# Graduate Programs

James Madison University offers the following academic programs for graduate students.

## **Accounting (M.S.)**

- Accounting Information Systems
- Taxation

## **Adult Education/Human Resource Development (M.S.Ed.)**

- Leadership and Facilitation
- Instructional Design
- Human Resource Management
- Higher Education
- AHRD Program Evaluation and Measurement

## **Art (M.F.A.)**

- Ceramics
- Intermedia
- Metal
- Painting and Drawing
- Photography
- Sculpture

## **Assessment and Measurement (Ph.D.)**

## **Biology (M.S.)**

## **Business Administration (M.B.A.)**

- Innovation
- Information Security

## **College Student Personnel Administration (M.Ed.)**

## **Combined-Integrated Clinical and School Psychology (Ph.D.)**

## **Clinical Audiology (Au.D.)**

## **Communication Sciences and Disorders (Au.D., Ph.D.)**

## **Communication Sciences and Disorders – Research (M.S.)**

- Adult Neurogenic Communication Impairment
- Pediatric Communication Impairment
- Speech Production Disorders
- Hearing and Hearing Disorders

## **Clinical Mental Health Counseling (M.A./Ed.S.)**

## **Computer Science (M.S.)**

- Information Security
- Secure Software Systems

## **Computer Science – Fifth Year Format (M.S.)**

- Education (M.A.T.)
- Early Childhood Education

## **Education – Fifth Year Format (M.A.T., M.Ed.)**

- Elementary Education (Pre-K-6)
- Middle School Education (6-8)
- Secondary Education (6-12)
- Education (M.Ed.)
- Early Childhood Education
- Educational Leadership
- Educational Technology
- Mathematics Specialist – K-8
- Reading Education

## **English (M.A.)**

## **Health Sciences (M.S.)**

- Dietetics
- Nutrition and Physical Activity

## **History (M.A.)**

- European History
- Local/Regional/Public History
- United States History

## **Integrated Science and Technology (M.S.)**

- Malta – Sustainable Environmental Resources Management

## **Kinesiology (M.S.)**

- Exercise Science
- Sport and Recreation Leadership

## **Kinesiology – Fifth Year Format (M.S.)**

- Physical and Health Education

## **Mathematics (M.Ed.)**

## **Music (M.M.)**

- Conducting
- Music Education
- Performance
- Music Theory/Composition

**Music (D.M.A.)**

Performance  
Conducting

**Nursing (M.S.N.)**

Nurse Midwifery  
Adult Nurse Practitioner  
Gerontological Nurse Practitioner  
Family Nurse Practitioner  
Clinical Nurse Leader  
Nurse Administrator

**Occupational Therapy (M.O.T.)****Physician Assistant Studies (M.P.A.S.)****Political Science (M.A.)**

European Union Policy Studies

**Psychological Sciences (M.A.)**

Behavior Analysis  
Clinical Research  
Cognitive Science  
Quantitative Psychology

**Public Administration (M.P.A.)**

Individualized  
Management in Non-governmental  
Organizations  
Public and Nonprofit Management  
Public Sector Communication  
Strategic Planning for International  
Stabilization and Recovery

**Public Administration – Fifth Year Format  
(M.P.A.)**

Individualized  
Management in Non-governmental  
Organizations  
Public and Nonprofit Management  
Public Sector Communication  
Strategic Planning for International  
Stabilization and Recovery

**Public Administration – Roanoke (M.P.A.)**

Public and Nonprofit Management

**School Counseling (M.Ed.)****School Psychology (M.A., Ed.S.)**

Special Education (M.Ed.)  
Non-Teaching Program

**Special Education (M.A.T.)**

K-12  
Early Childhood  
Visual Impairments

**Special Education – Fifth Year Format (M.Ed.)**

K-12  
Early Childhood

**Speech Pathology – Clinical (M.S.)**

Distance Learning in Virginia – Educating  
Speech-Language Pathologists (DLVE-SLP)

**Strategic Leadership (Ph.D.)**

Educational (K-12) Leadership  
Higher Education  
Nonprofit and Community Leadership

**Studio Art (M.A.)****Writing, Rhetoric, and Technical  
Communication (M.A., M.S.)**

Technical and Scientific Communication  
Writing and Rhetoric Studies

# Graduate Calendar for 2010-2011

## Fall Semester 2010

### August 30, Monday

Classes meet as scheduled.

### September 9, Thursday

Graduate Council Meeting.

### September 17, Friday

Last day to withdraw from the university with cancellation of tuition charges and refund.

### September 14, Monday

Thesis/Dissertation Committee Approval form due to The Graduate School.

### September 10, Friday

Graduate Student Picnic, Festival Grand Ballroom.

### September 28, Tuesday

JMU Graduate and Law School Information Fair.

### October 1, Friday

Last day to submit an application for a master's, Ed.S. or doctoral degree if graduation requirements are to be met in December 2010.

### October 14, Thursday

Graduate Council Meeting.

### October 15, Friday

First Block courses end.

### October 15-17, Friday – Sunday

Homecoming.

### October 18, Monday

Second Block courses begin.

### October 21, Thursday

Mid-semester grades due in the Office of the Registrar.

### October 26, Tuesday

First Block course grades due in the Office of the Registrar.

### October 27, Wednesday

Last day for doctoral students to submit their dissertation titles to TGS for inclusion in the commencement program.

### November 11, Thursday

Graduate Council Meeting.

### November 19, Friday

Comprehensive assessment results due to The Graduate School.

Thesis/Research Project/Dissertation due to The Graduate School.

Dining Services closes at 7:30 p.m.

### November 20, Saturday

Thanksgiving vacation begins and residence halls close at 10 a.m.

### November 27, Saturday

Residence halls open at 4 p.m.

Dining Services opens at 4:30 p.m.

### November 29, Monday

Classes resume.

Last day for students to submit work to faculty for 2010 spring semester and 2010 summer session for removal of "incomplete" grades.

### December 9, Thursday

Graduate Council Meeting.

### December 10, Friday

Last day of classes.

Last day for faculty to turn in removal of "incomplete" grades for 2010 spring semester and 2010 summer session to the Office of the Registrar.

**December 13-17, Monday – Friday**

Final examinations.

**December 17, Friday**

Residence halls close at 5 p.m.

Dining Services close and fall meal plans end at 2 p.m.

Deadline for completion of course work for December graduates.

**December 18, Saturday**

Graduation.

Commencement exercises, Convocation Center.

## **Spring Semester 2011**

**January 9, Sunday**

Residence halls open at 9 a.m.

Spring meal plans begin and Dining Services open at 5 p.m.

**January 10, Monday**

Classes meet as scheduled.

**January 13, Thursday**

Graduate Council Meeting.

**January 17, Monday**

Martin Luther King, Jr. Day. Classes do not meet.

**January 21, Friday**

Last day to submit an application for a master's, Ed.S. or doctoral degree if graduation requirements are to be met in May 2011.

**January 28, Friday**

Last day to withdraw from the university with cancellation of tuition charges and refund.

**January 31, Monday**

Thesis Committee Approval form due to The Graduate School.

**February 10, Thursday**

Graduate Council Meeting.

**February 15, Tuesday**

Student Assessment/Faculty Assistance (no classes 8 a.m. – 4 p.m.).

Evening classes (those beginning 4 p.m. or later) meet as scheduled.

**March 1, Tuesday**

Third Block courses end.

**March 4, Friday**

Dining Services closes at 2 p.m.

Residence halls close at 5 p.m.

**March 7 – 11, Monday – Friday.**

Spring Break. Classes do not meet.

**March 13, Sunday**

Residence halls open at noon and Dining Services open at 5 p.m.

**March 14, Monday**

Classes resume.

Fourth Block courses begin.

**March 18, Friday**

James Madison Day.

**March 21, Monday**

Advance registration for 2011 summer session begins.

**March 31, Thursday**

Last day for doctoral students to submit their dissertation titles to TGS for inclusion in the commencement program.

**April 5, Tuesday**

Registration begins for 2011 fall semester.

**April 14, Thursday**

Graduate Council Meeting.

**April 15, Friday**

Last day for students to submit work to faculty for 2010 fall semester for removal of "incomplete" grades.

**April 20, Wednesday**

Comprehensive assessment results due to The Graduate School.

Thesis/Research Project/Dissertation due to The Graduate School.

**April 29, Friday**

Last day of classes.

Last day for faculty to turn in removal of "incomplete" grades for 2010 fall semester to the Office of the Registrar.

**May 2 – 6, Monday – Friday**

Final examinations.

**May 6, Friday**

Dining Services close at 7 p.m. and spring meal plans end.

Deadline for completion of course work for May graduates.

Graduation. Commencement exercises, Convocation Center.

**May 20, Friday**

Graduate Council Retreat.

# **Graduate 2011 Summer Sessions**

## **Important Dates For All 2011 Summer Sessions**

### **June 4, Friday**

Last day to submit an application for a master's, Ed.S. or doctoral degree if graduation requirements are to be met by the end of the 2011 summer session.

### **July 7, Thursday**

Comprehensive assessment results due to The Graduate School.  
Thesis/Research Project/Dissertation due to The Graduate School.

### **August 5, Friday**

Deadline for completion of course work for summer graduates.

## **Twelve-Week Graduate Term**

### **May 16, Monday**

Classes meet as scheduled.

### **May 30, Monday**

Memorial Day. Classes do not meet.

### **July 4, Monday**

Fourth of July. Classes do not meet.

### **August 5, Friday**

Final examinations for twelve-week graduate term.

## **Eight-Week Graduate Term**

### **June 6, Monday**

Classes meet as scheduled.

### **July 4, Monday**

Fourth of July. Classes do not meet.

### **August 5, Friday**

Final examinations for eight-week graduate term.

## **First Six-Week Graduate Term**

### **May 16, Monday**

Classes meet as scheduled.

### **May 30, Monday**

Memorial Day. Classes do not meet.

### **June 24, Friday**

Final examinations for first six-week graduate term.

## **Second Six-Week Graduate Term**

### **June 27, Monday**

Classes meet as scheduled.

### **July 4, Monday**

Fourth of July. Classes do not meet.

### **August 5, Friday**

Final examinations for second six-week graduate term.

## **First Four-Week Graduate Term**

### **May 16, Monday**

Classes meet as scheduled.

### **May 30, Monday**

Memorial Day. Classes do not meet.

### **June 10, Friday**

Final examinations for first four-week graduate term.

## **Second Four-Week Graduate Term**

### **June 13, Monday**

Classes meet as scheduled.

**July 4, Monday**

Fourth of July.

Classes do not meet.

**July 8, Friday**

Final examinations for second four-week graduate term.

---

# The University

Founded in 1908 and located in the center of Virginia's famous Shenandoah Valley, James Madison University is a public, comprehensive university. The university offers programs at the bachelor's, master's, educational specialist and doctoral levels.

The total enrollment for the fall 2009 session was 18,971. This total included 17,281 undergraduate students and 1,690 graduate students, including degree and non-degree-seeking students. The 712-acre campus features 114 major buildings. JMU offers students a full program of extracurricular and social programs, as well as a diversified program of intercollegiate and intramural athletics.

## Location

JMU is located in Harrisonburg, Va., a progressive city of over 40,000. The area is flanked by the Blue Ridge Mountains on the east and the Allegheny Mountains on the west. The JMU campus is located just off interstate 81 and is a two-hour drive from Washington, D.C., and Richmond, Va., and one hour from Charlottesville, Va.

The Graduate School is located in the Grace Street House at 17 West Grace Street.

## History of the University

In the more than 100 years since its founding, JMU has grown from a state normal and industrial school for women to today's coeducational comprehensive university. In 1914, the name of the university was changed to the State Normal School for Women at Harrisonburg. The university became the State Teachers College at Harrisonburg in 1924 and continued under that name until 1938, when it was named Madison College in honor of the fourth president of the United States. In 1977, the name was changed to James Madison University.

The JMU Graduate School was established in 1954, when the State Board of Education authorized the university to offer programs leading to the Master of Science in Education degree. The Graduate School is authorized to offer graduate programs leading to master's, Educational Specialist, Doctor of Audiology, Doctor of Musical Arts, Doctor of Philosophy and Doctor of Psychology degrees.

## Mission

It is the mission of The Graduate School to support, facilitate and promote excellence in lifelong education through graduate programs of distinction and a diverse student body.

The mission of The Graduate School is in concert with the overall mission of the university, which states:

We are a community committed to preparing students to be educated and enlightened citizens who lead productive and meaningful lives.

## Administration

### University Administration

The general responsibility for the administration of the university has been assigned to the president, who is appointed by the JMU Board of Visitors. When the board is in recess, its executive committee may exercise the power of the board.

Assisting the president in the administration of the university are the provost and senior vice president for academic affairs, the senior vice president for administration and finance, the senior vice president for student affairs and university planning, the senior vice president for university advancement, and the executive assistant to the president.

Appointment to these positions and to the university's instructional and administrative faculty is made by the JMU Board of Visitors upon the recommendation of the president.

JMU consists of The Graduate School and the following colleges:

- College of Arts and Letters
- College of Business
- College of Education
- College of Integrated Science and Technology
- College of Science and Mathematics
- College of Visual and Performing Arts
- The Graduate School

## James Madison University Administration

### Board of Visitors

**Mr. James E. Hartman (Rector)**, Harrisonburg  
**Mr. Wharton B. Rivers Jr., (Vice Rector)**, The Woodlands, TX  
**Mrs. Susan Allen**, Alexandria, VA  
**Mr. Kenneth Bartee**, Oak Hill, VA  
**Mr. Mark T. Bowles**, Goochland  
**Mr. Joseph F. Damico**, Libertyville, IL  
**Mr. Ronald C. Devine**, Burke  
**Ms. Vanessa M. Evans**, Charlottesville  
**Mrs. Lois J. Forbes**, Harrisonburg  
**Mr. Joseph K. Funkhouser, II**, Harrisonburg  
**Mrs. Elizabeth V. Lodal**, McLean  
**Mr. Larry M. Rogers**, Harrisonburg  
**Mr. Steve Smith**, Abingdon, VA  
**Mrs. Judith "Judy" S. Strickler**, Harrisonburg  
**Mr. Fred D. Thompson, Jr.**, Ashburn  
**Mr. Daniel M. Smolkin (student member)**, Asheville, NC  
**Mrs. Donna L. Harper (Secretary)**, JMU/Harrisonburg

### Chief Administrative Officers

#### President

Linwood H. Rose, Ed.D.

#### Division Heads

A. Jerry Benson, Ph.D.,  
Interim Provost and Senior Vice President for Academic Affairs

#### Joanne Carr, Ph.D.,

Senior Vice President for University Advancement

#### Charles W. King Jr., M.A.,

Senior Vice President for Administration and Finance

#### Mark Warner, Ed.D.,

Senior Vice President for Student Affairs and University Planning

### Deans

#### Ralph Alberico, M.L.S.,

Dean of Libraries and Educational Technologies

#### David F. Brakke, Ph.D.,

Dean, College of Science and Mathematics

#### Linda Cabe Halpern, Ph.D.,

Dean, University Studies

#### David K. Jeffrey, Ph.D.,

Dean, College of Arts and Letters

#### Reid J. Linn, Ph.D.,

Dean, The Graduate School

#### Sharon E. Lovell, Ph.D.,

Dean, College of Integrated Science & Technology

#### Robert D. Reid, Ed.D.,

Dean, College of Business

#### George E. Sparks, Ph.D.,

Dean, College of Visual and Performing Arts

#### Phillip M. Wishon, Ph.D.,

Dean, College of Education

## **Graduate School Administration**

The office of the dean of The Graduate School has academic responsibility for all issues of graduate education at JMU. Significant in the organization and administration of The Graduate School are the university's Graduate Council and the graduate faculty body.

### **The Graduate Council**

The Graduate Council is the chief policy-forming and advisory body for The Graduate School. Its duties are to formulate, review, and approve or recommend for approval policies and other items concerning the conduct of graduate study at James Madison University and to provide leadership in advocating for graduate education and scholarship of the highest caliber. Graduate Council actions are reported to the graduate faculty, to college deans and to appropriate administrators of the university.

The primary aim of including the Graduate Council in the organization of JMU is to facilitate graduate program faculty participation in the establishment of university policies and procedures.

#### **Responsibilities of the Graduate Council**

The Graduate Council is specifically charged with:

- Communicating policy on issues affecting graduate education.
- Monitoring and advocating excellence in graduate education.
- Setting the broad framework for all graduate study.
- Making recommendations on all policies with regard to graduate degrees and any changes or additions to such policies.
- Making recommendations on procedures for student appeals for waivers of any graduate regulations, excluding grade and admission appeals, after appropriate appeals have been made according to the procedures of the respective graduate programs.
- Setting the requirements for membership to the graduate faculty and for the approval of faculty it deems to have met those requirements.

## **Graduate Faculty**

The graduate faculty hold a position of honor at JMU. Through the Graduate Council, the graduate faculty members assist the dean in developing general policies and administrative procedures for graduate programs. The office of the dean of The Graduate School, assisted by the Graduate Council and the graduate faculty, has responsibility for final approval of graduate degrees to be awarded.

## **JMU Alumni Association**

The JMU Alumni Association is comprised of all graduates of the university, all annual donors to the university, and, on an associate membership level, all individuals who have completed 12 credit hours and request membership with the association.

The association is directed by the Alumni Board of Directors, a corporate board of directors with 16 at-large members; an executive committee; and representatives from the JMU Board of Visitors and the Student Ambassadors (student alumni association). The board represents the interests of all graduates by reviewing and setting the strategy for the association.

For more information, visit <http://www.jmu.edu/alumni/>.

## **JMU Foundation**

The James Madison University Foundation, Inc., a 501(c)3 organization, was chartered in 1969 for the purpose of raising, investing and administering private gift funds for the benefit of James Madison University.

For more information on how the JMU Foundation operates, please see the policies and the public documents available on the JMU Foundation Web site at: <http://www.jmu.edu/foundation/>.

---

# Accreditation

James Madison University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; Telephone Number 404-679-4501) to award the bachelor's, master's, Educational Specialist and doctoral degrees.

## Additional Accreditation

### ABET

Accreditation Commission for Programs in Hospitality Administration

AACSB International – The Association to Advance Collegiate Schools of Business

American Chemical Society

Accreditation Council for Occupational Therapy Education

American Psychological Association

Association for Advancement of Health Education

Association for Information Technology Professionals

Association of University Health Programs in Health Administration

Accreditation Review Commission on Education for Physician Assistants, Inc.

Commission for Collegiate Nursing Education

Commission on Accreditation for Dietetics Education, the accrediting agency for The American Dietetic Association

Commission on Accreditation of Athletic Training Education

Council for Interior Design Accreditation

Council on Academic Accreditation in Audiology and Speech Language Pathology of the American Speech-Language and Hearing Association

Council for Accreditation of Counseling and Related Educational Programs

Council on Social Work Education (baccalaureate level)

Education Commission on Accreditation on Social Work

Educational Standards Board of the American Speech-Language-Hearing Association

International Association of Counseling Services

National Association of College and University Attorneys

National Association of School Psychologists

National Association of Schools of Art and Design

National Association of Schools of Dance

National Association of Schools of Music

National Association of Schools of Theatre

National Council for Accreditation of Teacher Education

Review Commission on Education for the Physician Assistant

Society for Public Health Education

Virginia Board of Nursing

Virginia State Board of Education

## Memberships

American Association of Colleges for Teacher Education

American Association of State Colleges and Universities

American Council on Education

Association of American Colleges and Universities

Association of Virginia Colleges and Universities

College and University Personnel Association

Council of Graduate Schools in the United States

Council of Southern Graduate Schools

National Association of College and University Business Officers

National Association of Graduate Admissions Professionals

National Association of Student Personnel Administrators

Southeastern Universities Research Association

## Institutional and Educational Membership

Association of Computing Machinery

## Corporate Membership

American Association of University Women

# Outreach and Engagement

Phone: (540) 568-4253  
Fax: (540) 568-4252  
Email: [outreach@jmu.edu](mailto:outreach@jmu.edu)  
<http://www.jmu.edu/outreach>

---

Outreach and Engagement is part of the Division of Research and Public Service. Outreach and Engagement offers credit and non-credit programs as well as targeted one-time courses, certificate programs, and complete degree programs at a distance. The mission of Outreach and Engagement is to extend the resources of JMU's campus by encouraging the creation and implementation of innovative educational opportunities. The office fosters partnerships while encouraging and engaging individuals and communities to reach and exceed their personal and professional goals.

Outreach and Engagement works with faculty, academic units, students and community organizations to design, market and deliver a wide array of courses. Outreach and Engagement also oversees the enrollment of non-degree seeking students. Non-degree seeking students are individuals who enroll in offered credit courses but do not seek a degree.

## Admission of Veterans

Outreach and Engagement encourages veterans to apply for admission as full- or part-time students. For information, contact:

**Veterans Coordinator**  
James Madison University  
Office of the Registrar, MSC 3528  
Harrisonburg, VA 22807  
(540) 568-6569  
<http://www.jmu.edu/registrar>

## Certificate Program Admission

Individuals who wish to pursue any of the graduate certificate programs through JMU should apply through Outreach and Engagement and be approved before registering for classes.

Individuals must complete the Non-degree Seeking Student Application, select "Certificate" and select the program to which they are applying. Virginia residents must also complete the "Application for Virginia In-State Tuition Rates." A non-refundable \$45 processing fee must accompany the application. Although certificate program students are considered non-degree seeking students, applicants for certificate programs need only complete the Non-degree Seeking Student Application once for the semester in which they wish to begin the program. Applications for certificate programs are forwarded to the appropriate academic unit for review, and applicants should check with the academic unit for additional application materials that may be required. A list of available certificate programs can be found at <http://www.jmu.edu/outreach> under "Certificate Programs."

## Non-degree Seeking Student Admission

The non-degree seeking student classification includes adult non-degree students and teacher licensure students. An individual seeking enrollment as a non-degree seeking student must complete the "Non-degree Seeking Student Application." Virginia residents must also complete the "Application for Virginia In-state Tuition Rates." A non-refundable \$15 processing fee must accompany the application. Non-degree seeking students must submit the application and processing fee each semester they enroll in a course. At the 600 level and above, courses require approval by the appropriate academic unit head. Non-degree seeking students can complete the Non-Degree Seeking Student Application and the in-state form by going to <http://www.jmu.edu/outreach> and clicking "Apply Online Now" or "Outreach Forms." Students should register online during the dates identified for non-degree seeking students following the instructions at <http://www.jmu.edu/registrar> and clicking "For Students" then "Registration Information Dates and Deadlines." Walk-in registration and course adjustments are also permitted for non-degree seeking students.

The courses taken in the non-degree seeking student category carry university credit, and they may be transferred into a graduate program, once admitted, at the discretion of the program. Taking courses as a non-degree seeking student does not constitute admission to a program or imply later applicability of these courses toward a degree. An individual who has been academically dismissed from another institution or denied regular admission to JMU shall be required to wait for at least one calendar year for admission as a non-degree seeking student.

## **Non-credit Courses**

JMU coordinates all non-credit instructional programs through Outreach and Engagement. These programs are available for supplementing and updating knowledge, skills and abilities. Some non-credit courses and workshops award continuing education units as a uniform measure of professional development and to signify the student has completed the course or workshop. Information on CEUs is available online at [www.jmu.edu/outreach/forms.shtml](http://www.jmu.edu/outreach/forms.shtml). Information on non-credit course offerings and registration is available at <http://www.jmu.edu/outreach>. Additional information about Outreach and Engagement as well as other registration information can be accessed on the Outreach and Engagement Web site.

---

# General Regulations

Current regulations and policies are updated annually and published in *The Graduate School Policy and Procedures Manual* at <http://www.jmu.edu/JMUpolicy/2112.shtml>. Upon enrollment, graduate students accept responsibility to remain current on policies and regulations set forth by their programs of study and The Graduate School. Further explanations and clarification are available from The Graduate School Web site at <http://www.jmu.edu/grad/>.

## Advising

### Faculty Advisers

All students admitted into The Graduate School are assigned faculty advisers. Graduate program coordinators/directors or designated members of the graduate faculty serve as faculty advisers. After admission, students must meet with their advisers to select initial course work and plan their programs of study. Programs of study should be developed prior to initial registration.

## Catalog of Record

Students are generally subject to the curricular and graduation requirements contained in the graduate catalog in effect upon or subsequent to their enrollment at JMU, with approval of the students' program and The Graduate School. At the discretion of their academic unit heads, students who leave and re-enter the university after an absence of a semester or more will be subject to the catalog in effect at the time of their re-entry or the catalog used by the majority of students with whom they will graduate.

### Aging Credit

With the exception of undergraduates enrolled in adult degree programs, students are expected to complete all program and degree requirements within six years (for master's degree) or eight years (for doctoral degree) of their original entry date to JMU or previous higher educational institution(s). If required by the academic unit, academic work completed more than six years prior to the students' anticipated graduation date might be subject to review by the academic units and The Graduate School for applicability to the graduate degree program. Additional standards may apply in programs leading to licensure or certification.

### Changes in Requirements

James Madison University is a progressive educational institution, and its offerings and requirements in the graduate catalog are under continual examination and revision. Revisions often affect currently enrolled students. Although the university attempts to alert students to these revisions through the academic advising process, individual reports of academic progress and various campus publications, responsibility for meeting all curricular and other graduation requirements rests with the students, who are encouraged to consult regularly with their program advisers.

## Changes to Policies and Programs of The Graduate School

It is the responsibility of each student to become and remain aware of all applicable requirements and provisions that may apply to the student.

It is the prerogative of each academic unit to make changes in programs at any time prior to graduation. Students typically complete the program requirements as described in the catalog of the year in which they entered their program. Students who do not conform to their catalog must complete a program of study, which is developed and approved by their advisers and submitted to The Graduate School.

### Exceptions to Regulations

Exceptions to any of the published rules and regulations cited within the Graduate Catalog must be requested by petition to The Graduate School. Such petitions must be submitted in writing by the student's adviser or graduate coordinator to the dean of The Graduate School and must detail the regulation and justify completely the exception being requested.

## Comprehensive Assessment Procedure

A formal assessment of mastery designed to appraise the student's competence is required of each JMU student in order to complete his or her program of graduate study. Although the formal assessment typically takes the form of a comprehensive exam, other formal assessment formats may be acceptable as determined by the graduate program.

The format and timing of this assessment is at the discretion of the graduate program, provided it fairly and adequately documents the knowledge and skills the student has acquired. The nature of the comprehensive assessment should accurately reflect the content of the student's academic program. The assessment should require

the integration and synthesis of what has been learned by the student. The student must demonstrate a breadth of knowledge in the discipline and depth in specific content areas to be determined by the graduate program faculty.

## **Comprehensive Assessment Committees**

Each graduate program must have a comprehensive assessment committee for the program and/or for the individual student. Individual student comprehensive committees are selected by the student in consultation with and subsequently approved by the graduate program coordinator and/or program adviser. Each comprehensive assessment committee must consist of at least three JMU graduate faculty members with the background and interest necessary to evaluate the mastery of the student. At least two members must be from the student's graduate program.

Non-graduate faculty members of the comprehensive assessment committee, which may include persons external to the university, must be approved by The Graduate School. Such members shall make up no more than one-third of the total committee membership. Graduate instructors may also be appointed to committees with the approval of The Graduate School when their expertise clearly qualifies them; however, their appointment must be in addition to the required number of graduate faculty members.

Graduate students may not serve on the comprehensive assessment committees. Only a graduate faculty member from the student's graduate program may chair a comprehensive assessment committee.

## **Comprehensive Assessment Procedure Failure**

In the event a student fails the comprehensive evaluation, the student may request a re-examination. Unless there are extenuating circumstances, the re-examination must occur within six months of the date of failure. Only one re-examination will be allowed. Cases involving extenuating circumstances must be raised or supported by the graduate program faculty and presented in writing to the dean of the relevant college and the dean of The Graduate School for approval. If a student fails the second comprehensive assessment, his or her graduate program will be terminated.

## **Comprehensive Assessment Procedure Continuance**

Students completing all degree requirements except the comprehensive assessment are required to enroll each semester until they have passed the comprehensive assessment. Students must register for comprehensive continuance credit hours during those semesters in which they are engaged in preparation for the comprehensive assessment. NOTE: The continuous enrollment course GRAD 597 cannot be used as a comprehensive continuance course. Credit hours for comprehensive continuance do not count toward graduate program requirements.

## **Continuous Enrollment**

All students enrolled in graduate degree programs must enroll each regular semester for a minimum of one graduate credit hour. This registration must continue with no breaks from enrollment in the first graduate program course to graduation. This policy does not include summer sessions.

It is preferable that students enroll in courses relevant to their graduate program to facilitate timely completion. If it is not possible to do so, however, The Graduate School has established a one-credit continuous enrollment course, GRAD 597. The tuition for this course is \$50.00. No grade will be assigned for this course.

### **GRAD 597. Continuance. 1 credit.**

To remain in good standing in their program, all graduate students must maintain continuous enrollment each semester in their program from entry until graduation. This course allows those students who are not intending to register for any other courses during the current semester to continue in their program in good standing. Course may be repeated as needed.

## **Exemption from the Continuous Enrollment Requirement**

It is possible to receive an exemption from the Continuous Enrollment requirement. There are two possible types of exemption from the continuous enrollment requirement:

**Leave of Absence:** Continuous Enrollment is granted in individual cases when the student demonstrates sufficient cause (e.g., illness, or other personal circumstances). A request for this type of leave must be submitted by the student in writing (electronic mail is sufficient), indicating the reason(s). The student's request must be approved by the graduate coordinator of the student's program and the dean of The Graduate School.

This leave is granted for a specified time period that may not exceed three semesters total, excluding summer session. In no case may on-leave status exceed this maximum throughout the student's entire degree program. When a student on leave plans to resume graduate study, he or she must inform the program coordinator and The Graduate School at least 30 days prior to the first class day of the return semester.

**Planned Leave of Absence:** Granted to students for whom the unique design of their graduate program (not the manner in which they choose to complete their program) is such that the offering of courses is not on a continuous semester-to-semester basis. Planned Leave of Absence for students in a program is requested by the program faculty

and must be approved by the dean of The Graduate School. Examples of programs suited for Planned Leave of Absence includes summer-only programs, programs using a distance learning format and "executive" programs. It is assumed that these programs will not require the continuous enrollment exemption for the entire length of the program. Thus, students whose graduate programs are pre-approved for Planned Leave of Absence must submit a Request for Planned Leave of Absence indicating each term for which leave is requested. It is also assumed that these students will complete all degree requirements within the time limits established in the graduate catalog.

Both leaves must be approved by the dean of The Graduate School.

A graduate student who takes an unapproved break in registration by failing to maintain continuous enrollment or by failing to obtain a Leave of Absence: Continuous Enrollment will relinquish his or her graduate standing in the university. Students who wish to be reinstated will be required to file an Application for Graduate Admission and pay the application fee.

The following are circumstances for which GRAD 597 is not appropriate:

- During the graduation semester. A student cannot use GRAD 597 as the enrollment requirement during the semester he or she is scheduled to graduate. All graduate students must be enrolled in a course in their program, such as thesis or dissertation continuance, during the semester they are scheduled to graduate.
- While completing a dissertation or thesis. If a student's graduation must be delayed a semester while he or she is completing a dissertation or thesis, he or she should register for thesis or dissertation continuance. GRAD 597 is not an option since the student will continue to receive feedback from the adviser and committee members while the thesis or dissertation is being completed.
- When an "I" is received in a course during the anticipated graduation semester. If a student is scheduled to graduate but receives an "I" in a course, the student will not officially graduate until the course is completed. Because all course work must be completed by the final date of the student's graduation semester, a student failing to meet the deadline will not officially graduate until the following semester. The solution existing in the first example applies. Students must register for at least one hour of thesis or dissertation continuance, comprehensive continuance, reading and research, or other course option appropriate to their program of study.

Except for extenuating circumstances requiring approval from the dean of The Graduate School, time spent in on-leave status will be included in all time limits pertaining to the student's degree program.

Students in on-leave status may not:

- use any university facilities,
- make demands upon faculty time, or
- receive a fellowship or financial aid.

## Course Completion Deadlines

All course work must be completed by the final date of the student's final semester. Students failing to meet the deadline will have their names removed from the current graduation list and they must reapply to graduate. Consult the calendar online at <http://www.jmu.edu/registrar> or this catalog for exact dates.

## Course Credits

### Classification/Academic Loads

Status	Credit Hours
Full time	9 or more
Three-quarter time	6
Half time	5
Less than half time	4 or less

The classification of students, i.e., full time, etc. in graduate programs is often considered in determining payment deferment on undergraduate student loans, eligibility for insurance benefits, etc.

To be eligible to receive an assistantship, each student must be conditionally or unconditionally accepted into a graduate program at JMU. A student who is provisionally accepted will not be eligible for a graduate assistantship until he or she achieves unconditional acceptance into a graduate program. Note: Graduate programs have the right to impose additional criteria as they see fit. The following academic load guidelines apply to all categories of graduate assistants.

Graduate assistants must:

- Carry nine hours of graduate course work each semester. Note: Underload approval is required if a graduate assistant is not registered for nine graduate hours each semester. Underloads for fewer than six graduate credits are not approved. Only one underload may be granted during a graduate assistant's program of study.
- Maintain at least a 3.0 graduate GPA in order to retain or reapply for the assistantship.
- Assistantships can be awarded for a maximum of four semesters (fall and spring) or two academic years, except for Doctoral Assistants, students in the Master of Fine Arts program or students seeking the Education Specialist degree.

For their courses to be covered by their assistantship, all Graduate Assistants must enroll each semester during the regular registration period(s) and prior to the tuition refund date as outlined online at <http://www.jmu.edu/registrar>. Students who register for any additional courses after this time period will be held responsible for additional tuition and fees. Students who drop courses after the tuition refund date will be responsible for fees and will receive a grade of "W" for the course.

Exceptions may be made only for documented extenuating circumstances and will be handled on a case-by-case basis by the dean of The Graduate School. Students must contact the JMU Office of Student Withdrawal if all courses are dropped to withdraw from the university.

## Transfer Credit

Students who wish to receive graduate credit for courses taken prior to entering a JMU graduate program must submit requests to their adviser during the first semester of enrollment. The Approval of Transfer Credit form is available online at <http://www.jmu.edu/grad/current/forms.shtml>.

A grade of "B" or better must be earned in courses requested for transfer credit. Courses taken for pass/fail or satisfactory/unsatisfactory grades will not be accepted for transfer graduate credit. An official transcript showing the credits approved for transfer must be forwarded to The Graduate School.

Under no circumstances will more than one-half of the total graduate credits required for completion of a program be considered for transfer/inclusion in the student's program of study. This includes any hours taken at JMU prior to acceptance. In the case of variable credit programs, the one-half maximum transfer hours allowed will be calculated based on the minimum number of hours required for the degree. Students may not transfer in more than nine credit hours from institutions other than JMU.

Transfer credit applications must be approved by the student's adviser, academic unit head and the dean of The Graduate School. Exceptions to the policy may be considered on a case-by-case basis.

It is the student's responsibility to furnish evidence that any course presented for transfer of credit is applicable to a comparable degree at the accredited institution where the course was taken. If the necessary information is not on the official transcript, it must be obtained in writing from the appropriate dean of the institution where the course work was earned. In all cases, courses considered for transfer of credit must be applicable to a comparable degree at JMU. Courses that are not intended by the institution offering them to be part of a degree program, such as extension and in-service courses, are not acceptable for transfer to JMU.

Credits earned to complete a previous graduate degree may not be applied to a second graduate program at JMU at the same degree level. However, previously earned graduate credit earned as a part of a master's degree program from an accredited institution may be counted toward the degree requirements of a higher level degree, such as the Master of Fine Arts, Educational Specialist and doctoral degrees. Academic work, including transfer credit, taken more than six years before the master's degree award date or eight years before the doctoral degree award date may not be used to satisfy the degree requirements. No transfer credit will be approved while a student is in provisional status.

Students must familiarize themselves with their specific program requirements as discussed in the academic sections of this catalog. Individual programs will have detailed information relative to the acceptance of credit hours toward their degrees.

## Course Levels

### Course Numbering System

Courses numbered 500 through 900 are graduate courses and may be applied to a graduate program. Non-degree seeking students who have at least a bachelor's degree may enroll in graduate-level courses with prior written approval from the instructor.

Some programs use dual-numbered courses that allow both graduate and undergraduate students. For example, such courses may offer content concurrently on the 400 and 500 levels. In such instances, higher quality and/or additional work is required of the students enrolled at the graduate level in these courses. The additional demands required of graduate students in these dual-numbered courses is evident in the course syllabus and catalog description.

## Course Level Requirements

All credits contained in the student's program leading to an advanced degree at JMU must be in courses designated for graduate students. Students should refer to their academic program for specific requirements. Only six hours of 501 workshop courses may be applied to a graduate degree program.

## Dissertation and Thesis

### Dissertation and Thesis Research

A dissertation is required of all candidates for the Doctor of Audiology, Doctor of Psychology and Doctor of Philosophy degrees. A Doctor of Musical Arts Lecture Recital and Doctor of Musical Arts Document are required of all candidates for the Doctor of Musical Arts degree.

A thesis is required in several master's and Ed.S. programs. In other master's degree programs, a research project and the writing of a thesis is an option which may be elected by the student in consultation with and subsequently approved by his or her adviser. Graduate students are required to register for the minimum hours of thesis or dissertation credit required in their programs. Students must register for thesis or dissertation credit hours during those semesters in which they are engaged in the research or in the writing of the thesis or dissertation. NOTE: The continuous enrollment course GRAD 597 cannot be used as a thesis or dissertation continuance course.

### Dissertation and Thesis Requirements

The general requirements for the preparation of a thesis or dissertation pertain primarily to formatting and submission. These requirements provide a degree of uniformity and ensure that each thesis or dissertation is in a form suitable for archiving, is fully legible and can be preserved.

Students who submit a thesis or dissertation in partial fulfillment of the requirement for a graduate degree at JMU should consult the JMU Graduate School Thesis and Dissertation Manual for detailed guidelines to submission. A general overview includes the following steps. Students should:

- Consult their program requirements for guidelines on registering for their thesis and dissertation.
- Select a graduate faculty member as committee chair.
- Identify the remaining members of the committee with guidance from the committee chair.
- Submit the Committee Approval form to The Graduate School.
- Begin the project using the style guide recommended by their program.
- Schedule an appointment with The Graduate School to review the format of their project.
- Make necessary formatting changes.
- Obtain approval signatures.
- Submit online a final copy of their work and turn in approval sheets to The Graduate School.
- Submit a copy online to the library.

Titles of dissertations will be printed in the graduation program if the information is received by the appropriate deadline. In addition, an electronic copy of each student's thesis or dissertation will be cataloged in Carrier Library.

### Dissertation and Thesis Committees

Students pursuing degrees requiring completion of a thesis or dissertation must have a thesis or dissertation committee to oversee progress toward the degree. Students should select a graduate faculty member from their graduate program to act as the chair of the committee and select the remaining committee members with the guidance of their committee chair.

The following govern the selection of committee members:

- Each committee must consist of at least three approved members of the JMU graduate faculty.
- At least two of the three committee members must be from the student's graduate program.  
The dean of The Graduate School must approve non-graduate faculty members for thesis, research project or dissertation committees.
- Non-graduate faculty members may include persons external to the university.
- Non-graduate faculty members shall make up no more than one-third of the total committee membership.
- In addition to the three required committee members, a graduate instructor, when his or her expertise clearly qualifies him or her, may be appointed to a committee with the approval of the dean of The Graduate School.
- The Committee Approval form must be completed and submitted to The Graduate School no later than the second week of the semester in which the student registers for dissertation or thesis.

## **Dissertation and Thesis Continuance**

Graduate students are required to register for the minimum number of credit hours of thesis or dissertation required by their graduate program. Students must register for thesis or dissertation in the appropriate increments of credit hours (determined by their program) during those semesters in which they are engaged in the research or in the writing of the thesis or dissertation. If students have completed the maximum number of hours allowed by their program for thesis, dissertation or research project courses but still have not completed the final document, they must register for at least one hour of Thesis Continuance, Dissertation Continuance or Research Project Continuance each semester while they are completing their research or writing.

**NOTE:** The continuous enrollment course GRAD 597 cannot be used as a thesis, dissertation or research project continuance course.

## **Dissertation and Thesis Grading**

Effective fall 2009, faculty will post a grade of "S" (Satisfactory) or "U" (Unsatisfactory) for a thesis, dissertation or research project for each semester in which the student is enrolled. Faculty and students may view this grade on e-campus.

## **Permission to Take a Course at Another University After Enrollment**

Students enrolled in a graduate program may take graduate courses at another accredited institution. While prior approval is not required, students should secure permission from their adviser, academic unit head, graduate coordinator and The Graduate School to ensure that the course will transfer to JMU.

It is the student's responsibility to request transfer credit for such courses upon completion and to have official transcripts submitted to The Graduate School office. Transfer credit forms are available at The Graduate School office or online at <http://www.jmu.edu/grad/current/forms.shtml>.

Students who take their last courses to fulfill their programs of study at institutions other than JMU cannot graduate during that semester. Students must be enrolled at JMU during the semester they graduate.

## **Doctoral Candidacy Request**

Doctoral students are admitted into candidacy for their graduate degree once they have completed all required course work, passed their comprehensive examination and completed all conditions of the original admission into the individual's degree program. Once students have reached this point, the program coordinator informs the dean of The Graduate School electronically or by letter. This confirmation of successful completion of the comprehensive examination is placed in the student's file, and he or she is considered a candidate for the doctoral degree. The student is then permitted to advance to completion of his or her dissertation and graduation.

## **General Review Process**

Evaluation of a graduate student's progress is primarily dependent on the judgments of appropriate faculty members of the student's graduate program. The university, through The Graduate School, can define minimal entrance standards and can prescribe general rules governing eligibility for continuation. However, the crucial agency in graduate student evaluation is the graduate program in which the student's work is focused. Principal evaluators must be faculty members of the student's graduate program.

It is assumed that disputes over unsatisfactory progress will be informally discussed and reconciled at the program or academic unit level. Discussions of this type will commonly occur among the student, major professor and other faculty members in the graduate program.

## **Grade Review Procedures**

Evaluation of student work and assignment of grades on the basis of academic criteria are the responsibilities and prerogative of the faculty. The university and its faculty members also recognize that grading can be a subjective process and students may feel their grade has been inappropriately assigned. If such disagreements occur, students have a right to be fairly heard. There are two types of appeal procedures related to grading.

### **Grade Change Review Procedure**

The only basis for a grade change appeal is an error in grade assignment or calculation. If a student believes that a grade was assigned in error because of a mistake in calculation or an error in recording, to resolve the discrepancy, the student should consult the professor(s) involved before the Friday of the second full week of classes in the regular semester following the semester of the contested grade. Requests for review of spring semester or summer session grades must be initiated no later than the Monday of the third full week of classes in the subsequent fall semester. If the professor agrees that a change should be made, the professor should submit a Grade Change form and forward it

to the academic unit head or graduate coordinator for signature. A copy will be forwarded to the dean of The Graduate School.

## **Grade Review Procedure**

If a student disputes a grade for any other reason than error in grade assignment or calculation, the student can initiate a formal grade review process. To activate the grade review process, the student must follow these steps:

The student submits a Grade Review Form to the appropriate professor by Monday of the third full week of classes in the regular semester that follows the semester for which the contested grade was given. The student must attach a written explanation of reasons for the appeal, including any documentation relating to the disputed grade. Requests for review of spring semester or summer session grades must be initiated no later than the Monday of the third full week of classes in the subsequent fall semester.

The student meets with the course instructor by Friday of the third full week of classes to attempt to resolve the concern.

If the student and the course instructor reach an agreement that the grade should be changed, the course instructor changes the grade by submitting a Grade Change form to the appropriate academic unit head or graduate coordinator for that individual's signature. A copy of this signed Grade Change form will be forwarded to The Graduate School. For graduate students whose grade of "C," "U" or "F" is to be changed, notice of the grade change must be sent to The Graduate School before that change occurs.

If no resolution is reached, the instructor signs the Grade Review form and records a written response on the reverse side of the form. The instructor returns the original copy of this form to the student, retains a copy of the form for his or her personal records and forwards a copy to the relevant academic unit head or graduate coordinator by Friday of the fourth full week of classes.

The student must contact the relevant academic unit head or graduate coordinator by the Friday of the fifth full week of classes in order to request review of statement and response.

The academic unit head or graduate coordinator meets with the student and confers with the relevant course instructor.

The academic unit head or graduate coordinator signs the Grade Review form and records a written response on the reverse side of the form by Friday of the seventh full week of classes. The student receives the original copy of this form. The relevant course instructor receives a copy of the form and the sender retains a copy of the form.

If all involved parties agree that the grade should be changed, the course instructor submits a Grade Change form to the academic unit head or graduate coordinator and the appropriate individual signs the form. A copy of the form will be forwarded to The Graduate School. Notice of the grade change must also be sent to The Graduate School before the grade change occurs for graduate students who have a grade of "C," "U" or "F" changed to some other grade.

After the review process outlined above has been completed, a student can also request that the form, documentation and responses be reviewed by the dean of the college in which the course was taught. The college dean's responsibility is only to ascertain whether all parties have had an opportunity to present all relevant facts and have received a fair and impartial hearing at each level. To enter this phase of the process, a student must follow this procedure.

The student contacts the dean by Friday of the eighth full week of classes and requests that the dean review the overall process.

The dean of the relevant college reviews the process to be sure the student and the faculty member have had a fair hearing.

If the relevant college dean believes that due process was not followed during the review process, he or she consults with the relevant professor and academic unit head or graduate coordinator to resolve the dispute.

The dean sends a written response to all involved parties by Friday of the 10th full week of classes. This written response is appended to the Grade Review form. The dean returns the original copy to the student, retains a copy and sends a copy to the relevant academic unit head or graduate coordinator and the relevant instructor.

If it is agreed that the student's grade should be changed, the relevant course instructor submits a Grade Change form to the academic unit head or graduate coordinator. The recipient then signs the form and forwards a copy to the dean. Notice of the grade change must also be sent to The Graduate School before the grade change occurs for graduate students who have a grade of "C," "U" or "F" changed to some other grade.

There is no further review beyond the dean of the relevant college. The entire process will not extend past the end of the semester following the contested grade with the exception of grades given for summer session courses.

## Grading System \*

Letter Grade	Description	Numerical Value
A	Excellent	4.0
A-		3.7
B+	Very Good	3.3
B	Good	3.0
B-		2.7
C	Poor	2.0
F	Failure	0.0
I	Incomplete	
W	Withdrawal	
WP	Withdrawal while Passing	
WF	Withdrawal while Failing	
S/U	Satisfactory/Unsatisfactory	
	(Thesis/dissertation and selected other courses. See course descriptions.)	
NC	No credit	

\* The +/- grading scale is optional for faculty; the course grading system must be stated in the course syllabus.

A grade point average is calculated by dividing the accumulated number of grade points earned by the accumulated number of credit hours attempted. All graduate credits attempted and all graduate grades earned, whether passing or failing, will be used to calculate a student's grade point average.

The grade point average appears on the student's transcript.

Students must take all courses on a letter grade ("A-F") or satisfactory/unsatisfactory (S/U) basis, based on how the particular course was approved. Students do not have flexibility in choosing a grading option.

A grade of "W" will be assigned to students who withdraw from a course after the add/drop deadline but before the end of the course adjustment deadline.

A grade of "WP" or "WF" (according to the status of the student at the time of withdrawal) will be assigned to students who withdraw after the course adjustment deadline at the discretion of the instructor. The "WP" or "WF" will be recorded and remain on the student's transcript. Only the instructor can assign a "WP" or "WF."

If students have completed the maximum number of hours allowed by their program for thesis, dissertation or research project courses but have not completed the work, they will register for thesis, dissertation or research project continuance each semester while completing their research or writing. A grade of "NC" (no credit) will be automatically entered for continuance hours.

Students should keep in mind that earning a "B-" may bring the GPA below 3.0 and prevent students from graduating.

In order to graduate, students must satisfy grade requirements specified by their individual academic program.

## Auditing Graduate Courses

Graduate students may enroll in graduate courses using the "audit" option for elective courses only. These courses will not count as part of the student's program of study. Students must initially register for the course using the "audit" option. Under no circumstances may a course credit option be changed from "audit" to "credit" or "credit" to "audit." Students are required to pay for courses taken as "audit." Audit courses cannot be paid for using any university sources of funding, e.g., assistantship funding.

## Credit By Examination

Credit by examination is an option that programs can include in their policies. Each program will use its own discretion in developing the form of the examination and in determining the procedure to be followed. A maximum of nine credit hours can be earned through credit by examination or transferred from institutions other than JMU, with no more than nine credit hours earned by a combination of exam or transfer.

Permission to take an examination for credit must be obtained from the head of an academic unit in which credit is sought. The cost for the exam will be \$50 per credit hour attempted. Successfully earning credit by examination will result in a grade of "CR," with credit given, on the transcript.

## Incomplete Grades

The grade of "I" is used to indicate incomplete work in a course. Courses in which a student received a grade of "I" must be completed by the end of the next regular semester or the grade is reported permanently as an "F."

Students should consult academic unit guidelines regarding such courses. It is the responsibility of the student to ensure grade changes are reported to the Office of the Registrar by the deadline. See the university calendar at the front of this catalog for the date by which grade changes must be submitted.

All course work must be completed by the final date of the student's final semester. Students failing to meet the deadline will not graduate and will have their degrees dated the following semester. Consult the university calendar online at <http://www.jmu.edu/registrar> or in the front of this catalog for dates.

## Unsatisfactory Progress

If, at any time, a graduate student fails to make satisfactory progress toward the degree, the student may be denied permission to continue in the program. Such a decision may be reached by the student's adviser, academic unit head, or graduate program coordinator and will be referred to The Graduate School for final action.

Students who receive two "C" grades or a GPA of below 3.0 will be placed on academic warning and will receive written notification. A student will be dismissed from the degree program if the student receives an "F" or "U" in any graduate course or a total of three "C" grades in his or her graduate program. A student dismissed from the degree program may not enroll in any graduate-level courses for a period of one year. Students who want to return to the university must re-apply and be re-accepted in the usual manner.

A graduate student will receive a notice of academic warning upon receiving a grade of "C" in any two graduate courses or if the student's grade point average falls below 3.0. This academic warning will be noted on the student's transcript. All credits attempted and all grades earned, whether passing or failing, will be used to calculate a student's grade point average.

In some cases, graduate students may take undergraduate courses as part of their program of graduate study. The GPA includes undergraduate courses taken during graduate study. However, if an undergraduate course places a student's GPA below 3.0, it will not place the student on academic warning status or prevent the student from graduating.

## Graduation

The office of the dean of The Graduate School, assisted by the graduate faculty, have responsibility for final approval of graduate degrees to be awarded. It is the responsibility of each student to ensure that courses selected are acceptable to the program being pursued. A student cannot graduate with a GPA below 3.0. Students should keep in mind that earning a "B-" grade may bring the GPA below 3.0 and prevent the student from graduating.

## Graduate Degree Completion Requirements

The Graduate School mandates the following general degree completion requirements in order for students to receive their graduate degrees. Each graduate student must:

- Complete a written graduate plan of study by the end of the student's first semester and submit it to The Graduate School. At least one-half of the courses in the student's required plan of study must be at the 600 level or above.
- Be continuously enrolled in the graduate program from admission to graduation (unless specifically exempt).
- Have satisfied any conditions of his or her admission, such as provisional or conditional admission.
- Complete the graduate program with an appropriate GPA. The standard for graduation is a 3.0 or higher GPA.
- Be enrolled in a course other than GRAD 597 during the semester in which he or she plans to graduate.
- Complete all requirements of the graduate program and The Graduate School within six calendar years (master's and education specialist degrees) or eight years (doctoral degrees).
- Successfully achieve doctoral candidacy (doctoral students only).
- Successfully complete a comprehensive assessment or equivalent as determined by the individual graduate program. The graduate program must notify The Graduate School that the student has successfully completed the comprehensive assessment procedure.
- Submit a thesis, dissertation or research project, if required by the academic program, to The Graduate School that meets the format requirements set forth in the Graduate School Thesis and Dissertation Manual.
- Complete the minimum period of residency established by his or her program. While the traditional period of required residency is optimal, the technological revolution that facilitates distance learning of all varieties may not allow for the traditional approach to residency.

- Enrolled students are strongly encouraged to take advantage of all available avenues of learning, including accessing the JMU faculty, staff and other students, as well as the library, laboratories and other facilities that nurture the academic experience.

In addition to meeting the general completion requirements set forth by The Graduate School, each student must meet the graduation requirements of the individual graduate program.

## **Application for a Graduate Degree**

Students are responsible for notifying both their major academic unit and The Graduate School when they plan to graduate. In order to graduate, students must complete the Application for Graduate Degree form available online at <http://www.jmu.edu/grad/current/forms.shtml> or from The Graduate School. Students are also responsible for consulting their advisers or The Graduate School Web site regarding deadlines for graduation.

The Application for Graduate Degree form must be approved by the student's adviser and the academic unit head or graduate program coordinator. Students are responsible for obtaining all necessary signatures to complete the Application for Graduate Degree form. Students should complete all requirements of their catalog of record or complete a program of study. Students must complete all the conditions of the original admission in their degree program, e.g., conditional admission, at least one semester before they are scheduled to graduate before they can be permitted to graduate.

Only six credit hours of 501 workshop courses approved for inclusion in a graduate program may be applied toward a degree. If students plan to use transfer credits to fulfill degree requirements, these credits, along with official transcripts showing the credits and the transfer of credit form, must appear on the Application for a Graduate Degree form and be forwarded to The Graduate School.

A student who fails to meet program requirements the semester in which he or she applied to graduate must submit a new graduation application.

## **Requirements for Graduation Semester Registration**

All graduate students are required to be enrolled during the semester they receive their degree. If students are not enrolled in regular course work, they must enroll for either comprehensive, thesis or dissertation continuance, or directed research, whichever is appropriate. The continuous enrollment course GRAD 597 cannot be used during the graduation semester.

## **Attendance at Commencement**

Students are expected to attend graduation exercises. Graduation for all spring graduate students is held the Friday evening of exam week. A student unable to be present for the graduation exercises must notify The Graduate School no later than 15 working days before commencement.

Students completing a dissertation must submit the dissertation title to The Graduate School by March 31 (spring) or October 27 (fall) for inclusion in the commencement program.

## **Grievance Procedure for Students**

This policy applies to student grievances against faculty that do not concern grades, discrimination or harassment. Policies for grievances concerning these matters are outlined elsewhere.

Each academic unit head will appoint an advisory committee made up of faculty and students from the academic unit that will hear grievances of students. The advisory committee may take any of the following actions:

Examine materials submitted by the student and the party grieved against ("respondent").

Interview the student and the respondent.

Interview any witnesses requested by the student, the respondent or the committee.

Request additional materials from any person or entity relevant to the charges.

Make a recommendation on the grievance to the academic unit head.

The academic unit head may accept the recommendation of the committee, reject the recommendation or partially accept and partially reject the recommendation. The academic unit head will take any action he or she deems appropriate on the grievance.

If either the student or the respondent is dissatisfied with the action taken by the academic unit head, the action may be appealed to the dean. The decision of the dean is final.

If the academic unit head is the party against whom the grievance is filed, the dean will receive the report of the committee and stand in the place of the head of the academic unit for the purpose of making the decision on the grievance. If the dean is the party against whom the grievance is filed, the Provost and Vice President for Academic Affairs will handle any appeal.

## Honor System

The academic program at JMU operates under an Honor System that dates back to the 1909-10 academic session. Students adopted the present Honor System in order to uphold individual and community integrity. Each student is expected to observe complete honesty in all academic matters and to report instances where another student has violated the Honor System.

A student Honor Council administers the Honor System, and every student who matriculates at the university, whether graduate or undergraduate, becomes a member of the Honor System. The university expects the cooperation of faculty members and administrators in upholding this Honor System. The Student Handbook provides full information on the Honor System, and the Honor Council office provides students with assistance in understanding Honor System policy. All incoming JMU students are required to complete an online Honor System Tutorial and test during their first semester.

The Honor Council encourages all members of the JMU community to familiarize themselves with the Honor Code and Honor System procedures. The Honor Council office is located in Chandler Hall Rooms 133 and 133A.

## Withdrawal

### Withdrawal from Courses

A student may terminate enrollment in a course by withdrawing from the course after the drop deadline. A student who withdraws from a course will receive a grade of "W" for the course, and this grade will be recorded (and remain) on the student's transcript regardless of the status of the student in the course at the time of the withdrawal.

In extraordinary situations, a student who becomes unable to complete some course requirements after the course adjustment deadline has passed may request a grade of "WP" or "WF" from the instructor. The form (e.g., verbal, written) and timing of such requests are determined by individual instructors; the student is responsible for ensuring that the request is made in an appropriate manner and at an appropriate time. In response to such a request, the instructor may choose to record a grade of "WP" or "WF" but is not obligated to do so (and may record any grade other than "W"). The course instructor may also suggest that the student contact the JMU Office of Student Withdrawal about withdrawing from the university. Withdrawing from a course will not result in a tuition reduction.

Students considering withdrawing from a course should be aware that graduate and professional schools and future employers might hold differing opinions on a student's withdrawal from a course. For this reason, a student should withdraw from a course only after serious consideration.

### Withdrawal from the University or a Graduate Program

Students withdraw from the university when their enrollment is terminated before these students have completed the semester for which they registered. Students who decide to withdraw during the first three weeks of the semester must complete the Non-Returning/Leave of Absence Notice available at <http://www.jmu.edu/registrar/forms.shtml> and submit it to the Office of the Registrar. Students desiring to withdraw after the third week of the semester must contact the Office of Student Withdrawal at (540) 568-6448.

The Office of Student Withdrawal must approve such withdrawal requests, set the official withdrawal date and notify other university offices of the withdrawal. Strict compliance with this requirement is mandatory. Students who withdraw without receiving official approval will receive a grade of "F" for all courses in which they are enrolled.

A student who voluntarily withdraws from his or her graduate program without receiving official approval will receive a grade of "F" for all courses in which he or she is enrolled. A student voluntarily withdrawing with official approval will receive a grade of "W," "WP" or "WF" in all courses. A grade of "W" will be assigned to students who withdraw from a course after the add/drop deadline but before the end of the course adjustment deadline. A grade of "WP" or "WF" (according to the status of the student at the time of withdrawal) will be assigned to students who withdraw after the course adjustment deadline at the discretion of the instructor.

It may also be necessary for a graduate student to withdraw due to extenuating circumstances. Withdrawal for extenuating circumstances must be approved by the student's graduate coordinator and the dean of The Graduate School. A student who withdraws because of extenuating circumstances will also receive a grade of "W," "WP" or "WF" in all courses.

Students who withdraw from their graduate program will be responsible for tuition as determined by the Office of the Registrar and may be subject to a change in their financial aid status. For more information, see the section of the catalog on "Withdrawal Refunds."

Nondegree-seeking students enrolled in an on- or off-campus course must also withdraw from the university by securing a Withdrawal Application form from the Office of Student Withdrawal. This form must be completed and returned to the Office of Student Withdrawal, which will process the official withdrawal. Any adjustment in charges will be calculated from the last date of attendance.

No adjustment in charges will be made unless the withdrawal form is received by the Office of Student Withdrawal within 30 days after the student leaves the campus or does not attend classes.

Withdrawal from a graduate program is the equivalent of withdrawal from the university.

## Confidentiality of Educational Records

The Family Educational Rights and Privacy Act of 1974

James Madison University adheres to and annually informs students of the Family Educational Rights and Privacy Act of 1974, as amended. This act, with which the institution intends to fully comply, was designated to protect the privacy of educational records. Under the Family Educational Rights and Privacy Act (FERPA) students have certain rights with respect to their education records. These rights include:

- **The right to inspect and review the student's education records within 45 days of the day the university receives a request for access.**
- The student should submit to the registrar, dean, head of the academic unit or other appropriate official written requests that identify the record(s) he or she wishes to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
- **The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.**
- The student may ask the university to amend a record that he or she believes is inaccurate or misleading. The student should write the university official responsible for the record, clearly identify the part of the record he or she wants changed, and specify why it is inaccurate or misleading. If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- **The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.**
- One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the university in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the university has contracted (such as an attorney, auditor or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the university may disclose education records without consent to officials of another school in which a student seeks or intends to enroll. The following is considered "Directory Information" at James Madison University and may be made available to the general public unless the student notifies the Office of the Registrar in person or in writing within five days after the first day of class registration: Student's name, telephone numbers, addresses, place of birth, major and minor fields of study, college of major and year (first year, sophomore, etc.), enrollment status (full-time/part-time) including credit hours, dates of attendance, degree sought and time, degrees conferred, awards and honors conferred, participation in officially recognized activities and sports, weight and height of members of athletic teams, the most recent previous educational agency or institution attended by the student, fraternity and/or sorority and educational societies.

The right to file a complaint with the U.S. Department of Education concerning alleged failures by James Madison University to comply with the requirements of FERPA.

The name and address of the office that administers FERPA is:

**Family Policy Compliance Office**  
U.S. Department of Education  
400 Maryland Avenue, SW  
Washington, D.C. 20202-4605  
<http://www.ed.gov/policy/gen/reg/ferpa/index.html>

For more detailed information concerning JMU's records policy see James Madison University, see Policies and Procedures, Policy 2112, The Family Educational Rights and Privacy Act at <http://www.jmu.edu/JMUpolicy/2112.shtml>.

---

# Tuition, Fees and Expenses

University Business Office  
302 Warren Hall  
(540) 568-6505  
<http://www.jmu.edu/ubo>

---

Tuition and fee charges for the 2010-2011 sessions are available on the University Business Office Web site at <http://www.jmu.edu/ubo/>. The tuition and fees listed contribute to general maintenance and operation, instruction, and other university service costs, including recreational and health service facility costs. The fees also support student activities such as the Student Government Association, University Program Board and student publications.

The amounts listed do not include the cost of books or supplies. The university reserves the right to adjust tuition and fee charges because of rising costs or other conditions upon approval of the JMU Board of Visitors.

Refer to the Registration and Student Record Services Handbook or the University Business Office Web site at <http://www.jmu.edu/ubo/> for a full description of the tuition and fee rates.

## Billing and Registration

Registration for returning students is conducted in April for the fall semester and in November for the spring semester. Students will be notified in early August by e-mail when their electronic billing statement (QuikBILL) is ready for the fall semester and mid-December for the spring semester. Thereafter, all new charges, payments and adjustments will be posted electronically in the real-time section – Account Status – of QuikBILL. Authorized payers will also be e-mailed when student account charges are ready to be viewed and paid.

Students are encouraged to review their financial account for amounts due after any registration or course adjustment activity. Students may access their financial account by using the student information e-campus link on the Registrar's Web site (<http://www.jmu.edu/registrar/>) or through the Web link provided in the billing e-mail. Student account balances are due in full by the first week of classes.

To keep university costs as low as possible, the Commonwealth of Virginia has instituted the following financial policies:

- There is a \$50 fee for each check returned due to non-sufficient funds.
- There is a late fee for all delinquent accounts. If a student has a balance due that is not covered by financial aid or the installment payment plan by the payment due date (Friday of the first week of classes), a late payment fee will be applied to the account which cannot be waived. Financial aid must be accepted and the installment plan must be set up by the due date to avoid the late payment fee. The late payment fee is 10% of the balance due and is non-negotiable.

Student account balances are due in full by the first week of classes to avoid a late fee and/or hold.

## Continuous Enrollment

All graduate students enrolled in graduate degree programs must register each regular semester for a minimum of one graduate credit hour from enrollment to graduation. This policy excludes summer sessions. Students wishing to be excused from the requirements of this policy because of extenuating circumstances must solicit exemption from The Graduate School through the Leave of Absence: Continuous Enrollment option ([http://www.jmu.edu/grad/current\\_students/continuous\\_enrollment.shtml](http://www.jmu.edu/grad/current_students/continuous_enrollment.shtml)).

A graduate student who takes an unauthorized break in registration by failing to maintain continuous enrollment will relinquish his or her graduate standing in the university. Students who wish to be reinstated will be required to file an Application for Graduate Admission, pay the admission fee and register for one graduate credit for each term of unauthorized break in registration.

## Tuition and Fees

### Payment

Payment may be made by the following means:

- Remitting payment by check or cash to the University Business Office, Warren Hall, Room 302 by mail or in person.
- Remitting an electronic check payment or credit card payment online through the electronic bill presentment or through a link on e-campus or through the University Business Office Web site. The service is provided by an outside vendor.

Students may pay by a combination of personal check, cash, money order, cashier's check, electronic check and credit cards. Payments drawn on foreign banks must be converted to U.S. dollars prior to transmittal to the university. The student's account number (campus ID number) should be included on all payments to ensure its application to the proper account.

Debts owed to the university are governed by the following policies:

- No credit for university work may be given to any student for a diploma, teacher's license or transfer purposes until all debts to the university have been settled.
- Until a student's account is paid in full, he or she will be ineligible for readmission or registration for a future semester.
- Upon recommendation of the director of the University Business Office and with the approval of the Assistant Vice President for Finance, students in debt to the university may be suspended from their classes or may be withdrawn.

## **Audit Fees**

A student registering to audit a course will pay the same tuition and fees as one who registers for credit.

## **Specialized Class Fees**

Certain courses which use off-campus facilities have additional charges which will be determined at the time the course is offered.

## **Examination for Credit Fee**

Arrangements for attempting credit by departmental examination may be made by paying a nonrefundable \$50 per credit hour attempted fee to the University Business Office and presenting the receipt to the Office of the Registrar. See General Regulations for more information.

## **Delinquent Accounts**

### **Service Indicators (Holds)**

Only service indicators placed by University Business Office can be cleared by this office. Normally, paying the student account balance with the University Business Office will resolve these holds. Other departments that place service indicators include the Health Center, Parking, Telecom, Perkins Loans, Registrar, The Graduate School, Campus Card Center and Financial Aid. Those departments place and release their own service indicators.

### **Late Fees**

A late fee of up to 10% of the past due balance can be assessed to the student's account if payment is not received by the due date.

### **Course Cancellation and Returned Check Fee**

A \$50 per check fee is assessed for checks returned to the university by the issuing bank as unpaid due to a "stop payment" order or non-sufficient funds. If a check is returned, the director of the University Business Office will notify the student by e-mail. If the student does not make appropriate alternative payment as specified, the student's class registration will be canceled and the student may be withdrawn from the university. The university will also hold the student's records, future registration, transcripts, teaching license and diploma until the check is redeemed.

## **Collection Fees**

### **Collections in the Commonwealth of Virginia**

the university pursues debt in accordance with the guidelines set forth by the Commonwealth of Virginia in the Virginia Debt Collection Act. Virginia state law requires that the university make every attempt to collect past due amounts owed to state agencies. If, after 60 days, full payment of a debt has not been received, the student account will be placed with a collection agency. Students are responsible for any collection costs incurred at a rate of 33.33% of the total due.

Students also risk tarnishing their credit rating and will be subject to further enforcement proceedings. Collection efforts are costly to the student. Avoid them by paying on time. Agencies charge the student a 33.33% fee that is the collection industry standard. Collection fees cannot be appealed. If a student finds that their account has been referred to a collection company, please contact the company immediately to make payment arrangements.

Additionally, the account can be listed by the Credit Bureau as a bad debt, a delinquent account can be collected in full from income tax refunds, lottery winnings, or other refunds due from the state, and the account may be turned over to the Virginia Attorney General's Office for litigation. Timely payment is strongly encouraged so that collection efforts can be avoided.

## Eligibility for In-state Tuition

Eligibility for in-state tuition charges is based on the provisions of Section 23-7.4 of the Code of Virginia in effect on the first day of classes for each term. A link to the Code of Virginia guidelines can be found on the University Business Office Web site. This statute limits in-state tuition to those with Virginia domiciliary status. Domicile is defined as the "present, fixed home to which you return following temporary absences and at which you intend to stay indefinitely." If there is any question of the right to classification as a domicile of Virginia, it is the student's obligation, prior to the first day of classes for the semester, to raise the question with the University Business Office.

To qualify for in-state tuition, a graduate student shall establish by clear and convincing evidence that for a period of at least one year immediately prior to the date of the alleged entitlement, he or she was domiciled in Virginia and had abandoned any previous domicile, if such existed and that he or she initially came to Virginia for reasons other than education.

Domiciliary status shall not ordinarily be conferred by the performance of acts which are auxiliary to fulfilling educational objectives or are required or routinely performed by temporary residents of the commonwealth. Mere physical presence or residence primarily for educational purposes shall not confer domiciliary status. A matriculating student who has entered an institution and is classified as an out-of-state student shall be required to rebut by clear and convincing evidence the presumption that he or she is in the commonwealth for the purpose of attending school and not as a bona fide domiciliary.

