

# Estimated Pricing for Repair Services on Personally Owned Apple Devices

Non-AppleCare prices assume out-of-warranty service.  
All services are dependent on parts availability.

## **Out-Of-Warranty Diagnostic Fee** **\$40**

This non-refundable fee is for a diagnostic of customer reported issues with the device. This includes hardware diagnostics using the manufacturer's software. This fee will be applied toward any additional parts and/or services performed on the device. If no repair is performed, the customer will receive an emailed explanation of the reported issue.

## **Operating System Reinstall** **\$100**

This service is for a reinstallation of the version of MacOS that originally came with the device or the most recent version of MacOS.

## **Hard Drive / SSD Install** **\$100**

This service is only available for systems with replaceable storage. The listed price is for labor only and does not include the price of the replacement storage. This service includes a MacOS reinstall. Data transfer is not included.

## **Display Install\*** **\$100**

The availability of this service is dependent on parts availability from our suppliers. The listed price is for labor only and does not include the price of the replacement display.

## **Motherboard Install\*** **\$100**

The availability of this service is dependent on parts availability from our suppliers. The listed price is for labor only and does not include the price of the replacement motherboard.

## **AppleCare+ - Screen Damage** **\$99**

This service is for repairs to accidental screen damage for devices with a valid AppleCare+ service plan.

## **AppleCare+ - Other Damage** **\$299**

This service is for repairs for all other accidental damage besides screen repairs for devices with a valid AppleCare+ service plan.

*\*Depending on warranty coverage and the extent of the damage, repairs for accidental damage may be subject to Apple's tier repair pricing.*
