerequisite or corequisite: CHEM 241.

The major objective for this course is to teach the modern method of scientific problem solving using organic compounds as models. Emphasis will be on the chemical language (nomenclature and terminology), molecular electronic concepts, theories of organic reactions, stereochemistry and structure elucidation of organic compounds. Prerequisite: Grade of "C-" or higher in CHEM 241. Corequisite: CHEM 242L. It is strongly recommended that students take 242L with 242 lecture.

CHEM 242L. Organic Chemistry Laboratory. 2 credits.
This course will present laboratory techniques and experiments associated with organic chemistry, including an introduction to synthesis, spectroscopic methods, chromatographic techniques and some qualitative organic analysis. Credit cannot be earned in both CHEM 241L and 242L. Corequisite: CHEM 242. Prerequisite: Grade of "C-" or higher in CHEM 241.

CHEM 260. Concepts of Biochemistry. 3 credits.
A brief survey of the principal constituents of living cells, proteins, carbohydrates, lipids and nucleic acids, with emphasis on their synthesis and transformations in vivo. Intermediary metabolism and protein replication will be stressed. Not available for major or minor credit. Prerequisites: CHEM 260 or CHEM 241L or CHEM 242L.

CHEM 260L. Concepts of Biochemistry Laboratory. 1 credit.
The laboratory work will comprise experiments demonstrating some of the pertinent reactions including those of analytical value. Prerequisite or corequisite: CHEM 260.

CHEM 270. Inorganic Chemistry I. 3 credits.
A survey of the chemistry of the elements and modern theories of bonding. Prerequisite: Grade of "C-" or higher in CHEM 132.

CHEM 280. An Alternative Lower-Division Chemistry Experience. 1-4 credits.
This course will provide a mechanism for offering a nontraditional, lower-division, lecture and/or laboratory course. It will be offered only with the approval of the full-time teaching faculty. No course will be offered more than three times under the 280 designation. Students may repeat CHEM 280 for credit when course content changes.

CHEM 287L. Integrated Inorganic/Organic Laboratory. 2 credits.
An enriched, integrated introduction to the laboratory procedures associated with inorganic and organic chemistry. Topics include apparatus design and construction, synthesis, separation methods, spectroscopic analysis and application of computers in the laboratory. Prerequisite or corequisite: CHEM 241.

CHEM 288L. Integrated Inorganic/Organic Laboratory. 2 credits.
An enriched, integrated introduction to the laboratory procedures associated with inorganic and organic chemistry. Topics include apparatus design and construction, synthesis, separation methods, spectroscopic analysis and application of computers in the laboratory. Prerequisite: Grade of "C-" or higher in CHEM 241. Corequisite: CHEM 270.

CHEM 295. Special Topics. 1-2 credits.
Offered when viewed to be of particular interest to the student and not covered in regular courses. Prerequisites: CHEM 131 and permission of the instructor.

CHEM 295L. Special Topics Laboratory. 1-2 credits.
The laboratory portion of Special Topics. Prerequisites: CHEM 295 and permission of the instructor.

CHEM 325. Chemical Hazards and Laboratory Safety. 1 credit.
A brief introduction to physical and chemical hazards which may be encountered by laboratory workers. Prerequisite: CHEM 241L or permission of the instructor.

CHEM 325L. Chemical Hazards and Laboratory Safety Laboratory. 1 credit.
The laboratory portion of Chemical Hazards and Laboratory Safety. Prerequisite: CHEM 325.

CHEM 331. Physical Chemistry I. 3 credits.
A brief introduction to physical and chemical hazards which may be encountered by laboratory workers. Prerequisite: CHEM 241L or permission of the instructor.

CHEM 331L. Physical Chemistry Laboratory I. 1 credit.
The laboratory portion of Physical Chemistry I. Prerequisites: CHEM 260 and permission of the instructor.

CHEM 332. Analytical Chemistry. 4 credits.
The total analysis concept is introduced and developed. This framework encompasses the areas of experiment design, sample collection and treatment, and statistical evaluation of results, as well as standard analysis techniques. Prerequisite: CHEM 132.

CHEM 352. Instrumental Analysis. 3 credits.
This course emphasizes the application of instrumental techniques to the quantitative determination of chemical composition. Both instrumental theory and practical applications are presented. Prerequisites: CHEM 351 and MATH 235.

CHEM 352L. Instrumental Analysis Laboratory. 2 credits.
This course will introduce students to the methodology and technology associated with the design and use of chemical instrumentation. Students perform experiments that illustrate the theoretical principles associated with instrument designs and the application of instruments to the solution of qualitative and quantitative analysis problems. Corequisite: CHEM 352.

CHEM 354. Environmental Chemistry Field Camp. 3 credits.
Fundamentals of environmental chemistry with laboratory and field trip components. The basic chemical principles of environmental problems are studied. Field trips and laboratory work on real samples are integrated with lecture material. Prerequisite: CHEM 241 or permission of the instructor.

CHEM/BIOG 361. Biochemistry I. 3 credits.
An introduction to molecular and chemical reactions of living systems. Structure and function of important classes of biomolecules are explored and the relationship of structure to function is stressed. Basic metabolic sequences are discussed. Prerequisites: Grade of "C-" or higher in CHEM 241 and permission of the instructor. Completion of CHEM 242 is strongly recommended.

CHEM 362. Biochemistry II. 3 credits.
A continuation of CHEM 361 including metabolic regulation, protein biosynthesis, analytical methods and isolation of biomolecules. Prerequisite: CHEM 361 or permission of the instructor.

CHEM 366L. Biochemistry Laboratory I. 2 credits.
An introduction to laboratory techniques and experimental approaches associated with modern biochemistry. Isolation and characterization of enzymes and other biomolecules are emphasized. Prerequisites: CHEM 361 and either CHEM 241L or CHEM 242L or CHEM 287L.

CHEM/PHYS/MATS 375. An Introduction to Materials Science. 3 credits.
An introduction to materials science with emphasis on general properties of materials. Topics will include crystal structure, extended and point defects, and mechanical, electrical, thermal and magnetic properties of metals, ceramics, electronic materials, composites and organic materials. Prerequisites: CHEM 131 and PHYS 150 or PHYS 250 or ISAT 212 or permission of the instructor.

CHEM 390A, B. Problems in Chemistry. 1-3 credits, repeatable for a total of 4 credits. A project is undertaken dealing with some aspect of chemistry under the guidance of a faculty adviser.

CHEM 395. Perspectives in Chemistry. 1 credit.
A description of the technical and nontechnical capabilities expected of a university graduate who enters industry, government or academia is presented. The student is introduced to the various laws governing the chemical industry as well as to the fields of toxicology and environmental health. Experts in various disciplines discuss current topics of concern to the chemistry and biology student.

CHEM 432. Physical Chemistry II. 3 credits.
A study of atomic and molecular energy levels and structure as interpreted by quantum theory. Prerequisites: CHEM 132 and MATH 236 and PHYS 250.

CHEM 438L. Physical Chemistry Laboratory. 2 credits.
A laboratory course which emphasizes the application of various physical measurement techniques as a means of obtaining data to test fundamental chemical theory. Corequisite: CHEM 432.

CHEM 440. Intermediate Organic Chemistry. 3 credits.
An advanced study of the theory of organic chemistry as applied to chemical reactions and synthetic methods. Topics include reaction mechanisms, spectroscopy and stereochemistry will be included. Prerequisite: CHEM 242.

CHEM 445. Polymer Chemistry. 4 credits.
A study of the synthesis and characterization of macromolecules. Polymer chemistry is discussed in a manner that focuses most attention on the properties of macromolecules that can be understood at the molecular level. Prerequisite: CHEM 242.

http://www.jmu.edu/catalog/14
CHEM 459. Nuclear and Radiation Chemistry. 3 credits.
A study of the fundamentals of radioactivity in chemistry. Topics include the effects of radiation on matter, measurement of radiation, activation analysis, tracer studies and the nuclear fuel cycle. Applications of radioactive materials and radiation in industry and medicine will be described. Prerequisites: CHEM 132 and PHYS 250 or permission of the instructor. CHEM 459L. Laboratory for Nuclear and Radiation Chemistry. 1 credit. A laboratory course designed to demonstrate the topics covered in CHEM 459. Corequisite: CHEM 459. Prerequisites: CHEM 132 and PHYS 250 or permission of the instructor.

CHEM/PHYS 455. Lasers and Their Applications to Physical Sciences. 3 credits.
An introduction to both the theoretical and practical aspects of lasers and their applications in the physical sciences. Prerequisite: PHYS 270, CHEM 331 or permission of the instructor.

CHEM 470. Inorganic Chemistry II. 3 credits.
A study of selected topics in the field of advanced inorganic chemistry. Prerequisite: A grade of “C-” or higher in CHEM 270. Prerequisite or corequisite: CHEM 331.

CHEM 480. Selected Topics in Chemistry. 1-4 credits each semester.
This course is designed to allow an in-depth study of specific topics in chemistry selected according to student and faculty interests. Prerequisites: CHEM 270, CHEM 331, CHM 481, or permission of the instructor.

CHEM 481. Literature and Seminar I. 1 credit.
Provides instruction in methods of abstracting specific information from the body of chemical literature. Attendance at regularly scheduled department seminars is required. Prerequisites: CHEM 270 or permission of the instructor.

CHEM 482. Literature and Seminar II. 1 credit.
Provides practice in preparing and presenting a literature-based seminar and paper on a chemical topic. Attendance at regularly scheduled department seminars is required. Prerequisite: CHEM 481 or permission of the instructor.

CHEM 494. Internship in Chemistry. 1-2 credits. May be repeated for a maximum of 6 credits. Students participate in research or applied chemistry outside of the university. A proposal must be approved prior to registration, and a final paper will be completed.

CHEM 497A, B, C. Undergraduate Chemical Research. 2-4 credits, repeatable for a total of 6 credits. Research in a selected area of chemistry, as arranged with and approved by a faculty research adviser the semester prior to registration.

CHEM 499. Honors. 6 credits.

Chinese

Department of Foreign Languages, Literatures and Cultures

CHIN 101. Elementary Chinese I. 3-4 credits.
The fundamentals of Mandarin Chinese through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. Prerequisite: CHIN 102. Elementary Chinese II. 4 credits. The fundamentals of Mandarin Chinese through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. If student has had two or more years of the language in high school he/she will not receive credit for the course. Prerequisite: CHIN 101.

CHIN 111. Intensive Chinese I. 6 credits.
The fundamentals of Chinese through intensive listening, speaking, reading and writing. This four-week course is the equivalent of CHIN 101-102.

CHIN 212. Intensive Chinese II. 6 credits.
The fundamentals of Chinese through intensive listening, speaking, reading and writing at the intermediate level. This four-week course is the equivalent of CHIN 211-212. Prerequisite: CHIN 102 or CHIN 111 or permission of the instructor.

CHIN 231 Intermediate Chinese I. 3 credits.
A more in-depth study of grammar, vocabulary building, conversation and reading, introduction to composition. Prerequisite: CHIN 102 or permission of the instructor.

CHIN 232. Intermediate Chinese II. 3 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading. Prerequisite: CHIN 231 or permission of the instructor.

CHIN 300. Chinese Grammar and Communication. 3 credits.
Intensive training in grammatical structures and their applications to oral and written conversation. Instruction is in Chinese. Prerequisite: CHIN 232 or CHIN 212 or permission of the instructor.

CHIN 320. Chinese Oral and Written Communication. 3 credits.
Intensive training in the use of modern, everyday Chinese with emphasis on conversation and composition. Readings in Chinese will provide a context for discussion and writing. Prerequisite: CHIN 300.

CHIN 397. Intensive Reading and Writing in Chinese I. 3 credits.
The major goal of this course is to help students intensively develop proficiency in reading and writing based on their competence in listening and speaking. Students are expected to appropriately express their ideas in writing on a wide range of topics and achieve reading competence in Mandarin Chinese. Prerequisite: Permission of the instructor.

CHIN 398. Intensive Reading and Writing in Chinese II. 3 credits.
Continuation of intensive training in the reading and writing of modern Mandarin Chinese. Instruction is in Chinese.

Classics

Department of Foreign Languages, Literatures and Cultures

CLAS 100. Latin and Greek Roots of English Words. 3 credits.
Intensive study of Latin and Greek word-roots, prefixes and suffixes in the forms they take in English words. An English vocabulary-development course for students with no knowledge of Latin or Greek. Does not count toward licensure in Latin.

CLAS 265. The Individual and Society in Ancient Greece and Rome. 3 credits.
Discussion of literary and historical sources that reflect the attitudes and values of individuals in various social classes. All readings are in English.

CLAS 266. Greek and Roman Classics in Translation. 3 credits.
Discussion of the writings that illustrate the cultural values and intellectual attitudes which constitute the most important legacy of Classical civilization. All readings are in English.

CLAS 337. Human Values: The Classical Tradition. 3 credits.
Discussion of human values and the human condition reflected in writings from the eighth century B.C. to the present day. Does not count toward licensure in Latin. All readings are in English.

CLAS 360. Topics in Greek and Roman Culture. 3 credits.
A study of selected topics in the culture of Ancient Greece and Rome. May be repeated for credit with change of topics.

College of Business

College of Business

COB 191. Business Statistics. 3 credits.
The application of statistical methods to business. Introduces data presentation, descriptive statistics, probability, sampling, estimation and hypothesis testing. Emphasis is on using spreadsheet tools and functions of statistical analysis. Prerequisite: MATH 155, MATH 156 or sufficient score on the Mathematics Placement Exam.

COB 202. Interpersonal Skills. 3 credits.
An applied course consisting of experiential exercises followed by class discussion. Cases are used as learning activities where the instructor acts as a facilitator to learning. Essential theory emanates from class discussions within a student-based rather than instructor-based format. Theory and application are interwoven by means of student self-assessment exercises and group discussion. Prerequisite: Open only to sophomore business majors.

COB 204. Computer Information Systems. 3 credits.
An introduction to computer-based information systems. Emphasis is placed on the role of computers in business and society, computer hardware and software, analysis, design and implementation of information systems, computer ethics, and collaboration using computers. Students will create databases and collaborate using computer-based tools.

COB 218. Legal Environment of Business. 3 credits.
A study of the law as a means of social, political and economic change. The American legal system from the standpoint of its sources and philosophy with special emphasis on business relations and the role of government in affecting them.

COB 241. Financial Accounting. 3 credits.
The role of financial data in contemporary society; the problems of measuring and reporting income, assets, liabilities and equities; interpretation of financial statements. Prerequisites: Sophomore standing and declared business major.

http://www.jmu.edu/catalog/14
COB 242. Managerial Accounting. 3 credits.
The attention-directing and problem-solving functions of accounting in relation to current planning and control, evaluation of performance, special decisions, and long-range planning. Prerequisite: COB 241.

COB 291. Introduction to Management Science. 3 credits.
The application of quantitative modeling and analysis to decision making. Introduces linear programming, decision theory, queuing, simulation and forecasting methods. Emphasis is on implementing spreadsheet models for business applications. Prerequisites: COB 191 and MATH 205 or equivalent.

COB 300A. Integrated Functional Systems: Management. 3 credits.
This program is the management component of an integrated learning experience consisting of four courses, taken concurrently, which introduces the fundamental conceptual tools of management, finance, operations, and marketing in such a way that to establish their mutual relevance and interdependence. Students work in small project teams on tasks designed to require the application in concert of conceptual tools from each of the function areas. Prerequisites: Completion of all required 100- and 200-level B.B.A. core courses, junior standing (56 hours) and formal admission to the College of Business.

COB 300B. Integrated Functional Systems: Finance. 3 credits.
COB 300B is the finance component of an integrated learning experience consisting of four courses, taken concurrently, which introduces the fundamental conceptual tools of management, finance, operations, and marketing in such a way that to establish their mutual relevance and interdependence. Students work in small project teams on tasks designed to require the application in concert of conceptual tools from each of the function areas. Prerequisites: Completion of all required 100- and 200-level B.B.A. core courses, junior standing (56 hours) and formal admission to the College of Business.

COB 300C. Integrated Functional Systems: Operations. 3 credits.
COB 300C is the operations component of an integrated learning experience consisting of four courses, taken concurrently, which introduces the fundamental conceptual tools of management, finance, operations, and marketing in such a way that to establish their mutual relevance and interdependence. Students work in small project teams on tasks designed to require the application in concert of conceptual tools from each of the function areas. Prerequisites: Completion of all required 100- and 200-level B.B.A. core courses, junior standing (56 hours) and formal admission to the College of Business.

COB 300D. Integrated Functional Systems: Marketing. 3 credits.
COB 300D is the marketing component of an integrated learning experience consisting of four courses, taken concurrently, which introduces the fundamental conceptual tools of management, finance, operations, and marketing in such a way that to establish their mutual relevance and interdependence. Students work in small project teams on tasks designed to require the application in concert of conceptual tools from each of the function areas. Prerequisites: Completion of all required 100- and 200-level B.B.A. core courses, junior standing (56 hours) and formal admission to the College of Business.

COB 301. European Integration, Culture and History. 3 credits.
This course is designed to complement the COB 300 A-D or European marketing minor when taught as part of the semester in Antwerp, Belgium program. COB 301 will only be offered as part of the semester in Antwerp program. Students will study European integration in the classroom and visit governmental institutions, historical places and cultural events associated with course content. Prerequisites: Requires acceptance to the semester in Antwerp program. Must be taken as a corequisite with COB 300 or courses for the European marketing minor. Cannot be used as an elective to fulfill any CoB major or any other minor.

COB 487. Strategic Management. 3 credits.
Strategic management is designed to be the capstone course for seniors completing their undergraduate studies in the various functional areas of business administration. The course is comprehensive and structured to build on the foundational knowledge students have gained through completing the interdisciplinary COB 300, Integrated Functional Systems, learning experience and from their respective concentrations. Prerequisites COB 300 and completion of one full academic semester after completing COB 300.

COB 490. Special Studies in Business Administration. 1-3 credits.
Designed to give capable students an opportunity to complete a faculty supervised independent study apart from a specific major. Prerequisite: Permission from the Associate Dean for Student Services.

COB 491. Peer Advisor Training. 0 credits.
This block course will provide peer advisor trainees with the information necessary to give guidance to their peers in understanding various university and college academic policies and procedures and the university resources available to address academic questions and issues. Cannot be applied to any College of Business major or minor. Prerequisites: Junior standing (78 credit hours) and approval of the Associate Dean for Student Services one month prior to registration.

COB 492. Peer Advising. 2 credits per semester, limit of 4 credits total. Practicum in advising focuses on College of Business students providing guidance to their peers in understanding various university and college academic procedures and policies, as well as offering knowledgeable referrals to appropriate university resources. May be taken twice for up to four credit hours. Cannot be applied to any COB major or minor. Prerequisites: Senior standing and successful completion of COB 491.

### Communication Sciences and Disorders

**Department of Communication Sciences and Disorders**

**CSD 200. Introduction to Communication Disorders. 3 credits.**
This course is an introduction to human communication, the most advanced of neurological functions which separates humans from all other species. It surveys both normal and communicatively disordered populations served by audiologists, speech-language pathologists, educators and neuropsychologists.

**CSD 207. Phonetics. 3 credits.**
Instruction in various transcription techniques for phonetic and phonemic analysis of speech production.

**CSD 208. Anatomy and Physiology of the Ear and Voice Mechanism. 3 credits.**
A detailed study of the anatomy and physiology of the speech mechanism.

**CSD 209. Acoustics of Hearing and Speech. 3 credits.**
Introduction to acoustics of speech and hearing. Introduction to physical acoustics, sound generation and transmission, resonance, speech acoustics and speech perception.

**CSD 300. Language Development. 3 credits.**
The study of language acquisition, development, structure and function in normal children. The development of language in all cultures and the universal nature of the developmental process is the foundation for continued study in speech-language hearing.

**CSD 301. Audiology. 3 credits.**
An introduction to the symptoms, causes and treatment of hearing disorders. Hearing test instrumentation and interpretation in clinical situations are emphasized. Prerequisites: A grade of “C” or better in CSD 207, CSD 208 and CSD 209.

**CSD 314. Phonological and Language Disorders. 3 credits.**
An introduction to phonological and language disorders in children and adults. Etiological and maintaining factors are discussed, and an overview of assessment and re/habilitation procedures is presented. Prerequisite: CSD 300 or permission.

**CSD 318. Aural Rehabilitation. 3 credits.**
Concentrated attention is given to communication problems of the hearing handicapped. Aural rehabilitation is emphasized including lip reading and auditory training. Prerequisite: CSD 301 or permission.

**CSD 412. Multicultural Topics in Communication Disorders. 3 credits.**
This course will address considerations for effective service delivery to culturally and linguistically diverse populations. An overview of cultural characteristics will be provided with particular attention to specific minority populations. Discussion on speech and language variations in dialects, bilingualism and foreign accent, nonbiased assessment and strategies for enhancing communication with families from diverse cultures will be presented. Prerequisites: CSD 200, CSD 207, CSD 300; CSD 314.

**CSD 415. Neuroanatomy and Neurogenic Communication Disorders. 3 credits.**
Introduces neurogenic communication disorders from a neuroanatomical approach. Prerequisite: CSD 208 or permission.

**CSD 416. Organic Speech Disorders. 3 credits.**
Clinical procedures in the areas of fluency, oral-facial and voice disorders are studied. Evaluative and remedial aspects are emphasized. Prerequisite: CSD 308.

**CSD 420. Introduction to Sign Language. 3 credits.**
Provides an introduction to American Sign Language, the deaf community and English-based signed systems.

http://www.jmu.edu/catalog/14
SCOM 241. Sign Language II. 3 credits.
Focusses on developing conversational skills of students whose core vocabulary and knowledge of the grammar and pragmatics of sign language are basic; distinguishes ASL from English sign systems. Prerequisite: CSD 420 or permission.

SCOM 444. Child Language Development and Disorders. 3 credits.
The study of normal language development in children, including an overview of the linguistic bases of language. Topics include the examination of the various manifestations of language disorders in children and the different strategies for intervention. This course does not meet the degree requirements for CSD majors.

SCOM 470. Methods and Observation. 3 credits.
Directed observation and participation in practical experiences. Introduction to the clinical process in speech-language pathology. Practical clinical methodology will be emphasized. Prerequisites: Majors only; CSD 314 or permission.

SCOM 471. Methods and Observation in Audiology. 3 credits.
An introduction to the clinical process in audiology via directed observation and participation in laboratory and patient interactions. Practical clinical methodology is emphasized. Majors only; interest in graduate study in audiology. Repeatable for credit up to six credits. Must have senior status to enroll. Prerequisite: CSD 301 or permission.

SCOM 490. Special Studies in Communication Sciences and Disorders. 1-3 credits.
Provides students opportunity for independent study and/or small class instruction in elective topics.

SCOM 499. Honors. 6 credits.
See catalog section "Graduation with Honors."

Communication Studies

School of Communication Studies

SCOM 231. Introduction to Alternative Dispute Resolution. 3 credits.
Study of conflict resolution processes including mediation, arbitration and negotiation. Consideration of litigation and hybrid dispute processes such as summary jury trial, rent-a-judge and panel evaluation.

SCOM 240. Introduction to Communication Theory. 2 credits.
Study of theories and models that inform understanding of human communication processes. Emphasis on the processes of theory building, comparison of theories, and the implications and application of theory to particular contexts. Consideration of role of communication in all human endeavors. The SCOM 241 lab and SCOM 240 lecture portions must be taken concurrently. Prerequisites: SCOM major declared or SCOM minor declared students only, and any GCOM course.

SCOM 241. Communication Theory Lab. 1 Credit.
This lab is designed to complement and supplement the SCOM 240 lecture course. Students will discuss, write and/or present content related to topics covered in SCOM 240. The SCOM 241 lab and SCOM 240 lecture portions must be taken concurrently. Prerequisites: SCOM major declared or SCOM minor declared students only, and any GCOM course.

SCOM 242. Presentational Speaking. 3 credits.

SCOM 243. Oral Interpretation. 3 credits.
Study and application of theories concerning the oral presentation of various forms of literature including prose, poetry, drama and nonfiction materials. Emphasis on performance. Prerequisite: Any 100-level speech communication course or permission of the instructor.

SCOM 245. Signs, Symbols and Social Interaction. 3 credits.
The study of verbal and nonverbal communication as used in human interaction. Consideration given to the function of symbolic systems in self-concept development, the structuring of reality and social discourse. Attention is directed toward the use of signs and symbols by different ethnic groups, genders, age groups and geographic groups. Prerequisites: 'SCOM Major Declared' or 'SCOM Minor Declared' students only and any GCOM course.

SCOM 247. Small Group Communication. 3 credits.
Study of communication processes involved in solving problems when working with others in a small group context. Emphasis on concepts of roles, norms, leadership and decision making. Consideration of small group factors which influence problem-solving effectiveness. Prerequisite: Any GCOM course.

SCOM 248. Intercultural Communication. 3 credits.
The study of human communication in a variety of cultural settings and contexts. Emphasis on developing understanding and analytical skills regarding communication between people from different racial, ethnic and cultural backgrounds in both domestic and international settings. Consideration of relevance and application to social, business and political environments.

SCOM 260. Introduction to Public Relations. 3 credits.
Study of basic principles and practices of public relations. Consideration given to public relations problems and pragmatic solutions utilizing oral, written and electronic communication media and skills.

SCOM 261. Public Relations Techniques I: Written. 3 credits.
Study of writing fundamentals for public relations. Emphasis on practice directed effective writing for a variety of media (press releases, public service announcements, brochures, newsletters). Must be able to use word processing software. Prerequisite: SCOM 260.

SCOM 270. Introduction to Health Communication. 3 credits.
An introduction to the study of the theory and practice of communication in health- and medical-related fields. Emphasis on communication interaction between professional health providers and patients/clients. Consideration of strategies that promote effective communication between health/medical professionals and patients/clients. Prerequisite: Any GCOM course.

SCOM 280. Introduction to Communication Research. 3 credits.
An introduction to the principles, methods and analysis techniques used in the field of communication. Emphasis on a broad-based understanding of the breadth of research in the field. Includes both qualitative and quantitative research methods, methods of literature review and research article critiques. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisite: SCOM 240.

SCOM/ANTH 305. Language and Culture. 3 credits.
An introduction to linguistic anthropology. Explores the complex relationships between language and culture through topics such as language acquisition and socialization; language, thought, and worldview; language and identity; multilingualism; how and why languages change; literacy, and the politics of language use and language ideologies.

SCOM 313S. Topics in Communication Studies. 1-3 credits, repeatable to 6 credits.
Study of current topics and issues in human communication. Emphasis on contemporary theories, research and principles. Prerequisites: Nine hours of SCOM courses including SCOM 240 and one at 100 level.

SCOM 314. Communication in Romantic Relationships. 3 credits.
This course acquaints students with relevant theory and research associated with communication in various stages of romantic relationships including initiation, maintenance and dissolution. Emphasis is on honing one’s ability to understand communication theory, research, and application while enhancing one’s communication skills in romantic relationships. Additionally, students will improve their ability to communicate about relationship research through writing, presenting and discussing.

Approved co-curricular activities and/or projects of a practical nature. No more than six hours of practicum credit can be applied to major. Proposals must be submitted to and approved by the course instructor for section and credit hour registration. To receive repeat credit, see school director. Prerequisite: Permission of the school director.

SCOM 320. Introduction to Interpersonal Communication. 3 credits.
Introduction to the fundamental theoretical perspectives in interpersonal communication. Emphasis on the effects of verbal and nonverbal messages on continuity and change in personal relationships. Consideration of the influence of cultural and social contexts on messages in relationships. Development of communication competence in diverse interpersonal contexts.

SCOM 330. Special Topics in Interpersonal Communication. 3 credits.
Study of current topics and issues in interpersonal communication. Topics and issues may include, but are not limited to aging and lifespan, communication education, computer mediated relations, deception and secrecy, friendship and rivalry, relationship rejuvenation and social support. May be repeated up to six credits.

SCOM 331. Communication and Conflict. 3 credits.
Consideration of theories of conflict emerging from the communication discipline and application to different forms of conflict at all levels of human interaction. An examination of communication and varied responses to conflict in diverse situations. Emphasis on competencies required for successful management, intervention and transformation of conflict. Prerequisite: SCOM 240 or SCOM 245 recommended.

http://www.jmu.edu/catalog/14
SCOM 322. Mediation. 3 credits.
Study of analysis and resolution of human conflict. Emphasis on role of mediation in dispute resolution focusing on relationships, language, listening and problem-solving techniques. Consideration of the interpersonal and group approaches to study of conflict management. Prerequisite: SCOM 240 or SCOM 245 recommended.
SCOM JUST 333. Negotiations. 3 credits.
Provides an overview of negotiation as a strategy for dealing with conflict. Prerequisites: For Justice Studies Majors, JUST 200 and one other 200-level JUST course. For SCOM fully-admitted majors/minors: No prerequisites.
SCOM 334. Alternative Dispute Resolution. 3 credits.
Study of conflict resolution processes including mediation, arbitration and negotiation. Consideration of litigation and hybrid dispute processes such as summary jury trial, rent-a-judge and panel evaluation.
SCOM 335. Public Speaking Consulting. 3 credits.
Students learn consulting techniques for all phases of public speaking process, including preparation, rehearsal and self-analysis. Specific emphasis includes the use of PowerPoint and other visual media in oral presentations, the history of communication centers, peer education and public speaking fundamentals. Based in contemporary human communication theory. Public Speaking Consulting provides experiential learning opportunities. In JMU's Communication Center. Prerequisite: GCOM 121, GCOM 122 or GCOM 123.
SCOM 340. Principles and Processes of Interviewing. 3 credits.
Study of communication principles and processes in interviewing. Emphasis on interpersonal processes involved in interview structures, goals and question types. Development of communication skills in information, persuasive, counseling, health care, employment and performance appraisal interviews.
SCOM 341. Persuasion. 3 credits.
The study of oral communication as a determinant of attitudinal and behavioral change. Emphasis on the various kinds of artistic and nonartistic proofs as they apply to human motivation. Consideration of the application of behavioral research findings to persuasion. Prerequisites: SCOM 240 and SCOM 280.
SCOM 342. Argument and Advocacy. 3 credits.
The study of the techniques and principles of argument and advocacy. Emphasis on developing, presenting and defending a position on controversial questions. Consideration given to contemporary theories of public argument.
SCOM/WRTC 343. Contemporary Rhetorical Theory and Practice. 3 credits.
A research-infused course that familiarizes students with the major theories, trends and figures in contemporary rhetoric. Students will study the foundational principles of contemporary rhetorical theory and their applications in academic, professional, and civic contexts. Prerequisites: GWRT 103 or equivalent; For WRTC majors: WRTC 200, WRTC 210 or WRTC 211; and, WRTC 220 and WRTC 240.
SCOM 344. Oral Interpretation. 3 credits.
Study and application of theories concerning the oral presentation of various forms of literature including prose, poetry, drama and nonfiction materials. Emphasis on performance. Prerequisite: Any 100-level GCOM course.
SCOM 345. Nonverbal Communication. 3 credits.
Study of nonverbal means through which people relate to one another. Consideration of the communicative effects of environment, facial expression, voice, posture, gestures, touch, distance and physical appearance. Prerequisite: Any 200-level SCOM course.
SCOM 346. Free Speech in America. 3 credits.
The study of the evolution of freedom of speech in America from Colonial times to the present day. Emphasis on the major periods of development and on the role of courts in defining freedom of speech. Special consideration of contemporary freedom of speech controversies.
SCOM 347. Communication, Diversity and Popular Culture. 3 credits.
Study of the rhetorical dimension of communication practices and texts found in popular culture. Emphasis on issues of diversity as they are manifest in the communication practices found in popular culture. Emphasis on strategic communication choices in a diverse, multicultural world. Emphasis on critical thinking, self-reflexivity and communication analysis. Prerequisite: GCOM 121, GCOM 122 or GCOM 123.
SCOM/WMST 348. Communication and Gender. 3 credits.
Study of theories and research regarding the influence of gender in various human communication contexts, both public and private. Emphasis on the critical analysis of existing theory and empirical research and the potential competent uses of communication for social change. Prerequisite: Any 100-level GCOM course.
SCOM 349. Ethnographic Approaches to Communication Studies. 3 credits.
This course offers an examination of ethnographic approaches to interpersonal, organizational, health and public communication studies. Students will analyze the role of ethnographic methods and inductive research processes toward building theories of communication and assessing communication practices. Prerequisite: Any 100-level GCOM course or permission of the instructor.
SCOM 350. Organizational Communication. 3 credits.
Students gain a complex understanding of organizing practices by investigating the evolution of how historical events have influenced organizational communication and managerial practices at work. Drawing upon communication theory, students analyze various organizational communication practices such as the management of workers, development of organizational culture, and interaction with larger systems. Learning is complemented by an experiential learning project.
SCOM/WRTC 351. Visual Rhetoric. 3 credits.
A study of the rhetorical foundations of visual and verbal arguments in academic disciplines and popular culture. Students will analyze and produce visual and verbal arguments in a variety of rhetorical contexts. Prerequisites: GWRT 103 and any 100-level communication studies course or permission of the instructor.
SCOM 352. Communication and Social Movements. 3 credits.
A study of the use of communication in social movements. Emphasis on the types of communication used in social movements and on ways to produce and respond to such messages. This course examines a variety of different social movements within the political process including nonprofit organizations. Prerequisite: SCOM 240.
SCOM 353. American Political Culture and Communication. 3 credits.
Study of functions performed by communication in politics. Emphasis on a variety of communication forms and techniques used by advocates both in campaigning and governing. Consideration of contemporary campaigns and the role of communication in their successes and failures. Prerequisites: SCOM 240 and GPOSC 225 are recommended.
SCOM 354/WRTC 326. Environmental Communication and Advocacy. 3 credits.
An exploration of the multifaceted aspects of environmental controversies including the rhetoric, advocacy campaigns, and decision-making processes that produce and attempt to manage environmental conflict. Emphasis on persuasive efforts by interest groups, corporations, resource managers, government agencies, scientific experts, politicians and citizens to influence public understanding of environmental issues, adoption of sustainable behavior and lifestyles and public policy outcomes.
SCOM 357. Youth, Communication and Culture. 3 credits.
Grounded in the cultural communication perspective, the course examines the relationship between communication, youth and popular culture. Defining youth as children, tweens, teens and college-aged young people, this course focuses on communication issues such as how youth are represented in various forms of popular culture; how they are defined by corporate discourse; how young people make sense of popular culture artifacts; and how they become cultural communicators as well as consumers.
SCOM 358. Business and Professional Communication Studies. 3 credits.
Students investigate the nuance and complexity of communication in modern organizational life. A portion of the class is dedicated to the skills involved in a competitive, successful career search. In addition, students develop the skills to become an ethical and effective organizational citizen. Prerequisite: Junior or senior status.
SCOM 361. Public Relations Techniques II; Visual. 3 credits.
Study of visual communication techniques for public relations. Survey of design principles and elements used for developing visually effective messages with an emphasis on publication design and production, photography, and computer-mediated presentations. Students should provide a camera and be familiar with desktop publishing and presentational software. Prerequisite: SCOM 261; open to SCOM public relations concentration students only.
SCOM 365. Sports Public Relations. 3 credits.
This class is designed to provide students with opportunities to explore the profession of sports public relations. In this class, students will discuss various sports communication issues including media relations, community relations, player relations, fan relations, crisis communication, sports social responsibility and more. Prerequisite: SCOM 280.

http://www.jmu.edu/catalog/14
SCOM 267. Advanced Public Relations Writing. 3 credits.
Offers advanced public relations students experience in the wide range of writing styles and applications that are essential to successfully begin their professional careers. The course focuses on understanding and mastering action-oriented communication methods and best professional practices. Provides both a conceptual framework and in-depth training in advance techniques. Prerequisites: SCOM 240 and any 100-level SCOM course.

SCOM 370. Introduction to Health Communication. 3 credits.
An introduction to the study of the theory and practice of communication in health- and medical-related fields. Emphasis on communication interaction between professional health providers and patients/clients. Consideration of strategies that promote effective communication between health/medical professionals and patients/clients. Prerequisites: Any 100-level SCOM course.

Seminar study of current ethical dilemmas and various responses from a communication perspective. Explores theories, principles and practice of managing diverse positions and non-adversarial communication. Prerequisites: Six hours of SCOM courses including SCOM 240.

SCOM 381. Communication Criticism. 3 credits.
Study of methods of evaluating acts of persuasive communication. Emphasis on developing and applying appropriate standards to determine effectiveness of persuasion. Consideration of criticism of advertising, mass media, public speaking and other forms of persuasive communication. Prerequisites: SCOM 280 and any 100-level SCOM course.

SCOM 383. Communication Research Methodologies. 3 credits.
The study of research methods in various areas of communication. Emphasis on ability to research literature and criticize research design. Prerequisites: SCOM 280 and nine hours of SCOM courses.

SCOM 385. Qualitative Communication Research Methods. 3 credits.
Study of interpretive approaches to communication, focusing on a variety of qualitative research methods, including field observation, qualitative interviewing, focus groups, narrative analysis and discourse analysis. Students will plan and conduct an exploratory qualitative study, prepare a written research report including a literature review and make a research presentation. Prerequisite: SCOM 280.

SCOM 386. Survey Research Methods. 3 credits.
The study of survey research methods in various communication contexts. Emphasis on using survey research methodology in communication audits, public relations problems and public opinion polling and the ability to research literature, develop and evaluate survey questions, and apply and interpret statistical tests. Students will be expected to conduct an original research project and present findings in a paper and/or oral presentation. Prerequisite: SCOM 280.

SCOM 390. Directed Projects. 2-3 credits, repeatable to 6 credits.
Supervised projects related to any aspect of human communication. Emphasis on original individual or group programs beyond the school’s usual curricular or co-curricular offerings. Formal report(s) required for awarding of credit. Prerequisite: Permission of the school director.

SCOM 391. Communication Career Strategies. 1 credit.
The emphasis on strategies for implementing a job/internship campaign. Conducting a self assessment, locating job and internship openings, writing resumes, cover letters and follow-up messages, conducting informational interviews, networking, interviewing techniques and marketing a communication studies degree. Prerequisite: 12 credit hours in SCOM.

SCOM 394. Core Assessment in Communication Studies. 0 credits.
Students participate in testing, interviews and other assessment activities as approved by the School of Communication Studies. Grades will be assigned on a credit/no credit basis. Prerequisites: SCOM 240, SCOM 241, SCOM 242, SCOM 280 and SCOM 341.

SCOM 395. Study Abroad Seminar. 2-6 credits.
Intensive examination of specialized international communication topics arranged in cooperation with a faculty member. Prior arrangements must be made with the program director. Prerequisites: Permission of the program director and school director required.

SCOM 413. Advanced Topics in Communication Studies. 1-6 credits, repeatable to 6 credits.
In-depth exploration and analysis of a communication-related theory, context, topic or problem, culminating in a research project documented in written, oral, visual and/or multimedia presentations. Course content varies based on faculty expertise. Prerequisites: Senior standing and 15 hours of SCOM courses.

SCOM/HIST 441. Oral History. 3 credits.
This course will explore the theory and practice of oral history. Through a series of readings, students will consider the many promises and challenges of the discipline, including issues related to memory, objectivity, the law, and technology. Students will also engage in an experiential learning exercise in which they collaborate to produce an oral history project. Prerequisite: HIST 395 or permission of the instructor.

SCOM 442 Advanced Topics in Advocacy Studies. 3 credits.
Advanced topics in advocacy studies is the concentration’s capstone. Through case studies, readings, discussions and experiential activities students investigate complex issues in the field of advocacy. Students apply theoretical knowledge and skills as they explore the interaction between advocacy and communication. Prerequisite: Senior standing.

SCOM 447. Facilitating Public and Organizational Engagement Processes. 3 credits.
Students will learn theories and tools that help organizations and communities think through difficult issues in ways that are productive. Dialogue, deliberation, strategic planning and collaboration are communicative tools that help people deal with complex issues by promoting understanding of multiple viewpoints of the issues, engaging in processes to facilitate decision-making and ways to act together to implement these decisions. Hands-on experiences will be utilized. Corequisite: Communication majors or minors who have completed 12 credits in communication.

SCOM 448. Communication, Culture and Identity. 3 credits.
This class examines theory and research of cultural communication, and reflexively considers how communication practices construct identities and arrange social relations within diverse contexts and applied settings. Prerequisite: Any one of the following courses: SCOM 305, SCOM 347, SCOM 348, SCOM 352, or SCOM 357.

SCOM 449. Communication Training. 3 credits.
Students learn to analyze organizations to manage and solve communication problems and improve organizational life. Through experiential learning students will become familiar with strategies and activities designed to help others improve their communication skills. Students gain experience leading meetings, engaging an audience, collaborating, and facilitating difficult conversations. Prerequisites: SCOM 242, junior standing and 12 hours in speech communication.

SCOM/ WMST/WRTC 420. Feminist Rhetorics. 3 credits.
Surveys key women figures in classical and contemporary rhetorical traditions and challenges the strategies used to historicize this tradition from feminist perspectives. Explores diverse feminist rhetorical discourses informed by race, sexual orientation, ethnicity and social class. Prerequisites: WRTC 103 or equivalent and junior or senior standing, or permission of the instructor.

SCOM 425. Leadership Communication. 3 credits.
This course promotes understanding and development of organizational leadership through investigation of theory and analysis. Students explore varied and sometimes contradictory models of leadership and learn how to articulate and express ideas that encourage others to advocate for and bring about positive change. Prerequisite: Junior or senior standing.

SCOM 431. Legal Communication. 3 credits.
Study of the role of communication in the legal process. Emphasis on communication questions/problems which litigators, lawyers, judges and jurors face. Consideration of legal argument, negotiation, trial advocacy, decision making and communication technologies.

SCOM 432. Senior Seminar in Conflict Analysis and Intervention. 3 credits.
An advanced seminar, capstone course open to all junior and senior SCOM students, and required for conflict majors and minors. Special topics are developed to include research in conflict analysis and intervention, current trends in dispute resolution, evolving practices in conflict transformation, peacemaking, and mediation, as well as other relevant and timely issues.

SCOM 440. Family Communication. 3 credits.
Study of the processes and functions of family communication, including managing dating, marital, parent-child and intergenerational relations. Theoretical and applied examination of communication and cultural processes that define and construct family structures, systems and boundaries. Course also examines histories of family communication as constructed in popular culture. Prerequisite: SCOM 280.

SCOM 444. Communication, Culture and Identity. 3 credits.
This class examines theory and research of cultural communication, and reflexively considers how communication practices construct identities and arrange social relations within diverse contexts and applied settings. Prerequisite: Any one of the following courses: SCOM 305, SCOM 347, SCOM 348, SCOM 352, or SCOM 357.

SCOM 448. Communication, Culture and Identity. 3 credits.
This class examines theory and research of cultural communication, and reflexively considers how communication practices construct identities and arrange social relations within diverse contexts and applied settings. Prerequisite: Any one of the following courses: SCOM 305, SCOM 347, SCOM 348, SCOM 352, or SCOM 357.

SCOM 449. Communication Training. 3 credits.
Students learn to analyze organizations to manage and solve communication problems and improve organizational life. Through experiential learning students will become familiar with strategies and activities designed to help others improve their communication skills. Students gain experience leading meetings, engaging an audience, collaborating, and facilitating difficult conversations. Prerequisites: SCOM 242, junior standing and 12 hours in speech communication.
SCOM 495. Internship in Communication Studies. 3-6 credits, repeatable to 6 credits. Credit for the application of communication theory and skills in a directed, on-the-job learning experience. Open only to communication studies majors who meet specific criteria (see the school website). Up to six credits may be applied as electives in the communication studies major. Prerequisite: Permission of the school director.

SCOM 499. Honors in Communication Studies. 6 credits. Year course. Prerequisite. Permission of the school director.

Computer Information Systems

College of Business
CIS 204. Computer Information Systems for Non-Business Majors. 3 credits. An introduction to computer-based information systems. Emphasis is placed on the role of computers in business and society, computer hardware and software, design and implementation of information systems, computer ethics, and collaboration using computers. Students will design and create databases. Open only to business majors or minors.

CIS 221. Principles of Programming. 3 credits. Students will be required to solve real-world business problems with computer programming using an Integrated Development Environment (IDE) and event driven logic. Projects will include the use of control structures (selection and iteration), subprocedures and functions as well as file and array processing logic. Not open to students who have taken CS 129 with a grade of C or better or are taking or have taken CS 149, CS 159 or CS 239.

CIS 301. Operating Systems and Server Administration. 1 credit. This is a lab-based course that introduces the student to operating systems and server administration in a business environment. Students will learn the basic functions of an operating system through the hands-on use of Linux and Windows. Additionally, students will acquire hands-on server administration skills in order to better understand the operational and security demands of business applications. Prerequisite for declared CIS minors: COB 204 and junior or senior standing. Prerequisite or corequisite for CIS majors: COB 300.

CIS 304. Enterprise Architecture. 3 credits. This course explores the analysis, design, implementation, evaluation and management of enterprise IT solutions. Emphasis will be placed on planning and modeling the enterprise. Topics include functional modeling, physical architecture design, security planning and recovery issues, project management, emerging technologies, and ethical, financial and global considerations. Prerequisite or corequisite for CIS majors: COB 300. Prerequisite for declared CIS minors: Junior or senior standing.

CIS 311. Analyzing Data in Organizations. 3 credits. This course provides an overview of how to work with databases and other data sources in order to access relevant information in a timely and user-friendly manner. It includes discussions of a variety of data representation types, including relational databases, XML documents, and cloud data. Students learn essential database concepts and gain practical experience in querying, reporting, and analyzing data. Prerequisite: CIS 204 or equivalent knowledge (instructor permission is needed). Open only to Adult Degree Program students.

CIS 312. Systems Planning and Analysis. 3 credits. Information systems couple both technical (hardware, software, database, telecom) and socio-organizational (business processes, ethics, knowledge, users, developers) subsystems to create rich and valuable information for the purpose of optimizing business decisions. This course covers the techniques and common tools employed for planning and analyzing these systems. Emphasis will be placed on the system development life cycle, planning and analysis tools, and professional business writing. Prerequisite: CIS 204 or equivalent knowledge (instructor permission is needed). Open only to Adult Degree Program students.

CIS 313. Designing for the Web. 3 credits. This course is an introduction to the design and development of web pages and websites. Major topics to be covered include: Hypertext Markup Language (HTML5), Cascading Style Sheets (CSS), the principles of design
for user experience, responsive design, and JavaScript. Prerequisite: CIS 204 or equivalent knowledge (instructor permission as needed). Open only to Adult Degree Program students.

CIS 320. Computing and Telecommunications Networks. 3 credits.

This course focuses on the underlying principles of telecommunications and how these principles are deployed to provide efficient and secure networks for providing voice, data, and video services. Emphasis is placed on understanding basic routing, switching, and data aggregation techniques; information security; and understanding how basic information systems applications utilize telecommunications services. Prerequisite: Open to CIS majors and minors with prerequisite or corequisite of CIS 304. Open to ISAT majors with prerequisite of ISAT 252. Open to CS majors with prerequisite of CS 139 or CS 148.

CIS 330. Database Design and Application. 3 credits.

A study of the tools and techniques of database analysis and design including the implementation of the design using common database management system models. Not open to students who have taken CS 474. Prerequisite for CIS majors: CIS 221 with a "C" or better; prerequisite or corequisite: COB 300. Prerequisites for CIS minors: CIS 221 with a "C" or better and junior or senior standing.

CIS 331. Intermediate Computer Programming. 3 credits.

Study of concepts and techniques used in object-oriented programming for business applications including program specification, design, development, testing, implementation and documentation. Topics include: basic programming structures, method, array and memory analysis, object-oriented principles (encapsulation, inheritance, polymorphism), graphical user interface (GUI) design and database connectivity. Prerequisites or corequisites for CIS majors and minors: CIS 330.

CIS 354. Advanced Visual Basic Programming. 3 credits.

Advanced course in Visual Basic programming. Emphasis will be placed on Object-Oriented programming, sequential and random data files and error trapping. Other topics covered will include data access objects, client server, printing in VB and Crystal Reports. Prerequisite: CIS 221 with a grade of "C" or better. Prerequisite or corequisite: CIS 330.

OM 380. Operations Management. 3 credits.

An introduction to the operation/s function in business. Topics include facility design, job analysis and design, forecasting, production planning, quality management, inventory management, scheduling and project management. Prerequisites: CIS/COB 251 and junior standing.

CIS 361. Computer Information Systems Internship. 0 credits.

To enable students to gain valuable work experience in a CIS-related field. Requires 300 hours of approved computer information systems work experience. All work sites must be pre-approved. Prerequisites: CIS major and COB 300.

CIS/MS 364. Decision Support Systems. 3 credits.

This course provides students with an understanding of computer-based information systems, which enhance the decision making capabilities of managers. Students will learn to extend the capabilities of Microsoft Office using Visual Basic for Applications and build decision support systems.

CIS 366. Web Development. 3 credits.

This course is an introduction to the design and development of web pages and websites. Major topics to be covered include: Hypertext Markup Language (HTML5), Cascading Style Sheets (CSS), the principles of design for user experience, responsive design, and a programming language for web development. Prerequisites or corequisites for CIS majors: CIS 221 or equivalent with a grade of "C" or better and junior or senior standing. Prerequisites for declared CIS minors: CIS 221 or equivalent with a grade of "C" or better and junior or senior standing.

CIS/BSAN 372. Descriptive and Predictive Analytic Methods. 3 credits.

This course integrates advanced analytical methods from statistics and management science for enhanced understanding of business performance and improved predictive capabilities. The emphasis is on applying computer applications for statistical modeling and analysis of data from a variety of business processes to support managerial decision-making. Prerequisites: COB 291 or equivalent with a grade of "B-" or higher and junior or senior standing.

CIS/BSAN 393. Predictive Analytics and Data Mining. 3 credits.

This course focuses on quantitative techniques and computer applications that allow the extraction of useful, previously unrecognized information from large data sets for predictive purposes. By effectively sifting through databases such as those generated by many businesses, data mining allows the analyst to recognize potentially important patterns and to target business opportunities. Prerequisites: COB 291 or equivalent with a grade of "B-" or higher and junior or senior standing.

CIS 411. Computer Forensics for Business. 3 credits.

Study of the tools and techniques required to analyze the current and past contents of computer data storage devices. The course will cover the structure and formats of storage devices and the techniques used to manage storage devices and data. It will also include securing of the data and preparation for legal presentation of evidence. Analysis will include the audits of computer activity and audits of operating system logs. Prerequisites or corequisites: CIS 301 and junior or senior standing.

CIS 420. Computer-Based Networking. 3 credits.

An introduction to computer-based networks that incorporates data, voice and video traffic between computer systems and users. Topics include the theory, design and operation of local area networks, wide area networks and private branch exchange systems. Prerequisite: CIS 330.

CIS 424. Computer Security Management. 3 credits.

Instruction and discussion in the design, development and implementation of a computer security program including legal and ethical considerations. Prerequisites: CIS 221 and CIS 304.

CIS 425. Network Defense & Analysis. 3 credits.

This course introduces the concepts of offensive web security through a series of hands-on labs that are built upon real world examples. Doing so allows students to understand the mechanisms of online attacks and learn how to respond to IT security breaches with counter measures. Prerequisite or corequisite: CIS 320 or permission of the instructor.

CIS 428. Mobile Computing and Security. 3 credits.

The development of mobile software applications using current environments and frameworks is the primary objective of the class. Several different development and programming environments and platforms will be included as will the actual deployment of the application to a wireless device. An important aspect of the class will be the security implications of deploying mobile devices. Prerequisites: "C" or better grade in CIS 221 and CIS 331 as prerequisite or corequisite.

CIS 434. Information Technology Consulting. 3 credits.

This course investigates the tools used by and skills necessary for information technology consultants. The class will use a team-oriented project approach. Teams will be assigned professional consulting firms as manager/mentors and will work with their manager/mentor firm to complete projects that cover each phase of the consulting life cycle. Prerequisite: Permission of the instructor.

CIS 454. Systems Analysis and Design. 3 credits.

An introduction to the techniques of systems analysis and design. Emphasizes concept of system life cycle and importance of users in system design. Prerequisite: Declared CIS major or minor. Corequisite or prerequisite: CIS 330.

CIS 463. Business Intelligence. 3 credits.

This course provides a comprehensive discussion of advanced database techniques, data warehousing, online analytical processing (OLAP), data mining, data visualization, decision support systems (DSS), artificial intelligence (AI) methods and other business intelligence (BI) topics. Students gain practical experience using contemporary BI tools and technologies, and apply sound design principles for creating intelligent solutions to realistic business problems. Prerequisite: Grade of "C" or better in CIS 330.

CIS 464. Information Systems Project Management. 3 credits.

Students will develop knowledge and expertise applying techniques and tools used by systems analysts and project managers to plan and manage information systems implementations. Prerequisites or corequisites for CIS majors: COB 300 and CIS 221 or equivalent with a grade of "C" or better. Prerequisite for declared CIS minors: CIS 221 or equivalent with a grade of "C" or better and junior or senior standing.

CIS 466. Advanced Web Development. 3 credits.

This course provides students with understanding and practical experience in server-side programming issues for Web-enabled database and e-commerce application development. Principal topics include receiving and responding to requests from browsers, connecting to database servers via middleware software, and scripting business rules and application logic on a Web server. E-commerce business issues, security implementations and object-oriented design are also covered. Prerequisites: CIS 366 and CIS 330 or permission of the instructor.

CIS 484. Information Systems Development and Implementation. 3 credits.

This course provides a comprehensive discussion of advanced database development and implementation of enterprise-level systems using object-oriented methodologies, database driven architectures, systems analysis and design procedures, and project management skills. Topics covered will include advanced programming techniques, database processing, GUI design, object communication and a comprehensive group capstone project. Prerequisites: CIS 331 with a grade of "C" or better and CIS 330 with a grade of "C" or better. Corequisite: CIS 454.

http://www.jmu.edu/catalog/14
An advanced course in information and/or business analytics designed to give qualified students an opportunity to complete independent study under faculty supervision. Prerequisites: Senior standing, recommendation of the instructor and written approval of the department head prior to registration.

CS 498. Special Topics in Computer Information Systems. 3 credits.
An advanced course designed to allow exploration of current topics in computer information systems. Course content will vary. See adviser for current content. Prerequisite: Permission of the instructor.

CS 499. Honors. 8 credits.
Year course. See catalog section "Graduation with Honors."

Computer Science
Department of Computer Science

CS 110. Introduction to Computer Professionalism and Ethics. 1 credit.
Seminar for first year students and transfer students focusing on professional and ethical issues in computer science. Topics include computer science degree requirements, the computer science profession, ethics of computing professionals, protection of software, Internet security and privacy issues, and current issues in computer science.

CS 139. Programming Fundamentals (3, 2). 4 credits.
Students learn fundamental problem-solving techniques using a modern programming language. This course covers the same material as CS 149, but at a slower pace for students with little or no programming experience. Students may not receive credit for both CS 139 and CS 149. Prerequisite: A grade of "C-" or better in CS 139 or CS 149.

Students learn fundamental problem-solving techniques using a modern programming language. This course covers the same material as CS 139, but at an accelerated pace for students with programming experience. Students may not receive credit for both CS 139 and CS 149. Prerequisite: A prior programming course or equivalent experience.

CS 159. Advanced Programming. 3 credits.
Students use advanced problem-solving strategies to develop algorithms using classes and objects and techniques such as recursion, exceptions and file I/O. This course also focuses on designing small applications and effective testing strategies. Students may not receive credit for both CS 159 and CS 239. Prerequisite: A grade of "B-" or better in CS 139 or CS 149 or equivalent.

CS/MATH 227-228. Discrete Structures I-II. 3 credits each semester.
An introduction to discrete mathematical structures including functions, relations, sets, logic, matrices, elementary number theory, proof techniques, basics of counting, graph theory, discrete probability, digital logic, finite state machines, integer and floating point representations. Prerequisite for MATH/CS 227: MATH 155, MATH 158 or sufficient score on the Mathematics Placement Exam. Prerequisite for MATH/CS 228: MATH/CS 227.

CS 239. Advanced Computer Programming (3, 2). 4 credits.
Students use various advanced problem-solving strategies to develop algorithms using classes and objects. Students also learn how to implement and use elementary data structures, including character strings, records, files, stacks and queues. Prerequisite: A grade of "C-" or better in CS 139 or CS 149 or equivalent.

CS 240. Algorithms and Data Structures. 3 credits.
Students learn to implement and analyze elementary data structures and the basic complexity classes of algorithms that use strategies such as greedy algorithms, divide-and-conquer algorithms and backtracking algorithms. This analysis is especially applied to problems in searching, sorting and parsing. Prerequisites: Grades of "C-" or better in CS/MATH 227, MATH 231 or equivalent and either CS 159 or CS 239.

CS 252. Discrete Structures. 3 credits.
Introduction to the mathematical structures used in computer science. Topics include logic, sets, relations, algebraic structures, automata theory and computability. Prerequisite: A grade of "C-" or better in CS 139 or CS 149.

CS 260 Technical Communication for Computer Science. 3 credits.
An introduction to the process of planning, researching, producing, and revising technical documents attuned to specific audiences in the computing industry. Document forms studied include definitions, correspondence, descriptions, specifications, instructions, proposals, reports, resumes, and plans.

CS 274. Introduction to Databases. 3 credits.
Students learn how to design and implement a normalized relational database. Emphasis is on the practical construction of an interactive database using graphical user interfaces and report generation.

CS 289. Projects in Computer Science. 1-3 credits.
Projects or topics in computer science which are of interest to the lower division student. May be repeated for credit when course content changes. Topics may vary. Prerequisite: Students should consult the instructor prior to enrolling for the course.

CS 330. Societal and Ethical Issues in Computing. 3 credits.
Overview of philosophical and professional ethics, and a survey of societal and ethical issues in computing such as privacy, intellectual property, computer security, computer crime, product liability, and the societal, environmental, and economic impact of computers. Students develop skills in assuming and defending positions on societal and ethical issues through oral presentations and written reports.

CS 340. Assembly Language Programming. 3 credits.
Principles of assembly language programming. Assembly language contrasted with machine language. Assembly directives, conditional assembly and macros. Design of a two-pass assembler. The material in this course is useful for those interested in machine design, operating systems, embedded computer systems and microcontrollers, and other areas which require low-level knowledge of computer operation. Prerequisite: A grade of "C" or better in CS 139 or CS 149.

CS/ISAT 344. Intelligent Systems. 3 credits.
In-depth introduction to current and future intelligent systems, including expert systems, neural networks, hybrid intelligent systems, and other intelligent system technologies and their development, uses and limitations. Prerequisites: CS 239, CS 159 or ISAT 340.

CS/ISAT 345. Software Engineering. 3 credits.
Study of means for the development and maintenance of high quality software products delivered on time and within budget. Topics include requirements analysis and specification, software design, implementation, testing, maintenance, project management, ethics and the responsibilities of software engineering professionals. Prerequisites: CS 139, CS 149 or ISAT 340 with sophomore standing in the ISAT major.

CS 347. Web-Based Information Systems. 3 credits.
This course covers the design and development of applications intended for deployment over the World Wide Web. Students will examine Web protocols, the architecture of Web-based applications, the languages and facilities with which they are developed, and related issues such as security and reliability. Students will also work in teams using a representative suite of development tools and languages to design and construct a simple client/server application that includes a GUI and a database interface. Prerequisites: Grades of "C-" or better in CS 345 and either CS 159 or CS 239.

CS 349. Developing Interactive Multimedia. 3 credits.
Students learn the concepts of multimedia, the issues in designing multimedia to interact effectively with users, the performance and speed issues in designing multimedia, and how to implement interactive multimedia applications. Prerequisite: A grade of "C-" or better in CS 240.

CS 350. Computer Organization. 3 credits.
Students learn how a computer works by examining hierarchical computer organization, data representation, instruction set architectures, addressing techniques, interrupt handling, and digital hardware design. Emphasis is placed on the interface between hardware and software, as well as the development of low-level software. Prerequisites: MATH 235 or equivalent, and grades of "C-" or better in CS/MATH 227 and CS 159 or CS 239.

CS 354. Introduction to Autonomous Robotics. 3 credits.
A hands-on introduction to programming autonomous mobile robots. The focus of this course is on designing robotic systems that navigate independently in complex environments. Specific topics include localization, mapping, kinematics, path planning and computer vision. Prerequisite: A grade of "C-" or better in CS 240.

CS 402. Introduction to Information System Security. 3 credits.
This course provides an introduction to the design and management of operating systems and networks, focusing on those aspects that affect information security. It provides students with the skill or ability to design, execute and evaluate information system security procedures and practices. This course does not satisfy any requirements for majors or minors in computer science. Prerequisite: A grade of "C-" or better in CS 159, CS 149 or equivalent.

CS 403 Information Systems Security Management. 1 credit.
This course covers the basic material needed to maintain an information system. Topics covered include: granting final approval to operate, accreditation of the system and verifying compliance with stated policies and procedures. This course does not satisfy any requirements for majors or minors in Computer Science. Prerequisite: A grade of "C-" or better in CS 402 or CS 457.

http://www.jmu.edu/catalog/14
CS 404. Information System Security Administration. 1 credit.
This course prepares a student to ensure information systems and networks are used securely; to identify and report security incidents; to maintain configuration control of systems and software; and to identify anomalies or integrity loopholes. This course does not satisfy requirements for majors or minors in Computer Science. Prerequisite: A grade of “C-” or better in CS 402 or CS 457.

CS 405. Information Security Operations. 1 credit.
This course covers the basic material needed by information system security officers to protect their information systems. Topics covered include: certification, accreditation, site security policy, security policy enforcement and security reporting. This course does not satisfy any requirements for majors or minors in computer science. Prerequisite: A grade of “C-” or better in CS 402 or CS 457.

CS 406. Assessment of Secure Information Systems. 1 credit.
This course considers the assessment of the technical and non-technical security features of an information system in an operational configuration. Upon completion of the course, students should be able to identify the assurance levels achieved in meeting all applicable security policies, standards and requirements. This course does not satisfy any requirements for majors or minors in computer science. Prerequisite: A grade of “C-” or better in CS 402 or CS 457.

CS 430. Programming Languages. 3 credits.
Several actual programming languages are studied in terms of the fundamental principles of computer programming language design, including object-oriented programming, functional programming, concurrent programming and logic programming. Prerequisites: Grades of “C-” or better in CS 240 and CS 350.

CS 442 Logic in Computer Science. 3 credits.
An exploration of some of the many connections between logic and computing, such as the application of classical and temporal logic in program verification, logic and logic programming, decidability, computability, automatic theorem proving, the computational complexity of logic algorithms, and applications of logic in artificial intelligence. A course in discrete mathematics or logic is recommended as preparation for this course. Prerequisite: Junior or senior standing.

CS 444. Artificial Intelligence. 3 credits.
Students will study the history, premises, goals, social impact and philosophical implications of artificial intelligence. Students will study heuristic algorithms for large state spaces and learn to develop recursive and non-deterministic algorithms. Prerequisite: A grade of “C-” or better in CS 240.

CS 446. Software Analysis and Design. 3 credits.
Contemporary software analysis and design methods, tools, notations, techniques, processes, prototypes and case studies. Students solve analysis and design problems alone or in teams and present their work to the peers and the instructor. Prerequisites: Grades of “C-” or better in CS 240 and CS 345.

CS/ISAT 447. Interaction Design. 3 credits.
Study of and practice with processes, principles, tools, models and techniques for designing interactions between humans and digital products and systems. Topics include physiological and psychological factors affecting interaction design, interaction design processes, interaction models, styles, and paradigms, design notations and representations, prototyping, and interaction design evaluation. Prerequisite: Junior standing.

CS/MATH 448-449. Numerical Mathematics and Computer Applications. 3 credits each semester.
Numerical solutions and error analysis of typical problems such as finding zeros of nonlinear functions, solving systems of linear and nonlinear equations, interpolation, approximation, integration, solving ordinary differential equations, optimization, and Monte Carlo methods. Prerequisites for CS/MATH 448: MATH 237, MATH 238 and MATH 248. Prerequisites for CS/MATH 449: CS/MATH 448 and MATH 336.

CS 450. Operating Systems. 3 credits.
Introduction to the design and implementation of modern operating systems. Explores fundamental concepts of operating systems, concurrency and synchronization, memory management, file systems, and system protection mechanisms. Course work includes a significant programming component. Prerequisites: Grades of “C-” or better in CS 240 and CS 350.

CS/MATH 452. Design and Analysis of Algorithms. 3 credits.
An introduction to the analysis, design and theory of algorithms. Algorithms studied will be selected from searching, sorting and graph theory. Included are elements of counting, recurrence relations, direct and indirect proofs, recursion, complexity classes, language theory, decidability and undecidability. Prerequisites: CS/MATH 228 and CS 240.

CS 454. Internship in Computer Science. 1-3 credits.
An advanced course to give supervised practical experience in a professional computing environment. May be taken multiple times for credit, but no more than three credits may be used in the computer science program graduation requirements. Prerequisites: Junior standing, major in computer science and permission of the instructor.

CS 457. Information Security. 3 credits.
This course covers the basic issues of information system security. The roles of planning, management, policies, procedures and personnel in protecting the confidentiality, integrity and availability of information are described. Specific threats (malicious code, network attacks and hostile content) and widely used countermeasures (access control, mechanisms, firewalls, intrusion detection systems) are also discussed. Prerequisite: A grade of “C-” or better in CS 450.

CS 458. Cyber Defense. 3 credits.
A hands-on, lab-based learning experience in which the students engage in a series of mini projects to perform security assessment, penetration testing and hardening of networked systems. Students also participate in a cyber defense exercise. Prerequisites: Grades of “C-” or better in CS 457 and CS 480.

CS/ISAT 460. TCP/IP Networks. 3 credits.
An overview of Local Network hardware, LAN topology and design, and LAN protocols. Includes installation and management of network operating systems and TCP/IP services (address management, name management, file and print sharing, account management). Prerequisite: CS 350 or CS/ISAT 462. 3 credits.

CS/ISAT 461. Internetworking. 3 credits.
Wide Area Network (WAN) and Metropolitan Area Network (MAN) design. Audio, voice, data and TV transmission over ATM/BB-ISDN networks. The SONET signal hierarchy and Q3 standard interface model. Network security. Performance analysis of a given network. Prerequisite: CS/ISAT 460.

CS/ISAT 462. Network Applications Development. 3 credits.
Design and implementation of network-based applications using languages and architectures such as sockets, JAVA, TL1 and CORBA. Concepts in distributed processing, including synchronization of interprocess communication and management of replicated data. Analysis of performance issues related to distributed applications. Prerequisites: CS/ISAT 460 and either CS 159, CS 239 or CS 344.

CS/ISAT 463. Network Analysis and Design. 3 credits.
In-depth introduction to the techniques and tools used to design and analyze computer and telecommunications networks. Overview of issues related to network performance, including the impact on cost, reliability and security. Prerequisites: CS/ISAT 460 and either CS 159 or ISAT 340.

CS/ISAT 464. Issues in the Telecommunications Business. 3 credits.
Addresses complex business concepts and issues in the telecommunications industry. Explores the interrelation of the economics of the telecommunications industry with ensuing social, ethical and security issues. Discusses topics in product and service creation, marketing, customer service and billing, and electrical/economic commerce. Prerequisites: CS 320, SMAO 356, and ISAT 340 or equivalent.

CS 474. Database Design and Application. 3 credits.
Students study database design and management with emphasis placed on data definition languages, data manipulation languages, query languages and management of the database environment. Prerequisite: Grades of “C-” or better in CS 346 and either CS 159 or CS 239 or equivalent.

CS 475. Distributed Database Management. 3 credits.
Students learn the concepts of client-server architectures and other aspects that arise in the design of distributed database systems. Prerequisite: A grade of “C-” or better in CS 474.

CS 476. Database Administration. 3 credits.
Students learn to administer a database by manipulating physical and logical components of a database management system. Topics include creation of an instance, managing of tables, indexes, privileges, profiles and roles. Prerequisite: A grade of “C-” or better in CS 474.

CS 480. Selected Topics in Computer Science. 1-3 credits.
Topics in computer science which are of interest but not otherwise covered in the regular computer science offerings of the department. Offered only with the approval of the department head; may be repeated for credit when course content changes. Prerequisite: A grade of “C-” or better in CS 159 or CS 239. Topics selected may dictate further prerequisites; students should consult the instructor prior to enrolling for course.

http://www.jmu.edu/catalog/14
CS 492. Selected Topics in Information Security. 1-3 credits.
Topics in information security. Offered only with the approval of the department head; may be repeated for credit when course content changes. 
Prerequisites: Grades of "C-" or better in CS 240 and CS 350. Topics selected may dictate further prerequisites; students should consult the instructor prior to enrolling for the course.

This course develops a computer graphics application package based on standard graphics functions as well as attributes of a graphical user interface. It includes experience in applying interactive computer graphics techniques to industrial problems. Prerequisites: Grades of "C-" or better in CS 240 and CS 350.

CS 497. Independent Study. 1-3 credits.
An advanced course to give independent study experience under faculty supervision. May be taken multiple times for credit, but no more than three credits may be used in the computer science program graduation requirements. Prerequisites: Junior standing, major in computer science and permission of the program coordinator.

CS 498. Honors. 6 credits.
Year course. See catalog section “Graduation with Honors.”

Continuing Education

Office of Cross Disciplinary Studies

CE 485. Conversational Spanish. 3 credits.
This intensive introductory course aims to develop elementary Spanish skills in a conversational environment using Rosetta Stone Software. It is an online only course which is not available to JMU undergraduate Students.

CE 490. Special Studies in Continuing Education. 1-3 credits.
This course is designed to allow exploration of current topics of interest including various trends and issues in a given field of study.

Criminal Justice

Department of Justice Studies

CRJU 215. Introduction to Criminal Justice. 3 credits.
An introduction to the development of the American criminal justice system from early English beginnings to the present in its three dimensions: police, courts and corrections.

CRJU 225. Ethics in Criminal Justice. 3 credits.
This class offers an overview of ethical issues in the various branches of the criminal justice system, and reviews approaches to establishing and using ethical practices. Prerequisite: CRJU 215.

CRJU 301. Special Topics in Criminal Justice. 3 credits.
This course provides an examination of topics that are of current interest in the field of criminal justice. The class may be repeated for credit when course content changes. Prerequisite: CRJU 215.

CRJU 321. Criminalistics. 3 credits.
This course introduces student to crime scene investigation and the major disciplines of modern forensic science. Topics include an examination of the historical background of forensic science in the criminal justice system, an assessment of general principles of the current practice of forensic science, examination of the role of expert testimony and likely interaction(s) of the forensic scientist with other individuals and components of the criminal justice system. Prerequisite: CRJU 215.

CRJU/DCS 325. Criminology. 3 credits.
Study of the extent, causes and possible deterrents to crime including murder, assault, white-collar offenses and organized crime with attention to the role of the victim and policy implications.

CRJU 328. Criminal Procedure. 3 credits.
Study of the criminal justice process from arrest through appeal with emphasis upon the rights of the accused including due process, the right to counsel, search and seizure, and the privilege against self-incrimination. Prerequisite: CRJU 215.

CRJU 329. Criminal Investigation and Evidence. 3 credits.
Characteristics, legal aspects, organizational objectives, theories and systematic procedure of criminal investigation. Includes a survey of the investigative function, interviewing witnesses, interrogation, physical evidence, the investigation of common serious offenses and the principles of evidence, including the legal rules controlling the presentation of evidence in court.

CRJU 335. Law Enforcement. 3 credits.
This course provides students with an overview of the practice of law enforcement, the legal and social issues associated with this work in the United States. Prerequisite: CRJU 215.

CRJU 337. Courts and the Judiciary. 3 credits.
This class offers students an in depth introduction to the workings of the Court system in the United States. Prerequisite: CRJU 215.

CRJU 340. Administration of Justice. 3 credits.
This course is designed to identify unique challenges to administrators of criminal justice organizations. The structures, functions, and processes in the administration of criminal justice organizations is examined. Topics of interest include a variety of public management theories, the role of leadership, and communication as it relates to criminal justice organization. Prerequisite: CRJU 215.

CRJU 401. Internship in Criminal Justice. 3 credits.
This course allows students to receive academic credit for work experienced in an agency or organization related to the criminal justice minor. Students should consult the director of the criminal justice minor for assistance in arranging approved internships. Prerequisites: CRJU 215 and permission of the instructor.

Cross Disciplinary Studies

Office of Cross Disciplinary Studies

CDS 301. Special Topics. 1-3 credits.
This course allows instructors working through recognized university centers or institutes to offer an examination of current topics that are cross disciplinary in nature and not covered elsewhere in the curriculum. The course may be repeated for credit when course content changes.

CDS 401. Internship. 1-3 credits.
This course allows students to receive academic credit for work experienced in a recognized JMU center or institute. Internships must be approved in advance by the center director and follow the guidelines established by the participating center or institute. Internship is granted at the discretion of the center director. Prerequisites: Junior or senior standing and permission of the director.

Dance

School of Theatre and Dance

DANC/THEA 100. Theatre and Dance Colloquium. 0 credits.
Weekly department colloquium; work in progress presented, viewed and discussed by student body, faculty, and guests. Professionals in the field frequently hold master classes. All majors in the School of Theatre and Dance are required to enroll in and pass six semesters in order to meet program graduation requirements. Prerequisite: Admission to the School of Theatre and Dance.

DANC 110. Associate Group Dance Repertory I (0, 4). 1 credit.
Introduction to group dance experiences through rehearsal, performance, dance technique training and technical theatre practice. Prerequisites: Permission of the instructor and concurrent enrollment in a dance technique course.

DANC 140. Elementary Modern Dance (0, 4). 2 credits.
Emphasis on modern dance technique and fundamentals of improvisation and choreography. May be repeated for credit.

DANC 142. Elementary Ballet (0, 4). 2 credits.
Fundamentals of ballet technique, basic vocabulary and combinations. May be repeated for credit.

DANC 143. International Folk Dance (0, 4). 2 credits.
Traditional folk dance steps and international folk dances. Emphasis on dances from eastern and western Europe, Mexico and Israel. May be repeated for credit.

DANC 144. Ballroom Dance (0, 4). 2 credits.
Ballroom dance skills including steps, styling and leading, and following for American and Latin ballroom dance forms. May be repeated for credit.

DANC 146. Jazz Dance (0, 4). 2 credits.
Fundamentals of jazz technique, basic vocabulary and combinations. May be repeated for credit.

DANC 147. Tap Dance (0, 4). 2 credits.
Fundamentals of tap dance, basic vocabulary and combinations. May be repeated for credit.

DANC/THEA 171. Performance Production. 3 credits.
An introduction to the methods of the production of scenery, properties, costumes, lighting, sound and performance management for theatre and dance performance. Instruction in the skills required for the operation of associated tools and equipment and instruction in the skills required for the operation of...
lighting and sound equipment will be taught. Students are required to complete a main stage running crew assignment as a component of this course.

DANC 210. Associate Group Dance Repertory II (0, 4). 1 credit. Practice in group dance experiences through rehearsal, performance, dance technique training and technical theatre practice. Prerequisites: DANC 110 or the equivalent and concurrent enrollment in a dance technique course.

DANC 211. Contemporary Dance Ensemble Repertory 1 (0, 4). 2 credits. Introduction to a modern dance ensemble with focus on choreographic and technical theatre experiences. May be repeated for credit. Prerequisites: Permission of the instructor and concurrent enrollment in a dance technique course.

DANC 212. Virginia Repertory Dance Company I (0, 4). 2 credits. Rehearsal, performance and technical theatre experiences in a modern dance company. May be repeated for credit. Prerequisites: Permission of the instructor and concurrent enrollment in a dance technique course.

DANC 240. Intermediate Modern Dance I (0, 4). 2 credits. Intermediate skills in modern dance technique. May be repeated for credit. Prerequisite: DANC 140 or permission of the instructor.

DANC 242. Intermediate Ballet I (0, 4). 2 credits. Intermediate skills in ballet technique. May be repeated for credit. Prerequisite: DANC 142 or permission of the instructor.

DANC 245. Dance Improvisation (0, 4). 2 credits. Development of individual group and environmental awareness; extension of individual movement vocabulary; and theory and exploration of the inter-relationships of the visual and theatre arts through structured improvisation.

DANC 246. Intermediate Jazz. 2 credits. Intermediate skills in jazz dance technique, vocabulary and movement combinations. May be repeated for credit. Prerequisite: DANC 146 or permission of the instructor.

DANC 247. Intermediate Tap. 2 credits. Intermediate skills in tap dance technique, vocabulary and models of sequencing. May be repeated for credit. Prerequisite: DANC 147 or permission of the instructor.

DANC 248. History of Dance: Renaissance Through the 20th Century. 3 credits. A survey of dance history in Western civilization from the Renaissance to the present. Emphasis is on the dance idioms of ballet and modern.

DANC 311. Contemporary Dance Ensemble Repertory II (0, 4). 2 credits. Intermediate-level experiences in performance, choreography and technical theatre with a modern dance ensemble. May be repeated for credit. Prerequisites: DANC 211 or the equivalent and concurrent enrollment in a dance technique course.

DANC 312. Virginia Repertory Dance Company II (0, 4). 2 credits. Advanced rehearsal, performance and technical theatre experience in a modern dance company. May be repeated for credit. Prerequisites: Permission of the instructor.

DANC 320. Anatomy and Somatic Studies for the Dancer. 3 credits. An introduction to the structure and function of the human body, along with an overview of contemporary bodywork theories and techniques essential to the education of dancers. Emphasis will be on the application of knowledge within the context of dance technique.

DANC 325. Dance in Community. 3 credits. This course introduces students to the use of creative movement and dance in community settings. Emphasis is on concepts and skills utilized in designing and implementing movement experiences for diverse populations.

DANC 340. Intermediate Modern Dance II (0, 4). 2 credits. Modern dance technique on an accelerated intermediate level. May be repeated for credit. Prerequisite: DANC 240 or permission of the instructor.

DANC 342. Intermediate Ballet II (0, 4). 2 credits. Ballet technique on an accelerated intermediate level. May be repeated for credit. Prerequisite: DANC 242 or permission of the instructor.

DANC 345. Dance Composition I 1(2, 3). 3 credits. Introductory studies of dance composition with focus on the learning and development of choreographic techniques and styles. Compositional movement studies and solo/duet dances will be utilized for exploring and developing the student’s individual creativity. Prerequisite: DANC 245 or permission of the instructor.

DANC 346. Intermediate Jazz II/Musical Theater Styles. 2 credits. A continuation of the jazz dance techniques in the dance program at the intermediate level. Primary focus of this class will be on the study and training of historic and contemporary musical theatre jazz movement. May be repeated for credit. Prerequisite: DANC 246 or permission of the instructor.

DANC 380. New Directions in Dance. 1 - 3 credits. Study of selected timely topics in dance. May be repeated when course content changes. See MyMadison for current topic.

DANC 411. Contemporary Dance Ensemble Repertory III (0, 4). 2 credits. Advanced-level experiences in performance, choreography and technical theatre with a modern dance ensemble. May be repeated for credit. Prerequisites: DANC 311 or the equivalent and concurrent enrollment in a dance technique course.

DANC 412. Virginia Repertory Dance Company III (0, 4). 2 credits. Advanced rehearsal, performance and technical theatre experience in a modern dance company for the professional level dancer. May be repeated for credit. Prerequisites: Permission of the instructor and concurrent enrollment in a dance technique course.

DANC 440. Advanced Modern Dance (0, 4). 2 credits. Modern dance technique on an advanced level. May be repeated for credit. Prerequisite: DANC 340 or the equivalent.

DANC 442. Advanced Ballet (0, 4). 2 credits. Ballet technique on an advanced level. May be repeated for credit. Prerequisite: DANC 342 or the equivalent.

DANC 445. Dance Composition II (2, 3). 3 credits. Dance composition study involving the development and use of complex choreographic structures with emphasis on creating small and large group dance compositions, as well as the exploration of contemporary choreographic styles and techniques. Prerequisite: DANC 345 or permission of the instructor.

DANC 446. Advanced Jazz. 2 credits. A continuation of the dance technique in the dance program. Advanced skills in jazz technique with special emphasis on the development of performance skills. May be repeated for credit.

DANC 449. The Dance Professional. 3 credits. Preparation and training to work in the professional dance world through lectures, discussions and research. Emphasis will be placed on the preparation of skills and materials necessary to pursue dance as a career. Contemporary dance trends and issues will also be explored. Prerequisite: Permission of the instructor.

DANC 450. The Open Studio: An Interdisciplinary Approach to Creative Arts. 3 credits. Introduction to the interdisciplinary studio through discussion of the history of interdisciplinary art and exposure to contemporary examples from dance, theatre, music, creative writing, visual art, film and video. Emphasis on production of original work that evidences the use of another media or collaborative work by artists from different disciplines. Prerequisites: Permission of the instructor and concurrent enrollment in a dance technique course.

DANC 479. Methods of Teaching Dance. 3 credits. An introduction to the theory and practice of teaching dance. Course will provide introductory level teaching experiences and will encourage the development of the student’s personal educational philosophy. Prerequisite: Permission of the instructor.

DANC 490. Special Studies in Dance. 1-3 credits each semester. Designed to give superior students in dance an opportunity to complete independent study and/or research under faculty supervision. May be repeated for credit. Prerequisite: Permission of the dance program coordinator.

DANC 495. Internship in Dance. 1-3 credits. A faculty arranged, prepared and monitored internship program designed to provide practical experiences in dance. Prerequisite: Permission of dance area coordinator.

DANC 499. Honors. 1-3 credits each semester. Repeatable for a maximum of 6 credits.

Early Childhood Education

College of Education

ECED 371. Practicum in Early Childhood Education. 2 credits. Preschool and kindergarten placements will provide for extensive observation and experience with young children and the opportunity to assist teachers as they facilitate children’s growth and learning in contexts that are culturally varied. Prerequisite: Admission to teacher education. Corequisites: READ 386 and ECED 372.

http://www.jmu.edu/catalog/14
ECED 372. Introduction to Early Childhood Education. 3 credits.
Introductory study of the role of the teacher, the role of the learner and the developing child as the basis for designing programs and developing curriculum for children 0-8 with different abilities and from various cultures. Prerequisite: Admission to teacher education. Corequisites: READ 366 and ECED 371.

ECED 401. Problems in Early Childhood Education. 1-3 credits.
Considers current problems and issues in early childhood education. Prerequisite: Permission of the program coordinator.

ECED 412. Natural and Social Sciences for Young Children. 3 credits.
Study of content, processes, teaching methods and materials for teaching science and social studies in the early childhood classroom. Knowledge of cognitive development as applied to the selection of content in method will be examined. Prerequisites: Grades of "C" or better in ECED 371, ECED 372 and READ 366, ECED 441, ECED 443, ELED 444 and READ 436. Corequisite: ECED 481.

ECED 441. Practicum in Child Development. 1 credit.
This course is a supervised field experience working in an early childhood laboratory classroom with pre-kindergarten age children. It emphasizes applications of age-appropriate guidance strategies for facilitating children’s total development, including children with diverse needs. Observational strategies for assessing growth and progress are developed. Prerequisites: Grades of “C” or better in ECED 371, ECED 372 and READ 366; a current TB test. Corequisites: ECED 442, ECED 443 and ECED 436.

ECED 442. The Young Child. 3 credits.
This course integrates child development knowledge and theories, academic content knowledge, and age/grade appropriate guidance strategies for teaching children pre-kindergarten through grade three. Emphasis on observational/assessment strategies and inquiry processes related to young children’s growth and development as a basis for teaching decisions. Prerequisites: Grades of "C" or better in ECED 371, ECED 372 and READ 366; a current TB test. Corequisites: ECED 441, ECED 443, ELED 444 and READ 436.

ECED 443. Practicum in Primary Grades. 1 credit.
This two-hour, weekly practicum in first or second grade will provide students with experience in planning and implementing math and literacy experiences for young children. Prerequisites: Grades of "C” or better in ECED 371, ECED 372 and READ 366. Corequisites: ECED 441, ECED 442, ELED 444 and READ 436.

ECED 461. Integrated Day Practicum. 3 credits.
This all-day, primary-grade practicum allows students to demonstrate their educational decision-making skills through planning, implementing and evaluating appropriate activities for children of diverse interests, needs and abilities. Strategies to assess learning, guide behavior, work with professionals and family involvement are applied in this practicum and accompanying seminar. Prerequisites: Grades of “C” or better in ECED 361, ECED 371, ECED 372, ECED 441, ECED 442, ECED 443, READ 366, READ 436 and ELED 444, and current TB test. Corequisites: ECED 484, ELED 462.

ECED 481. Fieldwork in Family and Community. 2 credits.
This fieldwork is designed to provide support for students and reinforce skills and concepts learned during the education program which are being applied during student teaching. Particular attention is given to school and family/community unity. Prerequisites: Grades of “C” or better in ECED 361, ECED 371, ECED 372, ECED 441, ECED 442, ECED 443, ECED 454, ECED 461, READ 366, READ 436, ELED 444 and ELED 462. Corequisite: ECED 480.

ECED 490. Special Studies in Early Childhood Education. 1-3 credits.
Designed to give capable students opportunities to complete independent research on educational problems under faculty guidance. The plan for the study must be presented to the department head in prescribed form for approval prior to registration.

ECED 499. Honors in Early Childhood Education. 3 credits.

Economics

College of Business

GECON 200. Introduction to Macroeconomics. 3 credits.
Behavior of systems at the national and international levels. Topics include the methodology of economics as a social science, supply and demand, definition and measurement of important macroeconomic variables, and theoretical models of growth, inflation, interest rates, unemployment, business cycles, stabilization policy, exchange rates and the balance of payments. Not open to students who are enrolled in or who have received credit for ECON 332.

Topics covered include supply and demand, consumer choice, economics of the firm and industry, production costs, distribution theory, international trade, comparative economic systems, and the philosophy of economics. Not open to students who are enrolled in or who have received credit for ECON 331.

ECON 222. Contemporary Economic Issues and Policy Alternatives. 3 credits.
Application of elementary economic theory to current economic issues. Special emphasis is placed on public policy alternatives. Prerequisites: ECON 201 and GECON 200.

ECON 270. International Economics. 3 credits.
A survey of the relationships among national economies, including trade theory, trade policy, international monetary relations and the balance of payments. Not open to students who are enrolled in or have already received credit in ECON 370 or 372. Prerequisites: ECON 201 and GECON 200.

ECON 300. Special Topics in Economics. 3 credits.
Examination of special topics in theoretical or applied economics not covered in the current economics curriculum. Specific topics to be determined by the instructor. Prerequisites: GECON 200 and ECON 201 or equivalent.

ECON 301. Economics in Transition. 3 credits.
A study of the evolution and operation of the post-Soviet Union economy. Special emphasis is given to the new independent states and their market reforms and foreign economic policies. Prerequisites: ECON 201 and GECON 200.

ECON 302. History of Economic Thought. 3 credits.
Major contributions within the history of economic thought are studied in relation to both the historical circumstances within which they arose and the role each played in shaping contemporary competing economic doctrines. Prerequisites: ECON 201 and GECON 200.

ECON 305. Environmental Economics. 3 credits.
An analysis of the problems of the environment, their causes and alternative proposed methods of solution. Air and water pollution will be stressed as case studies of environmental problems. Prerequisite: ECON 201.

ECON 306. The Economics of Women and The Family. 3 credits.
Examines facts and theories pertaining to the various economic roles of women in America. The economics of marriage, divorce and childbearing are examined as are empirical and theoretical explanations of occupational and wage differentials between the sexes. Prerequisite: ECON 201.

ECON 307. Economics of Aging. 3 credits.
Application of the theoretical and empirical tools of modern micro- and macro-economics analyzes to the circumstances of older people in American society. Among the topics studied are retirement from paid employment, sources and distribution of income among the elderly, and spending patterns of the elderly. The role of public policies like Social Security is an important thread throughout the course. Prerequisite: Six credits in economics.

ECON 310. Economic History of the United States. 3 credits.
A survey of the economic growth and development of the United States from Colonial times to the present. Prerequisites: ECON 201 and GECON 200.

ECON 312. Comparative Economic Systems. 3 credits.
An examination of the distinguishing characteristics, institutions and performances of the various types of major economic systems in the world today. Prerequisites: ECON 201 and GECON 200.

ECON/FIN 325. Money and Banking. 3 credits.
Examines the economic role of money, banking and monetary policy within current institutional settings and under alternative theories explaining the interrelationships between money, the financial system and economic activity. Prerequisites: ECON 201 and GECON 200.

ECON 338. Public Finance. 3 credits.
Introduction to the field of public finance including theories and principles of taxation, government expenditure, public debt and fiscal administration. Studies interrelationships between federal, state and local finance, shifting and incidence of tax, and the burden of public debt. Prerequisites: ECON 201 and GECON 200.

ECON 337. Game Theory. 3 credits.
Examines independent decision making in economics and other social sciences and covers both non-cooperative and cooperative games. Topics may include applications of game theory to industrial organization, law and economics, public choice, political economy, evolutionary biology, international affairs, and theories of justice. Prerequisites: GECON 200 and ECON 201 or permission of the instructor.

ECON 331. Intermediate Microeconomic Theory. 3 credits.
Intermediate analysis of the determination of price, resource allocation and product distribution in a free enterprise economy. Prerequisites: ECON 201, GECON 200, and MATH 205, MATH 231 or MATH 236.
ECON 322. Intermediate Macroeconomic Theory. 3 credits.
Intermediate-level analysis of the major approaches to the determination of economic aggregates with emphasis given to structuring a common analytic framework. Prerequisites: ECON 201, GECON 200, and MATH 205, MATH 231 or MATH 235.

ECON 340. Economics of Natural Resources. 3 credits.
Emphasizes availability of exhaustible resources and optimum utilization rates. Examines questions of intertemporal allocation and costs of growth. Prerequisites: ECON 201 and GECON 200.

ECON 345. Industrial Organization. 3 credits.
An examination of contemporary U.S. industrial concentration both in the aggregate and within particular industries with emphasis on public policy implications. Alternative theories of the firm are considered in relation to different market structures. Prerequisites: ECON 201 and GECON 200.

ECON 360. Labor Economics. 3 credits.
Study of the economics of labor markets. Attention is given to the structure and operation of labor markets, wage determination, employment, unions, and contemporary labor problems and policies. Prerequisites: ECON 201 and GECON 200.

ECON 365. Economic Development. 3 credits.
A study of the characteristics of under-development, theories of economic development and the underlying causes for varying standards of living among the world's people. Considerable time will be spent on studying social and cultural factors that influence economic growth and their potential effect on the economic progress of the less-developed countries. Prerequisites: ECON 201 and GECON 200.

ECON 370. International Trade and Trade Policies. 3 credits.
An examination of the classical and modern theories of international trade, the effects of such trade on the domestic economy, the effects of barriers to free trade and an appraisal of U.S. commercial policy since 1948. Prerequisites: ECON 201 and GECON 200.

ECON/FIN 372. International Finance and Payments. 3 credits.
Examines international financial markets, instruments and institutions; determination of spot and forward exchange rates, interest arbitrage, hedging and speculation; and alternative policies for achieving equilibrium in international payments. Prerequisites: ECON 201 and GECON 200.

ECON 382. Urban Economics. 3 credits.
A detailed examination of the economic aspects of urbanization with emphasis on metropolitan land use and location theory. Urban problems considered include housing, poverty, labor markets and municipal finances. Prerequisites: ECON 201 and GECON 200.

ECON 385. Econometrics. 3 credits.
Course discusses construction of models based on economic theory including identification of variables, development and testing of hypotheses for single- and multi-equation systems. Prerequisites: ECON 201, GECON 200, COB 191 or MATH 220, and MATH 205, MATH 231 or MATH 235.

ECON 394. Economics Internship. 3 credits.
Academic credit for an approved internship experience. Registration for the course must be concurrent with the internship. An application showing how all requirements for the internship will be met must be approved prior to registration. May be taken on a credit/no credit basis only. Prerequisites: ECON 201 and GECON 200.

ECON 400. Advanced Topics in Economics. 3 credits.
Examination of special topics in theoretical or applied economics not covered in the current economics curriculum. Specific topics to be determined by the instructor. Prerequisites: ECON 331 and ECON 332 or permission of the instructor.

ECON 401. Senior Assessment in Economics. 0 credits.
Students participate in testing, interviews and other assessment activities as approved by the economics program. Grades will be assigned on a credit/no-credit basis. Prerequisites: ECON 331 or ECON 332, ECON 385 and senior standing.

ECON 405. Political Economy. 3 credits.
Evaluation and critique of mainstream and nontraditional economic paradigms. The interaction of economics and politics in the United States as it affects the distribution of wealth and domestic and international economic policies. Prerequisites: ECON 201, GECON 202, ECON 203 or ECON 204, and junior or senior standing.

ECON 420. Theory of Public Choice. 3 credits.
Examines the justification for and nature of public sector activity in a market-based mixed economy. Emphasis is placed on theories of market failure, voting models, conditions of production and provision in the public sector, and models of bureaucratic behavior. Prerequisite: ECON 326 or ECON 331.

ECON 430. Monetary Theory. 3 credits.
Examines alternative theories of the relationships between money, interest rates, price levels, employment and output in order to assess the effectiveness of monetary policy for economic stabilization. Prerequisites: ECON 332 and either MATH 205 or MATH 235.

ECON 431. Advanced Microeconomic Theory. 3 credits.
Examines theories of general equilibrium and the distribution of income, welfare economics, capital theory and information theory. Prerequisites: ECON 331, ECON 332 and either MATH 205 or MATH 235.

ECON 432. Advanced Macroeconomics. 3 credits.
Study of macroeconomics at an advanced level. Particular attention will be given to the theory and models of economic growth as well as the potential for government policies to improve growth. Topics may also include the theory of economic fluctuations within the growth paradigm and comparative analysis of the U.S. and other economies with respect to growth. Prerequisites: ECON 332 and MATH 205 or MATH 235.

ECON 455. Economics of Regulated Industries. 3 credits.
A study of the rationale, methods and impact on industry behavior of government regulations including public utility regulation and antitrust policies relating to monopoly and competition in the United States. Prerequisite: ECON 331 or ECON 345. Prerequisite or corequisite: ECON 385.

ECON 460. Human Resources. 3 credits.
Examines the role of education and training in enhancing productive skills, employment opportunities and income. Also focuses on American employment and health and welfare policies that relate to the labor market, giving attention to empirical studies. Prerequisite: ECON 336, ECON 331, ECON 332 or ECON 369.

ECON 475. Regional Economics. 3 credits.
A study of local and subnational economics viewed as integral parts of a unified system. Emphasis will be given to the basic economic forces associated with regional growth and decline and related public policy considerations. Prerequisites: ECON 200 and ECON 201.

ECON 484. Mathematical Economics. 3 credits.
Course employs techniques of differentiation and integration for microeconomic and macroeconomic analysis at the intermediate level. Prerequisites: ECON 331, ECON 332, and MATH 205 or MATH 235.

ECON 485. Advanced Econometrics. 3 credits.
Theory and application of statistical techniques to study empirical relationships among economic variables. Students will use econometrics to develop forecasts of economic activity, to estimate limited dependent variable and simultaneous equation models, and to model various time-series processes. Prerequisite: ECON 385.

ECON 487. Economic Consulting. 3 credits.
A research-oriented, senior-level course that provides students an opportunity to integrate theoretical knowledge, quantitative techniques and writing skills through research on a set of simulated consulting projects. Prerequisites: ECON 331, ECON 332, ECON 385 and senior standing.

ECON 488. Senior Capstone Seminar in Economics. 3 credits.
This course is a writing-intensive seminar offering a student the opportunity to integrate many of his/her undergraduate studies in economics. Its substantive content will emphasize applying the methods of theoretical and empirical analyses employed by all economists. The seminar will be structured so as to contain embedded assessment measures of the learning objectives specified by the department of economics, including those related to command of basic economic theory and of quantitative methods used in quantifying empirical relationships and testing hypothesis. Prerequisites: Senior standing and completion of each of the following courses with a grade of at least “C”: ECON 331, ECON 332, ECON 385 and ECON 386.

ECON 490. Special Studies in Economics. 1-3 credits each semester.
Designed to give capable students in economics an opportunity to complete independent study under faculty supervision. Admission by recommendation of the instructor and written permission of the director of economics prior to registration. May not be used toward fulfillment of the 400-level requirement for a major in economics.

ECON 499. Honors. 6 credits.
Year course. See catalog section “Graduation with Honors.”
Education

College of Education

EDUC 100. The Study of the Future: An Interdisciplinary Approach. 3 credits. Introduces the students to an interdisciplinary study of the future within the context of education. Various topic areas, such as population, science/technology, lifestyle, economics, international relations, energy and religion will explored in terms of future trends and how education responds to these trends and their impacts.

EDUC 300. Foundations of American Education. 3 credits. A study of the practices and issues that affect American education. Consideration is given to such topics as philosophical approaches to education, history of American education, and the organizational and cultural aspects of schools which influence educational practices.

EDUC 310. Teaching in a Diverse Society. 3 credits. This course will examine how personal and professional values, attitudes, beliefs and behaviors affect teaching and learning. This pre-service teachers will develop an understanding of similar unique characteristics of Pre-K to 12 grade students and their families, including culture, race, ethnicity, heritage language and learning abilities, gender socialization, and sexual orientation. Corequisites: MIED 311 and READ 312 for middle students.

EDUC/EXED 312. Field Experience in Special Education and Diversity. 1 credit. Students devote 30 clock hours to activities in school and nonschool settings that emphasize diversity of individuals and families. Corequisite: EDUC 310.

EDUC 370. Instructional Technology. 3 credits. This course introduces educators to the concept of content knowledge, pedagogical knowledge and technological knowledge acting together as one unit to provide successful learning opportunities with educational technology. Learners will develop competencies that will enable them to appropriately select and integrate technology into the teaching and learning process.

EDUC 381. Field Experience in English as a Second Language. 3 credits. This course provides supervised field experiences in working with English as a Second Language students, NK-12. Preservice teachers will demonstrate competencies developed in the English as a Second Language endorsement program and in consultation with a field supervisor. Prerequisite: Completion of ESL minor requirements.

EDUC 401. Problems in Education. 1-3 credits. Workshop experiences for the development and training of teachers. Prerequisites: EDUC 380 and permission of the program coordinator.

EDUC 416. School Discipline and Classroom Management. 1 credit. Theory and practices in classroom management and discipline, including specific models and the various legal aspects will be examined.

EDUC 430. General Education Curriculum K-12 Overview. 1 credit. This course will provide an overview of curriculum in grades K-12. An understanding of objectives, content, materials and trends associated with curriculum will be addressed. Corequisites: READ 430, MIED 530 and EDUC 410.

EDUC 480. Student Teaching. 3-12 credits. Enables students to apply in the public school classrooms and the comprehensive child development programs, those skills and attitudes acquired in all components of teacher education. Under the guidance of university supervisors, students are provided activities designed to familiarize them with the classroom teacher’s role. Prerequisites: GSPSYC 160, EDUC 300 or EDUC 360, appropriate methods courses, and permission of the coordinator of field experiences.

EDUC 482. Professional Development, Partnership and Advocacy. 3 credits. Students examine opportunities for professional development from professional associations, universities and other organizations across PreK-12. Strategies to build partnerships with colleagues, families and communities are presented. Important social and political issues affecting education of minority and majority students and models of advocacy for students and their families are presented.

EDUC 490. Special Topics in Education. 1-4 credits. In-depth examination of selected topics which are of current importance in the field of education. Offered only with approval of School of Education director. May be repeated for credit when course content changes. Prerequisites: At least junior standing and consent of the instructor.

EDUC 499 A, B, C. Honors. 1-6 credits. Independent research topic initiated and completed by qualified upper-division students. See catalog descriptions entitled “Graduation with Distinction” and “Graduation with Honors.”

Elementary Education

College of Education

ELED 308. Child Development: Birth Through Adolescence. 3 credits. Skills for observing, recording and interpreting the behavior of children ages 0-18. Three of four conceptual areas of adult intervention will be developed so that adult intervention and guidance is appropriate and meaningful. Prerequisites: GSPSYC 160 and admission to teacher education. Corequisites: ECED 372, ELED 310, ELED 311 and READ 366.

ELED 310. Diversity in Elementary Education with Service Learning. 3 credits. This course guides students in critically examining their own perspectives regarding diversity in our society. Through this course, students will expand their awareness and understanding of individuals and groups apparently different from themselves. Students will explore pedagogical issues and practices in the classroom that embrace the whole community of learners and their families. Prerequisite: Admission to teacher education. Corequisites: ECED 372, ELED 308, ELED 311 and READ 366.

ELED 311. Practicum with a Focus on Learners and Learning. 3 credits. This field experience and seminar support the study of child development and learning in an organized environment. Through direct observation and interactions with children in a classroom setting, candidates will examine and reflect on how children develop and learn. Candidates will explore how their own personal attitudes, assumptions and behaviors toward students and their families are influenced by class, cultural and linguistic backgrounds. Prerequisite: Admission to teacher education. Corequisites: ECED 372, ELED 308, ELED 310 and READ 366.

ELED 411. Practicum with a Focus on Curriculum Integration and Guiding Behavior. 3 credits. This field experience provides candidates with a classroom of students and a mentor teacher with whom to practice the teaching of reading, math, science, and social studies. The accompanying seminar explores the integration and construction of meaningful curriculum in elementary education contexts and supports students in their ongoing professional development. Prerequisite: ELED 311. Corequisites: READ 430, ELED 432, ELED 433 and ELED 434.

ELED 432. Children and Science. 3 credits. This course is a study of content, processes, pedagogy and materials for teaching science in the elementary classroom. Knowledge of cognitive development as applied to the selection of content and methodology for elementary learners will be examined. Prerequisites: ELED 308, ELED 372, ELED 310, ELED 311 and READ 366. Corequisites: READ 430, ELED 411, ELED 433 and ELED 434.

ELED 433. Children and Mathematics: Number, Operations, Algebraic and Geometric Reasoning. 3 credits. The first two courses that provides students with knowledge, skills and understanding of design and implement for effective, developmentally appropriate mathematics instruction for grades PK-6. Emphasis is on children’s mathematical learning and pre-numerical stages through the acquisition of advanced numerical processes and operations and connections to geometric and algebraic reasoning. Prerequisites: MATH 107, MATH 108, MATH 207 and READ 366. Corequisites: READ 430, ELED 411, ELED 432 and ELED 434.

ELED 434. Children and Social Studies. 3 credits. This course focuses on the content, processes, pedagogy and materials for teaching social studies in the elementary classroom. Knowledge of cognitive development as applied to the selection of content, methods, and materials and strategies for organizing the learning environment for elementary learners will be examined. Prerequisite: ELED 311. Corequisites: ELED 411, ELED 432, ELED 433 and READ 436.

ELED 490. Special Studies in Elementary Education. 1-3 credits. Designed to give students opportunities to complete independent research on educational problems under faculty guidance. The plan for the study must be presented to the department head in prescribed form for approval prior to registration.

Engineering

Department of Engineering

ENGR 101. Engineering First Year Student Seminar. 1 credit. Offered fall.

This seminar course will introduce the engineering curriculum and career options to first year students and will describe how various elements of the curriculum and available electives in other disciplines relate to the goals and objectives of the program. This course will not only describe the engineering curriculum, but it will also contextualize the engineering profession with practical examples to help students determine if they want to pursue a career in the engineering profession.

http://www.jmu.edu/catalog/14
ENGR 112. Introduction to Engineering (1,2). 3 credits. Offered spring.
ENGR 112 is the first course in the engineering curriculum; its purpose is to introduce students to some of the over-arching themes and culture in engineering and in our curriculum. Topics of coverage include professionalism, engineering and society, sustainable development, engineering fundamentals, systems approach in engineering problem solving, as well as creative problem solving practices.

ENGR 212. Statics and Dynamics (3,1). 4 credits. Offered fall, spring.
ENGR 212 provides the fundamental and governing principles of particles and rigid bodies for the analysis of these structures at rest (statics) and in motion (dynamics). Topics will include equilibrium of particles and rigid bodies, force and moment vectors, moments of inertia, kinematics of particles, work and energy. Prerequisites: Grade of “C” or better in ENGR 112, PHYS 240 and PHYS 140L and MATH 237.

ENGR 221. Management of Technology I: Product Development and Entrepreneurial Engineering. 3 credits. Offered spring.
ENGR 221 is the first of a two-course sequence introducing students to management of technology. The course will include general business functions (management, marketing, finance, accounting, and operations); systems analysis skills; and project management skills. Students will develop an understanding and appreciation for the importance of technology and innovation in organizations. Corequisite of ENGR 222. Prerequisite: Grade of “C” or better in ENGR 112 and ENGR 231.

ENGR 231. Engineering Design I. 2 credits. Offered fall.
This course is the first of six courses in the engineering design sequence. This course provides students with an overview of sustainable engineering design including history, concepts and practices; and an introduction to cognitive processes and interpersonal communication skills that lead to effective problem solving, idea generation and decision making; and basic technical design skills. Prerequisite: Grade of “C” or better in ENGR 112.

ENGR 232. Engineering Design II. 2 credits. Offered spring.
This course is the second course in the engineering design sequence. This course provides instruction in sustainable engineering design concepts and hands-on practice; individual cognitive processes, thinking and communication skills, and decision making; introduction to sustainability contexts (environmental, social, economic, and technical); and technical project design skills. Prerequisite: Grade of “C” or better in ENGR 231.

ENGR 280. Projects in Engineering. 1-4 credits. Offered fall, spring, summer.
Research projects, design projects, or special topics in engineering which are of interest to the lower-division student. May be repeated for credit when course content changes. Projects or topics selected may dictate prerequisites. Students should consult the instructor prior to enrolling in the course. Prerequisite: Permission of the instructor.

ENGR 298. Topics in Engineering. 1-3 credits.
This course is designed to provide students with the opportunity to explore engineering topics currently not covered in the standard curriculum. The specific topic of interest may be dictated by the instructor. Students should consult the instructor prior to enrolling in the course.

ENGR 301. Engineering Bridge Course for Transfer Students. 3 credits. Offered fall, spring.
This course provides transfer students with an introduction to the JMU engineering program. The purpose is to familiarize our students with our curriculum and sustainability vision. The course will also provide design instruction while introducing transfer students to the specific software tools and machine tools they will use over the remainder of their curriculum. Prerequisite: Permission of the instructor.

ENGR 311. Thermal-Fluids I. 4 credits. Offered fall.
The first course of a two-part sequence focuses on the fundamental principles of thermodynamics, heat transfer, and fluid mechanics in a unified approach. Coverage includes the 1st law of thermodynamics, basic heat transfer, and fluid statics. Wide-ranging applications of these principles to thermal-fluid systems across engineering disciplines are emphasized. An included laboratory component provides reinforcement of course material through experiments and computational modeling. Prerequisites: Grade of “C” or better in ENGR 212 and ENGR 231.

ENGR 312. Thermal-Fluids II. 4 credits. Offered spring.
The second of a two-part sequence focuses on the fundamental principles of thermodynamics, heat transfer and fluid mechanics in a unified approach. Builds on concepts covered in ENGR 311 and incorporates the 2nd law of thermodynamics, transient heat transfer and fluid motion. Applications of principles to thermal-fluid systems across engineering disciplines are emphasized. An included laboratory component provides reinforcement of course material through experiments and computational modeling. Prerequisite: Grade of “C” or better in ENGR 311.

ENGR 313. Circuits and Instrumentation. 4 credits. Offered fall, spring.
This course presents the fundamentals of circuit analysis and measurement of physical phenomena. Circuit related topics include Ohm’s law, Kirchoff’s laws, complex impedance analysis, Laplace techniques and an introduction to AC circuits. Instrumentation topics include A/D conversion and common instruments such as strain gauges, thermocouples and accelerometers. Laboratory investigations will provide exposure to common electronics laboratory equipment, tools and measurement techniques. Prerequisites: Grade of “C” or better in MATH 238, PHYS 250 and PHYS 150L.

ENGR 314. Materials and Mechanics. 4 credits. Offered fall, spring.
The course explores the governing principles of materials science and mechanics of materials with an emphasis on materials selection in the engineering design process. Topics include process-structure-property relationships, crystalline structures, mechanical properties, strength of materials, mechanical design, failure mechanisms, and an introduction to materials processing. Prerequisites: Grade of “C” or better in ENGR 212.

ENGR 322. Engineering Management II: Engineering Project Management. 3 credits. Offered fall.
This is the second of a two-course sequence introducing students to management of technology. The course will include general business functions (management, marketing, finance, accounting, and operations); systems analysis skills, and project management skills. Students will develop an understanding and appreciation for the importance of technology and innovation in organizations and the principles of entrepreneurial engineering. Corequisite: ENGR 331. Prerequisite: Grade of “C” or better in ENGR 221.

ENGR 331. Engineering Design III. 3 credits. Offered fall.
This course is third in the six-course developmental design sequence. This project-based course provides instruction in life-cycle analysis, sustainability (environmental, social, technical, economic), design and construction, failure analysis and problem solving. Corequisite: ENGR 232. Prerequisite: Grade of “C” or better in ENGR 212 and ENGR 232.

ENGR 332. Engineering Design IV. 3 credits. Offered spring.
This course is fourth in the six-course 10-credit developmental design sequence. This project-based course provides instruction in holistic design process principles, aesthetics and human interface in design, structured and unstructured problem solving, collaborative design, writing and communications, product modeling, and analytical prototyping. Prerequisite: Grade of “C” or better in ENGR 331.

ENGR 360. Water in Africa. 4 credits. Offered summer.
This course has a three-part focus: cross cultural training, promoting health in developing countries, and using appropriate technologies for eradicating water-related illnesses. Project teams use course content as the foundation for developing and implementing service projects. This course is a service-learning course and addresses issues of social justice in West Africa.

ENGR 411. Fundamentals of Sustainable Engineering and Design. 3 credits. Offered fall, spring.
This course is the first in a part of a two-course sequence that provides a foundation in evaluating sustainable design and engineered systems. The material presented is a prerequisite for understanding the environmental, social and economic impacts of design and technology. The topics may be covered in a developmental manner in both courses, integrated to the economic, environmental, social and technical components throughout ENGR 411 and ENGR 412. Prerequisites: Grade of “C” or better in CHEM 132 and 132L or CHEM 133E and CHEM 133LE.

ENGR 412. Sustainable Engineering and Design II. 3 credits. Offered fall, spring.
This course is the second in a two-course sequence that provides a foundation in evaluating sustainable design and engineered systems. The material presented furthers the understanding of the environmental, social, and economic impacts of design and technology by exploring the relationships between industrial and ecological systems. Prerequisites: Grade of “C” or better in ENGR 312.

ENGR 413. Systems Analysis. 3 credits. Offered fall.
This course focuses on the concepts of systems thinking and analysis for complex engineered systems. Students will develop basic knowledge and tools to identify a system, decompose it into parts, define interactions, perform analysis and apply control measures if necessary. Application of computational tools and mathematical modelling will be emphasized. Corequisite: ENGR 431.
ENGR 431. Engineering Design V. 3 credits. (Offered fall.)
This course is the fifth in the six-course 10-credit developmental design sequence. This project-based course provides instruction in collaborative project management, holistic design evaluation, social and community sustainability, design testing and marketing, principles of design marketing and accounting, problem solving analyses, software tools, project management, and testing and analysis of prototypes. Prerequisite: Grade of "C-" or better in ENGR 332.

ENGR 432. Engineering Design VI. 3 credits. (Offered spring.)
This course is the sixth in the six-course 10-credit developmental design sequence. This project-based course provides instruction in collaborative design practices, capstone design project completion, holistic design analysis and design engineering and manufacturing. Prerequisite: Grade of "C-" or better in ENGR 431.