Initial determinations of eligibility are made by The Graduate School (graduate students) and/or Outreach Programs (continuing education and non-degree students). Decisions on re-entry students are also made by these respective offices. To establish eligibility, an applicant must complete the uniform domiciliary status questions included in the applications for admission to the university. For information on special provisions of Section 23-7.4 covering military families and persons living out-of-state but employed full-time in Virginia, contact The Graduate School.

Once a student receives an initial determination of eligibility, he or she may appeal for a review of the application by contacting the head of the office that made the determination (director of the Admissions office or assistant dean of The Graduate School). Appeal for a final administrative review of the decision to deny in-state tuition may be made to the university's Residency Appeals Committee chaired by the associate vice president for institutional effectiveness. If there is any question of the right to classification as a domicile of Virginia, it is the student's obligation, prior to or at the time of registration, to raise the question with the administrative officials of James Madison University. Any party aggrieved by a final administrative decision shall have the right to petition within 30 days for a review by the Circuit Court of Rockingham County.

Returning students may apply for reclassification from out-of-state to in-state status through the University Business Office. Denial of a request for such reclassification may be appealed within 30 days to the assistant vice president for finance with a final appeal within 30 days to the Residency Appeals Committee. Petition for review of this final appeal must be made within 30 days to the Circuit Court of Rockingham County.

A change to in-state status may be made for a semester only when the completed application for reclassification form is received in the University Business Office prior to the first day of classes for that semester. Students are responsible for paying out-of-state tuition rates until in-state status has been approved. Refer to the University Business Office Web site and specifically the section "Residency Requirements" for the reclassification form and links to the Code of Virginia.

## Online Courses

Distance-learning courses are offered only by specific programs. Students enrolled in these courses will be charged a higher tuition rate than students taking traditional courses at the university. Refer to the University Business Office Web site at <http://www.jmu.edu/ubo/> for current tuition and fees.

## Room and Board

Part-time students cannot purchase a housing contract without prior approval of the Office of Residence Life. Residents of university-sponsored apartments are only charged for the room portion of their housing contract. These students and commuter students may purchase one of several meal plans through Card Services, Warren Hall, Room 302.

If students arrive late by 10 or fewer days, their boarding fee will not decrease. The only exception, however, is lateness because of hospital confinement. If students are late because of seven-day or longer stays in the hospital, the university will consider adjusting the board fee. Contact Card Services, Warren Hall, Room 302; (540) 568-6446 for additional information.

## Refunds

Any overpayment of a student account can be either refunded or posted to a future semester as a payment. All overpayments are refunded to the student except for PLUS loans, which are owned by the parent. Direct deposit to the

student's or parent's bank account is strongly encouraged. Direct deposit forms can be acquired at the University Business Office at Warren Hall, Room 302, through the University Business Office Web site or the Office of Financial Aid Web site. If no direct deposit form is on record, then a check will be processed within 10 banking days and mailed to the student's/parent's home address of record.

## **Withdrawal Refunds**

Students who officially withdraw from the university by the deadline for the semester will be refunded all tuition and fee payments.

Students who officially withdraw from the university after the deadline for the semester will be responsible for full tuition and fee charges, unless their withdrawal is due to an illness certified by a physician or for unavoidable emergency or extenuating circumstances. Tuition reduction must be approved and recommended by the Office of Student Withdrawal.

All meal plan charges will be pro-rated, and campus housing charges will be based on the refund schedule listed in the housing contract.

Students who are withdrawn by the university due to disciplinary action or enforced withdrawal will not receive a pro rata charge for tuition and fees.

For further information on withdrawal from the university, refer to the Registrar's Web site.

## **Financial Declaration for International Graduate Students**

This form is not an application for financial assistance. The limited financial aid that is available from James Madison University is competitively awarded on the basis of academic excellence. Assistantships are not need based. The university has no financial resources that are specifically reserved for international students. Only after acceptance into a specific graduate program can any student be considered for financial aid at James Madison University.

All applicants planning to obtain a student visa must complete the Financial Declaration and Certification Form and demonstrate sufficient funds to undertake graduate studies at James Madison University. Applicants who have been awarded a scholarship from an international agency or from their government must attach a letter of award to the form.

## **Financial Requirements**

Instructional fees for the 2010-2011 academic year are \$948 per graduate credit hour. International students attending James Madison University are required to be full-time degree seeking students and are expected to carry at least nine semester hours of credit for each semester they are enrolled. The tuition fees for the academic year (fall and spring semesters) are \$176,064.

Living expenses in Harrisonburg are estimated to be \$800-\$900 per month or \$9,600-\$10,800 (including \$2,000 per year for miscellaneous expenses) per calendar year. The total amount to be certified is \$28,500 per academic year. Add \$4,000 for a spouse and \$2,000 per child. Students who wish to study during the summer sessions should be aware that those additional educational expenses range between \$2,000 and \$3,000. Tuition rates are subject to change.

## **Projected Financial Requirements**

Admission is limited to applicants who are able to guarantee that they have all the funds necessary for their expenses for the entire period of their stay without resorting to employment while in the United States. An international student should expect living expenses in Harrisonburg to increase approximately 10% per year and tuition fees may increase as much as 30% each academic year.

## **Availability of Funds**

It is required that all tuition and other university fees be paid prior to the semester registration period in which the student wishes to enroll.

Tuition and fees and payment due dates are listed in the graduate catalog for each academic year. Specific payment procedures are addressed in the Schedule of Classes published for each semester.

## **Employment**

International students may not accept employment off-campus.

---

# Financial Assistance

## **Assistantships**

The Graduate School  
17 West Grace Street, MSC 6702  
(540) 568-7065  
[http://www.jmu.edu/grad/current\\_students/assistantships.shtml](http://www.jmu.edu/grad/current_students/assistantships.shtml)

## **Scholarships, Grants, Student Employment and Loans**

Office of Financial Aid and Scholarships  
Warren Hall, MSC 3519  
(540) 568-7820  
<http://www.jmu.edu/finaid>

---

## **Assistantships**

Each year, James Madison University makes funds available through the graduate assistantship program. Although limited in number, assistantships contribute significantly to academic and non-academic areas of the university. Assistantships provide financial assistance to qualified students who otherwise might be unable to pursue graduate degrees. They also offer opportunities for students to gain worthwhile teaching and other experiences relevant to their chosen disciplines.

Students will be awarded assistantships for a maximum of four academic semesters (exclusive of summer session) in most master's and educational specialist degree programs and a maximum of three years in the Master of Fine Arts and doctoral programs. Assistantships are limited to nine paid graduate hours of tuition each fall and spring semester, although contracts are usually written for an academic year. Students must pay for any additional hours each semester at the tuition rate based on residency status. Tuition will be covered at the on-campus rate for the hours stated on the contract. Any additional charges for Web-based courses will be the responsibility of the student. Under no circumstances will payment from assistantship funds be used for audited course work or undergraduate hours. Assistantships do not cover the student's room and board expenses. No tuition or stipend is paid through the assistantship program for summer hours.

## **Classification of Assistantships**

### **Doctoral Assistant**

A Doctoral Assistant is assigned to an academic department to assist faculty members in their responsibilities of teaching and/or research. Students in doctoral programs may also serve as Teaching Assistants. Doctoral Assistants must be enrolled in a doctoral program at JMU. Doctoral Assistantships may cover more than the regular amount of tuition, may pay a higher stipend and may remain in effect through all or part of the summer term.

### **Graduate Assistant**

A Graduate Assistant is assigned to an academic department, support program or administrative office to assist faculty members in preparing for instruction, leading discussion groups, grading papers, conducting research, preparing laboratories, performing departmental administrative tasks, etc. Specific duties will vary according to the needs of the department.

### **Teaching Assistant**

A limited number of Teaching Assistantships are available in academic units offering major programs of graduate study. A Teaching Assistant is assigned to an academic department and is required to instruct one course or three credit hours of course work each semester or an equivalent of three credit hours of laboratory work each semester. Students may also be awarded a teaching assistantship to assist other professors within the department with instructor related duties. Teaching Assistants must have completed a minimum of 18 hours of appropriate graduate course work. A Teaching Assistant must be directly supervised by a graduate faculty member.

### **Assistantship Hours**

In accordance with university policy guidelines, Graduate Assistants will provide an average of 20 hours of assistance each week. Graduate Assistants cannot be asked to perform more than an average of 20 hours per week unless special permission is granted from The Graduate School. Visa requirements stipulate that international students may not in any circumstances work more than 20 hours per week. Students may not begin their assignment prior to completion and submission of all required forms.

## **Additional JMU Employment for Graduate Assistants**

Graduate students receiving stipends from Virginia state funds are occasionally permitted to accept JMU employment in addition to the 20 assistantship hours. Permission for such employment must come from The Graduate School, in response to a request by the student's graduate coordinator or adviser. The student and the coordinator or adviser should carefully consider the overall effect of additional employment on the student's academic performance.

## **Application for Assistantships**

### **Application Process**

A student interested in a graduate assistantship should inform the graduate program to which he or she is applying of his or her interest in an assistantship. If there is not an assistantship available, the student may want to apply for a posted assistantship through another department.

To apply for an assistantship in another area:

Go to <http://www.jmu.edu/humanresources/emp/joblink.shtml>.

In the "For Applicants" section, select "click here" to enter JMU JobLink.

Click "View/Apply for Graduate Assistant Positions."

Click "View" for the Working Title of each position.

Complete and submit the application for the appropriate position. Assistantship departments contact applicants directly to set up interviews. After selecting a Graduate Assistant, the department will create the contract materials and forward them to The Graduate School. The graduate assistant will sign the contract, complete the tax forms and return them immediately to the assistantship department so information can be entered into the payroll system. Questions concerning assistantships should be made directly to the graduate program or department offering the assistantship.

### **Academic Load**

The following academic load guidelines apply to all Graduate Assistants.

Graduate Assistants must:

- Carry nine credit hours each semester.
- Receive prior approval from the graduate program coordinator when planning to register for more than nine credit hours.
- Pay for any additional credit hours above the nine paid for by their assistantships.
- Pay for the additional cost of any Web-based courses.
- Not take fewer than nine credit hours without prior written approval from The Graduate School. This underload of classes to no fewer than six credit hours is allowed only once during a graduate career.

### **Criteria**

To be eligible for assistantship consideration, students must:

- Be conditionally or unconditionally accepted into a specific graduation program (provisionally accepted students are not eligible for assistantships).
- Have official transcripts on file in The Graduate School indicating completion of the baccalaureate degree from a regionally accredited institution.
- Carry a full course load of nine credit hours during the period of the assistantship.

### **Deadlines**

Some academic units may require specific deadlines for assistantship applications. Consult the appropriate academic unit for their application deadline.

### **Tuition**

For tuition to be covered by the assistantship, all Graduate Assistants must register each semester for all courses during the regular registration period(s) and prior to the tuition refund date as outlined in the Registration and Student Record Services Handbook. Students who register for any additional courses after this time will be held personally responsible for additional tuition and fees. Students who drop courses after the add/drop deadline but before the end of the course adjustment deadline will be held responsible for fees and will receive a grade of "W" for the course. A grade of "WP" or "WF" (according to the status of the student at the time of withdrawal) will be assigned at the discretion of the instructor to the students who withdraw after the course adjustment deadline. The "WP" or "WF" will be recorded and remain on the student's transcript. Exceptions will be made only for documented extenuating circumstances and will be handled on a case-by-case basis.

## Conditions of Continuation in Assistantship

Graduate Assistants are required to make satisfactory progress toward their degrees, which means they must:

- Carry nine hours of graduate course work each semester. Underload approval is required if a Graduate Assistant is not registered for nine graduate hours each semester. Underloads are not approved for less than six graduate credits. Only one underload may be granted during a Graduate Assistant's program of study.
- Maintain at least a 3.0 graduate GPA in order to retain or reapply for the assistantship.

## Forfeiture of Assistantship

Students who leave the university, fail to perform the duties under their assistantships, lose their eligibility for the assistantship, or violate a university policy or state or federal law will forfeit their graduate assistantships. In such case, the university may withdraw tuition payment and will have no further obligation to continue to pay a stipend.

## Federal Financial Assistance Programs

The Office of Financial Aid and Scholarships helps qualified students secure a financial aid package designed to meet their financial needs. In most cases, students who have earned a bachelor's degree are no longer eligible to receive federal and state grants, with the exception of the tuition portion of the assistantships mentioned in the prior sections, which may use state dollars to fund the waiver. Therefore, the award package for graduate students generally consists of loans and work-study.

Students interested in information on financial assistance programs should visit the financial aid Web site, contact the Office of Financial Aid and Scholarships or send an e-mail to [fin\\_aid@jmu.edu](mailto:fin_aid@jmu.edu). Information about financial aid and scholarships at JMU can also be found through a variety of links at <http://www.jmu.edu/finaid>. A general overview of the aid process and basic consumer information can be found by reading the JMU Terms and Conditions for Financial Aid document available from <http://www.jmu.edu/finaid/forms.shtml>.

## Application Procedures and Deadlines

All financial aid applicants must undergo a standardized federal "needs analysis" by completing the Free Application for Federal Student Aid (FAFSA). To facilitate timely processing of financial aid, it is essential that applicants ensure their FAFSA has reached the federal government by March 1 prior to the academic year for which they are seeking financial assistance. Failure to apply by the priority filing date may cause delays in receiving aid.

A student must complete a FAFSA before financial aid eligibility can be determined for the following sources of aid:

- Federal Subsidized Direct Loan
- Federal Unsubsidized Direct Loan
- Federal Perkins Loan
- Federal Work-Study Program
- Need-based Foundation Scholarships
- Federal Grad PLUS Direct Loan

When a student files the FAFSA, the federal processor calculates his or her Expected Family Contribution (EFC). The EFC is an estimate of the family's ability to contribute to the student's overall educational expenses for one year. The student's financial aid "need" is JMU's computation of educational expenses (Cost of Attendance described later) minus the EFC.

Financial aid recipients must complete the FAFSA each school year. Amounts and types of assistance may vary from year to year. If funds are available, the Office of Financial Aid and Scholarships continues to assist students who meet the following conditions:

- Complete the FAFSA, with precedence given to those who apply by the priority filing date of **March 1** prior to the academic year for which they are seeking financial assistance.
- Meet the general eligibility requirements for aid as defined by the FAFSA.
- Maintain Satisfactory Academic Progress (described later).

Students offered financial assistance by JMU will receive electronic notification regarding their financial aid eligibility. The financial aid office will send a notice to the JMU e-mail account, which directs students to e-campus, where they may view and interact with their financial aid package. The aid notice has important information, so the recipient should follow all instructions to ensure the completion of required forms. Students can find consumer information regarding the financial aid process, including pertinent rules and regulations, through the financial aid section of their e-campus account. If any of the information included in the financial aid package or award notification is incorrect, the student should immediately notify the Office of Financial Aid and Scholarships. Financial aid is awarded based on FAFSA information, as well as the student's status at JMU (e.g., academic level, enrollment status and residency).

Federal and state regulations also require the Office of Financial Aid and Scholarships to consider any outside sources of assistance when awarding financial aid. These outside sources can be JMU scholarships, private scholarships,

veteran's benefits, tuition waivers, etc. The student's financial aid package may fluctuate throughout the year based on changes in FAFSA information, JMU status or the receipt of additional aid. Financial aid notices are usually sent in early summer.

## **Cost of Attendance**

An important part of determining a student's eligibility for financial aid is calculating a Cost of Attendance. In accordance with federal regulations, JMU has developed a Cost of Attendance (i.e., budget) for anticipated expenses a student may incur during the current school year. These expenses include tuition, room, board, books and supplies, travel, and personal. Room and board can refer to either residence hall or off-campus living expenses, depending upon a student's response on the FAFSA. Expenses are also considered for students who live at home with parents or relatives, but the Cost of Attendance is lower than for those living elsewhere. Travel expenses include items such as gasoline, vehicle maintenance and insurance. Personal expenses include laundry, clothing and entertainment. Many of the elements in the Cost of Attendance are estimates, so it is possible for a student to spend more or less than anticipated during any given year.

## **Employment**

The Graduate School recognizes that many graduate students depend upon part-time or full-time employment to meet expenses. Though there is no limit to the maximum number of credit hours employed students may take, students and advisers should realize that a course schedule should take into consideration the demands of employment.

## **Equal Opportunity Employment**

James Madison University is committed to selecting faculty and staff without discrimination against individuals on the basis of race, color, sex, sexual orientation, religion, creed, national origin, age, veteran status, political affiliation or disability.

Inquiries or requests for reasonable accommodation may be directed to the activity coordinator, the appropriate university office, or the Office of Equal Opportunity.

Office of Equal Opportunity  
MSC 5802  
1017 Harrison Street  
Harrisonburg, Virginia, 22807  
Phone (540) 568-6991  
Fax (540) 568-7992  
TDD (540) 568-2278

More information is available through the Office of Equal Opportunity Web site.

## **Satisfactory Academic Progress**

To be academically eligible to receive financial assistance, students must be making satisfactory progress toward graduation as defined by The Graduate School and the Office of Financial Aid and Scholarships. Financial aid standards are available at <http://www.jmu.edu/finaid/sap.shtml>.

## **Student Loans**

Web site: <http://www.jmu.edu/finaid>.

### **Federal Perkins Loan**

Perkins is a need-based federal loan. The interest rate is fixed at five percent and the student does not begin repaying the loan until nine months after he or she graduates or drops below half-time status. Awards may be made as long as funds are available.

### **Federal Direct Loan Program**

The Direct Loan (subsidized and unsubsidized) is a long-term, low-interest loan, for which undergraduate, graduate and professional students may apply. The interest rate is fixed at 6.8 percent. For a subsidized loan, the government will pay the interest while the student is in school. For an unsubsidized loan, the student can either pay the interest while in school or have it capitalized (i.e., added to the principle). Payments on the principle amount do not begin until six months after the student graduates or drops below half-time status.

Graduate students may borrow no more than \$20,500 per year, or no more than the established Cost of Attendance, whichever is lower. In addition, graduate students may borrow no more than \$138,500 during their graduate career, which includes loans received for undergraduate study. For students who received prior Federal Stafford Loans at JMU or another institution, the debt total is the sum of all Direct and Stafford Loans.

## **Federal Grad PLUS Direct Loans**

The Grad PLUS is a credit-based loan. Grad PLUS borrowers may apply for an amount up to the cost of attendance minus any other financial aid received by the student for the academic year. The interest rate on the Grad PLUS is fixed at 8.5 percent. Interest begins to accrue on the date of the first loan disbursement. The first payment is due within 60 days of the last disbursement for the loan period. At times a Grad PLUS borrower may receive a deferment while he or she is enrolled at an eligible school. Contact the Direct Loan Servicing Center for details regarding this provision. Students must meet the same general eligibility requirements for federal financial aid that must be met in order to receive a Federal Direct Loan.

Applications for the Federal Grad PLUS Direct Loan are available on the financial aid Web site, but students should not submit an application until they have received a financial aid award notice explaining their eligibility.

## **Alternative Loans**

Some banks offer credit-based alternative loans to students who either do not qualify for the Direct or Grad PLUS loans or cannot receive enough money through these loan programs to cover their educational expenses. Terms of these private loans vary, but interest rates are normally higher than for the Direct loan or Grad PLUS. The financial aid office strongly encourages students to exhaust other sources of aid before pursuing an alternative loan. Interested individuals may obtain more information about alternative loan options from the financial aid Web site.

## **JMU Scholarships**

<http://www.jmu.edu/finaid/scholarships>

Many scholarships for students are established through the JMU Foundation and individual university departments. Scholarships are awarded either through the Office of Financial Aid and Scholarships or by the appropriate college or division according to established criteria. Awards are based upon merit and/or need. To be considered for need-based scholarships, students must complete the FAFSA.

For information on specific scholarships, students should visit the scholarships Web site.

## **Private Off-campus Scholarships**

Private off-campus scholarships include those awarded to students by outside (non-JMU) organizations. These scholarships are credited to the student's account upon receipt of the funds. If this type of scholarship is to be used to pay tuition and fees, the funds must be received prior to the payment due date for that semester. Mail all off-campus scholarship checks to:

James Madison University  
University Business Office  
MSC 3516  
Harrisonburg, VA 22807

The student is responsible for compliance with the provisions of the scholarship (i.e., grade reporting, verification of attendance, etc.).

## **Ronald E. McNair Post-Baccalaureate Achievement Program**

This program is named in honor of Dr. Ronald E. McNair, the laser physicist and Challenger space shuttle astronaut. Funded through a grant from the United States Department of Education, the objective of the McNair Programs are to increase the numbers of low-income, first-generation and underrepresented minority undergraduates who pursue doctoral degrees, specifically the Ph.D., and go on to careers in research and teaching at the university level.

Application fees to The Graduate School will be waived for McNair applicants. For more information on the McNair Programs, refer to the Web site at <http://www.ed.gov/programs/triomcnair/index.html>.

## **Student Employment**

<http://www.jmu.edu/stuemploy>

JMU employs both graduate and undergraduate students in academic, administrative or service oriented areas. Students must be degree seeking and enrolled on at least a half time basis during the academic year to be employed in these positions. They receive payment for their services via direct deposit twice a month. Wages earned in student positions are not applied directly toward the cost of tuition; however, they serve as a source of income for weekly living expenses. There are three work programs at JMU.

## **Federal Work-Study Program**

Federal Work-Study (FWS) can be part of the financial aid package for students who demonstrate financial need as determined by their FAFSA. Students who are offered FWS will need to apply and interview with employers to secure a position; however, employment is not guaranteed. To obtain information about available FWS positions, refer to the student employment Web site. These jobs provide a student with the opportunity to earn a paycheck throughout the

year. The money earned through this program is not counted as income when the student applies for financial aid next year, if the student reports FWS earnings as need-based employment on the FAFSA.

## **Institutional Employment**

Institutional Employment positions are on campus positions available to degree seeking JMU students regardless of financial need. To obtain additional information concerning available on campus positions, refer to the student employment Web site. There are approximately 2,000 Institutional Employment positions available on campus each year. Students may not work more than 20 hours per week in any on campus position during the fall and spring semesters.

## **Off-Campus Part-Time Jobs**

The off-campus part-time jobs program is designed to assist students in securing off-campus, part-time employment regardless of their financial aid eligibility. The program's coordinator works with local employers to promote hiring JMU students and to assist with advertising their opportunities. Additionally, the program is centered on creating real-world experiences for students that will not only increase self-knowledge but also develop marketable skills that will provide a solid foundation for securing jobs beyond graduation. To obtain information about available positions, refer to the student employment Web site.

## **University Withdrawal**

If students withdraw from their graduate program or the university, the University Business Office may adjust their charges based upon their withdrawal date and the JMU Refund Policy. For the university refund policy, refer to the University Business Office Web site.

Regardless of any adjustment to a student's charges, if he or she withdraws from the university, financial aid may be adjusted based on the percentage of the semester completed before withdrawal. In some cases, Federal Return of Title IV Funds regulations may require that aid be returned to the federal government for students who withdraw from JMU before 60 percent of a term has been completed. Financial aid is awarded for the entire term, which is generally a 15-week period. If a student does not complete the entire 15 weeks, then the Return of Title IV Fund rules will determine how much financial aid has been earned. The student can keep the earned amount for the term, but the unearned portion must be immediately returned to the federal government. In some situations, this will leave the student with a balance owed to the university. Funds are returned to the federal government in the following order: Grad PLUS, Unsubsidized Direct, Subsidized Direct and Perkins. See the JMU Terms and Conditions for Financial Aid document in the "Forms" section at <http://www.jmu.edu/finaid> for a sample calculation.

---

# Student Services and Learning Resources

## Academic Affairs Mission Statement

Phone: (540) 568-6616

Web site: <http://www.jmu.edu/acadaffairs>

Our mission is to provide an exceptional educational experience, designed to meet the changing needs of our students in society and dedicated to achieving the highest level of excellence within our academic programs. We strive to focus on the student both as an individual and as a member of the global community. Our faculty are dedicated mentors who are scholars, innovative teachers, and models of responsibility and accountability. Our staff are creative and talented colleagues who are committed to providing a supportive environment that facilitates learning and development.

## Administration and Finance Mission Statement

Phone: (540) 568-6434

Web site: <http://www.jmu.edu/adminfinance/>

The Division of Administration and Finance is committed to the preparation of students to be educated and enlightened citizens who will lead productive and meaningful lives. The division supports the university's commitment to excellence by empowering our staff to communicate effectively with the university community and provide proactive approaches to satisfy customer expectations.

## Student Affairs and University Planning Mission Statement

Phone: (540) 568-3685

Web site: <http://www.jmu.edu/stuaffairs/>

We are a community committed to preparing students to be educated and enlightened citizens who lead productive and meaningful lives.

## Business Services

### Bookstore

211 Bluestone Drive, MSC 2902

Phone: (540) 568-6121

Web site: <http://www.jmu.edu/bookstore>

The JMU Bookstore stocks all textbooks used by the academic units, as well as a large selection of general and technical books. The store also sells school, office and computer supplies, software, clothing, gifts, magazines and greeting cards. For students' convenience, the bookstore provides services including special orders for books, textbook buy back, gift certificates, film processing, bus tickets and computer services.

### Card Services

Warren Hall, Third Floor, MSC 3532

Phone: (540) 568-6446

Web site: <http://www.jmu.edu/cardctr/>

Card Services issues the JMU access card, the official identification card for all members of the university community. JAC allows access to various campus facilities and services. It is also used for meal plans, dining dollar declining balance accounts and FLEX declining balance accounts, all of which are administered by Card Services. FLEX declining balance accounts are honored for purchases or services in the following areas: bookstore, on-campus copy centers and copy machines, game room, library fines, Mister Chips convenience store, postal services, University Health Center, UREC, printing labs across campus, Masterpiece Theatre, Parking Services, UPB movies, on-campus vending machines, Warren Hall Ticket Office and all dining services locations as well as many off campus locations.

### Copy Centers

Medical Arts Suite 31, MSC 5722

Phone: (540) 568-3263

HHS, Room 1002, MSC 4311

Phone: (540) 568-8731

Web site: <http://www.jmu.edu/copycenter>

The University Copy Centers are owned and operated by the university as a service to the campus community. Two locations provide a full range of photocopying services. Academic coursepack service, copyright permission service, full

color copying, digital copying and digital file storage, network printing, binding, laminating and express photocopying service are available. Hours of operation vary by location. All centers are closed for university holidays.

## **Dining Services**

Gibbons Hall, Entrance 7, MSC 0901

Phone: (540) 568-6751

Web site: <http://www.jmu.edu/dining/>

To meet the varied needs of individual students, Dining Services provides different meal plans. All on-campus residents choose from among three meal plans, which come with the "Student Housing and Food Contract." They are the 19-Meal Plan, the 14-Meal Plan and Any-11-Premier Meal Plan. Commuters, who do not automatically have meal plans, may purchase any of the on-campus plans and have the additional options of a ten, five and three meal plan.

The department offers declining balance accounts that operate like debit cards. Students using this plan, called Dining Dollars, get a 5-percent discount and pay no sales tax on anything they buy. Cash sales are also welcome at all Dining Services locations.

## **Parking Services**

Parking Deck, 381 Bluestone Drive, MSC 1301

Phone: (540) 568-3300

Web site: <http://www.jmu.edu/parking/>

All vehicles parked on property owned, operated or leased by James Madison University are required to display a valid JMU parking permit. For information regarding the university's parking regulations refer to the Parking and Traffic Regulations Handbook. A copy of the handbook may be obtained free of charge upon request at the Parking Services office. Updated information can be obtained throughout the academic year on the Web site.

## **Career and Academic Planning**

Wilson Hall, Room 301, MSC 1016

Phone: (540) 568-6555

Employer Relations and Recruiting: Sonner Hall, Lower Level

Phone: (540) 568-7379

Web site: <http://www.jmu.edu/cap>

Career and Academic Planning coordinates academic advising for all first year students and undeclared students; assists students in choosing or changing their major and deciding upon a career direction; and provides a variety of job search programs and graduate school application services.

## **Career Advising and Decision-Making**

Career and Academic Planning helps students understand the process of deciding on an appropriate major and relate that decision to possible career paths.

Students can meet with professionals and attend various programs to enhance their knowledge of majors, explore career fields, learn career decision-making strategies, discover more about their own interests and strengths, and plan to eventually launch an effective job search.

## **Academic and Career Resource Center**

The resource center provides information and assistance related to choosing a major and career planning, internship/summer jobs, job search tools and career trend information. A tool available to all students is FOCUS, a web-based career exploration tool available in the resource center and online. Directories with employer contact information and graduate school options are also available. Resources include books, printed materials, handouts, databases, career software and Web-based information. Information is organized on a self-help basis so that students and faculty may browse at their leisure. Staff members are available to answer questions and help students use resource materials.

## **Employment, Internship and Job Search Services**

### **Employer Relations and Recruiting Services**

Business, industry, government and educational employers come to JMU throughout the year to conduct job interviews with graduating seniors and students seeking internships. Information about the interview program, participating employers and interview sign-ups is available on the Career and Academic Planning Web site. To interview, students must complete a Recruit-a-Duke workshop and create a profile on Recruit-a-Duke, an online system that connects students with employment and interviewing opportunities. To help students prepare for interviews, mock interview sessions with employer participants are held each semester.

## **Resume Development**

Assistance with writing resumes is available to students in many forms. Students may access resume writing support via the Career and Academic Planning Web site. Resume writing workshops and other related services are available throughout the year, and students may make an appointment with an academic and career advisor to receive individual assistance. Additionally, a variety of resume guides are available in the Resource Center in Wilson Hall.

## **Career Fairs**

The office sponsors a number of career fair events each year to provide students with the opportunity to interact with employers and obtain employment-related information.

## **Job Search**

Job search related programs are offered throughout the academic year, including presentations on job search strategies for targeted industries, behavioral interviewing, networking and evaluating job offers. Students may also meet individually with an academic and career advisor to tailor their job search. Job vacancy publications are available through the resource center, which provide information about job opportunities in a variety of career fields. Recruit-a-Duke, JMU's online job search system, also gives students access to vacancy listings.

## **Community Service-Learning**

Wilson Hall, Room 201, MSC 1011

Phone: (540) 568-6366

Web site: <http://www.jmu.edu/csl>

Community Service-Learning programs allow students to learn and develop through active participation in thoughtfully organized community service. Students, faculty, staff and community agencies partner to help prepare students for lifelong community service and civic engagement. Alternative break programs are student led and developed service trips to locations in the United States and abroad. Most trips occur during spring break week, but trips may be offered during any academic break. America Reads and Community Work Study, part of the Federal Work Study financial aid program, place students in elementary schools to tutor in reading and in community service agencies that address a variety of community needs.

## **Counseling & Student Development Center (CSDC)**

Varner House, Room 101, MSC 0801

Phone: (540) 568-6552

Web site: <http://www.jmu.edu/counselingctr/>

The CSDC provides free, confidential personal counseling services to all full-time JMU students. Appointments can be made in person or over the phone (568-6552). After-hours crisis services may be accessed by contacting the Office of Public Safety (568-6911).

Counseling at the CSDC frequently involves issues such as relationship problems, self-esteem, depression, anxiety/stress, eating and body image concerns, and difficulty adjusting to college life. Services include:

**Personal Counseling:** Individual counseling provides students with the opportunity to freely explore any personal problems or concerns which have a negative impact on the quality of their lives. The CSDC operates under a short-term treatment model under which the student and counselor collaboratively identify and address the student's primary concerns within a limited number of sessions. Students who request or require longer-term treatment are referred to community resources.

**Group Counseling:** Each semester, students may participate in small group experiences on issues related to their needs (e.g., depression, eating disorders, anxiety, grief, etc.).

**Psychiatric Services:** The CSDC has a psychiatrist who prescribes medications that may be helpful to students dealing with psychological issues. Only students who are currently engaged in ongoing treatment at the CSDC are eligible to receive these services. The cost of any medication and/or necessary lab work is the financial responsibility of the student. Students who are exclusively interested in psychiatric services are provided an off-campus referral.

**Consultation:** In person or over the phone, the CSDC provides consultation to students, faculty, staff and others who are concerned about the unusual, problematic or potentially harmful behavior of others.

**Outreach Programming:** Workshops on a wide variety of mental health topics may be requested by visiting the CSDC online.

**Peer Mentor Program:** This program is designed to help first year and transfer multicultural and international students make a successful transition from high school to the university.

**Certificate Programs:** The Interpersonal Skills Certificate Program helps students to develop the abilities and confidence necessary to effectively deal with a variety of social, emotional and academic situations. The Anger

Management Certificate Program gives students the opportunity to examine their personal responses to anger and to learn more productive ways to deal with this emotion.

## **Center for Multicultural Student Services**

Warren Hall, Room 245, MSC 3504  
Phone: (540) 568-6636  
Web site: <http://www.jmu.edu/multicultural>

The Center for Multicultural Student Services celebrates the diversity of JMU students by fostering student growth and development, heightening awareness, and educating its constituents regarding ethnic and cultural diversity. The purpose of CMSS is:

- To assist the university in its goal of recruitment of multicultural students, faculty and staff.
- To assist with the retention of multicultural students through a host of program services designed to encourage students in achieving their academic and career aspirations.
- To encourage the development of a climate in which the accomplishments of multicultural students are appreciated.
- To create an environment through which multicultural students can continue to be an active part of the mainstream of campus life.

The office works diligently to provide the following services:

- Recruitment and Retention
- Cultural Programming and Awareness
- Student Support
- Leadership Development

## **Office of Disability Services and Learning Strategies**

Wilson Hall, Room 107  
Phone/TDD: (540) 568-6705  
Fax: (540) 568-7099  
Web site: <http://www.jmu.edu/ods>

The disability services and learning strategies office is comprised of the following areas:

### **Learning Strategies Instruction**

Wilson Hall, Room 107  
Phone: (540) 568-6705  
Fax: (540) 568-7099  
Web site: <http://www.jmu.edu/lrc/LRC-LSI.shtml>

Learning Strategies Instruction (LSI) is the direct-instruction of curriculum-based strategies designed to improve the actual process of learning. Available to any student, LSI promotes learning efficiency in current courses and is available in such areas as:

- Memory
- Note-taking
- Reading
- Studying
- Test-taking
- Time management

### **Screening and Assessment Service**

Wilson Hall, Room 105  
Phone: (540) 568-7146  
Fax: (540) 568-2926  
Web site: <http://www.jmu.edu/lrc/screeningassessment.shtml>

This office provides a one-and one-half hour clinical interview exploring a broad range of historical, academic, study habits/skills, academic frustrations, and emotional components. A screening does not yield a diagnosis; rather, it assists in the decision making process for recommending the next step in the process.

## Disability Services

Disability Services assists the university in creating an accessible community where students with disabilities have an equal opportunity to fully participate in their educational experience at JMU. Services include, but are not limited to the following:

- Equal access to university programs and services
- Provision and coordination of reasonable accommodations
- Disability-related support services
- Liaison to faculty, staff and students on disability related issues
- Assistive Technology and alternative text services

## Assistive Technology Computer Labs

Carrier Library, Room 102

East Campus Library 1st Floor

Website: <http://www.jmu.edu/ods/AssistiveTechnologyLab.shtml>

Contact Disability Services for access to the Assistive Technology Computer Labs.

## Office of Equal Opportunity

1017 Harrison St., MSC 5802

Voice/TDD: (540) 568-6991

Web site: <http://www.jmu.edu/oeo/>

The Office of Equal Opportunity promotes the practice of and adherence to the equal opportunity policies of James Madison University. Bringing diversity to JMU, the program assists in the identification and recruitment of qualified individuals who normally have been underrepresented in the university. It also sponsors workshops on various subjects such as sexual harassment, disabilities, affirmative action, etc. The Office of Equal Opportunity also provides a place where individuals who feel that they have been subjected to harassment or discrimination due to race, color, national origin, religion, gender, age, veteran status, political affiliation or disability can file a complaint for an impartial resolution. Inquiries may be directed to the Office of Equal Opportunity.

## Office of the Dean of Students

Taylor Hall, Room 300, MSC 3534

Phone: (540) 568-6468

Web site: <http://www.jmu.edu/deanofstudents>

Staff are committed to providing students with impartial, independent and confidential support regarding university policies, procedures and regulations. Specific types of assistance include:

- notifying professors of extended class absences.
- facilitating the resolution of student issues and concerns.
- providing direction to students on procedures and regulations.
- providing confidential, impartial facilitation of communication.

## Office of Judicial Affairs

Frederikson Hall, Room C101, MSC 2901

Phone: (540) 568-6218

Web site: <http://www.jmu.edu/judicial>

The Office of Judicial Affairs is committed to promoting student learning, civic responsibility and, through partnerships, developing the necessary community for the university to best achieve its educational mission. Judicial Affairs also houses madison mediation and restorative justice programs. The purpose of these services is to provide an alternative way to deal with confrontation other than the normal judicial processes.

## JMU Learning Centers

Wilson Hall, Room 105

Phone: (540) 568-2932

Fax: (540) 568-2926

Web site: <http://www.jmu.edu/lrc>

JMU Learning Centers supports students, faculty, and staff through the following programs and services:

## **Communication Center**

Wilson Hall, Room 417  
Phone: (540) 568-6349  
Fax: (540) 568-3450  
Web site: <http://www.jmu.edu/crc/>

Our Speech program provides resources and assistance with oral communication projects to the JMU community and promotes students' communication excellence in the areas of speech preparation and presentation, small group problem solving and interpersonal skills. Services include:

- Speech Preparation assistance
- Enhancement of speech delivery and style
- Communication Theory tutoring
- Speech anxiety reduction strategies
- Assistance with speech outlines and research
- PowerPoint creation and delivery techniques

## **English Language Learner Services**

Wilson Hall, Room 415  
Phone: (540) 568-1759  
Fax: (540) 568-3450  
Web site: <http://www.jmu.edu/esolservices>

In addition to opportunities to work on academic skills in a cooperative environment, multilingual learners can seek consultation on such topics as:

- Writing
- Grammar
- Reading
- Pronunciation
- Listening
- Individual goals for improving English
- Cultural information

## **Science and Math Learning Center**

Roop Hall, Room 200  
Phone: (540) 568-3379  
Fax: (540) 568-4818  
Web site: <http://www.jmu.edu/smrc>

The mission of the Science and Math Learning Center is to assist and reinforce student learning in first-year math and science courses.

## **University Writing Center**

Wilson Hall, Room 417  
Phone: (540) 568-1759  
Fax: (540) 568-3450  
Web site: <http://www.jmu.edu/uwc>

The University Writing Center works directly with student and faculty writers, provides resources on writing strategies, and supports writing across campus. The center provides:

- Individualized writing consultations
- Online writing resources for students and faculty
- Computer lab and study space
- Faculty consultations for designing assignments and responding to student writing

## **Educational Computer Labs**

Wilson Hall, 4th Floor  
Statistics Computer Lab  
Roop Hall, Room 200

## Public Safety

Anthony-Seeger Hall, MSC 6302

Phone: (540) 568-6913

Web site: <http://www.jmu.edu/pubsafety>

The Office of Public Safety consists of law enforcement and safety services. The office supports and advances the educational purposes of the university through the provision of a safe and secure environment for learning, working and personal development.

### Police

The university police are commissioned officers with comprehensive law enforcement powers. University police continually patrol JMU's campus and facilities, providing full-service protection to the JMU campus community.

The Campus Police Cadet Program carefully screens and trains students to aid the university police. Cadets are on duty from 7 p.m. until 2 a.m. each weeknight and until 3 a.m. on weekends. Cadets are responsible for patrolling the campus and securing academic and administrative buildings each evening. In addition, they provide escort services to students walking across campus. When cadets are off duty, university police officers escort students as needed.

### Safety

The university safety engineer is responsible for conducting safety surveys and inspections; investigating fires, hazardous material spills and other dangerous conditions and providing environmental and workplace safety and health awareness training.

## Office of the Registrar

Warren Hall, Room 504, MSC 3528

Warren Hall, Room 300, MSC 3533

Phone: (540) 568-6281

Web site: <http://www.jmu.edu/registrar/>

The Office of the Registrar is responsible for:

- Add and drop registration procedures
- Athletic certification
- Class schedule preparation
- Commencement activities
- Degree audits
- Diploma issuance
- Enrollment verifications
- Student records
- Transfer credit evaluation
- Transcript issuance

For information regarding veterans' affairs and graduation, students should contact the Office of the Registrar on the fifth floor of Warren Hall or call (540) 568-6281.

## Office of Residence Life

Huffman Hall, MSC 2401

Phone: (540) 568-4663

Web site: <http://www.jmu.edu/orl/>

The Office of Residence Life oversees multiple functions related to living and learning at James Madison University. Offices and programs within the department focus on student learning, student development, and successful transitions throughout the university experience.

## Graduate Student Housing

The university sponsors a limited number of efficiency apartments for upper-class and graduate students. Students interested in more information regarding university housing may contact the Office of Residence Life.

Office	Telephone Number
Business Operations	(540) 568-7576
Community Development	(540) 568-3501
Director's Office	(540) 568-6275
Housing Operations	(540) 568-4663

## Student Government Association

Taylor Hall, Room 203, JMU Box 3523

Phone: (540) 568-6376

Web site: <http://sga.jmu.edu/>

Students, faculty and administration share the responsibility for governing JMU. They are represented on the University Council, on its commissions and on standing and special committees reporting to these bodies.

The Student Government Association collectively represents the university student population. SGA promotes the welfare of students by providing the medium through which students can actively voice their concerns, and by serving as a liaison between the students, faculty and administration at JMU.

## Student Handbook

Web site: <http://www.jmu.edu/judicial/handbook.shtml>

The student handbook contains a wealth of information about university policies and regulations, university facilities and student organizations.

## University Health Center

University Health Center, MSC 7901

Phone: (540) 568-6178

Fax: (540) 568-7803

Web site: <http://www.jmu.edu/healthctr/>

The University Health Center partners with students to empower them to make informed choices by providing a holistic approach to student health, education, wellness and outreach services in a confidential, inclusive and respectful environment. The center is staffed by qualified, professional personnel, including physicians, nurse practitioners, physician assistants, registered nurses, medical assistants and licensed practical nurses who administer health care in a confidential and professional manner.

To be eligible for treatment, students must have a current, completed health record on file at the University Health Center. The Code of Virginia requires that all full-time students provide documentation of their immunizations.

## Student Wellness and Outreach

Warren Campus Center, Room 404

Phone: (540) 568-2831

Web site: <http://www.jmu.edu/healthctr/swo/index.shtml>

Student Wellness and Outreach (SWO) coordinates university-wide programs and speakers on various health topics including general wellness and nutrition, disordered eating, sexual assault prevention, sexual health, relationships, substance abuse, and stress management. The SWO staff includes counselors, certified health educators and a registered dietitian.

Student organizations and services include REACH peer educators, 1 in 4 Men's group, CARE, and the Lesbian, Gay, Bisexual, Transgender and Ally Education Program. A wellness resource library is available in Warren 403.

## University Recreation

University Recreation Center

MSC 3901

Phone: (540) 568-8737

Web site: <http://www.jmu.edu/recreation/>

University Recreation (UREC) promotes and advances healthy lifestyles through participation opportunities, educational experiences and supportive services. Our qualified staff is committed to excellence and attentive to the developmental needs of our participants.

UREC is located near the JMU Convocation Center on the east side of campus. A valid JAC is needed to enter the building. Program areas include Adventure, Aquatics, Safety, Fitness, Nutrition, Group Fitness, Wellness, Intramural Sports, Informal Recreation, Sport Clubs, and Youth Programs. Online registration is available for educational programs, group fitness classes and intramural sports. Programs requiring fees can be registered for in person at UREC using FLEX.

UREC houses a multi-level fitness and wellness center with 140,000 square feet of activity space. Building highlights include a 33-foot climbing wall, seven racquetball courts, four basketball/volleyball courts, indoor track, cardio theatre, indoor pool/sauna/spa area, locker rooms, outdoor courtyard with sand volleyball, outdoor turf fields and group fitness/multipurpose studios. UREC also houses an equipment center where sports and camping/outdoor equipment can be checked out or rented.

## University Unions

Taylor Hall, Room 205B, MSC 3501

Phone: (540) 568-3341

Web site: <http://www.jmu.edu/universityunions>

The University Unions Department reflects a broad range of programs, facilities and services created to build a sense of community for the campus as a whole. The facilities are the gathering places for the campus, with meeting rooms, assembly spaces, lounges and support services available. They are places where ideas come to life, learning is put into practice and the various constituencies of the campus find common ground.

University Unions is comprised of the following units:

### The Dux Center

Taylor Hall, Room 102, MSC 3501

Phone: (540) 568-5901

Web site: <http://info.jmu.edu/kijiji/dux.php>

The Dux Center serves as a leadership clearing house for the university. The premier leadership program sponsored by the Dux Center is Kijiji Citizens of Influence. This is a three-year program that meets once a week during the fall and spring semesters. Students become more familiar with who they are, what their passions are, and how they can be a citizen of influence. In addition to sponsoring this unique leadership program, the Dux Center also strives to provide information about other leadership programs offered by departments and areas across campus.

### Event Management

Madison Union Scheduling, Room 233, MSC 3501

Phone: (540) 568-6330

### Festival Conference and Student Center Scheduling

Phone: (540) 568-1716

Web site: <http://www.jmu.edu/events/>

Event Management provides a comprehensive approach to the coordination of services necessary for campus events and coordination of scheduled meetings and conferences throughout the year.

### Facilities Services

Madison Union, MSC 3501

Phone: (540) 568-5555

Festival Conference and Student Center, MSC 4201

Phone: (540) 568-1715

Four buildings house the programs and services which the University Unions provide for the JMU community. They are the Madison Union (Grafton-Stovall Theatre, Warren Hall and Taylor Hall) and Festival Conference & Student Center. Facilities Services address physical building, operations and information concerns in these spaces.

## **Fraternity/Sorority Life**

Taylor Hall, Room 205B, MSC 3501  
Phone: (540) 568-3341  
Fax: (540) 568-6444  
Web site: <http://www.jmu.edu/fsl>

The University Unions work with fraternities and sororities to foster cooperation and communication among the chapters, the university and the community. The staff advises the Inter-Fraternity and Panhellenic Councils and also works with the individual chapters in promoting leadership, involvement and service.

## **Office of Student Activities and Involvement**

Taylor Hall, Room 205A, MSC 3501  
Phone: (540) 568-8157  
Fax: (540) 568-6444  
Web site: <http://www.jmu.edu/osai/>

The Office of Student Activities and Involvement houses Student Organizations, Student Government, Mad4U, Make Your Mark on Madison Leadership Program and the University Program Board. The Office of Student Activities and Involvement provides a wide range of educational, social and cultural events, as well as support services for all JMU student clubs and organizations. Student Organization Night at the beginning of each semester offers an opportunity for all students to meet members of clubs, learn about organizations and discover how to become involved with them.

## **Taylor Down Under**

Taylor Hall, Room 102, MSC 3501  
Phone: (540) 568-7853

Taylor Down Under, located on the ground floor of Taylor Hall, is comprised of a lounge, the Corner Pocket Game Room and a coffee bar. The TDU lounge area was developed with the commuter student in mind but has become a popular hangout for all students. This area offers computers for student use, television, evening entertainment on the TDU Stage, comfortable seating and an information desk.

## **University Program Board**

Taylor Hall, Room 234, MSC 3505  
Phone: (540) 568-6217  
Web site: <http://upb.jmu.edu/>

Campus entertainment is scheduled through the University Program Board, a student organization advised through the University Unions. Concerts, films, speakers, trips and numerous other activities designed to complement the educational mission of JMU are arranged by the UPB. The board also solicits collaborative programs with other student organizations, university departments and schools. Committees for which students may volunteer include film, special events, center stage, spirit and traditions, and spotlight sounds.

## Withdrawal from the University

Office of the Dean of Students  
Taylor Hall, Room 300, MSC 3534  
Phone: (540) 568-6468

The Office of the Dean of Students assists students who are considering withdrawing from the university after the first three weeks of the semester. The student and staff member discuss personal, financial and academic implications of withdrawal. The staff member will provide and assist the student with the proper withdrawal application form.

## Your Right to Know

<http://www.jmu.edu/pubsafety/righttoknow.shtml>

Your personal safety and the security of the campus community are of vital concern to James Madison University. A copy of the university's annual Harrisonburg (main U.S.) campus, Washington (D.C.) Internship Semesters plus London (UK), Antwerp (Belgium) and Florence (Italy) branch campus security reports are available upon request.

This report includes statistics for the most recent three-year period concerning reported crimes that occurred on campus, in certain off-campus buildings or property owned or controlled by James Madison University or affiliates, and on public property within or immediately adjacent to and accessible from the campus. The report also includes information regarding the law enforcement authority of the university police; policies concerning campus security, such as crime prevention, alcohol and drug use, sexual assault, state sex offender registry, missing person investigation procedures and the reporting of any crimes that may occur on the campus.

You can obtain a copy of any or all of these reports by contacting:

Office of Public Safety – Crime Prevention Unit  
James Madison University, MSC 6302  
Harrisonburg, VA 22807

You can request that a copy be mailed to you by calling (540) 568-6766/6769. This information is also available online by clicking on the "Main Campus" link on the "Your Right to Know – Annual Crime Reports" page located on <http://www.jmu.edu/pubsafety/righttoknow.shtml>.

# Resources

## JMU Libraries

### Carrier Library

Carrier Library Circulation: (540) 568-6150  
Carrier Library Reference Desk: (540) 568-6267  
<http://www.lib.jmu.edu>

### Music Library

(540) 568-6041  
<http://www.lib.jmu.edu/music>

### East Campus Library

(540) 568-2731  
<http://www.lib.jmu.edu/east/moreabout.aspx>

JMU Libraries, consisting of Carrier Library, the Music Library and East Campus Library, support research, study and instruction in the use of information resources at JMU. JMU Libraries house almost 800,000 volumes, including books, periodicals, and audiovisual materials; subscribe to over 13,000 journals; and offer access to growing collections of online books, journals, and media. The library Web site is an online gateway to the services and collections of the JMU Libraries.

Through the Web site, users can search LEO, the library catalog, connect to approximately 400 electronic databases, and find subject guides highlighting the most important print and electronic sources in many subject areas. Services such as e-mail reference and Interlibrary Loan request forms are also available on the Web site. As an authorized U.S. Government Document Depository, the JMU Libraries provide access to thousands of selected online and print documents. JMU Libraries is a member of VIVA, the Virtual Library of Virginia, a statewide consortium that offers access to numerous online journals and databases.

Carrier Library and the East Campus Library each provide more than 100 personal computers in their public areas. In addition, most of the online resources on the library Web site can be accessed from any computer on campus, and those with current JMU electronic IDs can configure their browsers to access library resources from any remote location.

One of the JMU Libraries' principal goals is to provide students with lifelong learning skills that will enable them to find, use and evaluate information in all formats. Students learn basic information literacy skills through "Go for the Gold," a set of online self-instruction modules available on the library Web site. Information literacy skills in the major are addressed through instruction sessions offered in library classrooms. Reference librarians are available on a walk-up basis or by appointment to answer questions and assist students with research.

The liaison program links a librarian to each academic unit. Liaison librarians provide a variety of services, including library instruction for course-related activities, collection development and consultation with individual faculty members and students.

The Music Library serves the students and faculty members of the School of Music, as well as offering its specialized resources to the greater university community. The East Campus Library houses the science, technology and health sciences collections and provides study space for individuals and small groups, reading rooms, and open study areas with casual seating. It also includes a 24-hour study area with a secure entrance, a computer lab and coffee bar.

## Media Resources

(540) 568-6802  
<http://www.lib.jmu.edu/media>

Media Resources in Carrier Library acquires commercial educational media in video, audio and computer software formats for instruction and study by faculty, staff and students. It also provides an online video collection for streaming to the JMU community. Faculty and staff can consult with media center staff to locate program items not available in the collections. The center can assist users with scheduling and recording satellite programming for academic needs. It also distributes selected campus-wide software such as Microsoft Office, SPSS, SAS, Mathematica and other applications in coordination with IT Computing Support. Media Resources technical staff coordinate the development, installation and maintenance of technology systems in classrooms and many special facilities on campus. Media Resources also offers portable equipment such as laptops, projectors, digital cameras, camcorders and audio

recorders for loan, as well as audio/video editing workstations for student projects. Staff provide user support for all installed and portable equipment, as well as repair services for non-computer media technology used on campus.

## **Center for Instructional Technology**

(540) 568-7061  
<http://cit.jmu.edu>

The Center for Instructional Technology (CIT) is a central resource for the development and exploration of instructional technologies. CIT staff and student associates are available to serve faculty and staff on a walk-in basis or by scheduling an appointment for focused assistance. CIT staff work with faculty on instructional planning, design of instructional materials, production of instructional materials and coordination of resources for project implementation. In the walk-in production facility, faculty, staff and students can check out digital cameras, master a CD-ROM, scan flat art and 35mm slides, and create color prints, transparencies, digital graphics, publications, classroom presentations and Web pages. In addition, a technology teaching station is available to practice professional and classroom presentations.

The center is also available for JMU students. Students assisting faculty members with the development of materials may use the center during open hours after the requesting faculty member has signed an authorization form. Students working on class projects may use the center during evening hours.

The center offers a variety of faculty development opportunities including hands-on workshops, in-depth technology concentrations, informal discussions and scheduled project support sessions. The center's instructional technology grants program, mGrants, encourages faculty to develop and implement creative methods of instruction. These grants provide faculty with consulting services, support services and funding to design and develop course materials, experiment with new teaching models and promote active learning.

## **Distributed and Distance Learning Services**

(540) 568-7061  
[http://cit.jmu.edu/distance\\_learning](http://cit.jmu.edu/distance_learning)

Distributed and Distance Learning Services (DDLS) is a support facility for online learning activities at JMU. This support unit works with faculty and other stakeholders in the provision of distributed and distance learning courses, academic programs offerings, and online certification opportunities. DDLS supports faculty members with a variety of services, including training, online resources and consulting. DDLS collaborates with other university divisions to provide a one-stop gateway to services for the university's distance learning students. DDLS hosts the university's online learning site, JMUOnline.

# **The Center for Assessment and Research Studies (CARS)**

## **Dr. Donna L. Sundre, Executive Director**

MSC 6806, JMU, Harrisonburg, VA 22807

(540) 568-6706

<http://www.jmu.edu/assessment>

## **Center for Assessment and Research Studies Faculty**

Dr. Robin D. Anderson, Associate Director

Dr. Christine DeMars, faculty

Dr. Sara Finney, faculty

Dr. Keston Fulcher, faculty

Dr. Joshua T. Goodman, faculty

Dr. J. Christine Harmes, Ph.D. Program Director

Dr. Chris Hulleman, faculty

Dr. Dena Pastor, faculty

Dr. Donna L. Sundre, Executive Director

Mr. David Yang, Information Security Analyst

## **Mission**

The mission of the Center for Assessment and Research Studies (CARS) at James Madison University is to provide quality assessment service to the university, to provide applied graduate training in both assessment and measurement, to increase the use of innovative technology in assessment practice, to increase the rigor of measurement and statistical techniques used in assessment practice, and to produce quality scholarship in assessment and measurement. The vision of the center is to be internationally recognized as a standard of excellence for practice, programs and scholarship in assessment and measurement.

Originating in 1986, the Center for Assessment and Research Studies at James Madison University is one of the largest campus-based agencies devoted to outcome assessment in the United States. Ten faculty and three staff perform a variety of assessment activities in general education, the major and student affairs. In conjunction with JMU's Office of Information Technology, the Assessment Center operates a computer-based testing lab where a variety of computer-based tests are administered on an ongoing basis to students on the JMU campus and beyond. CARS also administers a Ph.D. program in assessment and measurement established in 1998 designed to meet the expanding accountability, quality assurance, and outcome assessment needs of education, government and industry.

## **Information Technology**

<http://www.jmu.edu/computing/af>

## **Computing HelpDesk**

Students have access to the Computing HelpDesk for answers to computing questions. Students may call the Computing HelpDesk at (540) 568-3555, or visit <http://www.jmu.edu/computing/helpdesk>.

## **Computing Policies**

Policies regarding computer use are available on the University Policies Web site. Refer to University Policies: 1201, Information Technology Resource Management; 1204, Information Security; 1205, University Data Stewardship; 1207, Appropriate Use of Information Technology Resources; and 1209, Electronic Messaging.

## **Computer Purchases**

The JMU Bookstore offers computer systems, software and peripherals at special contract pricing. Customized Dell and Apple computer systems are configured to meet JMU network and academic guidelines. Dell and Apple hardware warranty repair services are also available to all students.

## **Computer Security**

Students can learn how to operate their computer safely through the R.U.N.S.A.F.E. program at <http://www.jmu.edu/computing/runsafe/>.

## **Connecting to the JMU Network**

CampusNet is the on-campus student network in residence halls which has high-speed access. Many off-campus apartment complexes provide Ethernet connections to the JMU network. Contact Off Campus Life to find out which apartment complexes provide this service.

Wireless is also available on campus. There are 160 access points in over 65 different locations including the libraries, bookstore, Top Dog Cafe and quad. Wireless is available in all academic buildings and in designated areas in the

residence halls. For a complete listing of university-provided wireless locations, visit the Computing Web site at <http://www.jmu.edu/computing/>.

A Wireless Open House is offered in the fall for students to set up their wireless laptops and ask questions.

### **Electronic Identification**

All JMU students receive an electronic identity (e-ID) free of charge as they enroll at the university. An e-ID is automatically generated from the name submitted on a student's admissions application. This electronic identity can be used to send and receive electronic mail and for access to a variety of other systems and services.

### **Student Computer Labs**

More than 500 Windows and Macintosh computers are available in student labs throughout campus. The labs offer a variety of word processing, spreadsheet, graphics, presentation and statistical software. There are two labs open 24 hours a day, seven days a week. To view the locations and hours of the labs, or to find specific software, visit the Computing Web site at <http://www.jmu.edu/computing/>.

---

# Admission to Graduate Programs

## Mailing Address

The Graduate School  
James Madison University  
MSC 6702  
Harrisonburg, VA 22807

## Physical Address

17 West Grace Street  
Harrisonburg, VA 22807

E-mail: [grad\\_programs@jmu.edu](mailto:grad_programs@jmu.edu)  
Phone: 540-568-6131  
Fax: 540-568-7860

---

## Admission Requirements

All applicants to individual graduate programs at JMU must first satisfy the general application requirements of The Graduate School. These are:

- Graduation from a regionally accredited college or university.
- Satisfactory grade point average.
- Satisfactory test scores from a recognized standardized test, such as the Graduate Record Examination (GRE), Graduate Management Admission Test (GMAT) or Miller Analogy Test (MAT). Consult the individual program for specific entry test requirements.
- Official transcripts from all colleges or universities attended.

NOTE: Students may not substitute experiential learning for required academic credit.

An application is not considered complete until all required credentials and supporting documents have been received by The Graduate School. Prospective students must submit their applications and supplemental materials online. Applications that are not completed within 90 days of initial receipt will not be processed.

In accordance with the Southern Association of Colleges and Schools guidelines, graduate programs must have both qualitative and quantitative requirements that result in the admission of students whose educational preparation indicates the potential for a high level of performance. Admission procedures include the requirement that an applicant submit, as part of the formal application process, evaluations by professionals in the field as to the readiness of an applicant for graduate work and, if appropriate, credential evaluations. Standardized test admission criteria for each graduate program are established by the faculty responsible for instruction in that program. Contact the program directly or see The Graduate School Web site for specific requirements.

## General Application Procedures

Prospective students must submit their applications online through The Graduate School Web site. For details, refer to <http://www.jmu.edu/grad/prospective>. Students who need a paper format due to a disability should contact the Office of Disability Services to determine their eligibility for accommodations in the application process.

JMU does not allow students to apply to more than one graduate program per application form. Information regarding financial aid may be accessed online at <http://www.jmu.edu/finaid>. Class schedules are available online at <http://www.jmu.edu/registrar>.

The following information must be submitted online:

- Official graduate application form
- \$55 nonrefundable fee <sup>1</sup>

<sup>1</sup> Paper applications require a \$65 fee. Graduate applications will not be processed without application fees. Application fees cannot be waived, except for McNair Scholars. Payment must be made online.

The following information must be sent to The Graduate School:

- Official transcripts sent directly from all previously attended institutions.
- The official standardized tests scores (GRE, GMAT, etc.) sent directly from the testing center.

## Application Deadlines

The Graduate School has a rolling admission policy. However, individual graduate programs may have different deadlines. Refer to specific academic programs for details. If no deadlines are given by academic programs, applications should be submitted by the following dates for the best opportunity of admission:

Session	Date
Summer session	February 1
Spring semester	September 1
Fall semester	May 1

## International Student Applications

JMU encourages applications for graduate study from qualified international students. To assure that the university qualifies with the U.S. government as an educational institution serving international students, certain criteria must be met.

Initial inquiries for international admissions must be directed to The Graduate School. Correspondence with particular departments or program coordinators is strongly discouraged. Applicants residing outside the United States are encouraged to allow 12 months between application for admission and the requested enrollment semester.

In addition to the general application requirements of The Graduate School, all international applicants applying for admission to a graduate program must:

- Have the necessary ability and educational background to benefit from experiences in this institution.
- Demonstrate proficiency in English sufficient to carry a full program of graduate study through submission of a satisfactory score on the Test of English as a Foreign Language (TOEFL).
- Examples of acceptable scores include 570 on the paper-based version and 88 on the internet-based version.
- Have all funds necessary for expenses during the entire period of the student's stay without resorting to employment while in the United States, and complete the Financial Declaration and Certification form. The university has no financial assistance reserved exclusively for international students. International students are permitted to compete for assistantships with other graduate students.
- Submit a credential evaluation of the academic record to ensure that it is comparable to a U.S. baccalaureate degree. External evaluators are listed online at Credential Evaluation Services.
- Complete an International Student Adviser's Report form if the applicant is currently in the U.S. on a student (F-1 or J-1) visa and wishes to transfer his or her visa to JMU. .
- Enter the United States on a valid student or other visa.

International students requiring English language preparation: <http://www.studygroup.com/isc>. The Pre-Master's program, taught at the on-campus International Study center, offers intensive English language and academic preparation.

For further information regarding international student applications, contact:

### **International Graduate Admissions**

MSC 5731  
Harrisonburg, VA 22807  
<http://www.jmu.edu/international/iss>

## Offer of Admission to The Graduate School

The Graduate School will send official written offers of admission to applicants who have been accepted. This letter specifies the effective date of admission (which normally coincides with the semester requested on the application) and the classification of admission being offered (unconditional, conditional or provisional). After being accepted into a graduate program, students can defer enrollment only with the written approval of the graduate coordinator of their academic program and The Graduate School. Under no circumstances may the deferral be for more than one calendar year.

Some programs specify dates by which notice of accepting or declining an offer of admission is due. These dates will be indicated in the letter of admission. Regardless, all applicants must notify The Graduate School regarding accepting or declining the admissions offer at least two weeks prior to the start date of the semester in which he or she has been admitted. This allows the specific program to invite other candidates. A student who enrolls at another institution is considered to have declined the university's offer of admission. An applicant who has received an offer of admission but who has not responded by the deadline is considered to have declined the university's offer of admission and must submit a new application and fee to be reconsidered for admission at a later date.

## Admissions Classifications

Applicants may be admitted to The Graduate School under three classifications: unconditional, conditional or provisional admission.

### Unconditional Admission

Unconditional admission indicates that an applicant has met all the entry criteria of The Graduate School and the specific graduate program.

### Conditional Admission

Conditional admission indicates that the graduate program has identified specific conditions that must be met before the applicant attains unconditional admission status.

Individual graduate programs determine the conditions of a conditional acceptance and decide when the conditions can be modified or removed. It is the student's responsibility to notify his or her adviser when the conditions of acceptance have been met. The adviser or graduate coordinator then contacts The Graduate School indicating the change of status. While applicants are encouraged to attain unconditional acceptance as soon as possible, some graduate programs' conditions often cannot be completed until just before graduation, e.g., teacher licensure or competency in a foreign language(s). Master's and educational specialist students have a maximum of six years and doctoral students have a maximum of eight years to complete their graduate programs. All students must attain unconditional status prior to program completion.

### Provisional Admission

Provisional admission indicates a probationary status; applicants who have not met all of the requirements of the graduate program to which they are applying may be granted admission under a provisional status as prospective candidates for a degree. Such students must have the removal of provisional conditions as a primary objective. An applicant may be admitted to a graduate program under provisional status if:

- the previous academic record is weak.
- prerequisite course work is insufficient.
- the applicant has majored in another field and has not yet clearly demonstrated abilities in the proposed new field.

The requirements for advancement to unconditional status are specified in each applicant's provisional admission letter. It is the student's responsibility to notify his or her adviser when the conditions of acceptance have been met. The adviser or graduate coordinator then contacts The Graduate School indicating the change of status.

The Graduate School determines if graduate credit earned while enrolled in a provisional status is acceptable based on the recommendation of the academic unit head. A student is limited to nine hours of graduate credit in this status. Regulations concerning unsatisfactory progress apply to this classification. See Unsatisfactory Progress for more information.

## Appeal of Admission Decision

Although the official letter indicating an applicant's admission classification or denial of admission into a program emanates from The Graduate School, all admission decisions, including the denial of admission to a program, are made by the reviewing faculty of the program to which the student applies. As such, any appeal of an admission decision, including denial of admission, must be directed to the individual graduate program.

## Change of Program

Admission to The Graduate School and a graduate program does not entitle a student to transfer to a program in another academic unit as defined by The Graduate School.

Any student wishing to change graduate programs must submit a new application for admission, application fee and any updated standardized test scores to The Graduate School. The student is responsible for meeting all academic unit requirements for the desired program.

## Criminal Background Check

Programs may require a criminal history check as part of the final admissions process. The applicant should consult the program to which he or she is applying for more detailed information. Applicants are responsible for any fees associated with background checks.

## Continuous Enrollment

All students enrolled in graduate degree programs must enroll each regular semester for a minimum of one graduate credit hour. This registration must continue with no breaks from enrollment in the first graduate program course to graduation. This policy does not include summer sessions.

Students should enroll in courses relevant to their graduate program to facilitate timely completion. If it is not possible to do so, however, The Graduate School has established a one-credit Continuous Enrollment course, GRAD 597. The tuition for this course is \$50.00. No grade will be assigned for this course. For more information, refer to the General Regulations Web page of the catalog.

## Time Limitations

### Master's and Educational Specialist Students

Master's and educational specialist students must complete all degree requirements within six years. Academic credit, including transfer credits taken before enrollment in the graduate program, completed more than six years before the date at which the master's or educational specialist degree is awarded may not be used to satisfy the degree requirements. Students may submit a written petition through their adviser, graduate program coordinator and academic unit head to The Graduate School to receive extensions of time in the event of extenuating circumstances. Such requests must be received at least one month prior to the end of the student's original six-year time limit.

A student whose status is deactivated but later is reactivated through reapplication to The Graduate School may not count the six-year time limit as beginning on the date of reactivation.

### Doctoral Students

Doctoral students must complete all degree requirements within eight years. Academic work, including transfer credits taken before enrollment in the graduate program, that was completed more than eight years before the date at which the doctoral degree is awarded may not be used to satisfy the degree requirements. Students may submit a written petition through their adviser, graduate program coordinator and academic unit head to The Graduate School to receive extensions of time in the event of extenuating circumstances. Such requests must be received at least one month prior to the end of the student's original eight-year time limit.

A student whose status is deactivated but later is reactivated through reapplication to The Graduate School may not count the eight-year time limit as beginning on the date of reactivation.

## University Residency

Graduate students must register a local address with The Graduate School office prior to initial registration for classes. All changes in local address must be registered with the Office of the Registrar. This can be done through e-campus, online at <http://www.jmu.edu/registrar>.

## Admission of Veterans

The Graduate School encourages veterans to apply for admission as full- or part-time students. For information, contact:

**Veterans Coordinator**  
James Madison University  
Office of the Registrar, MSC 3528  
Harrisonburg, VA 22807  
(540) 568-6569  
<http://www.jmu.edu/registrar>

## **Foreign Language**

Passing a third year foreign language course, a reading knowledge of a foreign language or successful completion of a foreign language exam is required in those academic units which so specify. Consult the degree requirements of the academic programs for individual requirements.

