Configuring Outlook 2016 With Exchange

This tutorial guides a user through the first time set up of a JMU Exchange e-mail account in Outlook 2016.

2. The Outlook 2016 Startup window will appear. Click the Next button in the bottom right of the window.

3. In the next window, make sure Yes is checked to configure an e-mail account then click Next.

4. The auto discovery feature fills in Your Name and your E-mail Address. Click the Next button in the lower right of the window.

   If you are not logged into a computer joined to JMUAD, you will need to enter your name, email address, and eID password as shown.