ENGR 472. Biological Treatment Processes and Reactor Design. 3 credits.
For engineering and environmental science students interested in biological reactor design. Water, wastewater and air treatment are emphasized. Students must be proficient in mathematics, chemistry and thermal sciences. Quantitative relationships are derived for characterizing water quality, designing biological reactors and modeling treatment systems. Systems are described by mass and energy balances that relate pollutant removal efficiency to process input parameters. Prerequisites: CHEM 131, CHEM 131L, and either MATH 231 or MATH 235.

ENGR 474. Physical Chemical Treatment Processes. 3 credits.
For engineering and environmental science students interested in physical/chemical waste treatment. Wastewater, groundwater, air and hazardous waste treatment is emphasized. Students must be proficient in mathematics, chemistry and thermal sciences. Quantitative relationships are derived for characterizing water quality, designing treatment processes, and modeling treatment systems. Systems are described by mass and energy balances that relate pollutant removal efficiency to process input parameters. Prerequisites: CHEM 131, CHEM 131L, and either MATH 231 or MATH 235.

ENGR 476. Principles of Chemical Processes. 3 credits.
An introduction to basic principles used in chemical, petroleum and environmental engineering. Emphasis on formulating and solving material and energy balances for simple and complex systems. Quantitative models and equilibrium concepts for chemical process systems will be developed and applied to assess product quality, economics, safety, and environmental issues. For students interested in careers or graduate studies in chemical, environmental, biochemical, and petrochemical engineering.

ENGR 478. Water Resources Engineering. 3 credits.
This course will provide an introduction to basic engineering principles used in both water supply management and water excess management. Hydrologic and hydraulic processes will be investigated using the fundamentals of fluid mechanics. Specific emphasis will be placed on water sources flows, distribution and control. Prerequisite: ENGR 311.

ENGR 480. Advanced Projects in Engineering. 1-4 credits. (Offered tel. every summer.) Research projects, design projects or special topics in engineering which are of interest to the upper-division student. May be repeated for credit when course content changes. Projects or topics selected may dictate prerequisites. Students should consult the instructor prior to enrolling in the course. Prerequisite: Permission of the instructor.

ENGR 498. Advanced Topics in Engineering. 1-3 credits. This course is designed to provide upper-division students with the opportunity to explore engineering topics in greater depth. The specific topic of interest may dictate prerequisites. Students should consult the instructor prior to enrolling in the course.

ENGR 498A. Engineering Honors I. 1 credit. (Offered spring.) First course in a three-course sequence. Student generates an idea for and writes a proposal for an independent research project that meets the requirements set forth by the Honors program and the Department of Engineering. Student must identify and analyze an engineering-based problem, identify potential solutions, recommend an approach and prepare a written proposal.

ENGR 498B. Honors Engineering Design II. 1-3 credits. (Offered fall.) Second course in a three-course sequence. Student completes the research for an honors research project. The project must be approved by the Honors program and the Department of Engineering. Student completes and presents (in written and oral form) the project described in his or her proposal from ENGR 498A. Prerequisite: ENGR 498A or permission of the Engineering Honors Director/Department Head.

ENGR 498C. Honors Engineering Design III. 2-3 credits. (Offered spring.) Third course in a three-course sequence. Student completes the research and prepares an oral and written presentation of their results for an independent research project that meets the requirements set forth by the Honors program and the Department of Engineering. Student completes and presents (in written and oral form) the project described in his or her proposal from ENGR 498A. Prerequisite: ENGR 498B.

English

Department of English

GENG 221. Literature/Culture/Ideas. 3 credits.
This course will take a thematic approach to literature by examining multiple literary texts that engage with a common course theme concerned with the human experience. Themes address cultural, political, social, religious or philosophical aspect ideas through literature. Specific topics will vary.

GENG 222. Genre(s). 3 credits.
An examination of representative works in a literary genre, in a set of related literary subgenres, or in both a literary genre and one or more closely connected genres in other humanities disciplines.

GENG 235. Survey of English Literature: From Beowulf to the Eighteenth Century. 3 credits.
A general survey presented chronologically.

GENG 236. Survey of English Literature: Eighteenth Century to Modern. 3 credits.
A general survey presented chronologically.

GENG 239. Studies in World Literature. 3 credits.
Introduction to masterpieces of world literature with emphasis on non-Western literature. (May be focused regionally or topically.)

GENG 247. Survey of American Literature: From the Beginning to the Civil War. 3 credits.
A general survey presented chronologically.

GENG 248. Survey of American Literature: From the Civil War to the Modern Period. 3 credits.
A general survey presented chronologically.

GENG 260. Survey of African-American Literature. 3 credits.
Survey of literature by African-American authors from the 18th century to the present.

ENG/WRTC 290. Intermediate Composition. 3 credits.
This course stresses the argumentative and persuasive essay as well as grammar and usage. Prerequisites: GWRT 103 or equivalent and junior or senior standing, or permission of the instructor.

ENG 293. Exploring Careers in English. 2 credits.
An introduction to academic and career opportunities in English. Students will research and shape academic and career interests, with particular attention to articulating the relationship between the reading, writing and analytical skills they develop as majors and their long-term career plans. Does not count as an English elective.

ENG 294. Internship in English. 1-3 credits.
Provides English majors with work experience in career fields they are interested in pursuing. A journal, internship report, research paper, bibliography and evaluation from the intern provider are required. Does not count as an English elective. Prerequisites: Major or minor status and approval of the internship director.

ENG 299. Writing About Literature. 3 credits.
This course will provide students with the skills and knowledge necessary for interpreting, researching and writing about literature. Students will learn basic literary terms, acquire an understanding of canon formation and transformation, and gain a knowledge of literary theories. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisite: Declared English major.

ENG 301. Old English Language and Literature. 3 credits.
An introduction to the Old English language through selected readings in poetry and prose. Formerly ENG 418.

ENG 302. Special Topics in Literature and Language. 3 credits.
Study of a particular literary or linguistics topic. May be repeated for credit when course content changes but not more than once, except with the approval of the department head.

ENG 303. History of the English Language. 3 credits.
Introduction to the historical study of English including its Indo-European origins. May be repeated for credit when course content changes.

http://www.jmu.edu/catalog/14
ENG 304. Modern Literature and Religion. 3 credits.
Using a variety of readings, this course explores twentieth-century literary perspectives on the religious and literary culture of the Western tradition. Genre, readings, and emphasis may vary with the instructor.
ENG 305. Mythology. 3 credits.
Study of the nature and meaning of Greek myths as interpreted and reinterpreted in significant works of ancient and modern literature.
ENG 306. The Bible as Literature. 3 credits.
Study of Hebrew and Christian Scripture as literary and cultural texts, which have influenced subsequent literature and culture.
ENG 307. Literature and Psychology: A Psychoanalytical Approach to Literary Readings. 3 credits.
This course will study the works of world literature authors from the perspective of psychoanalysis.
ENG 308. Introduction to Linguistics. 3 credits.
Introduction to the study of the various subfields of linguistics, including questions about the nature and use of language in general, with the English language as the primary example. Formerly ENG 418.
ENG 309. Traditional English Grammar. 3 credits.
Introduction to traditional grammar, probing its logic, system, and history, with an examination of modern applications of conventional rules. Formerly ENG 421.
ENG 310. Modern English Grammar. 3 credits.
Introduction to modern English grammar with attention to the structure of the English language from a modern linguistic perspective. Formerly ENG 422.
ENG 311. Medieval Literature and Culture. 3 credits.
Studies in the literature and culture of the Middle Ages through selected Old English, Norse/Icelandic, Middle English, Old Irish, French, German, Latin, and Arabic texts in translation.
ENG 312. Sixteenth Century British Literature. 3 credits.
Poetry and prose of the sixteenth century in Britain.
ENG 313. Seventeenth Century British Literature. 3 credits.
Poetry and prose of the seventeenth century in Britain.
ENG 314. Early Modern Drama. 3 credits.
Major works of British dramatists, excluding Shakespeare, from 1550-1660.
ENG 315. Shakespeare's Tragedies and Romances. 3 credits.
A study of selected tragedies and romances; nondramatic work may be considered. Formerly ENG 450.
ENG 316. Shakespeare's Comedies and Histories. 3 credits.
A study of selected comedies and histories; nondramatic work may be considered. Formerly ENG 457.
ENG 317. Teaching Shakespeare. 3 credits.
A study of Shakespeare's plays, with emphasis on pedagogical techniques for teaching drama in the classroom.
ENG 320L. Shakespeare on the Page and Stage in London. 3 credits.
Students will study the plays of Shakespeare currently in production in London and England with special emphasis on the productions of the Royal Shakespeare Company and the National Theatre. Course can be substituted for either ENG 317 (formerly 450) or ENG 318 (formerly 457) but may not be taken for credit in addition to both. Formerly ENG 458.
ENG 321. Restoration and Eighteenth Century Literature. 3 credits.
A study of poetry and prose (including the novel) written in England during the Restoration and eighteenth century.
ENG 322. Restoration and Eighteenth Century British Drama. 3 credits.
A study of British drama in the eighteenth century.
ENG 323. Romantic Literature. 3 credits.
A study emphasizing selected works of Romantic literature. Attention given to critical theories, intellectual, and cultural movements, or poetic forms.
ENG 324. Romantic Era Prose. 3 credits.
A study of British literature written during the Romantic period, 1789-1832, with primary emphasis on prose, including the essay, memoir, and/or the novel.
ENG 325. Gothic Literature. 3 credits.
A study of the origins, influence and transformations of Gothic fiction from the 18th century to the present.
ENG 326. Victorian Literature. 3 credits.
Study of British literature of the Victorian period with primary emphasis on poetry and nonfiction prose.
ENG 327. Nineteenth Century British Novel. 3 credits.
The development of the British novel in the nineteenth century and the study of representative works.

ENG 321. Studies in Poetry. 3 credits.
A study of select poetic works. Specific time periods of genres studied may vary. Course may be repeated as topic changes.
ENG 322. Modern Drama. 3 credits.
Drama from 1900 to 1960.
ENG 323. Contemporary Drama. 3 credits.
Drama from 1960 to the present.
ENG 324. Modern British and Irish Literature. 3 credits.
Literature from Britain and Ireland, 1900 to 1945.
ENG 325. Contemporary British and Irish Literature. 3 credits.
Literature from Britain and Ireland, from 1945 to the present.
ENG 326. Early American Literature. 3 credits.
Significant genres, writers and literary movements of the seventeenth and eighteenth centuries.
ENG 327. Antebellum American Literature. 3 credits.
American Literature of the early nineteenth century.
ENG 328. Late Nineteenth Century American Literature. 3 credits.
American literature of the late nineteenth century.
ENG/THA 347. Playwriting. 3 credits.
Study of the process of writing plays. Consideration of plot, character, thematic material, conflict and dramatic structure. Emphasis on individual writing assignments.
ENG 329. The American Novel to 1914. 3 credits.
A study of the development of the American novel from its beginnings to the modern period.
ENG 330. Southern Literature. 3 credits.
Southern authors, especially those of the twentieth century.
ENG 331. Modern American Novel. 3 credits.
The American novel from 1914 to 1945.
ENG 332. Contemporary American Literature. 3 credits.
A study of contemporary American literature written since 1945.
ENG 333. American Literature. 3 credits.
This course is a study of oral literature, which may be organized by theme, geography or genre. The course examines the social, political and artistic reasons for the creation and popularity of this literature. May be repeated for credit when course content changes.
ENG 334. Introduction to Ethnic American Literature. 3 credits.
An overview of the literary production of one group or a variety of ethnic and immigrant American writers, including but not limited to Native American, Asian American, Mexican American, Indian American, Caribbean American, and Latino American literatures. Examines the experience of historically marginalized groups in the United States with a particular emphasis on identity, nationality, tradition, and language.
ENG 335. African-American Fiction Writers. 3 credits.
Selected works of fiction by major African-American writers of the twentieth century.
ENG 336. African-American Poets. 3 credits.
Selected works of poetry by major African-American writers of the twentieth century. May be repeated for credit when course content changes.
ENG 337. Native American Literature. 3 credits.
A study of Native American communities and authors’ literatures in North America, with emphasis on the relationship of that literature to their traditions and historical experiences.
ENG 338. History of Literary Criticism. 3 credits.
Survey of the nature, function and development of literary criticism from Aristotle to Eliot. Formerly ENG 425.
ENG 339. Contemporary Critical Theory. 3 credits.
Study of the major debates in current critical discourse. Formerly ENG 426.
ENG/WMST 340. Women's Literature. 3 credits.
A study of literature by women.
ENG 341. Feminist Literary Theory. 3 credits.
An intensive study of a variety of feminist critical approaches and their applications to literature. Formerly ENG 447.
ENG/WMST 342. Queer Literature. 3 credits.
An exploration of texts and issues in literature written by and about lesbian, gay, bisexual, transgender and queer writers, including critical and theoretical issues as well as questions of canon. Text studied may include fiction, poetry, drama, essays and memoirs written primarily, but not exclusively, in the 20th century.

http://www.jmu.edu/catalog/14
ENG 371. Literature and the Environment. 3 credits. A critical examination of literature’s representation of the interconnections between human beings, non-human beings and the environment.

ENG 372. EcoCriticism and Environmental Ethics. 3 credits. This course will examine ecocriticism, which investigates the interconnections between language, literature, ethics and the environment. A further exploration of environmental ethics will allow students to identify ideas about the purpose and appropriate use of landscape, wilderness and animals. Formerly ENG 471.

ENG 375. Irish and Anglo-Irish Literature. 3 credits. A study of the works of Irish or Anglo-Irish writers.

ENG 376. Introduction to Scottish Literature. 3 credits. An overview of Scottish literature, with an emphasis on fiction, from the Romantic period to the present. Emphasis on the problems of nation, identity and the politics of language and tradition in "minority literature."

ENG 377. Introduction to African Literature. 3 credits. An introduction to African literature, tracing its changes over time. Examination of African literary theoretical concepts, literary genres (both oral and written), as well as an examination of Africa’s contribution to familiar genres of written and oral literature.

ENG 379. Literature and Empire. 3 credits. The course is designed as an overview of writings from regions of the world that were formerly colonized by Britain. It examines the colonial, national and postcolonial shaping of individual and collective identities through literature; the intersections of race, gender and nation; the crafting of a new idiom in English in response to both political and literary histories; and the significance of choices of genre and form.

ENG 380. Introduction to Film. 3 credits. An introduction to the study of film as an aesthetic practice, including formal and industrial aspects of film analysis, theoretical approaches to film and writing and research methodologies of film and media studies.

ENG 381. History of Film to 1960. 3 credits. An analysis of film from its beginnings to the modernism of the 1950s and early 1960s.

ENG 382. History of Film Since 1960. 3 credits. An analysis of world cinema from early modernism through the present.

ENG 383. Film Genre. 3 credits. Study of film genre through the consideration of one of more film genres.

ENG 384. Film Authorship. 3 credits. Study of film authorship through the consideration of one or more directors.

ENG 385. Special Topics in Film Study. 3 credits. Study of a particular topic in film. May be repeated for credit when course content changes but not more than once, except with the approval of the department head.

ENG 391. Introduction to Creative Writing – Nonfiction. 3 credits. A basic workshop in reading and writing works of creative nonfiction.

ENG 392. Introduction to Creative Writing – Poetry. 3 credits. A basic workshop in reading and writing poetry.

ENG 393. Introduction to Creative Writing – Fiction. 3 credits. A basic workshop in reading and writing fiction. May be repeated for credit when course content changes.

ENG/WRTC 396. Advanced Composition. 3 credits. Extensive exercises in expository writing, with emphasis on rhetorical types of composition, designed to develop sophistication of style in the student’s writing.

ENG 397. Texts for Teachers I. 3 credits. An examination of selected poems and plays of particular relevance to students enrolled in the secondary education pre-professional licensure program. [This course satisfies the genre requirement for the pre-professional licensure program.] Formerly ENG 440.

ENG 398. Texts for Teachers II. 3 credits. An examination of selected fiction and non-fiction of particular relevance to students enrolled in the secondary education pre-professional licensure program. [This course satisfies the period requirement for the pre-professional licensure program.] Formerly ENG 441.

ENG 401. Advanced Studies in Medieval Literature. 3 credits. Advanced literary and philological study of non-British Medieval or British Medieval texts written in cross-cultural dialogue with those written circa 500-1480 C.E. in Old Irish, Old Norse/Icelandic, Old French, Old and Middle High German, Old Castilian, Classical and Medieval Latin, and Arabic. Readings in the original or in translation. Topics may be determined by period or geography, culture or politics, theme or genre. Course may be repeated as topic changes.

ENG 402. Advanced Studies in British Literature Before 1700. 3 credits. British literatures written prior to 1700, both within and without the British isles. Topics may include Anglo-Saxon and Anglo-Norman literature, Viking-era literature, neo-Latin literature, Chaucer, late-medieval literature, Tudor and early modern literature, Shakespeare, Milton, and seventeenth-century literature. May be repeated as course topic changes.

ENG 403. Advanced Studies in British Literature After 1700. 3 credits. Advanced study of British literatures dating from 1700 to the present. Topics may focus on a particular period of literature (eighteenth century, Romantic, Victorian, Modernist, or contemporary), or topics may focus on a genre or them that engages multiple periods. Course may be repeated as topic changes.

ENG 405. Advanced Studies in Anglophone Literature. 3 credits. Anglophone (English-speaking) literature from around the globe (including the Caribbean, Canada, Ireland, Australasia, Africa or India), in which identification with a particular nation, colonial status or imperial power is problematic or no longer applicable. Topic may focus on a particular theme or event, genre, time frame, formal or stylistic trend, author or set of authors, issue, or problem. May be repeated as topic changes.

ENG 407. Advanced Studies in American Literature. 3 credits. Study of literature(s) of the United States and North America, from the Colonial Period through the 21st Century. May include writing in multiple genres: narrative prose, poetry, drama, nonfiction. Topics may be historically delimited or thematically organized; specific sections may focus on a group of authors, a literary movement, a historical moment, or a broad theoretical question. Course may be repeated as topic changes.

ENG 408. Advanced Studies in African-American Literature. 3 credits. Study of literature produced by African-Americans, from the Colonial Period through the 21st Century. May include writing in multiple genres: narrative prose, poetry, drama, nonfiction. Topics may be historically delimited or thematically organized; specific sections may focus on a group of authors, a literary movement, a historical moment or a broad theoretical question. Course may be repeated as topic changes.

ENG 410. Advanced Studies in Author. 3 credits. Study of the works of one (or two) British, American or Anglophone writers. May be repeated for credit when course content changes.

ENG 412. Special Topic Seminar. 3 credits. Study of a literary school, movement, genre or some other significant literary or linguistic topic. May be repeated for credit when course content changes; credit may not be earned in both ENG 412 and ENG 512 unless course content changes.

ENG 413. Advanced Studies in Literature and Ideas. 3 credits. Advanced study of the literary treatment of an organizing theme, which may be framed broadly as part of the human experience or within a tradition of studies in the humanities. Course content may include pertinent readings from other disciplines. Possible themes: love, death, nature, evil, the comic spirit. May be repeated as course topic changes.

ENG 414. Advanced Studies in Genre. 3 credits. Advanced study of works drawn from a specific literary or film genre or subgenre or a small, related set of subgenres. May be repeated as course topic changes.

ENG 415. Advanced Studies in Textuality and the History of the Book. 3 credits. Detailed literary, bibliographical, political and cultural analysis of the material features of texts as physical objects. Topics may include the relation between a book’s physical features and its intellectual contexts; the production, dissemination and receptions of texts; the history of manuscript, print and digital text technologies; the material history of reading and of literacy; and so forth. May be repeated as course topic changes.

ENG 417. Advanced Studies in Linguistics and the English Language. 3 credits. Advanced study of a particular topic in English linguistics or in English language studies. Course may focus on a particular subfield or linguistics, on particular linguistic theories, on an application of linguistic theory to literary studies or to other related fields, or on specific structural, historical, cultural, or other aspects of the English language. May be repeated as topic changes.

ENG 420. Advanced Studies in Theory and Cultural Studies. 3 credits. Advanced study of a topic or debate within contemporary critical theoretical
or cultural studies discourses in the humanities. Course may be repeated as topic changes.

ENG 423. Advanced Studies in Gender and Sexuality in Literature. 3 credits.
Advanced study of a topic using a gender and sexuality studies approach to literary texts. This course will explore how gender and sexuality and their representation in literature are shaped by social, cultural, historical and political contexts. Course may be repeated as topic changes.

ENG 430. Advanced Studies in Comparative Literature. 3 credits.
Comparative study of selected world literature. May be repeated as course topic changes.

ENG 431. Advanced Studies in Caribbean Literature. 3 credits.
Studies in the literary achievement of novelists, poets and dramatists of the Caribbean. May be repeated as course topic changes.

ENG 432. Advanced Studies in African Literature. 3 credits.
A study of selected works by African writers, focused by theme, geography or genre. May be repeated for credit when content varies.

ENG 433. Studies in Arabic Literature. 3 credits.
A study of Arabic writers. May be repeated for credit when content varies.

ENG/SPAN 434. Advanced Studies in Latin American Literature in Translation. 3 credits.
This course will study Latin American literature in translation. The course will focus on the work of major Spanish-American authors. May be repeated as course content changes.

ENG/FR 435. Studies in French Literature. 3 credits.
A study of selected works of French literature. Instruction is in English. May be repeated for credit when course content changes.

ENG/GER 436. Studies in German Literature. 3 credits.
A study of selected works of German literature. Instruction is in English. May be repeated for credit when course content changes.

ENG/ITAL 437. Studies in Italian Literature. 3 credits.
A study of selected works of Italian literature. Instruction is in English. May be repeated for credit when course content changes.

ENG/RUS 438. Studies in Russian Literature. 3 credits.
A study of selected works of Russian literature. Instruction is in English. May be repeated for credit when course content changes.

ENG/SPAN 439. Advanced Studies in Major Authors of Literature in Spanish in Translation. 3 credits.
This course will study the work of both Peninsular and Latin American authors in translation. The course will focus on major Spanish-speaking authors and their work, both in Latin America and in Spain. May be repeated as course content changes.

ENG/THEA 447. Advanced Playwriting. 3 credits.
An advanced workshop with emphasis on developing full-length dramatic material. Prerequisite: ENG/THEA 347.

ENG 450. The Open Studio: An Interdisciplinary Approach to Creative Arts. 3 credits.
Introduction to the interdisciplinary studio through discussion of the history of interdisciplinary art and exposure to contemporary examples from dance, theatre, music, creative writing, visual art, film and video. Emphasis on production of original work that evidences the use of another media or collaborative work by artists from different disciplines. Prerequisites: Permission of the instructor(s) and advanced skill level in one or more of the creative arts.

ENG 451. Chaucer. 3 credits.
The Canterbury Tales and other major works of Chaucer.

ENG 461. Milton. 3 credits.
Major prose and poetical works of John Milton with special emphasis on Paradise Lost.

ENG 463L. Film Adaptations. 3 credits.
The study of the process of adapting literature into feature films. Consideration is given to the original literary work, as well as to the changes undergone in its adaptation to film. (Taught in London). Prerequisites: SMAD 301; for non-majors: ENG 381 or admission to the cross disciplinary minor in creative writing; or permission of the instructor.

ENG/WMST 466. Advanced Studies in Women’s Literature. 3 credits.
Advanced study of women’s literary achievements in several cultural and historical contexts. May be focused by theme. May be repeated as course content varies. Prerequisite: ENG 369 or ENG 369.

ENG 483. Narrative Form. 3 credits.
The study, development and practice of narrative craft. Prerequisite: ENG 390 or permission of the instructor.

ENG 484. Poetic Craft and Creativity. 3 credits.
The study, development and practice of poetic craft. Prerequisite: ENG 392 or permission of the instructor.

ENG 490. Special Studies in English. 3 credits.
Independent study for students with high academic standing. Students may select work in (1) a literary type, period, or author; (2) imaginative writing; or (3) linguistics. Approval of department head required; may be repeated for credit when course content changes.

ENG 493. Advanced Creative Nonfiction. 3 credits.
An advanced workshop in the writing of creative non-fiction narrative, with emphasis on point of view, form and style. Prerequisite: ENG 391 or ENG 392 or ENG 393 or ENG 396 or permission of the instructor.

ENG 494. Advanced Poetry Writing. 3 credits.
An advanced workshop with emphasis on developing sound poetic form, voice and vision. Prerequisite: ENG 392 or permission of the instructor.

ENG 495. Advanced Fiction Writing. 3 credits.
An advanced workshop with emphasis on developing sound narrative prose form, style and vision. May be repeated for credit when course content changes. Prerequisite: ENG 393 or permission of the instructor.

ENG 499. Honors. 6 credits.
See catalog section “Graduation with Honors.”

Environment

Cross Disciplinary Studies

ENVT 200. Environmental Systems Theory. 3 credits.
Explores three aspects of understanding the environment. First, the kind of problem the environment is and the thinking strategies that will best yield insights and understanding. Second, how humans create and/or respond to environmental issues and crises. Third, examination of past environmental changes and how humans have been affected by and responded to those changes. Final synthesis explores what we can and cannot do practically to respond to future changes. Does not satisfy elective credit or count as credit for the environmental management or environmental studies minor for geology or earth science majors.

ENVT 400. Capstone Seminar in Environmental Problem Solving. 3 credits.
Integrates perspectives from three environment programs: environmental management, environmental science and environmental studies. The course is team taught using a case-study approach to environmental issues, emphasizing teamwork and student initiative. Topics vary. Prerequisites: Completion of 15 hours in declared environment minor or permission of the instructor. Students wishing to complete more than one of the environmental minors (environmental studies, environmental science, environmental management) may receive dual credit for ENVT 400.

Environmental Management

College of Integrated Science and Technology

ENVM 480. Selected Topics in Environmental Management. 1-4 credits.
Topics in environmental management which are of interest to the upper-division student but not otherwise covered in the regular course offerings. Offered only with the approval of the director. May be repeated for credit when course content changes. Students should consult the instructor prior to enrolling. Prerequisite: Junior or senior standing in environmental management program. Topic selected may dictate additional prerequisites.

ENVM 490. Environmental Management Seminar. 2 credits.
A literature-based seminar in environmental management, this course emphasizes student investigation and research, presentation and discussion. Prerequisite: Senior standing in environmental management program.

ENVM 491, 492. Senior Thesis/Project I and II. 3 credits each.
In this two-course sequence, the student performs an independent research and/or engineering project to identify and analyze an environmental management problem and develop a practical solution. May be taken to satisfy the requirements set forth by the Honors program. Prerequisite: Senior standing in environmental management program.

http://www.jmu.edu/catalog/14
Exceptional Education

College of Education

EXED 200. Foundations of Exceptional Education. 3 credits.
This course is designed to support study of the historical perspectives, models, theories, philosophies, and trends that provide the basis for exceptional education practice. The status of persons with exceptional learning needs (ELNs), legislative and judicial mandates and current regulation related to individuals with ELNs, and the ‘Rights and responsibilities’ of various stakeholders as they relate to exceptionality will be stressed. The role of culture, environment, family and exceptionality will be explored.

EXED 202. Field Experiences in Special Education. 3 credits.
Provides students with supervised experiences with persons with disabilities. Placement are made in various settings including schools, institutions and recreational programs. Prerequisite: EXED 200 and permission of the instructor.

EXED 300. Educational Technology for Students with Disabilities. 1 credit.
An introduction to instructional technology for persons with disabilities. The role of assistive technology in the educational process is investigated. Students are exposed to a variety of instructional programs and equipment. Federal and state guidelines, interdisciplinary team functioning, and program, as well as equipment selection, are addressed. Prerequisite: Teaching and non-teaching minors only.

EXED 302. Mentoring Children and Youth with Mild Disabilities. 2 credits.
The course will provide students with the knowledge and skills to engage in mentoring of children and youth with learning disabilities and attentional disorders. Students will focus on increasing their understanding of self-awareness related to living with a disability, effective compensatory learning strategies and self-advocacy skills. Prerequisite: Because of the purpose of this course is to increase self-awareness and mentoring skills related to understanding disabilities, it is open only to students who are registered with the Office of Disability Services.

EXED 303. Foundations of Classroom and Behavior Management. 3 credits.
This course was designed to provide students with an understanding of and skill to apply classroom and behavior management techniques and interventions, including techniques that promote emotional well-being and teach and maintain behavioral conduct and skills consistent with norms, standards, and rules of the educational environment. Diverse approaches for classroom and behavior management based upon behavioral, cognitive, affective, social and ecological theory and practice will be learned. Students enrolled in SPE 1210, K12 teacher education only. Prerequisite: EXED 200.

EXED 306. Lifespan Issues for Individuals with Disabilities. 3 credits.
This course examines how issues such as legal mandates and policies, self-advocacy, family involvement, educational services, transition, and interagency collaboration impact individuals with disabilities and their families from birth through postsecondary life. The students will be challenged to compare and analyze needs and services available and accessed by individuals with disabilities. Prerequisite: For special education non-teaching minors and students in the chronic illness concentration.

EXED 310. Survey of Emotional Disturbance. 3 credits.
A detailed study of the characteristics, diagnosis, treatment, assessment and education of individuals with emotional/behavioral disorders. Medical, psychological, behavioral and environmental causes are presented as well as therapeutic interventions, educational resources and instructional strategies. Prerequisite: EXED 200 and non-teaching minors only.

EXED 312. Field Experience in Special Education and Diversity. 1 credit.
Students devote 30 clock hours to activities in school and non-school settings that emphasize diversity of individuals and families. Prerequisite: Teaching and non-teaching minors only; Corequisite: EDUC 310.

EXED 320. Survey of Learning Disabilities. 3 credits.
A detailed study of the theories, characteristics, etiology and needs of individuals with learning disabilities including ADHD. Focus will be on causation and terminology as well as historical perspectives and current trends related to practices in identification and treatment of learning disabilities. Prerequisite: EXED 200 and non-teaching minors only.

EXED 330. Survey of Intellectual Disabilities. 3 credits.
A detailed study of the characteristics, diagnosis, treatment, and education of individuals with intellectual disabilities. Medical aspects and implications for support needs are addressed as well as educational settings, resources, and instructional techniques designed to facilitate integration for individuals with intellectual disabilities. Prerequisite: EXED 200 and non-teaching minors only.

EXED 341. Characteristics of Learners with Disabilities Accessing the General Curriculum. 4 credits.
This course was designed to cover definitions, characteristics, and legal and medical aspects of children and youth with disabilities relative to age, level of severity, and developmental manifestations. Family, cultural, socioeconomic, environment and developmental issues related to the education of persons with disabilities will be explored. Knowledge of developmental, learning and behavioral supports, as well as ethical issues and standards of professional behavior will be emphasized. Prerequisites: PSYC160 and EXED 200. Corequisites: EXED 376, MAED 430 and READ 430.

EXED 375. Overview Study of Autism Spectrum Disorders. 3 credits.
This course is designed to provide an overview of the current issues involved working with children who have been identified as having an autism spectrum disorder. Areas addressed will include learning characteristics, current research and factors involved with causation, assessment and diagnosis. We will discuss positive behavioral supports; social skills development; sensory processing, motor planning and sensory integration; and communication and language development. We will review current research related to the evaluation, planning, instruction and supports for students with a disability on the autism spectrum. A range of institutional methodologies and techniques will be emphasized throughout the course. Students cannot earn credit for both EXED 416 and EXED 375.

EXED 376. Initial Practicum for Special Education Pre-Professional Preparation. 1 credit.
This course is a practicum experience that will provide an opportunity to observe the teaching and learning of general curriculum in mathematics and reading. Students will have the opportunity to practice, one-on-one, some of the instructional and management techniques presented in EXED 303, MAED 430 and READ 430 as well as reflect on the implications for persons with exceptional learning needs as covered in EXED 200 and SPED 341. Prerequisites: EXED 200 and EXED 303. Corequisites: MAED 430, READ 430 and EXED 341.

EXED 401. Issues in Exceptional Education. 1-3 credits.
Considers current problems and issues in special education as they relate to the professional education of teachers. EXED Teaching and non-teaching minors only with permission of the instructor.

EXED 403. Models of Service Delivery for Exceptional Learners. 2 credits.
This course was designed to provide an overview of the structure and organization of general education classrooms and other instructional settings representing the continuum of educational and support services for learners who are gifted/talented, second language speakers and/or have disabilities. Students will also learn about the various federal and community resources available to support the learning of individuals with exceptional learning needs. Prerequisites: EDUC 300 and EXED 200.

EXED 416. Overview and Assessment of Autism Disorders. 3 credits.
This course is designed to provide an overview of the current issues involving working with children who have been identified as having an autism spectrum disorder. Areas covered in-depth will include learning characteristics, current research and factors involved with causation, assessment and diagnosis. We will discuss positive behavioral supports; social skills development; sensory processing, motor planning and sensory integration; and communication and language development as these will be covered in much greater depth in other courses. A range of institutional methodologies and techniques will be emphasized throughout the course.

EXED 417. Communication, Language and Sensory Issues of Autism. 3 credits.
This course is designed to provide an in-depth study of the current issues involved in working with children who have been identified as having an autism spectrum disorder. We will discuss only briefly learning characteristics, current research and factors involved with causation, assessment and diagnosis, and positive behavioral supports to set the stage. The bulk of our time will be spent exploring social skills development; sensory processing, motor planning and sensory integration; and communication and language development. We will consider a range of institutional methodologies and techniques for providing instruction, support and generalization of skills in these areas. Prerequisite: EXED 416.

This course is designed to provide an in-depth look at the behavioral challenges those with a disability in the autism spectrum might face and display. Areas addressed will include behavioral characteristics, current research and factors related to behavioral challenges in this population, positive behavioral supports, Functional Behavioral Plan Development, implementation and monitoring.

http://www.jmu.edu/catalog/14
We will cover data collection in relation to assessment and monitoring behaviors. We will review social skills development; sensory processing, motor planning and sensory integration; and communication and language development as these are covered in much greater depth in other courses. A range of institutional methodologies and techniques will be emphasized throughout the course. Prerequisites: EXED 416 and EXED 417.

EXED 420. Developing and Managing the Special Education Instructional Program. 1 credit.
This course explores the practical skills and strategies needed to develop and implement programming for K-12 special education students. Skills will be applicable in consultative, self-contained, resource and integrated settings.

EXED 430. Practicum in General Education Methods. 2 credits.
This practicum provides instruction in the development, use and application of the Braille literacy code and its implications for educational/literacy programs for students with visual disabilities. Students will develop the skills to read and write contracted and uncontracted Braille, while acquiring instructional methodologies for teaching children who are blind to read and write. Sources of Braille materials for educational purposes are identified. This course is delivered via a distance education format. Prerequisite or corequisite: EXED 435.

EXED 432. Braille Code. 3 credits.
This course provides instruction in the development, use and application of the Braille literacy code and its implications for educational/literacy programs for students with visual disabilities. Students will develop the skills to read and write contracted and uncontracted Braille, while acquiring instructional methodologies for teaching children who are blind to read and write. Sources of Braille materials for educational purposes are identified. This course is delivered via a distance education format. Prerequisite or corequisite: EXED 435.

EXED 433. Orientation and Mobility for Students with Visual Impairments. 2 credits.
This course provides the foundation for understanding the components and essence of orientation and mobility. It establishes how the need for independent travel by individuals with visual impairments created the field of Orientation and Mobility; explores the philosophy and history of orientation and mobility including cane instruction, dog guides and methods of travel; and addresses techniques in developing orientation skills and basic mobility instruction. Motor and concept skill development are emphasized. This course is delivered via a distance education format. Prerequisite or corequisite: EXED 435.

EXED 434. Curriculum and Assessment for Students with Visual Impairments. 3 credits.
This course provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Students practice assessing and planning educational programs for students with visual impairments. Also covered in this course are assessment technology for students with visual impairments; determination of learning needs and appropriate learning media; and the relationship of assessment, IEP development, and placement. This course is delivered via a distance education format. Prerequisite or corequisite: EXED 435.

EXED 435. Characteristics of Students with Visual Impairments. 1 credit.
This course provides an overview of the characteristics of and services to persons with visual impairments, including the impact of visual impairments on infants’ and children’s growth and development, child and adolescent emotional and social development, and family interaction patterns. It considers the educational, conceptual, psycho-social and physical implications of a visual impairment. This course is delivered via a distance education format.

EXED 440. Classroom Management and Professional Collaboration. 3 credits.
A focus on techniques used to manage the behavior of students. Emphasized are strategies used to prevent inappropriate behavior from occurring and/or worsening. Other interventions are taught such as techniques for working with others (e.g., parents, teachers, administrators) who may provide behavior management assistance to teachers and administrators.

EXED 441. Functional Applications of Low Tech Assistive Technology. 2 credits.
This course will focus on functional applications of low-technology solutions within the areas of self-care; mobility and transfer; communication; stability and support; sports, recreation, and leisure; and academic and work environments. The course will include exploration and opportunities to design and create low-tech devices for children and adults. Prerequisite: EXED 430.

EXED 442. Computer Technology and Individuals with Disabilities. 3 credits.
This course is designed to increase students’ awareness and understanding of computer technology and its implications for individuals with disabilities. It will examine the accessibility of standard computer hardware and software as well as explore available assistive technologies designed to enhance computer accessibility and the function of individuals with disabilities. Laboratory and demonstration experiences will enable students to better utilize devices and software in a variety of settings. Prerequisite: EXED 300, EXED 441 or permission of the instructor.

EXED 443. Assistive Technology Use for Individuals with Disabilities. 2 credits.
This course is designed to enhance students’ awareness and understanding of the range of assistive technologies available and their instructional implications for individuals with disabilities. Laboratory and demonstration experiences will enable students to select and utilize devices and software in settings serving individuals with disabilities. Prerequisite: EXED 300.

EXED 450. Principles of Specialized Reading Instruction. 3 credits.
This course will focus on the acquisition and development of reading skills for students with disabilities. Content includes: characteristics of students with reading disabilities; informal assessment strategies; relationship of oral language to reading; stage-development of reading skills; research-based instructional methods; principles of specialized reading instruction; scientifically-based reading programs for students with disabilities; and collaboration to support reading development. Prerequisite: READ 430. Corequisite: EXED 476.

EXED 455. Collaborative Teaching for Learners with Disabilities. 3 credits.
Students in this course will gain knowledge and practice skills in consultation, case management, and collaboration with individuals, families, educators, related service providers, and other professionals. An overview of collaborative processes, collaborative models for supporting the education of students with disabilities and for effective management of paraprofessionals will be studied. Prerequisite: EXED 200 and special education non-teaching minors only.

EXED 460. Differentiation of Instruction and Academic Collaboration. 3 credits.
This course assists preservice teachers in using their understanding of exceptional learners and learning to accommodate the diversity of students in the general education classroom. In addition, preservice teachers will explore the roles of teachers and how general and special education teachers collaborate to meet the needs of exceptional students. Teaching education students only.

EXED 465. Perspectives of Early Childhood Special Education. 3 credits.
This course is designed to provide the student with an overview of educational programming and service delivery for children with developmental delays and/ or disabilities, ages 0 to 5. Particular attention is given to federal legislation, historical perspective and current recommended practice in programming educational services for young children with delays and/or disabilities.

EXED 474. Assessment and Evaluation for Management of Instruction and Behavior. 4 credits.
This course was designed to provide study and application of the foundations of assessment and evaluation related to management of instruction and behavior of individuals with ELNs. The course emphasizes issues and skills in selection, administration, interpretation and use of a variety of tools and techniques in all stages of the decision making process for instruction and behavior management. Application of this new knowledge and skill will be through case-studies and direct assessment. Prerequisites: EXED 200, EXED 341, PSYC 276. Corequisite: EXED 476.

EXED 475. Building Instructional Programs and Plans for Learners with Disabilities. 3 credits.
Designed for exploration of practical skills and strategies in development and use of programming to meet the academic and behavioral needs of students with disabilities accessing the K-12 general curriculum. Skills will be applicable in a variety of settings and service delivery models. Includes purposes and procedures involved in the development of IEPs and the selection or design of OSA to plan and evaluate instruction in academic, social behaviors, and life skills. Prerequisites: EXED 200 and EXED 341.

http://www.jmu.edu/catalog/14
EXED 476. Practicum in Assessment and Instructional Planning. 2 credits.
This practicum is designed to provide a structured supervised experience assessing learning, planning and delivery of instruction to students with disabilities accessing the general education curriculum, and gathering data to make decisions about the effectiveness of instruction. Application of skills in planning direct instruction, creating instructional materials, collecting performance data, managing behavior and developing social skills will be emphasized. Prerequisites: EXED 303, EXED 341, READ 430, MAED 430.
EXED 484. Instructional Methods for Learners with Disabilities. 3 credits.
This course is designed to teach specialized methods for teaching academic skills to individuals with disabilities accessing the K-12 general curriculum. Emphasis is on evidence based instructional approaches that are effective for persons with disabilities. Focus is on specific remedial methods for reading, math, and writing appropriate for the cognitive level of the learner and parallel to the supports and scaffolds used in the general curriculum. Prerequisite: EXED 474. Corequisite: EXED 486.
EXED 485. Systematic Behavioral Support and Interventions. 3 credits.
Designed for application and evaluation of group management techniques and individual interventions that teach and maintain emotional, behavioral and social skills. Systematic behavioral interventions to support the behavior and learning of individuals with disabilities accessing the general education curriculum (positive behavioral supports, functional assessments of behavior, teaching social skills) are studied. Data collection procedures to inform practice are examined. Prerequisites: EXED 303 or EXED 440, EXED 341.
EXED 486. Supervised Clinical Practice with Methods and Individualized Behavior Support. 3 credits.
This practicum provides a structured supervised experience in selecting and using specialized methods for teaching academic skills, group management techniques and individual interventions that teach and maintain emotional, behavioral and social skills instruction to students with disabilities, and gathering data to make decisions about the effectiveness of intervention. Students will also have the opportunity to refine knowledge and skill application from previous program work. Prerequisites: EXED 303 or EXED 440, EXED 341, EXED 474. Corequisites: EXED 484.
EXED 490. Special Studies in Special Education. 1-3 credits each semester.
Designed to allow the student to complete independent study under faculty supervision. Prerequisite: Permission of the department head. EXED 499. Honors. 6 credits.
See catalog section "Graduation with Honors."

Family Studies
Department of Social Work
FAM 133. The Contemporary Family. 3 credits.
Concepts of variations in forms and lifestyles of families. Consideration is given to the family life cycle and the interdependency between the family and society.
FAM 300. Child Development. 3 credits.
A study of the factors influencing the physical, cognitive, social, and emotional growth of the young child. Emphasis is given to the importance of family relations and development of observational skills. Prerequisite: GFSYC 101, GFSYC 160 or equivalent.
FAM 335. Parent-Child Relationships Across the Lifespan. 3 credits.
Focuses on intergenerational caregiving and interactions across the lifespan and generations. Uses a developmental framework to explore family life as the territory in which people fulfill relational responsibilities to children and parents while simultaneously attending to independent life stage challenges. Prerequisite: FAM 133 or SOCI 276.
FAM/GERN/NPS/SOWK 375. Grant Writing for Agencies. 3 credits.
Emphasizing active learning, this course teaches the basics of grant and proposal writing. Efficient research, persuasive prose and the importance of relationships are stressed. Private and corporate philanthropy and government grants are examined.
FAM/SOWK 386. Youth Empowerment Strategies (YES). 3 credits.
Students learn to use group activities that include the creative arts, low ropes and self-discovery in youth empowerment. The goal is to help youth build life skills and make informed decisions. Prior to beginning work with youth, students complete 25 hours of training.
FAM 490. Issues and Applications. 3 credits.
This seminar is designed to integrate and apply knowledge from the student’s major and the family issues minor. A substantial, in-depth Individualized project will strengthen the student’s capabilities in research, information access and self-directed learning. Prerequisites: FAM 133 or SOCI 276, three additional courses in the family studies minor, and junior or senior standing.
FAM 487. Special Topics in Family Studies. 3 credits.
Examination of selected topics that are of current importance to family studies. Course may be repeated for credit. Prerequisite: FAM 133 or SOCI 276.
FAM 490. Special Studies in Family Studies. 1-3 credits.
The course is designed to give capable students in family studies an opportunity to complete independent study under faculty supervision. Course may be repeated for credit. Prerequisites: FAM 133 or SOCI 276 and two additional courses in the family studies minor or permission of the instructor.

Finance
College of Business
FIN 210. Principles of Real Estate. 3 credits.
Emphasizes industry principles and economic factors influencing the real estate business. Subjects include contracts, deeds, valuation, financing and subdivision development.
FIN 250. Introduction to Quantitative Finance. 3 credits. Spring only.
The purpose of this course is to provide a broad introduction to the markets and instruments of engineered finance. The focus of the course is to expose students to the properties and uses of the array of non-traditional financial instruments that are increasingly trading in both the exchange and over-the-counter markets. Prerequisite: Minimum grade of “C” in MATH 239, MATH 238, ECON 201 and ECON 200.
FIN 201. Principles of Finance. 3 credits.
The purpose of this course is to provide a foundation in the principles and tools of finance, which include financial analysis, the time value of money, capital budgeting and capital structure. Open to students with a B.S. or B.A. economics major with a concentration in finance as well as students majoring in health sciences. Open to students as a repeat/forgive for COB 300. Prerequisites: Junior standing and COB 241.
FIN 302. Spreadsheet Skills in Finance. 1 credit.
The purpose of this course is to offer experience with the spreadsheet applications in finance, including financial functions, statistical functions, reference functions, ActiveX, PivotTables and macros. Prerequisite: Minimum grade of “C” in COB 300 and FIN 360. Open only to finance majors.
FIN/ECON 325. Money and Banking. 3 credits.
The purpose of this course is to examine the economic role of money, banking, and monetary policy in relation to current institutional settings and under alternative theories explaining the interrelationships between money, the financial system and economic activity. Prerequisites: ECON 201 and ECON 200.
FIN/MATH 328. Time Series Analysis. 3 credits.
The purpose of this course is to build a foundation of theoretical concepts and analytical techniques to aid management decisions on financial problems. Topics include: working capital and fixed asset management for profit expansion. Not recommended for students seeking admission to MBA programs. Prerequisites: COB 244, junior standing (60 hours) and a cumulative 2.0 grade point average in all courses taken at JMU. Restricted to non-college of business majors.
FIN 395. International Financial Management. 3 credits.
The purpose of this course is to provide a comprehensive examination of the investing and financing decisions of a multinational business entity. Particular emphasis is on global financial markets and instruments, exchange-rate risk management, short-term and long-term financing for multinational firms, and asset-liability management in an international environment. Prerequisite: COB 300. Open to international business majors only.
FIN 380. Analytical Methods in Finance. 3 credits.
The purpose of this course is to introduce the finance major to quantitative methods in finance as applied to financial instruments and capital markets. Emphasis is placed in the theoretical determination of asset prices, risk
and return, as well as the estimation and analysis and asset prices. Prerequisite or corequisite: COB 300B or FIN 301. Not permitted for quantitative finance majors.

FIN 362. Financial Analysis. 3 credits.
The purpose of this course is to prepare the finance major to use and interpret economic and accounting information that is essential in financial analysis and valuation. Prerequisite: Minimum grade of "C" in COB 300B and FIN 360, and minimum grade of "B" in COB 241 and COB 242.

The purpose of this course is to provide an in-depth study of the theories of capital structure, long-term financing decisions, working capital management and current topics such as mergers and bankruptcy. Computer applications. Prerequisite: Minimum grade of "C" in COB 300B and "C" in FIN 360 (finance majors); minimum grade of "C" in FIN 250 (quantitative finance majors).

FIN 370. Real Estate Finance. 3 credits.
The purpose of this course is to offer a comprehensive examination of the decision-making processes involved in purchasing and financing real assets. The focus is on the cost of funds and optimal financial structure of complex real estate projects. Prerequisite: Minimum grade of "C" in COB 300B and FIN 360.

FIN 371. Principles of Investments. 3 credits.
The purpose of this course is to provide an investor's view of the operation of the capital markets. This course covers the theories and practice of investments, including analysis of financial instruments and real assets and their effective combination into portfolios. Prerequisite: Minimum grade of "C" in COB 300B and "C" in FIN 360 (finance majors); minimum grade of "C" in FIN 250 (quantitative finance majors).

FIN/ECON 372. International Finance and Payments. 3 credits.
Examines international financial markets, institutions and instruments; determination of spot and forward exchange rates, interest arbitrage, hedging and speculation; and alternative policies for achieving equilibrium in international payments. Prerequisites: ECON 201 and ECON 202.

FIN 375. Madison Investment Fund Management. 3 credits.
The course is an accelerated introduction to the investment environment with a focus on fundamental analysis of stocks, overlay strategies to enhance portfolio performance and familiarization with the trading and pricing of the wide variety of instruments in the modern financial marketplace. The course is limited to members of the Madison Investment Fund. Prerequisite: FIN 371 and department head permission with membership in the Madison Investment Fund.

FIN 378. Fixed Income Analysis. 3 credits.
The purpose of this course is to examine the market for and the price/yield determinants of various fixed income securities including Treasury debt, corporate bonds, agency debt, municipal bonds, and mortgage and asset-backed securities. Topics include securitization, the term structure of interest rates, and portfolio management strategies such as duration, convexity and immunization. Prerequisite: FIN 371.

FIN 380. Elemental and Derivative Securities Analysis. 3 credits.
The purpose of this course is to undertake an in-depth examination of the broad array of financial instruments traded in contemporary financial markets that are available for financing, investing, and managing financial price risk. Prerequisite: Minimum grade of "C" in COB 300B and "C" in FIN 360 (finance majors); minimum grade of "C" in FIN 250 (quantitative finance and B.S. and B.A. economics majors).

FIN/MATH 395. Mathematical Finance. 3 credits. Spring only.
The purpose of this course is to present an overview of the role of mathematical concepts in financial applications. Topics include continuous time finance, optimization, numerical analysis, and applications in asset pricing. Prerequisites: MATH 237 and FIN 380.

FIN/MATH 405. Securities Pricing. 3 credits. Fall only.
The purpose of this course is to present a quantitative treatment of the theory and method of financial securities pricing to include an examination of closed-form pricing models such as the Black-Scholes and its various derivatives as well as numerical solution techniques such as binomial methods. Prerequisite: FIN/MATH 395.

FIN 416. Seminar in Real Estate Investment and Development. 3 credits.
The purpose of this course is to provide an investigation of the investment process in real assets with emphasis on investment profitability. The real estate investment cycle is examined in detail to determine the sources of cash flow to the equity investor and how those cash flows may be maximized. Prerequisite: FIN 370.

FIN 450. Financial Risk Management. 3 credits.
The purpose of this course is to explore forward contracts, futures, swaps, and options, which are the basic building blocks for creating financial risk management programs for companies subject to financial risks such as changes in exchange rates, commodity price fluctuations and changes in interest rates. Prerequisites: FIN 371 and a minimum grade of "B" in FIN 360.

FIN 451. Risk Management II. 3 credits.
The purpose of this course is to present an intermediate treatment of the theory and applications of market, credit, liquidity and operational risk management. It builds upon concepts introduced in previous course work to present the theoretical constructs underlying risk management, as well as the quantitative skills required for risk analysis and the implementation of risk management techniques. Prerequisite: A minimum grade of "B" in FIN 450.

FIN 455. Advanced International Financial Management. 3 credits.
The purpose of this course is to focus on the analysis of major international financial management issues and risk faced by businesses operating in global markets. The emphasis is on the management of foreign exchange transactions, operating and translation exposures by multinational corporations, the functions of various currency hedging instruments, and the application of international funding and investment techniques. Prerequisite: Minimum grade of "C" in COB 300B and FIN 360.

FIN 460. Commercial Banking. 3 credits.
The purpose of this course is to study the objectives, functions, policies, organizational practices and government regulations of commercial banks. An intensive study is undertaken of the asset and liability structure of commercial banks. Special emphasis is placed on how banks are adapting to the changes in their operating and regulatory environments. Prerequisite: Minimum grade of "C" in COB 300B and FIN 360.

FIN/MATH 465. Seminar in Actuarial Science I. 3 credits.
The course covers the theory and application of contingency mathematics in the areas of life and health insurance and annuities from both a probabilistic and deterministic approach. Together with FIN/MATH 466, the two-course sequence helps to prepare the student for the professional actuarial examinations. Prerequisite: FIN/MATH 395 or consent of instructor. Prerequisite or corequisite: MATH 426.

FIN/MATH 466. Seminar in Actuarial Science II. 3 credits.
A continuation of FIN/MATH 465 with additional coverage of contingency mathematics in the areas of life and health insurance, annuities, pensions and risk theory from both a probabilistic and deterministic approach. The two-course sequence helps to prepare the student for the professional actuarial examination. Prerequisite: FIN/MATH 465. Prerequisite or corequisite: MATH 427.

FIN 471. Advanced Topics in Investments. 3 credits.
The purpose of this course is to cover the application of investment concepts within a case format. The course focuses on investment management, bringing together economics, capital markets and valuation to form a basis for decision making in financial asset selection, risk/reward analysis, portfolio selection and formation. Prerequisite: FIN 371.

FIN 475. Financial Modeling and Risk Analysis. 3 credits.
The purpose of this course is to introduce students to practical methods used to identify, quantify, predict, value, diversify, and manage risk in the financial environment. Students use sensitivity analysis, Monte Carlo and Latin Hypercube simulations, bootstrapping, time series forecasting and dynamic optimization techniques as applied to capital budgeting and structure, pro forma financial statements, multi-objective portfolio allocation, discounted cash flow analysis and real options. Prerequisites: FIN 385 and FIN 371.

FIN 480. Seminar in Financial Engineering. 3 credits. Spring only.
The purpose of this course is to explore financial engineering which is the process of adapting existing financial instruments and developing new ones to meet the needs of participants in domestic and international financial markets. This process is taught within a case and project format in order to simulate actual market participation as closely as possible. Prerequisite: FIN/MATH 405.

FIN 488. Advanced Financial Policy. 3 credits.
The purpose of this course is to examine the financing of business enterprises and the financial condition of existing firms using a case format. The objective of this examination is to elicit a policy decision which effectively addresses the issues identified in the case. Prerequisites: 12 hours of FIN courses, including FIN 380 and FIN 365 and completion of 105 hours. Open only to graduating finance majors.

http://www.jmu.edu/catalog/14
FIN 490. Special Studies in Finance. 1-3 credits. 
Designed to give capable students in finance an opportunity to complete independent study under faculty supervision. Admission by recommendation of the instructor and permission of the director. Forms may be obtained in the department office before registration.

FIN 498. Special Topics in Finance. 3 credits. 
The purpose of this course is to provide an opportunity for students to explore areas of current topical interest or to exploit special situations.
Course content will vary. For current course content, consult your adviser or the department head. Prerequisite: FIN 250 or FIN 360; additional prerequisites may vary with the specific offering.

FIN 499. Honors. 6 credits. 
See catalog section “Graduation with Honors.” Credits will not count toward the finance major.

Foreign Language

Department of Foreign Languages, Literatures and Cultures

FL 267. The Literature of Opera in Translation. 3 credits. 
A survey of the literature of opera from the 17th century to the present. All lectures and readings are in English.
FL 309. **Civilization: Travel-Study. 1-3 credits.** 
A directed program of travel-study designed to augment a student's knowledge of a particular civilization. Arrangements must be made with the faculty member designated by department head. Permission of the department head is required prior to enrollment in the program.
FL 446. **Special Topics in Foreign Literature. 3 credits.** 
Study of a particular topic in literature. May be taught in English or in the language but cannot be counted for major, minor or licensure unless taught in the language. Course may be repeated if content varies. Prerequisite: Permission of the instructor.
FL 447. Special Topics in Civilization and Culture. 3 credits. 
Students will study a particular topic in the civilization and/or culture of a specific country in the world. Course may be repeated. Prerequisite: Permission of the instructor.
FL 490. **Special Studies in Foreign Languages. 1-4 credits each semester.** 
Allows superior students an opportunity to complete independent studies under faculty supervision. Work may be done in all languages offered in the department but may not replace course offerings. Prerequisite: Permission of the department head.
FL 499. Honors. 6 credits. **These courses are taught in the various languages offered by the department.**

The title of the course will designate the specific language studied.

Foreign Language Education

Department of Foreign Languages, Literatures and Cultures

FLED 470. Methods of Modern Foreign Language Teaching. 3 credits. 
Research findings about language teaching will be used to identify the most effective instructional strategies for teaching languages to students in grades preK-12. Emphasis will be on developing plans for employing the strategies and making appropriate instructional decisions based on instructional goals, the learner, and available resources. Corequisite: FLED 471. Prerequisites: Full admission to teacher education program; BPSYC 180 and EDUC 300.

FLED 471. Modern Foreign Language Field Experience. 3 credits. 
Provides practical classroom experience in elementary, middle and high school settings to middle and secondary foreign language students under the supervision of an in-service teacher and a clinical professor. Students engage in classroom activities that provide an opportunity for them to practice the strategies and concepts learned in the methods courses. Corequisite: FLED 470.

FLED 475. Supervised Student Teaching Experience. 12 credits. 
Participants will experience the full range of conditions and tasks expected of a teacher for students in grades 6-12. They will be expected to develop and demonstrate competencies in teaching with the supervision and support of experienced teachers. Students must register for two eight-week blocks during the same semester for a total of eight credits. Students will receive a grade of “C” for credit or “NC” for noncredit. Prerequisite: All required courses for licensure and approval for student teaching through the teacher education program.

French

Department of Foreign Languages, Literatures and Cultures

FR 101. Elementary French I. 3-4 credits. 
The fundamentals of French through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour's work a week in the language laboratory. If student has had two or more years of the language in high school he/she will not receive credit for the course.
FR 102. Elementary French II. 3-4 credits. 
The fundamentals of French through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour's work a week in the language laboratory. If student has had two or more years of the language in high school he/she will not receive credit for the course. Prerequisite: FR 101.
Reviews elementary French grammar, reading, writing, speaking and listening skills in French. One hour's work a week in the language laboratory. For students who have had no more than two or three years of French in high school or qualify through the placement exam. Prerequisite: Permission of the department head or placement exam score.
FR 111. Intensive French I. 6 credits. 
The fundamentals of French through intensive listening, speaking, reading and writing. The 4-week course is the equivalent of FR 101-102.
FR 212. Intensive French II. 6 credits. 
The fundamentals of French through intensive listening, speaking, reading and writing at the intermediate level. This four-week course is the equivalent of FR 231-232. Prerequisite: FR 102 or FR 111 or sufficient score on the Foreign Language Placement Exam.
A thorough review of first year grammar and vocabulary building. Conversation, composition and reading will be chosen to reach competency at the lower intermediate level French. Prerequisite: FR 102 or permission of the instructor.
A thorough review of grammar, vocabulary building, conversation, composition and reading at the advanced intermediate level. Prerequisite: FR 231 or permission of the instructor.
FR 266. French Literature in Translation. 3 credits. 
French literature, 1800 to the present. All lectures and readings are in English. Does not count toward a major, minor or licensure in French.
FR 300. Grammar and Communication. 3 credits. 
Intensive training in grammatical structures and their application to oral and written communication. Instruction in French. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisite: FR 212 or FR 232 or placement exam score.
FR 307. History of French Civilization. 3 credits. 
A study of the social, economic, political and artistic development of France from the Middle Ages to 1800. Instruction is in French. Prerequisite: FR 320.
FR 330. Contemporary French Civilization. 3 credits. 
A study of French life and culture with emphasis on France in the 20th century. Instruction is in French. Prerequisite: FR 320.
FR 315. French Phonetics. 3 credits. 
Intensive drill in French sounds and intonation patterns. Instruction is in French. Prerequisite: FR 300.
FR 320. French Oral and Written Communication. 3 credits. 
Intensive training in the use of modern, everyday French with emphasis on conversation and composition. Readings in French will provide a context for discussion and writing. Prerequisite: FR 300 or equivalent.
FR 330. Business French. 3 credits. 
A study of commercial and technical vocabulary and trade customs in conjunction with practice in the art of commercial communication including interviews, letter writing and simultaneous interpretation. Instruction in French. Prerequisite: FR 320.
FR 335. Introduction to French Literature. 3 credits. 
A study of the main literary schools from Classicism to the Nouveau Roman. Textual analysis of sample writings representative of the most important literary movements. Instruction is in French. Required for majors. Prerequisite: FR 320.
FR 338. A Survey of French Literature. 3 credits. 
339A: A thorough analysis of selected passages from important authors of the Middle Ages and the Renaissance. Prerequisite: FR 320.

http://www.jmu.edu/catalog/14
339B: A thorough analysis of selected passages from important authors of the 17th century. Prerequisite: FR 320.
339C: A thorough analysis of selected passages from important authors of the Age of Enlightenment. Instruction is in French. Prerequisite: FR 320.
FR 351. French/English Translation. 3 credits.
An intensive course in writing and translation from and into English and French. Contemporary topics taken from various fields. Comparative terminology. Prerequisite: FR 320.
FR 375. Business and Society in France. 3 credits.
This course explores the development of French society in the historical, political, and economic context. In this course several aspects will be investigated: agricultural, textile, fashion, wine industry, and motion picture, music, media industries, and import and export products. In addition, the this course will include the study of banking and financial institutions, health and education systems. Prerequisite: FR 320.
FR 400. Advanced Conversation. 3 credits.
Discussions deal with topics of current interest. Prerequisite: FR 320.
FR 405. Nineteenth-Century French Literature. 3 credits.
405A: French literature of the first half of the 19th century with special emphasis on the works of Hugo, Lamartine, Vigny and Musset. Prerequisite: FR 320.
405B: French literature of the second half of the 19th century with special emphasis on the works of Balzac, Stendhal, Flaubert and Zola. Instruction is in French. Prerequisite: FR 320.
FR 420. Advanced Genre Studies. 3 credits.
420A: A study of French theatre from the Middle Ages to the 20th century. Prerequisite: FR 320.
420B: A study of French poetry from the Middle Ages to the 20th century. Prerequisite: FR 320.
420C: A study of French narrative fiction from the Middle Ages to the 20th century. Instruction is in French. Prerequisite: FR 320.
FR 423. Twentieth-Century French Literature. 3 credits.
423A: A study of the works of major French writers of the first half of the 20th century. Prerequisite: FR 320.
423B: A study of contemporary French novels written since 1950 with the emphasis on current fiction. Instruction is in French. Prerequisite: FR 320.
FR/ENG 435. Studies in French Literature. 3 credits.
A study of selected works of French literature. Instruction is in English. May be repeated for credit when course content changes.
FR 446. Special Topics in French Literature. 3 credits.
Study of a particular topic in French literature. It may cover one or more genres of French literature. Course may be repeated if content varies. Prerequisite: FR 320.
FR 447. Special Topics in French Civilization and Culture. 3 credits.
Students will study a particular topic in the civilization and/or culture of Francophone countries. Course may be repeated if content varies. Prerequisite: FR 320.
FR 448. Special Topics in French Linguistics. 3 credits.
Students will study a particular topic of French linguistics. Topics could include an introduction to French sociolinguistics and psycholinguistics. Course may be repeated if content varies. Prerequisite: FR 320.
A study of French cinematography from 1930 to 1980. Emphasis given on the following directors: Renoir, Pagnol, Camé-Pérel, Cocteau, Vadim, Chabrol, Resnais, Godard, Rohmer, Lebokch, Truffaut and Malick. Instruction is in French. Counts as a culture course, not as a literature course. Prerequisite: FR 320.
FR 466. Contemporary French Cinema. 3 credits.
A study of French cinema from the 1990s until the present and its place in contemporary French culture. The course will focus on films dealing with specific moments or events in French history, as well as the evolution of the French film industry. Films to be analyzed in terms of their socio-political context and judged by their cultural perspective. Prerequisite: FR 320.

General Education

**College of Business**

**GBUS 190. Business Decision Making in Modern Society.** 3 credits.
This course introduces the concepts of basic technology literacy, information retrieval via electronic and hard copy, along with critical thinking skills. Basic business principles will be introduced to reinforce these concepts and their relationships. The course provides opportunity for applying the skills of oral and written communication to a variety of learning activities. Open to students who have not completed CBG 300.

http://www.jmu.edu/catalog/14
A one-semester introduction to the fundamentals, laws, and applications of chemistry. Examples relating to the health sciences are emphasized. Not available for major or minor credit in chemistry.

*CHEM 131. General Chemistry I. 3 credits.

The first of a two-course general chemistry sequence for science majors. It is designed to introduce students to basic chemical concepts including atomic structure, periodic properties of the elements, nomenclature, basic stoichiometry, theories related to reactivity and bonding, and the behavior of materials. Corequisites: CHEM 131L or CHEM 135L.

*CHEM 131L. General Chemistry Laboratory. 1 credit.

This laboratory course is designed to complement and supplement the CHEM 131 lecture. CHEM 131 lecture and laboratory portions must be taken concurrently. Chemistry majors are to take CHEM 135L and 136L.

GCOM 121. Fundamental Human Communication: Presentations. 3 credits.

Study of human communication as a process. Overview of the principles and practices of interpersonal, small group, and public communication. Emphasis on examining the role of self-concept, perception, culture, verbal and nonverbal dimensions in the communication process, using power and managing conflict, applying critical listening, practicing audience analysis within informative speech making. Public speaking required.

GCOM 122. Fundamental Human Communication: Individual Presentations. 3 credits.

Study of human communication as a process. Overview of the principles and practices of communication in small group and public communication contexts. Emphasis on examining the role of self-concept, perception, culture, verbal and nonverbal dimensions in the communication process, using power and managing conflict, applying critical listening, practicing audience analysis, and constructing informative and persuasive speeches. Public speaking required.

GCOM 123. Fundamental Human Communication: Group Presentations. 3 credits.

Study of human communication as a process. Overview of the principles and practices of communication in small group and public communication contexts. Emphasis on examining the role of self-concept, perception, culture, verbal and nonverbal dimensions in the communication process, using power and managing conflict, applying critical listening, practicing audience analysis, and constructing informative and persuasive group presentations. Public speaking required.

GECN 200. Introduction to Macroeconomics. 3 credits.

Behavior of systems at the national and international levels. Topics include the methodology of economics as a social science, supply and demand, definition and measurement of important macroeconomic variables, and theoretical models of growth, inflation, interest rates, unemployment, business cycles, stabilization policy, exchange rates and the balance of payments. Not open to students who are enrolled in or who have received credit for ECON 332.

GEN 221. Literature, Culture, Ideas. 3 credits.

This course will take a thematic approach to literature by examining multiple literary texts that engage with a common course theme concerned with the human experience. Themes address cultural, political, social, religious, or philosophical aspect ideas through literature. Specific topics will vary.

GEN 222. Genres(s). 3 credits.

An examination of representative works in a literary genre, in a set of related literary subgenres, or in both a literary genre and one or more closely connected genres in other humanities disciplines.

GEN 225. Survey of English Literature: From Beowulf to the 18th Century. 3 credits.

A general survey presented chronologically.

GEN 236. Survey of English Literature: 18th Century to Modern. 3 credits.

A general survey presented chronologically.

GEN 239. Studies in World Literature. 3 credits.

Introduction to masterpieces of world literature with emphasis on non-Western literature. (May be focused regionally or topically.)

GEN 247. Survey of American Literature: From the Beginning to the Civil War. 3 credits.

A general survey presented chronologically.

GEN 248. Survey of American Literature: From the Civil War to the Modern Period. 3 credits.

A general survey presented chronologically.

GEN 260. Survey of African-American Literature. 3 credits.

Survey of literature by African-American authors from the 18th century to the present.

GEGG 200. Geography: The Global Dimension. 3 credits.

This course promotes global understanding through the study of humans, their institutions and processes, and the resulting interactions between humans and the environment. The course will include the study of western and non-western peoples and their social, cultural, political and economic relationships.

GEOL 102. Environment: Earth (3, 2). 3 credits.

A study of geological processes causing global change and their impact on human thought. The relationship between some geological processes and life on the Earth is also considered. Not available for major or minor credit in geology. Students may not receive credit for both GEOL 102 and GSCI 102.

GEOL 110. Physical Geology (3, 2). 4 credits.

A systematic study of earth materials and the internal and external processes that affect earth structure and landforms. Topics include the genesis/properties of rocks and minerals, plate tectonics and the agents of change that drive surface processes and landform development.

GEOL 115. Earth Systems and Climate Change. 3 credits.

This course explores cycles, trends and abrupt events in the Earth system. Analyses of the geologic record and global climate models provide perspective for understanding paleoclimate and future climate changes, including global warming. Current hypotheses for causes of climate change are evaluated, including plate tectonics, orbital cyclicity, variations in the sun's strength and human activities. The two reoccurring questions of this class are: What are Earth's climate stories? How do we know?

An investment of a theoretical principle behind evolutionary systems of all types based on mathematical modeling in chaos, complexity theory and artificial life studies with extensive computer experimentation and examples drawn from physical, chemical, biological, economic and social systems. The purpose is to explore what is common and universal to all evolutionary processes.

*GEOL 210. Applied Physical Geology. 3 credits.

A problem-based study of earth materials and the processes that affect earth structure and landforms. Topics include plate tectonics, the genesis/properties of rocks and minerals, and agents of change that drive surface processes and landform development. Quantitative problem-solving skills will be applied to case studies that address 3D visualization and time-based processes, such as earth materials, solid earth and surface processes, natural hazards and engineering applications. Prerequisites: Either PHYS 140 or PHYS 240 or CHEM 131 or by permission of the instructor. Corequisites: MATH 205 or MATH 220 or MATH 235 or by permission of the instructor.

*GEOL 211. Introduction to Oceanography. 3 credits.

An introduction to the oceanography of coastal environments including barrier islands, estuaries and tidal marshes. The physical, geological and biochemical characteristics of coastal waters will be discussed in the context of the economic and social pressures brought to bear on these areas by an increasing global population.

http://www.jmu.edu/catalog/14
Course Descriptions 359

HIST 101. World History to 1500. 3 credits.
A survey of important historical developments from prehistoric times to 1500. Emphasis is given to the rise and decline of great world civilizations and their lasting contributions to humanity.

HIST 102. World History Since 1500. 3 credits.
A survey of important historical developments from 1500 to the present. Emphasis is given to the growth of nationalism, the development of colonialism, and to world events, problems, and conflicts of the present century.

HIST 150. Critical Issues in Recent Global History. 3 credits.
This course examines issues in recent history as a means to introduce, develop and enhance critical thinking skills and to supplement writing, oral communication, library and computing skills objectives for General Education Cluster One. A seminar format allows for careful examination of issues in both oral and written formats. The course emphasizes the development and articulation of well-reasoned arguments in organized and grammatically acceptable prose.

HIST 225. U.S. History. 4 credits.
A survey of U.S. history from the Colonial period to the present, emphasizing the development of American civic life, the involvement of the U.S. in world affairs and the cultural richness of the American people. This course stresses the analysis and interpretation of primary sources.

HUM 100. Personal Wellness. 3 credits.
Emphasizes lifestyle behaviors contributing to health promotion and disease prevention. General areas affecting health status are identified. Suggestions are made as to how health-related behaviors, self-care and individual decisions contribute to health and influence dimensions of wellness.

HUM 102. God, Meaning and Morality. 3 credits.
A study of the ways in which various communities perceive and understand the basis of knowledge, reality, meaning and purpose, ethics, and aesthetics. Students will explore religious and nonreligious approaches to these issues.

HUM 200. Great Works. 3 credits.
An intensive examination of great literary works that focus on key issues of knowledge and reality, meaning and purpose, ethics, and aesthetics. Discussion, analysis and intensive writing are required. Texts will vary by section and instructor.

HUM 250. Foundations of Western Culture. 3 credits.
This course is a study of the roots of our Western tradition in Greek, Roman, Medieval or Renaissance culture. Students examine the interrelationships among history and literary works; the fine arts; philosophical and religious thought and intellectual contexts. Content will vary depending on section and instructor.

HUM 251. Modern Perspectives. 3 credits.
An interdisciplinary study within the modern period of arts and humanities. Students will examine the interrelationships among history and the arts, philosophy, religion and the intellectual ideas of the time. Topics will vary by section.

HUM 252. Cross-Cultural Perspectives. 3 credits.
This course explores scientific and technical issues important to environmental and energy sustainability. Students study fundamental chemistry and physics and then apply this knowledge to better understand air quality, water quality, and conventional and alternative energy processes. The class also explores the societal impacts of our energy choices and the potential impact we as individuals can have through personal initiative.

This course integrates the study of biology, chemistry and statistics within the context of environmental issues that include ozone depletion, acid rain, global warming, waste management and biodiversity.

This course introduces current topics in the life science technologies through lecture and laboratory exercises. Topics include advances in genetic engineering, the hierarchy of life and the rise of infectious diseases.

ISAT 141. Analytical Methods. 4 credits.
This course introduces the student to science and the scientific method; introductory statistics and graphical data analysis, with emphasis on using the computer for managing data and for empirical modeling; functions for modeling real-world systems; critical thinking skills for analyzing arguments involving data; project management.

ISAT 151. Topics in Applied Calculus in ISAT. 4 credits.
This course introduces the concepts of differential and integral calculus and ordinary differential equations to model real-world applications in science, business, technology and economics. This course includes a computer laboratory component emphasizing modeling and numerical methods. Course assumes familiarity with algebra and trigonometry.

ISAT 160. Problem Solving Approaches in Science and Technology. 3 credits.
This course examines issues in modern science and technology as a means to introduce, develop and enhance critical thinking and problem solving skills. Current scientific and technological research and applications will be introduced to reinforce problem solving, instruction in systems thinking and critical inquiry. The course provides opportunities for using both oral and written communication in a variety of learning activities.

ISAT 251. Topics in Applied Statistics in ISAT. 3 credits.
This course introduces statistical thinking — the discipline and methods for collecting, analyzing, and interpreting data for making decisions, doing science, and understanding our world. Topics covered include an introduction to data analysis methods, probability and chance, statistical reasoning and inference, and experimental design. The course includes a laboratory component emphasizing hands-on analysis of data taken from a variety of applications in ISAT. Prerequisite: Sophomore standing or permission of the instructor.

ISAT 251. Topics in Applied Calculus in ISAT. 4 credits.
This course introduces the student to the concept and reality of justice in America. It is a broad-based, interdisciplinary consideration of justice: What it is, what it means, and how it intersects with society and social institutions in American. Philosophical and theoretical underpinnings of the notion of justice and the historical context of justice in American society will be considered.

KIN 100. Lifetime Fitness and Wellness (2, 2). 3 credits.
This course is designed to help students adopt and maintain the behaviors associated with an active and healthy lifestyle. Through this course students will learn the importance of maintaining wellness through a physically active lifestyle. Through lectures and labs, students study and develop the behavioral patterns consistent with the current knowledge base in fitness and wellness.

GMAD 150. Mediated Communication: Issues and Skills. 3 credits.
Study of how mediated communication shapes the content, meaning and impact of spoken, written and pictorial messages. Emphasis on the skills required to integrate speech, text and imagery into mediated presentations. Consideration of issues involving the critical evaluation of mass-mediated communication, their effectiveness and influence.

*MATH 103. The Nature of Mathematics. 3 credits.
Topics such as geometry, computing, algebra, number theory, history of mathematics, logic, probability, statistics, modeling and problem solving intended to give students insight into what mathematics is, what it attempts to accomplish and how mathematicians think.

*MATH 105. Quantitative Literacy and Reasoning. 3 credits. Offered fall and spring.
Applications and interpretation of numerical information in context. Selection and use of appropriate tools: scientific notation, percentages, descriptive summaries, absolute and relative changes, graphs, normal and exponential population models, and interpretations of bivariate models. Making informed decisions and effectively communicating them. Identifying limitations of information sources, assessing reasonableness of results, and basic concepts of confidence amid uncertainty. Not open to majors in mathematics or statistics.

MATH 107*–108. Fundamentals of Mathematics I-II. 3 credits each semester.
These courses, along with MATH 207, form a sequence that covers the topics of sets, logic, numeration systems, development of real numbers, number operations, number theory, geometry, measurement, algebra, functions, probability and data analysis. Sequence is required for early childhood, elementary, or middle school teacher licensure. Prerequisite for MATH 107: Prerequisite for MATH 107. MATH 155, MATH 156 or sufficient score on the Mathematics Placement Exam. Prerequisite for MATH 108: MATH 107.

http://www.jmu.edu/catalog/14
*MATH 220. Elementary Statistics. 3 credits.
Descriptive statistics, frequency distributions, sampling, estimation and testing of hypotheses, regression, correlation and an introduction to statistical analysis using computers. Prerequisite: MATH 105 or sufficient score on the Mathematics Placement Exam.

*MATH 231. Calculus with Functions I. 4 credits.
MATH 231 and MATH 232 form a sequence that combines first-semester calculus with algebra and trigonometry. The sequence is designed for students whose pre-calculus skills are not strong enough for MATH 235. Calculus material in MATH 231 includes limits and derivatives of algebraic functions and their applications. Prerequisite: MATH 155, MATH 158 or sufficient score on the Mathematics Placement Exam. NOTE: MATH 231-232 together are equivalent to MATH 236 for all prerequisites. Not open to students who have already earned credit in MATH 235.

*MATH 235. Calculus I. 4 credits.
Differential and integral calculus of functions of one variable. Sequences and infinite series. Prerequisite: Sufficient score on the Mathematics Placement Exam. MATH 235 is not open to students who have already earned credit in MATH 232.

GMUS 200. Music in General Culture. 3 credits.
Designed to increase the student's perceptual ability in listening to music and to encourage an interest in both familiar and unfamiliar music. Primary study will be on music from the classic, Western heritage. Folk, jazz, popular and non-Western music may also be considered.

GMUS 203. Music in America. 3 credits.
Knowledge and skills to increase the student's perceptual ability in music listening with a survey of American music; examining relationships between popular and classical music styles.

GMUS 206. Introduction to Global Music. 3 credits.
A survey of various world music traditions, including those of Asia, the Pacific, Europe, Africa and the Americas. The course will focus on aesthetics, musical forms and styles, and the relationship between music and other arts. Emphasis will be placed on historical, religious, and cultural events and their influence on the creation and development of music.

GPHIL 101. Introduction to Philosophy. 3 credits.
An introduction to the basic problems and concepts of philosophy – the nature of man and the self, ethics, theories of knowledge, philosophy of religion, etc., as revealed in the writings of the major philosophers.

GPHIL 120. Critical Thinking. 3 credits.
An introduction to the techniques for analyzing and evaluating information in everyday experience. The functions of language will be discussed. Techniques for judging the strengths of arguments and the probable truth of the arguments' premises will be examined. This course does not meet the philosophy requirement for the B.A. degree.

GPHIL 150. Ethical Reasoning. 3 credits.
An introduction to the principles and techniques of critical thinking in ethics, including analysis of arguments and fallacies, ethical theories, and applications of moral principles to moral issues. This course does not meet the philosophy requirement for the B.A. degree.

*PHYS 140. College Physics I. 3 credits.
The first semester of a non-calculus sequence in general physics. Topics include principles of mechanics, thermal properties of matter, wave motion and sound. A working knowledge of algebra and trigonometry is required.

*PHYS 140L. General Physics Laboratory. 1 credit.
This laboratory course is designed to complement and supplement the PHYS 140 and PHYS 240 lecture courses. Prerequisite or corequisite for PHYS 140L: PHYS 140 or PHYS 240.

Energy use, sources and trends; fossil fuels, heat-work conversions, thermodynamic restrictions and electric power production; nuclear fission reactors and fusion energy; solar energy and technologies; alternative energy sources; energy storage; energy conservation; issues of waste and safety. Environmental, social and economic aspects will be discussed. Not open to ISAT majors scheduled to take ISAT 212 as part of their degree requirements. Prerequisites: One college course in science and one in mathematics.

*PHYS 240. University Physics I. 3 credits.
Kinematics, dynamics, energy and momentum conservation, oscillatory motion, fluid mechanics and waves. Corequisite: MATH 232 or MATH 235.

GPOS 200. Global Politics. 3 credits.
An exploration of political, social and economic issues and structures existing within and between states in the contemporary global community. Students are introduced to alternative approaches to analyzing these issues in diverse cultures and political settings.

GPOS 225. U.S. Government. 4 credits.
An examination of institutions, processes and intellectual concepts which structure American political activity. The interaction of the political system with the changing American society and America's changing role in world affairs are also treated. The course provides an introduction to quantitative methodology.

GPSYC 101. General Psychology. 3 credits.
A study of the nervous system, sensation, perception, consciousness, learning, memory, language, intelligence, motivation, emotion, life span development, personality, psychopathology, psychotherapy, social psychology and the scientific method.

GPSYC 122. The Science of Vision and Audition. 3 credits.
A study of human interaction with light and sound waves. Topics include physiological and perceptual mechanisms for processing light and sound, along with connections to real-world applications (e.g., human factors and careers within vision science and audiology). Includes activities designed to provide students with in-depth, hands-on experience with course topics.

GPSYC 180. Life Span Human Development. 3 credits.
An introduction to human development. Emphasis is on life span processes within physical, emotional, cognitive, psychosexual, social, personality and moral development.

GREL 101. Religions of the World. 3 credits.
An investigation of the world's major religions which will give attention to their origin, history, mythology and doctrines.

GSCI 101. Physics, Chemistry and the Human Experience. 3 credits.
A survey of the fundamental concepts, principles and ideas of chemistry and physics. Particular emphasis is placed on understanding the development of the principles and their application in understanding the world around us. Prerequisite or corequisite: One of the following: MATH 103, MATH 107, MATH 205, MATH 220, MATH 231 or MATH 235.

GSCI 104. Scientific Perspectives. 1 credit.
A study of topics selected to allow students to participate in mathematical and scientific problem solving approaches to knowledge. Prerequisite or corequisite as indicated on MyMadison.

GSCI 121. The Physical Nature of Light and Sound (3, 1). 4 credits.
A study of the physical properties of light and sound waves. Topics include production, propagation and spectral analysis of waves. Applications to be covered include musical instruments, sound reproduction, room acoustics, optical instruments (cameras, projectors, lasers), and color in art and nature. The course will include outside-of-class experiential activities.

GSCI 161. Science Processes. 1 credit.
Observing, classifying, measuring, inferring, communicating, predicting and experimenting in all science disciplines. This course will introduce core science process skills for all science disciplines in a hands-on, integrated laboratory block.

GSCI 162. The Science of the Planets. 2 credits.
The course will focus on the Earth and its neighbors, including the formation, evolution and dynamics of the Solar System. Students will also explore the similarities and differences of different solar system bodies (stars, planets, asteroids, comets) and the possibilities for finding life elsewhere. Prerequisite: GSCI 161.

GSCI 163. The Matter of Matter. 1 credit.
This course will focus on the topic of matter: particle theory, forms, characteristics, properties, atomic theory and models, conservation of mass and energy, nuclear reactions, heat transfer within matter, chemical bonds and chemical structures.

GSCI 164. Physical Science: Learning Through Teaching. 2 credits.
A hands-on conversation on how technology, science and engineering come together to describe our world. The course will cover many of the traditional concepts presented in an introductory physics course. The course will treat coordinate systems and their use in describing motion, forces and energy conservation, thermodynamics (temperature, pressure, heat), light (color, ray model, wave model), waves (sound), magnetism, and electricity. The course will indirectly reinforce skills developed in other courses in the cluster including scientific tools (mathematics, graphing, diagramming, experimenting and analyzing data) and using informational resources. Corequisites: GSCI 163.
GSCI 165. The Way Life Works. 1 credit.
Patterns, energy, information, life’s machinery, feedback, community and evolution. These are major themes in how life works. This course will use these themes as a backdrop for looking at the way life works.

GSCI 166. Environment in Context. 2 credit.
This course will use environmental issues and topics as a unifying concept to introduce ecology, environmental chemistry and evolution. Topics such as resource utilization and conservation, air and water quality issues, ecological succession, community processes, biological diversity and evolution may be used to illustrate the concepts and to demonstrate the relationship between science and public policy.

GSCI 110. Social Issues in a Global Context. 3 credits.
This course introduces the discipline of sociology from a macrosociological perspective, emphasizing large-scale changes in social organization and institutions. We examine the global forces that shape societies, and the historical, political, social, cultural and economic origins of contemporary social problems. We consider competing theoretical models used in the study of social change as well as the conceptual and methodological challenges in analyzing societies different from one’s own.

GSCI 140. Microsociology: The Individual in Society. 3 credits.
This course introduces the discipline of sociology and the subfield of microsociology. We examine the mutually constitutive relationship between the individual and society. Questions addressed include: How does society influence how we think, feel, believe, act, and interact with others? What influences the self, social identity, shared social meanings, social roles, and one’s position in society? How do we, as individuals and as members of social groups, recreate, contest, and change society?

GTHEA 210. Introduction to Theatre. 3 credits.
Study of the theatre as an art form. Emphasis on introducing students to a broad spectrum of theatrical activity and opinion. Consideration of the components that comprise a theatre event including acting, directing, design, costume, lighting and playwriting.

GWRTC 103. Critical Reading and Writing. 3 credits.
Fosters reflective, critical reading, writing, and research in public discourse, culture, humanities, technology, and science. Challenges students to consider cross-disciplinary modes of inquiry through multiple genres with an attention to enlightened, global citizenship. Emphasizes revising for rhetorical effectiveness. GWRTC 103 fulfills the General Education Cluster One writing requirement and is a prerequisite for all WRTC courses numbered 200 or above.

Geographic Science

Department of Integrated Science and Technology

GEOG/HUMN 301. Introduction to Natural Disasters. 3 credits.
This course is designed to give students an overview of the various types of natural disasters, a look at the world regions that are most vulnerable to each type of disaster, and, a preview of disaster planning, management, relief and response as related to natural disasters.

GEOG 161. Geospatial Tools and Techniques. 1-6 credits, variable.
An introduction to the use of geospatial tools, such as geographic information systems (GIS), global positioning systems (GPS) and remote sensing, applied to a variety of areas, including cultural geography, environmental science, ecology, geology and public planning.

GEOG 200. Geography: The Global Dimension. 3 credits.
This course promotes global understanding through the study of humans, their institutions and processes, and the resulting interactions between humans and the environment. The course will include the study of Western and non-Western peoples and their social, cultural, political and economic relationships.

GEOG 210. Physical Geography (2, 2). 4 credits.
This introductory course is an examination of systems and processes that influence patterns of Earth’s atmosphere, biotic communities, soils and landforms at multiple spatial and temporal scales. Included are classroom and laboratory experiences that are geared toward investigating interrelationships among atmospheric conditions, Earth’s natural surface characteristics and human-induced modifications of Earth’s features.

GEOG 215. Cartography and GIS. 3 credits.
An introduction to cartography and geographic information systems (GIS). Basic concepts will be illustrated with examples from a variety of application areas including cultural geography, environmental science, land use and planning and business.

GEOG 216. Earth Observation and GPS. 3 credits.
An introduction to remote sensing, global positioning system (GPS) and computer fundamentals in Geographic Science. Basic concepts will be illustrated with practical applications, including hands-on work collecting data with GPS units and exploring remote sensing images from a variety of different instruments. Environmental applications will be featured.

GEOG 230. Spatial Thinking and Problem Solving. 3 credits.
Introduction to the critical thinking skills associated with problems with inherent spatial components. Identification of the spatial elements of a given problem, the data requirements for addressing that problem, collections/acquisitions and organization of data, and use of geographic information systems to explore spatial patterns relevant to the problem of interest. Prerequisites: GEOG 215 with a "C" or better, GEOG 216 with a "C" or better and an introductory course in statistics (GISAT 251 or equivalent) or permission of instructor.

GEOG 260. Selected Topics in Geography. 3 credits.
Exploration of geographic topics, tools or techniques of current interest. Can be repeated as course content changes.

GEOG 280. Human Geography: The Cultural Landscape. 3 credits.
The course themes are human culture, cultural variations over the face of the Earth and how these variations are related to selected global issues. Topics covered include world demographics, world religions and languages, patterns of human migration, political systems and human conflict, agricultural systems, and impact on the physical world.

GEOG 290. Human-Environment Interactions. 3 credits.
This course evaluates human-environment interactions from a holistic point of view. It incorporates geographic perspectives of these interactions, which include political, cultural, social, economic, and ethical factors that influence how people perceive, impact, and manage the natural world. The course will emphasize geographic theories of resource use, humans as part of the ecosystem, and human vulnerability to environmental changes. Prerequisites: GEOG 210 with a "C" or better and GEOG 280 with a "C" or better.

GEOG 300. Population Geography. 3 credits.
An introduction to population measurement, sources of population data and modern population problems. Topics include distribution, the changing age structure and migration issues affecting the U.S. At the global scale, topics include distribution, global migration patterns, the refugees crisis and prospects for feeding the rapidly increasing human population.

GEOG 305. History and Philosophy of Geography. 3 credits.
Topics from the classical period to the modern period include 20th century theories and paradigm shifts involving cultural geography, physical geography, human-environment traditions, regional geographies, and modeling. Diverse philosophies such as quantitative/positivist, qualitative/humanistic, social theory, and GIS are viewed for their contributions to the discipline of geography. Prerequisite: A grade of "C" or better in GEOG 210 and GEOG 280, and junior standing or permission of the instructor.

Courses cover environmental issues such as air pollution, forest and wildlife management, water, resource management, soils and land use, and energy and the environment (among other topics). Courses examine the interface between humans and environmental systems while addressing the impact of social, economic and political systems and activities on the environment. May be repeated as course content changes.

GEOG 311. Endangered Environments. 3 credits.
In this course an investigation is made of a selected number of environmental problem areas around the world. Some examples include the temperate rainforest of Valdivia, South America, the tropical rainforests of Borneo and the Aral Sea of Eastern Europe. In the course, students will explore physical aspects of each environment and explore human impact and potential solutions to the problems.

GEOG 315. Field Studies in Geography. 3 credits.
This course exposes students to the methods and techniques commonly used by geographers while conducting fieldwork. The course will cover identifying and defining a researchable project, designing and testing data collection methods, and different methods of collecting, recording and presenting data. Students will also become familiar with various types of field equipment.

http://www.jmu.edu/catalog/14
GEOG 320. Human Dimensions of Global Change. 3 credits.
This course addresses global change and human development. Conservation, sustainability and development are core themes that will be related to current changes occurring on a global scale. Global changes to be discussed in the course relate to the climate, biodiversity, natural resources, and human populations. Sustainability will be introduced as a dimension of human development. Prerequisite: GEOG 290 with a "C" or better or permission of instructor.

GEOG 322. The Geography of Human Genetics, Infectious Diseases and Diet. 3 credits.
Throughout history, infectious diseases have profoundly affected human populations. Using a case study approach, this course will give students an opportunity to investigate social and historical aspects of infectious disease as well as the microbiology, genetics, biochemistry and medical aspects of human infectious diseases and diet.

GEOG 323. Agricultural Systems. 3 credits.
This course covers four distinct areas: the foundation of agriculture, the nature and distribution of soils on a global basis; the history of agriculture from the original selection of domestic crops to the 20th century; modern industrial agriculture and trade; and alternatives to chemical and energy intensive agriculture in the 21st century. Prerequisite: GEOG 290 with a "C" or better or permission of instructor.

GEOG 325. Environmental Ethics. 3 credits.
Examines the basic principles of resource use including geographic, economic, social and political processes. Explores concepts underlying such issues as resource consumption and conservation, environmental perception, resource and environmental conflict, population growth and control, carrying capacity, and the evolution of the environmental movement.

GEOG 327. Climatology. 3 credits.
The systematic study of the atmosphere with emphasis on such phenomena as temperature, pressure, humidity, air masses and fronts; the occurrence of these phenomena on a global basis; and a detailed survey of the worldwide distribution of climate types. Prerequisite: GEOG 210 with a "C" or better or GEOL 320.

GEOG 329. Global Climate Change. 3 credits.
This course examines the interrelationships of the physical nature of the climate system, climate variability and change, and human activities. Case studies (El Nino, global warming, and stratospheric ozone depletion) are used to investigate how climate affects society, how human activities affect climate, and how non-climatic issues complicate our understanding of the relationships between climate and society. We consider how projections of future weather and climate affect decision-making. Prerequisite: GEOG 210 with a "C" or better.

GEOG 331. Geography of Virginia. 3 credits.
The course will examine the human and physical geography of the development of modern-day Virginia, providing an overview of its prehistory, then tracing its development from the beginning of the seventeenth century through the present. The course will include an analysis of Virginia's population, resources, and regional landscapes as they have been influenced by physical, cultural, historical, and economic factors. The relationship of Virginia to the rest of the world will also be examined.

GEOG 332. Geography of Europe. 3 credits.
Geographic assessment of regional and national characteristics of the European nations.

GEOG 333. Geography of Russia and the Former Soviet Union. 3 credits.
A study of the people and culture of Russia with an emphasis on their social, economic and political processes and situation. An analysis of how the interaction of geographic, social, political and economic factors affect the lives of the Russian people.

GEOG 334. Geography of East and Southeast Asia. 3 credits.
A survey of the physical and cultural environments of China, Taiwan, Japan, the Koreas, Indochina and the countries of Southeast Asia. Topics covered include weather and climate, physiography, natural resources, population characteristics, political systems, aspects of the economy, and the role that each country plays on the regional and world stage.

GEOG 335. Geography of Africa. 3 credits.
An introduction to the regional Geography of Sub-Saharan Africa that examines the physical geography of the continent, the historical roots of its present political geography, the consequences of its colonial past on communities and cultures as well as its natural resources. Students will examine continental issues such as resource management, food production, hunger, disease patterns, and management of wildlife. Prerequisite: GEOG 290 with a "C" or better or permission of instructor.

GEOG 336. Environmental Hazards: A Focus on Southeast Asia. 3 credits.
This course will focus on interactions between earth surface systems and social environments to demonstrate the complexity of natural hazards, and particularly those of Southeast Asia. Through regional geography, students will learn differing adaptation mechanisms of societies and cultures unique to the area and some of the natural hazards within the region. Prerequisite: GEOG 210 with a "C" or better or permission of instructor.

GEOG 337. Geography of Latin America. 3 credits.
A study of countries in Latin America which includes their physical landforms, weather and climate, biogeography, natural resource base, attitudes toward the physical environment, characteristics of the economy, the current political role in international activities, and population characteristics that include growth rate, distribution, migration, and ethnicity.

GEOG 338. Geography of the Philippine Islands: Problems and Possibilities. 3 credits.
Exploration of the Philippines focuses on poverty, environmental conservation, resource exploitation and ecosystem degradation in upland and marine environments. Topics include population dynamics, political pressure and instability, and urban challenges. The future of the country is investigated on all geographic scales with regard to its role in a globalized world economy.

GEOG 339. Geography of the Caribbean. 3 credits.
This course is designed to give students a general geographical overview of the islands states and territories surrounding the Caribbean Sea. Students will study physical landforms, weather and climate, environmental issues, population, economics, and political aspects of political units in the region.

GEOG 340. Biogeography. 3 credits.
This course emphasizes geographical biogeography and is as an advanced physical geography class. Included are analyses of spatial patterns of biota from local to global scales and examinations of the systems and processes that result in spatial and temporal patterns of species existence and diversity, community composition, energy pathways, adaptive traits, and human influences on biotic systems and processes. Prerequisite: GEOG 210 with a "C" or better.

GEOG 341. Wilderness Techniques. 3 credits.
Wilderness legislation, legal mandates and wilderness issues are examined. Human impacts due to overuse or conflicting uses are studied, as are the philosophical aspects of wilderness ethics. This course is taught entirely in the field. Camping and hiking are required. Prerequisite: Permission of the instructor.

GEOG 342. Management and Protection of Natural Resources. 3 credits.
This course provides a managerial perspective for protection and management of natural resources. A systems approach for applied management strategies is provided for aquatic, terrestrial, threatened and endangered ecosystems. Topics include application of state, federal, international laws, regulations, policies and guidelines. Students develop management plans and explore jurisdictional resource protection issues.

GEOG 343. Wildlife Management. 3 credits.
An introductory discussion of applied management strategies for wildlife species and their ecological requirements is provided relative to human influences. Management techniques that are useful for determining population or health status are demonstrated for select vertebrate species. The evolution of wildlife laws, polices and management strategies are addressed to provide relevant awareness into the appropriate concepts of wildlife management.

GEOG 344. Economic Geography and Development Issues. 3 credits.
An overview of the classification of economic activities, the factors involved in the location of various types of economic activities and the regional variation in the standard of living associated with economic development. Additional topics include regional economic growth and types of economic systems and development perspectives, the roles that politics and demographics play in the economic development of a country, and the globalization of economic activities.

GEOG 345. Geography of Poverty. 3 credits.
This course provides a geographical perspective on poverty faced by communities and countries of the world today. The focus is on how poverty is defined, measured and mapped, the causes and impacts of poverty, theories for ending poverty and organizations that work to address poverty. It includes a geographical study of communities and countries that have successfully alleviated extreme poverty.

http://www.jmu.edu/catalog/14
GEOS 348, Indigenous Geographies. 3 credits.
This course introduces indigenous geographic representations. Topics include territorial sovereignty, traditional resource use, sustainable development, and protection of sacred sites. Students will explore the central geographic practice of cartography, which has taken on new meaning as cultural identification for Indigenous peoples. The use of new technologies to represent traditional understandings of Earth is also explored. Prerequisite: GEOS 290 or permission of instructor.

GEOS 350, Topics in Geography, 1-3 credits.
Examination of geographic topics that are of current interest. Can be repeated as course content changes. Prerequisite: Permission of the instructor.

GEOS/HUMAN 360, GIS for Humanitarian Assistance. 3 credits.
In responding to humanitarian crises, governments and aid organizations must deploy aid workers, deliver essential services, set up temporary settlements, and distribute items such as water and food that are needed for survival. Spatial analysis and maps are critical to the success of these efforts. In this course, students learn the basics of Geographic Information Systems (GIS) for humanitarian assistance and learn how relief organizations use GIS in their work.

GEOS 365, Cartography and Geospatial Visualization. 3-6 credits.
This course examines the fundamentals of visualizing spatial data in static and dynamic environments. Students will learn about cartographic design, thematic cartographic techniques, developing spatial data from non-spatial information and with GPS equipment, and geographic visualization. Students will also develop a portfolio of hard copy and soft copy visualizations. Prerequisite: GEOS 215 with a "C" or better.

GEOS 366, Introduction to Geographic Information Science. 3 credits.
An overview of geographic information science and its role in technology and society. Spatial databases and descriptive data will be created and implemented into various geographic information systems. Advanced analytical operations will be used to practice the analysis capabilities of geographic information systems. Prerequisite: GEOS 215 with a "C" or better or permission of the instructor.

GEOS 375, Political Geography. 3 credits.
Geopolitical conflicts and issues are examined. Concepts such as territoriality, nationalism, religious and ethnic struggle, environmental degradation, and freedom and justice are discussed in the context of political unrest. Significant geopolitical theories and social and economic processes are explored.

GEOS 376, Urban Geography. 3 credits.
Study of the city in its geographic setting, giving perspective of modern urban problems, origin and growth of cities and influence of location on city function. Looks at the internal structure of cities and the influence of the internal structure on its population groups.

GEOS 380, Cultural Geography. 3 credits.
Introduction to cultural geography with emphasis on diversity of language, religion and folklore, as well as culture traits and practices and their historical diffusion. Ties to livelihood, the rural-urban continuum and demographic change are explored, as are foci on philosophy, power, race, class and gender. Exploitation and sustainability will be introduced as dimensions of cultural and environmental interaction.

GEOS 385, Principles of Remote Sensing (2, 2). 3-6 credits.
This course is an introduction to remote sensing, the study of images and other types of data acquired by satellites and aircraft. Topics include the principles underlying multiple use of remote sensing, the properties of common data types, making measurements using aerial photographs, basic digital image processing, and applications. Prerequisite: GEOS 216 with a "C" or better.

GEOS 390, Practicing Geographic Science. 1 credit.
Professional development for students in geography. Educational opportunities and career options. Library and literature research skills. Prerequisites: Junior standing and permission of instructor.

GEOS/BIO 402, Forest Ecology. 4 credits.
A study of the function, structure, and composition of forested ecosystems. The effect of physiography on the distribution of forest communities will be explored. Issues of forest management and restoration will also be considered. Field laboratories will include dendrology and sampling techniques within different forest successional stages. Prerequisite: BIO 124 or permission of the instructor.

GEOS 406, Forest Inventory: A Geospatial Approach. 3 credits.
This course teaches forest measurement at the tree, plot, stand, and forest levels. It includes heights, stem diameters, volumes, and biomasses of individual trees; fixed and variable radius plots; basal area estimates; sampling designs, and stand and stock table construction. Students learn how geospatial technologies can be used to collect data on forests, make forest inventories more accurate and precise, and assist in performing forest-related analyses and visualizations. Prerequisite: GEOS 230 or permission of instructor.

GEOS 410, Geography and Film. 3 credits.
This course is concerned with the intersection of geography and film. An always-present undercurrent focuses on films whose location and/or culture are an essential backdrop in the cinematic experience. Prerequisite: GEOS 290 or permission of instructor.

GEOS 415, Environment, Landscape and Culture. 3 credits.
This seminar analyzes human-environment interactions as shaped by cultural perceptions, past events, and ecological processes. Place-based and interdisciplinary, landscape studies focus on the unique circumstances of a location and shift temporal and geographic scales to achieve broader understandings of cultural and ecological adaptation and resilience. Methods of historical ecology and field research are introduced. Regional projects underscore readings and research assignments. Prerequisite: GEOS 290 or permission of instructor.

GEOS/ISAT 429, Sustainability: An Ecological Perspective. 3 credits.
This course examines present global environmental impacts and efforts made to change production and consumption patterns toward those that reduce impact on ecosystems or promote increased ecosystems health. The focus lies in understanding the basic resources of productivity including soils, agricultural systems, agroforestry, forestry and aquatic environments and applying solutions on a personal and community level. Prerequisite: GEOS 320, senior standing or permission of the instructor.

GEOS 430, Geography of Crop Plants. 3 credits.
This course evaluates the influence of geography on crops and crop development by examining the evolution, genetic diversity and cultivation of agricultural crops. Topics include the origins of agriculture, patterns of geographic spread, and the interrelationships between domesticated plants and the societies that grow them.

GEOS 465, Topics in GIS. 3 credits.
The course examines varying topical issues in geographic information science. The course may be repeated as course topics vary. Prerequisite: GEOS 368 or permission of the instructor.

GEOS 466, GIS and Geographic Databases. 3 credits.
An introduction to the creation, use and management of digital spatial data used by industry and government. Integration of large spatial data sets into the geographic information system, data management and data exchange, and the geodetic transformation of data sets are emphasized. Digital elevation models, land use data, population data, digital topographic map and street network data will be used. Prerequisite: GEOS 368 or permission of the instructor.

GEOS 467, GIS Project Management. 3 credits.
An introduction to geographic information systems (GIS) project management. Basic project management techniques will be applied to such areas as defining, designing, implementing and documenting a geographic information system. Prerequisite: GEOS 368 or permission of the instructor.

GEOS 468, Internet Geographic Information Systems. 3 credits.
Theoretical and practical exploration of methods, standards and policies related to the development and utilization of geographic information systems on the Internet. Students will create and utilize distributed geospatial data and analytical systems using the World Wide Web and the Internet to address geographical problems. Prerequisite: GEOS 368 or permission of the instructor.

GEOS 469, Applications of Geographic Information Systems. 3 credits.
The course advances the knowledge of GIS in theory and practice by focusing on specific application areas. Spatial databases and complex attribute data will be created, and GIS modeling techniques will be used to solve problems relevant to the specified topical area. The course may be repeated once for additional credit when the topic changes. Prerequisite: GEOS 368 or permission of the instructor.

GEOS 470, Senior Seminar in Environmental Conservation, Sustainability and Development. 3 credits.
This capstone seminar integrates the student’s previous class experiences to provide a holistic exploration of linkages between environmental conservation and human development status and strategies through in-depth analysis of compelling human-environment issues. Topics vary by semester and include environmental politics, global perspectives on population, sustainable communities and global biodiversity. For majors and minors only. Prerequisite: GEOS 290, senior standing or permission of the instructor.
GEOL 485. Processing Remotely Sensed Data. 3 credits.
This course focuses on computer-based techniques for processing remotely sensed data and applications of these techniques. Subjects covered will include geometric and radiometric correction, image enhancement, data transformations, change detection and quantification, and classification. Both traditional techniques and techniques designed for newly available data types will be examined. Prerequisite: GEOL 385 or permission of the instructor.

GEOL 486. High Spatial Resolution Remotely Sensed Data. 3 credits.
This course focuses on the acquisition and use of high spatial resolution remotely sensed data. Topics include aerial photograph acquisition, digital terrain model creation, orthorectification, object oriented image processing, image fusion, visual image interpretation, collecting and processing LiDAR data, and ethical and legal issues associated with high spatial resolution data. Prerequisite: GEOL 385 or permission of the instructor.

GEOL 490. Senior Research or Field Practicum. 3 credits.
Working with a research adviser, student completes an internship, a study abroad program, or project research. Student delivers interim progress reports and an annotated bibliography or other relevant research products. Prerequisites: GEOL 280 and permission of their research adviser.

GEOL 491. International Studies. 1-3 credits.
Student will make arrangements for the international experience. A research project or work-study project will be designed by the student and faculty member prior to departure. The research of work will be carried out in the country of travel. May not be taken for capstone credit. May be repeated for credit.

GEOL 493. Internship in Geology. 3-6 credits.
Practical experience within a public agency, non-profit or private business utilizing geographic methodology. Work experience will be supervised by an official of the business or agency and a faculty member. Periodic seminars and written reports are required. Prerequisites: Permission of the faculty sponsor and the GS Program Operations Manager. May not be taken for capstone credit.

GEOL 494. Senior Thesis III. 2 credits.
Student completes an independent research project, either alone or within an investigative team, to identify and analyze a geographic problem or phenomenon, and provides a written report and public presentation on the problem analysis and solution. Prerequisites: GEOL 480 and senior standing during final semester of the GS program.

GEOL 497. Independent Study. 3 credits.
Student performs an independent research project, either alone or within an investigative team, to identify and analyze a problem from a geographic perspective. Prerequisite: Permission of the instructor. May not be taken for capstone credit.

GEOL 499. Honors. 6 credits.
Year course.

Geology

Department of Geology and Environmental Science

GEOL 102. Environment. Earth. 3 credits.
A study of geological processes causing global change and their impact on human thought. The relationship between some geological processes and life on the Earth is also considered. Not available for major or minor credit in geology. Students may not receive credit for both GEOL 102 and GSCI 102. Prerequisite: GSCI 101.
*GEOL 110. Physical Geology. 3 credits.
A systematic study of earth materials and the internal and external processes that affect earth structure and landforms. Topics include the genesis/properties of rocks and minerals, plate tectonics, and the agents of change that drive surface processes and landform development. The laboratory and lecture portions of GEOL 110 must be taken concurrently. Corequisite: GEOL 110B.
*GEOL 110L. Physical Geology Laboratory. 1 credit.
This laboratory course is designed to complement and supplement the GEOL 110 course. The laboratory and lecture portions must be taken concurrently. Corequisite: GEOL 110.

GEOL 115. Earth Systems and Climate Change. 3 credits.
This course explores cycles, trends and abrupt events in the Earth system. Analyses of the geologic record and global climate models provide perspective for understanding paloclimate and future climate changes, including global warming. Current hypotheses for causes of climate change are evaluated, including plate tectonics, orbital cyclicity, variations in the sun’s strength and human activities. The two reoccurring questions of this class are: What are Earth’s climate stories? How do we know them?

GEOL 120. Quantitative Geology. 2 credits.
An introduction to quantitative techniques used in descriptive and predictive aspects of the earth and environmental sciences, with emphasis on algorithmic approaches. The focus is on pragmatic application of mathematical methods to geologic problems, considering requirements, uses and limitations. Automatic computation is stressed.

GEOL 187. History and Philosophy of the Geosciences. 3 credits.
As an introductory experience in the Bachelor of Arts in Earth Science, students will be inculcated in the philosophy of geosciences as an interdisciplinary medium for extending classical science viewpoints to complex earth systems. Students will study the geosciences as distinct among sciences, establishing relevance and value of earth science literacy in professional and personal settings.

An investment of a theoretical principle behind evolutionary systems of all types based on mathematical modeling in chaos, complexity theory and artificial life studies with extensive computer experimentation and examples drawn from physical, chemical, biological, economic and social systems. The purpose is to explore what is common and universal to all evolutionary processes.

*GEOL 210. Applied Physical Geology. 3 credits.
A problem-based study of earth materials and the processes that affect earth structure and landforms. Topics include plate tectonics, the genesis/properties of rocks and minerals, and agents of change that drive surface processes and landform development. Quantitative problem-solving skills will be applied to case studies that address 3D visualization and time-based processes, such as earth materials, solid earth and surface processes, natural hazards and engineering applications. Prerequisite: Either PHYS 140 or PHYS 240 or CHEM 131 or by permission of the instructor. Corequisites: MATH 205 or MATH 220 or MATH 225 or by permission of the instructor.

*GEOL 211. Introduction to Oceanography. 3 credits.
An introduction to the oceanography of coastal environments including barrier islands, estuaries and tidal marshes. The physical, geological and biochemical characteristics of coastal waters will be discussed in the context of the economic and social pressures brought to bear on these areas by an increasing global population. Cannot receive credit for both GEOL 211 and GEOL 401.

GEOL 220. Genetic Mineralogy (2, 2). 3 credits.
A study of mineral genesis. Emphasis is directed toward mineralogical environments, mineral associations and the geology/mineralogy of classical localities. An appreciation of mineral value and aesthetics is incorporated throughout the course.

GEOL 230. Evolution of Earth (3, 2). 4 credits.
An introduction to the evidence, methods and assumptions used by scientists to unravel the Earth’s origin and history. Emphasis on rock analysis/interpretation, modern and ancient processes of mountain building, origin and evolution of life and the history of the North American continent. Prerequisite: GEOL 110L or permission of the instructor.

GEOL 272. Planetary Geology (2,2). 3 credits.
A survey of currently developing ideas in planetology including origin of the planets, meteorites and planetary interiors. Also included are geologic processes and land forms on the moon and terrestrial planets, their modification under various planetary environments, and analogies to familiar earth land forms. Includes laboratory. Prerequisite: GEOL 110L.

GEOL 280. Mineralogy (3, 2). 4 credits.
A comprehensive study of minerals, including: crystallography, mineral chemistry, x-ray diffraction, mineral optics with thin section recognition using petrographic microscope, and hand specimen identification of both silicate and non-silicate minerals. Prerequisite: GEOL 110L.

GEOL 289. Optical Mineralogy (3, 2). 3 credits.
A study of the optical properties of minerals and mineral identification with the petrographic microscope. Prerequisite: GEOL 280.

GEOL 291. Writing and Communicating in the Geosciences. 1 credit.
This course prepares students for independent research by providing them the fundamental skills in literature searches, writing, critical reading and communication in the geosciences. Prerequisites: GEOL 110 or GSCI 102 or GEOL 110; must take prior to senior year.

GEOL 300. Introduction to Petrology (3, 3). 4 credits.
Igneous and metamorphic processes explained using crystallization theory, phase diagrams, thermodynamics and geochemistry; laboratory study of rocks, their chemical and mineralogical signatures, and their geologic origins. Prerequisites: GEOL 280 and CHEM 131, or consent of instructor.
GEOL 301. Earth Sciences for Teachers. 4 credits.
Earth science content is blended with a systems approach to provide pre-service teachers with an understanding of how the Earth works, as well as strategies for teaching it. Major content themes include reconstructing the geologic history of the mid-Atlantic, exploring the interaction of living things and the environment, and predicting how matter and energy circulate in the earth system.