Dr. Charles H. Blake, Head

### School of Writing, Rhetoric and Technical Communication

Dr. Larry Burton, Director

## Mission Statement

The College of Arts and Letters serves multiple vital needs of JMU students. First, it offers high-quality programs of specialized study in the social sciences, humanities, communication and the arts, and in several pre-professional and cross disciplinary areas. Second, the college provides a challenging array of courses designed to promote lifelong learning by sharpening analytical abilities; improving computational and communications skills; cultivating a facility with written expression; enhancing cultural awareness, intensifying moral and aesthetic sensitivity and fostering awareness of the contingent nature of knowledge. Linking these two missions is a college-wide commitment to free but rigorous and controlled inquiry into human nature.

## Goals

In addition to the special goals of each individual graduate program, all programs in the college are committed to helping the student achieve the following common objectives.

- Improve foundational skills fostered by general education courses: writing, critical thinking, information access through technology and, where appropriate, foreign languages.
- Develop the ability to use writing to acquire knowledge and to communicate ideas effectively through writing-intensive courses required in the major.
- Enrich cultural perspectives essential to effective citizenship in the 21st century; global awareness and appreciation of American cultural diversity.
- Provide significant active-learning experiences through field courses, research projects, internships, studies abroad and simulations.

## Graduate Programs

Students may select from a range of graduate programs in the College of Arts and Letters. The departments and schools fully describe their programs in the Academic Units section. In addition to departmental programs, the college offers a wide array of annual events and supporting services, some of which reach out to the regional community.

- English (M.A.)
- History (M.A.)
- Political Science (M.A.)

- Public Administration (M.P.A.)
- Public Administration – Fifth Year Format (M.P.A.)
- Public Administration – Roanoke (M.P.A.)
- Writing, Rhetoric, and Technical Communication (M.A., M.S.)

## Resource and Service Centers

### Archaeology Collection

Contact: Dr. Clarence Geier

Phone: (540) 568-6171

The archaeology collection contains prehistoric and historic material excavated at numerous Virginia archaeological sites as well as an extensive library collection of site reports, artifact identification guides and maps. Artifact study collections spanning the 12,000 year occupation of Virginia's Ridge and Valley Province are also being developed for teaching and research purposes.

### Center for Public Broadcasting/ WMRA-WEMC

Contact: Tom DuVal, Director

Phone: (540) 568-6221

Web site: <http://www.wmra.org>

The Center for Public Broadcasting's mission is to foster informed, engaged and culturally enriched communities. It serves over 50,000 listeners in the Shenandoah Valley, Charlottesville and Farmville areas.

The center comprises a four-station network of non-commercial public radio stations, serving Harrisonburg at 90.7 FM, Charlottesville at 103.5 FM, Lexington at 89.9 FM and Winchester at 94.5 FM, and one standalone station, WEMC, serving Harrisonburg at 91.7 FM. The WMRA network stations are licensed to the James Madison University Board of Visitors. WEMC is licensed to Eastern Mennonite University, but is operated entirely by the center. Much of WMRA's programming is rebroadcast by WMLU 91.3 FM, the station owned by Longwood University in Farmville, Virginia. WMRA and WEMC are members of National Public Radio, and are affiliated with Public Radio International and American Public Media. The stations broadcast 24 hours per day year-round, offering extensive in-depth news coverage and classical, folk and blues music. The center also operates Valley Voice Radio Reading Service for the print-impaired. Listeners and local businesses contribute two-thirds of the center's annual budget.

## Annual Events

### History Day

<http://www.jmu.edu/historyday/>

Each spring JMU hosts the regional competition for National History Day. The contest is open to students in grades six through 12, with categories including media presentations, performances and historical papers. Judging and comments are provided by professional historians. Winners at the state level participate in the National History Day Competition at the University of Maryland in June. For further information contact Dr. Steven Guerrier in the Department of History at (540) 568-6523.

### Visiting Scholars Program

<http://www.jmu.edu/cal/visitingscholars.shtml>

The Visiting Scholars Committee organizes campus visits during the year by 12-15 people who have made significant contributions in their fields. The scholars, who represent a wide variety of disciplines, expose students and faculty members to different perspectives and encourage intellectual exploration. During a visit, a scholar meets with at least one group of students in a class or informal setting and gives a public presentation and discussion of his/her work. For further information, contact Prof. Dietrich Maune at (540) 568-6472.

### Writing, Rhetoric and Technical Communication Graduate Student Symposium

<http://www.communicationsymposium.org/>

Each April, Writing, Rhetoric and Technical Communication sponsors a Graduate Student Symposium focused on the broad theme of communication. Graduate students from a variety of disciplines travel to JMU to share their work during this one-day event. The symposium:

- provides a forum for WRTC graduate students to showcase their research,
- fosters a supportive environment for graduate students to present research, and
- allows graduate students to interact with peers from a variety of disciplines and schools.

## Mission

The College of Integrated Science and Technology encompasses programs of professional education whose common denominator is the use of science and technology to enhance the quality of life in the modern world.

Over the past several decades, remarkable developments have occurred in science and technology, altering our lives and our society. Continued development of human civilization, as well as of the quality of life in American society, depend on the integration of scientific knowledge, on technical capabilities, on the application of ethical principles, and on an understanding and appreciation of cultural commonalities and differences. Consequently, there is a need for individuals who understand the importance of discipline specialization, as well as cross-disciplinary connections, and also the integration of knowledge for practical application. These individuals must have the flexibility to be able to operate in an environment of uncertainty and complexity, the drive to seize such opportunities as may arise, and the vision and creativity to create new opportunities as needed. Our faculty is dedicated to producing graduates with a scientific knowledge base and a matching set of interpersonal, organizational and technical skills. To this end the faculty not only educates our students, but also serves as a source of inspiration and as role models.

The college places importance on carrying out its role within the community of Academic Affairs, working collaboratively with other colleges, and working in support of division-wide programs and priorities.

## Mission Statement

The primary mission of the college is to educate students in the areas of the applied sciences, health, technology and human services, as well as to prepare them to enter professions or to undertake advanced study.

## Goals

The goals of the College of Integrated Science and Technology are:

- to develop and sustain a community of faculty that pursues high-quality instructional, scholarly and service opportunities.
- to foster, among both faculty and students, life-long professional development, personal growth, and commitment to ethical behavior.
- to contribute to the betterment of society at local, regional, national and global levels.
- to promote and support a collaborative, interdisciplinary perspective.
- to emphasize innovation.
- to promote the wise use of appropriate technology and the application of scientific principles to everyday life.
- to encourage partnerships with industry, government, public and private agencies, and professional organizations.

## Graduate Programs

Students may select from a variety of graduate programs that are available through the eight undergraduate departments in the College of Integrated Science and Technology. Programs offered include the following:

- Assessment and Measurement (Ph.D.)
- Combined-Integrated Clinical and School Psychology (Psy.D.)
- Clinical Audiology (Au.D.)
- Communication Sciences and Disorders (Au.D., Ph.D.)
- Communication Sciences and Disorders – Research (M.S.)
- Clinical, Mental and Health Counseling (M.A./Ed.S.)
- Computer Science (M.S.)
- Computer Science – Fifth Year Format (M.S.)
- Health Sciences (M.S.)
- Integrated Science and Technology (M.S.)
- Kinesiology (M.S.)
- Kinesiology – Fifth Year Format (M.A.T.)
- Nursing (M.S.N.)
- Occupational Therapy (M.O.T.)
- Physician Assistant Studies (M.P.A.S.)
- Psychological Sciences (M.A.)
- School Counseling (M.Ed.)
- School Psychology (M.A., Ed.S.)
- Speech Pathology – Clinical (M.S.)

## Outreach Programs, Partnerships and Academic Centers

The College of Integrated Science and Technology places a high value on partnerships with the community. These partnerships and our outreach programs are integral to our academic programs and assist us in meeting our responsibility to participate in efforts to enhance the well being of our community. We value the impact of experiential activities on the enrichment of student learning. Many of the programs within the college are cross disciplinary in nature, reflecting our commitment and supporting the mission of the college. A listing of CISAT centers, outreach programs and partnerships may be found on the <http://www.jmu.edu/cisat/>.

## Mission Statement

The College of Business is committed to preparing students to be active and engaged citizens who are exceptionally well qualified leaders for success in a global competitive marketplace.

## Goals

The JMU College of Business (CoB) aspires to be among the top five percent of undergraduate business programs in the nation, striving for excellence and continuous improvement in undergraduate learning. Its student body comes primarily from the Mid-Atlantic region of the United States and, to a growing extent, from the Northeast.

Directed toward a full-time student population, the CoB's undergraduate programs are based on solid foundations in general education and an integrated business core curriculum. Beyond these foundations, the CoB offers students a wide variety of programs that emphasize theory, application, and experiential learning in a business discipline.

CoB faculty members are committed to providing an exceptional educational experience for students, with an emphasis on developing leadership, technology, communication and integrative skills.

The CoB will be a preferred source of student talent for employers in the Mid-Atlantic region.

The CoB takes an entrepreneurial approach to graduate programs, developing niche programs for which there is a need and for which the faculty has competence.

Student learning is assessed frequently. Assurance of learning programs are designed to assess learning in the business core, each of the undergraduate majors, and each of the degree programs within the CoB. Consistent with academic freedom, faculty members are encouraged to take an active role in innovative curriculum development and assessment processes designed to improve the educational experience.

The CoB recognizes that students and faculty face ethical choices. As such, it maintains the highest expectations for students regarding JMU's Honor Code. Furthermore, the CoB strives to prepare students for the ethical tensions and dilemmas they will face in the course of their professional lives. Additionally, the CoB demands the utmost in professional and ethical conduct by its faculty towards students, the community of scholars, and society at large.

CoB faculty members believe that a balance between teaching and research is the most effective way to educate their students. Scholarly contributions complement classroom teaching by helping faculty members maintain currency in their discipline. Furthermore, students gain a deeper understanding of subject matter, a greater appreciation of a discipline's body of knowledge, and added enthusiasm for learning when they are taught by active scholars.

Faculty members are committed to a broad array of intellectual pursuits and scholarly output in discipline-based scholarship, contributions to practice, and learning and pedagogical research. The relative emphasis on these three areas will vary from one faculty member to another depending upon education, experience, and interests, but the pursuit of knowledge in each area will be used to enhance students' learning experiences.

## Graduate Programs

Students may select from a range of graduate programs in the College of Arts and Letters. The departments and schools fully describe their programs in the Academic Units section. In addition to departmental programs, the college offers a wide array of annual events and supporting services, some of which reach out to the regional community.

## Mission Statement

The mission of the James Madison University College of Education is to prepare educated and enlightened individuals who can skillfully contribute to the common good of society and who can enter competently into positions of teaching and educational leadership, civic responsibility, and national service. The personal and professional development of students is accomplished by emphasizing excellence and continuous innovation in quality undergraduate, graduate and professional programs.

James Madison University's College of Education is distinguished through faculty and student achievements, academic rigor, excellence in teaching, student and faculty interactions and relationships, technological innovations, and national recognitions. The college maintains relevance through active and growing interactions with other colleges within the university and with local, state, regional, national and international communities.

The college is committed to providing:

- Undergraduate programs that are composed of or complemented by strong liberal arts preparation, in-depth specialty studies and opportunities for students to develop professional knowledge and skills.
- Graduate programs that support initial teacher licensure and emphasize advanced knowledge in a specialty area and the development of effective leadership and professional skills for addressing the needs of a changing society.
- Continuing professional development and service programs in cooperation with public and private schools and agencies, other colleges, institutions, and businesses.

The undergraduate and graduate education programs are accredited by the National Council for Accreditation of Teacher Education and approved by the Virginia State Board of Education.

- The basic philosophy of the college is reflected in these goals:
- To educate men and women for the multiple professions included in the college at both the undergraduate and graduate levels, not merely by transmitting skills and knowledge but by stimulating creativity, developing cognitive abilities and encouraging the testing of hypotheses and reinterpretation of the human experience.
- To encourage a balanced faculty orientation toward teaching, research, scholarship, community service and professionalism that recognizes individual strengths and preferences of the college's faculty.
- To create an environment that fosters an atmosphere of open communication among students, faculty members and community.
- To anticipate societal needs and provide necessary resources for implementing effective off-campus programs now and in the future.
- The college has undergraduate and graduate programs that are designed to lead to majors and minors in interdisciplinary liberal studies, teaching, educational leadership, adult education, human resource development and military science.

## Programs and Licensure

The College of Education does not offer majors. Individuals interested in pursuing a teacher license major in a discipline and complete a teaching area pre-professional program at the undergraduate level. The teacher licensure program is completed during the fifth year Master of Arts in Teaching program. Individuals wishing to become licensed teachers in inclusive early childhood, elementary, special or middle education major in Interdisciplinary Liberal Studies (IDLS) and complete a pre-professional licensure program specific to the teaching license pursued at the undergraduate level.

The IDLS major is assigned two advisers. One adviser is the adviser for the education pre-professional licensure program who will guide the student through the licensure program requirements. The other adviser is the IDLS adviser who will guide the student through the IDLS major requirements. Students should plan on consulting both advisers regularly. Typically, the education adviser is assigned when the student meets with the head of his/her licensure program and elects the licensure program. This may be as early as the first semester of the first year. The IDLS adviser is assigned when the first year student advising folders are transferred to the IDLS office (second semester, first year). Students are required to check with advisers regularly to ensure timely graduation.

Individuals seeking licensure in secondary education major in the discipline in which they wish to become licensed (i.e., biology, history, chemistry, etc.) and complete a pre-professional licensure program in secondary education at the undergraduate level. See the specific major requirements in the individual colleges holding the major.

The College of Education offers undergraduate minors across a range of concentrations in both teaching and non-teaching areas. To become a licensed teacher, students complete a major in one of several approved fields of study, depending upon the type of teaching license pursued, in addition to a pre-professional licensing program. Other minors are available that are not pre-professional teaching programs.

The College of Education offers the following pre-professional licensure programs:

- Inclusive Early Childhood Education
- Elementary Education
- English as a Second Language
- Middle Education
- Secondary Education
- Special Education

The College of Education offers the following undergraduate minors.

- Educational Media
- Human Resource Development
- Military Leadership
- Special Education (non-teaching minor option)

The following endorsements are also available:

- Algebra I
- Gifted and Talented
- Journalism

Undergraduate students pursuing licensure to teach through one of the five year M.A.T. programs described in this catalog should:

- meet requirements indicated by the respective program prior to submitting an application to The Graduate School;
- apply for admission to The Graduate School according to departmental deadlines; and
- complete all pre-professional studies requirements before enrolling in graduate courses in education.

See the JMU Graduate Catalog for more information on the requirements for the M.A.T. and the M.Ed. degrees and for teacher licensure in the identified areas.

## Professional Education Unit

Dr. Phillip M. Wishon, Head

The mission of the James Madison University professional education unit is to prepare caring, knowledgeable, skilled and reflective educators who believe that all students can learn and succeed. Our candidates and faculty are committed to lifelong learning and aspire to meet educational needs in a changing, pluralistic and democratic society. The personal and professional development of candidates is accomplished by emphasizing excellence and continuous innovation in quality undergraduate, graduate and professional programs.

The Professional Education Unit is comprised of all programs across the university designed to lead to licensure or advanced study in education.

The programs of the unit include the following:

- Art Education
- Dance Education
- Inclusive Early Childhood Education
- Elementary Education
- English as a Second Language (ESL)
- Foreign Language Education
- Middle School Education
- Music Education
- Physical and Health Education
- Secondary Education <sup>1</sup>
- Special Education K-12

<sup>1</sup> Secondary Education Licensure programs include Biology, Chemistry, Earth Science, Physics, English, Mathematics and Social Studies.

These initial licensure programs are offered only at the graduate level for those having baccalaureate degrees:

- Early Childhood Education
- Early Childhood Special Education
- ESL
- Middle School Education
- Secondary Education
- Special Education K-12

These programs are offered only at the graduate level for licensed teachers or other school personnel:

- Educational Leadership
- Educational Technology
- Master of Art Education
- Master of Music
- Reading Education
- School Counseling
- School Psychology
- Speech-Language Pathology

## Professional Education Coordinating Council

The Professional Education Coordinating Council (PECC) is the official governing body within the university responsible for the preparation of teachers and other school personnel. The membership of the PECC includes the coordinators or representatives of all initial licensure and advanced study programs in education, representative from the IDLS major, and the directors of the Education Support Center and the Educational Technology and Media Center. The Dean of the College of Education serves ex officio as head of the Professional Education Unit. The Associate Dean for Academic Programs serves as the chair of PECC.

## Teacher Education Conceptual Framework

The JMU conceptual framework is a guiding set of principles, beliefs, and concepts that provide a basis for designing, implementing, monitoring, assessing, and changing programs that prepare teachers and other educators who work closely with children and others in school settings. The overarching purpose, therefore, is to produce resilient, effective educational professionals for a dynamic and changing society.

The JMU Conceptual Framework is grounded in the best of what we know about learning, teaching, and development, and is further based on a moral mission; that is, the work of teachers affects the lives of human beings. In a human sense, it makes a difference in people's lives; in a larger sense, education contributes to societal development and democracy.

The conceptual framework reflects our recognition that teaching is a complex and difficult task, requiring a significant degree of education, training, and experiences in order to meet the learning needs of all children, regardless of age, culture, condition or ability.

The programs at JMU rely on collaborative partnerships with schools and other community agencies, strong field-based teacher development, a continuum of skills development and reflective professional practice.

Program completers, therefore, should be skilled and adept in a set of competencies that are based on the propositions found in the Conceptual Framework. Those competencies include demonstrating:

- Certain personal qualities and dispositions reflective of a professional educator.
- Deep understanding of the content to be taught and ways to effectively teach the content.
- An understanding of the impact of research on learning and development and how culture influences development.
- An understanding of how students differ in approaches to learning and creating instructional opportunities for diverse learners.
- Skill in effective planning for learning.
- Skill in a wide variety of instructional strategies and technologies.
- Skill at creating positive, effective learning environments.
- The use of effective verbal, non-verbal, and media techniques that foster inquiry, collaboration, and positive interactions.
- Skill in a variety of effective assessment techniques.
- The ability to reflect on practice, adjust teaching methods and techniques, and seek professional growth.
- Skill in developing positive relationships with parents, colleagues and families.

## Licensure Programs

Students interested in teacher licensure will major in an academic field and complete all of the requirements for the teacher education program. Depending on the field of study, initial licensure is earned at the bachelor or master's level.

The following chart describes the licensure areas, degree required, major field of study and academic unit.

<b>Licensure Area</b>	<b>Degree Required</b>	<b>Major Field of Study</b>	<b>Academic Unit</b>
Art Education PreK-12	Bachelor's	Art	School of Art and Art History
Music Education PreK-12	Bachelor's	Music	School of Music
Dance Education PreK-12	Bachelor's	Dance	School of Theatre and Dance
Inclusive Early Childhood Education Birth-Age 8	Master's	IDLS	Departments of Early, Elementary and Reading Education and Exceptional Education
Elementary Education PreK-6	Master's	IDLS	Department of Early, Elementary and Reading Education
Foreign Language <sup>2</sup>	Master's	French German Spanish	Departments of Middle, Secondary and Mathematics Education and Foreign Languages, Literature and Culture
Middle Level Education 6-8	Master's	IDLS	Department of Middle, Secondary and Mathematics Education
Physical/Health Education PreK-12	Master's	Kinesiology	Department of Kinesiology
Secondary Education 6-12	Master's	Content major <sup>1</sup>	Department of Middle, Secondary and Mathematics Education
Special Education <sup>2</sup> K-12	Master's	IDLS	Department of Exceptional Education
Theatre Education <sup>2</sup> PreK-12	Bachelor's	Theatre	School of Theatre and Dance
ESL	Bachelor's	See program adviser for options.	Departments of Exceptional Education and Learning, Technology and Leadership Education
Gifted Education (add-on licensure)	Master's (Teacher Licensure required)		

<sup>1</sup> Available majors are biology, chemistry, earth science, English, history or political science, mathematics, or physics.

<sup>2</sup> This program is under revision. Contact the program adviser for information.

## Education Support Center

Dr. Joy Moody, Director  
<http://www.jmu.edu/coe/esc/>

The Education Support Center has four major responsibilities:

- monitors admission to, and retention in, the professional education program;
- coordinates field experiences for all programs;
- approves applications for Virginia Licensure; and
- serves as the center for information about professional education programs.

Information and application materials for admission to teacher education, appeals, registration for PRAXIS exams, student teaching and licensure are available on the Education Support Center Web site. Also on the Web site is information regarding costs associated with required tests and subscriptions to TK20.

## Admission to Teacher Education

Candidates who want to pursue a course of study leading to the initial Virginia teaching license must be admitted to the teacher education program. Admission is a prerequisite to most education courses; candidates not admitted to teacher education will be blocked from registering for those courses. Students who do not plan to enroll in the teacher education program but wish to take an upper-division education course must obtain permission from the appropriate program coordinator and be cleared to register by the Education Support Center.

### Application Process

Students must complete the following steps to apply to the teacher education pre-professional licensure program.

Declare a major and teaching concentration minor. The form is available in the education program area. It should be signed by the student's education adviser and submitted to the Registrar's Office.

Apply to Teacher Education online. Students will receive a return e-mail entitled "Next Steps to Apply to Teacher Education." Complete the application and submit the completed application, signed by the student's education adviser, to the ESC. Students will receive a packet of instructions with reference forms.

Give the AR-2 reference form to two persons (employers, clergy, teachers or other professionals) who know the student well. Anyone providing a reference must have known the student in a professional capacity for a minimum of six months and be able to evaluate the student's potential as a future educator. Forms should be returned directly to the ESC.

Take the Praxis I: Academic Skills Assessment and have the scores sent to JMU (test code is 5392). Praxis scores may be waived if a student's SAT scores or ACT scores qualify. See the Education Support Center Web site for more information.

Complete online training in Universal Precautions. UP training sessions are offered by the JMU Health Center. ESC receives verification that students have completed the training. NOTE: HTH 204, HTH 370, or Red Cross First Aid or equivalent training will meet this requirement.

Complete the Child Abuse Prevention Training online at the ESC Web site and pass the quiz after a training session. Scores will be electronically sent to the ESC.

Complete the following course requirements with a minimum grade of "C:" GWRTC 103 (formerly GWRIT 103) or equivalent, MATH or Cluster Three equivalent, and GPSYC 160 or equivalent. Student must provide ESC with a transcript of any courses from other institutions that do not appear on the JMU transcript.

Students can check the status of their admission to the teacher education program online at the ESC Web site.

After completing the previous requirements, subscribe to Tk20 and purchase a student account (\$100 fee; see the ESC Web site for details).

After receiving a response that the Tk20 subscription is available, complete the writing portion of the application in Tk20.

### Admission Criteria

The requirements for admission to teacher education are listed below.

Note: Some teacher education programs may have additional requirements for acceptance into their own programs. Consult the program area coordinator for more specific information.

Criteria	Four & Five Year Initial Programs	Graduate Programs
Approved major and declared pre-professional teaching program	X	
Two references	X	X
Grades of "C" or better in: GWRTC 103 (formerly GWRIT 103) or Cluster One equivalent MATH or Cluster III equivalent GPSYC 160, PSYC 614 or equivalent	X X X	X X X
Praxis I or SAT or ACT required scores	X	X
Child Abuse Prevention (CAP) training	X	X
GPA of 2.5 or higher	X	X
Universal Precautions (UP) training	X	X
No record of felony conviction or misdemeanors involving children or drugs	X	X
Purchase and subscription to Tk20	X	X
Admission to The Graduate School	X (Five Year Programs)	X
Specific program requirements. Consult the program area coordinator for more specific information.	X	

## Application Deadlines

- Undergraduate candidates should apply by March of their sophomore year.
- Transfer, post-baccalaureate, and graduate candidates should apply during the first term of enrollment at JMU.

## Field Experiences

Field experiences (including practica and internships) are required for candidates in most programs of the professional education unit. The number and nature of these experiences may differ based on program structure and candidates' individual needs and/or goals. Transportation and other arrangements for the practicum and internship courses/experiences will be the candidate's responsibility.

## Student Teaching

Student teaching is required as an integral part of the sequence of professional experiences in all teacher education programs.

Its purpose is to enable pre-service teachers to apply acquired skills, understandings and attitudes in K-12 classrooms or comprehensive child development programs. Each individual licensure program determines the length of its particular student teaching experience.

The Education Support Center coordinates the student teaching program with participating school divisions, assigning all candidates to their student teaching sites and assisting in the planning and supervision of their work. Experienced teachers serve as cooperating teachers who coach and mentor the student teachers in their classrooms. University supervisors have the major responsibility for the supervision and evaluation of student teachers. Student teaching is graded on a credit/no-credit basis.

Candidates must student teach in the area for which they are seeking licensure or endorsement. A candidate seeking endorsement in more than one general area must complete a student teaching experience in each area.

Student teaching placements are made in accredited Virginia public and private schools, programs, and agencies. Most placements are made within approximately one hour's driving distance from campus. Some programs also place students in northern Virginia, Richmond and/or Tidewater, and Roanoke. Other local and non-local placement sites may be assigned in accordance with individual program and/or student needs. All placements are based on availability and efficiency of appropriate supervision. Student teaching is a full-time experience. Permission to take additional course work will be made only in exceptional cases. Student teachers should not expect to work or participate in excessive extracurricular activities during student teaching. Students with problems and/or special needs must contact the Director of the Education Support Center for prior approval.

## **Student Teaching Criteria**

To be approved for student teaching, all candidates must:

- meet all stated requirements for admission to teacher education
- submit a student teaching application
- meet the required GPA
- successfully complete all prerequisite courses for student teaching
- be recommended for student teaching by their licensure program
- meet any additional admission and retention standards of their academic department or school
- be free from exposure to communicable tuberculosis

## **Application Procedure**

- Complete Part 1 on Tk20.
- Submit a resume and cover letter to the Education Support Center by the stated deadline.
- Sign and submit the student teaching guidelines form to the Education Support Center.
- Provide evidence of freedom from exposure to tuberculosis.
- The Education Support Center will process the completed application and notify the candidate whether or not all student teaching criteria have been met. The Director of the Education Support Center will explain the specific reasons if the candidate is not approved for student teaching.

## **Application Deadlines**

Student teaching applications are accepted during the fall semester for the next academic year. It is the student's responsibility to be aware of all application requirements and deadlines.

## **Teacher Education Licensure**

Candidates should apply for a Virginia teaching license upon completion of a teacher education program; this license is not issued automatically. Virginia licensure requirements include the Virginia Communication and Literacy Assessment (VCLA) for all licensure areas and the Praxis II Specialty Area Tests for most licensure areas. Virginia also requires the Virginia Reading Assessment (VRA) for selected programs.

## **Licensure Criteria**

A statement indicating completion of an approved teacher education program will be entered on the candidate's transcript once:

- all education requirements have been met, including a cumulative 2.5 GPA for undergraduates and a 3.0 for graduates;
- an appropriate degree is awarded; and
- passing scores on all state mandated assessments are achieved.

## **Application Procedure**

- Obtain an application for Virginia licensure from the Education Support Center Web site or the Virginia Department of Education Web site.

- Submit the completed application, copies of all required assessment score reports, a transcript of any course work not listed on the JMU transcript, and the appropriate fee payment to the Education Support Center.

The Education Support Center will review and approve the licensure application, and then forward it on to the Virginia Department of Education for processing.

## **Out-of-State Licensure**

It is recommended that candidates applying for out-of-state licenses first obtain the Virginia license. Out-of-state licensure requirements and application forms must be obtained directly from the desired state agencies. Note: Other states may have additional testing and GPA requirements that the applicant must meet.

## **Program Coordinators and Advisers in Education**

Students are responsible for obtaining the information concerning the programs in education and the requirements for enrolling in and completing those programs. Students are responsible for contacting their education advisers frequently and periodically to make sure they are aware of changes in education programs and/or licensure requirements that may not correspond with a particular university catalog. It is also crucial that the student be advised by the adviser in their major (i.e., IDLS, mathematics, English, etc.) to ensure accurate information regarding course work requirements in their major.

## **Educational Technology and Media Center**

Dr. Richard G. Clemens, Director

The primary goal of the Educational Technology and Media Center (ETMC) is to support students, faculty and staff in their effective use of technologies to support learning. This goal is achieved through access, instruction and promotion of educational technologies available within the center.

The materials laboratory houses more than 8,000 items of representative textbooks, videotapes, microcomputer software, and a variety of instructional resources. The center also houses the children and youth literature collection of James Madison University totaling more than 15,000 volumes.

Computers throughout the facility allow students to work with computer assisted instruction, web page creation, word processing, digital images, analog and digital video, page layout, data analysis, and the creation of multi-media computer presentations. These presentations can be taken into educational technology classrooms around the university. The growing capabilities in instructional technology are evident in this center where interactive video conferencing, video-streaming and other newly emerging technologies expand the potential for learning in multiple environments.

For those desiring licensure in Virginia's schools, ETMC provides opportunities to learn and use many forms of instructional technology. ETMC has a range of production facilities including traditional media, audio and video editing areas, and digital technologies that enable faculty members and students to produce various types of instructional materials. College of Education students may also check out digital cameras, camcorders and audio recorders.

## Mission

The College of Science and Mathematics is dedicated to excellence in undergraduate education and research. Our outstanding programs are student-centered and designed to prepare students for responsible positions at all levels in research, industry, education, medicine and government. We emphasize learning by doing science and provide active learning experiences in a range of settings. We also encourage collaborative research with faculty, internships and other experiences that facilitate transitions to work or graduate/professional education. We provide the following:

- foundational understanding of science and mathematics for the educated citizen.
- an exemplary program in mathematics and science for prospective teachers.
- the educational basis and technical skills to prepare science and mathematics students for the workforce.
- the theoretical and practical foundations for success in professional and graduate programs.

## Graduate Programs

The college offers a variety of academic programs, majors, minors, concentrations, cross disciplinary programs and tracks. Most of these are listed below. For an explanation and contact point of each, visit the College of Science and Mathematics.

- Biology (M.S.)
- Mathematics (M.Ed.)

## Resource and Service Centers

Web site: <http://csma31.csm.jmu.edu/physics/outreach.html>

The college supports the following resource and service centers, collections, events and outreach programs that enhance teaching, scholarly activity and community relations.

### Astronomy Park

Contact: Sean Scully

Phone: (540) 568-4511

Web site: <http://csma31.csm.jmu.edu/physics/scully/outreach.html>

Located on the east side of campus near the Physics and Chemistry building is a permanent area for sky observing on campus. There are permanent mounts for six portable 10-inch computer controlled telescopes and an area for a portable 14-inch telescope. This site provides a convenient area for sky observing for introductory astronomy students. Students are able to easily see the moon, planets, nebulae, galaxies, star clusters as well as the sun using the appropriate solar filters. The department is also equipped with CCD cameras, spectrometers, a photometer, and multiple solar filters that provide more advanced students with experience in astrophotography and data collection techniques. The public is invited to attend public star gazes which are held several times each semester.

## **The Center for Computational Mathematics and Modeling**

Contact: Dr. James Sochacki

Phone: (540) 568-6614

This cross disciplinary institute for scientific computing, houses state-of-the-art graphics workstations and a 16 PII node beowulf computer system. The beowulf computer system is a parallel computing environment that can be used on large-scale problems. Faculty and students will have access to this "super computer" from the center and from their offices. The center also operates an Immersive 360o Visualization System. The center uses mathematics both to simulate real-world phenomena and to generate visual data.

Faculty members from the sciences, economics and business disciplines interact with mathematicians to model problems that they are researching with undergraduate students.

## **Electron Microscopy Center**

Contact: Lance Kearns

Phone: (540) 568-6421

Web site: <http://csm.jmu.edu/materialsscience/microscopy.html>

The Electron Microscopy Center serves faculty, staff and students who wish to use the scanning electron microscopy in scientific investigations. The center also provides demonstrations for public school groups and specialized educational programs.

## **John C. Wells Planetarium**

Contact: William Alexander

Phone: (540) 568-2312

Web site: <http://www.jmu.edu/planetarium/>

Located in Miller Hall, the planetarium serves as a teaching laboratory for both the undergraduates and the local community alike. The facility is used as a resource for introductory astronomy classes and well as welcoming school groups from the region. Several public planetarium shows are offered every month that vary with the seasons. The planetarium is equipped with a GOTO- Chronos/Digistar-3 hybrid planetarium system that offers full dome video as well as exceptionally clear and accurate simulations of the night sky.

## **JMU Meteorite Collection**

Contact: William Alexander

Phone: (540) 568-2312

Web site: <http://csma31.csm.jmu.edu/physics/JMUMC/about.html>

The James Madison University Meteorite Collection is a growing collection of the many sorts of meteorites to strike the Earth, and is located on the second floor of the Physics/Chemistry building. The display is open to the public year-round during university business hours, and after hours by special arrangement.

## **Microscopy Facility**

Contact: Alex Bannigan

Phone: (540) 568-4521

Web site: <http://csm.jmu.edu/biology/microscopy/>

The Biology Department's Microscopy Facility is equipped with several light and fluorescence microscopes, including a Nikon C1 Confocal Laser Scanning Microscope, enabling time lapse imaging, 3-D image reconstruction and fluorescence imaging. The facility has a dedicated staff member who can provide training on the equipment and help faculty and students with any microscopy aspects of their research projects.

## **Mineral Museum**

Contact: Lance Kearns

Phone: (540) 568-6421

Web site: <http://csm.jmu.edu/minerals/>

Housed with the Department of Geology, the JMU Mineral Museum contains more than 700 exceptionally beautiful display specimens that provide mineralogy students with outstanding visual examples of some of the finest crystals from around the world. Each year, numerous educational groups, mineralogical societies and individual collectors visit the collection.

## **Observatory**

Contact: Dr. Jon Staib

Phone: (540) 568-6153

Located at the Stokesville, Virginia Campground, a 14-inch telescope is permanently mounted under a 16-foot dome. A set of 10 piers surround the observatory building and provide easy set-up for the observatory's eight, eight-inch telescopes. This site provides dark-sky observing for introductory astronomy students. A photometer, solar filters and a

CCD imaging system provide more advanced students with experience in astrophotography and data collection techniques. During the summer months, public access is regularly available on Friday and Saturday nights.

## **Office of Statistical Services**

Contact: Dr. Rickie Domangue

Phone: (540) 568-6968

Through this office, statistics faculty members and students provide JMU and the local community with assistance in the design and analysis of statistical surveys and experiments. Students obtain practical experience and an appreciation for the impact of statistical methods on today's society.

## **Shenandoah Valley Regional NMR Facility**

Contact: Thomas Gallaher

Phone: (540) 568-3683

Web site: <http://www.jmu.edu/chemistry/svrnmr/>

This nuclear magnetic resonance facility has been established with grants from The National Science Foundation (9650132), The Merck Foundation, and matching funds provided by James Madison University, Eastern Mennonite University, and Bridgewater College.

NMR spectrometers at the facility include a Bruker Avance DPX-300 NMR, equipped with a variable temperature 5mm QNP (capable of observing  $^1\text{H}$ ,  $^{13}\text{C}$ ,  $^{19}\text{F}$  or  $^{31}\text{P}$ ) or a broad band tunable probe and a Dell host computer.

The facility also has a Bruker Avance DRX-400 NMR, equipped with a six position autosampler, a variable temperature 10mm broad band tunable probe, variable temperature 5mm broad band tunable probe with a Z gradient and a Dell host computer. Recently a Bruker Avance Ultra High Shield Plus 600 NMR was installed, equipped with a variable temperature 5mm broad band tunable probe, BST upper shim stack, Bruker Orthogonal Shim System (BOSS-2), and Bruker Smart Magnet System (BSMS) shim and Digital Lock control unit and a Dell host computer. These instruments are housed at JMU and accessed remotely by the participating regional colleges and universities. Currently the systems are running TOPSPIN 1.3 software.

The Web site, <http://www.jmu.edu/chemistry/svrnmr/>, has been established as a means of communicating the efforts of the Regional NMR Consortium to the local scientific community and other interested parties. This group is composed of chemists from Bridgewater College, Eastern Mennonite University, James Madison University and Mary Baldwin College.

## **Science and Mathematics Learning Center**

Contact: Chuck Cunningham

Phone: (540) 568-3379

Web site: <http://www.jmu.edu/smrcl/>

The College of Science and Mathematics has established a Learning Center for Science and Mathematics located on the second floor of Roop Hall. The center, which is a part of the JMU Student Success Center, provides extra help with math and science for students in general education and beginning science courses. The center is staffed by three full-time coordinators and carefully selected upper level science and math majors.

## **Annual Events**

### **Physics is Fun Science Show**

Contact: Dr. Kevin Giovanetti

Phone: (540) 568-6353

During the spring the Department of Physics and Astronomy in conjunction with the Society of Physics Students offers science shows to student groups from grades 6-12. Topic rooms are arranged with presentations and demonstration in various areas of physics and the visiting students rotate among the rooms. JMU faculty and students share their experience and knowledge of science in an engaging format. Typical shows run about two hours.

### **Science Fair**

Contact: Dr. Thomas DeVore

Phone: (540) 568-7938

Web site: <http://csm.jmu.edu/svrsf/svrsf.home.shtml>

The Shenandoah Valley Regional Science Fair has been administered by the JMU science faculty for the past 36 years. The science fair is a competition open to all students in grades 6-12 who live in Virginia's Shenandoah Valley. For further information, contact Dr. Thomas DeVore in the Department of Chemistry and Biochemistry at (540) 568-7938.

## **SUMS Conference**

Contact: Dr. Elizabeth Theta Brown and Dr. Laura Taalman

Phone: (540) 568-6184

Web site: <http://www.math.jmu.edu/~brownet/SUMS/index.html>

Each fall the Department of Mathematics and Statistics hosts the Shenandoah Undergraduate Mathematics and Statistics (SUMS) Conference, a one-day undergraduate research conference.

The SUMS Conference gives undergraduates from JMU and around the country who have completed original mathematical research a chance to present their work to their peers. For further information, visit <http://www.math.jmu.edu/SUMS>.

## Academic Units Offering Graduate Programs

### School of Art and Art History

Leslie Bellavance, Director

### School of Music

Dr. Jeffrey Showell, Director

## Mission Statement

The College of Visual and Performing Arts is founded on the belief that artistic expression reveals the essential nature and diversity of human experience. Embracing traditional practices as well as contemporary approaches and technologies, the College provides a stimulating environment in which students create, perform, interpret, research, teach and think critically about the arts.

The College actively supports creative and scholarly endeavors, collaboration between faculty and students, and interdisciplinary exchange. We are committed to making the arts an integral part of the life of the university and advancing their visibility, accessibility and understanding throughout the region and the world.

## Goals

The programs in the college are committed to achieving the following common objectives:

- To prepare students to be articulate, effective, and inspiring performers, educators, creators, scholars and professionals in the arts.
- To attain recognition and leadership in the arts at the regional, national and global levels.
- To enhance, develop and sustain undergraduate and graduate programs of distinction.
- To support cultural, aesthetic and intellectual diversity, and to foster interdisciplinary exchange.
- To offer students instruction and learning experiences that incorporate the latest technology, research and practices.
- To engage the surrounding community as an active partner in promoting and experiencing the arts.

## Graduate Programs

The College of Visual and Performing Arts provides the following graduate programs:

- Art (M.F.A.)
- Music (M.M.)
- Music (D.M.A.)
- Studio Art (M.A.)

## Resources and Events

### artWorks Gallery

Phone: (540) 568-6918

The artWorks Gallery features rotating exhibits of JMU undergraduate and graduate student work. The gallery is managed by students in the School of Art and Art History. Located a short walk from Duke Hall, artWorks is on the second floor of 131 Grace Street, JMU, Harrisonburg, VA. The School of Art and Art History sponsors artWorks Gallery.

## **Institute for Visual Studies**

Dr. David Ehrenpreis, Director

Phone: (540) 568-5656

The Institute for Visual Studies is a center for scholarly, scientific and creative inquiry into the nature and workings of images. An incubator of new ideas, the institute fosters discovery, and the generation of artworks, products, and applications by multidisciplinary teams of students and faculty. The Institute for Visual Studies is sponsored by the College of Visual and Performing Arts and is a collaboration among faculty representing all colleges at the university.

## **Madison Art Collection**

Dr. Kathryn Stevens, Director

Phone: (540) 568-6934

This collection of more than 3000 art objects features Neolithic through contemporary art pieces. The Madison Art Collection is located in the Festival College Center, Room 2102. For more information, access <http://www.jmu.edu/madisonart/>. The Madison Art Collection is sponsored by the College of Visual and Performing Arts.

## **Masterpiece Season**

Phone: (540) 568-7000

Web site: <http://www.jmu.edu/cvpa/masterpiece/>

Each year the college and its visual/performing arts units present a variety of cultural events for JMU and the entire university community. The Schools of Art and Art History, Music, and Theatre and Dance all take an active role in this series. In addition to highlighting the talents of JMU faculty and students, Masterpiece Season produces visiting artist programs titled the Encore Series and the Family Series. In recent years, Masterpiece Season has featured such artists as Wynton Marsalis, the Harlem Boys Choir, the Richmond Ballet, Spirit of the Dance and the St. Petersburg State Ice Ballet.

## **New Image Gallery**

Phone: (540) 568-6918

New Image Gallery is a professional photography gallery featuring contemporary photography of regional and national significance. New Image Gallery is located on the second floor of 131 Grace Street, JMU, Harrisonburg, VA. New Image Gallery is sponsored by the School of Art and Art History.

## **Sawhill Gallery**

Phone: (540) 568-6918

Sawhill Gallery is a professional art gallery featuring changing exhibitions of international, national and regional significance. In addition to providing exhibitions of contemporary art, a hallmark of the gallery's mission is to demonstrate art's multicultural and interdisciplinary dynamic. Sawhill Gallery is located in Duke Hall, Room 101, at the corner of Main and Grace Streets, JMU, Harrisonburg, VA. Sawhill Gallery is sponsored by the College of Visual and Performing Arts and the School of Art and Art History.

---

# Accounting

## School of Accounting

<http://www.jmu.edu/accounting/MSA.shtml>

### Director, School of Accounting

Dr. Paul Copley

Phone: (540) 568-3081

### Director, M.S. in Accounting

Dr. Nancy Nichols

Phone: (540) 568-8778

### Professors

C. Baril, P. Copley, D. Fordham, A. Gabbin, T. Louwers, N. Nichols, D. Riordan, M. Riordan

### Associate Professors

J. Briggs, R. Richardson

### Assistant Professors

L. Betancourt, S. Cereola, W. VanDenburgh

---

## Admission Criteria and Degree Requirements

Admission is open to individuals with a baccalaureate degree in accounting, business or any non-business discipline. Either the Graduate Management Admissions Test (GMAT) or successful completion of all four parts of the CPA exam is required for admission to the M.S. program. Prerequisites are based on the background and previous training of the student. More information on general admission requirements is available from The Graduate School Web site.

### Prerequisites

All students must be proficient with a spreadsheet program and have the following courses (or their equivalent) prior to starting M.S. coursework.

### Accounting Courses

Auditing

Cost Accounting

Federal Income Tax Accounting

Intermediate Accounting I

Intermediate Accounting II

### Business Courses

Business Law

Macro Economics

Managerial Finance

Micro Economics

Organizational Behavior

Principles of Management

Statistics

## Mission

The mission of the School of Accounting's Master of Science program is to provide a strong regional presence for advanced professional education that prepares students for success in the accounting profession by strengthening the students' technical expertise, enhancing their understanding of professional responsibility, and improving their business skills necessary to compete in today's complex and ever changing business environment.

The Graduate Accounting program leads to the Master of Science in Accounting (M.S.) degree. The primary goal of the M.S. program is to prepare business and non-business majors for entry into the public accounting profession. It serves as the "fifth" year in preparing students for the 150 hours of postsecondary education required for AICPA membership and required (or scheduled to be required) to become a certified public accountant in most jurisdictions.

## M.S. in Accounting Program

James Madison University offers an on-campus program tailored for individuals who prefer a traditional full-time program of study. The on-campus program is also available on a part-time basis.

### Master of Science Degree in Accounting

The course work for the M.S. program consists of a common core and electives with a thesis option. Thirty credit hours must be taken at the 600 level.

#### M.S. in Accounting Requirements

Minimum Core Requirements <sup>1</sup>	Credit Hours
ACTG 675. Accounting Theory or ACTG 625. Tax Research <sup>2</sup>	3
Any 600-level finance course (approved by director)	3
Accounting electives (600 level)	15
Electives (500 or 600 level) <sup>3</sup>	9
	30

1 Electives are chosen with the approval of the program director. Prerequisites must be met before taking 600-level courses.

2 This course is considered the capstone in the program. Successful completion of one of the two courses with a "B" or better is required.

3 Two elective must be outside of accounting.

## Concentrations

The Accounting program offers two specialty concentrations, the Accounting Information Systems (AIS) concentration and the Taxation concentration.

### Accounting Information Systems

The AIS concentration requires the student to select computer or technology-related courses from the accounting and other elective courses indicated below. These courses offer the student the opportunity to gain more expertise and proficiency in areas such as network design and construction, telecommunications, systems development and programming, advanced database design, expert systems, and information security. Students completing the AIS concentration are in very high demand by employers.

#### AIS Concentration Requirements

Required Courses	Credit Hours
ACTG 640. Accounting Information Technology	3
ACTG 691. Advanced Accounting Systems	3
MBA 652. Technology Enhanced Decision Making or alternative course approved by the M.S.A. director	3
	9

## Taxation

The tax concentration is a challenging curriculum that prepares students for tax careers in public accounting and private industry. In addition to technical skills, students learn how to find answers to tax issues using Web-based research services and how to communicate their research findings in writing and in oral presentations.

The tax concentration requires a minimum of 12 hours, with two required courses and two electives.

### Taxation Concentration Requirements

Required Courses	Credit Hours
ACTG 625. Tax Research and Strategy	3
ACTG 627. Advanced Taxation of Business Entities I	3
Electives chosen from the list below or approved by the M.S.A. director	6
ACTG 628. Advanced Taxation of Business Entities II (3)	
ACTG 629. Selected Topics in Taxation (3)	

---

12

## Course Offerings

### Accounting

#### **ACTG 594. Business Practicum for Accountants.** 1-3 credits.

Through the Accounting Internship Program, students engage in a supervised work experience in public accounting, industry, not-for-profit organizations or government. During this time, students gain insight into the real world that will enhance their understanding in subsequent accounting course work. It is the expectation that students taking 594 will have significant accounting classes to complete when they return to JMU from the internship. Prerequisite: Permission of internship director.

#### **ACTG 625. Tax Research and Strategy.** 3 credits.

Provides the student with a working knowledge of tax research methodology and the technology utilized by tax professionals. Case-based to provide experience in dealing with unstructured situations encountered in professional tax practice. Both problem identification and resolution are emphasized. Because this is a capstone course, a grade of "B" or better is required in this course for successful completion of the M.S.A. program with a tax concentration. Prerequisite: Master of Science student or permission of the instructor.

#### **ACTG 627. Advanced Taxation of Business Entities I.** 3 credits.

Considers federal tax consequences across business entities, including sole proprietorships, partnerships, corporations electing "S" status and corporations. Prerequisite: Master of Science student or permission of the instructor.

#### **ACTG 628. Advanced Taxation of Business Entities II.** 3 credits.

Continuation of ACTG 627 dealing with more in-depth tax issues involving partnerships, corporations and "S" corporations. Potential topics include distributions, liquidations, reorganizations and affiliations. Emphasizes problem identification, tax treatment and tax planning strategies. Prerequisite: ACTG 627.

#### **ACTG 629. Selected Topics in Taxation.** 1-3 credits.

Seminar on tax topics of current interest in specialized areas. Topics may include international taxation, deferred compensation, problems of closely-held businesses, estate planning and taxation of trusts, and new developments. May be repeated to a maximum of six credit hours for different topic areas. Prerequisite: Master of Science student or permission of the instructor.

#### **ACTG 630. Seminar in International Accounting.** 1-3 credits.

Designed to develop a fundamental knowledge of the assumptions, environmental considerations and techniques underlying the collection and reporting of financial information by entities in other countries. Prerequisite: Master of Science student or permission of instructor.

#### **ACTG 640. Accounting Information Technology.** 3 credits.

In-depth coverage of modern technology used in the accumulation, reporting and analysis of accounting data. This

course covers modern computing hardware, telecommunications, networking and intermediate systems design concepts. Also provides an introduction to information security. Prerequisite: Master of Science student or permission of the instructor.

**ACTG 645. Advanced Accounting and Reporting. 1-3 credits.**

Focuses on the development and use of financial information as it relates to business combinations, intercompany transactions and statements denominated in foreign currencies. Prerequisite: Master of Science student or permission of the instructor.

**ACTG 651. Fraud Detection and Prevention. 1-3 credits.**

Covers the principles and methodology of fraud detection and prevention. Specifically addresses consumer fraud, management fraud and employee fraud. Emphasizes prevention through internal controls as well as evidence gathering techniques. Prerequisite: Master of Science student or permission of the instructor.

**ACTG 652. Operational Audit. 1-3 credits.**

A study of the basic principles and techniques of operational auditing. Covers organizing and conducting operational audit engagements. Also addresses regulatory compliance issues. Prerequisite: Master of Science student or permission of the instructor.

**ACTG 671/MBA 653. Business Law. 3 credits.**

A study of the principles of the law of contracts, agency, sales, commercial paper and business organizations. This course emphasizes the effect of such laws on business operations.

**ACTG 675. Accounting Theory. 3 credits.**

Study of selected areas in accounting theory, practice, and methodology, requiring integration and synthesis of student's accounting knowledge. Because this is the capstone course, a grade of "B" or better is required for this course for successful completion of the MSA program. Prerequisite: Master of Science student or permission of the instructor.

**ACTG 676. Seminar in Cost Accounting. 3 credits.**

This course teaches students to apply analytic reasoning and formal models to selected cost problems. Prerequisite: Master of Science student or permission of the instructor.

**ACTG 677. Advanced Assurance Theory and Practice. 3 credits.**

Study of auditing and assurance topics from both a professional and research perspective. Students will have opportunities to develop various ideas and skills necessary to become leaders in the auditing and assurance services arena. Contemporary professional standards will be reviewed as well as the theories behind these standards. Prerequisite: Master of Science student or permission of the instructor.

**ACTG 678. Governmental Accounting and Reporting. 1-3 credits.**

Study of the current theory and practice of budgeting, accounting, reporting, and auditing of governmental and not-for-profit organizations. Prerequisite: Master of Science student or permission of the instructor.

**ACTG 680. Directed Readings. 3 credits.**

Opportunity for directed readings in areas of special interest. Prerequisites: Permission of instructor and Master of Science program director.

**ACTG 681. Directed Research. 3 credits.**

Opportunity for directed research in areas of special interest. Prerequisites: Permission of instructor and Master of Science program director.

**ACTG 691. Advanced Accounting Systems. 3 credits.**

An applications-oriented course covering the analysis of integrated accounting information systems with special emphasis on identifying and evaluating system features and characteristics appropriate for various business settings. The course culminates in a special project requiring application of systems knowledge to solve a complex accounting case problem. Prerequisite: Master of Science student or permission of the instructor.

**ACTG 693. Applied Theory and Corporate Reporting. 3 credits.**

Study and evaluation of selected areas of financial accounting theory and practice. This course emphasizes financial reporting and disclosure. Prerequisite: Master of Science student or permission of the instructor.

**ACTG 695. Seminar in Accounting. 3 credits.**

Study of selected areas in accounting theory, practice and methodology. Prerequisite: Master of Science student or permission of the instructor.

**ACTG 696. Tax Compliance. 1-3 credits.**

Involves preparation of federal and state income tax returns and other compliance related issues. The course may

involve preparation of individual returns as part of the Voluntary Income Tax Assistance program. The program provides tax compliance services primarily for individuals who cannot afford professional tax services. Students who have completed ACTG 492 may not take this course. Prerequisite: Master of Science student or permission of the instructor.

**ACTG 698. Comprehensive Continuance.** 1 credit.

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

**ACTG 699. Thesis Continuance.** 2 credits.

Continued study, research and writing in the area of thesis concentration. Course may be repeated as needed.

**ACTG 700. Thesis Research.** 6 credits.

This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis. Prerequisite: Permission of Master of Science program director.

## Application and Portfolio Deadlines

Fall Semester and Summer Session: February 15

Spring Semester: October 15

Portfolios for summer session and fall semester will be returned after April 15. Portfolios for spring semester will be returned after December 15.

Applications received after these dates, or applications which are incomplete as of these dates, may not receive full consideration.

## Degrees and Concentrations

The School of Art and Art History offers the Master of Fine Arts degree in studio art and the Master of Arts in art history, art education or studio art.

### Master of Fine Arts

#### Mission

The mission for the Master of Fine Arts Program is to challenge and support independently motivated artists in their intellectual, philosophical and artistic development. The graduate program encourages life-long learning, career success and community involvement.

#### Goals and Objectives

- To provide an environment allowing for further development of the candidate's creative endeavor.
- To help the candidate to develop artistic skills to a level which will lead to successful performance in the world beyond the university.
- To promote the candidate's ability to develop philosophical, aesthetic and conceptual modes of individual inquiry.
- To develop a candidate's deepened knowledge in their chosen areas of artistic pursuit.
- To develop candidates who demonstrate a professional studio competence as exemplified by the production of a significant body of work and supported by a written monograph.

#### Program Requirements

The Master of Fine Arts degree is considered the professional and terminal degree in studio art. The degree requires a minimum of 60 credit hours. In addition to the general admission requirements, the prospective graduate student in the Master of Fine Arts program must have an undergraduate degree with a minimum of 33 credit hours in studio art and nine credit hours in art history. The art history hours must include six hours surveying the history of Western art and three hours in upper-level art history.

Three letters of recommendation and a portfolio of the applicant's artwork must be submitted as an indication of preparation for graduate study. The portfolio must consist of 20 examples of the applicant's work: photographs, slides or digital images. The applicant for the Master of Fine Arts program must have at least half of the artwork in the portfolio in the intended area of emphasis. This portfolio must be submitted to the School of Art and Art History for examination before action on an application for graduate admission takes place.

The Master of Fine Arts degree in studio art is awarded for a high level of professional competence. The student will select an emphasis from the following studio areas: ceramics, intermedia, metals, painting and drawing, photography, or sculpture.

The minimum requirement for the Master of Fine Arts degree in studio art is 60 hours of graduate credit including 39 credit hours of studio art, 12-18 of which must be in the area of emphasis (ceramics, intermedia, metals, painting and drawing, photography, or sculpture), 12 in Graduate Studio, and 6 in Thesis Research; 12 credit hours in art history, with a minimum of three in ARTH 572 (Modern Art Since 1945), and three credits of non-Western recommended; and three credit hours in Contemporary Art Theory.

A Master of Fine Arts candidacy review will be held after 18 credit hours have been completed to determine whether the student's growth and potential merit continuation in the Master of Fine Arts program. At the end of each semester, graduate faculty will participate in an open graduate review of the student's work where each student will formally present his/her work to the graduate faculty, graduate students and any others in attendance for discussion. An assigned committee of graduate faculty will write a formal evaluation for each student.

During the last two semesters of the program of study, the Master of Fine Arts candidate will enroll in ART 700 (Thesis Research). By the end of the final semester, the student must complete a thesis exhibition, a gallery talk, and a thesis monograph clarifying the student's work, its development, and its cultural and historical references. The monograph must be formatted to suit The Graduate School thesis guidelines and deadlines and must have images of the thesis exhibition inserted. A bound copy will be kept in the school archives. An oral comprehensive examination, generally in conjunction with the exhibition and closely related to the monograph, must also be completed.

Up to 30 hours of graduate credit from other accredited institutions may be accepted toward the Master of Fine Arts degree if a) the credits were earned within the last six years, b) the student received a grade of "B" or better, c) the transfer credit is from an institution offering a comparable degree, and d) the student submits this request with the application to The Graduate School and the application is supported by slides, transcripts and artwork from the courses taken at other institutions. No more than nine hours of transfer credit will be accepted in the student's area of concentration.

### Master of Fine Arts Requirements

Minimum Requirements	Credit Hours
Studio (12-18 credit-hour minimum within a concentration)	39
Art history (including 3 credits in ARTH 572 (Modern Art Since 1945) and three credits of non-Western recommended)	12
ART 684. Contemporary Art Theory	3
Electives (art or non-art)	6
	60

## Master of Arts Degrees

The Master of Arts in art history, art education or studio art requires a minimum of 30 credit hours. In addition to the general admission requirements, each area of study has further requirements.

### Master of Arts in Art History

Not accepting students 2010-2011.

#### Mission

The M.A. in art history is designed for those who wish to prepare for a doctoral program of study or seek entry level positions in museums, galleries, arts organizations, art-related government agencies and businesses. It also provides advanced art historical study for Virginia teachers, or those who are intending to teach in public schools or other educational institutions.

## Goals

- To provide training in critical thinking and methodologies.
- To encourage in-depth study of a particular cultural/ historical area.
- To provide students with research and writing skills for advanced graduate study.
- To promote general scholarly inquiry in art history and an appreciation of the interaction of culture and art.

## Program Requirements

The candidate must have an undergraduate degree with a minimum of 12 hours of art history, including the six hours of the survey of Western art. Three letters of recommendation and a research paper of the student's choice must be submitted with the graduate application. The program includes 18 hours of art history, six hours of electives and six hours of internships or directed study. At least half of these credits must be in courses designated exclusively for graduate students. Students must also successfully complete a language exam demonstrating reading proficiency in either German or French. Students may petition to be examined in another language if it is directly relevant to their course of study.

Check with the school office for the availability of this program.

## Master of Arts in Art History Requirements

Minimum Requirements	Credit Hours
Art history	18
Internship or directed study	6
Electives	6

	30

## Master of Arts in Art Education

### Mission

The Master of Arts in Art Education at JMU is a graduate program for certified art educators dedicated to excellence in teaching and directing comprehensive art education programs in schools, museums, art organizations or the private sector. The program includes in-depth analysis of the methods and techniques for teaching studio art, art history, art criticism and aesthetics, and visual culture. The program promotes graduates who are:

- dedicated art education professionals;
- articulate art education advocates; and
- charismatic leaders who demonstrate art education as a vital component of general education.

## Goals

- To provide students with the structure, skills core concepts and methods of inquiry for teaching and directing comprehensive art education programs, including: aesthetics, art criticism, art history and studio production, and visual culture.
- To provide students with opportunities to create and evaluate art instructional opportunities that are adapted to diverse learners.
- To provide opportunities for students to demonstrate an extensive range of strategies for teaching and evaluating art instruction, including the use of technology.
- To foster active inquiry, collaboration and supportive interaction among students for developing thesis papers and projects.
- To deepen a student's knowledge in a specific area of art education scholarly interest.
- To provide students with access to the latest research on how children learn and develop and how culture influences human development and creative artistic expression.
- To provide students with access to the latest research on how children learn to understand, appreciate, create and judge works of art.
- To provide students with opportunities to apply research to art lessons that support intellectual, social and personal development.

### Program Requirements

The candidate must have an undergraduate degree with a minimum of 33 credit hours in studio art and nine credit hours in art history. The art history hours must include six hours surveying the history of Western art and three hours in upper-level art history. The candidate must have an art-teaching license and submit three letters of recommendation and a personal statement as an indication of preparation for graduate study.

The program of study includes nine hours in art education, six hours in art history, three hours in criticism, six hours in education and/or art education electives (Directed Study), and six hours of thesis.

Check with the school office for the availability of this program.

### Master of Arts in Art Education Requirements

Minimum Requirements	Credit Hours
Art education	9
Art history	6
Criticism	3
Thesis	6
Education/art education electives	6

	30

### Master of Arts in Studio Art

#### Mission

The mission for the Master of Arts Program in Studio Art is to support artistic growth beyond the level of the baccalaureate. Although the goals for the M.A. reflect those of the M.F.A., the M.A. degree is viewed as an option for studio study, which does not result in a terminal degree in the visual arts.

#### Goals

- To develop and improve artistic skills in two- and three-dimensional art.
- To promote the candidate's ability to develop ways of individual inquiry.

### Program Requirements

Candidates must meet the same admission requirements as candidates for the Master of Fine Arts degree. The Master of Arts in studio art requires a minimum of 30 credit hours.

The program of study includes 15 hours of studio in the applicant's area of interest, six hours of art history including ARTH 572 (Modern Art Since 1945), three hours of contemporary art theory and six hours of elective credit. Near the end of the program of study, the candidate must produce an exhibition of his/her graduate artwork, a slide or CD portfolio of the exhibition (to be retained by the university) and a written statement clarifying the student's work, its development and its cultural and historical references. An oral comprehensive examination, generally in conjunction with the exhibition and closely related to the written statement, will also be held.

A program of study for the Master of Arts degree must be approved by the student's adviser and art school director before final acceptance. Up to nine hours of graduate transfer credit may be accepted toward the Master of Arts degree and must meet the same criteria as those accepted for the Master of Fine Arts degree. No more than six hours of transfer credit will be accepted in the candidate's area of interest.

## Course Offerings

### Art Education

#### **ARED 518. Contemporary Issues in Art Education. 3 credits.**

An investigation of contemporary issues and trends in education and art education and their impact on our schools, including state mandates, arts education associations on the state and national level, funding agencies and technology. Prerequisite: Art teaching license.

**ARED 610. Studio Experiences in the Schools.** 3 credits each.

A course designed for the art teacher to explore, investigate and produce artwork in media or approaches unfamiliar to the teacher. Emphasis will be placed on acquiring skills and knowledge with respect to materials and processes of specific media, as well as their direct application to students in a school setting. Prerequisite: Art teaching license.

**ARED 682. Curriculum and Research.** 3 credits.

A review of curriculum development and research in art education. The class will include assignments, readings and discussions of practical applications by art teachers. Curriculum models and sample research proposals will be developed by the students. Prerequisite: Art teaching license.

**ARED 700. Thesis Research.** 6 credits.

This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis.

**Art**

**ART 501. Workshop in Art.** 1-3 credits. (May be repeated to 6 credits.)

Workshops, accompanied by lecture and discussion periods, selected from such areas as painting, sculpture, printmaking, ceramics, art education, photography and crafts. In studio workshops, 30 contact hours will be required for each credit hour.

**ART 590. Topics in Art.** 3 credits.

Study of selected topics in art and art history. May be repeated when course content changes. See e-campus for current topics. Prerequisites: Admission into a School of Art and Art History graduate program and permission of instructor.

**ART 595. Internship in Art.** 1-6 credits.

Individual internship programs may be pursued in a variety of art-related areas which would parallel the education and career needs of each student. Each internship will be a full-time work/study program which will expose the student to the agency's organization and operation. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ART 600. Graduate Studio.** 3 credits. (May be repeated or taken concurrently.)

An interdisciplinary course that promotes an intensive exploration of media and content through individual critiques and directed research. The format may include group critiques, projects and readings. Prerequisite: Admission into a School of Art and Art History graduate program.

**ART 610. Directed Study: Intermedia.** 3 credits. (May be repeated.)

Independent research under faculty supervision with an emphasis on individual artistic development. Allows students to experiment in a variety of studio-based approaches. Prerequisite: Admission into a School of Art and Art History graduate program.

**ART 620. Directed Study: Ceramics.** 3 credits. (May be repeated.)

Independent research under faculty supervision with an emphasis on individual artistic development. Studio projects in the techniques and processes of ceramics, with emphasis on quality as evidenced by technical and formal consideration. Prerequisite: Nine hours undergraduate ceramics or permission of instructor.

**ART 630. Directed Study: Fiber Arts.** 3 credits. (May be repeated.)

Independent research under faculty supervision with an emphasis on individual artistic development. Fiber arts may include tapestry, weaving, papermaking and surface design. Emphasis will be placed on creative development of techniques and individual expression. Prerequisite: Nine hours undergraduate fiber arts or permission of instructor.

**ART 640. Directed Study: Metals.** 3 credits. (May be repeated.)

Independent research under faculty supervision with an emphasis on individual artistic development, craftsmanship and metalworking techniques. Prerequisite: Nine hours undergraduate metals or permission of instructor.

**ART 650. Directed Study: Painting and Drawing.** 3 credits. (May be repeated.)

Independent research under faculty supervision with an emphasis on individual artistic development. The student may choose from a wide variety of media. Prerequisite: Nine hours undergraduate painting and drawing or permission of instructor.

**ART 660. Directed Study: Photography.** 3 credits. (May be repeated.)

Independent research under faculty supervision that allows students to experiment in a variety of photographic processes including digital, traditional, and alternative process photography, photographic mixed media, lens-less

photography, and lens-based media such as video. Individual artistic development is emphasized. Prerequisite: Nine hours undergraduate photography or permission of instructor.

**ART 670. Directed Study: Printmaking.** 3 credits. (May be repeated.)

Independent research under faculty supervision in printmaking and related digital or photographic processes. Emphasis will be placed on creative development and technical expertise. Prerequisite: Nine hours undergraduate printmaking or permission of instructor.

**ART 680. Directed Study: Sculpture.** 3 credits. (May be repeated.)

Independent research under faculty supervision with an emphasis on individual artistic development and its relationship to recent developments in contemporary art. A board range of materials and processes are available for student investigation: metal fabrication, woodworking, casting methods, performance, and video, among others. Prerequisite: Nine hours undergraduate sculpture or permission of instructor.

**ART 683. Criticism of Art.** 3 credits.

An overview of major art theories, both as philosophy and style analysis, for the purpose of investigating the functions and practice of art criticism. Prerequisite: Admission into a School of Art and Art History graduate program.

**ART 684. Contemporary Art Theory.** 3 credits.

This is a reading, research and discussion seminar designed for graduate level studio art majors addressing historic and contemporary issues surrounding vision, the senses and aesthetics in the theory and practice of art. Prerequisite: Admission into a School of Art and Art History graduate program.

**ART 690. Reading and Research.** 1-3 credits.

Directed reading and research in art areas of special concern to the student. Usually the topics will deal with art history, art theory or philosophical aesthetics. Prerequisites: Two graduate-level art history courses and permission of instructor.

**ART 698. Comprehensive Continuance.** 1 credit.

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

**ART 699. Thesis Continuance.** 2 credits.

Continued study, research and writing in the area of thesis concentration. Course may be repeated as needed.

**ART 700. Thesis Research.** 6 credits.

This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis.

## **Art History**

**ARTH 508. The Museum: History and Controversies.** 3 credits.

This advanced graduate seminar centers on art museums in the United States. Topics include the historical development of museums, related cultures of display, recent debates on institutional mission and responsibility, and contemporary artists who employ the museum as medium, subject matter, or site. Course work centers on a substantial research paper based on primary source materials. Required field trips. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 519. Topics in African Art.** 3 credits.

Advanced topics in African Art will deal with current thematic or methodological issues such as contemporary African arts and artists, arts of the African Diaspora, a particular media (such as architecture or the textile arts), portraiture and identity, the royal arts of Africa, African film and performance, or gender in the arts of Africa. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 544. Gothic and Gothic Revival Architecture.** 3 credits.

Advanced survey of Gothic architecture in France, England and Italy, 1150-1500, and its influence in England and America, 1750-1910. Examines the design of major cathedrals and regional European Gothic styles. Explores their influence upon Walpole, Pugin, Ruskin and other champions of Gothic Revival. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 548. Studies in Leonardo and Michelangelo.** 3 credits.

