

# SSEA/CFI Research Fellow Application Spring 2024

---

## Start of Block: Default Question Block

Q6 SSEA Student Success & Enrollment Analytics and the Center for Faculty Innovation are excited to announce a call for applicants to join a Research Fellow program. To encourage evidence-based reflection, experimentation, and innovation toward equitable student/faculty success and student retention:

1. We are seeking applications of individual faculty/staff and teams (2 to about 5 faculty/staff per team) interested in exploring data-informed questions about equity, faculty/student success, and retention. Those selected would spend the Spring 2024 semester developing an interdisciplinary research proposal in teams. Selected individual applicants will be placed into a team.
  2. Teams that have completed fellow program requirements are eligible and encouraged to apply for implementation grants to carry out their research proposal. Implementation grants can support research during Summer 2024 or Fall 2024 and those selected will be expected to participate in Spring 2025 showcases.

*If Have you and/or your team discussed your interest in being a Research Fellow with your Academic U... = No*

Q9 It is important that your Academic Unit Head (AUH), Director, or Supervisor be aware of and support your possible participation as a Research Fellow. They must sign off on your payment for participation and it is helpful to have them as partners and advocates for your work as a Research Fellow. Please discuss with them prior to advancing and submitting your application.