GEOL/GEOG 310 A-D. Environmental Impact. 2-3 credits, repeatable to 6 credits.
Focuses on a selected environmental realm. The course will examine the interface between human activities and environmental systems. It will address the impacts of social, economic and political activities on the environment. A-Atmosphere (air pollution); B-Biosphere (vegetation/wildlife); C-Hydrosphere (water); D-Lithosphere (geologic hazards/fund issues).

GEOL 320. Meteorology. 3 credits.
A survey of the science of weather including weather forecasting, weather maps and related atmospheric processes. Emphasis is placed on the dynamic aspects of meteorology and the interrelationships of atmospheric phenomena and masses and the world ocean.

The origin, distribution, and chemical, biological, and physical properties of soil are introduced. Processes responsible for soil properties are emphasized. Field trip highlight the stability of soils, their distribution across the Shenandoah Valley and their role in biogeochemical cycles. Prerequisite: GEOL 110 or GEOL 210 or permission of the instructor may be granted for students with 4 hours of a lab course.

GEOL/BIO 350. Paleobiology (3, 2). 4 credits.
The evolution and ecological structure of the biosphere from the origin of life to the present, emphasizing the evolution and paleobiology of animal life as shown by the fossil record. Lectures discuss methods used to interpret the fossil record and cover topics such as phylogeny and systematics, functional morphology, bioturbation, paleoecology, evolution, and extinction. Laboratories focus on the major groups of invertebrates that are common in the geologic record. Prerequisite: GEOL 230 or BIO 114 or permission of the instructor.

GEOL/CHM 355. Geochemistry of Natural Waters. 3 credits.
Study of chemical theory and reactions important in natural water systems. The role of atmospheric, geologic and biological inputs in determining the geochemistry of streams, rivers and oceans. Prerequisites: CHEM 131 and CHEM 132 or equivalent.

GEOL 364. Stratigraphy and Basin Analysis (3, 3). 4 credits.
Lecture emphasizes application of sedimentologic and stratigraphic principles to the identification and interpretation of depositional systems and examines how eustasy (sea level change) and local tectonics influence the distribution of depositional systems under different plate tectonic regimes. Lab emphasizes critical field observation, evaluation of theory to stratigraphic analysis and writing scientific papers. Prerequisite: GEOL 230.

GEOL 365. Structural Geology (3, 2). 4 credits.
Major and minor structures of the Earth's crust. Mechanistic principles involved in folding, faulting, jointing and penecontemporaneous structures. The causes and results of mountain building processes. Preparation and interpretation of geologic maps. GEOL 230 is recommended as a prerequisite.

This course addresses the natural relationship between minerals and the rocks they make up. Using the concept of mineralizing environments, illustrated by classic examples, students will investigate minerals through the processes of mineral genesis and associated rock types. This approach provides insight and predictive value for natural conditions in which specific minerals and rocks occur. Not acceptable for B.S. in geology. Prerequisite: GEOL 110.

GEOL 377. Earth Surface Processes (2, 2). 3 credits.
The interrelationships among climate, landscapes, soils and bedrock geology are examined using the mid-Atlantic region as a conceptual laboratory. Course instruction includes lecture, laboratory and field trip meetings. The processes of rock weathering and soil formation are reexamined. Topographic maps and aerial photography are examined for landforms and landscape evolution. Prerequisite: GEOL 210 or GEOL 210, or permission of the instructor.

GEOL 390. Laboratory Techniques in Geology (2, 2). 3 credits.
An elective course for science majors. A study of the basic theories and techniques of laboratory methods and instrumentation. Application and implementation of techniques to geological problems. Prerequisites: GEOL 280 and permission of the instructor.

GEOL/MATS 395. Geologic Perspectives in Materials Science and Engineering. 3 credits.
A one-semester course which emphasizes the commonalities between the geological sciences and materials science. Course includes topics from mineralogy, crystallography, petrology and structural geology which are also important in metallurgy and ceramics. Prerequisites: An introductory course in any physical science or integrated science and technology (GEOL 110 or GEOL 112 or GEOL 131 or PHYS 140 or ISAT 141) and at least one additional advanced course in the major.

GEOL 396. X-ray Characterization of Solid Materials. 3 credits.
Covers fundamental principles and theory behind two powerful, X-ray based, technologies: X-ray Diffraction and Energy Dispersive Analysis of X-rays (EDS). Students will collect and analyze data from a single crystal Gandolfi X-ray camera, automated powder diffraction system (focusing gonimeter), and EDAX system (EDS). Prerequisite: GEOL 280, MATS/ CHEM/PHYS 275 or ISAT 300.

GEOL 398. Topics in Geology. 1-4 credits.
Topics in geology at the advanced level. May be repeated for credit when course content changes. Topics selected may determine prerequisites. Students should consult the instructor prior to enrolling in the course. Prerequisite: Permission of the instructor.

GEOL 399. Field Geology. 6 credits.
Field methods include use of Brunton compass, telescopic alidade and plane table, and compass traversing. A synthesis of geologic concepts and principles leading to the construction and interpretation of geologic and topographic maps. Prerequisites: GEOL 384 and GEOL 396 or permission of the instructor.

GEOL/BIO 400. Geology and Ecology of the Bahamas. 3 credits.
This course explores the geology and ecology of the shallow-water marine environment by examining the preeminent modern example, the Bahamas platform. The Bahamas provide an excellent model for understanding modern and ancient carbonate and reef deposits and a variety of terrestrial/aquatic habitats. Biological processes are responsible for many of the geological features of the Bahamas, so the course considers the biology/ecology of marine organisms in addition to geological topics. Prerequisites: GEOL 110 or GEOL 211 or a 200-level GEOL or BIO course; at least four hours of additional lab science, at least sophomore status, and permission of the instructor.

GEOL 401. Oceanography for Teachers. 3 credits.
A comprehensive study of the world’s oceans and the interrelationships among physical, chemical, biological and geological oceanography for pre- and in-service teachers. Special emphasis on Virginia coastal oceanography, the National Ocean Literacy Principles and the integration of pedagogy applicable to K-12 instruction. Includes a field trip to the Virginia coast. Credit may not be earned in both GEOL 211 and GEOL 401.

GEOL/BIO 405. Vertebrate Paleontology (3). 3 credits.
A study of the origin and evolution of the vertebrates. Emphasis will be on understanding how the processes of earth evolution and biological evolution have interacted through time to produce a coherent picture of vertebrate history. Prerequisite: GEOL 230 or BIO 124 or permission of the instructor.

GEOL 406. Paleoclimatology and Paleoceano-graphy. 3 credits.
In this advanced level course you will investigate the methodologies and data used to reconstruct Earth’s climate history. Emphasis will be placed on the marine sediment and ice core records of the Cenozoic though detailed lecture and lab activities. Case studies include the Paleocene Eocene Thermal Maximum, the glaciation of Antarctica, Milankovitch cyclicity, and Northern Hemisphere glaciation. Prerequisite: GEOL 280 or GEOL/BIO 125 or permission of the instructor.

GEOL 410. Engineering Geology (2, 2). 3 credits.
Study of the applications of geology to engineering practice. Topics include soil mechanics, foundations, engineering classification of soils, slope stability and mineral aggregates. Prerequisites: GEOL 110, GEOL 210 or GEOG 210, and either MATH 231 or MATH 235 or equivalent.

A systematic survey of the tectonic evolution of the North American continent and the corresponding evolution of depositional basins and paleoenvironments. Prerequisites: GEOL 364 and GEOL 365 or permission of the instructor.

GEOL 440. Geophysics (3, 2). 3 credits.
A survey of geophysical methods, with joint attention on near-surface and solid earth applications. Topics include seismology, heat flow, gravity, magnetism, electrical methods, ground penetrating radar, and geophysical aspects of plate tectonics. Labs focus on practical experience with data acquisition, reduction, and interpretation and are a combination of field, classroom, and computational activities. Prerequisites: GEOL 110 or PHYS 140-145 or PHYS 240-245 or permission of the instructor.

http://www.jmu.edu/catalog/14
GEOL 497. Problems in Geology. 3 credits.
An in-depth investigation into selected aspects of geophysics. Topics will be chosen by the instructor and students and may vary from year to year. Some common candidate issues include earthquake seismology, field survey planning and execution, geophysical interpretation theory and the geophysical underpinnings of plate tectonic theory. Prerequisite: Permission of the instructor.

GEOL 494. Topics in Geophysics. 1-4 credits.
An in-depth study of a particular problem in geology (e.g., plate tectonics, astrogology, low-temperature geochemistry, etc.) Scientific literature will be reviewed and discussed. Prerequisite: 20 credits in geology.

GEOL 491. Geological Literature and Research. 1 credit.
The fundamentals of German through intensive listening, speaking, and writing. Some common candidate issues include earthquake seismology, field survey planning and execution, geophysical interpretation theory and the geophysical underpinnings of plate tectonic theory. Prerequisite: Permission of the instructor.

GEOL 492. Field Geophysics. 3 credits.
This course focuses on collection of geophysical data in the field and interpretation, analysis, and technical reporting afterwards. Case studies discussed include applications to geology, archaeology, and engineering. Students will get hands-on experience with geophysical equipment and an understanding of how and where these tools can be applied. Topics include Ground Penetrating Radar, Electrical Resistivity, Magnetism, Seismic Refraction and Total Station Data. Prerequisite: GEOL 110 or GEOL 210 or ANTH 197 or consent of instructor.

GEOL 444. Topics in Geophysics. 1-4 credits.
An in-depth investigation into selected aspects of geophysics. Topics will be chosen by the instructor and students and may vary from year to year. Some common candidate issues include earthquake seismology, field survey planning and execution, geophysical interpretation theory and the geophysical underpinnings of plate tectonic theory. Prerequisite: Permission of the instructor.

GEOL 450. Geology Seminar. 1 credit.
An in-depth study of a particular problem in geology (e.g., plate tectonics, astrogology, low-temperature geochemistry, etc.) Scientific literature will be reviewed and discussed. Prerequisite: 20 credits in geology.

GEOL 460. Hydrogeology (2, 2). 3 credits.
Basic concepts of subsurface water as a part of the hydrologic cycle. Topics include storativity and permeability in porous media, principles of flow, computer applications, groundwater exploration, and mapping and environmental aspects of groundwater. Prerequisites: GEOL 110L and two semesters of calculus or permission of the instructor.

GEOL 467. Stratigraphy, Structure and Tectonics (3, 2, 4). 4 credits.
Examination of how stratigraphic, structural, and tectonic principles control the character and distribution of rocks. Study of principles, regional patterns in sedimentary rocks, and stresses that deform rocks are explored in laboratory and field exercises. Topics and techniques are discussed within the framework of the 1.2 billion year geologic history of the Virginia region and its connection with tectonic processes throughout the rest of the world. Not acceptable for the B.S. in geology. Prerequisites: GEOL 110L and GEOL 230.

GEOL 477. Contemporary Issues in the Geosciences. 3 credits.
As a capstone experience, this course serves as an opportunity for students to view issues of the Earth system from an Earth-based perspective. Building on previous course work in the major (physical geology, meteorology, oceanography, etc.), students will investigate such issues as global warming, population and sustainable development and environmental ethics. Particular emphasis is placed upon the Earth's perspective from a historical viewpoint. Prerequisite: GEOL 211, GEOL 320, GEOL 367 and GEOL 377.

GEOL 498. Quantitative Methods in Geology (3). 3 credits.
An introduction to the mathematical methods and statistical techniques that are employed by scientists in the disciplines of geochemistry, geophysics, hydrology and the petroleum/mineral industry. The course provides the quantitative skills necessary to manipulate geological data. Prerequisites: GEOL 410, GEOL 320, GEOL 367 and GEOL 377.

GEOL 499. Honors in Geology. 3 credits.
Three semester sequence for a total of 6 hours. Prerequisite: GEOL 291 and 3.25 GPA or higher.
linguistic and extralinguistic) and the delivery of professional documents in real-market conditions. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisite: GER 300 or equivalent.

GER 400. Advanced Conversation. 3 credits.
Discussions deal with topics of current interest. Prerequisite: GER 300 or permission of the instructor.

GER 405. The Age of German Classicism. 3 credits.
Reading and interpretation of significant works of Lessing, Goethe and Schiller. Instruction is in German. Prerequisite: GER 300 or permission of the instructor.

GER 415. German Romanticism and Realism. 3 credits.
A study of Romanticism and Realism with emphasis on Romantic poetry and the Realistic novel. Instruction is in German. Prerequisite: GER 300 or permission of the instructor.

GER 426. Modern German Literature. 3 credits.
A study of the works of major German writers of the 20th century. Instruction is in German. Prerequisite: GER 300 or permission of the instructor.

GER 446. Special Topics in German Literature. 3 credits.
Study of a particular topic in German literature. It may cover all or specific German literature genre. Course may be repeated. Prerequisite: GER 300.

GER 447. Special Topics in German Civilization and Culture. 3 credits.
Students will study a particular topic in the civilization and/or culture of Germany. Course may be repeated. Prerequisite: GER 300.

GER 448. Topics in German Linguistics. 3 credits.
Students will study a particular topic in German linguistics. Topics could include an introduction to German sociolinguistics and psycholinguistics. Course may be repeated. Prerequisite: GER 300.

GER 465. German Cinema. 3 credits.
An analysis of the German cinema from the 1920s though the present. Emphasis will be on the relations between the German film and certain seminal periods in German history. Prerequisite: GER 300 or permission of the instructor.

**Gerontology**

**Department of Social Work**
GERN/SOCI 280. Social Gerontology. 3 credits.
An interdisciplinary introduction to the study of aging. The course provides an overview of issues surrounding aging in contemporary society: personal, familial, communal and societal. Corequisite: 20 hours of community service-learning.

GERN 305. Programs and Services for the Elderly. 3 credits.
A review of the programs and services provided for the elderly in the public and private sectors of America. Observations and participation in local programs for the elderly will be required. Prerequisite: GERN/SOCI 280.

GERN/FAM/SOWK 375. Grant Writing for Agencies. 3 credits.
Emphasizing active learning, this course teaches the basics of grant and proposal writing. Efficient research, persuasive prose and the importance of relationships are stressed. Private and corporate philanthropy and government grants are examined.

GERN 400. Skills and Techniques in Gerontological Assessment. 3 credits.
The study of the skills and techniques used in assessing the elderly client. Assessment is made from the holistic approach: physical, psychological and social. Prerequisite: GERN/SOCI 280.

GERN 407. Special Topics in Gerontology. 3 credits.
Examination of selected topics in gerontology that are of current importance in the field of gerontology. Course may be repeated for credit.

GERN 490. Special Studies in Gerontology. 1-3 credits.
Independent study in gerontology under faculty supervision. Limited to gerontology minors. Can be repeated for credit. Prerequisites: GERN/SOCI 280, GERN 305 and GERN 400 or permission of the instructor.

GERN 495. Field Experience/Seminar in Gerontology (1, 6). 3 credits.
Supervised field experience in gerontology settings that allows observation and experience with the well and frail elderly. A minimum of six hours in the assigned setting each week and one hour seminar on campus. Prerequisites: GERN/SOCI 280, GERN 305 and GERN 400, major elective, and approval of the gerontology minor adviser.

**Graphic Design**

**School of Art, Design and Art History**

All 200-level GRPH courses are limited to declared art, art history, graphic design and interior design majors during the fall and spring semesters. GRPH courses at the 300-level and above are restricted to graphic design majors. During May and summer sessions, 200-level GRPH courses are open to all students who meet the additional stated course prerequisites. Non-majors wishing to enroll in a GRPH course during fall and spring semesters may request permission of the instructor.

Introduction to graphics on the computer. Students will explore hardware and software that relate to the presentation of graphic design projects and computer generated imaging. Prerequisites: ART 102 and ART 104 or permission of the instructor.

GRPH 202. Design Methodology (0, 9). 3 credits.
Exploration of strategies for conceptualizing, analyzing and solving design problems. Emphasis is placed on graphic presentation of ideas and the creative process. Prerequisite: ART 102.

GRPH 205. Introduction to Typography (0, 9). 3 credits.
An introduction to the study of letter forms for their aesthetic and communicative value. Typographic fundamentals of alphabet history, type classification, printing technology effects, font design, visual space, hierarchy, and grid systems will be explored. Prerequisite: GRPH 200.

GRPH 208. Portfolio Review. 3 credits.
Portfolio review required to enroll in graphic design courses at upper division standing. May be repeated once for pass/fail standing. Prerequisites: GRPH 200 and GRPH 202. Prerequisite or corequisite: GRPH 206.

GRPH 300. Illustration (0, 9). 3 credits.
Through demonstrations, theory and practical application, students are introduced to numerous media and illustrative techniques. Encouraged experimentation is tempered by an understanding of problem solving and conceptualization. Prerequisite: GRPH 208.

GRPH 304. Package Design (0, 9). 3 credits.
Through theory, demonstrations and practical application, students learn to design in three-dimensions. Focus will be placed on aesthetics, as well as the form and function of a product's housing. Prerequisite: GRPH 208.

GRPH 306. Intermediate Typography (0, 9). 3 credits.
An intermediate study of typography for its aesthetic and communicative value. Context effects on legibility and readability, type as image, type in sequence, and typographic systems will be explored. Prerequisite: GRPH 208.

GRPH 312. Web Design. 3 credits.
Introduction to Web design through theory and practical application. Assignments will focus on the unique form, content and structures associated with designing for the World Wide Web. Special emphasis on the creative process and the graphic presentation of ideas. Prerequisite: GRPH 208.

GRPH 313. Interactive Media. 3 credits.
Through theory, demonstration and practical application, students are introduced to visual interface design. Focus will be placed on digital, interactive media and bridging the gap between functionality and usability. Prerequisite: GRPH 208.

GRPH 340. Poster Design (0, 9). 3 credits.
Through theory and practical application, students learn to design for the poster realm. Focus will be placed on aesthetics, as well as form and function. Encouraged experimentation is tempered by an understanding of problem solving and conceptualization. Prerequisite: GRPH 208.

GRPH/ART 375. Letterpress. 3 credits.
This studio course offers students an opportunity to engage in the process and product of letterpress printing through various techniques and conceptual approaches. Instruction focuses on text and image relationships by integrating metal and wood type, and other type-high surfaces. Emphasis will be placed on the acquisition of skills and vocabulary and the creative use of type and image. The course will address the history of letterpress and its contribution to contemporary art and design. Prerequisite: ART 276. Also for GRPH credit: GRPH 208.

http://www.jmu.edu/catalog/14
GRPH/ART 376. Intermediate Book Arts: Concept, Content, Form. 3 credits.
This course challenges the student to develop a limited edition handmade artists’ book. The appropriate format for each individual’s concepts are identified, adapted, customized, applied, and produced. Content development, book design, integration of various media, and the functionality of various bookmaking materials are explored. We will consider the artists’ book as a sculptural form and locate it within the broader context of contemporary writing and visual art. Prerequisites: ART 276; ENG 391, ENG 392 or ENG 393. Also for GRPH credit: GRPH 306.

Independent activity at the intermediate level, such as research or studio practice, under faculty supervision. Projected studies in any area of the school’s offering must be arranged with the instructors who will direct them. Offered only with the consent of the instructor. Prerequisite: GRPH 208.

GRPH 392. Topics in Graphic Design. 3 credits. Offering varies.
Study of selected topics in graphic design at the intermediate level. May be repeated when course content changes. See MyMadison for current topics. Prerequisite: GRPH 208.

GRPH 406. Advanced Typography (0, 9). 3 credits.
An advanced study of typography for its aesthetic and communicative value. Topics of research, narrative, information design, format organization and production techniques will be explored. Solutions reflect advanced text and image integration knowledge through complex and variable structure development. Prerequisite: GRPH 306.

GRPH 408. Brand Identity. 3 credits.
Exploration of visual identities utilizing a holistic, systems approach to design. Introduces business strategies and design techniques associated with brand development. Emphasis is placed on methods of thinking, research and implementation. Prerequisite or corequisite: GRPH 406.

GRPH 410. Graphic Design Portfolio. 3 credits.
An examination of the business of graphic design, employment strategies and freelance opportunities. Focus is placed on solidification of the portfolio for employment and/or graduate school. This course is strongly recommended for the last semester prior to graduation. Prerequisite: GRPH 406. Corequisite: GRPH 408.

GRPH 490. Independent Studies in Graphic Design. 1-3 credits, repeatable. (Offering varies.)
Independent activity, such as research or studio practice, under faculty supervision. Projected studies in any area of the school’s offering must be arranged with the instructors who will direct them. Offered only with consent of the instructor. Prerequisite: GRPH 208.

GRPH 491. Studio Assistant. 1-3 credits, repeatable. (Offering varies.)
An on-campus program monitored on an individual basis designed to provide practical studio experience in the visual arts. Students will learn safe studio practices and management skills, including material use, inventory control, and the proper operation of equipment found within various individual classrooms. Prerequisite: Permission of the instructor.

GRPH 492. Topics in Graphic Design. 3 credits. Offering varies.
Study of selected topics in graphic design at the advanced level. May be repeated when course content changes. See MyMadison for current topics. Prerequisite: GRPH 208.

GRPH 496. Internship in Graphic Design. 1-6 credits. (Offered fall, spring and summer.)
An off-campus program prepared and monitored on an individual basis. Internships are designed to provide practical experience in the arts. Prerequisites: Permission of the instructor and GRPH 208; students can only enroll for a maximum of 3 credits per internship.

GRPH 499. Honors (1, 3, 2). 6 credits total for three semesters. Prerequisite: GRPH 208.

GRK 231. Intermediate Greek I. 3 credits each semester.
An intensive reading course. Selections from Classical Greek writers and/or the New Testament. Prerequisite: One year of college Greek or equivalent.

GRK 232. Intermediate Greek II. 3 credits.
An intensive reading course. Selections from Classical Greek writers and/or the New Testament. Prerequisite: GRK 231 or permission of the instructor.

Health

Department of Health Sciences

GHTH 100. Personal Wellness. 3 credits. (Offered fall, spring and summer.)
Emphasizes lifestyle behaviors contributing to health promotion and disease prevention. General areas affecting health status are identified. Suggestions are made as to how health-related behaviors, self-care and individual decisions contribute to health and influence dimensions of wellness.

GHTH 150. Introduction to Health Sciences. 1 credit.
This course orientes students in the major to foundational expectations and requirements for successful completion of the Health Science major and Health Studies concentration. The course introduces conceptual ideas such as a wide array of health careers, importance of gaining early and regular field experiences, and writing and research basics.

GHTH 151. Foundations of the Health Sciences. 3 credits. (Offered fall and spring.)
Review of the basic competencies and foundations of the health sciences including academic planning, professionalism, writing and presentation skills, information literacy, foundational principles, and the roles and responsibilities of selected health science fields. This is intended to be the first course that a student takes in the health sciences major.

**GHTH 204. Emergency Health Care (2, 2). 3 credits. (Offered fall and spring.)
A survey of various dimensions of the legal aspects of emergency care, cardiorespiratory emergencies, hemmoragh control, wounds, shock, heat injuries and other health emergencies. Selected American Red Cross and American Heart Association certifications available. ** The American Red Cross registration fees apply.

GHTH 206. Advanced Athletic Training. 3 credits. (Offered fall and spring.)
This course involves advanced study of injuries associated with physically active individuals including injury mechanisms, signs and symptoms, and treatments. Other topics include relationships athletic trainers build with other health care professionals; environmental issues related to physical activity; and special needs of various populations. Prerequisites: BIO 290 and GHTH 205.

GHTH 210. Medical Terminology. 3 credits.
Study of terms that relate to body systems, anatomical structures, medical processes and procedures, and a variety of diseases/disorders that affect human organisms.

GHTH 230. Community Health. 3 credits. (Offered fall and spring.)
An introduction to community health including its foundations, the tools of community health such as epidemiology, community organization, disease control and health promotion. The course focuses on the populations, settings and special issues of community health. Prerequisite: GHTH 100.

GHTH 231. Population Health Determinants. 3 credits.
Many factors combine together to affect the health of individuals and communities. In an effort to advance public health, health professionals must be cognizant not only of behaviors which may compromise or promote health, but also the interaction of social and physical factors which impact health outcomes.

GHTH 245. Foundations of Infectious Disease. 3 credits.
An overview of the incidence, prevalence, causation, and prevention of the major infectious diseases which are currently of concern in the twenty-first century. Major signs and symptoms of the diseases as well as treatment will be reviewed. The course will also cover the body’s defense system and the principles of disease occurrence.

GHTH 252. Sexually Related Diseases. 1 credit.
Sexually transmitted diseases and other sexual systems problems (breast and testicular cancer), nonvenereal diseases, chromosomal anomalies, sexual disorders of the genitalia and urinary system problems.

GHTH 270. Personal Health Promotion. 3 credits.
A survey of principles for the promotion of optimum individual, family and community health through intelligent self-direction of health behavior. Topics include the physical, mental and social dimension of health economics, disease control, human sexuality, chemical abuse, injury control, and nutrition.

http://www.jmu.edu/catalog/14
Behavioral and social etiological factors. In addition, this course will include health. In addition, the CDC model for Coordinated School Health Programs People 2010 Objectives for the Nation as they relate to child and adolescent

causative pathogen, incubation, illness patterns, transmission, prevention and treatment of AIDS and other STDs. AIDS and other STDs in relation to
death and dying. Special emphasis will be on issues relevant to teaching these topics in schools. Prerequisite: Admission to the PHETE program.
An overview of selected topics required for students preparing to teach health in public schools. Selected topics include addictions, alcohol, tobacco, drug use and abuse, safety, nutrition and weight management in children, immunity, and prevention and control of infectious and chronic diseases. Special emphasis will be on issues relevant to teaching these topics in schools. Prerequisite: Admission to the PHETE program.
An overview of selected topics in health science. Consult MyMadison for specific topics. May be repeated for credit when course content changes.

This course will present an overview of research methods within public health, emphasizing the steps involved in the research process. Methodological issues covered will include the ethics of health studies research, qualitative and quantitative research designs, operationalization of concepts, measurement of variables, and techniques of sampling, data collection, and analysis. Prerequisites: HTH 320, HTH 340, HTH 351 or senior public health education or health assessment and promotion concentration students or junior pre-occupational therapy students applying to the JMU accelerated OT program.

HTH 459. Therapeutic Interaction. 3 credits. Offered summer.
This course focuses on the fundamental aspects of the therapeutic process, small group dynamics and understanding professional relationships in occupational therapy practice. Students will investigate concepts, attitudes and behavioral strategies that will support effective professional communication. They will also investigate inter- and intra-personal strategies that facilitate collaborative relationships as an occupational therapist in health or human service provision. Prerequisite: Admission into the occupational therapy concentration and successful completion of all previous concentration course work.

HTH 423. Ethics and Critical Thinking in Health. 3 credits. Offered fall and spring.
This course will present an overview of the emerging health indicators and contemporary health issues based upon the Healthy People 2010 and 2020 initiatives from the US Department of Health and Human Services. Topics of discussion include current health, health care and ethical issues such as community, consumer and environmental health issues; focusing on the interaction between psychological, sociological, political and environmental factors. Prerequisites: HTH 320, HTH 340, HTH 351 or senior public health education concentration students.

http://www.jmu.edu/catalog/14
The fundamental aspect of occupational development that occurs throughout life is examined. Interactions between the individual and the environment across the several domains of occupation are explored. Acquisition of values, roles, habits, temporal adaptation and interests during each developmental stage are reviewed. Prerequisite: Admission to occupational studies concentration and successful completion of all previous concentration course work.

HTH 431. Human Occupation and the Foundations of the Profession. 3 credits. Offered summer.

The relationship between human behavior and occupation is examined. Issues important to occupational engagement are explored and linked to occupational science and the occupational therapy profession. Prerequisite: Admission to the occupational studies concentration and successful completion of all previous concentration course work.

HTH 435. Level I Fieldwork One. 1 credit. Offered spring.

The course offers an opportunity to develop clinical skills in health and human service programs serving pediatric and adolescent clients. This experience will link knowledge and skills developed in didactic course work with a clinical environment. Prerequisite: Admission to the occupational studies concentration and successful completion of all previous concentration course work.

HTH 441/KIN 407. Rehabilitative Biomechanics. 3 credits. Offered fall and spring.

This course is designed to introduce the student to a variety of biomechanical concepts and applications as related to the health professions. Specific attention will be given to the biomechanical aspects of the musculoskeletal system. Prerequisite: BIO 290.

HTH 442. Chronic Diseases. 3 credits. Offered fall.

This course examines the pathophysiological effects of chronic diseases on health and well-being. Discussions include various strategies which improve the functional status and health of individuals at risk. Prerequisite: HTH 308 or KIN 302 and KIN 302L.

HTH 445. The Occupational Therapy Process. 3 credits. Offered summer.

The occupational therapy process is examined from assessing an occupational profile to focusing on engagement in occupation to achieve desired outcomes. Methods of assessing, as a defining step in the therapeutic process, goal development, intervention strategies and documentation are also addressed. Prerequisite: Admission to the occupational studies concentration and successful completion of all previous concentration course work.

HTH 450. Epidemiology. 3 credits. Offered fall and spring.

A study of the causation and prevention of the major diseases that affect the quality of an individual's life. Practical skills utilized by practicing epidemiologists are emphasized. Prerequisites: HTH 220, HTH 340, HTH 351 or senior public health education or health assessment and promotion concentrators senior health services administration concentration students or junior pre-occupational therapy (OT) students applying to the JMU accelerated OT program.

HTH 453. Public Health Education Methods. 3 credits. Offered spring.

This course is designed for public health education students to develop competencies necessary for working in community and public health settings. Presentation skills, developing print, computer and Internet materials, facilitating groups and coalitions, and advocacy are some of the topics covered. Prerequisites: HTH 230, HTH 451 and senior public health education concentration students or permission of the instructor.

HTH 458. Health Program Planning and Evaluation. 3 credits. Offered fall and spring. This lecture and laboratory course introduces students to principles and techniques employed to plan, implement and evaluate health promotion programs. Students will conduct a campus or community event and compile a formal report. Prerequisites: HTH 230, HSA 358 or HTH 451 and senior health sciences major or permission of the instructor.

HTH 460. Sensorimotor Foundations of Occupation. 3 credits. Offered spring.

The importance of sensory processing and motor response and the impact on behavior, movement and occupational engagement are examined. Normal and abnormal sensorimotor function is presented with specific emphasis on how dysfunction impacts upon performance in the domains of occupation. Prerequisite: Admission to the occupational studies concentration and successful completion of all previous concentration course work.

HTH 461. Therapeutic Media in Occupational Therapy. 2 credits. Offered fall.

This course examines the use of various forms of media used in occupational therapy practice. An understanding of the importance of media and its impact on the history and philosophical base of the profession will be addressed. The ability to grade and analyze activities relative to areas of occupation, performance skills, performance patterns, activity demands, context(s) and client factors in presented. A focus on developing the ability to adapt tasks for individuals who require a compensatory approach will be examined. Prerequisite: Admission to the occupational studies concentration and successful completion of all previous concentration course work.

HTH 470. Instructional Methods in Health Education. 4 credits. Offered spring.

An overview and application of methods for teaching health in the schools. Students will develop skills in planning, instructional methods and classroom management. Micro-teaching experiences and a practicum in the schools are incorporated into this course to provide for the application and practice of material and skills learned. Prerequisite: Admission into teacher education.

HTH 471. Health Aspects of Gerontology. 3 credits. Offered fall and spring.

Promotion of health in the aged: physiological aspects of the aging process; community, state and federal health programs, and services for the aged.

HTH 472. Family Life Education for Teachers. 2 credits.

This course will present an overview of issues affecting the sexual health of children and youth. A variety of family life education curricula will be discussed, however, the approved Virginia Department of Education curriculum will be examined and students will be trained in implementing and evaluating its various modules.

HTH 478. Occupational Dysfunction-Cause & Impact. 3 credits. Offered spring.

Various illnesses, injuries and circumstances that can impede areas of occupation and performance skills are examined. The practice framework detailed in the domain of occupational therapy will be applied to all reviewed occupational conditions. Prerequisite: Admission to the occupational studies concentration.

HTH 479. Foundations of Research in Occupational Therapy. 3 credits. Offered spring.

This course will present an overview of the foundations of research application, interpretation and communication. A variety of research methods will be reviewed. Published research will be examined for relevance in clinical decision making. Prerequisite: Admission to the occupational studies concentration and successful completion of all previous concentration course work.

HTH 480. Health Assessment Techniques. 3 credits. Offered fall.

Examination of health risk appraisals and metabolic assessments used to implement strategies for behavioral change and improved overall wellness. Other topics include programming and group dynamics used to promote healthy lifestyle behaviors.

HTH 482. Advanced Health Assessment Techniques. 3 credits. Offered spring.

Skill acquisition of current health assessment techniques. These assessments are used to determine risk factors which play a role in heart disease and selected chronic diseases and to evaluate current health status.

HTH 485. Psychosocial Perspectives in Occupational Therapy Practice. 3 credits. Offered spring.

This course will provide an overview of psychosocial conditions that impact client function in areas of occupation, performance skills and performance patterns. Occupational therapy assessment and intervention from an individual and group treatment standpoint will be examined as it contributes to the interdisciplinary process. A historical overview of occupational therapy in behavioral health service provision will be covered that will review traditional and contemporary treatment and provider settings. Prerequisite: Admission into the occupational studies concentration and successful completion of all previous concentration course work, or permission of the program director.

HTH 488 Substance Abuse Prevention Basics. 1 credit. Offered spring.

This course focuses on basic, cutting-edge substance abuse prevention theory, research and practice. It is designed for the substance abuse prevention minors who have completed the content courses and are preparing for entry-level practitioner positions in health education and/or substance abuse prevention/intervention. Instruction will bridge theory to practice by incorporating practicing professionals.

HTH 490. Special Studies in Health Education. 1-3 credits each semester. Offered fall and spring.

Designed to give the superior student in health education an opportunity to complete independent study and/or research under faculty supervision. Prerequisite: Permission of the department head.

HTH 491. Occupational Therapy Tutorial I. 1 credit. Offered spring.

Tutorial I is a small group, case-based discussion seminar, facilitated by a clinical tutor who is an occupational therapist. Students research and discuss clinical cases related to content that is integrated from all courses that semester in the occupational studies concentration. Prerequisite: Admission into the occupational studies concentration and successful completion of all previous concentration course work.

http://www.jmu.edu/catalog/14
HSA 456. Ambulatory Care Services: Organization and Administration. 3 credits. Offered fall.
This course provides an in-depth examination of the staffing, organization, budgeting and administration of ambulatory services including medical group practices, community and hospital-based clinics, and ambulatory surgery centers. This course is recommended for students planning administrative careers in this area with a foundation in health services administration. Prerequisite: HSA 354, and HSA 358 or permission of the instructor.

HSA 462. Managed Care. 3 credits. Offered spring.
The growing influence of managed health care on the organization and delivery of health services in the United States is addressed in this course. Structural and operational characteristics of managed care organizations and plans, including HMOs, PPOs and other plans are explored, as are the implications of managed care plans for the management of hospitals and other health care organizations. Prerequisite: HSA 358 or permission of the instructor.

HSA 463. Quality Management in Health Care. 3 credits. Offered spring.
This course examines the quality management function required in diverse health care organizations. The student is exposed to definitions and standards of quality in health care, as well as to various tools used to measure, evaluate and improve quality. Emerging issues affecting the management of health care quality are discussed. Prerequisites: HTH 354 and HSA 358 or permission of the instructor.

HSA 464. Funding in Health Care. 3 credits. Offered spring.
General financial analysis is covered in terms of its application to health care entities. Concepts, issues and tools related to health care funding are covered. Prerequisites: COB 204, COB 241 or ACTG 244, FIN 345 and HTH 320.

HSA 466. Health Politics and Policy. 3 credits. Offered fall and spring.
This course provides an introduction to the state and federal policy-making processes with a distinct focus on health policy. Emphasis will be on how health policy impacts health service organizations and the delivery of health care. Prerequisites: HTH 354 and HSA 365, or permission of the instructor.

Hebrew
Department of Foreign Languages, Literatures and Cultures
HEBR/REL 131-132. Elementary Biblical Hebrew. 4 credits each semester.
An introductory course for students who intend to acquire the ability to read the Massoretic text of the Bible. Systematic study of the fundamentals of grammar, with emphasis on reading, pronunciation and translation.

HEBR/REL 231-232. Intermediate Biblical Hebrew. 3 credits each semester.
An intensive reading course. Selections from the Massoretic text of the Bible. An introduction to the critical apparatus used within the Massoretic text as well as the variant reading apparatus printed in the Biblia Hebraica Stuttgartensia. Prerequisite: One year of college biblical Hebrew or equivalent.

History
Department of History
GHIST 101. World History to 1500. 3 credits.
A survey of important historical developments from prehistoric times to 1500. Emphasis is given to the rise and decline of great world civilizations and their lasting contributions to humanity.

GHIST 102. World History Since 1500. 3 credits.
A survey of important historical developments from 1500 to the present. Emphasis is given to the growth of nationalism, the development of colonialism, and to world events, problems and conflicts of the present century.

GHIST 150. Critical Issues in Recent Global History. 3 credits.
This course examines issues in recent history as a means to introduce, develop and enhance critical thinking skills and to supplement writing, oral communication, library and computing skills objectives for the General Education Cluster One. A seminar format emphasizes the development and articulation of well reasoned arguments in organized and grammatically acceptable prose.

GHIST 201. Europe to 1815. 3 credits.
An examination of Europe from 1350 to 1815 with emphasis on the major themes, figures, ideas, and trends of the period, as well as the principal historical interpretations.

GHIST 202. Europe Since 1815. 3 credits.
An examination of Europe from 1815 to the present with emphasis on the major themes, figures, ideas, and trends of the period, as well as the principal historical interpretations.

http://www.jmu.edu/catalog/14
HIST 225. U.S. History. 4 credits.
A survey of U.S. history from the Colonial period to the present, emphasizing the development of American civic life, the involvement of the U.S. in world affairs and the cultural richness of the American people. This course stresses the analysis and interpretation of primary sources.

HIST 239. Topics in History. 3 credits.
The study of selected topics in history at the introductory level.

HIST 263. Africa. 3 credits.
Emphasis is placed on the social and cultural aspects, as well as the emerging role the continent plays in contemporary world history.

HIST 269. Premodern Middle East. 3 credits.
A survey of the Middle East from Late Antiquity though the rise of the Ottoman Empire into the 16th century. Emphasis is placed on the political, social and religious developments that form the historical and cultural bases for the communities that thrived in the region in the past, and still do today.

HIST 270. Modern Middle East. 3 credits.
The class is organized to address state formation processes in the world region located between the Nile and Indus rivers from the early sixteenth to the late twentieth centuries. The primary focus will be transitions between imperial, colonial and national political expressions in Egypt, Iran, the Ottoman Empire/Turkey and Palestine/Israel. The course will also engage other areas and issues including economic and social policies and practices in the Mughal Empire and modern Afghanistan.

HIST 271. The Ancient Mediterranean. 3 credits.
A broad theme-based history of the Ancient Mediterranean from the Late Bronze Age to the end of Antiquity (1500 BC – AD 600). It examines the political, social, economic and religious history of the states that governed the area and their cultural interactions. The course is a mixture of lectures and discussions of primary sources. The final paper is a reflection on the themes including both primary and secondary sources.

HIST 273. East Asia to 1600. 3 credits.
A broad survey of East Asian civilizations from their beginnings to about 1600 with emphasis on their distinctive cultural and intellectual traditions as well as the development of their political, social and economic institutions.

HIST 274. Modern East Asia. 3 credits.
This course is an introduction to modern historical experiences of East Asia, particularly China, Japan, and Korea. In addition to overviews of each of these countries, the course will focus on several topics illustrating both the unity and diversity of East Asia, perceptions of each other, the philosophical tradition of Confucianism, the role of imperialism and nationalism, revolution, reform, and the future of the region in the twenty-first century.

HIST 291. Travel Studies. 3 credits.
Designed to encourage the student to augment the regular academic program through independent investigation, including organized travel study.

HIST 300. U.S. Military History. 3 credits.
A survey of the evolution of the American way of war from the Colonial era to the post-Cold War period emphasizing the development of military and naval institutions, U.S. strategic doctrine and the social legacies of the U.S. military establishment.

HIST 301. European Military History. 3 credits.
A survey of European military history including Russia/Soviet Union from the Hellenistic period through the 1982 Falklands-Malvinas War. The evolution of strategic doctrine and military institutions, their effect upon European society and their role in European imperialism will be emphasized.

HIST 302**. Latin American Urban History. 3 credits.
There is no group of people in the world more urban-minded than Latin Americans. Historically, cities here played an all-embracing role that included administration, the production of capital and responsibility for virtually all cultural activities. This course explores that history, as well as plans for further urban development, cultural activities and architectural design.

HIST 303. Early America. 3 credits.
This course will examine the history of early America from the colonial to the early national period. Topics will include the clash of African, European, and Native American cultures, the regionalization of the American colonies, the growth of American slavery, and the creation of an American character and politics.

HIST 304. American Indian History. 3 credits.
A survey of American Indian history from pre-contact to the present through the study of secondary and primary, nonfictional and fictional works with a heavy emphasis on Indians’ agency and voices. Attention is given to cultural, religious, intellectual, political, military, and economic aspects of Indians’ societies and histories.

HIST 305. History of Science and Christianity. 3 credits.
Over the last 2000 years, there have been recurring controversies over the proper relationships between science and Christianity. This course uses case studies such as Galileo, Darwin and creationism to explore the larger cultural context that gave life to the controversies. In the process, we’ll examine changing ideas of what counts as science, how to interpret the Bible, and who gets to decide.

HIST 306. A History of the Body in the West. 3 credits.
This course views the human body as a historical artifact whose physical appearance and social, cultural, and political meanings reflect the historical contexts of specific times and places. The emphasis is on the perspectives of Europeans and their descendants, inside Europe and beyond it.

HIST 307**. The Trans-Atlantic Slave Trade. 3 credits.
This course explores the origins, processes and outcomes of the infamous trade. By studying participants’ lives in Africa, Europe, Latin America and North America, the course helps students understand people’s inhumanity to each other and the ways in which slavery and the trade in slaves forever altered the development of the Atlantic world.

HIST/ITAL 308. Contemporary Italian Civilization. 3 credits.
A study of Italian society, economics, politics and the arts from 1814 to the present. Instructed in English. Research papers for Italian majors/minors in the language.

HIST 309. French History Since 1648. 3 credits.
A survey of important historical developments in France from 1648 to the present. It explores how complex historical legacies in French society define and shape the experience of “being French” and how different groups and citizens work with and against each other in a collective effort to define the early modern and modern French experience. Points of focus include economy, society, culture and religion, state, politics, and borders.

HIST 310. American Business History. 3 credits.
A survey of the role of business in the United States from the Colonial period to the present, with emphasis on the entrepreneurial spirit, business developments, and innovations and the relationship between the federal government and commerce.

HIST 315. History of Sport. 3 credits.
An interpretive study of the role of sports in America from the pre-contact period to the present, focusing on the development of professional, university, and recreational athletic activities. Themes include gender, race, ethnicity, social class, environment and landscape, international relations, culture, and American idealism.

HIST 316. The Life and Times of James Madison, 1751-1836. 3 credits.
An overview of the major political, philosophical, social and literary events that helped shape the world of the founders. James Madison’s life will provide the framework for the course and emphasis will be given to his important role during this era.

HIST 320. Women in U.S. History. 3 credits.
A survey of the role of women in the United States from the Colonial period to the present. Attention is given to contributions of the ordinary women, the Women’s Rights movements, the impact of women on reform and political movements, and the changing status of women in society.

HIST 321. European Women’s History. 3 credits.
A survey European women’s history from the Enlightenment to the Modern Era. Attention will focus on women in England, France, Germany, Italy and Spain as well as the former Soviet Union. The course traces the birth of modern feminism in the European context and explores gender expectations, paying particular attention to women’s entrance into the public, political world.

HIST 322. The New South. 3 credits.
An examination of major problems in the history of the American South after Reconstruction, beginning with debates over the nature of the “New South” itself. The course will emphasize cultural and social history; it also explores political and economic developments. Prerequisite: HIST 225.

HIST 323. The Old South. 3 credits.
Economic, cultural and social history of the antebellum South, 1790-1860. The region’s political history will serve as a supporting part of the course.

HIST 326. The Automobile in 20th Century America. 3 credits.
This course uses the automobile as a window into 20th century American life. It examines the influence of automobile on patterns of work and leisure; on struggles over gender, race and ethnicity; on individualism, consumerism and government regulation. It also surveys mass automobile’s effects on our physical and natural environments and looks at future prospects of automobility in the information age.
HIST 327. Technology in America. 3 credits.
A historical survey of the complex and changing relationship between technology and society from Native American canoes to the Internet. Attention is given to technology's role in relations of power, in the home, on the farm, in the workplace and on the battlefield.

HIST 330. U.S. Diplomatic History. 3 credits.
A survey of major themes, events and forces shaping the development of American foreign relations throughout our history. Key documents such as the Monroe Doctrine will be examined, as will significant issues including manifest destiny, the United States as a world power, origins of Cold War and Detente.

HIST/ANTH 331. Historical Archaeology. 3 credits.
The course introduces students to the purposes, subject matter, methodology and historical background of the discipline of historical archaeology. Building on research issues presented methodological and interpretative approaches to historical archaeology. Attention will be given to the multidisciplinary aspects of this field are introduced through field trips, projects, guest lectures, readings and classroom presentations. Prerequisite: ANTH 197 or HIST equivalent.

HIST 332. History of 20th Century Spain. 3 credits.
This course will trace the twentieth-century political and social history of Spain including the Second Republic, the Spanish Civil War, the Franco regime, and the transition to democracy in 1975. The course will pay special attention to Franco's dictatorship, the role of women, the Catholic Church, as well as Spain's relationship to the rest of Europe.

HIST/SCI 338. U.S. Urban History. 3 credits.
In this course students explore the history of urban spaces in the United States by investigating American cities using a broad chronological, geographical, and thematic framework. Drawing from a range of primary and secondary sources, students will become familiar with the central themes of urban history, and also have the opportunity to produce their own narratives.

HIST 339. Selected Themes in U.S. History. 3 credits.
Selected themes are studied in depth. See MyMadison for current classes. Course may be repeated when content changes.

HIST 340. Internship in History. 3 credits.
Provides students with practical experience in using historical skills in a public or private agency. Periodic student reports and seminars required. This course may be repeated with permission of department head. Prerequisites: Junior or senior standing, HIST 395 and permission of the department head.

HIST 341. Selected Themes in World History. 3 credits.
Selected themes are studied in depth. Course may be repeated when content changes. Only courses with significant content outside of Europe will count toward the world history requirement. See MyMadison and the history department website for information on current classes.

HIST 350. Virginia. 3 credits.
An interpretive survey of the history of Virginia from its Colonial beginnings to the present time.

HIST 355. African-American History to 1865. 3 credits.
A survey of the experience and changing status of African-Americans in the United States from 1619 through the Civil War, with attention to the West African background, cultural developments, social and political movements, slavery and the slave trade, dual-consciousness, and emancipation.

HIST 356. African-American History Since 1865. 3 credits.
A survey of the experience and changing status of African-Americans in the United States from Reconstruction to the present, emphasizing the strengthening of social and cultural institutions; Afro-American leadership; the impact of segregation; the Great Migration; labor protest and cultural movements; pan-Africanism; the Civil Rights Movement; and contemporary issues.

HIST 360. Research Apprenticeship in History. 3 credits.
Provides students with advanced research and writing opportunities. Student learning contract must be approved before a student can enroll. Periodic student reports and seminars required. Open to history majors only. Prerequisite: HIST 356.

HIST 361**. Class and Ethnicity in Africa. 3 credits.
An examination of the development of class and ethnicity in African societies. Attention is given to the pre-Colonial and Colonial periods, as well as to the effects of imperialism, development strategies and structural adjustment policies on class and ethnic relations in contemporary Africa.

HIST/REL 362. Introduction to U.S. Religious History. 3 credits.
The course introduces the religious history of the colonies and the United States, from native traditions through the 20th century. We examine the historical/social impact of groups ranging from Roman Catholic migrants to evangelical Protestants and Scientologists. Special attention is paid to the extraordinary and persistent levels of religious diversity and adherence throughout U.S. history.

HIST 369. Greek History, 3000 BC-AD 267. 3 credits.
Greek history covers the political, military, social, economic and intellectual history of the Greeks from the beginning of the Bronze Age ca 3000 BC until the Roman occupation of Greece. It ends with the sack of Roman Athens by the Heruli in AD 267. The course is a mixture of lectures and discussions of primary sources. Students will read all of the major Greek historians (Herodotus, Thucydides, Xenophon, Polybius).

HIST 370. Byzantine Empire. 3 credits.
A survey of the political, economic, military and religious history of the Byzantine Empire, 330-1453.

HIST 371**. India. 3 credits.
A survey of the history of the Indian subcontinent from antiquity to the present. The course stresses the arrival of Islam, the impact of Western colonization, the struggle for independence, and the problems and achievements of nationhood in the post-Colonial era.

HIST 372**. Afghanistan in Regional and Global Systems. 3 credits.
The country's Silk Road heritage, early Islamic experience, and frontier status between Safavid Iran and Mughul India introduce modern Afghanistan's origins within British Indian colonialism and global capitalism. Twentieth-century and contemporary Afghanistan are engaged through concepts of modernity, nationalism, internationalization and local social and cultural resilience and adaptation.

HIST 373**. History of Modern Southeast Asia. 3 credits.
A survey of Southeast Asian history from the 16th century to the present. Particular attention is given to European and American colonization of the region, the impact of the Japanese occupation, and the achievement of independence.

HIST 377**. History of Korea. 3 credits.
A survey of Korean history from its earliest times to the present day. It is designed to develop an understanding in Korea, its historical tradition and the place of Korea in the larger narrative of East Asia and world history.

HIST 378**. China in the Modern World. 3 credits.
This course is an exploration of China's encounters with the modern world and the ways in which China has, and has not, changed as consequence of those encounters. Topics include the impacts of both Western and Japanese imperialisms; participation in international systems, adaptations of Christianity, democracy and communism; and the resulting upheavals in Chinese Society.

HIST 379**. Family and Gender in East Asia. 3 credits.
This is a survey focusing on the ways families have been defined and gender roles assigned in China, Korea, Japan in pre-modern and modern times. Attention will be given to how the changing nature of family and gender have helped shape the historical evolution of these societies.

HIST 380**. From Samurai to Peacekeepers: Japanese Military Culture from the Medieval to the Present. 3 credits.
This course traces the development of military culture in Japan from the first emergence of the samurai, through the centuries of warrior rule and the era of Japanese imperialism, to Japan's role today of peacekeeping missions. It explores the use of an imagined heroic past as a tool of propagandists, the intertwining of Buddhist teachings with martial ideals, and the disjunction between popular images of samurai valor and the lived reality of warrior existence.

A social history of England from 1837 to 1901 examining the way people of all classes lived and worked. Emphasis will be on drawing evidence from primary sources.

HIST 382. Europe in the 20th Century. 3 credits.
This course is a survey of European history covering the late-imperial era, the world wars, the Cold War and the dynamics of European integration. Emphasis will be given to political, social, economic and cultural developments. Upon completing the course, students will be able to demonstrate knowledge of major events and figures and events in twentieth-century European history.

HIST 383. Early England. 3 credits.
A survey of English history from the earliest times to the late 17th century. Particular attention is given to the rise of Parliament and the growth of limited monarchy.

HIST 384. England and the Empire-Commonwealth. 3 credits.
A survey of English history from the late 17th century to the present. Particular attention is given to the growth of British democracy, the industrial revolution, and the rise and fall of the British Empire.
HIST 385. The Russian Empire to 181. 3 credits.
This course covers one thousand years of Russian history, from the foundation of Kievan Rus' in 882 to the assassination of Tsar Alexander II in 1881. By taking empire as its overriding theme and pairing it with issues of religion, civil society, law, and gender, we will examine how the creation and growth of the Russian Empire affect the modern world. The course is structured around four topical sessions to interweave these themes throughout the history of Tsarist Russia.

HIST 386. Russia and the Soviet Union from 1881 to 1991. 3 credits.
This course surveys Russian and Soviet history from the late 19th century to the demise of the Soviet Union in 1991. Instead of providing a teleology of revolution and failure of the revolutionary experiment, this course offers an overview of Russian modern history that takes gender, generation, and family as its overriding themes and pairs them with issues of empire – in Tsarist as well as in Soviet Russia.

HIST 388. Germany Since 1871. 3 credits.
A survey of German history during the Second Reich, World War I, the Weimar Republic, the Third Reich and the post-World War II periods of Cold War and Detente. Emphasis is given to political, diplomatic and military affairs, although social, economic and cultural developments are included.

HIST 391. Travel Studies Seminar. 3 credits.
Designed to encourage the student to augment the regular academic program through independent investigation including organized travel-study. Prearrangements must be made with a designated faculty member who will direct the study with preparatory instructions and final requirements. Prerequisite: Permission of the department head.

HIST 395. History Seminar. 3 credits.
A seminar to introduce history as an academic discipline and acquaint the student with the work of major historians and problems of historical interpretation. Students will be required to complete assignments designed to develop basic skills in historical research and writing. Open to all students, but required of history majors. Fulfills the College of Arts and Letters writing-intensive requirement for the major.

HIST/ARTH 396. Introduction to Public History. 3 credits.
An introduction to the varied and interdisciplinary "field" of public history – such as community/local history, historic preservation, archives, historical archaeology, museum studies, business and policy history, documentary editing and publishing, and documentary films – through readings, class discussions, occasional guest speakers and occasional field trips.

HIST/ARTH 394. Introduction to Museum Work. 3 credits.
A study of the philosophy and practice of museum work including the areas of exhibit design, conservation registration, education and administration. Subject is taught from the perspective of the museum profession and is applicable to diverse disciplines and types of collections. Prerequisites: HIST 395, instructor's permission required to waive HIST 395 prerequisite for non-history majors.

HIST 399. Special Studies in History. 3 credits.
Designed to give capable students in history an opportunity to complete independent study under faculty supervision. Prerequisite: Permission of the department head.

HIST 403. Workshop in Colonial American Life. 3 credits.
A comparative study of life in 18th-century Virginia and Massachusetts. Colonial Massachusetts is studied through the use of printed materials, films and lectures. Publication of histories, lectures and a four-day study visit to Colonial Williamsburg are used for the study of Virginia. Supplemental fee required. Prerequisite: HIST 395 or permission of the instructor.

HIST 400. Workshop in Civil War Virginia. 3 credits.
This workshop examines the impact of the Civil War upon Virginia and its citizens. It explores the secession crisis, the revolution in firepower that forced changes in battlefield tactics and war aims, and the development of "hard war." A four-day battlefield tour will reinforce ideas discussed in the classroom. Supplemental fee required. Prerequisite: HIST 395 or permission of the instructor.

HIST 404. Science and Society in Early Modern Europe. 3 credits.
Examines the connections between knowledge of the natural world and other aspects of European societies between 1500 and 1700. Topics may include the scientific revolution (Copernicus, Galileo and Newton); medicine, anatomy, and ideas of disease, exploration, commerce and natural history; technology and empire; alchemy, astrology, and the boundaries of science; and comparisons between science in Europe and in other areas of the world. Prerequisite: HIST 395 or permission of the instructor.

HIST 405. Travel and Exploration. 3 credits.
This class is about travel and exploration in world history, using specific episodes to examine motives, consequences and the experience of travel. In studying long-distance trade, pilgrimages, voyages of exploration and discovery, and even tourism, we will look at the logistics of travel, attempts to map the world, and the difficulties people had in interpreting what they found. Prerequisite: HIST 395 or permission of the instructor.

HIST/ARTH 406. Monticello. 3 credits.
A seminar on the architecture and material culture of Thomas Jefferson's Monticello. The course will examine the house's design, artwork, decorative arts, mechanical devices, landscape/garden design and Mulberry Row. Topics will include African-American artisans at the Monticello joinery, Jefferson's Indian Hall, and European and African-American domestic life in the Federal Period. Required field trips. Prerequisite: Permission of the instructor.

HIST 407. Digital History. 3 credits.
This course will provide an introduction to digital history. It explores some of the ways in which digital technologies can change how we research, write, document, exhibit, produce, and think about history. Students should not expect to become an expert in any single technology, but will develop a familiarity with a wide range of tools and applications and will have the chance to create their own digital history project.

HIST/ARTH 408. The Museum: Histories and Controversies. 3 credits.
This seminar centers on art museums in the United States. Topics include the historical development of museums, related cultures of display, recent debates on institutional mission and responsibility, and contemporary artists who employ the museum as medium, subject matter or site. Required field trips. Prerequisite: GARTH 206 or permission of the instructor.

HIST 411. Colonial America. 3 credits.
An interpretive survey of England's mainland colonies from 1588-1776. Prerequisite: HIST 395 or permission of the instructor.

HIST 413. The Anglo-American Constitutional Tradition, 1603-1791. 3 credits.
Surveys Anglo-American political and constitutional traditions. Emphasizes the evolution of 17th- and 18th-century British constitutionalism, its transferal to the British North American colonies, and the development of the first national and state constitutions in the United States. Prerequisites: GHIST 225 and HIST 395, or permission of the instructor.

HIST 420. U.S. History, 1763-1800. 3 credits.
An interpretive study of the political, economic, social and cultural history of the United States from the French and Indian War through the Federalist period. Prerequisite: HIST 395 or permission of the instructor.

HIST 422. U.S. History, 1789-1844. 3 credits.
An interpretive study of the political, economic, social, intellectual and cultural history of the United States from the ratification of the Constitution through the Mexican-American War. Prerequisite: HIST 395 or permission of the instructor.

HIST 425. Civil War and Reconstruction. 3 credits.
A study of the background, development, personalities and aftermath of the Civil War. Special attention is given to the coming of the war and different explanations of its causes and to the policies and significance of Reconstruction, with varying interpretations thereof. Prerequisite: HIST 395 or permission of the instructor.

HIST 427. U.S. Environmental History. 3 credits.
An interpretive study of the development of environmental thought in the United States. Emphasis is given to philosophies of nature, land and resource usage and conservation, the environmental movement and organizations, environmental activism and radicalism, landscape restoration, and environmental mitigation and protection. Prerequisite: HIST 395 or permission of the instructor.

HIST 428. American Workers in the Industrial Age, 1877-1948. 3 credits.
This seminar examines what contemporaries called the Labor Problem, from the strikes of 1877 to the accord between GM and the UAW in 1948. It explores the impact of industrialization, race and gender, consumerism, the New Deal and two world wars on the lives of American workers and their unions. Prerequisite: HIST 395 or permission of the instructor.

HIST 430. The Gilded Age: U.S. History, 1877-1901. 3 credits.
An interpretive study of the United States from the conclusion of the Civil War until the assassination of William McKinley with special emphasis on industrialization, urbanization, western and overseas expansion, early reform movements, and politics. Prerequisite: HIST 395 or permission of the instructor.

An interpretive study of U.S. history from the rise of Theodore Roosevelt through the 1920s. Emphasis is placed on the reform movements of the period and the problems and issues generated by the nation's emergence
as a world power and an industrial, urban society. Prerequisite: HIST 395 or permission of the instructor.

An interpretive study of U.S. history from the onset of the Great Depression in 1929 through the inauguration of John Kennedy in 1961. Emphasis is given to the New Deal, World War II and the early years of the Cold War. Prerequisite: HIST 395 or permission of the instructor.

An interpretive study of U.S. history from the inauguration of John Kennedy in 1961 through the election of Ronald Reagan. Emphasis is given to the Kennedy-Johnson administrations, Vietnam, the counterculture and student movement, and Watergate and its aftermath. Prerequisite: HIST 395 or permission of the instructor.

HIST 434. Recent America. 3 credits.
An interpretive study of U.S. history from the Watergate era through the present. Emphasis is given to cultural, social, political, environmental, economic, educational and ethical issues, as well as considerations of indigenous peoples, foreign policy, activism and American idealism. Prerequisite: HIST 395 or permission of the instructor.

HIST 434**. Afro-Latin America. 3 credits.
Latin America and the Caribbean were the first and largest parts of the Western Hemisphere to be populated by Africans. Afro-Latin America examines cultural formations Africans brought to these regions. Beginning with an overview of the slave trade, it examines the histories of Africans and African-descent people throughout Latin America, as well as their distinct cultures. Prerequisites: One course in either Latin American or Africana studies (any discipline), upper-division status or permission of the instructor.

HIST 437**. Latin America and Latin Americans through Film: Focus on the Twentieth Century. 3 credits.
This course will provide students with the tools they need to be skilled visual readers as well as to link national and international representations of Latin America to their appropriate historical, social, cultural and political contexts. Prerequisite: HIST 395 or permission of the instructor.

HIST 438. Workshop in Public and Local History. 3 credits.
Selected historical topics relating to the Shenandoah Valley and surrounding region are studied in depth. Students will undertake primary research and collaborate on final project. See MYMadison for current classes. Prerequisite: GHST 225.

HIST 439. Selected Topics in American History. 3 credits.
Selected topics are studied in depth. See MYMadison for current topic. Course may be repeated for credit when content changes. Prerequisite: HIST 395 or permission of the instructor.

HIST 440. The History Museum. 3 credits.
An exploration of the history, evolution, and function of history museums. Readings and discussions cover the history and genealogy of the modern museum; exhibits and the influence of other forms of display such as world’s fairs and department stores; ethics, mission, and administration; collections management and conservation; education and interpretation; emerging technologies; historical memory and controversy in museums; the role of the community, and museums on a global stage. Prerequisite: HIST 395 or permission of the instructor.

HIST/SCOM 441. Oral History. 3 credits.
This course will explore the theory and practice of oral history. Through a series of readings, students will consider the many promises and challenges of the discipline, including issues related to memory, objectivity, ethics, the law, and technology. Students will also engage in an experiential learning exercise in which they collaborate to produce an oral history project. Prerequisite: HIST 395 or permission of the instructor.

HIST 443. Modern American Technology and Culture. 3 credits.
This seminar examines the sociotechnical history of twentieth-century America. It employs several analytical frameworks to examine the complex relationship between social and technological change, casting particular attention on the mass production ethos, the social meanings of everyday household technologies, the nuclear age, the space age, countercultural technology and the high tech age. Prerequisite: HIST 395 or permission of the instructor.

HIST 444**. Revolution and Social Change in Latin America. 3 credits.
This seminar will explore the revolutions were a major feature of the Latin American landscape throughout the modern era and how they contributed to changes in society. In a typical semester the course will explore the lives of leaders such as Che and Emiliano Zapata and investigate the causes and consequences of revolutionary actions in Cuba, Mexico and Nicaragua. Prerequisite: HIST 395 or permission of the instructor.

HIST 445**. A Cultural History of Latin America, the Caribbean, and the United States. 3 credits.
An examination of the complex history shared between Latin America and the United States in the nineteenth and twentieth centuries. This class examines media representations, fiction, and diplomatic correspondence to understand the complex negotiations and exchanges that take place in these Americas. Prerequisites: HIST 395. Instructor’s permission required to waive HIST 395 prerequisite for non-history majors.

HIST 447**. South America. 3 credits.
An examination of nineteenth and twentieth-century South America by emphasizing recent historiographies of the region. The class draws from social and cultural history to explore themes such as gender, race and ethnicity, nation-building, and historical memory. Prerequisite: HIST 295. Instructor’s permission required to waive HIST 395 prerequisite for non-major.

HIST 448**. Gender in Latin America and the Iberian World. 3 credits.
This course is designed to introduce students to critical issues, theories and methods of gender history through the study of the history of Latin America and the broader Iberian world. Students will study select peoples and cultures of Latin America and the Iberian Peninsula exploring how they lived and understood gender and sexuality during the pre-colonial, colonial and/or modern eras. Prerequisite: HIST 395 or permission of the instructor.

HIST 449. Women and Fascism. 3 credits.
This course offers a comparative understanding of fascism and women with a focus on Europe, including Nazi Germany, Fascist Italy and Francoist Spain. The course will uncover the origins of fascism and the rise of the fascist party and the women’s branch. Prerequisite: HIST 395 or permission of the instructor.

HIST 450. Studies in Military History. 3 credits.
A seminar addressing topics in U.S. or European military and naval history such as military operations, strategic theory, institutional evolution, the nature of modern war, technology and the warrior ethos, military-industrial-academic relations, and military ethics and the laws of war. Prerequisite: HIST 300 or HIST 301 depending on seminar topic offered.

HIST 453**. Patterns of Global History. 3 credits.
This course introduces students to the literature, concepts, themes and methodology of global history, a subfield of history that seeks to compare experiences across regional, area, cultural and temporal boundaries, to look at cross-cultural interactions and to examine large-scale patterns that have shaped history on a global scale. Prerequisites: GHST 101, GHST 102 and HIST 395.

HIST 455**. World Political and Social Thought to Early Modern Times. 3 credits.
A study of the most significant political and social ideas from around the world. Emphasis will be both on the classics and popular ideas from Western Asia, China, Greece, India, Rome, Japan and the developing states of Europe from ancient times through the 18th century. Prerequisite: HIST 395 or permission of the instructor.

HIST 456**. The Global Economy and Nationalism. 3 credits.
An examination of the global economy’s growth since the 14th century. The course investigates the emergence of capitalism, its relationship to modern nationalism, and the role that the concepts of development has played in the contemporary organization of nation-states from the perspective of world systems/dependency theory approaches. Prerequisites: GHST 102 and HIST 395 or permission of the instructor.

HIST/POS C 457**. Comparative Empires. 3 credits.
Comparative empires is an examination of imperialism from 1450 to the present. Focusing on no less than four empires, the course will apply a variety of theoretical approaches in a series of case studies with at least one empire from the period of exploration and one from 1319 to the present. Students will employ approaches from history, political science, economics and geography as they search for a deeper understanding of each case study and the broader concept of empire. Prerequisite: HIST 395 or permission of the instructor. Corequisites: MISE 470H.

HIST 458. Modern European Intellectual History. 3 credits.
This upper-level seminar considers major trends in philosophical, social and aesthetic thought in nineteenth- and twentieth-century Europe. Instead of merely surveying a series of ideas and thinkers, the course will trace the development of ideas across times and cultures by undertaking careful readings of key texts. Prerequisite: HIST 395 or permission of the instructor.
HIST 460**. Modern Japan. 3 credits.
The development of Japan from around the mid 18th century to the present. Attention is given to the collapse of isolation, the end of the Shogunate, the creation of a modern state, the years of party government, the rise of militarism, the Pacific war, the occupation and the new Japan. Prerequisite: HIST 395 or permission of the instructor.

HIST 461**. Marxism-Leninism in Global Affairs. 3 credits.
A study of the most significant ideas concerning politics, society, economics and philosophy, which shaped Communist and Marxist varieties of Socialism. Prerequisite: HIST 395 or permission of the instructor.

HIST 462. The Rise and Fall of Nazi Germany, 1918-1945. 3 credits.
An advanced study of the period of Nazi domination in Germany covering the Weimar Republic, the rise of the NSDAP, the Third Reich and World War II. The nature of totalitarianism, the character of Adolph Hitler and the general Weltanschauung of Germany under the Third Reich are emphasized. Prerequisite: HIST 395 or permission of the instructor.

HIST 463. Tudor-Stuart England. 3 credits.
A study of the economic, intellectual, political and religious development of the English people from 1485 to 1714, with special attention to the constitutional struggles of the 17th century. Prerequisite: HIST 395 or permission of the instructor.

HIST 464. Renaissance and Reformation. 3 credits.
A study of High Medieval civilization as an introduction to the history of Modern Europe. Attention is given to the Italian and Northern Renaissance, fragmentation of Western Christendom, intellectual impact of Luther and Calvin on Western thought and structure of Tudor despotism in England. Prerequisite: HIST 395 or permission of the instructor.

HIST 466. The Family, 1400–1800. 3 credits.
An examination of the bibliography, methods and substance of family history in Europe and America. Emphasis will be on sources, structure, patterns of change and continuity and stages of family life to the Industrial Revolution. Prerequisite: HIST 395 or permission of the instructor.

HIST 467. The Roman Republic. 3 credits.
Covers the political, military, social, economic and intellectual history of the Roman Republic from the traditional date of its foundation to Octavian's victory over M. Antonius and the establishment of the Empire. The course is a mixture of lectures and discussions of primary sources. Students will read selections from important authors such as Livy, Sallust, Caesar and Cicero in addition to scholarly monographs. Prerequisite: HIST 395 or permission of the instructor.

HIST 468. The Roman Empire. 3 credits.
Covers the political, military, social, economic and intellectual history of the Roman Empire from its establishment ca 30 BC to the final division of the Empire into eastern and western halves in AD 395 at the death of Theodosius I. The course is a mixture of lectures and discussions of primary sources. Students will read selections from important authors such as Tacitus, Pliny the Younger, Cassius Dio and Ammianus Marcellinus in addition to scholarly monographs. Prerequisite: HIST 395 or permission of the instructor.

HIST 469. A History of International Development in the Twentieth Century. 3 credits.
This seminar considers major trends in the history of international development since World War II, focusing on American development theories, institutions, and programs but also considering case studies of aid programs worldwide. The course will trace the history of international development by undertaking careful readings and discussions of primary and secondary texts from a variety of disciplines, including history, economics, sociology, anthropology, and political science. Prerequisites: HIST 395 or permission of the instructor.

HIST 470**. Modern Africa. 3 credits.
Africa in the 20th century, with special emphasis on Senegal, Ivory Coast, Gold Coast (Ghana), Nigeria and Zaire. Prerequisite: HIST 395 or permission of the instructor.

HIST 473**. Early Modern Islamic Empires. 3 credits.
This seminar surveys and compares Islamic imperial formations from the 14th Century through World War I, focusing on the Ottoman, Safavid, and Mughal empires that flourished in the global age of early modernity. Prerequisite: HIST 395 or permission of the instructor.

HIST 474. Stalinism in Theory, Practice and Memory. 3 credits.
This course provides an introduction to Stalinism in the Soviet Union and Eastern Europe. It addresses socialist modernization from many angles—the corridors of the Kremlin, the peasant collective farms of Ukraine and Romania, the shop-floors in Moscow, and the streets of Tankhent. The course consists of three units: theories, practices and memories of Stalinism. Each unit explores various political, economic, social and cultural issues related to the Stalinist modernization drive. Prerequisite: HIST 395 or permission of the instructor.

HIST 475. Modern Russia. 3 credits.
A study of Russia from the 1917 Revolution to the present. Readings and discussion will emphasize significant political, economic, social and cultural developments. Prerequisite: HIST 395 or permission of the instructor.

HIST 476. Medieval Europe. 3 credits.
Attention is focused on Europe in the Middle Ages, with a concentration on social and intellectual aspects and the development of parliamentary institutions. Prerequisite: HIST 395 or permission of the instructor.

HIST 477. Eastern Europe. 3 credits.
A study of the lands between Germany and Russia, from the Baltic to the Balkans. Emphasis is on the Hapsburg Empire and its successor states, the origins of the World Wars, the post-World War II communist governments and the cultural and intellectual contributions of the Eastern European people. Prerequisite: HIST 395 or permission of the instructor.

HIST 482. French History Seminar. 3 credits.
Broad introduction to a particular aspect of early modern, revolutionary or modern French history that is characterized by extensive historical debate. See instructor for thematic focus. Students develop knowledge of historical content and of the historiography/methodological approaches, conduct independent research and present findings in writing and in formal research colloquia. Students may repeat seminar for credit if topics differ. Prerequisite: HIST 395 or permission of the instructor.

HIST 483. Baroque and Revolutionary Europe, 1648-1815. 3 credits.
A study of the unfolding of European civilization from the Baroque through the Napoleonic era. Attention is given to the Old Regime and its institutions, the causes of popular revolts, the Enlightenment, the beginnings of industrialism and urbanism, and the impact of the French Revolution on Europe. Prerequisite: HIST 395 or permission of the instructor.

HIST 484. Nineteenth-Century European Civilization, 1815-1914. 3 credits.
An interpretive study of European history from the Congress of Vienna to the outbreak of World War I. Particular attention is given to the intellectual climate of the period, with emphasis on liberalism, nationalism, socialism and nihilism. Prerequisite: HIST 395 or permission of the instructor.

HIST 484**. Colonialism in the Greater Middle East. 3 credits.
A comparative examination of colonialism focusing on the cultural and intellectual dimensions of colonial encounters. Lectures and readings will emphasize European strategies and techniques of rule in the Arab world (including North Africa), Iran and India. Research and writing assignments will allow for the consideration of American involvement in Palestine-Israel, Iraq and Afghanistan. Prerequisite: HIST 395 or permission of the instructor.

HIST 486. Europe Since 1914. 3 credits.
An interpretive study of European history from World War I to the post-Cold War era, with special emphasis on the revolutions of 1917-1919, the rise of totalitarianism, the origins of World War II, the Cold War and the continuing crisis of values. Prerequisite: HIST 395 or permission of the instructor.

HIST 487**. World War II, 3 credits.
An examination of the origins, conduct and immediate aftermath of World War II in Europe and Asia. Attention is given to Japan’s Pacific War, Hitler’s war in Europe and the ultimate victory of the Allies. The major military campaigns are discussed as are collaborations, resistance and the War Crimes Trials. Prerequisite: HIST 395 or permission of the instructor.

HIST 488. The Holocaust in Global Context. 3 credits.
Introduces students to the most significant accomplishments and debates of recent Holocaust scholarship, emphasizing how historical memory of the Holocaust has been created and has evolved over time. Analyzes the historical causes and development of the Holocaust, as well as its cultural, political and scholarly resonance in the post-1945 world. Prerequisite: HIST 395 or permission of the instructor.

HIST 489. Selected Topics in World History. 3 credits.
Selected topics are studied in depth. Course may be repeated when content changes. Only courses with significant content outside of Europe will count toward the world history requirement. See MyMadison and the history department website for information on current classes. Prerequisite: HIST 395 or permission of the instructor.

HIST 490. Travel Studies Seminar. 3 credits.
Designed to encourage the student to augment the regular academic program through independent investigation, including organized travel.
study. Prearrangements must be made with a designated faculty member who will direct the study. Emphasis is placed on formal out-of-class writing. Prerequisite: HIST 395 or permission of the instructor.

HIST 491. Editing Historical Documents. 3 credits.
A seminar in the techniques of analyzing manuscript collections in order to create an edition of historical documents. Study will address the theory and practice of historical documentary editions, including collecting, selecting, transcribing, annotating, proofreading, illustrating, indexing and publishing. Prerequisite: HIST 395 or permission of the instructor.

HIST/ANTH/ARTH 492. Material Culture. 3 credits.
A broad introduction to the multidisciplinary "field" of material culture studies through readings, written assignments, in-class exercises and field trips. The course introduces ways of looking at and learning from objects and examines ways of scholars from several disciplines have used material culture in their work. Prerequisite: HIST 395 or permission of the instructor.

HIST/ARTH 493. Historic Preservation. 3 credits.
An introduction to the philosophy and techniques of historic preservation, guidelines for restoration, state and national register forms and procedures, historic architecture, structural analysis, restoration techniques, as well as the business aspects of historic preservation projects. Field trips are a major component of the course. Prerequisite: HIST 395 or permission of the instructor.

HIST 495. Introduction to Archives and Manuscripts. 3 credits.
An introduction to archives administration and the principles and practices of archival arrangement and description. Through targeted readings and leadership roles in discussion, as well as field trips and projects, students will explore topics in appraisal, acquisition, preservation, and intellectual and physical access, as well as contemporary ethical, legal and technological issues. Prerequisite: HIST 395 or permission of the instructor.

HIST/ANTH 496. Research Thesis. 3 credits.
A seminar in the techniques of analyzing manuscript collections in order to create an edition of historical documents. Study will address the theory and practice of historical documentary editions, including collecting, selecting, transcribing, annotating, proofreading, illustrating, indexing and publishing. Prerequisite: HIST 395 or permission of the instructor.

HIST 499. Honors. 6 credits.
Year course. Prerequisite: HIST 395.
** This course satisfies the Department of History world history requirement.

Honors

Honors Program

HON 100. Honors First Year Seminar. 1 credit.
As an introductory experience in the Honors Program, students will be oriented to Honors activities and goals, high impact university learning practices, seminar requirements and areas of emphasis sequences, and leadership, service, and research opportunities. Students will examine their personal and educational goals and participate in ethical reflection that expresses itself in scholar-citizenship and community engagement.

HON 200. Special Topics in Honors. 1-3 credits.
Unique, interdisciplinary courses designed specifically for the Honors Program. These courses explore a range of complex topics that deal with contemporary issues in society, multicultural and comparative studies, and advanced applications in business and the natural and social sciences. Seminars are designed to be flexible small classes that may reflect unique, sometimes experimental, styles of teaching. Prerequisite: Enrollment in Track I or Track II of the Honors Scholars program.

HON 300. Advanced Special Topics in Honors. 1-3 credits.
Unique, interdisciplinary courses designed specifically for the Honors Program. These courses explore a range of complex topics that deal with contemporary issues in society, multicultural and comparative studies, and advanced applications in business and the natural and social sciences. Seminars are designed to be flexible small classes that may reflect unique, sometimes experimental, styles of teaching. HON 300 seminars are not recommended for first year students. Prerequisite: Enrollment in Track I or Track II of the Honors Scholars program.

HON 321. Leadership I. 3 credits.
This Honors Seminar is the first course within the Leadership Area of Emphasis. Students will be introduced to the meaning, study and practice of leadership through the examination and evaluation of leadership styles and behavior. Students will analyze the way in which leadership principles and practices have been and can be applied to their lives. Through this study, students will develop their own personal leadership potential.

HON 322. Leadership II. 3 credits.
This Honors Seminar offers a variety of individualized and/or small group experiential learning opportunities in association with the Leadership Area of Emphasis. Prerequisite: HON 321.

HON 323. Leadership II. 1-3 credits.
This practicum course offers an intense independent study opportunity for students to work one-on-one or in small groups with faculty mentors on a project of their design. The specifics of these offerings will be designed by faculty mentors and the Area of Emphasis Honors student(s). Objectives, goals and deliverables should be an extension and follow-up to activities associated with an experiential Areas of Emphasis course. Prerequisites: HON 321 and HON 322.

HON 331. Global Studies I. 3 credits.
This Honors Seminar is the first course within the Global Studies Area of Emphasis. We will examine how people study and perceive similarities, differences and interdependencies among human societies through the exploration of social sciences, arts, humanities, health, education, environmental and developmental studies. Course components will promote global citizenship through discussion, the introduction of new concepts and critical thinking related to current issues and case studies.

HON 332. Global Studies II. 3 credits.
This Honors Seminar offers a variety of individualized and/or small group experiential learning opportunities in association with the Global Studies Area of Emphasis. Prerequisite: HON 331.

HON 333. Global Studies III. 1-3 credits.
This practicum course offers an intense independent study opportunity for students to work one-on-one or in small groups with faculty mentors on a project of their design. The specifics of these offerings will be designed by faculty mentors and the Area of Emphasis Honors student(s). Objectives, goals and deliverables should be an extension and follow-up to activities associated with an experiential Areas of Emphasis course. Prerequisites: HON 331 and HON 332.

HON 341. Scientific Research I. 3 credits.
This Honors Seminar offers a variety of individualized and/or small group experiential learning opportunities in association with the Research Area of Emphasis. Prerequisite: HON 341.

HON 342. Scientific Research II. 3 credits.
This practicum course offers an intense independent study opportunity for students to work one-on-one or in small groups with faculty mentors on a project of their design. The specifics of these offerings will be designed by faculty mentors and the Area of Emphasis Honors student(s). Objectives, goals and deliverables should be an extension and follow-up to activities associated with an experiential Areas of Emphasis course. Prerequisites: HON 341 and HON 342.

HON 351. Service I. 3 credits.
This Honors Seminar is the first course within the Service Area of Emphasis. Engaged citizens make differences in the quality of life in local, national and global communities. Upon studying a wide spectrum of contemporary issues, engaged citizens take action. This seminar provides opportunities for students to combine their intellectual pursuits with civic engagement and discourse, thereby empowering them to become engaged participants in tomorrow’s global society.

http://www.jmu.edu/catalog/14
HON 352. Service III. 3 credits.
This Honors Seminar offers a variety of individualized and/or small group experiential learning opportunities in association with the Service Area of Emphasis. Prerequisite: HON 351.

HON 353. Service III. 1-3 credits.
This practicum course offers an intense independent study opportunity for students to work one-on-one or in small groups, with faculty mentors on a project of their design. The specifics of these offerings will be designed by faculty mentors and the Area of Emphasis Honors student(s). Objectives, goals, and deliverables should be an extension and follow-up to activities associated with an experiential Area of Emphasis course. Prerequisites: HON 351 and HON 352.

HON 361. Creativity I. 3 credits.
The course explores basic concepts of creativity across the disciplines and cultures. Course content includes the study and analysis of creative expression, the application of theories and conceptual frameworks, and the various modes of creative cognition.

HON 362. Creativity II. 3 credits.
This Honors Seminar offers a variety of individualized and/or small group experiential learning opportunities in association with the Creativity Area of Emphasis. Prerequisite: HON 361.

HON 363. Creativity III. 1-3 credits.
This practicum course offers an intense independent study opportunity for students to work one-on-one or in small groups with faculty mentors on a project of their design. The specifics of these offerings will be designed by faculty mentors and the Area of Emphasis Honors student(s). Objectives, goals, and deliverables should be an extension and follow-up to activities associated with an experiential Area of Emphasis course. Prerequisites: HON 361 and HON 362.

HON 499, A, B, C. Honors Senior Project. 1, 3 or 2 credits.
This is a three semester course, offered as parts A, B and C for one, three and two credits per semester, respectively. Enrollment is restricted to those honors students (Track I, II or III) whose senior projects are not discipline specific. This could include certain collaborative projects or experientially-based projects. Prerequisite: Permission of the Honors Program Director.

Hospitality Management

School of Hospitality, Sport and Recreation Management
HM/SMR 201. Foundations of Hospitality, Sport and Recreation Management. 3 credits.
An introduction to the basic professions that make up the School of Hospitality, Sport and Recreation Management. A focus on these professions in governmental, voluntary, private and commercial settings is incorporated. Finally both the economical significance and the professional preparation for success in the industry is both introduced and practiced. Prerequisite: HM or SMR major or permission of director.

HM/SMR 202. Foundations of Leadership in Hospitality, Sport and Recreation Management. 3 credits.
An introduction to leadership in the Hospitality, Sport and Recreation Management (HSRM) industry. The primary focus will be leadership theory, skill application with a focus on personal awareness. Prerequisite: HM or SMR major or permission of director.

HM/SMR 203. Foundations of Ethics and Law in Hospitality, Sport and Recreation Management. 3 credits.
An introduction to ethics and law within the Sport, Hospitality and Recreation (HSRM) industry. The ethical portion introduces students to select theories of ethics, ethical issues and an ethical decision making model; and the legal portion introduces students to basic legal terminology and concepts while concentrating on negligence and employment issues. Prerequisite: HM or SMR major or permission of director.

HM 211. Overview of Hospitality and Tourism Management. 3 credits.
Exposes students to the areas of lodging, food and beverage, tourism and entertainment management, special events and meeting planning, and club and resort management. Emphasis is on hospitality industry scope, organization and economic impact; includes familiarization with industry terminology and individual and business contributors to the field of hospitality and tourism management. Prerequisite: HM major or permission of director.

HM 212. Hospitality Prowess. 3 credits.
An applied hospitality course consisting of experiential exercises followed by class discussion along with actual work experience as an employee within the hospitality field. Role playing and cases are used as learning activities where the instructor acts as a facilitator to learning. Debriefing is used extensively as a way of creating essential theory. Students must successfully complete ServSafe Food Protection Manager Certification. Lab fee for ServSafe. Prerequisite: HM major or permission of director.

HM 288. Special Studies in Hospitality Management. 3 credits.
A special studies course designed to explore areas of current topical concern in the lodging, food and beverage, travel and tourism, and entertainment industries. Course content will vary. Prerequisite: HM major or permission of director.

HM 310. Internship. 3 credit.
Required 600 hours of approved hospitality and tourism work experience. Credit/No Credit only. All work sites must be approved. Prerequisites: HM 201, HM 202, HM 203, HM 211 and HM 212. Corequisite: HM 311.

HM 311. Hotel Operations and Hospitality Technology. 3 credits.
An in-depth look at a full service hotel through the eyes of a general manager. The course will focus on operations, engineering, housekeeping, uniformed services, front office, reservations and revenue management. Different hospitality technology platforms and software programs will be used to expose students to hospitality technology. Prerequisite: Junior standing, HM major or permission of director. Corequisite: HM 310.

HM 350. Culinary Arts and Catering Operations. 3 credits.
An application of basic food preparations for the hospitality industry. Focus is on preparing students to understand gastronomy and communicate with culinarians. Menu development, plate presentation, preparation methods, and flavor development and food service trends will be experienced. Lab fee applies. Uniform required. Prerequisites: HM 310 and ServSafe certified or equivalent or permission of director. Corequisites: Junior status and HM 351.

HM 356. Cost Control and Budgeting. 3 credits.
Introduction to cost control, budgeting and financial analysis as it relates to the hospitality industry. Students work as a team to create a detailed business plan. Prerequisites: HM 310 and ServSafe certified or equivalent or permission of director. Corequisites: HM 350.

HM 381. Italian Culture and Wine. 3 credits.
An introduction to the fundamentals of wine making, wine tasting and glossary of terms provide a framework for visual, olfactory and gustative analysis. The historical value of wine, together with its cultural, economic and social meaning in Italy, are explored. Course taught in Florence, Italy. Lab fee applies. Prerequisite: Student must be enrolled in JMU in Florence Program.

HM 382. Italian Gastronomy. 3 credits.
This course is designed to teach students the applied approach to match wine and food from different parts of the world using flavors, textures and components present in food and wine in complementing strategies. Emphasis will be placed on menu planning, cooking methods and tasting wines with food in a formal dining room. Course offered in Florence, Italy. Lab fee applies. Prerequisite: Student must be enrolled in JMU in Florence Program.

HM 383. Italian Culinary Arts. 3 credits.
An application of traditional and innovative Italian and European dishes are contrasted for flavors, colors and nutritive values giving participants the opportunity to see and taste the evolution of Italian cuisine and the ability to practice techniques for recipe development. Course taught in Florence, Italy. Prerequisite: Student must be enrolled in JMU in Florence Program.

HM 402. Supervisory Hospitality Internship. 3 credits.
Required 400 hours of approved hospitality supervisory experience. CR/NC only. All work sites must be pre-approved. Prerequisite: HM 310, HM 311 and junior status.

HM 411. Hospitality Law. 3 credits.
The course focuses on the application of the law to the hospitality industry including rights and obligations of guests and lodging, food service, club, event management and association operators. The identification of potential legal problems and formulation of preventive measures to limit/prevent liability are emphasized. Prerequisites: HM 402. Corequisites: HM 440, HM 441 and HM 442.

HM 412. Club and Resort Management. 3 credits.
An application of business concepts to the private equity club and full service resort industry. Industry cases are used to facilitate discussion of similarities and differences among private equity clubs, full service resorts and other hospitality businesses in the areas of culture, asset management and operations. Prerequisite: HM 402 or permission of director. Corequisites: HM 440, HM 441 and HM 442.

HM 413. Special Events and Meeting Management. 3 credits.
Course designed to explore conferences, conventions, expositions, meetings and special events as they relate to the responsibilities of a planner, selection criteria for host venues, legal and ethical issues, negotiating process, program design, budgeting, contracts, marketing, logistics and evaluation. Prerequisite: HM 402 or permission of director. Corequisites: HM 440, HM 441 and HM 442.

http://www.jmu.edu/catalog/14
HM 414. Beverage Management and Marketing. 3 credits.
The course is designed to enhance knowledge in the identification and evaluation of beverages typically served in hospitality establishments. Special attention is given to alcoholic and non-alcoholic beverages with regard to price/quality relationships; channels of distribution and marketing; trends and current issues faced by the industry; and service ethics. Prerequisite: Must be 21 years of age or older and declared HM major, and HM 402. Corequisites: HM 440, HM 441 and HM 442.

HM 415. Entertainment Management. 3 credits.
A senior capstone course designed to expose students to strategic issues concerning the entertainment industry. Course content will vary. Lab fee applies. Prerequisite: HM 402 or permission of director. Corequisites: HM 440, HM 441 and HM 442.

HM 419. Napa and Sonoma Wine and Culture. 3 credits.
Napa and Sonoma are the premier wine growing regions in the United States. The wines influence wines across the US and around the world. The ability to impressively learn about the wine, food, and culture that influence the region can only be fully accomplished by visiting. Students are able to visit wineries and speak with owners, visit growers and speak with the farmers, visit nurseries and discuss varietals. Prerequisite: HM major; 21 years old first day of class and permission of director.

HM 421. Hospitality Ethics. 3 credits.
Ethical issues and actions that have occurred, or are currently occurring, in the hospitality industry and examine them from multiple perspectives. Examining recent scandals, real-world scenarios, news stories, and common ethical dilemmas will enable a student to recognize an ethical dilemma, understand the components of the dilemma, and make an ethical decision. Prerequisite: HM junior status and HM 310 or permission of director.

HM 422. Hospitality Human Resources Management. 3 credits.
Identification and exploration of the information needs of the Hospitality manager in making policy and personnel decisions. Different philosophies and processes for locating, attracting, hiring and training a qualified staff are examined. Emphasis is placed on the work environment within the service industry. Employment law will be emphasized as a part of the course. Prerequisite: Junior status, HM 310 and HM 311, or permission of director.

HM 440. Hospitality Leadership. 3 credits.
Management teams are required to produce an enjoyable evening composed of quality food and entertainment while staying within budget. Students complete a financial and operational analysis upon completion of their themed event. Senior assessment may also occur. Prerequisite: HM 350, HM 351 and HM 402. Corequisite: HM 441 and HM 442.

HM 441. Hospitality Financial Management. 3 credits.
An examination of common financial statements used by hospitality managers to make decisions regarding budgets and investment. Corporate financial models within the hospitality industry are explored, such as franchising, ownership and REITs. Appropriate software is used in the class. Prerequisite: HM 350, HM 351 and HM 402. Corequisite: HM 440 and HM 442.

HM 442. Hospitality Seminar. 3 credits.
A senior capstone course designed to assist in transitioning from being a university student to holding a leadership role within the hospitality industry. The interactive course draws upon the umbrella curricular goals of the hospitality management program in communication, ethics, finance and leadership. Senior assessment may also occur. Prerequisite: HM 350, HM 351 and HM 402. Corequisite: HM 440 and HM 441.

HM 490. Special Studies in Hospitality and Tourism Management. 3 credits.
Designed to give capable students in hospitality and tourism management an opportunity to complete independent study under faculty supervision. Prerequisite: Permission of director.

HM 498. Special Topics in Hospitality and Tourism Management. 3 credits.
This course is designed to allow explorations of areas of current topical concern, or to exploit special situations. Course content will vary. For current course content consult your adviser. Prerequisite: Permission of director.

HM 499. Honors. 6 credits.
Year course. See catalog section “Graduation with Honors.” Prerequisite: Permission of the instructor or director.

Human Resource Development

College of Education

HRD 100. Human Resource Development Leadership Laboratory. 2 credits.
Hands-on practicum of leadership strategies and techniques designed to give each student a better appreciation for the dynamics of leadership in intimate, physically challenging and stressful environments, both indoors and out. Students operate in teams which are formed and reorganized on a continuous basis, surrounded by peer at several levels of leadership experience and training. Collaborative learning is enhanced when students apply what they learn in class by describing relevant lessons learned through experiences outside the classroom. The focus of this course is to provide students with the opportunity to lead and follow in an observed setting and receive constant feedback and mentoring on their demonstrated leadership skills. Students learn though leading as well as through a critical reflection, inquiry, dialogue and group interaction. Everyone is responsible for contributing to the learning process.

HRD 101. Introduction to Leadership. 1 credit.
An introduction to various leadership styles and their effect on organizations; insights into the leader’s roles and responsibilities within the context of the organization; character and values based leadership; basic leadership actions; the importance of self-improvement in the areas of time management, health and fitness, goal setting, academic accomplishment and communication; group dynamics; and the development of interpersonal skills. Corequisite: HRD 100.

HRD 145. Leadership in a Diverse World. 3 credits.
This leadership course, focusing on diversity, examines leadership and change while encouraging practical application. Students conduct research on leadership in a diverse world, explore change leadership from multiple perspectives and examine leadership in everyday settings, particularly daily leader and follower interaction. Self-assessment of diversity and leadership assumptions, models, context and themes are addressed.

HRD 201. Leadership Styles Theory and Application. 2 credits.
Explores the dimensions of creative and innovative leadership strategies and styles by examining team dynamics and two historical leadership theories that form the basis of the leadership framework (train and behavior theories). Students practice aspects of personal motivation and team building in the context of planning, executing and assessing team exercises and participating in leadership skills labs. Focus is on continued development of the knowledge of leadership values and attributes through an understanding of institutional structures, duties and responsibilities of organizational/institutional leaders, and leadership in small organizations. Case studies provide tangible context for learning leadership skills, values, actions and attributes as they apply to a contemporary setting. Prerequisites: HRD 100, HRD 101. Corequisite: HRD 202.

HRD 202. Developing Leader Skills. 2 credits.
Examines the challenges of leading teams in a complex contemporary operating environment. This course highlights dimensions of leadership actions as well as developing an understanding of the process to develop plans and orders for others to execute. Continued study of the theoretical basis of the leadership framework explores the dynamics of adaptive leadership in the context of historical settings.

Humanitarian Affairs

Cross Disciplinary Studies

HUMN 201. Introduction to Humanitarian Affairs. 3 credits.
A geographical overview of poverty, armed conflict, hunger, disease, and natural disasters and how they can lead to humanitarian crises. It includes a study of human rights along with a look at international efforts to address, and international organizations that deal with, humanitarian crises.

HUMN/GEOG 301. Introduction to Natural Disasters Response. 3 credits.
Designed to give students an overview of the various types of natural disasters; a look at the world regions that are most vulnerable to each type of disaster; and a preview of disaster planning, management, relief and response as related to natural disasters.

HUMN/GEOG 360. GIS for Humanitarian Assistance. 3 credits.
In responding to humanitarian crises, governments and aid organizations must deploy aid workers, deliver essential services, set up temporary settlements, and respond to humanitarian crises. As an “international setting,” either in the U.S. or abroad, and to apply knowledge and skills acquired through the Humanitarian Affairs program. This course must be completed in a setting approved by the student’s adviser and the humanitarian affairs minor committee. Prerequisites: HUMN 201 and junior status.

http://www.jmu.edu/catalog/14
Inclusive Early Childhood Education

College of Education
IECE 200. Introduction to Inclusive Early Childhood Education. 1 credit.
This course is designed to introduce students to inclusive early childhood education and will become required for all teacher education programs with professional ethics and standards, professional organizations, and the roles and responsibilities of teachers in inclusive environments. Students will engage in observation of and reflection on practices in inclusive early childhood education.
IECE 300. Programming and Practices in Inclusive Early Childhood Education. 3 credits.
This course is designed to introduce students to the issues and trends in the education of all infants, toddlers and young children. It will provide the historical, philosophical, social and legal background for current practices in the field and will engage students in synthesizing and analyzing this information along with research as it pertains to professional practice. Prerequisite: Admission to teacher education pre-professional licensure program.
IECE 301. Inclusive Early Childhood Education Programming and Practices Practicum. 1 credit.
This practicum supports IECE 300. Students will further their understanding of the issues and trends impacting young children and their families in our community and evaluate their own perspectives and skills as they pertain to working with young children and families from diverse backgrounds, with diverse abilities and in diverse settings. Prerequisite: Admission to teacher education pre-professional licensure program.
IECE 303. Development of Young Children Birth Through Age 8. 3 credits.
This course provides students with an understanding of the development of infants, toddlers, and young children with and without exceptionalities. Skills for observing, recording and interpreting the behavior of the young child as a basis for adult intervention and guidance are developed. Corequisites: IECE 300 and IECE 301.
IECE 320. Development and Assessment of Infants. 3 credits.
This course provides students with an understanding of the development of infants and toddlers with and without exceptionalities. Students will acquire knowledge and skills in authentic assessment to be used in decision making and service planning. Prerequisites: IECE 300 and IECE 301. Corequisites: IECE 321 and IECE 322.
IECE 321. Practicum Supporting the Development of Infants and Toddlers. 2 credits.
This first intermediate field experience provides candidates opportunities to use their knowledge of child development to observe and assess children and then to plan meaningful learning environments and experiences for those children. Corequisites: IECE 322 and IECE 324.
IECE 322. Supporting the Development of Infants and Toddlers. 3 credits.
This course explores, analyzes, and evaluates curriculum and methodology related to the design and management of a nurturing, supportive, and challenging learning environment for children ages 3-8 years. Emphasis is on the physical environment, design and selection of curricular components, the role of play in the curriculum, skills for professional intervention and interaction, and use of technology to facilitate young children's learning. Prerequisites: IECE 320, IECE 321 and IECE 322. Corequisites: IECE 420 and IECE 421.
IECE 423. Intermediate Field Experience in IECE II. 2 credits.
This second intermediate field experience provides candidates opportunities to use their knowledge of child development and assessment to create learning environments and experiences for children. Candidates will learn more about the adult’s role in supporting children and managing behavior.
IECE 450. Contemporary Family Issues in Inclusive Education. 3 credits.
This course will examine how students' own cultural values shape their interactions with children and families as well as to meet the needs of children with disabilities. Prerequisites: IECE 420, IECE 421, IECE 422 and IECE 423. Corequisites: IECE 461, IECE 462, IECE 463 and IECE 466.
IECE 461. Advanced Field Experience in IECE. 2 credits.
The first advanced field experience provides candidates opportunities to use their knowledge of child development to plan meaningful learning experiences. Candidates will learn how the adult’s role in supporting children to construct understandings about the natural and social sciences and to use mathematical thinking.
IECE 462. Instructional Practices in Numeracy. 3 credits.
This course provides students with the knowledge, skills, and understandings necessary to design and implement effective mathematics programs for young children, birth to age eight, with and without exceptionalities. Focus is on appropriate mathematical content, teaching strategies, and manipulative materials from a developmental perspective with special emphasis on adaptations designed to meet the needs of all children. Prerequisites: IECE 420, IECE 421, IECE 422 and IECE 423. Corequisites: IECE 460, IECE 461, IECE 462, IECE 463 and IECE 466.
IECE 464. Instructional Practices in Social Studies for Young Children. 3 credits.
This course provides students with the knowledge, skills and understandings to design and implement effective social studies programs for all young children, birth to age eight. Focus is on appropriate science content, teaching strategies and materials from a developmental perspective with a special emphasis on adaptations designed to meet the needs of all children with disabilities. Prerequisites: IECE 420, IECE 421, IECE 422 and IECE 423. Corequisites: IECE 460, IECE 461, IECE 462, and IECE 466.
IECE 466. Seminar in Managing Classrooms and Guiding Behavior. 1 credit.
This seminar examines research and professional literature on effective strategies for guiding young children’s behavior and managing groups. IECE 466 uses experiences in IECE 461 as a foundation for reflection, dialogue and development of a personal philosophy of classroom management. Prerequisites: IECE 420, IECE 421, IECE 422 and IECE 423. Corequisites: IECE 460, IECE 461, IECE 462, and IECE 466.

Individualized Study

Outreach and Engagement
IS 200. Individualized Studies Major Program Development. 3 credits.
An introductory course designed to prepare students for transition into higher education programs. Specific content includes focusing a concentration, selecting an academic adviser, creating an individualized program, technology in higher education, accessing career resources, career decision-making skills, self-awareness, life planning, identifying college level experiential learning, documenting experiential learning, determining a credit request and organizing a portfolio for assessment. Prerequisite: Individualized studies majors and individualized studies special students only.
IS 202. Orientation to Career and Life Planning. 1 credit.
A short orientation course designed to prepare students for transition into higher learning education programs. Specific content includes accessing career resources, career decision-making skills, self-awareness and life planning.

http://www.jmu.edu/catalog/14
IS 203. Portfolio Development Workshop. 1 credit.
A short orientation course designed to prepare students for transition into higher learning education programs. Specific content includes identifying college-level experiential learning, documenting experiential learning, determining a credit request and organizing a portfolio for assessment. Prerequisite: Individualized studies majors and individualized studies special students only.

IS 250. Service Learning. 1-8 credits, repeatable.
Leadership, citizenship and professional competencies may be acquired through community service experiences. Documented service learning competence will be assessed by the Community Service Learning and credit awarded as appropriate. Prerequisite: IS 200.

IS 270. Selected Topics. 1-6 credits, repeatable.
In-depth study of selected topics with current importance and interest to lower division students that are not otherwise covered in the regular course offerings of academic units. Course content will vary. Prerequisite: Approval of the “Course Agreement Form” by the Individualized Study department head.

IS 275. Dollars and Sense. 3 credits.
This practical course will review the affect a personal philosophy on money, and management of personal finances, has on all aspects of life when it comes to securing the American Dream. Students will learn real life skills in the areas of eliminating debt, creating a budget, understanding investments and insurance, saving money, planning for retirement, shopping for a house and other topics dealing with financial issues faced in daily life.

IS 290. Special Studies. 1-6 credits, repeatable.
Designed to give students an opportunity to do lower-division independent study in selected interdisciplinary areas under the supervision of a faculty member in the appropriate academic unit. Prerequisite: Approval of the “Course Agreement Form” by the Individualized Study department head.

IS 300. Sponsored Learning. 1-6 credits, repeatable.
A structured learning activity related to a student’s area of study and sponsored by an employer, volunteer agency or other appropriate organization. Prerequisite: Approval of the “Course Agreement Form” by the Individualized Study department head.

IS 480. Cooperative Studies. 1-6 credits, repeatable.
Two or more upper-level students may elect to study cooperatively in a selected area of current importance and interest under the supervision of a faculty member in the appropriate academic unit. Prerequisite: Approval of the “Course Agreement Form” by the Individualized Study department head.

IS 490. Special Studies. 1-6 credits, repeatable.
Designed to give students an opportunity to do upper-division independent study in selected interdisciplinary areas under the supervision of a faculty member in the appropriate academic unit.

IS 498. Bachelor of Individualized Study Project. 3-6 credits.
An in-depth study of an interdisciplinary topic directly related to the student’s areas of concentration. A final oral report is required. Prerequisite: Approval of the “Course Agreement Form” by the Individualized Study department head.

IS 499. Honors. 6 credits.
Multiple-semester course. Prerequisite: Approval of the “Course Agreement Form” by the Individualized Study department head.

Industrial Design
School of Art, Design and Art History
All INDU courses are restricted to declared art, art history, graphic design, and interior design majors in art and art history during the fall and spring semesters. During May and summer sessions, INDU courses are open to all students who meet the additional stated course prerequisites. Non-majors wishing to enroll in an INDU course during the fall and spring semesters may request permission of the instructor.

INDU/IARC 220. CAD: 3D Modeling. 3 credits.
This course will introduce students to principles used in 3D Cad and BIM modeling. Technologies to draw three dimensionally on the computer will be considered as a discipline within itself, and students will be instructed to use the machine for design exploration. Various software packages will be utilized during the semester.

Independent activity at the intermediate level, such as research or studio practice, under faculty supervision. Projected studies in any area of the school’s offering must be arranged with the instructors who will direct them. Offered only with the consent of the instructor.

INDU 392. Topics in Industrial Design. 3 credits.
Study of selected topics in art, art history, graphic design, interior design, or industrial design at the intermediate level. May be repeated when course content changes. See e-campus for current topics.

INDU 490. Independent Studies Industrial Design. 1-3 credits, repeatable. Offering varies.
Independent activity, such as research or studio practice, under faculty supervision. Projected studies in any area of the school’s offering must be arranged with the instructors who will direct them. Offered only with consent of the instructor.

INDU 491. Studio Assistant. 1-3 credits, repeatable. Offering varies.
An off-campus program prepared and monitored on an individual basis. Internships are designed to provide practical experience in the arts. Prerequisites: Permission of the instructor.

INDU 492. Topics in Industrial Design. 3 credits. Offering varies.
Study of selected topics in industrial design at the advanced level. May be repeated when course content changes. See MyMadison for current topics.

INDU 496. Internship in Industrial Design. 1-8 credits.
An off-campus program prepared and monitored on an individual basis. Internships are designed to provide practical experience in the arts. Prerequisites: Permission of the instructor.

Integrated Science and Technology
Department of Integrated Science and Technology
First Year Student – Sophomore Sequence
GISAT 100. Environmental and Energy Sustainability. 3 credits.
This course explores scientific and technical issues important to environmental and energy sustainability. Students study fundamental chemistry and physics and then apply this knowledge to better understand air quality, water quality, and conventional and alternative energy processes. The class also explores the societal impacts of our energy choices and the potential impact we as individuals can have through personal initiative.

GISAT 101. ISAT Freshman Seminar. 1 credit.
This seminar course will introduce the ISAT curriculum and career options to freshmen students and will describe how various elements of the curriculum and available ISAT elective sequences in each technology sector relate to the goals and objectives of the program. Prerequisite: Freshman standing at JMU.

GISAT 112. Environmental Issues in Science and Technology (2, 2). 4 credits.
This course integrates the study of biology, chemistry and statistics within the context of environmental issues that include ozone depletion, acid rain, global warming, waste management and biodiversity.

GISAT 113. Biotechnology Issues in Science and Technology (2, 2). 4 credits.
This course introduces current topics in the life science technologies through lecture and laboratory exercises. Topics include advances in genetic engineering, the hierarchy of life and the rise of infectious diseases.

GISAT 131. Technology, Science and Society (1, 2). 3 credits.
This course introduces the social aspects of technology and science. It covers social science methods and related philosophical and ethical analyses. Students learn how the practice of science relates to the human-built world and why critical evaluations of science and technology policies are important.

GISAT 141. Analytical Methods. 4 credits.
This course introduces the student to science and the scientific method; introductory statistics and graphical data analysis, with emphasis on using the computer for managing data and for empirical modeling, functions for modeling real-world systems; critical thinking skills for analyzing arguments involving data; project management.

GISAT 150. Algebra Essentials. 1 credit.
This course provides review and practice in algebra concepts that are needed to successfully complete GISAT 151. Various mathematical models, including trigonometric, are also reviewed. The course is designed for students who possess a basic understanding of algebra but are not proficient in its application. Prerequisite: Permission of the instructor. Corequisite: GISAT 151 and permission of the instructor.
ISAT 151. Topics in Applied Calculus in ISAT. 4 credits.
This course introduces the concepts of differential and integral calculus and ordinary differential equations to model real-world applications in science, business, technology and economics. This course includes a computer laboratory component emphasizing modeling and numerical methods. Course assumes familiarity with algebra and trigonometry.

ISAT 151L. Analytical Methods I: Applied Calculus Laboratory. 1 credit.
This course is the laboratory portion of ISAT 151. Topics in Applied Calculus in ISAT. It is intended for students who already have AP credit or calculus lecture credit. Students will use numerical methods to solve mathematical modeling and calculus problems with Microsoft Excel. Students will study linear, polynomial, exponential, logarithmic, S-curve and trigonometric trends in business and the physical and natural sciences. Prerequisites: Permission of the instructor or academic unit head required.

ISAT 152. Topics in Applied Physics in Integrated Science and Technology. 4 credits.
This course introduces topics in general physics including one- and two-dimensional motion, mechanics, energy, waves, electricity, magnetism, optics, lasers, and early quantum theory. Vectors, algebra, and differential and integral calculus, are used to model physical system behavior. Laboratory experiments and computer exercises enhance understanding of the concepts. Prerequisites: ISAT 151 or permission of the instructor.

ISAT 160. Problem Solving Applications in Science and Technology. 3 credits.
This course examines issues in modern science and technology as a means to introduce, develop and enhance critical thinking and problem solving skills. Current scientific and technological research and applications will be introduced to reinforce problem solving, instruction in systems thinking and critical inquiry. The course provides opportunities for using both oral and written communication in a variety of learning activities.

ISAT 165/BIO 203. Viral Discovery. 1 credit.
This course is an exploratory laboratory experience, designed for incoming freshmen. In the course, the students will learn about the life cycle and ecology of viruses infecting bacteria. Soil samples will be collected, and techniques for isolation and purification of the viruses will be performed by the students. Isolated viruses will be characterized using electron microscopy. The genomic material will be isolated and prepared for nucleic acid sequencing.

ISAT 166/BIO 204. Viral Genome and Bioinformatics. 2 credits.
This is a computer-based laboratory experience, designed for those students completing the Viral Discovery course. Students will learn how to identify genes in a viral genome, compare the predicted proteins with known proteins in databases, describe the contents of the genome, and retain all the relevant information for publication. Students will also research the ecology of soil and the role played by bacteriophages in ecology and evolution. Prerequisites: ISAT 165 or BIO 203.

ISAT 180. Topics in Integrated Science and Technology. 1-4 credits.
Special topics in integrated science and technology which are of interest to the entry-level student. May be repeated for credit when course content changes. Students should consult the instructor prior to enrolling for the course. Prerequisite: Permission of the instructor.

ISAT 181. Student Research Report. 1-6 credits, variable.
Research project on a science and technology topic of interest, as arranged with a faculty research adviser. Projects will include as assessment of the non-technical issues that surround the technical problem.

ISAT 203. Viral Discovery. 2 credits.
An exploratory laboratory experience, designed for incoming freshmen. Students will learn about the life cycle and ecology of viruses infecting bacteria. Soil samples will be collected, and techniques for isolation and purification of the viruses will be performed by the students. Isolated viruses will be characterized using electron microscopy. The genomic material will be isolated and prepared for nucleic acid sequencing.

ISAT 204. Viral Genome and Bioinformatics. 2 credits.
This is a computer-based laboratory experience, designed for students completing the Viral Discovery course. Students will learn to identify genes in a viral genome, compare the predicted proteins with known proteins in databases, describe the contents of the genome and note all the relevant information for publication. Students will also research the role of bacteriophages in ecology and evolution. Prerequisites: ISAT 203 or BIO 203.

ISAT 211. Modern Production Issues in Science & Technology (2, 2). 3 credits.
This course introduces the structure and function of a manufacturing enterprise and product design and process selection with emphasis on computer-based automation and integration technologies. Total Quality Management (TQM), statistical process control, principles of engineering drawings, and engineering economy will also be covered. Prerequisite: ISAT 151 or consent of instructor.

ISAT 212. Energy Issues in Science and Technology (2, 2). 3 credits.
Introduction to scientific and economic concepts relevant to energy. Concepts are taught within the context of three or four themes, e.g., residential energy efficiency, renewable energy sources, "make-or-buy" fossil energy application and space power systems. Themes may change from year to year reflecting contemporary issues and opportunities to link with industry and government agencies. Prerequisite: ISAT 152 or consent of instructor.

ISAT 231. Political Economy of Technology and Science. 3 credits.
Solutions to human problems are mediated by economic and political institutions, which in turn help to shape technology and science. The course covers basic political and economic concepts, institutions and processes as they relate to American and international science and technology.

ISAT 251. Topics in Applied Statistics in ISAT. 3 credits.
This course introduces statistical thinking - the discipline and methods for collecting, analyzing and interpreting data for making decisions, doing science and understanding our world. Topics covered include an introduction to data analysis methods, probability and chance, statistical reasoning and inference, and experimental design. The course includes a laboratory component emphasizing hands-on analysis of data taken from a variety of applications in ISAT. Prerequisite: Sophomore standing or permission of the instructor.