Seminar which examines the artworks of Leonardo da Vinci and Michelangelo Buonarroti. Discusses issues such as the artist's creative process, the development of the artist's style, the patron's role in the artwork, and inter-relationships between the artist's visual and literary works. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 549. Topics in Renaissance Art. 3 credits.**

Topics in Renaissance art may include studies of major Italian or Northern Renaissance artists, the development of linear perspective, the Renaissance tomb chapel or art and politics of the Protestant Reformation. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 559. Topics in Seventeenth and Eighteenth Century Art. 3 credits.**

Topics in 17th- and 18th-century art may include studies of particular artists such as Rembrandt, Caravaggio or Watteau, studies of particular styles such as the Rococo, or thematic studies such as the history of garden design or the development of art theory. Emphasis is on analysis of primary and secondary sources. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 566. Art and Nationalism. 3 credits.**

This advanced graduate seminar examines the intersection between art and nationalism from the late-eighteenth century to the present. Topics may include propaganda, monuments, and the construction of national memory. Particular attention will be devoted to the shifting nature of commemorative practice throughout the modern period. Course work centers on a substantial research paper based on primary source materials. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 569. Topics in Nineteenth Century Art. 3 credits.**

Topics in Nineteenth Century Art may include studies of major artists such as Caspar David Friedrich or Edouard Manet, specific artists groups like the Pre-Raphaelite brotherhood, or thematic issues such as the relationship between art and nationalism. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 572. Modern Art Since 1945. 3 credits.**

A study of the many developments and trends in American art since 1945. This course will focus on major American movements and artists since World War II, with an emphasis on understanding the theoretical basis of those movements and the development of the art market during this period. Seminar format. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 579. Topics in Twentieth Century Art. 3 credits.**

This advanced graduate seminar may include studies of modern and contemporary painters (i.e., Gerhard Richter), sculptors (i.e., Kiki Smith), performance and video artist (i.e., Bill Viola), or thematic issues such as the relationships between art, technology and gender/racial politics. Students are expected to do original research with primary sources. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 584. Art of the Americas. 3 credits.**

Art of indigenous peoples in the Americas (Meso, Central, South and/or North America) before European contact. The course will examine domestic and state architecture, painting, textiles, ceramics, metalwork, and earthworks within the context of geographic, state, religious, and social issues. Other topics include museum display, repatriation and western taxonomies. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 586. Monticello. 3 credits.**

Seminar on the architecture and material culture of Thomas Jefferson's Monticello. The course will examine the design and construction of the house, its decorative arts, mechanical devices, landscape and garden design, Mulberry Row, the Monticello joinery, and the Indian Hall. Field trips to Monticello are required. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 589. Topics in American Art History. 3 credits.**

Topics in American art may include studies of major artists such as Thomas Cole, George Catlin or Thomas Eakins, a specific group like the Hudson River School, or thematic issues such as art produced in a colonial context, sentimentalism in American genre painting or representations of the American west in art. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 590. Topics in Art History. 3 credits.**

Study of selected topics in art and art history. May be repeated when course content changes. See e-campus for current topics. Prerequisites: Admission into a School of Art and Art History graduate program and permission of instructor.

**ARTH 595. Internship in Art History. 1-6 credits.**

Individual internship programs may be pursued in a variety of art-related areas which would parallel the education and career needs of each student. Each internship will be a full-time work/study program which will expose the student to the agency's organization and operation. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 620. Seminar in Non-Western Art. 3 credits.**

A seminar addressing the representation of "others" in scholarship and museum exhibition strategies. Issues of identity, of the construction of knowledge, of audience participation and of differing ways of seeing and knowing will be explored. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 640. Seminar in Italian Renaissance Art. 3 credits.**

This course will focus on various topics in Italian art from 1300-1550, including interdisciplinary themes such as art in the age of Dante or in-depth contextual studies of Italian Renaissance sculpture or painting. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 660. Seminar in Nineteenth Century Art. 3 credits.**

This course will focus on various topics in Nineteenth century art from 1780-1900, including interdisciplinary themes such as art in an age of Revolution, or in-depth contextual studies of specific movements such as Romanticism. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 670. Contemporary Visual Culture and Critical Theory. 3 credits.**

This course will focus on the variety of critical methodologies used to analyze contemporary visual culture. We will, for example, investigate deconstruction, feminist criticism, semiotics, Foucault's structures of power, all within the context of contemporary European and American cultural politics. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 678. Seminar in American Art. 3 credits.**

An intensive reading colloquium focused on selected topics, interpretations, historiography or methods in American art scholarship from the Colonial period to 1945. Issues and readings will change each semester that the course is offered. Prerequisite: Admission into a School of Art and Art History graduate program or permission of instructor.

**ARTH 690. Reading and Research. 1-3 credits.**

Directed reading and research in art areas of special concern to the student. Usually the topics will deal with art history, art theory or philosophical aesthetics. Prerequisites: Two graduate-level art history courses and permission of instructor.

**ARTH 698. Comprehensive Continuance. 1 credit.**

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

**ARTH 699. Thesis Continuance. 2 credits.**

Continued study, research and writing in the area of thesis concentration. Course may be repeated as needed.

**ARTH 700. Thesis Research. 6 credits.**

This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis.

## Assistant Professors

A. Bannigan, M. Bechtel, T. Bloss, J. Brown, S. Cresawn, K. Gobetz, H. Griscom, T. Rife, K. Seifert

## Adjunct Graduate Instructors

E. Doyle, M. Hudy, E. Kancler

---

## Admission Criteria

Prospective graduate students for the Master of Science degree should have completed an undergraduate major consisting of a minimum of 20 credit hours in biology, including courses covering the areas of organismal biology, cell and molecular biology, ecology, evolution, and genetics. A student may be admitted with deficiencies in one or more of these areas but should be aware that the Graduate Advisory Committee may require the student to make up deficiencies with no credit toward the master's degree. The applicant should have completed a minimum of a year (two semesters) of general chemistry and one semester of organic chemistry. A course in general physics is strongly recommended, especially for those students interested in physiology.

Certain areas of study may require additional background in biochemistry, statistics, calculus or computer programming.

Students are required to submit with their application the Graduate Record Examination General Test scores, three letters of recommendation from individuals who know the student's scientific potential, and a statement of professional goals and interests.

Students typically matriculate only in the fall semester.

Application Deadline: **February 15.**

## Mission

The Department of Biology Master of Science program is committed to providing a strong and unique training plan for advanced students of the discipline that will prepare them superbly for their future career goals. The program takes advantage of the current strengths of the department: basic scientific research and excellent biology pedagogy. Students will develop their intellectual potential by pursuing advanced course work in biology and pedagogy, by participating in mentored teaching experiences and preparing a teaching portfolio and/or by successfully completing a research thesis.

## Concentrations

The biology program offers two concentrations in the pursuit of a Master of Science: a thesis concentration based on research and a non-thesis concentration for students whose primary focus is teaching. Both concentrations require a minimum of 30 hours of graduate credit in biology.

## Research/Thesis Concentration

The thesis/research concentration is for students who wish to continue the study of biology as a scholarly pursuit and who later continue work toward the Ph.D. or work for industry or government. The primary objective of the research/thesis concentration is to enrich the student's subject knowledge and give the student a rigorous experience in research and thesis-writing. Thesis concentration students can also acquire training and experience in teaching.

Training in teaching is provided through courses, offered by the biology department, and the mentored teaching of biology laboratories. Thus, students in the thesis concentration not only gain research experience, they also learn to be effective teachers and communicators.

Currently, the biology department has research strengths in the following areas:

- Cell Biology and Genetics
- Comparative and Functional Morphology
- Developmental Biology
- Ecology, Evolution, Behavior and Systematics
- Microbiology
- Neurobiology
- Plant Biology

More information regarding faculty research can be found at the following Web site:  
<http://www.jmu.edu/biology/research/research.shtml>.

### Concentration Requirements

Minimum Requirements <sup>1,2</sup>	Credit Hours
BIO 700. Thesis	6
Electives <sup>3</sup>	24
<hr/>	
30	

1 Students who wish to receive training and mentoring in teaching and who wish to teach biology laboratories are also required to take BIO 600, Effective Teaching I (2 credit) and BIO 601, Mentored Teaching (1 credit).

2 BIO 500, Effective Scientific Communication (2 credits), is strongly recommended for all students. Exemptions require approval of the student's advisory committee.

3 Students must take a total of 15 hours credit hours of 600- and 700- level courses, including BIO 700.

### Teaching/Non-thesis Concentration

The teaching/non-thesis concentration is for students who wish to teach, particularly in two year community colleges. The program has two foci: subject training and teacher training. Currently, subject training is concentrated in areas much in demand by community colleges, i.e., anatomy and physiology, microbiology, and general biology. Students are trained in teaching through courses, all taught within the biology department, and through mentored teaching of laboratories and lectures. In addition, each student will prepare a professional teaching portfolio.

### Concentration Requirements

Minimum Requirements <sup>1</sup>	Credit Hours
BIO 600. Effective Teaching I	2
BIO 601. Mentored Teaching	2
BIO 701. Effective Teaching II: Teaching Portfolio	3
Electives <sup>2</sup>	23
<hr/>	
30	

1 BIO 500, Effective Scientific Communication (2 credits), is strongly recommended for all students. Exemptions require approval of the student's advisory committee.

2 Students must take a total of 15 hours credit hours of 600- and 700- level courses, including BIO 600, BIO 601 and BIO 701.

All students electing to major or minor in biology must have their individual program of study approved by the student's Graduate Advisory Committee and the head of the department. Graduate students planning a program of study leading to the Master of Education degree, offered by the College of Education, may minor in biology with 12 hours of graduate credit in biology if they satisfy the minimum entrance requirements for the Master of Science degree program in biology.

Up to nine hours of graduate credit from accredited institutions may be accepted toward the Master of Science degree, subject to the general regulations and procedures of The Graduate School regarding transfer credit.

Full-time biology graduate students are required to attend and participate in departmental seminars while in residence.

## Course Offerings

### Biology

For a student to enroll in any biology graduate course (except BIO 501), the department assumes the student meets minimal course requirements for entrance into the Master of Science degree program in biology. Permission of the instructor is required if this is not the case.

#### **BIO 500. Effective Scientific Communication. 2 credits.**

Students will develop skills in effective oral and written communications in the biological sciences. Emphasis will be placed on how to prepare an effective lecture or research seminar, effective use of presentation technologies and effective scientific writing.

#### **BIO 501. Workshops in Biology. 1-3 credits.**

Concentrated study in particular areas of biology. No credit is allowed toward the Master of Science degree requirements and no more than one workshop may be applied toward a minor in biology.

#### **BIO 504. Evolution. 3 credits.**

Population change as brought about by mechanisms of organic evolution. Molecular biology is integrated with evolutionary biology and concepts of phylogenetic relationships resulting from the process of speciation are stressed. A seminar/research project is required. Credit may not be earned in both BIO 404 and BIO 504.

#### **BIO 513. Human Gross Anatomy with Clinical Applications (4, 8). 6 credits.**

An advanced study of human anatomy with cadaver dissection. Emphasis is given to a clinical perspective and the evolution and development of human structure within a comparative context. Prerequisite: A rigorous undergraduate course in anatomy. Credit may not be earned in both BIO 413 and BIO 513.

#### **BIO 514. Clinical Anatomy for Occupational Therapists. 4 credits.**

This course offers an in-depth study of the structure of the musculoskeletal and peripheral nervous system of the human body. Specific structural and neural pathologies will be examined in regards to impact on occupational performance. Laboratory experiences involving cadaver dissection, skeletal material, models and audiovisual technology will be utilized. Prerequisite: Admission to the occupational therapy program.

#### **BIO 516. Pathophysiology for Physician Assistants I. 4 credits.**

An advanced clinically-oriented study of human physiology and the alterations in body functions that underlie diseases in humans. It serves as a foundation for courses in clinical medicine. Prerequisite: Admission to the physician assistant concentration.

#### **BIO 517. Pathophysiology for Physician Assistants II. 3 credits.**

An advanced clinically-oriented study of human physiology and the alterations in body functions that underlie diseases in humans. It serves as a foundation for courses in clinical medicine. Prerequisite: Successful completion of all previous courses in the physician assistant concentration or permission of the program director.

#### **BIO 526. Graduate Topics in Biology. 3-4 credits.**

Studies in special areas of biology. May be repeated with change in topic or change in subject matter within a topic.

#### **BIO 540. Functional Neuroscience for Occupational Therapists. 3 credits.**

This course will examine the functional performance of all aspects of the human nervous system. Specific nervous system conditions will be introduced and their impact on occupational performance, performance components and environmental contexts discussed. Prerequisites: Admittance to the occupational therapy program and satisfactory completion of previous concentration work. Credit may not be applied to the biology major or minor.

**BIO 542. Immunology. 3 credits.**

A study of the fundamental concepts of immune responses, the properties of antigens and immunoglobins, immunological specificity, and the development and regulation of cellular and humoral immunity. Prerequisite: A course in microbiology or cell biology or the equivalent. Credit may not be earned in both BIO 442 and BIO 542.

**BIO 544. Virology. 3 credits.**

A lecture seminar course considering the fundamental principles of basic and medical virology and an analysis of the structure, chemistry and replication of representative RNA and DNA animal viruses at the molecular level. Prerequisite: A course in microbiology or genetics or consent of the instructor. Credit may not be earned in both BIO 444 and BIO 544.

**BIO 548. Medical Microbiology. 3 credits.**

This class focuses on microorganisms of medical importance, mainly bacteria and viruses. Lecture follows an organism-by-organism approach. Key topics for each organism include general cell structure, unique structures/functions, epidemiology of the disease that the organism causes, mechanisms of pathogenesis, isolation and identification of the organism, and treatment options. Prerequisite: Undergraduate general microbiology course or permission of instructor.

**BIO 549. Contemporary Developmental Biology. 3 credits.**

Discussion-based course on topical issues in developmental biology and how they impact animal evolution, bioethics, human identity and environmental science. A research paper and class presentation is required. Credit may not be earned in both BIO 550 and BIO 549.

**BIO 550. Neurobiology (3,3). 4 credits.**

Molecular, cellular and network mechanisms underlying behavior will be studied using problem-solving, discussion, lecture and reading of primary literature. Similarities and differences between nervous systems and computers will be explored. Laboratories will utilize contemporary electrophysiology and computer simulation to examine the neurobiology of simple animal model systems. Independent project required. Credit may not be earned in both BIO 450 and BIO 550.

**BIO 551. Ecosystem Dynamics (2,4). 4 credits.**

Structure and functional dynamics of ecosystems. Basic ecological units, which are comprised of communities interacting with their environment and are themselves components of landscape, are quantitatively examined. Prerequisite: General ecology. Credit may not be earned in both BIO 451 and BIO 551.

**BIO 552. Population Biology (2,4). 4 credits.**

Theoretical and applied aspects of distribution and abundance, population regulation, interactions between populations, and conservation will be studied in selected organisms, including humans. An independent research project will be required. Credit may not be earned in both BIO 452 and BIO 552.

**BIO 553. Microbial Ecology and Evolution (2,4). 3 credits.**

Advanced ecology of microorganisms will be covered, including those important in human health and in natural environments. Emphasis will be placed on the study and critique of scientific literature. Prerequisites: Introductory ecology and microbiology. Credit may not be earned in both BIO 453 and BIO 553.

**BIO 554. Biometrics. 4 credits.**

The design of biological experiments and applications of statistical techniques in ecology, cell biology, physiology, behavior, systematics, genetics and evolution. Experiments and data from the biological literatures will be emphasized. Statistical software packages will be used. A seminar/research project involving advanced applications is required. Prerequisite: MATH 220 or equivalent. Credit may not be earned in both BIO 454 and BIO 554.

**BIO 555. Plant Physiology (3,3). 4 credits.**

The physiology of plant cells and organisms emphasizing biophysical and biochemical aspects of plant function including water relations, mineral nutrition, transport phenomena and metabolism. Prerequisites: General botany and organic chemistry. Credit may not be earned in both BIO 455 and BIO 555.

**BIO 557. Biological Applications of Geographic Information Systems (2, 4). 4 credits.**

This course will explore the various ways geographic information systems (GIS) can be used to answer biological questions. Students will use GIS software to study applications in ecology, conservation biology and environmental biology. A seminar/research project involving advanced applications is required. No prior GIS experience is required. Prerequisite: BIO 124 or equivalent.

**BIO 559. Aquatic Ecology (2,4). 4 credits.**

Functional relationships and productivity of freshwater communities are examined as they are affected by their physical, chemical and biotic environment. Organisms inhabiting lakes, ponds, rivers, streams and estuaries are studied at the population, community and ecosystem levels. Preparation of seminar topic papers required. Credit may not be earned in both BIO 459 and BIO 559.

**BIO 560. Plant Cell and Tissue Culture (2,4). 4 credits.**

Theory and practice of growing isolated plant cells, tissues and organs. Independent research project and class seminar expected. Prerequisites: General botany and chemistry. Credit may not be earned in both BIO 460 and BIO 560.

**BIO 565. Environmental Toxicology (3,3). 4 credits.**

The study of types, sources and biological effects of environmental pollutants. Class activities will include discussions of the biological effects of a broad range of pollutants. Labs will focus on the use of simulation models, geographic information systems and other software currently used in environmental toxicology for the analysis of environmental data. A presentation/research paper involving advanced applications is required. Prerequisite: BIO 224 or equivalent. Credit may not be earned in both BIO 465 and BIO 565.

**BIO 566. Toxicology Seminar. 3 credits.**

Advanced readings and discussions of the primary scientific literature with a focus on the biological effects of toxins at the genetic, cellular, physiological, and ecological level. An independent literature research project is required. Prerequisite: BIO 224 or equivalent. Credit may not be earned in both BIO 466 and BIO 566.

**BIO 575. Advanced Cell and Molecular Biology. 3 credits.**

This seminar-style course covers topics in advanced cell and molecular biology at the graduate level. Class format will be discussions from assigned review articles, followed by student-led presentations of assigned primary literature. Students write a research grant proposal and give an oral presentation of their proposal in class. Prerequisite: BIO 224.

**BIO 580. Advanced Molecular Biology (2,4.) 4 credits.**

Cellular constituents and cellular genetics are emphasized at the molecular level. An exhaustive literature review and research proposal is required. Prerequisite: BIO 224. Prerequisite or corequisite: CHEM 342. Credit may not be earned in both BIO 480 and BIO 580.

**BIO 582. Human Histology (3, 3). 4 credits.**

This course presents the microscopic structure of cells, tissues and organs to explain normal physiological function and provides a basis for understanding disease mechanisms and altered cellular states. A special research project is required. Prerequisite: BIO 270 or BIO 290, or equivalent.

**BIO 584. Comparative Endocrinology. 3 credits.**

This course will study the hormonal regulation of physiological activity in different animals, from the cellular to the whole-organism level. Special emphasis will be paid to recent advances in cellular and molecular endocrinology as well as human endocrine disorders. A special research project is required. Prerequisite: BIO 270 or BIO 370, or equivalent.

**BIO 586. Systematics of Vascular Plants (2,4). 4 credits.**

Study of systematic theory and an overview of the classification and evolution of higher plants with particular attention to flowering plant families. Techniques for plant identification and collection and for construction of phylogenies will be taught in lab. An independent project and presentation will be required. Prerequisites: General botany and cell biology or equivalents. Credit may not be earned in both BIO 486 and BIO 586.

**BIO 590. Biomechanics (3,3). 4 credits.**

A study of the interactions of organisms with their physical environment. Concepts from fluid and solid mechanics are applied to biological form and function. Independent research is required. Prerequisite: BIO 220 or permission of the instructor. Credit may not be earned in both BIO 490 and BIO 590.

**BIO 595. Topics in Integrative Biology. 1-3 credits.**

This course will examine the interrelationships of various biological topics with related scientific and mathematical disciplines that are not offered by the biology department. A seminar/research project involving advanced applications is required. Course may be repeated as topics change. Prerequisite: Permission of the instructor.

**BIO 600. Effective Teaching I. 2 credits.**

Students will explore effective teaching strategies in the biological sciences. Emphasis will be placed on how to prepare and teach laboratory and lecture courses, including effective instructional technologies and exam preparation. Discussions of teaching experiences and mentor and peer evaluations of the students' teaching skills will be included. Corequisite: BIO 601.

**BIO 601. Mentored Teaching. 1 credit.**

Students continue their exploration of effective teaching strategies in the biological sciences as they enter into their first teaching assignment in the department. Students will work under a faculty teaching mentor who will guide the students through their first teaching experience in the Department of Biology. Emphasis will be placed on mentor and peer evaluations of the students' teaching skills. May be repeated for up to two credits for different teaching assignments. Corequisite: BIO 600.

**BIO 603. Scientific Presentations. 1 credit.**

A forum for students to present their research and/or teaching materials to their peers and receive constructive feedback on their progress. Presentations may take the form of informal "chalk talks," journal club presentations and/or formal presentations. This course is graded on a satisfactory/unsatisfactory (S/U) basis. May be repeated for up to two credits.

**BIO 615. Managing Anatomy and Physiology Laboratories. 2 credits.**

This course will teach students how to manage an anatomy and physiology laboratory. Course topics will include lab safety, course budgets, the acquisition of supplies, facility layout and design, cadaver maintenance, and the use and maintenance of equipment and inventory control.

**BIO 630. Advanced Graduate Topics in Biology. 3-4 credits.**

Studies in advanced special areas of biology. May be repeated with change in topic or change in subject matter within a topic.

**BIO 660. Graduate Seminar. 1-3 credits.**

Seminar in special areas of biology. May be repeated up to a total of 12 hours with change of subject.

**BIO 670. Developmental Anatomy of Seed Plants. 4 credits.**

A study of the origin, growth, differentiation and maturation of cells, tissues, and organs, and their interrelationships. Emphasis is placed on economically important structures of crop, ornamental and forest plants.

**BIO 697. Biological Research. 1-6 credits.**

Laboratory and/or field research will be conducted under the direction of the Graduate Advisory Committee. The course will emphasize the development of research techniques and data collection. Can be repeated for credit. This course is graded on the satisfactory/unsatisfactory (S/U) basis. Hours do not apply toward 30 hours required for graduation.

**BIO 698. Comprehensive Continuance. 1 credit.**

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

**BIO 699. Thesis Continuance. 2 credits.**

Continued study, research and writing in the area of thesis concentration. Course may be repeated as needed.

**BIO 700. Thesis Research. 6 credits.**

Thesis research to be directed by the Graduate Advisory Committee. This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis. Prerequisites: Unconditional admission status in the graduate program and completion of an approved thesis research proposal.

**BIO 701. Effective Teaching II: Teaching Portfolio. 3 credits.**

Students will document their teaching background in preparation for the job application process.

---

# Business Administration

## Master of Business Administration Program

(540) 568-3058

<http://www.jmu.edu/cob/mba>

### Graduate Director

Dr. Michael E. Busing

## Accounting Program

### Professors

D. Fordham, M. Riordan

### Assistant Professor

S. Cereola

## Economics Program

### Professors

E. Ahmed, R. Horn, W. Wood

### Associate Professors

J. Doyle, S. Milliman

### Assistant Professor

W. Grant

## Finance and Business Law Program

### Professors

J. Albert, H. Hobson, S. B. Marshall, D. Thomas

## Computer Information Systems and Management Science Program

### Professors

M. Busing, S. Kruck, I. Markham, R. Mathieu, S. Palocsay, S. Stevens, F. Teer

### Associate Professors

R. Pal, H. Reif

## Management Program

### Professors

P. Bierly, D. Gallagher

### Associate Professors

P. Daly, S. Gallagher, E. Stark, M. White

### Assistant Professor

C. White

## Marketing Program

### Professors

K. Bahn, I. Clarke, T. Flaherty, R. Reid

### Associate Professor

D. Eric Boyd

# Master of Business Administration Program

## Mission

The M.B.A. program within the College of Business at James Madison University emphasizes excellence and continuous improvement in graduate learning by stressing knowledge and technical, interpersonal and experiential skills in the development of managerial decision-making.

The Master of Business Administration program is fully accredited by the AACSB and received reaffirmation in the spring of 2002.

The College of Business offers two specialized Master of Business Administration concentrations. Both concentrations are designed for part-time students and utilize a blended teaching approach that integrates the classroom experience with various online techniques.

The Innovation MBA program is offered in Harrisonburg and takes two years to complete. A cohort of students takes sixteen 10-week courses, two at a time in a quarter format. In this program, students will meet face-to-face with faculty approximately once every 3 weeks in Harrisonburg during a weeknight, meet online in a synchronous format the other weeks, and utilize other advanced asynchronous teaching instruction, such as simulations or multimedia cases.

The Information Security (Infosec) MBA program is offered in Reston, Virginia and takes 28 months to complete. A cohort of students takes fourteen 8-week courses, one course at a time. Each course meets for four hours at the beginning and at the end of the session on a Saturday. Instruction for the eight weeks between the face-to-face meetings is online, using synchronous and asynchronous teaching methods.

## Admission Criteria

The GMAT is required of all applicants. This instrument measures aptitudes important to the study of business and must be taken prior to admission. Applicants are required to have at least two years of post-baccalaureate work experience prior to pursuing an M.B.A. degree.

To apply, students should complete the online application and submit the application fee at <http://www.applyweb.com/apply/jmug/index.html>. In addition, students must submit a current resume and two letters supporting the work experience listed on the resume through the online application site.

Students must also submit the following materials directly to The Graduate School (James Madison University, MSC 6702, Harrisonburg VA 22807):

- Official transcripts sent directly from all colleges/universities you have attended.
- An official report sent directly from ETS of your GMAT score.

The university encourages applicants with degrees in all major fields of study from accredited institutions. No specific undergraduate courses are required; however, students with non-business baccalaureates are required to complete the following three prerequisite courses:

- Financial Accounting
- Statistics
- Economics (Microeconomics is required; taking both Microeconomics and Macroeconomics is preferred)

Students must notify the M.B.A. program office upon completion of each prerequisite course and have official transcripts submitted to The Graduate School directly from the institution where the course was completed. Students may begin the program only during the fall semester. Applications will be accepted anytime prior to June 1 of the starting year, but the school will use a rolling admission process starting **February 1**.

## Innovation MBA Program

Innovation is a critical component of sustainable firm success in today's complex, global, and dynamic business environment. Managers need to understand the technical and human components of innovation and be able to be leaders of the innovation process. Thus, the theme of this program is "Leading through Innovation with Technology and People." The program is designed to provide students with a sound foundation in all of the business principles, while focusing on the various aspects of innovation. The program also emphasizes the development of teamwork, managerial decision-making and leadership skills.

The program is primarily intended for working professionals holding full-time positions in the Shenandoah Valley of Virginia and other nearby regions.

The curriculum of the Innovation MBA program includes the 16 courses listed below. The program includes 48 total credit hours.

<b>Required Courses</b>	<b>Credit Hours</b>
<b>Core Curriculum (6 courses):</b>	<b>18</b>
MBA 600. Leadership and Organizational Behavior	
MBA 620. Accounting for Decision Making and Control	
MBA 630. Financial Management	
MBA 642. Supply Chain Management	
MBA 644. Foundations of Marketing Management	
MBA 690. Strategic Management	
<b>Leadership Values (2 courses):</b>	<b>6</b>
MBA 667. Business Ethics and Social Responsibility	
MBA 695. Cultural Awareness Experience	
<b>Innovation Theme</b>	<b>9</b>
MBA 601. Management of Information and Technology	
MBA 611. Project Management	
MBA 640. Managerial Information Systems	
<b>Electives (choose five from the following):</b>	<b>15</b>
MBA 602. Management of New Product Development	
MBA 603. Integrated Marketing Communications	
MBA 604. The Emergence of Modern Economic Growth	
MBA 605. Entrepreneurship and Venture Creation	
MBA 606. Managing in an Innovation-driven Global Environment	
MBA 612. Managing Complex Projects	
MBA 650. Managing Human Resources for Innovation	
MBA 653. Business Law	
MBA 654. Investment Analysis	
MBA 655. Marketing Research for Decision Making	
MBA 656. Business Process Management	
MBA 657. Strategic Information Management	
MBA 658. Financial Risk Analysis and Management	
MBA 664. Negotiations and Conflict Management	
MBA 665. Internet Marketing	
MBA 668. Environmental Management and Sustainability	
	<b>48</b>

One course from another masters program at JMU may be substituted for an elective if the course is related to the theme of the program, and with prior approval from the director of the MBA program.

## Recommended Sequence

Courses are taken in the following sequence:

### Year One

#### First 10-Week Session

MBA 620. Accounting for Decision Making and Control

MBA 640. Managerial Information Systems

#### Second 10-Week Session

MBA 611. Project Management

MBA 630. Financial Management

#### Third 10-Week Session

MBA 642. Operations and Supply Chain Management

MBA 644. Foundations of Marketing Management

#### Fourth 10-Week Session

Two electives

### Year Two

#### First 10-Week Session

MBA 600. Leadership and Organizational Behavior

MBA 601. Management of Information and Technology

#### Second 10-Week Session

MBA 667. Business Ethics and Social Responsibility

MBA 690. Strategic Management

#### Third 10-Week Session

Two electives

#### Fourth 10-Week Session

One elective

MBA 695. Cultural Awareness Experience

Required courses taken during the same session will be integrated to the degree and by the method determined appropriate by the instructors. This will improve students' understanding of how different functional areas fit together.

MBA 695, Cultural Awareness Experience, is taken outside of the 10-week session format during July-August of the student's final year. This course includes a 10-14 day international trip, plus the preparation for the trip and a post-trip analysis. The location of these trips will vary yearly and will include destinations such as China, India or Europe. The international trip will include numerous visits to both business and cultural sites.

MBA 690, Strategic Management, is the capstone course in the M.B.A. program and replaces the comprehensive examination requirement. A minimum grade of "B" or must be attained to pass MBA 690.

Students are also required to participate in the following:

- Workshops: Students are required to attend three Saturday workshops. The first will be an orientation workshop that will teach students how to use the technology needed to participate in the online activities and introduce the students to the leadership development program. There will also be two special topics workshops in the spring of each year that will have guest speakers debate contemporary business issues and will have students participate in a variety of group activities.
- Leadership development program: A program which will include periodic discussions with an assigned mentor.

## Information Security MBA Program

Advances in information technologies, the globalization of markets, and increased rate of technological change have changed the competitive dynamics in many industries. The management of knowledge and information is a critical source of competitive advantage for firms. To sustain success, firms must protect their information and knowledge-based resources. Thus, the Information Security MBA Program is designed to provide students with a sound foundation in all of the business principles, while also ensuring they have a strong understanding of the business implications of information security.

The program is primarily intended for working professionals holding full-time positions. While this program is primarily an online program utilizing synchronous and asynchronous techniques, students meet with faculty once every eight weeks on a Saturday in Reston, Va., near Dulles airport.

The curriculum of the Information Security MBA Program includes the fourteen courses listed below. A cohort of students takes the courses in the order listed below, with one course being completed every eight weeks. The program includes 42 total credit hours.

### Information Security MBA Program Requirements

Minimum Requirements	Credit Hours
MBA 600. Leadership and Organizational Behavior	3
MBA 610. Quantitative Methods for Management	3
MBA 620. Accounting for Decision Making and Control	3
MBA 630. Financial Management	3
MBA 640. Management Information Systems	3
MBA 641. The Microeconomics of Business Decision-Making	3
MBA 642. Operations and Supply Chain Management	3
MBA 644. Foundations of Marketing Management	3
MBA 654. Investment Analysis	3
MBA 680. Introduction to Information Security	3
MBA 681. Managing System Networks	3
MBA 682. Managerial Computer Forensics	3
MBA 685. Information Security Ethics and Policy	3
MBA 690. Strategic Management	3

---

42

MBA 690, Strategic Management, is considered the capstone course in the M.B.A. program and replaces the comprehensive examination requirement. A grade of "B" or better must be attained to pass MBA 690.

## Course Offerings

### Accounting

**MBA 620. Accounting for Decision Making and Control.** 3 credits.

Designed to present use of accounting in business decision-making. Covers concepts and theories pertinent to the management function. Prerequisite: One year of introductory accounting. Not available for graduate credit for Master of Science program studies.

**MBA 670. Directed Research.** 1-3 credits.

Opportunity for directed research in areas of special interest. Prerequisites: Permission of instructor and Master of Business Administration program director.

### Business Law

**MBA 653. Business Law.** 3 credits.

A study of the principles of the law of contracts, agency, sales, commercial paper and business organizations; emphasizes the effect of such laws on business operations.

**MBA 676. Directed Research. 1-3 credits.**

Opportunity for directed research in areas of special interest. Prerequisites: Permission of instructor and Master of Business Administration program director.

**Economics****MBA 604. The Emergence of Modern Economic Growth. 3 credits.**

This course focuses on how modern economic growth emerged and sustained itself overtime. How world economies can use physical and human capital and technologies to perpetuate their economic growth and improve the standard of living for their citizen in the long-run. Various models of economic growth and empirical evidence from global economies will be discussed. Special emphasis will be placed on educating business students about the sources of and policies that promote economic growth.

**MBA 641. The Microeconomics of Business Decision-Making. 3 credits.**

This course is designed to provide graduate business students with the basic analytical tools needed to understand the decisions made by profit-maximizing firms and the causal linkages between these decisions and market structures. The course uses case study approach to examine market demand, the costs and organization of production, and the structures of the markets in which firms operate.

**MBA 662. Macro Economic Theory and Economic Policy. 3 credits.**

A study of macroeconomic theory and policy as they relate to unemployment, inflation and the rate of economic growth.

**MBA 673. Directed Research. 1-3 credits.**

Opportunity for directed research in areas of special interest. Prerequisites: Permission of instructor and Master of Business Administration program director.

**Finance****MBA 630. Financial Management. 3 credits.**

An in-depth examination of financial topics vital to the financial manager including financial and cash flow analysis, pro forma statement analysis, working capital, capital budgeting, valuation of financial assets, cost of capital, and risk analysis. The course emphasizes quantitative problem solving with extensive use of actual case situations.

Corequisite: MBA 620 should be taken either at the same time or prior to MBA 630.

**MBA 643. Advanced Topics and Cases in Financial Management. 3 credits.**

An in-depth examination of financial topics including financial and market efficiency, obtaining funds using debt or equity, leasing, capital structure, dividend policy, warrants, options and other derivative securities, international finance, hedging risks, mergers and acquisitions, financial distress and firm valuation. The course makes extensive use of actual case situations. Prerequisite: MBA 630.

**MBA 654. Investment Analysis. 3 credits.**

Investment theory, development and application of analytical tools in the appraisal and selection of investments.

**MBA 658. Financial Risk Analysis and Management. 3 credits.**

The purpose of the course is to introduce the student to the different aspects of risk, as well as the analysis and management of risk. Applications include sensitivity analysis, Monte Carlo and Latin Hypercube simulations, and the use of forwards, futures and options to manage risk.

Prerequisite: MBA 630.

**MBA 660. International Finance. 3 credits.**

Analysis of problems involving international business finance. Description of international payments system and financial institutions, and application of analytical techniques and procedures for financing investments and business activities abroad. Prerequisite: MBA 630.

**MBA 661. Financial Management of Real Estate Investments. 3 credits.**

An in-depth examination of real estate investment and finance from an individual and institutional approach. Topics include the investment calculus, risk analysis, cost of long- and short-term capital and construction, and development financing.

**MBA 671. Directed Research. 1-3 credits.**

Opportunity for directed research in areas of special interest. Prerequisites: Permission of instructor and Master of Business Administration program director.

## **International Business**

### **MBA 606. Managing in an Innovation-driven Global Environment. 3 credits.**

Managers in today's business environment must contend not only with increasing rivalry from globalization, but from innovations that can arise from anywhere on the globe. This course addresses the foundation of these two challenges and how managers in organizations can effectively grapple with them.

### **MBA 663. International Business Development. 3 credits.**

An in-depth study of a special topic or theme in international business and/or a collection of currently breaking opportunities in the global business environment. Prerequisite: Permission of instructor.

## **Computer Information Systems and Management Science**

### **MBA 610. Quantitative Methods for Management. 3 credits.**

This course develops topics in management science and then applies these tools to analyze and solve problems arising in business situations. Topics include forecasting, simulation, queuing theory, linear programming, integer programming, sensitivity analysis and decision analysis. Prerequisite: MBA 502 or the equivalent.

### **MBA 611. Project Management. 3 credits.**

This course focuses on different techniques and tools for managing many types of projects. The course addresses a variety of project management issues such as making a case for doing a project, project charter, project risk, developing project plans, stakeholder management, organizational strategy and cultural fit, and status reporting. Use of project management software is used throughout the course.

### **MBA 612. Managing Complex Projects. 3 credits.**

This course covers advanced topics in project management. The course addresses a variety of project management issues including managing a portfolio of projects, methods for enhancing the project schedule, cost, or performance, complex project management, multi-functional and multi-organizational projects, the organizational behavior aspects leading and managing project teams, and legal aspects of project management. Prerequisite: MBA 611.

### **MBA 640. Management Information Systems. 3 credits.**

An overview of information systems theory and technology. Primary emphasis is on management's role in planning, designing, developing and using computer-based information systems in business organizations. Other topics include systems theory, computer technology, information systems for decision making and behavioral implications of management information systems.

### **MBA 642. Operation and Supply Chain Management. 3 credits.**

This course is the study of supply chain principles and practices, with a focus on materials and logistics management. The course investigates supply chain management for both products and services in a global economy. Particular focus is on supply chain design, which includes strategies for customer service, quality, logistics, inventory management, and integrated supply chain management.

### **MBA 652. Technology Enhanced Decision Making. 3 credits.**

This course provides an introduction to techniques for structuring and analyzing managerial decision problems involving major uncertainties. Topics include decision tree and influence diagrams, probability assessment, risk analysis, risk attitudes and sensitivity analysis. Group decision making and groupware technologies will also be discussed. Emphasis is placed on the use of computer software for decision analysis.

### **MBA 672. Directed Research. 1-3 credits.**

Opportunity for directed research in areas of special interest. Prerequisites: Permission of instructor and Master of Business Administration program director.

## **Management**

### **MBA 600. Leadership and Organizational Behavior. 3 credits.**

Through the use of experimental exercises and case studies, the student will gain greater depth of knowledge in the study of organizational behavior, including leadership, management of conflict, change strategies, and group and individual behavior.

### **MBA 601. Management of Innovation and Technology. 3 credits.**

Course focuses on the management of technology, which includes technology evolution, technology transfer, R&D and technology strategy, and the innovation process, which includes idea generation and implementation, use of teams in new product development, and virtual teams.

**MBA 602. Management of New Product Development. 3 credits.**

The management of new product development will be explored. The course focuses on managerial issues involved in the new product development process with a special emphasis on managing opportunity identification, product concept development, product concept evaluation, prototype testing and the launch of new products into the market place.

**MBA 605. Entrepreneurship and Venture Creation. 3 credits.**

Explores the many dimensions of new venture creation and growth. Formulation and implementation issues that relate to conceptualizing, developing, and managing successful new ventures. Building a business model that generates profits and positively contributes to the economy and society. Analyze business opportunities and risk of new products and services.

**MBA 650. Managing Human Resources. 3 credits.**

Emphasis is placed on selection interviewing, worker-managerial crisis interviewing, Equal Employment Opportunity Commission, placement procedures and assessing manager effectiveness.

**MBA 664. Negotiations and Conflict Management. 3 credits.**

This course focuses on the identification and development of effective negotiation skills that can be utilized in business and interpersonal relationships. Applications of bargaining principles are also discussed in the context of the resolution of disputes between both organizations and individuals.

**MBA 667. Business Ethics and Responsibility. 3 credits.**

Introduces principles of ethical thinking and applies them to situations and models for business decision-making. Focuses on corporate social responsibility and individual ethical decision making.

**MBA 668. Environmental Management and Sustainability. 3 credits.**

The focus of this course is creating business value from environmental sustainability. Using environmental (green) strategies to innovate, create value and build competitive advantages. Review of environmental management and sustainability economics best practices.

**MBA 674. Directed Research. 1-3 credits.**

Opportunity for directed research in areas of special interest. Prerequisites: Permission of instructor and Master of Business Administration program director.

**MBA 690. Strategic Management. 3 credits.**

The required capstone course for all graduate business students. Emphasizes corporate governance and complex, top management level strategic thinking and decision making. Integrates all the functional areas of business while emphasizing the external environment and ethical context of management. Prerequisite: Must be the last required course taken of the Master of Business Administration program.

**MBA 695. Cultural Awareness Experience. 3 credits.**

The main part of this course is an international trip where students experience a different culture. The trip will include a wide variety of cultural and business outings. Students will maintain a journal throughout the trip. The course also includes preparatory work before the trip and post-trip analysis and discussion.

**Marketing****MBA 603. Integrated Marketing Communications. 3 credits.**

The course provides a comprehensive view of the integrated marketing communication (IMC) process. IMC is the strategic response of business and marketing communications to rapid worldwide changes in markets, demands, technology, and consumer power. IMC is a cross-functional approach that unites and expands the traditional marketing disciplines in order to create and nourish successful long-term relationships with customers and other stakeholders.

**MBA 644. Foundations of Marketing Management. 3 credits.**

The course focuses on marketing planning, strategy and policy. In addition, application of analytical tools to contemporary marketing problems is a central focus.

**MBA 655. Market Research for Decision-Making. 3 credits.**

The course provides MBA students with the tools to evaluate primary market research. Students will study the market research process including: defining the problem, conceptualization, research design, sources of data, questionnaire development, sampling, data collection methods, univariate and multivariate statistical analyses, and the development of a management oriented report. Students will apply the components of the market research process and conduct their own research project.

**MBA 665. Internet Marketing. 3 credits.**

Studies the culture and demographics of the Internet, online business strategies, and the hardware and software tools necessary for online marketing practice. Students learn to identify relevant target segments, develop product opportunities, pricing structures and distribution channels over the Internet, and to execute marketing strategy in computer mediated environments.

**MBA 675. Directed Research. 1-3 credits.**

Opportunity for directed research in areas of special interest. Prerequisites: Permission of instructor and Master of Business Administration program director.

**Information Security****MBA 680. Introduction to Information Security. 3 credits.**

Overview of information security exploring basic concepts and developing knowledge and skills of protecting valuable information assets and systems.

**MBA 681. Managing System Networks. 3 credits.**

Development of understanding and skills for managing effective security in enterprises that depend upon information infrastructures and engage in e-commerce.

**MBA 682. Managerial Computer Forensics. 3 credits.**

To educate current and future managers in the roles, responsibilities, nature, structure, content, parties, networks, tools and processes involved in computer (digital) forensics.

**MBA 685. Information Security Ethics and Policy. 3 credits.**

Explores social, philosophical, ethical and policy implications of information security by covering issues that will be faced both as members of a technological society as well as business professionals.

**Hospitality and Tourism Management****MBA 677. Directed Research. 3 credits.**

Opportunity for directed research in areas of specialized interest. Prerequisites: Permission of instructor and Master of Business Administration program director.

---

# Communication Sciences and Disorders

## Communication Sciences and Disorders

(540) 568-6440

<http://www.csd.jmu.edu>

### Interim Department Head

Dr. Charles Runyan

### Graduate Coordinator

Dr. Christy Ludlow

Doctor of Philosophy (Ph.D.) in Communication Sciences and Disorders Post-Au.D. Ph.D.

### Graduate Coordinator

Dr. Dan Halling

Doctor of Audiology (Au.D.) Dual Au.D./Ph.D.

### Graduate Coordinator

Dr. Cynthia O'Donoghue

Master of Science (M.S.) in Speech-Language Pathology

Combined M.S./Ph.D.

### Graduate Coordinator

Dr. Rory DePaolis

Master of Science (M.S.) in Communication Sciences and Disorders (Research)

### Professors

L. Gray, C. Ludlow, V. Reed, C. Runyan, R. Ruth, B. Ryals, J. Spindel

### Associate Professors

R. DePaolis, D. Halling, C. O'Donoghue

### Assistant Professors

C. Dudding, C. Jacobson, K. Johnson, A. Rout

### Adjunct Faculty

M. Alexiou, J. Barth, J. Burns, B. Ehren, K. Henry, J. Hollis, J. Jacobson, G. Mills, D. Neal, J. Rass, J. Sigafos

### Emeritus Faculty

N. Bankson, C. Bennett, M. Filter, R. Hinkle, R. Morris, N. O'Hare, S.E. Runyan, B. Seal

### Clinical Instructors

S. Ingram, M. Powell

## Admission

Specific admission requirements for individual programs are listed with each program description. Applications will be reviewed in accordance with slots that may be available. Using the submitted material, the department admissions committee will rank eligible candidates for a limited number of admissions. Students who have not met the undergraduate prerequisite course work for the clinical preparation programs in audiology and speech-language pathology may apply to the clinical graduate programs (Master of Sciences in Speech-Language Pathology or Doctor of Audiology) as a provisional student. Once the prerequisite course work has been completed at a satisfactory level, the student is shifted from provisional to either conditional or unconditional status.

Students applying for admission to either the M.S. program in Speech-Language Pathology or the Au.D. program should be aware that some of the clinical placement sites in which students are required to complete clinical practica in order to graduate will require the student to produce a current criminal records check. It is the student's responsibility to arrange for the check, to keep it current in order to comply with the requirements of the various clinical sites, and to advise the university and department if the status of the student's criminal record changes at any time during the student's program.

## Mission

The Department of Communication Sciences and Disorders is committed to providing comprehensive, state-of-the-art undergraduate pre-professional education that includes discipline-specific course work and observation. In keeping with university requirements, this includes a broad-based General Education component.

The department also provides graduate-level course work and practicum experiences for those interested in entering professional practice in either speech-language pathology or audiology, university teaching and research positions, or management/administrative positions in service delivery settings. The department is committed to advancing the state of knowledge in both basic and applied aspects of communication sciences and disorders through its master's and doctoral research degrees and the research activities of its faculty and students, and to providing service to the profession, university, and client communities at local, state, national, and international levels. Through its applied laboratory the department seeks to provide outreach services to the region as part of the clinical teaching component of its mission and to provide a clinical research resource for students and faculty.

The audiology and speech-language pathology clinical training graduate programs in the Department of Communication Sciences and Disorders are accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association.

## **Speech-Language-Hearing Applied Laboratory**

The JMU Applied Laboratory, operated by the Department of Communication Sciences and Disorders, provides evaluation and clinical intervention services for individuals with speech, language and hearing problems. The priority for services offered through this clinical teaching laboratory is determined by the needs of practicum students. Appointments for a consultation or evaluation may be made by any member of the general public or university community. Professional services are provided by expert certified speech-language pathologists and audiologists who supervise the practicum of students.

## **Doctor of Philosophy (Ph.D.) in Communication Sciences and Disorders**

A nationwide shortage of individuals with Ph.D.s in the communication sciences and disorders means that graduates are in high demand for employment in leadership positions in health facilities, universities and research centers. In addition to advanced course work related to communication disorders, students complete requirements in statistics, research design, hearing or speech sciences, a teaching\supervising internship, and dissertation.

The Ph.D. program is individualized to the specific interests of the student while assuring a rigorous educational experience appropriate to the research-training and advanced knowledge characteristics of the degree. Students may be admitted to the Ph.D. program at various stages, including 1) post-masters, 2) post-baccalaureate, and 3) post-Au.D., depending upon the individual's career goals. Some students may wish to pursue clinical qualifications in either audiology or speech-language pathology while concurrently undertaking their Ph.D. studies. All admitted students will undertake an individually-designed program emphasizing research tools, research activities and in-depth exposure to a major area of interest supported by study in a minor area.

### **Admission Requirements**

- Completion of a Bachelors Degree with a minimum 3.25 grade point average in major coursework.
- General GRE scores (verbal, quantitative, and writing).
- Three letters of recommendation on letterhead stationery.
- Personal written statement regarding career goals, reasons for pursuing a doctoral degree, and areas of research interest.
- Personal interview.

### **Degree Requirements**

The Ph.D. program affords a time for students to acquire the depth of knowledge, skills and experiences to empower them to create new knowledge in the field and to become expert researchers, leaders, teachers and/or supervisors. Each student's course of study is individually tailored to meet the student's interests and represents an agreement between the student and the student's advising committee. All students must pursue an advanced course of study that will include the following components:

- Core course work (8 credits).
- Speech and hearing science (CSD 867, Experimental Phonetics, 3 credits).
- Methods of measurement in CSD (CSD 805, Methods of Measurement in CSD, 3 credits).
- Professional issues and development (CSD 806, CSD 807, Ph.D. Professional Development Seminar I; Ph.D. Professional Development Seminar II, 1 credit each).
- Course work within the student's major area of emphasis (minimum: 14 credit hours <sup>1</sup>).
- Course work outside, but related to, the student's major area of emphasis (minimum: 6 credit hours <sup>1</sup>).
- Course work in statistical methods and research design (minimum: 12 credit hours <sup>1</sup>).
- Directed research experience (minimum: 6 credit hours <sup>1</sup>).
- Teaching and/or supervision experience (minimum: 2 credit hours <sup>1</sup>).

- Dissertation credit (minimum: 9 credit hours <sup>1</sup>).

<sup>1</sup> These requirements may be partially met for students holding a doctoral degree or concurrently completing another JMU doctoral program.

### Sample Curriculum for Post-Masters

Requirements	Credit Hours
Core course work	8
Major concentration course work	14
Outside, related course work	6
Research tools	12
Directed research	6
Teaching/Supervision	2
Dissertation (minimum of 9 credits)	9
<hr/>	
Total Hours	57

### Sample Curriculum for Post-Bachelors

Requirements	Credit Hours
Post-Bachelors course work (individually determined)	36-44
Core course work	8
Major concentration course work	14
Outside, related course work	6
Research tools	12
Directed research	6
Teaching/Supervision	2
Dissertation (minimum of 9 credits)	9
<hr/>	
Total Hours	93-101

### Sample Curriculum for Dual Au.D./Ph.D.

Requirements	Credit Hours
Doctor of Audiology requirements (includes 6 credits of dissertation)	100
Core course work	8
Major concentration course work	3
Outside, related course work	6
Research tools	3
Directed research	3
Teaching/Supervision	2
Dissertation (minimum of 5 credits)	5
<hr/>	
Total Hours	130

### Sample Curriculum for Post Au.D

Requirements	Credit Hours
Core course work	8
Major concentration course work	3
Outside, related course work	6
Research tools	3
Directed research	3
Teaching/Supervision	2
Dissertation (minimum of 5 credits – assumes 6 dissertation credits in Au.D.)	5
<hr/>	
Total Hours	30

## Doctor of Audiology (Au.D.)

This graduate clinical audiology program is a four-year post-baccalaureate program of study that prepares students for entry-level practice in the profession of audiology, including qualifying for licensure in audiology as awarded by the Virginia Board of Audiology and Speech Pathology.

Graduates are also eligible for certification in audiology granted by the American Speech-Language-Hearing Association (ASHA) unless the student opts out. Students admitted to this program are matriculated into a focused curriculum developed to prepare doctoral-level practitioners. Students admitted to the Doctor of Audiology program who already hold a master's degree in audiology will complete an individualized program of study composed of a minimum of 57 semester credit hours.

### Admission Requirements

- Completion of a Bachelors Degree with a minimum 3.25 grade point average in major coursework.
- Successful completion of any undergraduate prerequisite courses.
- General GRE scores (verbal, quantitative, and writing).
- Personal written statement regarding career goals, reasons for pursuing a doctoral degree, and areas of clinical and/or research interest.
- Professional vita or resume, including names and contact details of three individuals willing to serve as references.
- Personal interview, if invited.

### Degree Requirements

Required Courses	Credit Hours
CSD 511. Instrumentation in Audiology	3
CSD 512. Anatomy and Physiology of the Auditory and Vestibular Systems	3
CSD 513. Anatomy and Physiology of the Central Auditory Pathway	2
CSD 514. Audiologic Assessment	3
CSD 515. Human Communication and Aural Rehabilitation	3
CSD 516. Vestibular Physiology and Testing	3
CSD 523. Psychoacoustics	3
CSD 531. Industrial Audiology	2
CSD 533. Business Applications	3
CSD 551. Introduction to Hearing Aids	3
CSD 600. Research in Audiology	3
CSD 611. Neurophysiologic Measures I	5
CSD 621. Neurophysiologic Measures II	5
CSD 622. Advanced Hearing Aids	4

CSD 633. Auditory Pathophysiology	3
CSD 711. Pediatric Audiology	3
CSD 731. Medical Audiology	2
CSD 920. Dissertation	9-12
Seminars	
CSD 510. Seminar in Audiology (Clinical Methods I)	1
CSD 525. Seminar in Audiology (Clinical Methods II)	1
CSD 550. Seminar in Audiology (Tinnitus)	2
CSD 620. Seminar in Audiology (Research Proposal)	3
CSD 710. Seminar in Audiology (Geriatric Audiology)	1
CSD 720. Seminar in Audiology (Cochlear Implants)	2
CSD 810. Professional Seminar in Audiology	1
CSD 820. Professional Seminar in Audiology	1
Clinical Practicum	
CSD 519. Audiology Clinical Practicum A	3
CSD 539. Audiology Clinical Practicum B	2
CSD 619. Audiology Clinical Practicum C	3
CSD 629. Audiology Clinical Practicum D	3
CSD 639. Audiology Clinical Rotation A	3
CSD 719. Audiology Clinical Rotation B	3
CSD 729. Audiology Clinical Rotation C	3
CSD 819. Audiology Externship A or CE 850.	1-6
CSD 829. Audiology Externship B or CE 850.	1-6
CSD 839. Audiology Externship C or CE 850.	1-6
PSYC 605. Research and Inferential Statistics	3

---

(minimum) 100

## Master of Science (M.S.)

The Department of Communication Sciences and Disorders offers two concentrations in the Master of Science program. One is the Master of Science in Speech-Language Pathology. This is a clinical concentration designed to prepare individuals to practice as speech-language pathologists. The second is the Master of Science in Communication Sciences and Disorders. It is a non-clinical concentration designed for individuals who seek concentrated study in one or more areas of human communication sciences and/or communication disorders without clinical preparation as audiologists or speech-language pathologists.

Because this concentration provides the opportunity for more in-depth study in selected concentrations and involves students in active participation in research, it is designed to lay a solid foundation in communication sciences and disorders research, particularly for those individuals wanting to pursue further study at the Ph.D. level.

### M.S. in Speech-Language Pathology (clinical)

The master's degree program in speech-language pathology is designed to provide a broad spectrum of academic and practicum experiences necessary for the education of specialists who deal with disorders of human communication and swallowing.

Clinical practical experiences are available in a wide range of professional settings including the JMU Applied Laboratory, various hospital and rehabilitation programs, and the public schools. The academic and clinical components of the program are consistent with the requirements for certification in speech-language pathology of the American Speech-Language-Hearing Association and for health and education licensure in speech-language pathology by the state of Virginia. Applicants should have completed prerequisite undergraduate course work in communication sciences and disorders and/or related areas of study. Students may be admitted to the on-campus program with deficiencies but should be aware that appropriate undergraduate prerequisites must be completed.

Most students will be admitted as traditional on-campus students. However, the department also participates in a statewide collaborative online masters program, Distance Learning in Virginia – Educating Speech-Language Pathologists (DLVE-SLP), funded by a grant from the Virginia Department of Education. A few students who meet DLVE-SLP candidacy, including all prerequisite course work, may be admitted to the JMU master's program to undertake their master's degree in the primarily online program. These students will complete the program listed below for DLVE-SLP students. Although many of the requirements are completed in an online mode, interested individuals should be aware that there will be some on-campus requirements. These are typically scheduled for the summer period. Students interested in the DLVE-SLP program should consult [dlve-slp.cisat.jmu.edu](http://dlve-slp.cisat.jmu.edu) for more detailed information and the name of a contact person.

#### **Admission Requirements (for on-campus and online programs)**

- Completion of a Bachelors Degree with a minimum 3.25 grade point average in major coursework.
- Successful completion of any undergraduate prerequisite courses.
- General GRE scores (verbal, quantitative, and writing).
- Two letters of recommendation on letterhead stationery.

#### **M.S. in Speech-Language Pathology Requirements (on-campus)**

<b>Required Courses</b>	<b>Credit Hours</b>
CSD 500. Introduction to Research in Communication Sciences and Disorders	2
CSD 522. Communication Disorders of the Traumatically Brain Injured	2
CSD 527. Aging and Communication	1
CSD 528. Autism	1
CSD 529. Augmentative Communication	1
CSD 530. Early Intervention	1
CSD 544. Evaluation and Treatment of Swallowing Disorders	2
CSD 560. Neuromotor Speech Disorders	2
CSD 604. Neuroanatomy and Neurophysiology of Speech and Language	3
CSD 605. Physiological and Acoustical Phonetics	3
CSD 623. Advanced Study of Phonological Disorders	3
CSD 625. Pediatric Dysphagia	1
CSD 632. Processes and Disorders of Speech Fluency	2
CSD 640. Advanced Children's Language Disorders	3
CSD 641. Language Disorders in Adults	2
CSD 651. Disorders of Speech Resonance	2
CSD 656. Voice Disorders	3
Clinical Practicum	10
CSD 581. Intern Speech Practicum – required	2
CSD 582. Intern Speech Practicum – required	2
CSD 583. Summer Intern Speech Practicum – required	2
CSD 682. Extern Speech Practicum – required	2
CSD 683. Extern Speech Practicum or CE 650 – required	2-7
Electives	
CSD 5115. Human Communication and Aural Rehabilitation	3
CSD 520. Advanced Sign Language	3
CSD 680. Reading and Research	1 - 3
CSD 700. Thesis	6

(minimum) 44

## **M.S. in Speech-Language Pathology Requirements (online via DLVE-SLP)**

Students interested in the DLVE-SLP program should consult [dlve-slp.cisat.jmu.edu](http://dlve-slp.cisat.jmu.edu) for more detailed information and the name of a contact person.

<b>Required Courses</b>	<b>Credit Hours</b>
CSD 500. Introduction to Research in Communication Sciences and Disorders	2
CSD 522. Communication Disorders of the Traumatically Brain Injured	2
CSD 527. Aging and Communication	1
CSD 528. Autism	1
CSD 529. Augmentative Communication	1
CSD 530. Early Intervention	1
CSD 544. Evaluation and Treatment of Swallowing Disorders	2
CSD 560. Neuromotor Speech Disorders	2
CSD 604. Neuroanatomy and Neurophysiology of Speech and Language	3
CSD 605. Physiological and Acoustical Phonetics	3
CSD 623. Advanced Study of Phonological Disorders	3
CSD 625. Pediatric Dysphagia	1
CSD 632. Processes and Disorders of Speech Fluency	2
CSD 640. Advanced Children's Language Disorders	3
CSD 641. Language Disorders in Adults	2
CSD 651. Disorders of Speech Resonance	2
CSD 656. Voice Disorders	3
Clinical Practicum	10
CSD 581. Intern Speech Practicum – required	2
CSD 582. Intern Speech Practicum – required	2
CSD 583. Summer Intern Speech Practicum – required	2
CSD 682. Extern Speech Practicum – required	2
CSD 683. Extern Speech Practicum or CE 650 – required	2-7
Electives	
CSD 5115. Human Communication and Aural Rehabilitation	3
CSD 520. Advanced Sign Language	3
CSD 680. Reading and Research	1-3
CSD 700. Thesis	6

(minimum) 44

## **M.S. in Communication Sciences and Disorders (research)**

The master's degree program in communication sciences and disorders is a non-clinical program that combines concentrated study in selected areas of human communication sciences and/or communication disorders and active research participation and research training. For individuals who wish to pursue further study at the Ph.D. level, the program offers a solid foundation in communication sciences and disorders research. Students select one area (Category C course work) from among four possible areas and complete the course work in that area in addition to the course work in the three other categories (A, B and D), as indicated below, for a total of a minimum of 36 credit hours. Completion of a thesis and participation in directed research experiences are essential parts of the program.

### **Admission Requirements**

- Completion of a Bachelors Degree with a minimum 3.25 grade point average in major coursework.
- General GRE scores (verbal, quantitative, and writing).
- Three letters of recommendation on letterhead stationery.

- Personal written statement regarding career goals, reasons for pursuing a research degree, and areas of research interest.

### **M.S. in Communication Sciences and Disorders Requirements**

<b>Required Courses</b>	<b>Credit Hours</b>
Category A: Research Design and Statistics	(minimum) 9
CSD 500. Introduction to Research in Communication Sciences and Disorders	2-3
or CSD 600. Research in Audiology	
Choose, in conjunction with major adviser, at least 6 credits from the following:	6
PSYC 600. Introduction to Measurement and Statistics	
PSYC 604. Computer Assisted Data Management	
PSYC 605. Research and Inferential Statistics	
PSYC 608. Multivariate Statistical Methods	
PSYC 609. Applied Research Methods	
PSYC 840. Qualitative Research Design and Analysis	
HTH 655. Research Techniques	
or other courses as approved	
Category B: Speech/Hearing Sciences and Instrumentation	(minimum) 6
Choose, in conjunction with major adviser, at least 6 credits from the following:	6
CSD 511. Instrumentation in Audiology	
CSD 512. Anatomy and Physiology of the Auditory and Vestibular Systems	
CSD 513. Anatomy and Physiology of the Central Auditory Pathway	
CSD 523. Psychoacoustics	
CSD 604. Neuroanatomy and Neurophysiology of Speech and Language <sup>2</sup>	
CSD 605. Physiological and Acoustical Phonetics <sup>2</sup>	
Category C: Areas of Concentration (Complete one area)	(minimum) 9
Area 1. Adult Neurogenic Communication Impairment	
CSD 718. Independent Study	3
Choose at least 6 credits, as approved by major adviser, from the following:	6
CSD 515. Human Communication and Aural Rehabilitation	
CSD 522. Communication Disorders of the Traumatically Brain Injured	
CSD 527. Aging and Communication	
CSD 532. Counseling in Audiology	
CSD 544. Evaluation and Treatment of Swallowing Disorders	
CSD 560. Neurometer Speech Disorders	
CSD 641. Language Disorders in Adults	
CSD 710. Geriatric Audiology	
Area 2. Pediatric Communication Impairment	
CSD 718. Independent Study	3
Choose at least 6 credits, as approved by major adviser, from the following:	6
CSD 515. Human Communication and Aural Rehabilitation	
CSD 528. Autism	

CSD 529. Augmentative Communication  
 CSD 530. Early Intervention  
 CSD 623. Advanced Study of Phonological Disorders  
 CSD 625. Pediatric Dysphagia  
 CSD 640. Advanced Children's Language Disorders

#### Area 3. Speech Production Disorders

CSD 718. Independent Study	3
Complete at least 6 credits, as approved by major adviser, from the following:	6
CSD 560. Neuromotor Speech Disorders	
CSD 604. Neuroanatomy and Neurophysiology of Speech and Language <sup>2</sup>	
CSD 605. Physiological and Acoustical Phonetics <sup>2</sup>	
CSD 651. Disorders of Speech Resonance	
CSD 656. Voice Disorders	

#### Area 4. Hearing and Hearing Disorders

CSD 718. Independent Study	3
Complete at least 6 credits, as approved by major adviser, from the following:	6
CSD 512. Anatomy and Physiology of the Auditory and Vestibular Systems	
CSD 513. Anatomy and Physiology of the Central Auditory Pathway	
CSD 516. Vestibular Physiology and Testing	
CSD 523. Psychoacoustics	
CSD 611. Neurophysiologic Measures I	
CSD 621. Neurophysiologic Measures II	
CSD 633. Auditory Pathophysiology	

Category D: Research and Thesis	(minimum) 12
CSD 717, 791, 792, 793, or 817, 917. Directed Research	6
CSD 700. Thesis	6

---

(minimum) 36

<sup>2</sup> These courses cannot be used to complete requirements in more than one category of study.

## Financial Aid

Graduate assistantships are available on a competitive basis to graduate students. In addition, fellowships funded by the Scottish Rite Foundation of Virginia are available to graduate students admitted to the graduate program with the concentration in speech-language pathology. Scottish Rite Fellowships are restricted to Virginia residents who intend to pursue positions with language-impaired children in Virginia. Contact the graduate coordinators in the department for information.

## Course Offerings

### Communication Sciences and Disorders

**CSD 500. Research in Communication Sciences and Disorders.** 2 credits.

Focuses on both basic and applied research interpretation.

**CSD 501. Workshops in Speech-Language Pathology and Audiology.** 3 credits.

Designed to provide a detailed study of a particular topic of interest in speech pathology and/or audiology.

Prerequisite: Permission of department head.

**CSD 510. Seminar in Audiology (Clinical Methods).** 1-3 credits.

This course addresses selected topics, issues and other content designed to prepare students for clinical practice in audiology. Content is treated on an introductory level with emphasis upon problem solving and integration of information across didactic and practical knowledge toward clinical skill development.

**CSD 511. Instrumentation in Audiology.** 3 credits.

A study of topics and procedures of instrumentation fundamental to clinical practice including electricity and electronics, filters, calibration, acoustical impedance, analog and digital signals, and acoustics.

**CSD 512. Anatomy and Physiology of the Auditory and Vestibular Systems.** 3 credits.

Advanced study of the anatomy and physiology of the auditory and vestibular systems to include cochlear and neural mechanisms of sound coding.

**CSD 513. Anatomy and Physiology of the Central Auditory Pathway.** 2 credits.

Advanced study of the anatomy and physiology of the central auditory pathway from the cochlear nucleus to the auditory cortex. Neural bases for encoding cues for intensity, frequency and localization will be discussed. Normal mechanisms will be discussed in light of diagnosis and treatment of pathological processes.

**CSD 514. Audiologic Assessment.** 3 credits.

A study of auditory disorders and the measurement of hearing including an overview of behavioral and physiologic measures. Emphasis is placed on the behavioral evaluation of the peripheral system, tests of cochlear and retrocochlear differentiation, and immittance measures.

**CSD 515. Human Communication and Aural Rehabilitation.** 3 credits.

This course focuses on the impact of hearing loss on human communication across the lifespan. Aural habilitation and rehabilitation procedures common to the 20th century are compared with today's trends and with projected advances expected for the 21st century.

**CSD 516. Vestibular Physiology and Testing.** 3 credits.

Advanced study of the anatomy and physiology of the oculomotor and vestibular systems. Detailed study of basic and advanced concepts in clinical testing, treatment and mechanisms of rehabilitation of disorders of the vestibular and balance system.

**CSD 519. Audiology Clinical Practicum A.** 3 credits.

Supervised clinical practicum at the Communication Sciences and Disorders Applied Laboratory and a variety of other settings. Lab fee required. Prerequisite: CSD 510.

**CSD 520. Advanced Sign Language.** 3 credits.

Advanced sign language will enhance the communication skills of the student whose core vocabulary and knowledge of application of sign language are basic. The course arranges opportunities for building fluency and reception, as well as expanding knowledge of sign systems and the appropriateness in a given situation. Prerequisite: CSD 420 or permission of instructor.

**CSD 522. Communication Disorders of the Traumatically Brain Injured.** 2 credits.

An overview of the role of speech-language pathology in the interdisciplinary management of cognitive-communicative deficits associated with traumatic brain injury.

**CSD 523. Psychoacoustics.** 3 credits.

A study of the relationship between a sound stimulus and the behavioral response it produces in a listener.

**CSD 524. Audiologic Assessment II.** 3 credits.

A study of various measures of auditory function including an overview of common physiologic techniques of hearing and balance, tests of pseudohypacusis, and central auditory dysfunction. Consideration is provided to variation in technique for different age populations and the difficult-to-test.

**CSD 525. Seminar in Audiology (Clinical Methods II).** 1-3 credits.

This course addresses selected topics, issues and other content designed to prepare students for clinical practice in audiology. Content is treated on an introductory level with emphasis upon problem solving, integration of information across didactic and practical knowledge toward clinical skill development.

**CSD 526. Supervision in Speech Language Pathology and Audiology.** 1 credit.

The American Speech-Language-Hearing Association guidelines for clinical supervision form the basis for the study of the supervisory process. Problems in supervision and current research will offer students models and techniques to apply as a supervisee or supervisor.

**CSD 527. Aging and Communication. 1 credit.**

A study of the processes underlying normal aging and the potential effects of senescence on communication abilities. Emphasis is placed on the speech, language, and cognitive therapeutic interventions relative to geriatric care. Prerequisite: CSD 641. Language Disorders in Adults (recommended).

**CSD 528. Autism. 1 credit.**

Focus on demographics of autism spectrum disorders, historical and contemporary diagnostic and treatment procedures, and the role of the speech-language pathologist in interdisciplinary programs.

**CSD 529. Augmentative Communication. 1 credit.**

Assessment and intervention strategies for the speechless population will be presented. Students will participate in demonstrations of alternative communication systems. An interdisciplinary team approach to (re)habilitation will be studied.

**CSD 530. Early Intervention. 1 credit.**

Introduction to early intervention programs and approaches for infants and toddlers with emphasis on the role of the speech-language pathologist in team intervention.

**CSD 531. Industrial Audiology. 2 credits.**

A study of the effects of noise upon humans and topics relevant to hearing conservation, such as noise assessment and risk factors, hearing protectors, audiometric testing, employee training, and record keeping.

**CSD 532. Counseling in Audiology. 2 credits.**

This course introduces graduate students to counseling within the discipline of audiology, particularly treating special needs of individuals and the families/caregivers of individuals with hearing loss. Indicators that suggest counseling as an additional service are also covered.

**CSD 533. Business Applications in Audiology. 3 credits.**

This course focuses on the various professional and business practices and regulations that impact audiology. Topics include licensure, certification, ethical and professional standards of practice, as well as practice management and business methods common to the practice of audiology.

**CSD 539. Audiology Clinical Practicum B. 2 credits.**

Supervised clinical practicum at the Communication Sciences and Disorders Applied Laboratory and a variety of other settings. Lab fee required. Prerequisites: CSD 519 and CSD 525.

**CSD 540. Language Development and Disorders in Children for School Personnel.**

3 credits.

A comprehensive study of the language development of children, the various characterizations of language impairment in children and intervention issues and strategies with a particular focus on academic and educational implications and interdisciplinary management in daycare, preschool and school environments.

