Part 3: Executive Summary

Guided by National Association of Colleges and Employers (NACE) standards, the University Career Center (UCC) compiles data on the post-graduation pursuits of JMU graduates.¹ For the Class of 2024, the UCC collected data on 74.8% of bachelor's-degree recipients and 65.9% of advanced-degree recipients. Survey methodology is on slide 40.

Of bachelor's-degree recipients in the Class of 2024, 95.0% achieved a career outcome. 72.8% of these graduates went to work, while 22.2% continued their education. For those without a career outcome, 4.6% were still seeking employment or education, and the remaining 0.4% were not engaged or not seeking. The most popular areas for work included Virginia, Washington, D.C., New York, and New Jersey. Of those graduates working in Virginia, 45.6% were working in Northern Virginia, 25.3% were in Central Virginia, and 16.4% were working in the Shenandoah Valley. Health professions, education, business/management, psychology and public administration were the most popular pursuits in continuing education programs.

For advanced-degree recipients in the Class of 2024, 96.7% achieved a career outcome. Of these, 92.4% were working and 4.3% were pursuing additional education. Of the 3.3% without a career outcome, 3.1% were still seeking and the remaining 0.2% were not engaged or not seeking. Virginia, Washington, D.C. and North Carolina were the most popular areas for advanced-degree recipients to work. Of those working in Virginia, 33.5% worked in the Shenandoah Valley, 32.6% worked in Northern Virginia and 23.2% worked in Central Virginia.

The full career outcome report is available at www.jmu.edu/career.