ISAT 252. Programming and Problem Solving (2, 2). 3 credits.
Introduction to computational thinking and formal logic. Students create software to solve problems in applied science, business, and engineering taking social context into account. Programming paradigms include procedural, object-oriented, event-driven, and declarative. Emphasis is placed on effective analysis, planning, documentation, communication, and teamwork in professional software development settings. Prerequisite: Sophomore standing or permission of the instructor.

ISAT 252K. Programming and Problem Solving: Knowledge Based Systems. 1 credit.
Introduction to computational thinking and formal logic. Students create software to solve problems in applied science, business, and engineering taking social context into account. The declarative programming paradigm is covered. Emphasis is placed on effective analysis, planning, documentation, communication, and teamwork in professional software development settings.

ISAT 253. Instrumentation and Measurement in ISAT (2, 2). 3 credits.
Introduction to computational thinking and formal logic. Students create software to solve problems in applied science, business, and engineering taking social context into account. The declarative programming paradigm is covered. Emphasis is placed on effective analysis, planning, documentation, communication, and teamwork in professional software development settings.

ISAT 254. Instrumentation and Measurement in ISAT (2, 2). 3 credits.
Introduction to computational thinking and formal logic. Students create software to solve problems in applied science, business, and engineering taking social context into account. The declarative programming paradigm is covered. Emphasis is placed on effective analysis, planning, documentation, communication, and teamwork in professional software development settings. Prerequisite: Sophomore standing or permission of the instructor.

ISAT 255. Instrumentation and Measurement in ISAT (2, 2). 3 credits.
Introduction to computational thinking and formal logic. Students create software to solve problems in applied science, business, and engineering taking social context into account. The declarative programming paradigm is covered. Emphasis is placed on effective analysis, planning, documentation, communication, and teamwork in professional software development settings. Prerequisite: Sophomore standing or permission of the instructor.

ISAT 251. Topics in Applied Statistics in ISAT. 3 credits.
This course introduces statistical thinking - the discipline and methods for collecting, analyzing and interpreting data for making decisions, doing science and understanding our world. Topics covered include an introduction to data analysis methods, probability and chance, statistical reasoning and inference, and experimental design. The course includes a laboratory component emphasizing hands-on analysis of data taken from a variety of applications in ISAT.

ISAT 252. Programming and Problem Solving (2, 2). 3 credits.
Introduction to computational thinking and formal logic. Students create software to solve problems in applied science, business, and engineering taking social context into account. Programming paradigms include procedural, object-oriented, event-driven, and declarative. Emphasis is placed on effective analysis, planning, documentation, communication, and teamwork in professional software development settings. Prerequisite: Sophomore standing or permission of the instructor.

ISAT 252K. Programming and Problem Solving: Knowledge Based Systems. 1 credit.
Introduction to computational thinking and formal logic. Students create software to solve problems in applied science, business, and engineering taking social context into account. The declarative programming paradigm is covered. Emphasis is placed on effective analysis, planning, documentation, communication, and teamwork in professional software development settings.

ISAT 253. Instrumentation and Measurement in ISAT (2, 2). 3 credits.
Introduction to computational thinking and formal logic. Students create software to solve problems in applied science, business, and engineering taking social context into account. The declarative programming paradigm is covered. Emphasis is placed on effective analysis, planning, documentation, communication, and teamwork in professional software development settings.

ISAT 254. Instrumentation and Measurement in ISAT (2, 2). 3 credits.
Introduction to computational thinking and formal logic. Students create software to solve problems in applied science, business, and engineering taking social context into account. The declarative programming paradigm is covered. Emphasis is placed on effective analysis, planning, documentation, communication, and teamwork in professional software development settings. Prerequisite: Sophomore standing or permission of the instructor.

ISAT 255. Instrumentation and Measurement in ISAT (2, 2). 3 credits.
Introduction to computational thinking and formal logic. Students create software to solve problems in applied science, business, and engineering taking social context into account. The declarative programming paradigm is covered. Emphasis is placed on effective analysis, planning, documentation, communication, and teamwork in professional software development settings. Prerequisite: Sophomore standing or permission of the instructor.

Junior – Senior Sequence

ISAT 301. Instrumentation and Measurement in Energy (0, 2). 1 credit.
Instrumentation is used to acquire data from representative systems that include mechanical, thermal, solar, chemical and nuclear energy. Students analyze the data to enhance understanding of these forms of energy. Energy transport processes are also characterized. Computer-based data acquisition is emphasized. Prerequisites: ISAT 212 and ISAT 253 or permission of the instructor.

ISAT 302. Instrumentation and Measurement of the Environment (0, 2). 1 credit.
Introduction to ecological and evolution. Students will be visualized using electron microscopy. The genomic material will be used in environmental quality monitoring are surveyed. Emphasis is placed on effective analysis, planning, documentation, communication, and teamwork in professional software development settings. Prerequisite: Sophomore standing or permission of the instructor.

ISAT 303. Instrumentation and Measurement in Engineering and Manufacturing (0, 2). 1 credit.
Instrumentation is used to acquire data from representative systems that are relevant to modern manufacturing processes. Process control instrumentation is also studied. Topics include shop floor data collection, electronic sensors and actuators, pneumatics and hydraulics. Computer-based data acquisition is
emphasized. Prerequisites: ISAT 211 and ISAT 253 or permission of the instructor.

ISAT 305. Instrumentation and Measurement in Biotechnology (0, 2). 1 credit.
This course provides a hands-on experience of the techniques and instrumentation used in the modern biotechnology laboratory. Topics include aseptic techniques for establishing microbial cultures, detection and analysis of recombinant DNA molecules, protein purification, SDS gel electrophoresis, and the use of PCR technology for genetic analysis.

ISAT 306. Instrumentation and Measurements in Data Communications and Networking. 1 credit.
This is an introductory course on hands-on performance measurements of data, computer and telecommunications channel transmission techniques. The course includes a series of lab experiments focusing on the physical and data link layers of data communications and telecommunications networks.

Prerequisites: CIS/CS 320 and ISAT 152 or PHYS 250 or permission of instructor.

ISAT 310. Energy Fundamentals I. 3 credits.
This course covers the integration of fundamental concepts from physics, chemistry, mathematics and engineering within the context of energy applications. Principles governing energy transformations, transport and conversion, including laws of thermodynamics, chemical and nuclear reactions and thermal science. Prerequisite: ISAT 212 or consent of instructor.

ISAT 311. Role of Energy in Modern Society. 3 credits.
This course covers the role of energy in the U.S. and world economies. Geology of energy-valued natural resources: size, quality and economics of domestic and world resource base. Models for energy use by different sectors. The role of energy in global economic and environmental concerns; and the implications for national and international security will be studied. Prerequisite: ISAT 212 or consent of instructor.

ISAT 320. Fundamentals of Environmental Science and Technology I. 3 credits.
This course provides the student with a basic understanding of environmental pollution, processes and control technologies. The course begins with a review and extension of the basic sciences supporting environmental science. Water and wastewater quality, management and treatment are then addressed, culminating in independent team projects in this area. Prerequisite: G/ISAT 112 or permission of the instructor.

ISAT 321. Fundamentals of Environmental Science and Technology II. 3 credits.
This course continues to build on the student’s basic understanding of environmental pollution, processes and control technologies. The course considers solid and hazardous waste and its management, discusses the principles of environmental risk assessment, and addresses air quality analysis and management, culminating in independent team projects in this area. Prerequisite: G/ISAT 112 or permission of the instructor.

The course will introduce students to the various manufacturing systems within a manufacturing organization. The systems studied will be selected from the following areas: (a) manufacturing/production management; (b) batch and continuous (b) resources utilization, (c) material management, and (d) scheduling and inventory control. Prerequisites: ISAT 151 and ISAT 211 or permission of instructor.

ISAT 331. Automation in Manufacturing. 3 credits.
This course offers an in-depth treatment of the structure and function of computer integrated manufacturing processes; integration and automation in design and manufacturing, product and process design, computer-aided design and computer-aided manufacturing process planning, robotics and flexible manufacturing systems; production planning and product data management. Prerequisites: ISAT 151 and ISAT 211 or permission of instructor.

ISAT 340. Software Development. 3 credits.
This course is an introduction to the processes, methods and techniques of efficient and effective software application development. Students will create or enhance software systems in a sophisticated development environment. Prerequisite: ISAT 252.

ISAT 341. Modeling and Simulation. 3 credits.
This course is an introduction to current and future intelligent systems, including expert systems, neural networks, hybrid intelligent systems and other intelligent system technologies and their development, uses and limitations.

Prerequisites: CS 239, CS 159 or ISAT 340.

ISAT 345. The Software Industry. 3 credits.
Study of means for the development and maintenance of high quality software products delivered on time and within budget. Topics include requirements analysis and specification, software design, implementation, testing, maintenance, project management, ethics and the responsibilities of software engineering professionals. Prerequisites: CS 139, CS 149 or permission of the instructor.

ISAT 340 with sophomore standing in the ISAT major.

ISAT 348. The Multimedia Industry. 3 credits.
Students are introduced to a variety of tools for viewing multimedia and to the issues in designing effective human-computer interactions. This includes an introduction to the many forms of media that occur in computing systems (text, graphics, images, sound, animation) and to the characteristics of well-produced media.

Prerequisite: CS 139, ISAT 340 or permission of the instructor.

ISAT 350. Biotechnology for the New Millennium I. 3 credits.
This course covers the scientific foundations and historical development of biotechnology. Specific topics include living system nanotechnology; cell structure and function; origins of genetic engineering; and recombinant DNA technology. Prerequisite: Bi/SAT 113 or equivalent.

ISAT 351. Biotechnology for the New Millennium II. 3 credits.
This course is a continuation of ISAT 350 and describes applications of biotechnology in agriculture, industry and medical science as well as associated social, ethical and philosophical issues. Topics include study of an emerging infectious disease; energy transduction in living systems; and novel applications of biotechnology.

Prerequisite: ISAT 350. Corequisite: ISAT 360.

ISAT 360. Introduction to Networking and Security. 3 credits.
This course focuses on the underlying principles of networking and how these principles are utilized to provide efficient and secure networks in support of voice, data, video and mobility services and applications. Emphasis is also placed on understanding the network standards and protocols, network architectures, network security, network analysis/troubleshooting and network management issues and resolutions/mitigation strategies.

Prerequisite: ISAT 351 or permission of instructor.

ISAT 361. Fundamentals of Data Communications and Networking II. 3 credits.
This course is an introduction to data communications, telecommunications and networking. The focus is on the physical and data link layers. At the physical layer, it includes network models, data and signal rates, digital and analog transmission (modulations), bandwidth utilization (multiplexing), switching (circuit, packet). At the data link layer, it includes error detection and correction, multiple access methods, LANs (wired, wireless, connecting), WANs (SONET, ATM, cellular, satellite). Prerequisites: ISAT 360 or permission of the instructor.

ISAT 401. Advanced Computer-Based Instrumentation I. 3 credits.
This is largely a laboratory course in which students build and program their own instruments. Topics include programming techniques for real-time instrumentation programming; buffered analog and digital input and output; timing considerations; passive analog filters and active analog filters; digital-filtering techniques; and real-time programming issues.

Prerequisites: ISAT 253 and ISAT 252 or permission of the instructor.

ISAT 403. Advanced Computer-Based Instrumentation II. 3 credits.
Students design and build their own instruments. Topics include representative sensor techniques as applied to physical, chemical and biological systems as well as basic and advanced circuits for signal manipulation: buffers, amplifiers and active and passive filters. An instrument design project is the capstone of the course. Prerequisites: ISAT 253 and ISAT 252 or permission of the instructor.

ISAT 406. Transmission Electron Microscopy. 3 credits.
This practical laboratory course provides hands-on experience in the preparation and examination of biological specimens with the transmission electron microscope. Techniques to be mastered include support film preparation for negative staining of bacteria and viruses, fixation, embedding, and thin sectioning of tissues, electron optical alignment and microscope operation. Prerequisite: ISAT 253 or permission of the instructor.

ISAT 410. Sustainable Energy Development. 3 credits.
This course is concerned with science and the applications of solar and other renewable energy technologies, e.g., solar thermal electric, photovoltaics, wind power, biomass-derived alcohols, solar hydrogen and ocean thermal energy conversion Energy storage systems and materials, combined renewable-conventional systems for peaking and load management and alternative energy sources for transportation will be studied. Prerequisite: ISAT 310 or permission of the instructor.

http://www.jmu.edu/catalog/14
ISAT 411. Energy Economics and Policy. 3 credits.
This course is concerned with methods for analyzing the economics, environmental and societal benefits of energy technologies. Topics include optimization techniques, utility planning and finance, cost-benefit techniques, discounting for time and risk, econometric models and input-output analysis. The role of government in determining energy costs supply and markets will be considered. Prerequisite: ISAT 310 or permission of the instructor.

ISAT 412. Dynamic Control of Energy Systems. 3 credits.
This course considers methods for developing dynamic models of energy processes and technologies to achieve improved process control and increased efficiency with applications of differential equations and discrete math equations. Dynamic models are used to evaluate load management strategies and to develop computer control algorithms for building energy systems. Prerequisite: ISAT 310 or consent of instructor.

ISAT 413. Options for Energy Efficiency. 3 credits.
This course makes detailed examination of new technologies to increase the efficiency of energy conversion, transportation systems and end-use technologies. Examples include MHD, combined-cycle systems, advanced nuclear reactors, intelligent transportation systems, high-efficiency lighting, energy management and utilization of low-temperature heat. Consideration is made of the socioeconomic and governmental barriers to energy efficiency. Prerequisites: ISAT 310 and ISAT 311 or consent of instructor.

ISAT 414. Energy Fundamentals II. 3 credits.
Introduction to the sciences of fluid mechanics and heat transfer and the physical laws governing the mechanical behavior of liquids and gases. Conservation of mass, energy and momentum. Discussion of heat transfer by one-dimensional conduction, convection and radiation. Fluid statics, internal and external fluid flow. Pipe networks and heat exchanger analysis. Prerequisite: ISAT 310 or permission of the instructor.

ISAT 416. International Energy Studies. 3 credits.
Study-abroad course examining international energy problems and providing team-oriented project experiences. Addresses energy issues associated with economic and social development. Project participation, tours and meetings with local experts illustrate energy-related problems that are compared with those in the United States. Prerequisites: ISAT 212 and ISAT 263.

ISAT 420. Environmental Analysis and Modeling. 3 credits.
This course explores applications of mathematical techniques and computer models to the environmental field. The course introduces the principles underlying environmental analysis and modeling, including limitations and pitfalls. Several environmental models and analytical systems are then discussed and applied, using a variety of computational platforms. Prerequisite: ISAT 321 or permission of the instructor.

ISAT 421. Environmental Policy and Regulation. 3 credits.
This course will familiarize students with basic environmental laws and regulations. The course discusses the purpose of environmental policy, the role of environmental economics in policy decisions and the policy instruments available to environmental regulators. Current federal and state statutes affecting waste disposal, air quality and water quality are discussed. Corequisite: ISAT 321 or permission of the instructor.

ISAT 422. Industrial Environmental Management. 3 credits.
This course addresses environmental issues faced by industry, including such topics as waste management, chemical inventories, pollution prevention and discharge permitting. Industrial ecology is introduced as an approach to the development of a sustainable industrial society, including treatment of life cycle analysis, design for environment, environmentally conscious manufacturing and ISO14000. Prerequisite: ISAT 311 or permission of the instructor.

ISAT 425. Environmental Hydrology. 3 credits.
This course integrates the study of surface water and ground water hydrology and examines current technologies used to assess the behavior and quality of water in the environment. Topics include monitoring and management at the watershed level, the influence of wetlands on water quality, and the impact of current regulations. Prerequisite: ISAT 320 or permission of the instructor.

ISAT 426. Environmental Information Systems. 3 credits.
This course provides students with practical experience applying advanced environmental information systems technologies to environmental problems. Students will employ such technologies as decision support systems, geographic information systems, expert systems, relational databases, multimedia systems, and modeling and simulation. This course is often offered in a study-abroad format. Prerequisite: ISAT 320 or permission of the instructor.

ISAT 427. Industrial Hygiene. 3 credits.
This course provides an introductory survey of the field of industrial hygiene. Chemical hazards are addressed first, focusing on respiratory and dermal exposures, followed by a treatment of physical hazards including sound, vibration and temperature. The course includes industrial case studies illustrating administrative and engineering controls in common use.

ISAT 428. Industrial Ecology. 3 credits.
Industrial ecology, the science of sustainability, seeks to encourage the development of a sustainable industrial society. This course introduces and examines this relatively new field of inquiry and practice. We address various practical topics which are associated with industrial ecology, including life cycle assessment, design for environment and environmentally conscious manufacturing.

ISAT/GEOG 429. Sustainability: An Ecological Perspective. 3 credits.
This course examines present global environmental impacts and efforts made to change production and consumption patterns toward those that reduce impact on ecosystems or promote increased ecosystems health. The focus lies in understanding the basic resources of productivity including soils, agricultural systems, agroforestry, forestry and aquatic environments and applying solutions on a personal and community level. Prerequisite: ISAT 320 or permission of the instructor.

ISAT/MATS 430. Materials Science in Manufacturing. 3 credits.
This course is concerned with methods for analyzing the economics, environmental and societal benefits of energy technologies. Topics include interaction of materials, processing and design, economics of manufacturing, design for improved processing. Manufacturing processes for metals, plastics and composites are addressed. Prerequisite: ISAT 420 or permission of the instructor.

ISAT/MATS 431. Manufacturing Processes. 3 credits.
This course provides an introduction to the processes used for fabricating parts, such as machining, grinding, and casting and sheet-metal fabrication, including both traditional and nontraditional processes. Topics include interaction of materials, processing and design, economics of manufacturing, design for improved processing. Manufacturing processes for metals, plastics and composites are addressed. Prerequisite: ISAT 420 or permission of the instructor.

ISAT/MATS 432. Selection and Use of Engineering Materials. 3 credits.
This course deals with the interplay between engineering product specification, design, economics, environment, energy, materials selection, fabrication route, manufacturing cost and product service requirements. Students will be taught how to perform design projects that involve understanding the behavior of materials and selection of materials for a specific function. Prerequisite: ISAT 430 or permission of the instructor.

ISAT 433. Selected Problems in Manufacturing. 3 credits.
This course addresses selected problems in manufacturing and their solutions. Materials, processes and systems will be stressed. Solutions may involve laboratory experiments and/or other analytical tools, such as modeling, system selection and evaluation, and process selection and improvement. Case studies and current projects from industry will be used. Prerequisite: ISAT 330 or permission of the instructor.

ISAT 435. Integrated Product and Process Development. 3 credits.
This course focuses on the integrated approach for developing products simultaneously with manufacturing processes. Students learn about successful product development techniques and effective organization of product development teams. Topics include design for manufacturing, design for the environment, rapid prototyping, economics of product development and managing of development projects. Prerequisite: ISAT 331 or permission of the instructor.

http://www.jmu.edu/catalog/14
ISAT 436. Micro-Nanofabrication and Applications. 3 credits.
This course examines processes used in the manufacture of microelectronic devices (VLSI integrated circuits, optoelectronic devices, flat panel displays), microelectromechanical devices (micromotors, microactuators), data storage media (magnetic and optical disks, including CDs), optical fibers, and some sensors and transducers. Principles of operation of semiconductors and other devices are also studied. Prerequisite: ISAT 253, PHYS 150, PHYS 250 or permission of the instructor.

ISAT 440. Seminar in Knowledge Management. 3 credits.
Philosophical, ethical, social and political issues in information and knowledge management, the information and knowledge management industries and information and knowledge management systems. Prerequisite: Senior standing.

ISAT/CS 447. Interaction Design. 3 credits.
Study of and practice with processes, principles, tools, models and techniques for designing interactions between humans and digital products and systems. Topics include physiological and psychological factors affecting interaction design, interaction design processes, interaction models, styles, and paradigms, design notations and representations, prototyping and interaction design evaluation. Prerequisite: Junior standing.

ISAT 450. Biotechnology and the Environment. 3 credits.
This course will examine the impact of biotechnology on the environment, biotechnology solutions to environmental challenges as well as associated regulatory, ethical and legal issues. Topics include bioremediation, biosensors, release of engineered organisms and risk assessment. Prerequisite: ISAT 320 or ISAT 350.

ISAT 451. Biotechnology in Industry and Agriculture. 3 credits.
This course illustrates the applications of biotechnology in agriculture and industry, linking scientific discoveries to business and manufacturing practices. Topics include pharmaceutical product development, genetic engineering in agriculture, biotechnology in food processing and regulatory issues. Prerequisite: ISAT 330, ISAT 350 or BIO 214.

ISAT 452. Medical Biotechnology. 3 credits.
This course will survey the research development and implementation of select biomedical technologies, including genetic-based medical technologies, biomedical diagnostics, bioengineering at the macroscopic and microscopic levels, imaging technologies, lasers in medicine and relevant regulatory and legal issues. Prerequisite: ISAT 351 or BIO 214 or permission of the instructor.

ISAT 453. Energy and Living Systems. 3 credits.
The potential of living systems as alternative energy sources will be explored by describing energy production and transduction in living systems in the context of current and anticipated applications of biotechnology to energy production. Prerequisite: ISAT 310 and ISAT 351 or BIO 214 or permission of the instructor.

ISAT 454. Computer Applications in Biotechnology. 3 credits.
Students learn how complex biological molecules support and regulate processes in living systems, through building interactive computer models of protein and nucleic acid structure and function. The course requirements include written and oral presentations and creation of web pages. Prerequisite: ISAT 351 or BIO 214 or permission of the instructor.

ISAT 455. Regulatory Issues in Biotechnology. 3 credits.
This course examines the policies and guidelines of federal government agencies that regulate the use of recombinant DNA technology, genetically engineered organisms and the manufacturing of biotechnology products. Issues of patent, safety, product labeling, physical and biological containment, environmental release, and mammalian cloning are presented. Prerequisite: ISAT 351 or BIO 214 permission of the instructor.

ISAT 456. Ethical, Legal and Social Implications of Biotechnology. 3 credits.
The ethical, legal and social implications of the field of biotechnology and its applications are explored in this course. Students will analyze at an in-depth level the social impacts and ethical implications of human subjects and biological materials research, cloning, human genetic engineering and transgenic agricultural crops. Prerequisites: ISAT 131 and ISAT 231 or BIO 260 or permission of the instructor.

ISAT 457. Business of Biotechnology. 3 credits.
This course will discuss the business concepts behind the biotechnology industry. Specifically, students will learn how the industry was born, how product concepts arise and develop, how biotech products are developed and marketed, what factors lead to company success and/or failure, and what the role of intellectual property protection and regulatory issues play in the industry. Prerequisite: ISAT 351 or permission of the instructor.

ISAT 459. Awareness and Understanding of Chemical, Biological and Radiological Weapons of Mass Destruction. 3 credits.
This course introduces awareness, science and societal impact of weapons of mass destruction (WMD) agents. Students study the development of vaccines and therapeutic and diagnostic drugs used in the detection and treatment of these agents. The course consists of lectures and safety training sessions that introduce tactical and logistical techniques used against chemical, biological and radiological WMD. Prerequisite: Basic chemistry and/or biology.

ISAT/CS 460. TCP/IP Networks. 3 credits.
An overview of Local Area Network hardware, LAN topology and design, and LAN protocols. Includes installation and management of network operating systems and TCP/IP services (address management, name management, file and print sharing, account management). Prerequisite: CS 350 or CS/CIS 320 or equivalent.

ISAT/CS 461. Networking. 3 credits.
Wide Area Network (WAN) and Metropolitan Area Network (MAN) design, Audio, voice, data and TV transmission over ATM/ISDN networks. The SONET signal hierarchy and G3 standard interface model. Network security. Performance analysis of a given network. Prerequisite: ISAT/CS 450.

ISAT/CS 462. Network Applications Development. 3 credits.
Design and implementation of network-based applications using languages and architectures such as sockets, JAVA, TL1 and CORBA. Concepts in distributed processing, including synchronization of interprocess communication and management of replicated data. Analysis of performance issues related to distributed applications. Prerequisites: ISAT/CS 450 and either CS 159, CS 239 or CIS 344.

ISAT/CS 463. Network Analysis and Design. 3 credits.
In-depth introduction to the techniques and tools used to design and analyze computer and telecommunications networks. Overview of issues related to network performance, including the impact on cost, reliability and security. Prerequisites: ISAT/CS 460 and either CS 159, CS 239 or ISAT 340.

ISAT/CS 464. Telecommunications in the Public Interest. 3 credits.
Examines the role of telecommunications in society, and the social institutions that facilitate and regulate telecom, including an analysis of the industry and the regulatory entities and other institutions that affect it. A primary focus of the course will be on the social values that shape the industry, the economics of the industry, and on the regulation of telecom. Prerequisites: Junior standing or permission of the instructor.

ISAT 465. Wireless Networking, Security and Forensics. 3 credits.
An introduction to wireless networking and wireless LAN security and forensics. Radio frequency fundamentals are introduced with emphasis on applications and services. Hands-on network configurations and analysis tools for wireless LAN are introduced and exercised with emphasis on network performance, security and forensic applications. Prerequisite: ISAT 380 or CIS/CS 320 or equivalent.

ISAT 471. Transportation: Energy, Environment and Society. 3 credits.
This course provides an overview of transportation's role in energy demand, environmental change and economic development. Domestic and global transportation trends are compared and their impacts on fossil fuel consumption, air pollution, climate, ecosystems and social structure are analyzed. Contemporary technological, policy and behavioral solutions are critically examined with an emphasis on alternative fuels, advanced vehicle architectures and regulatory measures.

ISAT 472. Transportation: Air Quality Modeling and Regulation. 3 credits.
This course introduces transportation as a CLOS (complex, large-scale, integrated, open system) that has bi-directional interactions with the social, political and economic aspects of society. Fundamental systems operation principles, institutions and regulations are explored with respect to environmental, energy, economic, land use and developmental issues. Building upon this foundation, students develop an understanding of regional planning and regulatory measures. They gain practical experience utilizing transportation and air quality models to quantify transportation impacts and to compare the effectiveness of various transportation control measures. Prerequisite: Junior standing.

ISAT 473. Local Agriculture and Farm Internships. 4 credits.
The objectives for this course include understanding local ecology and its impacts on farming, as well as how farming impacts local ecology, practicing diversified farming techniques; understanding how small-scale farms operate as businesses; examining localization and slow-food movements and recognizing the impacts of globalized or industrial food and fiber production; identifying the strengths and limitations of small-scale farming. Prerequisite: Permission of the instructor.
ISAT 477. Complex Systems and How They Fail. 3 credits.
Interdisciplinary study of complex system operation, interdependencies and failure focusing on real-world critical infrastructure systems (e.g. electric power, telecommunications and health). Systems response to natural and human-induced hazards, including cascading effects. Examination of risk management strategies including technical and policy solutions.

ISAT 480. Selected Topics in Integrated Science and Technology.
Topics in integrated science and technology which are of interest to the upper-division student but not otherwise covered in the regular course offerings. Offered only with the approval of the program coordinator. May be repeated for credit when course content changes. Students should consult the instructor prior to enrolling for the course. Prerequisite: Junior or senior standing required. Topic selected may dictate prerequisite.

ISAT/ VMST 485. Gender Studies in Science. 3 credits.
An interdisciplinary course that looks at the scientific process, science practitioners and science students through the lens of gender analysis. Students read literature, lead discussions, perform experiments and analyze both data and processes to address the effects of educational systems on the preparation and careers of scientists, the influence of politics and culture on scientific inquiry, and the effects of critiques grounded in gender analyses on understanding the scientific process.

ISAT 491. Senior Capstone Project I. 1 credit.
First course in a three-course sequence. Student generates an idea for and writes a proposal for an independent research project. Student must identify and analyze a science- or technology-based problem (broadly defined), identify potential solutions, recommend an approach, and prepare a written proposal.

ISAT 492. Senior Capstone Project II. 2 credits.
Second course in a three-course sequence. Student performs the bulk of the research needed for an independent research project, either alone or within an investigative team, to address a technologically based problem.

ISAT 493. Senior Capstone Project III. 3 credits.
Third course in a three-course sequence. Student finishes the research and prepares an oral and a written report on the work (either alone or within an investigative team), addressing a technologically based problem and developing alternative solutions.

ISAT 495. Technology in our World: Better by Design. 3 credits.
Students explore the importance of design in technology and engineering and contrast the design process with the scientific method. This includes evaluating functional requirements, ergonomics, usability, cost, risk and environmental impacts. Students complete a design project integrating these factors to address a real-world problem. Prerequisite: Completion of IDLS core science course work.

ISAT 499A. Senior Honors Thesis I. 1 credit.
First course of a three-course sequence. Student generates an idea for and writes a proposal for an independent research project that meets the requirements set forth by the Honors program. Student must identify and analyze a science- or technology-based problem (broadly defined), identify potential solutions, recommend an approach, and prepare a written proposal. Equivalent to ISAT 491 for ISAT department credit.

ISAT 499B. Senior Honors Thesis II. 2 credits.
Second course in a three-course sequence. Student begins the research necessary for an independent research project that meets the requirements set forth by the Honors program. Student pursues the approach described in his or her proposal from ISAT 499A. Fullfills same requirements as ISAT 492.

ISAT 499C. Senior Honors Thesis III. 3 credits.
Third course in a three-course sequence. Student completes the research for and prepares an oral and written presentation of their results for an independent research project that meets the requirements set forth by the Honors program. Student completes and presents (in written and oral form) the project described in his or her proposal from ISAT 499A. Fullfills same requirements as ISAT 493.

Intelligence Analysis

College of Integrated Science and Technology

IA 200. Introduction to National Security Intelligence. 3 credits.
Intelligence analysis is a complex, dynamic process that includes determining the intelligence needs, data collection, pre-processing, analysis and production of the customer’s product. This is an introduction to the history, structure and practices of the national security intelligence community (IC). The course is team-oriented, project-based and grounded in the relevant legal and ethical context.

IA 210. Introduction to Global Competitive Intelligence. 3 credits.
This course will focus on global competitive intelligence (CI): the tools and methods that enhance strategic and tactical decision making in the analysis and interpretation of business data related to current and emerging competitors. The course is team-oriented, project-based and grounded in the relevant legal and ethical context. Not open to students in the College of Business. Prerequisites: Grades of “C” or better in IA 200, IA 261 and ISAT 252. Not open to students pursuing a major or minor in CIS. Not open to any major in the COB other than international business.

IA 261. Hypothesis Testing. 3 credits.
Examines hypothesis testing in national, military, counter, and competitive intelligence. By comparing alternate theories in terms of their explanatory power and predictive success, students will learn the most relevant methods for integrating facts into unified theories, assessing theories, and properly qualifying and reevaluating theories to compensate for risk and uncertainty.

IA 280. Selected Project in Intelligence Analysis. 3 credits.
This course will examine projects of interest to lower-division students in intelligence analysis not otherwise offered in regular course offerings. They are offered only with the approval of the program director and they may be repeated when course content changes. Students should consult with the instructor prior to enrolling in the course. Prerequisites: Junior standing.

IA 312. Causal Analysis. 3 credits.
Examines causal analysis in national, military, counter, and competitive intelligence. By assessing a factor’s amount and kind of efficacy, students will learn the most reliable methods for distinguishing between relevant/irrelevant events and factors, identifying and excluding “pseudo-causes,” and anticipating higher order effects of a causal process. Prerequisites: Grades of “C” or better in IA 200, IA 281 and ISAT 252.

IA 313. Counterfactual Reasoning. 3 credits.
Examines counterfactual reasoning in national, military, counter, and competitive intelligence. By analyzing alternate scenarios and their consequences, students will learn the most relevant methods for employing creative thinking in generating, developing, and assessing possibilities; substantiating “after-action” reports, and structuring futures analysis. Prerequisite: IA 312.

Examines strategy assessment in national, military, counter, and competitive intelligence. By applying probabilities and goals to potential threats and opportunities (short and long-term), students will learn the most relevant methods for formulating and evaluating possible courses of action, and projecting and explaining actions by assessing an agents’ strategic interests and circumstances. Prerequisite: IA 312.

IA 340. Data Mining, Modeling and Knowledge Discovery. 3 credits.
Data mining is the nontrivial extraction of previously unknown and potentially useful information from (large) data sets to help explain current behaviors and anticipate future outcomes. Students will apply data mining and knowledge discovery methods to data sets from business, industry and government. The course is team-oriented, project-based and grounded in the relevant legal and ethical context. Prerequisites: Grades of “C” or better in ISAT 252, IA 200 and IA 261.

IA 341. System Dynamics Modeling, Simulation and Analysis. 3 credits.
System dynamics analysis is a perspective and a set of conceptual and computing tools to help us understand the structure and dynamics of complex systems. This course will apply system dynamics analysis to complex systems (problems) that involve the interplay of physical and social-political factors. The course is team-oriented, project-based and grounded in the relevant legal and ethical context. Prerequisite: IA 312.

IA 342. Visualization Methods, Technologies and Tools for Intelligence Analysis. 3 credits.
Data visualization presents laboratory or simulation data or the results from sensors out in the field in a way that aids reasoning about and hypothesis building in complex data sets. This course will apply data visualization technologies and tools to timely data sets from business, industry and government. The course is team-oriented, project-based and grounded in the relevant legal and ethical context. Prerequisites: ISAT 251 and ISAT 252.

IA/REL 383. Apocalypticism, Religious Terrorism and Peace. 3 credits.
This course traces apocalypticism from its ancient Jewish and Christian roots to its contemporary manifestations in religious groups around the world. Since apocalypticism is a worldview that cuts across religious
traditions, the course covers a variety of religious groups. The last half of the course focuses on the complex relationships between apocalyptic thinking and religious terrorism and entails an independent research project.

IA 400. Cognitive Science and Intelligence Analysis. 3 credits.
Cognitive science examines a wide range of mind/brain processes, including thinking, learning, language acquisition, pattern recognition, memory, creativity, volition, etc. This course will take an information processing systems approach to study cognitive processes that comprise intelligence analysis. The course is team-oriented, project-based and grounded in the relevant legal and ethical context. Prerequisite: IA 314.

IA 405. Ethics, Law and Intelligence Analysis. 3 credits.
This course will examine ethical and legal issues raised in the practice of intelligence analysis. It will draw on philosophical ethical theories and reasoning to explicate the issues addressed, and will explore the relevant constitutional and other legal constraints on the practice of intelligence analysis, particularly issues of information privacy, civil liberties and limitations on government action. Prerequisite: IA 314.

IA 440. Seminar on Issues in Intelligence Analysis. 3 credits.
This is an honors thesis development course. It is the second of the three-course sequence intended to satisfy the requirements for the honors program as well as the Intelligence Analysis program. Most of the course will be jointly administered/taught with IA 450: Capstone Project in Intelligence Analysis. In addition, students may be required to meet with the instructor to discuss progress on his or her project. Prerequisites: Senior standing; must be in the honors program.

Interdisciplinary Liberal Studies

Interdisciplinary Liberal Studies

IDLS 350. Literacy and Society. 3 credits.
An exploration and analysis of societal literacy practices as viewed through cognitive, cultural, class, workplace, and technological lenses. Prerequisite: GWRTC 103 or equivalent.

IDLS 391. Study Abroad. 1-6 credits.
Credit for academically-grounded, interdisciplinary study abroad. Students seeking credit must secure the approval of the department head and a faculty supervisor who will provide the academic structure, assignments and student evaluation.

IDLS 395. Topics in Interdisciplinary Liberal Studies. 1-8 credits.
Examination of selected interdisciplinary topics of importance to teacher education content areas. May be taken for a maximum of six credit hours toward the major.

IDLS 400. Seminar in Liberal Studies. 3 credits.
Capstone seminar for IDLS students in the humanities/social sciences content area. Students will apply different disciplinary perspectives to a single topic. Course requirements will emphasize superior written and oral communication skills and the integration and application of content area knowledge to the teaching environment. Prerequisites: Students must have completed their IDLS core requirements and be within one course of completing the track. Education students should be in their third semester of their teacher education program.

IDLS 448. Internship and Field Experience. 1-6 credits.
IDLS credit for academically-grounded internships and field experiences. Students seeking credit must secure the approval of the department head for the use of academic structures, assignments and evaluation plans provided by qualified internship or field experience supervisors.

IDLS 450. Independent Study in Interdisciplinary Liberal Studies. 3 credits.
Individualized projects in interdisciplinary liberal studies. Prerequisite: Permission of the director.

IDLS 499A, B and C. Honors. 1-6 credits.

Interdisciplinary Social Science

Cross Disciplinary Studies

ISS 200. Introduction to the Social Sciences. 3 credits.
The course serves as an introduction to the social sciences. It includes a review of the general content of selected social sciences with emphasis on primary foci, methods employed and perspectives guiding each disciplinary approach. The course will vary each semester according to the interests and specialization of the instructor(s).

ISS 300. Experiential/Service Applications. 3 credits.
Provides students with practical work experience through an internship, service learning program, etc. This experience culminates in the application of knowledge and skills emerging from previous courses. Prerequisite: Junior standing.

ISS 320. Maps, Money and World Trade. 3 credits.
This is an interdisciplinary class designed to help students, especially future teachers, integrate perspectives from various disciplines, especially history, geography, and economics, into a coherent account of an increasingly globalized world. We will pay particular attention to map construction and use (both historical and contemporary) and the relationship between economic ideas and world events, focusing on a variety of case studies over the last millennium.

ISS 400. Senior Seminar in Social Science. 3 credits.
The course builds upon all previous course listings and serves as the final integrating experience providing closure to the interdisciplinary social sciences. Students are expected to integrate theories, research and/or methods from several social science disciplines to present a senior level research paper. The course will vary each semester according to the interests and specialization of the instructor.

http://www.jmu.edu/catalog/14
Interior Architecture
School of Art, Design and Art History
All 200-level IARC courses are restricted to declared art, art history, graphic design and interior design majors during the fall and spring semesters. IARC courses at the 300-level and above are restricted to declared IARC majors. During May and summer sessions, IARC courses are open to all students who meet the additional stated course prerequisites. Non-majors wishing to enroll in an IARC course during the fall and spring semesters may request permission of the instructor.

This studio focuses on design process through the creation of objects and interior spaces. Projects involve investigations into syntax and design language, program interpretation, materiality, ritual, use and the constructed order of built space. Emphasis is place on experimentation, risk and play. Design projects will incorporate constructed drawings, sketching, diagramming, model-building, and writing.

IARC 202. Interior Architecture Studio II. 6 credits.
Design studio building on the fundamentals of IARC 200. Projects will address both three-dimensional design of spaces and the objects within the spaces. Projects will include questions of ritual, ergonomics, material properties, mechanism, and prototypes. Introduction of workshop, digital graphics and photography incorporated in studio work, with an emphasis on fabrication and constructed full-scale objects. Prerequisite: IARC 200.

IARC 208. Portfolio Review. 0 credits.
Portfolio review required to enroll in interior architecture courses at 300 level and above. Prerequisite: IARC 200. Corequisite: IARC 202.

IARC/INDU 220. CAD: 3D Modeling. 3 credits.
This course will introduce students to principles used in 3D Cad and BIM modeling. Technologies to draw three dimensionally on the computer will be considered as a discipline within itself, and students will be instructed to use the machine for design exploration. Various software packages will be utilized during the semester.

IARC 300. Interior Architecture Studio III. 6 credits.
Intermediate design studio building upon skills of IARC 200-202 sequence. Projects will be of greater complexity, scope and technical requirement. Design studies will incorporate drawing, diagramming, models, digital studies and writing. Legal, industry and engineering requirements will be integrated into the learned poetics of design. Prerequisite: IARC 208.

IARC 302. Interior Architecture Studio IV. 6 credits.
Intermediate design studio building upon skills of IARC 300. Projects will be an extension of IARC 300 but with greater complexity, scope and technical requirements. Design studies will incorporate drawing, diagramming, models, digital studies and writing. Legal, industry and engineering requirements will be integrated into the learned poetics of design. Prerequisite: IARC 300.

IARC 330. Materials and Methods I. 3 credits.
A lecture course introducing components and materials used in construction and building systems. Prerequisite: IARC 208.

IARC 332. Materials and Methods II. 3 credits.
The second lecture class in a required sequence focused on building systems and materials. Topics introduced in INDE 330 are studied in greater depth with an emphasis on understanding the interrelationships among elements found in a complete construction documents package. Prerequisite: IARC 330.

Independent activity at the intermediate level, such as research or studio practice, under faculty supervision. Projected studies in any area of the school’s offering must be arranged with the instructors who will direct them. Offered only with the consent of the instructor.

IARC 392. Topics in Interior Architecture. 3 credits. Offering varies.
Study of selected topics in interior architecture at the intermediate level. May be repeated when course content changes. See MyMadison for current topics.

IARC 400. Interior Architecture Studio V. 6 credits.
An upper-level design studio building upon the design rigor and technical craft acquired in the IARC 300-302 sequence. Expansion of the design role into collaborative teams, interdisciplinary teams, actual clients, service projects and competition projects. Prerequisite: IARC 302.

IARC 402. Interior Architecture Studio VI. 6 credits.
Final upper-level interior architecture studio culminating in a thesis project. Complete student initiative across every phase of the project. Prerequisite: IARC 400.

IARC 440. Professional Design Practices. 3 credits.
Procedures and practices in the interior design profession. Prerequisite: IARC 302 or permission of the instructor.

IARC 470. Contemporary Design Theory. 3 credits.
Seminar format class which explores influential ideas in contemporary design, including critical regionalism, postmodernism, minimalism, the neo-avant-garde, green design, Marxism and post-structuralism. Prerequisite: ARTH 208.

Independent activity, such as research or studio practice, under faculty supervision. Projected studies in any area of the school’s offering must be arranged with the instructors who will direct them. Offered only with the consent of the instructor.

IARC 491. Studio Assistant. 1-3 credits, repeatable. Offering varies.
An on-campus program monitored on an individual basis designed to provide practical studio experience in the visual arts. Students will learn safe studio practices and management skills, including material use, inventory control, and the proper operation of equipment found within various individual classroom studios. Prerequisite: Permission of the instructor.

IARC 492. Topics in Interior Architecture. 3 credits. Offering varies.
Study of selected topics in interior architecture at the advanced level. May be repeated when course content changes. See MyMadison for current topics.

IARC 496. Internship. 0 credits.
An off-campus program prepared and monitored on an individual basis. Internships are designed to provide practical experience in professional design settings. Prerequisite: Permission of the instructor.
Interprofessional Education

Institute for Innovation in Health and Human Services

IPE 201. Health Professionals in Diverse Communities. 1 credit. (Offered fall.)
An introduction to skills in professionalism and interprofessional collaboration in addressing local and global health challenges. First year pre-professional health students examine social determinants of health and diverse communities, and learn skills in reflection as they interact with health professionals and faculty. Prerequisites: Membership in the Huber Learning Community.

IPE 202. Health Care Service in Diverse Communities. 2 credits. (Offered spring.)
This course is the second in a two-course sequence for first year pre-professional health students in the Huber Learning Community. Students examine interprofessional perspectives on complex global health issues and apply skills in professionalism, integration, collaboration and reflection to community-based, experiential service learning. Prerequisites: IPE 201 and membership in the Huber Learning Community.

IPE 220. Adult Health and Development Program. 3 credits. (Offered fall.)
In this academic course and outreach program to adults age 55+ in the surrounding community, JMU students are trained to work 1:1 with the older adults, to apply aging and intergenerational theory, and to critically analyze the outcomes from their interactions.

IPE/HTH/NSG/SOWK 314. Rural Health: An Interdisciplinary Approach. 3 credits. (Offered fall.)
Students study, observe and participate in interdisciplinary assessment, planning and delivery of community-based primary health care in partnership with residents and agencies of a host rural county. Learning activities will emphasize rural culture, rural health care and interdisciplinarity practice.

IPE 320. Adult Health and Development Program – Leadership. 3 credits. (Offered fall.)
Both an academic course and an outreach program to adults age 55+ in the surrounding community, this course offers JMU students who have previously participated in the program the opportunity to become senior staff who provide program leadership, oversight and implementation to the program. Prerequisites: Permission of the instructor and completion of one semester of AHDP.

IPE 391. Introduction to Informatics for Health Care Professionals. 1 credit. (Offered fall.)
A multidisciplinary introduction to informatics in health care focusing on technology, data, information and knowledge and their applications in health care. Emerging trends and issues are examined.

IPE 401. Workshops in Interprofessional Education and Practice. 0 credits. (Offered fall.)
IPE workshops offer a time-limited and concentrated focus on issues that are specific to interprofessional education and/or practice.

IPE/NSG 415. Ethical Decision-Making in Healthcare: An Interprofessional Approach. 1 credit. (Offered fall and spring.)
Healthcare ethics is a shared, relevant concern among health and human service disciplines; it is an ideal vehicle for students to learn other discipline perspectives. Students examine dilemmas encountered in practice and apply interprofessional knowledge using a case method of instruction. Readings and activities emphasize interprofessional competencies and ethical principles for practice in the context of respectful communication, analysis and problem solving in interprofessional teams.

IPE 400. International Health and Human Services in Malta. 4 credits. (Offered May.)
This May session, study abroad course examines health issues in Malta and provides a team-oriented project experience. Project participation, tours and arranged meetings with local experts are used to illustrate health related problems that apply globally and which are compared and contrasted with those in the United States.

IPE/NSG 460. Healthcare Informatics. 2 credits.
This course focuses on the nature and functions of present and future application of health care informatics. Emphasis is on preparing current and future health care professionals to plan, design, collaborate with other health care disciplines, and utilize healthcare informatics for effective health care delivery, health organizational management and improved client outcomes. Prerequisite: Minimum of sophomore standing.

IPE 490. Special Topics in Health and Human Services. 0-4 credits. (Offered fall and spring.)
This course involves topics of special interest in the area of health and human services but is open to all students. The focus of specific courses is identified for specific offerings. Courses are offered based on faculty and student interests.

Interscience Research

Departments of Biology, Chemistry and Biochemistry, Geographic Science, Mathematics, Physics and Astronomy, and Computer Science

ISCI 450 A, B, C. Interscience Research. 1-4 credits, repeatable to 6 credits.
An investigative experience spanning more than one field of science which may require supervision by multiple faculty members from different disciplines. Students must get prior approval for this course from each of the supervising faculty members and the department head of their program. Prerequisites: Junior status and permission of the instructors.

Italian

Department of Foreign Languages, Literatures and Cultures

ITAL 101. Elementary Italian I. 3-4 credits.
The fundamentals of Italian through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. If student has had two or more years of the language in high school he/she will not receive credit for the course.

ITAL 102. Elementary Italian II. 3-4 credits.
The fundamentals of Italian through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. If student has had two or more years of the language in high school he/she will not receive credit for the course. Prerequisite: ITAL 101.

ITAL 109. Accelerated Review of Elementary Italian. 3 credits.
Reviews elementary Italian grammar, reading, writing, speaking and listening skills in Italian. One hour of work a week in the language laboratory. For students who have had no more than two or three years of Italian in high school or qualify through the placement exam. Prerequisite: Permission of the department head.

ITAL 110. Intensive Italian I. 6 credits.
The fundamentals of Italian through intensive listening, speaking, reading and writing. This four-week course is the equivalent of ITAL 101-102.

ITAL 212. Intensive Italian II. 6 credits.
The fundamentals of Italian through intensive listening, speaking, reading and writing. This four-week course is the equivalent of ITAL 211-212. Prerequisite: ITAL 102 or ITAL 111.

ITAL 231. Intermediate Italian I. 3 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading. Prerequisite: ITAL 102 or ITAL 111.

ITAL 231F. Intermediate Italian-Florence I. 3 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading. Prerequisite: ITAL 102 or ITAL 111.

ITAL 232. Intermediate Italian II. 3 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading. Prerequisite: ITAL 231.

ITAL 232F. Intermediate Italian-Florence II. 3 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading. Prerequisite: ITAL 231.

ITAL 300. Italian Grammar and Communication, 3 credits.
Intensive training in grammatical structures and their application to oral and written communication. Instruction is in Italian. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisite: ITAL 232 or ITAL 212.

ITAL 307. Italian Civilization. 3 credits.
A study of Italian society, economics, politics and the arts from the Roman Republic to 1814. Instruction is in Italian. Prerequisite: ITAL 300.
ITAL/HIST 308. Contemporary Italian Civilization. 3 credits.
A study of Italian society, economics, politics and the arts from 1814 to the present. Instruction in English. (Research papers for Italian majors/ minors in the language.)

ITAL 315. Italian Phonetics. 3 credits.
Intensive drill in Italian sounds and intonation patterns. Instruction in Italian. Prerequisite: ITAL 315 or equivalent.

ITAL 317. Strategies for Italian Oral Communication. 3 credits.
In this course students will develop linguistic competencies and learn basic tools to improve their oral communication skills. Prerequisite: ITAL 222.

ITAL 320. Italian Oral and Written Communication. 3 credits.
Intensive training in the use of modern, everyday Italian with emphasis on conversation and composition. Readings in Italian will provide a context for discussion and writing. Prerequisite: ITAL 300.

ITAL 330. Business Italian. 3 credits.
A study of commercial and technical vocabulary and trade customs in conjunction with practice in the art of commercial communication, including interviews, letter writing and simultaneous interpretation. Instruction is in Italian. Prerequisite: ITAL 300.

ITAL 335. Introduction to Italian Literature. 3 credits.
A survey of Italian literature from its beginning to the present. Textual analysis of sample writings representative of the most important literary movements. Instruction is in Italian. Prerequisite: ITAL 300.

ITAL 351. Italian-English Technical/Commercial Translation. 3 credits.
Italian-English translation applied in several commercial (i.e., marketing, finance) and technical (i.e., electricity and electronics, software, hardware) fields. Focus will be on the acquisition of specialized knowledge (both linguistic and extralinguistic) and the delivery of professional documents in real-market conditions. Prerequisite: ITAL 300.

ITAL 375. Business and Society in Italy. 3 credits.
This course studies Italian business, economy, politics and the influence the Italian society has on them. Prerequisite: ITAL 300.

ITAL 397. Creative Writing in Italian. 3 credits.
This course will develop strategies both for writing well and for writing creatively. Prerequisite: ITAL 300.

ITAL 400. Advanced Conversation. 3 credits.
Discussions deal with topics of current interest. Prerequisite: ITAL 320.

ITAL 410. Italian Through Media. 3 credits.
This course is designed to improve fluency and accuracy in speaking, reading and understanding. Prerequisite: ITAL 300.

ITAL 425. Modern Italian Literature. 3 credits.
A study of the works of major Italian writers of the 20th century. Instruction is in Italian. Prerequisite: Three years of college Italian or equivalent.

ITAL 435. Translation Competencies. 3 credits.
In this course, students will develop linguistic competencies required in translation, including reading comprehension, summary writing, text analysis, and use of mono- and bilingual dictionaries. Students will learn some basic electronic tools and word processing skills for translators, and practice several types of translation, including direct translation, inverse translation and back translation. Prerequisites: TR 300 and ITAL 330, or permission of the instructor.

ITAL/ENG 437. Studies in Italian Literature. 3 credits.
A study of selected works of Italian literature. Instruction is in English. May be repeated for credit when course content changes. (Research papers for Italian majors/minors in the language.)

ITAL 446. Special Topics in Italian Literature. 3 credits.
Study of a particular topic in Italian literature. It may cover all or specific Italian literature genres. Course may be repeated. Prerequisite: ITAL 300.

ITAL 447. Special Topics in Italian Civilization and Culture. 3 credits.
Students will study a particular topic in the civilization and/or culture of Italy. Course may be repeated. Prerequisite: ITAL 300.

ITAL 448. Special Topics in Italian Linguistics. 3 credits.
Students will study a particular topic of Italian linguistics. Topics could include an introduction to Italian sociolinguistics and psycholinguistics. Course may be repeated. Prerequisite: ITAL 300.

ITAL 465. Italian Cinema. 3 credits.
A study of the evolution of Italian cinema. Emphasis given to the following directors: Rossellini, Visconti, De Sica, Fellini, Antonioni, Bertolucci, Wertmuller, Scola, Taviani, Salvatores. Instruction is in Italian. Prerequisite: ITAL 300 or permission of the instructor.

ITAL 467. Italian Oral and Written Communication. 3 credits.
A study of selected works of Italian literature. Instruction is in English. May be repeated for credit when course content changes. (Research papers for Italian majors/minors in the language.)

ITAL 470. Italian Oral and Written Communication. 3 credits.
Intensive training in the use of modern, everyday Italian with emphasis on conversation and composition. Readings in Italian will provide a context for discussion and writing. Prerequisite: ITAL 300 or permission of the instructor.

Japanese

Department of Foreign Languages, Literatures and Cultures

JAPN 101. Elementary Japanese I, 4 credits.
The fundamentals of Japanese through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. Requires one hour of work a week in the language laboratory. If the student has had two or more years of the language in high school, he/she will not receive credit for the course.

JAPN 102. Elementary Japanese II, 4 credits.
The fundamentals of Japanese through a higher level of listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. Requires one hour of work a week in the language laboratory. If the student has had two or more years of the language in high school, he/she will not receive credit for the course. Prerequisite: JAPN 101.

JAPN 111. Intensive Japanese I, 6 credits.
The fundamentals of Japanese through listening, speaking, reading and writing. The four-week course is the equivalent of JAPN 101-102.

JAPN 212. Intensive Japanese II, 8 credits.
The fundamentals of Japanese through listening, speaking, reading and writing. The four-week course is the equivalent to JAPN 231-232. Prerequisites: JAPN 102 or JAPN 111 or permission of the instructor.

JAPN 231. Intermediate Japanese I, 3 credits.
A thorough review of Japanese grammar, vocabulary building, conversation, composition and reading. Prerequisite: JAPN 102 or JAPN 111.

A thorough review of Japanese grammar and vocabulary building, conversation, composition and reading. Prerequisite: JAPN 231 or permission of the instructor.

JAPN 300. Japanese Grammar and Communication. 3 credits.
Intensive training in grammatical structures and their application to oral and written communication. Instruction is in Japanese. Fulfills the College of Arts and Letters writing-intensive requirements for possible international affairs majors and/or IBUS majors. Prerequisite: JAPN 232 or JAPN 212.

JAPN 320. Japanese Oral and Written Communication. 3 credits.
Intensive training in the use of modern, everyday Japanese with emphasis on conversation and composition. Readings in Japanese will provide a context for discussion and writing. Instruction is in Japanese. Prerequisite: JAPN 300 or permission of the instructor.

JAPN 490. Special Studies in Japanese. 3 credits.
Special topics or independent studies in Japanese.

Justice Studies

Department of Justice Studies

JUST 100. Justice Studies Proseminar. 1 credit.
This course is designed to aid justice studies majors in their pursuit of internships, graduate education and career opportunities. The course focuses on developing skills in resume writing, interviewing and networking techniques, job and internship search skills, and investigating graduate and law school opportunities. Prerequisites: JUST 200 and junior or senior standing.

JUST 200. Introduction to Justice Studies. 3 credits.
This course introduces students to the interdisciplinary field of justice studies, including the development of justice concepts, principles and theories and their application to public issues. This course also provides an overview of the three tracks in the justice studies major: crime and criminology, global justice and social justice. Prerequisites: declaration of justice studies major.

JUST 210. Crime and Criminal Justice. 3 credits.
This course provides an introduction to the nature of the crime problem in the United States, including patterns of victimization and offending and the ways in which the criminal justice system responds to these behaviors. Prerequisites: JUST 200 and admission to the major.

JUST 212. Theories of Crime and Criminal Justice. 3 credits.
This course provides an in-depth exploration of theoretical perspectives pertaining to the two central realms of criminological inquiry: crime and the response to crime (criminal justice). Both classic and contemporary perspectives are examined. The course will examine why people commit crime, why crime occurs, why it differs across groups and the objective underlying crime control policy. Prerequisite: JUST 200.

JUST 221. Social Justice Theories. 3 credits.
This course serves as a theoretical introduction to the social justice track of the justice studies major. It includes an examination of the major concepts
Students will consider sexual values in American society and how they relate to the concept and reality of justice in America. It is a broad-based, interdisciplinary consideration of justice: What is justice? What are its limitations? How is it affected by society and social institutions in American. Philosophical and theoretical underpinnings of the notion of justice and the historical context of justice in American society will be considered.

JUST 235. Justice in the Global Community. 3 credits.
A survey of different definitions of justice relating to the operation and development of a global community in international affairs. Prerequisite: JUST 200.

JUST/PSYC 255. Abnormal Psychology for Law Enforcement Personnel. 3 credits.
This course for students interested in becoming law enforcement professionals critically examines psychological normality and abnormality. The course focuses on description and causes of abnormal behavior likely to be encountered by law enforcement professionals and on intervention options for police officers. May not be taken by psychology majors or students who have completed PSYC 250 or PSYC 335. Prerequisites: GPSYC 101 and JUST 200.

JUST 300. Perspectives on Comparative Justice. 3 credits.
This course provides students with an overview of contemporary justice policy problems and issues in a comparative context. It begins with an assessment of comparative case study research strategies and proceeds to a comparative investigation of a specific topic. Ethical and legal issues will be addressed. The topic covered will vary but include such concerns as war, terrorism, corruption, social and political repression, human rights violation and law enforcement. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 301. Special Topics in Justice Studies. 3 credits.
This course provides an examination of topics that are of current interest in each field of study. The class may be repeated for credit when course content changes. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST/PSYC 314. Police Psychology. 3 credits.
This course explores the role of psychology in various aspects of police work and examines how psychological research and methods can assist police departments and police officers in reaching law-enforcement goals. Prerequisites: GPSYC 101 and for Justice Studies majors, JUST 200 and one additional 200-level JUST course.

JUST 315. Mental Illness and the Criminal Justice System. 3 credits.
This course introduces students to a growing crisis facing the U.S. criminal justice system: the growing numbers of mentally ill offenders in the criminal justice system. Following a consideration of the needs of individuals with mental illness, the course focuses on the treatment and management of mentally ill offenders at each stage of the criminal justice system, from initial contact with law enforcement to re-entry into the community. Prerequisites: JUST 200 and one additional 200-level JUST course.

JUST/PSYC 316. Human Development and Crime. 3 credits.
This course examines how psychological research and theory shed light on the development of criminal careers, the factors that protect children and adolescents from becoming criminals, how being a victim of crime influences well being, and the efficacy of rehabilitation. Special attention will be paid to the knowledge base on delinquency and childhood/adolescent victimization. Prerequisites: GPSYC 101, and for Justice Studies majors, JUST 200 and one additional 200-level JUST course.

JUST 317. Victimization of Children. 3 credits.
This course provides an overview of patterns, causes and remedies for the various victimizations of children in the United States and throughout the world (abductions, child abuse, sexual exploitation, etc.). Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 318. Sex Offenders. 3 credits.
This course is designed to introduce to the issue of sex offenders in society. Students will consider sexual values in American society and how they relate to the development, thought patterns, and behavior of individuals who sexually violate others. Students will learn about theories of sex offending, the effects of sex offending on victims and society, and strategies for treating and managing sex offenders. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 319. Psychopathology and Crime. 3 credits.
This course introduces students to various types of psychopathology, including state disorders, personality disorders and organic mental disorders, as they relate to different types of crimes. Students consider the concept of abnormality, as viewed by society and the criminal justice system. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 320. Organized Crime. 3 credits.
This course is designed to give an overview of issues associated with Organized Crime. Organized Crime is an increasingly global phenomenon, and such the class focuses not only on the situation in the United States, but the rest of the world as well. Attention is also given to the "businesses" of organized crime (e.g., drug trafficking, counterfeiting), the law enforcement responses to Organized Crime, and the role/deception of Organized Crime in popular culture. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 322. Understanding Violence. 3 credits.
This course examines violence in its many forms and provides a theoretical and conceptual foundation for understanding what it is, why it happens, and how it might be prevented or diminished. Structural, institutional and interpersonal forms of violence are examined as are theoretical perspectives focusing on the individual, socio-structural and cultural levels of explanation. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 323. Comparative Criminal Justice. 3 credits.
A comparative study of criminal justice systems derived from the major world legal systems. The relevant background factors, government, laws, law enforcement, courts, corrections, youthful offenders are examined in each representative country studied. Multinational criminal justice organizations and special issues are addressed. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 324. Death Penalty. 3 credits.
This course provides students with a broad survey of the death penalty as a penal sanction and the controversies and issues which surround it. Key topical areas covered are history and foundations, legal landscape, execution and death penalty processes, contemporary issues including innocence, cost, discrimination and deterrence, and perspectives and voices surrounding the death penalty. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST/SOCI 326. Victimology. 3 credits.
This course provides an overview of various perspectives (social, psychological, legal, etc.) on the experience of victimization. Explanations of the phenomenon are discussed in the context of responses to various types of victimization. Prerequisites: For Justice Studies Majors, JUST 200 and one other 200-level JUST course.

JUST 327. Criminal Law. 3 credits.
Study of substantive criminal law including common law sources and elements of various criminal offenses, justifications and defenses. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 329. Perspectives on Law. 3 credits.
In this course, a broad array of perspectives on law and legal processes in the United States are examined. Students will examine perspectives from the realms of jurisprudence, philosophy, sociology, psychology, economics, anthropology and literature among others and will consider the interaction of these realms with law, legal processes, legal evolution and development, and the legal professions. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST/SOCI/SOWK 330. Corrections. 3 credits.
The history, philosophy, policies and problems of the treatment of violators by the police, courts and correctional institutions. Prerequisites: For justice studies majors, JUST 200 and one other 200-level JUST course.

JUST/POSC 331. Human Rights in Theory and Practice. 3 credits.
This course will explore the nature and value of human rights by investigating some major debates over their status and meaning, and by examining some of the ways people have tried to secure human rights in practice. Prerequisites: JUST, POSC and INTA majors only. For justice studies majors, the completion of JUST 200 and one other 200-level JUST course is a prerequisite.

JUST/SOC/SCOM 333. Negotiations. 3 credits.
Provides an overview of negotiation as a strategy for dealing with conflict. Prerequisites: For justice studies majors, JUST 200 and one other 200-level JUST course. For SCOM fully-admitted majors/minors: No prerequisites.

http://www.jmu.edu/catalog/14
JUST/SMAD 334. Media and Justice. 3 credits.
This course will examine media constructions of justice. Students will be required to critically analyze the portrayal of justice issues in various media forms including television, internet, and film. Attention will be given to the accuracy of such portrayals and whether they have any broader social implications in regards to how we view complex justice issues. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST/WMST 341. Gender and Justice. 3 credits.
This course is an interdisciplinary examination of the causes, structure and consequences of gender oppression. Consistent with the social justice track of the major, notions of fairness, justice and equality with respect to gendered social, political and economic relations will be examined. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 343. Interpersonal Dynamics and Justice. 3 credits.
This course focuses on the various intra- and interpersonal processes that underlie situations related to (in)justice at the individual and group levels. Theories, empirical research and real-world examples of social perception (e.g., prejudice and discrimination), social influence (e.g., attitudes, conformity) and social relations (e.g., altruism, aggression) related to (in)justice will be examined. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 344. Marginalized Populations. 3 credits.
This course examines the social processes of distancing, excluding or rendering powerless marginalized groups in society, as well as the effects of such marginalization, from the individual, local community and global-structural levels. The course introduces theories of marginalization and focuses on several marginalized groups as cases in point. The course analyzes the history of marginalization for lessons learned and considers strategies for prevention / intervention for the future. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 345. Restorative Justice. 3 credits.
In this course, the restorative justice paradigm will be examined at multiple levels including consideration in the international, local community and criminal justice contexts. Both the underlying principles and practical applications of restorative justice will be explored. The related concept of community justice will also be addressed. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 346. Intervention, Reconciliation and Justice in World Affairs. 3 credits.
This course examines the complex relationship between reconciliation, justice and peace building in world affairs. The domestic and international problems that bring forth demands for reconciliation and justice are examined along with the actions of governmental and nongovernmental actors in building peace, and the different ways in which reconciliation and justice can be defined and evaluated. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 347. Drugs, Politics and Society. 3 credits.
This course examines the relationship between drugs, politics and society in the United States and elsewhere. A full range of drugs, both legal and illegal, will be discussed. Topics to be covered include: the consumption, production, and distribution of different types of drugs; drug addiction and recovery; the representation of drug users; and attempts to regulate drugs and drug users. Addressing key justice issues posed by drugs and their users will be a key concern. Prerequisite: JUST 200 and one other 200-level JUST course.

JUST 350. Justice and Globalization. 3 credits.
Globalization is the phenomenon of interconnectedness of economic, political and cultural activities across different parts of the globe. The class will survey several aspects of globalization through the lens of justice and injustice. Class time will be devoted to discussion and student presentations. Prerequisite: JUST 200 and one other 200-level JUST course.

JUST 353. Justice and Development. 3 credits.
This course examines the concept of justice as a standard for evaluating strategies for political, economic and social development in the contemporary international system. Prerequisite: JUST 200 and one other 200-level JUST course.

JUST 354. Dynamics and Resolution of Societal Conflicts. 3 credits.
This course seeks to understand justice by exploring its opposite – injustice, as manifested in selected societal conflicts in different parts of the developing world. What causal dynamic can be used to understand the trajectory of each conflict? What solutions have been proposed / implemented, and with what effect? The course will use in-depth exploration of these selected cases to engage with theories of societal conflicts and policy analysis. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 357. Environmental Justice. 3 credits.
This course provides students with an interdisciplinary introduction to environmental justice. Emphasizing how contemporary environmental issues are profoundly rooted in social, political and economic conditions, students will apply principles and conceptions of justice to ecological challenges and sustainability efforts in local, national and global contexts. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST/POS C 372. Ethics and International Politics. 3 credits.
This course investigates the significance of ethical questions in the theory and practice of contemporary international politics, introducing a variety of normative approaches that shape the issues of peace and conflict, morality and justice in global affairs. Practical case studies will also be used to address issues of policy relevance, with particular attention paid to the American experience. Prerequisites: JUST, POS C and IN TA majors only. For justice studies majors, the completion of JUST 225 is a prerequisite.

JUST 373. Rebuilding Post Conflict Societies. 3 credits.
This course examines the social, economic, security and political problems faced in rebuilding societies that are emerging from a period of intense and prolonged conflict. This course presents an overview of the scope of this multidimensional challenge as well as strategies that have been used to address them. In the course of doing so, evaluation standards that can be used to measure the success, failure and justness of the newly emerging political system. Prerequisite: JUST 200 and one other 200-level JUST course.

JUST/POS C 374. War and Justice. 3 credits.
This course is an interdisciplinary examination of the relationship between war and justice. Emperically, it examines the causes of war and the ways in which wars end. From a normative perspective it raises the questions of when are wars just, how should a just war be fought, and what is a just peace. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 375. Genocide in the 20th Century. 3 credits.
This course examines the relationship between reconciliation, justice and peace building. The domestic and international problems that bring forth demands for reconciliation and justice are examined along with the actions of governmental and nongovernmental actors in building peace, and the different ways in which reconciliation and justice can be defined and evaluated. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 377. Global Futures. 3 credits.
Explores possible future directions that the global system may take in selected issue areas such as energy, democratization, food supplies and infectious diseases. Emphasis is on active learning strategies, introducing the analytical tools used for analysis of international trends and addressing questions of how to respond in a manner that promotes global justice. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST/POS C 392. Peace Studies. 3 credits.
A study of the evolution, theory and practice of peace studies. The course focuses on how we wage and resolve conflict, how we affect social change, and how we provide for security through nonviolent means. Prerequisites: JUST 200 and one other 200-level JUST course.

JUST 399. Justice Research Methods. 4 credits.
This course provides students with the tools necessary for conducting independent research in the area of Justice Studies. Both quantitative and qualitative methods are covered. A term project, in which the skills covered in the course are applied, is a significant part of the class. Prerequisites: MATH 220 and JUST 200 and one other 200-level JUST course.

JUST 400. Senior Seminar in Justice Studies. 3 credits.
The capstone course for the justice studies major. Students are expected to enter JUST 400 with a proposed area of study and will spend the semester in developing a thesis. Class discussion and review of individual projects along with oral presentation of work are integral parts of the course. Students are expected to produce a piece of original scholarship related to their study in the major. Prerequisites: JUST 200, JUST 399, admission to the major and senior standing.

JUST 401. Internship in Justice Studies. 4 credits.
This course allows students to receive academic credit for work experienced in an agency or organization related to the justice studies major. Students should consult the justice studies director for assistance in arranging approved internships. Prerequisites: JUST 200 and JUST 399. Successful completion of four additional justice studies courses.

http://www.jmu.edu/catalog/14
KIN 201. Introduction to Kinesiology. 2 credits. Offered once per year.

Students are introduced to the discipline of kinesiology and recreation. They will study the effects of physical activity on human beings; survey the subdisciplines, including exercise physiology, biomechanics, motor behavior and sociological, historical and philosophical perspectives; and discuss how the discipline can be applied professionally.

KIN 202. Biological Foundations of Kinesiology. 3 credits. Offered fall and spring.

Introduction to the biological scientific foundations within the discipline of kinesiology and recreation. Includes applied anatomy and physiology, biomechanics and exercise physiology.

KIN 203. Social/Psychological Foundations of Kinesiology. 3 credits. Offered fall and spring.

The focus of this course is on exploring the socio/psychological perspectives of participation in activity through the lifespan.

KIN 211-218. Coaching Techniques (0, 4). 2 credits. Offered fall and spring.

The following courses provide motor skills, strategy, rules and officiating techniques in the activities listed: 211, team; 212, track and field; 213, soccer; 214, football; 215, basketball; 216, individual; 217, volleyball; 218, softball.

KIN 221-225. Skill Laboratories. 2-10 credits. Offered fall and spring.

The skill laboratories are designed for participants who will be in a role of educating others in a particular area of movement. Each skill laboratory provides: a) basic movement skills, b) analysis of movement, c) developmentally appropriate progressions and teaching ideas, d) curriculum development, and e) microteaching opportunities. These courses are. KIN 221. Rhythmic and Dance Activities; KIN 222. Teaching Fitness and Wellness in the Schools; KIN 223. Individual and Lifetime Activities; KIN 224. Court and Field Games; KIN 225. Wilderness and Adventure Education.

KIN/SRM 241. Introduction to Sport and Recreation Management. 3 credits. Offered fall and spring.

Introduces the sport and recreation management professions in governmental, voluntary, private, public and commercial settings. Outlines development of sport and recreation and the evolution of the mega-leisure industry. Overviews professional preparation in sport and recreation management. For sport and recreation management majors, this course is a prerequisite for all upper level courses.

KIN 242. Introduction to Sport Communication. 3 credits. Offered fall and spring.

This class provides a foundation for students who are pursuing a minor in sport communication. The course provides an overview about information management and how it applies to the professional sporting industry. Students will learn about careers in sport information, how an organization communicates with the media and its constituents, and how communication in sport has evolved and continues to evolve.

KIN/SMA 244. Sport Communication Techniques: Writing And Reporting. 3 credits. Offered fall and spring.

Study and practice of broadcast and A/V techniques applied in a variety of sport settings. Prerequisite: KIN 242.

KIN 304. History and Philosophy of Physical Education and Sport. 2 credits. Offered fall and spring.

Introductory analysis of various theoretical approaches to the discipline of physical education fitness and sport; brief historical study of the development of school programs and sport; and debates current professional issues.

KIN 306. Human Biomechanics (2, 2). 3 credits. Offered fall and spring.

Studies of anatomical, physical and mechanical factors, as these factors affect human movement. This course must be taken concurrently with KIN 306L. Prerequisites: BIO 290 and KIN 202. Corequisite: KIN 308L.

http://www.jmu.edu/catalog/14
KIN 306L. Human Biomechanics Laboratory. 1 credits. Offered fall and spring.
This laboratory course is designed to complement and supplement the lecture course KIN 306. The course will focus on enhancing the student's laboratory experiences in biomechanics. This course must be taken concurrently with KIN 306. Corequisite: KIN 306.

KIN 310. Instructional Methods in Physical Education. 3 credits. Offered fall.
Students will study the affective, cognitive and psychomotor principles in class management, unit and lesson planning and instructional techniques. This course introduces students to effective teaching strategies and allows application through peer microteaching and teaching students in a school setting. Principles of self-evaluation and reflective teaching are reinforced. Prerequisite: Acceptance to the KIN 310 program. Corequisite: KIN 310.

KIN 311. Elementary Curriculum in Physical Education. 2 credits. Offered fall.
Theory and application of games, dance and gymnastic activities compatible with the developmental characteristics of elementary children and the educational objectives of the elementary school. Prerequisite: Acceptance to the KIN 310 program. Corequisite: KIN 310.

KIN/HHT 312. The Profession of Teaching Health & Physical Education. 2 credits. Offered fall.
Introductory study of the roles of the teacher and the learner and the pedagogical content knowledge of health and physical education. An in-depth examination of the unique position and qualifications of the specialist in physical education and health. Systematic observations will occur. Prerequisite: KIN 313. Adapted Physical Education. 3 credits. Offered fall.
Principles and procedures for adapting elementary physical education programs for students with physical, emotional and mental limitations. Laboratory experience included. Prerequisite: Acceptance to teacher education. Corequisite: KIN 310.

KIN 314. Assessment in Elementary Physical Education. 3 credits. Offered spring.
Introductory study of developmentally appropriate authentic and formal assessment techniques unique to elementary physical education. Prerequisite: Admission to student teaching.

KIN 315. Adolescent Behavior and Health for PHETE. 3 credits. Offered spring.
Course is designed to focus on the study of current health status and health risks behaviors of children and adolescents. Focus on epidemiological trends and behavioral and etiological factors. The application of theory will be made regarding appropriate strategies for health promotion and interventions to reduce specific health problems for teachers in public school settings. Prerequisite: Admission to the KIN 310 program.

Offered fall and spring.
This course will examine the principles of exercise testing and prescription as they apply to fitness, performance and health. The role played by the health-related components of fitness in performance and health of apparently healthy adults and special populations will be examined. This course must be taken concurrently with KIN 321L. Prerequisite: KIN 202. Corequisite: KIN 321L.

KIN 321L. Principles of Exercise Testing and Prescriptions Laboratory. 1 credit. Offered fall and spring.
This laboratory course is designed to complement and supplement the lecture course KIN 321. The course will focus on enhancing the student's exercise testing skills and knowledge with particular attention to preparing the student for the Health/Health Instruc tors certification examination sponsored by the American College of Sports Medicine. The laboratory (KIN 321L) and lecture (KIN 321) portions must be taken concurrently. Prerequisite: KIN 202. Corequisite: KIN 321.

KIN/SRM 333. Management in Sport, Recreation and Fitness Settings. 3 credits. Offered fall and spring.
This course will provide students with the knowledge to apply the management principles and theories to specific professional organizations in the sport and recreation industry. Sport and recreation management applications covered include administration principles for specific organizations, human resource management, fiscal management, marketing, and risk management. Prerequisites: KIN/SRM 241.

KIN 329. Psychological and Social Aspects of Sport. 3 credits.
A study of the psychological and sociological implications of sport and the effect of sport on the United States and other cultures.

KIN 353. Maximizing Sport Performance. 3 credits. Offered fall and spring.
This course explores current sport psychology theories, models and concepts as they relate to sport behavior and performance. Students examine theoretical perspectives and their application to the sport environment.

KIN 355. Introduction to Driver Education. 3 credits.
An introduction to the task of the motor vehicle operator within the highway transportation system and factors that influence performance ability. Prerequisites: Junior standing and permission of the instructor.

KIN 407/HHT 441. Rehabilitative Biomechanics. 3 credits. Offered fall and spring.
This course will examine a variety of biomechanical concepts and applications as related to the health professions. Specific attention will be given to the biomechanical aspects of the musculoskeletal system. Prerequisite: BIO 290.

KIN 410. School Health Content for PHETE. 3 credits. Offered spring.
An overview of selected topics in health content required for teacher candidates preparing to teach health education in public schools. Special emphasis will be on issues relevant to teaching those topics in schools. Prerequisite: Admission to the PHETE program.

KIN 411. Measurement and Evaluation in Kinesiology. 3 credits. Offered fall and spring.
The administration and interpretation of measurement and evaluation procedures in kinesiology and recreation.

KIN 420. Exercise Programming for Special Populations. 3 credits.
Offered fall and spring.
This course will include an in-depth study of the recommended procedures for exercise testing and prescription for non-diseased special populations, children and youth, elderly, women and pregnant women. Prerequisites: KIN 302 and KIN 302L.

KIN 424/NUTR 455. Theories and Practices of Weight Management. 3 credits.
Offered fall and spring.
An examination of the physiological, psychological and environmental theories of obesity. Current trends in obesity research are emphasized. A case study and laboratories are used to provide students with practical experience in constructing a weight management program. Prerequisite: BIO 290, NUTR 280 and KIN 302/302L.

KIN 425. Concepts of Strength and Conditioning. 3 credits. Offered fall and spring.
Theory and application of coaching concepts in strength/conditioning training including program design, testing and specific techniques for the physical development of athletes. Designed for students interested in working with athletic populations, this course also prepares students for NSCA certification. Prerequisites: GKN 100 and KIN 202.

KIN 426. Physical Activity Behaviors. 3 credits. Offered fall and spring.
This course will focus on the theoretical and practical applications of behavior change related to healthy lifestyles with an emphasis on physical activity. In addition, course content will include a detailed investigation into the psychological and environmental factors associated with adoption and maintenance of healthy behaviors including a regular physical activity program. Prerequisite: Senior standing.

KIN 428. Advanced Topics in Exercise Science and Leadership. 3 credits. Offered spring.
This course is designed to allow students to study specific topics in exercise science and leadership. Topics will be chosen each semester and reflect current research in exercise science related to clinical exercise physiology, human performance and methodologies or trends in exercise science/leadership. May be repeated once (maximum six credits) for credit when course content changes. Prerequisites: KIN 302 and KIN 302L.

KIN 429. Special Topics in Adapted Physical Education. 3 credits.
Offered fall.
This course provides an in-depth look into specific areas within the field of adapted physical education. This application-based course provides hands-on experiences that allow students to work with individuals with disabilities in a variety of settings.

KIN 434. Ethical and Legal Issues in Sport, Recreation and Leisure. 3 credits.
Offered fall and spring.
This course is designed to introduce students to current ethical and legal issues of concern to professionals in sport, recreation and leisure studies. Students will examine the impact of these issues on organizational and managerial policies and decision-making. Prerequisites: SRM 335.

KIN 435. Sport Sales and Promotion. 3 credits. Offered fall and spring.
This course will examine how promotional activities and sales efforts are closely intertwined and impact upon the success or failure of the sport and leisure industry. Particular emphasis will be placed on ticket sales and sport sponsorship. Prerequisites: SRM 335 and MKTG 380.
KIN 436. Facilities Planning and Management in Sport and Recreation. 3 credits. Offered fall and spring.

The purpose of this course is to enhance the understandings and skills necessary to be part of a facilities planning team and assume an entry-level facilities management position. Prerequisites: SRM 335.

KIN 450. Principles of Coaching. 3 credits. Offered spring and fall.

Concepts, competencies and principles of coaching as they relate to sports in general. Includes the personal and professional responsibilities of a coach.

KIN 455. Methods in Driver Education (2, 2). 3 credits.

Analysis of the rules and regulations governing driver education in the Commonwealth of Virginia with application to program organization and administration, and the development and conduct of learning experiences in the classroom and laboratory. Prerequisites: Valid Virginia operator's license and KIN 355.

KIN 471. Practicum in Exercise Science and Leadership. 3 credits.

A sequence of selected practicum experiences in exercise science and leadership, which provide the student with supervised practicum experience. May be repeated in different settings. Prerequisite or corequisite: KIN 202.

KIN 472. Practicum in Sport and Recreation Management. 3 credits.

A sequence of selected practicum experiences which provides the student with supervised practicum experience in Sport and Recreation Management. Prerequisite: KIN 241 or SRM 241.

KIN 473. Practicum in Coaching. 3 credits.

A sequence of selected practicum experiences in coaching, which provides the student with supervised practicum experience. Formerly KIN 401D.

KIN 474. Practicum in Sport Communications. 3 credits.

A sequence of selected practicum experiences which provides the student with supervised practicum experience in sport communications. Formerly KIN 401F.

KIN 480. Student Teaching in Physical Education. 8 credits. Offered spring.

A supervised teaching experience at the elementary school setting that provides teacher candidates with opportunities to experience the classroom environment, grow professionally, and develop their pedagogical skills. Prerequisite: Acceptance to student teaching.

KIN 481. Internship in Exercise Science and Leadership. 4-12 credits.

A professional experience in exercise science which affords the opportunity to apply theory and methodology under qualified supervision from the cooperating agency and the university. Students may enroll for an internship experience of 4-12 credit hours, requiring the student to complete 160-480 fieldwork hours. Prerequisite: Successful completion of all professional courses.

KIN 482. Internship in Sport and Recreation Management. 12 credits.

A full-time professional experience which affords the opportunity to apply theory and methodology under qualified supervision from the cooperating agency and the university. Prerequisites: SRM 335, SRM 382 and completion of 72 credit hours.

KIN 490. Special Studies in Kinesiology and Recreation. 1-3 credits each semester. Offered fall and spring.

Designed to give superior students in kinesiology and recreation an opportunity to complete independent study and/or research under faculty supervision. Prerequisite: Permission of the department head.

KIN 499. Honors. 6 credits. Year course. Offered fall and spring.

Korean

Department of Foreign Languages, Literatures and Cultures

KOR 101. Elementary Korean I (4, 1). 3-4 credits.

The fundamentals of Korean through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language lab. If student has had two or more years of the language in high school he/she will not receive credit for the course.

KOR 102. Elementary Korean II (4, 1). 3-4 credits.

The fundamentals of Korean through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language lab. If student has had two or more years of the language in high school he/she will receive credit for the course. Prerequisite: KOR 101.

KOR 231. Intermediate Korean I. 3 credits.

A thorough review of grammar, vocabulary building, conversation, composition and reading. Prerequisite: KOR 102 or permission of the instructor.

KOR 232. Intermediate Korean II. 3 credits.

A thorough review of grammar, vocabulary building, conversation, composition and reading. Prerequisite: KOR 231 or permission of the instructor.

Latin

Department of Foreign Languages, Literatures and Cultures

LAT 101. Elementary Latin I. 3-4 credits.

An introductory course for students who intend to acquire only a reading knowledge of classical and medieval Latin. Systematic study of the fundamentals of grammar. If student has had two or more years of the language in high school he/she will not receive credit for the course.

LAT 102. Elementary Latin II. 3-4 credits.

An introductory course for students who intend to acquire only a reading knowledge of classical and medieval Latin. Systematic study of the fundamentals of grammar. If student has had two or more years of the language in high school he/she will not receive credit for the course. Prerequisite: LAT 101.

LAT 231. Intermediate Latin I. 3 credits each semester.

An introduction to Latin literature. The further study of Latin grammar and the elements of Latin prosody are also presented. Prerequisite: LAT 102 or permission of the instructor.

LAT 232. Intermediate Latin II. 3 credits.

An introduction to Latin literature. The further study of Latin grammar and the elements of Latin prosody are also presented. Prerequisite: LAT 231 or permission of the instructor.

LAT 446. Special Topics in Latin Literature. 3 credits.

Study of a particular topic in Latin literature. It may cover all or specific Latin literature genre. May be repeated if content changes. Prerequisite: LAT 232 or permission of the instructor.

Learning, Technology and Leadership Education

College of Education

LTLE 150. Information in Contemporary Society. 3 credits.

Concerns the individual's need for information, especially that which will assist in solving problems related to everyday needs and interests and with the agencies and resources which can help to meet those needs. Will not count as social science course for teacher licensure.

LTLE 240. Introduction to Human Resource Development. 3 credits.

An introduction to the role and scope of human resource development with particular emphasis on required competencies for HRD professionals. Critical moral and ethical issues are introduced. Prerequisite: Must be declared HRD or educational media minor.

LTLE 245. Leadership in Organizational Settings. 3 credits.

An examination of the principles of leadership and their application to group settings. Emphasis will be placed on the critical appraisal of the facets of leadership through the use of cases and readings. Prerequisite: Must be declared HRD or educational media minor.

LTLE 370. Instructional Technology. 3 credits.

Principles and procedures of a teaching/learning process designed to provide reliable, effective instruction to learners through systematic application of instructional technology. Includes selecting, producing, evaluating and utilizing nonprint media and equipment for application to instructional process.

LTLE 372. Visual Literacy. 3 credits.

This foundational course will cultivate the ability to evaluate and create conceptual visual representations. Students will practice the necessary critical attitude, principles, tools and feedback to develop their own high-quality graphics for learning and performance. Topics also include the impact of visual literacy on the learning process related to instructional design, instructional technology and information presentation.

LTLE 374. Photography for Learning. 1 credit.

Students will develop a basic understanding of the principles of photography, including the use of related digital equipment and the 35mm SLR camera. Note: All needed equipment will be supplied.

LTLE 375. Selected Topics in Media. 1-3 credits.

An in-depth study of a narrowly defined topic or practice in media. May be repeated for credit when course content changes.

http://www.jmu.edu/catalog/14
Management

College of Business

MGT 305. Management and Organizational Behavior. 3 credits.
A study of management functions, decision processes and human behavior in business organizations. Ethical and political considerations are addressed, as are behavioral science research and its applicability to understanding organizational behavior. Prerequisites: Junior standing (60 hours) and a cumulative 2.0 grade point average in all courses taken at JMU. Open only to non-business majors.

MGT 340. International Management. 3 credits.
A comparative analysis of management styles and organizational effectiveness across cultural boundaries and within other political, legal and economic environments. Prerequisite: COB 300.

MGT 365. Human Resource Management. 3 credits.
A study of employer-employee relationships in business and industry including personnel policies and methods; selection, placement, training and promotion of employees; and recent trends in employment practices. Prerequisites: COB 300 or PPA major (or minor), having completed PUAD or PPA 265.

MGT/MS 370. Quality Management. 3 credits.
An introduction to the management of quality in organizations. Topics are designed to improve skills in recognition, understanding and decision-making related to business ethics and social responsibility at various organizational levels. Prerequisites: COB 300 and junior standing.

MGT 372. Entrepreneurship. 3 credits.
A survey of the field of entrepreneurship and entrepreneurs and their significance in the American free enterprise system. Emphasis will be on exploring the theoretical framework of the entrepreneurship process and the entrepreneurial personality. Prerequisite: COB 300.

MGT 375. Business Ethics and Social Responsibility. 3 credits.
This course explores the nature of moral values, moral judgments, and ethical decision and behavior in modern business organizations. Alternative perspectives of right and wrong will be considered. A highly interactive course, students will analyze and discuss ethics-related current events, case studies, real-world scenarios and common ethical dilemmas in order to improve skills in recognition, understanding and decision-making related to business ethics and social responsibility at various organizational levels. Prerequisites: COB 300 and junior or senior standing.

MGT 405. Topics in Management. 3 credits.
The course is designed to allow students to explore areas of current topical interest or to exploit special situations. Course content will vary with each offering. Consult your adviser for current course content. Corequisite or prerequisite: COB 300 and junior or senior standing.

MGT 420. Management of Technology and Innovation. 3 credits.
This course will focus on the management of technology and innovation through an examination of technology transfer across industries, the evolution of technology, technology strategy, the innovation process within an organization and the management of research and development. The importance of product champions, lead-users and cross-functional teams is emphasized. Prerequisites: COB 300 and senior standing (90 hours).

MGT 425. Project Management. 3 credits.
This course focuses on different techniques for managing many types of projects. The course will address a variety of project management issues, such as project prioritization, use of management tools and techniques to plan and schedule projects, the role of the project manager, maximizing project team performance and management of complex projects. Prerequisites: COB 300 and senior standing (90 hours).

MGT 430. Team Management. 3 credits.
This course focuses on the effective use of teams as vehicles for accomplishing organizational work (e.g., solving complex problems). The course addresses a variety of team management issues such as designing and structuring work teams and reward systems, diagnosing team functioning and process problems, resources utilization planning and interventions for improving team performance. Prerequisites: COB 300 and senior standing (90 hours).

MGT 450. Creativity and Innovation. 3 credits.
Students will become aware of and develop their own creative potential while addressing the problems associated with building creative organizations and managing creative employees. Prerequisites: COB 300 and senior standing (90 hours).

http://www.jmu.edu/catalog/14
MGT 460. Employment Law. 3 credits.
This course provides students with an in-depth understanding of federal regulations, court decisions and public labor policies that influence employment decisions, employee and labor relations, and employee safety and health. Includes historical evolution of federal legislation relating to employment, the labor movement and the emergence of public sector bargaining. Examines the impact of regulations, court cases and union contracts on general business operations. Prerequisite: COB 300 and MGT 365.

MGT 462. Compensation, Benefits and Performance Management. 3 credits.
This course focuses on the design of compensation systems as a means for effectively attracting and retaining workers, as well as the use of compensation as a performance management tool. Attention is given to the importance of both direct and indirect forms of pay and benefits. Case-based exercises are used as a tool to develop and apply relevant principles of compensation. Prerequisite: MGT 365.

MGT 463. Labor Relations. 3 credits.
An examination of the field of labor relations including the evolution of the labor movement, the structure of unions, public labor policy and the emergence of public sector bargaining. Prerequisite: MGT 365.

MGT 464. Industrial Psychology. 3 credits.
Motivation of workers, leadership, work groups; measurement of job performance and job satisfaction. Prerequisite: MGT 365.

MGT 465. Senior Seminar in Human Resource Management. 3 credits.
A study of advanced personnel management theory and techniques. Topics include development and implementation of policy and procedures; new techniques in planning, administration and evaluation of human resources management in organizations; and research problems. Prerequisites: Senior standing, MGT 365 and at least nine hours from MGT 480, MGT 462, MGT 463, MGT 464, MGT 466, MGT 487 or MGT 488, or permission of the instructor.

MGT 466. Employee Training and Development. 3 credits.
A study of training and development of human resources in organizations. Topics include design, development and evaluation of programs; adult learners; adult development; and career development programs in organizations. Prerequisite: MGT 365.

MGT 467. Management Consulting. 3 credits.
This course gives students applied management consulting experience. Students will learn how to best use human capital in firms, and how to establish and maintain relationships with consulting clients. Prerequisite: MGT 365.

MGT 468. Staffing, Succession Planning and HR Metrics. 3 credits.
This course provides a study of staffing, such as how to identify the best candidates for a given job and how to identify and prepare future managers. Topics include planning, recruitment, selection, socialization of new employees, development of current employees and succession planning. Additionally, there is an emphasis on the use of metrics – analytical tools that can be used to improve the quality of managerial decision-making about human capital. Prerequisite: MGT 365.

MGT 472. Venture Creation. 3 credits.
The formulation, financing and operation of new ventures by individual entrepreneurs and entrepreneurial teams will be explored. The course will include a group term project designed to give the students clinical experience in the venture creation process. Prerequisites: COB 300 and MGT 372 or permission of the instructor.

MGT 480. Organization Theory and Design. 3 credits.
Examines the theory and research underlying the design of complex organizations. Takes a macro approach to the study of organizations, placing particular emphasis upon the interaction between an organization and its environment and the impact that the environment has on organizational design, structure and processes. Prerequisites: MGT 340, MGT 365, MGT 390 and senior standing (90 hours).

MGT 481. Negotiation and Dispute Resolution. 3 credits.
The purpose of this course is to develop an understanding and effective improvement of participants’ skills in the areas of both business and interpersonal negotiations. Through case-based exercises, attention will be given to various strategies for negotiation including distributive, integrative, intra-organizational and multi-lateral bargaining. Additional applications include how negotiation skills can serve as tools for conflict resolution in the workplace and broader life experiences. Prerequisite: COB 300 and senior standing (90 hours).

MGT 490. Special Studies in Management. 1-3 credits.
Designed to give capable students in management an opportunity to complete independent study under faculty supervision. Prerequisites: Management major and senior standing (90 hours); recommendation of the instructor and written permission of the director prior to registration.

MGT 494. Management Internship. 3 credits.
A course providing an opportunity to work in and with local industry to gain insight into the real side of modern management. Prerequisites: Management major, senior standing (90 hours), MGT 365, MGT 340 or MGT 390, minimum cumulative GPA of 2.800, recommendation of the instructor and written permission of the program director prior to registration.

MGT 495. Human Resources Internship. 3 credits.
Internship in the area of human resource management as a generalist or in a specific area. Prerequisites: Management major, senior standing (90 hours), MGT 365, MGT 340 or MGT 390, minimum cumulative GPA of 2.800, recommendation of the instructor and written permission of the program director prior to registration.

MGT 498. Special Topics in Management. 3 credits for each course.
This course is designed to allow explorations of areas of current topical concern or to exploit special situations. Course content will vary. For current course content consult your adviser. Prerequisites: MGT 340, MGT 365, MGT 390 and senior standing (90 hours).

MGT 499. Honors. 1-6 credits.
Year course. See catalog section “Graduation with Honors.”

Marketing

College of Business

MKTG 380. Principles of Marketing. 3 credits.
Deals with fundamentals involved in the marketing process; concerned with the functions, institutions and channels used to distribute goods and services from producer to consumer. Prerequisites: Junior standing and a cumulative 2.0 grade point average in all courses taken at JMU.

MKTG 384. Integrated Marketing Communications. 3 credits.
Integrated marketing communications includes advertising, sales promotions, packaging, public relations, publicity, personal selling, direct marketing and event sponsorship. Students will be involved in creating, planning, implementing and evaluating client-oriented projects by developing an integrated marketing communication campaign. Prerequisites or corequisite: COB 300 or MKTG 380 and admission to the marketing major.

MKTG 385. Consumer Behavior. 3 credits.
Deals with the behavioral science concepts of individual and group behavior of consumers. Stresses the application of consumer behavior research to marketing management. Prerequisite or corequisite: COB 300 or MKTG 380.

MKTG 386. Services Marketing. 3 credits.
Application of marketing principles to the services sector. The course focuses on review of customer demand for and assessment of services; the employee/customer interface; services operation management; review of the services marketing mix; and development of marketing plans for service organizations. Prerequisite: COB 300 or MKTG 380.

MKTG 388. Retail Marketing. 3 credits.
Study of the institutions of retailing, retailing research, selection of store location and layout, retail organizational structure, and merchandise planning and management. Retail store image, promotion, retail pricing, retail strategy and retail trends will be evaluated. Prerequisite: COB 300 or MKTG 380.

MKTG 405. Survey Research. 3 credits.
This course covers the techniques and principles, skills and activities that are required to conduct an effective survey project. The course will cover survey planning, survey methods, sampling, survey instrument design, data collection and analysis, and survey reporting. Survey findings are linked to future marketing decision making. Prerequisites: COB 300 and MKTG 385.

MKTG 420. Data Mining. 3 credits.
Examines database applications by which marketers can build a long-term, interactive relationship between their product/service and their customers. Study of the information-driven marketing process that enables marketers to develop, test, implement, measure and modify customized marketing programs and strategies. Prerequisites: COB 300 and MKTG 482.

MKTG 430. Professional Selling. 3 credits.
Provides an understanding of many aspects of professional selling including preparing for selling, selling techniques and the role of selling in our society. Prerequisite: MKTG 380 or COB 300.
MKTG 440. Retail Strategy and Buying. 3 credits.
This course examines merchandising as a major element in the marketing of consumer goods. The student will learn the software tools and formulas for merchandising strategy in a computer mediated environment and the basics of market centers and global sourcing. Prerequisite: COB 300 or MKTG 380.

MKTG 450. Business Marketing. 3 credits.
An analysis of the policies and procedures involved in marketing to business buyers. The course provides emphasis on special problems connected with the segmentation and target marketing, purchase, distribution, promotion and development of business-to-business goods and services. Prerequisite: COB 300 or MKTG 380.

MKTG 460. Global Marketing. 3 credits.
Examines marketing in international environments, including foreign entry, local marketing in individual countries and global or standardized marketing across many countries. Emphasis is placed on cultural, economic and strategic variables in deciding how to enter and compete in various markets. Prerequisite: COB 300 or MKTG 380.

MKTG 465. CRM Technology for Sales Professionals. 3 credits.
The objective of this course is to introduce students to customer relationship management (CRM) technologies used in professional selling. Students will investigate sources of customer data, data management technology, and the use of customer information for professional selling. The course develops technology skills applicable in carrying out sales strategies. Prerequisite: MKTG 430. Prerequisite or corequisite: MKTG 450.

MKTG 466. Advanced Professional Selling. 3 credits.
The purpose of this class is to build on the selling skills first learned in MKTG 430. It will focus on enhancing existing skills and learning new ones in order to even better prepare students for a successful career in sales. In addition, students may be selected to compete in regional or national sales competition during the summer. Prerequisite or corequisite: MKTG 450. Prerequisite: MKTG 430.

MKTG 470. Strategic Internet Marketing. 3 credits.
Studies the culture and demographics of the Internet and examines online business opportunities. Students will learn the hardware and software tools necessary for Internet commerce, identify appropriate target segments, develop product opportunities, price structures and distribution channels over the Internet and execute marketing strategy in computer mediated environments. Prerequisites: COB 300 or MKTG 380 and MKTG 384 or permission of the instructor.

MKTG 477. Internet Marketing Practicum. 3 credits.
With an applied focus, this course introduces students to some of the most important and fastest growing sectors in online marketing. Students apply marketing theories in a uniquely applied manner as they become active learners involved in an online marketing campaign, facing real pressures similar to those in the professional workplace (i.e., account management, client relationships, financial constraints, market competition, time limitations, technology, etc.). Students learn to work with actual clients on online marketing campaigns, throughout their campaigns, students continually make finance, advertising and marketing decisions. Students gather real data and use online marketing dashboards to gain a strong understanding of real market conditions. Students experience traditional advertising concepts such as copy writing, cost per thousand (CPM), return on investment, as well as online marketing concepts such as click-through-rate (CTR), cost per-click (CPC), conversion rates, landing page strategies, and optimization techniques. Prerequisite: MKTG 470 and permission of the instructor.

MKTG 480. Product Development and Management. 3 credits.
The process of developing new products will be developed and explored. The marketing tasks which are unique to this operation will be investigated. An understanding of the marketing management of products throughout their life cycles will complete the course. Prerequisite: COB 200 or MKTG 380 or permission of the instructor.

MKTG 482. Marketing Analytics. 3 credits.
This course focuses on the use of information technology and marketing metrics to increase marketing productivity. Students learn how to evaluate marketing strategies and performance using database queries and statistical analysis. Information technologies are applied in market segmentation and target marketing, lifetime value analysis and RFM (recency, frequency and monetary value) analysis. Prerequisites: COB 300 or MKTG 380 and admission to the marketing major.

MKTG 485. Marketing Management. 3 credits.
Case studies are used to develop analytical and decision-making skills. Knowledge gained from previous course work is applied to actual circumstances faced by marketing managers in private, public, profit and not-for-profit organizations. Extensive preparation of case materials outside of class provides the basis for case presentations and discussion of case situations in class. Prerequisites: COB 332, MKTG 384, MKTG 385 and senior standing.

MKTG 490. Special Studies in Marketing. 1-3 credits.
Designed to give capable students in marketing an opportunity to complete independent study under faculty supervision. Prerequisites: GPA of 2.8, instructor recommendation and director approval prior to registration.

MKTG 494. Marketing Internship. 3-6 credits.
A course providing an opportunity to work in and deal with industry to gain insight into the realities of modern business. Prerequisites: COB 300 or MKTG 380, minimum cumulative GPA of 2.80, senior standing, recommendation of the internship coordinator and approval of the director prior to registration.

MKTG 498. Special Topics in Marketing. 3 credits.
This course is designed to allow explorations of areas of current topical concern or to exploit special situations. Course content will vary. For current course content consult your adviser. Prerequisite: Permission of the instructor.

MKTG 499. Honors. 6 credits.
Year course. See catalog section “Graduation with Honors.”

Materials Science

Center for Materials Science

MATS/CHM/PHY 275. An Introduction to Materials Science. 3 credits.
An introduction to materials science with emphasis on general properties of materials. Topics will include crystal structure, extended and point defects, and mechanical, electrical, thermal and magnetic properties of metals, ceramics, electronic materials, composites and organic materials. Prerequisite: CHEM 131, PHYS 150 or PHYS 250, ISAT 212 or permission of the instructor.

MATS/PHY 337. Solid State Physics. 3 credits.
A study of the forces between atoms, crystal structure, lattice vibrations and thermal properties of solids, free electron theory of metals, band theory of solids, semiconductors and dielectrics. Prerequisite: PHYS 270 or permission of the instructor.

MATS/PHYS 381. Materials Characterization (Lecture/Lab Course). 3 credits.
A review of the common analytical techniques used in materials science related industries today, including the evaluation of electrical, optical, structural and mechanical properties. Typical techniques may include Hall Effect, scanning probe microscopy, scanning electron microscopy, ellipsometry and x-ray diffraction. Prerequisite: MATS/PHYS 275, MATS/ISAT 431 or MATS/GEOL 385.

MATS 382. Materials Microfabrication Laboratory. 3 credits.
A materials processing course that examines the design and fabrication of micro- and nano-devices using standard technologies and new lithography techniques. Topics will include laboratory safety and protocol, substrate cleaning, thermal oxidation, photolithography, diffusion, metallization, process integration, and device testing. Prerequisite: MATS 381 or permission of the instructor.

MATS/GEOL 385. Geologic Perspectives in Materials Science. 3 credits.
A one-semester course which emphasizes the commonalities between the geological sciences and materials science. Course includes topics from mineralogy, crystallography, petrology and structural geology, which are also important in metallurgy and ceramics. Prerequisites: An introductory course in any physical science or integrated science and technology (i.e., GEOL 110, CHEM 131, PHYS 140 or GISAT 141) and at least one additional advanced course in the major.

MATS/GEOL 396. X-ray Characterization of Solid Materials. 3 credits.
This course is designed to allow explorations of areas of current topical concern or to exploit special situations. Course content will vary. For current course content consult your adviser. Prerequisite: Permission of the instructor.

MATS/ISAT 430. Materials Science in Manufacturing. 3 credits.
This course is the study of engineering materials used in the fabrication of products including metals, polymers, ceramics, composites and elastomers. Topics include physical, mechanical and electrical properties of materials, elements of strength of materials, failure criteria, and materials selection. Prerequisites: ISAT 211 and ISAT 142 or permission of the instructor.

http://www.jmu.edu/catalog/14
MATS/ISAT 431. Manufacturing Processes. 3 credits.
This course provides an introduction to the processes used for fabricating parts, such as machining, grinding, and casting and sheet-metal fabrication, including both traditional and nontraditional processes. Topics include interaction of materials, processing and design, economics of manufacturing, design for improved processing. Manufacturing processes for metals, plastics, and composites are addressed. Prerequisite: ISAT 420 or permission of the instructor.

MATS/ISAT 432. Selection and Use of Engineering Materials. 3 credits.
This course deals with the interplay between engineering product specification, design, economics, environment, energy, materials selection, fabrication route, manufacturing cost and product service requirements. Students will be taught how to perform design projects that involve understanding the behavior of materials and selection of materials for a specific function. Prerequisite: ISAT 211 or permission of the instructor.

MATS/ISAT 436. Micro-Nanofabrication and Applications. 3 credits.
This course examines processes used in the manufacture of microelectronic devices (VLSI integrated circuits, optoelectronic devices, flat panel displays), microelectromechanical devices (micromotors, microactuators), storage media (magnetic and optical disks, including CDs), optical fibers and some sensors and transducers. Principles of operation of semi-conductor and other devices are also studied. Prerequisite: Junior standing in ISAT, PHYS 150, PHYS 250 or permission of the instructor.

MATS 498R. Undergraduate Materials Science Research.
Research in a selected area of materials science arranged with and approved by a faculty research adviser. Prerequisite: Study proposal must be approved by research adviser and director of Center for Materials Science prior to registration.

Mathematics

Department of Mathematics and Statistics

*MATH 103. The Nature of Mathematics. 3 credits. Offered fall and spring.
Topics such as geometry, computing, algebra, number theory, history of mathematics, logic, probability, statistics, modeling and problem solving intended to give students insight into what mathematics is, what it attempts to accomplish and how mathematicians think.

*MATH 105. Quantitative Literacy and Reasoning. 3 credits. Offered fall and spring.
Applications and interpretation of numerical information in context. Selection and use of appropriate tools: scientific notation, percent, data, descriptive summaries, absolute and relative changes, graphs, normal and exponential population models, and interpretations of bivariate models. Making informed decisions and effectively communicating them. Identifying limitations of information sources, assessing reasonableness of results, and basic concepts of confidence amid uncertainty. Not open to majors in mathematics or statistics. Not open to students who have previously earned credit in MATH 220 except with the consent of the department head.

MATH 107-108. Fundamentals of Mathematics I-II. 3 credits each semester.
Offered fall and spring.
These courses, along with MATH 207, form a sequence that covers the topics of sets, logic, numerical systems, development of real numbers, number operations, number theory, geometry, measurement, algebra, functions, probability and data analysis. Sequence is required for early childhood, elementary or middle school teacher licensure. Prerequisite for MATH 107: MATH 155, MATH 156 or sufficient score on the Mathematics Placement Exam. Prerequisite for MATH 108: MATH 107 with a grade of "C-" or better.

MATH 135. Elementary Functions. 4 credits. Offered spring.
Algebraic, exponential, logarithmic and trigonometric functions; matrices and matrix solutions to systems of linear equations; vectors. Not open to students who have previously earned credit in MATH 155, 156, 205 or 235, except with the consent of the department head.

MATH 155. College Algebra. 3 credits. Offered fall and spring.
Polynomial, rational, exponential and logarithmic functions and applications, systems of equations and inequalities, sequences. Prerequisite: Demonstration of proficiency in algebra at an intermediate level. A test is required to determine placement in MATH 155 or MATH 156. Not open to students who have previously earned credit in MATH 135, 156, 205, 231, 232 or 235.

MATH 156. College Algebra. 3 credits. Offered fall and spring.
Covers same topics as MATH 155. MATH 156 will meet five times a week for students requiring more instructional time. Prerequisites: Demonstration of proficiency in algebra at an intermediate level. A test is required to determine placement in MATH 155 or MATH 156. Not open to students who have previously earned credit in MATH 135, 155, 205 or 232. Not open to majors in mathematics or statistics. Not open to students who have previously earned credit in MATH 155 or MATH 156 or sufficient score on the mathematics placement exam. Not open to mathematics or physics majors or to students who have already earned credit in MATH 220 or MATH 235. Not recommended for chemistry majors.

*MATH 205. Introductory Calculus I. 3 credits. Offered fall and spring.
Topics from differential and integral calculus with applications to the social, behavioral or life sciences and business or management. Prerequisite: One of MATH 135, MATH 155, MATH 156 or sufficient score on the mathematics placement exam. Not open to mathematics or physics majors or to students who have already earned credit in MATH 220 or MATH 235. Not recommended for chemistry majors.

*MATH 205E. Introductory Calculus I with Laboratory. 4 credits. Offered on demand.
Topics from differential and integral calculus, including a laboratory component stressing data collection, data analysis, and applications to environmental issues. Prerequisite: Demonstration of strong preparation in algebra. Not open to mathematics or physics majors or to students who have already earned credit in MATH 205, MATH 231 or MATH 235. Not recommended for chemistry majors.

*MATH 206. Introductory Calculus II. 3 credits. Offered on demand.
Topics from integral calculus with applications to the social, behavioral or life sciences and business or management. Prerequisite: MATH 205. Not open to mathematics or physics majors or to students who have already earned credit in MATH 220. Not recommended for chemistry majors.

*MATH 207. Fundamentals of Mathematics III. 3 credits. Offered fall and spring.
A continuation of topics listed in the MATH 107-108 description will be covered. The MATH 107-108-207 sequence fulfills the requirements for licensure of prospective early childhood, elementary or middle school teachers. Prerequisite: "C-" or better in both MATH 107 and MATH 108.

*MATH 220. Elementary Statistics. 3 credits. Offered fall and spring.
Descriptive statistics, frequency distributions, sampling, estimation and testing of hypotheses, regression, correlation and an introduction to statistical analysis using computers. Prerequisite: MATH 105 or sufficient score on the Mathematics Placement Exam.

MATH/CS 227-228. Discrete Structures I-II. 3 credits each semester.
MATH/CS 227 offered spring, MATH/CS 228 offered fall.
An introduction to discrete mathematical structures including functions, relations, sets, logic, matrices, elementary number theory, proof techniques, basics of counting, graphic theory, discrete probability, digital logic, finite state machines, integer and floating point representations. Prerequisite for MATH/CS 227: MATH 155, MATH 156 or sufficient score on the Mathematics Placement Exam. Prerequisite for MATH/CS 228: MATH/CS 227.

*MATH 231. Calculus with Functions I. 4 credits. Offered fall and spring.
MATH 231 and MATH 232 form a sequence that combines first-semester calculus with algebra and trigonometry. The sequence is designed for students whose pre-calculus skills are not strong enough for MATH 235. Calculus material in MATH 231 includes limits and derivatives of algebraic functions and their applications. Prerequisite: MATH 155, MATH 156 or sufficient score on the Mathematics Placement Exam. MATH 231-232 together are equivalent to MATH 235 for all prerequisites. Not open to students who have already earned credit in MATH 235.

MATH 232. Calculus with Functions II. 4 credits. Offered fall and spring.
A continuation of MATH 231. Calculus topics include limits and derivatives of transcendental functions, the theory of integration and basic integration techniques. Prerequisite: MATH 231 with a grade of "C-" or better. MATH 231-232 together are equivalent to MATH 235 for all prerequisites. Not open to students who have already earned credit in MATH 235.

*MATH 235-236. Calculus I-II. 4 credits each semester. Offered fall and spring.
Differential and integral calculus of functions of one variable. Sequences and infinite series. Prerequisite for MATH 235: Sufficient score on the Mathematics Placement Exam. Prerequisite for MATH 236: MATH 232 or MATH 235 with grade of "C-" or better. MATH 235 is not open to students who have already earned credit in MATH 232.

http://www.jmu.edu/catalog/14

Course Descriptions 399
MATH 237. Calculus III. 4 credits. Offered fall and spring.

Multivariate calculus. Prerequisite: MATH 236 with grade of "C-" or better.

MATH 238. Linear Algebra with Differential Equations. 4 credits. Offered fall and spring.

Matrices; determinants; vector spaces; linear transformations; eigenvalues and eigenvectors; separable, exact and linear differential equations; and system of first order linear equations. Prerequisite: MATH 238. Not open to students with credit in MATH 300 or MATH 338 without departmental permission.

MATH 245. Discrete Mathematics. 3 credits. Offered fall and spring.

Logic, set theory, relations and functions, mathematical induction and equivalent forms, recurrence relations, and counting techniques. Prerequisite or corequisite: MATH 236.

Programming in a high-level computer language. Applications of numerical algorithms to problems basic to areas such as mathematics, the sciences and economics and finance. Prerequisite: MATH 236 or corequisite MATH 236 and consent of instructor. This course is not open to students who have previously earned credit in MATH/CS 448.

MATH/PHYS 265. Introduction to Fluid Mechanics. 4 credits. Offered spring of even years.

Introduces the student to the application of vector calculus to the description of fluids. The Euler equation, viscosity and the Navier-Stokes equation will be covered. Prerequisites: MATH 237 and PHYS 260.

MATH 280. SAS Programming and Data Management. 3 credits. Offered fall and spring.

Use of statistical software to manage, process and analyze data. Writing of statistical programs to perform simulation experiments. Prerequisite: MATH 220 or MATH 318 or equivalent.

MATH 285. Data Analysis. 4 credits. Offered on demand.