**CSD 544. Evaluation and Treatment of Swallowing Disorders. 2 credits.**

Current research and clinical management will be presented of individuals showing difficulties in feeding orally and aspirating. Normal physiology of deglutition and the multidisciplinary approach toward the management of dysphagia will be emphasized.

**CSD 550. Seminar in Audiology (Tinnitus). 1-3 credits.**

This course addresses selected topics, issues and other content designed to prepare students for clinical practice in audiology. Content is treated on an intermediate level with emphasis upon problem solving and integration of information across didactic and practical knowledge toward clinical skill development.

**CSD 551. Introduction to Hearing Aids. 3 credits.**

A study of hearing handicap and its management in adults, including amplification technologies, electroacoustic analyses, and prescription and verification procedures. Emphasis is on the foundations of clinical management.

**CSD 560. Neuromotor Speech Disorders. 2 credits.**

The objective of this course is to familiarize students with the theoretical and clinical aspects in the areas of dysarthria and apraxia. Similarities and differences of the speech impairments in these disorders will be demonstrated and applied to diagnosis and treatment.

**CSD 561. AR for Audiology. 1 credit.**

Clinical practicum in aural rehabilitation.

**CSD 563. SLP for Audiology. 1 credit.**

Speech-language pathology practicum for the audiology major.

**CSD 581. Intern Speech Practicum. 2 credits.**

Speech-language pathology practicum. This particular practicum course must be completed as part of the total 10 credits in practicum courses.

**CSD 582. Intern Speech Practicum. 2 credits.**

Speech-language pathology practicum. This practicum course must be completed as part of the total 10 credits in practicum courses. Satisfactory completion of the course requires participation in professional development activities as outlined in the course syllabus, in addition to clinical practicum. Prerequisites: CSD 581, CSD 623 and CSD 640 or permission of instructor.

**CSD 583. Summer Intern Speech Practicum. 2 credits.**

Speech-language pathology practicum. This particular practicum course must be completed as part of the total 10 credits in practicum courses. Prerequisites: CSD 581, CSD 623 and CSD 640 or permission of instructor.

**CSD 600. Research in Audiology. 3 credits.**

Evaluations of research designs and methods in audiology, critique of published articles and student involvement in designing experiments on assigned topics.

**CSD 604. Neuroanatomy and Neurophysiology of Speech and Language. 3 credits.**

Neuroanatomy and neurophysiology with an emphasis on speech and language behavior. Comprehensive examination of the neuroanatomic and neurophysiologic substrate for cognition and communication.

**CSD 605. Physiological and Acoustical Phonetics. 3 credits.**

Respiratory, phonatory, resonatory and articulatory components of speech output are considered. Theoretical models of speech production and reception are discussed.

**CSD 611. Neurophysiologic Measures I. 5 credits.**

Study of the neurophysiological and electrophysiological properties of the human peripheral and central auditory pathways.

**CSD 619. Audiology Clinical Practicum C. 3 credits.**

Supervised clinical practicum at the Communication Sciences and Disorders Applied Laboratory and a variety of other settings. Prerequisite: CSD 539 or permission of instructor.

**CSD 620. Seminar in Audiology (Research Proposal). 1-3 credits.**

This course provides students the opportunity to explore research questions in various areas of audiology, to develop hypotheses and design appropriate research methodology. The expectation at the conclusion of the course is that students will have designed a research proposal that can provide a foundation for dissertation research.

**CSD 621. Neurophysiologic Measures II. 5 credits.**

Advanced study of the neurophysiological and electrophysiological properties of the human auditory and related sensory and motor systems.

**CSD 622. Advanced Hearing Aids. 4 credits.**

An advanced study of hearing handicap and its prosthetic management. Various technologies, prescription methods and verification procedures are critically reviewed.

**CSD 623. Advanced Study of Phonological Disorders. 3 credits.**

Articulatory phonetics, phonological processes and co-articulation are considered. Emphasis is given to analysis of phonological delays/disorders and specific procedures of remediation.

**CSD 625. Pediatric Dysphagia. 1 credit.**

The study of feeding and swallowing disorders in children. Instrumental and neuro developmental evaluation will be presented. Management techniques for feeding and swallowing difficulties will be advanced.

**CSD 629. Audiology Clinical Practicum D. 3 credits.**

Supervised clinical practicum at the Communication Sciences and Disorders Applied Laboratory and a variety of other settings. Prerequisite: CSD 619 or permission of instructor.

**CSD 632. Processes and Disorders of Speech Fluency. 2 credits.**

Advanced diagnostic and therapeutic aspects of stuttering for children and adults are studied. Particular emphasis is placed on differentiating incipient stuttering from normal disfluencies.

**CSD 633. Auditory Pathophysiology. 3 credits.**

A study of the various disorders of the external, middle and inner ears; the retrocochlear and central auditory systems; and the vestibular and balance system.

**CSD 639. Audiology Clinical Rotation A. 3 credits.**

Supervised clinical practicum at clinical settings external to the Communication Sciences and Disorders Applied Laboratory. Prerequisites: CSD 629, permission of instructor and head of department.

**CSD 640. Advanced Children's Language Disorders. 3 credits.**

Comprehensive study of children's pragmatic, semantic and syntactic impairments. Emphasis is placed upon etiologies, evaluation and habilitation procedures.

**CSD 641. Language Disorders in Adults. 2 credits.**

Theoretical comparative aspects and clinical management of aphasia in adults are emphasized. Communication disorders associated with right hemisphere brain damage are also considered.

**CSD 649. Selected Clinical Topics in Audiology. 4 credits.**

Discussion of advanced topics relevant to audiology, emphasizing the synthesis of theory with clinical practice.

**CSD 651. Disorders of Speech Resonance. 2 credits.**

The study of cleft palate and other orofacial abnormalities and their associated speech disorders. Advanced study in the diagnosis and management of cleft palate speech will be provided.

**CSD 656. Voice Disorders. 3 credits.**

The study of laryngeal functions and disorders. In-depth study of acoustic and physiologic parameters of the vocal mechanism. Emphasis is given to the diagnosis and management of vocal pathologies.

**CSD 659. Reading and Research in Audiology. 1-3 credits.**

This course will review recent professional literature of interest with emphasis on content and research design. For students not electing the thesis option, a study of empirical nature will be required.

**CSD 680. Reading and Research. 1-3 credits.**

Designed to allow graduate students to pursue independent study and/or research in the area of speech, language and hearing disorders under appropriate faculty supervision. May be repeated for credit. Prerequisite: Permission of department head.

**CSD 682. Extern Speech Practicum. 2 credits.**

Supervised speech-language pathology practicum. This practicum course must be completed as part of the total 10 credits in practicum courses. Length and frequency of clinical experience determined by CAC and the director of clinical education in accordance with student's clinical needs. Prerequisites: CSD 582, CSD 583, and, if in an adult setting off-campus, CSD 544.

**CSD 683. Extern Speech Practicum. 2-7 credits. or****CE 650. Graduate Internship. 1-5 credits.**

Supervised speech-language pathology practicum. Length and frequency of clinical experience determined by CAC and the director of clinical education in accordance with student's clinical needs. Both CSD 683 and CE 650 may be repeated for credit. Prerequisites: CSD 682, permission of head of department and, if in an adult setting, CSD 544.

**CSD 690. Advanced Seminar in Speech Pathology and Audiology. 1-3 credits.**

This course will cover advanced considerations relative to the diagnosis and management of individuals with speech, language and hearing disorders. Prerequisite: Permission of department head.

**CSD 691. Professional Seminar in Audiology. 1-3 credits.**

A review of professional training emphasizing case management using a grand rounds approach. This course will serve as a capstone experience integrating theory and practice; it will be offered in conjunction with the full-time externship experience.

**CSD 698. Comprehensive Continuance. 1 credit.**

Continued preparation in anticipation of the comprehensive examination. Course may be repeated.

**CSD 699. Thesis Continuance. 2 credits.**

Continued study, research and writing in the area of thesis concentration. Course may be repeated as needed will not be required to complete the written comprehensive examination. Students should talk with their advisers prior to selecting this option.

**CSD 700. Thesis Research. 1-6 credits.**

The thesis option generally requires three to four semesters to complete. Students choosing the thesis option will not be required to complete the written comprehensive examination. Students should talk with their adviser prior to this option. This course is graded on a satisfactory/unsatisfactory/ incomplete (S/U/I) basis.

**CSD 710. Seminar in Audiology (Geriatric Audiology). 1 credit.**

The study of the aging process as it relates to communication and hearing. Evaluation and treatment strategies for the geriatric client are emphasized, along with special topics related to aging including auditory anatomy and physiology, diagnostic and rehabilitative services, and changes in auditory perception with advancing age.

**CSD 711. Pediatric Audiology. 3 credits.**

Normal and pathological development of the auditory system; pediatric audiometric assessment; auditory and communication aspects in the habilitation of hearing-impaired children.

**CSD 717, 817, 917. Directed Research. 1-3 credits.**

This course sequence provides opportunity for research in an area of special interest as directed by a faculty mentor. Emphasis on developing a question and hypothesis, selecting subjects and variables to investigate, collecting and analyzing data, and reporting results should provide the student with a meaningful research experience.

**CSD 718, 818, 918. Independent Study. 1-3 credits.**

This course sequence provides opportunities for in-depth study in an area of special interest as directed by a faculty member.

**CSD 719. Audiology Clinical Rotation B. 3 credits.**

Supervised clinical practicum at clinical settings external to the Communication Sciences and Disorders Applied Laboratory. Prerequisites: CSD 639 and permission of head of department.

**CSD 720. Seminar in Audiology (Cochlear Implants). 1 credit.**

This course addresses selected topics, issues and other content designed to prepare students for clinical practice in audiology. Content is treated on an advanced level with emphasis upon problem solving and integration of information across didactic and practical knowledge toward clinical skill development.

**CSD 721. Hearing Aids and Signal Processing. 3 credits.**

Study of advanced concepts in signal processing as applied to real-world applications in digital speech processing, active noise reduction, and applications in advanced hearing device designs and telecommunications.

**CSD 729. Audiology Clinical Rotation C. 3 credits.**

Supervised clinical practicum at clinical settings external to the Communication Sciences and Disorders Applied Laboratory. Prerequisites: CSD 719 and permission of head of department.

**CSD 731. Medical Audiology. 2 credits.**

Advanced study of the diagnosis and evaluation of hearing and balance disorders.

**CSD 791. Directed Research. 1 credit.**

This course provides the opportunity for research in an area of special interest as directed by a faculty mentor. Students are required to participate in gathering data and observing the process of developing new knowledge through research. Emphasis is placed on the student becoming an expert consumer of research, as well as gaining an appreciation for research methodology.

**CSD 792. Directed Research. 1 credit.**

This course provides the opportunity for research in an area of special interest as directed by a faculty mentor. Students are required to participate in gathering data and observing the process of developing new knowledge through research. Emphasis is placed on the student becoming an expert consumer of research, as well as gaining an appreciation for research methodology.

**CSD 793. Directed Research. 1 credit.**

This course provides the opportunity for research in an area of special interest as directed by a faculty mentor. Students are required to participate in gathering data and observing the process of developing new knowledge through research. Emphasis is placed on the student becoming an expert consumer of research, as well as gaining an appreciation for research methodology.

**CSD 805. Methods of Measurement in CSD. 3 credits.**

Principles for applying instruments, technologies and measurement tools to research in a wide variety of investigations and clinical applications in communication sciences and disorders. A survey and in-depth review of the principal equipment and instrumentation that is available and predicted to be available to researchers and clinicians in the communication sciences and disorders.

**CSD 806. Ph.D. Professional Development Seminar I. 1 credit.**

Discusses issues related to success in Ph.D. programs and development of skills as a researcher, leader, expert clinician and academician, such as characteristics of successful Ph.D. students; approaches to integrating course work; research learning; preparing review papers and research proposals; ethics in Ph.D. education and research; issues related to IRBs; intellectual property; collaborations; scholarly networks; authorships; and the funding of research. Topics are selected and designed to meet the individual needs of specific cohorts of CSD Ph.D. students early in their programs.

**CSD 807. Ph.D. Professional Development Seminar II. 1 credit.**

Discusses issues related to preparing for the dissertation experience and life beyond a Ph.D. program. Topics may include strategies for writing up scientific results; differences between dissertations and research articles; getting into print; strategies for presenting research and strategic selection of venues; and planning and developing an academic/research career, such as the first job and post docs, choosing the employer, the application and selection process, establishing oneself as a researcher, scholar, and academic, surviving the first university position, facts and fiction of tenure and promotion, and thinking beyond the first job (career planning). Specific topics are selected and designed to meet the individual needs of specific cohorts of CSD Ph.D. students that apply later in their programs.

**CSD 810. Professional Seminar in Audiology. 1-3 credits.**

This course addresses selected topics, issues and other content designed to prepare students for clinical practice in audiology. Content is treated on an expert level with emphasis upon problem solving and integration of information across didactic and practical knowledge toward clinical skill development.

**CSD 819. Audiology Externship A. 1-6 credits. or****CE 850. Professional Internship. 1-5 credits, which may be repeated for credit.**

Full-time clinical practicum with limited supervision at clinical settings external to the Communication Sciences and Disorders Applied Laboratory. Prerequisites: CSD 729, permission of instructor and head of department.

**CSD 820. Professional Seminar in Audiology. 1-3 credits.**

This course addresses selected topics, issues and other content designed to prepare students for clinical practice in audiology. Content is treated on an expert level with emphasis upon problem solving and integration of information across didactic and practical knowledge toward clinical skill development.

**CSD 829. Audiology Externship B. 1-6 credits. or****CE 850. Professional Internship. 1-5 credits, which may be repeated for credit.**

Full-time clinical practicum with limited supervision at clinical settings external to the Communication Sciences and Disorders Applied Laboratory. Prerequisites: CSD 819, permission of instructor and head of department.

**CSD 830. Professional Seminar in Audiology. 1-3 credits.**

This course addresses selected topics, issues and other content designed to prepare students for clinical practice in audiology. Content is treated on an expert level with emphasis upon problem solving and integration of information across didactic and practical knowledge toward clinical skill development.

**CSD 839. Audiology Externship C. 1-6 credits. or****CE 850. Professional Internship. 1-5 credits, which may be repeated for credit.**

Full-time clinical practicum with limited supervision at clinical settings external to the Communication Sciences and Disorders Applied Laboratory. This course may be repeated, with permission of the instructor, for up to 6 credits. Prerequisites: CSD 829, permission of instructor and department head.

**CSD 841. Teaching Experience in CSD. 2 credits.**

With a faculty member, the student will engage in team-teaching of selected undergraduate/graduate course(s). In preparing for the teaching experience, students will examine scholarly literature related to the development of course objectives and learning activities, theories of student's learning at the college level, and method of assessment at the college level.

**CSD 842. Supervision Experience in CSD. 2 credits.**

Students enrolled in the course may be supervised in a clinical assignment or, if ASHA certification has been awarded, as a supervisor. Students and supervisors will be equipped for participation in the clinical teaching process. The tasks and skills of clinical teaching is a specialty area of practice as it relates to the interaction between a clinician and client. Clinical teaching will be examined through observation, conferences, review of records and communication skills. Competencies for the student clinician and for the clinical teacher will be examined in the literature and incorporated into presentation of research in supervision and current trends in work settings.

**CSD 850. Advanced Seminar in CSD: Adult Language Disorders. 2-3 credits.**

This seminar focuses on the current views of etiology, assessment and treatment procedures of adult language disorders.

**CSD 851. Advanced Seminar in CSD: Child Language Disorders. 2-3 credits.**

This seminar focuses on the current views of etiology, assessment and treatment procedures of child language disorders.

**CSD 852. Advanced Seminar in CSD: Communication Enhancement. 2-3 credits.**

This seminar focuses on the current views of assessment and treatment procedures of communication enhancement.

**CSD 853. Advanced Seminar in CSD: Aerodigestive Concerns. 2-3 credits.**

This seminar focuses on the current views of etiology, assessment and treatment procedures of aerodigestive disorders.

**CSD 854. Advanced Seminar in CSD: Early Intervention. 2-3 credits.**

This seminar focuses on the current views of assessment and treatment procedures of early intervention.

**CSD 855. Advanced Seminar in CSD: Fluency Disorders. 2-3 credits.**

This seminar focuses on the current views of etiology, assessment and treatment procedures of fluency disorders.

**CSD 856. Advanced Seminar in CSD: Normal Communication Development. 2-3 credits.**

This seminar focuses on the current views of human communication development over the life span.

**CSD 857. Advanced Seminar in CSD: Motor Speech Disorders. 2-3 credits.**

This seminar focuses on the current views of etiology, assessment and treatment procedures of motor speech disorders.

**CSD 858. Advanced Seminar in CSD: Neurolinguistics. 2-3 credits.**

This seminar would be devoted to study and discussion of one or more topics current in neurolinguistic investigation. Possible topics include PET and fMRI studies of language processing; event-related potentials; connectionist models of speech errors and paraphasias; morphosyntactic disorders in language disorders; role of prosody in language processing and neurological disorders; pragmatic studies of populations with brain damage.

**CSD 859. Advanced Seminar in CSD: Clinical Phonology Disorders. 2-3 credits.**

This seminar focuses on the current views of etiology, assessment and treatment procedures of phonological disorders.

**CSD 860. Advanced Seminar in CSD: Disorders of Resonance. 2-3 credits.**

This seminar focuses on the current views of etiology, assessment and treatment procedures of disorders of resonance.

**CSD 861. Advanced Seminar in CSD: Voice Disorders. 2-3 credits.**

This seminar focuses on the current views of etiology, assessment and treatment procedures of voice disorders.

**CSD 862. Advanced Seminar in CSD: Selected Topics I. 2-3 credits.**

This seminar focuses on advanced study of selected topics of interest in communication sciences and disorders. May be repeated for credit.

**CSD 865. Advanced Seminar in CSD: Infant Language and Speech Perception.  
2-3 credits.**

Topics include infant speech perception, production and the link between production and perception, infant language development in the larger cognitive context highlighting the links between language, memory, motor skills, vision, innate ability and consciousness, the impact of developmental disorders on early language development, and how ontogeny can inform phylogeny. Transcription of infant speech, identification of words and play activities, and analysis of speech perception data are included.

**CSD 866. Advanced Seminar in CSD: Genetic Bases of Communication Disorders.**

2-3 credits.

This seminar will examine current knowledge with regard the genetic bases of a range of hearing, speech and language impairments. Implications for clinical intervention and future research directions will be explored.

**CSD 867. Experimental Phonetics.** 3 credits.

Advanced and in-depth study of speech perception and production, including acoustics, intelligibility, current technologies and instrumentations, and theoretical models guiding research approaches.

**CSD 920. Doctoral Dissertation in CSD.** 1-12 credits.

Culminating research project. Enrollment beyond second semester is contingent upon dissertation committee approval. This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis.

**CSD 921. Dissertation Continuance.** 1 credit.

Required continuance for dissertation after 12 credits earned for CSD 920.

## Department Head

Dr. Sharon Simmons

## Graduate Coordinators

Dr. Ralph Grove

Dr. M. Hossain Heydari

## Professors

D. Bernstein, P. Cushman, C. Fox, S. Frysinger, R. Grove, J. A. Harris, M. H. Heydari, B. Kraimeche, M. Lane, J. Marchal, R. Mata-Toledo

## Associate Professors

M. Aboutabl, M. Norton, B. Tjaden, X. Wang

## Assistant Professor

F. Buchholz

## Instructor

T. Daughtrey

## Adjunct Faculty

J. McDermott, R. West

---

## Mission

The graduate program in computer science prepares highly skilled professionals with advanced expertise in creating and maintaining secure and reliable computing systems. Two different concentrations are available: Information Security and Secure Software Systems. Both concentrations lead to the M.S. degree in computer science and include courses in core areas of computer science.

## Information Security

We are committed to providing a premier information security education that equips graduates with the knowledge and skills necessary to design, implement, and maintain secure modern information infrastructures and systems. InfoSec is a distance-education offering, completely Internet-based. Students can expect to finish their studies in two to two and one half years.

## Secure Software Systems

The secure software systems concentration prepares professionals with advanced expertise that allows them to participate successfully in real-world efforts to produce, evaluate, and maintain secure and reliable software. This concentration is offered as a traditional two-year graduate curriculum or as a five-year curriculum in combination with an undergraduate degree.

Full-time on-campus graduate students can expect to complete their degree in two years. For students in the five-year concentration the first year of graduate studies is combined with the senior year of undergraduate studies. Part-time students are welcome and may pursue their academic objectives at a pace consistent with their professional and personal obligations.

## Admission Criteria

Admission to the program is competitive. Preference is given to students with undergraduate preparation in computer science or professional experience in computing. Strong students from other disciplines are also encouraged to apply. Students judged able to complete the program but lacking background in computing can be admitted with a conditional requirement to complete a preparatory course sequence in computer science.

## Concentrations

### Concentration in Information Security

Dr. M. Hossain Heydari, Concentration Director

This concentration is offered in a remote, electronic distance-learning format that, while satisfying all requirements for the Master of Science program, is especially appropriate for people with professional interests in information security. Further information can be obtained from the InfoSec Web site. The distance-learning courses are available only to students in the information security concentration, who will pay a different tuition rate than students taking traditional courses at the university.

Students completing this concentration will also receive two NSA approved certificates: Information Systems Security (INFOSEC) Professionals (NSTISSI No. 4011) and Information Systems Security Officers (CNSSI No. 4014).

#### Information Security Concentration Requirements

Minimum Requirements	Credit Hours
CS 523. Ethics, Law and Policy in Cyberspace	3
CS 550. Operating Systems	3
CS 555. Secure Software Engineering	3
CS 560. Networks and Network Security	3
CS 621. Software Assurance	3
CS 625. Secure Operations	3
CS 627. Cryptography: Algorithms and Applications	3
CS 652. Formal Methods for Information Security	3
CS 660. Advanced Network Security	3
	27

Thesis Route	Credit Hours
CS 700. Thesis	6
	33

Non-Thesis Route	Credit Hours
CS 633. Computer Forensics	3
CS 675. Distributed Computing and Security or CS 685. Selected Topics	3
	33

#### Preparatory Courses

Depending on undergraduate background and work experience, students may be required to take one or more of the following preparatory courses. These courses do not satisfy degree requirements for the Information Security concentration.

Courses	Credit Hours
CS 510. Object Oriented Programming	3
CS 511. Computer Organization	3
CS 512. Data Structures	3
CS 515. Foundations of Computer Science	3

## Certificate Courses

Eligible students may take certificate courses CS 502 – CS 506 to receive specific security certificates.

## Concentration in Secure Software Systems

Dr. Ralph Grove, Concentration Director

The secure software systems concentration integrates studies in software engineering with information security. This concentration includes core computer science courses, courses in software engineering, courses in security and networking, and electives. Students with exceptional undergraduate preparation may choose electives in place of selected required courses with prior approval of the concentration coordinator. For electives, students may also choose independent studies, reading and research courses, a thesis, or special courses offered by faculty on topics of interest.

Students completing this concentration will also receive the Information Systems Security (INFOSEC) Professionals certificate (NSTISSI No. 4011).

This concentration is available on campus only. Additional information can be found at <http://www.cs.jmu.edu/sss>.

### Secure Software Systems Concentration Requirements

Requirements	Credit Hours
CS 530. Programming Languages	3
CS 550. Operating Systems	3
CS 552. Applied Complexity Theory	3
CS 555. Secure Software Engineering	3
CS 557. Information Security	3
CS 574. Database Systems	3
CS 610. Networking and Security	3
CS 633. Computer Forensics	3
CS 635. Secure Network Operations	3
CS 666. Software Construction and Testing	3
Approved Electives in Computer Science	6
<hr/>	
	36

### Five-Year Concentration in Secure Software Systems

Dr. Ralph Grove, Concentration Director

This concentration allows students to complete both a bachelor's degree and a master's degree in computer science in five years by combining the first year of graduate studies with the senior year of undergraduate studies. The curriculum requires 30 credit hours of graduate courses, of which 21 hours are required courses and nine hours are electives or thesis credit. Substitutions for required courses may be made with permission of the concentration coordinator. Additional information can be found at <http://www.cs.jmu.edu/sss>.

Students completing this concentration will also receive the Information Systems Security (INFOSEC) Professionals certificate (NSTISSI No. 4011).

Admission requirements include nine undergraduate CS courses that are normally taken by CS undergraduate majors and that may also be taken by JMU undergraduates who minor in CS, as an extension of regular minor requirements. Applicants must also be on track to have completed at least 99 hours of credit by the end of the junior year. Course selection for the junior-senior years should be done in consultation with the concentration coordinator.

In comparison to the traditional concentration in secure software systems, this concentration requires the same 600-level courses, and all but three of the same 500-level courses (completion of undergraduate versions of these three courses are required as a condition of admission).

## Five-Year Secure Software Systems Concentration Requirements

Minimum Requirements	Credit Hours
CS 552. Applied Complexity Theory	3
CS 555. Secure Software Engineering	3
CS 557. Information Security	3
CS 610. Networking and Security	3
CS 633. Computer Forensics	3
CS 635. Secure Network Operations	3
CS 666. Software Construction and Testing	3
Approved electives in computer science	9
<hr/>	
	30

These undergraduate courses are required for admission to this concentration:

CS 227/228. Discrete Structures I and II  
CS 239. Advanced Computer Programming  
CS 240. Algorithms and Data Structures  
CS 345. Software Engineering  
CS 350. Computer Organization  
CS 430. Programming Languages  
CS 450. Operating Systems  
CS 474. Database Design and Application

These undergraduate courses should NOT be taken by undergraduates intending to apply for this concentration:

CS 452. Analysis of Algorithms  
CS 457. Information Security

## Certificate Programs

The MS/Computer Science program offers several certificate programs that provide working professionals and students from other disciplines a chance to learn in-depth about a specific topic without completing the entire MS curriculum. These programs are available to all JMU graduate students and to the public in general through JMU's Outreach and Engagement office. Course credit earned through these certificate programs can also be used towards earning an MS degree later. These certificate programs are available on campus only.

Prerequisites for the certificate programs generally include a baccalaureate degree and working knowledge of computer systems. See the specific program listings for details. Though multiple certificates may be earned, no more than one course may be used toward multiple certificates.

### Certificate in Network/Information Security

This certificate will provide a practical understanding of computer security and techniques for defending computer networks.

Prerequisites:

- Baccalaureate degree
- Two years of programming education or experience
- Working knowledge of Java or C++

Required Courses	Credit Hours
CS 550. Operating Systems	3
CS 557. Information Security	3
CS 610. Networking and Security	3
<hr/>	

## Certificate in Secure Computer and Database Systems

This certificate will provide an understanding of computer system and database operations and related security problems and solutions.

Prerequisites:

- Baccalaureate degree
- Two years of programming education or experience
- Working knowledge of Java or C++

Required Courses	Credit Hours
CS 550. Operating Systems	3
CS 557. Information Security	3
CS 574. Database Systems	3

## Certificate in Software Security

This certificate will provide an understanding of common security problems and methods for producing highly secure software.

Prerequisites:

- Baccalaureate degree
- Two years of programming education or experience
- Working knowledge of Java or C++

Required Courses	Credit Hours
CS 550. Operating Systems	3
CS 555. Secure Software Engineering	3
CS 557. Information Security	3

## Course Offerings

### Computer Science

#### CS 501. Workshop in Computer Science. 1-3 credits.

Designed to provide workshop experience in a variety of computing areas. Does not satisfy graduation requirements for the Master of Science degree in computer science. Prerequisite: Permission of the concentration coordinator.

#### CS 502. Introduction to Information System Security. 3 credits.

This course provides an introduction to the design and management of operating systems and networks, focusing on those aspects that affect information security. It provides students with the skill or ability to design, execute and evaluation information system security procedures and practices. This course does not satisfy any requirements for the Master of Science degree in computer science. Prerequisite: Approval of instructor.

#### CS 503. Information Systems Security Management. 1 credit.

An advanced study of the basic material needed to manage an information system. Topics covered include granting final approval to operate, accreditation of the system, and verifying compliance with stated policies and procedures. This course does not satisfy any requirements for the Master of Science degree in computer science. Prerequisite: CS 502, CS 560 or CS 610.

#### CS 504. Information System Security Administration. 1 credit.

An advanced course to prepare a student to ensure information systems and networks are used securely; to identify and report security incidents; to maintain configuration control of systems and software; and to identify anomalies or integrity loopholes. This course does not satisfy any requirements for the Master of Science degree in computer science. Prerequisite: CS 502, CS 560 or CS 610.

**CS 505. Information System Security Operations. 1 credit.**

This course covers the basic knowledge needed by information system security officers to protect their information systems. Topics covered include certification, accreditation, site security policy, security policy enforcement and security reporting. This course does not satisfy any requirements for the Master of Science degree in computer science. Prerequisite: CS 502, CS 560 or CS 610.

**CS 506. Assessment of Secure Information Systems. 1 credit.**

This course considers the assessment of the technical and non-technical security features of an information system in an operational configuration. Upon completion of the course, students should be able to identify the assurance levels achieved in meeting all applicable security policies, standards and requirements. This course does not satisfy any requirements for the Master of Science degree in computer science. Prerequisite: CS 502, CS 560 or CS 610.

**CS 510. Object Oriented Programming. 3 credits.**

Fundamental programming techniques, including basic data types, control structures, algorithm development, procedures, arrays, and the definition of abstract data types. Does not satisfy graduation requirements for the Master of Science degree in computer science.

**CS 511. Computer Organization. 3 credits.**

The study of the organization of computer systems, including a brief study of number systems and digital circuits. Also covers basic components of computer systems such as main memory, CPU, I/O and their interconnection mechanisms. Does not satisfy graduation requirements for the Master of Science degree in computer science.

**CS 512. Data Structures. 3 credits.**

This course covers commonly used data structures including stacks, queues and lists using both static and dynamic memory allocations and including elementary performance analysis of these data structures. Does not satisfy graduation requirements for the Master of Science degree in computer science. Prerequisite: CS 510 or equivalent.

**CS 515. Foundations of Computer Science. 3 credits.**

Survey of fundamental computer science concepts such as iteration, recursion, induction, analysis of algorithms, combinations and probability, data structures, automata theory and regular expressions, context-free grammars and parsing, and propositional and predicate logic. This course does not satisfy graduation requirements for the program.

**CS 523. Ethics, Law and Policy in Cyberspace. 3 credits.**

Study of ethical issues, legal resources and recourses, and policy implications inherent in our evolving online society. Provides an overview of the ethical challenges faced by individuals and organizations in the information age. Introduces the complex and dynamic state of the law as it applies to behavior in cyberspace. Prerequisite: CS 550.

**CS 530. Programming Languages. 3 credits.**

Study of the fundamental principles of programming language design and their realization in actual programming languages. Examines programming languages from the procedural, object-oriented, and functional and declarative paradigms. Introduces basic concepts of grammars and parsing. Prerequisites: CS 240 and CS 350, or CS 511 and CS 512, or equivalent.

**CS 547. Interaction Design. 3 credits.**

Processes, principles, tools, models, and techniques for designing interactions between humans and digital products and systems. Students will learn through directed reading, design exercises, heuristic design evaluations, and empirical studies of designs.

**CS 550. Operating Systems. 3 credits.**

Concepts and principles of multiple-user operating systems. Memory, CPU, I/O device allocation, scheduling and security. Memory hierarchies, performance evaluation, analytic models, simulation, concurrent programming and parallel processors. Completion of a student project is a significant part of the course. Prerequisite: CS 350, CS 511 or equivalent.

**CS 552. Applied Complexity Theory. 3 credits.**

Algorithms (sorting and searching, graph theory, arithmetic) with space and time complexity and analyses; formal models of computation; theoretical aspects of computational complexity, including complexity measures and hierarchies, intractable problems, and the P=NP question. Other topics in theoretical computer science with applications. Prerequisite: CS 240, CS 512 or equivalent.

**CS 555. Secure Software Engineering. 3 credits.**

An overview of methodologies, tools and techniques for producing secure software systems. Students will cooperatively develop a secure software product. The course will also provide an introduction to professional resources and ethical issues for software developers. Prerequisite: CS 240, CS 512 or equivalent.

**CS 557. Information Security. 3 credits.**

Fundamental concepts of information security including identification and authentication, access control, security models, security kernels, and Windows and Unix security. Discussions will cover the historical development of information security, cryptology, PKI key management, application-level security issues and security evaluation. Prerequisite: CS 550.

**CS 560. Networks and Network Security. 3 credits.**

Fundamental concepts, principles, and practical networking and internetworking issues relevant to the design, analysis and implementation of enterprise-level trusted networked information systems. Topics include networking and security architectures, techniques and protocols at the various layers of the Internet model. Prerequisite: CS 550.

**CS 574. Database Systems. 3 credits.**

Types of physical storage and access methods; data models; relational algebra and calculus, data definition and query languages; dependencies, decomposition and normalization; database design; recovery; consistency and concurrency; distributed databases. Examples from commercial databases. Prerequisite: CS 350, CS 511 or equivalent.

**CS 585. Selected Topics I. 3 credits.**

Study of selected topics not otherwise covered in the regular offerings of the department. May be repeated for credit when course content changes.

**CS 588. Introduction to Computer Graphics. 3 credits.**

Problems, objectives and study of computer graphics to include hardware, software and applications. Graphics, data structures and languages. Vectors, curves and character generation. Interactive display devices. Construction of hierarchical image lists. Surface representations. Discussion of problems of current interest. Prerequisites: CS 510 and knowledge of calculus.

**CS 610. Networking and Security. 3 credits.**

Fundamental concepts, principles, and practical networking and internetworking issues relevant to the design, analysis and implementation of enterprise-level trusted networked information systems. Topics include networking and security architectures, techniques and protocols at the various layers of the Internet model. Prerequisite: CS 550.

**CS 620. Introduction to Information Security. 3 credits.**

Provides the manager with a broad overview of the threats to the security of information systems, the responsibilities and basic tools for information security and for the areas of training and emphasis needed in organizations to reach and maintain a state of acceptable security. The course provides an introduction to the language of information security and provides an overview of hardware, software and firmware components of an information security system, as well as their integration into an organization's information system operations for policy makers. The object of this course is to enable managers to make more informed policy and procedural evaluations in the information security area.

**CS 621. Software Assurance. 3 credits.**

This course investigates the engineering of robust security solutions. We study security problem definition and modeling, policy-to-code modeling, security factoring of software source code, model-based vulnerability analysis, and how security solutions are related to security problems through an assurance argument. Prerequisites: CS 555 and CS 652.

**CS 625. Secure Operations. 3 credits.**

This course covers the principles of secure composition of heterogeneous security components such as servers, firewalls, workstations and intrusion detection systems. It also covers principles and practice related to secure operation of existing distributed systems. Principles of penetration testing for assessment of system security are also addressed. Prerequisites: CS 627 and CS 660.

**CS 627. Cryptography: Algorithms and Applications. 3 credits.**

Cryptographic techniques to achieve confidentiality, integrity, authentication and non-repudiation are examined. The underlying mathematical concepts are introduced. Topics to be covered include symmetric and public key encryption, hashing, digital signatures, cryptographic protocols and other recent developments in the field. Prerequisite: CS 252, MATH 227 or CS 515.

**CS 633. Computer Forensics. 3 credits.**

This course teaches how to perform computer crime investigations. The course covers the recovery and analysis of digital evidence, addressing legal and technical issues. Forensic examination of Windows and Unix systems are used to illustrate typical investigative processes. Prerequisite: CS 560, CS 610 or equivalent.

**CS 634. Natural Language Processing. 3 credits.**

Implementation of computer-based, natural language understanding systems; natural language syntax and processing knowledge representation, natural languages generation. Prerequisite: CS 555.

**CS 635. Secure Network Operations. 3 credits.**

Standard network security techniques for monitoring and maintaining an organization's internal and external networks. Students will learn how to detect network-based attacks, diagnose an attacker's intent, and respond to and recover from intrusions. Prerequisite: CS 610.

**CS 644. Artificial Intelligence. 3 credits.**

Application of heuristics to problem solving; perception and pattern recognition; search methods, production systems and knowledge representation; applications to expert systems, automatic programming and natural language processing. Prerequisite: CS 555.

**CS 649. Operating Systems II. 3 credits.**

A study of various topics in operating systems such as distributed file systems, security, architectural support for operating systems, performance measurement, recovery management and real-time systems. Prerequisite: CS 550.

**CS 650. Computer Networks. 3 credits.**

The Open Systems Interface reference model. Network hardware, topologies and routing algorithms, reliability and security, application programs. Examples of various networks and protocols such as Ethernet, TCP/IP, NFS and USENET. Prerequisite: CS 550.

**CS 652. Formal Methods for Information Security. 3 credits.**

A formal specification language is presented with case studies, proofs and the formal specification of software components. Additional topics may include formal security policy modeling, seminal formal systems, first-order logic, set theory, relations, functions, sequences, bags, free types, formal and rigorous proof, immanent reasoning, reification, decomposition, and Floyd-Hoare logic.

**CS 655. Programming Languages II. 3 credits.**

A study of various topics in programming languages such as proof techniques, formal specification of syntax and semantics, operational, denotational and axiomatic semantics. Prerequisite: CS 555.

**CS 660. Advanced Network Security. 3 credits.**

This is a project-based course. Students will learn advanced network security concepts, conduct information security research and apply what they have learned throughout the information security master's program to better secure critical information infrastructure.

**CS 665. Software Requirements and Design. 3 credits.**

Study of the state of the art in software requirements engineering and design. Topics include techniques for system specification and verification, security models, software analysis and design methods and techniques, software architectures, and design patterns. Prerequisite: CS 555.

**CS 666. Software Construction and Testing. 3 credits.**

Study of the state of the art in software construction and testing. Topics include tools, techniques, and practices for software production, testing, verification, validation, and evaluation. Prerequisite: CS 665.

**CS 674. Database Systems II. 3 credits.**

Continuation of CS 574. Prerequisite: CS 574.

**CS 675. Distributed Computing and Security. 3 credits.**

Covers theoretical and applied aspects of security and privacy needed for middleware and service-ware to offer reasonable assurance for modern distributed systems. Topics include distributed systems architectures, technologies and management; distributed system design, security and privacy issues; and applications such as Web services and mobile commerce. Prerequisite: CS 560.

**CS 676. Distributed Databases. 3 credits.**

Distributed databases and networks, levels of distribution, transparency, fragments and their allocation, distributed queries, optimization, and concurrency. Prerequisite: CS 574.

**CS 680. Reading and Research. 3 credits.**

Opportunity for supervised reading and research in areas of special interest to the student. Reading and research may be done only in the major field of study.

**CS 685. Selected Topics II.** 3 credits.

An in-depth study of selected topics not otherwise covered in the regular offerings of the department. May be repeated for credit when course content changes.

**CS 690. Practicum.** 3 credits.

Provides a variety of supervised project, laboratory, leadership and instructional experiences. This course is graded on a satisfactory/unsatisfactory (S/U) basis. May be repeated for credit, but no more than six hours can be counted toward a degree program. Prerequisites: Consent of instructor and program coordinator.

**CS 698. Comprehensive Continuance.** 1 credit.

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

**CS 699. Thesis Continuance.** 1 credit.

Continued study, research and writing in the area of thesis concentration. Course may be repeated as needed.

**CS 700. Thesis Research.** 2-3 credits.

This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis.

## Mission

The mission of the James Madison University professional education unit is to prepare caring, knowledgeable, skilled and reflective educators who believe that all students can learn and succeed. Our candidates and faculty are committed to lifelong learning and aspire to meet educational needs in a changing, pluralistic and democratic society. The personal and professional development of candidates is accomplished by emphasizing excellence and continuous innovation in quality undergraduate, graduate and professional programs.

James Madison University's College of Education is distinguished through faculty and candidate achievements, academic rigor, excellence in teaching, candidate and faculty interactions and relationships, technological innovations, and national recognitions. The college maintains relevance through active and growing interactions with other colleges within the university and with local, state, regional, national and international communities.

The college is committed to providing:

- graduate programs that emphasize advanced knowledge in a specialty area and the development of effective leadership and professional skills for addressing the needs of a changing society.
- continuing professional development and service programs in cooperation with public and private schools and agencies, other colleges, institutions, and businesses.

The undergraduate and graduate teacher education programs are accredited by the National Council for Accreditation of Teacher Education and approved by the Virginia State Board of Education.

The basic philosophy of the college is reflected in the following goals:

- To educate men and women for the multiple professions included in the college at both the undergraduate and graduate levels, not merely by transmitting skills and knowledge but by stimulating creativity, developing cognitive abilities, and encouraging the testing of hypotheses and reinterpretation of the human experience.
- To encourage a balanced faculty orientation toward teaching, research, scholarship, community service and professionalism that recognizes individual strengths and preferences of the college's faculty.
- To create an environment that fosters an atmosphere of open communication among candidates, faculty members and community.
- To anticipate societal needs and provide necessary resources for implementing effective on- and off-campus programs now and in the future.

## Programs of Study

- **Master of Arts in Teaching (M.A.T.)** with a concentration in early childhood education, designed for individuals who hold a bachelor's degree and are interested in initial licensure to teach young children in preschool and grades K-3.
- **Master of Education (M.Ed.)** with a concentration in early childhood education, an advanced program of study for teachers working in preschool through third grade classrooms who want to extend professional competence as classroom teachers.

- **Master of Arts (M.A.T.)** with a concentration in Inclusive Early Childhood Education, a continuation of the undergraduate IECE program.
- **Master of Arts (M.A.T.)** in elementary education, a continuation of the undergraduate program in elementary education.
- **Master of Education (M.Ed.)** in Education with a concentration in reading education, designed for licensed teachers who are preparing to fill the role of reading specialist.

## Early Childhood Education

### Master of Arts in Teaching with a concentration in Early Childhood Education (PreK-3)

#### Admission Criteria

All criteria are considered when reviewing the candidates for admission to the early childhood graduate programs; however, no one criterion will be the sole reason for lack of admission to the program.

- Baccalaureate degree from a regionally accredited college/university with grade point average of 2.75 or higher.
- Content prerequisites based on a transcript review conducted by the program coordinator.
- Faculty interview.
- GRE or Miller's Analogy Test.
- Admission to Teacher Education including passing scores on both Praxis I and Praxis II (Elementary).
- Prerequisites courses include but are not limited to:
- GPSYC 160. Lifespan Human Development (3)
- EDUC 360. Foundations of American Education (3)

#### Program Mission and Outcomes

The mission of the ECED M.A.T. is to prepare professional early childhood teachers who provide developmentally appropriate programming for children in educational settings. Candidates are prepared to:

- make effective decisions about curriculum and instructional methods based on an understanding of the whole child, child development theory and research on best practices;
- interact and communicate effectively with young children;
- assess children's growth and development using multiple data sources;
- communicate effectively and work cooperatively with parents/families, school personnel and the broader community; and
- engage other professionals, colleagues and administrators in support of children as members of a learning community.

Candidates in the program are expected to demonstrate commitment to their own professional growth and development; to follow standards of ethical professional behavior and practice; to advocate on behalf of all children, their families and early childhood education; and to become educational leaders.

#### Program Description

The Early Childhood Master of Arts in Teaching program prepares individuals to become successful teachers in pre-k-third grade classrooms. Through sequenced courses and accompanying field experiences including student teaching, individuals who complete the 39 credit hour program will earn a Virginia teaching license and a graduate degree.

#### Degree Requirements

Requirements	Credit Hours
GPSYC 160. Lifespan Human Development	3
EDUC 360. Foundations of American Education	3
READ 566. Literacy Acquisition and Development of the Young Reader	3
READ 636. Primary Grades Literacy Learning	3
ECED 508. Observation and Study of Young Children	3
ECED 510. Creativity and the Arts in ECED	3
ECED 511. ECED Practicum with Attention to Diversity	3

ECED 512. Facilitating Children's Natural and Social Science Constructions	3
ECED 641. Schools and Families in ECED	2
ECED 544. Children and Mathematics in Grades PreK-3	3
ECED 609. Constructivist Curriculum Design and Evaluation	3
ECED 611. ECED Practicum with Attention to Special Education	3
ELED 632. Inquiry in Elementary Education	3
ELED 633. Seminar in Education Inquiry	1
ECED 690. Student Teaching Internship in ECED	6

---

45

All candidates must pass a comprehensive examination and key assessments before completing the program. The comprehensive examination is designed to assess attainment of some of the desired instructional outcomes of the concentration. The key assessments reflect candidate development and performance throughout the program. The concentration is fully aligned with the standards of National Association for the Education of Young Children.

### **Master of Education with a concentration in Early Childhood Education**

The Master of Education's concentration in early childhood education is a 33-36 graduate credit hour program divided into three components: the professional education core, the early childhood concentration and a series of electives.

#### **Admission Criteria**

- GRE or MAT scores at the 25th percentile or higher for both verbal and quantitative sections.
- Undergraduate grade point average of 2.75 or higher.
- Baccalaureate degree from a regionally accredited college/university.
- Professional resume.
- Faculty interview.
- Hold or have held a valid teaching license or provide documentation of professional employment in the field.
- A two- to three-page written statement (double spaced) describing the applicant's professional background, the educational issues that the applicant would like to address in the master's program and the applicant's long-term professional goals.
- Three years of full-time teaching (or equivalent) experience in a school setting.
- Recommendations from school personnel (administrative and instructional) familiar with the candidate's teaching performance and leadership potential.

#### **Program Mission and Outcomes**

The Master of Education with a concentration in early childhood education is designed for preschool and kindergarten through third grade teachers who want to extend their professional competence through an in-depth examination of their own practice using the perspectives of child development theories and the knowledge of current research in early childhood education.

Building on the foundation of the professional core, the early childhood education concentration provides opportunities for candidates to apply their knowledge through individual and collaborative projects and presentations, field-based curriculum implementation and evaluation, and the use of reflective classroom inquiry and portfolios.

Candidates who complete the Master of Education with a concentration in early childhood education are educational decision makers whose formal study and experiences have prepared them to be leaders in this field. In conjunction with being a master teacher and leader, these candidates are prepared to assume roles such as grade team leaders, curriculum developers, mentors, trainers and professional advocates for young children.

The early childhood education concentration prepares individuals to become master teachers who:

- rely on in-depth knowledge of child growth and development and its integral relationship to curriculum and practice of the teaching-learning process;
- understand current early childhood research, trends and issues, and philosophical and theoretical underpinnings of curriculum practice;
- develop focused areas of interest that become the content of systematic inquiry;
- reflect on encounters with new knowledge and incorporate new understandings and attitudes into practice;
- experiment with new skills and knowledge in the supportive atmosphere of collaboration with peers and other professionals; and

- revisit critical values, personal and professional attitudes and early childhood content to deepen understanding of the learner/learning and the diverse roles of the master teacher.

Requirements	Credit Hours
Professional Core	12
EDUC 620. Changing Contexts in American Schools	
ELED 632. Inquiry in Elementary Education	
EDUC 641. Learning Theories and Instructional Methods	
EDUC 642. Curriculum Theory and Issues	
Early Childhood Concentration	15
ECED 609. Constructivist Curriculum Design and Evaluation	
ECED 613. Professionalism and Advocacy in Early Childhood	
ECED 614. Advanced Theories in Child Development	
ECED 616. Advances in Early Childhood Practices	
ECED 619. Seminar in Early Childhood Education	
Electives	6-9

33-36

Electives can be chosen from among the university's graduate course offerings with the approval of the adviser. These may include courses within other concentration areas (e.g., educational leadership, educational technology, English as a second language, mathematics, reading, special education) or courses to support candidacy for National Board certification can be selected.

All candidates must pass a comprehensive examination designed to assess attainment of the desired instructional outcomes of the concentration. The concentration is fully aligned with the standards of National Association for the Education of Young Children.

## Inclusive Early Childhood Education

### Master of Arts in Teaching with a concentration in Inclusive Early Childhood Education

The inclusive early childhood program draws heavily from research and theories in child development, family systems, special education, differentiated teaching and learning. Through course work and extensive field experiences, the teacher candidate is prepared to design activities that have an interdisciplinary focus, reflect an understanding of the individual child's development and learning, recognize the importance of family and developmental influences, support the young child in constructing knowledge about self and the world, and involve parents in supporting the child's growth and development.

The Master of Arts in teaching (M.A.T.) program in inclusive early childhood education is a continuation of the undergraduate IECE program. For details, see the Undergraduate Catalog.

## Elementary Education (PreK-6)

### Master of Arts in Teaching with a concentration in Elementary Education (PreK-6)

This program is a continuation of the undergraduate program. This five-year program prepares candidates to teach students in grades Pre K-6. Drawn from research and theories in child development, teaching and learning, the course work and field experiences prepare teacher candidates to employ an interdisciplinary approach to instruction that reflects an understanding of the diverse nature of learners and their families.

#### Admission Criteria

To be fully admitted to the Elementary Education M.A.T. degree program, candidates must have:

- Satisfied all requirements for admission to teacher education.
- Satisfied all requirements for admission to The Graduate School, including:
- requirements for a baccalaureate degree in IDLS from JMU, an undergraduate GPA of 2.75;

- passing score on Praxis II: Elementary Education;
- a two-page essay on long-term professional goals and issues the applicant would like to address in the graduate portion; and
- a review by Elementary Education faculty.

### **Program Mission and Outcomes**

The Master of Arts in Elementary Education (PreK-6) initial licensure program seeks to foster in its candidates:

- an emphatic understanding of the ways that children are affected by social contexts and by the children's own abilities/disabilities.
- the knowledge and pedagogical skills to support each child's success.

These school professionals will:

- critically challenge conventional wisdom and common practices to identify hidden assumptions and activities that constrain or privilege some at the expense of others;
- openly consider and explore a range of teaching philosophies and practices and their relevance in particular contexts;
- ask questions and develop an inquiring approach;
- reflect deeply on relationships with their own families, peers, and university and school mentors and their students;
- express knowledge, skills and attitudes in ways that communicate the creative and academic expression of the profession and the self;
- develop an appreciation for the global connection of all humanity and our interdependence on the finite, natural resources of the earth;
- experience life among people whose social contexts are unlike their own to broaden and deepen their respect of and sensitivity to various cultures and social contexts; and
- appreciate the complexity of human development from conception throughout the period of childhood/preadolescence.

### **Program Description**

The Master of Arts in Teaching program prepares candidates to teach students in grades Pre K-6. Drawn from research and theories in child development, teaching and learning, the course work and field experiences prepare teacher candidates to employ an interdisciplinary approach to instruction that reflects an understanding of the diverse nature of learners and their families.

## **Reading Education**

### **M.Ed. with a concentration in Reading Education**

The Master of Education (M.Ed.) program with a concentration in Reading Education is intended for experienced classroom teachers who want to prepare to become reading intervention teachers of reading specialists. For more information about this program, contact Dr. Gay Ivey (iveymh@jmu.edu).

## Admission Criteria

All criteria are considered when reviewing applications for the M.Ed. degree program with a concentration in Reading Education. These include:

- Baccalaureate degree from a regionally accredited college/university.
- GRE scores at the 25th percentile or higher for both the verbal and quantitative tests. Undergraduate grade point average of 2.75 or higher.
- A valid teaching license.
- A professional resume.
- A two- to three-page written statement describing the applicant's professional background and long-term professional goals.
- Recommendations from relevant school personnel familiar with the candidate's teaching performance and leadership potential.

## Program Mission and Outcomes

The purpose of the graduate program in reading education is to prepare educators who can function as classroom reading teachers and in specialist roles in the public schools. Goals for candidates completing the reading program include developing expertise in reading instruction for all students, with a special emphasis on struggling readers; becoming experts at assessment, including literacy assessments of individual students and assessments of the literacy program; and becoming leaders in professional development and in collaborations involving literacy instruction with teachers, paraprofessionals, administrators, families and communities.

In preparation for these professional roles, candidates in the reading program will develop:

- Knowledge of the foundations of reading and writing processes and instruction.
- An understanding of a wide range of instructional practices, approaches, methods, and curriculum materials to support reading and writing instruction.
- Knowledge of a variety of assessment tools and practices to plan and evaluate effective reading instruction.
- Knowledge of how to create a literate environment that fosters reading and writing.
- A view of professional development as a career-long effort.

## Course Offerings

### Early Childhood Education

#### ECED 501. Workshop in Early Childhood Education. 1-3 credits.

Designed to provide students with workshop experiences related to current needs evident in early childhood programs. Topics selected will be determined by interest and demand. No more than six credit hours earned in workshops in education can be applied to a major program.

**ECED 508. Observation and Study of the Young Child. 3 credits.**

Skills for observing, recording and interpreting the behavior of the young child as a basis for adult intervention and guidance are developed. Laboratory experience is required. Prerequisite: [GPSYC 160](#).

**ECED 510. The Creative Arts in Early Childhood Education. 3 credits.**

This course introduces theory and writing about creativity, and requires critical analysis of theory in terms of application in the early childhood classroom. Students plan, implement and evaluate activities in music, literature and the visual arts that are consistent with creativity theory.

**ECED 511. Early Childhood Practicum with Attention to Diversity. 3 credits.**

This practicum provides a setting for observations and experiences in ECED classrooms and in the guiding and teaching of young children including those whose cultures or languages represent diverse family contexts. The accompanying seminar provides opportunities for activities and discussion related to PreK-3 classrooms and accompanying texts. Corequisite: [READ 566](#).

**ECED 512. Facilitating Children's Natural and Social Science Constructions. 3 credits.**

Study of the history, content, processes, teaching methods, and materials for teaching natural and social sciences in PreK-3. Focus is on constructivist learning theory, levels of inquiry, and national and state standards as applied to the selection of content, method and learning environment.

**ECED 544. Children and Mathematics in Grades PreK-3. 3 credits.**

This course provides students with the knowledge, skills, and understandings to design and implement effective mathematics programs in PreK-3 grades. Focus is on appropriate mathematics content, teaching strategies and curriculum materials from a developmental perspective.

**ECED 609. Constructivist Curriculum Design and Evaluation. 3 credits.**

Theories and practices in the design, implementation, and evaluation of curriculum for nursery and kindergarten through third-grade children are examined with an emphasis on development through play.

**ECED 611. Early Childhood Practicum with Attention to Special Education. 3 credits.**

This practicum provides a setting for observations and experiences in ECED classrooms and in the guiding and teaching of young children including those with special needs. The accompanying seminar provides opportunities for activities and discussion related to PreK-3 classrooms including those whose abilities require accommodations and adaptations. Prerequisite: ECED 511. Corequisite: [READ 636](#).

**ECED 613. Professionalism and Advocacy in Early Childhood Education. 3 credits.**

Fall only.

An in-depth study of selected early childhood issues related to professionalism, advocacy, leadership and working with families in a diverse community.

**ECED 614. Advanced Theories in Child Development. 3 credits.**

In-depth study of selected child development theories and direct observation as a foundation for purposeful and consistent instructional decision making. Emphasizes articulating a personally meaningful theory and gathering assessment data through direct observation for theory support. Prerequisites: Core of M.Ed. and ECED 613. Corequisite: ECED 616.

**ECED 615. Administration and Supervision in Early Childhood Education. 3 credits.**

Study of the role of the administrator in facility planning, budgeting, staff development and personnel supervision in programs for young children. The role of the administrator as a change agent is examined. Prerequisite: Permission of instructor.

**ECED 616. Advances in Early Childhood Practices. 3 credits.**

This field-based course provides opportunity for the student to synthesize and apply child development and curriculum theory. As educational decision-makers, students plan, implement and evaluate learning experiences for a multiage group of children. Prerequisites: Master of Education core courses and [ECED 613](#). Corequisite: ECED 614.

**ECED 619. Seminar in Early Childhood Education. 3 credits.**

Seminar experience providing in-depth consideration of the impact of research related to early childhood. Provides for integration and consolidation of knowledge acquired in graduate study and its application through inquiry experiences as the basis for instructional decisions. Prerequisites: Master of Education core courses and ECED 613 or permission of the instructor.

**ECED 641. Working with Parents of Young Children. 2 credits.**

Study of the role of the teacher in early childhood education relating to and working with families, school personnel, and communities. Methods of involving stakeholders and providing effective communication among groups are emphasized. Resources for supporting parents and engaging the community are examined. Prerequisites: EDUC 632. Corequisite: ECED 690.

**ECED 680. Reading and Research. 3 credits.**

Directed reading and research in areas of student interest. Reading and research may be done only in the major field of study. A plan of study must be submitted in prescribed form and approved prior to registration for the course. Prerequisites: EDUC 630 or equivalent and written permission of the adviser and department head.

**ECED 690. Student Teaching Internship in Early Childhood Education. 6 credits.**

Student teaching provides a context in which to demonstrate and integrate the skills, knowledge and dispositions that are essential for success as a classroom teacher. Under the guidance of a university supervisor students are expected to reflect on the teaching role as they assume the full responsibilities typical of teachers in grades PreK-3.

Prerequisites: ECED 508, ECED 510, ECED 511, ECED 512, ECED 544, ECED 609 and ECED 611; READ 566 and READ 636; ELED 632. Corequisites: ELED 641.

**Education****EDUC 501. Workshop in Education. 1-3 credits.**

Workshop experience relative to the current needs evident in elementary and secondary school programs. No more than six credit hours earned in workshops in education may be applied to a major program in education or no more than three hours may be applied to a minor program in education.

**EDUC 505. Technology Skills for Educational Inquiry. 1 credit.**

This course is designed to prepare students for the effective use of the technology applications needed to conduct educational inquiry.

**EDUC 520. Clinical Supervision Seminar. 3 credits.**

Designed to help teachers and other school personnel develop skills for guiding, supervising and evaluating persons receiving clinical experiences in the school setting. Emphasis will be on cooperative supervision of clinical experiences, exploring various clinical models and reacting to simulated situations involving students receiving clinical and field experiences. Prerequisite: Full-time teaching experience.

**EDUC 525. Cross Cultural Education. 3 credits.**

The course provides students with knowledge of the effects of socio-cultural variables in an instructional setting.

**EDUC 540. Educational Technology. 3 credits.**

Develops concepts and skills related to educational technology including selecting, producing, evaluating and using traditional forms of media and newer information technologies, including computers and videodiscs, to enhance delivery of instruction.

**EDUC 620. Changing Contexts of American Schools. 3 credits.**

This course focuses on the nature of educational change in American schooling. Emphasis will be placed upon contemporary issues facing education, their historical and philosophical roots and the implementation of educational change.

**EDUC 625. Evaluation in Education. 3 credits.**

The course is designed to help practicing educators improve their development and use of assessment tools and techniques. Attention will also be given to analyzing and interpreting assessment results and investigating newer developments in the evaluation of learning and instructional programs. Prerequisite: An instructional methods course.

**EDUC 630. Inquiry in Education. 3 credits.**

The purpose of this course is to help the student develop skills, insights and understandings which will enable her or him to become an intelligent and critical consumer of educational inquiry and a productive participant in the inquiry process. Prerequisites: Appropriate technology skills or [EDUC 505](#).

**EDUC 631. Seminar in Educational Inquiry. 1 credit.**

Studies of topics related to educational inquiry. Emphasis on inquiry designs and skills specific to students' areas of inquiry interests. Prerequisite: EDUC 630. This course is graded on an S/U basis.

**EDUC 641. Learning Theories and Practice. 3 credits.**

This course focuses on the theories and research that guide the understanding of diverse learners, processes of

learning and development, the role of the teacher, the design and delivery of instruction, the processes and strategies of teaching and research-based decision-making.

**EDUC 642. Curriculum Theory and Issues. 3 credits.**

Curriculum theory and issues focus on the historical, philosophical, sociological and political perspectives involved with decisions about teaching and learning. Reflection on purposes, content, design and assessment of educational programs form the core of curriculum studies. Note: EDUC 670, EDUC 671, EDUC 673 are now AHRD 670, AHRD 671, AHRD 673.

**EDUC 675M. Internship in Middle School Foreign Language Instruction. 4 credits.**

Participants will experience the full range of conditions and tasks expected of a teacher for students in grades 6-8 during an eight-week internship. They will be expected to develop and demonstrate competencies in teaching with the supervision and support of experienced teachers. Students must register for both EDUC 675M and EDUC 675S during the same semester for a total of eight credits. Prerequisites: Admission to Teacher Education, admission to the MAT program and completion of all other MAT program course work including EDUC 570 Methods of Language Teaching. Corequisite: MSSE 650 Internship Seminar.

**EDUC 675S. Internship in Secondary School Foreign Language Instruction. 4 credits.**

Participants will experience the full range of conditions and tasks expected of a teacher for students in grades 9-12 during an eight-week internship. They will be expected to develop and demonstrate competencies in teaching with supervision and support of experienced teachers. Students must register for both EDUC 675M and EDUC 675S during the same semester for a total of eight credits. Prerequisites: Admission to Teacher Education, admission to the MAT program, and completion of all other MAT program course work including EDUC 570 Methods of Language Teaching. Corequisite: MSSE 650 Internship Seminar.

**EDUC 680. Reading and Research. 3 credits.**

Opportunities for directed reading and research in areas of special interest. Reading and research may be done only in the major field of study. Prerequisites: EDUC 630 or equivalent, and written permission of the adviser and program coordinator.

**EDUC 698. Comprehensive Continuance. 1 credit.**

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

**EDUC 699. Thesis Continuance. 2 credits.**

Continued study, research and writing in the area of thesis concentration. Course may be repeated as needed.

**EDUC 700. Thesis Research. 6 credits.**

This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis.

## **Elementary Education**

**ELED 501. Special Topics in Elementary Education. 3 credits.**

This course is designed to allow elementary education teacher candidates explore issues in education that particularly interest them. Special topics will be designed by faculty that reflect current issues and problems in education. Students will choose the topic that meets their needs. Prerequisites: ELED 411 or permission of instructor.

**ELED 510. Creativity and the Arts in Elementary Education. 3 credits.**

This course examines theories related to the development of creativity and their application to classroom instruction. In addition students will study and practice ways to integrate a wide variety of expressive arts (music, poetry, painting, drama, dance, etc.) into the elementary education curriculum.

**ELED 521. Practicum in Preadolescent Development. 1 credit.**

Supervised practicum in upper elementary grades focusing on individual differences and developmental characteristics of the age group. Corequisite: ELED 522 A&B and ELED 524.

**ELED 524. Differentiated Instruction: Abilities, Culture and Language. 3 credits.**

Focus on the variation that is inherent in working with school-age children, particularly the variation that occurs as a result of ability, environment and experience, and how instructional strategies and the curriculum must be designed to build on the strengths each child brings to the learning experiences. Corequisites: ELED 521 and 522 A&B.

**ELED 533. Children and Mathematics II: Data, Chance, and Space. 3 credits.**

The second of two courses that provide students with knowledge, skills, and understanding to design and implement effective, developmentally appropriate mathematics instruction for grades PreK-6. Emphasis is on children's mathematical learning about geometry, measurement, data analysis, and probability. Prerequisites: MATH 207, ELED 411 and admission to The Graduate School.

**ELED 570. Learning and Teaching in an Elementary Setting. 3 credits.**

This course prepares pre-service elementary education teachers to teach in ways that promote student learning. Through an understanding of curriculum integration, pre-service teachers will design units of study that engage students in relevant and active learning. Methods for meeting the needs of a diverse student population will be explored. Issues of collaboration with other professionals in a school setting will be discussed. Prerequisite: Admission to The Graduate School.

**ELED 580. Teaching Mathematics in Grades 4-6. 3 credits.**

A mathematics methods course for prospective middle grades teacher (4-6). The general goal of the course is to learn to teach mathematics in such a way that students will develop the ability to conjecture, reason logically, solve non-routine problems, and communicate about mathematics. Corequisites: ELED 582, ELED 583, ELED 584.

**ELED 613. Issues in Elementary/Middle Education. 3 credits.**

An in-depth study of selected elementary and middle grades issues related to professionalism, advocacy, leadership, and working with families in a diverse community. Corequisites: ELED 680, ELED 632, ELED 633.

**ELED 621. Practicum with a Focus on Inquiry. 3 credits.**

This field experience encourages candidates' construction of knowledge through the design and implementation of formal inquiry regarding practices in elementary education. The implementation and refinement of teaching practices essential for creative, child-centered, content-rich and culturally sensitive teaching will be examined throughout the practicum and accompanying seminar.

**ELED 622. Seminar in Inquiry. 1 credit.**

This seminar will allow graduate students to discuss the efforts of their inquiry projects. They will problem solve issues that arise in the implementation of their projects as well as analyze data and draw appropriate conclusions from their findings. From those conclusions, they will generate implications for and connections to their teaching. Prerequisite: Admission to The Graduate School, Corequisite: ELED 621.

**ELED 632. Inquiry in Elementary Education. 3 credits.**

Focus on inquiry as the basis for learning, philosophical foundations of qualitative and naturalistic methodology and instruction in the use of qualitative methods in the study of education and to inform practice. For M.A.T. ECED: Prerequisites: ECED 508 and ECED 511, READ 566, ECED 512 or ECED 544.

**ELED 633. Seminar in Education Inquiry. 1 credit.**

Focus on the application of education inquiry and its application to teaching. Prerequisite: ELED 632. For M.A.T. ECED: Corequisite: ECED 690.

**ELED 641. Families, Schools and Communities. 2 credits.**

Study of the role of the teacher in relating to and working with families, school personnel and communities. Methods of involving stakeholders and providing effective communication groups are emphasized. Resources for supporting parents and engaging community stakeholders are examined. Prerequisite: ELED 411 and admission to The Graduate School.

**ELED 680. Student Teaching. 4 credits.**

Participants will experience the full range of conditions and tasks expected of a teacher for students in grades 4-6. They will be expected to develop and demonstrate competencies in teaching with the supervision and support of experienced teachers. Prerequisite: Completion of the previous two semesters of course work.

**ELED 690. Internship in Teaching. 4 credits.**

This internship provides a context in which to demonstrate and integrate the skills, knowledge and dispositions that are essential for success as an elementary classroom teacher. Under the guidance of a university supervisor students are expected to reflect on the teaching role as they assume the full responsibilities of teacher in grade PreK-6. Prerequisite: Admission to The Graduate School. Corequisite: ELED 641.

**Inclusive Early Childhood Education****IECE 600. Teacher as Researcher. 3 credits.**

This course will facilitate students' understanding of the purpose of research, develop a knowledge base of qualitative and quantitative research, recognize the role of research to inform and guide teaching practice for all young children and their families, evaluate research in inclusive early childhood education, and understand the ethics involved in research and practice. Prerequisite: Permission of the instructor or admission into the graduate program. Corequisite: IECE 612.

**IECE 610. Medical Aspects Impacting Young Children. 3 credits.**

This course will prepare students to understand the medical aspects and experiences of young children with disabling and at-risk conditions, and their families. Candidates will learn the impact of medical conditions on young children's development and learning, management of medical conditions, emergency care and technological support. Emphasis will be given to the role of the educator as a collaborative member of an inter-professional team.

**IECE 612. Teacher as Decision Maker. 3 credits.**

This course will require students to review principles of curriculum design and assessment, and examine research related to best practice for early childhood settings. Students will apply their understanding of children, curriculum and assessment to develop a systematic approach to planning and assessing learning that is standards based and developmentally appropriate. Prerequisite: Permission of the instructor or admission into the graduate program. Corequisite: IECE 600.

**IECE 613. Practicum in the Education of Young Children. 3 credits.**

This practicum places students in a setting serving either preschoolers or infants and toddlers. Settings may include home, community, and school based programs. Students will demonstrate their knowledge of typical and atypical development, appropriate learning environments, assessments, and activities, and the importance of play. Students will work directly with professionals and families. Prerequisite: Permission of the instructor or admission into the graduate program. Corequisite: IECE 600, IECE 612 or IECE 614.

**IECE 614. Individualized Behavior Intervention for Young Children. 3 credits.**

This course provides the student with exposure to and knowledge of various systematic, individualized behavioral interventions as they apply to young children. The student will develop skills in using these behavior interventions, as appropriate, with young children exhibiting difficulties in learning, behavior and/or social skills. Prerequisite: Permission of the instructor or admission into the graduate program.

**IECE 620. Teacher as Professional. 3 credits.**

This seminar accompanies IECE 680 and provides students with the opportunity to reflect on, evaluate and improve their experiences as pre-professional educators of young children. Students will evaluate and build their own resiliency, identify ethical dilemmas, and engage in joint problem solving and ethical decision making related to their student teaching experience. Students will enhance their abilities to collaborate with families and other service providers. Prerequisites: IECE 600, IECE 612, IECE 614 and IECE 613. Corequisite: IECE 680.

**IECE 630. Teacher as Leader. 2 credits.**

This course examines the role of the inclusive early childhood educator as a leader. Students will discuss and develop knowledge and skills for advocacy, collaboration, ethical behavior, and professionalism. Prerequisites: IECE 620 and IECE 680.

