[Standards for Safeguarding Customer Information, 84 Federal Register 13158, April 4, 2019](#)

NOTICE OF PROPOSED RULEMAKING: The Federal Trade Commission requests public comment on its proposal to amend the Standards for Safeguarding Customer Information. The proposal contains five main modifications to the existing Rule. First, it adds provisions designed to provide covered financial institutions with more guidance on how to develop and implement specific aspects of an overall information security program. Second, it adds provisions designed to improve the accountability of financial institutions' information security programs. Third, it exempts small businesses from certain requirements. Fourth, it expands the definition of “financial institution” to include entities engaged in activities that the Federal Reserve Board determines to be incidental to financial activities (for example, educational institutions and commercial businesses that process student and consumer information). Finally, the Commission proposes to include the definition of “financial institution” and related examples in the Rule itself rather than cross-reference them from a related FTC rule, the Privacy of Consumer Financial Information Rule.

<p>Conforming Amendments and Technical Corrections to Department Rules Implementing the Transportation Industry Drug Testing Program, 84 Federal Register 16770, April 23, 2019</p>	<p>FINAL RULE: This final rule makes minor technical corrections to the OST, FAA, FTA, and PHMSA regulations governing drug testing for safety-sensitive employees to ensure consistency with the recent amendments made to the Department of Transportation's regulation, “Procedures for Transportation Workplace Drug and Alcohol Testing Programs,” which added requirements to test for oxycodone, oxymorphone, hydrocodone, and hydromorphone to DOT-regulated drug testing programs. The changes to the Department's regulation make it necessary to refer to these substances, as well as the previously covered drugs morphine, 6-acetylmorphine, and codeine, by the more inclusive term “opioids,” rather than “opiates.” This rule amends the term in the FAA, FTA, and PHMSA regulations to ensure that all DOT drug testing rules are consistent with one another and with the Mandatory Guidelines for Federal Workplace Drug Testing Programs. In addition, this rule makes a conforming amendment to include the term “opioids” in the wording of the Department's annual information collection requirement and clarifications to section 40.26 and Appendix H regarding the requirement for employers to follow the Department's instructions for the annual information collection.</p> <p>EFFECTIVE DATE: April 23, 2019</p>