Topics include experimental and survey design, distributions, variation, chance, sampling variation, computer simulation, bootstrapping, estimation and hypothesis testing using real data generated from classroom experiments and large databases. Prerequisite: MATH 208, MATH 236 or permission of the instructor. Not open to students who have already earned credit in MATH 220 or MATH 318.

MATH 297. Undergraduate Research. 1-4 credits. Offered on demand.

Students pursue research in a selected area of mathematics and/or statistics. Student must make arrangements with a supervising instructor prior to registration. Course may be repeated.

MATH 300. Linear Algebra. 3 credits. Offered fall and spring.

Vector spaces, linear transformations, matrices, determinants, systems of linear equations, and eigenvalues and eigenvectors. Prerequisite or corequisite: MATH 237 or permission of the instructor.

MATH 304. Principles of Algebra. 3 credits. Offered fall and spring.

Algebraic structures, number systems, matrices, groups, rings, factors and solutions to equations, graph theory. Prerequisite: "C-" or better in MATH 107, MATH 108 and MATH 207.

MATH 305. Principles of Geometry. 3 credits. Offered fall and spring.

Finite geometries, geometric transformations, constructions, geometry of inversion, projective geometry and non-Euclidean geometry. Prerequisite: "C-" or better in MATH 107, MATH 108 and MATH 207.

MATH 306. Principles of Analysis. 3 credits. Offered fall and spring.

Sequences, discrete calculus and difference equations, derivatives and integrals, concepts of differential equations and applications. Prerequisite: "C-" or better in MATH 107, MATH 108 and MATH 207.

MATH 307. Principles of Probability and Statistics. 3 credits. Offered fall and spring.

Descriptive statistics, measures of central tendency and dispersion, correlation, probability, probability distributions and statistical inference. Prerequisite: "C-" or better in MATH 107, MATH 108 and MATH 207.

MATH 310. Elementary Theory of Numbers. 3 credits. Offered every third semester as of fall 2015.

Properties of integers and prime numbers, divisibility, congruence, residues and selected topics. Prerequisite: MATH 245 or consent of the instructor.

MATH 315. The Real Number System. 3 credits. Offered every third semester as of spring 2015.

A development of the real number system through a systematic approach to the natural numbers, integers, rationals and irrationals. Prerequisite: MATH 245 or consent of the instructor.

MATH 318. Introduction to Probability and Statistics. 4 credits. Offered fall and spring.

Descriptive statistics, counting, probability axioms, discrete and continuous univariate random variables, expected values of random variables and sums of independent random variables, sampling distributions and the Central Limit Theorem, single and two sample inference for proportions and means, chi-square test of independence, simple linear regression, and correlation. Prerequisite: MATH 236.

MATH 321. Analysis of Variance and Experimental Design. 3 credits. Offered fall and spring.

Introduction to basic concepts in statistics with applications of statistical techniques including estimation, test of hypothesis, analysis of variance and topics in experimental design. Prerequisite: MATH 220 or MATH 318 or equivalent.

MATH 322. Applied Linear Regression. 3 credits. Offered fall and spring.

Introduction to basic concepts and methods in regression analysis and the application of these models to real-life situations. Prerequisite: MATH 220 or MATH 318 or equivalent.

MATH 324. Applied Nonparametric Statistics. 3 credits. Offered spring.

Methods of analyzing data from non-normal populations including binomial, Poisson, Poisson, Poisson, and Poisson distributions, contingency tables, run of rank and Kolmogorov-Smirnov type statistics and selected topics. Prerequisite: MATH 220 or MATH 318 or equivalent.

MATH 325. Survey Sampling Methods. 3 credits. Offered fall.

Theory and practice of sampling including stratified random samples, discussion of simple random samples, cluster sampling, estimating sample size, ratio estimates, subsampling, two-stage sampling and sampling of error. Prerequisite: MATH 220 or MATH 318 or equivalent.

MATH 326. Statistical Quality Control. 3 credits. Offered on demand.

Uses and concepts of probability and sampling procedures. Acceptance sampling by attributes and variables, Shewhart charts of process control, control chart process capability studies, reliability and life testing. Design of sampling plans. Prerequisite: MATH 318.

MATH 327. Categorical Data Analysis. 3 credits. Offered fall.

Exact inference for population proportions, comparison of population proportions for independent and dependent samples, two and three-way contingency tables, Chi-square tests of independence and homogeneity, Chi-square goodness-of-fit tests and Poisson and logistic regression. Prerequisite: MATH 220 or MATH 318 or equivalent.

MATH 336. Elementary Differential Equations. 3 credits. Offered on demand.

Development of techniques for obtaining, analyzing and graphing solutions to differential equations, with emphasis on first and second order equations. Prerequisite: MATH 237.

MATH 337. Methods of Applied Calculus. 4 credits. Offered every third semester as of fall 2015.

Laplace transforms, power series and their application to differential equations. Vector differential and integral calculus; parametric curves; coordinate systems; line, surface and volume integrals; and gradient, divergence and curl including the theorems of Green, Stokes and Gauss. Prerequisites: MATH 237 and MATH 238.

MATH 340. Mathematical Modeling I – Optimization. 3 credits. Offered fall of even years.

Linear and nonlinear optimization with an emphasis on applications in the sciences, economics and social sciences. Techniques studied include the simplex, Newton and Lagrange methods and Kuhn-Tucker theory. Software packages will be used to implement these methods. Prerequisites: MATH 237 and MATH 238 or consent of instructor.

MATH/PHYS 341. Nonlinear Dynamics and Chaos. 3 credits. Offered spring.

Introductory study of nonlinear dynamics and chaos intended primarily for upper-level undergraduates in science and mathematics. Topics include stability, bifurcations, phase portraits, strange attractors, fractals and selected applications of nonlinear dynamics in pure and applied science. Computers may be utilized for simulations and graphics. Prerequisites: MATH 238 and MATH 248.
MATH/BIO 342. Mathematical Models in Biology. 3 credits. Offered spring.

Introduction to dynamical models (discrete and continuous time) applied to biology. Tools of mathematical analysis from linear and nonlinear dynamics will be taught, including stability analysis of equilibria, as well as appropriate use of software packages. Emphasis will be on model development and interpretation in the context of applications, including effective written and oral presentation. Prerequisites: MATH 232 or MATH 235 or equivalent.

MATH 353. Graph Theory. 3 credits. Offered every third semester as of fall 2014.
Graphs and their applications. Possible topics include trees, Euler paths and Hamiltonian circuits, planar graphs, digraphs, adjacency matrices, connectivity and coloring problems. Prerequisite: MATH 245 or consent of instructor.

BIO 454/MATH 354. Introduction to Biometrics (3, 1). 4 credits. Offered spring.
This course discusses the role of statistics in biological research and interpretation of biological phenomena. The course will cover topics of sampling, correlation, regression analysis, tests of hypotheses, commonly observed distributions in natural populations, nonparametric tests, goodness-of-fit tests and ANOVA. In order to fully comprehend the statistical analysis of those publications, students will review approximately half a dozen publications from different fields of biology. Prerequisite: MATH 220 or MATH 318 or equivalent.

MATH 360. Complex Variables with Applications. 3 credits. Offered every third semester as of spring 2015.
Introduction to algebraic properties of complex numbers, analytic functions, harmonic functions, mappings of elementary functions, contour integration, series, residues, and poles and conformal mappings. Emphasis on computations and applications to fluid and heat flow. Prerequisite: MATH 237.

MATH/PHYS 365. Computational Fluid Dynamics. 3 credits. Offered on demand.
Applications of computer models to the understanding of both compressible and incompressible fluid flows. Prerequisites: MATH 248, either MATH 238 or MATH 330, MATH/PHYS 285, and PHYS 340.

MATH/FIN 390. Mathematical Finance. 3 credits. Offered spring.
An overview of the role of mathematics in financial applications. Topics include continuous time finance, optimization, numerical analysis and applications in asset pricing. Prerequisites: MATH 237 and FIN 380.

MATH/FIN 405. Securities Pricing. 3 credits. Offered fall.
A quantitative treatment of the theory and method of financial securities pricing to include an examination of closed form pricing models such as the Black-Scholes and its various derivatives as well as numerical solution techniques such as binomial methods. Prerequisite: MATH 350.

MATH 410-411. Advanced Calculus I-II. 3 credits each semester. MATH 410 offered fall and spring; MATH 411 offered spring.
Limits, continuity, differentiation, sequences, series, integration and selected topics. Prerequisites for MATH 410: MATH 238 or MATH 330, and MATH 245 or consent of the instructor. Prerequisite for MATH 411: MATH 410.

MATH 415. History of Mathematics. 3 credits. Offered spring.
Topics in the history of mathematics spanning ancient times to the present. Prerequisite: MATH 245 or consent of the instructor.

MATH 421. Applied Multivariate Statistical Analysis. 3 credits. Offered fall.
Multivariate statistical methods with applications. Topics include canonical correlation, clustering, discriminant analysis, factor analysis, multivariate analysis of variance, multiple regression, multidimensional scaling and principal component analysis. Prerequisites: MATH 300 or MATH 238, and MATH 321 or MATH 322.

MATH 423. Stochastic Processes. 3 credits. Offered on demand in spring.
Sequences and classes of random variables. Applications to physical, biological, social and management sciences. Topics include Markov chains, branching processes, the Poisson process, queuing systems and renewal processes. Prerequisites: MATH 238 or MATH 300, and MATH 318.

MATH 424. Statistical Decision Theory. 3 credits. Offered on demand in spring.
Development and use of probability and statistics for strategic decision making with applications. Topics include decision flow diagrams, analysis of risk and risk aversion, utility theory, Bayesian statistical methods, the economics of sampling, sensitivity analysis and collective decision making. Prerequisite: MATH 318.

MATH 426. Probability and Mathematical Statistics II. 3 credits. Offered spring.
Limiting distributions, sampling theory and distributions, theory and applications of estimation and hypothesis testing. Prerequisite: MATH 425.

Experience in the design, data collection and analysis for a survey or experiment. Prerequisite: Consent of instructor.

MATH 430-431. Abstract Algebra I-II. 3 credits each semester. MATH 430 offered fall and spring; MATH 431 offered spring.
An introduction to groups, rings and fields. Prerequisite for MATH 430: MATH 238 or MATH 302, and MATH 245 or consent of instructor. Prerequisite for MATH 431: MATH 430.

MATH 434. Advanced Linear Algebra. 3 credits. Offered spring.
A proof-based linear algebra course covering such topics as vector spaces, linear transformations and matrices, eigenvalues and eigenvectors, inner product spaces, and canonical forms. Prerequisites: MATH 245 and either MATH 238 or MATH 300.

MATH 435. Introduction to Topology. 3 credits. Offered fall.
Metric spaces, limits, continuous maps and homeomorphisms, connectedness, compact topological spaces and applications. Prerequisites: MATH 238 or MATH 302, and MATH 245 or consent of instructor.

MATH 440. Fourier Analysis and Partial Differential Equations. 3 credits.
Offered fall.
Elementary applied partial differential equations, the heat equation, Laplace's equation, the wave equation, Fourier series and boundary value problems. Both theory and problem-solving will be included. Prerequisite: MATH 238 or MATH 330.

MATH 441. Analysis and Dynamics of Differential Equations. 3 credits. Offered spring.
Analysis of qualitative properties and dynamics of linear and non-linear ordinary differential equations, including topics such as existence, uniqueness and applications of uniqueness, phase portraits, stability and chaos, with applications to the sciences. Prerequisites: MATH 238, and MATH 245 or MATH 440 or consent of instructor.

MATH/CS 448. Numerical Analysis. 3 credits. Offered every third semester as of fall 2014.
Study and analysis of algorithms used to solve nonlinear equations and the systems of nonlinear and linear equations. Iterative methods for matrices and Newton-type methods. Numerical differential and integral calculus. Programming using a high-level language and/or software packages. Prerequisites: MATH 237, MATH 238 and MATH 248.

MATH/CS 449. Numerical Analysis for Differential Equations. 3 credits.
Offered every third semester as of spring 2015.
Study and analysis of numerical techniques to solve ordinary and partial differential equations, including Euler, Runge-Kutta, Picard, finite-difference and finite-element methods. Programming using a high-level language and/or software packages. Prerequisites: CS/MATH 448 and MATH 330.

MATH/CS 452. Design and Analysis of Algorithms. 3 credits. Offered spring.
An introduction to the analysis, design and theory of algorithms. Algorithms studied will be selected from searching, sorting and graph theory. Included are elements of counting, recurrence relations, direct and indirect proofs, recursion, complexity classes, language theory, decidability and undecidability. Prerequisites: MATH/CS 228 and CS 240.

MATH/FIN 465. Seminar in Actuarial Science I. 3 credits. Offered on demand.
Theory and application of contingency mathematics in the areas of life and health insurance and of annuities from both a probabilistic and deterministic approach. This class, together with MATH/FIN 466, helps students prepare for the professional actuarial examinations. Prerequisite: MATH/FIN 395 or consent of the instructor. Prerequisite or corequisite: MATH 426.

MATH/FIN 466. Seminar in Actuarial Science II. 3 credits. Offered on demand.
A continuation of MATH/FIN 465. Additional coverage of contingency mathematics in the areas of life and health insurance, annuities, pensions and risk theory from both probabilistic and deterministic approaches. The two-course sequence helps to prepare the student for the professional actuarial examinations. Prerequisite: MATH/FIN 485. Prerequisite or corequisite: MATH 427.

MATH 470. Connections in Mathematics. 3 credits. Offered spring.
This course is a mathematics capstone course primarily for math majors with secondary education minors. It covers a variety of topics, each designed to develop the interconnectedness of advanced mathematics to the secondary curriculum. Prerequisite or corequisite: MATH 318, MATH 410, MATH 430, and MATH 475.
SMAD 475. Fundamental Concepts of Geometry. 3 credits. Offered fall.
Origin and development of Euclidean and other geometries including
axiomatic systems, mathematical proof and special topics from incidence
geometry. Prerequisite: MATH 245 or consent of instructor.

SMAD 485. Selected Topics. 1-4 credits. Offered on demand.
Topics in advanced mathematics or statistics which are not covered in the
regularly offered courses. Offered only with approval of the department
head, may be repeated for credit when course content changes.
Prerequisites: Consent of the instructor.

SMAD 497. Undergraduate Research. 1-4 credits. Offered on demand.
Students pursue advanced research in a selected area of mathematics and/or
statistics. Student must make arrangements with a supervising instructor prior
to registration. Offered only with consent of the department head. Repeatable
up to 6 credits.

SMAD 499. Honors. 6 credits. Offered on demand.
Three-semester sequence (parts A, B and C with 1-4 credits each). Two-three-
one credit sequence is recommended. Prerequisite: Consent of SHP supervisor.

Media Arts and Design

School of Media Arts and Design

SMAD 101. Introduction to Media Arts and Design. 3 credits.
Study of the historical evolution of today's media industries and career paths.
Emphasis on contemporary issues affecting those industries and careers.
Consideration given to emerging media, their required skills and social
impacts. Prerequisite: Formal declaration for admission to the SMAD major.
SMAD 201. Fundamental Skills in Media Arts and Design I. 3 credits.
Study of basic computer operating systems and the principles and practices
of graphic production for digital and interactive media. Focus on tools
and techniques used to create graphic content for diverse media delivery
systems. Prerequisite: Admission to the SMAD major.

SMAD 202. Fundamental Skills in Media Arts and Design II. 3 credits.
Study of the aesthetic principles and practices of web development
and production, and digital audio and video production. Focus on the
 technological requirements of producing content for the web and video.
Prerequisite: Admission to the SMAD major. Prerequisite or corequisite:
SMAD 201.

SMAD 210. News Reporting and Writing. 3 credits.
The study and practice of the fundamentals of news writing, including news
gathering techniques and news style. Emphasis on coverage of meetings,
events and breaking stories. Consideration of writing across platforms
including print, broadcast and online. Fulfills the College of Arts and Letters
writing-intensive requirement for the major. Prerequisite: Admission to the
major or permission of the instructor.

SMAD 220. News Editing. 3 credits.
The study of editorial functions in the modern newsroom. Consideration
of problems in news judgment, news style and the laws of libel. Emphasis
upon layout and headline writing. Prerequisite or corequisite: SMAD 210.

SMAD 225. Photojournalism. 3 credits.
The study of visual information gathering for print media including
photojournalism. Emphasis on photographic techniques and print media
layout. Consideration of new visual technologies including the use of
computers for electronic photo editing and design. Students must provide
their own cameras. Prerequisite: Admission to the SMAD major and SMAD
201 or permission of the instructor.

SMAD 231. Writing for New Media. 3 credits.
Study of the principles and practices of writing for new media platforms.
Emphasis on the nature of interactivity, narrative design, and the relationship
between text, image, sound and video. Attention to the development of new
media presentations designed to inform, persuade and entertain. Fulfills
the College of Arts and Letters writing-intensive requirement for the major.
Prerequisite: Admission to the SMAD major or permission of the instructor.

SMAD 241. Introduction to Corporate Communication. 3 credits.
Introduction to the study and practice of corporate communication. Students
will explore the functions of a corporate communication department, the
strategic planning process, and the various forms and techniques used
in corporate media writing. Exercises in print, broadcast and interactive
media writing will allow students to apply material in real and simulated
situations and produce examples for portfolios. Fulfills the College of Arts
and Letters’ writing-intensive requirement. Prerequisite: Admission to the
SMAD major or permission of the instructor.

SMAD 243. Sport Communication Techniques: Broadcasting. 3 credits.
Study and practice of broadcast and A/V techniques applied in a variety of
sport settings. Prerequisite: KIN 242.
SMAD 244. Sport Communication Techniques: Writing and
Reporting. 3 credits.
Basic skills of sport writing and reporting are studied and applied.
Students gain experience in a variety of sports and learn and apply skills in
researching, interviewing, reporting, writing columns and features involving
the world of sports. Prerequisite: KIN 242.

SMAD 250. Scriptwriting. 3 credits.
The study of the principles and practices of writing scripts for commercial,
non-commercial and corporate media applications. Emphasis on preparing
dramatic and informational forms for broadcast or recording. Fulfills the
College of Arts and Letters writing-intensive requirement for the major.
Prerequisite: Admission to the SMAD major or permission of the instructor.

SMAD 251. Screenplay Writing. 3 credits.
Introductory study of the principles and practices of screenwriting. Emphasis
is placed on the basic narrative structures underlying cinematic story-telling
and the development of a short film script. Fulfills the College of Arts and
Letters writing-intensive requirement for the major. Prerequisite: Admission
to the SMAD major or permission of the instructor.

SMAD 256. Principles of Advertising. 3 credits.
Study of the principles and practices of advertising, including the process,
planning, production and placement of commercial messages. Students
will learn of the social impact, creative strategy, consumer use, message
production and media placement strategies of advertising. Students get
practical experience applying an integrated communication strategy.
Prerequisite: SMAD 202 or permission of the instructor.

SMAD 295. Practicum in Media Arts and Design. 1 credit, repeatable to 3 credits.
First year students and sophomores participating in co-curricular media
activities may receive one hour of credit for fieldwork at The Breeze,
WMRA-FM, the Madison Video Productions or other university-related
media outlets. Students are limited to one practicum per semester.
Application procedures will be available from the school prior to registration.
Prerequisite: Permission of the instructor.

SMAD 301. The Media Arts: Culture by Design. 3 credits.
Study of how mediated communication molds perception and influences
cultural change. Emphasis on how language and imagery, sound and music
are combined in current media to create meaning. Consideration of emerging
media and their implications for cultural design. Prerequisite: SMAD 201
and SMAD 202 or permission of the instructor.

SMAD 302. HD Video Production. 3 credits.
Principles and practices of video production and editing. Focus on production
planning, visual composition, lighting, recording sound and sequencing of
shots. Emphasis on single camera videography, and editing for broadcast,
non-broadcast and multimedia applications. Prerequisite: SMAD 202 or
permission of the instructor.

SMAD 303. HD Post Production. 3 credits.
Principles and practices of high definition video editing. Focus on the
technical, aesthetics, and strategies of editing, multi-layer composting,
and transcoding required for effective program output and multi-format
distribution. Prerequisite: SMAD 302 or permission of the instructor.

SMAD 304. Audio Production. 3 credits.
Study of digital sound production and digital sound-for-picture production.
Emphasis on advanced theories and applications. Prerequisite: SMAD 302.
Corequisite or prerequisite: SMAD 303 or permission of the instructor.

SMAD 305. Topics in Media Arts and Design. 3 credits, repeatable to 6 credits.
The study of current topics and issues in media arts and design. Emphasis
on contemporary themes of immediate concern. Prerequisite: Admission
to the SMAD major or permission of the instructor.

SMAD 306. HD Studio Production. 3 credits.
The study of principles and practices of high definition television studio
production. Focus on visual composition, audio, lighting and communication
in a studio environment. Emphasis on technical and aesthetic demands
of high definition video. Prerequisites: SMAD 302, SMAD 309 or permission
of the instructor.

SMAD 307. Interactive Design for the Web I. 3 credits.
Study of the principles of creating effective communication for the World Wide
Web. Emphasis on the techniques used to design and integrate diverse media

http://www.jmu.edu/catalog/14
elements. Focus on the creation and manipulation of text, graphics, audio and video for the Web. Consideration of interface design and Web delivery issues. Prerequisite: SMAD 202, prerequisite or corequisite: SMAD 231 or SMAD 241 or SMAD 250 or SMAD 251 or permission of the instructor.

SMAD 308. Interactive Design for the Web II. 3 credits.
Study of the principles and practices for creating effective interactive media. Emphasis on user-centered design of the interactive experience. Includes animation and scripting for online and fixed media. Prerequisite: SMAD 307 or permission of the instructor.

SMAD 309. Video Journalism. 3 credits.
Study of principles and practices in electronic journalism including information gathering, news writing, camera operations and editing techniques. Emphasis on the use of sound and video to produce hard news, feature news and long-form perspective-based stories for broadcast and online. Examination of the Internet's impact and the differences between traditional and online media outlets in constructing stories with video and sound. Prerequisite: SMAD 202 and SMAD 210 or permission of the instructor.

SMAD 310. Advanced Reporting and Writing. 3 credits.
Advanced study and practice of news and feature writing and information gathering techniques. Emphasis on in-depth and investigative stories. Consideration of writing for multiple platforms. Prerequisite: SMAD 210 or permission of the instructor.

SMAD 311. Feature Writing. 3 credits.
The study and practice of advanced techniques in planning and writing feature stories. Emphasis on individual performance through criticism of student work in conference with the instructor. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisite: SMAD 210 or SMAD 241 or permission of the instructor.

SMAD 321. Feature Magazine Production. 3 credits.
A practical course in which students produce a feature magazine published regularly by the journalism area. Each student is assigned a specific staff position. Students learn to use the latest computer pagination technology in the design and production of a magazine. Prerequisite: SMAD 310 or SMAD 311 or permission of the instructor.

SMAD 322. New Media Journalism. 3 credits.
Advanced study in the knowledge and skills required to produce new media journalism. Focus on new and emerging media forms including blogs, social media and journalism websites. Consideration of audiences, story generation, writing, editing, site design and management. Prerequisite: SMAD 210 or SMAD 241, and either SMAD 220 or SMAD 308, or permission of the instructor.

SMAD 330. New Media Law. 3 credits.
An in-depth investigation of business and legal aspects of new media production, publication and distribution. Examination of legal issues affecting the new media industry including: intellectual property laws, torts contracts and licensing. Discussion of current policies and practices affecting new media development and review of pertinent legal reference materials. Prerequisites: SMAD 301 or SMAD 301L and junior or senior standing or permission of the instructor.

SMAD 332. Print Communication Design. 3 credits.
An introduction to the theories and methods of design for print communication. Students will learn various techniques needed to produce the design materials that go into print publications. Prerequisite: SMAD 201 or permission of the instructor.

SMAD/JUST 334. Media and Justice. 3 credits.
This course will examine media constructions of justice. Students will be required to critically analyze the portrayal of justice issues in various media forms including television, internet, and film. Attention will be given to the accuracy of such portrayals and whether they have any broader social implications in regards to how we view complex justice issues. Fully admitted SMAD majors only.

SMAD 340. Advanced Screenplay Writing. 3 credits.
Advanced study of the principles of screenplay writing for feature films and television movies. Emphasis is placed on the structure of the full-length narrative film. Prerequisite: SMAD 261 or permission of the instructor.

SMAD 341. Information and Communication Technologies. 3 credits.
Study of current communication and information technologies utilized in corporate communication. An emphasis on research and analysis of current technology trends and applications, as well as message design and implementation of new media technologies. Focus on effective and efficient use of new social media for information distribution to internal and external corporate constituent groups. Prerequisites: Converged Media concentrations: SMAD 202 and SMAD 231; Corporate Communication concentrations: SMAD 202 and SMAD 241; or permission of the instructor.

SMAD 356. Telecommunication Policy and Regulation. 3 credits.
An overview of the regulatory issues encountered in the telecommunication industry. Emphasizes post 1982-FCC changes deregulating telephone, CATV and broadcast industries. Includes regulation of emerging services and technologies, First Amendment issues, ownership and distribution of new information forms, and limitations and uses of technology. Prerequisite: Junior or senior standing or permission of the instructor.

SMAD/JUST 357. Youth, Communication and Culture. 3 credits.
Grounded in the cultural communication perspective, the course examines the relationship between communication, youth and popular culture. Defining youth as children, tweens, teens and college-aged young people, this course focuses on communication issues such as how youth are represented in various forms of popular culture, how they are defined by corporate discourse; how young people make sense of popular culture artifacts; and how they become cultural communicators as well as consumers. Prerequisites: Admission to the SMAD major.

SMAD 370. Mass Communication Law. 3 credits.
Principles and case studies in communication law, constitutional guarantees, libel, privacy, contempt, copyright and governmental regulatory agencies. Emphasis on recent cases and their effects on mass communication. Prerequisites: SMAD 301 or SMAD 301L and junior or senior standing, or permission of the instructor.

SMAD 371. Narrative Media Studies. 3 credits.
Study of narrative theories that focus on the forms and effects of storytelling in cinema and television. Emphasis on how such theories explain the cultural impact and personal utility of narrative contents in everyday life. Consideration of “the hero’s journey” in a variety of film genres and TV formats. Prerequisites: SMAD 301 or SMAD 301L and junior or senior standing; for non-majors: admission to the interdisciplinary minor in film studies; or permission of the instructor.

SMAD 372. Media History. 3 credits.
The study of the history of the media in relation to American politics and society. Emphasis on key periods in the development of journalism and the mass media and the role of the journalist in society. Prerequisites: Admission to the SMAD major and junior or senior standing, or permission of the instructor.

SMAD 373. Media Analysis and Criticism. 3 credits.
The study and practice of journalistic and scholarly criticism of the mass media. Emphasis on interpretive writing about television, film and popular music. Consideration of contemporary analytical methods for researching mass-mediated culture. Prerequisites: SMAD 301 or SMAD 301L; for non-majors: junior standing and admission to the interdisciplinary minor in creative writing; or permission of the instructor.

SMAD 390. Directed Projects in Media Arts and Design. 2 credits, repeatable to 4 credits.
Supervised projects related to the study of any of the communication media. Credit given for original individual or group programs beyond the school’s usual co-curricular activities. A suitable completed project or report is required before credit can be awarded. Prerequisite: Permission of the school director.

SMAD 395. Advanced Practicum in Media Arts and Design. 1 credit, repeatable to 3 credits.
Juniors and seniors participating in co-curricular media activities may receive one hour of credit for fieldwork at The Breeze, Curio, WMRA-FM, the Madison Video Productions or other university-related media outlets. Students are limited to one practicum per semester. Application procedures will be available from the school prior to registration. Prerequisite: Permission of the instructor.

SMAD 399. Critical Studies in Media Arts and Design. 3 credits, repeatable to 6 credits.
Special studies of contemporary media and their contents. Emphasis on the analysis of emerging issues in content production, reception and media effects. Focus on the critical methods used to examine such issues. Consideration of how particular methods may be applied in international as well as American media contexts. Prerequisites: SMAD 301 or SMAD 301L. For non-majors: Admission to the cross disciplinary minor in film studies or, when taken abroad, the cross disciplinary minor in British communication and media, or permission of the instructor.

SMAD 400. Senior Assessment in Media Arts and Design. 0 credits.
Students participate in testing, interviews, project reviews and other assessment activities as approved by the School of Media Arts and Design. Grades will be assigned on a credit/no-credit basis. Prerequisites: SMAD 301 or SMAD 301L and junior or senior standing or permission of the school director.

http://www.jmu.edu/catalog/14
SMAD 407. Business and Management of Digital Media. 3 credits.
Study of the principles and practices of managing digital media production. Emphasis on financial and personnel management, client relationships, and the structures and practices of digital media industries. Consideration of new trends in production and distribution. Attention to career preparation and development. Prerequisites: SMAD 302 or permission of the instructor.

SMAD 408. Converged Media Lab. 3 credits.
Advanced study in converged media production. A senior production studio class focusing on creative solutions for complex communication problems in print, video, and web media. The client-based projects will require creative brainstorming, teamwork, project management, and analysis and criticism in addition to production and distribution. Additional attention to portfolio development. Prerequisites: SMAD 231, SMAD 307, and SMAD 302 or SMAD 388 or SMAD 332 or SMAD 341; and senior standing and permission of the instructor.

SMAD 409. Electronic News Gathering and Producing. 3 credits.
Study of the processes and responsibilities of producing news for electronic distribution. Students will research, write, and produce stories for distribution over-the-air, on cable and over the Internet. Emphasis on legal and ethical issues in news coverage. Prerequisites: SMAD 309 or permission of the instructor.

SMAD 410. Corporate Communication Management. 3 credits.
Study of principles and practices of managing corporate communication. Emphasis on evaluation and management of messages, channels and appropriate media. Attention given to critical analysis and strategic planning. Focus on legal, ethical, financial, personnel issues and career development. Analysis of case studies and current issues. Prerequisites: Senior standing and SMAD 302 or SMAD 307, or permission of the instructor.

SMAD 460. Movies and Society. 3 credits.
The study of the cultural impact of the film industry as an institution of mass communication. Emphasis on the interrelationship among social, economic and technological factors influencing the creation and consumption of motion pictures. Consideration of particular films as indicators of cultural change. Prerequisites: SMAD 301 or SMAD 301L and junior or senior standing; for non-majors: admission to the interdisciplinary minor in film studies and junior or senior standing; or permission of the instructor.

SMAD 461. Movies as Art. 3 credits.
Advanced study of how movies tell their stories in visual terms. Emphasis on the historical evolution and design of the moving image. Consideration of the latest imaging technologies affecting film narrative. Prerequisites: SMAD 301 or SMAD 301L and junior or senior standing; for non-majors: admission to the interdisciplinary minor in film studies and junior or senior standing; or permission of the instructor.

SMAD 462. Documentary in Film and Television. 3 credits.
The study of content, style, technique and effect of representative samples of the documentary form. Consideration given to informational and persuasive elements. Prerequisites: SMAD 301 or SMAD 301L and junior or senior standing; for non-majors: admission to the interdisciplinary minor in film studies and junior or senior standing; or permission of the instructor.

SMAD/ENG 463. Film Adaptations. 3 credits.
The study of the process of adapting literature into feature films. Consideration is given to the original literary work, as well as to the changes undergone in its adaptation to film. Prerequisite: SMAD 301 or SMAD 301L and junior or senior standing. For non-majors: admission to the crossdisciplinary minor in film studies; or permission of the instructor.

SMAD 470. New Media and Society. 3 credits.
Study of the key issues arising from the role of information and information technology in organizations and society. Emphasis on the spheres of social life in which new media technologies play a role: politics, community, economics, culture, personal and global contexts. Focus on a wide range of perspectives and on both theoretical and empirical research to examine new media’s role in social capital and community. Prerequisites: SMAD or WRTC major, junior or senior standing, or permission of the instructor.

SMAD 471. Media Ethics. 3 credits.
The study of ethical principles and how they apply in a variety of media situations, including entertainment programming news and advertising. Emphasis on case studies as examples of ethical decision-making. Prerequisites: Admission to the SMAD major and junior or senior standing or permission of the instructor.

SMAD/SCOM/POSC 472. Media and Politics. 3 credits.
A study of the media’s role in political campaigns, concentrating on past/present election, the media’s role in covering political parties and coverage of the governing process. Discussion of electronic and print will occur. Topics to be examined include campaign videos, CSPAN, political ads, editorial cartoons, TV debates, convention coverage and radio talk show commentary.

SMAD 490. Special Studies in Media Arts and Design. 3 credits.
An independent study for students to pursue individual research under the guidance of a faculty advisor. Prerequisites: Senior SMAD majors in good standing and permission of the school director.

SMAD 495. Internship in Media Arts and Design. 1-2 credits, repeatable to 4 credits.
An off-campus program prepared and monitored on an individual student basis. Internships are designed to provide practical experience in converged and interactive media, corporate communication, digital video and cinema, and journalism. Prerequisites: Permission of the school director and the media facility involved. Students must meet criteria and application procedures established in each concentration.

SMAD 497. Advanced Projects in Media Arts and Design. 3 credits.
This advanced course will enable students to collaborate to create diverse media projects. Projects may be designed to focus on one or many concentrations, and are intended to provide a culminating media creation experience. Prerequisites or corequisites: SMAD major and senior or junior standing.

SMAD 498. Senior Seminar in Media Arts and Design. 3 credits.
The study and research in the history and philosophy of the function of mass communication in society. Consideration of topics relating to problems of communication systems, technological freedoms, and press freedom and responsibilities. Prerequisites: SMAD 301 or SMAD 301L and senior standing or permission of the instructor.

SMAD 499. Honors in Media Arts and Design. 6 credits.
Year course.

Middle Education
College of Education
MIED 311. Field Experience in Middle Education. 2 credits.
Students devote 60 clock hours to classroom activities that emphasize diverse learning needs in middle schools under university and public school supervision. Satisfactory performance in this course is required for continuing in teacher education. Corequisites: EDUC 310 and READ 312 for middle education students.

Middle and Secondary Education
College of Education
MSSE 101. Orientation to the Profession. 2 credits.
Provides information about preparation programs and careers for teachers of middle and high schools. Students participate in reflective activities for making personal and professional decisions about teaching and also engage in a service learning project.
MSSE 240. Foundations of General Education Grades 6-12. 3 credits. This course is designed to provide an overview of the structure and curriculum of the secondary (6-12) general education classroom. Students will learn assessment requirements of general secondary classrooms and the parameters under which teachers in general secondary classrooms must function. This course is not open to middle and secondary education teacher licensure candidates.

MSSE 270. General Instructional Methods for English Educ. 3 credits. This general teaching methods course provides a solid foundation for planning curriculum and instruction for middle and high school students. Topics include engaging adolescent learners, lesson design instructional strategies and assessment models. Corequisite: For secondary education: MSSE 371 & EDUC 310, for middle education, MSSE 371. Prerequisites: Admission to teacher education, EDUC 310, MIED 311 and READ 312 for middle education students; Admission to teacher education, EDUC 310, MIED 311 and READ 312 for middle education students.

MSSE 371. Clinical Experience in Adolescent Education. 1 credit. Students will devote 15 hours to clinical experiences grounded in adolescent instruction, including field work and on-campus lab activities. Satisfactory performance in this course is required for retention in teacher education. Corequisite: For secondary education: MSSE 370 & EDUC 310, for middle education, MSSE 370. Prerequisites: GPSYC 180 for secondary education students; EDUC 310, MIED 311 and READ 312 for middle education students.

MSSE 470 (E, H, M and S). Teaching Methods Courses. 3 credits. Specific techniques and methods for middle and secondary teachers in their respective discipline areas. Competencies to be developed will include discipline-specific planning strategies, instructional models, assessment of student learning, etc. Corequisite: MSSE 471. Prerequisites: EDUC 310, MIED 311, MSSE 370, MSSE 371 and READ 312 for middle education students; EDUC 310, MIED 311, MSSE 370 and MSSE 371 for secondary education students.

MSSE 470H. Social Studies Teaching Methods, Grades 6-8. 3 credits. Specific instructional and assessment techniques and methods targeted for the middle school learner for middle and secondary teachers in their respective discipline areas. Competencies to be developed will include discipline-specific planning strategies, instructional models, assessment of student learning, etc. Corequisite: MSSE 471. Prerequisites: EDUC 310, MIED 311, MSSE 370, MSSE 371 and READ 312 for middle education students; EDUC 310, MSSE 370 and MSSE 371 for secondary education students.

MSSE 470M. Mathematics Teaching Methods, Grades 6-8. 3 credits. Specific instructional and assessment techniques and methods targeted for the middle school learner for middle and secondary teachers in their respective discipline areas. Competencies to be developed will include discipline-specific planning strategies, instructional models, assessment of student learning, etc. Corequisite: MSSE 471. Prerequisites: EDUC 310, MIED 311, MSSE 370, MSSE 371 and READ 312 for middle education students; EDUC 310, MSSE 370 and MSSE 371 for secondary education students.

MSSE 470S. Natural Sciences Teaching Methods, Grades 6-8. 3 credits. Specific instructional and assessment techniques and methods targeted for the middle school learner for middle and secondary teachers in their respective discipline areas. Competencies to be developed will include discipline-specific planning strategies, instructional models, assessment of student learning, etc. Corequisite: MSSE 471. Prerequisites: EDUC 310, MIED 311, MSSE 370, MSSE 371 and READ 312 for middle education students; EDUC 310, MSSE 370 and MSSE 371 for secondary education students.

MSSE 471. Content Area Field Experience in Middle Schools. 3 credits. Provides practical classroom experience for teacher education candidates in the middle and secondary education programs under the supervision of an in-service teacher and a clinical professor. Students engage in classroom activities that provide an opportunity for them to practice the strategies and concepts learned in the methods courses. Corequisites: MSSE 470 and READ 472 or EXED 480 for middle education students; MSSE 470 and READ 440 for secondary education students. Prerequisites: EDUC 310, MIED 311, MSSE 370, MSSE 371 and READ 312 for middle education students; EDUC 310, MSSE 370 and MSSE 371 for secondary education students.

MSSE 471E. Field Experience in Middle School English. 3 credits.

MSSE 471H. Field Experience in Middle School Social Studies. 3 credits.

MSSE 471M. Field Experience in Middle School Mathematics. 3 credits.

MSSE 471S. Field Experience in Middle School Natural Science. 3 credits.

MSSE 490. Special Studies in Education. 1-3 credits. A supervised, individualized study of one or more issues and/or problems in middle and/or secondary education. Prerequisites: The faculty adviser and the program coordinator must approve the plan for the study.

Military Science

Department of Military Science

MSCI 100. Leadership Laboratory (0, 2). 1 credit, repeatable to 4 credits. A laboratory in the development of leadership, stressing the practical application of leadership principles, techniques, styles and responsibilities. Participation as a member of a team or as a leader of the team given responsibility for accomplishment of given tasks. Corequisite: MSCI 101 or MSCI 102. Prerequisites: To enroll in this lab section, students must obtain a sports physical or similar medical clearance. Contact the Military Science office for additional information.

MSCI 101. Introduction to Leadership and the Army. 1 credit. Introduction to various leadership styles and their effect on organizations; an introduction to the organization of the U.S. Army, its roles and missions, customs and traditions; effective writing and oral presentation techniques; orienteering and the use of fiascopic compass; principles of physical conditioning. Corequisite: MSCI 100.

MSCI 102. Leadership Development Fundamentals. 1 credit. Introduction to the basic principles of leadership; developing a personal leadership style; effective writing and speaking skills; introduction to leadership in small tactical units; fundamentals of first aid, land navigation and marksmanship; principles of personal conditioning. Corequisite: MSCI 100.

MSCI 200. Intermediate Leadership Laboratory. 2 credits, repeatable to 4 credits. An intermediate leadership laboratory in the sequential process of leadership development, this course stresses the practical application of leadership principles and the exploratory development of personal leadership techniques and styles. The intermediate leadership laboratory focuses on leadership planning and execution and performance and evaluation as both a team member and a leader of a 10 to 30 person team. Cadets are given responsibility for accomplishing collective tasks and for the evaluation, counseling, leading and mentoring of 10 to 12 subordinates and team members. Prerequisites: Contracting into the ROTC (Basic Course (MSCI 101, MSCI 102, and MSCI 100 lab). Department head approval required. To enroll in this lab section, students must obtain a sports physical or similar medical clearance. Contact the Military Science office for additional information.

MSCI 201. Leadership Styles – Theory and Application. 2 credits. An introduction to leadership styles and techniques, using historical case studies, to introduce the branches and specialties of the Army. The focus of this course is communication and goal setting in small organizations, effective writing and public speaking, and performance and evaluation as the leader of a five-member team required to accomplish tasks in a practical setting. Students also serve as a member of a 10-person team responsible for accomplishing practical military and team-building tasks in a field setting. Corequisite: MSCI 100, MSCI 200 for contracted Cadets in JMU ROTC.

MSCI 202. Developing Leader Skills. 2 credits. This course focuses on analyzing missions to determine specified and implied tasks, organizing and conducting a briefing, preparing a concise written directive (operations order), and detailing how a team will accomplish its tasks. Performance and evaluation of Cadets as the leader of a five-person team during a 44 hour, off-campus leadership practical and evaluation of physical fitness preparedness for attendance at Cadet Professional Development Training are also components of this course. Corequisite: MSCI 100, MSCI 200 for contracted Cadets in JMU ROTC.

http://www.jmu.edu/catalog/14
MSCI 300. Advanced Leadership Laboratory (0, 2). 3 credits, repeatable to 12 credits.
An advanced laboratory in the development of leadership, stressing the practical application of leadership principles, techniques, styles and responsibilities. The advanced leadership laboratory focuses on leadership planning, resourcing and execution. Performance and evaluation as a leader of a 10 to 30 person team given responsibility for accomplishment of given tasks. Responsible for the evaluation, counseling and mentoring of 10 to 30 subordinates and team members. Prerequisites: MSCI 101, MSCI 102, MSCI 201, MSCI 202 and MSCI 100 lab. Department head approval required. To enroll in this lab section, students must obtain a sports physical or similar medical clearance. Contact the Military Science office for additional information.

MSCI 310. Leading Small Organizations. 3 credits.
Ethical dilemmas in leadership – when organizational goals conflict with member welfare; the role of policy and standard procedures in organizations; continued practice in effective writing and oral presentations; performance as a leader of a 10 person team in practical exercises; evaluation as an instructor of a period of instruction for 30 subordinates; evaluation as a leader of a 10 to 30 person team in a 44 hour, off-campus leadership practicum. Prerequisites: MSCI 101, MSCI 102, MSCI 201 and MSCI 202 or placement credit as determined by the professor of military science. Corequisite: MSCI 300.

MSCI 220. Developing Advanced Leader Skills. 3 credits.
Planning for the unexpected in organizations under stress; developing alternate courses of action which are viable with the given constraints; how to delegate tasks and supervise subordinate leaders, avoiding micro-management – the when and how of providing guidance and direction; time management – the “backward planning process”; evaluation of a 10 to 30 person team within tactical and non-tactical settings; analysis of assigned tasks, preparation of a written directive to accomplish these tasks and oral presentation to others in a concise briefing. Corequisite: MSCI 300.

MSCI 350. American Women at War. 3 credits
This course invites students to engage a series of issues about the role of women in the US military. This course will examine the contributions & experiences of women who served during the American Revolution, the U.S. Civil War, WWVI & II, Korea, Vietnam and the Persian Gulf War(s). Also included in this course is an examination of how women in military service both past and present are an instrument for societal change in America specifically in promoting the cause of women’s rights.

MSCI 390. The Combat Experience. 3 credits.
The course will explore direct participation in military combat. It relies primarily on oral history gained from filmed and in-person interviews conducted by the instructor with combat veterans. Participants range from WWII to the current Middle East conflict.

MSCI 400. Advanced Leadership Laboratory II. 3 credits.
An advanced laboratory in the development of leadership, stressing the practical application of leadership principles, techniques, styles and responsibilities. For seniors, the advanced leadership laboratory focuses on planning, resourcing, supervision and evaluation. Performance and evaluation as a leader of a 10 to 30 person team given responsibility for accomplishment of given tasks. Responsible for the evaluation, counseling and mentoring of 10 to 30 subordinates and team members.

MSCI 410. Seminar on Command Management – Leadership Challenges and Organizational Goal-Setting. 3 credits.
Studies in advanced leadership and management; how to assess organizational cohesion and develop strategies to improve it; examine and utilize components of the Army’s training cycle; methods of instruction, planning and conducting of classes to be taught at leadership lab; conduct of oral After-Action Reviews and preparation of written After-Action Reports; the counseling process for improving individual and group performance of subordinates. Corequisite: MSCI 300.

MSCI 420. Seminar on Officership Transition. 3 credits.
Introduction to Army management systems – personnel and logistics; the military’s legal system and its application at the company level; the officer-NCO relationship; The Officer Efficiency Report and its support form; establishment of project time lines with milestones, goals and In-Progress Reviews; book review on a required leadership book from chief of staff Army required reading list. Corequisite: MSCI 300.

MSCI 490. Special Studies in Military Science. 1-3 credits.
Designed to give students an opportunity to do upper-division independent study in selected areas under the supervision of a faculty member in the military science department. Prerequisite: Department consent required.

Music
School of Music
MUS 100. Keyboard Skills I. 1 credit.
A beginning level keyboard skills class for music majors. Includes basic techniques, sight reading, elementary repertoire and functional theory-related keyboard skills. Music majors only.

MUS 101. Keyboard Skills II. 1 credit.
An elementary, but not beginning, level keyboard skills class for music majors. Includes basic techniques, sight reading, elementary repertoire and functional theory-related keyboard skills. Music majors only. Prerequisite: MUS 100 or placement by audition/interview.

MUS 120. Diction for Singers I. 1 credit.
The study of English and Italian pronunciation using the phonetic alphabet with emphasis on the performance of song literature in each language. Open to music majors and minors or by permission of the instructor. Prerequisite: Music major or permission of the instructor.

MUS 121. Diction for Singers II. 1 credit.
The study of French and German pronunciation using the phonetic alphabet with emphasis on the performance of song literature in each language. Prerequisite: Music major or minor or by permission of the instructor.

MUS 131. Fundamentals of Music. 3 credits.
Covers basics of music theory, ear-training and sight-singing; designed for students who are music majors.

MUS 141-142. Theory I: Writing and Analysis Techniques. 3 credits each semester.
Study of chord construction, diatonic harmony, species counterpoint, harmonic analysis and part writing. MUS 142 is a continuation of MUS 141. Continued study of diatonic harmony, introduction to chromatic harmony and modulation through chord-style part writing, composition exercises and musical analysis. Prerequisite for MUS 142: MUS 141.

MUS 143-144. Theory II: Aural Perception and Analysis. 1 credit each semester.
A coordinated laboratory course with MUS 141-142 encompassing sight singing and ear training. The course involves music reading and aural perception in unison and parts, dictation, error detection and analytical listening. Corequisite: MUS 141-142.

MUS 146. Jazz Theory and Ear Training. 1 credit.
This course introduces students to the basic elements of jazz melodic, rhythmic, and harmonic structure and style. Written analytical techniques and aural skills development will be emphasized. Prerequisite: MUS 141, MUS 143 or instructor permission.

MUS 150. Introduction to Technological Applications in Music. 1 credit.
This course is designed to provide students with an overview of multiple applications of technology in music teaching. Topics to be covered include, but are not limited to, notation software, instructional software (including creative, practice and performance), MIDI, productivity applications and digital audio/recording. MUS 150. Recital Attendance. 0 credit.
Required of all music majors for the first six semesters of their enrollment as a major. Successful completion of the course requires attendance at a specified number of approved recitals/concerts each semester. For complete course guidelines, refer to the Undergraduate Music Student Handbook.

GMUS 200. Music in General Culture. 3 credits.
Designed to increase the student’s perceptual ability in listening to music and to encourage an interest in both familiar and unfamiliar music. Primary study will be on music from the classic Western heritage, folk, jazz, popular and non-Western music may also be considered.

MSCI 202. Keyboard Skills III. 1 credit.
An intermediate level course in functional keyboard skills for music majors. Includes sight reading, transposition, harmonization, improvisation, playing by ear and accompanying techniques. Music majors only. Prerequisite: MUS 101 or placement by audition/interview.

GMUS 203. Music in America. 3 credits.
Knowledge and skills to increase the student’s perceptual ability in music listening with a survey of American music; examining relationships between popular and classical music styles.

GMUS 204. History of Rock. 3 credits.
History of rock is a music appreciation course designed to develop an understanding of both musical and cultural roots of rock music and the ability to hear a direct relationship between those roots and current popular music. A major component of the course is a survey of the history of 20th century American popular music.

http://www.jmu.edu/catalog/14
MUS 206. Introduction to Global Music. 3 credits.
A survey of various world music traditions, including those of Asia, the Pacific, Europe, Africa and the Americas. The course will focus on aesthetics, musical forms and styles, and the relationship between music and other arts. Emphasis will be placed on historical, religious and cultural events and their influence on the creation and development of music.

MUS 220. Assessment Test—School of Music. 0 credits. Offered each spring.
Required, non-credit School of Music Assessment Test course which is to be taken before the Bachelor of Music degree is received, normally in the final spring semester of senior year. Prerequisite: Music major with senior standing.

MUS 240. Jazz Improvisation Laboratory I. 2 credits.
Prerequisite: MUS 242.
This course introduces students to the techniques of arranging for two-horn, three-horn, and four-horn jazz ensembles. Students will study the classic repertoires of small jazz groups between 1930 and the present day, and create and record small ensemble arrangements in various styles. Prerequisites: MUS 146; MUS 305; MUS 345 or permission of the instructor.

MUS 241-242. Theory II: Writing and Analysis Techniques. 3 credits each semester.
Continuation of MUS 142. Continued study of diatonic and chromatic harmony through musical analysis, part writing and composition exercises. MUS 242 is a continuation of MUS 241.
Prerequisite for MUS 241: MUS 242; Prerequisite for MUS 242. MUS 241.
Prerequisite for MUS 241: MUS 242; Prerequisite for MUS 242: MUS 241.
Prerequisite for MUS 242: MUS 241.
Continuation of MUS 144. Continued study of sight singing and ear training with diatonic and chromatic materials though exercises in melodic, harmonic and rhythmic dictation, and singing of melodic exercises with solmization.
MUS 244 is a continuation of MUS 243, with an introduction to modal and 20th-century materials. Prerequisite for MUS 243: MUS 144; Prerequisite for MUS 244: MUS 243.
MUS 244. Aural Perception and Analysis. 1 credit each semester.
Continuation of MUS 144. Continued study of sight singing and ear training with diatonic and chromatic materials though exercises in melodic, harmonic and rhythmic dictation, and singing of melodic exercises with solmization.
MUS 244 is a continuation of MUS 243, with an introduction to modal and 20th-century materials. Prerequisite for MUS 243: MUS 144; Prerequisite for MUS 244: MUS 243.
MUS 303. Keyboard Skills IV. 1 credit.
A moderately advanced course in functional keyboard skills for music majors. Includes sight-reading, transposition, harmonization, improvisation, playing by ear and accompanying techniques. Designed to prepare music major students for the required Keyboard Proficiency Examination. Music majors only. Prerequisite: MUS 202 or placement by audition/ interview.
MUS 304. Advanced Keyboard Skills. 1 credit.
Prerequisite for MUS 303. Designed for music majors who are required to minor in piano and/or organ. The emphasis is on sight reading and other keyboard skills beyond those covered in the class piano MUS 303 course. This is a group class which can be repeated. Prerequisite: MUS 303.
MUS 305. Jazz Keyboard Skills. 1 credit.
This course introduces and develops the keyboard skills necessary to construct piano accompaniments in the jazz idiom using a progression of chord symbols or a lead sheet. Successful completion of this course is required in order to enroll in upper level courses in the Jazz Studies major. Prerequisite: MUS 101 or permission of the instructor.
MUS 317. Basic Conducting. 2 credits.
Designed to acquaint the student with the fundamental elements of conducting technique, such as beat patterns, cueing, expression, transposition and score reading, with an emphasis on applying these techniques in practical conducting experiences involving vocal and instrumental forces. Prerequisites: MUS 142 and MUS 144 or junior standing.
MUS 318. Intermediate Choral Conducting. 2 credits.
Consists of the further application of basic conducting skills learned in MUS 317 to the choral situation with emphasis on baton techniques, score reading, and preparation and introduction to choral literature. Prerequisite: MUS 317.
MUS 319. Intermediate Instrumental Conducting. 2 credits.
A continuation of basic conducting to develop skills in baton technique with emphasis on advanced literature for public school use. Included are score sight-reading skills and literature selection. Prerequisite: MUS 317.
MUS 341. Musical Form and Analysis. 2 credits.
An exploration of formal processes in tonal music, beginning with phrase and small formal structures, and including large-scale forms such as sonata, rondo and variations. Students will become conversant with the vocabulary of musical form, and through listening and analysis, demonstrate an ability to describe formal processes used in works of the common practice era. Prerequisite: MUS 242.
MUS 342. Basic Movement and Acting Skills for the Opera Stage. 2 credits.
A studio environment dedicated to the study of gesture, basic dance, movement, and acting skills for classical singers. Emphasis will be given to score interpretation, movement phrasing, and physical expression of musical ideas. Final assessment will be based on duet or small scene performance. May be repeated for credit with the approval of the instructor.
MUS 345. Small Ensemble Jazz Arranging. 3 credits.
This course introduces students to the techniques of arranging for two-horn, three-horn, and four-horn jazz ensembles. Students will study the classic repertoires of small jazz groups between 1930 and the present day, and create and record small ensemble arrangements in various styles. Prerequisites: MUS 146; MUS 305; MUS 345 or permission of the instructor.
MUS 346. Large Ensemble Jazz Arranging. 3 credits.
This course introduces students to the techniques of arranging for large jazz ensemble ("big band"). Students will study representative works of seminal big band composers active between 1930 and the present day, and create and record a full big band arrangement. Prerequisites: MUS 146; MUS 305; MUS 345 or permission of the instructor.
MUS 350. Music Composition. 2-3 credits.
Individual/semi-annual instruction in composition using 20th-century styles and techniques. Compositions are performed publicly. Prerequisites: MUS 141 and 142 or permission of the instructor. May be repeated.
MUS 356. History of Jazz in America. 3 credits.
A study of American jazz with particular emphasis on its practices with reference to principal performers and composers of jazz-style periods. Prerequisites: MUS 140; MUS 305; MUS 345 or permission of the instructor.
MUS 357. Private Piano Pedagogy. 3 credits.
Prerequisites: MUS 140; MUS 305; MUS 345 or permission of the instructor. Procedures and materials for the teaching of private piano students, especially elementary and intermediate. Piano solo and ensemble literature for children are emphasized. The problems of the adult beginner are studied.
MUS 372. Supervised Private Piano Teaching. 1 credit.
Prerequisite: MUS 371. Supervised practice teaching in private lesson settings involving beginning and intermediate piano students of various ages and abilities. Prerequisite: MUS 371.
MUS 373. Music History. 2 credits.
An introduction to the discipline of music history, incorporating the study of western music from antiquity through the early Baroque Era. A history of Western music from 1600 through 1827. A history of Western music from the late Romantic era through the 20th century.
MUS 374. Music History. 2 credits.
A history of western music from the late Romantic era through the 20th century.
MUS 375. Music History. 2 credits.
A history of western music from the late Romantic era through the 20th century.
MUS 375. Junior or Senior Half Recital. 0 credits.
Prerequisites: MUS 141; MUS 142 or permission of the instructor. May be repeated.
MUS 376. Senior Recital. 0 credits.
Prerequisites: MUS 140; MUS 305; MUS 345 or permission of the instructor. May be repeated.
The acoustical and mechanical design and history of the piano. This course includes the theory of tuning and temperaments; procedures and techniques of regulating and voicing pianos; and an additional hour for tuning lab.
MUS 380. Music and Human Services: Experiences and Practicum. 2 credits.
This course integrates psychological and cultural functions of music with activities and goals of human service organizations. Representatives of human services organizations are invited to explain their interventions with diverse populations. Students will be offered practicum experiences in these agencies. Through relating these experiences to the class, in seminar fashion, interdisciplinary practices will be illustrated.
MUS 440. Jazz Improvisation Laboratory II. 2 credits.
Prerequisites: MUS 242 and MUS 244. 2 credits.
An introduction to advanced improvisation techniques in the jazz idiom alone. There is an emphasis on the theoretical analysis of chord progressions as well as on creative musical application. The course concludes with introducing some advanced musical improvisation concepts. May be repeated. Prerequisite: MUS 240 or permission of the instructor.

MUS 441. Vocal Arranging. 3 credits.
Arranging for vocal ensembles. Included will be fundamental concepts of orchestration. Prerequisites: MUS 242 and MUS 244.

MUS 442. Instrumental Arranging. 3 credits.
Arranging for various instrumental ensembles, including fundamental concepts for orchestration. Prerequisites: MUS 242 and MUS 244.

MUS 444. Counterpoint. 2 credits.
A study of counterpoint from the Renaissance through the 20th century. Prerequisites: MUS 242 and MUS 244 or permission of the instructor.

MUS 445. Orchestration. 3 credits.
Survey of modern orchestrational techniques, including a thorough exploration of the characteristics of individual instruments; use of extended techniques; combinations of instruments and voices. Current practice will be studied through examples from contemporary orchestral literature. Students will complete several orchestration projects; readings will take place of as many as possible. Prerequisites: MUS 242 and MUS 352 (at least one semester) or permission of the instructor.

MUS 446. Jazz Composition. 2 credits.
An introduction to techniques of jazz composition. Students will study classic jazz compositions and create original compositions utilizing various harmonic techniques. Prerequisites: MUS 148, MUS 244 and MUS 305.

MUS 450. Topics in Music Analysis. 3 credits.
Analytical investigation of musical examples in a variety of styles with emphasis on structure and harmony. Topics vary, but may include music of the Renaissance, the common practice period, and/or the 20th century, including Debussy, Bartok, Stravinsky, and composers of the second Viennese school. Course may be repeated for different topics. Prerequisites: MUS 242 and MUS 244.

MUS 456. Choral Literature I. 3 credits.
A survey of choral literature from the pre-Renaissance through the Classical period, including a cappella and accompanied works. Attention will be given to parallel trends in keyboard and instrumental music where applicable. Prerequisites: MUS 372, MUS 374, MUS 375 and MUS 376 or permission of the instructor.

MUS 457. Choral Literature II. 3 credits.
A survey of choral literature from the Romantic period through the present, including a cappella and accompanied works. Attention will be given to parallel trends in keyboard and instrumental music where applicable. Prerequisites: MUS 372, MUS 374, MUS 375 and MUS 376 or permission of the instructor.

MUS 460. Piano Literature I. 2 credits.
A survey of baroque and classical literature for the piano encompassing solo and concerto repertoire. An examination of literature for the clavichord, harpsichord and piano forte.

MUS 464. Symphonic Literature. 3 credits.
A historical survey of symphonic literature concentrating primarily on major composers and compositions from Baroque to present.

MUS 465. Opera History and Literature I. 2 credits.
A survey study of the history of opera. Consideration will be given to the chronological development of all forms of music theatre with an emphasis on style characteristics through aural identification. Prerequisites: MUS 242, MUS 244 or permission of the instructor.

MUS 466. Opera History and Literature II. 2 credits.
A study of the history of Opera from 1840 through the present. Consideration will be given to the chronological development of all forms of Opera Theater with an emphasis on identifying characteristics of style through aural identification and score study. Prerequisite: MUS 242, MUS 244 or permission of the instructor.

MUS 467. Song Literature I. 2 credits.
A survey of vocal art-song literature in Western culture emphasizing the German composers, repertoire and concepts. Prerequisites: MUS 242, MUS 244 or permission of the instructor.

MUS 468. Song Literature II. 2 credits.
A survey of vocal art-song literature in Western culture emphasizing the Italian, French, English and American composers, repertoire and concepts. If time permits, other international repertoire will also be surveyed. Prerequisites: MUS 242, MUS 244 or permission of the instructor.

MUS 470. Piano Literature II. 2 credits.
A survey of romantic, impressionistic and 20th-century literature for the piano, including solo and concerto repertoire, with an emphasis on stylistic trends of the 20th century.

MUS 472. Instrumental Pedagogy. 1 credit.
Presentations of instrumental methods, solo and ensemble literature related to the instrumental performer’s own major area. Private instruction and observation. The course involves study, practice and observation.

MUS 480. Advanced Seminar in Musicological Topics. 3 credits.
An intensive study of a single topic in musicology or ethnomusicology. Topics change each semester and may include studies of a specific musical issue (performance practice, etc.), a single composer’s music, a single musical genre (the string quartet, etc.), or music at a specific time and/or place (music in fin de siecle Paris, music in modern South Africa, the second Viennese school, etc.) May be repeated for credit. Prerequisites: MUS 480, MUS 373, MUS 374 and MUS 375 or permission of the instructor.

MUS 485. Advanced Jazz Topics Seminar. 3 credits.
An intensive study of a single topic in jazz studies. Topics change each semester, and may include studies of a specific musical issue (performance practice, etc.), a single composer or performer’s music (Duke Ellington, Miles Davis, etc.), a single musical genre (the development of big band style, etc), or a sociological study (jazz in Europe, jazz and American culture, etc.). May be repeated for credit. Prerequisites: MUS 374, MUS 366 or permission of the instructor.

MUS 490. Special Studies in Music. 1-3 credits each semester.
Courses in music or music education which are of a topical nature. May be repeated for credit.

MUS 496. Senior Graduation Recital. 1 credit.
Presentation of a full recital with the quality of performance to meet standards for admission to graduate school master’s degree in music programs. Memorized recital presentations will be required in those areas which traditionally demand them. Prerequisite: Senior standing.

MUS 497. Senior Project in Theory. 1 credit.
Analytical paper or other topic approved by the theory-composition area. Enrollment is for students who are planning to do graduate work in music theory.

MUS 498. Selected Topics in Music. 1-3 credits.
Courses in music or music education which are of a topical nature. May be repeated.

MUS 499. Honors. 6 credits.
This is a year long course.

Music Education

School of Music

MUED 200. Small Ensemble for Instrumental Music Education Majors. 0 credits.
This course will fulfill the NASM requirement for instrumental music education majors to gain experiences in small ensembles. Students enrolled in this course may complete the requirement through a variety of experiences approved by their academic advisor, including participation in String Ensembles, Camerata Strings, Collegium Alustum, Wind Ensemble, Guitar Ensemble, Percussion Ensembles, Jazz Chamber Ensembles, Collaborative Piano, Brass Chamber Ensembles.

MUED 201. Small Ensemble for Vocal Music Education Majors. 0 credits.
This course will fulfill the NASM program requirement for vocal music education majors to gain experiences in small ensembles. Students enrolled in this course may complete the requirement through a variety of experiences approved by their academic advisor, including participation in Treble Chamber Choir, Men’s and Women’s Chamber Choirs, Bach Aria Group, Madison Singers, Collegium Musicum, or Opera Theatre.

MUED 206. Instrumental Music Methods for Vocal. 1 credit.
Provides vocal track music education majors with experiences, methods, and techniques for instrumental music instruction and a fundamental knowledge of and proficiency on woodwind, brass, percussion, and string instruments.
MUED 271. Music Education: A Professional Choice. 1 credit. Overview of the music education profession and the music education curriculum PreK-12. Introduction to the JMU Conceptual Framework. Observation of school music programs. Students apply to teacher education as a part of this course. A portfolio is initiated which will be continually revised, culminating in the student teaching portfolio.

MUED 273. Music Education: Professional Practice. 1 credit. Second course in the JMU music education sequence. Builds on the foundation of philosophy, history and psychology of music teaching established in the first semester of the sequence (MUED 271) with an emphasis on the application of foundational knowledge to planning and leading instruction. Continued observation in PreK-12 and other settings with opportunities to teach. Prerequisite: MUED 271.

MUED 301-302. Woodwind Techniques. 1 credit each semester. Instruction in the basic skills of playing and teaching standard woodwind instruments in a heterogeneous class situation. Various methods for woodwind teaching will be studied and materials used in public school teaching will be examined and performed. MUED 301 each fall; MUED 302 each spring. Prerequisites: Sophomore standing; MUED 301 is a prerequisite to MUED 302.

MUED 303-304. Brass Techniques. 1 credit each semester. Instruction in the basic skills of playing and teaching standard brass instruments in a heterogeneous class situation. Various methods for brass teaching will be studied and materials used in public school teaching will be examined and performed. MUED 303 each fall; MUED 304 each spring. Prerequisites: Sophomore standing; MUED 303 is a prerequisite to MUED 304.

MUED 305-306. Percussion Techniques. 1 credit each semester. Instruction in the basic skills of playing and teaching standard percussion instruments in a heterogeneous class situation. Various methods of percussion teaching will be studied and materials used in public school teaching will be examined and performed. MUED 305 each fall; MUED 306 each spring. Prerequisites: Sophomore standing; MUED 305 is a prerequisite to MUED 306.

MUED 307-308. String Techniques. 1 credit each semester. Instruction in the basic skills of playing and teaching string instruments. Instruction will be on violin, viola, cello and bass in a heterogeneous class situation. Various methods for string teaching will be studied and materials used in public school teaching will be examined and performed. MUED 307 each fall; MUED 308 each spring. Prerequisites: Sophomore standing; MUED 307 is a prerequisite to MUED 308.

MUED 310. Vocal Techniques. 1 credit. Class instruction designed to acquaint the instrumental (non-voice) major with fundamentals of vocal and choral techniques including posture, breath support, basic vocal production, physiological functions of the vocal mechanism, singer's diction, vocal exercises and individual as well as ensemble performances.

MUED 371. Beginning Methods and Materials for Instrumental Music. 2 credits. Methods and materials for beginning through intermediate instrumental music students. Administrative concerns are included. Prerequisite: MUED 273, full admission to teacher education and Level 3 in major applied area.

MUED 372. General Music Practices. 2 credits. Focuses on broad preparation for teaching the general music courses now found at both middle and high school levels. Prerequisite: MUED 273, full admission to teacher education and Level 3 in major applied area.

MUED 373. Advanced Methods and Materials for Instrumental Music. 2 credits. Learning experiences related to the career needs of school instrumental music teachers are analyzed, discussed and practiced. Planning and teaching skills are presented for beginning, intermediate and advanced level students. Prerequisites: MUED 273 and MUS 317, full admission to teacher education and Level 4 in major applied area.

MUED 378. Choral Music Materials and Techniques. 2 credits. Learning experiences of a useful and practical nature related to the career needs of school choral music teachers will be analyzed, discussed and practiced. Skills will be presented such as planning and teaching vocal technique, choosing appropriate music, and administering choral music programs. Prerequisites: MUS 317 and MUED 273, full admission to teacher education and Level 4 in major applied area.

MUED 380. Music in the Elementary School. 2 credits. The general music program in the elementary school presented for future music specialists, K-6. Focus is on the synthesis of current philosophy, learning theories and educational practices for teaching elementary school music. Preparation for organizing music curricula and daily lesson plans is included. Prerequisite: MUED 272, full admission to teacher education and Level 3 in major applied area.

MUED 470. Marching Band Procedures. 2 credits. Skills and knowledge needed to organize, administer, plan and teach marching band shows including shows for various competitions, parades, football, basketball and festival events; and techniques for developing both marching and playing style through a functional method of fundamental drill skills. Prerequisite: MUED 273 or permission of the instructor.

MUED 471. School Musical, Jazz and Show Choir Procedures. 2 credits. Covers skills and concepts needed to organize, administer, plan, teach and perform in musicals, jazz choirs and show choirs. Highlights techniques of commercial and theatrical vocal style, fundamentals of producing a musical and choreography for the show choir. Prerequisites: MUS 317 and MUED 271 or permission of the instructor.

MUED 472. Survey of String Orchestra Repertoire. 2 credits. An examination of concert repertoire for string and full orchestra appropriate for performance by students in grades seven through 12. The course will include a study of evaluation and selection of music appropriate for a specific ensemble. Prerequisite: MUED 271 or permission of the instructor.

MUED 473. Jazz Ensemble Procedures and Techniques. 2 credits. This course addresses all aspects of instrumental jazz instruction (big band and small group) in the public schools. Teaching philosophies, rehearsal techniques and resource materials will be examined; the syllabus includes opportunities to observe and rehearse jazz groups. Enrollment is not limited to traditional forms of jazz instrumentation. Prerequisite: MUED 271 or permission of the instructor.

MUED 474. Classroom Guitar Pedagogy. 2 credits. Preparation to teach guitar in beginning, intermediate and advanced school music settings. Content includes information specific to guitar pedagogy (e.g. fretboard knowledge, chord shapes), and traditional guitar method approaches to various skills (e.g. reading standard notation, positions, fingerboard harmony). Guitar repertoire, relevant literature, available resources, and the role of the guitar ensemble in public schools will be examined from teaching and administrative perspectives.

MUED 482. Orff and Kodaly: Literature, Principles and Practices. 1 credit. Students will study the repertoire employed in the Orff and Kodaly approaches to music education. They will develop skills and understanding of the principles related to these approaches. Work with peers and school children will provide the opportunity to develop teaching skills. May be repeated for credit.

Music Industry

School of Music

MUI 221. Survey of the Music Industry, 3 credits. An overview of the recording, entertainment and performing arts industries including an examination of the historical, aesthetic and commercial developments of the music industry in the United States.

MUI 231. Legal Aspects of the Music Industry, 3 credits. An examination of the legal issues affecting the performing arts, recording and music publishing fields. Topics include music rights and licensing, performing arts unions and guilds, artist representation, and contractual relationships. Prerequisite: MUI 221, music major or permission of music industry coordinator.

MUI 250. Portfolio Review. 0 credits. Portfolio review required to enroll in 300- and 400-level music industry courses. May be repeated once. Prerequisite: MUI 221, Corequisite: MUI 231.

MUI 315. Songwriting. 3 credits. An introduction to form, lyric development and melodic structure of contemporary songwriting for commercial entertainment applications. The course will include examination of leadsheet writing, demo production, copyright protection and publishing of commercial songs. Prerequisites: MUS 250, MUS 142 or permission of the instructor.

MUI 324. Introduction to Audio Devices. 3 credits. Introduction to electronic devices utilized in the sound recording industry. Prerequisite: SCI 121, MUI 250 or permission of the instructor.

MUI 330. Music Publishing. 3 credits. This course will offer a comprehensive overview of the music publication industry. The focus will be upon, but not limited to, mainstream popular music. It will also consider songwriter/publisher relations, self-pub-
MUI 400. Multi-Track Recording Techniques I. 3 credits.
An introduction to contemporary multi-track recording studio techniques. Students will be introduced to recording studio design, psycho-acoustics, mixing techniques, musical instrument digital interface and the mixing console. Prerequisite: MUI 250, MUI 324 or permission of the instructor.

MUI 401. Multi-Track Recording Techniques II. 3 credits.
Advanced multi-track recording studio techniques. Students will examine signal processing, musical instrument digital interface, mixdown and editing procedures. Prerequisite: MUI 250, MUI 400 or permission of the instructor.

MUI 405. Logic Pro. 3 credits.
An introduction to analog synthesis, digital synthesis, an overview of conditions and events that led to the development of MIDI, a study of the MIDI protocol itself, as well as Apple Certified instruction in music production utilizing Logic Pro. Prerequisite: MUI 324 or permission of the instructor.

MUI 411. Music and Sound in the Entertainment and Broadcast Media. 3 credits.
An examination of music and sound used in the broadcast and entertainment media from artistic, cultural, technological and business viewpoints. The course will feature field trips to post-production studios, as well as post-production assignments to be completed in our on-campus studio for the following media applications: radio and television/film. Prerequisites: MUI 250 and MUI 324 or permission of the instructor.

MUI 415. Songwriting II. 3 credits.
This course is a continuation in the study of form, lyric development and melodic structure of contemporary songwriting for commercial entertainment applications. This course will also take into account some basic music business aspects important in the music industry directly related to song writers. Prerequisites: MUI 250 or permission of the instructor.

MUI 422. Concert Production and Promotion. 3 credits.
Study of the presentation of cultural and commercial entertainment in the form of concert performances. The structure, technical and business viewpoints. The roles of the cultural impresario and concert promoter in contemporary society are examined. Prerequisites: MUI 250 or permission of the instructor.

MUI 423. Sound Reinforcement. 3 credits.
An introduction to the history, equipment, skills, and business of sound reinforcement. The technique of contemporary sound engineers are examined and experienced by the use of audio amplification systems to design and use for public address and musical performance. Prerequisite: MUI 324.

MUI 430. Artist Management. 3 credits.
This course will evaluate the function of musician/recording artist representatives in the music industry. Focus of discussions will include artist development from early career stages to concert tours, unions, recording companies, personal appearances, contractual agreements, etc. Prerequisites: MUI 250 or permission of the instructor.

MUI 435. Marketing of Recorded Music. 3 credits.
Examination of the process of studio production, manufacturing, promotion and distribution of contemporary recordings. Record release programs for independent and major label-controlled products are analyzed. Prerequisite: MUI 250 or permission of the instructor.

MUI 440. Entrepreneurship in the Music Industry. 3 credits.
The study of business aspects of the music industry including managing, marketing, finance and sales. Students develop a comprehensive music business plan. Prerequisites: MUI 250 or permission of the instructor.

MUI 492. Internship in Music Industry. 3-6 credits.
A supervised off-campus co-curricular learning activity designed to provide practical experience in the music industry. Prerequisites: MUI 221 and MUI 323, MUI 250 or permission of the instructor.

Music Instruction, Applied

School of Music

Private and/or group applied lessons are basic areas of study for all music majors and approved minors. All other students, including first year students and transfer students entering in an undeclared major status, who desire applied instruction will be accommodated after declared majors and minors have been scheduled and if time permits. Permission to register must be obtained from the coordinator of the respective applied area.

Applied Areas

Bassoon Hom Trombone
Clarinet Jazz Studies Trumpet
Double Bass Oboe Tuba
Euphonium Percussion Viola
Flute Piano Violin
Guitar Piano Accompanying Violoncello
Harp Saxophone Voice

Small Group Lessons

MUAP 113. 1 credit.
Two hours per week. May be repeated.

MUAP 114. Group Voice for Musical Theatre Concentrators. 1 credit.
First level voice class for Musical Theatre concentrators in the School of Theatre and Dance. Prerequisite: Audition and admission to the Musical Theatre concentration in the School of Theatre and Dance.

May be repeated for up to four credits.

Applied Lessons

MUAP 200 Level. Applied Music. 1 credit.
One half-hour lesson per week. Five hour minimum practice per week. May be repeated.

MUAP 205. Small Group Voice for Keyboard Majors. 2 credits.
A practical introduction to singing technique and musicianship designed for future choral music teachers and accompanists. Concludes with Vocal Proficiency Examination. Limited to maximum of eight students. May be repeated for credit. Prerequisite: Sophomore standing in music or permission of the instructor.

MUAP 214. Private Voice for Musical Theatre Concentrators. 1 credit.
Private voice lessons for Musical Theatre concentrators in the School of Theatre and Dance. Prerequisite: Permission of the instructor.

MUAP 300 level. (See below for credits.)
One hour lesson per week. Ten hours minimum practice per week for two credits; 14 hours for three credits. May be repeated.

MUAP 332. Applied Jazz Study, Level 5-8. 2-3 credits.
Applied study of jazz performance techniques on a student’s major instrument. The student may be assigned to a professor whose major instrument differs from the student’s major instrument. One hour lesson per week. Students who have not yet been accepted into the Jazz Studies major may elect to take Applied Jazz Study for 2 credit hours per semester in order to prepare for the audition. Students accepted into the Jazz Studies Track will register for 3 credit Applied Jazz Study each semester.

Music Ensembles

Student performing ensembles sponsored by the School of Music provide unique musical experiences for music majors and any other university students who wish to continue developing their performing skills. The numerous large and small choral and instrumental ensembles encompass a wide range of musical styles and repertoire. Although participation in most ensembles requires an audition, several only require the permission of the director. All ensembles must be taken for credit and may be repeated. Students new to JMU should contact the music office during the registration periods for additional information.

Instrumental

MUAP 237. Marching Band (Fall Semester). 2 credits.
The marching band will perform music and drill which is artistically structured. The repertoire will be representative of all styles of music. The marching band is required for two years of wind and percussion majors in the music education degree program.

MUAP 238. Concert Band. 1 credit.
Open to all interested participants. A wide variety of music is utilized to acquaint the student with different types of band literature.

MUAP 239. Symphonic Band. 1 credit.
The JMU Symphonic Band is a select group of brass, woodwind and percussion students who are dedicated to the performance of both traditional and contemporary band literature. The ensemble performs music of all periods and is open to any university student by audition.

MUAP 344. Chamber Orchestra. 1 credit.
Open to all university students. Membership is determined by audition. Music written for chamber orchestra from all periods is studied and performed.

http://www.jmu.edu/catalog/14
The Collegium Musicum is a select vocal/instrumental ensemble dedicated to the historically-informed performance of early music (music composed before ca. 1700). Repertoire includes major works primarily of the Renaissance and early Baroque era. Membership is by audition or invitation. May be repeated for credit.

MUAP 234. Men’s Chorus. 1 credit.
Performs music of various styles but with primary focus on the lighter genres. It is open to the entire male student body without audition. The director reserves the right to limit membership because of balance or space considerations.

MUAP 235. Treble Chamber Choir. 1 credit.
This is an advanced level chamber choir for women and male countertenors interested in a small choral ensemble experience. Open to all majors, and auditioned at the beginning of every semester, this choir frequently performs off campus as well. Contact the director of choral activities for more information.

MUAP 236. Women’s Chorus. 1 credit.
Performs music of various styles but with primary focus on the lighter genres. It is open to the entire female student body without audition. The director reserves the right to limit membership because of balance or space considerations.

MUAP 237. Jazz Ensemble. 2 credits.
Instrumental music performance ensemble of the standard “big band” instrumentation whose repertoire reflects jazz styles from the swing era to contemporary jazz. Admission is by audition.

MUAP 346. Symphony Orchestra. 2 credits.
The JMU Symphony Orchestra is a participating member of the American Symphony Orchestra League. Membership is determined by audition and is open to all university students. Literature performed is from the standard symphonic repertoire.

MUAP 347. Jazz Band. 1 credit.
Instrumental ensemble performing the standard and contemporary repertoire of American music with emphasis on the jazz idiom. Jazz band is open to all JMU students by audition.

MUAP 348. Jazz Band. 1 credit.
A joint string ensemble of string faculty and students, with a mission to provide mentoring, hands-on and shared experiences in learning, rehearsing and performing string chamber orchestra repertoire from the Baroque to Contemporary periods. In addition, the ensemble focuses on creative and scholarly endeavors, collaboration between faculty and students, and university outreach with performances on and off campus.

MUAP 350. String Ensemble. 1 credit.
A reheasral and performance ensemble where students of similar technical and musical ability are grouped in traditional string or piano trios, quartets and quintets and present public performances of important compositions from the chamber music literature of all historical periods.

MUAP 351. Woodwind Ensemble. 1 credit.
Woodwind ensembles consisting of quintets or other smaller and larger combinations, limited to specially selected personnel through auditions. Concerts and other performances are prepared from a variety of literature from the classical period to the present.

MUAP 352. Brass Band. 1 credit.
Open to all university students by audition. A select brass and percussion ensemble limited to the standard instrumentation of the “British-style” brass band. The ensemble performs literature of all styles from the extensive brass band tradition. The band typically participates in the annual NABBA Championships.

MUAP 353. Guitar Ensemble. 1 credit.
The performance of guitar music from Renaissance to 20th century for duos, trios and quartets.

MUAP 354. Percussion Ensemble. 1 credit.
The study and preparation for public performance of percussion ensemble literature. The ensemble is open to all university students by audition.

MUAP 355. Jazz Chamber Ensemble. 1 credit.
Open by audition to students demonstrating a high degree of skill in jazz improvisation. Concerts and other performances are prepared from a variety of literature from early jazz to the present day.

MUAP 360. Opera/Music Theatre Orchestra. 1 credit.
This ensemble will serve as the accompanying ensemble for staged productions within the School of Music and the School of Theatre and Dance. Enrollment in this course will be open to all students at the university by audition.

MUAP 362. Brass Chamber Ensembles. 1 credit.
Brass chamber ensembles consisting of quartets, quintets or larger combinations, limited to specially selected personnel through auditions. Concerts and other performances are prepared and presented from literature spanning the Renaissance to the present day. Prerequisites: Permission of the instructor.

MUAP 364. Camera Stings. 1 credit.
Camera Stings is a select instrumental string ensemble that performs a broad range of string ensemble literature from the 1600s to the present. The ensemble is open to any student of the university through competitive auditions held at the start of each spring semester. Prerequisites: Participants must complete competitive auditions at the start of the spring semester and, based on audition outcomes, be offered membership by the Music Director of the ensemble.

MUAP 380. Collegium Musicum. 1 credit.
The Collegium Musicum is a select vocal/instrumental ensemble dedicated to the historically-informed performance of early music (music composed before ca. 1700). Repertoire includes major works primarily of the Renaissance and early Baroque era. Membership is by audition or invitation. May be repeated for credit.

MUAP 343. Opera Theatre. 1-2 credits.
The preparation and public performance of grand opera, light opera and musicals. Work will include coaching of both music and acting. Credit may vary with permission of the instructor depending on the amount of time commitment. Admission is by audition only.

MUAP 381. Bach Aria Group. 1 credit.
The Bach Aria Group is a select vocal/instrumental ensemble dedicated to the historically-informed performance of arias and small ensembles from the Cantatas, Oratorios and Passions of J.S.Bach. Repertoire is specifically limited to this material. Membership is voluntary, and by audition or invitation. May be repeated for credit. This ensemble will not fulfill the music major requirement for a minimum of one ensemble per semester.

MUAP 357. Piano Accompanying and Piano Ensemble. 1 credit.
A course in basic accompanying skills and style characteristics required for two semesters (one fall, one spring) of all piano majors. Students will be assigned to vocal or instrumental studios and have the opportunity to perform in master class and private coaching sessions.

Nonprofit Studies

Department of Social Work

NPS 300. Introduction to Nonprofits. 3 credits.
An introduction to the development of the nonprofit sector in the American context exploring history, theories, legal issues, governance and ethical considerations. Global nonprofits are also explored. Provides a foundation for subsequent work in the nonprofit studies minor. Prerequisite: Sophomore standing with a declared major.

NPS 320. Nonprofit Management. 3 credits.
A study of organizational and management functions in the nonprofit sector. Examination of the unique role of volunteers, boards and public relations in the nonprofit environment. Prerequisites: NPS 300 and junior status.

NPS/FAM/GERN/SOWK 375. Grant Writing for Agencies. 3 credits.
Emphasizing active learning, this course teaches the basics of grant and proposal writing. Efficient research, persuasive prose and the importance of relationships are stressed. Private and corporate philanthropy and government grants are examined.

http://www.jmu.edu/catalog/14
NPS 400. Internship/PRACTICUM in Nonprofit Studies. 4 credits. (160 hours in agency, 6 credits (240 hours in agency). Supervised internship/practicum experience in a nonprofit organization setting that allows experimental learning and practice experiences. A research or applied paper, learning journal and presentation based on the experience are required. Prerequisites: NPS 300 and the discipline specific elective.

NPS 450. Nonprofit Studies Capstone Seminar. 3 credits. The capstone seminar is designed to integrate and apply knowledge from the student's major and the nonprofit studies minor. A substantial, individualized project will strengthen the student's capabilities in research and/or applied knowledge, information access, and self-directed learning. Prerequisites: NPS 300, NPS 320, NPS 400 and discipline elective. Related elective may be taken concurrently.

NPS 487. Special Topics in Nonprofit Studies. 3 credits. Examination of selected topics in nonprofit studies that are of current importance in the nonprofit arena. Course may be repeated for credit. Prerequisites: NPS 300 or permission of the instructor.

NPS 490. Special Studies in Nonprofit Studies. 1-3 credits. This course is designed to provide capable nonprofit studies minors an opportunity to complete independent study under faculty supervision. Course may be repeated for credit. Prerequisites: NPS 300, NPS 320 and one additional course in the minor or permission of the instructor.

Nursing

Department of Nursing

NSG 301. History Taking/History Telling: Narratives of Chronic Illness and Disability. 2 credits. This course introduces students to first-person narratives of patients, family care providers, and health care workers as a way to more fully understand the complexities of living with and managing chronic illness. Students will explore the narrative as an increasingly relevant component of understanding and responding to experiences of chronic illness and disability.

NSG 302. Behavioral and Mental Health in Children and Adolescents. 2 credits. This course will explore the state of mental and behavioral health of children and adolescents. It will examine the neuropathophysiological nature of mental and behavioral illnesses, health promotion, and care of children and adolescents.

NSG 303. The Art of School Nursing. 1 credit. This particular course provides a comprehensive focus on the multiple facets within the specialty practice of school nursing. The course will discuss the history of school nursing, the roles of the school nurse, laws and standards of practice. We will discuss collaborative teaming, cultural diversity, and marketing/educational strategies for promoting school nursing.

NSG 310. Helping Persons in Pain. 2 credits. This course, open to students from all majors, is an examination of pain, its impact on people, causes, treatments and the role of health professionals. Emphasis is on understanding how people experience pain and its effect on quality of life.

NSG 313. Issues and Applications of Family Caregiving. 1 credit. Students from any major engage in service learning with clients and staff of Caregivers’ Community Network, a program of information, companion care and support for family caregivers. Hours are flexible and activities are tailored to student interests.

NSG 317. History of Nursing. 1 credit. An elective nursing course that explores fundamental aspects of nursing history including pertinent nursing founders and leaders as well as examination of the many influences that have shaped the nursing profession. Review of nursing within its historical context provides an opportunity to consider changes for the future.

NSG 320. Innovative Diabetes Health Education. 1 credit. Based on the chronic illness model component of patient self-management, this course focuses on the use of an innovative teaching strategy for diabetic education. Working in teams students will utilize conversation maps to learn about Diabetes Mellitus Type II, gestational diabetes and patient education.

NSG 322. Integrative Health Care. 1 credit. This course examines the principles, practices, and outcomes of complementary therapies and alternative healing that are widely used in the general population. The integration of alternative and conventional health practices will be examined. Ethical, legal and professional issues will be explored.

NSG 323. Cardiovascular Health and Illness. 1 credit. In this course risk factors associated with cardiovascular disease will be highlighted. Lifestyle changes, prevention and treatment strategies will be reviewed. Students will learn effective skills for teaching patients about cardiovascular health and illness. Students will have the opportunity to review case studies identifying risk factors and learn successful teaching strategies. The course will emphasize and promote student and patient understanding of cardiovascular disease.

NSG 324. RN-BSN Strategies for Success. 1 credit. This course is designed to provide strategies for academic success in an online learning environment for students in an R.N.-B.S.N. program. Students will apply concepts of scholarly writing and will identify research. An emphasis is placed on competence with technology and working collaboratively within an online environment.

NSG 325. Concepts in Aging. 3 credits. This online course is divided into eight modules and examines the physiological, psychosocial, cognitive, legal and ethical aspects of aging within a holistic context. A focus is on the issues that surround the concepts of aging and how the ethical aspects of care relate to the utilization of resources. Prerequisite: Admission to R.N.-B.S.N. program.

NSG 326. Care and Consideration for Children with Special Needs. 1 credit. Open to students from any major. This course combines in class speakers/discussion with hands-on service learning. By providing respite care in the home to families with special needs children, students will gain insight into a variety of topics related to working with these families and how the disability affects the family.

NSG 327. Disaster Nursing. 1 credit. This elective course is designed as an opportunity for students to acquire knowledge and skills in the fundamentals of disaster preparedness. The student will be prepared as a Red Cross volunteer for disaster service locally or nationally and will be Red Cross certified in selected areas.

NSG 328. Life, Death and the Dash Between. 1 credit. This course focuses on preparing the student to give patient-centered end-of-life care. Using a variety of learning methods, the student will examine theories and care models, and will discuss current topics surrounding death and dying, including social, cultural, ethical, spiritual and legal issues.

NSG 329. Best Practices in Diabetes Care. 2 credits. The student will develop a basic understanding of the current practices related to diabetes care and the impact of a diabetes diagnosis on the individual, family and community. The content is centered around the American Association of Diabetes Educators (AADE) 7 Self-Care Behaviors: healthy eating, being active, monitoring, taking medications, problem solving, healthy coping and reducing risks.

NSG 333. Health Assessment. 3 credits. The health assessment online course is designed to develop knowledge and skills necessary to gather, organize and present relevant health data. Emphasis is placed on systematic strategies, frameworks and skills used to conduct both comprehensive and need-specific health assessments for individuals in the context of their family and community. Prerequisite: Admission to R.N.-B.S.N. program.

NSG 350. Foundations of Nursing. 2 credits. Offered every semester. This course provides an overview of foundational principles of professional nursing practice. Students will be introduced to the evolution of nursing, basic nursing theory and knowledge, and beginning concepts. This course promotes self-analysis and socialization into the role of the professional nurse.

NSG 351. Health Assessment. 3 credits. Offered every semester. This course develops knowledge and skills necessary to gather, organize, and present relevant health data that includes wellness and illness considerations across the life cycle. Emphasis is placed on systematic strategies, frameworks, and skills used to conduct both comprehensive and need-specific health assessments for individuals in the context of their family and community. Prerequisite: Formal acceptance into the nursing program.

NSG 352. Clinical Applications and Reasoning In Nursing Care I. 4 credits. Offered every semester. This course develops knowledge and skills necessary to gather, organize, and present relevant health data that includes wellness and illness considerations across the life cycle. Emphasis is placed on systematic strategies, frameworks, and skills used to conduct both comprehensive and need-specific health assessments for individuals in the context of their family and community. Prerequisite: Formal acceptance into the nursing program.
NGS 352L. Clinical Applications and Reasoning In Nursing Care I Clinical. 2 credits. Offered every semester.
Through didactic learning, students learn theories, rationale, and principles underlying the application of acute care skills in nursing practice. In the laboratory, students will practice and demonstrate mastery of selected skills. In the clinical setting, students will apply knowledge through clinical reasoning in planning and facilitating nursing care for patients and their families. Corequisite: NGS 352. Prerequisite: Formal acceptance into the nursing program.

NGS 353. Pathophysiology & Pharmacology. 4 credits. Offered every semester.
This course is a comprehensive examination of the principles of pathophysiology and pharmacology for nurses. Emphasis will be placed on concepts and rationales necessary for clinical decision making and nursing care of patients with selected disease processes.

NGS 354. The Art & Science of Nursing. 2 credits. Offered every semester.
This course is designed to provide an overview of current issues relevant to the art and science of the practicing nurse. This course will provide the student with a concentrated focus on the role of the professional nurse and the nursing profession. The course explores nursing theory, health care models of practice, diverse issues, as well as legal and ethical realities within the healthcare delivery system.

NGS 355. Women’s Health. 3 credits. Offered every semester.
This course promotes synthesis of concepts and principles utilized in health promotion, risk reduction and critical reasoning in the management of women’s health care. Areas of focus include women’s health issues, perinatal care of mothers and infants, and gynecological health. Clinical experiences provide students with opportunities to apply evidence based practice for women/newborn/family units of diverse cultural backgrounds. Corequisite: NGS 355L. Prerequisites: NGS 350, NGS 351, NGS 352, NGS 352L, and NGS 353.

NGS 355L. Women’s Health Clinical. 1 credit. Offered every semester.
This course promotes synthesis of concepts and principles utilized in health promotion, risk reduction and critical reasoning in the management of women’s health care. Areas of focus include women’s health issues, perinatal care of mothers and infants, and gynecological health. Clinical experiences provide students with opportunities to apply evidence based practice for women/newborn/family units of diverse cultural backgrounds. Corequisite: NGS 355. Prerequisites: NGS 350, NGS 351, NGS 352, NGS 352L, and NGS 353.

NGS 356. Clinical Applications and Reasoning In Nursing Care II. 4 credits. Offered every semester.
This course focuses on pathophysiologic and pharmacologic concepts and principles of nursing process, health promotion, risk reduction, clinical decision making, and collaborative management of care for adults experiencing moderate to severe health alterations. Students will apply concepts, theories and skills in the nursing care of adults. Corequisite: NGS 356L. Prerequisites: NGS 350, NGS 351, NGS 352, NGS 352L, and NGS 353.

NGS 356L. Clinical Applications and Reasoning In Nursing Care II Clinical. 2 credits. Offered every semester.
This course focuses on pathophysiologic and pharmacologic concepts and principles of nursing process, health promotion, risk reduction, clinical decision making, and collaborative management of care for adults experiencing moderate to severe health alterations. Students will apply concepts, theories and skills in the nursing care of adults. Corequisite: NGS 356. Prerequisites: NGS 350, NGS 351, NGS 352, NGS 352L, and NGS 353.

NGS 357. Psychiatric Mental Health Nursing. 3 credits. Offered every semester.
This course examines the pathophysiology, psychosocial manifestations, psychopharmacological and psychiatric mental health nursing treatment of selected mental illnesses. Analysis of the role and practice of psychiatric mental health nursing both as a nursing specialty and as an integral facet of general nursing are emphasized. Corequisite: NGS 357. Prerequisites: NGS 350, NGS 351, NGS 352, NGS 352L, and NGS 353.

NGS 357L. Psychiatric Mental Health Nursing Clinical. 1 credit. Offered every semester.
This course examines the pathophysiology, psychosocial manifestations, psychopharmacological and psychiatric mental health nursing treatment of selected mental illnesses. Analysis of the role and practice of psychiatric mental health nursing both as a nursing specialty and as an integral facet of general nursing are emphasized. Corequisite: NGS 357. Prerequisites: NGS 350, NGS 351, NGS 352, NGS 352L, and NGS 353.

NGS 390. Impact of Chronic Illness. 3 credits. Offered fall and spring.
This course will explore core concepts of chronic illness across the lifespan from an interdisciplinary perspective. Epidemiology, economics, ethics, culture, family and policy will be emphasized. These topics and concepts will be related to models of chronic care.

NGS 391. Living Successfully with Chronic Illness. 3 credits. Offered fall and spring.
This course will examine models and strategies that aid individuals to live successfully with chronic illness. An interdisciplinary evidence-based approach will be used to investigate how outcomes may be improved through the individual’s integration of lifestyle changes within the context of culture and family.

NGS 392. Hello Nurse: Images of the Nurse in American Culture. 2 credits.
The image of the nurse in American culture has been varied, complex, and provocative. This course will introduce students to textual images of nurses in fiction, film, television, and visual arts within the context of American and nursing history.

NGS 393. Family Violence. 1 credit.
This course introduces students to the roots of family violence, including the political, cultural, social, and economic structures that perpetuate violence, and explores approaches to changing those structures in order to reduce or end violence. Students will think critically about the local and global impact of family violence, how it intersects with other forms of oppression, and achieve an understanding of these issues that will be useful intellectually and personally.

NGS 395. Nursing Research. 3 credits. Offered every semester.
This course explores the research process and utilization of research and theory in evidence based professional nursing practice. It also explores the dissemination and utilization of research in nursing practice. Students learn to critique healthcare literature in order to answer a research question that would impact nursing practice. Prerequisite: Formal acceptance into the Nursing Program.

NGS 451. Child Health Clinical. 3 credits. Offered every semester.
This course promotes the development of knowledge, skills and the ability to care for children including those with acute and chronic illnesses/conditions. Learning will focus on the unique healthcare needs of children with emphasis on family centered care. Students will apply knowledge through clinical reasoning in planning and facilitating nursing care for children and families. Corequisite: NGS 451L. Prerequisites: NGS 350, NGS 355L, NGS 355L, NGS 356, NGS 356L, NGS 357 and NGS 357L.

NGS 451L. Child Health Clinical. 1 credit. Offered every semester.
This course promotes the development of knowledge, skills and the ability to care for children including those with acute and chronic illnesses/conditions. Learning will focus on the unique healthcare needs of children with emphasis on family centered care. Students will apply knowledge through clinical reasoning in planning and facilitating nursing care for children and families. Corequisite: NGS 451. Prerequisites: NGS 355, NGS 355L, NGS 356, NGS 356L, NGS 357 and NGS 357L.

NGS 452. Clinical Applications and Reasoning in Nursing Care III. 4 credits. Offered every semester.
This course focuses on the integration of complex pathophysiologic and pharmacologic concepts and principles for adults experiencing moderate to severe health alterations. Students will apply the nursing process to promote health and safety, to augment clinical reasoning and clinical decision making, and to integrate interprofessional collaboration in the care of patients. Corequisites: NGS 350, NGS 351, NGS 352, NGS 352L, NGS 353, NGS 355, NGS 355L, NGS 356, NGS 356L, NGS 357, NGS 357L, NGS 357L.

NGS 452L. Clinical Applications and Reasoning in Nursing Care III Lab. 1 credit. Offered every semester.
This course focuses on the integration of complex pathophysiologic and pharmacologic concepts and principles for adults experiencing moderate to severe health alterations. Students will apply the nursing process to promote health and safety, to augment clinical reasoning and clinical decision making, and to integrate interprofessional collaboration in the care of patients.
NSG 453. Population-Centered Care in the Community. 2 credits.

This course, students develop the knowledge, skills, and ability to conduct and interpret systematic assessments of families and vulnerable groups in community settings. The impact of increasing societal and cultural changes across the lifespan will be emphasized. Theoretical concepts of community-based health promotion and disease prevention of vulnerable populations will be presented emphasizing Healthy People 2020 objectives. Corequisite: NSG 453L. Prerequisites: NSG 355, NSG 355L, NSG 356, NSG 356L, NSG 357, NSG 357L, NSG 358L, NSG 357 and NSG 357L.

NSG 453L. Population-Centered Care in the Community Clinical. 2 credits. Offered every semester.

In this course, students develop the knowledge, skills, and ability to conduct and interpret systematic assessments of families and vulnerable groups in community settings. The impact of increasing societal and cultural changes across the lifespan will be emphasized. Theoretical concepts of community-based health promotion and disease prevention of vulnerable populations will be presented emphasizing Healthy People 2020 objectives. Corequisite: NSG 453. Prerequisites: NSG 355, NSG 355L, NSG 356, NSG 356L, NSG 357, NSG 357L, NSG 358L, NSG 357 and NSG 357L.

NSG 454. Transition to Practice. 3 credits. Offered every semester beginning Spring 2014.

This course explores current factors that impact the transition from student to the licensed professional nurse. The student will have the opportunity to examine and apply leadership and management principles in acute and chronic healthcare settings with a focus on safe, ethical, and quality patient care. Students will use an interprofessional approach to coordinate care for a group of patients. Corequisite: NSG 454L. Prerequisites: NSG 355, NSG 355L, NSG 356, NSG 356L, NSG 357, NSG 357L, NSG 358L, NSG 450, NSG 451, NSG 451L, NSG 452, NSG 453 and NSG 453L.

NSG 454L. Transition to Practice Clinical. 2 credits. Offered every semester beginning Spring 2014.

This course explores current factors that impact the transition from student to the licensed professional nurse. The student will have the opportunity to examine and apply leadership and management principles in acute and chronic healthcare settings with a focus on safe, ethical, and quality patient care. Students will use an interprofessional approach to coordinate care for a group of patients. Corequisite: NSG 454. Prerequisites: NSG 355, NSG 355L, NSG 356, NSG 356L, NSG 357, NSG 357L, NSG 358L, NSG 450, NSG 451, NSG 451L, NSG 452, NSG 453 and NSG 453L.

NSG 455. Nursing Informatics. 2 credits. Offered every semester beginning Spring 2014.

This course explores the uses of nursing informatics and technology applications in health care. Emphasis is on preparing entry level nurses with core nursing informatics competencies. A major theme is the use of information systems and technology to improve the quality and safety of patient care in a changing health care environment. Students will develop their nursing informatics knowledge and skills through reading, discussions, exploration, and utilization of electronic modalities. Prerequisite: Formal acceptance into the Nursing Program.

NSG 456. Capstone. 5 credits. Offered every semester beginning Spring 2014.

This course is a focused nursing practicum under the direct supervision of clinical nurse preceptors. The purpose of the capstone experience is to facilitate student development in time management, critical thinking, assessment, clinical reasoning, documentation and psychomotor skills. Application of management concepts, theories and principles to health care delivery, health organizational management and improved client outcomes. Prerequisite: Admission to RN-BSN program.

NSG 460. Healthcare Informatics. 2 credits.

This online course focuses on the nature and functions of present and future application of health care informatics. Emphasis is on preparing current and future health care professionals to plan, design, collaborate with other health care disciplines, and utilize healthcare informatics for effective health care delivery, health organizational management and improved client outcomes. Prerequisite: Admission to RN-BSN program.

NSG 461. Pathophysiology and Pharmacology. 4 credits.

This online course provides an examination of complex physiologic responses and clinical sequelae in major body systems in relation to pathologic processes. Emphasis is placed upon physiologic compensation and defense responses. Pharmacologic management of pathologic is investigated. Prerequisite: Admission to RN-BSN program.

NSG 462. Issues in Contemporary Nursing Practice. 3 credits.

This online course examines issues and trends of greatest concern to professional nursing practice today. Historical, societal, political, and economic influence and future trends will be explored. Legal and ethical dimensions of nursing will be discussed. Prerequisite: Admission to R.N.-B.S.N. program.

NSG 463. Professional Role Transition. 3 credits.

This online course expands the students’ current knowledge of concepts related to nursing theory, nursing image and professional role development at the BSN level. Emphasis will be placed upon leadership and management skill development at the personal level. Prerequisite: Admission to R.N.-B.S.N. program.

NSG 464. Introduction to Nursing Research. 3 credits.

This online course will focus on the study of research methods that generate quantitative and qualitative data. Students will examine the research process with an emphasis on critique of research methodologies and application of research findings to nursing practice. Prerequisite: Admission to R.N.-B.S.N. program.

NSG 466. Community Health Practicum. 1 credit.

This practicum, for RN-BSN students, transitions practice into the BSN role through mentored clinical experiences at selected community sites. Emphasis is on collaborative nursing care with individuals, families and groups within the community. Experiences include concepts of health promotion and disease prevention and management of acute or chronic illness. Prerequisite: Admission to R.N.-B.S.N. program.

NSG 469. Caring for the Public’s Health: Community Health Nursing. 4 credits.

This online course provides R.N. to B.S.N. students a perspective of professional nursing at the community level of practice. Course content will provide an overview of specific issues and societal concerns that affect community health nursing practice including historical impact of public health, epidemiology, health promotion and disease prevention; vulnerable populations; communicable disease risk and prevention; and diversity of the role of the community health nurse. Prerequisite: Admission to R.N.-B.S.N. program.

NSG 471. Leadership and Management in Health Care. 3 credits.

This online course focuses on healthcare organizations, leadership theories and management style, organizational change, quality management, fiscal and economic issues, personnel management, and accreditation standards. Prerequisite: NSG 463.

NSG 490. Special Studies in Nursing. 1-6 credits.

Study of selected topics in nursing.

NUTR 295. Foundations of Nutrition Practice. 2 credits. Offered fall and spring.

An introduction to the profession of dietetics, credentialing processes in nutrition/dietetics, careers available in the field and some basic skills needed for the profession.

NUTR 300. Science of Food Preparation. 3 credits. Offered fall.

This course explores the chemical composition of food, physical and chemical changes in food associated with household and industrial preparation techniques, definition of standard products, and appropriate assessment techniques for judging food quality. Laboratory component provides opportunity to judge foods prepared by different techniques. Prerequisites: Admission to the dietetics major; CHEM 131 or equivalent.

NUTR 300L. Management in Dietetics. 3 credits. Offered spring.

Application of management concepts, theories and principles to dietetics with a focus on the work environments (clinical and food service) in which registered dietitians must effectively practice. Prerequisite: Admission to the dietetics major.

NUTR 301. Food Service Systems. 3 credits. Offered fall.

An integration of menu planning, food procurement, equipment selection and layout to provide quality food service in a variety of food systems. Prerequisite: Admission to the dietetics major.

NUTR 303. Quantity Food Production (1, 6). 3 credits. Offered fall and spring.

This course explores the chemical composition of food, physical and chemical changes in food associated with household and industrial preparation techniques, definition of standard products, and appropriate assessment techniques for judging food quality. Laboratory component provides opportunity to judge foods prepared by different techniques. Prerequisites: Admission to the dietetics major; CHEM 131 or equivalent.

NUTR 314 James Madison University 2014-2015 Undergraduate Catalog

NUTR 380. Global Nutrition. 3 credits.

A study of food habits from around the world and their contributions to nutritional adequacy. Factors affecting global food consumption behaviors including sociocultural practices, religion, health beliefs, agricultural practices, economics, politics and education are explored.
NUTR 382. Sports Nutrition. 3 credits. Offered fall.
A study of the relationship of nutrition and athletic performance.
Identification of the effects of age, sex, body build, environment and state of health on energy needs and energy sources during physical activity. Prerequisite: NUTR 280.

This course introduces nutrition as a disease therapy and the role of the clinical dietitian as a member of the health care team. Topics covered include nutrition screening and assessment, medical records documentation, basic dietary modifications and patient/family counseling. Prerequisites: Admission to the dietetics major; NUTR 340 and NUTR 395.

NUTR 385. Nutrition Throughout the Life Cycle. 3 credits. Offered spring.
A study of the nutritional needs throughout the life cycle and the development of food habits. Nutrition assessment and nutrition education from prenatal health through infancy, childhood, adolescence, adulthood and old age are emphasized. Prerequisite: Admission to the dietetics major.

NUTR 395. Introduction to Patient Care in Dietetics. 2 credits. Offered fall.
A study of the concepts of patient care in dietetics, skills needed for Medical Nutrition Therapy and the dietitian’s role on the health care team. Prerequisites: Admission to the dietetics major and NUTR 280.

NUTR 446. Experimental Foods (1, 4). 3 credits. Offered spring.
An introduction to research in foods. Different techniques of food preparation are studied and evaluated for the most acceptable methods to obtain standard food products. Prerequisites: Admission to the dietetics major; NUTR 340, organic chemistry and statistics.

NUTR 455/KIN 424. Theories and Practices of Weight Management. 3 credits. Offered fall and spring.
An examination of the physiological, psychological and environmental theories of obesity. Current trends in obesity research are emphasized. A case study and laboratories are used to provide students with practical experience in constructing a weight management program. Prerequisite: BIO 270, BIO 290, NUTR 280 or permission of the instructor.

NUTR 460. Computer Systems for Foods and Nutrition. 3 credits. Offered spring.
Introduction to food and nutrition computer systems. Emphasis is placed on the role of computers in nutritional assessment, food service administration, nutrition education and food technology. Prerequisites: NUTR 380 and successful completion of the Tech Level I test.

NUTR 482. Nutrition and Metabolism (2, 2). 3 credits. Offered fall.
A study of the nutrients, their roles in intermediary metabolism, the effects of genetic errors in metabolism, nutritional deficiencies and means of assessing nutritional status. Agencies and programs concerned with nutrition and health and current trends in nutrition research are emphasized. Prerequisites: Admission to the dietetics major; CHEM 280 and MATH 220. Prerequisite or corequisite: BIO 290.

NUTR 484. Clinical Nutrition II (2, 2). 3 credits. Offered spring.
A study of the use of diet in preventing illness and as a means of treating disease. Emphasis is given to patient education. Prerequisites: Admission to the dietetics major; NUTR 384 and NUTR 482.

NUTR 485. Community Nutrition. 3 credits. Offered fall.
A study of human nutrition and health problems from a community perspective, programs and policies related to nutrition at local, state and federal levels including preventive nutrition or wellness and approaches and techniques for effective application and dissemination of nutrition knowledge in the community. Prerequisite: Admission to the dietetics major.

NUTR 490. Field Experience in Dietetics. 3 credits. Offered summer.
Students participate in field experience relating to their major area of dietetics and their career goals under the coordination of a dietetics faculty member. On-the-job supervision will be provided by the participating hospital dietitians. Prerequisites: Admission to the dietetics major; NUTR 384, NUTR 395. Application for enrollment must be completed through the course instructor in the fall semester prior to the summer in which it will be taken.

NUTR 495. Senior Seminar in Dietetics. 2 credits. Offered fall.
Students will be introduced to research in dietetics and conduct a senior research project. The Code of Ethics and Standards of Practice of the American Dietetic Association will be investigated, and students will prepare for their postgraduate dietetic internship. Prerequisite: Admission to the dietetics major.

NUTR 498. Special Studies in Nutrition/Dietetics. 1-3 credits. Offered fall and spring.
This course is designed to give the student in dietetics an opportunity to complete independent study, professional conference participation and/or research under faculty supervision. Prerequisite: Permission of the coordinator of the dietetics program.

NUTR 499. Honors. 6 credits. Offered fall and spring.
Year course.

Persian
Department of Foreign Languages, Literatures and Cultures

PERS 101. Elementary Persian I. 3-4 credits.
The fundamentals of Persian through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. Students will receive no credit for course if he/she has had two or more years of the language in high school. Prerequisites: PERS 101.

PERS 102. Elementary Persian II. 3-4 credits.
The fundamentals of Persian through a higher level of listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. Students will receive no credit for the course if he/she has had two or more years of the language in high school. Prerequisites: PERS 101.

PERS 231. Intermediate Persian I. 3 credits.
A thorough review of first year grammar and vocabulary building. Conversation, composition and reading will be chosen to reach competency at the lower intermediate level. Prerequisite: PERS 102.

PERS 232. Intermediate Persian II. 3 credits.
A thorough review of PERS 231 grammar and vocabulary building. Conversation, composition and reading will be chosen to reach competency at the advanced intermediate level. Prerequisite: PERS 231 or permission of the instructor.

PERS 490. Special Studies in Persian. 3 credits.
Special topics or independent studies in Persian.

Philosophy
Department of Philosophy and Religion

GPHIL 101. Introduction to Philosophy. 3 credits.
An introduction to the basic problems and concepts of philosophy — the nature of man and the self, ethics, theories of knowledge, philosophy of religion, etc. as revealed in the writings of major philosophers.

GPHIL 120. Critical Thinking. 3 credits.
An introduction to the techniques for analyzing and evaluating information in everyday experience. The functions of language will be discussed. Techniques for judging the strengths of arguments and the reasonableness of the arguments’ premises will be examined. This course cannot be used to fulfill the B.A. Philosophy requirement.

GPHIL 150. Ethical Reasoning. 3 credits.
An introduction to the principles and techniques of rational decision making in ethics, including analysis of arguments and fallacies, ethical theories, and applications of moral principles to moral issues. This course cannot be used to fulfill the B.A. Philosophy requirement.

GPHIL 210. Philosophy Through Film. 3 credits.
This course combines feature length films and classic philosophical writings as points of departure for considering perennial philosophical questions such as: What is real? (Metaphysics) How can I know? (Epistemology) What is of value? (Morbality).

GPHIL/REL 218. Philosophy of Religion. 3 credits.
An intensive examination of religion from the standpoint of philosophical thinking with particular emphasis on the way philosophers view such problems as the existence of God, evil, immortality, religious language, etc.

GPHIL 240. Greek Philosophy in Context. 3 credits.
This course will involve exploration of the intellectual world of the Ancient Greeks, with particular emphasis on the philosophical, historical and literary works produced during the period. The course will include lectures and site visits throughout Greece.

GPHIL 250. Introduction to Symbolic Logic. 3 credits.
An introduction to the languages and techniques of propositional logic and first-order quantification theory.

GPHIL 262. Problems in Applied Ethics. 3 credits.
Ethical theories are used to analyze contemporary moral issues in areas such as business and health care. Course content varies.
PHIL 270. Introduction to Ethics. 3 credits.
An introductory study of the basic ethical theories past and present with some application to moral problems.