**IECE 632. Creativity, Play and Representation. 3 credits.**

This course allows students to examine play theories, research, and creativity in terms of human growth and development. Students will explore pedagogical issues with a focus on all children in the context of formal and informal settings. Students will use play observations and assessment to select appropriate methods and materials to support young children's creativity, play and representations. Prerequisites: IECE 620 and IECE 680.

**IECE 680. Student Teaching in Inclusive Early Childhood Education. 8 credits.**

This student teaching experience provides students with opportunities to apply, in learning environments for young children, the knowledge, skills and dispositions acquired throughout their teacher licensure program. Under the guidance of university supervisors and cooperating teachers, student teachers gradually assume full responsibility as the inclusive early childhood educator. Prerequisites: IECE 600, IECE 612, IECE 613 and IECE 614. Corequisite: IECE 620.

**Reading Education****READ 501. Workshop in Reading. 3 credits.**

Designed to provide students with workshop experiences related to current needs in reading. The topics considered will be determined by interest and demand. No more than six credit hours earned in workshops in education can be applied to a major program.

**READ 566. Literacy Acquisition and Development of the Young Reader. 3 credits.**

This course will provide pre-service teachers with an understanding of the foundations of early literacy development and instructional strategies and assessment techniques, which support the acquisition of literacy. Corequisite: ECED 511.

**READ 582. Foundations of Early and Elementary Literacy. 3 credits.**

This course emphasizes the traditions, theories, and practices in preK-12 literacy that have emanated from a long history of research and practice. Participants will examine how particular theories of literacy impact the learning and teaching of literacy in the preK-12 classrooms.

**READ 586. Children's and Adolescent Literature. 3 credits.**

This course is designed to acquaint participants with the nature, scope, and uses of children's and young adult literature for instructional, informational, and recreational purposes. The implications of current theory, significant research and issues in literature study will be investigated and examined as they relate to the PreK-12 learner.

**READ 588. Writing Instruction. 3 credits.**

This course focuses on the current theories and practices that pertain to writing instruction in K-12 school settings. Through this course, participants will examine historical and developmental perspectives, instructional contexts, assessment, and the uses of technology in writing instruction.

**READ 590. Literacy Across the Curriculum. 3 credits.**

This course explores literacy-based learning in the preK-12 curriculum and the interdisciplinary nature of literacy.

**READ 600. Research and Research Methods in Literacy. 3 credits.**

This course is designed to help students evaluate and conduct research in literacy development and instruction. Students will examine a wide range of methodological frameworks used in literacy research and apply them to K-12 classroom-based inquiry projects.

**READ 602. Word Knowledge: Phonics, Spelling, and Vocabulary. 3 credits.**

Course content examines theoretical and practical contexts for language development and word knowledge instruction for K-12 classrooms. This includes an examination of the principles of word analysis by sound, pattern, and meaning through the study of phonemic awareness, phonics, spelling, vocabulary and word identification.

**READ 604. Literacy Instruction for English Language Learners. 3 credits.**

This course is designed to help students develop an understanding of how to provide appropriate literacy instruction and curriculum materials for English language learners in grades pre-K through 12.

**READ 636. Primary Grades Literacy Learning. 3 credits.**

This course will provide pre-service teachers with an understanding of developmentally appropriate instructional strategies and assessment techniques to help all students in elementary grades become literate using reading, writing, listening and speaking in strategic and authentic ways.

Prerequisites: ECED 511, READ 566. Corequisite: ECED 611.

**READ 658. Practicum in Literacy Assessment and Intervention I. 3 credits.**

The course emphasizes the principals, practices and applications of a variety of literacy assessments to address a range of individual needs in early and elementary literacy. Prerequisites: READ 582, READ 586, READ 588, READ 590, READ 602, READ 604.

**READ 660. Practicum in Literacy Assessment and Intervention II. 3 credits.**

The course emphasizes the principals, practices and applications of a variety of literacy assessments to address a range of individual needs in adolescent literacy. Prerequisites: READ 582, READ 586, READ 588, READ 590, READ 602, READ 604.

**READ 665. Organization and Supervision of Reading Programs. 3 credits.**

This course emphasizes the organization and supervision of elementary, middle and secondary reading programs. The roles of the reading specialist, special reading teacher, administrator and supervisor are explored in relationship to the reading program. Prerequisites: READ 660 or permission of instructor.

**READ 670. Literacy Coaching and Internship. 3 credits.**

This course combines theoretical perspectives on preK-12 literacy coaching with a supervised practical experience at the school or school district level designed to improve literacy teaching and learning, with an emphasis on leadership in professional development. Prerequisites: READ 582, READ 586, READ 588, READ 590, READ 600, READ 602, READ 604, READ 658, READ 660 and READ 665.

**READ 680. Reading and Research. 3 credits.**

Directed reading and research in areas of special student interest. Reading and research may be done only in the major field of study. The plan for the study must be submitted in prescribed form and approved prior to registration for the course. Prerequisite: EDUC 630 and written permission of the adviser and coordinator.

**READ 698. Comprehensive Continuance. 1 credit.**

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

---

# English

## Department of English

[http://www.jmu.edu/english/grad\\_welcome.html](http://www.jmu.edu/english/grad_welcome.html)

Phone: (540) 568-3762

## Department Head

Dr. Mark Parker

## Graduate Director

Dr. Dabney Bankert

## Professors

D. Bankert, M. Facknitz, A. Federico, J. Gabbin, D. Jeffrey, B. Johnson, L. Kutchins, M. Parker

## Associate Professors

S. Cote, M. Favila, L. Henigman, I. Majors, R. Osotsi, M. Rebhorn, M. Thompson

## Assistant Professors

M. Canivell, K. Castellano, S. Duvivier, D. Goode, B. Hefner, D. Mookerjea-Leonard, M. Rankin, S. White

---

## Admission

Incomplete applications will not be considered until complete; applicants are responsible for assuring that all materials have been received.

## To Apply

It is crucial that applicants read and follow instructions on both the Department of English and Graduate School Web sites carefully. Prospective applicants should visit The Graduate School Web site for information about the application process: <http://www.jmu.edu/grad>.

Applicants must apply online at: <http://www.applyweb.com/apply/jmug>.

Follow the instructions on that site for submitting all application materials (GRE scores, transcripts, letters of recommendation, personal statement, writing sample, resume, etc.). Note that letters of recommendation, personal statement, writing sample, and resume may be sent directly to the English Department at the address below. GRE scores, transcripts, and application must be uploaded to the Graduate School online application site. Questions about the online application process should be directed to The Graduate School.

An online recommendation form is provided, however, the English department prefers and strongly encourages applicants to ask references to write a detailed letter addressing the applicant's preparation; motivation; maturity; reading, writing, and analytical skills; and particular areas of strength and weakness. Letters of recommendation may be uploaded to the online application site or, if the recommender prefers, sent directly to the graduate coordinator at the following address.

Dr. Dabney A. Bankert  
Coordinator of Graduate Studies  
Department of English  
211 Keezell Hall, MSC 1801  
James Madison University  
Harrisonburg, VA 22807

Prospective applicants are welcome to communicate directly with the graduate coordinator of the Department of English, and prospective students are welcome to visit campus and attend a seminar with advance notice. In certain cases, an interview with the graduate coordinator and/or the graduate studies committee may also be requested.

### Required Materials

- Transcripts from all undergraduate and graduate programs.
- Graduate Record Examination General Test (GRE). We do not require the GRE subject examination in English.
- At least two letters of recommendation from faculty familiar with the applicant's academic performance and potential for graduate work. Additional letters may be sent if relevant to a candidate's application. If an applicant has been out of school for some time, he or she should contact the graduate coordinator for advice about appropriate recommenders.
- A substantial academic writing sample of at least 6 pages, with 10 pages preferred, showing the applicant's best work.
- A statement of approximately 500 words articulating the applicant's specific research interests, academic training, goals for graduate study, and career aspirations, as well as the applicant's reasons for applying to the JMU Department of English graduate program.

### Recommended Materials

- A resume is strongly recommended (this might include academic, employment, publication, interests, and skills information not included in other application materials).
- Any additional materials that offer the committee information about an applicant's suitability and preparation for graduate study.

### Evaluation Measures

The graduate committee considers the overall strength of an application rather than focusing on fixed requirements. The committee reads and evaluates all completed applications. We consider all available material to help us judge whether a student is prepared for and capable of successful work on the graduate level and we stress the importance of a solid personal statement that is specific and focused as well as a writing sample that demonstrates strong intellectual and interpretive capabilities, facility with literary research, and excellent writing skills.

In addition to satisfying all admission requirements of the JMU graduate school, applicants must meet the requirements of the English department, which include the following:

- a minimum overall GPA of 3.0 and a minimum GPA of 3.5 in English courses is recommended.
- satisfactory scores on the verbal and writing portions of the Graduate Record Examination General Test (GRE). While we have not established minimum scores, recent applicants and matriculated students have scored between 550-800 (verbal) and 4.5-6.0 (writing).
- at least 15 credit hours in upper-division English courses showing some breadth of study are recommended. The Committee may favorably acknowledge more diverse backgrounds (such as a concentration in creative writing, an English minor, or another major in the humanities), but may specify provisions for admittance (such as additional prerequisite undergraduate courses), to assure that the student is adequately prepared for graduate seminars.
- a writing sample that demonstrates strong intellectual and interpretive capabilities, facility with literary research, and excellent writing skills.
- a personal statement that details the applicant's specific research interests, academic training, goals for graduate study, and career aspirations, as well as the applicant's reasons for applying to the JMU Department of English graduate program. We recommend that applicants seek guidance on how to write effective personal statements from faculty at their home institutions.

### Application Deadlines

Admission is offered for fall semester only; however, students may discuss with the graduate coordinator the possibility of taking seminars as a non-degree candidate prior to application to the program. Students may transfer up to 9 credit hours into the graduate program if they receive a grade of "B" or better in the seminars and are admitted to the program. Complete applications must be received by **February 1** to be given full consideration. In order to be considered for a graduate assistantship, all application materials must be submitted by **February 1** as well. While all applicants are automatically considered for funding, the assistantship application, available as part of the online application process, may be completed to provide additional information to the committee. See the Financial Support tab on the English department Web site for more information about allocation of assistantships.

## Application Review Procedure and Timetable

The graduate committee begins review of all complete applications on February 2. Incomplete applications are read only when they are complete; completion of the application after the deadline will put candidates at a disadvantage for admission and funding, however, the committee does consider such applications in a second, later review. The number of applications and committee members' workload affects the time necessary to review applications, to rank applicants, and to make offers, however, we try to complete our review in a month's time. Candidates are welcome to contact the graduate coordinator for information about where we are in the process after three weeks or at any time if the candidate has received other offers and needs to make an earlier decision.

Note: Students must achieve unconditional status before applying for admission to candidacy.

## Mission

The English department emphasizes preparation for Ph.D. work and advanced training both for secondary education teachers and those for whom an M.A. in English would enhance career options. We welcome students who, for whatever reasons, are eager to read literature on an advanced level, who enjoy research and writing, and who appreciate the responsibilities and pleasures of pursuing one's intellectual goals within an academic community.

## Goals

- To excite and maintain in students a permanent desire for an expanded knowledge and understanding of the world through the study of diverse authors and genres.
- To help students to discover and appreciate the English language, and to learn how richly language clothes our responses to the world.
- To actively promote, through formal study, both the self-examination and the imaginative understanding that are among the central values of advanced study in the humanities.
- To encourage in post-baccalaureate students a broader, more formal inquiry into specific authors and movements in both western and non-western literatures, and to teach them by example the professional practices of reading and interpretation.
- To cultivate the practical talents gained by the study of literature: the ability to recognize the functions of analysis and synthesis in one's professional life, to construct an argument, to think critically, to write efficiently, clearly, and gracefully, to develop confidence in the validity of one's judgments about many kinds of writing, and to learn to see the interstices as well as the architectural whole in widely different encounters with the written word.
- To stimulate the kind of intellectual self-scrutiny and the passion for reading that will lead to successful work on the doctoral level, and to help students gain admittance into excellent Ph.D. programs throughout the country.
- To provide an opportunity for qualified students who are considering teaching as a career to work with faculty in large sections of sophomore literature classes or to teach their own first-year composition class through the awarding of graduate and teaching assistantships.
- To foster in those who are interested in pursuing careers in writing and editing, politics, business, nonprofit work or other less obviously English-related fields the kinds of attention and analysis that are concomitant with the formal study of vastly different kinds of writing – fiction, poetry and drama, argumentation and analysis, opinion, review essays, and creative nonfiction.
- To both broaden and deepen the needed practical knowledge of the fields of writing, literature and literary history for future English teachers in high schools, business schools and community colleges.
- To offer career teachers of English a place to improve their knowledge of these fields and rejuvenate their commitment to the study and teaching of literature.
- To enhance the professional opportunities of career teachers of English through advanced study.
- The JMU graduate faculty in English is committed to the belief that encountering and interacting with literature, thinking critically about texts, learning the skills of scholarly research, and writing about one's ideas effectively provide the kind of education from which the world continues to benefit.

To fulfill these beliefs, we offer students a superior faculty who are recognized for their scholarship, their excellence in teaching and their supportive relationships with graduate students. Most classes are small seminars.

The Department of English offers the Master of Arts degree.

## Degree Requirements

The minimum requirement for the Master of Arts degree is 33 hours of graduate credit in English. All students must take ENG 600, Research Methods, in their first semester. Before beginning a teaching assistantship students must take ENG 501, Professional Seminar in College Composition. Completion of the third year of a college foreign language course or passing a reading examination in a foreign language is required for all students of the Master of Arts degree. Toward the end of their course work, students must pass a formal examination, the details of which are available on the Department of English Web site.

All students should plan a program of study with the coordinator of graduate studies in English before registering for graduate courses in English. In addition, each student is required to meet with the graduate coordinator for a mid-semester progress conference during the student's first semester; after the first semester regular progress conferences are strongly encouraged.

## Course Offerings

### English

#### **ENG 501. Professional Seminar in College Composition.** 3 credits.

Practical examination of the content and methodology of freshman English (GWRTC 103) for the training of beginning teaching assistants. Required for all beginning teaching assistants.

#### **ENG 512. Special Topics Seminar.** 3 credits.

Cross-listed with 400-level courses, for graduate credit. Additional academic work required of graduate students. Registration requires a proposal and permission of the graduate coordinator and the faculty member teaching the course. May be repeated twice only for credit when content varies.

#### **ENG 595. Graduate Internship in English.** 1 credit.

English graduate student internships. Graduate students identify a prospective employer and work as an intern during the summer, fall or spring semester. Credit may not be applied to program requirements. Prerequisite: Graduate student status.

#### **ENG 600. Bibliographic Methods of Research.** 3 credits.

Introduction to research and writing in the discipline for beginning graduate students. Advanced training in research methods and citation, in critical analysis and scholarly writing, and in disciplinary history and the workings of the academy. Required for all Master of Arts students in their first semester.

#### **ENG 601. History of Literary Criticism.** 3 credits.

Advanced readings in the nature, function and development of literary criticism, from the classics to modernism (from Plato, Aristotle, and Plotinus to Marx and Freud).

#### **ENG 602. Contemporary Critical Theory.** 3 credits.

Advanced study of the major debates in current critical discourse, covering such topics as formalism, structuralism, deconstruction, Marxism, new historicism, cultural studies, feminist and queer studies, postcolonial and race studies, and post-humanism.

#### **ENG 603. Studies in the History of the English Language.** 3 credits.

Social, cultural, political, and grammatical history of the English language, with attention to changing forms of spoken and written language in terms of phonology, morphology, syntax and semantics.

#### **ENG 604. Contemporary Linguistics.** 3 credits.

Survey of linguistics, with some emphasis on the English language, and of contemporary issues in the application of linguistic theory.

#### **ENG 608. Textuality.** 3 credits.

A study of material textuality and literary production. Topics may include manuscript and print culture, the History of the Book, bibliography, the history of commercial publishing, periodical studies, graphic novels, historical lexicography, and post-print textual practice. Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

#### **ENG 610. Studies in Gender and Sexuality.** 3 credits.

An examination of literature through the lens of contemporary theories of gender and sexuality. May be repeated when content varies.

#### **ENG 612. Topics in Theory and Cultural Studies.** 3 credits.

Advanced readings in contemporary critical or linguistic theory or in cultural studies that are focused by topic, period, culture, or theme. May be repeated when content varies.

**ENG 615. Studies in Medieval Literature. 3 credits.**

Medieval literatures in the original or in translation produced between ca. 500-1475 in England, Ireland, Iceland, Scandinavia, the European Continent, and the Middle East. Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

**ENG 620. Studies in Renaissance and Early Modern Literature. 3 credits.**

British literature of the Renaissance and Early Modern Periods (1476-1660). Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

**ENG 630. Studies in Restoration and 18th-Century British Literature. 3 credits.**

British literature from ca. 1660 to 1800. Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

**ENG 640. Studies in 19th-Century British Literature. 3 credits.**

British literature of the 19th century. Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

**ENG 645. Studies in 20th- and 21st-Century British Literature. 3 credits.**

British literature of the 20th and 21st centuries. Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

**ENG 650. Studies in Early American Literature. 3 credits.**

American literatures of the colonial and early national periods (16th, 17th, and 18th centuries, through ca. 1820). Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

**ENG 651. Studies in 19th-Century American Literature. 3 credits.**

American literature of the 19th century. Topics may be determined by period or geography, culture or politics, theme or genre. This course may be repeated when content varies.

**ENG 656. Studies in Latin American Literature. 3 credits.**

Works by Latin American writers in translation. Topics may be determined by period or geography, culture or politics, theme or genre. Although the majority of these writers will be Spanish-speakers, there may also be some coverage of Brazilian literature. May be repeated when content varies.

**ENG 662. Studies in 20th- and 21st-Century Literature of the United States. 3 credits.**

American literature of the 20th and 21st centuries. Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

**ENG 664. Studies in Drama. 3 credits.**

Dramatic literature and performance, broadly construed. Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

**ENG 666. Studies in Film and Media. 3 credits.**

Advanced study of mass media, such as film, broadcast television and radio, and digital media. Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

**ENG 668. Studies in African Literature. 3 credits.**

Literatures of Africa in translation. Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

**ENG 671. Studies in South Asian Literature. 3 credits.**

Non-U.S., non-British literature in English or in translation. Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

**ENG 672. Studies in African-American Literature. 3 credits.**

African-American literature of the 20th and 21st century in the context of the cultural and intellectual currents of the period. Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

**ENG 673. Studies in Caribbean Literature. 3 credits.**

Advanced study of the literary achievement of novelists, poets and dramatists of the Caribbean, with emphasis on diverse theoretical and historical approaches. Topics may be determined by period or geography, culture or politics, theme or genre. May be repeated when content varies.

**ENG 675. Reading and Research.** 3 credits.

Supervised reading and research in a particular topic or field. Admission by permission of the director of graduate studies; may not be repeated.

**ENG 698. Comprehensive Continuance.** 1 credit.

Continued preparation for the comprehensive examinations. May be repeated as needed.

**ENG 699. Thesis Continuance.** 2 credits.

Continued study, research and writing for the thesis. May be repeated as needed.

**ENG 700. Thesis.** 6 credits.

Six credits taken over two consecutive semesters. Graded on a satisfactory/unsatisfactory (S/U) basis.)

---

## Admission Criteria

In addition to The Graduate School qualifications for admissions, potential candidates must meet the following requirements.

Admission criteria and the application process vary with the type of program or an individual's status. Requirements may include:

- GRE scores at the 25th percentile or higher for all sections or acceptable Praxis scores for applicants seeking licensure via the graduate degree program.
- Undergraduate grade point average of 2.75 or higher.
- Baccalaureate degree from a regionally accredited college/university.
- Professional resume.
- Two letters of reference.
- A two- to three-page written statement (double spaced) describing the applicant's professional background, the educational issues that the applicant would like to address in the master's program, and the applicant's long-term professional goals.
- Completion of the teacher education application packet. Contact the James Madison University [Education Support Center](#) for specific requirements.

The special education program offers Master of Arts (M.A.T.) and Master of Education (M.Ed.) degree programs leading to professional licensure and area endorsement in Virginia. The licensure programs are designed to prepare resilient teachers who are advocates for children and youth with disabilities, are qualified for the complexity of their professional roles, and are reflective problem-solvers. Graduate level preparations are available in autism, gifted education, special education K-12 accessing the general education curriculum, early childhood special education, inclusive early childhood education, vision impairments and teaching English as second language. The exceptional education department is a member of the English Language Learning Academy, which offers licensure programs in teaching English as a second language. The department also offers a non-teaching concentration in the Master of Education degree.

Candidates working toward the completion of either the M.A.T. or the M.Ed. degree programs, or the add-on endorsement programs must obtain at least a letter grade of "B" in all graduate level required or elective courses. Candidates who receive a letter grade lower than "B" must repeat the course. Should a candidate receive a letter grade of "B-" or "C" in a required or elective course external to the special education program, the "B-" or "C" may be offset by a letter grade of "A" as stipulated in The Graduate School grading policy; however, the three "C" dismissal policy still applies.

Exceptions to all program requirements must be approved in writing by the graduate program coordinator, the Exceptional Education department head and by the dean of The Graduate School. When exceptions relate to licensure, the approval of the dean of the College of Education is also required.

## Mission

The mission of the James Madison University professional education unit is to prepare caring, knowledgeable, skilled and reflective educators who believe that all students can learn and succeed. Our candidates and faculty are committed to lifelong learning and aspire to meet educational needs in a changing, pluralistic and democratic society. The personal and professional development of candidates is accomplished by emphasizing excellence and continuous innovation in quality undergraduate, graduate, and professional programs.

James Madison University's College of Education is distinguished through faculty and candidate achievements, academic rigor, excellence in teaching, candidate and faculty interactions and relationships, technological innovations, and national recognitions. The college maintains relevance through active and growing interactions with other colleges within the university and with local, state, regional, national, and international communities.

The college is committed to providing:

- graduate programs that emphasize advanced knowledge in a specialty area and the development of effective leadership and professional skills for addressing the needs of a changing society.
- continuing professional development and service programs in cooperation with public and private schools and agencies, other colleges, institutions, and businesses.

The undergraduate and graduate teacher education programs are accredited by the National Council for Accreditation of Teacher Education and approved by the Virginia State Board of Education.

The basic philosophy of the college is reflected in the following goals:

- To educate men and women for the multiple professions included in the college at both the undergraduate and graduate levels, not merely by transmitting skills and knowledge but by stimulating creativity, developing cognitive abilities, and encouraging the testing of hypotheses and reinterpretation of the human experience.
- To encourage a balanced faculty orientation toward teaching, research, scholarship, community service and professionalism that recognizes individual strengths and preferences of the college's faculty.
- To create an environment that fosters an atmosphere of open communication among candidates, faculty members and community.
- To anticipate societal needs and provide necessary resources for implementing effective on- and off-campus programs now and in the future.

## Department Mission and Outcomes

The Exceptional Education Department at James Madison University is committed to excellence in teaching, scholarship and service that will influence policy and practice related to the education of individuals with exceptionalities. Our mission is to prepare exemplary professionals to generate, use and disseminate knowledge about teaching, learning and human development to solve critical educational and human service problems in a diverse global community. To that end, graduates of the program will be able to:

- Demonstrate knowledge of characteristics and issues surrounding those areas of exceptionality identified for services through federal and state legislative mandates.
- Demonstrate knowledge of historical, current and emerging perspectives on theory and practice.
- Demonstrate understanding of social, cultural and linguistic influences on children, youth and adults who are exceptional learners.
- Demonstrate an understanding of principles of learning and theoretical approaches for cognitive, physical and behavioral intervention.
- Demonstrate a level of skill competence sufficient to assure positive growth and development in those individuals served.
- Serve as reflective, resilient teachers or professional service providers who are advocates for individuals with exceptionalities.

## Program Descriptions

### M.A.T. in Special Education

The Master of Arts in Teaching degree program is designed to lead to initial licensure in special education. Candidates completing the program are prepared to serve as teachers of individuals with disabilities in a variety of educational placements. There are two programs of study for students wishing to pursue an M.A.T. in Special Education. The first (the fifth year program) is a continuation of the undergraduate, pre-professional program in Special Education. The second (initial licensure program) is designed for individuals who already hold a bachelor's degree and are interested in pursuing initial licensure to teach Special Education.

### M.A.T.: Fifth Year Program

The undergraduate, special education pre-professional program at JMU complements this professionally oriented master's degree program by providing the requisite course offerings and experiences that form an appropriate foundation for admission to the fifth-year Master of Arts in Teaching (M.A.T.) degree program. Candidates must have successfully completed the special education undergraduate pre-professional program and meet all graduate admission requirements including satisfactory scores on the Praxis 1 and an undergraduate GPA of 2.75. Candidates must also be admitted to teacher education at JMU. This M.A.T. program includes a minimum of 30 credit hours of professional education course work on the graduate level. At least half of a candidate's program of study must be taken at the 600 level. A comprehensive examination, written and/or oral, will be completed during the candidate's final semester of this particular M.A.T. program.

### Fifth Year General Curriculum K-12 Program

Completion of this concentration is required for licensure in Special Education – General Curriculum K-12. Candidates completing this professional licensure program must meet a set of content and endorsement-specific criteria that have been established by the Commonwealth of Virginia. In order to meet these requirements, candidates at the undergraduate level will have completed the Interdisciplinary Liberal Studies (IDLS) major or an approved alternative major concurrently with the pre-professional program. It is important for candidates to understand that they must meet the requirements for a baccalaureate degree and successfully complete all undergraduate pre-professional courses and experiences prior to being fully admitted to this M.A.T. initial licensure program. Additionally, candidates must be fully admitted into the Teacher Education Unit (including passing scores on PRAXIS I) and demonstrate satisfactory performance at each program evaluation point.

#### Fifth Year General Curriculum K-12 Program

Minimum Requirements <sup>1</sup>	Credit Hours
MSSE 630. Inquiry in Education	3
EXED 520. Differentiation of Instruction and Collaboration in Special Education	3
EXED 600. Instructional Methods in Special Education	3
EXED 610. Practicum in Special Education Instructional Methods	2
EXED 615. Transition Services for Students with Disabilities	3
EXED 650. Student Teaching in Special Education	6
EXED 650. Student Teaching in Special Education	6
EXED 670. Professional Practice Seminar	4
<hr/>	
	30

### Fifth Year ECSE Program

The fifth-year early childhood special education is being phased out and replaced with the inclusive early childhood education program. Contact the program coordinator of the special education programs for more information.

Completion of the early childhood special education (ECSE) concentration is required for licensure and endorsement in Special Education – Early Childhood (birth – age 5). This concentration is also offered in conjunction with the undergraduate pre-professional program in special education. As with the K-12 concentration, candidates completing this program must meet a set of content and endorsement-specific criteria that have been established by the Commonwealth of Virginia. In order to meet these requirements, candidates at the undergraduate level will have completed the IDLS major or an approved alternative major concurrently with the pre-professional program. It is important that candidates understand that they must meet the requirements for a baccalaureate degree and successfully complete all undergraduate pre-professional courses and experiences prior to being fully admitted to the

M.A.T. program. Additionally, candidates must be fully admitted into the Teacher Education Unit (including passing scores on PRAXIS I) and demonstrate satisfactory performance at each program evaluation point.

#### **Fifth Year ECSE Program**

<b>Minimum Requirements</b>	<b>Credit Hours</b>
ELED 632. Inquiry in Elementary Education	3
EXED 505. Service Delivery in Early Childhood Special Education	3
EXED 622. Assessment in Early Childhood Special Education	3
EXED 623. Programming in Early Childhood Special Education	3
EXED 625. Medical and Technological Aspects of Early Childhood Special Education	3
EXED 626. Practicum: Infants and Toddlers with Disabilities	3
EXED 627. Practicum: Early Childhood Special Education	3
EXED 650. Student Teaching in Special Education	6
EXED 670. Professional Practice Seminar	4
	<hr/>
	31

### **Inclusive Early Childhood Education**

The inclusive early childhood program draws heavily from research and theories in child development, family systems, special education, differentiated teaching and learning. Through course work and extensive field experiences, the teacher candidate is prepared to design activities that have an interdisciplinary focus, reflect an understanding of the individual child's development and learning, recognize the importance of family and developmental influences, support the young child in constructing knowledge about self and the world, and involve parents in supporting the child's growth and development.

The Master of Arts in teaching (M.A.T.) program in inclusive early childhood education is a continuation of the undergraduate IECE program. For more information, see <http://www.jmu.edu/coe/eere/IEC.shtml>.

### **M.A.T. Program: Initial Licensure Program**

Candidates admitted to this program must have earned a bachelor's degree from a regionally accredited college or university. Candidates who have not completed the JMU undergraduate pre-professional program are required to provide transcript evidence that they have completed liberal studies and specified subject matter courses deemed necessary for pursuing licensure in special education. Those candidates not having such course work will be required to complete undergraduate-level, general education and/or subject matter content courses under the terms of provisional admission to graduate study as a degree-seeking candidate.

The initial licensure M.A.T. degree program must contain at least 30 credit hours of professional education course work on the graduate level. The total number of credit hours, however, will vary depending upon the educational background of the student. For the K-12 accessing the general education curriculum concentration, 18 additional credit hours of supporting prerequisite courses may be needed for the ECSE concentration, 15 additional credit hours of supporting prerequisite courses may be needed, and for the vision concentration 12 additional credit hours of supporting prerequisite courses may be needed. At least half of a candidate's program of study must be taken at the 600 level. In some rare cases, depending on a candidate's prior academic preparation, other prerequisite course work may be needed for unconditional admission to this graduate program and to meet teacher licensure requirements. A comprehensive examination, written and/or oral, will be completed during the candidate's final semester of this particular M.A.T. program for the K-12 accessing the general education curriculum and ECSE concentrations. A midpoint and final portfolio will be completed by candidates in the visual impairments concentration.

## General Curriculum K-12 M.A.T. Program

Minimum Requirements <sup>1</sup>	Credit Hours
EXED 503. Application of Ed Tech for Students with Disabilities	1
EXED 512. Behavior Management in the Classroom	3
EXED 520. Differentiation of Instruction and Collaboration in Special Education	3
EXED 607. Curriculum and Methods in Special Education	3
EXED 610. Practicum in Special Education Methods	2
EXED 612. Psychoeducational Assessment of Learning and Behavior Problems	3
EXED 613. Teaching Individuals with Learning and Behavior Problems	3
EXED 615. Transition Services for Students with Mild Disabilities	3
EXED 502. Nature: Issues of Mild Disabilities	3
EXED 510. Individual Behavioral Interventions	3
EXED 504. Individualized Reading Intervention	3
EXED 650. Student Teaching in Special Education	6
EXED 650. Student Teaching in Special Education	6
Electives (by advisement only)	
CSD 540. Language Disorders	
TESL 626. Concepts of Language Acquisition	
PSYC 614. Advanced Developmental Psychology	
EDUC 620. Changing Contexts of American School	
MIED 530. Teaching Mathematics in the Elementary and Middle Grades	

An approved reading course

<sup>1</sup> Other courses may be determined by the individual needs of the candidate and approved by the adviser.

Note. The K-12 program requires two student teaching experiences (i.e., at upper and lower grade levels) across multiple areas of disability. For candidates who have completed other licensure programs, one student teaching experience may be sufficient.

## ECSE M.A.T. Program

Minimum Requirements <sup>1</sup>	Credit Hours
EXED 503. Application of Ed Tech for Students with Disabilities	1
TESL 626. Concepts of Language Acquisition	3
EXED 505. Service Delivery in Early Childhood Special Education	3
EXED 621. Nature and Issues of Early Childhood Special Education	3
EXED 622. Assessment in Early Childhood Special Education	3
EXED 623. Programming in Early Childhood Special Education	3
EXED 625. Medical and Technological Aspects of ECSE	3
EXED 626. Practicum: Infants and Toddlers with Disabilities	3
EXED 627. Practicum: Early Childhood Special Education	3
EXED 650. Student Teaching in Special Education	3
Electives (by advisement only)	
EXED 510. Individual Behavioral Interventions	
PSYC 614. Advanced Developmental Psychology	
EDUC 620. Changing Contexts of American School	

An approved reading course

<sup>1</sup> Other courses may be determined by the individual needs of the candidate and approved by the adviser.

## Visual Impairments M.A.T. Program Requirements

Courses in the visual impairments concentration are offered through the Virginia Consortium for Teacher Preparation in Visual Impairments. In addition to the aforementioned application criteria, students must be accepted into the Virginia Consortium for Teacher Preparation in Visual Impairments ([http://kihd.gmu.edu/teacher\\_prep\\_program/application/](http://kihd.gmu.edu/teacher_prep_program/application/)). All courses specific to vision impairments are offered in a distance education format. For more information, see [http://kihd.gmu.edu/teacher\\_prep\\_program/programs/](http://kihd.gmu.edu/teacher_prep_program/programs/).

Minimum Requirements <sup>1</sup>	Credit Hours
EXED 510. Individual Behavioral Interventions	3
EXED 530. Characteristics of Students with Visual Impairments	1
EXED 531. Assistive Technology for Individuals with Sensory Impairments	2
EXED 532. Braille Code	3
EXED 533. Orientation and Mobility for students with Visual Impairments	2
EXED 534. Curriculum and Assessment for Students with Visual Impairments	3
EXED 601. Collaboration and Supervision to Support Exceptional Learners	3
EXED 615. Transition Services for Students with Mild Disabilities	3
EXED 632. Braille Reading and Writing	3
EXED 631. Medical and Educational Implications of Visual Impairments	3
EXED 633. Teaching Methods for Students with Visual Impairments	3
EXED 635. Practicum with Students with Visual Impairments 2	3-6
Electives (by advisement only)	

<sup>1</sup> Other courses as determined by the individual needs of the candidate and upon approval of the adviser.

## M.Ed. in Special Education

The M.Ed. in special education is a 30-hour program with a minimum of 18 hours in exceptional education and related graduate courses. The remaining 12 hours include courses that meet specific individual needs and career objectives. The program is not designed to meet Virginia requirements for teacher licensure or endorsement, but one's program of study can include courses that may qualify the graduate for endorsements in gifted education and/or ESL provided the individual already holds a Virginia teaching license. This program is primarily for those individuals currently working in an area that requires knowledge and some related skills for working with individuals with exceptionalities, but not necessarily in a pedagogical role, or those individuals who already hold special education licensure. Included in the 18-hour concentration is an internship that may occur as a formal placement by the university or as a result of supervised employment. Certificate programs may be completed in various areas, e.g., autism, gifted education, and behavior management.

Candidates may select course work from existing Exceptional Education courses and from various interdepartmental graduate courses. Each candidate will be required, using the direct guidance of his or her adviser, to design a program of study that will meet individual needs and career objectives.

## Non-Teaching Concentration Requirements

Minimum Requirements <sup>1</sup>	Credit Hours
Choose 18 credit hours from the following (with adviser's approval):	
EDUC 525. Cross Cultural Education	3
EXED 512. Behavior Management in the Classroom	3
EXED 560. The Nature and Needs of the Gifted Learner	3
EXED 520. Differentiation	3
EXED 501. Workshop in Special Education	3
(when topic is Nature: Issues of Mild Disabilities)	
EXED 601. Collaboration and Supervision to Support Exceptional Learners	3
EXED 653. Internship in Special Education: Non-teaching	6
EXED 501. Workshop in Special Education	3
EXED 615. Transition Services for Students with Disabilities	3
EXED 621. Nature and Issues of Early Childhood Special Education	3
EXED 625. Medical and Technological Aspects of ECSE	3
Selected courses from the autism, ESL and/or gifted programs	
Additional electives (by advisement only) <sup>1</sup>	12
<hr/>	
	30

<sup>1</sup> Electives may also be chosen from, but are not limited to, the areas of communication sciences and disorders, human resource development, psychology, secondary education, early childhood and middle education, and exceptional education. Acceptable courses are determined by the individual needs of the candidate and upon approval of the adviser.

## English Language Learning Academy

The English Language Learning Academy provides language learning opportunities and support services through initial licensure programs, a minor, advanced programs, on-site clinical opportunities and a direct service program. The English Language Learning Academy offers an initial PK-12 licensure program in Teaching English as a Second Language (TESL) at the bachelor's and post-baccalaureate (MAT) levels and a non-licensure minor.

## Graduation

All requirements for the degree must be completed by the course work completion deadline in the semester in which the degree is conferred to receive a diploma dated the day of graduation. Applications for graduation should be completed early in the term in which the candidate plans to graduate. Candidates who will satisfy all degree requirements in the summer may participate in the spring commencement ceremony if they have completed an Application for Graduation form signed by their adviser and program coordinator, and they must be pre-registered for summer classes prior to the May commencement ceremony. Candidates must be enrolled during the semester in which the degree is to be conferred. It should be noted that applicants actually graduate and receive their degrees only when all requirements are satisfied. Candidates who do not satisfy all requirements for graduation will be notified of deficiencies and must re-apply for a later graduation date.

## Graduate Add-on Endorsement Programs

### Autism Spectrum Disorders Certificate

This certificate is designed to enable those in the field to increase their knowledge and understanding of students with a disability in the autism spectrum, including those with Asperger syndrome. The courses will engage participants in the practice of assessing, planning and implementing programming for this population. A course sequence has been developed to provide solid practice recommendations for this quickly growing need in the area of special education. Planning for the certificate programs has been based on competencies compiled by a committee of Virginia statewide stakeholders with a variety of backgrounds and perspectives.

### Gifted Education

The Gifted Education program is designed to enable students to add the K-12 Gifted Education Endorsement to an existing approved initial license in education.

The mission of the Gifted Education program is to prepare educators who skillfully contribute to the common good of society through competence in teaching and educational leadership in gifted education. All children are entitled to educators who are knowledgeable, enlightened, and competent, including our advanced and gifted learners. Only competent and knowledgeable educators can provide the necessary environment for the realization of the unique potentials of preK-12 gifted students in all areas of academic, artistic, creative, and intellectual endeavors. Without educational leaders, counselors, teachers, specialists, and all other support personnel gifted learners do not reach their full potentials nor does the greater global society.

#### Gifted Education Program Requirements

Required Courses	Credit Hours

## Course Offerings

### Exceptional Education

#### EXED 501. Workshop in Special Education. 3 credits.

Designed to provide an intensive study of a particular topic in Special Education. Prerequisite: EXED 200 or permission of instructor.

#### EXED 502. Nature and Issues of Mild Disabilities. 3 credits.

This course will focus on the current research base and professional practices and understandings of the characteristics, and learning and behavioral supports needed for students with high-incidence disabilities who are accessing the general education curriculum, including but not limited to students with: learning disabilities, emotional disturbance, mental retardation, developmental delay, autism, other health impairment, traumatic brain injury and multiple disabilities. Content will include an in-depth exploration of current issues impacting students with high incidence disabilities including: age span issues, emotional and behavioral adjustment, social development, language development, cognitive functioning, medical aspects, and cultural/ethnic and socioeconomic factors. Prerequisite: EXED 200 or permission of the instructor.

#### EXED 503. Application of Educational Technology for Students with Disabilities.

1 credit.

An introduction to instructional technology for persons with disabilities. The role of assistive technology in the educational process is investigated. Federal and state guidelines, interdisciplinary team functioning, and program as well as equipment selection are addressed. Prerequisite: EXED 200 or permission of the instructor.

#### EXED 504. Literacy Acquisition & Development: Specialized Reading Instruction for Special Needs Students. 3 credits.

The content of this course will focus on the acquisition and development of reading skills for students with disabilities. Content will include: Characteristics of students with reading disabilities; informal assessment strategies, the

relationship of oral language to reading; stage-development of reading skills; research-based instructional methods; principles of specialized reading instruction; scientifically-based reading programs for students with disabilities; and collaboration with parents to enhance students' reading skills.

**EXED 505. Service Delivery Systems in Special Education. 3 credits.**

This course offers the student detailed experience in the numerous ways in which educational services are made available to children with disabilities, ages 0 to 5. Particular emphasis is placed on working cooperatively with parents in the development of the IEP and IFSP. Prerequisite: Permission of instructor.

**EXED 506. Overview and Assessment of Autism Disorders. 3 credits.**

This course is designed to provide an overview of the current issues involved in working with children who have been identified as having a disability on the autism spectrum. Areas addressed will include learning characteristics, current research and factors involved in causation, assessment and diagnosis. We will briefly discuss positive behavioral supports; social skills development; sensory processing, motor planning and sensory integration; and communication and language development as these will be covered in-depth in subsequent courses. A range of instructional methodologies and techniques will be emphasized throughout the course.

**EXED 510. Systematic Behavioral Interventions. 3 credits.**

An application of various systematic behavioral interventions to the management of behavior and learning of individuals with disabilities. Approaches to teach social skills are also addressed.

**EXED 512. Behavior Management in the Classroom. 3 credits.**

An application of behavior modification techniques to the control of discipline problems in the classroom. The use of these principles as an aid in learning is also stressed.

**EXED 520. Differentiation of Instruction and Collaboration in Special Education.**

3 credits.

Understanding students with disabilities and making accommodations in the general education classroom is paramount for student success. This course will address collaboration as related to teacher roles, the interface between general and special education, and the creation of instructional opportunities that are differentiated for diverse learners.

**EXED 530. Characteristics of Students with Visual Impairments. 1 credit.**

This course focuses on understanding the nature and issues of visual impairments. It includes overview characteristics of and services to persons with visual impairments, including the impact of visual impairments on infants' and children's growth and development, child and adolescent emotional and social development, and family interaction patterns. It provides a framework for considering the educational, conceptual, psycho-social, and physical implications of a visual impairment. This course is delivered via a distance education format.

**EXED 531. Assistive Technology for Individuals with Sensory Impairments. 2 credits.**

This course focuses on specific technology and resources available to enhance and improve the abilities of individuals with sensory impairments to succeed in school, daily living activities, and employment. Access and evaluation issues related to the use of assistive technology for individuals with sensory impairments will be explored. Prerequisite or corequisite: EXED 435/530.

**EXED 532. Braille Code. 3 credits.**

This course provides instruction in the development, use, application, and evaluation of the Braille literary code and its implications for educational/literacy programs for students with visual disabilities. Students will develop the skills to read and write contracted and uncontracted Braille, and develop the competencies for designing related instructional methodologies for teaching children who are blind to read and write. Students will demonstrate skills in assessing appropriate use of Braille code and Braille curricula. This course is delivered via an online education format. Prerequisite or corequisite: EXED 435/530.

**EXED 533. Orientation and Mobility. 2 credits.**

This course provides the foundation for analyzing the components and essence of orientation and mobility. It establishes how the need for independent travel by individuals with visual impairments created the field of O&M; explores the philosophy and history of orientation and mobility including cane instruction, dog guides and methods of travel; and addresses techniques in developing orientation skills and basic mobility instruction. Motor and concept skill development are emphasized. This course is delivered via a distance education format. Prerequisite or corequisite: EXED 435/530.

**EXED 534. Curriculum and Assessment of Students with Visual Impairments. 3 credits.**

This course provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Students practice assessing, planning, and evaluating the educational programs for students with visual impairments. Also covered in this course are assessment

technologies for students with visual impairments; determination of learning needs and appropriate learning media; and the relationship of assessment, IEP development, and placement in working with individuals, their families, and educational and service providers. This course is delivered via a distance education format. Prerequisite or corequisite: EXED 435/530.

**EXED 541. Low-Tech Assistive Technology. 2 credits.**

This course will focus on functional applications of low-technology solutions within the areas of self-care; mobility and transfer; communication; stability and support; sports, recreation, and leisure; and academic and work environments. The course will include exploration and opportunities to design and create low-tech devices for children and adults. Prerequisites: EXED 300 or EXED 503.

**EXED 542. Assistive Technology Computer Applications. 3 credits.**

This course is designed to enhance students' awareness and understanding of computer technology and its implications for individuals with disabilities. It will examine the accessibility of standard computer hardware and software as well as explore available assistive technologies designed to enhance computer accessibility and the functional capabilities of individuals with disabilities. Laboratory and demonstration experiences will enable students to better utilize devices and software in a variety of settings. Prerequisites: EXED 300 or EXED 503, and EXED 441 or EXED 541, or permission of the instructor.

**EXED 543. Use of Assistive Technology in Instruction for Individuals with Disabilities.**

2 credits.

This course is designed to enhance students' awareness and understanding of the range of assistive technologies available and their instructional implications for individuals with disabilities. Laboratory and demonstration experiences will enable students to select and utilize devices and software in settings serving individuals with disabilities. Prerequisites: EXED 300 or EXED 503.

**EXED 560. The Nature and Needs of Gifted Learners. 3 credits.**

The course emphasizes the developmental nature of gifted learners and their related learning characteristics and needs. The origins and nature of varying conceptions of giftedness are explored in relationship to appropriate educational services via the differentiated education for gifted learners. This course introduces the historical and theoretical foundations of gifted education.

**EXED 565. Instructional Methods in Gifted Education. 3 credits.**

This course content includes an understanding of both the theoretical and practical implementation of the appropriate instructional approaches for gifted learners. Adaptations and modifications to general methods and strategies will be included. Emphasis will be placed on the specific instructional strategies that promote appropriate academic rigor and learner independence. Prerequisite: EXED 560.

**EXED 570. Practicum in Gifted Education. 3 credits.**

The practicum experience is designed to provide direct experiences with gifted education programming through participation in related services. A planned and coordinated field experience will consist of a minimum of 45 instructional hours of successful teaching experiences with gifted students in a heterogeneously grouped (mixed ability) classroom or a homogeneously grouped (single ability) classroom. Prerequisites: EXED 560, EXED 565, EXED 660 and EXED 665.

**EXED 600. Instructional Methods in Special Education. 3 credits.**

A detailed study of specialized methods for teaching academic skills to individuals with disabilities. The course emphasizes special education instructional approaches, such as task analysis, direct instruction, diagnostic/prescriptive teaching and strategy training. Focus is on specific remedial methods for reading, math and writing. Prerequisite: EXED 475; Corequisite: EXED 610.

**EXED 601. Collaboration and Supervision to Support Exceptional Learners. 3 credits.**

Students in this course will gain knowledge and practice skills in consultation, case management, and collaboration with individuals, families, educators, related service providers and other human service professionals. Service coordination, interagency coordination, models for integration with peers representing diverse skills and abilities, transportation facilitation, and training, managing, and monitoring paraprofessionals will be studied. Prerequisite: EXED 200 or equivalent.

**EXED 602. Communication, Language and Sensory Issues of Autism. 3 credits.**

This course is designed to provide an in-depth study of the current issues involved in working with children who have been identified as having an autism spectrum disorder. We will review learning characteristics, current research and factors involved with causation, assessment and diagnosis, and positive behavioral supports to set the stage. The bulk of our time will be spent exploring social skills development; sensory processing, motor planning and sensory integration; and communication and language development. We will consider a range of instructional methodologies and techniques for providing instruction, support and generalization of skills in these areas. Prerequisite is the first course in the autism certificate program. Prerequisite: EXED 506.

**EXED 603. Challenging Behaviors, Positive Behavioral Supports, Functional Behavior Assessment and Behavioral Intervention Plans. 3 credits.**

This course is designed to provide an in-depth look at the behavioral challenges those with a disability in the autism spectrum might have and display. Areas addressed will include behavioral characteristics, current research and factors related to behavioral challenges in this population, positive behavioral supports, Functional Behavioral Assessment and Behavior Intervention Plan Development, implementation and monitoring. We will cover data collection in relation to assessment and monitoring behaviors. We will review only briefly social skills development; sensory processing, motor planning and sensory integration; and communication and language development as these will be covered in much greater depth in other courses. A range of instructional methodologies and techniques will be emphasized throughout the course. Prerequisites include the first two courses in the autism certificate program. Prerequisites: EXED 506 and EXED 602.

**EXED 604. Practical Experience in Autism. 2 credits.**

This course is designed to provide in-depth practical application of the knowledge and skills acquired during the preceding course work in autism. Students will apply skills in assessment, planning, implementation, and the review and revision of programming specifically developed to address the needs of student learners or clients with a disability along the autism spectrum. Areas addressed can include learning needs, self-care issues, communication and social skills needs, sensory planning, behavioral challenges, positive behavioral supports, Functional Behavioral Assessment and Behavior Intervention Plan Development, and overall program implementation and monitoring. Students will collect data, develop lessons and behavioral or self-care plans and work with team members to implement, monitor and revise plans. A range of instructional methodologies and techniques will be emphasized throughout the course. Prerequisites include the three courses in the autism certificate program. Prerequisites: EXED 506, EXED 602 and EXED 603.

**EXED 607. Curriculum and Methods in Special Education. 3 credits.**

A study of modifications needed in the school curriculum to fit the unique needs of the learners with disabilities. Procedures involved in individualized educational plans, and methods and materials for academic and school-related problems of individuals with disabilities are examined. Prerequisites: EXED 200 and prerequisite/corequisite EXED 612.

**EXED 610. Practicum in Special Education Methods. 2 credits.**

This course provides field experience opportunities to practice the skills in differentiating instruction in general education settings developed in EXED 520 and the special education instructional methods developed in EXED 600. Corequisite: EXED 600.

**EXED 612. Psychoeducational Assessment of Learning and Behavior Problems. 3 credits.**

A detailed study of psychoeducational assessment procedures and instruments used in determining eligibility, and planning and evaluating instruction for students with mental retardation, specific learning disabilities and emotional disturbance. The course emphasizes administration of formal and informal instruments, interpretation of results, and formulation of individual educational plans based on assessment findings. Prerequisite: EXED 200 or permission of instructor.

**EXED 613. Teaching Individuals with Learning and Behavior Problems. 3 credits.**

A detailed study of curriculum and methods for teaching individuals with learning and behavior problems. The course emphasizes a task analysis approach to developing academic, personal/social and functional life skills. Prerequisite: EXED 607.

**EXED 615. Transition Services for Students with Disabilities. 3 credits.**

A detailed study of transitional services needed for individuals with disabilities, ranging in ages from early childhood to adulthood, to achieve successful outcomes (academic and developmental). Prerequisites: EXED 200 or EXED 502.

**EXED 621. Issues and Trends in Early Childhood Special Education. 3 credits.**

This course is designed to provide the student with an introduction to educational programming for children with disabilities, ages 0 to 5. Particular attention is given to federal legislation, state procedures and practice, and the status of children served in early childhood special education and early intervention programs. Prerequisite: Permission of instructor.

**EXED 622. Assessment in Early Childhood Special Education. 3 credits.**

(Cross-listed as PSYC 822). This course provides a student with exposure to screening, assessment, and diagnostic procedures used in the identification of children with disabilities, ages 0 to 5. A case study approach to diagnosis is emphasized. Family assessment is also an integral part of the course. Prerequisites: Permission of instructor and EXED 200.

**EXED 623. Programming in Early Childhood Special Education. 3 credits.**

This course is designed to acquaint students with curriculum, methods and materials related to establishing and maintaining programs for children with disabilities, ages 0 to 5. Attention is directed to designing developmentally appropriate environments in a variety of settings. Prerequisites: Permission of instructor or EXED 622.

**EXED 625. Medical and Technological Aspects of Early Childhood Special Education. 3 credits.**

This course is designed to give the early childhood special educator exposure to working with children with medical disabilities, ages 0 to 5, who may have significant medical complications. The role and function of early childhood special educators as team members are addressed. The role of technology will receive extensive attention as will issues of etiology and remediation. Prerequisites: EXED 200 and permission of instructor.

**EXED 626. Practicum: Infants and Toddlers with Disabilities. 3 credits.**

This is the introductory field experience with infants and toddlers with disabilities. Settings include medical centers, rehabilitation facilities and community-based programs. Students are expected to demonstrate competencies which have been developed in early childhood special education courses. Prerequisite/corequisite: EXED 623.

**EXED 627. Practicum: Early Childhood Special Education. 3 credits.**

This is the introductory field experience with children with disabilities, ages 2 to 5. Settings include medical centers, rehabilitation facilities and community-based programs. Students are expected to demonstrate competencies which have been developed in early childhood special education courses. Prerequisite/corequisite: EXED 623.

**EXED 631. Medical and Educational Implications of Visual Impairments. 3 credits.**

This course provides an introduction to anatomy and physiology of the visual system and the educational implications of visual pathology. Topics include anatomy of the human eyes, normal visual development, pathology of the eye, examination procedures for the identification of visual pathology, and the effects of pathology on visual learning and development. This course is delivered online. Prerequisites: EXED 530.

**EXED 632. Braille Reading and Writing. 3 credits.**

This course provides basic instruction on transcription of advanced Braille codes, including: music, foreign language, chemistry, computer Braille, and Nemeth Code (Braille math code). It introduced techniques for teaching skills in each code. It explores technology tools to create Braille and tactile materials in addition to other assistive technologies used for instruction in math and science. This course is delivered via a distance education format. Prerequisites: EXED 435/530 and EXED 432/532.

**EXED 633. Teaching Methods for Students with Visual Impairments. 3 credits.**

This course emphasizes methods of teaching compensatory skills, the core curriculum, and technology for use by students who are blind and visually impaired. It addresses curriculum development, adaptations, and teaching methodology for individuals with visual impairments. It provides information on adaptations within various educational programs and adaption of general education classroom materials and procedures for use by children and youth with visual impairments. This course is delivered online. Prerequisites: EXED 435/530.

**EXED 635. Practicum with Students with Visual Impairments. 3-6 credits.**

This practicum is designed to provide students with direct experiences related to teaching students with visual impairments. Students will administer assessments, plan curriculum, offer Braille instruction, and utilize teaching methods and technology unique to students with visual impairments. Settings include inclusive and self-contained settings for students with visual impairments. Students are expected to demonstrate competencies developed in related course work. This practicum can be repeated. Corequisites: EXED 434/534, EXED 632 and EXED 633.

**EXED 650. Student Teaching in Special Education. 6-12 credits.**

Advanced, supervised teaching experiences in the areas of learning and behavior disorders enabling the student to develop and apply the knowledge, management, instructional skills, and professional dispositions acquired in previous course work and relevant field experiences. Students will receive developmental and evaluative feedback. Course graded on an S/U basis and may be repeated for credit. Prerequisite: Permission of instructor.

**EXED 653. Internship in Special Education: Non-teaching. 3-6 credits.**

A supervised non-teaching experience in a setting related to populations with disabilities in order to provide the student the opportunity to demonstrate competencies developed in previous course work. Prerequisite: Permission of instructor.

**EXED 660. Curriculum Design in Gifted Education. 3 credits.**

The course content includes the design and development of differentiated curriculum for gifted learners. The emphasis of the course is the adaptation and modification of existing curricula, as well as how to design new curricular materials for gifted learners. Content includes making decisions about the suitability of curricular materials for gifted learners. Prerequisite: EXED 560.

**EXED 665. Trends and Issues in Gifted Education. 3 credits.**

The course content focuses on the seminal and current issues related to the recognition and education of giftedness in individuals from birth through the life span. Participants will examine the critical issues facing the field of gifted education as well as future directions. Specific topics include: collaboration between gifted and general education; the psycho-social adjustment and guidance of gifted learners; the plight of underserved populations of gifted learners; educational programming models for gifted education; and the approaches used to measure and assess giftedness. Prerequisite: EXED 560.

**EXED 670. Professional Practice Seminar. 4 credits.**

A seminar designed to accompany the student teaching experience. Student teachers will have the opportunity to reflect on their skills, problem-solve school and classroom experiences, increase awareness of the need to continue career-long learning, and conduct individualized classroom-based inquiry project as a capstone activity in the M.Ed. program. Corequisite: EXED 650.

**EXED 680. Reading and Research. 1-6 credits.**

Provides the opportunity for directed reading and research in a student's area of concentration. This activity must be done in the major field of study. May be repeated for credit. Prerequisite: Permission of adviser and program coordinator.

**EXED 698. Comprehensive Continuance. 1 credit.**

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

**Teaching English as a Second Language****TESL 528. Assessment and Curriculum Development in English as a Second Language. 3 credits.**

The course provides students with a variety of assessment practices for profiling non-native students' abilities and for developing appropriate curriculum.

**TESL 626. Concepts in Second Language Acquisition: Research and Application. 3 credits.**

This course provides students with a variety of assessment practices for assessing English language learners' abilities and for developing appropriate curriculum.

**TESL 628. Assessment and Curriculum Development in English as a Second Language. 3 credits.**

The course provides students with a variety of assessment practices for profiling non-native students' abilities and for developing appropriate curriculum.

**TESL/READ 630. Development, Assessment and Instruction of Literacy, K-12. 3 credits.**

This course is designed to provide preservice teachers with a foundation of literacy development. Instructional strategies and assessment techniques, which support the acquisition and development of literacy in diverse classrooms across the curriculum in grades K-12. Prerequisite: CSD 300. Corequisite: SPED 410.

# Health Sciences

## Health Sciences

(540) 568-6510

<http://www.healthsci.jmu.edu/>

## Academic Unit Head

Dr. Robert Koslow

## Ph.D., R.D., Graduate Coordinator Dietetics and Nutrition and Physical Activity

Dr. Patricia Brevard

## P.A.-C, Graduate Coordinator Physician Assistant Studies

Mr. James Hammond

## O.T.R./L, Graduate Coordinator – Master of Occupational Therapy Program

Dr. Jeff Loveland

## Professors

A. Bopp, P. Brevard, J. Hammond, R. Koslow, J. Thompson, D. Wenos, M. Wessel

## Associate Professors

P. Bailey, D. Cockley, B.K. Diduch, J. Gloeckner, J. Loveland, D. Sutton, D. Torisky, T. Wagner

## Assistant Professors

J. Akers, A. Kent, K. Lewis, S. Maiewski, C. Peterson, M. Rittenhouse, J. Wenos, A. Russell Yun

## Instructor

E. Richardson

---

## Overview

The Department of Health Sciences is home to three graduate programs: M.S. in health sciences with a concentration in either dietetics or nutrition and physical activity; M.O.T. in occupational therapy; and M.P.A.S. in physician assistant studies. The department also offers a health services administration track in the M.B.A. program.

## Admission Requirements

Admission requirements for programs in the Department of Health Sciences vary by program. Refer to the specific program for admission criteria and deadlines.

## Mission

The graduate programs in health sciences are dedicated to preparing students to become evidence-based critical thinkers in the health sciences. Specifically, these programs build upon the undergraduate health sciences programs by providing a more detailed knowledge base that is fortified by self-directed learning experiences and the development of practical, clinical and/or research skills.

## Goals

The specific goals of the graduate programs in health sciences are designed to help students develop their critical thinking abilities while expanding their knowledge in the rapidly changing health-related environments. Specifically, students will be able to:

- critically evaluate the current research in the ever-broadening field of health.
- access current literature in the health fields.
- interpret current health-related research.
- develop basic research skills.
- describe and evaluate various health education models.
- critically evaluate past and present health care administration strategies.

The mission and goals are based, in part, on the Standards for the Preparation of Graduate-Level Health Educators.

In the Master of Science programs, courses must be selected with the approval of the major adviser in accordance with the program requirements. Students electing a major in the health sciences department are expected to have adequate undergraduate preparation in the chosen area of graduate study and satisfactory Graduate Record Examination scores.

Students entering the dietetics or nutrition and physical activity concentrations of the health sciences graduate program who do not possess the required prerequisites must obtain them before beginning the program.

## Master of Science Concentrations

### Health Sciences: Dietetics Concentration

Dr. Patricia Brevard, Graduate Concentration Coordinator  
Phone: (540) 568-6362

A master of science degree in health sciences may be pursued with a concentration in dietetics. The program includes course work in advanced nutrition, topics in foods, professional issues in dietetics, management in dietetics settings, research methods, nutrition and disease, nutrigenomics, and geriatric nutrition. In addition to course work, students must plan, conduct and complete a written report on a research project. The prerequisite for admission to this program is the Registered Dietitian credential.

#### Dietetics Concentration Degree Requirements

Minimum Requirements	Credit Hours
MATH 522. Statistics for Researchers	3
NUTR 654. Current Topics in Foods	3
NUTR 655. Integrated Nutrition	3
NUTR 660. Research Methods in Dietetics	3
NUTR 672. Professional Practice Issues in Dietetics	3
Choose one of the following options:	6-7
Directed Research option:	
NUTR 681. Directed Research in Dietetics I (two credits)	
NUTR 682. Directed Research in Dietetics II (two credits)	
NUTR 695. Research Interpretation in Dietetics (one credit)	
NUTR 696. Graduate Seminar in Dietetics (one credit)	
Thesis option:	
NUTR 700. Thesis Research I (three credits)	
NUTR 701. Thesis Research II (three credits)	
NUTR 695. Research Interpretation in Dietetics (one credit)	
NUTR 696. Graduate Seminar in Dietetics (one credit)	
Choose 12 hours from the following elective courses:	12
NUTR 545. Exercise and Nutrition	
NUTR 555. Theories and Practices of Weight Management	
NUTR 650. Nutrition Education and Counseling	
NUTR 671. Nutrition in Disease Development, Progression and Prevention	
NUTR 673. Advanced Management in Dietetics	
NUTR 674. Optimal Nutritional Health for Older Adults	
NUTR 675. Nutrigenomics	

33-34

### Health Sciences: Cross Disciplinary Program in Nutrition and Physical Activity

This 33 credit hour master's program permits students to major in health sciences or kinesiology with a concentration in nutrition and physical activity. Students must declare a major in either health sciences or kinesiology with a concentration in nutrition and physical activity. This graduate program has been planned for registered dietitians or persons with an undergraduate degree in dietetics, kinesiology or a related area. This program is designed for the student who has an interest in nutrition and its role in physical activity.

An undergraduate degree with a major in dietetics, kinesiology or a related field is required. Courses in nutrition, exercise physiology, anatomy and physiology are prerequisites for admission to the program. Students should also check the prerequisites listed in the catalog for each course required. Thirty-three hours are required for the degree

program, including a thesis or directed research on a selected topic in nutrition and physical activity. The degree program can be completed in as few as two academic years, with a maximum of six academic years. This program does not lead to the RD status recognized by the American Dietetic Association; however, students are encouraged to obtain the RD status by completing the Didactic Program in Dietetics requirements and applying for a dietetic internship.

For a list of DPD requirements, refer to <http://www.healthsci.jmu.edu/dietetics/undergraduate.htm>; refer to <http://www.eatright.org> for a list of all dietetic internships available in the United States.

### **Cross Disciplinary Program in Nutrition and Physical Activity Concentration Degree Requirements**

<b>Minimum Requirements</b>	<b>Credit Hours</b>
NUTR/KIN 555. Theories and Practices of Weight Management	3
KIN 644. Metabolic and Cardiorespiratory Aspects of Exercise	3
KIN 645. Muscular, Hormonal and Environmental Aspects of Exercise	3
KIN 650. Exercise Testing, Prescription and Evaluation	3
NUTR 660/KIN 655. Research Techniques	3
MATH 522. Statistics	3
NUTR 545. Nutrition and Exercise	3
NUTR 582. Nutrition and Metabolism	3
NUTR 652. Nutrition Assessment	3
Choose one of the following options:	6-8
Health Sciences Students must choose option one or option two.	
Kinesiology students must choose option three.	
Option One:	
NUTR 695. Research Interpretation in Dietetics (1 credit)	
NUTR 696. Graduate Seminar in Dietetics (1 credit)	
KIN/NUTR 700. Thesis Research I (3 credits)	
KIN/NUTR 701. Thesis Research II (3 credits)	
Option Two:	
NUTR 681. Directed Research in Dietetics I (2 credits)	
NUTR 682. Directed Research in Dietetics II (2 credits)	
NUTR 695. Research Interpretation in Dietetics (1 credit)	
NUTR 696. Graduate Seminar in Dietetics (1 credit)	
Option Three:	
KIN/NUTR 700. Thesis Research I (3 credits)	
KIN/NUTR 701. Thesis Research II (3 credits)	

33-35

### **Master of Business Administration: Health Services Administration Concentration**

The Department of Health Sciences cooperates with the College of Business Master of Business Administration program to offer a health services administration concentration within the Master of Business Administration program. This program is intended to provide practicing health professionals with the business skills and health systems knowledge necessary for promotion or to take advantage of new opportunities.

This track includes the following four courses:

HTH 659. Health Care Environment (3 credits)

HTH 660. Health Economics (3 credits)

HTH 661. Financial Management of Health Services Organizations (3 credits)

HTH 669. Health Care Administration (3 credits)

Three of these courses are used to meet Master of Business Administration elective requirements. Students in the health services administration concentration take HTH 661, Financial Management of Health Services Organizations, instead of FIN 655, Advanced Topics in Financial Management.

Students who have not had at least two years of work experience in a health services organization will be required to complete a three-month internship. Application for admission must be made to the College of Business Master of Business Administration program. Applicants must meet the Master of Business Administration prerequisite requirements. Refer to the Master of Business Administration Web site for specific requirements for this concentration.

## Course Offerings

### Health Sciences

#### **HTH 501. Workshop in Health and Nutrition.** 1-3 credits.

An intensive investigation of a major current health problem such as sex education, drug abuse or environmental health.

#### **HTH 510. Human Sexuality.** 3 credits.

Components of human sexuality as they relate to the physical, social and emotional health of children, adolescents and adults. Such topics as physical and sexual changes during adolescence, abortions and contraceptives are discussed.

#### **HTH 549. Contemporary Health Issues.** 3 credits.

An investigation of concerns in the area of health promotion, including cardiovascular health, fitness, the personal role of health education, drugs and drug abuse, and other selected topics.

#### **HTH 552. Health Behavior: Theory, Research and Practice.** 3 credits.

An in-depth analysis of health education strategies employed in altering individual and community health behavior.

#### **HTH 558. Health Planning.** 3 credits.

An intensive exploration of resources and techniques employed in planning and evaluating health programs designed to meet the specific health needs of communities and groups.

#### **HTH 645. Practicum in Health Sciences.** 1-3 credits.

Selected practicum experiences for students in the various health sciences graduate programs.

#### **HTH 655. Research Techniques.** 3 credits.

This course examines: the focus of research, literature review, research design, choices of method of analysis, data collection techniques and the various ways to conclude a research effort. The logic of statistical analysis is used to develop research designs. Prerequisite: One statistics course.

#### **HTH 657. Chronic Diseases.** 3 credits.

Survey of common chronic diseases of humanity with emphasis on prevention and early diagnosis. Topics include such diseases as cardiovascular, endocrine, ophthalmic, respiratory and neurological disorders.

#### **HTH 659. Health Care Environment.** 3 credits.

This is a survey course examining the U.S. health care system, federal and state health policy, and public and private providers. Comparisons of the U.S. system will be made with other systems in the industrialized world.

#### **HTH 660. Health Economics.** 3 credits.

Course explores economic dimensions of the health care delivery system: demand, demand-related human behaviors, competitive markets, economic models for care delivery, regulation and medical insurance. Delivery models of other industrialized nations are considered, as is how the U.S. system may be improved. Prerequisite: Undergraduate microeconomics.

#### **HTH 661. Financial Management of Health Services Organizations.** 3 credits.

This course emphasizes financial management in a variety of health care organizations. Activities include the study of patient accounting, third party reimbursement and cost reporting. There will be extensive use of microcomputer spreadsheet methods. Prerequisites: Required: HTH 659; recommended: FIN 645.

#### **HTH 669. Modern Health Care Administration.** 3 credits.

Study of health organizations' internal operations through examination of activities in various health agency settings.

#### **HTH 671. School Health Practice.** 3 credits.

Analysis of two areas of the school health program (health services and health instruction) with emphasis on planning, implementing and evaluating health services and instruction.

#### **HTH 680. Reading and Research.** 3 credits.

Directed reading in designated areas of specialized interest. Investigating, researching and reporting. Course may be repeated for credit, with permission of the department head, when content changes.

**HTH 685. Field Work in Health. 3-6 credits.**

Practical experience in applying health theory to problems encountered in a professional setting. Specific assignments will be determined by the needs of the student. (Amount of credit will be based on amount of experience acquired. No more than six hours can be counted toward a degree program.)

**HTH 695. Directed Research. 3 credits.**

This is for research designed to complete the Directed Research Option. The course must be taken twice. Prerequisite: Permission of graduate coordinator.

**HTH 698. Comprehensive Continuance. 1 credit.**

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

**HTH 699. Thesis Continuance. 2 credits.**

Continued study, research and writing in the area of thesis concentration. Course may be repeated as needed.

**HTH 700. Thesis Research. 6 credits.**

This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis. Prerequisite: HTH 655 or equivalent.

**Dietetics****NUTR 545. Nutrition and Exercise. 3 credits.**

Addresses the relationship of nutrition and exercise and the effect of dietary intake. Techniques of nutritional assessment and counseling through dietary plans will be investigated. This course is designed especially for professionals who may be employed in physical fitness programs. Prerequisite: NUTR 280 or equivalent.

