Nursing

PROGRAM:

In this inter-professional course students from various majors will explore the health needs and the health and human services delivery system in Costa Rica, as well as the history, culture, and beauty of this Central American Country. Students will compare and contrast issues and professional roles that impact health in the U.S. and Costa Rica. This immersion experience includes home stay with a host family and Spanish language study.

DATES: June 1, 2013 – June 21, 2013

(all dates are tentative and subject to change)