PHIL 285. Philosophy, Art and Literature. 3 credits.
This course will study artistic works (literary or otherwise) for their philosophical content. Related issues in the philosophy of art for example, the nature of tragedy, theories of interpretation may also be considered.

PHIL 300. Knowledge and Belief. 3 credits.
An extensive examination of theories of knowledge and philosophical problems concerning knowledge and belief. Prerequisite: GPHIL 101 or permission of the instructor.

PHIL/ART 305. Seminar in Aesthetics. 3 credits.
Readings and discussions in the persistent philosophical problems of the arts, centering on consideration of the work of art, the artist and the audience. Prerequisite: GART 200, GARTH 205, GARTH 206 or GPHIL 101.

PHIL 310. Symbolic Logic. 3 credits.
The study and application of the principles and techniques of modern deductive logic to natural language. Also, examination of the properties of formal systems and of the logical implications and paradoxes of language. Prerequisite: PHIL 250 or consent of the instructor.

PHIL 311. Metaphysics. 3 credits.
Examination of central questions regarding the fundamental nature of reality. Possible topics: universalals and particulars, possibility and necessity, identity of objects over time and puzzles of material constitution, the problem of free will and determinism, and the nature of time. Prerequisite: At least one other philosophy course or approval of the instructor.

PHIL/IA 312. Causal Analysis. 3 credits.
Examines causal analysis in national, military, counter- and competitive intelligence. By assessing a factor’s amount and kind of efficacy, students will learn the most reliable methods for distinguishing between relevant/irrelevant events and factors, identifying and excluding pseudo-causes and anticipating higher order effects of a causal process. Prerequisite: IA 281 or permission of the instructor.

PHIL/IA 313. Counterfactual Reasoning. 3 credits.
Examines counterfactual reasoning in national, military, counter- and competitive intelligence. By analyzing alternate scenarios and their consequences, students will learn the most relevant methods for employing creative thinking in generating, developing and assessing possibilities; substantiating after-action reports, and structuring futures analysis. Prerequisite: IA 281 or permission of the instructor.

PHIL 314. Rational Decision Theory. 3 credits.
Explores the fundamental principles of making reasonable choices. The course considers both the conceptual, epistemological and logical insights of these principles, as well as applies them to numerous real-world cases faced by recent decision-makers in areas such as intelligence, information analysis, business or politics. Prerequisite: GPHIL 120 or instructor consent.

PHIL 315. Logic and Legal Reasoning. 3 credits.
Application of symbolic logic (first-order logic with identity) to legal language and deductive legal argument. Will include close logical analysis of at least one of the following: Supreme Court brief; Supreme Court decision, Supreme Court oral argument. Prerequisite: PHIL 250 or instructor consent.

PHIL 320. Inductive Logic. 3 credits.
Introduction to inductive logic and philosophical problems it raises. Topics discussed: the traditional problem of induction, the Goodman paradox and the new riddle of induction, the probability calculus and kinds of probability, Mill’s methods of experimental inquiry and the nature of causality, abduction (inference to the best explanation) and confirmation theory.

PHIL 330. Moral Theory. 3 credits.
An examination, at the intermediate level, of both classical and contemporary moral theories. Critical analysis of the normative and meta-ethical issues these theories raise.

PHIL 335. The Individual, the State and Justice. 3 credits.
Mid-level class in political philosophy. Will read classic and/or contemporary texts in philosophy influential on political thought. Focus may be on views of the justification for and role of the state. Consideration may also be given to the proper relationship of individuals and the state, political freedom and autonomy. Prerequisite: GPHIL 101 or approval of the instructor.

PHIL 340. Ancient Greek Philosophy. 3 credits.
This course traces philosophical problems raised by the pre-Socratics, Parmenides, Heraclitus, Pythagoras and the Sophists through their treatment by Plato and Aristotle. Emphasis is placed on selected writings of Plato and Aristotle. Prerequisites: GPHIL 101 and junior standing or permission of the instructor.

PHIL 341. Modern Philosophy. 3 credits.
A selective survey of major issues and thinkers in Western philosophy from Descartes to Kant.

PHIL 342. Medieval Philosophy. 3 credits.
A survey of the major issues and thinkers of the medieval philosophical world with emphasis on the philosophical writings of those within the Western tradition, such as Augustine, Anselm, Aquinas and Scotus. Prerequisite: One other philosophy course or approval of the instructor.

PHIL 344. Existentialism. 3 credits.
An examination of existentialism and its major spokesmen including such authors as Kierkegaard, Nietzsche, Sartre, Camus, Marcel and Heidegger. Prerequisite: GPHIL 101 or permission of the instructor.

PHIL/WMST 350. The Philosophy of Feminism. 3 credits.
An intermediate-level examination of philosophical problems in feminist theory and feminist contributions to philosophy.

PHIL 367. Topics in Philosophy of Law. 3 credits.
Examination of the philosophical issues raised by the law, including the nature, foundations and limits of the law, theories of its interpretation and the fundamental interest it aims to protect. Prerequisite: PHIL 270, PHIL 262, PHIL 330 or PHIL 335.

PHIL 370. American Philosophy. 3 credits.
A study of the main philosophical ideas in America, especially pragmatism, with particular emphasis being given to Pierce, James, Royce, Dewey and Whitehead. Prerequisite: GPHIL 101 or permission of the instructor.

PHIL/REL 375. Nineteenth Century Philosophy and Theology. 3 credits.
A selected study of 19th century thought, with emphasis on controversies concerning the nature and limits of reason, the ultimate meaning of history, and the inner meaning and social significance of religion. Pertinent thinkers include Hegel, Marx, Schleiermacher, Kierkegaard, Nietzsche and others. Prerequisite: PHIL/REL 377. Hermeneutics. 3 credits.
This course will examine the main features of hermeneutics with particular emphasis on its contemporary perspectives. Discussion will focus on such themes as human understanding and human finitude, the nature of history and tradition, linguisticity and textuality of experience. Readings may address Derrida, Ricoeur, Schleiermacher and Dilthey. Prerequisite: GPHIL 101 or permission of the instructor.

PHIL/REL 385. Buddhist Thought. 3 credits.
Buddhist thought from its origins to the contemporary world in South Asia and East Asia. Emphasis on the understanding of the human condition; analysis of the mind and of the nature of the cosmos; and the expression of Buddhist thought in the fine arts and social activism.

PHIL 390. Special Topics in Philosophy. 3 credits.
Topics for this intermediate-level course may be drawn from any area or period of philosophy chosen by the instructor. The course is designed primarily for Philosophy majors and minors, but any suitably prepared student may take the course with the permission of the instructor.

PHIL 391. Advanced Special Topics in Philosophy. 3 credits.
Topics for this advanced course my be drawn from any area or period of philosophy chosen by the instructor. The course is designed primarily for philosophy majors and minors, but any suitably prepared student may take the course with the permission of the instructor. Prerequisite: six hours of philosophy or consent of the instructor. May be repeated for credit.

PHIL 392. Philosophy of Mind. 3 credits.
An examination of competing theories of the intrinsic nature of mental states and mental processes, including careful consideration of questions concerning the relation between the mind and the physical world. Prerequisite: GPHIL 101 or approval of the instructor.

PHIL 394. Self and Identity. 3 credits.
This course will explore the philosophical aspects of personal identity, with particular emphasis on the metaphysics of the self. Other issues considered may include the nature of the soul, the status of self-knowledge and the ethical aspects of personhood. Prerequisite: GPHIL 101 or permission of the instructor.

PHIL 396. Philosophy of Physics. 3 credits.
This course examines the philosophical foundations of physics. Some of the philosophical issues explored in the course may include how various theories in physics impact metaphysics, ontology and/or epistemology. Topics may include the nature of space and time, special relativity, general relativity,
quantum theory, classical mechanics, thermodynamics and/or cosmology. Prerequisite: PHIL 101.

PHIL 397. Philosophy of Space and Time. 3 credits.
This course will survey debates about the nature of space and time. Topics may include Zeno’s paradoxes, time travel, relationism vs. substantivalism, classical accounts of space and time, and relativistic spacetime.

PHIL 398. Philosophy of Quantum Theory. 3 credits.
Quantum theory describes atoms and particles and is one of the most empirically successful physical theories. However, quantum theory seems to have revolutionary conceptual implications for metaphysics and epistemology. This course offers an introduction to philosophical problems raised by quantum theory. Topics may include the measurement problem, quantum entanglement, different interpretations of quantum mechanics, the Einstein-Podolsky-Rosen (EPR) paradox, and Bell’s theorem.

PHIL 410. Philosophy of Science. 3 credits.
This course surveys a number of topics about the nature of science. The topics may include the problem of distinguishing science from pseudoscience, the nature of scientific explanation, the notion of progress in science, and the realism and anti-realism debate. Prerequisite: PHIL 101 or permission of the instructor.

PHIL 420. Philosophy of Language. 3 credits.
An examination of the central issues in contemporary (mainly 20th century) philosophy of language. Potential topics to be covered include meaning, reference, the nature of language and the nature of truth. Potential philosophers to be examined include Mill, Frege, Russell, Kripke, Lewis and Grice. Prerequisites: PHIL 250 and one other course in philosophy, or permission of the instructor.

PHIL 430. Analytic Philosophy. 3 credits.
An examination of the central issues in contemporary (mainly 20th century) philosophy of language. Potential topics to be covered include meaning, reference, the nature of language and the nature of truth. Potential philosophers to be examined include Mill, Frege, Russell, Kripke, Lewis and Grice. Prerequisite: PHIL 101, PHIL 250 or permission of the instructor.

PHIL 440. Advanced Moral Philosophy. 3 credits.
Class will closely examine recent or historical work in (largely normative) moral philosophy, including at least two of the following: teleology (e.g., virtue theory), deontology (e.g., Kantianism) and consequentialism (e.g., utilitarianism). Prerequisite: PHIL 101, PHIL 330 or approval of the instructor.

PHIL 445. Advanced Political Philosophy. 3 credits.
In a seminar format we will examine, in depth, questions of political philosophy. These may include: autonomy, democracy, freedom, impartiality, universalism, toleration and the normative priority of individuals and communities. Prerequisite: PHIL 101, PHIL 330 or approval of the instructor.

PHIL 460. Topics in Classical Philosophy. 3 credits.
An advanced study of major issues in or the writings of one or more thinkers in ancient Greece through the Western medieval period. May be repeated for credit with change of topics. Prerequisite: PHIL 340 or permission of the instructor.

PHIL 465. Topics in Modern Philosophy, 3 credits.
An advanced study of some of the major issues in or the writings of one or more 17th-, 18th- or 19th-century philosophers. Prerequisite: PHIL 101, PHIL 341, PHIL 375 or permission of the instructor. May be repeated for credit when topics vary.

PHIL 466. Kant. 3 credits.
An examination of the theory of knowledge and the critique of traditional metaphysics set forth in Kant’s Critique of Pure Reason, and of the ethical theory and the moral metaphysics defended in his Groundwork to the Metaphysics of Morals and Critique of Practical Reason. The course may also more briefly explore some related topics, such as Kant’s views on aesthetics and teleology, or the key ideas of important post-Kantian philosophers like Fichte, Schelling or Hegel. Prerequisite: PHIL 341, PHIL/REL 375 or permission of the instructor.

PHIL 468. Phenomenology. 3 credits.
A study of phenomenological investigation into the fundamental structures and conditions of conscious experience—meaning-laden, first person experience of objects, of events, of one’s self, of other persons, of one’s world, and so forth. The course will devote special attention to the work of Husserl and of Heidegger. Additional authors may be studied, such as Sartre, Merleau-Ponty or Levinas. Prerequisites: PHIL 341, PHIL 344 or PHIL 468 or permission of the instructor.
Euler equation, viscosity and the Navier-Stokes equation will be covered. Prerequisites: MATH 237 and PHYS 260.

PHYS 270. Modern Physics. 4 credits.
A course in modern physics, consisting of a discussion of the experimental basis for and fundamental principles of quantum physics, with applications to atomic structure and nuclear physics. Prerequisite: PHYS 280 or permission of the instructor.

PHYS/CHM/MATS 275. An Introduction to Materials Science. 3 credits.
An introduction to materials science with emphasis on general properties of materials. Topics will include crystal structure, extended and point defects and mechanical, electrical, thermal and magnetic properties of metals, ceramics, electronic materials, composites and organic materials. Prerequisite: CHEM 131, PHYS 150 or PHYS 250, ISAT 212 or permission of the instructor.

PHYS 295. Laboratory Apparatus Design and Construction. 1 credit.
An introduction to the design and fabrication of laboratory apparatus using machine tools. Prerequisites: PHYS 290 and permission of the instructor.

PHYS 297. Topics in Physics. 1-4 credits each semester.
Topics in physics at the second year level. May be repeated for credit when course content changes. Topics selected may dictate prerequisites. Students should consult instructor prior to enrolling for course. Prerequisite: Permission of the instructor.

PHYS 326. Biophysics. 3 credits.
Physical models are used to explain biological systems. Topics from biology include cell division, replication, transcription, and translation of DNA, protein folding, and molecular motors. Physics topics include entropy and free energy, diffusion, and statistical mechanics of two state systems. Experimental tools for biophysics are also discussed. Prerequisite: PHYS 150 or PHYS 250.

PHYS 333. Introduction to Particle Physics. 3 credits.
An introduction to current themes and ideas which confront the fundamental nature of matter and interactions. The most widely accepted theory, the Standard Model, will be explored. Possible extension, beyond the Standard Model physics, will be discussed. Basic properties such as charge, mass, and lepton number will be examined within these frameworks. Experiments that illuminate the basic nature of matter and ideas such as symmetry and quantum physics will be reviewed and assessed. Prerequisite: PHYS 270.

PHYS/MATS 337. Solid State Physics. 3 credits.
A study of the forces between atoms, crystal structure, lattice vibrations and thermal properties of solids, free electron theory of metals, band theory of solids, semiconductors and dielectrics. Prerequisite: PHYS 270 or permission of the instructor.

PHYS 338. Nuclear Physics. 3 credits.
An introduction to the study of the atomic nucleus. Topics covered include static nuclear properties and movements, the force between nucleons, the deuteron, nucleon scattering, isospin, nuclear structure, radioactivity, decay kinematics and selection rules, fission, and fusion. Prerequisite: PHYS 270.

PHYS 339. Introductory Nuclear Science. 4 credits.
An introduction to nuclear science that will provide a solid foundation for experimental work in applied nuclear physics. Detection of ionizing radiation, as it applies to nuclear physics, will be additionally covered in the laboratory-component of the course. Topics include concepts of radioactive decays, radiation transport and interaction with matter, basics of radiation detection devices, dosimetry, radiation therapy, X-ray production, and fission nuclear reactors. Prerequisite: PHYS 270 or permission of the instructor.

PHYS 340. Mechanics. 3 credits.
Application of fundamental laws of mechanics to particles and rigid bodies. Topics include statics, dynamics, central forces, oscillatory motion and generalized coordinates. Prerequisites: PHYS 260 and MATH 238.

PHYS/MATH 341. Nonlinear Dynamics and Chaos. 3 credits.
Introductory study of nonlinear dynamics and chaos intended primarily for upper-level undergraduates in science or mathematics. Topics include stability, bifurcations, phase portraits, strange attractors, fractals and selected applications of nonlinear dynamics in pure and applied science. Computers will be used for simulations and graphics. Prerequisites: MATH 238 and MATH 248.

PHYS 342. Mechanics II. 3 credits.
A continuation of PHYS 340 including Lagrangian dynamics, rigid body motion and the theory of small oscillations. Prerequisite: PHYS 340.

PHYS 344. Advanced Physics Laboratory I. 1 credit.
The first course in a three-course laboratory sequence. A set of advanced laboratory experiences in which students are introduced to experimentation in several areas of physics while gaining experience in experiment design, data analysis, formal report writing and presentations. Prerequisite: PHYS 247.

PHYS 345. Advanced Physics Laboratory II. 1 credit.
This is the second course in a three-course laboratory sequence. A set of advanced laboratory experiences in which students are introduced to experimentation in several areas of physics while gaining experience in experiment design, data analysis, formal report writing and presentations. Prerequisite: PHYS 344.

PHYS 350. Electricity and Magnetism. 3 credits.
A study of the electrostatic field, the magnetic field, direct and alternating currents and electromagnetic waves. Prerequisites: PHYS 260 and MATH 238.

PHYS 360. Analog Electronics (2, 4). 4 credits.
DC and AC circuits, spectral and pulse circuit response, semiconductor physics and simple amplifier and oscillator circuits. Prerequisite: PHYS 250 or permission of the instructor.

PHYS/MATH 365. Computational Fluid Mechanics. 3 credits.
Applications of computer models to the understanding of both compressible and incompressible fluid flows. Prerequisites: MATH 248, either MATH 239 or MATH 336, MATH/PHY 265, and PHYS 340.

PHYS/MATH 366. Computational Solid Mechanics. 3 credits.
Development and application of mathematical models and computer simulations to investigate problems in solid mechanics, with emphasis on numerical solution of associated boundary value problems. Prerequisites: MATH/PHY 260, MATH 238 and MATH 249, or permission of the instructor.

PHYS 371. Introductory Digital Electronics (2, 4). 2 credits.
Transistors, integrated circuits, logic families, gates, latches, decoders, multiplexers, multivibrators, counters and displays. Prerequisite: A grade of “C” in PHYS 150 or PHYS 250 or permission of the instructor.

PHYS 372. Microcontrollers and Their Applications (2, 4). 2 credits.
Microcontrollers, their instructions, architecture and applications. Prerequisite: PHYS 371 or permission of the instructor.

PHYS 373. Interfacing Microcomputers (2, 4). 2 credits.
A study of the personal computer and its input/output bus, input/output functions, commercially available devices, prototype circuit boards and programs for device control. Prerequisite: PHYS 371.

PHYS 380. Thermodynamics and Statistical Mechanics. 3 credits.
A treatment of the thermal properties of matter from both macroscopic and microscopic viewpoints. Topics include the laws of thermodynamics, heat, work, internal energy, entropy, elementary statistical concepts, ensembles, classical and quantum statistics and kinetic theory. Approximately equal attention will be given to thermodynamics and statistical mechanics. Prerequisites: PHYS 270.

PHYS/MATS 381. Materials Characterization (Lecture/Lab course). 3 credits.
A review of the common analytical techniques used in materials science related industries today, including the evaluation of electrical, optical, structural and mechanical properties. Typical techniques may include...
Hall Effect, scanning probe microscopy, scanning electron microscopy, ellipsometry and x-ray diffraction. Prerequisite: PHYS/MATS 275, ISAT/MATS 431 or GEO/MATS 395.

PHYS 388. Robots: Structure and Theory. 3 credits. An introduction to the study of autonomous robotic platforms. Topics include robot structure, propulsion systems, robot kinematics, sensors used in robotics, and sensor integration. The course combines lectures with laboratory activities in which students will get hands-on experience in designing, building, programming, and testing autonomous robotic platforms. Prerequisite: completion of the basic preparation courses required for the robotics minor or permission of the instructor.

PHYS 390. Computer Applications in Physics. 3 credits. Applications of automatic computation in the study of various physical systems. Problems are taken from mechanics of particles and continua, electromagnetism, optics, quantum physics, thermodynamics and transport physics. Prerequisites: MATH/CSC 248, PHYS 240, PHYS 250 and six additional credit hours in major courses in physics, excluding PHYS 380, PHYS 371 and PHYS 372.

PHYS 391-392. Seminar. 1 credit per year. Participation in the department seminar program. Prerequisites: Junior or senior standing and permission of the instructor.

PHYS 397. Topics in Physics. 1-4 credits each semester. Topics in physics at intermediate level. May be repeated for credit when course content changes. Topics selected may dictate prerequisites. Students should consult instructor prior to enrolling for course. Prerequisite: Permission of the instructor.

PHYS/ASTR 398. Independent Study in Physics or Astronomy. 1-3 credits, repeatable to 4 credits. An individual project related to some aspect of physics or astronomy. Must be under the guidance of a faculty advisor. A student may not earn more than a total of four credits for PHYS/ASTR 398.

PHYS 420. Modern Optics. 3 credits. A study of the kinematic properties and physical nature of light including reflection, refraction, interference, diffraction, polarization, coherence and holography. Prerequisites: PHYS 280, PHYS 270 and MATH 237.

PHYS 446. Electricity and Magnetism II. 3 credits. A continuation of PHYS 350. Emphasis will be placed on the solutions of Maxwell’s equations in the presence of matter, on solving boundary-value problems and on the theory of electromagnetic radiation. Prerequisite: PHYS 350.

PHYS/CHM 455. Lasers and Their Applications to Physical Sciences (2, 3 credits).

PHYS 460. Quantum Mechanics. 3 credits. Principles and applications of quantum mechanics. Topics include wave packets and the uncertainty principle, the Schroedinger equation, one-dimensional potentials, operators and eigenfunctions, three-dimensional motion and angular momentum and the hydrogen atom. Prerequisite: PHYS 340.

PHYS 491-492. Physics Assessment and Seminar. 1 credit per year. Principal course activities are participation in the departmental assessment program and attendance at departmental seminars. Prerequisite: PHYS 392.

PHYS 494. Internship in Physics. 1-6 credits. Students participate in research or applied physics outside of the university. A proposal must be approved prior to registration, and a final paper will be completed. Prerequisites: Physics major with a minimum of 12 physics credit hours and permission of the department head and the instructor.

PHYS 497. Topics in Physics. 1-4 credits each semester. Topics in physics at the advanced level. May be repeated for credit when course content changes. Topics selected may determine prerequisites. Students should consult instructor prior to enrolling for course. Prerequisite: Permission of the instructor.

PHYS/ASTR 498R. Undergraduate Research in Physics or Astronomy. 1-4 credits, repeatable to 6 credits. Research in a selected area of physics as arranged with a faculty research advisor. A student may not earn more than a total of six credits for PHYS/ASTR 498R. Prerequisite: Proposal for study must be approved prior to registration.

PHYS 499. Honors. 6 credits. (Year course, 3 credits each semester). Participation in this course must be approved during the second semester of the junior year.

Political Science

Department of Political Science

GPOSC 200. Global Politics. 3 credits. An exploration of political, social and economic issues and structures existing within and between states in the contemporary global community. Students are introduced to alternative approaches to analyzing these issues in diverse cultures and political settings.

GPOSC 201. Introduction to Western Political Theory. 3 credits. A general survey of Western political theory from Plato to Marx, order and freedom.

GPOSC 225. U.S. Government. 4 credits. An examination of institutions, processes and intellectual concepts, which structure American political activity. The interaction of the political system with the changing American society and America’s changing role in world affairs are also treated. The course provides an introduction to quantitative methodology.

GPOSC 230. International Relations. 3 credits. A survey of the field of international relations including consideration of the elements of national power, foreign policy, diplomacy, propaganda, foreign aid, war, international law and international organization.

GPOSC 240. Comparative Politics. 3 credits. A comparative study of selected political systems. Emphasis is on the structure of government, the political process and the conditions which either promote or constrain political change and stability.

GPOSC 295. Research Methods. 4 credits. Students learn how to conduct original research from theory formulation through data collection and hypothesis testing. Special emphasis on research and computer literacy. Prerequisite: MATH 220.

GPOSC 300. Politics and Film. 3 credits. This course examines the relationship between politics and film, broadly construed. The ability of film to inform and promote agendas on key political issues, and the way in which films reflect the world of ideas and political culture in which they are created will be explored in substantive areas that may include: social and political change, human rights and justice, the portrayal of political processes and institutions, and foreign policy.

GPOSC 301W. The Washington Semester Experience. 3 credits. A study of the manner in which the policy making process is conducted on the federal level. The function of political and governmental institutions in establishing public policy is examined through readings and observation. Prerequisite: Enrollment in the Washington Semester program.

GPOSC 302. State and Local Government. 3 credits. A study of state and local government in the United States with particular focus on Virginia. Emphasis is placed on an understanding of the framework, functions and problems of state and local governments.

GPOSC 310. Political Theory: Ancient to Early Modern. 3 credits. A study of political theory from Plato and Aristotle through Machiavelli with analysis of such political concepts as the nature of the state, political obligation, natural law and Utopian societies.

GPOSC 315. Political Theory: Early Modern to the 19th Century. 3 credits. A study of political theory from Hobbes and Locke to Hegel, Green and other 19th-century thinkers. The course will examine such ideas as freedom, political obligation, justice, progress, ethics, and politics and the relationship between the individual and the human polity.

GPOSC 316. Contemporary Political Theory. 3 credits. An examination of political thinkers and their ideas from the end of the 19th century to the present. Special emphasis will be placed on the writings of Hannah Arendt, Jurgen Habermas, John Rawls and other contemporary thinkers who continue to engage in the pursuit of political inquiry.

GPOSC 321. Political Theory and Ideology. 3 credits. A study of the relationship between normative political theory and ideology, emphasizing the philosophic foundations of modern political thought and its relationship to the emergence of various ideological positions in the 19th and 20th centuries. Includes a study of liberalism, conservatism, socialism, anarchism, nationalism, fascism, feminism, environmentalism and others.

GPOSC 325. Constitutional Law. 3 credits. A study of the legal aspects of the American democratic system. The development of the Constitution will be explored and case studies used to portray important events and changes.
POSC 326. Civil Rights. 3 credits.
An examination of the judicial interpretation of civil rights in America with emphasis on freedom of speech, due process of law and equal protection under the 14th Amendment.

POSC 330. American Political Thought. 3 credits.
A study of the development and significance of political ideas that have influenced American society and government.

POSC/JUST 331. Human Rights in Theory and Practice. 3 credits.
This course will explore the nature and value of human rights by investigating some major debates over their status and meaning and by examining some of the ways people have tried to secure human rights in practice. Prerequisites: JUST, POSC and INTA majors only. For JUST majors: JUST 200.

POSC 335. Comparative Politics for Teachers. 3 credits.
This course examines the core themes, concepts and debates in the subfield of comparative politics and how they apply to politics in selected countries around the world. The course emphasizes those themes and cases of greatest use to students pursuing careers in education and explores approaches to teaching this content in a variety of classroom settings.

POSC 337. Politics of Russia and the Former Soviet Union. 3 credits.
The course involves comparative analysis of the development and dynamics of political regimes in Russia and the former Soviet Union. Attention is given to pre-communist, communist and post-communist politics and to explaining political and economic trends since 1991.

POSC 340. Political Development in the Third World. 3 credits.
A comparative study of the processes of political development in the developing nations of the Middle East, Africa, Asia and Latin America. Attention is given to the special problems confronting these nations and their implications for the global systems.

POSC 344. Politics of the European Union. 3 credits.
The course offers an in-depth consideration of the political development of the European Union, the EU policy-making process and contemporary issues that confront European leaders and citizens.

POSC 345. Politics of Western Europe. 3 credits.
This course involves comparative analysis of the development and dynamics of political regimes in Western Europe. Attention is given to political institutions, political participation, public policy, and political and economic trends since 1945.

POSC 346. Politics of Central and Eastern Europe. 3 credits.
This course involves comparative analysis of the development and dynamics of political regimes in central and eastern Europe. Attention is given to pre-communist, communist, and post-communist politics and to explaining political and economic trends since 1989.

POSC 347. Comparative Public Policy. 3 credits.
A study of public policy formation and implementation in selected advanced industrial and Third World nations.

POSC 348. The Politics of Cultural Pluralism. 3 credits.
This course examines the various manifestations of cultural pluralism, a situation that occurs when multiple ethnic, religious, and/or linguistic groups coexist within a single state. The course considers different institutional and policy approaches to coping with cultural pluralism.

POSC 349. Comparative Political Behavior. 3 credits.
This course familiarizes students with the theoretical and empirical study of political behavior cross-nationally.

POSC 350. Latin American Politics. 3 credits.
A comparative study of the political institutions, processes and current issues in the Latin American states and an analysis of their importance in regional and global relations.

POSC 351. Topics in American Politics. 3 credits.
In-depth exploration of specialized topics in the area of American politics. The topic for each semester will be announced on MyMadison.

POSC 353. African Politics. 3 credits.
A comparative study of the institutions and social, economic, and global processes that affect contemporary African states. Political developments explored include the construction and transformation of post-colonial states, ethnic conflict, economic crisis and reform, and regime change.

POSC 354. Politics of the Middle East. 3 credits.
This course involves comparative analysis of political institutions, social dynamics and economic processes in the contemporary Middle East. The course also focuses on the ways that global developments affect and are affected by Middle Eastern states and peoples.

POSC 355. East Asian Politics. 3 credits.
A study of the political systems of the major countries of East Asia, including Japan, China and Korea. Issues discussed include political development and democratization movements in the People’s Republic of China, the Republic of China and the Republic of Korea.

POSC 358. Public Policymaking. 3 credits.
Study of policymaking institutions and policy processes that convert societal demands through policy into benefits. By considering the impact of institutional and ideational arrangements on policy outcomes, the course provides a framework with which to analyze public policy formation in contemporary America. Prerequisites: GPOSC 225 or permission of the instructor.

POSC 360. Political Behavior. 3 credits.
A study of how citizens acquire politically relevant attitudes and how these attitudes influence their political behavior. The effects of the mass media on voting behavior are also considered.Emphasis is placed on U.S. voting behavior, but behavior in other nations is also covered. Prerequisites: GPOSC 225

POSC 365. American Political Campaigning. 3 credits.
Study of modern day political campaigning with emphasis on campaign structure, strategy and the relationship between candidates and political consultants. The course assesses the consequences of the changing nature of political campaigns for democracy in the United States. Prerequisite: GPOSC 225.

An examination of how conceptions of national identity, nativism and assimilation influence public opinion toward immigrants and shape immigration policy in the United States. The perspectives of native-born residents, immigrants and policymakers are considered. The course discusses immigration as a social and political issue, reviews the historical evolution of U.S. immigration policy and public opinion trends, and explores how contemporary immigrants adapt to life in the United States.

POSC 368. Interest Groups and Public Policy. 3 credits.
An analysis of the activities of interest groups in the American system of government with emphasis on their goals and effectiveness in shaping public policy. Prerequisite: GPOSC 225.

POSC 369. Political Parties and Elections. 3 credits.
A study of national political parties and elections. Attention is given to the origin and evolution of the major and important minor parties, nomination and election process, presidential campaign, role and practical working of political parties, influence of public opinion and pressure groups and responsibilities of the individual voter. Prerequisite: GPOSC 225.

POSC 370. U.S. Foreign Policy. 3 credits.
An investigation of the processes for making foreign policy, underlying premises influencing specific policies and substance of American foreign policy. Prerequisite: POSC 230.

POSC 371. Topics in Comparative Politics. 3 credits.
In-depth exploration of specialized topics in the area of comparative politics. The topic for each semester will be announced on MyMadison.

POSC 372. Ethics and International Politics. 3 credits.
This course investigates the significance of ethical questions in the theory and practice of contemporary international politics, introducing a variety of normative approaches that shape the issues of peace and conflict, morality and justice in global affairs. Practical case studies will also be used to address issues of policy relevance, with particular attention paid to the American experience. Prerequisites: JUST, POSC and INTA majors only. For JUST majors: JUST 235.

POSC 380. The U.S. Presidency. 3 credits.
A study of the institution of the American presidency focusing on the sources, bases and character of the power required by the president for effective executive action. Relationships of the presidency to foreign affairs, Congress, the public, party structure and the administrative establishment will also be considered. Prerequisite: GPOSC 225.

POSC 381. Topics in Political Theory. 3 credits.
In-depth exploration of specialized topics in the area of political theory. The topic for each semester will be announced on MyMadison.

POSC 382. The Role of Religion in American Politics. 3 credits.
An examination of the role religion has played and continues to play in American politics. Besides providing an overview of how religion has
influenced electoral, legislative, and judicial outcomes, the course will provide an in-depth examination of particular aspects of a political role in political life. Prerequisite: GPOSC 225 or permission of the instructor.

POSC 383. Women and Politics. 3 credits.
A study of the role and impact of women in United States politics and society, with emphasis on political movements, electoral politics and public policy.

POSC 394. Minority Group Politics. 3 credits.
This course examines the role of minority groups in American politics. Attention is given to five groups (African-Americans, Asian-Americans, Native Americans, Latinos and women) that for reasons of race or gender have faced institutional discrimination and political domination in the United States.

POSC 385. The U.S. Congress. 3 credits.
Study of the legislative process will concentrate on the operation of Congress with regard to such matters as its rules and procedure; relationships to the presidency, the bureaucracy, pressure groups and the courts; and a discussion of its current problems. Prerequisite: GPOSC 225.

POSC 386. The U.S. Judiciary. 3 credits.
An investigation of the American court system. The course focuses on the role of the judiciary as it affects the difference between political and other political and bureaucratic decision-making processes, the selection of judges, the decisions made by judges and the effect of these decisions on American society.

POSC 391. Topics in Public Policy. 3 credits.
In-depth exploration of specialized topics in the area of public policy. The topic for each semester will be announced on MyMadison.

POSC 392. Peace Studies. 3 credits.
A study of the evolution, theory and practice of peace studies. The course focuses on how we wage and resolve conflict, affect social change, and provide security through nonviolent means.

POSC 395. International Law. 3 credits.
Examination of the role of international law in world politics. Particular attention will be given to the effects of international law on patterns of international exchange and interaction. Case study and other forms of political analysis will be used.

POSC 396. International Organizations. 3 credits.
Study of the evolution and role of contemporary international organizations in the larger context of world politics. Emphasis on the ways in which the changing patterns of political power influence the processes and effectiveness of such organizations.

POSC 397. The Politics of International Economic Relations. 3 credits.
A study of the political dynamics and implications of international economic relations.

POSC 398. Simulations. 3 credits.
Application of concepts and insights learned in the classroom to contemporary policy problems and practical activities. The topic of this course will vary from offering to offering. The exact courses required will vary with the subject matter of the simulation.

POSC 400. International Security and Conflict Management. 3 credits.
This course examines major threats to international security in the post-Cold War world. Topics include the changing global security environment, proliferation of weapons of mass destruction, terrorism and ethnic conflict. The effectiveness of economic sanctions, deterrence, international organizations, preventative war and other tools in dealing with these threats in critically examined.

POSC 435. International Terrorism. 3 credits.
Systematic study of political terrorism with emphasis upon the destabilizing effect that it has upon the international community.

POSC/HIST 457. Comparative Empires. 3 credits.
Comparative empires is an examination of imperialism from 1450 to the Present. Focusing on no less than four empires, the course will apply a variety of theoretical approaches in a series of case studies with at least one empire from the period of exploration and one from 1919 to the present. Students will employ approaches from history, political science, economics, and geography as they search for a deeper understanding of each case study and the broader concept of empire. Corequisites: MSSE 470H.

POSC 458. International Political Analysis. 3 credits.
An examination of techniques and principles for the analysis of future political conditions and future government decisions.

POSC/SCOM/SMAD 472. Media and Politics. 3 credits.
A study of the media’s role in political campaigns, concentrating on past/present election, the media’s role in covering political parties and coverage of the governing process. Discussion of electronic and print will occur. Topics to be examined include campaign videos, C-SPAN, political ads, editorial cartoons, TV debates, convention coverage and radio talk show commentary.

POSC 490. Senior Tutorial in Political Science. 4 credits.
Research-oriented tutorial designed to integrate student’s prior knowledge and strengthen lifelong learning skills. Course may be offered in multiple sessions (POSC 490A, POSC 490B, etc.). Prerequisites: Senior standing and permission of the instructor.

POSC 492. Senior Seminar in Political Science. 4 credits.
This research-oriented senior seminar provides an overview of the discipline of political science and the different approaches to research in the field. A major research project will strengthen the research, information access and lifelong learning capacities of the student. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisites: Senior standing and POSC 295.

POSC 493. Political Communication Internship. 4 credits.
This course will provide students with experiential learning opportunities in policymaking, campaigning, media, legislative politics and lobbying. A research paper relating the internship to the student’s academic work will enhance the learning experience. Prerequisites: Junior or senior standing; GPOSC 225, SCOM 240, SCOM 241 and one other core PCOM required course.

POSC 493W. Political Communication Internship in Washington. 6 credits.
This course will provide students with experiential learning opportunities in policymaking, campaigning, media, legislative politics, and lobbying. A research paper relating the internship to the student’s academic work will enhance the learning experience. Prerequisites: Junior or senior standing; GPOSC 225, SCOM 240, SCOM 241 and one other core PCOM required course.

POSC 495. *Internship in Political Science. 4 credits.
Provides students with opportunities for experiential learning in a legislative, policy making, campaign, constituency, interest group or criminal justice organization. A research paper related to the internship and a presentation based on the experience are required. Prerequisites: Junior or senior standing, 15 credits of political science, public administration or political communication and permission of the instructor.

POSC 495W.* Washington Semester Internship in Political Science. 6 credits.
Provides Washington Semester participants with opportunities for experiential learning in a Washington, D.C., based legislative, policy making, campaign, constituency, interest group or criminal justice organization. A research paper related to the internship, a career report, a daily log and regular meetings with faculty-in-residence. Prerequisites: Junior or senior standing, 15 credits of political science, public administration or political communication, and successful application to Washington Semester program.

POSC 498. Research in Political Science. 1 credit.
Research in a selected area of political science as arranged with a faculty sponsor. Research outline must be approved by faculty sponsor and department head the semester before registration. Course may be repeated. Prerequisites: a Political Science, International Affairs, or Public Policy and Administration GPA of 2.5 or greater.

POSC 499. Honors. 8 credits.
Year course.

*No more than four credit hours can be counted toward the political science major.

Portuguese

Department of Foreign Languages, Literatures and Cultures

PORT 101. Elementary Portuguese I. 3-4 credits.
The fundamentals of Portuguese through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. Students will receive no credit for the course if he/she has had two or more years of the language in high school.

PORT 102. Elementary Portuguese II. 3-4 credits.
The fundamentals of Portuguese through a higher level of listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. Students will receive no credit for the course if he/she has had two or more years of the language in high school. Prerequisite: PORT 101.

http://www.jmu.edu/catalog/14
PORT 231. Intermediate Portuguese I. 3 credits.
A thorough review of first year grammar and vocabulary building. Conversation, composition and readings will be chosen to reach competency at the lower intermediate level Portuguese. Prerequisite: PORT 102 or permission of the instructor.

PORT 232. Intermediate Portuguese II. 3 credits.
A thorough review of PORT 231 grammar and vocabulary building. Conversation, composition and readings will be chosen to reach competency at the advance intermediate level. Prerequisite: PORT 231 or permission of the instructor.

PORT 300. Portuguese Grammar and Communication. 3 credits.
Intensive training in grammatical structures and their application to oral and written communication. Instruction in Portuguese. Fulfills the College of Arts and Letters writing-intensive requirement for possible International Majors and/or IBUS majors. Prerequisite: PORT 232 or permission of the instructor.

PORT 320. Portuguese Oral and Written Communication. 3 credits.
Intensive training in the use of everyday Portuguese with emphasis on conversation and composition. Readings in Portuguese will provide a context for discussion and writing. Prerequisite: PORT 300.

PORT 490. Special Topics in Portuguese. 3 credits.
Special topics or independent studies in Portuguese.

Psychology

Department of Psychology

PSYC 100. Interpersonal Skills for Resident Advisers. 1 credit.
Designed to give resident advisor trainees understanding of interpersonal relations. Cannot be used as a psychology major elective. Prerequisite: Limited to students selected as resident advisers.

PSYC 101. General Psychology. 3 credits.
A study of the nervous system, sensation, perception, consciousness, learning, memory, language, intelligence, motivation, emotion, life span development, personality, psychopathology, psychotherapy, social psychology and the scientific method.

PSYC 122. The Science of Vision and Audition. 3 credits.
A study of human interaction with light and sound waves. Topics include physiological and perceptual mechanisms for processing light and sound, along with connections to real-world applications (e.g., human factors and careers within vision science and audiology). Includes activities designed to provide students with in-depth, hands-on experience with course topics.

PSYC 160. Life Span Human Development. 3 credits.
An introduction to human development. Emphasis is on life span processes within physical, emotional, cognitive, psychosexual, social, personality and moral development.

PSYC 180. Introduction to Behavior Analysis. 3 credits.
Students will learn the fundamental principles, procedures, and concepts of behavior analysis, how they can be used to explain behavior, and how interventions based on these principles can be used to improve their own lives and the lives of others.

PSYC 200. Topics in Psychology. 1-3 credits.
Exploration of an important psychological topic. The topics for each semester will be announced on MyMadison and the departmental website. Prerequisite: PSYC 101.

Designed to give capable students an opportunity to complete directed study in an area of psychology under faculty guidance. Experiences may include practica, serving as a teaching assistant, directed readings, or similar experience. Not to be used for psychology major credit. Prerequisites: PSYC 101 and a written plan for the directed study must be submitted to the Department Head for approval one week prior to registration.

PSYC 203. Directed Research in Psychology. 1-3 credits.
An introductory opportunity to assist a faculty member with a research project. Students may participate in any or all phases of research, including completion of background research, study design, collection of data, data analysis, and interpretation. Specific requirements of project are determined by the instructor. Not to be used for psychology major credit. Prerequisites: PSYC 101 and a written plan for the directed study must be submitted to the Department Head for approval one week prior to registration.

This course provides an introduction to statistical techniques used by psychologists in measuring behavior. Fundamental measures and theory of descriptive and inferential statistics will be discussed. The use of computers for data analysis will be introduced. Prerequisites: PSYC 101 and MATH 205, MATH 220, MATH 231, or MATH 235 with a grade of "C-" or better. PSYC 211. Psychological Research Methods (2.2). 4 credits.
This course provides an introduction to the application of scientific methodology to investigate psychological phenomenon. Through lecture and laboratory, attention is given to choosing research questions, developing hypotheses, designing and conducting research, describing, analyzing and evaluating data and effectively communicating research findings. Prerequisites: PSYC 101 and PSYC 210.

PSYC 212-213. Psychological Research Design and Data Analysis I-II. 4 credits each semester.
The PSYC 212-213 course sequence introduces the logic of pursuing a scientific approach in psychology and covers descriptive, correlational, experimental and quasi-experimental approaches. It also covers the statistical tools associated with these methods (namely, descriptive statistics, correlation, regression, t-tests and ANOVA), and it introduces the basics of inferential statistics and hypothesis testing. Prerequisite for PSYC 212: PSYC 101 and PSYC 102, PSYC 205, MATH 220, MATH 231, or MATH 226 with a grade of "C-" or better. Prerequisite for PSYC 213: PSYC 212 with a grade of "C-" or better.

PSYC 220. Psychology and Culture. 3 credits.
The study of human psychology is incomplete without taking into account the cultural, historical, and social factors involved in human functioning. This course considers the ethnic and cultural variations that exist in human behavior, thought, and action. Course meets sociocultural course requirement for the Psychology major. Prerequisite: PSYC 101.

PSYC 225. Psychology of Adjustment. 3 credits.
A study of the process and dynamics of the well-integrated personality and the practical application of adjustment theories and behavior change techniques to enhance personal awareness and self-development.

PSYC 250. Introduction to Abnormal Psychology. 3 credits.
An introduction to the field of abnormal psychology for the non-psychology major. This course will examine methods of defining psychological normality and abnormality and the classification, causes and treatment of abnormal behavior. This course cannot be used for psychology major credit. Students may not earn credit for both PSYC 250 and 335. Prerequisite: PSYC 101 or PSYC 160.

PSYC/JUST 255. Abnormal Psychology for Law Enforcement Personnel. 3 credits.
This course for students interested in becoming law enforcement professionals critically examines psychological normality and abnormality. The course focuses on description and causes of abnormal behavior likely to be encountered by law enforcement professionals, and on intervention options for police officers. May not be taken by psychology majors or students who have completed PSYC 250 or PSYC 335. Prerequisites: PSYC 101 and JUST 200.

PSYC 270. Foundations of Learning and Cognition for Education. 3 credits.
This course introduces fundamental principles of cognition and learning as applied to educational practice. It provides a foundation for understanding multiple perspectives and levels of analysis applied to individual learning in educational settings. Prerequisites: PSYC 101 or PSYC 160.

PSYC 275. Psychology of Human Intimacy. 3 credits.
Theoretical and applied study of human relationships through case analysis and role play.

PSYC 285. Drugs and Behavior. 3 credits.
An introduction to the pharmacological effects of psychoactive drugs. This course will examine the neural mechanisms and behavioral effects of common substances such as caffeine and nicotine, drugs of abuse, and pharmaceuticals that are used to treat mental disorders. Prerequisite: PSYC 101.

PSYC 301. Psychology Peer Advising Training I. 2 credits.
Introductory training in academic advising, career development, and basic counseling techniques. Not to be used for psychology major credit. Application guidelines available on the psychology website and in the Psychology Peer Advising office. Prerequisites: PSYC 101, junior-level status and permission of course instructor.

PSYC 302. Psychology Peer Advising Training II. 2 credits.
Continued training and supervised experiences in academic advising, career development, and basic counseling techniques. Not to be used for psychology major credit. Prerequisites: PSYC 211, PSYC 213 or PSYC 301 and permission of the course coordinator.

http://www.jmu.edu/catalog/14
PSYC 304. Death and Dying: Thanatology. 3 credits.
Psychological theories about death including ways in which individuals and society deal with death. Prerequisites: G/PSYC 101 and junior status.

PSYC 308. Health Psychology. 3 credits.
This course deals with personality and its relation to health and illness behaviors. Topics include psychological factors involved in control and helplessness, conflict management, cardiovascular disorders, cancer, pain, substance abuse and other psychophysically related factors. Course meets sociocultural requirement for the psychology major. Prerequisites: G/PSYC 101 and junior status.

PSYC 310. The Psychology of Women and Gender. 3 credits.
An examination of research and theory regarding the abilities and behaviors of women and the changing roles of women. Consideration is given to biological, developmental and societal determinants of sex and gender. Course meets sociocultural requirement for the psychology major. Prerequisites: G/PSYC 101 and junior status.

PSYC 314. Police Psychology. 3 credits.
This course explores the role of psychology in various aspects of police work and examines how psychological research and methods can assist police departments and police officers in reaching law-enforcement goals. Prerequisites: G/PSYC 101 and JUST 200.

PSYC/JUST 316. Human Development and Crime. 3 credits.
This course examines how psychological research and theory shed light on the development of criminal careers, the factors that protect children and adolescents from becoming criminals, how being a victim of crime influences well being, and the efficacy of rehabilitation. Special attention will be paid to the knowledge base on delinquency and childhood/adolescent victimization. Prerequisite: G/PSYC 101.

PSYC 320. Diversity Issues in Psychology. 3 credits.
This course addresses issues of diversity and neglected populations in psychology with attention to gender, sexual orientation, race, ethnicity, disability, chronic illness, SES, age, and level of indigenous influence. Particular cultural stressors associated with each group or demographic are discussed and attention is given to the issue of privilege. Course meets sociocultural requirement for the psychology major. Prerequisites: G/PSYC 101 and junior-level status.

PSYC 325. Counseling Psychology. 3 credits.
A basic counseling theories and skills course designed for students interested in human service and mental health fields. Course meets sociocultural requirement for the psychology major. Credit may not be earned in both PSYC 325 and PSYC 440. Prerequisites: G/PSYC 101 and junior status.

PSYC 326. Leadership and Personal Growth. 3 credits.
The purpose of this course is to foster the understanding and practical application of leadership, through the use of affective and cognitive approaches. There is a strong emphasis on personal growth as it relates to leadership concepts. Aspects of developmental, cognitive, humanistic, and personality psychological theories are included. The course also builds on concepts and issues from Industrial/Organizational psychology. Prerequisites: G/PSYC 101 or G/PSYC 180 and permission of the instructor.

PSYC 328. The Psychology of Leadership. 3 credits.
This course focuses on psychological components of leadership behavior and its importance to various situations in culture and society. Students will explore the potential impact of leaders and their influence on individuals and society. Various existential, behavioral and motivational topics related to leadership studies will be explored. Service learning will also be a core component of the course. Prerequisites: G/PSYC 101 and junior standing.

PSYC 330. Psychology of Personality. 3 credits.
Essential elements of leading theories of personality with an emphasis on implications of these theories for human behavior. Prerequisite: PSYC 211 or PSYC 213.

PSYC 335. Abnormal Psychology. 3 credits.
This course for the psychology major critically examines psychological normality and abnormality and the classification, causes and treatment of abnormal behavior. Students learn classification and diagnosis, explore social and multicultural issues relating to diagnosis and discuss research in the field. Students may not earn credit for both PSYC 250 and PSYC 335. Prerequisite: PSYC 211 or PSYC 213.

PSYC 345. Social Psychology. 3 credits.
The study of how an individual's behavior, feelings and thoughts are influenced by other people. Topics include attitude formation and change, social perception, attraction, altruistic and antisocial behavior, conformity, leadership and group dynamics, and applications of social psychology to other fields. Prerequisite: PSYC 211 or PSYC 213.

PSYC 355. Developmental Psychology. 3 credits.
Psychological aspects of growth, development and behavior from birth through adolescence. Prerequisite: PSYC 211 or PSYC 213.

PSYC 375. Sensation and Perception. 3 credits.
Explores the nature and development of human sensory capabilities and processing, and how these affect perception of the environment. A potential list of the variety of systems reviewed includes hearing, vision, smell, taste, and touch/pain, as well as phenomena such as the perception of balance. Prerequisite: PSYC 211 or PSYC 213.

PSYC 380. Cognitive Psychology. 3 credits.
This course explores the nature and development of human attention, memory, language and thinking processes. An information processing approach to the study of human cognition is emphasized. Prerequisite: PSYC 211 or PSYC 213.

PSYC 385. Biopsychology. 3 credits.
A survey of the neurological and chemical mechanisms which control behavior. This course examines the brain and how it processes sensation, perception, cognition, movement, motivation, learning, memory and other behavioral processes of interest to psychologists. Prerequisite: PSYC 211 or PSYC 213.

PSYC 390. Psychology of Learning. 3 credits.
Basic principles of learning and conditioning with a consideration of extinction, reinforcement, generalization, discrimination, transfer, concept formation, and verbal learning. Prerequisite: PSYC 211 or PSYC 213.

PSYC/BIO 395. Comparative Animal Behavior. 3 credits.
This course covers aspects of the development, function and evolution of the behavior of nonhuman animals. Topics include intraspecies communication, feeding, aggression, territoriality, reproductive behavior and social behavior. Prerequisite: PSYC 211 or PSYC 213.

PSYC 400. Advanced Topics in Psychology. 1-3 credits.
Exploration of a significant psychological topic in depth. The topics for each semester will be announced on MyMadison and on the departmental website. Prerequisites: At least one SS content course and one NS content course.

PSYC 401. Peer Advising. 2 credits.
Supervised practicum in academic and career development and peer advising. May be taken twice for up to four credit hours toward the psychology major (400-level elective). Prerequisites: PSYC 302, at least one SS content course and one NS content course, and permission of the instructor.

PSYC 402. Independent Study in Psychology. 1-4 credits.
An opportunity to apply classroom learning to practical problems and to expand the scope of knowledge in psychology to areas not emphasized in the coursework we offer. May include service learning, internship, directed readings, serving as a teaching assistant, or a combination of these activities. Prerequisites: PSYC 211 or PSYC 213, a written plan approved by the project supervisor and Department Head must be submitted prior to registration.

PSYC 403. Independent Research in Psychology. 1-4 credits.
An advanced opportunity to conduct research with a faculty member where students apply their knowledge of Psychology to a specific research project or area. Students may work individually with the instructor or as part of a team that includes several students. Student projects include the development of an evaluated product (e.g., poster presentation, presentation). Specific requirements of project are determined by the instructor. Prerequisites: PSYC 211 or PSYC 213, a written plan approved by the project supervisor and Department Head must be submitted prior to registration.

PSYC 410. Psychology of the Workplace. 3 credits.
This course is a survey of the applications of psychological principles in the workplace. Emphasis is on topics such as research and methods, personnel decisions, training, attitudes, motivation, leadership, teams, and sociocultural issues in the workplace. Other topics of current interest will also be covered. Course will fulfill sociocultural awareness requirement. Prerequisites: At least one SS content course and one NS content course.

PSYC 415. Forensic Psychology. 3 credits.
The application of psychological principles and techniques to the law, the criminal justice system, law enforcement and criminal behavior. Students may not earn credit in both PSYC 415 and PSYC 312. Prerequisite: PSYC 335.
PSYC 420. Advanced Psychological Statistics. 3 credits.
This course presents advanced univariate and multivariate statistical techniques that psychology students need for reading research articles and conducting psychological research. Prerequisites: At least one SS content course and one NS content course.

PSYC 425. School Psychology. 3 credits.
Applications of psychological principles in school settings, including roles and activities of school psychologists, standards, trends and issues of treatment and evaluation. Prerequisites: At least one SS content course and one NS content course.

PSYC 427. Tests and Measurements. 3 credits.
Standardized psychological tests of mental ability, achievement, aptitude and personality with a review of statistical procedures necessary for interpretation of test results. Prerequisites: At least one SS content course and one NS content course.

PSYC 428. Educational Psychology. 3 credits.
The application of the basic psychological principles of development, learning, cognition, measurement and social interactions to education settings. This course examines how psychological theory and research impacts the teaching of reading, writing, science and mathematics. Students may not count both PSYC 270 and PSYC 428 for psychology major credit.
Prerequisites: At least one SS content course and one NS content course.

PSYC 430. Clinical Psychology. 3 credits.
An introduction to the field of clinical psychology including a review of the major theoretical models, psychometrics, psychiatric diagnosis and treatment strategies. Prerequisites: PSYC 335 and one NS content course.

PSYC 435. Community Psychology. 3 credits.
Focus on emerging trends and models in the application of psychology to community, stress prevention programs, human resources and change. Prerequisites: At least one SS content course and one NS content course.

PSYC 450. Psychology of Child Abuse and Neglect. 3 credits.
Review of current psychological literature on child abuse and neglect including identification, etiology, treatment, prevention and legal aspects. Family violence issues are also discussed. Prerequisites: At least one SS content course and one NS content course.

PSYC 452. Child Psychopathology. 3 credits.
The causes, symptoms and classification of childhood psychological disorders. Prerequisite: PSYC 335 or PSYC 365 (both recommended).

PSYC 460. Community Psychology within Developing Societies. 3 credits.
This course will apply psychology to a critical examination of developing societies around the world. Topics include sociocultural and international contexts, privilege, power, oppression, terrorism, population growth, and diversity. Consideration is given to developmental and societal determinants of prejudice, discrimination, and inequality. Course meets sociocultural requirement for the psychology major. Prerequisites: At least one SS content course and one NS content course.

PSYC 470. Psychology of the Young Adult. 3 credits.
Applications of psychological principles to classroom settings. Not open to students who have taken PSYC 270. Prerequisite: PSYC 380 and at least one course from developmental core (Area III).

PSYC 475. Psychology of Adulthood. 3 credits.
The physical, social and psychological factors faced by adults and their progression through the life span. Prerequisites: At least one SS content course and one NS content course.

PSYC 480. Applied Behavior Analysis. 3 credits.
This course focuses on how environmental events influence behavior, and behavior analytic strategies by which behavior may be changed. The emphasis of the course is on the knowledge and skills necessary to plan, develop and implement interventions for behavior problems in a variety of settings including, but not limited to, business and industry, education, and health and human services. Prerequisite: PSYC 180 and PSYC 380.

PSYC 492. History of Psychology. 3 credits.
The history of psychology as reflected through the individuals, theories and experimental investigation of the discipline. Special emphasis is placed upon relating the current state of psychology to its historical development. Prerequisites: At least two SS content courses and two NS content courses. May be taken as a capstone course or psychology elective.

PSYC 493. Laboratory in Psychology. 3 credits.
A research course designed by a faculty member that studies a particular topic. Topics will change from semester to semester. Students will be guided in a group through a research experience that would include library research of the topic, design of an experiment, gathering and analyzing the data, and writing the results. Only three credit hours of the course can be used for the psychology major. Prerequisites: At least two SS content courses and two NS content courses. The course meets the requirement as a capstone course or as a psychology elective.

PSYC 495. Field Placement in Psychology. 4 credits.
Supervised practicum in a counseling, industrial or human service agency. Orientation to agency’s service, policies, personnel and professional ethics is provided. Prerequisites: At least two SS content courses and two NS content courses. Guidelines available in the department office. The course meets the requirement as a capstone course or as a psychology elective.

PSYC 497. Senior Seminar in Psychology. 3 credits.
A seminar course that will require students to integrate theories, research and/or methods from several areas of psychology and/or related disciplines. Topics will vary from semester to semester. Up to six credit hours can be used in the psychology major. Topics for each semester are announced on MyMadison and on the departmental website. Prerequisites: At least two SS content courses and two NS content courses. May be taken as a capstone course or as a psychology elective.

PSYC 499. Honors. 6 credits.
See catalog section “Graduation with Honors.” Prerequisites: At least two SS content courses and two NS content courses.

Public Policy and Administration
Department of Political Science
PPA 200. Introduction to Public Policy. 3 credits.
This course introduces students to the nature, dynamics and substance of public policy. Selected policy issues in the United States will be examined through the use of case studies. Foreign and global influences on U.S. policy-making will also be analyzed. Issues will vary across course sections and over time.
Prerequisite: GPOSC 225.

PPA 265. Public Administration. 3 credits.
An introductory survey of the principles, functions and processes of public administration with specific emphasis on the political aspects and environment of bureaucracies and the how and why of policy-making within an administrative system. Organizational structure, personnel, budgeting, public relations and government values, traditions and objectives are analyzed. Prerequisite: GPOSC 225.

PPA 325. Regional Planning and Organization. 3 credits.
Study of trends and issues in the public planning process with focus on regional planning and organization; the relationship of planners and the planning board to their committees. Prerequisite: PPA 200.

PPA 359. Policy Analysis. 3 credits.
Study of public policy analysis. Delivers to students rational and alternative techniques for analyzing public policy while providing them opportunities to develop analytical skills. Prerequisite: PPA 200.

PPA 381. Budgetary Process. 3 credits.
An examination of the political planning and strategies of Congress and federal agencies in the budgetary process; politics of budgetary reform; state and local budgetary politics; and intergovernmental impacts on budgeting. Prerequisites: Junior standing, PPA 265.

PPA 412. Seminar in Intergovernmental Relations. 3 credits.
Study of the relations between the several levels of government in the United States. Political, fiscal, legal, regulatory and administrative relations as they have evolved within federal and state constitutional frameworks will be examined. Prerequisites: Junior standing, PPA 265.

PPA 415. Legal Environment of Public Administration. 3 credits.
Examination of the basic constitutional framework of American public administration. Examines legal constraints imposed on public administrators by law and judicial oversight. Emphasis placed on legal issues affecting public employees. Also examines the basics of public procurement law. Prerequisite: PPA 265.

PPA 420. Public Management. 3 credits.
Study of the management of public agencies from the executive viewpoint. Management control of public agencies will be explored including establishment of goals, policies, organizational structure and output of services. Case studies illustrate administrative behavior and managerial operations in local, regional, state and federal agencies. Does not count as part of the political science major or minor. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisites: Junior standing, PPA 265.
PAA 460. Regionalism and Urban Policy. 3 credits.
A study of the problems and management of urbanization and inter-
jurisdictional externalities from a regional perspective. Regionalism will be
examined as an approach to solve these problems. Prerequisite: PAA 200.

PAA 461. Education and Social Policy. 3 credits.
A study of the development and implementation of education policy in the
United States at the national, state, and local level. Students will be
introduced to major issues in contemporary education policy and the
valuation of alternative policies advanced by subgroups of the population.
Examination of equity and its links to social and economic goals will be
examined. Prerequisite: PAA 200.

PAA 462. Social Welfare and Local Government Policy. 3 credits.
A study of the interaction of social welfare policy and local governance
in theory and in practice. Students examine state and local government and
community-based responses to urban problems from a policy and
management perspective. Particular attention is paid to interagency and
community collaboration as a way to enhance social service delivery.
Prerequisite: PAA 200.

PAA 470. Governance and Accountability in the Nonprofit Sector. 3 credits.
This course is designed to introduce students to the fundamentals of
governance, accountability, trusteeship, and executive leadership in
nonprofit sector organizations. The course will examine critically the
principal models, processes, and practices used in governing nonprofit
organizations and the relationships between the governing boards and
executive leaders of such organizations. Prerequisite: PAA 285.

PAA 472. Contract Management. 3 credits.
The purpose of this course is to provide a broad overview of the theory
behind and practical application of contract management. As agencies
across government (federal, state, and local) expand the use of contracting
billions of taxpayer dollars are transferred into the private sector to conduct
public business. This trend is not going away; therefore it is essential that
public administrators be effective at managing and overseeing contracts.
Prerequisite: PAA 285.

PAA 483. Emerging Issues in Public Policy and Administration. 3 credits.
The course will examine an area of new or emerging interest in the
profession of public administration. The course may be repeated for credit
with a change in the subject matter. Prerequisites: PAA 200.

PAA 484. Environmental Regulatory Policy and Politics. 3 credits.
A study of environmental politics and the policies that environmental
advocacy has produced. Topics include the dynamics of policy construction,
various substantive policy issues and the prospects for environmental justice
and sustainability. Prerequisite: PAA 200.

PAA 490. Special Studies in Public Policy and Administration. 3 credits.
Designed to give capable students in public administration an opportunity
to complete independent study under faculty supervision. Prerequisites:
Permission of the instructor and department head.

PAA 492. Senior Seminar in Public Policy. 4 credits.
This research-oriented seminar provides an overview of public policy
studies and the different approaches to research in the field. A major
research project will strengthen the research, information access and
lifelong learning capacities of the students. Fulfills the College of Arts and
Letters writing-intensive requirement for the major. Prerequisites: Senior
standing, PSCS 285 and PAA 368.

PAA 496. Internship in Public Management. 4 credits.
Provides students with opportunities for experiential learning in a
governmental or nonprofit organization. A research paper and a presentation
based on the experience are required. Prerequisites: Junior or senior standing,
15 hours of public policy and administration and permission of the instructor.

* No more than four semester hours (in any combination of internships) can be counted toward the major.

Reading Education

College of Education

READ 240. Children's Literature. 3 credits.
The study of a variety of children's literature and the practices, principles
and procedures for selecting and evaluating works for children, giving
consideration to their motivational and developmental effects. Prerequisite:
Completion of Cluster One.

READ 254. Literature for Adolescents. 3 credits.
A study of literature which has been written for or appeals to young
adults and adolescents, including practices, principles and procedures
for evaluating and making literary materials appealing to adolescents.
Prerequisite: Completion of Cluster One.

READ 312. Reading and Writing Across the Curriculum in the Middle
Grades. 3 credits.
An introduction for preservice teachers to the foundations of reading and
writing development and the elements of balanced literacy instruction in
the middle grades. Through reading, writing and field applications across
content areas, preservice teachers explore literacy engagement, diversity
and special needs. Corequisites: EDUC 310, EDUC 311 and practicum.

READ 368. Early Literacy Development and Acquisition. 3 credits.
This course provides preservice teachers an understanding of the
foundations of early literacy development and instructional strategies and
assessment techniques that support the acquisition of literacy.

READ 414. Reading and Writing in the Content Areas. 1 credit.
Study of how to use print and media resources to support the acquisition
of knowledge and the development of reading and writing skills in all content
areas. This course may not be used for credit in minor programs in early
and middle education.

READ 420. Content Area Literacy, K-12. 2 credits.
This course is designed for preservice teachers and will provide an
introduction to the foundations of reading and balanced literacy instruction
for students in kindergarten through grade 12. Through reading and writing
across content areas, preservice teachers will explore literacy engagement,
diversity and special needs.

READ 430. Development, Assessment and Instruction of Literacy, K-12. 3 credits.
This course is designed to provide preservice teachers with a foundation of
literacy development. Instructional strategies and assessment techniques,
which support the acquisition and development of literacy in diverse
classrooms across the curriculum in grades K-12. Prerequisite: CSD 300.
Corequisite: EXED 410.

READ 435. Literacy Development and Instruction for English
Language. 3 credits.
Prepares for literacy instruction of English Language Learners beyond the
emergent stage. Content includes assessment and instruction, particularly
comprehension instruction for individuals, small groups, and whole class
instruction. Students examine heterogeneous classroom structure and plan
instruction for the diversity of abilities, personalities, cultures, languages,
and all individual learners in every educational setting. A practicum
accompanies this course.

READ 436. Literacy Learning in the Elementary Grades. 3 credits.
This course will provide preservice teachers with an understanding
developmentally appropriate instructional strategies and assessment
techniques to help all students in elementary grades become literate using
reading, writing, listening and speaking in strategic and authentic ways.
Prerequisite: Grade of "C" or better in READ 396.

READ 440. Literacy-Based Learning in Secondary Education. 3 credits.
This course will provide preservice teachers in secondary education with an
understanding of how to create productive contexts for literacy-based learning.
Particular areas of emphasis include selecting reading materials, understanding
literacy development, and facilitating individual student engagement.

READ 472. Literacy Assessment and Instruction in the Content Areas
for the Middle Grades. 3 credits.
The course will introduce preservice teachers to the relationship between
literacy assessment practices and instructional design for teaching reading
and writing in content area classrooms. Using case study methodology,
preservice teachers will explore individual students' literacy strengths,
areas that need development and specific instructional strategies.
Prerequisite: READ 312. Corequisites: MSSE 370, MSSE 371 and practicum.

READ 490. Special Studies in Reading Education. 1-3 credits.
Designed to give capable students, under faculty guidance, an opportunity
to engage in the independent study of educational problems. Prerequisite:
Plan for the study must be approved by the faculty adviser and the coordinator
of the program in which the student is enrolled.

http://www.jmu.edu/catalog/14
Religion

Department of Philosophy and Religion

REL 101. Religions of the World. 3 credits.
An investigation of the world’s major religions which will give attention to their origin, history, mythology and doctrines.

REL/HEBR 131-132. Elementary Biblical Hebrew. 4 credits each semester.
An introductory course for students who intend to acquire the ability to read the Massoretic text of the Bible. Systematic study of the fundamentals of grammar with emphasis on reading, pronunciation and translation.

REL 200. Exploring Religion. 3 credits.
An examination of the various components in the study of religion including myths, rituals, mystical experiences, theologies, ethics and current issues. Examples will be taken from the sacred texts, rituals and the lives of religious personalities in traditions around the world.

REL 201. Introduction to Hebrew Bible/Old Testament. 3 credits.
A study of selected texts from the books of Genesis-Malachi that will examine their literary, historical and theological dimensions from the perspective of their ancient Israelite and Judahite contexts.

REL 202. Jesus and the Beginnings of Christianity. 3 credits.
This course discusses the literature of the New Testament in light of the historical, social and religious conditions from which it emerged. Particular attention is given to historical issues related to Jesus and the origins of Christianity.

REL 210. Religion in America. 3 credits.
The purpose of this course is to offer students the opportunity to explore the broad contours of the intersection of religion with other important facets of American society, such as politics and law, civic space and social activism, social identities, intellectual life, and the arts and media. It will consider the relationship of religion to the constructing of an American identity rooted in ideas of pluralism, tolerance, equality, freedom of conscience, democracy, and secularism.

REL/PHIL 218. Philosophy of Religion. 3 credits.
An intensive examination of religion from the standpoint of philosophical thinking with particular emphasis on the way philosophers view such problems as the existence of God, evil, immortality, religious language, etc.

REL/HEBR 231-232. Intermediate Biblical Hebrew. 3 credits each semester.
An intensive reading course. Selections from the Massoretic text of the Bible. An introduction to the critical apparatus used within the Massoretic text, as well as the variant reading apparatus printed in the Biblia Hebraica Stuttgartensia. Prerequisite: One year of college biblical Hebrew or equivalent.

REL 240. Jesus and the Moral Life. 3 credits.
An introductory course that focuses on the ways in which the moral teachings of Jesus of Nazareth, explored from both historical and multi-cultural perspectives, informed and continues to inform personal ideals and moral visions of society.

REL 270. Religious Ethics. 3 credits.
An investigation of the historical development of religious values and moral concepts in the Western religious traditions of Judaism, Roman Catholicism and Protestantism.

REL 280. Religion and Science. 3 credits.
This course will provide a historical survey of the relationship between religion and the sciences; offer overviews of scientific and theological theory; examine the development of theory formation; focus on issues in astronomy, physics and biology; explore the ethical implications of scientific and religious theories; and trace developments.

REL 300. Selected Topics in Religion. 3 credits.
Selected topics in religion are studied in depth. See MyMadison for current topic. Course may be repeated for credit when content changes.

REL 303. Hindu Traditions. Ritual Practice/Ethnographic Methods. 3 credits.
Ethnography constitutes one of the most formative methods in the study of religion. This course gives students a foundation in understanding how ethnographic studies of religion augment text-based religious studies with a focus on lived religion. Students explore the cultural dimension of religious practice and develop practical skills through both reading and field work in local religious communities.

REL 305. Islamic Religious Traditions. 3 credits.
This course introduces the Islamic religious tradition from its inception to the present. Topics covered include the message and style of the Qur’an, the life and experience of Muhammad, the major beliefs and practices of Islam, and the theological, philosophical and mystical movements in the Islamic empire. Attention is also given to modern Islamic movements and their relation to the modern world inside and outside the Middle East.

REL 306. Women and Gender in Islam. 3 credits.
This course investigates how particular gender roles, identities, and relationships become signified as Islamic, and the ways in which Muslim women continually re-negotiate the boundaries of gender in living an authentic religious life. Topics will include Qur’anic revelations, the formation of Islamic jurisprudence, sexual ethics, representations of Muslim women in colonial discourse, as well as the role of women in ritual practice and feminist movements.

REL 308. Islam in South Asia. 3 credits.
This course examines the history and practice of Islam in South Asia. We will look at the historical origins, textual sources, ritual practices and cultural diversity of Islam in light of this distinct regional context. Topics will include Sufism, literary expression, popular women, movements, sectarian and cross-communal relations, and religious violence.

REL 310. Hindu Traditions. 3 credits.
This course examines the history of Hindu modes of moral reasoning. It gives special attention to the concept of moral order and its relationship to the pursuit of pleasure and of wealth, on the one hand, and the quest for liberation, on the other. Attention is paid to common moral obligations as well as to specified, and sometimes gendered, vocational duties incumbent upon Hindus.

REL 314. Gandhi. 3 credits.
Gandhi is unique as a social theorist, a philosopher and an activist. He challenged the dominant world structure of his time and struggled with some of the most significant issues of our time: violence, racism, oppression of women, role of religion, nature of capitalism and conflict between ethnic and religious communities. This course examines his theory and praxis on these and other issues.

REL 315. Women and Religion. 3 credits.
Study of women and world religions, historically and today, emphasizing Buddhism, religions of China and Japan, Judaism and Christianity. The variety of women’s religious roles and practices are studied in a comparative context. Feminist scholarship’s proposals for revising our understanding of religious history and reforming religious traditions.

REL 316. Topics in Hinduism. 3 credits.
Study of selected topics in Hinduism. May be repeated for credit when course content changes.

REL 320. Judaism. 3 credits.
An examination of the beliefs, practices and historical development of the various forms of Judaism represented in America today: Orthodox, Reform, Conservative and Reconstructionist.

REL/SOCI 322. Sociology of Religion. 3 credits.
A sociological analysis of religion; how it influences and is influenced by social existence. See cross listing in Department of Sociology and Anthropology.

REL 325. Catholicism in the Modern World. 3 credits.
Study of the variety of responses by contemporary Catholic theologians and philosophers to key elements in Christian doctrine and practice. Topics include Vatican II; scripture, tradition and modern scholarship, Jesus and Christology; contemporary Catholic spirituality; moral issues in the church; and ecumenism.

http://www.jmu.edu/catalog/14
REL 330. Religions of Africa and the African Diaspora. 3 credits.
An examination of the character of religious traditions, beliefs and liturgical practices of African and African-Diaspora communities. Both primary (historical and anthropological) and secondary sources are examined.

REL 332. Born Again Religion. 3 credits.
Evangelical Protestantism has played a vital role in shaping American religious history. The religious and social allegiances of evangelicalism are quite diverse, however. Evangelicals also maintain a paradoxical relationship with American society, functioning both as powerful insiders and vocal outsiders. This course is designed to introduce students to the history of evangelicalism, its religious patterns and its negotiations with contemporary American culture.

REL 334. New Religious Movements. 3 credits.
America has proven to be fertile soil for the development of new religious traditions. It has encouraged religious pluralism, and has allowed hundreds of new communities to establish themselves as important elements of society. This course will consider some of the representative new religions in America by examining their histories, beliefs and practices.

REL 336. African-American Religion. 3 credits.
The purpose of this course is to familiarize the student with the broad contours of the African-American religious experience, and its history, practices, and communities by examining the intersection of race and religion in America. Through the close reading of primary texts and increased familiarity with significant scholarly literature, students will gain a basic understanding of the fundamental categories in African-American religion.

REL 340. Introduction to Christianity. 3 credits.
This course is designed to provide a broad survey of the Christian tradition, from its origins to its contemporary expressions. In addition to its historical development, the course will consider Christian belief, ritual, moral practice, and societal engagement. Major intellectual and theological traditions will be addressed through the study of foundational texts. Students will gain a working knowledge of major church communions as well as minor and marginalized movements.

Matthew, Mark, Luke, and John are the familiar “canonical” gospels. In the early centuries of Christianity other gospels circulated: the Gospel of Peter, “Q”, Infancy Gospels and the so-called Gnostic gospels. This course examines the origins of the canonical and non-canonical gospels, the historical and theological factors at work in the emergence of the canonical gospels to a position of primacy, and the struggles within early Christianity to define its authoritative tradition.

REL 342. The Historical Jesus and the Roman Imperial World. 3 credits.
A study of the Jesus Movement and the Jesus-movement as a response to Roman power, domination and violence. Includes discussion of historiographical problems raised in past and present scholarly “quests” for the historical Jesus.

REL 343. Paul and the Origins of Christianity. 3 credits.
Some scholars argue that the Apostle Paul was the “real” founder of Christianity; others that he was the faithful interpreter of the Jesus traditions to the Greco-Roman world. After reconstructing the historical course of Paul’s life and journeys from the available sources, the course will analyze selected Pauline epistles, sent to early Christian communities, in order to reconstruct his teaching and ethics and to assess his significance for the origins of Christianity.

REL 348. Christianity in Global Context. 3 credits.
Christianity is a vital role in many societies around the world. Though often treated as a mostly western or European religion, it was in fact a global religion first and foremost. This course examines Christianity from that global perspective. What does Christianity look like around the world? How have indigenous cultures fashioned their own versions of Christianity in the modern world? Is there unity in the diversity of these global Christianities?

REL 350. Islamic Law and Society. 3 credits.
This course aims to introduce students to the study of Islamic law, the embracing sacred law of Islam. In this course we will consider various facets of the historical, doctrinal, institutional and social complexity of Islamic law in the classical and modern periods. Topics to be discussed include medieval Islamic legal theory, gender and sexuality, the just war, and the issue of Islamic law and universal human rights, particularly as they pertain to women.

REL 360. History of Christian Thought. 3 credits.
A survey of the development of Christian thought with primary emphasis on the peoples, ideas and historical events around which the developments took place. Thus, material from Christian origins through to the present will be examined in their historical contexts.

REL/HIST 362. Introduction to U.S. Religious History. 3 credits.
The course introduces the religious history of the colonies and the United States, from native traditions through the 20th century. We examine the historical/social impact of groups ranging from Roman Catholic migrants to evangelical Protestants and Scientologists. Special attention is paid to the extraordinary and persistent levels of religious diversity and adherence throughout U.S. history.

REL/IA 363. Apocalypticism, Religious Terrorism and Peace. 3 credits.
This course traces apocalypticism from its ancient Jewish and Christian roots to its contemporary manifestations in religious groups around the world. Since apocalypticism is a worldview that cuts across religious traditions, the course covers a variety of religious groups. The last half of the course focuses on the complex relationships between apocalyptic thinking and religious terrorism, and entails an independent research project.

REL 370. Mysticism. 3 credits.
An examination of the nature of mysticism and its forms of practice in selected religious communities through the world.

REL/PHIL 375. The 18th Century: Age of Ideology. 3 credits.
A study of selected 19th century philosophers and theologians with special attention to rationalism, romanticism and idealism. Views of Hegel, Schleiermacher, Ritschl, Marx and others are considered.

REL/PHIL 377. Hermeneutics. 3 credits.
This course will examine the main features of hermeneutics with particular emphasis on its contemporary perspectives. Discussion will focus on such themes as human understanding and human finitude, the nature of history and tradition, linguisticity and textuality of experience. Readings may address Gadamer, Ricoeur, Schleiermacher and Dilthey. Prerequisite: PHIL 101 or permission of the instructor.

REL 380. Contemporary Theologies. 3 credits.
A survey of one or more of the following contemporary theological movements: continental, North American, African and South American, including Roman Catholic, Orthodox and Protestant approaches, and covering themes such as the conflict between history and faith, Christology, fundamentalism and liberalism, and the emergence of liberation, feminist, black, neo-conservative, secular, pluralist and ecological theologies.

REL/PHIL 385. Buddhist Thought. 3 credits.
Study of major issues and thinkers in the Buddhist tradition from ancient times to the present. May be repeated for credit when course content changes.

REL 386. Topics in Buddhist Studies. 3 credits.
Study of major issues and thinkers in the Buddhist tradition from ancient times to the present. May be repeated for credit when course content changes. Prerequisite: PHIL 385 or REL 385.

REL 410. Dharma/Adharma: Morality and Ethics in Hindu Society. 3 credits.
What values are advanced in Hindu religious and ethical teachings? How do Hindu texts and traditions define and teach the good life and moral responsibility considered by caste, class, gender or other socioeconomic factors? These are some of the questions that will be considered in this study on Hindu modes of moral reasoning. It will give special attention to the concept of moral order (dharma) and try to make sense of chaos (adharma).

REL 440. Topics in Religion in America. 3 credits.
This course serves as a senior seminar (capstone) for majors in Religion, centered around the subject of Religion in America. As a capstone course, students will pursue their own advanced research projects after an initial, intensive introduction to the subject. Rotating topics include “Mormonism and American Culture” and “American Evangelicalism,” as well as others.

REL 450. Religion and Society. 3 credits.
A survey and/or selection of major Western approaches to issues of religion and society, including but not limited to, traditional understanding of church and state issues. Significant figures, texts and methodologies will be critically examined. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisite: One of the following: REL 240, REL 270, REL 360, REL 380 or permission of the instructor.

REL 460. Topics in Ancient Jewish and Early Christian Literature. 3 credits.
An in-depth examination, using critical academic methods, of the historical, literary and cultural dimensions of selected texts from the literatures of Ancient Judaism and Early Christianity. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisite: REL 201, REL 202 or permission of the instructor.
Russian

Department of Foreign Languages, Literatures and Cultures

RUS 101. Elementary Russian I (4, 1), 3-4 credits.
The fundamentals of Russian through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. If student has had two or more years of the language in high school he/she will not receive credit for the course.

RUS 102. Elementary Russian II (4, 1), 3-4 credits.
The fundamentals of Russian through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. If student has had two or more years of the language in high school he/she will not receive credit for the course. Prerequisite: RUS 101.

RUS 111. Intensive Russian I (6, 1), 6 credits.
The fundamentals of Russian through listening, speaking, reading and writing. The four-week course is the equivalent of RUS 101-102.

RUS 212. Intensive Russian II (6, 1), 6 credits.
The fundamentals of Russian through listening, speaking, reading and writing. The four-week course is the equivalent of RUS 231-232. Prerequisite: RUS 102 or RUS 111 or sufficient score on the Foreign Language Placement Exam.

RUS 231. Intermediate Russian I, 3 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading. Prerequisite: RUS 102 or RUS 111 or sufficient score on the Foreign Language Placement Exam.

RUS 232. Intermediate Russian II, 3 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading. Prerequisite: RUS 231 or sufficient score on the Foreign Language Placement Exam.

RUS 255-266. Russian Literature in Translation, 3 credits each semester.
First semester: Russian literature to 1880; second semester: 1880 to the present. All lectures and readings are in English.

RUS 300. Grammar and Communication, 3 credits.
Intensive training in grammatical structures and their application to oral and written communication. Instruction is in Russian. Fulfills the College of Arts and Letters writing-intensive requirement for international affairs major. Prerequisite: RUS 212 or RUS 232 or sufficient score on the Foreign Language Placement Exam.

RUS 308. Introduction to Russian Civilization, 3 credits.
A study of Russian life and culture and the outstanding contributions of Russian-speaking peoples. Instruction is in English. Prerequisite: RUS 300.

RUS 315. Russian Phonetics, 3 credits.
Intensive drill in Russian sounds and intonation patterns. Continued emphasis on conversation. Instruction is in Russian. Prerequisite: RUS 232 or equivalent.

RUS 320. Russian Oral and Written Communication, 3 credits.
Intensive training in the use of modern, everyday Russian with emphasis on conversation and composition. Readings in Russian will provide a context for oral and written practice. Prerequisite: RUS 300.

RUS 400. Advanced Conversation, 3 credits.
Discussions deal with topics of current interest. Instruction is in Russian. Prerequisite: RUS 300 or equivalent.

RUS 405. Russian Literature of the 19th Century, 3 credits.
Readings and analyses of poetry, prose and drama by such writers as Pushkin, Lermontov, Gogol, Turgenev, Tolstoy, Dostoevsky and Chekhov. Instruction is in Russian. Prerequisite: RUS 300 or permission of the instructor.

RUS 406. Russian Literature of the 20th Century, 3 credits.
A study of the works of major Russian writers of the 20th century. Instruction is in Russian. Prerequisite: RUS 300 or permission of the instructor.

RUS/ENG 438. Studies in Russian Literature, 3 credits.
A study of selected works of Russian literature. Instruction is in English. May be repeated for credit when course content changes.

Social Work

Department of Social Work

SOWK 287. Introduction to Social Work, 3 credits.
Overview of social work as a profession with emphasis on various settings and diverse populations as distinguished by age, class, race, ethnicity, culture, spirituality, family structure, marital status, gender, gender identity, sex, sexual orientation, physical or mental ability, socio-economic status, and national origin and the implications to social work practice. Focuses on practical experiences designed to enable students to gain familiarity with the dynamics of the profession. Corequisites: 20 hours community service-learning.

Introduces societal responses through history to basic human needs with an emphasis on social welfare policies. Focuses on socio-economic realities across diverse segments of U.S. society within a global context. Explores professional, societal and personal values in the development of responses to human needs.

SOWK 301. Workshops in Social Work, 0-3 credits. Credit/no credit. Non-graded. Offered on a rotating basis.
Detailed study of a topic of interest in social work. May be repeated for credit.

SOWK 302. Workshops in Social Work, 1-3 credits. Offered on a rotating basis.
Detailed study of a topic of interest in social work. May be repeated for credit.

SOWK 305. Social Work Research Methods, 3 credits.
Study of qualitative and quantitative methods in social work research. Demonstrating scientific and ethical research processes including formulation of research questions, selecting a design, collecting data, analysis and interpretation of data, and exposure to evaluation of practice. Diversity and inclusion are highlighted in the research process. Prerequisites: MATH 220 or SOCI 231; SOWK 287; SOWK 288.

SOWK/HTH/HHS/NSG 314. Rural Health: An Interdisciplinary Approach, 3 credits.
Students study, observe and participate in interdisciplinary assessment, planning and delivery of community-based primary health care in partnership with residents and agencies of a host rural county. Learning activities will emphasize rural culture, rural health care and interdisciplinary practice.

SOWK 317. Skills for Generalist Social Work, 3 credits.
Developing self-awareness of students’ own value and culture systems, differentiating between their own systems and those of clients, and how these differences impact on communication. Understanding of empathy, engagement and other interpersonal skills. Developing skills in communication and interviewing within a strengths-based generalist framework with individuals, families, groups and communities. Prerequisites: SOWK 287, SOWK 288 or departmental permission.

SOWK 320. Human Behavior in the Social Environment, 3 credits.
Integrates and expands prerequisite knowledge in biological, psychological, and socio-cultural sciences to assessment of individuals, groups, families, organizations, and communities in a pluralistic society. Application and critique of theoretical frameworks related to impact of race, age, gender,
Sexual orientation, family form, and region. Prerequisites: SOCI 101 or GSOC 110, SOCI 214 or PSYC 250, GANTH 195, SOCI 338 or SOCI 354, GPSYC 101, GPSYC 160, SOWK 287; SOWK 288.

SOWK/JUST/SOCI 330. Corrections. 3 credits.

The history, philosophy, policies and problems of the treatment of violators by the police, courts and correctional institutions.

SOWK 332. Community Mental Health Practice. 3 credits.

Provides a basis for understanding mental health policy and services. Focus is on the needs of the deinstitutionalized mentally ill patient including psychosocial treatment and case management services. Outpatient services for the general public are also covered. Course contains a community service-learning component.

SOWK 335. Social Policy. 3 credits.

Study of the formulation and consequences of social policy in the context of contemporary social, cultural, ethnic, political and economic conditions. Skill development in creation of a proposal, policy evaluation and change advocacy in U.S. society with an emphasis on agency, local, state and national levels. Prerequisites: GPA/SOC 225 or PSOC 302; SOWK 287, SOWK 288.

SOWK 338. Issues and Policies in Family Services. 3 credits.

Examination of historical and philosophical approaches to family policy. Evolution of family-related social policies in the United States is contrasted with those of selected foreign countries with the view toward a national family policy.

SOWK 340. Violence in Families. 3 credits.

Examination of violence in the family, including spouse, sibling, elder and child abuse. Studies the social and cultural patterns and etiology of family violence. Examines programs and services for the abused and the abuser including shelters, support systems and counseling.

Study of the basic child welfare services – day care, homemakers, services to unwed parents, protective, foster care and adoption services – and the principle income maintenance programs as they affect children and their families. Analysis of legal framework and court services and such current issues as guardianship, educational and protective services.

SOWK/SOCI 348. Introduction to Developing Societies. 3 credits.

This course examines economic development and social and political changes in developing countries. The historical experiences of developing societies will be analyzed within the context of the global system and from the perspective of competing and complementary theoretical perspectives.

The study of the formulation and consequences of social policy and methods of social work practices in a selected European country within the context of contemporary social, political, cultural and economic conditions. Comparisons and linkages will be made with current U.S. social policies and social work practices. Students will work with both U.S. and European social work faculty. Prerequisite: SOWK 280 or permission of the instructor.

SOWK 352. Culture and Human Services in Dominica. 3 credits.

Study of the culture and formulation of social policy and methods of social work/human service practices in Dominica within the context of contemporary social, political, cultural and economic conditions. Comparisons and linkages will be made with current U.S. social policies and social work practices and theory. Students will work with both U.S. and Dominica professionals. Faculty approval required.

SOWK 372. Social Work Practice with the Aged. 3 credits.

An examination of America’s response to aged Americans from a historical and current perspective. Social problems and social work skills will be examined in light of individual, group and community needs and those affected by social policies.

SOWK/FAM/GERN/NPS 375. Grant Writing for Agencies. 3 credits.

Emphasizing active learning, this course teaches the basics of grant and proposal writing. Efficient research, persuasive prose and the importance of relationships are stressed. Private and corporate philanthropy and government grants are examined.

SOWK/FAM 386. Youth Empowerment Strategies (YES). 3 credits.

Students learn to use group activities that include the creative arts, low ropes and self-discovery in youth empowerment. The goal is to help youth build life skills and make informed decisions. Prior to beginning work with youth, students complete 25 hours of training.

SOWK 387. Working with Teenagers. 3 credits.

Survey of physical, psychological and social theories of adolescent development. Examination of service delivery issues in working with teenagers. Investigation of topical areas of particular relevance to work with adolescents including sexuality, abuse and neglect, runaways, depression and suicide, and substance abuse.

SOWK 442. Social Work in Health Care. 3 credits.

The impact of illness and disability on the person, family and community is studied. The social responses currently provided and those being developed are emphasized. Explores psychosocial assessment methods; prevention, crisis intervention and rehabilitation strategies; and interdisciplinary teamwork in health care.

SOWK 465. Social Work Practice in Meso Systems. 3 credits.

Application of social work values, knowledge and methods with small groups is emphasized. Assessment, planning intervention strategies, resource utilization and evaluation are examined. Role play and group processing are utilized. Prerequisites: SOWK 305, SOWK 317, SOWK 320, SOWK 335 and admission to the Social Work Program. Senior Standing. Corequisites: SOWK 466 and SOWK 467.

SOWK 466. Social Work Practice in Micro Systems. 3 credits.

Application of social work values, knowledge and methods with individuals and family systems is emphasized. Case assessment, planning intervention strategies, resource utilization and evaluation are examined. Role play and videotaping are utilized. Prerequisites: SOWK 305, SOWK 317, SOWK 320, SOWK 335 and admission to the Social Work Program. Senior Standing. Corequisites: SOWK 465 and SOWK 467.

SOWK 481. Social Work Field Practicum I (Block Plan). 6 credits.

Promotes professional competence and identification with the purposes, values and ethics of social work through agency-based work with diverse client systems at multiple levels of practice. The field experience is the application of knowledge and skill components drawn from previous courses. Prerequisites: Admission to the field practicum. Social Work majors only. Senior Standing.

SOWK 482. Social Work Field Practicum II (Block Plan). 6 credits.

Offers students an opportunity to build upon previous field experience by having more responsibility and tasks designed to expand their practice skills in social work. Prerequisites: SOWK 481. Social work majors only.

SOWK 487. Special Topics in Social Work. 3 credits.

Examination of selected topics of social work practice that are of current importance in the social work profession. Course may be repeated for credit.

SOWK 490. Special Studies in Social Work. 3 credits.

This course is restricted to majors in social work. The course provides capable students an opportunity to complete independent studies under faculty supervision. Course may be repeated for credit. Prerequisites: Recommendation of the instructor and permission of the department head.

SOWK 494. Social Work Professional Capstone. 3 credits.

Integration of the classroom and field practicum experience into a synthesis, which will provide a firm foundation upon which to begin professional social work practice. Senior outcome assessment is integral to this course. Prerequisite: Social Work majors only. Corequisites: Field practicum.

SOWK 499. Honors. 6 credits. Year course.

Independent research topic initiated and completed by qualified second semester junior social work majors.

Sociology

Department of Sociology and Anthropology

SOCI 101. Introductory Sociology. 3 credits.

Provides students with an understanding of the structure and processes of modern societies and their historical antecedents. Explores the universality of the social experience by addressing such topics as culture, socialization, social interaction, bureaucracy, norms and diversity, social inequality, social institutions, modernization, technology and social change, world views, values and behavior.

http://www.jmu.edu/catalog/14
SOC 110. Social Issues in a Global Context. 3 credits.
This course introduces the discipline of sociology from a macrosociological perspective, emphasizing large-scale changes in social organization and institutions. We examine the global forces that shape societies, and the historical, political, social, cultural and economic origins of contemporary social problems. We consider competing theoretical models used in the study of social change as well as the conceptual and methodological challenges in analyzing societies different from one’s own.

SOC 140. Microsociology: Individual in Society. 3 credits.
This course introduces the discipline of sociology and the subfield of microsociology. We examine the mutually constitutive relationship between the individual and society. Questions addressed include: How does society influence how we think, feel, believe, act and interact with others? What influences the self, social identity, shared social meanings, social roles and one’s position in society? How do we, as individuals and as members of social groups, recreate, contest and change society?

SOCI 200. Development of Sociological Thought and Methods. 3 credits.
This course is a foundation course for sociology majors. Topics will include the historical development of the discipline with an emphasis on the social and philosophical forces that influenced the development of sociology. Main sociological traditions will be introduced including the critical, naturalistic and interpretive paradigms, and sociological analysis from these perspectives. Prerequisites: SOCI 101, GSO 110, GSO 140 or other sociology elective, or permission of the instructor.

SOCI 214. Social Deviance. 3 credits.
Course offers students a wide range of explanations of deviance. Topics considered are the functions, social definitions, societal reactions and political aspects of deviance as characteristic of all societies. Deviant attributes as well as acts are considered.

SOCI 231. Social Statistics. 3 credits.
Introduction to the techniques for collecting, describing, analyzing and presenting sociological data.

SOCI 260. Sociology of Culture. 3 credits.
This course examines sociological perspectives about values, norms, symbols, rituals and expressions. Course content includes classic perspectives on the relation between culture and institutions as well as the work of contemporary analysts who have developed, revised and/or challenged these classic positions. Students will learn to apply these perspectives to their own analyses of culture.

SOCI 265. Sociology of the Community. 3 credits.
This course examines the community as a social form. Considered are its functions, social definitions, formative processes, development and system of change. This survey may include, but not be limited to, examination of community studies research and community advocacy for social justice.

SOCI 276. Sociology of Families. 3 credits.
Covers the basic concepts and theories in marriage and the family; looks at basic issues in modern family life; examines changes in family functions and in the various stages of the family life cycle; and discusses the future of the family in contemporary society.

SOCI/GERN 280. Social Gerontology. 3 credits.
An interdisciplinary introduction to the study of aging. The course provides an overview of issues surrounding aging in contemporary society: personal, familial, communal and societal. Corequisite: 20 hours of community service-learning.

SOCI 300. Sociological Inquiry. 3 credits.
A systematic introduction to various modes of sociological investigation, including positivism, interpretivism and critical analysis. Students learn to evaluate, critique and design original sociological inquiries with special attention to how sociological inquiry is guided by different philosophical and theoretical commitments. Prerequisites: Full admission to the major, SOCI 200 and SOCI 231 or equivalent.

SOCI 303. Sociology of Death and Dying. 3 credits.
Investigation of current American orientations toward death and dying with emphasis also given to the social organization of death and dying.

SOCI 311. Sociology of the Environment. 3 credits.
This course will introduce students to the central debates that currently preoccupy environmental sociology and political ecology. Emphasis is placed on the importance of sociological, historical and cultural modes of inquiry for understanding: socio-ecological change/crisis, environmental justice/injustice, eco-technological changes and politics of “nature.”

SOCI/ANTH 312. Processes of Social and Cultural Change. 3 credits.
Investigates the procedures through which a society operates and the manner in which it introduces and incorporates changes. Issues considered include belief, innovation, directed change, coercive change, revitalization and revolution.

SOCI 315. Science, Technology and Society. 3 credits.
Through an analysis of various issues, problems and case studies, this course will explore the interactions between science, technology and society. The course will examine connections of specific technologies to science, cultural values, social and economic interests and questions regarding progress.

SOCI 318. Sociology of Immigration. 3 credits.
This course explores the patterns and processes defining immigration around the world—the reasons for migration, the types of migration, and the way it affects the sending and receiving societies. The course investigates the social forces that affect immigrants and the traits that impact their relocation experience; and how immigration creates new identities for those successful in their quest, contributing to greater cultural diversity of receiving societies.

SOCI 321. Politics in Society. 3 credits.
The relationship between society and politics, the nature of distribution of social power, political participation, political thought, and politics as a vehicle for social change are explored.

SOCI/REL 322. Sociology of Religion. 3 credits.
This course is a sociological analysis of the nature, function and structure of religion. The course is a survey of the relationship between religion and society: the social nature of religious phenomena, the interaction between religious beliefs and practices and other arenas of secular societies, the social functions of religions, and the way religion changes and is changed by secular society.

SOCI/CRJU 325. Criminology. 3 credits.
Study of the extent, causes and possible deterrents to crime including murder, assault, white-collar offenses and organized crime with attention to the role of the victim and policy implications.

SOCI 327. Juvenile Delinquency. 3 credits.
Study of youth gangs, deviation and youth culture standards as well as the treatment used. Recent research reports will be emphasized.

SOCI/JUST/SOWK 330. Corrections. 3 credits.
The history, philosophy, policies and problems of the treatment of violators by the police, courts and correctional institutions.

SOCI 334. Socialization and Society. 3 credits.
This course examines socialization in society. Biography, narratives and socialization are examined in relation to issues of personal power, justice, culture, politics, social relations and other social formations.

SOCI 338. Race and Ethnicity. 3 credits.
This course examines the social construction of race and ethnicity around the world and how they influence social processes, institutions, change and ideology. The course will include discussions concerning the intersection of race and ethnicity with other aspects of social inequality such as class, gender, sexuality and nationality in contemporary society.

SOCI/WMST 337. Sociology of Gender. 3 credits.
Examination of theories of sex role development, the roles of men and women in society and gender as a social construction.

SOCI 341. Sociology of Education. 3 credits.
Examination of sociological theories and research on education, emphasizing stratification, socialization, organization and relationship between schooling, family, community and work. Focus on cross cultural approaches to education.

SOCI 342. Muslim Movements in the Middle East. 3 credits.
This course is designed to provide a basic knowledge of current Islamic movements in the Middle East. The primary emphasis is on social movements in Iran, Iraq, Egypt, Algeria, Lebanon, Palestine and Afghanistan.

SOCI 344. Work and Society. 3 credits.
This course examines the nature and meaning of work under various social and historical conditions. This includes such things as the relationship of work organization to life chances and personal experience, the place of work in social theory, the organization of occupations, occupational socialization and commitment, and how the nature of work changes in relation to local and global contexts.
SOCI 346. Leisure in Contemporary Society. 3 credits.
Sociological analysis of leisure or non-work in contemporary society with particular emphasis upon conceptual and human problems and the potentials of leisure in a context of social change.

SOCI/SDWK 348. Introduction to Developing Societies. 3 credits.
This course examines economic development and social and political changes in developing countries. The historical experiences of developing societies will be analyzed within the context of the global system and from the perspective of competing and complementary theoretical perspectives.

SOCI/ANTH 352. Birth, Death, Sex: Exploring Demography. 3 credits.
Fertility (birth) and mortality (death) and their biological and social determinants in cross-cultural and evolutionary/historical frameworks. Exploration of the dynamic between the material constraints on and symbolic significance of, reproduction, sexuality and death within a cultural context. Final examination of population growth as a global "problem." Basic demographic methods. Prerequisite: Any lower level course in anthropology or sociology or permission of the instructor.

SOCI 354. Social Inequality. 3 credits.
Course covers the systems of stratification and inequality in the United States including race, class, gender, religion, sexuality, ethnicity and nationality. Discussion will center on their role in providing rationales for oppression and discrimination in society and their relationship to the distribution of power and ideological control.

SOCI 357. Sociology of Disasters. 3 credits.
This course aims to familiarize students with the sociological study of the causes and consequences of disasters. The course takes a broad view of the social science literature on disasters, but largely employs a case study approach. In keeping with sociology's focus on the causes and consequences of social stratification, the relationship between disasters and patterns of inequality will be a central theme throughout the course.

SOCI 380. Critical Analysis. 3 credits.
This course encompasses themes that range from identity construction to the macro processes of cultural globalization. As consumption becomes more integral to society, it is becoming more central to various disciplines. This course situates scholarly work from this nascent interdisciplinary field of consumption studies within the context of contemporary social, cultural and economic issues.

SOCI 360. Social Movements. 3 credits.
Introduction to the study and analysis of social movements in the United States as agents of social and ideological change. Emphasis is given to movements which have goals of extending and/or protecting rights of individuals and groups in the face of increasing industrialization, urbanization and centralization of power.

SOCI 361. Sociology of Organizations. 3 credits.
Study of formal organizations primarily in contemporary society. Emphasis is given to the social-historical context that has given rise to and perpetuates the bureaucracy as a form of social organization, and to the study of the structure and dynamics of contemporary formal organizations such as business, universities, governments, etc.

SOCI 366. Sociology of Knowledge. 3 credits.
This course explores sociological understandings of the social sources, bases and effects of knowledge, including scientific knowledge. This includes explorations of various knowledge systems, knowledge generating institutions, concepts of knowledge claims, and the links between knowledge and social power. Prerequisite: SOCI 200 or instructor permission.

SOCI 367. Sociology of Sexuality. 3 credits.
This course examines sociological theory and research on sexual behaviors, identities, cultures and social movements, investigating how sexuality is shaped by society and its social institutions. In addition, the course examines how sociological research on sexuality is conducted, how society shapes the sociological study of sexuality, the unique ethical concerns and methodological challenges in researching sexuality, and the place of sociology in shaping public discourse and social policy on relevant social issues.

SOCI/ANTH 368. Contemporary American Culture. 3 credits.
This course analyzes contemporary American society in relation to popular cultural formations and representations. Cultural expressions found in music, literature, theatre, film, television, cyberspace and sports will be examined with respect to the values, sentiments, identity constructions and lived experiences of differentially situated social actors.

SOCI 369. Law and Society. 3 credits.
The history and functions of law as a form of social control; the social forces in the creation and practice of the law. The nature of law as a catalyst for and the product of social change.

SOCI 375. Medical Sociology. 3 credits.
An introduction to the field of medical sociology that examines the salient issues in the field and related theoretical perspectives. These two focuses are important in understanding the ability of humans to live to capacity. Attention is given to health care programs in developing countries as well as modern industrial societies.

SOCI 380. Critical Analysis. 3 credits.
An examination of the historical context and current status of the critical paradigm within sociology, including issues involved in critical understanding of and participation in modern society. Prerequisite: SOCI 200.

SOCI 382. Qualitative Sociology. 3 credits.
This course introduces students to qualitative research methods, including participant observation, interviewing, and content analysis. Students will read examples of qualitative sociology and learn how to design and conduct a qualitative research study. In addition to reviewing methodological, theoretical, and ethical issues, students will produce an independent qualitative research project. Prerequisite: SOCI 200.

SOCI 385. Madness and Society: The Sociology of Mental Health and Illness. 3 credits.
This course will explore the role that social and cultural factors play in the occurrence, diagnosis, experience and treatment of mental illness. It will compare sociological perspectives to those of biology and psychology.

SOCI 398. Sociology of Consumption. 3 credits.
The course introduces contemporary culture through a "cultural studies" lens, an interdisciplinary perspective interested in using empirical knowledge to encourage more just human relations. Specific topics of investigation will vary by semester, but each course will cover cultural studies' intellectual history and its application to cultural expressions found in everyday life, film, music and text.

SOCI 399. Special Topics in Sociology. 3 credits.
Examination of selected topics that are of current importance in sociology. May be repeated for credit when course content changes.

SOCI 400. Sociology Course Assistantship. 1-3 credits.
Assistantships provide students with a sense of what it is like to teach a sociology course by allowing them to work closely with faculty members through different phases of course preparation, presentation and evaluation. Assistantships also allow for a deeper understanding of course material by providing opportunities for student assistants to lead discussion and to help their peers review the material outside of the classroom. Prerequisites: Students must have at least 3.0 grade point average; must have earned a grade of "B" or better in the course for which he/she will serve as assistant; and may register by faculty invitation only. May be repeated to six credits; only three credits can count toward the major. A student may only serve as a course assistant to the same course twice.

SOCI 490. Independent Study in Sociology. 1-3 credits.
Designed to give capable students in sociology an opportunity to complete an independent study under supervision. Prerequisite: Recommendation of the instructor. More than one repeat requires department head approval.

SOCI 492. Internship in Sociology. 1-3 credits.
Provides the student with practical experience in employing and refining sociological skills in a public or private agency under faculty supervision. May be repeated up to six credits.
**Spanish**

**Department of Foreign Languages, Literatures and Cultures**

**SPAN 101.** Elementary Spanish I (4, 1), 3-4 credits.
The fundamentals of Spanish through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. If student has had two or more years of the language in high school he/she will not receive credit for the course. Prerequisite: SPAN 101.

**SPAN 102.** Elementary Spanish II (4, 1), 3-4 credits.
The fundamentals of Spanish through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in the language laboratory. If student has had two or more years of the language in high school he/she will not receive credit for the course. Prerequisite: SPAN 101.

**SPAN 109.** Accelerated Review of Elementary Spanish (3, 1), 3 credits.
Reviews elementary Spanish grammar, reading, writing, speaking and listening skills in Spanish. One hour of work a week in the language laboratory. For students who have had no more than two or three years of Spanish in high school and qualify through the placement exam. Prerequisite: Permission of the department head or sufficient score on the Foreign Language Placement Exam.

**SPAN 111.** Intensive Spanish I (6, 1), 6 credits each semester.
The fundamentals of Spanish through listening, speaking, reading and writing. The four-week course is the equivalent to SPAN 101-102.

**SPAN 212.** Intensive Spanish II (6, 1), 6 credits each semester.
The fundamentals of Spanish through listening, speaking, reading and writing. The four-week course is the equivalent to SPAN 231-232. Prerequisite: SPAN 102 or 111 or sufficient score on the Foreign Language Placement Exam.

**SPAN 231.** Intermediate Spanish I. 3 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading. Prerequisite: SPAN 102 or 111 or sufficient score on the Foreign Language Placement Exam.

**SPAN 232.** Intermediate Spanish II. 3 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading. Prerequisite: SPAN 231 or sufficient score on the Foreign Language Placement Exam.

**SPAN 300.** Grammar and Communication. 3 credits.
Intensive training in grammatical structures and their application to oral and written communication. Instruction is in Spanish. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisite: SPAN 212 or SPAN 232 or sufficient score on the Foreign Language Placement Exam.

**SPAN 307.** Spanish Civilization. 3 credits.
A study of Spanish life and culture from ancient times to the present. Instruction is in Spanish. Prerequisite: SPAN 300.

**SPAN 308.** Latin American Civilization. 3 credits.
A study of the geographical, historical and cultural development of Latin America from pre-Columbian times to the present. Instruction is in Spanish. Prerequisite: SPAN 300.

**SPAN 311.** Contrasting Linguistics. 3 credits.
This course analyzes the main grammatical differences between Spanish and English with the aim of producing accurate and idiomatic translations into both languages. Instruction is given in English and Spanish. Prerequisite: SPAN 300.

**SPAN 312.** Translation Competencies. 3 credits.
This course develops several linguistic competencies required in translation, including reading comprehension, summary writing, text analysis, and the use of thesauri and mono- and bilingual dictionaries. Students practice several types of translation, including direct translation, inverse translation and back translation. Instruction is given in English and Spanish. Prerequisite: SPAN 300.

**SPAN 315.** Spanish Phonetics. 3 credits.
Intensive drill in Spanish sounds and intonation patterns. Instruction is in Spanish. Prerequisite: SPAN 300 or equivalent.

**SPAN 319.** Practicum in Translation. 3 credits.
Practice in several types of translation, including direct translation, inverse translation and back translation. Instruction is given in English and Spanish. Prerequisite: SPAN 300.

**SPAN 320.** Oral and Written Communication. 3 credits.
Intensive training in the use of modern, everyday Spanish with emphasis on conversation and composition. Readings in Spanish will provide a context for discussion and writing. Prerequisite: SPAN 300.

**SPAN 330.** Business Spanish. 3 credits.
This course presents basic business and commercial Spanish vocabulary and terminology. It focuses on trade customs and commercial communication, including interviews, letter writing and simultaneous interpretation. Instruction in Spanish. Prerequisite: SPAN 300.

**SPAN 335.** Introduction to Spanish Literature. 3 credits.
This course is designed to prepare students in literary analysis of the novel as well as short stories, poetry and drama. All necessary terminology will be studied. Mandatory for all Spanish majors before taking any other literature class. Instruction in Spanish. Prerequisite: SPAN 300.

**SPAN 360.** Law Enforcement Spanish. 3 credits.
This course presents basic Spanish legal vocabulary and terminology. It emphasizes the practical application of the Spanish language in routine and high-risk law enforcement situations and explores cultural issues that are important for law enforcement personnel. Prerequisite: SPAN 300.

**SPAN 361.** Medical Spanish. 3 credits.
This course focuses on the basic Spanish language and vocabulary required in the field of Medicine and Health Sciences. Students practice their oral Spanish skills in various simulated medical situations in preparation for future professional application in the medical environment. Prerequisite: SPAN 300.

**SPAN 370.** Legal Spanish. 3 credits.
This course presents basic Spanish legal vocabulary and terminology in various contexts and develops basic skills in reading and writing legal documents in Spanish. It focuses on Latin American and Spanish legal systems and discusses related cultural contexts. Prerequisite: SPAN 300.

**SPAN 385.** Latin American Drama and Short Stories. 3 credits.
Reading and analysis of representative plays and short stories from Latin America. Student reports on selected authors. Instruction is in Spanish. Prerequisite: SPAN 335.

**SPAN 390.** Spanish Poetry of the 20th Century. 3 credits.
The course will cover poets such as Antonio Machado, Luis Cernuda, Pedro Salinas and Frederico Garcia Lorca. A complete study of the chronology, historical situation, social context and cultural impact of the poets and their works. Prerequisite: SPAN 335.

**SPAN 395.** Latin American Poetry of the 20th Century. 3 credits.
This course will study poets such as Josef Juan Tablada, Ramon Lopez Velarde, Gabriela Mistral, Pablo Neruda and Cesar Vallejo. Life, works, chronology, historical situation, social context and influences, tendencies, and evaluations. Instruction in Spanish. Prerequisite: SPAN 335.

**SPAN 400.** Advanced Conversation. 3 credits.
Discussions deal with topics of current interest. Instruction is in Spanish. Prerequisite: SPAN 320 or equivalent.

**SPAN 401.** Cinema for Spanish Conversation. 3 credits.
This course is an advanced conversation course that is designed to develop fluency and accuracy in film and cultural analysis, speaking, and writing. Students explore several aspects of life and culture in the Spanish-speaking world and the U.S. including identity, history, politics, class issues, gender roles, regional language and arts. Prerequisite: SPAN 320.

**SPAN 405.** Spanish Novels of the 19th and 20th Centuries. 3 credits.
The development of the Spanish novel from the “costumbreistas” through the realism of Galdós and from the writers of the Generation of 1898 to the present. Instruction is in Spanish. Prerequisite: SPAN 335.

**SPAN 406.** Spanish Drama of the 19th and 20th Centuries. 3 credits.
Readings and discussions of representative works of Spanish drama from the Romantic period to the present. Instruction is in Spanish. Prerequisite: SPAN 335.

**SPAN 407.** Aspects of Spanish Civilization. 3 credits.
This course will study the history, culture and society of Spain during the 20th and 21st centuries. Emphasis will be placed on the changes in Spain after Franco. Instruction in Spanish. Prerequisite: SPAN 300.

**SPAN 408.** Aspects of Latin American Civilization. 3 credits.
The development of countries like Argentina, Colombia, Peru, Mexico and others from pre-Columbian times to the present. Emphasis on the indigenous and European cultures and their influences on contemporary traditions. Focus on Central America, political developments and revolutions and wars within the last two decades. Instruction is in Spanish. Prerequisite: SPAN 300.

http://www.jmu.edu/catalog/14
SPAN 415. The Spanish-American Novel. 3 credits. Reading and analysis of representative works of Spanish-American novelists of the 19th and 20th centuries. Instruction is in Spanish. Prerequisite: SPAN 325.

SPAN 424. Spanish Picarones Novel. 3 credits. A study of the Spanish Picarones Novel, including Lazarrano de Tomes, Quevedo’s El Buscon and Alonso de Castillo Solorzano’s Las harpías en Madrid, culminating in the comic work of Cervantes with the picaro. Prerequisite: SPAN 325 or permission of instructor.

SPAN 425. Prose of the Golden Age. 3 credits. A study of the chivalric, sentimental, pastoral and picaronesque genres of prose literature and of their development through the Golden Age, culminating in Cervantes. Instruction is in Spanish. Prerequisite: SPAN 325.

SPAN 426. Drama of the Golden Age. 3 credits. A study of the "comedia" of the Golden Age including works of Lope de Vega, Calderon de la Barca, Tirso de Molina and Ruiz de Alarcón. Instruction is in Spanish. Prerequisite: SPAN 325.

SPAN 427. Poetry of the Golden Age. 3 credits. Lecture and analysis of Spanish poetry beginning with the Renaissance through the end of the 17th century. The course will cover poets such as Garcilaso de la Vega, Fray Luis de León and San Juan de la Cruz. Instruction in Spanish. Prerequisite: SPAN 325.