**NUTR/KIN 555. Theories and Practices of Weight Management. 3 credits.**

An examination of the physiological, psychological and environmental theories of obesity. Current trends in obesity research are examined. A case study and laboratories are utilized to provide students with practical experience in conducting a weight loss program. Prerequisites: BIO 270, BIO 290, NUTR 280 or permission of instructor.

**NUTR 582. Nutrition and Metabolism. 3 credits.**

A study of the nutrients, their roles in intermediary metabolism, the effects of genetic errors in metabolism, nutritional deficiencies and means of assessing nutritional status. Agencies and programs concerned with nutrition and health and current trends in nutrition research are emphasized. The development of an individual nutrition research project, collection and reporting of data is required. Prerequisites: NUTR 280, physiology, biochemistry and statistics.

**NUTR 650. Nutrition Education and Counseling. 3 credits.**

Review of philosophy and provisions of major nutrition education of current research in the field of dietetics. Techniques of planning, implementing and evaluating programs. Theories and techniques of nutrition counseling. Nutrition education and counseling experience will be provided in a variety of settings. Prerequisite: Admission to M.S. in health sciences program with dietetics concentration, which includes RD status, or permission of the instructor.

**NUTR 652. Nutrition Assessment. 3 credits.**

Methods of assessing nutritional status of people in clinical and experimental settings. Prerequisite: NUTR 384 or equivalent.

**NUTR 654. Current Topics in Foods. 3 credits.**

In-depth study of a variety of current topics related to the United States and global food supply, food processing, food regulation, food marketing, and the relationship between foods and disease. Prerequisite: Admission to M.S. in health sciences program with dietetics concentration, which includes RD status, or permission of the instructor.

**NUTR 655. Integrated Nutrition. 3 credits.**

The biochemical and physiological processes involved in nourishing the body in health and in disease. Prerequisite: Admission to M.S. in health sciences program with dietetics concentration, which includes RD status, or permission of the instructor.

**NUTR 660. Research Methods in Dietetics. 3 credits.**

This course emphasizes skills in the initiation, conduct and interpretation of research, particularly that involving social science techniques applied to dietetics and health sciences. Emphasis is given to measurement issues, design, questionnaire development, survey techniques, field research, evaluation, quantitative (using SPSS) and qualitative analysis, and ethical issues. Prerequisite: Undergraduate or graduate-level statistics course.

**NUTR 671. Nutrition in Disease Development, Progression, and Prevention. 3 credits.**

Pathophysiology of disease will be investigated in this course, emphasizing the role of inflammation in development of major chronic diseases. The impact of nutrients on inflammation and in specific disease states and various nutrients and food components that can be used as preventive measures or treatment modalities will be emphasized.

Prerequisite: Admission to M.S. in health sciences program with dietetics concentration, which includes RD status, or permission of the instructor.

**NUTR 672. Professional Practice Issues in Dietetics. 3 credits.**

This course emphasizes development of skills needed by Registered Dietitians in leadership positions in the profession, professional associations, administrative dietetics employment positions, and other volunteer or employment professional settings. Topics include communication strategies, developing a strategic approach to professional skills and competencies, grant writing, leadership, public policy, and legislative issues. Prerequisite: Admission to M.S. in health sciences program with dietetics concentration, which includes RD status, or permission of the instructor.

**NUTR 673. Advanced Management in Dietetics. 3 credits.**

Management and leadership principles will be investigated with emphasis on skills needed in food service, dietetics or nutrition-related services. Current research used in policy making will be reviewed. Focus areas include project, financial, human resource, and outcomes management; quality assurance; marketing strategies; employment law; regulation of food and healthcare; entrepreneurship; and adult education and training. Prerequisite: Admission to M.S. in health sciences program with dietetics concentration, which includes RD status, or permission of the instructor.

**NUTR 674. Optimal Nutritional Health For Older Adults. 3 credits.**

Students will investigate physiological changes associated with normal aging, the impact of those changes on nutrition status, and the impact of nutrition on the longevity and quality of life. Evidence-based treatment modalities to minimize the effects of physical, social, economic and mobility changes on nutritional health will be developed.

Prerequisite: Admission to M.S. in health sciences program with dietetics concentration, which includes RD status, or permission of the instructor.

**NUTR 675. Nutrigenomics. 3 credits.**

The role of food choice and physical activity on gene expression and the impact on health and wellness of individuals will be explored. Also, the role of genetics and nutrition therapy in the prevention and development of chronic diseases will be examined. Prerequisite: Admission to M.S. in health sciences program with dietetics concentration, which includes RD status, or permission of the instructor.

**NUTR 681. Directed Research in Dietetics I. 2 credits.**

Advanced research in dietetics directed by a graduate advisory committee. Course will be graded on an S/U basis.

Prerequisites: Unconditional admission status in the graduate program and NUTR 660.

**NUTR 682. Directed Research in Dietetics II. 2 credits.**

Advanced research in dietetics research directed by a graduate advisory committee. Course will be graded on an S/U basis. Prerequisite: NUTR 681.

**NUTR 695. Research Interpretation in Dietetics. 1 credit.**

Critical evaluation and interpretation of current research in the field of dietetics. Critiques of research articles will be conducted by the class, with discussion regarding each study. Each component of the research process will be evaluated to assist students with their own research reporting. Prerequisite: MATH 220.

**NUTR 696. Graduate Seminar in Dietetics. 1 credit.**

A professional seminar will be presented to all graduate students and faculty, with an oral and graphic presentation of results obtained from research completed in NUTR 682 or NUTR 701. The required presentations must be given during the semester this course is taken. Presentations as both a seminar and a poster session are required.

Prerequisites: NUTR 695, NUTR 660, NUTR 681, MATH 522; prerequisite or co-requisite: NUTR 682 or NUTR 701.

**NUTR 697. Directed Research Continuance. 1 credit.**

Continued study, research and writing in the area of directed research project. Course may be repeated as needed, but does not count toward degree requirements. Course will be graded on an S/U basis.

## Admission

The Masters of Occupational Therapy (M.O.T.) is a professional master's degree designed for entry-level generalist preparation of the occupational therapist. The design of the program is a 2.5 year model with two routes of entry:

- JMU undergraduate students can apply during their third year of undergraduate work. Undergraduate students must have completed all prerequisites and 85 hours of undergraduate credit in order to start the program after their third year. These students must apply to The Graduate School during their senior year.
- If accepted, an additional 1.5 years of course work will be required.
- Students possessing a bachelor's degree may apply to The Graduate School and the Health Sciences M.O.T. graduate program as graduate students. These students will be required to complete 79 credits in 2.5 years of course work.

## Application Deadlines

One cohort of students is admitted each year. Classes begin in June.

For deadlines for application to The Graduate School, see "Admission to The Graduate School." For deadlines for application to the OT program see the program's Web site. All occupational therapy programs across the country are considering future implementation of a centralized application process. Consult the JMU M.O.T. program Web site for updated information on this development.

Applications submitted by the due date are reviewed first and given earliest consideration for admission into the program. Applications received after the deadline will be considered as enrollment permits.

Undergraduates must apply for admission to the occupational studies program during their junior year and The Graduate School during their senior year.

Students possessing a bachelor's degree must apply to The Graduate School prior to their admission to the M.O.T. program.

Undergraduate applicants should contact the occupational therapy program office for an application packet at (540) 568-2399. Students possessing an undergraduate degree will apply to the MOT program online through the JMU Graduate School.

## Mission

The mission of the occupational therapy program is to provide a well-rounded educational experience to students that will prepare them to effectively practice in a variety of service areas within today's health and human service arena.

Each graduate will:

- possess a thorough understanding of occupation.
- be able to articulate and demonstrate the theoretical and practical application of occupational therapy.
- be comfortable and competent working with individuals in a variety of practice settings.

- be committed to continuous professional growth and the evolution and validation of the profession as human needs change.
- be able to systematically locate and evaluate available evidence-based literature to formulate assessment and intervention decisions to guide professional practice.

Faculty participating in the program will contribute through service and education to professional circles and the local community; and will maintain high standards of professional knowledge while offering quality education to students.

Occupational therapists work with individuals whose ability to participate in the occupations of life is disrupted or unable to develop due to injury, disease, developmental difficulties or environmental factors. Occupational therapy is a health and human service profession whose name is reflective of the time that it was formally founded (1917) when the term occupation collectively referred to activities people engage in throughout their day. Based on the centuries-old belief that there is health in doing, active client-centered participation is both the focus of the professional and its main avenue of intervention. Occupational therapists work in hospitals (inpatient and outpatient programs), rehabilitation centers, early intervention programs, schools, mental health programs, home health care agencies, industrial medicine/rehabilitation programs, skilled nursing facilities, private practices, correctional facilities, shelters, community-based programs, or at colleges or universities as faculty. For employment characteristics for occupational therapists, a listing of where JMU OT graduates work, average salary by graduating class, graduate performance on the NBCOT Exam and employer satisfaction of JMU graduates see [http://www.jmu.edu/healthsci/occupational\\_therapy/employment.html](http://www.jmu.edu/healthsci/occupational_therapy/employment.html).

## Accreditation

The occupational therapy program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, Bethesda, MD 20824-1220. AOTA's phone number is (301) 652-AOTA (Web site is <http://www.aota.org>). Graduation from an ACOTE accredited program is a requirement for eligibility to take the National Board for Certification in Occupational Therapy (NBCOT) exam. NBCOT (<http://www.nbcot.org>) can be contacted at 120 South Summit Avenue, Suite 100, Gaithersburg, MD 20877-4150 or (301) 990-7979. Successful completion of this examination forms the basis for the regulation of practice. A prior felony conviction may affect a graduate's ability to take the NBCOT certification examination and/or attain state licensure.

The licensing authority for occupational therapists in the Commonwealth of Virginia is the Department of Health Professions of the Virginia Board of Medicine, Perimeter Center, 9960 Mayland Drive, Suite 300, Richmond, VA 23233-1463. Telephone: (804) 367-4600. Refer to the AOTA Web site for licensing information for other states.

## Admission Requirements

Admission is limited and competitive. Students applying to the program with a baccalaureate degree will enter the program as graduate students. Successful completion of 79 graduate credits will result in earning the M.O.T. degree.

Students admitted as seniors will complete 35 undergraduate credits. After acceptance into The Graduate School and graduate level occupational therapy program, they will complete 44 graduate credits for the M.O.T. degree. Admission into the occupational therapy program as an undergraduate does not ensure admission to The Graduate School or the graduate level occupational therapy program.

### Admission Requirements for Undergraduates

To be considered for admission to the M.O.T. program, prospective students must:

- Be admitted to JMU as an undergraduate student majoring in health studies. NOTE: Refer to the JMU Undergraduate Catalog for specific course work to fulfill degree requirements.
- Submit Graduate Record Examination (GRE) scores in verbal, quantitative and writing. Undergraduate applicants should take the GRE in the fall semester (prior to November 15) of their junior year before applying to the M.O.T. program.
- Apply and be admitted to The Graduate School during the senior year.
- Complete at least 85 hours of undergraduate course work by the time of enrollment.
- Have a minimum preferred cumulative grade point average of 2.8 or better (3.0 recommended).
- Applicants must achieve a grade of "C" (2.0) or higher in the following courses:
- BIO 270. Human Physiology
- BIO 290. Human Anatomy
- GPSYC 160. Life Span Human Development
- PSYC 250. Intro to Abnormal Psychology
- HTH 408. Research Method

- The minimum preferred grade to achieve in the following courses is "C" (2.0):
- GANTH 195. Cultural Anthropology
- GSOCI 140. Individual in Society or
- GSOCI 110. Social Issues in a Global Context
- MATH 220. Elementary Statistics
- CHEM 120. Concepts of Chemistry
- NUTR 280. Nutrition for Wellness
- GHTH 100. Personal Wellness
- HTH 230. Community Health
- HTH 300. Medical Terminology
- HTH 320. Health Statistics or second math course
- HTH 330. Introduction to Chronic Diseases
- HTH 441. Rehabilitative Biomechanics or comparable physics or kinesiology course
- HTH 354. US Health Care Systems
- HTH 450. Epidemiology
- HTH 451. Health Behavior Change

**NOTE:** These are JMU courses and numbers. Students not attending JMU as undergraduates may request that courses with similar content be substituted for the specific courses listed. Transcripts and syllabi of the courses should be supplied for the review of content. The admissions committee of the occupational therapy program will determine if the courses meet the prerequisite requirements.

- Submit documentation of a minimum 40 hours of observation of occupational therapy services (form in application packet).
- Submit three reference forms: one from an employer or non-relative and one or more from an instructor (form in application packet).
- Submit an autobiographical statement of 1,500 words or less. Refer to the JMU M.O.T Web site for specific instructions regarding this assignment.
- Meet all ISST requirements and requirements in computer competency as required by the university and stated in the general education requirements in the JMU Undergraduate Catalog.
- Provide evidence of at least one instructional experience in the arts or media (high school or community college course, private instruction, Community Arts certificate, etc.).

## Admission as a Graduate Student

To be considered for admission to the M.O.T. program, prospective students must:

- Submit Graduate Record Examination (GRE) scores in verbal, quantitative and writing.
- Be admitted to the JMU Graduate School. Students with an earned undergraduate degree will apply to the M.O.T. program online through the JMU Graduate School.
- Have a minimum preferred cumulative grade point average of 2.8 or better (3.0 recommended) and meet all prerequisite course requirements with a grade of "C" (2.0) in the following courses: **NOTE:** These are JMU courses and numbers. Students not attending JMU as undergraduates may request that courses with similar content be substituted for the specific courses listed. Transcripts and syllabi of the courses should be supplied for the review of content. The admissions committee of the occupational therapy program will determine if the courses meet the prerequisite requirements.
- Applicants must achieve a grade of "C" (2.0) or higher in the following courses:
- BIO 270. Human Physiology
- BIO 290. Human Anatomy
- GPSYC 160. Life Span Human Development
- PSYC 250. Intro to Abnormal Psychology
- HTH 408. Research Methods
- The minimum preferred grade to achieve in the following courses is "C" (2.0):
- GANTH 195. Cultural Anthropology
- GSOCI 140. Individual in Society or GSOCI 110. Social Issues in a Global Context
- HTH 441. Rehabilitative Biomechanics or comparable physics or kinesiology course

- MATH 220. Elementary Statistics
- HTH 300. Medical Terminology
- Submit documentation of competency in computer technology and information seeking skills.
- Submit documentation of a minimum forty hours of observation of occupational therapy services (form in application packet).
- Submit three reference forms: one from an employer or non-relative and one or more from an instructor (form in application packet).
- Submit an autobiographical statement of 1,500 words or less. Refer to the JMU M.O.T. program Web site for specific instructions regarding this assignment.
- Provide evidence of at least one instructional experience in the arts or media (high school or community college course, private instruction, Community Arts certificate, etc.)

## Application Evaluation Criteria

Candidates are evaluated through review of their written application. The following characteristics, skills and accomplishments are assessed.

- Academic preparation (overall GPA, prerequisite GPA).
- Autobiographical statement.
- Written communication skills.
- Volunteer/health and human services experience (Volunteer Form).
- References (Reference Form).
- Thoroughness and timeliness of application submission (date and status of application material when received).
- Level of commitment and desire to enroll in graduate occupational therapy education at JMU.
- Degree of professional behavior and maturity during the student's advising and application process.

## Curriculum

All of the following courses are required and must be taken in the sequence specified. Students must be enrolled full-time. Exceptions to this requirement are rare and are only granted by the program coordinator. Students must perform satisfactorily from an academic standpoint in a manner that is consistent with JMU Graduate School and Occupational Therapy Program policies.

### Occupational Therapy Degree Requirements

Summer: Year One (6 weeks)	Credit Hours
HTH 409/OT 510. Therapeutic Interaction	3
HTH 431/OT 530. Human Occupational and the Foundations of the Profession	3
HTH 445/OT 540. The Occupational Therapy Process	3
	9
Fall: Year One	Credit Hours
HTH 424/OT 520. Occupational Development through the Lifespan	3
BIO 414/514. Functional Anatomy for Occupational Therapists	4
BIO 440/540. Functional Neuroscience	3
HTH 461/OT 561. Therapeutic Media in Occupational Therapy	2
	12
Spring: Year One	Credit Hours
HTH 435/OT 555. Level I Fieldwork One	1
HTH 460/OT 560. Sensorimotor Foundations of Occupation	3
HTH 478/OT 580. Occupational Dysfunction: Cause and Impact	3

HTH 479/OT 590. Foundations of Research in Occupational Therapy	3
HTH 485/OT 585. Psychosocial Perspectives in Occupational Therapy Practice	3
HTH 491/OT 591. Occupational Therapy Tutorial Group I	1
<hr/>	
	14

Students enrolled in the program at the undergraduate level would receive a Bachelor of Science degree in health sciences at this time. These students would have the option of earning a minor in gerontology, substance abuse or special education (non-teaching) if appropriate course work is completed.

Summer: Year Two	Credit Hours
OT 538. Administrative Functions for OT's	3
<hr/>	
	3

Fall: Year Two	Credit Hours
OT 600. Assistive Technology in Occupational Therapy Practice	3
OT 610. Occupational Therapy Intervention in Pediatrics	3
OT 620. School Based Practice	2
OT 630. Evidence Based Practice	3
OT 645. Level I Fieldwork Two	1
OT 691. Occupational Therapy Tutorial Group II	1
<hr/>	
	13

Spring: Year Two	Credit Hours
OT 640. Occupational Therapy Intervention Throughout Adulthood	4
OT 651. Community and Health Practice in Occupational Therapy	4
OT 655. Level I Fieldwork Three	1
OT 692. Occupational Therapy Tutorial Group III	1
<hr/>	
	10

Summer: Year Two	Credit Hours
OT 663. Policy Analysis and Systems of Service Provision	3
OT 665. Level II Fieldwork One (12 week placement)	6
<hr/>	
	9

Fall: Year Three	Credit Hours
OT 675. Level II Fieldwork Two (12 week placement)	6
OT 680. Independent Study	3
<hr/>	
	9

**Note:** Level II fieldwork must be completed within 24 months of completion of didactic course work.

Students would receive a master's of occupational therapy degree at December commencement once they conclude all academic and clinical course work.

## Course Offerings

### Occupational Therapy

#### **OT 510. Therapeutic Interaction. 3 credits.**

This course focuses on the therapeutic process, small group dynamics, professional interactions, cultural sensitivity, and client-practitioner relationships. Topics include professional socialization, communication skills, and exploration of self within the context of personal and professional attitudes, values, and beliefs. Prerequisite: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or by permission of the program director.

#### **OT 520. Occupational Development Through the Lifespan. 3 credits.**

Occupational development from infancy to old age comprises the content. The specific interactions of the human and the environment in fostering physical, social, emotional, cognitive, moral and psychological growth are covered. The acquisition of values, roles, habits, temporal adaptations and interests during each stage of life are explored. Prerequisite: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or by permission of the program director.

#### **OT 530. Human Occupation and the Foundations of the Profession. 3 credits.**

Occupation as a fundamental human behavior is explored. The conceptual basis of occupational engagement including time, tool use, environmental press, activity analysis, grading, approaches to change and other foundation concepts are linked to occupational science. How these coalesce into a professional focus and a profession completes the content. Prerequisite: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or by permission of the program director.

#### **OT 538. Administrative Functions for OTs. 3 credits.**

This course provides an introduction to the management functions, tasks, roles and responsibilities as they are carried out in health and human service organizations. Discussion of emerging issues impacting health care practitioners is provided. Supervisory issues specific to the occupational therapist will be explored. Prerequisite: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or by permission of the program director.

#### **OT 540. The Occupational Therapy Process. 3 credits.**

The occupational therapy process is taught. Types, purposes and methods of assessment are taught as the initial and defining step in the therapeutic process. Problem setting, client centered goal development, intervention and appropriate termination of services are covered. Documentation of the process is also included. Prerequisite: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or by permission of the program director.

#### **OT 555. Level I Fieldwork One. 1 credit.**

This course provides an opportunity for the student to gain clinical experience serving clients with psychosocial conditions in the areas of education, health or human services. This clinical experience is designed to enrich didactic course work through directed observation and participation in selected aspects of the occupational therapy process. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or permission of the program director.

#### **OT 560. Sensorimotor Foundations of Occupation. 3 credits.**

The foundations of sensory processing and motor response allow the human to engage in purposeful and meaningful occupations. The important components of movement and behavior provide the underlying construct for much of occupational engagement. Normal and abnormal sensorimotor processing is presented with particular emphasis on how dysfunctions in these areas impact occupational engagement. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or permission of the program director.

#### **OT 561. Therapeutic Media in Occupational Therapy. 2 credits.**

The use of therapeutic media has had a profound influence on the practice of occupational therapy. This course will analyze the historical, theoretical and contemporary use of therapeutic media and how it is utilized in intervention across client populations of all ages. Methods of adaptation and compensatory strategy effectively utilized to complete tasks will be examined. Contextual issues regarding media use pertaining to physical, cultural, personal and social factors will be discussed. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or permission of the program director.

**OT 580. Occupational Dysfunction-Cause and Impact. 3 credits.**

Reasons for occupational dysfunction in the areas of development, trauma, disease, degenerative and environmental conditions are examined in relation to their specific pathology and their effect on human occupational performance. Treatment approaches, assessment and intervention strategies specific to each condition will be developed.

Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or permission of the program director.

**OT 585. Psychosocial Perspectives in Occupational Therapy Practice. 3 credits.**

This course will provide an overview of psychosocial conditions that impact client function in the areas of occupation, performance skills and performance patterns. Occupational therapy assessment and intervention from an individual and group treatment standpoint will be examined as it contributes to the interdisciplinary process. A historical overview of occupational therapy in behavioral health service provision will be covered that will review traditional and contemporary treatment and provider settings. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or permission of the program director.

**OT 590. Foundations of Research in Occupational Therapy. 3 credits.**

The core research course introduces the student to the reasons, types and processes of research. Exposure to critical review of published research, specific emphasis on evidence based practice and the use of research in clinical decision-making is emphasized. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum or permission of the program director.

**OT 591. Occupational Therapy Tutorial Group I. 1 credit.**

Tutorial I is a small group case-based discussion seminar, facilitated by a clinical tutor who is an occupational therapist. Students research and discuss clinical cases related to content that is integrated from all courses that semester in the occupational studies concentration. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum or permission of the program director.

**OT 600. Assistive Technology in Occupational Therapy Practice. 3 credits.**

The focus of this course is to provide an overview of the selection and use of assistive technology in rehabilitation to improve client function. High and low technology devices will be examined that apply to clients across the life span. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum or permission of the program director.

**OT 610. Occupational Therapy Intervention in Pediatrics. 3 credits.**

Designed to provide an overview of occupational therapy in pediatrics, this course emphasizes the child and their family in context of environment and culture. The effect of disability on occupational development and performance frames the clinical reasoning used in decision making. Assessment, intervention planning and implementation, including intervention techniques, from a variety of theoretical perspective will be explored. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or permission of the program director.

**OT 620. School Based Practice. 2 credits.**

An overview of occupational services provided under the individuals with Disabilities Education Act frames the content of this course. Understanding the school as an institution with a mission and culture, working in teams and supporting educational objectives and achievement is stressed. The early intervention programs as designed under IDEA are included. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the program or permission of the program director.

**OT 630. Evidence Based Practice. 3 credits.**

Evidence based practice is considered to be the foundation and standard regarding clinical performance in the health and medical fields. This course introduces the student to the methodology of evidence-based research and its applicability to occupational therapy. The content of this course builds on knowledge gained in the introductory research course (OT 590). Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum or permission of the program director.

**OT 640. Occupational Therapy Intervention Throughout Adulthood. 4 credits.**

This course will explore the role of the occupational therapist in providing services to clients in early, middle and later adulthood. Functional performance relating to areas of occupation, performance skills, performance patterns, contexts, activity demands and client factors will be analyzed. Theoretical approaches and evidence based intervention strategies will be examined. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or permission of the program director.

**OT 645. Level I Fieldwork Two. 1 credit.**

The focus of this course provides an opportunity for the student to gain clinical experience serving pediatric and adolescent clients in the areas of education, health and human services. This clinical experience is designed to enrich didactic course work through directed observation and participation in selected aspects of the occupational therapy process. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or permission of the program director.

**OT 651. Community and Health Practice in Occupational Therapy. 4 credits.**

As a result of the continued emphasis on health promotion and prevention, it is important for the occupational therapist to be cognizant of community health and human service agencies and how they serve the needs of individuals with special needs. This course will expose the student to community based models of service provision and provide interaction with local agencies. A proposal for an occupational therapy based program will be developed and the process for securing external funding (that can serve as a fiscal resource for practice) will be examined. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or permission of the program director.

**OT 655. Level I Fieldwork Three. 1 credit.**

This course provides an opportunity for the students to gain clinical experience serving clients with orthopedic or neurological conditions in the areas of education, health or human services. This clinical experience is designed to enrich didactic course work through directed observation in selected aspects of the occupational therapy process. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or permission of the program director.

**OT 663. Policy Analysis and Systems of Service Provision. 3 credits.**

Federal, state, and local laws and regulations related to health and human services are identified and their impact on occupational therapy practice is examined. Particular emphasis is placed on access to services, systems of services and payment for services. The role of advocacy in change is emphasized. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum or permission of the program director.

**OT 665. Level II Fieldwork One. 6 credits.**

This supervised 12-week fieldwork external affiliation provides in-depth experience in delivering occupational therapy services on-site at a hospital, community agency or human service setting. Students demonstrate an ability to evaluate, treat, document and discharge clients. Professionalism, clinical reasoning skills and communication with clients, significant others and professional colleagues are enhanced. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or permission of the program director.

**OT 675. Level II Fieldwork Two. 6 credits.**

Students participate in a second 12-week in-depth supervised fieldwork affiliation in a different practice setting such as a hospital, community agency or human service settings. Students demonstrate increased independence in evaluating, treating, documenting and discharging clients. Professionalism, clinical reasoning and communication skills are further enhanced. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum, or permission of the program director.

**OT 680. Independent Study in Occupational Therapy. 3 credits.**

This course provides an opportunity for the student to explore theoretical, clinical and evidence based practice concepts related to experience gained from both didactic and fieldwork education in greater breadth and depth. Exploration and dissemination of current health and human services professional literature will be emphasized as students examine the efficacy of traditional and contemporary practice approaches. Prerequisites: Admission to the occupational therapy program and successful completion of all previous courses in the curriculum or permission of the program director.

**OT 691. Occupational Therapy Tutorial Group II. 1 credit.**

This tutorial course is a continuance of the small group case-based discussion seminar process facilitated by a clinical tutor who is an occupational therapist. Students research and discuss clinical cases related to content that is integrated from all courses that semester in the occupational therapy program. Prerequisite: Satisfactory completion of all previous program course work or permission of the program director.

**OT 692. Occupational Therapy Tutorial Group III. 1 credit.**

This tutorial course is a continuance of the small group case-based discussion seminar process facilitated by a clinical tutor who is an occupational therapist. Students research and discuss clinical cases related to content that is integrated from all courses that semester in the occupational therapy program. Prerequisite: Satisfactory completion of all previous program course work or permission of the program director.

---

## Admission Requirements

To be considered for admission to the Master in Physician Assistant Studies (M.P.A.S) a prospective student must be admitted to The Graduate School and to the PA master's degree program via separate application processes. The prospective student must complete the following:

- Submit an application to The Graduate School.
- Submit scores from the Graduate Record Examination.
- Have earned a bachelor degree from a regionally accredited college or university. An overall GPA of 3.0 or higher is preferred.
- Have successfully completed the following specific undergraduate prerequisite course work at the "C," 2.0 level, or better prior to beginning the PA curriculum.
- Within the last seven years:
  - Human or mammalian anatomy – a one semester course.
  - Human or mammalian physiology – a one semester course.
  - Anatomy and physiology – may be completed as separate courses or as a series of A&P combined courses. In either case the prerequisite course work must include all body systems and regions. Anatomy must include laboratory work, either as a component of the course or as a separate lab course.
- Biochemistry – a one semester course.
- Genetics – a one semester course.
- Microbiology – a one semester course.
- Within any number of years:
  - Medical terminology.
- A minimum of 1,000 hours of direct, patient-contact, health care experience is required. These hours may come from one experience or a combination of experiences and may be voluntary or paid work. Examples of health care professions that require direct, patient contact include nurse, EMT or paramedic; corpsman; patient care technician; nurse's aide; surgical assistant; clinic/medical assistant; respiratory technologist; radiology technologist; medical technologist; mental health worker; or clinical research assistant. Other professions and experiences not listed may also qualify as direct, patient care.

Health care related professions that do not include hands-on patient contact are not considered toward meeting the health care experience requirement. These typically include transporter, CPR or ACLS instructor, lifeguard, non-clinical research assistant, candy striper, unit clerk and others. Although desirable for other reasons, PA shadowing does not count toward the required 1,000 hours of patient care experience. Contact the PA program with any questions regarding health care experience.

Submit an application to the JMU PA program through the Centralized Application Service for Physician Assistants (CASPA). Information and application can be obtained online at [www.caspaonline.org](http://www.caspaonline.org).

## **Application Deadlines**

One cadre of students is admitted each year. Classes begin in the fall semester. For deadlines for application to The Graduate School, see Admission to The Graduate School.

For deadlines for application to the PA Program see either <http://www.jmu.edu/healthsci/paweb> or <http://www.caspaonline.org>. Specific dates each year are available on the above-mentioned Web sites or by contacting the PA Program.

## **Application Evaluation Criteria**

Candidates are evaluated through review of their written application. Superior candidates are invited to on-campus interviews. The following characteristics, skills and accomplishments are assessed.

- Academic preparation (Overall GPA, science GPA, non-science GPA, prerequisite and recent course work).
- Communication skills (Written application, personal essay, speaking and listening skills at interview).
- Career plans/concept of the PA profession (Written application and interview).
- Health care experience (Written application and interview).
- Professionalism – maturity of insight, judgment, problem-solving (Interview).
- Self-awareness, self-confidence, motivation (Application and interview).
- Service to society (Written application and interview).
- Fit with the JMU PA Program mission and operation (Interview).

## **Mission**

The Master of Physician Assistant Studies program prepares students for clinical positions as primary care physician assistants. The course of study requires 28 consecutive months of work for students who have met the prerequisite requirements and been admitted to the program. Admission is limited and competitive. Students must be admitted to The Graduate School and to the PA master's degree program via separate application processes.

Physician assistants are highly skilled medical professionals who have for over 40 years functioned as members of a team delivering quality healthcare. Working with physicians, PAs provide medical services traditionally performed by physicians. These services include taking medical histories, performing physical examinations, ordering and interpreting tests, diagnosing and treating medical conditions, educating and counseling patients, performing minor medical/surgical procedures, and, in most states, prescribing medications. The PA's duties are determined by physician supervision as defined by law.

PAs practice in the same settings as physicians, i.e., outpatient facilities, private and public clinics, managed care and other systems, and in rural and urban areas. The focus of the JMU program is primary care medicine.

## **Accreditation**

The PA program is accredited by the Accreditation Review Commission on Education for the Physician Assistant, Inc. Accreditation provides graduates eligibility to take the Physician Assistant National Certifying Examination (PANCE). Successful completion of the PANCE is required for graduates to be licensed to practice.

## **Program Policies**

**Academic standards:** The PA Program defines satisfactory academic progress as achieving at least a "B," or 3.0, grade in each course. The PA Academic Review Committee reviews all performance that falls below this standard. In accord with each circumstance, the committee recommends a course of action to the department head. Students do not progress to clinical rotations until the committee is satisfied that they have achieved minimal mastery of the didactic course work of the first year. The policies of The Graduate School regarding unsatisfactory progress also apply.

**Advanced standing:** Students are required to take all the courses in the curriculum at JMU. No advanced standing is given for experience, transfer credit or credit by exam.

**Scheduling:** The PA program is a full-time curriculum. Students are required to take courses in the sequence and during the semesters they are scheduled. There is no part-time or extended time option.

**Clinical rotations:** Rotations during the clinical year are done at sites distant from the university. Students must have transportation and must pay for secondary housing and transportation costs. The program assigns students to multiple clinical sites during the second year. Students do not choose the sites of their clinical rotations.

## Curriculum

All courses are required and must be taken in sequence. Students must be full-time and must take the curriculum in a consecutive 28 month period. Exceptions are rare and are granted only by the program director. The classroom or didactic component of the curriculum is 16 months or four semesters long. The clinical year is 12 months in length.

### Physician Assistant Degree Requirements

<b>Fall Semester Year One</b>	<b>Credit Hours</b>
BIO 513. Human Gross Anatomy with Clinical Applications	6
BIO 516. Pathophysiology I	4
PA 510. Physical Diagnosis I	3

## Course Offerings

### Physician Assistant

#### PA 510. Physical Diagnosis I. 3 credits.

This is the first in a two-course series that presents fundamental concepts in the physician assistant/patient relationship, skills needed to conduct complete medical histories and physical examinations of patients of all ages, and methodologies commonly used to communicate medical information. Prerequisites: Admission to physician assistant program, or permission of program director.

#### PA 511. Physical Diagnosis II. 2 credits.

This is the second in a two-course series that presents fundamental concepts in the physician assistant/patient relationship, skills needed to conduct complete medical histories and physical examinations of patients of all ages, and methodologies commonly used to communicate medical information. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

#### PA 520. Clinical Medicine I. 5 credits.

This is the first of a three-course series that examines the etiology, presentation, diagnosis and treatment of diseases

and disorders common to adults seen in primary care physician assistant practice. This series serves as preparation for the clinical rotations in internal medicine, family medicine, emergency medicine and surgery. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 532. Pharmacology for Physician Assistants I. 3 credits.**

This is the first of two courses that provide the base of information necessary for clinical prescribing of medications. It includes pharmacokinetics, pharmacodynamics and pharmacotherapeutics. Within each class of therapeutic drugs, the course examines drug actions, interactions, reactions, and contraindications. The course also includes principles of prescribing and patient compliance. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 540. The Physician Assistant Profession. 1 credit.**

This course explores the principles of the PA profession, its history and place in the spectrum of health care professions. Economic, legal and societal factors influencing the profession are also discussed. Prerequisites: Admission to physician assistant program, or permission of program director.

**PA 551. Managing Medical Information I: Clinical Biostatistics. 3 credits.**

This is the first in a four-course series designed to provide the physician assistant student with skills to understand research design, analyze research information and apply it to clinical practice. Emphasis in this course will be placed on basic biostatistical concepts, literature searches and analysis. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 621. Clinical Medicine II. 3 credits.**

This is the second of a three-course series that examines the etiology, presentation, diagnosis and treatment of diseases and disorders common to adults seen in primary care physician assistant practice. This series serves as preparation for the clinical rotations in internal medicine, family medicine, emergency medicine and surgery and includes workshops to support the diagnosis and treatment of selected disorders. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 622. Women's Medicine. 2 credits.**

This course provides an introductory knowledge base in women's medicine. Through a series of presentations it prepares students for obstetric and gynecologic conditions encountered during clinical rotations. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 623. Pediatric Medicine. 2 credits.**

This course provides an introductory knowledge base in pediatric medicine. Through a series of presentations it prepares students for pediatric medical conditions encountered during clinical rotations. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 624. Behavioral Medicine. 2 credits.**

This course provides an introductory knowledge base in behavioral medicine. Through a series of presentations it prepares students for behavioral medicine conditions encountered during clinical rotations. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 625. Health Promotion and Disease Prevention. 1 credit.**

The course presents strategies that physician assistants employ in promoting health and well being among the people they serve. It also examines public health strategies focused on early discovery of disease, prevention of disease and stopping the spread of disease. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 626. Clinical Medicine III. 2 credits.**

This is the third of a three-course series that examines the etiology, presentation, diagnosis and treatment of diseases and disorders common to adults seen in primary care physician assistant practice. This series serves as preparation for the clinical rotations in internal medicine, family medicine, emergency medicine and surgery and includes workshops to support the diagnosis and treatment of selected disorders.

**PA 630. Clinical Laboratory Medicine I. 2 credits.**

This is the first of a two-course series that presents the clinical laboratory tests used to detect and monitor common

diseases and disorders. It focuses on selecting and interpreting the appropriate tests for each body system as well as performing selected tests. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 631. Clinical Laboratory Medicine II. 2 credits.**

This is the second course in a two-course series that presents the clinical laboratory tests used to detect and monitor common diseases and disorders. It focuses on selecting and interpreting the appropriate tests for each body system as well as performing selected tests. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 633. Pharmacology for Physician Assistants II. 3 credits.**

This is the second of two courses that provide the base of information necessary for clinical prescribing of medications. It includes pharmacokinetics, pharmacodynamics and pharmacotherapeutics. Within each class of therapeutic drugs, the course examines drug actions, interactions, reactions, and contraindications. The course also includes principles of prescribing and patient compliance. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 642. Transition to Physician Assistant Practice. 1 credit.**

This course examines issues related to the shift from the role of a PA student to that of a practicing PA. Topics include medical liability and risk management, business aspects of clinical practice, credentialing processes and career development. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 643. Values in Primary Care. 3 credits.**

This course provides an overview of professional ethics as they apply to primary care practice for physician assistants. The focus is on major principles and methodologies that guide clinicians in ethical decision-making as they encounter situations common to primary care practice. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 652. Managing Medical Information II: Clinical Problem Solving. 3 credits.**

This is the second in a four-course series designed to provide the physician assistant student with skills to understand research design, analyze research information and apply it to clinical practice. The emphasis in this course is placed on the use of evidence-based medicine in clinical decision-making. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 653. Managing Medical Information III: Research Design and Implementation.**

1 credit.

This is the third in a four-course series designed to provide the physician assistant student with skills to understand research design, analyze research information and apply it to clinical practice. In this course students design an individual senior project that will be implemented and presented in PA 654. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 654. Managing Medical Information IV: Directed Project. 2 credits.**

This is the fourth in a four-course series designed to provide the physician assistant student with skills to understand research design, analyze research information and apply it to clinical practice. Utilizing a study question or research protocol generated in PA 653 students will collect and synthesize information culminating in a class presentation and paper suitable for publication. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 670. Elective Clinical Rotation. 2 credits.**

This four-week clinical rotation is devoted to an area of study of the student's choosing and the faculty's approval. It might be additional time in a specialty already introduced through another rotation, a different medical specialty of interest or a non-clinical area associated with the PA profession such as education, professional practice issues, etc. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 671. Family Medicine Clinical Rotation I. 2 credits.**

This is the first of two four-week clinical rotations in family medicine. The student gains knowledge, experience and skill in interviewing and examining patients of all ages, diagnosing and treating disorders and educating and counseling patients and families through participation in these activities while under the supervision of an experienced clinician practicing family medicine. The course also includes assigned reading and exercises. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 672. Family Medicine Clinical Rotation II. 2 credits.**

This is the second of two four-week clinical rotations in family medicine. The student gains knowledge, experience and skill in interviewing and examining patients of all ages, diagnosing and treating disorders, and educating and counseling patients and families through participation in these activities while under the supervision of an experienced clinician practicing family medicine. The course also includes assigned reading and exercises. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 673. Internal Medicine Clinical Rotation I. 2 credits.**

This is the first of two four-week clinical rotations in internal medicine. The student gains knowledge, experience and skill in interviewing and examining adults, diagnosing and treating disorders, and educating and counseling patients through participation in these activities while under the supervision of an experienced clinician practicing internal medicine. This course also includes assigned readings and exercises. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 674. Internal Medicine Clinical Rotation II. 2 credits.**

This is the second of two four-week clinical rotations in internal medicine. The student gains knowledge, experience and skill in interviewing and examining adults, diagnosing and treating disorders, and educating and counseling patients through participation in these activities while under the supervision of an experienced clinician practicing internal medicine. This course also includes assigned readings and exercises. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 675. Pediatrics Clinical Rotation. 2 credits.**

During this four-week clinical rotation the student gains knowledge, experience and skill in interviewing and examining children, diagnosing and treating disorders, and educating and counseling children and parents through participation in these activities while under the supervision of an experienced clinician practicing pediatric medicine. The course also includes assigned readings and exercises. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 676. Obstetrics and Gynecology Clinical Rotation. 2 credits.**

During this four-week clinical rotation the student gains knowledge, experience and skill in interviewing and examining women, diagnosing and treating disorders, and educating and counseling women through participation in these activities while under the supervision of an experienced clinician practicing obstetric and gynecologic medicine. The course also includes assigned readings and exercises. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 677. General Surgery Clinical Rotation. 2 credits.**

During this four-week clinical rotation the student gains knowledge, experience and skill in interviewing and examining patients, diagnosing and treating disorders, and educating and counseling patients with surgical problems through participation in these activities while under the supervision of an experienced clinician practicing surgery. The course also includes assigned readings and exercises. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 678. Emergency Medicine Clinical Rotation. 2 credits.**

During this four-week clinical rotation the student gains knowledge, experience and skill in interviewing and examining patients, diagnosing and treating disorders, and educating and counseling patients with emergent problems through participation in these activities while under the supervision of an experienced clinician practicing emergency medicine. The course also includes assigned readings and exercises. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

**PA 679. Behavioral Medicine Clinical Rotation. 2 credits.**

During this four-week clinical rotation the student gains knowledge, experience and skill in interviewing and examining patients, diagnosing and treating disorders, and educating and counseling patients and family members through participation in these activities while under the supervision of an experienced clinician practicing behavioral medicine. The course also includes assigned readings and exercises. Prerequisites: Admission to the physician assistant program and successful completion of all previous courses in the curriculum, or permission of the program director.

# History

## History Department

Phone: (540) 568-6132  
<http://www.jmu.edu/history>

## Department Head

Dr. Michael J. Galgano

## Graduate Coordinator

Dr. Steven A. Reich

## Professors

J.C. Arndt, J. Butt, M. Galgano, S. Guerrier, R. Hyser, M. L. Loe, D. Owusu-Ansah

## Associate Professors

K. Borg, J. Connerley, P. D. Dillard, K. Hardwick, L. King, G. Lanier, R. Meixsel, M. Mulrooney,  
S. Reich, M. Seth

## Assistant Professors

L.S. Chappell, J. Davidson, M. Gayne, H. Gelfand, M. Gubser, S. Hanifi, D. Kerr, K. McCleary,  
A. Sandman, A. Schweber, W. Van Norman

## Adjunct Professors

A. Crabb, C. Hallman, R. Jacobs, D. Nash

---

## Admission

All applicants must first satisfy the general application requirements of The Graduate School. For information, see the information for prospective graduate students on The Graduate School Web site.

In addition to satisfying all admission requirements set by The Graduate School, the Department of History requires applicants to its program to have an undergraduate degree from an accredited institution with a minimum overall undergraduate GPA of 3.0 and satisfactory scores on the Graduate Record Examination General Test (GRE). The department welcomes applicants from any undergraduate major, although the graduate committee may require students who have majored in other fields to take prerequisite undergraduate courses in history.

## To Apply

For information about the application process, for the online application form and for application instructions, see <http://www.applyweb.com/apply/jmug/index.html>. There, applicants will upload the materials required for the application.

## Required Materials

The Department of History requires all prospective applicants to submit the following:

- GRE scores
- official transcripts of all colleges and universities attended
- a brief statement of purpose, 500 words in length, that identifies the applicant's academic or professional background, intended field of concentration, and long-range career aspirations.
- three letters of recommendation, at least two of which are from individuals familiar with the applicant's academic work and potential for graduate study.
- a formal writing sample of approximately 10 to 20 pages that demonstrates the applicant's analytical abilities and writing skills. Applicants who have been out of school for some time should contact the graduate coordinator for advice on identifying appropriate recommenders and on selecting a suitable writing sample.
- any additional materials that demonstrate the applicant's preparation and potential for graduate study.

## Application Deadlines

Complete applications must be received by **February 1**. Incomplete applications will not be considered; applicants are responsible for assuring that all materials have been received. The graduate committee begins its review of all complete applications after February 1. Applications received after February 1 will be reviewed in accordance with openings available in the program. Students normally matriculate in the fall semester.

Students seeking admission to the Master of Arts with teaching licensure must contact the School of Education.

The Department of History offers the Master of Arts degree with a major in history.

## Mission

The graduate program in history at James Madison University offers concentrations in European, American or local/regional/public history. It permits students to deepen their understanding, acquire knowledge and develop critical skills necessary for advanced research and writing in history. Through a blend of courses and internships, the program enhances levels of professional competence that demand mastery of the techniques of research, critical thinking, and careful oral and written communication. Graduates of the program are able to demonstrate an ability to understand and perform scholarly research with cross-disciplinary perspectives. We see this as essential since it provides important skills designed to meet the changing needs of our students in society.

To ensure that our mission is kept in focus, we require graduates to demonstrate an advanced knowledge in their specific areas of study.

These often interrelated goals are achieved through coherent, orderly programs of study encompassing investigation and/or supervised practical experience. As part of a comprehensive university supported by public funds, the graduate program in history is committed to serving the needs of the Commonwealth of Virginia and the region. The Department of History's graduate program encourages students to develop strengths in critical and creative thinking, communication and applied skills. A balanced combination of theoretical and practical studies prepares the successful graduate for advancement in the workplace, future educational opportunities, informed participation in today's increasingly more complicated society and leadership in community affairs.

The graduate program in history serves multiple audiences. Since historians today practice their discipline in a variety of careers, we have expanded the more traditional concentrations in American and European to include a concentration in local/regional/public history. The concentration exposes students to the broad range of skills and issues associated with public history while providing them with a solid advanced background in history. Students also augment their academic training through internships in a range of public history settings including museums, archives, government agencies, libraries, historic preservation organizations, businesses, contract history firms, cultural resource management firms and historic sites.

The Department of History's graduate program actively supports all university and college goals and objectives.

The program offers an opportunity for concentration in three fields of history:

- European history
- United States history
- Local/regional/public history

Minimum departmental requirements for the Master of Arts degree with a major in history are as follows:

- Thirty graduate credit hours in history
- Completion of a thesis for six credit hours
- All students in the U.S. concentration must take at least one offering of HIST 600 and one offering of HIST 605. Students in the U.S. concentration must take at least 21 credits at the 600 level or above.
- Completion of the second year of a college course in a modern foreign language with a grade of "C" or above, or successful completion of a reading examination approved by the history department in a modern foreign language
- Successful completion of a comprehensive examination in one of the three fields of concentration
- At least six credit hours of course work outside the field of concentration of which three credit hours must be in a non-western area

## Program Guide

All Master of Arts students are required to complete the following courses.

### First Year, Fall Semester

HIST 653. Patterns of World History (or its equivalent)

HIST 671. Seminar in Historical Research Methods

### First Year, Spring Semester

HIST 673. Graduate Research and Writing Seminar

Second Year, Fall Semester

HIST 700. Thesis

Second Year, Spring Semester

HIST 700. Thesis

In addition to the semester-specific courses, students must complete one additional course outside of their field of concentration.

## Course Offerings

### History

#### **HIST 502. Workshop in Colonial American Life. 3 credits.**

This workshop is a study of life in colonial Virginia. Through the use of primary and secondary sources, the students research and aspect of Virginia culture and society. A week of the course is in Williamsburg, Virginia. Graduate students are expected to lead research groups and demonstrate knowledge of secondary literature of the period.

#### **HIST 503. Workshop in Civil War Virginia. 3 credits.**

This workshop examines the impact of the Civil War upon Virginia and her citizens. It explores the secession crisis, tactical and technological developments, and the evolution into "hard war." A four-day battlefield tour will reinforce ideas discussed in the classroom. Students must demonstrate command of the historiography and key primary sources.

#### **HIST 511. Colonial America. 3 credits.**

An interpretative survey of England's mainland colonies from 1558-1776, with special attention to the evolution of the first British empire, historiography and important primary sources.

#### **HIST 513. The Anglo-American Constitutional Tradition. 3 credits.**

Surveys Anglo-American political and constitutional traditions. Emphasizes the evolution of 17th- and 18th-century British constitutionalism, its transferal to the British North American colonies and the development of the first national and state constitutions in the United States. Emphasis on historiography and study from primary sources.

#### **HIST 520. U.S. History, 1763-1800. 3 credits.**

An interpretive study of the political, economic, social and cultural history of the United States from the French and Indian War through the Federalist period. Particular emphasis is placed upon historiography and analysis of primary sources as reflected through class discussion, oral presentations and writing assignments.

#### **HIST 522. U.S. History. 1789-1848. 3 credits.**

An interpretative study of the political, economic, social, intellectual and cultural history of the United States from the ratification of the Constitution through the Mexican-American War. Particular emphasis placed upon historiography and analysis of primary sources as reflected through class discussion, oral presentations and writing assignments.

#### **HIST 525. Civil War and Reconstruction. 3 credits.**

A study of the background, development, personalities and aftermath of the Civil War. Special attention is given to the coming of the war and different explanations of its causes and to the policies and significance of Reconstruction. Students must demonstrate command of the historiography and key primary sources.

#### **HIST 528. American Workers in the Industrial Age, 1877-1948. 3 credits.**

This course undertakes a critical examination of the impact of industrialization, race and gender, consumerism, the New Deal, and two world wars on the lives of American workers and their unions. Students will learn the major historiographical problems in American labor history and develop a mastery of the secondary literature.

#### **HIST 530. The Gilded Age. 3 credits.**

An interpretative study of U.S. history from the conclusion of the Civil War until the assassination of William McKinley, with special emphasis on industrialization, urbanization, western and overseas expansion, early reform movements and politics. Students will address historiography and examine primary sources.

#### **HIST 531. Reform, World War and Prosperity. 3 credits.**

An interpretative study of U.S. history from the rise of Theodore Roosevelt through the 1920s, with a focus on the progressive reform movement and the problems and issues generated by the Nation's emergence as a world power and an industrial urban society. Emphasis is placed on command of historiography and analysis of primary source material.

#### **HIST 532. Depression, War and Cold War: U.S. History, 1929-1961. 3 credits.**

An interpretive study of U.S. history from the onset of the Great Depression in 1929, through the inauguration of John F. Kennedy in 1961. The analysis of historical texts, historiography of major figures and seminal events, and interpretation of major debates and historiographical trends will be emphasized in this seminar.

#### **HIST 533. Reform, Upheaval and Reaction. 3 credits.**

An interpretive study of U.S. history from the inauguration of John F. Kennedy in 1961 through the present. The

analysis of historical texts, historiography of major figures and seminal events, and interpretation of major debates and historiographical trends will be emphasized in this seminar.

**HIST 543. Modern American Technology and Culture. 3 credits.**

This graduate seminar focuses on the historiographical issues in the broader field of the history of technology as well as the theoretical and conceptual frameworks used by historians to examine the interplay between technology and culture. Topically, this course examines the major events, themes, individuals, groups, and issues associated with, and influenced by, the rapid technological changes in the United States from the 1870s to the present.

**HIST 555. Global Political and Social Thought to Early Modern Times. 3 credits.**

Seminar in examining and analyzing political and social theory from different cultures through the 18th century with emphasis on historiographical interpretation.

**HIST 560. Modern Japan. 3 credits.**

A study of Japanese history from around the mid-19th century to the present. Major topics include the Tokugawa Shogunate, the Meiji Restoration, the rise of militarism, the Pacific War, the occupation of Japan and the new Japan. In depth analysis of the above topics through historiographical approach. Additional assignments.

**HIST 561. Advanced Seminar in Marxist-Leninist Theory in Modern Global History.**

3 credits.

Advanced examination and analysis of Marxist-Leninist theory and its impact; analytical study of the main Marxist texts and historiography.

**HIST 562. The Rise and Fall of Nazi-Germany, 1918-1945. 3 credits.**

An advanced study of the period of Nazi domination in Germany covering the Weimar Republic, the rise of the NSDAP, the Third Reich and World War II. The nature of totalitarianism, the character of Adolf Hitler and the general Weltanschauung of Germany under the Third Reich are emphasized. Students will consider primary and secondary sources and must demonstrate command of the historiography.

**HIST 563. Tudor-Stuart England. 3 credits.**

A study of the economic, intellectual, political and religious development of the English people from 1485-1714, with particular focus on the constitutional struggles of the period. The analysis of historical texts, historiography of major figures and events, and interpretation of major debates and historiographical trends will be emphasized.

**HIST 564. Renaissance and Reformation. 3 credits.**

A study of high medieval civilization as an introduction to the history of modern Europe. Attention is given to the Italian and northern renaissance, the fragmentation of western Christendom, the intellectual impact of Luther and Calvin on western thought, and the structure of Tudor despotism in England. Students must demonstrate command of the historiography.

**HIST 566. The Family, 1400-1800. 3 credits.**

Detailed analysis of the bibliography, methods, substance and interpretations of family history in Europe and America. Emphasis will be on sources, structure, patterns of change and continuity, and stages of family life to the Industrial Revolution.

**HIST 570. Modern Africa. 3 credits.**

Africa in the 20th century, with emphasis on Senegal, Ivory Coast, Ghana and Zaire. Special attention is given to the legacy of the slave trade and the effects of colonization on independent Africa.

**HIST 575. Soviet Russia. 3 credits.**

The seminar covers the period from the Russian Revolution in 1917 to the present. Topics include pre-revolutionary Russia, the revolutions of 1917, civil war, the 1920s Stalinism, World War II, the Cold War, the disintegration, the current situation in the former Soviet states, and the historiographical literature.

**HIST 577. Medieval Europe. 3 credits.**

Attention is focused on Europe in the middle ages, with a concentration on social and intellectual aspects and on the development of parliamentary institutions. Students must demonstrate command of the historiographical sources.

**HIST 578. Twentieth Century Eastern Europe since 1914. 3 credits.**

An advanced study of the lands between Germany and Russia, from the Baltic to the Balkans. The course covers the collapse of the Central European empires, the birth of independent East European states between the wars, the World War II occupation of the region, the communist era, and the post-communist world. Students will consider primary and secondary sources and must demonstrate command of the historiography.

**HIST 580. Modern China. 3 credits.**

An in-depth study of Chinese history since 1840, with particular emphasis on China's response to the West, the demise

of imperial China, abortive experiments in republicanism, the origin and evolution of Chinese Communism under Mao and after Mao's death. The historiography of seminal figures and events will be emphasized.

**HIST 581. Early Modern Europe: The New Worlds of Exploration and Science. 3 credits.**

A study of the major changes in world view brought on by exploration and science in the 15th, 16th and 17th centuries in Europe. Attention is given to the causes of each movement as well as the individuals and the technology involved. Students must demonstrate command of the historiographical sources.

**HIST 583. Baroque and Revolutionary Europe, 1648-1815. 3 credits.**

This course examines the old regime, its institutions, the causes of popular revolts, the enlightenment, the beginnings of industrialism and the impact of the French Revolution upon Europe. Analysis of texts, the historiography of major figures and seminal events, and the interpretation of major debates and historiographical trends will be emphasized.

**HIST 584. 19th-Century European Civilization, 1815-1914. 3 credits.**

An interpretive study of European history (and the historiography devoted to the period) from the Congress of Vienna to the outbreak of World War I. Particular attention is given to the intellectual climate of the period, with emphasis on liberalism, nationalism, socialism and nihilism.

**HIST 585. Colonialism in the Greater Middle East. 3 credits.**

A survey of the special problems which have beset the Arab Middle East since World War II. Special emphasis will be given to Palestinian nationalism and to the PLO, to the origins of civil conflict in Lebanon, to Iraqi and Syrian Baathism, and to the revival of Islamic fundamentalism.

**HIST 586. Europe Since 1914. 3 credits.**

An interpretive study of European history (and the major interpreters of that history) from World War I to the Cold War, with special emphasis on the revolutions of 1917-1919, the rise of totalitarianism, the origins of the World War II, the Cold War and its aftermath, and the continuing crisis of values.

**HIST 587. World War II. 3 credits.**

This course examines World War II in Europe and in Asia. The major military campaigns are discussed, as are collaboration, resistance and the war crimes trials. Analysis of texts, the historiography of major figures and seminal events, and the interpretation of major debates and historiographical trends will be emphasized.

**HIST 590. Special Topics in History. 3 credits.**

Selected topics are studied in depth. Topic and professor offering the course will change with each offering. This course may be repeated when content is different. See e-campus for topic and professor. Prerequisite: Permission of department head.

**HIST 591. Editing Historical Documents. 3 credits.**

A seminar in the techniques of analyzing manuscript collections in order to create an edition of historical documents. Both the theory and methodology of documentary editing will be emphasized, including collection, selection, transcription, annotation, proofing, illustration, indexing and publication. Software tools and issues will be considered.

**HIST 592. American Material Culture. 3 credits.**

Focused readings on material culture studies. Readings explore approaches, theories and methods of various disciplines that utilize material culture as evidence. Emphasis is on persistent themes in material culture studies including regional variation and cultural transfer, identity formation and class issues, consumerism, and ethnicity and acculturation.

**HIST 593. Historic Preservation. 3 credits.**

An introduction to the philosophy and technique of historic preservation. Course examines the Secretary of the Interior's guidelines for restoration, state and national register forms and procedures, historic architecture, structural analysis, restoration techniques as well as the business aspects of historic preservation projects. Students undertake leadership assignments for architectural field assessments and national register nominations.

**HIST 594. Introduction to Museum Work. 3 credits.**

A study of the philosophy and practice of museum work. Emphasis on museum administration, conservation, exhibition and education. Provides background for internships and employment in the field. Students undertake a focused research project as well as leadership assignments for class projects. Cross-listed as ART/ARTH 594.

**HIST 595. Introduction to Archives and Manuscripts. 3 credits.**

A study of the varying philosophical and practical perspectives related to archives and manuscripts processing and administration. Through targeted readings in the professional literature, field trips and leadership roles in discussions, students will explore topics such as appraisal, acquisition, preservation, access and contemporary ethical, legal and technological issues. Students will undertake a manuscript processing or administrative project.

**HIST 597. Genealogical Research and Family History. 3 credits.**

A seminar on the theory and methodology of genealogical research, including the critical evaluation of sources, incisive documentation, online resources and the critical analysis of research findings. The course will require extensive utilization of local and state repositories and engagement with local research topics as well as with personal data. Personal genealogical information should be collected and secured at home before the state of the semesters.

**HIST 600. Seminar in U.S. History: Early Period. 3 credits.**

A topical approach to the study of early U.S. history. Topics might include Colonial America, the American Revolution, the Market Revolution, Civil War and Reconstruction, American Intellectual History, or any pertinent topic falling within the pre-1877 period. Topic and professor offering the course will change with each offering. This course may be repeated when content is different. See e-campus for topic and professor.

**HIST 601. Workshop in History. 1-3 credits.**

Intensive study of topics of current interest and demand. Primarily designed for history and social studies teachers. Topic and professor offering the course will change with each offering. This course may be repeated when content is different. See e-campus for topic and professor.

**HIST 605. Seminar in U.S. History: Recent Period. 3 credits.**

A topical approach to the study of recent U.S. history. Topics might include American science and technology, industrialism, 20th-century diplomacy, black nationalist thought, 20th-century American military history, or any pertinent topic falling within the post-1865 period. Topic and professor offering the course will change with each offering. This course may be repeated when content is different. See e-campus for topic and professor.

**HIST 610. Seminar in European History: Early Period. 3 credits.**

A topical approach to the study of early European history. Topics might include ancient history, medieval Europe, Tudor-Stuart England, renaissance and reformation, the era of the French revolution, or any pertinent topic falling within the pre-1815 period. Topic and professor offering the course will change with each offering. This course may be repeated when content is different. See e-campus for topic and professor.

**HIST 615. Seminar in European History: Recent Period. 3 credits.**

A topical approach to the study of recent European history. Topics might include Europe in the 19th century, Europe between the World Wars, Europe during the Cold War, Russia or any pertinent topic falling within the post-1789 period. Topic and professor offering the course will change with each offering. This course may be repeated when content is different. See e-campus for topic and professor.

**HIST 637. Practicum: Selected Topics in Local and Regional History. 3 credits.**

Selected historical topics relating to the Shenandoah Valley and surrounding region are studied in depth. Students will undertake primary research and collaborate on final project. Topic and professor offering the course will change with each offering. This course may be repeated when content is different. See e-campus for topic and professor.

**HIST 640. Graduate Internship in History. 3 credits.**

Provides students with practical experience in using historical skills in a public or private agency. Periodic student reports and seminars are required. This course may be repeated for credit. Graded S/U. Prerequisite: Permission of department head.

**HIST 650. Seminar in World History. 3 credits.**

A topical approach to the study of history in areas aside from Europe and the United States. Topics might include Latin America, modern Japan, modern China, modern Africa, Islamic world or any pertinent topic falling within parameters of concentration. Topic and professor offering the course will change with each offering. This course may be repeated when content is different. See e-campus for topic and professor.

**HIST 653. Patterns of World History. 3 credits.**

This course provides an introduction to the historiography and research methods of world history. Emphasis is on integrating local and regional studies into a larger framework of world/global history utilizing the themes and methodological approaches that have been developed by the major contributors to this subfield of history.

**HIST 656. The Global Economy and Nationalism. 3 credits.**

The course examines the growth of the global economy since the 14th century. Concentrating on world systems/dependency theory approaches, it investigates the emergence of capitalism, its relationship to modern nationalism, and the role that the concept of development has played in the contemporary organization of nation-states.

**HIST 671. Seminar in Historical Research Methods. 3 credits.**

Systematic presentation of the theories and approaches to historical research, including detailed analysis of historiography past and present. Required of all first year graduate students.

**HIST 673. Graduate Research and Writing Seminar. 3 credits.**

An intensive research and writing seminar focused on the process of conceptualizing, researching, writing and refining historical research papers grounded in primary sources. Emphasis will be on evaluation of sources, interpretation of evidence, refinement of presentation and development of professional standards of criticism. Required of all first year graduate students.

**HIST 696. Introduction to Public History. 3 credits.**

An introduction to the varied and interdisciplinary "field" of public history – such as community/local history, historic preservation, archives, historical archaeology, museum studies, business and policy history, documentary editing and publishing, and documentary films – through readings, class discussions, occasional guest speakers, occasional field trips and an extended public history research project.

**HIST 698. Comprehensive Continuance. 1 credit.**

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

**HIST 699. Thesis Continuance. 2 credits.**

Continued study, research and writing in the area of thesis concentration. Course may be repeated as needed.

**HIST 700. Thesis Research. 6 credits.**

This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis.

### Department Head

Dr. Eric Maslen

### Graduate Director

Dr. Mohamed Zarrugh

### Professors

K. Altaï, J. Barnes, T. Benzing, T. Chen, P. Cushman, M. Deaton, G. Egekwu, S. Frysinger, B. Gabriel, J. Gentile, A. Henriksen, M. Ivory, C. Klevickis, R. Kolvoord, H. Kraenzle, J. Marchal, D. McGraw, R. McKown, J. Miles, J. Noftsinger, M. Papadakis, J. Spindel, G. Tucker, M. Zarrugh

### Associate Professors

C. Bachmann, G. Baker, C. Brodrick, G. Coffman, M. Handley, G. Lewis, W. Teel, L. Temple

### Assistant Professors

M. Benton, Z. Bortolot, J. Tang, J. Wilson

### Instructors

P. Higgins, K. Newbold

---

## Admission

The program is targeted for a broad audience. The admission process will seek a diverse student body with grounding in basic science and experience in business, industry, government or education. An entrance expectation is that the applicant will have completed a minimum of 15 semester credit hours in the natural sciences and mathematics at the undergraduate level. Hence, admission to the program may be granted to students with a variety of undergraduate majors in areas such as the physical sciences, computer science, selected areas of education, engineering, operations research, and information and decision sciences.

Admission decisions will be collectively based on the following considerations:

- Graduation from a regionally accredited college or university.
- Undergraduate grade point average.
- Test scores from Graduate Record Exam (GRE), Graduate Management Admissions Test (GMAT), Medical College Admission Test (MCAT) or Miller Analog Test (MAT).
- Official transcripts from all colleges or universities attended.
- Industrial, business, government or educational experience as indicated by current vita.

Applicants are requested to submit a letter of intent to the graduate director as a supplement to the application. Three letters of recommendation are required as part of the online application process. Admission in the fall term is strongly encouraged.

## Mission

The mission of the Department of Integrated Science and Technology's (ISAT) Master's program is to provide diverse and experienced professionals with an educational experience that facilitates in-depth knowledge and skills across a variety of integrated scientific and technological disciplines utilizing a systems approach.

Among the unique characteristics of the program are:

- the curriculum and teaching methods are in constant touch with the realities of the world of work.
- the curriculum is aimed at developing graduates with strong collaborative and communicative skills.
- the graduates are skilled in information technology and knowledge management tools that are applicable to a broad range of professional careers.
- the curriculum and graduates are flexible and amenable to change in order to remain current with the nation's developing critical technologies and with the imperatives of a changing national economy.
- the graduates solve technologically-based problems from a systems perspective, including the consideration of non-technological aspects such as politics, economics, and ethics.

The program's sequence of core and elective courses leads to the Master of Science degree in integrated science and technology. The program builds a solid foundation in applied science and technology with a distinct theme in systems. Students acquire quantitative tools for applied systems analysis and design and for the management of technological issues encountered in contemporary professional practice. The curriculum stresses the use of computers for modeling and simulation, for the management of information and technology and for research methodology. The curriculum is unique in its incorporation of social, legal and political aspects of science and technology.

Students focus on selected areas of science and technology with practical, in-depth exposure to the size and complexity of contemporary problems. Depth will be provided through thesis or project study in one of several strategic technology areas distilled from the national critical technologies. These areas include biotechnology, information technology, manufacturing, energy and the environment. Such a class of graduates:

- apply a breadth of knowledge and skills across a variety of scientific and technological disciplines;
- effectively use formal training in collaborative and leadership methods;
- employ problem solving techniques from many disciplines and use of the computer as a problem solving tool; and
- integrate scientific and technological factors with political, social, economic and ethical considerations in problem solving.

By developing a systems approach to problem solving, the graduate will be skilled in identifying and capitalizing on the fact that most problems encountered in business or government are inherently systems problems. Characteristics of such systems involve complex interplay of technical, social, political, regulatory, and business issues; multiple, interdependent groups, units, or organizations working in coordination with sometimes conflicting needs; rapid flow of information between individuals and groups; multi-step processes for making products or decisions with ample opportunity for feedback and bottlenecks; and numerous local random events and disturbances that profoundly affect the performance of the overall system.

## **Integrated Science and Technology**

The 30-credit hour master's of science curriculum consists of 15 credit hours of common core courses followed by 15 credit hours of elective courses tailored to the individual course of study. The core component reinforces the student's foundation in science, explores methods of research and analysis in a multidisciplinary environment, and imparts sensitivity to the social context of applying science and technology.

As part of the curriculum, students will be required to complete a six-credit thesis or capstone project. This project/thesis will require students to conduct research, evaluate potential solutions, and implement the selected solution.

## **Entrance, Continuation and Exit Requirements**

Enrolled students will be provided with the ISAT Graduate Student Handbook. This document provides background information about the university, the college, ISAT and the ISAT master's curriculum. The handbook is intended to facilitate progress through the program by identifying the skills entering students should have, and offering guidelines for student progression.

All full-time students must attend an orientation held on the working day prior to the start of term. Part-time students are strongly encouraged to attend the orientation. The purpose of this workshop is to define the guidelines that will facilitate successful completion of the degree. ISAT faculty and masters' candidates will discuss strategies for success, group dynamics and provide tutorials in selected skill areas.

Graduation requires successful completion of 30 graduate credit hours in a sequence approved by the student's graduate adviser with a GPA of 3.0 or better and with no more than six credit hours of "C's." Time limitations for completion of the program will follow guidelines from The Graduate School.

## **Curriculum Components and Details**

The 30 credit-hour curriculum for the Master's of Science degree in integrated science and technology includes a 12-15 credit core program consisting of four to five courses in integrated science and technology; 12 graduate elective credits approved by the adviser, and six credits of capstone project or thesis research.

The ISAT master's degree is also offered jointly with the University of Malta. The thirteen-month program is offered entirely in Malta and includes the core program of four courses along with a defined set of electives. Students who complete the master's program in Malta will also earn a master's in sustainable environmental resources management from the University of Malta. This program is taught by faculty from both JMU and the University of Malta and includes study abroad travel.

## Master of Science in Integrated Science and Technology Degree Requirements

Minimum Requirements	Credit Hours
ISAT 510. Foundations in Integrated Science and Technology <sup>1</sup>	3
ISAT 610. Social Context of Science and Technology	3
ISAT 620. Research Methods in a Multidisciplinary Environment	3
ISAT 630. Computer Modeling and Simulation	3
ISAT 640. Information and Technology Management	3
Approved electives	12
ISAT 690/700. Capstone Project/Thesis	6

30-33

<sup>1</sup> The first core course, ISAT 510, is intended for students requiring additional preparation in science, its methods and multidisciplinary problem solving.