SPAN 428. Don Quijote. 3 credits. Examination of Cervantes’s two-part novel, which some have named the first modern novel or the greatest novel of all times. Includes study of the book’s, literary and social context, analysis of narrative techniques and levels of fiction, and major critical approaches to the work across the centuries. Instruction is in Spanish. Prerequisite: SPAN 325.

SPAN 430. Advanced Business Spanish. 3 credits. This course presents advanced business and commercial Spanish vocabulary and terminology. By focusing on topics such as the origin of business and companies, company constitution and organization, human resources, labor law, and commercial law, marketing, products, services, and the sale of consumer goods, students compare the business environment of Latin America with that of the United States. Prerequisite: SPAN 330.

SPAN/ENG 434. Latin American Literature in Translation. 3 credits. This course will study Latin American literature in translation. The course will focus on the work of major Spanish-American authors.

SPAN 435. Translation Strategies. 3 credits. This course discusses aspects of translation theory such as akopos, translation loss, translation gain, and language bias. Students learn several translation strategies at the phrase and sentence levels and practice these strategies thoroughly before investigating terminology, terminology mining and terminology management. Students will study the English and Spanish. Prerequisite: SPAN 300.

SPAN/TR 438. Introduction to Interpretation. 3 credits. This course presents an overview of the interpreting profession. It introduces students to the main techniques they need to become competent interpreters in the various sectors of interpreting. Instruction is given in English and Spanish. Prerequisite: SPAN 300.

SPAN/ENG 439. Major Authors of Literature in Spanish in Translation. 3 credits. This course will study the work of major Spanish-American novelists in translation. The course will focus on the work of many Spanish-American authors.

SPAN 446. Special Topics in Spanish Literature. 3 credits. Study of a particular topic in Spanish literature. It may cover all or specific Spanish literature genres. Course may be repeated. Prerequisite: SPAN 325.

SPAN 447. Special Topics in Spanish Civilization and Culture. 3 credits. Students will study a particular topic in the civilization and culture of Hispanic countries. Course may be repeated. Prerequisite: SPAN 320.

SPAN 448. Special Topics in Spanish Linguistics. 3 credits. Students will study a particular topic of Spanish linguistics. Topics could include an introduction to Spanish sociolinguistics and psycholinguistics. Course may be repeated. Prerequisite: SPAN 320.

SPAN 455. Women in Hispanic Literatures. 3 credits. Study of women in literature in the Hispanic world. Focus on women authors, female characters in literature or both. The course may include works from Spain or Latin America from any time period. Examination of feminist literary criticism, canon formation and other critical topics. Emphasis may vary according to the instructor. Instruction is in Spanish. Prerequisite: SPAN 325.

SPAN 460. Advanced Law Enforcement Spanish. 3 credits. This course presents advanced Spanish vocabulary and terminology and explores cultural issues for law-enforcement, public-safety, and emergency personnel. Students acquire the Spanish linguistic proficiency required for an advanced level of professional competence, develop social and linguistic awareness, discuss racial and cultural stereotypes, and analyze intercultural differences. Prerequisite: SPAN 360.

SPAN 461. Post War Literature in Spain. 3 credits. Reading and analysis of representative works of Spanish novelists and their development after the Civil War in Spain. Emphasis on Spanish history and society under the influence of Franco’s Regime. Instruction is in Spanish. Prerequisite: SPAN 335.

SPAN 462. Spanish Comic Theatre of the 20th Century. 3 credits. The course will study the work of the main playwrights of the comic theater of 20th century Spain and their type of humor: Carlos Amiches, the brothers Alverez Quiñtero, Pedro Muñoz Seca, Enrique Jardiel Poncela and Miguel Mihura. Instruction is in Spanish. Prerequisite: SPAN 325.

SPAN 465. Cinema and Literature. 3 credits. Studies of the structure of the cinema and its relation to literature. Comparison between different literary works and their interpretation in cinema. The course will cover topics in Spain and Latin America. Instruction in Spanish. Prerequisite: SPAN 335.

SPAN 470. Advanced Legal Spanish. 3 credits. This course presents advanced Spanish legal vocabulary and terminology in various contexts and explores the origin of law and its meaning. Roman law and its importance today, civil law, individual labor law, collective labor law, criminal law, commercial law, international law, public law and private law. Prerequisite: SPAN 370.

SPAN 475. Advanced Medical Spanish. 3 credits. This course provides future medical professionals with further practice in medical Spanish in the medical context. Students learn advanced medical vocabulary and anatomical terminology, develop their reading comprehension skills, and acquire greater fluency through student presentations and classroom discussions on the latest medical techniques and advances. Prerequisite: SPAN 365.

SPAN 476. Culture and Medicine in Spain and Latin America. 3 credits. This course enables students to acquire greater linguistic proficiency and cultural competence in the medical context through classroom discussions and reading comprehensions. Students analyze historical and contemporary medical discoveries, discuss holistic and indigenous medicine, and examine popular and religious beliefs applied to medicine in Hispanic cultures. Prerequisite: SPAN 300.

SPAN 485. Business and Society in Latin America. 3 credits. This course explores the development of Latin American society in the business and economic contexts and investigates areas such as importation and exportation, the health and education systems, banking and financial institutions, agriculture, and the textile, fashion, wine, motion picture, music, and media industries. Prerequisite: SPAN 300.

SPAN 486. Business and Society in Spain. 3 credits. This course investigates several sectors of the Spanish economy, including the food industry, industrial port activity, importation and exportation, the petrochemical industry, the leisure industry, and the winemaking industry. Prerequisite: SPAN 300.

SPAN 492. Practical Spanish. 3 credits. This course gives students the opportunity to collaborate with the local Spanish-speaking community through semester placements in schools or service agencies. Students will develop a better understanding of the Hispanic culture as well as immigration issues affecting the community. Prerequisite: SPAN 320.

SPAN 494. Practical Medical Spanish. 3 credits. This course enables JMU medical Spanish students to interact with Spanish students at the Universitat Rovira i Virgili in Tarragona, Spain, to practice Spanish in real-life medical situations at local hospitals, clinics or primary care centers in collaboration with Spanish health science professionals, and to observe the differences between the medical cultures of Spain and the United States. Prerequisite: SPAN 365.

SPAN 495. Practical Law Enforcement/Practical Legal Spanish. 3 credits. This course focuses on Spanish for public safety, law enforcement, and the judicial/legal system in collaboration with local and state agencies and the Spanish-speaking community. Students consolidate their theoretical knowledge, gain confidence in the language, and observe both the direct impact of their learning and the critical role of language proficiency in today’s increasingly diverse society. Prerequisite: SPAN 360 or SPAN 370.

Sport and Recreation Management

School of Hospitality, Sport and Recreation Management

SRM/HM 201. Foundations of Hospitality, Sport and Recreation Management. 3 credits.
An introduction to the basis for the professions that make up the School of Hospitality, Sport and Recreation Management. A focus on these professions in governmental, voluntary, private and commercial settings is incorporated. Finally both the economical significance and the professional preparation for success in the industry is both introduced and practiced. Prerequisite: HM or SRM major or permission of director.

SRM/HM 202. Foundations of Leadership in Hospitality, Sport and Recreation Management. 3 credits.
An introduction to the basis for the professions that make up the School of Hospitality, Sport and Recreation Management. A focus on these professions in governmental, voluntary, private and commercial settings is incorporated. Finally both the economical significance and the professional preparation for success in the industry is both introduced and practiced. Prerequisite: HM or SRM major or permission of director.

SRM/HM 203. Foundations of Ethics and Law in Hospitality, Sport and Recreation Management. 3 credits.
An introduction to ethics and law within the Sport, Hospitality and Recreation (HSRM) industry. The ethical portion introduces students to select theories of ethics, ethical issues and an ethical decision making model, and the legal portion introduces students to basic legal terminology and concepts while concentrating on negligence and employment issues. Prerequisite: HM or SRM major or permission of director.

SRM 241. Introduction to Sport and Recreation Management. 3 credits.
Introduces the sport and recreation management professions in governmental, voluntary, private, public, and commercial settings. Outlines development of sport and recreation and the evolution of the mega-leisure industry. Overviews professional preparation in sport and recreation management. Prerequisite: SRM 201 or permission of director.

SRM 242. Sociology and Psychology of Sport and Recreation Management. 3 credits.
The primary purpose of this course is to investigate sport and recreation related activities and services from a sociological and psychological perspective. The focus will be on activity through the lifespan and using theory and current issues from both disciplines to aid the practitioner in their interactions with participants and constituents and with the development and management of sport and recreation related activities and services. Prerequisite: SRM 201 or permission of director.

SRM 282. Practicum in Sport and Recreation. 3 credits.
A sequence of selected experiences which provides the student with supervised practicum experience in Sport and Recreation Management. Prerequisite: SRM 241.

SRM 333. Management in Sport and Recreation. 3 credits.
This course will provide students with the knowledge to apply the management principles and theories to specific professional organizations in the sport and recreation industry. Sport and recreation management applications covered include administration principles for specific professional organizations in the sport and recreation industry. Sport and recreation management principles and theories to specific professional organizations in the sport and recreation industry. This course will provide students with the knowledge to apply the management principles and theories to specific professional organizations in the sport and recreation industry. Sport and recreation management applications covered include administration principles for specific professional organizations in the sport and recreation industry. Prerequisite: SRM 241.

SRM 334. Introduction to Sport Media. 3 credits.
Examination of the knowledge and skills required for the business of sports communications, including strategic and personal communications, leadership, publishing, advertising, public relation and crisis management. The course also examines sport communication from a sociological and legal perspective and the emergence of online sport communication and the new sport media. Prerequisite: SRM 241.

SRM 335. Cognitive Processes and Current Issues. 3 credits.
This class begins with the basic question as to how we think and why, and then expands into an introduction of the different of cognitive processes used in sport and recreation management settings. These different processes include: creative thinking, critical thinking, problem solving, decision making and logical thinking. The class will then apply those processes in addressing various current issues facing the sport and recreation industries. Prerequisite: SRM 241.

SRM 337. Programming and Assessment in Sport and Recreation Management. 3 credits.
This course will examine the basics of sport and recreation programming and assessment. Students will be presented with tools and strategies for developing and assessing programs and evaluating their outcomes. Students will learn how to program for agencies of various sizes with an understanding of the importance of recognizing service population needs. Prerequisite: SRM 241.

SRM 343. Ethical and Legal Issues in Sport and Recreation Management. 3 credits.
This course is designed to introduce students to current ethical and legal issues of concern to professionals in sport, recreation and leisure studies. Students will examine the impact of these issues on organizational and managerial policies and decision-making. Prerequisite: SRM 333.

SRM 435. Sport Marketing and Sales. 3 credits.
This course will examine how promotional activities and sales efforts are closely intertwined and impact upon the success or failure of the sport and leisure industry. Particular emphasis will be placed on ticket sales and sport sponsorship. Prerequisites: SRM 333 and MKTG 380.

SRM 436. Facilities and Events in Sport and Recreation Management. 3 credits.
This course is designed to explore the principles of planning, design, and management of selected sport, recreation, and exercise facilities. The course will also cover the planning and management of special events. This will include budgeting, design, staffing, evaluation/assessment, crowd management and relative human resource management. Prerequisite: SRM 333.

SRM 438. Human Resources in Sport and Recreation Management. 3 credits.
An overview of human resource management in sport and recreation environments. The course will provide an introduction to administrative practices involving employer and employee relationships and apply these concepts to the everyday processes and skills required of a manager in a sport or recreation setting. The content focus will be on areas such as human resource policies, recruiting, hiring, job analysis, creating position descriptions, performance evaluation, training, career development and supervision of staff members and volunteers. Prerequisite: SRM 333.

SRM 482. Internship in Sport and Recreation Management. 6 credits.
A full-time professional experience which affords the opportunity to apply theory and methodology under qualified supervision from the cooperating agency and the university. Students may take only one additional course (three or four credits) while enrolled in this course. The additional course must be approved in advance by the site supervisor and the director of SRM. Prerequisites: SRM 282, SRM 333, and 72 credit hours complete.

SRM 490. Special Studies in Sport and Recreation Management. 3 credits.
Designed to give capable students in sport and recreation management an opportunity to complete independent study under faculty supervision. Prerequisite: SRM major and permission of director.

SRM 498. Special Topics in Sport and Recreation Management. 3 credits.
This course is designed to allow explorations of areas of current topical concern, or to exploit special situations. Course content will vary. For current course content consult your adviser or the SHSRM director. Prerequisite: SRM major and permission of director.

SRM 499. Honors. 6 credits.
Year course. See catalog description entitled “Graduation with Distinction” and “Graduation with Honors”. Prerequisite: Permission of director.

Studies Abroad Courses, Regularly Scheduled

Semester in Antwerp
COB 300A. Integrated Functional Systems: Management. 3 credits.
COB 300A is the management component of an integrated learning experience consisting of four courses, taken concurrently, which introduces the fundamental conceptual tools of management, finance, operation and marketing in such a way as to establish their mutual relevance and interdependence. Students work in small project teams on tasks designed to require the application in concert of conceptual tools from each of the function areas. Prerequisites: Completion of all required 100- and 200-level B.B.A. core courses, junior standing (56 hours) and formal admission to the College of Business.

http://www.jmu.edu/catalog/14
COB 300B. Integrated Functional Systems: Finance. 3 credits.
COB 300B is the finance component of an integrated learning experience consisting of four courses, taken concurrently, which introduces the fundamental conceptual tools of management, finance, operation, and marketing in such a way as to establish their mutual relevance and interdependence. Students work in small project teams on tasks designed to require the application in concert of conceptual tools from each of the function areas. Prerequisites: Completion of all required 100- and 200-level B.B.A. core courses, junior standing (56 hours) and formal admission to the College of Business.

COB 300C. Integrated Functional Systems: Operations. 3 credits.
COB 300C is the operations component of an integrated learning experience consisting of four courses, taken concurrently, which introduces the fundamental conceptual tools of management, finance, operation and marketing in such a way as to establish their mutual relevance and interdependence. Students work in small project teams on tasks designed to require the application in concert of conceptual tools from each of the function areas. Prerequisites: Completion of all required 100- and 200-level B.B.A. core courses, junior standing (56 hours) and admission to the College of Business.

COB 300D. Integrated Functional Systems: Marketing. 3 credits.
COB 300D is the marketing component of an integrated learning experience consisting of four courses, taken concurrently, which introduces the fundamental conceptual tools of management, finance, operation, and marketing in such a way as to establish their mutual relevance and interdependence. Students work in small project teams on tasks designed to require the application in concert of conceptual tools from each of the function areas. Prerequisites: Completion of all required 100- and 200-level B.B.A. core courses, junior standing (56 hours) and admission to the College of Business.

CHIN 101. Elementary Chinese. 4 credits.
The fundamentals of Mandarin Chinese through listening, speaking, reading, and writing. Practice in pronunciation and development of comprehension.

CHIN 102. Elementary Chinese. 4 credits.
The fundamentals of Mandarin Chinese through listening, speaking, reading, and writing. Practice in pronunciation and development of comprehension.

CHIN 231. Intermediate Chinese. 3 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading.

CHIN 232. Intermediate Chinese. 3 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading.

CHIN 300. Chinese Grammar and Communication. 3 credits.
Intensive training in grammatical structures and their applications to oral and written conversation. Instruction is in Chinese. Prerequisite: CHIN 232 or CHIN 212 or permission of the instructor.

CHIN 320. Chinese Oral and Written Communication. 3 credits.
Intensive training in the use of modern, everyday Chinese with emphasis on conversation and composition. Readings in Chinese will provide a context for discussion and writing. Prerequisite: CHIN 300.

CHIN 490. Advanced Conversation and Composition. 3 credits.
Intensive training in the use of modern, everyday Chinese with emphasis on conversation and composition. Readings in Chinese will provide a context for discussion and writing. Prerequisite: CHIN 300.

HIST 341. An Introduction to Chinese Civilization: From 2200 B.C. to Present. 3 credits.
A brief introduction to Chinese civilization for the foreign student who wants to achieve a general knowledge about Chinese history from its very beginning to present day. Students will become acquainted with the dynasties, the main historic periods, important political-social events, and material and cultural achievements. They will gain a deep understanding of Chinese civilization from a comparative point of view between East and West within a global perspective.

IBUS 298-I. Business Environment in China and Southeast Asia. 3 credits.
This course will study China's political and economic development during the last ten years including the historical events leading up to those changes, political pressures involved in the process of change and economic issues facing the trading in China. Students will work to understand the cultural, historical, legal and political realities of doing business in China today. Special attention will be given to the present political and economic development in China.

IBUS 298-II. International Business Operations. 3 credits.
This course will study China's political and economic development in the last twenty years including historical events leading up to those changes, political pressures involved in the process of change, economic issues facing the trading in China. Students will learn about the cultural, historical, legal and political realities of doing business in China today.

POSC 371. Politics of China. 3 credits.
This course introduces students to the politics of the People's Republic of China with emphasis on the events in the period since the Chinese Communist Party established its regime in 1949. It will begin with a brief review of China's political history before 1949 in order to establish the necessary foundation for understanding the significance of subsequent events. We will then analyze the ways in which the communist Party set out to organize China after the revolution, the consequences of these efforts, both achievements and failures, and the debates provoked within the elite and among the general population.

Semester in Florence

*ARTH 313. Italian Renaissance Art. 3 credits.
Exploration of the invention of perspective and techniques of Renaissance realism including masterpieces by major artists such as Giotto, Donatello and Michaelangelo. Weekly visits to museums and churches. Taught in English.

*ENG 302F. Dante's Commedia, Selections from Inferno, Purgatorio and Paradiso. 3 credits.
Dante's Commedia, a vision of the other-world, the account of a journey through Hell, Purgatory and Paradise, is one of the world's greatest poems, an achievement of the poetic imagination. Students will also see how the Commedia inspired the work of later British and American writers and will see how the forms of literature Dante shaped have endured to modern times. Taught in English; Italian majors and minors may receive Italian credit by completing all written assignments in Italian.

ITAL 101F. Elementary Italian. 3 credits.
The fundamentals of Italian through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension.

ITAL 102F. Elementary Italian. 3 credits.
The fundamentals of Italian through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension.

ITAL 21F. Intermediate Italian. 3 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading. Prerequisite: One year of college Italian or equivalent.

ITAL 22F. Intermediate Italian. 3 credits.
A thorough review of grammar, vocabulary building, conversation, composition and reading. Prerequisite: One year of college Italian or equivalent.

ITAL 300F. Italian Grammar and Communication. 3 credits.
Intensive training in grammatical structures and their application to oral and written communication. Instruction is in Italian. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisite: ITAL 232.

ITAL 302F. Italian Oral and Written Communication. 3 credits.
Intensive training in the use of modern, everyday Italian with emphasis on conversation and composition. Readings in Italian will provide a context for discussion and writing. Prerequisite: ITAL 300.

ITAL 490F/HM 361. Exploration of Wine Culture in Italy. 3 credits.
This course will study the historical value of wine, together with its cultural, economic and social meaning in Italy and, more specifically, in Tuscany. Taught in English. Course may count for HTM major credit with the approval of the head of the HTM department.

http://www.jmu.edu/catalog/14
This course is designed to teach students the applied approach to matching wine and food from different parts of the world using flavors, textures, and components present in food and wine in complementing strategies. Emphasis will be placed on menu planning, cooking methods, and tasting wines with food in a formal dining room. Taught in English. Course may count for HTM major credit with the approval of the head of the HTM department.

MKTG 380. Principles of Marketing. 3 credits.
Deals with fundamentals involved in the marketing process; concerned with the functions, institutions and channels used to distribute goods and services from producer to consumer. Involve case studies of Italian firms and systematic comparisons between prevalent Italian/European and American marketing practices. Taught in English.

ITAL 490F/IDLS 486. Internship and Field Experience. 3 credits.
ITAL or IDLS credit for academically grounded field experience. Students interact with Florentine middle school students taking English classes and engage in systematic comparisons of educational institutions and experiences in Italy and the United States.

PESC 344. Politics of the European Union. 3 credits.
This course offers an in-depth consideration of the political development of the European Union, the EU policy-making process and contemporary issues that confront European leaders and citizens. Taught in English.

**Semester in London**

*ARTH 316. Masterpieces of British Art. 3 credits.*
Survey of painting and sculpture in Britain from 1530 to 1860 concentrating on 18th-19th century painting. British art is viewed in the context of European civilization. Weekly visits to London museums including the Portrait Gallery, Sir John Soane’s House, the Wallace Collection and the Tate Gallery.

*GHUM 200L/THEA 412L. The London Theatre. 3 credits.*
Study of London theatre. Consideration given to current productions of classic and contemporary works. Emphasis on production elements including acting, directing, design, writing and economic considerations.

HIST 382. Europe in the 20th Century. 3 credits.
An examination of European history following WWII, from a British perspective. Weekly outings to museums and sites of historic interest.

IDLS 486. Internship and Field Experience. 3 or 6 credits.
An internship class combining practical work experience with a class providing perspective and cultural appreciation.

POSC 371L. Topics in Comparative Politics: British Media and Politics/SCOM/SMAD 472L. British Media and Politics. 3 credits.
A study of the media’s role in political campaigns, concentrating on past/present election, the media’s role in covering political parties and coverage of the governing process in the United Kingdom. Discussion of electronic and print will occur. Topics to be examined include campaign videos, political ads, editorial cartoons, TV debates, convention coverage and radio talk show commentary.

SCOM 347L. Communication, Diversity, and Popular Culture. 3 credits.
Study of the rhetorical dimension of communication practices and texts found in British popular culture. Emphasis on issues of diversity as they are manifested in the communication practices found in British popular culture. Emphasis on strategic communication choices in a diverse, multicultural world. Emphasis on critical thinking, self-reflexivity and communication analysis. Prerequisites: GCOM 121, GCOM 122 or GCOM 123.

SCOM/SMAD/WRTC 360L/GHUM 251. British Media and Society. 3 credits.
Study the history, nature, and impact of mass media in the United Kingdom. Emphasis on the impact modern media has on society, and society has on media. Consideration of similarities and differences in mass media in the United States and Great Britain. Consideration of the relationship between mass media and the arts. Focus on 20th century mass media in London, one of the world’s pre-eminent and most influential media centers.

Study of how mediated communication molds perception and influences cultural change. Emphasis on how language and imagery, sound and music are combined in current media to create meaning. Consideration of emerging media and their implications for cultural design. Focus on British media and culture.

SMAD 462L/ENG 463L/SCOM 395. Film Adaptations: British Literature and Film. 3 credits.
The study of the process of adapting British literature into feature films. Consideration is given to the original literary work, as well as to the changes undergone in its adaptation to film.

WRTC 320L/SCOM 321. Writing in the Public Sphere. 3 credits.
Students will conduct a rhetorical examination of written texts that influenced and brought about change in the public sphere in Great Britain. Course offered during semester in London for the communication and media program. Counts as an elective in the writing and rhetoric minor. With permission, SCOM majors and minors may substitute SCOM 395 for this class.

**Semester in Salamanca**

*ARTH 314/SPAN 490T. Spanish Art. 3 credits.*
A study of the art and architecture of Spain from medieval times through present. Concentration on specific artists, as well as general movements in the history of Spanish art. Since it is taught in Spanish, Spanish credit may also be given. Prerequisite: SPAN 300 or equivalent.

POSC 371S. Comparative Politics: Spain/United States. 3 credits.
A comparative study of political systems in Spain and the United States. Emphasis on historical and contemporary issues. Taught in Spanish; Spanish credit may also be given. Prerequisite: SPAN 300 or equivalent.

SPAN 300S. Spanish Grammar and Communication. 3 credits.
Intensive training in grammatical structures and their application to oral and written conversation. Instruction is in Spanish. Prerequisite: SPAN 232 or equivalent.

SPAN 307S. History of Spanish Civilization. 3 credits.
Study of Spanish life and culture from ancient times to the present. Prerequisite: SPAN 300 or equivalent.

SPAN 308S. Latin American Civilization. 3 credits.
A study of the geographical, historical and cultural development of Latin America from pre-Columbian times to the present. Instruction is in Spanish. Prerequisite: SPAN 300 or equivalent.

SPAN 328S. Spanish Oral and Written Communication. 3 credits.
Intensive training in the use of modern, everyday Spanish with emphasis on conversation and composition. Readings in Spanish will provide a context for discussion and writing. Instruction is in Spanish. Prerequisite: SPAN 300.

SPAN 330S. Business Spanish. 3 credits.
Study of commercial and technical vocabulary and trade customs in conjunction with practice in the art of commercial communication including interviews, letter writing and simultaneous interpretation. Prerequisite: SPAN 300 or equivalent.

SPAN 335S. Introduction to Spanish Literature. 3 credits.
This course is designed to prepare students in literary analysis of the novel as well as short stories, poetry and drama. All necessary terminology will be studied. Mandatory for all Spanish majors before taking any other literature class. Instruction in Spanish. Prerequisite: SPAN 300.

*SPAN 385S. Latin American Drama and Short Stories. 3 credits.*
Readings and analysis of representative plays and short stories from Latin America. Student reports on selected authors. Instruction is in Spanish. Corequisite or prerequisite: SPAN 335.

SPAN 400S. Advanced Conversation. 3 credits.
Discussions deal with topics of current interest. Instruction is in Spanish. Prerequisite: SPAN 300 or equivalent.

SPAN 446S. Special Topics in Spanish Literature: Trabajos dirigidos. 3 credits.
Students work on any aspect of Spanish literature under the supervision of USAL faculty. Topics and work vary, ranging from the case study of a work, the treatment of a given topic in Spanish literature, the analysis of a literary movement, the systematic study of the author’s work, or a comparative analysis of several writers.

*SPAN 465S. Cinema and Literature. 3 credits.*
Comparative studies between cinema and literature. Corequisite or prerequisite: SPAN 335.

SPAN 490S/IDLS 486. Internship and Field Experience. 3 credits.
This course gives student the opportunity to integrate in the Spanish society through a JMU sponsored internship/field experience. Students will have the chance to work in local schools and businesses. The experience will allow students to interact with the community through conversation and their assigned responsibilities.
Most pre-service teachers will assist Prek-5 students. Arts and content instruction directly related to READ 366 course material. University Supervisor. They plan and implement literacy strategies in language with students in grades PreK-12 (as determined by the READ 366 instructor) TESL 384. Practicum in Literacy Development. READ 435. Prerequisite: READ 366. are directly related to topics covered in the READ 435 course. Reading, and writing strategies in language arts and content instruction that will directly correlate with topics covered in TESL 426. with English language learners under the supervision of a mentor teacher and TESL 382. Practicum in TESOL First/2nd Language Acquisition. Completion of ESL minor requirements. program and in consultation with a field supervisor. TESL 381. Practicum in TESOL Instructional Strategies. Special topics or independent studies in Swahili. SWA 232. Intermediate Swahili II. The fundamentals of Swahili through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in language laboratory. Student will receive no credit for course if he/she has had two or more years of the language in high school. SWA 101. Elementary Swahili I. 3-4 credits. The fundamentals of Swahili through listening, speaking, reading and writing. Practice in pronunciation and development of comprehension. One hour’s work a week in language laboratory. Student will receive no credit for course if he/she has had two or more years of the language in high school. SWA 231. Intermediate Swahili I. 3 credits. A thorough review of first year grammar and vocabulary building. Conversation, composition and readings will be chosen to reach competency at the lower intermediate level. Prerequisite: SWA 102 or SWA 111 or permission of the instructor. SWA 232. Intermediate Swahili II. 3 credits. A thorough review of Swahili grammar and vocabulary building. Conversation, composition and readings will be chosen to reach competency at the advance intermediate level. Prerequisite: SWA 231 or permission of the instructor. SWA 320. Swahili Oral and Written Communication. 3 credits. Intensive training in grammatical structures and their application to oral and written communication. Instruction is in Swahili. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisite: SWA 232 or permission of the instructor. SWA 490. Special Studies in Swahili. 3 credits. Special topics or independent studies in Swahili. Technical Translation Department of Foreign Languages, Literatures and Cultures TR 300. Introduction to Translation. 3 credits. An intensive course that focuses on fundamental principles, general methods, and the use and development of lexical materials in translation. Prerequisite: 300-level course in a foreign language or equivalent (foreign literature/civilization courses taught in English do not count). TR/SPAN 312. Translation Competencies. 3 credits. In this course, students will develop linguistic competencies required in translation, including reading comprehension, summary writing, text analysis, and use of mono- and bilingual dictionaries. Students will learn some basic electronic tools and word processing skills for translators, and practice several types of translation, including direct translation, inverse translation and back translation. Prerequisites: SPAN 200. TR 321. English-Spanish Technical/Commercial Translation. 3 credits. English-Spanish translation applied in several commercial (i.e., marketing, finance) and technical (i.e., electricity and electronics, software, hardware) fields. Focus will be on the acquisition of specialized knowledge (both linguistic and extralinguistic) and the delivery of professional documents in real-market conditions. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisites: TR 300 and SPAN 200 or permission of the instructor. TR 331. French-English Technical/Commercial Translation. 3 credits. French-English translation applied in several commercial (i.e., marketing, finance) and technical (i.e., electricity and electronics, software, hardware) fields. Focus will be on the acquisition of specialized knowledge (both linguistic and extralinguistic) and the delivery of professional documents in real-market conditions. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisites: TR 300 and FR 330, or permission of the instructor. TR 341. German-English Technical/Commercial Translation. 3 credits. German-English translation applied in several commercial (i.e., marketing, finance) and technical (i.e., electricity and electronics, software, hardware) fields. Focus will be on the acquisition of specialized knowledge (both linguistic and extralinguistic) and the delivery of professional documents in real-market conditions. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisites: TR 300 and GER 330 or permission of the instructor. TR 361. Russian-English Technical/Commercial Translation. 3 credits. Russian-English translation applied in several commercial (i.e., marketing, finance) and technical (i.e., electricity and electronics, software, hardware) fields. Focus will be on the acquisition of specialized knowledge (both linguistic and extralinguistic) and the delivery of professional documents in real-market conditions. Fulfills the College of Arts and Letters writing-intensive requirement for the major. Prerequisites: TR 300 and RUS 330 or permission of the instructor.
TR 400. Text Revision. 3 credits.
Text revision focuses on the principles of linguistic revision applied to texts translated into English or written in English. It also involves the relationship between the translator and the reviser. Texts are evaluated and corrected on several levels: spelling, punctuation, syntax, semantics, stylistics, pragmatics. Prerequisite: TR 300.

TR 402. Theory and Practice in Terminology and Lexicography. 3 credits.
Terminology is the study and compilation of specialized terms used in LSPs (Languages for Special Purposes). This course addresses theories of terminology and terminology management, including computer applications designed to support the work of translators, technical writers and information specialists. Prerequisite: TR 300.

TR 404. Computer Tools for Translators. 3 credits.
Offered fall and spring. Modern translation involves numerous computer applications. This course addresses the main components of the translator's workstation. Students will gain hands-on experience of advanced work-processes features, machine-aided translation tools and statistical linguistics software. Prerequisite: TR 300.

TR 406. Website and Software Localization. 3 credits.
This course addresses the business, technical, cultural and linguistic issues involved in the complex process of localizing websites and software for foreign markets. Internet will be used as the forum through which to present and discuss class material. Prerequisite: TR 300 or permission of the instructor.

TR 408. Project/Workflow Management. 3 credits.
Management, business, technical, and computer-related issues involved in localizing websites and software for foreign markets. Budgeting, negotiations and relationships with translators and clients will be simulated. Prerequisites: TR 300 or permission of the instructor.

TR/SPAN 411. Translation Strategy. 3 credits.
This course is for students who are interested in a possible future career in translation. Prerequisite: SPAN 300.

TR 429. Spanish-English Text Revision. 3 credits.
Text revision focuses on the principles of linguistic revision applied to texts translated from Spanish into English or written in English. It also involves the relationship between the translator and the reviser. Texts are evaluated and corrected on several levels: spelling, punctuation, syntax, semantics, stylistics, pragmatics. Prerequisite: TR 300.

TR/SPAN 435. Translation Strategies. 3 credits.
Students discuss aspects of translation theory such as skopos, translation loss, translation gain and language bias. They learn several translation techniques at phrase and sentence levels and practice these techniques thoroughly. They also investigate aspects of terminology, terminology mining and terminology management. Prerequisite: SPAN 300.

TR/SPAN 436. Introduction to Interpretation. 3 credits.
Students learn the techniques needed to become competent community interpreters in various contexts. This course may include practice interpreting in the Hispanic community. Prerequisite: SPAN 300.

TR 439. Song Translation, French into English. 3 credits.
Analysis of famous French songs at the lexical, sociolinguistic and semantic levels, and their translations. Emphasis will be placed on prosodic translation and the meaning of the lyrics. Prerequisite: FR 300.

TR 495. Internship in Translation, Interpreting or Terminology. 3 credits.
Real experience in a translation bureau, an in-house translation department, or any other business/ government entity needing translation services. The internship leads to a report, which is evaluated by a panel. Prerequisites: TR 300 and at least one specialized translation class. Permission of the instructor.

TR 496. Freelance Translation, Interpreting or Terminology. 3 credits.
Real experience with clients needing translation services, terminology management or other linguistic consulting services. Students are supervised by their JMU adviser. The freelance activity leads to a report, which is evaluated by a panel. Prerequisites: TR 300 and at least one specialized translation class and permission of the instructor.

Theatre
School of Theatre and Dance
THEA/DANC 100. Theatre and Dance Colloquium. 0 credits.
Weekly department colloquium; work in progress presented, viewed and discussed by student body, faculty and guests. Professionals in the field frequently hold master classes. All majors in the School of Theatre and Dance are required to enroll in and pass six semesters in order to meet program graduation requirements. Prerequisite: Admission to the School of Theatre and Dance.

THEA/DANC 171. Performance Production. 3 credits.
An introduction to the methods of the production of scenery, properties, costumes, lighting, sound and performance management for theatre and dance performance. Instruction in the skills required for the operation of associated tools and equipment and instruction in the skills required for the operation of lighting and sound equipment will be taught. Students are required to complete a main stage running crew assignment as a component of this course.

THEA 190. Topics in Theatre. 1-3 credits, repeatable to 6 credits.
Study of the practice of the various aspects of theatre. Emphasis on applied projects structured to provide technical and performance experience. Offered in summer session only with the consent of the director and the instructor. Will not count as credit toward major.

THEA 200. Theatre Practicum. 1 credit.
Students will complete practical theatre assignments on main stage productions in the areas of scenery, lighting, costumes, management or performance. Repeatable. Prior approval required. No student may enroll in more than one THEA 200 per block. Majors may apply a maximum of four credit hours of THEA 200 or THEA 300 in combination toward meeting major requirements.

THEA 204. Theatre Practicum: Scenery. 1 credit.
Students will complete practical theatre assignments on main stage productions in the area of scenery. Repeatable. Prior approval required. No student may enroll in more than one THEA 204-208 course per block. Majors may apply a maximum of one THEA 201 credit toward meeting major requirements and a maximum of four credit hours of THEA 204-208 or THEA 304-308 in combination toward meeting major requirements.

THEA 205. Theatre Practicum: Lights. 1 credit.
Students will complete practical theatre assignments on main stage productions in the area of lighting. Repeatable. Prior approval required. No student may enroll in more than one THEA 204-208 per block. Majors may apply a maximum of one THEA 205 credit toward the major requirements and a maximum of four credit hours THEA 204-208 or THEA 304-308 in combination toward meeting major requirements.

THEA 206. Theatre Practicum: Costumes. 1 credit.
Students will complete practical theatre assignments on main stage productions in the area of costumes. Repeatable. Prior approval required. No student may enroll in more than one THEA 204-208 per block. Majors may apply a maximum of one THEA 206 credit toward the major requirements and a maximum of four credit hours THEA 204-208 or THEA 304-308 in combination toward meeting major requirements.

THEA 208. Theatre Practicum: Performance. 1 credit.
Students will complete practical theatre assignments on main stage productions in the area of performance. Repeatable. Prior approval required. No student may enroll in more than one THEA 204-208 per block. Majors may apply a maximum of one THEA 208 credit toward the major requirements and a maximum of four credit hours THEA 204-208 or THEA 304-308 in combination toward meeting major requirements.

THEA 210. Introduction to Theatre. 3 credits.
Study of the theatre as an art form. Emphasis on introducing students to a broad spectrum of theatrical activity and opinion. Consideration of the components that comprise a theatre event including acting, directing, design, costumes, lighting and playwriting.

THEA 211. Performance Analysis. 3 credits.
Plays are examined as texts for performance. Theories of performance and methods for the analysis of performances in and out of the theatre are studied.

http://www.jmu.edu/catalog/14
THEA 251. Acting I: Basic Acting. 3 credits.
A study of basic acting as a performance experience. Emphasis on fundamentals of performance including concentration, transitions, interaction and the structuring of action.

THEA 253. Musical Theatre Laboratory. 1 credit.
Introduction to issues related to musical theatre through music and text analysis, vocal technique and practice of the repertoire. Topics relating to vocal and physical health, professional practice and musical theatre resources will also be covered. May be repeated once for credit.

THEA 261. Voice for the Stage. 3 credits.
Theories and exercises designed to equip the student with proper speech for the stage through a fundamental understanding of phonetics and articulation.

THEA 271. Technical Theatre. 3 credits.
Study of the technical aspects of stage production. Emphasis upon practical experience in the use of stage and shop facilities. Consideration of the physical theatre and stage, construction, painting and rigging of scenery applied to theatrical production.

THEA 273. Visual Aspects of Theatre. 3 credits.
Study of the interrelationship between the playwright, director, and actor with the scenic, lighting and costume designers; introduction of the basic documents of the design process; survey of current and historical trends in theatrical design; no artistic or technical skills necessary.

THEA 281. Movement for the Actor. 3 credits.
Students in this course develop and refine movement skills for stage performance. Through a study of various approaches, such as Viewpoints, Animal Work, and Laban techniques, students develop methods of artistic expression using their whole body. Through movement, students discover new connections to speech and text and improve the condition, flexibility, and responsiveness of their physical instrument. Students also develop the means for making effective physical choices in the creation of a performance.

THEA 300. Theatre Practicum. 1 credit.
Students will complete practical theatre assignments on main stage productions in the areas of scenery, lighting, costumes, management or performance. Prior approval required. No student may enroll in more than one THEA 300 per semester. Majors may apply a maximum of four credit hours of THEA 200 or THEA 300 in combination toward meeting major requirements.

THEA 303. Topics in Theatre. 1-3 credits, repeatable to 6 credits.
Study of current topics and issues in theatre. Emphasis on contemporary themes of immediate concern. Prerequisite: Permission of the instructor.

THEA 304. Theatre Practicum: Scenery. 1 credit.
Students will complete practical theatre assignments on main stage productions in the areas of scenery, lighting, dressing, management or performance. Repeatable. Prior approval required. No student may enroll in more than one THEA 304-308 course per semester. Majors may apply a maximum of one THEA 300 credit toward meeting major requirements and a maximum of four credit hours of THEA 204-208 or THEA 304-308 in combination toward meeting major requirements.

THEA 305. Theatre Practicum: Lights. 1 credit.
Students will complete practical theatre assignments on main stage productions in the area of lights. Repeatable. Prior approval required. No student may enroll in more than one 304-308 course per semester. Majors may apply a maximum of one THEA 306 credit toward the major requirements and a maximum of four credit hours THEA 204-208 or THEA 304-308 in combination toward meeting major requirements.

THEA 306. Theatre Practicum: Costumes. 1 credit.
Students will complete practical theatre assignments on main stage productions in the area of costumes. Repeatable. Prior approval required. No student may enroll in more than one 304-308 course per semester. Majors may apply a maximum of one THEA 307 credit toward the major requirements and a maximum of four credit hours THEA 204-208 or THEA 304-308 in combination toward meeting major requirements.

THEA 307. Theatre Practicum: Management. 1 credit.
Students will complete practical theatre assignments on main stage productions in the area of management. Repeatable. Prior approval required. No student may enroll in more than one 304-308 course per semester. Majors may apply a maximum of one THEA 307 credit toward the major requirements and a maximum of four credit hours THEA 204-208 or THEA 304-308 in combination toward meeting major requirements.

THEA 308. Theatre Practicum: Performance. 1 credit.
Students will complete practical theatre assignments on main stage productions in the area of performance. Repeatable. Prior approval required. No student may enroll in more than one 304-308 course per semester. Majors may apply a maximum of one THEA 308 credit toward the major requirements and a maximum of four credit hours THEA 204-208 or THEA 304-308 in combination toward meeting major requirements.

THEA 310. Theatre for Young Audiences. 3 credits.
Study of the principles, contemporary trends and practical techniques involving the production of theatrical materials for young audiences.

THEA 315. The European Theatre Tradition from 1800. 3 credits.
The history of the European theatre tradition from its beginning in Athens to the 18th century is studied with respect to theatre architecture, scene and costume design, political and social context, intellectual climate, and the theory and history of acting. Prerequisite: THEA 211.

THEA 316. The European Theatre Tradition from 1800. 3 credits.
The history of the European theatre tradition from the 19th century to the present is studied with respect to theatre architecture, scene and costume design, political and social context, intellectual climate, and the theory and history of acting. Prerequisite: THEA 211.

THEA 331. Technical Costuming. 3 credits.
Introduction to the technical aspects involved in building complete costume ensembles for the stage, screen and dance. Emphasis placed on experiencing unique problems in production situations, including specialized costume and accessory construction, ornamentation, fabric treatment, difficulties, and alternatives in presenting historical clothing and renovating and exploiting available materials. Prerequisites: THEA 171 and THEA 202 or THEA 302, or permission of the instructor.

THEA 332. Survey of Costume Fashion and Manners. 3 credits.
A survey of Western world costume from 4000 B.C. to the present as it reflects the sociocultural and socioeconomic aspects of the times. Emphasis on the evaluation of historic costume and fashion in relation to architecture, sculpture, painting and other art forms.

THEA 333. Costume Design. 3 credits.
The study of basic costume design techniques for performance. Emphasis on costuming in terms of the total production concept including directorial approach, setting and lighting design. Consideration of the process of costuming a production from first production meetings to opening.

THEA 338. History, Theory and Practice of Stage Makeup. 3 credits.
Study of the history and practice of makeup for ceremonial and theatrical presentations of selected major cultures, from ancient Egypt to the present. Consideration given to makeup as a reflection of the social organization of each culture. Emphasis on makeup as an important element in the history of design aesthetics as well as a vital part of the performing arts.

THEA/ENG 347. Playwriting. 3 credits.
Study of the process of writing plays. Consideration of plot, character, thematic material, conflict and dramatic structure. Emphasis on individual writing assignments.

THEA 351. Acting II: Intermediate Acting. 3 credits.
Study of the fundamental theories and methods of acting. Emphasis on laboratory experience in the preparation of scenes. Consideration of various acting techniques through performance with maximum individual on-stage instruction. Prerequisite: THEA 251 or permission of the instructor.

THEA 353. Music Theatre Performance. 2 credits.
Introductory course exploring the fundamentals of song analysis technique in the preparation of music theatre repertory for performance. Emphasis on solo song preparation. Basic music skills and singing ability are highly recommended. Prerequisite: THEA 251 or consent of the instructor. Audition may be required.

THEA 354. Music Theatre Workshop. 1 credit.
The preparation of Musical Theatre repertory for public performance. Emphasis on the application of the tools acquired in THEA 251, THEA 353, and other theatre, music and dance skill classes. Students may participate as a performer, or as a member of the production/artistic team. Admission is by audition/interview only.

THEA 355. Directing for the Theatre. 3 credits.
Study of the principles, problems and techniques of play direction. Emphasis on historical and modern theories. Techniques of direction considered as applied to the stage and cinematography. Prerequisites: THEA 251 and either GTHEA 210 or THEA 211.

http://www.jmu.edu/catalog/14
THEA/MUS 357. Music Theatre History and Analysis. 3 credits.
Survey of musical theatre genres, composers, lyricists, performers, directors and choreographers in America from 1750 to the present. Includes practical study of the format of the libretto and musical score in relationship to the major musical theatre genres. Consideration of how music theatre developed from and reflected the cultural, social and political landscape of its time.

THEA 371. Advanced Technical Theatre. 3 credits.
Advanced study of the technical aspects of stage production. Emphasis upon contemporary scenicographic techniques. Consideration of construction, decoration, rigging and touring problems in theatre production. Prerequisite: THEA 171 or permission of the instructor.

THEA 372. Scene Painting. 3 credits.
An introduction to the foundational techniques of scene painting, presented through a series of practical projects designed to provide students with the skills to achieve the core processes of scene painting.

THEA 373. Drafting for the Stage. 3 credits.
An introduction to the foundational techniques of drafting for the stage, presented through a series of 8 practical drafting projects designed to provide students the skills to produce ground plans, elevations and sections in both pencil and CAD drafting environments. Prerequisites: THEA 171 and THEA 272, or permission of instructor.

THEA 374. Stage Lighting. 3 credits.
Study and analysis of stage lighting. Consideration given to basic elements of electricity, electrical control and circuitry, reflection, refraction and color. Emphasis on the lighting design and aesthetics of a theatrical production.

THEA 375. Sound Design. 3 credits.
Study and analysis of the aural environment for theatre. Placement placed on sound design process and the methods and tools available to sound designers. Consideration given to the various mediums of sound design through in-class projects.

THEA 376. Scene Design. 3 credits.
Study and analysis of the visual elements of theatrical production. Emphasis on the principles and elements of design, drafting and rendering. Consideration of the aesthetics of stage design through specific applied projects.

THEA 382. Contemporary Theatre. 3 credits.
Study of post-1988 world theatre with particular attention to English and American drama. Emphasis is placed on significant drama of the last 25 years with discussion of trends in theatrical production and dramatic writing in recent decades.

THEA 390. Directed Projects. 1-3 credits, repeatable to 6 credits.
Supervised projects related to the study of theatre. Credit given for original, individual or group programs beyond the usual course offerings in theatre. A suitable completed project or report is required before credit can be awarded. Prerequisite: Permission of the director.

THEA 441. Senior Seminar in Theatre. 3 credits.
A capstone course covering career preparation, practices in the professional theatre, and other theatre related topics of interest. Students will spend the semester developing a research project related to their study in the major. Prerequisite: Senior standing and admission to the major.

THEA 442. Senior Seminar. 3 credits.
A capstone course covering career preparation, practices in the professional theatre and other theatre related topics of interest. This is a single semester seminar for students in the Honors Program to be taken concurrently with THEA 499C. Prerequisite: Senior standing and admission to the major.

THEA/ENG 447. Advanced Playwriting. 3 credits.
An advanced workshop with emphasis on developing full-length dramatic material.

THEA 449. London Theatre. 3 credits.
Study of London theatre. Consideration given to current productions of classic and contemporary works. Emphasis on production elements including acting, directing, design, writing and economic considerations. Prerequisite: Semester-in-London students only.

THEA 450. The Open Studio: An Interdisciplinary Approach to Creative Arts. 3 credits.
Introduction to the interdisciplinary studio through discussion of the history of interdisciplinary art and exposure to contemporary examples from dance, theatre, music, creative writing, visual art, film and video. Emphasis on production of original work that evidences the use of another media or collaborative work by artists from different disciplines. Prerequisites: Permission of the instructor(s) and advanced skill level in one or more of the creative arts.

THEA 452. Acting III: Contemporary Scene Study. 3 credits.
Study of advanced acting technique through the analysis, discussion and presentation of contemporary scenes. Emphasis on developing tools to improve the pursuit of an intention, partnering and moment-to-moment work. Prerequisite: THEA 351 and permission of the instructor.

THEA 453. Acting IV: Approaches to Heightened Language. 3 credits.
Advanced study of script analysis and performance technique in multiple languages. Consideration of the differing problems and potentials of stage, video and film presentations. Prerequisite: THEA 452 and permission of the instructor.

THEA 454. Advanced Music Theatre Performance. 2 credits.
Continuation of THEA 353 emphasizing more complex problems in music theatre performance including duets, trios, musical scenes. Prerequisite: THEA 353. Audition may be required.

THEA 455. Auditioning for Musical Theatre. 1 credit.
Advanced study of auditioning technique for the professional musical theatre. Emphasis on developing appropriate musical theatre audition repertory. Unions, audition formats, performance opportunities, routes to a professional career, agents and managers will also be covered. Prerequisite: THEA 353. Audition may be required.

THEA 460. Auditioning and Professional Issues. 3 credits.
Study of advanced audition techniques for the stage. Emphasis on the selection, scoring and performance of monologues. Consideration of professional issues in regard to graduate-level study or professional work in performance. Prerequisite: THEA 453 or permission of the instructor.

THEA 466. Media Performance. 3 credits.
Study of the principles and techniques of dramatic performance for the camera and microphone. Emphasis on the adaptation of each student’s performance and production skills to the recording and filming of narrative works. Consideration of the differing problems and potentials of stage, video and film presentations. Prerequisite: THEA 452 or permission of the instructor.

THEA/DANC 471. Stage Management. 3 credits.
Study and analysis of stage management. Consideration given to the methods and strategies for successful stage management for theatre, dance and other performances. Emphasis on developing management and organizational skills. Prerequisite: THEA 171.

THEA 473. Advanced Design and Rendering. 3 credits.
Advanced study in design for performance through theoretical production planning. Instruction in illustration and presentation methods necessary to communicate scenery, costume and lighting designs for performance. Emphasis is placed on the collaborative interaction between the production designers and the director or choreographer toward the creation of unified design.

THEA 481. Theory and Performance Studies. 3 credits.
Twentieth and 21st century theories and performance are studied and performance traditions outside of Europe are examined. Prerequisite: THEA 211.

THEA 485. American Theatre. 3 credits.
Study and analysis of the American theatre experience as presented in the dramatic literature of the country. Emphasis on basic American themes. Consideration of plays, playwrights and performers significant to the development of American theatre.

THEA 488. Experimental Theatre. 3 credits.
Study of avant-garde theatre. Emphasis on motivating and guiding advanced students to a higher degree of aesthetic appreciation of the theatre. Consideration of the relationship of experimental theatre to the traditional theatre.

THEA 490. Special Studies in Theatre. 1-3 credits.
An independent study for students to pursue individual research under the guidance of a faculty adviser. Prerequisites: Senior theatre majors in good standing and permission of the director.

THEA 495. Internship in Theatre. 3-6 credits.
A faculty-arranged, prepared and monitored off-campus internship program designed to provide practical experience in theatre for students preparing for careers in those areas. Prerequisite: Permission of the director.

THEA 499. Honors in Theatre. 1-3 credits.
Repeatable to a maximum of six credits. Offered fall and spring.
University Studies

UNST 150. Global Learning and Living: Madison International. 1 credit. This course provides an opportunity for a diverse cohort of international and U.S. students to learn from and about each other through stimulating discussions, intercultural residence hall programs and the opportunity to participate in service learning.

UNST 151. Making Sense of Beliefs and Values: A Guided Tour for Global Citizens. 3 credits. This course explores the origin and nature of beliefs and values and how they are linked to actions, policies and practices around the world. These processes are examined through a range of big picture issues (e.g., religious, political, environmental, gender-based, cultural) that are relevant to all global citizens. Through dynamic speakers, discussions, readings, activities and lectures, this course helps students develop a deeper understanding of self, others and the larger world.

UNST 390. Special Studies in University Studies. 1-3 credits. Designed to give students an opportunity to complete independent study and/or research under faculty supervision in university studies. Prerequisite: Permission of the instructor.

UNST 398. Practicum in University Studies. 1-3 credits. Selected practicum experiences, which provide students with supervised practicum experiences. Prerequisite: Permission of the instructor.

UNST 490. Advanced Special Studies in University Studies. 1-3 credits. Exploration of a significant topic in depth. Prerequisite: Permission of the instructor.

UNST 498. Internship in University Studies. 1-3 credits. The course allows students to receive academic credit for work experienced in an agency or organization related to university studies. Prerequisite: Permission of the instructor.

Vocational Education

College of Education
VOED 383. Curriculum and Instructional Procedures in Vocational Education. 3 credits. The study and development of techniques and methods to provide vocational education instruction to secondary school students. Competencies to be developed will include planning for instruction, applying different methodologies and assessing student performance and progress. The relationship of vocational education to other curricular areas will also be addressed.

VOED 490. Special Studies in Vocational Education. 1-3 credits. In-depth examination of selected topics that are current and relevant in the field of vocational education. Offered with the approval of the program director. Course may be repeated for credit when the content included changes.

Women's and Gender Studies

Cross Disciplinary Studies
WMST 200. Introduction to Women's and Gender Studies. 3 credits. Cross-disciplinary introduction to theories and scholarship in Women’s Studies. Examines the social construction of gender, how gender affects access to opportunity, and the experiences and contributions of women throughout history. Provides a foundation for subsequent work in the Women’s Studies minor.

WMST 300. Special Topics in Women's Studies. 3 credits. Examination of selected topics of importance to the field of women’s studies.

WMST 325. Gender and Violence. 3 credits. This course explores the public nature of private violence, specifically violence committed against women in U.S. culture. Students will investigate the social, political and personal meaning of violence within a gendered context. Throughout the course students will analyze the ways in which demographic, social, cultural, economic and political factors teach us to think about women in violent terms as well as help perpetuate violence against women. Students will consider violence not only in its physical dimension, but also in its symbolic and structural manifestations. Students will also examine the ways in which ideas about race, ethnicity, class, and sexuality affect the degree and types of violence committed against women.

WMST/SCI 337. Sociology of Gender. 3 credits. Examination of theories of sex role development, the roles of men and women in society and gender as a social construction.

WMST/JUST 341. Gender and Justice. 3 credits. This course is an interdisciplinary examination of the causes, structure and consequences of gender oppression. Consistent with the social justice track of the major, notions of fairness, justice and equality with respect to gendered social, political and economic relations will be examined.

WMST/SCOM 348. Communication and Gender. 3 credits. Study of theories and research regarding the influence of gender in various human communication contexts, both public and private. Emphasis on the critical analysis of existing theory and empirical research and the potential competent uses of communication for social change. Prerequisite: Any 100-level SCOM course.

WMST/PHIL 350. The Philosophy of Feminism. 3 credits. An intermediate-level examination of philosophical problems in feminist theory and feminist contributions to philosophy.

WMST/ENG 368. Women's Literature. 3 credits. A study of literature by women.

WMST/ENG 370. Queer Literature. 3 credits. An exploration of texts and issues in literature written by and about gay and lesbian writers, including critical and theoretical issues as well as questions of canon. Text studied may include fiction, poetry, drama, essays and memoirs written primarily, but not exclusively, in the 20th century.

WMST 400. Issues and Research in Women's Studies. 3 credits. The capstone seminar for the Women's Studies minor. Focuses on readings in feminist philosophy, history and literature. Students will engage in research in critical issues affecting women's lives. Prerequisites: WMST 200 and nine hours in the Women's Studies minor.

WMST/SCOM/WRTC 420. Feminist Rhetorics. 3 credits. Surveys key women figures in classical and contemporary rhetorical traditions and challenges the strategies used to historicize this tradition from feminist perspectives. Explores diverse feminist rhetorical discourses informed by race, sexual orientation, ethnicity and social class. Prerequisite: Junior or senior standing.

WMST/ENG 466. Studies in Women's Literature. 3 credits. Advanced study of women’s literary achievements in several cultural and historical contexts. May be focused by theme. Prerequisite: ENG 367 or ENG 368.

WMST/ISAT 485. Gender Studies in Science. 3 credits. An interdisciplinary course that looks at the scientific process, science practitioners and science students through the lens of gender analysis. Students read literature, lead discussions, perform experiments and analyze both data and processes to address the effects of educational systems on the preparation and careers of scientists, the influence of politics and culture on scientific inquiry, and the effects of critiques grounded in gender analyses on understanding the scientific process.

WMST 490. Independent Studies in Women’s Studies. 3 credits. Designed to give capable students in women’s studies an opportunity to complete independent study under faculty supervision. Prerequisite: Admission by recommendation of the instructor and permission of the program coordinator.

WMST 492. Internship in Women’s Studies. 1-3 credits. Provides the student with practical experience in employing and refining women’s studies concepts in a public or private agency, under faculty supervision. Prerequisite: Nine hours of women’s studies courses, including WMST 200.

WMST 495. Special Topics in Women's Studies. 3 credits. In-depth examination of selected topics of current importance to the field of women’s studies. Offered only with approval of the program coordinator and dean of the College of Arts and Letters. May be repeated for credit when course content changes. Prerequisite: WMST 200 or consent of instructor.

http://www.jmu.edu/catalog/14
Writing, Rhetoric and Technical Communication

School of Writing, Rhetoric and Technical Communication

GWRTC 103. Critical Reading and Writing. 3 credits.
Fosters reflective, critical reading, writing, and research in public discourse, culture, humanities, technology, and science. Challenges students to consider cross-disciplinary modes of inquiry through multiple genres and an attention to enlightened, global citizenship. Emphasizes revising for rhetorical effectiveness. GWRTC 103 fulfills the General Education Cluster One writing requirement and is a prerequisite for all WRTC courses numbered 200 or above.

WRTC 200. Introduction To Studies In Writing, Rhetoric and Technical Communication. 3 credits.
Initial core course and portal of entry into the School of Writing, Rhetoric and Technical Communication. Students will read and discuss foundational articles, undertake course projects and explore the roles that writers, rhetoricians and technical communicators are called upon to fill in their internships and jobs. Prerequisite: GWRTC 103 or equivalent.

WRTC 201. Theory and Methods in Writing, Rhetoric and Technical Communication. 3 credits.
Introduction to the theories and methodologies employed by practitioners in writing, rhetoric and technical communication. Emphasis is placed on methods of inquiry in the discipline. Primary topics include major theoretical perspectives and theorists; the relationship of research to disciplinary knowledge; and the dynamic nature of language and communication. Prerequisite or corequisite: WRTC 200 or permission of the instructor.

WRTC 300. Professional Editing. 3 credits.
Introduction to the conceptual and technical editing of a wide range of documents for diverse audiences and different purposes. Consideration of genre, tone, style and syntax. Students will learn to interact with authors and clients in both hard copy and electronic editing. Course topics allow students to encounter a wide range of editorial experiences to prepare them for the workplace. Prerequisites: WRTC 200 and WRTC 201 or permission of the instructor.

WRTC 301. Language, Law and Ethics. 3 credits.
Broad examination of the nexus of law, ethics and language. Exploration of a variety of genres in legal writing, providing a background in the role of law and ethics in society and helping students understand how language operates in the construction of legal and moral codes. Primary topics include intellectual property, privacy, legal issues in communication, the history of legal language and the ownership and ethical use of information. Prerequisites: WRTC 200 and WRTC 201 or permission of the instructor.

WRTC 310. Semiotics. 3 credits.
Systematic approach to the production of meaning and interpretation with analytical examination of semiotic signs as aggregates of information management and communication. Complexity of meaning in communication conduits, speech, texts, images, symbols, codes, icons, media designs, gestures, music and objects are investigated. Also explored is the relationship between semiotic sign systems and ecosocial systems as they impact information management and production in society. Prerequisite: GWRTC 103 or equivalent.

WRTC 312. Studies in Literacy. 3 credits.
Advanced research and writing course designed to explore the important roles that literacy plays in society. Students will examine the concept of literacy through historical, political, sociological, educational and cross-cultural lenses. Prerequisites: GWRTC 103 or equivalent.

WRTC 314. Writing in the Public Sphere. 3 credits.
Introduction to the concept of the public sphere and an examination of a variety of texts and media that illustrate the function of the public sphere. Students apply theoretical knowledge to the analysis of public discourse and present their analyses in oral and written formats. Students gain important insights into their own roles and responsibilities as citizens within the public sphere and learn to use language effectively in multiple rhetorical situations. Prerequisite: GWRTC 103 or equivalent.

WRTC 316. Research Methodologies in WRTC. 3 credits.
Introduction to the process of conducting research grounded in inquiry. Students use a variety of research methodologies to gather information from secondary and primary sources. Students evaluate information for accuracy and usability and interpret information for the audience and rhetorical context they have defined. Students in this course design a research study, carry it out and write a subject appropriate report. Prerequisite: GWRTC 103 or equivalent.

WRTC 318. Intercultural Professional Communication. 3 credits.
Focus on the importance of culture to professional communication, both in print and online, by using an intercultural perspective to examine audience, purpose, persona, context, language, page and screen design, graphics and color. Includes a consideration of basic models of culture developed in professional environments, incorporating management, teamwork and translation issues, as well as how American culture differs from other cultures worldwide. Prerequisite: GWRTC 103 or equivalent.

WRTC 328/SCOM 354. Environmental Communication and Advocacy. 3 credits.
An exploration of the multifaceted aspects of environmental controversies including the rhetoric, advocacy campaigns, and decision-making processes that produce and attempt to manage environmental conflict. Emphasis on persuasive efforts by, interest groups, corporations, resource managers, government agencies, scientific experts, politicians and citizens to influence public understanding of environmental issues, adoption of sustainable behavior and lifestyles, and public policy outcomes. Prerequisite: GWRTC 103 or equivalent.

WRTC 328. Practicum. 1-3 credits per semester, repeatable up to 6 credits.
Allows students to engage in practical experience opportunities in the field of Writing, Rhetoric and Technical Communication. Students may apply no more than three practicum credit hours toward completion of WRTC major or minor requirements. Prerequisite: GWRTC 103 or equivalent.

WRTC 330. Rhetorical Analysis and Criticism. 3 credits.
Survey and application of a range of rhetorical approaches to analyze print, oral, visual and multimodal forms of everyday communicative practices. Primary topics include the origins of rhetoric, the characteristics of contemporary forms of communication, the rhetorical theories used to explain those forms and the criticisms developed to respond to them. Prerequisites: WRTC 200 and WRTC 201 or permission of the instructor.

WRTC 332. Computers and Writing. 3 credits.
Introduction to the interrelationship between composing practices and technology. Emphasis is placed on the importance of the computer and related technologies to the practice of reading and writing. Primary topics include major theoretical perspectives on computers and writing, implications of the computer and digital technologies for the teaching of writing and the nature of the interaction between language and technology. Prerequisites: WRTC 200 and WRTC 201 or permission of the instructor.

WRTC 334. Introduction to Popular Writing. 3 credits.
A theoretical and practical overview of the growing field of popular writing. Students will analyze a broad range of genres—including reviews, commentaries, profiles, blogs and ads—from a broad range of publications, including newspapers, magazines and the Web. Prerequisite: GWRTC 103 or equivalent.

WRTC 336. Tutoring Writing. 3 credits.
Integrates the theory and practice of tutoring writing in academic settings and is suited for preparing tutors and teachers who will use writing across the disciplines. The course includes an internship in a campus writing center and provides students opportunities to develop as writers, scholars and professionals. Students will be eligible for, but not guaranteed, employment in a university writing center. Prerequisite: GWRTC 103 and permission of the instructor.

WRTC 338. Genre Theory. 3 credits.
Introduction to key concepts and principles of genre theory, specifically as taken up by scholars and practitioners of writing, rhetoric and technical communication. Students will investigate both academic and nonacademic genres and explore different purposes for writing in a range of appropriate genres. Prerequisites: WRTC 200 and WRTC 201 or permission of the instructor.
WRCT 340. Writing as Leading. 3 credits.
Investigation of contemporary leadership theories as they apply to writing; students will apply these principles and techniques to their own writing. The course will explore how writers lead readers and how leaders employ writing and use writers to influence their audiences. Students will gain experience writing in typical leadership genres, such as the position paper and the op-ed piece. Prerequisites: WRCT 200 and WRCT 201 or permission of the instructor.

WRCT 342. Writing Place. 3 credits.
Examines the relationship between language and location by analyzing print and virtual rhetorics of the social and natural environment. Students will learn about the rhetorical tradition of place-centered expression and the importance of place in society. Prerequisites: WRCT 200 and WRCT 201 or permission of the instructor.

WRCT 350. Foundations of Technical Communication. 3 credits.
Introduction to the major theories, issues and contributors in the field of technical and scientific communication. Students explore global print and electronic communication, ethical and legal issues and the project cycle. Starting with rhetorical analyses of audiences and progressing through deliverables students learn to problem solve through a variety of technical communication projects and develop their career interests in chosen technical communication fields. Prerequisites: WRCT 200 and WRCT 201 or permission of the instructor.

WRCT 352. Online Design I. 3 credits.
Introduction to advanced techniques using HTML/XHTML with attention to creating and editing websites. Includes the creation of graphics for Web pages using a variety of programs recognized as industry standards. Assignments are project-based and lead to the creation of a website. The course emphasizes tools used for electronic communication and prepares students for careers in professional communication. Prerequisites: WRCT 200 and WRCT 201 or permission of the instructor.

WRCT 354. Document Design. 3 credits.
Examination of the principles of design and the importance of the project cycle in designing documents. Students use layout and graphics programs to create professional brochures, flyers, posters, newsletters and manuals. Students will work individually and collaboratively on their projects, producing excellent portfolio pieces. This course gives students flexibility for a wide variety of career opportunities in business and industry, the non-profit sector and government. Prerequisite: WRCT 300 or permission of the instructor.

WRCT 356. Web Theory and Design. 3 credits.
Introduction to Web design, emphasizing audience, purpose, structure, accessibility, content and usability. Students analyze, create and redesign effective websites and graphic pieces. Students will also learn how to create Web teams, negotiate contracts and manage large-scale Web projects, adhering to copyright regulations. Using industry accepted applications for Web and graphic design, students in this course have the opportunity to develop several professional portfolio pieces. Prerequisites: WRCT 200 and WRCT 201 or permission of the instructor.

WRCT 358. Writing About Science and Technology. 3 credits.
Focus on the development and application of rhetorical strategies and tools used in writing about science and technology for a contemporary, general audience. As citizen-interpreters, students analyze, produce and evaluate public writing for a contemporary audience, focusing on the role of the audience and the importance of accessibility. Prerequisites: WRCT 200 and 201 or permission of the instructor.

WRCT 365. Rhetoric of Environmental Science and Technology. 3 credits.
Survey of key women figures in classical and contemporary rhetorical traditions and challenges the strategies used to historicize this tradition from feminist perspectives. Explores diverse feminist rhetorical discourses informed by race, sex, orientation, ethnic and social class. Prerequisites: WRCT 103 or equivalent and junior/senior status, or permission of the instructor.

WRCT 376. Digital Rhetoric. 3 credits.
Introduces the rhetoric of digital design in a variety of contexts. Students learn about and analyze the role of space and place in design and the importance of the digital environment in shaping audience perceptions. Prerequisites: WRCT 200 and WRCT 201 or permission of the instructor.

WRTC 410. Sociolinguistics. 3 credits.
Exploration of the role of language in society and an in-depth examination of the theoretical discourse and analytical paradigms within which questions of language are posed, analyzed and debated. Course emphasizes two important fields—micro- and macro-sociolinguistics—in dealing with choices in language use and preferences in communication strategy. Focusing on applied linguistics, students learn how to apply their skills in the social engineering of language to their career development. Prerequisite: WRCT 200 or permission of the instructor.

WRTC 412. Language and Information Management. 3 credits.
Focus on language as the nuclear component of communication and information management. Course presents language as a problem-solving device explored through various fields of language and communication studies. It provides students with management skills in efficient information organization and packaging; innovative approach and delivery; effective analyses of audiences; appropriate choice of media; productive marketing of professional skills; and professional networking. Prerequisite: WRTC 103 or equivalent.

WRTC 414. Major Theorists in WRTC. 3 credits.
Focused, in-depth study of a specific theorist or scholarly tradition in the discipline. It situates the theorist and his/her work in historical, political, rhetorical and linguistic contexts. Students engage in original research that investigates, converses with and/or builds upon the selected theorist’s scholarship. Subject matter varies with each offering. Prerequisites: WRTC 103 or equivalent and junior/senior standing, or permission of the instructor.

WRTC 416/SCOM 465. Rhetoric of Environmental Science and Technology. 3 credits.
An advanced study of the way the public receives, makes sense of, and influences scientific and technical information about environmental issues. Implications of these processes on environmental policy will be examined. Readings and assignments will concentrate on the interactions between technical and public spheres of communication, with an in-depth examination of the way the media facilitates the transfer of information between scientific communities and public audiences. Prerequisites: WRTC 103 or equivalent and junior or senior standing, or permission of the instructor.

WRTC/WMST/SCOM 420. Feminist Rhetorics. 3 credits.
Survey of key women figures in classical and contemporary rhetorical traditions and challenges the strategies used to historicize this tradition from feminist perspectives. Explores diverse feminist rhetorical discourses informed by race, sex, orientation, ethnic and social class. Prerequisites: WRCT 103 or equivalent and junior/senior status, or permission of the instructor.

WRTC 426. Special Topics in Writing, Rhetoric and Technical Communication. 3 credits.
Focused, in-depth study of specific areas or subjects in Writing, Rhetoric and Technical Communication. Topics may pertain to issues relevant to the discipline, to the study of particular theories and practices, or to the study of significant figures in the field. Seminars may be repeated for credit when course content changes. Prerequisites: WRCT 103 or equivalent and junior or senior status, or permission of the instructor.

WRTC 430/SCOM 343. Contemporary Rhetorical Theory and Practice. 3 credits.
Examines contemporary rhetorical theory and practice in relation to specific social, economic and technological changes, with particular emphasis on theoretical frameworks. Students learn about the changing needs of postmodern communicators and how new rhetorical theories have developed to anticipate, respond to, and shape those changes. Also explored is the value of contemporary rhetorical theories for communicative and performative events. Prerequisites: WRCT 200 and WRCT 201 or permission of the instructor.

WRTC 432. Rhetoric of the Personal Narrative. 3 credits.
Examination of the rhetorical elements of personal narrative. Students will read examples of personal narratives ranging from essays to longer memoirs and autobiographies, in order to examine questions related to purpose, audience, voice and style. Discussion will include what makes a piece of writing personal, what makes it a narrative and what makes it effective. Prerequisites: WRCT 200 and WRCT 201 or permission of the instructor.

WRTC 434. Advanced Popular Writing. 3 credits.
Advanced focus on a particular genre in popular writing, such as reviews, commentaries, opinion pieces, profiles, blogs, or ads. Students will engage with a specific genre to acquire both a critical understanding of its rhetorical aims and practices as well as the skills to practice writing within that genre. Students in this course have the opportunity to develop several professional portfolio pieces. Prerequisites: WRTC 200 and WRTC 201 or permission of the instructor.

WRTC 436. Teaching Writing 3 credits.
Introduces students to the major philosophies, theories and pedagogies of teaching writing. Special attention is devoted to such practical matters as understanding and developing effective writing assignments; methods of responding to student texts-in-progress and evaluating writing. Prerequisite: WRCT 300 or permission of the instructor.

WRTC 450. Digital Rhetoric. 3 credits.
Introduces the rhetoric of digital design in a variety of contexts. Students learn about the role of space and place in design and the importance of the digital environment in shaping audience perceptions. Prerequisites: WRTC 200 and WRTC 201 or permission of the instructor.

http://www.jmu.edu/catalog/14
WRTC 452. Online Design II. 3 credits.
Introduction to data basing and adding animation to a website. Students create interactive, professional websites that can include forms, animated buttons, searchable catalogs and splash pages. Students also have the opportunity to work with additional tools for developing creative portfolio pieces. Prerequisite: WRTC 352 or permission of the instructor.

WRTC 454. Publication Management. 3 credits.
Exploration of the publication production process that addresses the theory and practice of project management for professional print and electronic documents. Students work collaboratively to examine managerial and editorial responsibilities. Topics include defining editorial policy, defining management roles, working with project teams, creating document publication schedules, reviewing and editing submissions for publication and collaborating with authors. Prerequisite: WRTC 300 or permission of the instructor.

WRTC 456. Usability Testing. 3 credits.
Theoretical and practical study of the product testing of documents and interfaces in a variety of media environments. Students design, plan and conduct tests; code data from the tests; interpret the results and write reports. Students also research and analyze various tests as they learn about the rhetorical aims of document and interface assessment. Prerequisites: WRTC 200 and WRTC 201 or permission of the instructor.

WRTC 458. Scientific and Medical Communication. 3 credits.
Introduction to the context and use of language in scientific and medical disciplines. Emphasis is placed on understanding the rhetorical nature of scientific discourse. Primary topics include examining different forms of scientific and medical writing in traditional and digital contexts; the nature of communication within professional communities; and composing texts for general readers. Prerequisite: WRTC 200 and WRTC 201 or permission of the instructor.

WRTC 478. Writing in the Legal Professions. 3 credits.
Introduction to issues of ethics and law through a community-based learning model. Emphasis is placed on the use of language in legal settings. Primary topics include intellectual-property and fair-use; the interrelationship of morals, ethics and laws; and the creation of genre-relevant documents, including briefs and legal summaries. Prerequisites: WRTC 300 and WRTC 301 and either WRTC 330 or WRTC 350, or permission of the instructor.

WRTC 480. Writing for Business and Industry. 3 credits.
Introduction to the communication and discourse practices of the business community through a community-based learning model. Emphasis is placed on working directly with a business organization. Primary topics include language and ethics in business; the understanding of audience for business communication; and the creation of business documents, including proposals and business plans. Prerequisites: WRTC 300 and WRTC 301 and either WRTC 330 or WRTC 350, or permission of the instructor.

WRTC 482. Writing for Government. 3 credits.
Introduction to the communication and discourse practices of government through a community-based learning model. Emphasis is placed on working directly with a local, state or federal government agency. Primary topics include language and government; interagency communication; and developing typical governmental documents, including white papers, proposals and grants. Prerequisites: WRTC 300 and WRTC 301 and either WRTC 330 or WRTC 350, or permission of the instructor.

WRTC 484. Writing for Nonprofits. 3 credits.
Introduction to the nonprofit sector through a community-based learning model. Emphasis is placed on working directly with a nonprofit agency in the local community. Primary topics include the role of the nonprofit in society, especially as an organization for change; creation of internal and public documents, including proposals, grants and publicity materials; and the legal requirements for nonprofit status. Prerequisites: WRTC 300 and WRTC 301 and either WRTC 330 or WRTC 350, or permission of the instructor.

WRTC 485. Writing in the Community. 3 credits.
Introduction to political and social engagement at the community level using multiple texts and a community-based learning model. Emphasis is placed on writing, reflection and hands-on service projects with community agencies. Primary topics include an examination of the central role of rhetoric in citizenship, leadership, social justice and social change. Prerequisites: WRTC 300 and WRTC 301 and either WRTC 330 or WRTC 350, or permission of the instructor.

WRTC 488. Writing in the Health Sciences. 3 credits.
Introduction to the medical field through a community-based learning model. Emphasis is placed on communication within the medical field and the translation of medical language for lay audiences. Primary topics include the roles of the practitioner and audience in medical communication; power relationships among clinicians and patients; and the creation of medical documents, including reports, proposals and technical articles. Prerequisites: WRTC 300 and WRTC 301 and either WRTC 330 or WRTC 350, or permission of the instructor.

WRTC 490. Independent Study in Writing, Rhetoric and Technical Communication. 3 credits.
Individualized projects in Writing, Rhetoric and Technical Communication. Available only to junior or senior majors, though exceptions may be made at the director’s discretion. May be repeated with the director’s approval when course content changes. Prerequisites: GWRTC 100 or equivalent and junior/senior status and permission of the director.

WRTC 495. Internship in Writing, Rhetoric and Technical Communication. 3 credits.
Allows students to incorporate field experience with WRTC course work through internships in government, business, industry, or education where they can observe communication processes and apply effective written, interpersonal and public communication skills. Students must complete an application process and be approved before receiving a permission number to enroll in the course (see Internship page on WRTC website for requirements and forms). Prerequisites: WRTC 300 and WRTC 301, junior/senior status and permission of the instructor.

WRTC 496. Capstone in Writing, Rhetoric and Technical Communication. 1 Credit.
Creation of a portfolio containing the best work of students from their previous WRTC class projects, internships and independent assignments. Through individual consultations with an instructor, students will determine the form and purpose of their portfolios, which will emphasize their range of writing and editing skills as well as the breadth and depth of their rhetorical and technical knowledge. Prerequisite or coquisite: WRTC 490 or permission of the instructor.

WRTC 499. Honors. 6 credits.
Year course.
University Faculty

Jonathan R. Algo, President, Professor.
B.A., Swarthmore College; J.D., Harvard Law School.

Linwood H. Rose, President Emeritus, University Professor.
B.A., Virginia Polytechnic Institute and State University; M.S., University of Tennessee; Ed.D., University of Virginia.

Ronald E. Carrier, President Emeritus, Professor.
B.S., East Tennessee State University; M.S., Ph.D., University of Illinois.

Mohamed S. Aboutabl, Associate Professor of Computer Science.
B.S., M.S., University of Alexandria (Egypt); M.S. Ph.D., University of Maryland, College Park.

Thomas R. Adjayan, Associate Professor of Philosophy and Religion.
B.S., University of Wisconsin, Madison; Ph.D., University of North Carolina at Chapel Hill.

Andrea H. Adams, Director of Faculty Development and eLearning Programs, Center for Instructional Technology; Assistant Professor, Libraries and Educational Technologies.
B.S., Virginia Polytechnic Institute and State University; M.Ed., James Madison University.

Melinda J. Adams, Associate Professor of Political Science; Prestigious Scholarship Coordinator.
B.A., Emory University; M.A., Ph.D., University of Wisconsin, Madison.

Aderonke A. Adesanya, Associate Professor of Art History.
B.A., Obafemi Awolowo University (Nigeria); M.A., Ph.D., University of Ibadan (Nigeria).

Yonathan Admassu, Assistant Professor of Geology and Environmental Science.
B.S., Addis Ababa University (Ethiopia); M.S., University of Akron; Ph.D., Kent State University.

Jessica R. Adolino, Associate Dean, Public and International Affairs, College of Arts and Letters; Professor of Political Science.
B.A., Fairfield University; Ph.D., The Ohio State University.

Ehsan Ahmed, Head, Economics; Director, Office of Economic Services; Professor of Economics.
B.A., Punjab University, Lahore (Pakistan); M.A., Government College, Lahore (Pakistan); M.A., Roosevelt University; Ph.D., Michigan State University.

Jeremy D. Akers, Assistant Professor of Health Sciences.
B.S., Radford University; M.S., James Madison University; Ph.D., Virginia Polytechnic Institute and State University.

Ralph A. Alberico, Dean, Libraries and Educational Technologies.
B.A., State University of New York at Buffalo; M.L.S., University of Alabama.

Geary E. Albright, Assistant Professor of Physics and Astronomy.
B.A., Bates College; M.Ed., M.A., Ph.D., University of Virginia.

Carlos Galvin Alemán, Associate Professor of Communication Studies.
B.A., M.A., California State University, Fresno; Ph.D., The University of Iowa.

Melissa Wood Alemán, Interim Dean, The Graduate School; Professor of Communication Studies.
B.S., New York University; M.A., Ph.D., The University of Iowa.

Robert W. Alexander, Assistant Professor of Political Science.
B.S., Duke University; M.S., Ph.D., Indiana University; Ph.D., Syracuse University.

Shelley Aley, Associate Professor of Writing, Rhetoric and Technical Communication.
B.S.Ed., M.A., Southwest Missouri State University; Ph.D., Texas Christian University.

B.A., University of North Carolina at Pembroke; M.A., James Madison University.

Dannette Allen-Bronaugh, Instructor of Educational Foundations and Exceptionalities.
B.S., University of Vermont, M.S., Massachusetts General Institute of Health Professions.

John T. Almarode, Assistant Professor of Early, Elementary and Reading Education.
B.S., Bridgewater College; M.A.T., Mary Baldwin College; Ph.D., University of Virginia.

Jennifer Almijald, Assistant Professor of Writing, Rhetoric and Technical Communication.
B.A., M.A., Eastern Kentucky University; Ph.D., Bowling Green State University.

Karim Al Aita, Professor of Integrated Science and Technology.
B.S., University of Baghdad; M.E., M.Phil., Ph.D., The City College of the City University of New York.

Herbert K. Amato, Associate Vice Provost, University Programs; Professor of Health Sciences.
B.S., West Virginia University; M.S.Ed., James Madison University; D.A., Middle Tennessee State University.

Donna S. Amenta, Professor of Chemistry and Biochemistry.
A.B., Wheaton College (Massachusetts); M.A., Ph.D., Bryn Mawr College.

Emeka A. Anaza, Assistant Professor of Sport and Recreation Management.
B.S., Southern Illinois University Carbondale; M.S., Southern Illinois University Carbondale; Ph.D., University of Illinois at Urbana-Champaign.

Robin D. Anderson, Head, Department of Graduate Psychology; Professor of Psychology.

Steven D. Anderson, Professor of Media Arts and Design.
B.A., St. Cloud State University; M.A., Ph.D., University of Denver.

Jeffrey T. Andre, Professor of Psychology.
B.A., Muhlenberg College; M.S., Ph.D., Pennsylvania State University.

Sandra Annan, Associate Professor of Nursing.
B.S.N., West Virginia University; M.S.N., Ph.D., University of Virginia.

Pedro R. Aponte, Associate Professor of Music.
B.M., Instituto Universitario de Estudios Musicales (Caracas, Venezuela); M.M., James Madison University; M.A., Ph.D., University of Pittsburgh.

Kevin J. Apple, Department Head, Psychology; Professor of Psychology.
B.A., M.S., Ph.D., Ohio University.

Kate M. Arecchi, Musical Theatre Coordinator; Associate Professor of Theatre and Dance.
B.F.A., Syracuse University; M.F.A., Pennsylvania State University.

Christine Argenbright, Assistant Professor of Nursing.
B.S.N., Ph.D., University of Arizona.

Elizabeth Armstrong, Lecturer of Communication Studies.
B.S., M.A., Andrews University.

J. Chris Arndt, Associate Dean, School of Liberal Arts and Social Sciences; College of Arts and Letters; Professor of History.
B.A., Gettysburg College; M.A., Auburn University; Ph.D., Florida State University.

Elizabeth A. Arnold, Associate Professor of Mathematics and Statistics.
B.A., Georgetown University; M.Ed., George Mason University; Ph.D., University of Maryland, College Park.

Laura Atkins, Instructor of Computer Information Systems and Business Analytics.

Amadi Azikiwe, Associate Professor of Music.
B.M., New England Conservatory; M.M., Indiana University School of Music.

David Babcock, Assistant Professor of English.
B.A., University of Illinois at Urbana-Champaign; M.A., Ph.D., Brown University.

Sharon K. Babcock, Coordinator of Pre-professional Health Programs; Associate Professor of Biology.
B.S., University of Oklahoma; Ph.D., Duke University.

Diane M. Babral, Instructor of Nursing.
B.A., Mary Baldwin College; M.S.N., James Madison University.

Christopher Bachmann, Associate Professor of Integrated Science and Technology.
B.S., Rutgers, The State University of New Jersey; M.S., Pennsylvania State University; Ph.D., University of Virginia.

Aaron Bacue, Instructor of Communication Studies.
B.A., Xavier University; M.A., University of Delaware; Ph.D., University of Arizona.

http://www.jmu.edu/catalog/14
Jeanmarie Bechtle, Assistant Professor of Nursing. B.S.N., M.S.N., D.N.F., George Mason University.

Dennis Charles Beck, Associate Professor of Theatre and Dance. B.A., University of Colorado; M.A., University of Colorado at Boulder; Ph.D., University of Texas at Austin.

Lucy Bednar, Assistant Professor of Writing, Rhetoric and Technical Communication. B.A., Moravian College; M.A., Ph.D., Lehigh University.

Terry Beitzel, Associate Professor of Justice Studies. B.S., Frostburg State University; M.A., Harvard University; Ph.D., George Mason University.

Anna Lynn Bell, Director, University Advising. B.A., Yale University; M.S., Western Carolina University.

A. Jerry Benson, Provost and Senior Vice President for Academic Affairs; Professor of Graduate Psychology. B.A., Concord College; M.A., Ph.D., George Peabody College for Teachers.

Mace L. Bentley, Associate Professor of Integrated Science and Technology. B.A., B.S., Northern Kentucky University; M.A., University of Nebraska-Lincoln; Ph.D., University of Georgia.

Morgan C. Benton, Associate Professor of Integrated Science and Technology. B.A., University of Richmond; M.S., Ph.D., New Jersey Institute of Technology.

Thomas R. Benzing, Professor of Integrated Science and Technology. B.A., Franklin and Marshall College; M.S., University of Pittsburgh; Ph.D., Michigan State University.

Christopher E. Berndsen, Assistant Professor of Chemistry and Biochemistry. B.S., Roanoke College; Ph.D., University of Wisconsin-Madison School of Medicine.

David Bernstein, Professor of Computer Science. B.A., State University of New York at Binghamton; M.P.A., Princeton University; Ph.D., University of Pennsylvania.

Luis Betancourt, Associate Professor of Accounting. B.S., Salisbury State University; M.B.A., University of Maryland, College Park; Ph.D., University of Central Florida.

Keri S. Bethune, Assistant Professor of Educational Foundations and Exceptionalities. B.A., University of New Hampshire; M.A., Brandeis University; M.Ed., Fitchburg State College; Ph.D., University of North Carolina at Charlotte.

Cheryl L. Beverly, Professor of Learning, Technology and Leadership Education. B.A., University of South Florida; M.Ed., University of Georgia; Ph.D., University of Florida.

Vipul Bhatt, Assistant Professor of Economics. B.A., University of Delhi; M.A., Delhi School of Economics; M.A., Ph.D., The Ohio State University.

Amanda Glenn Biesecker, Associate Department Head, Department of Integrated Science and Technology; Associate Professor of Integrated Science and Technology. B.A., Dartmouth College; Ph.D., Emory University.

Charles H. Blake II, Head, Department of Political Science; Professor of Political Science. A.B., Davidson College; M.A., Ph.D., Duke University.

Dennis B. Blanton, Assistant Professor of Anthropology. B.A., University of Georgia; M.A., Brown University; Ph.D., University of Virginia.

Sharon L. Blatz, Associate Professor of Educational Foundations and Exceptionalities. B.A., M.Ed., Florida Atlantic University; Ph.D., University of Florida.

Tim Bloss, Associate Professor of Biology. B.A., Carleton College; Ph.D., University of Wisconsin, Madison.

Laura D. Blosser, Lecturer of Health Sciences. B.S., M.S., James Madison University.

Delores Brou, Director, International Student and Scholar Services, Office of International Programs. B.S., Eastern Mennonite University; J.D., Georgetown University Law Center.

Bryce M. Boardman, Assistant Professor of Chemistry and Biochemistry. B.S., James Madison University; Ph.D., University of California, Santa Barbara.
Alison Bodkin, Assistant Professor of Communication Studies.
B.A., Bradley University; M.A., Miami University of Ohio; Ph.D., Southern Illinois University, Carbondale.

Aaron T. Bodle, Assistant Professor of Early, Elementary and Reading Education.
B.S., M.S., Indiana University; Ph.D., Michigan State University.

Paul Bogard, Assistant Professor of English.
B.A., Carleton College; M.A., University of New Mexico; Ph.D., University of Nevada.

Steven P. Boistol, Professor of Music.
B.S., Clarion University; M.M., Ithaca College; D.M.A., University of Texas.

Charles Bolyard, Head, Philosophy and Religion; Professor of Philosophy and Religion.
B.A., University of North Carolina at Chapel Hill; M.A., Ph.D., Indiana University — Bloomington.

Kevin L. Borg, Associate Professor of History.
B.A., University of California, Riverside; M.A., Ph.D., University of Delaware.

Zachary J. Bortolot, Associate Professor of Integrated Science and Technology.
Sc.B., Brown University; M.Sc., University of British Columbia; Ph.D., Virginia Polytechnic Institute and State University.

Carmen Ruth Bosch, Assistant Professor of Educational Foundations and Exceptionalities.
B.A., University of Detroit; M.A., University of Detroit — Mercy; Ph.D., Wayne State University.

Alyssa T. Bosley, Lecturer of Sport and Recreation Management.
B.A., University of Connecticut; M.S., James Madison University.

D. Eric Boyd, Associate Professor of Marketing.
B.A., Beloit College; M.B.A., San Francisco State University; Ph.D., University of Virginia.

David F. Bracke, Dean, College of Science and Mathematics; Professor of Biology; Professor of Geology and Environmental Science.
B.A., College of St. Thomas; M.S., University of North Dakota; Ph.D., Indiana University.

Rebecca N. Brannon, Assistant Professor of History.
B.A., Amherst College; M.A., Ph.D., University of Michigan.

Edward Brantmeier, Associate Professor of Learning, Technology and Leadership Education.
B.A., University of Wisconsin; M.S., Ph.D., Indiana University Bloomington.

Noorjehan K. Brantmeier, Assistant Professor of Learning, Technology and Leadership Education.
B.S.W., Indiana University; M.S.W., Washington University in St. Louis; Ph.D., Colorado State University.

Robert N. Brent, Associate Professor of Integrated Science and Technology.
B.S., M.S., Ph.D., University of Illinois.

Benjamin D. Brewer, Associate Professor of Sociology.
B.A., University of California, Santa Cruz; M.A., Ph.D., Johns Hopkins University.

JoAnne Brewster, Professor of Psychology.
B.A., State University of New York at Buffalo; Ph.D., McMaster University.

Aimee Brickner, Lecturer of Communication Studies.
B.A., M.A., Miami University of Ohio.

John W. Briggs, Goodman & Company Faculty Scholar; Associate Professor of Accounting.
B.S., The College of William & Mary; M.Acc., Ph.D., Virginia Polytechnic Institute and State University.

Matthew P. Brigham, Lecturer of Communication Studies.
B.A., M.A., Bayke University; Ph.D., University of Pittsburgh.

Terry Brino-Dean, Director, School of Theatre and Dance; Associate Professor of Theatre and Dance.
B.S., Bradley University; M.A., Temple University; Ph.D., Indiana University.

Lori L. Britt, Assistant Professor of Communication Studies.
B.A., Bloomsburg University of Pennsylvania; M.A., University of North Carolina, Greensboro; Ph.D., University of Colorado.

Sarah Brooks, Associate Professor of Art History.
B.A., Dartmouth College; M.A., Ph.D., Institute of Fine Arts, New York University.

Susan Brooks, Assistant Professor of Nursing.
B.S.N., M.S.N., University of Virginia.

Andreas Broscheid, Associate Professor of Political Science.
M.A., Ph.D., State University of New York at Stony Brook.

Elizabeth T. Brown, Associate Professor of Mathematics and Statistics.
B.A., University of California, Santa Cruz; M.A., Ph.D., Boston University.

Gregory H. Brown, Web Manager, Digital Services; Assistant Professor, Libraries and Educational Technologies.
B.S., M.P.A., James Madison University.

Justin Brown, Associate Professor of Biology.
B.S., Eastern Mennonite University; Ph.D., East Carolina University.

Molly G. Brown, Veris Consulting Faculty Scholar; Lecturer of Accounting.
B.S., M.S.A., James Madison University.

Robert Brown, Associate Professor of Philosophy and Religion.
B.S., Northern Illinois University; M.Div., Trinity Divinity School; M.A., Indiana University; Ph.D., The University of Iowa.

Bruce G. Brunton, Assistant Professor of Economics.
B.A., M.A., California State University; Fullerton; Ph.D., University of Utah.

B.J. Bryson, Professor of Social Work.
B.S.W., University of North Carolina at Greensboro; M.S.W., University of Georgia; Ph.D., University of Washington — Seattle.

Bethany P. Bryson, Associate Professor of Sociology.
B.S., James Madison University; Ph.D., Princeton University.

Peter K. Bsumek, Associate Professor of Communication Studies.
B.S., University of Utah; M.A., Ph.D., University of Pittsburgh.

Florian Buchholz, Associate Professor of Computer Science.
Diplom Informatik, Technische Universität Braunschweig (Germany); M.S., Ph.D., Purdue University.

William J. Buck, Professor of Theatre.
B.A., Glassboro State College; M.F.A., Yale University.

Liam M. Buckley, Associate Professor of Anthropology.
B.A., University of Essex; M.A., University of New Mexico; M.A., Ph.D., University of Virginia.

John G. Burgess, Assistant Professor of Theatre.
B.S., James Madison University; M.F.A., The University of Arizona, Tucson.

Audrey J. Burnett, Assistant Professor of Health Sciences.
B.S., Worcester State College; M.S., Ph.D., Virginia Polytechnic Institute and State University.

Larry W. Burton, Professor of Writing, Rhetoric and Technical Communication.
B.A., M.A., Ed.D., University of Virginia.

Jeffrey E. Bush, Director, School of Music; Professor of Music.
B.Mus.Ed., Northern Illinois University; M.M., Northern Illinois University; Ph.D., University of Arizona.

Richard P. Busi, Assistant Professor of Mathematics and Statistics.
B.S., M.Ed., Slippery Rock University of Pennsylvania; Ph.D., University of Florida.

Michael E. Busing, Professor of Computer Information Systems and Business Analytics.
B.S., Purdue University; M.S., Ball State University; Ph.D., Clemson University.

Harold M. Butner, Associate Professor of Physics and Astronomy.
B.S., Rensselaer Polytechnic Institute; Ph.D., University of Texas at Austin.

John J. Butler, Professor of History.
A.B., Ph.D., Rutgers, The State University of New Jersey; B.Phil., University of St. Andrews (Scotland).

Jennifer Byrne, Associate Professor of Political Science.
B.A., University of Georgia; M.A., Ph.D., The University of Arizona, Tucson.

Jamie M. Calcagno-Roach, Instructional Technologist, Center for Instructional Technology; Assistant Professor, Libraries and Educational Technologies.
B.S., M.S., James Madison University.

Laura Cambriani, Lecturer of Foreign Languages, Literatures and Cultures.
B.A., Università La Sapienza; M.A., Università per Stranieri di Perugia.

Christopher Campbell, Academic and Career Adviser, Career and Academic Planning.
B.A., M.A., West Virginia University.

Mary Beth Cancienne, Associate Professor of Middle, Secondary, and Mathematics Education.
B.A., M.Ed., Louisiana State University; Ph.D., University of Virginia.

http://www.jmu.edu/catalog/14
Erika M. Collazo, Assistant Professor of Health Sciences.  
B.A., University of Puerto Rico, Rio Piedras Campus; M.P.H., University of Puerto Rico, Medical Sciences Campus.

Chris R. Colocoussis, Assistant Professor of Sociology.  
B.A., Stonehill College; M.A., Ph.D., University of New Hampshire.

Heather Comfort, Assistant Professor of Writing, Rhetoric and Technical Communication.  
B.A., James Madison University; M.F.A., Arizona State University.

Andrew M. Connell, Associate Professor of Music.  
B.M., San José State University; M.A., M.M., University of Michigan; Ph.D., University of California, Los Angeles.

Anca Constantin, Assistant Professor of Physics and Astronomy.  
B.S., University of Politehnică of Bucharest (Romania); Ph.D., Ohio University.

Costel Constantin, Assistant Professor of Physics and Astronomy.  
B.S., University Politehnica of Bucharest University of Bucharest (Romania); M.S., Ph.D., Ohio University.

Meredith A. Conti, Assistant Professor of Theatre.  
B.F.A., Denison University; M.A., University of Pittsburgh, Ph.D., University of Pittsburgh.

Idelle Cooper, Assistant Professor of Biology.  
B.A., Grinnell College; Ph.D., Indiana University-Bloomington, Indiana.

Paul A. Copley, Director, School of Accounting; KPMG Endowed Professorship in Accounting; Professor of Accounting; Ph.D., University of Virginia.

Donald E. Corbin, Professor of Foreign Languages, Literatures and Cultures.  
B.A., Bridgewater College; M.A., University of Maryland, College Park; Ph.D., The Ohio State University.

Ryan Corriston, Assistant Professor of Dance.  
B.A., University of Washington.

Sharon A. Cote, Associate Professor of English.  
B.A., State University of New York at Binghamton; M.A., New York University; Ph.D., University of Pennsylvania.

David H. Cottrell, Professor of Music.  
B.A., Concordia Teachers College; M.M., University of Washington; D.M.A., University of Oklahoma.

Anna M. Courtier, Associate Professor of Geology and Environmental Sciences.  
B.S., University of Wisconsin-Madison; Ph.D., University of Minnesota – Twin Cities.

Kerry F. Crawford, Assistant Professor of Political Science.  
A.B., St. Mary's College of Maryland; Ph.D., George Washington University.

Kerry O. Cresawn, Assistant Professor of Biology.  
B.S., James Madison University; Ph.D., University of Florida.

Steven G. Cresawn, Associate Professor of Biology.  
B.S., James Madison University; Ph.D., University of Florida.

Angela Crow, Associate Professor of Writing, Rhetoric and Technical Communication.  
B.A., Point Iona College; M.A., Ph.D., University of Kansas.

Robin G. Crowder, Associate Professor of Learning, Technology and Leadership Education.  
B.S., M.Ed., James Madison University; Ed.D., University of Virginia.

Catherine M. Crummett, Assistant Vice Provost, University Programs; Assistant Professor.  
B.S., Virginia Polytechnic Institute and State University; B.S., University of Maryland, College Park; M.S., Troy State University.

Diana Cruz, Assistant Professor of Military Science.  
B.S., St. Mary's University; M.B.A., University of Texas-Pan American.

Michelle D. Cude, Associate Professor of Middle, Secondary and Mathematics Education.  
B.A., University of California, Berkeley; M.A., The College of William & Mary; Ph.D., University of Virginia.

Charles D. Cunningham, Mathematics Coordinator; Science and Mathematics Learning Center.  
B.A., University of North Carolina at Chapel Hill; M.A., University of Virginia.

Vicki I. Curry, Associate Professor of Music.  
B.M., Butler University; M.A., University of Denver; Ph.D., University of Utah.

William M. Dabback, Associate Professor of Music.  
B.S., West Chester University; M.M., Ph.D., Eastman School of Music.

Paula S. Daly, Professor of Management.  
B.A., Montana State University; M.B.A., Oregon State University; Ph.D., University of Texas at Arlington.

B.S., Indiana University of Pennsylvania; B.F.A., James Madison University; M.Ed., University of Virginia.

David B. Daniel, Professor of Psychology.  
B.A., San Diego State University; M.A., Ph.D., West Virginia University.

Janet C. Daniel, Associate Professor of Biology.  
B.S., Cornell University; Ph.D., University of Chicago.

Ron M. Daniel, Professor of Interior Architecture and Industrial Design.  
B.S.E., Duke University; M.Arch., University of Illinois Chicago.

Jessica B. Davidson, Associate Professor of History.  
B.A., Trinity College; Ph.D., Brandeis University.

Christian S. Davis, Associate Professor of History.  
B.A., Swarthmore College; M.A., University of Georgia; Ph.D., Rutgers, The State University of New Jersey.

Jennifer L. Davis, Assistant Professor of Sociology.  
B.S., Radford University; M.S., Ph.D., Texas A&M University.

Laura Drake Davis, Assistant Professor; Professional Librarian, Libraries and Educational Technologies.  
B.A., University of California Santa Barbara; M.L.S, University of Maryland College Park.

Michael K. Davis, Assistant Professor of Communication Studies.  
B.A., M.A., Syracuse University; Ph.D., University of Georgia.

Gianluca De Fazio, Assistant Professor of Justice Studies.  
B.A., M.A., University of Trento (Italy); M.Sc., University of Reading (England); Ph.D., Ernæ University.

Alexander H. de Jonge, Professor of Foreign Languages, Literatures and Cultures.  
B.A., Ph.D., Oxford University.

Arthur T. Dean II, Executive Director for Campus and Community Programs.  

Michael L. Deaton, Professor of Integrated Science and Technology.  
B.S., David Lipscomb University; M.S., Memphis State University; Ph.D., Virginia Polytechnic Institute and State University.

David F. Dee, Assistant Professor of Military Science.  
B.S., Embry-Riddle Aeronautical University, M.A. from University of Phoenix.

Christine E. DeMars, Professor of Graduate Psychology; Senior Assessment Specialist, Center for Assessment and Research Studies.  
B.A., Wichita State University; M.Ed., Arizona State University; Ph.D., Michigan State University.

Rory A. DePaolis, Professor of Communication Sciences and Disorders.  
B.S., Northeastern University, M.S., Ph.D., Pennsylvania State University.

Ingrid E. DeSanctis, Assistant Professor of Theatre.  
B.S., Eastern Michigan University; M.F.A, University of North Carolina, Greensboro.

Laura Desportes, Professor of Educational Foundations and Exceptionalities.  
B.A., Mary Baldwin College; M.Ed., James Madison University; Ph.D., University of Virginia.

Maria Gilson deValpine, Associate Professor of Nursing.  
B.S.N., Oregon Health & Sciences University; M.S.N., University of Virginia; Ph.D., Portland State University.

Thomas C. DeVore, Professor of Chemistry and Biochemistry.  
B.S., The University of Iowa; Ph.D., Iowa State University.

B. Kent Diduch, Associate Professor of Health Sciences.  
B.S., The College of William & Mary; M.D., University of Virginia School of Medicine.

Philip D. Dillard, Associate Professor of History.  
B.A., M.A., University of Georgia; Ph.D., Rice University.

Thomas W. Dillon, Professor of Computer Information Systems and Business Analytics.  
B.S.Ed., M.Ed., Shippensburg University; M.S., Ph.D., University of Maryland, Baltimore County.

Judith A. Dils, Associate Dean, College of Science and Mathematics; Professor of Biology.  
A.B., M.A., Ph.D., Indiana University.

http://www.jmu.edu/catalog/14
Corinne J. Diop, Professor of Art.
B.S., James Madison University; M.F.A., University of Washington.

Gabriel T. Dobner, Professor of Music.
B.M., Chicago Musical College of Roosevelt University; M.M., D.M., Indiana University.

Kerry M. Dobransky, Assistant Professor of Sociology.
B.A., Kent State University; M.A., Ph.D., Northwestern University.

Francis J. Doherty Jr., Director, Institutional Research.
B.A., University of Richmond; M.Ed., The College of William & Mary; Ph.D., University of Virginia.

Rickie J. Domangue, Professor of Mathematics and Statistics.
B.S., M.S., Nichols State University; Ph.D., Clemson University.

Carl P. Donakowski, Professor of Music.
B.M., Indiana University; A.D., Musikhochschule (Germany); D.M.A., State University of New York at Stony Brook.

Laureen M. Donovan, Instructor of Nursing.
B.S.N., Elms College; M.S.N., Saint Joseph's College of Maine.

Zachary A. Dorsey, Assistant Professor of Theatre.
B.A., Emerson College; M.F.A., California State University.

Charles J. Dotas, Professor of Music.
B.A., University of Wisconsin, Green Bay; M.M., Eastman School of Music; D.A., University of Northern Colorado.

Kristina J. Doublet, Associate Professor of Middle, Secondary, and Mathematics Education.
B.A., Eastern Illinois University; M.Ed., Ph.D., University of Virginia.

Daniel M. Downey, Professor of Chemistry and Biochemistry.
B.S., Madison College; Ph.D., Louisiana State University.

Elizabeth A. Doyle, Associate Professor of Economics.
B.A., Macalester College; Ph.D., University of California Davis.

Joanne M. Doyle, Associate Professor of Economics.
B.A., University of Maine; Ph.D., Northwestern University.

Pamela Peterson Drake, Head, Department of Finance and Business Law, J. Grey Ferguson Professorship in Finance; Professor of Finance.
B.S., Miami University of Ohio; Ph.D, University of North Carolina at Chapel Hill; CFA.

Mary (Katie) Shepherd Drager, Assistant Professor of Early Elementary and Reading Education.
B.A., McDaniell College; M.Ed., Loyola College of Maryland; Ph.D., Virginia Polytechnic Institute and State University.

Philip B. DuBose, Faculty Ombudsperson; Professor of Management.
B.A., M.S., Clemson University; Ph.D., University of North Carolina at Chapel Hill.

Joshua E. Ducey, Assistant Professor of Mathematics and Statistics.
B.A., University of Richmond; M.S., Ph.D., University of Florida.

Carol C. Duddeck, Associate Professor of Communication Sciences and Disorders.
B.S., University of Virginia; M.S., University of Massachusetts; Ph.D., University of Virginia; CCP-SLP.

Cheri J. Duncan, Associate Professor, Libraries and Educational Technologies.
B.S., James Madison University; M.L.S., Texas Woman's University.

Gregory Dunlap, Assistant Professor of Middle, Secondary, and Mathematics Education.
B.A., St. Olaf College; M.A., University of Minnesota; Ph.D., Stanford University.

Annick H. Duval, Lecturer of Communication Studies.
B.A., American University; M.A., Brigham Young University; M.S., James Madison University.

Kimberly D. R. Duvall, Lecturer of Psychology.
B.S., M.A., James Madison University.

Jeffrey Dyeche, Associate Professor of Psychology.
B.A., Drake University; Diploma, U.S. Air Force School of Health Sciences; M.A., Appalachian State University; Ph.D., St. Louis University.

L. Scott Eaton, Professor of Geology and Environmental Science.
B.S., James Madison University; M.S., Southern Illinois University; Ph.D., University of Virginia.

Lynn E. Eaton, Assistant Professor, Professional Librarian, Libraries and Educational Technologies.
B.A., James Madison University; M.S., Miami University (Ohio); M.L.S., University of North Carolina at Chapel Hill.

Melody K. Eaton, Professor of Nursing.
B.S.N., James Madison University; M.B.A., The George Washington University; Ph.D., George Mason University.

Beth Anne Eck, Head, Sociology and Anthropology; Associate Professor of Sociology.
B.A., Westminster College; M.A., Ph.D., University of Virginia.

Elizabeth S. Edwards, Assistant Professor of Kinesiology.
B.S., M.S., Ph.D., University of Miami.

Geoffrey Egekwu, Professor of Integrated Science and Technology.
B.S., M.B.A., M.S., Ph.D., University of Nebraska.

David H. Ehrenpreis, Director, Institute for Visual Studies; Professor of Art History.
B.A., Hamilton College; M.A., Ph.D., Boston University.

Robert G. Eisias, Lecturer of Management.
B.A., High Point University; M.S.M., Wilmington College; C.A.S.E., Johns Hopkins University.

Samy S. El-Tawab, Assistant Professor of Integrated Science and Technology.
B.Sc., M.Sc., Alexandria University (Egypt); Ph.D., Old Dominion University.

S. Kirk Elwood, Professor of Economics; Professor of International Business.
B.A., University of Washington; M.A., Ph.D., University of California Davis.

Raymond Enke, Assistant Professor of Biology.
B.S., Salisbury University; Ph.D., Johns Hopkins Bloomberg School of Public Health.

Theresa M. Enyeart Smith, Associate Professor of Health Sciences.
B.S., California State University, Chico; M.S., James Madison University; Ph.D., Virginia Polytechnic Institute and State University.

Monica K. Erbacher, Assistant Professor of Graduate Psychology; Assistant Assessment Specialist, Center for Assessment and Research Studies.
B.S., Rogers State University; M.S., Ph.D., Oklahoma State University.

Michele D. Estes, Associate Professor of Learning, Technology and Leadership Education.
B.F.A., M.Ed. Valdosta State University; Ph.D., University of Georgia.

Peter Eubanks, Assistant Professor of Foreign Languages, Literatures and Cultures.
B.A., University of Virginia; M.A., Ph.D., Princeton University.

Maggie Burkhart Evans, Executive Assistant to the President.
B.A., Bowling Green State University; M.A., The Ohio State University.

William F. Evans, Professor of Psychology.
B.A., Wofford College; M.Div., Duke University; Ed.S., Ph.D., University of South Carolina — Columbia.

Matthew B. Ezell, Assistant Professor of Sociology.
B.A., M.A., Ph.D., University of North Carolina at Chapel Hill.

Mark Facknitz, Professor of English.
B.A., Lawrence University; M.F.A., The University of Iowa; Ph.D., University of New Mexico.

Susan V. Facknitz, Associate Professor of English.
B.A., M.F.A., University of Virginia.

Allison E. Fagan, Assistant Professor of English.
B.A., Saint Xavier University; M.A., Ph.D., Loyola University Chicago.

Barbara Fagan, Instructor of Learning, Technology and Leadership Education.
B.A., College of Mt. St. Vincent; M.A., Hunter College.

Jody C. Fagan, Professor; Professional Librarian, Libraries and Educational Technologies.
B.S., Missouri State University; M.A., Southern Illinois University; M.S.L., University of Maryland, College Park.

Barry L. Falk, Director, Honors Program; Professor of Economics.
B.A., University of Pennsylvania; Ph.D., University of Minnesota.

William T. Faranda, Associate Professor of Marketing.
B.S., M.B.A., Miami University of Ohio; Ph.D., Arizona State University.

Christine Fasching-Maphis, Instructor of Nursing.
B.S.N., M.S.N., F.N.P., James Madison University.

Marina C. Favila, Associate Professor of English.
B.A., University of Maryland, College Park; M.L.A., Johns Hopkins University; Ph.D., University of Massachusetts.

http://www.jmu.edu/catalog/14
Giuliana Fazzion, Head, Department of Foreign Languages, Literatures, and Cultures; Professor of Foreign Languages, Literatures and Cultures.
B.A., M.A., Old Dominion University; Ph.D., The Catholic University of America.

Jared Featherstone, Assistant Professor of Writing, Rhetoric and Technical Communication.
M.A., M.F.A., University of Maryland, College Park.

Annette R. Federico, Professor of English.
B.A., Honors Tutorial College, Ohio University; M.A., Ph.D., Case Western Reserve University.

Klebert B. Felisola, Assistant Professor of Physics and Astronomy.
B.S., University of São Paulo (Brazil); M.S., Ph.D., University of Massachusetts at Amherst.

Joy Ferenbaugh, Assistant Professor of Integrated Science and Technology.
B.S., University of California Davis; M.S., University of Minnesota; Ph.D., Texas Tech University.

Susan O. Ferguson, Lecturer of Accounting.
B.S., The College of William & Mary, M.S.A., University of Virginia.

Kathleen M. Ferraiolo, Associate Professor of Political Science.
B.A., College of Holy Cross; M.A., Ph.D., University of Virginia.

Lynn S. Fichter, Professor of Geology and Environmental Science.
B.S., Juniata College; M.S., Ph.D., University of Michigan.

Rebecca E. Field, Associate Professor of Mathematics and Statistics.
B.A., Bowling College; M.S., Ph.D., The University of Chicago.

T. Windsor Fields, Professor of Economics.
A.B., The College of William & Mary; M.A., University of Michigan; Ph.D., University of Virginia.

Eric M. Fife, Director, School of Communications Studies; Professor of Communication Studies.
B.S., James Madison University; M.A., University of Maryland, College Park; Ph.D., Purdue University.

Andrew P. Fink, Lecturer of Health Sciences.
B.S., M.Ed., University of Virginia.

Jason D. Fink, Professor of Finance.
B.S., M.S., Florida State University; M.A., Ph.D., University of Virginia.

Kristin E. Fink, Professor of Finance.
B.S., The Ohio State University; M.A., University of Cincinnati; M.A., Ph.D., University of Virginia.

Richard S. Finkelstein, Associate Professor of Theatre and Dance.

Sara J. Finney, Professor of Graduate Psychology; Senior Assessment Specialist, Center for Assessment and Research Studies.
B.A., University of Wisconsin, Eau Claire; M.A., Ph.D., University of Nebraska-Lincoln.

Timothy J. Fitzgerald, Assistant Professor of History.
B.A., The College of William & Mary; Ph.D., Harvard University.

Daniel E. Flag, Professor of Philosophy and Religion.
B.A., Luther College; M.A., Ph.D., The University of Iowa.

Dolores L. Flamiano, Professor of Media Arts and Design.
B.A., Occidental College; M.A., Ph.D., University of North Carolina—Chapel Hill.

Angela I. Flannery, Lecturer of Sport and Recreation Management.
B.A., Ottenheimer University; M.S., Madison Madison University; J.D., University of Cincinnati.

Frances Flannery, Associate Professor of Philosophy and Religion.
B.S., The College of William & Mary; M.A., Ph.D., The University of Iowa.

Patrick Fleming, Assistant Professor of Philosophy and Religion.
B.A., Indiana University; Ph.D., University of Connecticut.

Brian C. Flota, Assistant Professor, Professional Librarian, Libraries and Educational Technologies.
B.A., University of California, Riverside; M.S., University of Illinois at Urbana-Champaign, Ph.D. The George Washington University.

Kathryn L. Floyd, Instructor of Nursing.
B.S.N., Radford University; M.S.N., F.N.P., University of Virginia.

Kethera A. J. Fogler, Assistant Professor of Psychology.
B.A., M.A., University of Colorado — Colorado Springs; Ph.D., Saint Louis University.

George Font, Associate Professor of Early, Elementary and Reading Education.
B.S., M.Ed., University of Central Florida; Ph.D., University of Georgia.

Donald Ford, Associate Professor of Learning, Technology and Leadership Education.

Karen A. Ford, Professor of Social Work.
B.A., Emory and Henry College; M.S.W., Virginia Commonwealth University, D.S.W.; Howard University.

David R. Fordham, PBGH Faculty Scholar, Professor of Accounting.
B.S., Jones College; M.B.A., University of North Florida; Ph.D., Florida State University.

Kimberley A. Foreman, Associate Dean, Human Resources and Administration, College of Business; Lecturer of Accounting.
B.B.A., M.S.A., James Madison University.

Diane L. Foucar-Szocki, Professor of Learning, Technology and Leadership Education.
B.A., San Diego State University; M.S., State University of New York at Buffalo; Ed.D., Syracuse University.

Reginald F. Foucar-Szocki, Professor of Hospitality Management.
B.S., Michigan State University; M.Ed., Buffalo State College; Ed.D., Syracuse University.

Richard D. Foust Jr., Professor of Chemistry and Biochemistry.
B.S., The Pennsylvania State University; Ph.D., University of California, Santa Barbara.

Christopher J. Fox, Professor of Computer Science.
B.A., M.A., Michigan State University; M.S., Ph.D., Syracuse University.

Philip L. Frana, Associate Director, Honors Program; Associate Professor of Interdisciplinary Liberal Studies.
B.A., Wartburg College; M.A., Ph.D., Iowa State University.

Gary Freeburg, Director, Sawhill Gallery; Associate Professor of Art, Design and Art History.
B.F.A., The University of Iowa; M.A., Ph.D., Minnesota State University.

Evan J. Friss, Assistant Professor of History.
B.A., University of Maryland; M.A., New York University; Ph.D., City University of New York.

Jamie L. Frye, Associate Professor of Health Sciences.
B.A., Coe College; M.S., Indiana State University; Ph.D., University of Virginia.

Steven P. Fryeinger, Professor of Integrated Science and Technology; Professor of Computer Science.
B.A., William Paterson College; M.S., Stevens Institute of Technology; Ph.D., Rutgers, The State University of New Jersey.

Keigo Fukumura, Assistant Professor of Physics and Astronomy.
B.S., Kyoto Sangyo University (Japan); M.S., Western Illinois University; Ph.D., Montana State University.

Keston Fulcher, Associate Professor of Graduate Psychology; Associate Director, Center for Assessment and Research Studies.
B.A., University of Virginia; Ed.S., University of Kansas; Ph.D., James Madison University.

Alexander L. Gabbin, KPMG LLP Professor; Professor of Accounting.
B.A., Howard University; M.B.A., University of Chicago; Ph.D., Temple University Graduate School of Business.

Joanne V. Gabbin, KPMG LLP Professor; Professor of Accounting.
B.A., Morgan State College; M.A., Ph.D., University of Chicago.

Mark L. Gabriele, Professor of Biology.
B.S., James Madison University; Ph.D., Wake Forest University School of Medicine.

Michael J. Galgano, Professor of History.
B.A., M.A., University of Virginia; Ph.D., Vanderbilt University.

Daniel G. Gallagher, CSX Distinguished Professorship in Management; Professor of Management.
B.A., University of Massachusetts Boston; M.A., Ph.D., University of Illinois at Urbana-Champaign.

Scott R. Gallagher, Head, Department of Management; Professor of International Business; Professor of Management.
B.A., University of Texas at Austin; M.P.P., Harvard University; Ph.D., Rutgers, The State University of New Jersey.

Maria Galmari, Assistant Professor of History.
B.A., Catholic University of the Sacred Heart, Milan; M.A., Ph.D., University of Illinois.

http://www.jmu.edu/catalog/14
Steven F. Garren, Professor of Mathematics and Statistics.
B.S., Roanoke College; M.S., Ph.D., University of North Carolina at Chapel Hill.

Norman E. Garrison, Professor of Biology.
B.S., Mars Hill College; M.A., Wake Forest University; M.S., Ph.D., University of Massachusetts.

Sharon S. Gasser, Professor, Associate Dean and Professional Librarian, Libraries and Educational Technologies.
B.A., Cornell College; B.S., Virginia Polytechnic Institute and State University; M.L.S., University of Illinois.

Richard Gaughran, Assistant Professor of English.
B.A., Robert Wesleyan College; M.A., Ph.D., Lehigh University.

Mary K. Gayne, Associate Professor of History.
B.A., American University; B.A., Portland State University; M.A., Ph.D., Cornell University.

H. M. Geffland, Associate Professor of History; Associate Professor of Interdisciplinary Liberal Studies.
A.B., M.A., University of Georgia; M.A., University of Kentucky; Ph.D., University of Arizona.

Chad Gensel, Academic and Career Adviser, Career and Academic Planning.
B.A., Shippensburg University; M.A. Edinboro University.

Susan R. Ghiaciuc, Associate Professor of Writing, Rhetoric and Technical Communication.
B.A., The University of Iowa; M.F.A., University of Texas at El Paso; Ph.D., University of Louisville.

Anthony C. Gibson, Assistant Professor of Military Science.
B.S., Radford University.

Jonathan B. Gibson, Associate Professor of Music.
B.M., University of Richmond; M.A., Ph.D., Duke University.

Pamela R. Gibson, Professor of Psychology.
B.A., M.A., Cleveland State University; Ph.D., University of Rhode Island.

Kelly D. Giles, Associate Professor; Professional Librarian, Libraries and Educational Technologies.
B.A., Randolph-Macon Woman’s College; M.A.L.S., University of Wisconsin-Madison.

John W. Gijle, Professor of Chemistry and Biochemistry.
B.D.chem., University of Minnesota; Ph.D., University of Michigan.

Kevin L. Giovanetti, Professor of Physics and Astronomy.
B.S., Lowell Technological Institute; M.S., Ph.D., The College of William & Mary.

Kyle G. Gipson, Assistant Professor of Engineering.
B.S., Wofford College; M.S., Institute of Textile Technology; Ph.D., Clemson University.

Deborah L. Gleason, Assistant Professor of Nursing.
B.A., Bucknell University; B.S.N., Duquesne University; M.S.N University of Pittsburgh; Ph.D., University of Virginia.

Janet W. Gleckner, Professor of Health Sciences.
B.S., The Ohio State University; M.S., Colorado State University; Ph.D., University of Illinois.

Katrina E. Gobetz, Associate Professor of Biology.
B.A., Cognate University; M.S., Indiana University; Ph.D., University of Kansas.

Julie A. Gochenour, Instructor of Communication Studies.
B.A., Eastern Mennonite University; M.A., Eastern Mennonite Seminary; Ph.D., Union Institute and University.

Mollie A. Godfrey, Assistant Professor of English.
B.A., Reed College; Ph.D., University of Chicago.

Robert D. Goebel, Professor of Foreign Languages, Literatures and Cultures.
B.A., M.A., The University of Arizona; Tucson; Ph.D., Rutgers, The State University of New Jersey.

Teressa A. Gonzalez, Vice Provost for Academic Development; Professor of Graduate Psychology.

Amy L. Goodall, Associate Professor of Integrated Science and Technology.
B.A., California University of Pennsylvania; M.S., Shippensburg University; Ph.D., University of Nebraska.

Paul Goodall, Associate Professor of Integrated Science and Technology.
B.S., University of Virginia; M.A., The College of William & Mary.

Dawn Goode, Associate Professor of English.
B.A., Trinity University – San Antonio; M.A., Ph.D., University of Connecticut.

Jeffrey Goodman, Associate Professor of Philosophy and Religion.
B.A., University of California Davis; M.A., Ph.D., University of Rochester.

Mary A. Gowan, Dean, College of Business; Professor of Management.
B.A., Southwest Baptist College, Missouri; M.A., Appalachian State University; Ph.D., University of Georgia.

Amy Graham, Assistant Professor of Nursing.
B.S.N., University of Colorado; M.S.N., James Madison University.

Mark A. Graham, Lecturer of Finance and Business Law.
B.S., M.B.A., Virginia Polytechnic Institute and State University; C.P.A.

Keith A. Grant, Assistant Professor of Political Science.
B.A., Bucknell University; M.A., Ph.D., University of Arizona.

William C. Grant, Professor of Economics.
B.A., Davidson College; Ph.D., University of North Carolina at Chapel Hill.

Lincoln C. Gray, Professor of Communication Sciences and Disorders.
B.A., Carleton College; Ph.D., Michigan State University.

Rustin P. Greene, Professor of Media Arts and Design.
B.A., San Diego State University; M.F.A., University of Minnesota.

Oris T. Griffin McCoy, Professor of Learning, Technology and Leadership Education.
B.A., Winston-Salem State University; M.A., Ed.D., Western Michigan University.

Heather P. Griscom, Associate Professor of Biology.
B.A., Smith College; M.S., Ph.D., Yale University.

Ralph Grove, Professor of Computer Science.
B.S., Purdue University; M.S., Ph.D., University of Louisville.

Michael Grundmann, Associate Professor of Media Arts and Design.
B.A., San Francisco State University; M.F.A., Temple University.

Michael D. Gubser, Associate Professor of History.
B.A., The College of William & Mary; M.A., University of South Carolina; Ph.D., University of California, Berkeley.

Steven W. Guerrier, Professor of History.
B.A., Wayne State University; M.A., Ph.D., University of Michigan.

Eric R. Guinnivan, Assistant Professor of Music.
B.M., Indiana University; D.M., University of Southern California.

Michael J. Gulotta, Lecturer of Communication Studies.
B.A., University of Maryland, College Park; M.A., Auburn University.

Elisabeth C. Gumnier, Associate Professor of Writing, Rhetoric and Technical Communication.
M.A., Ph.D., Indiana University.

Chengqi Guo, Assistant Professor of Computer Information Systems and Business Analytics.
B.S., Guangdong University of Foreign Studies (China); M.S., Northern Illinois University; Ph.D., Mississippi State University.

Joyce Woodson Guthrie, Associate Dean, Student Services, College of Business; Assistant Professor of Marketing.
B.A., Howard University; M.B.A., Harvard Graduate School of Business.

Tracy N. Hakala, Associate Director, Career and Academic Planning.
B.S., M.Ed., James Madison University.

Patty J. Hale, Professor of Nursing.
B.S.N., University of Wisconsin, Milwaukee; M.S.N., University of Virginia; Ph.D., University of Maryland, Baltimore.

Debra Hall, Instructor of Mathematics and Statistics.
B.S., Lambuth College; M.S., Tennessee Technological University.

Michael D. Hall, Professor of Psychology.
B.S., University of New Mexico; M.A., Ph.D., State University of New York at Binghamton.

Robert Hallahan, Assistant Professor of Music.
B.M., East Carolina University.

Linda Cabe Halpern, Vice Provost for University Programs; Professor of Art History.
B.A., University of North Carolina at Chapel Hill; M.A., Ph.D., Yale University.

Susan R. Halsell, Associate Professor of Biology.
B.A., M.A., University of Texas at Austin; Ph.D., California Institute of Technology.

Hasan Hamdan, Professor of Mathematics and Statistics.
B.S., Birzeit University; M.S., Ph.D., American University.

Arthur J. Hamilton, Professor of Business Law.
B.A., University of Virginia; M.B.A., James Madison University; J.D., University of South Carolina.

Carol W. Hamilton, Lecturer of Management.
B.S., Clemson University; M.B.A., James Madison University.

http://www.jmu.edu/catalog/14
454 James Madison University 2014-2015 Undergraduate Catalog

Robbie L. Higdon, Instructor of Middle, Secondary and Mathematics Education.
B.A., Furman University; M.Ed., James Madison University; Ph.D., Clemson University.

Richard D. Hilliard, Associate Professor of Graphic Design.
B.FA., Pratt Institute; M.A. Syracuse University; M.F.A. University of Hartford Art School.

M. Joseph Hinshaw, Professor of Media Arts and Design.
B.A., Bethany College; M.A., Ph.D., Indiana University.

Tatjana M. Hocke, Assistant Professor of Communication Studies.
B.A., M.A., University of Leipzig; M.A., University of Houston; Ph.D., University of Tennessee.

Steven H. Hoeltzel, Associate Professor of Philosophy and Religion.
B.A., Michigan State; Ph.D., The University of Iowa.

Shelly L. Hokanson, Assistant Professor of Media Arts and Design.
B.B.A., Robert Morris College; Ed.M., University of Illinois at Urbana-Champaign; M.F.A., Governors State University.

S. Keith Holland, Assistant Professor of Engineering.
B.S., James Madison University; M.S., Ph.D., University of Virginia.

Steven W. Holloway, Assistant Professor, Professional Librarian.
Libraries and Educational Technologies.
B.A., Samford University; M.A., The University of Chicago, IL; Ph.D., The University of Chicago; M.L.I.S., University of Illinois at Urbana-Champaign.

JoAnne M. Holman, Professor of Media Arts and Design.
B.A., Concordia University; M.S., Syracuse University; Ph.D., Indiana University.

Daniel D. Holt, Assistant Professor of Psychology.
B.S., M.S., St. Cloud State University; Ph.D., Washington University.

Ann E. Horigan, Assistant Professor of Nursing.
B.S.N., James Madison University; M.S.N., Ph.D., Duke University.

Robert N. Horn, Professor of Economics.
Professor of International Business.
B.A., Hofstra University; M.A., Ph.D., University of New Hampshire.

Rebecca E. Howes-Mischel, Assistant Professor of Anthropology.
B.A., Swarthmore College; M.A., Ph.D., New York University.

Timothy M. Howley, Lecturer of Health Sciences.
B.S., M.A., James Madison University.

Yongguang Hu, Assistant Professor of History.
B.S., Beijing University; M.A., Ph.D., State University of New York.

Wanchi Huang, Professor of Music.

Larry Huffman, Instructor of Educational Foundations and Exceptionalities.
B.A., Bridgewater College; M.A., Madison College.

Michelle A. Hughes, Associate Professor of Early, Elementary and Reading Education.
B.A., State University of New York at Brockport; M.S., Nazareth College; Ph.D., University of Virginia.

W. Christopher Hughes, Professor of Physics and Astronomy.
B.S., Davidson College; Ph.D., University of North Carolina at Chapel Hill.

Christine A. Hughey, Associate Professor of Chemistry and Biochemistry.
B.S., Berry College; Ph.D., Florida State University.

John W. Hulsey, Assistant Professor of Political Science.
B.A., University of Arkansas; Ph.D., Indiana University.

Linda J. Hulten, Professor of Nursing.
B.S.N., Roberts Wesleyan College; M.S.N., Ph.D., University of Virginia.

Cynthia A. Hunter, Associate Professor of Social Work.
B.A., Central Michigan University; M.S.W., Howard University.

Caro A. Hurney, Professor of Biology.
B.A., University of Rochester; Ph.D., University of Virginia.

Oliver Hyman, Lecturer of Biology.
B.S., University of Colorado – Boulder; M.S., Ph.D., Arizona State University.

Raymond M. Hyser Jr., Cluster Four Coordinator, Professor of History.
B.S.Ed., M.A., Georgia Southern College; Ph.D., Florida State University.

Richard Ingram, Assistant Professor of Learning, Technology and Leadership Education.
B.S., Virginia Polytechnic Institute and State University; M.A., James Madison University; Ph.D., Indiana University.

Susan Ingram, Instructor of Communication Sciences and Disorders.
B.S., M.S. James Madison University; CCC-SLP.

Jessica G. Irons, Associate Professor of Psychology.
B.A., M.S., Augusta State University; Ph.D., Auburn University.

Meryl Irwin, Assistant Professor of Communication Studies.
B.A., Concordia College; M.A., University of Nebraska; Ph.D., University of Iowa.

Ming Ivory, Professor of Integrated Science and Technology.
B.S., Tufts University; M.A., University of Pennsylvania; Ph.D., Massachusetts Institute of Technology.

Claire Jacobson, Assistant Professor of Communication Sciences and Disorders.
B.S., University of Utah; M.Ed., Dalhousie University; M.S., University of Mississippi; Au.D., The University of Arizona School of Health Sciences and Osteopathic Medicine; CCC-A.

Karen P. Jagiello, Assistant Professor of Nursing.
B.S.N., Eastern Mennonite University; M.S.N., James Madison University.

Nusrat Jahan, Associate Professor of Mathematics and Statistics.
B.Sc., University of Dhaka (Bangladesh); M.S., Queens University (Canada); Ph.D., Mississippi State University.

Kristina V. Jakobsen, Assistant Professor of Psychology.
B.A., University of California Davis; M.A., San Francisco State University; Ph.D., McGill University.

Gregory G. Jansen, Instructor of Mathematics and Statistics.
B.A., Clemson University; M.S., University of Georgia.

Kevin Jefferson, Instructor of Writing, Rhetoric and Technical Communication.

Elizabeth J. Jeffery, Assistant Professor of Physics and Astronomy.
B.S., Hofstra University; M.A., Ph.D., University of Texas at Austin.

David K. Jeffrey, Dean, College of Arts and Letters; Professor of English.
B.A., Hobart College; M.A., University of Virginia; Ph.D., University of North Carolina at Chapel Hill.

Robert T. Jerome Jr., Professor of International Business; Professor of Economics.
B.A., Texas Christian University; Ph.D., University of Virginia.

James W. Jewett, Instructor of Computer Information Systems and Business Analytics.
B.S., University of Mary Washington; M.B.A., M.S., Virginia Polytechnic Institute and State University.

Fiona Xiaoying Ji, Assistant Professor of Management.
B.A., China Foreign Affairs University; M.S., Grenoble Graduate School of Business; Ph.D., Virginia Polytechnic and State University.

Bruce A. Johnson, Professor of English.
B.A., Greenville College; M.A., Indiana University; Ph.D., University of Illinois.

Elizabeth A. Johnson, Associate Professor of Geology and Environmental Science.
B.A., Rice University; M.S., Ph.D., California Institute of Technology.

George C. Johnson, Professor of Media Arts and Design.
B.S., M.S., University of Southern Mississippi; Ph.D., Southern Illinois University Carbondale.

Kia N. Johnson, Associate Professor of Communication Sciences and Disorders.
B.S., Truman State University; M.S., Howard University; Ph.D., Vanderbilt University; CCC-SLP.

Marilou M. Johnson, Director, School of Media Arts and Design; Professor of Media Arts and Design.
B.S., James Madison University; M.S.M.C., Arkansas State University; Ph.D., University of Tennessee Knoxville.

Pamela S. Johnson, Professor of Theatre.
B.A., University of Virginia; M.F.A., James Madison University.

Brant C. Jones, Associate Professor of Mathematics and Statistics.
B.S., University of Washington; M.S., University of California Davis.

David A. Jones, Professor of Political Science.
B.S., Appalachian State University; M.A., Ph.D., Purdue University.
Gabrielle M. Lanier, Interim Head, Department of History; Professor of History.
B.A., University of Pennsylvania; M.A., Ph.D., University of Delaware.

Andrew B. Lankford, Professor of Music.
B.M., D.M.A., University of North Carolina at Greensboro; M.M., University of Kansas.

Chris S. Lantz, Professor of Biology.
B.S., James Madison University; Ph.D., Medical College of Virginia.

Timothy M. LaPira, Associate Professor of Political Science.
B.A., LaSalle University; Ph.D., Rutgers, The State University of New Jersey.

W. Math Larson, Professor of Marketing.
B.A., B.A., Brigham Young University; Ph.D., University of Virginia; Ph.D., Virginia Polytechnic Institute and State University.

B.A., James Madison University; M.Ed., College of William & Mary.

Richard Roberts Lawler, Associate Professor of Anthropology.
B.A., University of Illinois at Urbana-Champaign; M.A., Southern Illinois University; M.P.H., Ph.D., Yale University.

Natalie Kerr Lawrence, Associate Professor of Psychology.
B.S., Mary Washington College; M.A., Hollins University; Ph.D., Virginia Commonwealth University.

Laura Leduc, Associate Professor of Management.
B.A., Florida State University; M.B.A., University of South Carolina; Ph.D., The University of Iowa.

Hak-Soon Lee, Assistant Professor of Political Science.
B.A., M.A., Seoul National University; Ph.D., University of North Carolina at Chapel Hill.

Jamie Lee, Assistant Professor of Nursing.
B.S.N., M.S.N., Shenandoah University.

Matthew R. Lee, Associate Professor of Psychology.
B.A., Rutgers, The State University of New Jersey; M.A., Ph.D., University of Illinois at Urbana-Champaign.

Robert Edwin Lee, Professor of Mathematics and Statistics.
B.A., Berea College; M.A., Appalachian State University; Ph.D., University of South Carolina.

Alexander S. Leidholdt, Professor of Media Arts and Design.
B.A., Virginia Wesleyan College; M.S., Clarion University; Ed.S., Indiana University; Ph.D., Old Dominion University.

Melissa Leisien, Instructor of Nursing.
B.S.N., Eastern Mennonite University; M.S.N., George Mason University.

Diene C. Lending, Professor of Computer Information Systems and Business Analytics.
B.A., University of Virginia; Ph.D., University of Minnesota.

Stephen A. Leslie, Head, Geology and Environmental Science; Professor of Geology and Environmental Science.
B.S., Bowling Green State University; M.S., University of Idaho; Ph.D., The Ohio State University.

Alan J. Levinovitz, Assistant Professor of Philosophy and Religion.
B.A., Stanford University; M.A., Ph.D., University of Chicago Divinity School.

Erica J. Lewis, Assistant Professor of Nursing.
B.S.N., Lapeytonie College; M.S.N., Ph.D. University of Virginia.

Scott B. Lewis, Associate Professor of Chemistry and Biochemistry.
B.S., Northern Arizona University; M.S., Ph.D., University of Washington.

Kristi L. Lewis, Associate Professor of Health Sciences.
B.S., Virginia Commonwealth University; M.P.H., Medical College of Virginia; Ph.D., Virginia Commonwealth University.

Robert J. Lifka, Instructor of Kinesiology.
B.S., Quincy University; M.S., University of Illinois at Chicago.

Theresa Lind, Lecturer of Hospitality Management.
B.S., Ithaca College; M.Ed., James Madison University.

G. Fletcher Linder, Director, Interdisciplinary Liberal Studies; Professor of Anthropology.
B.A., University of North Carolina at Asheville; M.A., Ph.D., University of North Carolina at Chapel Hill.

Joshua M. Linder, Assistant Professor of Anthropology.
B.A., Washington University in St. Louis; M.A. Hunter College; Ph.D. Graduate Center, City University of New York; New York Consortium in Evolutionary Primatology.

Kristina C. Liskay, Assistant Professor of Health Sciences.
B.S., Brigham Young University; M.P.H., James Madison University.

John Little, Professor of Music.
B.S., State University of New York at Fredonia; M.M., Southern Illinois University; D.M.A., University of Illinois.

Christie Liu, Instructional Technologist for Blended Learning, Center for Instructional Technology; Assistant Professor, Libraries and Educational Technologies.
M.Ed., East Tennessee State University; Ph.D., Virginia Polytechnic and State University.

James H. Liu, Professor of Mathematics and Statistics.
B.S., The University of Science and Technology of China; M.S., Anhui University; Ph.D., Southern Illinois University Carbondale.

Qingfeng Liu, Associate Professor of Finance; Associate Professor of International Business.
B.A., Shenzhen University (China); M.B.A., University of Kansas; Ph.D., University of Oklahoma.

Michael Loso, Associate Professor of Learning, Technology, and Leadership Education.
B.A., State University of New York at Potsdam; M.A., James Madison University; Ed.D., Nova University Southeastern.

Timothy J. Louwers, Jackson E. Ramsey Centennial Chair in Business; Professor of Accounting.

Douglas J. Loveless, Assistant Professor of Early, Elementary and Reading Education.
B.S., M.S., Ph.D., Texas A&M University-Corpus Christi.

Sharon E. Lovell, Dean, College of Integrated Science and Technology; Professor of Psychology.
B.S., James Madison University; M.A., Ph.D., Bowling Green State University.

LouAnn Lovin, Professor of Mathematics and Statistics.
B.S., North Carolina State University; M.S., Western Carolina University; Ph.D., University of Georgia.

Caroline P. Lubert, Professor of Mathematics and Statistics.
B.A., Ph.D., University of Exeter.

Howard L. Lubert, Professor of Political Science.
B.A., Rutgers, The State University of New Jersey; M.A., Ph.D., Duke University.

Stephen K. Lucas, Professor of Mathematics and Statistics.
B.MATH, University of Wollongong; Ph.D., University of Sydney.

Nicholas D. Luden, Assistant Professor of Kinesiology.
B.S., Slippery Rock University; M.S., James Madison University; Ph.D., Ball State University.

Christy Ludlow, Professor of Communication Sciences and Disorders.
B.Sc., M.Sc., McGill University; Ph.D., New York University; CCC-SLP.

Patrice M. Ludwig, Assistant Professor of Biology.
B.S., M.S., James Madison University; Ph.D., University of Virginia.

S. Scott Lunsford, Associate Professor of Writing, Rhetoric and Technical Communication.
B.A., University of Texas of the Permian Basin; M.A., DePaul University; Ph.D., University of Texas at El Paso.

Tracy A. Luper, Associate Professor of Philosophy and Religion.
B.S., B.A., M.A., Ph.D., University of Texas at Austin.

Rebecca A. Lustig, Assistant Professor of Theatre and Dance.
B.A., University of California at Santa Cruz; M.F.A., University of California at San Diego.

Claire W. Lyons, Professor of Psychology.
B.Sc., Trinity College, Dublin (Ireland); M.Sc., Psychology, University of Limerick (Ireland); Ph.D., Queen’s University, Belfast, (Northern Ireland).

Paul E. Mabrey III, Lecturer of Communication Studies.
B.G.S., Fort Hays University; M.A., Georgia State University.

Gina M. MacDonald, Assistant Professor of Philosophy.
B.S., Hamilton Preserve School; M.A., University of Minnesota.

Jackson E. Ramsey Centennial Chair in Business; Professor of Accounting.

Douglas J. Loveless, Assistant Professor of Early, Elementary and Reading Education.
B.S., M.S., Ph.D., Texas A&M University-Corpus Christi.

Sharon E. Lovell, Dean, College of Integrated Science and Technology; Professor of Psychology.
B.S., James Madison University; M.A., Ph.D., Bowling Green State University.

LouAnn Lovin, Professor of Mathematics and Statistics.
B.S., North Carolina State University; M.S., Western Carolina University; Ph.D., University of Georgia.

Caroline P. Lubert, Professor of Mathematics and Statistics.
B.A., Ph.D., University of Exeter.

Howard L. Lubert, Professor of Political Science.
B.A., Rutgers, The State University of New Jersey; M.A., Ph.D., Duke University.

Stephen K. Lucas, Professor of Mathematics and Statistics.
B.MATH, University of Wollongong; Ph.D., University of Sydney.

Nicholas D. Luden, Assistant Professor of Kinesiology.
B.S., Slippery Rock University; M.S., James Madison University; Ph.D., Ball State University.

Christy Ludlow, Professor of Communication Sciences and Disorders.
B.Sc., M.Sc., McGill University; Ph.D., New York University; CCC-SLP.

Patrice M. Ludwig, Assistant Professor of Biology.
B.S., M.S., James Madison University; Ph.D., University of Virginia.

S. Scott Lunsford, Associate Professor of Writing, Rhetoric and Technical Communication.
B.A., University of Texas of the Permian Basin; M.A., DePaul University; Ph.D., University of Texas at El Paso.

Tracy A. Luper, Associate Professor of Philosophy and Religion.
B.S., B.A., M.A., Ph.D., University of Texas at Austin.

Rebecca A. Lustig, Assistant Professor of Theatre and Dance.
B.A., University of California at Santa Cruz; M.F.A., University of California at San Diego.

Claire W. Lyons, Professor of Psychology.
B.Sc., Trinity College, Dublin (Ireland); M.Sc., Psychology, University of Limerick (Ireland); Ph.D., Queen’s University, Belfast, (Northern Ireland).

Paul E. Mabrey III, Lecturer of Communication Studies.
B.G.S., Fort Hays University; M.A., Georgia State University.

Gina M. MacDonald, Professor of Chemistry and Biochemistry.
B.S., University of Connecticut; Ph.D., University of Minnesota.

Iain S. MacLean, Professor of Philosophy and Religion.
B.A., University of Cape Town (South Africa); B.D., Rhodes University; B.A., B.Th., University of South Africa (South Africa); Th.M., Princeton Theological Seminary; Th.D., Harvard Divinity School.

Dorothy E. Maddison, Professor of Music.
B.M., St. Olaf College; Postgraduate Studies, Guildhall School of Music and Drama (London); M.M., D.M.A., Arizona State University.

http://www.jmu.edu/catalog/14
Sharon R. Mazzarella, Professor of Communication Studies.
B.S., Northwestern University; Ph.D., University of Illinois at Urbana-Champaign.

Sean R. McCarthy, Assistant Professor of Writing, Rhetoric and Technical Communication.
B.A., National University of Ireland; M.A., Tulane University; Ph.D., University of Texas at Austin.

Holly McCartney, Associate Professor of Early Education and Reading Education.
B.S., M.Ed., James Madison University; Ph.D., University of Virginia.

Robert D. McCashin, Professor of Music.
B.M., M.M., Louisiana State University; D.M.A., The University of Arizona.

Jack H. McCaslin II, Professor of Art.
B.F.A., Kansas State University; M.F.A., University of Nebraska – Lincoln.

Kristen L. McCleary, Associate Professor of History.
B.A., University of California, San Diego; M.A., M.A., University of California, Los Angeles.

James W. McConnell, Dean of Students; Associate Vice President for Student Life.
B.A., M.A., University of South Florida; Ed.D., University of Virginia.

Dawn Mc cusker, Associate Director, School of Art, Design and Art History; Professor of Graphic Design.
B.F.A., Eastern Michigan University; M.F.A., University of Illinois at Urbana-Champaign.

B.A., M.A., James Madison University.

David K. McGraw, Professor of Integrated Science and Technology.
B.S., Toccoa Falls College; M.S.I.S., University of Pittsburgh; M.A.S., Southeastern Oklahoma State University; J.D., Georgetown University Law Center.

Lisa E. McGuire, Head, Social Work; Associate Professor of Social Work.
B.S., Butler University; M.S.W., Indiana University; Ph.D., Case Western Reserve University.

Thomas J. McHardy, Professor of Media Arts and Design.
B.S., Louisiana State University; M.F.A., University of New Orleans.

Jesse R. McKee, Assistant Professor of Justice Studies.
B.S., M.A., Northern Arizona University; Ph.D., Old Dominion University.

Robert L. McKown, Professor of Integrated Science and Technology.
B.S., Ph.D., University of California, Irvine.

Paula M. McMahan, Academic Adviser, Kinesiology; Instructor of Kinesiology.
B.S., James Madison University; M.Ed., James Madison University.

Kevin McMillan, Associate Professor of Music.
B.M., University of Western Ontario; M.M., Juilliard School.

Robert M. Mc Millen, Lecturer of Marketing.
B.S., West Virginia University; M.B.A., James Madison University.

Conley K. McMullen, Professor of Biology.
B.S., Eastern Mennonite University; M.S., James Madison University; Ph.D., University of Maryland, College Park.

Benjamin D. Meade, Assistant Professor of Justice Studies.
B.S., University of Virginia’s College at Wise; M.A., Ph.D., University of North Carolina, Chapel Hill.

Richard B. Maixsell, Associate Professor of History.
B.A., Kansas State University; M.A., University of Georgia; Ph.D., The Ohio State University.

Julia M. Merkel, Preservation Officer; Assistant Professor, Libraries and Educational Technologies.
B.F.A., University of Notre Dame; M.F.A., James Madison University.

Jonathan J. Miles, Professor of Integrated Science and Technology.
B.A., Clark University; Ph.D., University of Massachusetts.

Lindsay R. Miller, Lecturer of Marketing.
B.S., M.S., Virginia Polytechnic Institute and State University; M.B.A., James Madison University.

Suzanne Miller-Corso, Associate Professor of Dance.
B.F.A., Towson State University; M.F.A., University of Colorado at Boulder.
Robert L. Nagel, Assistant Professor of Engineering.
B.S., Trine University; M.S., Missouri University of Science and Technology; Ph.D., Oregon State University.

Andrea Naranjo Merino, Lecturer of Foreign Languages, Literatures and Cultures.
B.S., University of San Buenaventura; M.A., Middlebury College.

Carole Nash, Assistant Professor of Integrated Science and Technology; Affiliate Faculty of Sociology and Anthropology, Instructor of Geography.
B.S., James Madison University; M.A., Bowling Green State University; Ph.D., Catholic University of America.

Kane Nashimoto, Associate Professor of Mathematics and Statistics.
B.A., Beniúti State University; M.A., University of North Dakota; M.A., University of Missouri; Ph.D., University of Missouri – Columbia.

Leigh Nelson, Associate Professor of Communication Studies.
B.A., M.A., Washington State University; Ph.D., Purdue University.

Andre R. Neveu, Assistant Professor of Economics.
B.A., University of Rochester; Ph.D., City University of New York.

Misty J. Newman, Assistant Director for Alternative Break Programs.
B.S., Heidelberg University; M.Ed., James Madison University.

Jennifer Ryan Newton, Assistant Professor of Educational Foundations and Exceptionalities.
B.S., M.S.Ed., Ph.D., University of Kansas.

Nancy B. Nichols, Journal of Accounting Education Professor; Professor of Accounting.
B.A., University of South Florida; M.S., Ph.D., University of North Texas.

Gabriel Niculescu, Associate Professor of Physics and Astronomy.
Engineer-Physicist, Bucharest University; Ph.D., Hampton University.

M. Ioana Niculescu, Professor of Physics and Astronomy.
M.S., Bucharest University; Ph.D., Hampton University.

Yingju Nie, Assistant Professor of Communication Sciences and Disorders.
B.Med., Nanhua University (China); M.Med., Capital University of Medical Sciences (China); M.A., Ph.D., University of Minnesota.

Aaron Noland, Lecturer of Communication Studies.
B.A., West Virginia Wesleyan College; M.A., Miami University of Ohio.

Paige Normand, Instructor of Media Arts and Design.
B.A., Bethany College; M.A., University of Texas.

Michael L. Norton, Associate Professor of Computer Science.
B.Ed., M.S., James Madison University; Ph.D., The Ohio State University.

Susan B. Nye, Professor of Kinesiology.
B.A., St. Bonaventure University; M.A., Bowling Green State University.

Mary D. O'Donnell, Assistant Professor of Foreign Languages, Literatures and Cultures.
B.A., St. Joseph's University; M.A., Ph.D., University of Rhode Island.

Jonathan D. Monroe, Professor of Biology.
B.S., University of Michigan; M.D., Cornell University.

Debali Mookerjea-Leonard, Associate Professor of English.
B.A., Jadavpur University; M.A., University of Minnesota; Ph.D., University of Chicago.

Thomas E. Moran, Associate Professor of Kinesiology.
B.S.Ed., M.S.Ed. State University of New York at Cortland, New York; Ph.D., University of Virginia.

Ann-Janine Morey, Associate Vice Provost, Cross disciplinary Studies and Planning; Professor of Biology.
B.S., University of Arizona; M.A., University of Southern California.

Lucy Damaris Morris, Instructor of Foreign Languages, Literatures, and Cultures.
B.A., Brigham Young University; M.A., University of Utah.

Mary D. Morsch, Associate Director, Career and Academic Planning.
B.A., St. Bonaventure University; M.A., Bowling Green State University.

Samuel A. Morton, Assistant Professor of Engineering.
B.S., Tennessee Technological University; M.S., University of Tennessee Space Institute; Ph.D., The University of Tennessee, Knoxville.

Joanna B. Mott, Head, Biology; Professor of Biology.
B.Sc., University of Aston, U.K.; M.Sc., University of Waterloo (Canada); Ph.D., Texas A&M University.

Fariss T. Mossa, Assistant Professor of Management.

Ian Muehlenhaus, Assistant Professor of Integrated Science and Technology.
B.A., University of Minnesota – Duluth; M.Sc., Pennsylvania State University; Ph.D., University of Minnesota.

Brillian Muhonja, Associate Professor of Foreign Languages, Literatures and Cultures.
B.A., Egerton University, (Kenya); M.A., Ph.D., Binghamton University.

Margaret M. Mulrooney, Associate Vice Provost, University Programs; Associate Professor of History.
B.A., University of Delaware; M.A., Ph.D., The College of William & Mary.

Michael J. Mungin, Assistant Professor, Professional Librarian, Libraries and Educational Technologies.
B.S., M.L.I.S., University of Washington.

Jacquelyn K. Nagel, Assistant Professor, Department of Engineering.
B.S., M.S., Missouri University of Science & Technology; Ph.D., Oregon State University.
B.A., James Madison University; M.A., Bowling Green State University.

Edwin O’Shea, Assistant Professor of Mathematics and Statistics.
B.Sc., University College Cork; Ph.D., University of Washington.

Ramenga M. Osotsi, Associate Professor of English.
B.A., M.A., University of Nairobi; Ph.D., Indiana University.

John W. Ott, Professor of Art History.
B.A., Stanford University; M.A., Ph.D., University of California, Los Angeles.

Katherine Ott Walter, Associate Professor of Health Sciences.
B.A., Kent State University; M.S., West Virginia University.

David Ovsusu-Ansah, Professor of History.
B.A., University of Cape Coast (Ghana); M.A., McGill University; Ph.D.; Northwestern University.

Rakim Pal, Associate Professor of Computer Information Systems and Business Analytics.
B.S. Tech., Indiana Institute of Technology; M.S., Ph.D., Purdue University.

Susan W. Palocsay, Professor of Computer Information Systems and Business Analytics.
B.S., James Madison University; M.S., D.Sc., George Washington University.

Maria Papadakis, Professor of Integrated Science and Technology.
B.A., Virginia Polytechnic Institute and State University; M.A., Ph.D., Indiana University.

Eric C. Pappas, Professor of Engineering; Professor of Integrated Science and Technology.
B.S., Wagner College; M.A., Ed.D., Virginia Polytechnic Institute and State University.

Fernando A. Pargas, Lecturer of Management.
B.A., George Mason University; M.B.A., Virginia Polytechnic and State University.

David L. Parker, Assistant Professor of Business Law; Assistant Professor of International Business.
B.A., Virginia Military Institute; L.L.M., The Judge Advocate General’s School; J.D., University of Richmond.

Mark L. Parker, Professor of English.
B.A., University of Alabama; Ph.D., Harvard University.

Ryan Parkhurst, Assistant Professor of Media Arts and Design.
B.A., State University of New York at Oswego; M.S., Syracuse University.

Alex C. Parrish, Assistant Professor of Writing, Rhetoric and Technical Communication.
B.F.A., Bemidji State University; M.A., York University; Ph.D., Washington State University.

Tara N. Parsons, Assistant Professor of Justice Studies.
B.A., University of Central Arkansas; Ph.D., University of Missouri.

Elizabeth Pass, Associate Professor of Writing, Rhetoric and Technical Communication.
B.A., Texas A&M University; M.A., Ph.D., Texas Tech University.

Dena A. Pastor, Professor of Graduate Psychology; Senior Assessment Specialist, Center for Assessment and Research Studies.
B.A., Ph.D., University of Texas at Austin.

Joshua R. Pate, Assistant Professor of Sport and Recreation Management.
B.S., M.S., Ph.D., University of Tennessee.

Kurtis G. Paterson, Head, Department of Engineering; Associate Professor of Engineering.
B.S., M.S., Ph.D., The University of Iowa;

Heather J. Patterson, Assistant Director, Career and Academic Planning.
B.A., The Ohio State University; M.S., Syracuse University.

Marshall Pattie, Associate Professor of Management.
B.S., Texas Christian University; M.B.A., George Washington University; Ph.D., University of Texas at Arlington.

Amy L. Paugh, Associate Professor of Anthropology.
B.A., Rutgers, The State University of New Jersey; M.A., Ph.D., New York University.

Jonathan R. Paulo, Assistant Professor, Professional Librarian, Libraries and Educational Technologies.
B.A., James Madison University; M.L.I.S., San José State University.

Scott A. Paulson, Cluster Three Coordinator; Associate Professor of Physics and Astronomy.
B.S., St. Vincent’s College; Ph.D., University of North Carolina at Chapel Hill.

Stacey L. Pavelko, Assistant Professor of Communication Sciences and Disorders.
B.A., Youngstown State University; M.A., Purdue University; Ph.D., University of Central Florida.

Andrew A. Peachey, Assistant Professor of Health Sciences.
B.S., Guilford College; M.A., Dr., Ph.D., University of North Carolina at Greensboro.

Likokanaio Peaslee, Associate Professor of Political Science.
B.A., University of Vermont; M.A., Ph.D., Brandeis University.

Andrea Pesce, Instructor of Biology.
B.S., University of Virginia; M.S., University of Michigan.

Connie L. Peterson, Associate Professor of Health Sciences.
B.S., Indiana University; M.S., Ithaca College; Ph.D., University of Georgia.

Erika D. Peterson, Assistant Professor; Professional Librarian, Libraries and Educational Technologies.
B.A., University of New Mexico; M.L.I.S., Louisiana State University.

B.A., California University of Pennsylvania; M.S., James Madison University.

Olga Pierrekas, Associate Professor of Engineering.
B.S., M.S., Ph.D., Virginia Polytechnic Institute and State University.

Lori E. Pitz, Associate Professor of Music.
B.M., University of Ottawa; M.M., D.M., Indiana University.

Mark Piper, Assistant Professor of Philosophy and Religion.
B.A., Ph.D., St. Louis University; M.A., University of York.

Tassie LaPrevotte Pippet, Lecturer of Hospitality Management.
A.S., Blue Ridge Community College; B.I.S., James Madison University; B.S., M.Ed., James Madison University.

Margaret S. Plass, Professor of Justice Studies.
B.A., Loyola University; M.A., Memphis State University; Ph.D., University of New Hampshire.

Nancy Poe, Associate Professor of Social Work.
B.A., Roanoke College; M.S.W., Virginia Commonwealth University; Ph.D., Virginia Polytechnic Institute and State University.

Georgia N. L. J. Polacek, Cluster Five Coordinator; Associate Professor of Health Sciences.
B.S., M.S., Boise State University; Ph.D., University of Texas at Austin.

Mieka Brand Polanco, Associate Professor of Anthropology.
B.A., New York University; M.A., Ph.D., University of Virginia.

David J. Pope, Professor of Music.
B.M., University of Massachusetts Amherst; M.M., Eastern School of Music.

Margarita Poteyeva, Assistant Professor of Justice Studies.
Law, International University in Moscow; M.S., Eastern Kentucky; Ph.D., University of Delaware.

Stephen C. Poulsen, Associate Professor of Sociology.
B.S., James Madison University; M.A., Florida State University; Ph.D., Virginia Polytechnic Institute and State University.

Marsha Powell, Instructor of Communication Sciences and Disorders.
B.S., M.S., James Madison University; CCC-SLP.

Nena J. Powell, Associate Professor of Nursing.
B.S.N., M.S.N., Ph.D., University of Virginia.

Robert J. Prins, Associate Professor of Engineering.
B.S., Michigan Technological University; M.S., University of Virginia; Ph.D., Virginia Polytechnic Institute and State University.

Samantha Bates Prins, Associate Professor of Mathematics and Statistics.
B.Sc., University of Auckland; M.S., Ph.D., University of Washington.

Regina T. Prodoehl, Lecturer of Health Sciences.
B.S., James Madison University; M.S., Eastern Kentucky University; Ph.D., Southern Illinois University.

Nancy L. Puffenbarger, Instructor of Nursing.
B.S.N., M.S.N., James Madison University.

Steven L. Purcell, Head, Department of Middle, Secondary and Mathematics Education; Associate Professor of Education.
B.S., M.S., Ph.D., Virginia Polytechnic Institute and State University.

Eric Pyle, Professor of Geology and Environmental Science.
B.S., University of North Carolina at Charlotte; M.S., Emory University; Ph.D., University of Georgia.

Katie S. Quertermous, Assistant Professor of Mathematics and Statistics.
B.S., University of South Carolina; M.S., Ph.D., University of Virginia.

http://www.jmu.edu/catalog/14
Virginia Quick, Assistant Professor of Health Sciences.
B.S., Ph.D., Rutgers University.

Ronald W. Raab, Professor of Integrated Science and Technology.
B.A., M.A., University of California, Santa Barbara; Ph.D., Texas A&M University.

Abdelrahman Rabie, Associate Professor of Integrated Science and Technology.
B.S., Cairo University; M.S., The University of Manchester Institute of Science and Technology; Ph.D., The University of Nottingham.

Nicole Radziwill, Assistant Professor of Integrated Science and Technology.
M.B.A., Regis University; Ph.D., Indiana State University.

Farzana Rahman, Assistant Professor of Computer Science.
B.S., Bangladesh University of Engineering and Technology; M.S., Ph.D., Marquette University.

Marco A. Ramello, Assistant Professor of Military Science.
B.A., Excelsior College.

Mark C. Rankin, Associate Professor of English.
B.S.Ed., M.A., Ohio University; Ph.D., The Ohio State University.

M. Anthony Ratcliffe, Instructor of Computer Information Systems and Business Analytics.

Matthew E. Rebhorn, Associate Professor of English.
B.A., (Hons.), University of Chicago; M.A., University of Virginia; M.Phil., Ph.D., Columbia University.

Vicki A. Reed, Professor of Communication Sciences and Disorders.
B.S., Northwestern University; M.A., University of Denver; Ed.D., University of Northern Colorado; CCC-SLP.

Tomás Regalado López, Associate Professor of Foreign Languages, Literatures and Cultures.
B.A., M.A., Ph.D., Universidad de Salamanca.

Steven A. Reich, Professor of History.
B.A., Lawrence University; Ph.D., Northwestern University.

Alyssa Reid, Lecturer of Communication Studies.
B.A., California State University, Long Beach; M.F.A., Minnesota State University, Mankato.

Edna F. Reid, Associate Professor of Integrated Science and Technology.
B.S., District of Columbia Teachers College; D.L.S., University of Southern California.

Harry L. Reddy, Associate Professor of Computer Information Systems and Business Analytics.
B.S., M.B.A., Michigan State University; Ph.D., Virginia Commonwealth University.

Monica Reis-Bergan, Professor of Psychology.
B.S., M.S., Ph.D., Iowa State University.

Martha Reish, Instructor of Early, Elementary and Reading Education.
M.Ed., University of Virginia.

Barbara A. Reisner, Professor of Chemistry and Biochemistry.
A.B., Princeton University; Ph.D., University of California, Berkeley.

Arlene K. Renalds, Instructor of Nursing.
B.S.N., Eastern Mennonite University; M.S.N., James Madison University.

Michael P. Riordan, Professor of Accountancy.
B.S., American International College; M.S., University of Rhode Island; Ph.D., Virginia Polytechnic Institute and State University.

Gary K. Ritcher, Professor of Music.
B.S., Ed.D, University of Illinois at Urbana-Champaign; M.A., The Ohio State University.

William James Ritchie, Associate Professor of Management.
B.S., University of South Florida; M.B.A., Ph.D., Florida State University.

Elaine F. Roberts, Instructional Technologist, Center for Instructional Technology, Assistant Professor, Libraries and Educational Technologies.

Robert N. Roberts, Professor of Political Science.
B.A., M.P.A., J.D., Ph.D., Syracuse University.

Christine M. Robinson, Associate Professor of Justice Studies.
B.A., Salisbury State University; M.A., University of Memphis; Ph.D., University of Kansas.

Daniel L. Robinson, Associate Director, Institute for Visual Studies; Instructor of Art.
B.S., Radford University; M.F.A., James Madison University.

Christina Roeder, Lecturer of Management.
B.S., Bridgewater College, M.B.A., James Madison University.

Bradley M. Root, Hantzmon Wiebel, LLP Faculty Scholar; Professor of Accounting.
B.A., Catawba College; M.M., American Graduate School of International Management; Ph.D., Colgate Darden School of the University of Virginia.

Mark D. Rooker, Associate Professor of Art.
B.F.A., M.F.A., University of Illinois at Urbana-Champaign.

Christopher S. Rose, Professor of Biology.
B.S., McMaster University; M.S., University of Victoria; A.M., Ph.D., Harvard University.

Jason D. Rosenhouse, Professor of Mathematics and Statistics.
B.S., Brown University; M.S., Ph.D., Dartmouth College.

Jennifer Gill Rosier, Assistant Professor of Communication Studies.
B.A., University of Maryland, M.A., Auburn University; Ph.D., Purdue University.

J. Barkley Rosser Jr., Kirby L. Cramer, Jr. Chair of Business Administration; Professor of Economics.
B.A., M.A., Ph.D., University of Wisconsin, Madison.

Marina V. Rosser, Professor of Economics; Professor of International Business.
M.A., Ph.D., Moscow State University.

April Roth, Lecturer of Communication Studies.
B.A., University of North Alabama; M.A., Auburn University.

Vanessa Rouillon, Assistant Professor of Writing, Rhetoric and Technical Communication.
B.A., Universidad de Lima; M.A., Georgetown University; M.A., Ph.D., University of Illinois at Urbana-Champaign.

Ayaskanta Rout, Associate Professor of Communication Sciences and Disorders.
B.S., University of Bombay; M.A., All India Institute of Speech and Hearing; Ph.D., Purdue University.

Cynthia Rubenstein, Assistant Professor of Nursing.
B.S.N., University of Virginia; M.S.N., Virginia Commonwealth University; Ph.D., Villanova University.

Denise R. Rudolph, Assistant Director, Employer Relations and Recruiting, Career and Academic Planning.
B.A., James Madison University; M.Ed., George Mason University.

http://www.jmu.edu/catalog/14
Christy-Dale L. Sims, Instructor of Communication Studies.
B.S., University of Kansas; M.A., Ph.D., University of Colorado.

Kimberly H. Siek, Associate Professor of Biology.
B.S., Pennsylvania State University; Ph.D., Carnegie Mellon University.

Dorothy Sluss, Professor of Early, Elementary and Reading Education.
B.S., University of Virginia; M.A., Ph.D., Virginia Polytechnic Institute and State University.

David A. Slyhuis, Associate Professor of Middle, Secondary, and Mathematics Education.
B.A., University of Northern Iowa; MS.Ed., Eastern Illinois University; Ph.D., North Carolina State University.

Angela M. Smith, Associate Professor of Economics.
B.A., The College of William & Mary; M.A., Ph.D., University of Virginia.

Michael Smith, Associate Professor of Writing, Rhetoric and Technical Communication.
B.A., Knox College; M.F.A., Pennsylvania State University.

Randall Snow, Instructor of Learning, Technology and Leadership Education.
B.S., Eastern Mennonite University; M.S.Ed., James Madison University.

Cathleen S. Snyder, Lecturer of Marketing.
B.S., Liberty University; M.B.A., James Madison University.

Linda L. Sobel, Associate Professor of Nursing.
B.S.N., M.S.N., Ph.D., Virginia Commonwealth University.

James S. Sochacki, Professor of Mathematics and Statistics.
B.S., University of Michigan; M.S., Ph.D., University of Wyoming.

Roger Soenksen, Professor of Communication Studies; Professor of Media Arts and Design.
B.S., University of Wisconsin, Platteville; M.A., University of Wisconsin, Milwaukee; Ph.D., Ohio University.

Julie P. Solometo, Associate Professor of Anthropology.
B.A., University of Virginia; M.A., Ph.D., University of Michigan.

Hui Ho Sono, Associate Professor of Finance; Associate Professor of International Business.
B.A., Foreign Affairs College (Beijing); M.A., Ph.D., George Washington University.

George Sparks, Dean, College of Visual and Performing Arts; Professor of Music.
B.M.E., Henderson State University; M.M., University of Michigan; Ph.D., Louisiana State University.

Joseph H. Spear, Associate Professor of Sociology.
B.A., State University of New York at Geneseo; M.A., Ph.D., University of Virginia.

Mary Jean Speare, Associate Professor of Music.
B.M., Eastern New Mexico University; M.M., Southern Methodist University; Ph.D., Washington University.

Jonathan H. Spindel, Director, OSE Laboratory Operations; Professor of Integrated Science and Technology; Professor of Communication Sciences and Disorders.
B.S., Widener University; M.S.E.E., Rice University; Ph.D., University of Virginia.

Greg C. Spitzer, Systems Developer, Digital Services; Assistant Professor, Libraries and Educational Technologies.
B.S., M.B.A., James Madison University.

Sue E. Spivey, Professor of Justice Studies.
B.A., Emory and Henry College; M.A., Ph.D., University of Virginia.

Nathan R. Sprague, Assistant Professor of Computer Science.
Sc.B., Brown University; M.S., Ph.D., University of Rochester.

Kristen St. John, Professor of Geology and Environmental Science.
B.S., Furman University; M.S., Ph.D., The Ohio State University.

Eric M. Stark, Associate Professor of Management.
B.B.A., Ohio University; M.B.A., Wright State University; Ph.D., University of Arkansas.

Kevin J. Stees, Professor of Music.
B.S., University of Illinois; M.M., Arizona State University.

Paulo R. Steinberg, Associate Professor of Music.
B.M., Universidade de São Paulo; M.M., Arizona State University; D.M., Indiana University.

Nina Stensby-Hurst, Associate Director, Career and Academic Planning.
B.A., University of North Carolina at Chapel Hill; M.A., Appalachian State University.

Alexis L. Stevens, Assistant Professor of Mathematics and Statistics.
B.A., Messiah College; M.S., Ph.D., Virginia Polytechnic Institute and State University.

Carrie L. Stevens, Professor of Music.
B.M., University of Wisconsin, Madison; M.M., Boston University; D.M.A., University of Minnesota – Minneapolis.

Kathryn Stevens, Director, Madison Art Collection; Assistant Professor of Art History.
B.S., M.A., James Madison University; Ph.D., Virginia Commonwealth University.

Scott P. Stevens, Professor of Computer Information Systems and Business Analytics.
B.S., Ph.D., Pennsylvania State University.

Anne L. Stewart, Professor of Psychology.
B.A., Purdue University; M.A.T., DePaul University; Ph.D., University of Virginia.

Gregory Stewart, Associate Professor of Art.

Jonathan P. Stewart, Assistant Professor of Theatre and Dance.

Margaret A. Stickney, Lecturer of Health Sciences.
B.S., Otterbein College; M.S., Ph.D., University of Kentucky.

Stephanie B. Stockwell, Assistant Professor of Integrated Science and Technology.
B.S., University of Wisconsin, Madison; Ph.D., Dartmouth College.

Michael L. Stoloff, Associate Dean, College of Health and Behavioral Studies; Professor of Psychology.
B.A., State University of New York at Binghamton; M.A., Ph.D., Johns Hopkins University.

Sharon L. Strang, Associate Professor of Nursing.
B.S.N., Duquesne University; M.S.N., Edinboro University of Pennsylvania; F.N.P., Old Dominion University; D.N.P., University of Virginia.

Diane L. Strawbridge, Director, Cantennial Scholars Program; Instructor of Learning, Technology and Leadership Education.
B.S., M.S.Ed., James Madison University.

Bradley A. Streeb, Professor of Engineering.
B.S., M.S., M.A., University of Virginia; Ph.D., Clemson University.

David Stringham, Assistant Professor of Music.
B.M., M.M., Ph.D., Eastman School of Music.

Julie A. Strunk, Assistant Professor of Nursing.
B.S., B.S.N., M.S.N., James Madison University; Ph.D., Virginia Commonwealth University.

John Robert Subrick, Associate Professor of Economics.
B.A., B.S., University of Delaware; M.A., Ph.D., George Mason University.

Valerie A. Suffo, Professor of Political Science.
B.A., Southern Illinois University; M.A., Ph.D., University of South Carolina.

Pam Sullivan, Associate Professor of Early Childhood and Reading Education.
B.A., B.A., University of South Florida; Ph.D., University of Virginia.

Isaiah Sumner, Assistant Professor of Chemistry and Biochemistry.
B.A., Wabash College; Ph.D., Indiana University.

Donna L. Sundre, Professor of Graduate Psychology; Executive Director, Center for Assessment and Research Studies.
B.A., M.A., California State University, Chico; Ed.D., University of North Carolina at Greensboro.

Debra L. Sutton, Associate Professor of Health Sciences.
B.S., M.A., Ball State University; M.S., Pennsylvania State University.

Nicholas J. Swartz, Associate Professor of Political Science.
B.A., M.P.A., University of North Carolina at Wilmington; Ph.D., University of North Carolina at Charlotte.

Nick Swazy, Interim Director, Education Support Center; Coordinator for External Relations; Instructor of Learning, Technology and Leadership Education.
M.P.A, Northeastern University.
Christiano Szaps-Frain, Professor of Foreign Languages, Literatures and Cultures.
B.A., Mary Baldwin College; M.A., Middlebury College; Ph.D., University of Virginia.

Kenneth Allen Szmagaj, Professor of Art.

David E. Szvedo, Assistant Professor of Psychology.
B.A., University of North Carolina at Chapel Hill; M.A., Ph.D., University of Virginia.

Laura Taalman, Professor of Mathematics and Statistics.
B.S., University of Chicago; M.A., Ph.D., Duke University.

Mary Kimsey Tacy, Professor of Integrated Science and Technology.
B.A., University of Cincinnati; M.A., Ph.D., University of Georgia.

Kimiko Tanaka, Assistant Professor of Sociology.
B.A., International Christian University (Tokyo); M.A., Ph.D., Michigan State University.

Jeffrey D. Tang, Associate Dean, College of Integrated Science and Engineering; Associate Professor of Integrated Science and Technology.
B.A., Northwestern University; M.Phil, University of Oxford; M.A., Ph.D., University of Pennsylvania.

Qingjiu (Tom) Tao, Assistant Professor of Management.
B.A., M.S., Beijing University of Aeronautics and Astronautics; Ph.D., University of Pittsburgh.

William L. Tate II, Associate Professor of Interior and Industrial Design.
B.S., Wake Forest University; M.Arch., Virginia Polytechnic Institute and State University.

Allyson Mellberg Taylor, Associate Professor of Art.
B.F.A., Milwaukee Institute of Art and Design; M.F.A., University of North Carolina at Chapel Hill.

Hilda Amalia Taylor, Instructor of Nursing.
B.S.N., Ball State University; M.S.N., University of Virginia.

Jennifer A. Taylor, Assistant Professor of Political Science.
B.A., University of South Carolina; M.A., The Ohio State University; Ph.D., Old Dominion University.

Joseph W. Taylor, Associate Professor of Music.
M.B.A., University of California, Los Angeles; M.M., California State University-Fullerton.

Ashley M. Taylor-Jaffee, Assistant Professor of Middle, Secondary and Mathematics Education.
B.A., University of Virginia; M.A.T., University of Virginia; Ph.D., Columbia University.

Anthony A. Teate, Professor of Integrated Science and Technology.
B.S., Morehouse College; M.S., University of Michigan; Ph.D., University of South Florida.

Wayne S. Teel, Professor of Integrated Science and Technology.
B.Sc., Seattle Pacific University; Ph.D., Cornell University.

April L. Temple, Assistant Professor of Health Sciences.
B.S., Ph.D., University of South Florida, Tampa.

Louise M. Temple, Professor of Integrated Science and Technology.
B.S., Mississippi College; M.S., Louisiana Tech University; Ph.D., Medical College of Virginia.

Amanda Cleveland Teye, Assistant Professor of Political Science.
B.A., Claremont McKenna College; M.F.A., California State University, San Bernardino; Ph.D., Claremont Graduate University.

Jane Thali, Head, Department of Learning, Technology and Leadership Education; Associate Professor of Learning, Technology and Leadership Education.
B.A., Mary Washington College; M.S., Johns Hopkins University; Ed.D., George Washington University.

Roger J. Theilwell, Associate Professor of Mathematics and Statistics.
B.A., St. Mary's College of Maryland; M.S., Ph.D., Colorado State University.

Daphyne S. Thomas, Professorship in Business, Adolph Coors Foundation Eminent Scholars; Professor of Business Law.
B.S., Virginia Polytechnic Institute and State University; M.B.A., James Madison University; J.D., Washington and Lee University.

Timothy Thomas, Associate Professor of Educational Foundations and Exceptionalities.
B.A., University of North Carolina at Chapel Hill; M.T., Ph.D., University of Virginia.

Cynthia R. Thompson, Associate Director, School of Theatre and Dance; Professor of Dance.
B.A., Memphis State University; M.F.A., University of Wisconsin, Madison.

Elizabeth A. Thompson, Assistant Professor; Professional Librarian, Libraries and Educational Technologies.
B.A., James Madison University; M.L.I.S., University of North Texas.

Jon M. Thompson, Professor of Health Sciences.
B.A., M.S.P., Florida State University; Ph.D., Medical College of Virginia.

Mary Thompson, Associate Professor of English.
B.A., M.A., University of Vermont; Ph.D., Bowling Green State University.

Kateri Thunder, Assistant Professor of Middle, Secondary and Mathematics Education.
B.A., M.A.T., Ph.D., University of Virginia.

Evelyn C. Tickle, Assistant Professor of Interior Architecture.
B.S., Auburn University; M.Arch., Southern California Institute of Architecture.

Brett C. Tjaden, Professor of Computer Science.
B.S., Haverford College; Ph.D., University of Virginia.

John Tkac, Lecturer of Foreign Languages, Literatures and Cultures.
B.S., Edinboro University of Pennsylvania; M.A., Bowling Green State University.

M. Kent Todd, Associate Professor of Kinesiology.
B.S., M.S., James Madison University; Ph.D., University of North Carolina at Greensboro.

Mert Tokman, Associate Professor of Marketing.
B.B.A., Istanbul University, Turkey; M.B.A., University of Arkansas at Little Rock; Ph.D., University of Alabama.

Karin Tollefson-Hall, Assistant Professor of Art Education.
B.A., M.A., Ph.D., The University of Iowa.

Roger D. Tomhave, Associate Professor of Art Education.
B.S.E., University of Wisconsin-River Falls; M.A., Ph.D., University of Minnesota.

Anthony L. Tongen, Professor of Mathematics and Statistics.
B.S., University of Pittsburgh; M.S., Ph.D., Northwestern University.

Danielle M. Torisky, Associate Professor of Health Sciences.
B.S., Seton Hill College; M.S., Virginia Polytechnic Institute and State University.

Megan E. Tracy, Assistant Professor of Anthropology.
B.A., Middlebury College; M.A., Syracuse University; Ph.D., University of Pennsylvania.

Katherine Trammell, Professor of Dance.
B.S., James Madison University; M.A., The Ohio State University; M.F.A., Temple University.

Ashton D. Trice, Professor of Psychology.
B.A., Davidson College; B.A., Mary Baldwin College; M.A., Hollins College; Ed.D., West Virginia University.

Donna Trimm, Associate Professor of Nursing.
B.S.N., Southern Missionary College; M.S.N., University of South Alabama; D.N.S., Louisiana State University.

David A. Trouille, Assistant Professor of Sociology.
B.A., Dartmouth College; M.A., University of Chicago; Ph.D., University of California.

Laura H. Trull, Lecturer of Social Work.
B.S.W., James Madison University; M.S.W., University of Minnesota.

Lisa Tubach, Associate Professor of Art.
B.A., Macalester College, M.F.A. Michigan State University.

Stanley L. Ulanski, Professor of Geology.
B.S., M.S., Florida State University; Ph.D., University of Virginia.

Carl J. Ullrich, Assistant Professor of Finance.
B.S., University of Florida; M.B.A., University of South Florida; Ph.D., University of Maryland.

Brian C. Utter, Associate Professor of Physics and Astronomy.
B.S., Rutgers, The State University of New Jersey; M.S., Ph.D., Cornell University.

William C. Van Norman, Associate Professor of History.
B.A., Arizona State University; M.A., Ph.D., University of North Carolina at Chapel Hill.

Leonard A. Van Wyk, Professor of Mathematics and Statistics.
B.A., State University of New York at Potsdam; M.A., University of California, Berkeley; Ph.D., State University of New York at Binghamton.

http://www.jmu.edu/catalog/14
Bruce A. Wiggins, Professor of Biology.
B.S., Pennsylvania State University; M.S., Ph.D., Cornell University.

William H. K. Wightman, Professor of Art Education.
B.A., Virginia Wesleyan College; M.F.A., Radford University; Ph.D., The Ohio State University.

Diane M. Wilcox, Associate Professor of Learning, Technology and Leadership Education.
B.B.A., The College of William & Mary; M.A., Ph.D., University of North Carolina at Chapel Hill.

Anne McCoy Wiles, Professor of Philosophy and Religion.
B.S.S.S., M.A., Loyola College, Ph.D., University of Virginia.

Cassie L. Williams, Assistant Professor of Mathematics and Statistics.
B.A., Adams State College; M.S., Ph.D., Colorado State University.

Jacqueline A. Williams, Professor of Kinesiology.
B.S., M.S., State University of New York at Cortland; Ed.D., University of Massachusetts.

Mira Cole Williams, Assistant Professor of Educational Foundations and Exceptionalities.
B.A., M.T., Ph.D., University of Virginia.

Stephanie Williams, Assistant Professor of Art, Design and Art History.
B.F.A., James Madison University; M.F.A., Rhode Island School of Design.

R. Nicole Wilson, Instructional Technologist, Center for Instructional Technology; Assistant Professor, Libraries and Educational Technologies.
B.A., M.S.Ed., James Madison University.

Philip M. Wishon, Dean, College of Education.
B.Sc., M.A., Ph.D., The Ohio State University.

Andrew Witmer, Assistant Professor of History.
B.A., Taylor University; M.A., M.D., University of Virginia.

Christopher J. Womack, Head, Department of Kinesiology; Professor of Kinesiology.
B.S., James Madison University; M.Ed., Ph.D., University of Virginia.

Chang Wan (Isaac) Woo, Assistant Professor of Communication Studies.
B.S., Illinois State University; M.A., Indiana State University; Ph.D., University of Alabama.

B.A., M.B.A., University of Virginia.

William C. Wood, J. W. and Alice S. Marriott Faculty Fellow; Director, Center for Economic Education; Professor of Economics.
B.A., Auburn University; Ph.D., University of Virginia.

Celestine A. Woodruff, Assistant Professor of Mathematics and Statistics.
B.A., M.A., Appalachian State University; Ph.D., Florida State University.

Kenneth R. Wright, Associate Professor of Interdisciplinary Liberal Studies.
B.A., M.A., California State University, Fresno; Ph.D., University of Oregon.

Nathan T. Wright, Assistant Professor of Chemistry and Biochemistry.
B.S.,Haverford College; M.S., University of Pennsylvania; Ph.D., University of Maryland, Baltimore.

Shaun Wright, Assistant Professor of Media Arts and Design.
B.A., Virginia Commonwealth University; M.F.A., American University.

Rosheen E. Wunderlich, Professor of Biology.
B.A., University of Virginia; M.A., Ph.D., State University of New York at Stony Brook.

Kristin N. Wylie, Assistant Professor of Political Science.
B.A., Louisiana State University; M.A., Ph.D., University of Texas at Austin.

Grace A. Wyngaard, Professor of Biology.
B.S., University of Rhode Island; M.S., University of South Florida; Ph.D., University of Maryland.

Ling Xu, Associate Professor of Mathematics and Statistics.
B.S., Wuhan Technology University (China); M.S., Ph.D., University of New Mexico-Albuquerque.

Yi Edward Yang, Associate Professor of Political Science.
B.A., Foreign Affairs College (Beijing); Ph.D., Texas A&M University.

Michael D. Yankey, Lecturer of Management.

Hyong S. Yeom, Associate Professor of Social Work.
M.S.W., University of Minnesota – Twin Cities; M.A., Ph.D., Brandeis University.

Sang Y. Yoon, Professor of Graphic Design.
B.F.A., Seoul National University; M.F.A., Tyler School of Art.

Amy Russell Yun, Assistant Professor of Health Sciences.
B.A., Clark University; M.S., Springfield College; O.T.D., Nova Southeastern University.

Shenghua Zha, Instructional Technologist, Center for Instructional Technology; Assistant Professor, Libraries and Educational Technologies.
B.A., Huazhong University of Science & Technology; M.A., Shanghai JiaoTong University; Ph.D., University of Missouri – Columbia.

Yanjie Zhang, Assistant Professor of Chemistry and Biochemistry.
B.S., Ph.D., Jilin University, P.R. China.

Nan Zheng, Assistant Professor of Media Arts and Design.
B.A., Communication University of China; M.A., Ph.D., University of Texas at Austin.

James R. Zimmerman, Associate Professor of Writing, Rhetoric and Technical Communication.
B.A., University of Michigan; M.A., Ph.D., The Ohio State University.

Traci A. Zimmerman, Interim Director, School of Writing, Rhetoric and Technical Communication; Professor of Writing, Rhetoric and Technical Communication.
B.A., M.A., James Madison University; Ph.D., Case Western Reserve University.

Desiree Zingarelli-Sweet, Assistant Professor; Professional Librarian, Libraries and Educational Technologies.
B.A., Oberlin College; M.A., Yale Divinity School; M.L.I.S., University of Pittsburgh.

Rhonda Zingraf, Associate Dean, College of Health and Behavioral Studies; Director, Institute for Innovation in Health and Human Services.
B.S., Virginia Commonwealth University; M.A., Ph.D., Bowling Green State University.

Tracy E. Zinn, Associate Professor of Psychology.
B.A., West Virginia University; M.S., Ph.D., Auburn University.

Daniel S. Zisk, Lecturer of Management, Lecturer of International Business.
B.A., University of Virginia; M.A., Stanford University; M.B.A., Darden School of Business, University of Virginia; F.G.M.T., University of Virginia.

Ian R. Zook, Assistant Professor of Music.
B.M., University of North Carolina at Chapel Hill; M.M., University of Michigan; D.M.A., Rutgers, The State University of New Jersey.

Susan D. Zurbrig, Professor of Art.
B.A., Bard College; M.F.A., Indiana University.

Adjunct Faculty

JMU is fortunate to have an exceptional contingent of individuals appointed as adjunct faculty members. The following is a list of adjunct faculty members for the 2014-2015 school year.

Susan Sumpter Adamson, F.N.P., M.N., Adjunct Assistant Professor, Health Sciences.
Dawn Alexander, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Ashley Rose Bennett Amos, PA-C, Adjunct Clinical Associate Professor, Health Sciences.
Vasudev G. Ananthram, M.D, Adjunct Clinical Assistant Professor, Health Sciences.
Karine Chapdelaine, M.M., Adjunct Instructor, Music.
Phillip J. Chang, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Lynne A. Brownell, F.N.P., Adjunct Clinical Assistant Professor, Health Sciences.
Kimberly Bird, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Charles Galdies, Ph.D., Adjunct Instructor, Integrated Science and Technology.
Dale A. Carroll, M.D., Adjunct Clinical Professor, Health Sciences.
Stephen Carver, D.M.A., Adjunct Instructor, Music.
Kara L. Foster-Weiss, Adjunct Clinical Professor, Health Sciences.
Noemi Dosa, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Gary S. Corder, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Robert S. Enelow, Adjunct Clinical Assistant Professor, Health Sciences.
Lawrence J. Cornell, M.D., Adjunct Clinical Professor, Health Sciences.
Joseph M. Compton, PA-C, Adjunct Clinical Professor, Health Sciences.
Joseph W. Behl Jr., M.D., Adjunct Clinical Professor, Health Sciences.
Marlon Foster, B.M.Ed., M.M., Adjunct Instructor, Music.
Karl M. Beier, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Louis Cassar, Ph.D., Adjunct Associate Professor, Integrated Science and Technology.
Maria Attard, Ph.D., Adjunct Associate Professor, Integrated Science.
Everaldo Attard, Ph.D., Adjunct Associate Professor, Integrated Science and Technology.
Eleanor M. Atwood, B.S., Adjunct Instructor, Integrated Science and Technology.
Jeanette M. Carpenter, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Diane Eve Dubinsky, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Kathryn Benthall, M.S., Adjunct Instructor, Integrated Science and Technology.
J. Pearce Bossinger, M.S., PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Françoise K. Bourgeois, Ph.D., Adjunct Associate Professor, Integrated Science and Technology.
Josephine V. Byrnes, M.D., Adjunct Clinical Professor, Health Sciences.
Mairead Byrnes, M.D., Adjunct Clinical Professor, Health Sciences.
Mary Cuttings, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Gary S. Crosswhite, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Thomas J. Dark, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
David A. Cohen, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Charles Galdies, Ph.D., Adjunct Instructor, Integrated Science and Technology.
Sarah Crosswhite, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Eugene A. Danisa, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Kevin R. Bedell, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Gary S. Corder, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Deana A. Bahrman, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Thomas J. Daniel, M.D., Adjunct Clinical Professor, Health Sciences.
Alec Barker, M.A., Adjunct Instructor, Integrated Science and Technology.
Deanna J. Dedecker, M.S., Adjunct Clinical Assistant Professor, Health Sciences.
Laura T. Dageforde, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Robert J. Dalmage, M.D., Adjunct Clinical Professor, Health Sciences.
Nanako R. Dang, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Hannah Blair, Adjunct Instructor, Integrated Science and Technology.
Maria J. Daves, M.D., Adjunct Clinical Professor, Health Sciences.
Christopher D. Davidson, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Maureen Cutting, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Susan Sumpter Adamson, F.N.P., M.N., Adjunct Assistant Professor, Health Sciences.
Noemi Dosa, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Anthony DiPaola, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Brian H. DiSalvo, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Janet Dix, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Uuganbayar Enebish, Adjunct Clinical Professor, Health Sciences.
Sheryl L. Cosme, R.N., M.S.N., Adjunct Faculty Instructor, Nursing.
Diane E. Dubinsky, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Dawn Alexander, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Diane E. Dubinsky, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Dawn Alexander, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Diana F. Crowder, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Leanne F. Cuttings, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Gary S. Corder, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Diana F. Crowder, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Gary S. Corder, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.

Ahmed Shahab-Uddin, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
David W. Seamon, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Sandra L. Seaman, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
John Scrivani, Ph.D., Adjunct Instructor, Integrated Science and Technology.
James R. Schwartz, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Neil F. Schacht, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Mark Scerri, M.S., Adjunct Instructor, Integrated Science and Technology.
Jonathan S. Sagum, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Anthony T. Sacco, Ph.D., Adjunct Assistant Professor, Integrated Science and Technology.
Sara D. Rynders, M.P.A.S., PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Katherine A. Roberts, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Paul Rittenhouse, M.S., Adjunct Instructor, Integrated Science and Technology.
Jerry Ridgeway, M.S., Adjunct Instructor, Integrated Science and Technology.
Pamela Robinson, M.S., Adjunct Instructor, Integrated Science and Technology.
Bhushan H. Pandya, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Charles H. Parker Jr., Adjunct Clinical Assistant Professor, Health Sciences.
Addison R. Parris, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Bakul Patel, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Mukesh B. Patel, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Kieron F. Patsch, Ph.D., Adjunct Professor, Geology and Environmental Science.
Roger S. Pence, M.D., Adjunct Clinical Professor, Health Science.
Ronald G. Perego, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
John R. Prayhinski, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Michael Priester, B.M., M.M., Adjunct Instructor, Music.
Lovetta Pugh, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Amy Radigan, M.P.A.S., PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Chad Reep, M.M., Adjunct Instructor, Music.
James Robert Reid, M.D., Adjunct Clinical Professor, Health Sciences.
Stephen D. Reinhardt, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Phyllis Ressler, M.S., Adjunct Instructor, Integrated Science and Technology.
Ann S. Rickard, M.S.N., FNP-C, Adjunct Clinical Assistant Professor, Health Sciences.
Lisa M. Zerull, Ph.D., R.N., F.C.N., Adjunct Faculty Instructor, Nursing.
Charles Yousif, Ph.D., Adjunct Instructor, Integrated Science and Technology.
Naomi Wu, Adjunct Instructor, Integrated Science and Technology.
John A. Skinner, R.N., B.S.N., PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Scott Zane Smith, D.M.A., Adjunct Instructor, Music.
Christopher Staff, Ph.D., Adjunct Associate Professor, Integrated Science and Technology.
Martin T. Starkman, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Keith Stevens, B.M., M.M., Adjunct Instructor, Music.
Bridgett Stuckey, M.M., Adjunct Instructor, Music.
Dinesh Subedi, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Miklos Szantimrai, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Amenra Tuason, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
B. Scott Urquhart, PA-C, Adjunct Clinical Professor, Health Sciences.
Antonio Valdes-Dapena, M.D., Adjunct Clinical Professor, Health Sciences.
Venugopal Kiran Vasireddy, M.D., Adjunct Clinical Associate Professor, Health Sciences.
Alfred Vella, Ph.D., Adjunct Professor, Integrated Science and Technology.
Antoine Vella, Ph.D., Adjunct Assistant Professor, Integrated Science and Technology.
Martha N. Vesterlund, R.N., B.S., M.S.N., A.N.P.-C., N.P., Adjunct Faculty Instructor, Nursing.
Luis H. Vigil, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Steven Voigt, B.M., M.A., Ph.D., Adjunct Instructor, Music.
Case Watkins, Adjunct Instructor, Integrated Science and Technology.
Charles K. Weissman, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Duane S. White, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
Bobby Whitescarver, M.P.A., Adjunct Instructor, Integrated Science and Technology.
Bruce E. Wilcox, Ph.D., Adjunct Assistant Professor, Chemistry and Biochemistry.
Jeaneine Wilson, PA-C, Adjunct Clinical Assistant Professor, Health Sciences.
Robert W. Wilson, M.D., Adjunct Clinical Assistant Professor, Health Sciences.
James J. Winebrake, Ph.D., Adjunct Professor, Integrated Science and Technology.
Susan Winslow, R.N., M.S.N., NEA-BC, APHN-BC, Adjunct Faculty Instructor, Nursing.
Naomi Wu, Adjunct Instructor, Integrated Science and Technology.
Dale Christopher Young, M.D., Adjunct Professor, Health Sciences.
Charles Yousef, Ph.D., Adjunct Instructor, Integrated Science and Technology.
Lisa M. Zenull, Ph.D., R.N., F.C.N., Adjunct Faculty Instructor, Nursing.

JMU owes a significant debt to these individuals as well as to part-time faculty members who, by virtue of their experience in law, medicine, business, education and government, bring significant insight and experience to our education program. Part-time faculty are not listed here because their own success causes frequent change in the JMU part-time listing.

Studies Abroad Faculty

**Semester in Antwerp**
- Kris Lieckens, Ph.D., University of Antwerp.
- Rudy Martens, Ph.D., University of Antwerp.
- Ben Podevyn, M.B.A., University of Antwerp.
- Paul Roosens, Ph.D., Erasmus University Rotterdam.
- Ward Roofthooft, Ph.D., Century University Albuquerque.
- Koen Vandenbempt, Ph.D., University of Antwerp.

**Semester in Florence**
- Luca Baldoni, Ph.D., University College London
- Beatrice Corsini, M.A., Ca' Foscari University, Venice
- Giulia Federici, Doctor of Arts and Letters, University of Florence.
- Alba Forzoni, Doctor of Arts and Letters, University of Florence.
- Alessandro Gentili, Doctor of Arts and Letters, University of Florence.
- Giampiero Giacometto, Doctor of Political Science, Bologna University; Ph.D., European University, Florence.
- Beatrice Giudice, Doctor of Arts and Letters, University of Florence.
- Susanna Mollica, Doctor of Arts and Letters, University of Florence.
- Caterina Paolucci, Ph.D., Social and Political Sciences, European University Institute, Florence.

**Semester in London**
- Rachel Barnes, M.Phil., Birmingham University.
- Tancred Bradshaw, Ph.D., London University.
- Judith Dobbs, A.B., English History, Vassar; M.Phil., University of London.
- John Dodson, M.Phil., Media and Communications Studies, Goldsmith's College, University of London.
- Sheila Fox, Ph.D., M.A., Manchester University; B.A., Trinity College, Dublin.
- Nicholas Pierpan, D. Phil. in English Literature, Oxford University.

**Semester in Salamanca**
- Antonio Casaseca, Ph.D., University of Salamanca.
- Maria Jesús Framiñá de Miguel, Ph.D., University of Salamanca.
- Marta García García, M.A., University of Salamanca.
- Eva Guerrero Guerrero, Ph.D., University of Salamanca.
- Jesús Angel Jiménez, M.A., University of Salamanca.
- Mercedes Marcos, M.A., University of Salamanca.
- Maria Angeles Perez Lopez, Ph.D., University of Salamanca.
- Enrique Jiménez Ríos, Ph.D., University of Salamanca.
- Pedro Pardo Garcia, Ph.D., University of Salamanca.
- Manuel Ambrosio Sánchez Sánchez, Ph.D., University of Salamanca.
- Javier Santiago, Ph.D., University of Salamanca.
- José Manuel Santos Pérez, Ph.D., University of Salamanca.
- José Luengo Ugidos, Ph.D., University of Salamanca.
- Javier Sánchez Zapatero, Ph.D., University of Salamanca.
Faculty Emeriti

Craig E. Abrahamson, B.A., M.S.W., Ph.D.
Professor Emeritus of Psychology.

Elizabeth D. Adams, B.A., M.S., D.Sc.
Associate Professor Emerita of Computer Science.

Joseph D. Albert, B.A., Ph.D.
Professor Emeritus of Finance.

Virginia Aliotti, B.S., M.A.
Assistant Professor Emerita of French.

Violet L. Affini, B.A., M.A., Ph.D.
Associate Dean Emerita, General Education; Professor Emerita of Secondary Education.

Roddy V. Amenta, B.A., M.S., Ph.D.
Professor Emeritus of Geology and Environmental Science.

Judith L. Anderson, B.M., M.A., M.L.S.
Professor Emerita; Catalog Librarian.

Virginia Andreoli-Mathie, B.A., B. Math., M.A., Ph.D.
Professor Emerita of Psychology.

Charles G. Arnold, B.S., M.S.
Assistant Professor Emeritus of Physical Education.

Kathleen G. Arthur, B.A., M.A., Ph.D.
Professor Emerita of Art and Art History.

Thomas H. Arthur, B.S., M.A., Ph.D.
Professor Emeritus of Theatre.

Robert C. Atkins, S.B., Ph.D.
Professor Emeritus of Chemistry.

George Baker, M.S., Ph.D.
Professor Emeritus of Integrated Science and Technology.

Nicholas Bankson, B.S., M.A., Ph.D.
Professor Emeritus of Speech Pathology.

James L. Barnes, M.Ed., M.S., Ed.D.
Professor Emeritus of Integrated Science and Technology.

Fernando Barroso
Professor Emeritus of Foreign Language and Literature.

Kenneth Beer Jr., B.A., M.A.
Associate Professor Emeritus of Art and Art History.

James O. Benedict, B.A., M.S., Ph.D.
Professor Emeritus of Psychology.

Professor Emeritus of Accounting.

Clinton W. Bennett, B.S., M.S., Ph.D.
Professor Emeritus of Speech Pathology.

Devon C. Bent, B.A., Ph.D.
Director Emeritus, James Madison Center; Professor Emeritus of Political Science.

Vicki Lynn Bernesking, B.M., M.A.
Professor Emerita of Music.

Robert D. Berrson, B.A., M.S.Ed, Ph.D.
Professor Emeritus of Art and Art History.

Thomas M. Bertsch, B.S., M.S., Ph.D.
Professor Emeritus of Marketing.

Charles P. Bilbrey, M.B.A., Ph.D.
Professor Emeritus of Information Technology.

John J. Bilot, B.S., M.S.
Director Emeritus, Hotel and Restaurant Management Program; Professor Emeritus of Management and Marketing.

Ashton C. Bishop, B.S., M.S, Ph.D.
Professor Emeritus of Accounting.

Head Emeritus, Department of Early and Middle Education; Professor Emeritus of Education.

Sidney R. Bland, B.A., M.A., Ph.D.
Professor Emeritus of History.

Norylin L. Bodkin, A.B., M.S., Ph.D.
Professor Emeritus of Biology.

Claire P. Bolfing, B.S., M.B.A., Ph.D.
Professor Emerita of Marketing.

Christina E. Bolgiano, B.A., M.L.S.
Special Collections Librarian Emerita; Adjunct Professor Emerita.

Anthony E. Bopp, B.A., M.A., Ph.D.
Professor Emeritus of Health Sciences.

Associate Professor Emeritus of Education.

Catherine E. Boyd, B.A., M.A., Ph.D.
Professor Emerita of History.

Dorothy A. Boyd-Bragg, A.B., Ed.M., M.A., Ph.D.
Professor Emerita of History.

William P. Boyer Jr., B.A., M.A., Ph.D.
Associate Professor Emeritus of Anthropology.

Cecil D. Bradfield, B.A., M.A., Div., Ph.D.
Professor Emeritus of Sociology.

Linda M. Bradley, B.A., M.A., Ed.D.
Associate Professor Emerita of Education.

Patricia Lynn Brady, B.A., B.M., M.M., D.M.
Professor Emerita of Music.

Patricia B. Brevard, B.S., B.A., M.S., Ph.D.
Professor Emerita of Health Sciences.

Douglas T. Brown, B.A., M.A., Ph.D.
Provost Emeritus, Professor Emeritus of Psychology.

Patricia J. Bruce, A.B., M.Ed., P.E.D.
Professor Emerita of Physical Education and Health Science.

Bruce C. Busching, B.A., Ph.D.
Professor Emeritus of Sociology.

Martha B. Caldwell, B.A., M.A., M.A., Ph.D.
Professor Emerita of Art and Art History.

Shirley Lynn Cameron, B.A., B.A., M.L.S.
Professor Emerita of Library Administration.

F. Howard Campbell III, B.A., M.S.
Assistant Professor Emeritus of Geology.

Timothy J. Carter, B.A., M.A., Ph.D.
Department Head Emeritus of Sociology and Anthropology; Professor Emeritus of Sociology and Anthropology.

Jean W. Cash, B.A., M.A., Ph.D.
Professor Emerita of English.

H. B. Cavalcanti, B.Th, LL.B., M.Div., M.A., Ph.D.
Professor Emeritus of Sociology and Anthropology.

Frances C. Cavanaugh, A.B., M.A., Ph.D.
Professor Emerita of English.

Mary Ann Chappell, B.A., M.S.L.S.
Associate Professor Emerita of Libraries and Educational Technologies.

Gary Chatelain, B.F.A., M.F.A.
Professor Emeritus of Art and Art History.

Ching-Yuan Chiang, B.S., A.M., M.A., Ph.D.
Professor Emeritus of Mathematics and Statistics.

Professor Emeritus of Music.

Jeffrey C. Clark, A.B., M.L.S.
Associate Professor Emeritus of Library Administration.

Paul C. Cline, A.B., M.A., J.D., Ph.D.
Professor Emeritus of Political Science and Law.

Howard R. Cohen, B.A., M.A., Ph.D.
Professor Emeritus of Spanish.

Ralph Alan Cohen, A.B., M.S., Ph.D.
Professor Emeritus of English.

Lee W. Congdon, B.A., M.A., Ph.D.
Professor Emeritus of History.

James N. Conis, B.S., M.A., Ph.D.
Professor Emeritus of Spanish.

http://www.jmu.edu/catalog/14
James V. Couch, B.A., M.S., Ph.D.
  Professor Emeritus of Psychology.
Jerry L. Coulter, B.A., M.F.A.
  Professor Emeritus of Art and Art History.
James H. Crable, B.S., M.F.A., H.D.A.
  Professor Emeritus of Art and Art History.
Samuel G. Cross, B.M., M.M.
  Professor Emeritus of Music.
Gary P. Crowther, B.A., Ph.D.
  Professor Emeritus of Chemistry.
Sandia F. Cryder, B.M., M.A.
  Professor Emeritus of Music.
Charles W. Curry, B.S., M.S., Ed.D.
  Director Emeritus, Adult Degree Program; Associate Professor Emeritus of Adult Education and Human Resource Development.
Pauline K. Cushman, B.A., M.A., M.S., Ph.D.
  Professor Emerita of Integrated Science and Technology and Computer Science.
Marcia A. Dake, B.S., M.A., Ed.D.
  Dean Emerita, College of Nursing; Professor Emerita of Nursing.
N. Jean Dalton, B.S., M.S., Ed.D.
  Professor Emerita of Kinesiology.
Faramarz Damanpour, B.A., M.A., Ph.D.
  Professor Emeritus of Science.
Jane Kruger D'Arcy, B.S., M.S. in Ed.
  Associate Professor Emerita of Physical Education.
  Professor Emeritus of Education.
Benjamin A. DeGraff, B.A., M.S., Ph.D.
  Professor Emeritus of Chemistry.
James E. Dendiger, B.S., M.S., Ph.D.
  Professor Emeritus of Biology.
Z. S. Dickerson Jr., B.S., M.A. in Ed., Ed.D.
  Professor Emeritus of Business Education.
John David Diller, B.F.A., M.F.A., Ph.D.
  Professor Emeritus of Art.
Jacqueline D. Driver, Ph.D., M.A., M.Ed.
  Associate Professor Emerita of Psychology.
Carl G. Droms, B.S., M.S., M.S., Ph.D.
  Professor Emeritus of Mathematics and Statistics.
Charles W. Dubenecz, B.A., M.A., Ed.D.
  Associate Professor Emeritus of Library Science and Educational Media.
O. Dean Ehlers, B.S., M.Ed.
  Emeritus Athletic Director; Assistant Professor Emeritus of Kinesiology.
Anthony J. Eksterowicz, B.A., M.A., Ph.D.
  Professor Emeritus of Political Science.
Philip S. Emmert III, B.A., M.A., Ph.D.
  Professor Emeritus of Communication Studies.
Victoria J. Emmert, B.A., M.A.
  Instructor Emerita of Communication Studies.
Joseph D. Emedy, B.S., M.S., Ph.D.
  Professor Emeritus of Geographic Science.
Wayne E. Engle, B.A., M.A., Ph.D.
  Professor Emeritus of Psychology.
Joseph J. Estock, B.M.E., M.M.E., Ph.D.
  Professor Emeritus of Music.
Steven H. Fairchild, B.S., M.S., Ph.D.
  Associate Dean Emeritus, College of Education; Professor Emeritus of Education.
John R. Fairfield, Ph.D.
  Professor Emeritus of Computer Science.
Maynard D. Feller, B.S., M.A., Ph.D.
  Professor Emeritus of Speech Pathology.
Dawn S. Fisher, B.A., M.S., Ph.D.
  Associate Professor Emerita of Mathematics.
Gordon M. Fisher, B.A., Ph.D.
  Professor Emeritus of Mathematics and Computer Science.
J. Elwood Fisher, B.S., M.S., Ph.D.
  Professor Emeritus of Biology.
Jeanne Fitzgerald, B.A., M.S., Ph.D.
  Associate Professor Emerita of Mathematics and Statistics.
Judith A. Flohr, B.S., M.A., Ph.D.
  Professor Emerita of Kinesiology.
Lawrence M. Foley, B.S., M.A., Ph.D.
  Professor Emeritus of English.
Karen A. Forcht, B.S., M.S., Ed.D.
  Professor Emerita of Computer Information Systems.
Alfred J. Franchot Jr., B.S., M.A., Ph.D.
  Professor Emeritus of Finance.
Joan Frederick, B.A., M.A., Ph.D.
  Professor Emerita of English.
Rex M. Fuller, B.S., M.A., Ph.D.
  Professor Emeritus of Communication Studies.
J. Diane Fuqua, B.A., M.A., Ph.D.
  Associate Professor Emerita of Early Childhood Education.
Anne S. Gabbard-Alley, B.A., M.A., Ph.D.
  Professor Emerita of Communication Studies.
Barbara L. Gabriël, B.S., Ph.D.
  Professor Emerita of Integrated Science and Technology.
Thomas Gallaher, B.S.
  Emeritus Instrumental Chemist.
Robert F. Geary Jr., B.A., M.A., Ph.D.
  Professor Emeritus of English.
Clarence R. Geier, B.A., M.A., Ph.D.
  Professor Emeritus of Anthropology.
John R. Gentile, B.A., M.S., Ph.D.
  Professor Emeritus of Integrated Science and Technology.
Frank A. Gerome, B.A., M.A., Ph.D.
  Professor Emeritus of History.
Gerald L. Gill, A.B., M.A.L.S.
  Professor Emeritus of Library Administration.
Dona J. Gilliam, B.M., M.M., J.D.
  Professor Emeritus of Music and Media Arts.
Michael S. Goldberger, B.S., M.Ed., Ph.D.
  Professor Emeritus of Kinesiology.
J. Robert Gordon, B.S., M.Ed., M.S.
  Head Emeritus, Department of Physics; Professor Emeritus of Physics.
Dinh G. Gottschalk, B.S., M.B.A.
  Assistant Professor Emerita of Accounting.
P. Tony Graham, A.B., M.A., Ed.D.
  Professor Emeritus of Secondary Education.
Joann H. Grayson, B.A., Ph.D.
  Professor Emerita of Psychology.
Phillip S. Grayson, B.A., M.A., M.F.A.
  Professor Emeritus of Theater.
Gerald W. Green, B.A., M.Ed., Ed.D.
  Associate Professor Emeritus of Middle Education.
Glen C. Gustafson, B.A., M.Sc., Ph.D.
  Professor Emeritus of Integrated Science and Technology.
Mary F. Haban, B.A., M.L.S., M.S., Ph.D.
  Professor Emerita of Library Science and Educational Media.
Roger A. Hall, A.B., M.A., Ph.D.
  Professor Emeritus of Theater.
William O. Hall Jr., B.S.C., M.A., Ed.D.
  Professor Emeritus of Education; Adjunct Professor Emeritus of Psychology.
Clive R. Hallman Jr., A.B., M.A., Ph.D.
  Professor Emeritus of History.
Mario Hamlet-Metz, Professor de Estado, Ph.D.
  Professor Emeritus of French.
James B. Hammond, B.A., B.S.M., M.A.
  Professor Emeritus of Health Sciences.

http://www.jmu.edu/catalog/14
Frank W. Luth Jr., A.B., M.Ed., Ph.D.  
Professor Emeritus of Special Education.

John T. Lyon Jr., B.S., M.A., Ph.D.  
Professor Emeritus of Music.

Carter Lyons, B.A., M.S., Ph.D.  
Professor Emeritus of Mathematics and Statistics.

Joseph H. Marchal, B.A., M.A., Ph.D.  
Professor Emeritus of Integrated Science and Technology.

George W. Marrah, B.S., M.S., Ph.D.  
Associate Professor Emeritus of Mathematics and Statistics.

Caroline T. Marshall, B.A., M.A., Ph.D.  
Professor Emeritus of History.

Professor Emeritus of Finance and Business Law.

Doris Martin, B.S., M.Ed., Ph.D.  
Professor Emerita of Early Childhood Education.

Jeanne M. Martin-McAllister, B.S., M.A., Ph.D.  
Professor Emerita of Health Sciences; Director Emerita of the Office of Substance Abuse Research.

Sandra L. Maxfield, B.S., M.L.I.S., M.S.  
Associate Dean Emerita of Libraries and Educational Technologies; Associate Professor Emerita of Libraries and Educational Technologies.

Phillip H. Maxwell, B.S., M.S., D.B.A.  
Associate Professor Emeritus of Finance.

Paul A. McEnderfer, B.M., M.M.  
Associate Professor Emeritus of Music.

Anne S. McFarland, B.A., M.A.  
Catalog Librarian Emerita; Assistant Professor Emerita.

J. Edson McKee, B.S., M.S., Ed.D.  
Professor Emeritus of Graduate Psychology.

Eva M. McMahan, B.S., M.A., Ph.D.  
Associate Dean Emerita, College of Arts and Letters; Department Head Emerita, School of Communication Studies; Professor Emerita, Communication Studies.

Challace Joe McMillin, B.S., M.A., Ed.D.  
Professor Emeritus of Kinesiology.

William J. McMurray, B.A., M.A., Ph.D.  
Professor Emeritus of English.

Robin M. McNair, B.A., M.A.  
Associate Professor Emeritus of English.

Richard E. McPherson, B.Mus., M.Mus., A.Mus.D.  
Professor Emeritus of Music.

Alfred J. Menard, B.S., M.Ed., Ed.D.  
Associate Vice President Emeritus for Institutional Effectiveness.

Shirley B. Merlin, B.A., M.A., Ed.D.  
Professor Emerita of Education.

Earllyn J. Miller, B.S., M.F.A., Ed.D.  
Professor Emerita of Dance.

Gordon W. Miller, B.A., M.L.S., M.A.  
Professor Emeritus of Information Services.

Kevin G. Miller, B.S., M.S., C.P.A.  
Associate Professor Emeritus of Accounting.

Esther H. Minskoff, B.S., M.S., Ph.D.  
Professor Emerita of Special Education.

J. Gerald Minskoff, B.S., M.A., Ed.D.  
Professor Emeritus of Special Education.

Heilen B. Moore, B.A., M.A., Ed.D.  
Professor Emerita of Psychology.

Robert C. Morris Sr., B.S., M.Ed.  
Assistant Professor Emeritus of Audiology.

L. Leontis Morrison, B.S. in Ed., M.A., P.E.D.  
Associate Director Emerita of Athletics; Professor Emerita of Physical Education and Health Science.

James L. Mullinex, B.S., M.A., Ed.D.  
Professor Emeritus of Mathematics.

Donald L. Musselman, B.A., M.A., Ph.D.  
Associate Professor Emeritus of Computer Information Systems and Management Science.

R. Ann Myers, B.S., M.S.W.  
Department Head Emerita of Social Work; Professor Emerita of Social Work.

Professor Emeritus of Education.

Alan Neckowitz, B.A., M.A.  
Professor Emeritus of Media Arts and Design.

Eileen Nelson, A.B., M.A., Ed.D.  
Professor Emerita of Psychology.

Cameron C. Nickels, B.A., M.A., Ph.D.  
Professor Emeritus of English.

Carol K. Noe, B.M.Ed., M.M.  
Professor Emerita of Music.

Jeanne R. Nostrandt, B.A., M.Ed., Ph.D.  
Professor Emerita of English.

Nancy K. O'Hare, B.A., M.Ed., Ph.D.  
Professor Emerita of Speech Pathology.

Romeo A. Olivas, B.A., M.A., Ph.D.  
Associate Professor Emeritus of Psychology.

Claudia O'Neill, R.N., M.S.N.  
Lecturer Emerita of Nursing.

Forrest C. Palmer, B.A., B.S. in L.S., M.S. in L.S.  
Documents Librarian Emeritus; Professor Emeritus of Library Science.

G. Edgar Parker, A.B., Ph.D.  
Professor Emeritus of Mathematics and Statistics.

W. Dennis Patzig, B.B.A., M.S., Ph.D.  
Associate Professor Emeritus of Management.

Joanne M. Pearson, B.S., M.S., Ph.D.  
Associate Professor Emeritus of Health Sciences.

Milton Perlman, B.A., M.A.T.  
Assistant Professor Emeritus of French and Latin.

Dany B. Perramond, Ph.D.  
Professor Emeritus of Foreign Languages and Literatures.

Mary M. Perramond, Ph.D.  
Professor Emerita of Foreign Languages and Literatures.

Anna Ruth Pyne, A.B., M.A., M.S.L.S.  
Catalog Librarian Emerita; Associate Professor Emerita.

Dorn W. Peterson, B.S., Ph.D.  
Associate Professor Emeritus of Physics and Astronomy.

Gary L. Peterson, B.S., Ph.D.  
Professor Emeritus of Mathematics and Statistics.

Alvin M. Pettus, B.A., M.Ed., Ed.D.  
Associate Dean Emeritus, College of Education; Professor Emeritus of Secondary Education.

Joan K. Pierson, B.S., M.S., Ed.D.  
Professor Emerita of Information and Decision Sciences.

Helen M. Poindexter, B.S., M.A., Ph.D.  
Assistant Professor Emerita of Family and Gerontology.

William L. Powell, B.S., M.Ed., Ph.D.  
Professor Emeritus of Accounting.

Jack H. Presbury, B.S.Ed., M.Ed., Ph.D.  
Professor Emeritus of Psychology.

Professor Emeritus of Management.

Charles David Pruett, B.S., M.Ed., M.S., Ph.D.  
Professor Emeritus of Mathematics and Statistics.

Raymond C. Ramquist, M.S.Ed., Ed.D.  
Director Emeritus of Education and Media Laboratory; Associate Professor Emeritus of Library Science and Education Media.

Professor Emerita of Library Science and Educational Media.

http://www.jmu.edu/catalog/14
Associate Professor Emerita of Nursing.
Robert D. Reid, B.S., M.S., Ed.D.
Dean Emeritus, College of Business; Professor Emeritus of Marketing.
Michael D. Retting, B.S., M.S., Ph.D.
Professor Emeritus of Educational Leadership.
Associate Vice President Emerita for Academic Affairs; Professor Emerita of Psychology.
Philip F. Riley, B.A., A.M., Ph.D.
Professor Emeritus of History.
Richard M. Roberds, A.B., M.A., Ph.D.
Professor Emeritus of Integrated Science and Technology.
Gene D. Robinson Jr., B.A., M.S., Ph.D.
Professor Emeritus of Geology and Environmental Science.
Dennis E. Robinson, B.S., M.A., M.S.
Dean Emeritus, Integrated Learning Resources; Professor Emeritus.
Judith T. Rocchiccioli, B.S.N., M.S.N., Ph.D.
Professor Emerita of Nursing.
Sheena J. Rogers, B.Sc. (Hons), Ph.D.
Professor Emerita of Communication Sciences and Disorders.
Lawrence W. Roller, B.S., M.Ed., Ed.D.
Associate Professor Emeritus of Special Education and School Administration.
Steven A. Rollman, B.A., M.A., Ph.D.
Professor Emeritus of Communication Studies.
J. Patrick Rooney, B.M.E., M.M.E., D.M.A.
Professor Emeritus of Music.
Martha K. Ross, B.A., M.S., Ph.D.
Head Emerita, Department of Early Elementary and Reading Education; Professor Emerita of Early Elementary and Reading Education.
Dorothy M. Rowe, B.S., M.S., Ph.D.
Head Emerita, Department of Living Sciences; Professor Emerita of Living Sciences.
Joseph W. Rudmin, B.S., M.S., Ph.D.
Professor Emeritus of Psychology.
James L. Ruff, B.A., M.A., Ph.D.
Professor Emeritus of English.
Charles M. Runyan, A.B., M.A., Ph.D.
Professor Emeritus of Communication Sciences and Disorers.
Sara E. Runyan, B.S., M.A.
Associate Professor Emerita of Communication Sciences and Disorders.
Bijan Saadatmand, B.S., M.S., Ph.D.
Professor Emeritus of Psychology.
John E. Sander, B.S., M.S., Ph.D.
Associate Professor Emeritus of Geology.
William M. Sanders, B.S., M.A., Ph.D.
Professor Emeritus of Mathematics.
Karen E. Santos, B.S., M.Ed., Ph.D.
Professor Emerita of Exceptional Education.
Brenda C. Seal, B.S., M.A., Ph.D.
Professor Emerita of Communication Sciences and Disorders.
Vernon C. Seguin, B.Ch.E., M.B.A., D.B.A.
Associate Professor Emeritus of Marketing.
Cletus M. Sellers Jr., B.A., M.S., Ph.D.
Director Emeritus, Center for Prehealth Resources; Professor Emeritus of Health Sciences.
Raymond A. Serway, B.A., M.S., Ph.D.
Professor Emeritus of Physics.
Ruth K. Shelton, B.A., M.S., Ph.D.
Associate Professor Emerita of Marketing.
W. Cullen Sherwood, B.S., M.A., Ph.D.
Professor Emeritus of Geology and Environmental Science.
Beverly P. Silver, B.S., M.S., Ph.D.
Associate Professor Emerita of Biology.
Douglas Skolley, A.B., M.A., Ph.D.
Professor Emeritus of Political Science.
Michael E. Smilowitz, B.A., M.A., Ph.D.
Associate Professor Emeritus of Communication Studies.
Glenn T. Smith, B.B.A., M.S.
Associate Professor Emeritus of Computer Information Systems and Management Science.
V. Russell Smith, B.A., Ph.D.
Associate Professor Emeritus of Economics.
William D. Smith, B.S., M.A.T., Ph.D.
Professor Emeritus of Secondary Education.
Ray V. Sonner, B.A., M.Ed., Ed.D.
Senior Vice President Emeritus; Professor Emeritus of Education.
Diame M. Spresser, B.S., M.A., Ph.D.
Professor Emerita of Mathematics.
Jon A. Staib, B.S., M.S., Ph.D.
Professor Emeritus of Physics.
Paul H. Steagall Jr., B.S., M.Ed., Ph.D.
Professor Emeritus of Business Education and Administrative Services.
James Steele, A.B., B.D., Th.M.
Professor Emeritus of Sociology.
Barbara S. Stern, B.A., M.Ed., Ed.D.
Professor Emerita of Middle, Secondary, and Mathematics Education.
Stephen Stewart, B.H.S., M.P.H., Dr.P.H.
Director Emeritus, Strategic Alliances and Special Projects for CISAT; Professor Emeritus of Health Sciences.
John D. Stone, B.A., M.A., Ph.D.
Professor Emeritus of Communication Studies.
Allan D. Stuhlmiiller, Jr., B.S., M.S.
Head Emeritus, Department of Military Science; Professor Emeritus of Military Science.
John W. Sweigart, A.B., Ph.D.
Professor Emeritus of Philosophy.
Gerald R. Taylor Jr., B.S., M.S., Ph.D.
Director Emeritus, Center for Materials Science; Professor Emeritus of Physics and Integrated Science and Technology.
Jack A. Taylor, B.S., M.A., Ph.D.
Associate Professor Emeritus of Integrated Science and Technology.
Timothy N. Taylor, B.S., M.A., Ph.D.
Assistant Professor Emeritus of Mathematics.
Professor Emerita of Computer Information Systems and Business Analytics.
Professor Emeritus of Marketing.
Robin L. Teske, B.A., M.A., J.D., Ph.D.
Professor Emerita of Political Science.
Crystal Theodore, A.B., A.M., Ed.D.
Professor Emerita of Art.
Katherine B. Thompson, B.S., M.P.A.
Assistant Dean Emerita of The Graduate School.
Richard H. Thompson, B.A., A.M., Ph.D.
Professor Emeritus of Anthropology.
H. Richard Travis, B.A., M.S., Ph.D.
Professor Emeritus of Health Sciences.
Gilbert S. Trelawny, B.S., M.S., Ph.D.
Professor Emeritus of Biology.
William Gene Tucker, B.S., M.S., Ph.D.
Professor Emeritus of Integrated Science and Technology.
Charles C. Turner, B.A., M.S., Ph.D.
Professor Emeritus of Media Arts and Design.
Francis E. Turner, B.M. in Ed., M.Ed.
Director Emeritus of Admissions and Continuing Education.
Larry T. Tynes, B.A., M.A.
Associate Professor Emeritus of Music.
Robert W. Vanderwarker, Jr., B.A., M.S.
Assistant Professor Emeritus of Kinesiology.

Anvid W. VanDyke, B.A., M.A., Ed.D.
Associate Professor Emeritus of Integrated Science and Technology.

Joel Vedelli, B.S., M.A., Ed.S.
Professor Emeritus of Kinesiology.

Gregory R. Versen, B.A., M.S.S.W.
Associate Professor Emeritus of Social Work.

William H. Voige, B.S., Ph.D.
Professor Emeritus of Chemistry.

Jacqueline B. Walker, B.A., M.A., Ph.D.
Professor Emeritus of History.

Dean Emeritus, College of Graduate and Professional Programs.

David A. Watkins, B.M., B.S., M.A.
Associate Professor Emeritus of Music.

M. Evelyn Watkins, A.B., A.M.
Assistant Professor Emerita of Education.

George A. Weed, B.A., M.A., Ph.D.
Professor Emeritus of Media Arts and Design.

Carl G. K. Weaver, B.S., M.S., D.B.A.
Professor Emeritus of Finance.

Catherine J. Webb, B.S.N., M.A.
Professor Emerita of Nursing.

Stephen D. Welpott, B.B.A., B.S., M.B.A.
Lecturer Emeritus of Hospitality and Tourism Management.

Richard F. West, B.A., M.A., Ph.D.
Professor Emeritus of Graduate Psychology.

Head Emeritus, Department of Economics; Professor Emeritus of Economics.

Kenneth C. Williamson, B.S.I.M., M.S., D.B.A.
Professor Emeritus of Marketing.

Mervyn Wingfield, A.B., M.S., Ph.D., C.P.A.
Professor Emeritus of Accounting.

Janet Winstead, B.S., M.S., Ph.D.
Associate Professor Emerita of Biology.

Maurice L. Wolla, B.S.E.E., Ph.D.
Professor Emeritus of Integrated Science and Technology.

John M. Woody, B.S., M.S., M.F.A.
Professor Emeritus of Media Arts and Design.

Joyce S. Wszalek, B.A., M.A.
Associate Professor Emerita of English.

Ronald J. Wyanko, B.F.A., M.A., M.F.A.
Professor Emeritus of Art.

Mary Lou Wylie, B.A., M.A., Ph.D.
Head Emerita, Department of Sociology and Anthropology; Coordinator Emerita, Women’s Studies Program; Professor Emerita of Sociology.

Chong-kun Yoon, B.A., M.A., Ph.D.
Professor Emeritus of History.

Jae H. Yoon, B.A., M.A., Ph.D.
Assistant Professor Emeritus of Communication Studies.

Masako Miyata Zapton, B.F.A., M.F.A.
Professor Emeritus of Art and Art History.

Steven A. Zapton, B.D., M.F.A.
Professor Emeritus of Art and Art History.

Charles W. S. Ziegenfus, B.S., M.A.
Professor Emeritus of Mathematics and Statistics.

D. Kent Zimmerman, B.S., M.B.A., Ph.D.
Associate Professor Emeritus of Management.

David P. Zimmerman, B.A., M.S., Ed.D.
Associate Professor Emeritus of Library Science and Educational Media.
Location
JMU is located in Harrisonburg, a progressive city of over 40,000 inhabitants. Located in the heart of Virginia’s historic Shenandoah Valley, the area is flanked by the Blue Ridge Mountains on the east and the Alleghenies on the west. Harrisonburg is located at the intersection of three major highways: Interstate 81, U.S. 33 and U.S. 11. The campus entrance is located just off Interstate 81 and is within a two-hour drive from Richmond, Roanoke and Washington, D.C.

Campus
The JMU campus contains a total of 486.5 acres, including 31 acres at the University Farm located about nine miles from the campus. The original campus faces Harrisonburg’s Main Street and extends in an eastward direction past Interstate 81. Most buildings on the western portion of the campus are constructed of blue limestone. Stone for the university’s original buildings was taken from the campus itself. The new buildings on the eastern portion of the campus have been constructed since the mid-1960s.