As part of the strategic focus area, the student will be required to complete a six-credit thesis or capstone project. This project/thesis will involve research, investigation and development undertaken by students individually and/or as part of project teams.

To complete the program in one year, students must accomplish two, 12-hour semesters which represents a course overload. A student is encouraged to complete two core courses and two electives per semester. Six hours of thesis, ISAT 700, will be completed in the summer following the second semester.

## Course Offerings

### Integrated Science and Technology

#### **ISAT 501. Workshop in Technology.** 1-3 credits.

Intensive study of special topics in technology of relevant interest. May be repeated for credit when content is different.

#### **ISAT 503. Workshop in Geospatial Technology.** 1-3 credits.

Intensive study of special topics in geospatial technologies of relevant interest. May be repeated for credit when content is different.

#### **ISAT 510. Foundations in Integrated Science and Technology.** 3 credits.

This course introduces the student to the fundamental concepts of science and the methodologies required for using an integrated problem-solving approach in the technical area. ISAT graduates are ineligible.

#### **ISAT 511. Quantitative Methods for Systems Analysis.** 1-3 credits.

This course is intended to improve the quantitative skills of certain graduate students. Basic mathematical functions and techniques are reviewed, and linear systems topics and numerical analysis techniques introduced. The course meets in tutorial sessions for lectures, discussion and recitation. Does not satisfy graduation requirements for MS ISAT students.

#### **ISAT 515. Energy Systems.** 3 credits.

This course will present an overview of energy generation and distribution technologies that are in use or under development. Selected technologies will be covered in detail including the underlying scientific principles. In addition, students will study tools and techniques used to measure, control and analyze energy consumption.

#### **ISAT 525. Environmental Systems.** 3 credits.

This course covers the basics of environmental pollution, processes, and control technologies. Three major areas of environmental concern (air, water and waste) are addressed. Environmental risk and decision making are discussed. Topics are presented in an integrated manner in the context of the regulatory programs. Participation in environmental projects such as impact assessment, site remediation, water quality management, air quality monitoring are required.

#### **ISAT 528. Industrial Ecology.** 3 credits.

Industrial ecology, the science of sustainability, seeks to encourage the development of a sustainable industrial society. This course introduces and examines this relatively new field of inquiry and practice. The course addresses various practical topics which are associated with industrial ecology, including life cycle assessment, design for environment and environmentally conscious manufacturing. There are additional requirements for graduate students beyond those for undergraduate students enrolled in this dual-level course.

**ISAT 530. Manufacturing Systems. 3 credits.**

This course covers systematic and analytical treatment of manufacturing systems to identify opportunities for improving existing systems, to design more effective systems and to improve decision-making processes in manufacturing. Topics include manufacturing systems; tools for automation and integration in manufacturing; automated process planning; technology change and strategies for implementing new technologies; and others.

**ISAT 540. Information and Technology Management Systems. 3 credits.**

This course focuses on the representation, manipulation, storage, and retrieval of data, information and knowledge from both a historical and contemporary perspective. Students will be introduced both to programming skills and also to introductory concepts in database design and development. The course will stress aspects of data quality, privacy, and security.

**ISAT 545. Applications of GIS for Resource Management. 3 credits.**

This course focuses on the use of GIS as a decision support tool in managing natural resources and promoting sustainable development practices. Applications and spatial problem-solving in the areas of energy, air and water, waste management, agriculture and coastal resources are emphasized.

**ISAT 550. Biotechnology Systems. 3 credits.**

This course is an intensive survey of the scientific foundations of biotechnology. Specific topics include the history, theory, and applications of recombinant DNA technology, genetic engineering, transgenic organisms, and the role of biotechnology in society.

**ISAT 551. Bioinformatics. 3 credits.**

The amount of DNA sequence data being collected today is increasing rapidly. The student will learn, through lectures and hands-on laboratory exercises, a compendium of algorithms that can search for sequence similarities, create alignments for finding consensus sequences, model three-dimensional structures and more. Prerequisites: ISAT 351, ISAT 454 and ISAT 340 (or their equivalents), or permission of the instructor (requires knowledge of Molecular Biology and database technology).

**ISAT 560. Complex Systems and How They Fail. 3 credits.**

This course provides an interdisciplinary study of complex system operation and failure focusing on real-world critical infrastructure (e.g., energy, telecommunications, health) systems functionality and problems. Based on known threats and hazards, cascading failures that can result in unexpected catastrophes are analyzed. Risk concepts and management strategies are examined.

**ISAT 565. Case Studies in Sustainability: Energy. 2 credits.**

This course focuses on the exploration and analysis of case studies in the development of sustainable energy policies and practices around the world, including renewable and non-renewable energy sources and conservation practices. Connections of energy sustainability to other key areas, such as water, air and waste, agriculture and food and coastal resources will be emphasized. Offered in Malta.

**ISAT 566. Case Studies in Sustainability: Air and Water. 2 credits.**

This course focuses on the exploration and analysis of case studies in the development of sustainable air and water policies and practices around the world, including air pollution abatement, waste disposal and the interconnection of air and water. Connections of air and water sustainability to other key areas, such as water, energy, agriculture and food and coastal resources will be emphasized. Offered in Malta.

**ISAT 567. Case Studies in Sustainability: Agriculture and Food Security. 2 credits.**

This course focuses on the exploration and analysis of case studies in the development of sustainable agriculture and food security policies and practices around the world, including food safety and land use. Connections of agricultural sustainability to other key areas, such as water, energy, air and waste and coastal resources will be emphasized. Offered in Malta.

**ISAT 568. Case Studies in Sustainability: Water. 2 credits.**

This course focuses on the exploration and analysis of case studies in the development of sustainable water policies and practices around the world, including potable water supply and production and water pollution. Connections of water sustainability to other key areas, such as agriculture and food, energy, air and waste and coastal resources will be emphasized. Offered in Malta.

**ISAT 569. Case Studies in Sustainability: Marine and Coastal Resources. 2 credits.**

This course focuses on the exploration and analysis of case studies in the development of sustainable marine and coastal resources policies and practices around the world, including pollution, development and marine food supply. Connections of marine and coastal sustainability to other key areas, such as agriculture and food, energy, air and waste and water will be emphasized. Offered in Malta.

**ISAT 570. Telecommunication Systems. 3 credits.**

This course covers the science, technologies and regulation of established as well as emerging telecommunications systems. Included are network design and planning, as well as information and infrastructure security. Student course work will include laboratory experience.

**ISAT 571. Interaction Design. 3 credits.**

Processes, principles, tools, models, and techniques for designing interactions between humans and digital products and systems. Students will learn through directed reading, design exercises, heuristic design evaluations and empirical studies of designs.

**ISAT 580. Readings and Research. 1-3 credits.**

This course will allow graduate and advanced undergraduate students to undertake intensive study of selected topics that are of special interest. May be repeated when content changes. Prerequisite: Permission of instructor.

**ISAT 610. Social Context of Science and Technology. 3 credits.**

Critical perspectives on the economic and political systems as they affect scientific research and technological activity in the U.S. and the world. Case studies of major public policy debates involving science and technology. Identifying institutional players and their value commitments, describing political relationships among players, and designing dynamic solutions to social context dilemmas.

**ISAT 620. Research Methods in a Multidisciplinary Environment. 3 credits.**

An introduction of applied systems analysis approach to problem solving in a multidisciplinary context. Applications taken from biotechnology, energy, environment, health, information management and manufacturing. Topics include introduction to systems analysis and its application to social systems, technological systems, and systems in nature; systems characterization and optimization; advanced project management.

**ISAT 630. Computer Modeling and Simulation. 3 credits.**

Use of simulation tools to understand and optimize commonly occurring systems in the concentration areas. Development of simulation models, validation of models, and use of models to aid decision making. Topics include: applicability and limitations of simulation models; the model-building process; discrete-event models; dynamic models; deterministic and stochastic models; system optimization and validation.

**ISAT 640. Information and Technology Management. 3 credits.**

This course focuses on the acquisition, representation, storage, retrieval, and distribution of data, information and knowledge from both a historical and contemporary perspective. It places special emphasis on IKM technology in science and technology and the information economy, the management of data, information, and knowledge as critical enterprise assets. Students will study computer systems as tools for information and knowledge management and examine ethical, legal, and social issues in the management of data, information, and knowledge, including intellectual property, privacy, and security.

**ISAT 650. Advanced Integrated Science and Technology. 3 credits.**

This course focuses on applied science and technology applications for K-12 teachers and industry trainers. Students will develop and assess sources of information on applied science and technology and develop inquiry-based activities to incorporate new issues in applied science and technology into existing curricula.

**ISAT 652. Regulatory Issues. 3 credits.**

The course will introduce the policy process affecting regulation and deregulation of various industries. Study of the theory behind and the institutional forms of regulation will be supplemented by case studies of specific industries. The course will also look at international politics and trade as they affect regulatory regimes globally. Prerequisite: ISAT 610.

**ISAT 653. Quantitative Systems Analysis. 3 credits.**

Focuses on the life-cycle model of systems design and development. Includes concepts related to data modeling, economic evaluation, optimization methods, human factors, queuing theory, system test and evaluation, and design validation techniques. Object-oriented analysis and design considerations emphasized. Prerequisite: ISAT 630.

**ISAT 654. Advanced Technology Management. 3 credits.**

This course will introduce students to methods, tools, and techniques for effective management of technology development and application including management of technology within a company; R&D management; Test and Evaluation procedures and metrics; investment strategies; intellectual property issues; fostering entrepreneurialism; managing innovation; and technology transfer. The course will also address managing technology as a tool, e.g., equipment modernization. Prerequisite: ISAT 640.

**ISAT 655. Technology Assessment. 3 credits.**

This course will introduce students to the theory and methods of technology assessment and transfer. Students will

apply techniques such as risk analysis, cost-benefit analysis, forecasting, trend impact analysis, and technology sequence analysis to assess the impacts of new technologies on society. In addition, students will study the process of technology innovation, diffusion, and transfer in the context of both developed and developing nations. Prerequisite: ISAT 620.

**ISAT 657. Management Information Systems. 3 credits.**

This course examines the organizational and technological foundations of information systems in a production operations setting. Topics include selecting and implementing tools and systems, database management, information integration, production planning and execution systems, supply chain integration and management, and managing system security. Prerequisite: ISAT 640 or permission of instructor.

**ISAT 658. International Contexts of Science and Technology. 3 credits.**

This course will make students aware of the global nature of scientific and technological decision-making and sensitive to the impact of culture on science and technology issues. Research and development system of the United States is placed in a global context. A comparative study of the R&D systems around the world is done. International technical issues, where solutions transcend political boundaries, are covered.

**ISAT 680. Reading and Research. 1-3 credits.**

Opportunity for supervised reading and research in areas of special interest to the student. Reading and research may be done only in the major field of study.

**ISAT 690. The Capstone Project. 6 credits.**

The required capstone project for all non-thesis graduate students. Emphasis will be in the student's designated strategic area, but integrated with at least one other area. The project/thesis will report the results of a project, investigation or development undertaken by the student individually or as part of a project team.

**ISAT 697. Thesis Preparation. 1 or 3 credits.**

This course will prepare the student for successful completion of the master's thesis and assist in career development. Course objectives include defining a thesis; writing a thesis proposal, annotated bibliography, and thesis outline; selecting a thesis committee; editing, peer review, and constructive criticism; defense preparation; career planning and resume preparation. Preparation of a professional publication is required for three credit hours. Prerequisite: ISAT 620 or instructor approval.

**ISAT 698. Comprehensive Continuance. 1 credit.**

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as necessary.

**ISAT 699. The Capstone Project/Thesis Continuance. 2 credits.**

Students completing registration for the maximum number of hours of project credit are required to register for continuance each semester, including summer, until they have received their degree. Continuance credits carry no credit hour production and do not count toward graduate program requirements.

**ISAT 700. Thesis Research. 6 credits.**

A research thesis with an emphasis in the student's designated strategic area, but integrated with at least one other area. The thesis will report the results of original research undertaken individually by the student. This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis.

# Kinesiology

## Kinesiology Department

Phone: (540) 568-6145  
<http://www.jmu.edu/kinesiology>

## Interim Department Head

Dr. Christopher Womack

## Graduate Coordinator – Exercise Science

Dr. M. Kent Todd

## Graduate Coordinator – Sport and Recreation Leadership

Dr. Larry Ham

## Professors

J. Flohr, M. Goldberger, M. Saunders, J. Williams

## Associate Professors

J. Wallace Carr, L. Ham, P. Kellers, S. Nye, K. Todd, C. Womack

## Assistant Professors

B. Carr, D. Shonk, M. Slattery, R. Zullo

## Instructors

R. Lifka, T. Moran

---

## Admission

In addition to The Graduate School qualifications for admissions, potential candidates must meet the requirements of the Department of Kinesiology. Contact the department for more information.

## Mission

The Department of Kinesiology is dedicated to the development of future leaders in professions that maximize the potential of individuals and society through exercise, sport and leisure activities. Concentrations in the department include exercise science and sport and recreation leadership.

## Goals

Program goals are to help students:

- Identify and describe important issues relevant to exercise science, sport, recreation and physical education.
- Educate others about the relevance of exercise, sport and leisure to individuals and to society.
- Develop and administrate safe, effective and scientifically based physical activity, sport and leisure programs that address individual, community and societal needs.
- Enable students to evaluate the quality of information germane to the disciplines of physical activity, sport and leisure.
- Develop the skills needed to conduct quality research.
- Conceive a cognate area of study within the professional field in which they intend to work.

The Department of Kinesiology offers a Master of Science degree with concentrations in exercise science and sport and recreation leadership. Nutrition and physical activity is a thesis-only track; other tracks offer either thesis or non-thesis options. The department also offers a five-year program leading to a Master of Arts in Teaching (M.A.T.) designed for initial licensure to teach physical and health education.

In all programs, courses must be selected with the approval of the adviser in accordance with the professional goals of the student. Students applying to kinesiology are expected to have satisfactory Graduate Record Examination scores and adequate undergraduate preparation including at least one course in a cognate area of the discipline.

Some undergraduate courses may be taken concurrently with graduate work.

## Master of Science Concentration in Exercise Science

### Clinical Exercise Physiology Track

This 36-credit hour program leads to a Master of Science degree with a clinical exercise physiology track. The program is designed to prepare students to work with clients with a variety of pathological or clinical disorders. Clients may

include those with cardiovascular, pulmonary, metabolic, immunological, inflammatory, orthopedic, and neuromuscular disorders. Other clients may include persons from geriatric, pediatric or obstetric populations. Graduates of this program will be prepared to work in hospital-based and community wellness programs, as well as other clinical settings. Program goals were developed in conjunction with the knowledge, skills and abilities identified by the American College of Sports Medicine (ACSM) as essential for preparation as a Registered Clinical Exercise Physiologist.

#### **Clinical Exercise Physiology Requirements**

<b>Minimum Requirements</b>	<b>Credit Hours</b>
KIN 540. Clinical Exercise Physiology I	3
KIN 542. Exercise Programs for Special Populations	3
KIN 640. Clinical Exercise Physiology II	3
KIN 644. Metabolic and Cardiorespiratory Aspects of Exercise	3
KIN 645. Muscular, Hormonal and Environmental Aspects of Exercise	3
KIN 655. Research Techniques	3
KIN 681. Internship in Exercise Science	6-9
Electives (Selected under advisement)	9-12
	<hr/>
	36

<b>Example Electives</b>	<b>Credit Hours</b>
KIN/NUTR 555. Theories and Practices of Weight Management	3
KIN 650. Exercise Testing and Prescription	3
KIN 670. Program Development for Wellness Centers	3
KIN 697. Directed Research in Kinesiology	3
KIN 700. Thesis	6
HTH 552. Strategies for Health Change	3
NUTR 545. Nutrition and Exercise	3
NUTR 582. Nutrition and Metabolism	3
NUTR 655. Integrated Nutrition	3
PYSC 515. Basic Counseling Skills	3
SCOM 680. Special Topics in Health Communication	3

## Exercise Physiology Track

This 33-credit hour exercise science program leads to a Master of Science degree with track in the area of exercise physiology. Students in this program receive background preparation necessary for doctoral work in exercise physiology as well as expertise in physiological testing, exercise prescription and research. Graduates of this program have been successful in pursuing advanced degrees in exercise physiology and/or have been placed as exercise physiologists in the fitness/wellness industry including cardiac rehabilitation settings. Program goals were developed in conjunction with the knowledge, skills and abilities identified by the American College of Sports Medicine as essential for successful professional preparation. All students are required to do directed research; however, students may select either a thesis or non-thesis option.

### Exercise Physiology Requirements

Minimum Requirements	Credit Hours
KIN 542. Exercise Programs for Special Populations	3
KIN 547. Principles and Strategies of Athletic Development	3
KIN 644. Metabolic and Cardiorespiratory Aspects of Exercise	3
KIN 645. Muscular, Hormonal and Environmental Aspects of Exercise	3
KIN 650. Exercise Testing, Evaluation and Prescription	3
KIN 655. Research Techniques	3
MATH 522. Statistics for Research	3
Choose one of the following:	3-6
KIN 697. Directed Research in Kinesiology	
KIN 700. Thesis	
Approved electives	6-9
<hr/>	
33	

## Nutrition and Physical Activity Track

This 33 credit hour master's program permits students to major in health sciences or kinesiology with a concentration in nutrition and physical activity. Students must declare a major in either health sciences or kinesiology with a concentration in nutrition and physical activity. This graduate program has been planned for registered dietitians or persons with an undergraduate degree in dietetics, kinesiology or a related area. This program is designed for the student who has an interest in nutrition and its role in physical activity.

An undergraduate degree with a major in dietetics, kinesiology or a related field is required. Courses in nutrition, exercise physiology, anatomy and physiology are prerequisites for admission to the program. Students should also check the prerequisites listed in the catalog for each course required. Thirty-three hours are required for the degree program, including a thesis or directed research on a selected topic in nutrition and physical activity. The degree program can be completed in as few as two academic years, with a maximum of six academic years. This program does not lead to the RD status recognized by the American Dietetic Association; however, students are encouraged to obtain the RD status by completing the Didactic Program in Dietetics requirements and applying for a dietetic internship.

For a list of DPD requirements refer to <http://www.healthsci.jmu.edu/dietetics/undergraduate.htm>; Refer to <http://www.eatright.org> for a list of all dietetic internships available in the United States.

## Cross Disciplinary Program in Nutrition and Physical Activity Concentration Degree Requirements

Minimum Requirements	Credit Hours
KIN/NUTR 555. Theories and Practices of Weight Management	3
KIN 644. Metabolic and Cardiorespiratory Aspects of Exercise	3
KIN 645. Muscular, Hormonal and Environmental Aspects of Exercise	3
KIN 650. Exercise Testing, Prescription and Evaluation	3
KIN 655/NUTR 660. Research Techniques	3
MATH 522. Statistics	3
NUTR 545. Nutrition and Exercise	3
NUTR 582. Nutrition and Metabolism	3
NUTR 652. Nutrition Assessment	3
Choose one of the following options:	6-8
Health Sciences Students must choose option one or option two.	
Kinesiology students must choose option three.	
Option One:	
NUTR 695. Research Interpretation in Dietetics (1 credit)	
NUTR 696. Graduate Seminar in Dietetics (1 credit)	
KIN/NUTR 700. Thesis Research I (3 credits)	
KIN/NUTR 701. Thesis Research II (3 credits)	
Option Two:	
NUTR 681. Directed Research in Dietetics I (2 credits)	
NUTR 682. Directed Research in Dietetics II (2 credits)	
NUTR 695. Research Interpretation in Dietetics (1 credit)	
NUTR 696. Graduate Seminar in Dietetics (1 credit)	
Option Three:	
KIN/NUTR 700. Thesis Research I (3 credits)	
KIN/NUTR 701. Thesis Research II (3 credits)

33-35

## Master of Science Concentration in Sport and Recreation Leadership Sport Leadership Track

The 33-credit hour Sport Leadership track is designed for students who wish to pursue a career in athletic administration or sport leadership in private, public, or non-profit agencies. Students who complete the Sport Leadership requirements are prepared to work at all levels of sport leadership including athletic administration. Graduates of this Sport Leadership track may find employment in positions in areas such as high school and college coaches, athletic directors, professional and amateur sport associations, public, private, and non-profit agency administrators and youth sports programs. An internship is required in this program.

### **Sport Leadership Requirements**

<b>Minimum Requirements</b>	<b>Credit Hours</b>
KIN 570. Administration in Sport and Recreation Leadership	3
KIN 572. Facilities in Sport and Recreation Leadership	3
KIN 625. Social Issues in Sport and Recreation Leadership	3
KIN 631. Philosophy of Sport and Recreation Leadership	3
KIN 655. Research Techniques	3
KIN 675. Legal Aspects of Sport and Recreation Leadership	3
KIN 678. Theories and Issues of Coaching	3
KIN 685. Internship in Sport and Recreation Leadership	3-6
Approved electives or KIN 700 (Thesis)	6-9
<hr/>	
33	

### **Recreation Leadership Track**

The 33-credit hour Recreation Leadership track is designed for students who wish to pursue a career in Recreation management or leadership in private, public, or non-profit agencies. Students who complete the Recreation Leadership requirements are prepared to work at all levels of recreation leadership. Graduates of this Recreation Leadership track may find employment in positions in areas such as public, private, and non-profit agencies, commercial recreation, professional and amateur sport associations, theme parks, hospitality management, facility management, and youth sports programs. An internship is required in this program.

### **Recreation Leadership Requirements**

<b>Minimum Requirements</b>	<b>Credit Hours</b>
KIN 570. Administration in Sport and Recreation Leadership	3
KIN 572. Facilities in Sport and Recreation Leadership	3
KIN 625. Social Issues in Sport and Recreation Leadership	3
KIN 631. Philosophy of Sport and Recreation Leadership	3
KIN 655. Research Techniques	3
KIN 673. Fiscal Management of Sport and Recreation Leadership	3
KIN 675. Legal Aspects of Sport and Recreation Leadership	3
KIN 685. Internship in Sport and Recreation Leadership	3- 6
Choose one of the following:	
Approved electives	6-9
KIN 700. Thesis (6 credits) and one approved elective (3 credits)	
<hr/>	
33	

## Campus Recreation Leadership Track

The 33-credit hour campus recreation leadership track is designed for students who wish to pursue a career in campus recreation. Students who complete the campus recreation leadership requirements are prepared to work at all levels of campus recreation as well as national governing bodies such as NIRSA, event management, programming, and facility management. An internship is required in this program.

### Campus Recreation Leadership Requirements

Minimum Requirements	Credit Hours
KIN 572. Facilities in Sport and Recreation Leadership	3
KIN 580. Human Resource Management and Development in Campus Recreation	3
KIN 581. Leadership in Recreation Professions	3
KIN 582. Programming and Operations in Campus Recreation	3
KIN 655. Research Techniques	3
KIN 673. Fiscal Management of Sport and Recreation Leadership	3
KIN 675. Legal Aspects of Sport and Recreation Leadership	3
KIN 685. Internship in Sport and Recreation Leadership	3
PSYC 646. The American College Student	3
Choose one of the following:	6
Six hours of approved electives	
KIN 700. Thesis (6 credits)	

33

## Master of Arts in Teaching

The Master of Arts in Teaching leads to an initial Virginia licensure to teach physical and health education PK-12. As a continuation of the undergraduate physical and health education teacher education (PHETE) program, this program is only open to JMU graduates who have a Bachelor of Science degree in kinesiology with a concentration in PHETE. A listing of the undergraduate courses may be found in the current JMU Undergraduate Catalog.

To be fully admitted to the fifth-year M.A.T. program, students must have completed the following requirements.

- Satisfy all requirements for admission to the teacher education program.
- Satisfy all requirements for admission to [The Graduate School](#).
- Successful completion of alternative criteria to the GRE, including:
- Possess a GPA of 3.0 or better in the last four semesters of undergraduate course work.
- Display certain personal qualities and dispositions of a professional educator as determined by program faculty.
- Demonstrate appropriate professional development reflective of a quality teacher candidate as assessed by program faculty.
- Demonstrate competence in classroom management and a satisfactory level of teaching ability through video analysis and practicum experience.
- Demonstrate quality planning, effective teaching skills, and a demonstration of student learning through a reflective teaching project.

## Fifth-Year M.A.T. Program Requirements

Minimum Requirements	Credit Hours
KIN 511. Technology in Health and Physical Education	3
KIN 512. Instructional Methods in Middle and Secondary Physical Education	3
KIN 513. Professional Issues for Prospective Physical and Health Educators	3
KIN 514. Methods in School Health for PHETE	3
KIN 610. Curriculum Design and Development in Health and Physical Education	3
KIN 611. Teaching Diverse Populations in Health and Physical Education	3
KIN 612. Analysis of Teaching and Learning	3
KIN 683. Secondary Internship in Health and Physical Education	6
Choose one of the following:	3
KIN 655. Research Techniques	
HTH 655. Research Techniques	
EDUC 630. Inquiry in Education	
Approved elective	3
<hr/>	
	33

## Minor in Kinesiology

A student working toward the Master of Education degree may minor in kinesiology. A minimum of 12 credit hours in kinesiology is required. All courses must be approved by the minor adviser.

## Course Offerings

### Kinesiology

#### **KIN 501. Workshop in Kinesiology. 1-3 credits.**

An intensive study of one aspect of kinesiology that is of current concern to physical educators in the field.

#### **KIN 506. Applied Biomechanics. 3 credits.**

A study of biomechanical concepts and applications as they relate to sport and physical activity. Specific attention will be given to the application of biomechanical concepts and principles in the analysis of movement skills. *Prerequisite: KIN 306 or permission of instructor.*

#### **KIN 510. Principles of Motor Learning. 3 credits.**

Principles and theories of learning motor skills and their applications in teaching and coaching physical education activities.

#### **KIN 511. Technology in Health and Physical Education. 3 credits.**

Addresses technological issues related to education and explores a variety of educational technologies available to enhance the instruction of physical and health education. An action plan for the utilization of educational technologies will be developed.

#### **KIN 512. Instructional Methods in Middle and Secondary Physical Education. 3 credits.**

A detailed study that builds upon the undergraduate instructional methods in physical education with developmentally appropriate teaching and management techniques for middle and secondary physical education. An in-depth review of the theoretical framework of the teaching styles and application of such in a practical setting are vital components.

#### **KIN 513. Professional Issues for Prospective Physical and Health Educators. 3 credits.**

An in-depth examination of current issues and research on teaching and teachers in physical and health education

#### **KIN 514. Methods in School Health for PHETE. 3 credits.**

An overview and application of methods for teaching health in the schools grades 6-12. Teacher candidates will develop skills in planning, instructional methods, classroom management and reflective teaching. To provide for the application of theory a teaching practicum is incorporated within the course.

**KIN 540. Clinical Exercise Physiology I. 3 credits.**

A study of the benefits, risks and strategies for exercise testing and programming for persons with cardiovascular and metabolic disorders. Prevalence, economic ramifications, pathophysiology, clinical manifestations, assessment, pharmacology, potential benefits and risk of exercise, strategies for exercise programming, and other relevant topics are emphasized.

**KIN 542. Exercise Programming for Special Populations. 3 credits.**

This course will include an in-depth study of the recommended procedures for exercise testing and prescription for non-diseased special populations, children and youth, elderly, women and pregnant women.

**KIN 547. Principles and Strategies of Athletic Development. 3 credits.**

A study of the physiological aspects of strength and flexibility development. Topics include muscle fiber and connective tissue characteristics, neural control, and training adaptations related to both general fitness and sport-specific training programs. *Prerequisite: an undergraduate course in exercise physiology or permission of the instructor.*

**KIN 555. Theories and Practices of Weight Management. 3 credits.**

An examination of the physiological, psychological and environmental theories of obesity. Current trends in obesity research are emphasized. Case studies and laboratories are utilized to provide students with practical experience in constructing a weight loss program.

**KIN 570. Administration in Sport and Recreation Leadership. 3 credits.**

Specific problems and new developments in the administration of sport and exercise programs, including business procedures, equipment, facilities, conduct of athletic events, school law and liability, staff and public relations.

**KIN 572. Facilities in Sport and Recreation Leadership. 3 credits.**

The planning, construction, maintenance and utilization of sport, exercise and recreation facilities.

**KIN 575. Gender Issues in Sport and Recreation Leadership. 3 credits.**

A study of the institutional, political and societal perpetuation of gender identity and its relationship to sport participation.

**KIN 580. Human Resource Management and Development in Campus Recreation. 3 credits.**

An overview of human resource management and human resource development in campus recreation programs. The course will provide an introduction to administrative practices, organizational development and management theory and apply these concepts into the day to day practices and skills required of an administrator of a campus recreation program. Skill development will include areas such as hiring, developing position descriptions, evaluation, training, career development, and supervision of student and professional staff members.

**KIN 581. Leadership in Recreation Professions. 3 credits.**

This course will introduce students to the concept of leadership, explore leadership theory, provide opportunities to develop leadership skills, relate leadership to ethics and values, and assist students in applying good leadership practice into their current and future roles and responsibilities.

**KIN 582. Programming and Operations in Campus Recreation. 3 credits.**

An in-depth analysis of programming and operations in a campus recreation center. Skill development in outcome-based program development and assessment; use of wellness models, health behavior theory, and student development theory in planning; and marketing and programming for diverse populations and skill levels. The course will also cover operational issues such as reservations, space prioritization, equipment and facility maintenance issues, and revenue generation.

**KIN 610. Curriculum Design and Development in Health and Physical Education. 3 credits.**

An advanced study that builds upon the undergraduate elementary curriculum course by focusing on the middle and secondary student, curriculum models, and the development of effective and futuristic physical education units and programs that meet the needs of the populations.

**KIN 611. Teaching Diverse Populations in Health and Physical Education. 3 credits.**

The diversity of student populations in schools relates to differences in ability, socioeconomic status, cultural background, race, religious beliefs, sexual orientation and gender. This is an in-depth study of appropriate teaching methods that celebrate diversity and inclusion. Experiences will serve to diminish fears and the perpetuation of stereotypes, and to allow opportunities to plan and implement activities in which all students are challenged and successful.

**KIN 612. Analysis of Teaching and Learning.** 3 credits.

An in-depth look at assessing and improving teaching. A systematic approach to improving teaching techniques and assessments of student learning will be discussed and implemented in a practical setting.

**KIN 622. Motivation and Achievement in Sport Leadership.** 3 credits.

The study of sport performance including achievement motivation, individual aggression, attribution theory and goal setting. Application of theoretical concepts to teaching and coaching for optimal performance.

**KIN 625. Social Issues in Sport and Recreation Leadership.** 3 credits.

Current research and literature in the sociology of sport. Emphasis is on sport in American culture; issues in international sport are considered.

**KIN 631. Philosophy of Sport and Recreation Leadership.** 3 credits.

A critical review of literature concerning the nature and significance of sport from a philosophic perspective, including current modes of inquiry. Implications for sport in education are also discussed.

**KIN 640. Clinical Exercise Physiology II.** 3 credits.

A study of the benefits, risks, strategies for exercise testing and programming for persons with respiratory, neuromuscular, skeletal and immunological diseases, as well as psychological disorders. Prevalence, economic ramifications, pathophysiology, clinical manifestations, assessment, pharmacology, potential benefits and risk of exercise and exercise programming strategies.

**KIN 644. Metabolic and Cardiorespiratory Aspects of Exercise.** 3 credits.

An advanced course in exercise physiology that examines the acute responses and chronic adaptations of the metabolic, cardiovascular, and respiratory systems. *Prerequisite: An undergraduate course in exercise physiology or permission of the instructor.*

**KIN 645. Muscular, Hormonal, and Environmental Aspects of Exercise.** 3 credits.

An advanced course in exercise physiology that examines the acute responses and chronic adaptations of the neuromuscular system, and hormonal and environmental factors that influence the body's response to exercise. *Prerequisite: An undergraduate course in exercise physiology or permission of the instructor.*

**KIN 649 A, B, C. Practicum in Fitness Programs.** 1 credit each.

A practicum designed to allow students in the adult fitness program to gain experience as an exercise leader, an exercise-testing technician, and in procedures used to prescribe exercise in healthy subjects and patients with chronic disease. *Prerequisite: Permission of the instructor.*

**KIN 650. Exercise Testing, Evaluation and Prescription.** 3 credits.

An in-depth analysis of preventive and rehabilitative exercise program design, exercise testing, electrocardiography and exercise prescription. *Prerequisite: KIN 644 or permission of instructor.*

**KIN 655. Research Techniques.** 3 credits.

Skill in the initiation, conduct and interpretation of research. Laboratory procedures in physical education, recreation, exercise science, and athletics are included as well as historical, philosophical and descriptive methods. Special emphasis is given to laboratory, experimental, field and action research.

**KIN 670. Program Development for Wellness Centers.** 3 credits.

A study of the development, implementation and administration of wellness/fitness programs that emphasize the adult population.

**KIN 673. Fiscal Management in Sport and Recreation Leadership.** 3 credits.

An overview of fiscal resources and financial administration of sport and recreation programs and facilities. The course will focus on the financial administration of public agencies, private organizations and commercial enterprises. Management areas relating to financial principles and policies, sources of revenue, types of expenditures, budget preparation, and preparation of grant proposals will be discussed.

**KIN 675. Legal Aspects of Sport and Recreation Leadership.** 3 credits.

A study of legal issues related to the administration of sport and recreation facilities, programs, and services. An in-depth analysis of the legal foundations and responsibilities of sport and recreation agencies including tort and constitutional law, liability and risk management, contractual law, human resource management, and the legislative and judicial processes.

**KIN 678. Theories and Issues of Coaching.** 3 credits.

Both theoretical and practical aspects of coaching in secondary schools and higher education.

**KIN 680. Reading and Research.** 3 credits.

Directed reading in designated areas and specialized interests. Investigating, researching and reporting. Course may not be repeated. *Prerequisite: Permission of the instructor.*

**KIN 681. Internship in Exercise Science.** 3-9 credits.

Provides students a practical experience in exercise testing and prescription, program administration and other professional responsibilities in wellness/fitness or clinical exercise physiology. Specific assignment is based on student need. Taken in the final semester of program. *Prerequisite: Permission of the instructor.*

**KIN 683. Secondary Internship in Health and Physical Education.** 6 credits.

An advanced supervised teaching experience at the middle or high school level in both health and physical education settings. Enables the teacher candidate an opportunity to apply effective teaching techniques and innovative forms of instruction and organization at the secondary level.

**KIN 684. Group and Team Development: Theory, Research and Facilitation.** 3 credits.

An introduction to theory, research and the practical considerations of group and team development. Skill development in leading groups and teams, facilitation and processing.

**KIN 685. Internship in Sport and Recreation Leadership.** 3-6 credits.

Practical experience in applying administrative theory to problems encountered in a professional setting. Specific assignments will be determined by the needs of the student. (Amount of credit will be determined by the amount of experience acquired; no more than six hours can be counted toward a degree program). *Prerequisite: Permission of the instructor.*

**KIN 697. Directed Research in Kinesiology and Recreation Studies.** 3 credits.

Advanced research in kinesiology and/or recreation under the direction of a graduate adviser. Course will be graded on an S/U basis. Course may not be repeated. *Prerequisites: KIN 655 and permission of the instructor.*

**KIN 698. Comprehensive Continuance.** 1 credit.

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed. *Prerequisite: Permission of the instructor.*

**KIN 699. Thesis Continuance.** 2 credits.

Continued study, research and writing in the area of thesis concentration. Course may be repeated as needed. *Prerequisite: Permission of the instructor.*

**KIN 700. Thesis Research.** 3-6 credits.

This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis. *Prerequisites: KIN 655 or equivalent, and permission of the instructor.*

## Mission

The mission of the James Madison University professional education unit is to prepare caring, knowledgeable, skilled and reflective educators who believe that all students can learn and succeed. Our candidates and faculty are committed to lifelong learning and aspire to meet educational needs in a changing, pluralistic and democratic society. The personal and professional development of candidates is accomplished by emphasizing excellence and continuous innovation in quality undergraduate, graduate and professional programs.

James Madison University's College of Education is distinguished through faculty and candidate achievements, academic rigor, excellence in teaching, candidate and faculty interactions and relationships, technological innovations, and national recognitions. The college maintains relevance through active and growing interactions with other colleges within the university and with local, state, regional, national and international communities.

The college is committed to providing:

- graduate programs that emphasize advanced knowledge in a specialty area and the development of effective leadership and professional skills for addressing the needs of a changing society.
- continuing professional development and service programs in cooperation with public and private schools and agencies, other colleges, institutions, and businesses.

The undergraduate and graduate teacher education programs are accredited by the [National Council for Accreditation of Teacher Education](#) and approved by the [Virginia State Board of Education](#).

The basic philosophy of the college is reflected in the following goals:

- To educate men and women for the multiple professions included in the college at both the undergraduate and graduate levels, not merely by transmitting skills and knowledge but by stimulating creativity, developing cognitive abilities, and encouraging the testing of hypotheses and reinterpretation of the human experience.
- To encourage a balanced faculty orientation toward teaching, research, scholarship, community service and professionalism that recognizes individual strengths and preferences of the college's faculty.
- To create an environment that fosters an atmosphere of open communication among candidates, faculty members and community.
- To anticipate societal needs and provide necessary resources for implementing effective on- and off-campus programs now and in the future.

## Programs of Study

Learning, Technology and Leadership Education offers these programs:

- Master of Science in Education (M.S.Ed) in Adult Education/Human Resource Development with six possible concentrations
- Master of Education (M.Ed.) in Education with a concentration in Educational Leadership
- Certificate in Educational Leadership

- Master of Education (M.Ed.) in Education with a concentration in Educational Technology
- Certificate in Educational Technology

## **Adult Education/Human Resource Development**

### **M.S.Ed in Adult Education/Human Resource Development**

#### **Admission Criteria**

- An online application submitted at: <http://www.jmu.edu/grad/prospective>.
- Official transcripts reflecting all post-secondary education, with a cumulative grade point average of 2.75 or higher.
- An official record of scores on the general test of the Graduate Record Examination (scores must be less than five years old).

Transcripts and GRE scores should be mailed to:

The Graduate School  
MSC 6702  
James Madison University  
Harrisonburg, VA 22807

The following must be submitted when submitting the online application:

- A two to three page personal statement explaining why the applicant is interested in pursuing a Masters in AHRD.
- Two letters of recommendation from employers or educators who can attest to the applicant's potential for graduate-level course work.
- A copy of the applicant's current resume.

The Master of Science in Education degree with a major in adult education/human resource development is designed for persons entering or advancing in positions associated with learning in education, business, industry, government, and other public and private sector organizations. The program is targeted to college graduates pursuing a career in the AHRD field, experienced AHRD professionals who want to expand their skills and enhance their career potential, and working managers and professionals in leadership roles where skills in developing and leading people have become critical to their organizations' success. A major strength of the program is that it allows individuals to tailor their programs to individual career needs and objectives.

#### **Program Mission and Outcomes**

The mission of the AHRD program is to prepare professionals to lead, design, implement and evaluate learning programs within education, business, industry, government, military, health care, and other public and private sector organizations. In addition to delivering effective instruction, AHRD professionals design ways to improve human performance, facilitate change and enhance creativity. By completing our program, graduates will be able to:

- Understand and apply systems theory, analytic systems, principles of adult development, learning theory, and leadership theory.
- Understand business, industry, educational and other organizational settings.
- Identify, understand and build effective organizational relationships that support teaching, learning and continuous human performance improvement appropriate to the context.
- Organize, manage and evaluate teaching, learning, and continuous human performance improvement efforts.
- Analyze, design, develop, implement and evaluate targeted curriculum in appropriate modes (including distance, action, self-directed, transformative, informal learning, etc.) for individual, team, and organizational applications with a focus on continuous human performance improvement.
- Facilitate and lead team-based learning activities appropriate to the context.
- Apply appropriate technologies in the creation of learning programs.
- Recognize and respond responsibly to issues of diversity and ethics.
- Demonstrate the ability to articulate and forecast the vision and role for teaching, learning and continuous human performance improvement appropriate to a context.
- Interpret and conduct research.

Learners majoring in adult education/human resource development must follow several fundamental guidelines:

- Consult major and concentration advisers for advice and approval regarding the program.
- Plan to count no more than six credit hours of workshop credit in any degree program. To be accepted,

workshop courses must be approved for credit in the program. The program will not accept workshop courses offered by departments outside the College of Education for elective credit.

- Adhere to The Graduate School policy that at least half of the courses in any major of concentration be at the 600 level.
- Secure the required approval of major and concentration advisers for any course credits to be transferred into a JMU degree program.

## Degree Requirements

The major consists of a minimum of 36 credit hours of course work. These credits include core program courses, electives, and either a research project or a thesis. Students electing the thesis option will take one fewer elective course as thesis credits total 6 hours.

### Master of Science in Education in Adult Education/Human Resource Development Degree Requirements

Degree Requirements	Credit Hours
Program courses	30-33
Research Paper or Thesis	3-6
	36

### Core Courses

The core requirements consist of foundational courses that are the basis for the understanding of adult education/human resource development. These core courses encourage learners to investigate adult education/human resource development and to appreciate all facets of this dynamic field.

Minimum Requirements	Credit Hours
<a href="#">AHRD 520</a> . Foundations of Adult Education/Human Resource Development	3
<a href="#">AHRD 540</a> . Leadership and Facilitation	3
<a href="#">AHRD 580</a> . Learning in Adulthood	3
<a href="#">AHRD 600</a> . Performance Analysis and Needs Assessment in Adult Education/ Human Resource Development	3
<a href="#">AHRD 630</a> . Research Methods and Inquiry in Adult Education/ Human Resource Development	3
<a href="#">AHRD 640</a> . Program Evaluation and Measurement in Adult Education/ Human Resource Development	3
<a href="#">LTLE 530</a> . Principles of Instructional Design	3
<a href="#">LTLE 570</a> . Design and Development of Digital Media	3
	24

## Concentrations

In addition to the core courses, students will choose electives appropriate to their interests. These electives when combined with the core courses may form a concentration. These additional courses may be taken in the AHRD program or in another area related to the students' interests. These additional courses should complement the learner's studies in adult education/human resource development and support his/her professional goals.

Concentration areas for adult education/human resource development include the following defined areas of study: leadership and facilitation, instructional design, human resource management, and AHRD program evaluation and measurement. Details for each defined concentration are listed below. A learner, in conjunction with his or her adviser, can also define a concentration in another area of study such as public administration, counseling psychology, secondary education or any content area that is complementary with the learner's professional objectives. Concentrations should be decided in conjunction with the learner's adviser.

### **Concentration in AHRD Program Evaluation and Measurement**

This concentration is designed to provide learners with in-depth exposure to and practice of effective evaluation and measurement methods and practices related to various AHRD programs in organizations.

#### **Minimum Requirements**

Select a minimum of six hours from the electives listed below:

[AHRD 501](#). Workshop in Adult Education/Human Resource Development  
[AHRD 620](#). Consulting AHRD  
[AHRD 690](#). Special Studies in Adult Education/Human Resource Development  
[EDUC 630](#). Inquiry in Education

### **Concentration in Higher Education**

The concentration in higher education is designed to prepare learners who have experience and/or in-depth preparation in an academic area to provide instruction for undergraduate learners and adapt to other aspects of the undergraduate teaching environment in institutions of higher education.

### **Concentration in Human Resource Management**

This concentration is designed to acquaint learners with business and industry and practices related to the management of human resources.

#### **Minimum Requirements**

Select a minimum of six hours from the electives listed below.

[AHRD 501](#). Workshop in Adult Education/Human Resource Development  
[AHRD 620](#). Consulting in AHRD  
[AHRD 635](#). Organization and Administration of Adult Education Human Resource Development  
[AHRD 690](#). Special Studies in Adult Education/Human Resource Development  
[LTLE 590](#). Clinical Practicum  
[MBA 600](#). Organizational Behavior  
[MBA 650](#). Managing Human Resources/Personnel Administration  
[MBA 651](#). Labor Relations

### **Concentration in Instructional Design**

This concentration is designed to equip learners with skills to design and implement learning strategies using principles of adult learning and instructional design together with technology applications in adult education/human resource development settings.

#### **Minimum Requirements**

Select a minimum of six hours from the electives listed below.

[AHRD 501](#). Workshop in Adult Education/Human Resource Development  
[AHRD 620](#). Consulting in AHRD  
[AHRD 650](#). Instructional Design for E-Learning  
[AHRD 690](#). Special Studies in Adult Education/Human Resource Development  
[EDUC 540](#). Educational Technology  
[LTLE 590](#). Clinical Practicum

### **Concentration in Leadership and Facilitation**

This concentration is designed for learners who wish to combine leadership, facilitation and creativity with an approved adult education/human resource development program.

#### **Minimum Requirements**

Select a minimum of six hours from the electives listed below.

[AHRD 501](#). Workshop in Adult Education/Human Resource Development  
[AHRD 560](#). Facilitating in Adult Education/Human Resource Development  
[AHRD 620](#). Consulting in AHRD

[AHRD 660](#). Facilitating Experiential and Action Learning  
[AHRD 690](#). Special Studies in Adult Education/Human Resource Development  
ADSU 632. Leadership for School – Community Relations  
[LTLE 590](#). Clinical Practicum  
[MBA 600](#). Organizational Behavior  
MGT 633. Leadership and Human Relations

### **Individualized Concentration**

For minimum requirements, see the adviser.

## **Oral Comprehensive Examination**

During the final semester in which the learner is enrolled in this program, he/she will participate in an oral and written comprehensive examination to be conducted by the learner's advisory committee. This examination will cover key concepts, principles, theories, and practices covered in the core courses. The comprehensive examination committee consists of at least two full-time AHRD faculty members and/or faculty of courses taken by the student.

## **Educational Leadership**

### **M.Ed in Educational Leadership**

The Master of Education Degree (M. Ed.) with a concentration in educational leadership serves students who work in, or who intend to pursue careers in, K12, higher education, business and industry, and consulting. The program provides candidates with opportunities to explore and research emerging technologies for learning. Candidates in the program will discover effective ways to integrate these technologies in their chosen professional settings. Graduates will possess a broad and deep understanding of the practice of educational design and technology.

### **Admission Criteria**

All criteria are considered when reviewing the candidates for admission to the Master of Education degree program. However, no one criterion will be the sole reason for lack of admission to the program. Students must meet the following criteria to be considered for admission:

- GRE scores at the 25th percentile or higher for both verbal and quantitative sections (candidates for the certificate program who already possess a master's degree in a related field from an accredited institution are exempt from the GRE requirement). Undergraduate grade point average of 2.75 or higher.
- Baccalaureate degree from a regionally accredited college/university.
- Professional resume.
- Hold or have held a valid teaching license or provide documentation of professional employment in the field.
- A two- to three-page written statement (double spaced) describing the applicant's professional background, the educational issues the applicant would like to address in the master's program and the applicant's long-term professional goals.
- Three years of full-time teaching (or equivalent) experience in a school setting.
- Recommendations from school personnel (administrative and instructional) familiar with the candidate's teaching performance and leadership potential.
- Faculty interview session results (to assess conceptual and oral performance).
- Writing samples provided by the candidate in response to questions administered by program faculty (to assess organizational and writing performance).
- Candidates may be required to complete several other tasks and activities which are designed to assess leadership ability and other skills and competencies as a part of the admissions, retention and program completion processes.
- The masters degree and certificate programs in educational leadership are designed for practicing school personnel who aspire to be educational leaders.

### **Program Mission and Outcomes**

The master's degree in education with a concentration in educational leadership is designed to prepare candidates to assume leadership positions in both schools and district offices. The organizing theme for the program is the school/district administrator's central role as the interpreter, facilitator and initiator of educational change leading to effective schools for all children. The program focuses upon the principal within the context of the school community of students, parents, teachers, support staff, and administration and, the district supervisor within the community of schools. It recognizes the constant state of mutual influence, which exists among schools and the organizations and culture of broader society.

The educational leader must understand and interpret changes within this context that affect the mission and operation of schools. For example, as an interpreter of change, the administrator must be able to discern the meaning of modifications in financial support, school law, governmental policy and educational research, and communicate these changes to the staff and community. In the role of facilitator, the administrator must be able to effectively implement programs mandated by the school board, as well as nurture and support positive changes suggested by students, staff or parents. Finally, as the initiator of change, the administrator must provide leadership for the process of continuous school improvement. The program is accredited by NCATE and the Commonwealth of Virginia and is national recognized by the Educational Leadership Constituent Consortium (ELCC).

Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by:

- developing, articulating, implementing, stewarding and promoting community involvement in a vision of learning for a school and school district (ELCC 1.1-1.5),
- communicating effectively orally and in writing (1.2),
- promoting a positive school culture (2.1-2.4),
- providing an effective instructional program based upon best practices (2.2-3),
- designing comprehensive professional growth plans (2.4),
- managing the organization and its operations and resources to promote a safe, efficient and effective learning environment (3.1-3.3),
- using the available technologies for providing and managing instruction and resources (2.2, 3.1-3.3),
- collaborating with families and other community members, responding to diverse community interests and needs, and mobilizing community resources (4.1-4.3),
- acting with integrity, fairly, and in an ethical manner (5.1-5.3),
- understanding, responding to and influencing the larger political, social, economic, legal and cultural context (6.1-6.3).
- Candidates should have substantial, sustained, standards-based internship experiences in real settings, which are planned and guided cooperatively by the institution and the school district (7.1-7.6).

## Completion Requirements

All candidates must pass a comprehensive examination and submit a portfolio before completing the concentration. The comprehensive examination is designed to assess attainment of the desired instructional outcomes of the concentration. Some offerings require prerequisites for enrollment. These requirements enable a systematic and developmental approach to preparing school administrators. The concentration is fully aligned with the standards of the Educational Leadership Constituent Consortium.

## Program Description

The program includes 36-39 graduate credit hours and is divided into three interlocking components: professional core courses, a set of key leadership courses, and a practicum or internship experience.

## Master's Degree in Education with a Concentration in Educational Leadership Degree Requirements

Degree Requirements	Credit Hours
<b>Professional Core</b>	15
<b>EDUC 620.</b> Changing Contexts of American Schools	3
<b>EDUC 625.</b> Evaluation in Education	3
<b>EDUC 630.</b> Inquiry in Education	3
<b>EDUC 641.</b> Learning Theory and Instructional Models	3
<b>EDUC 642.</b> Curriculum Theory and Issues	3
<b>Leadership Concentration</b>	18-21
ADSU 540. Technology for Administrators	3
<b>ADSU 640.</b> Foundations of School Administration	3
<b>ADSU 641.</b> School Law	3
<b>ADSU 642.</b> Leadership for School-Community Relations	3
<b>ADSU 643.</b> The Principalship	3

<b>ADSU 644.</b> Supervision and Development of School Personnel	3
<b>ADSU 652.</b> School Finance and Business Management	3
<b>Practicum and Internship Experiences</b>	3
<b>ADSU 668.</b> Internship in the Principalship	3
or <b>ADSU 678.</b> Full-time Internship for School Administrators	3

---

36-39

Successful completion of the Administrative Technology Portfolio may be substituted for ADSU 540.

## Licensure Requirements

A candidate who has the appropriate teaching license, who completes the aforementioned program and who achieves a passing score on the School Leader's Licensure Examination is eligible for endorsement in PreK-12 administration and supervision in the Commonwealth of Virginia.

## Certificate in Educational Leadership

Candidates who already possess a master's degree in a related field may enter the certificate program. The certificate program requirements are identical to those for the master's degree; however, educational leadership course requirements already completed in the previous master's may count toward fulfilling certificate requirements. For example, a candidate with a master's degree may already have completed the professional core (14 credits), and thus would need only to complete the leadership concentration, practica and internship and all relevant assessments). A minimum of 21 credits is required (most endorsement candidates complete 30+) and a second master's degree is not conferred.

## Educational Technology

### M.Ed. in Educational Technology

#### Admission Criteria

All criteria are considered when reviewing the candidates for admission to the Master of Education degree program. However, no one criterion will be the sole reason for lack of admission to the program. Students must meet the following criteria to be considered for admission:

- GRE scores at the 25th percentile or higher for both verbal and quantitative sections.
- Undergraduate grade point average of 2.75 or higher.
- Baccalaureate degree from a regionally accredited college/university.
- Professional resume.
- A two- to three-page written statement (double spaced) describing the applicant's professional background, the educational issues that the applicant would like to address in the master's program and the applicant's long-term professional goals.
- Interview with one of the educational technology faculty members to ensure the applicant understands the goals and requirements of the educational technology program.
- The master's degree in educational technology provides candidates with opportunities to explore and research emerging technologies for learning. Candidates in the program will discover effective way to integrate these technologies in their chosen professional settings.

#### Program Mission and Outcomes

The Master of Education degree with a concentration in educational technology is designed for teachers, administrators and professionals in the field of staff development and training. Candidates completing the program will have developed a broad and deep framework for identifying, implementing and assessing educational technology in the teaching and learning process. Candidates will have an opportunity to explore future trends in educational technology, allowing them to continue to expand their skills at the completion of the program. Candidates will complete course work in two concentration areas, giving them extensive experience in designing, developing and assessing different educational technology applications. Candidates complete the program with a practicum experience to apply their skills and knowledge in a school or workplace setting.

Graduates in the program will be able to:

- Demonstrate knowledge of characteristics and issues surrounding the integration of technology for learning.
- Design, develop and implement instructional activities utilizing emerging technologies for effective instruction.

- Demonstrate an understanding of the principles of learning and how these apply to effective implementation of appropriate technologies with diverse learners.
- Demonstrate knowledge of current trends and research in educational technology.
- Demonstrate a level of competence with educational technologies to assure positive growth with effective technology integration among learners and colleagues in their professional setting.
- Demonstrate competence in oral and written professional communication.
- Demonstrate integrity and ethical professional behavior when designing, developing and implementing educational technologies.

### Program Description

To complete a Master of Education degree with a concentration in educational technology, the candidate will complete a minimum of 33 hours of course work organized as follows: professional core, 12 hours; educational technology core courses, nine hours; two specialty areas of concentration, six hours each. In addition, candidates must complete a qualifying examination, present an electronic portfolio midway in their program of studies and take a comprehensive examination at the conclusion of the degree.

### Master of Education with a Concentration in Educational Technology Degree Requirements

Degree Requirements	Credit Hours
Professional Core	12
<b>EDUC 620.</b> Changing Context of American Schools	3
<b>EDUC 630.</b> Inquiry in Education	3
<b>EDUC 641.</b> Learning Theory and Instructional Models	3
<b>EDUC 642.</b> Curriculum Theory and Issues	3
Educational Technology Core	9
<b>LTLE 530.</b> Principles of Instructional Design	3
<b>LTLE 560.</b> Foundation of Education Technology	3
<b>LTLE 590.</b> Clinical Practicum	3
Educational Technology Specialty Areas	12
(choose two areas)	
Multimedia Development	
<b>EDTC 611.</b> Multimedia and User Interface Design	3
<b>LTLE 570.</b> Design and Development of Digital Media	3
Technology Management	
<b>EDTC 621.</b> Technology Planning	3

<b>EDTC 632.</b> Simulation and Modeling	3

### Certificate in Educational Technology

Candidates who do not desire a master's degree may enter the certificate program. Certificates are available in any of the educational technology specialty areas and are awarded following the completion of six graduate credits in one of the three specialty areas: multimedia development, technology management and data visualization.

### English Language Learning Academy

[Dr. Laura Desportes](#), [Dr. Diane Foucar-Szocki](#), Co-directors

Phone: (540) 568-6193, Phone: 540-568-8012

<http://www.jmu.edu/coe/ltle/ella.shtml>

The mission of the English Language Learning Academy is to provide language learning opportunities and support through licensure, minor, clinical and direct service programs. The English Language Learning Academy offers initial

PK-12 licensure program in Teaching English as a Second Language (TESL) at the bachelor's and post-baccalaureate (MAT) levels, and an M.Ed. in Education, Equity and Cultural Diversity.

## **K-12 English as a Second Language Undergraduate Licensure Program**

[Dr. C. Ruth Bosch](#), Program Advisor

Phone: (540) 568-5813

James Madison University's College of Education, through the ELL Academy offers a bachelor degree preparation for K-12 English as a Second Language (ESL) Licensure. This program will draw upon theories of linguistics, research on social and cultural variables that influence second language acquisition, and the knowledge required to facilitate second language learning. This will prepare future educators to understand and implement more equitable and effective ways of working with English Language Learners in a variety of contexts, including inclusion in content/general education classes, sheltered-ESL classes and pullout classes. Completion of this four year program may lead to eligibility for a Virginia teaching license for K-12 English as a Second Language.

The College of Education's ELL Academy is interested in candidates who are committed to social justice and are committed to creating affirming and academically challenging learning environments for their future students.

### **Application and Admission Criteria**

All candidates for initial teacher licensure must be fully accepted into the teacher education master's program to register for certain education courses, including student teaching. Students are prevented from taking designated education courses until the following requirements are met. Candidates must:

- Declare the program and the teaching concentration minor using the form available in the program area. Have the form signed by the student's education adviser and submitted to the Registrar's Office.
- Give the AR-2 reference forms to two persons (employers, clergy, teachers or other professionals) familiar the candidate. They must have known the candidate in a professional capacity for a minimum of six months and be able to evaluate potential as a future educator.
- Ask references to return the forms directly to the Education Support Center (ESC).
- Complete the following course requirements with a minimum grade of "C:"
- GWRTC 103 (or equivalent)
- MATH 107 (or equivalent)
- GPSYC 160 (or equivalent).
- Provide ESC with a transcript of any courses from other institutions which may be used for admission and do not appear on the JMU transcript.
- Take the [Virginia Communication and Literacy Assessment \(VCLA\)](#), which measures the communication and literacy skills necessary for Virginia educators.
- Take the [Praxis I: Academic Skills Assessment](#) and have the scores sent to JMU (test code is 5392). Praxis scores may be waived if SAT® scores or ACT scores qualify.
- Take the [Praxis II: Subject Assessment](#) specialty area test in their respective licensure area, if one is required, prior to applying for a teaching license. The Virginia Board of Education has adopted new specialty area tests and new minimum scores for many of the teacher licensure areas. Changes in specialty area test requirements may occur over the next several years. Make sure the most current requirements are checked before registering for a specialty area test.
- Have and maintain a GPA of 2.5 or better. GPA information is updated in the teacher education database at the end of each semester.
- Have no record of any felony conviction or misdemeanors involving children or drugs. This requirement is mandatory in order to be accepted into teacher education.
- Complete online training in Universal Precautions. UP training sessions are offered by the JMU Health Center. ESC receives verification that candidates have completed the training. In addition, [HTH 204](#), [HTH 370](#) or Red Cross First Aid or equivalent training will meet this requirement.
- Complete the [Child Abuse Prevention Training](#) online at ESC web site and pass the quiz. Scores will be sent electronically to the ESC. Keep the printed certificate.
- [Subscribe to Tk20](#) after completing all of the requirements previously listed by purchasing a student account.
- [Complete the Application to Teacher Education Writing Sample in Tk20 after receiving a response that the Tk20 subscription is available.](#)

### Licensure Advising

Upon admission to the College of Education's ELL Academy, candidates are assigned a faculty adviser. Faculty advisers meet with students regularly to plan and revise their course of study. In addition, a licensure adviser assists licensure candidates with the licensure process.

### Course of Study

The course of study for the undergraduate K-12 licensure in ESL consists of the following:

- General Education Requirements (50 credits)
- ESL Course Requirements (30 credits)
- ESL Additional Requirements (15 credits)
- Practicum (3 credits)
- Student Teaching (6 credits)
- Modern Foreign Language Proficiency (6 credits)
- Major Course Requirements (30 credits)

The chosen major must be in a liberal arts discipline as defined by the Virginia Department of Education. The following majors are highly recommended:

- Anthropology
- Communication Studies
- English
- IDLS
- Modern Foreign Languages (Spanish)
- Psychology
- Sociology
- Writing Rhetoric and Technical Communication

## Course Offerings

### School Administration

**ADSU 640. The Fundamentals of Educational Administration.** 3 credits.

Examines the fundamental principles and concepts of organizational theory, structure and climate. There is an emphasis on the administrative processes and professional ethics of leadership, motivation, decision making, communication, organizational change and strategic planning. The course offers opportunities to apply theory to professional practice through the use of case studies.

**ADSU 641. School Law.** 3 credits.

Acquaints teachers and prospective school administrators with the laws governing public education and the legal responsibilities and powers of state and local governing bodies and individuals. Emphasis is given to federal and Virginia statutes and case law affecting due process, liability, equal protection, and the rights of teachers and students.

**ADSU 642. Leadership for School-Community Relations. 3 credits.**

The influence of the social and political structures and conditions on school leadership, personnel, programs and activities is explored. Strategies for interacting and cooperating with parents, community leaders, businesses and organizations for support in the effective attainment of school objectives and the educational goals of the community are emphasized.

**ADSU 643. The Principalship. 3 credits.**

Emphasis will be on instructional leadership and effective school management that promote positive student achievement, a safe and secure environment, and the efficient use of resources. Curriculum planning, scheduling, school improvement planning, assessment of student progress, school change, and program evaluation will be key topics covered by this course.

**ADSU 644. Supervision and Development of School Personnel. 3 credits.**

Concepts and approaches for planning and implementing activities for effective human resource management are explored. Theories and practices related to recruitment, development and appraisal of personnel are covered. Evaluation of personnel for the purpose of meeting school objectives and for professional development receives emphasis.

**ADSU 652. School Finance and Business Management. 3 credits.**

This course emphasizes the history and principles of public school financing and the roles of federal, state and local governments and agencies in financing public education. Taxation for school purposes, the economics of education, equity and disparity issues, budgetary concerns, strategic planning, and procedures for school-site management are included.

**ADSU 658. Practicum in School Administration. 3 credits.**

The practicum provides administrative field experience in a school setting. Students spend a minimum of 75 hours during the semester working under the guidance of a practicing school administrator and university supervisor. Other course requirements include seminars and the completion of an administrative project. Course graded on an S/U basis. Prerequisites: Completion of a minimum of 15 credits and permission of instructor.

**ADSU 668. Internship for Principals. 3 credits.**

Students spend a minimum of 200 hours over six months working under the supervision of a practicing school administrator and a university professor. The student should experience the full range of duties, problems and issues encountered by a school administrator, and receive developmental and evaluative feedback. Course graded on an S/U basis. Prerequisite: Completion of 30 credits in the Educational Leadership Program or permission of adviser.

**ADSU 678. Full-time Internship for School Administrators. 3 credits.**

Candidates spend a minimum 90 full-time days working under the supervision of a practicing school administrator and a university professor. The candidate should experience the full range of duties, problems and issues encountered by an administrator and receive developmental and evaluative feedback. Course graded on an S/U basis. Prerequisite: Attainment of a full-time administrative position and permission of adviser.

**ADSU 680. Readings and Research. 1-3 credits.**

This course provides opportunities for directed readings and research in areas of special interest. Reading and research may be done only in the major field of study. Prerequisites: Written permission of the adviser and program coordinator.

**ADSU/LEAD 730. Advanced Learning Theories and Instructional Models. 3 credits.**

This course focuses on the design, delivery, assessment and supervision of instruction in schools, across schools, throughout the school division and in the community. Prerequisite: Permission of instructor.

**ADSU/LEAD 735. Advanced Curriculum Theory and Instructional Issues. 3 credits.**

This course focuses on the determination, development, implementation, assessment and revision of curriculum and its relationship to the design, delivery, assessment and supervision of instruction in schools, across schools, throughout the school division and in the community. Prerequisite: Permission of instructor.

**ADSU/LEAD 741. Leading Educational Organizations. 3 credits.**

Analyze, apply study of ethics, values and leadership concepts. Apply four ethical paradigms of justice, care, critique and profession. Integrate and apply knowledge of educational laws, personnel supervision and education finance. Analyze change theory as related to cognitive and social processes and apply to school and organizational change.

Analyze the impact of personnel motivation, work performance and evaluation on school culture. Evaluate sociopolitical influences on leadership in schools. Prerequisite: Permission of instructor.

## **Adult Education/Human Resource Development**

### **AHRD 501. Workshop in Adult Education/Human Resource Development. 1-3 credits.**

Designed to provide workshop experience in a variety of areas involving adult education/human resource development. Workshop content will be determined by demand, interest and input from local, regional and state clientele. May be repeated up to six hours.

### **AHRD 520. Foundations of Adult Education/Human Resource Development. 3 credits.**

Historical beginnings of adult education and human resource development programs are examined in order to understand current practices. Current issues and trends, research, legislation and publications will be incorporated into the course.

### **AHRD 540. Leadership and Facilitation. 3 credits.**

This course examines the multi-faceted concept of leadership and facilitation, focusing on facilitative leadership approaches and how these contribute to organizational and individual performance. Traditional and emergent paradigms will be explored. Emphasis will be placed on knowledge, attitudes and skills that enable a facilitator to work effectively with diverse work groups, enhance creativity and draw from organizational and community resources.

### **AHRD 560. Facilitating in Adult Education/Human Resource Development. 3 credits.**

This course equips students to participate in and facilitate groups in organizational settings. Students examine theories and tools for developing and supporting effective learning groups and will practice facilitation skills. The course will address group dynamics, clarification of group task/agenda, meeting goals and use of the self as a facilitating instrument.

### **AHRD 570. Diversity and Ethics in AHRD. 3 credits.**

This course focuses on two of the critical areas, diversity and ethics, in AHRD. It examines and explores theories and techniques for dealing with institutional "isms" (e.g., multiculturalism, sexism, ageism and professionalism, etc.), as they relate to managing training, conflict resolution, career development, mentoring, performance improvement, team building and peer rating methods. Prerequisite: [AHRD 520](#).

### **AHRD 580. Learning in Adulthood. 3 credits.**

This course provides a comprehensive overview of learning in adulthood. Emphasis is placed on learning contexts, what and why adults learn, the nature of learning, learning theories, adult development and the development of adult learning theory. Ways and means to enhance learning opportunities in the lives of adults at work, school, worship, in leisure and for better health are explored.

### **AHRD 600. Performance Analysis and Needs Assessment in Adult Education/Human Resource Development. 3 credits.**

Focuses on knowledge and skills basic to organization, process, and task analyses, including approaches and steps in identifying root causes of performance problems. Current performance analysis practices in AHRD will be discussed. Methods and techniques in developing specific instruments for performance improvement data collection and data analysis will also be covered. Prerequisite: [AHRD 520](#).

### **AHRD 620. Consulting in AHRD. 3 credits.**

This course focuses on models, techniques and practices of consulting skills in developing programs for learners as individuals, groups and organizations. Emphasis is placed on performance analysis, needs assessment, instructional design processes, approaches and practices, implementation procedures and evaluation approaches to various learning settings and clients. Prerequisite: [AHRD 520](#), [AHRD 560](#), [AHRD 580](#), [AHRD 600](#), LTLE 530, or equivalent or permission of the instructor.

### **AHRD 630. Research and Inquiry in Adult Education/Human Resource Development. 3 credits.**

This course provides students with knowledge and skills in research and inquiry. This course will focus on different qualitative and quantitative research methods, research designs, approaches to doing literature reviews and analyses, and determining the size and scope of research projects. Data collection instruments and analyses approaches will also be covered. Prerequisite: [AHRD 520](#) or students in the stage of conducting R&R projects.

**AHRD 635. Organization and Administration of Adult Education/Human Resource Development Programs.** 3 credits.

This course examines current and proposed legislation, program development and organizational structures found in adult education and human resource development. Emphasis is placed on changing existing structures to lifelong learner-driven structures.

**AHRD 640: Program Evaluation and Measurement in Adult Education/Human Resource Development.** 3 credits.

Focuses on theories and practices in evaluation and measurement of AHRD programs from the perspective of impact on organizations, work processes, and individuals, as well as follow-up decisions. Methods and processes in developing specific instruments for program evaluation data collection and data analysis will also be discussed.

Prerequisite: [AHRD 520](#).

**AHRD 650. Instructional Design for E-Learning.** 3 credits.

This course focuses on applications of instructional design theories and principles to e-learning. Built on students' learning in AHRD 580 and AHRD 610, this course provides opportunities for students to apply theories and develop skills for real-world e-learning design and development. Design planning, storyboarding, online authoring and other critical e-learning design skills will be addressed. Prerequisites: [AHRD 580](#), Learning in Adulthood and [AHRD 610](#), Instructional Design. Students who have not met the prerequisites but still wish to take the course can meet with the instructor for an assessment prior to registration.

**AHRD 660. Facilitating Experiential and Action Learning.** 3 credits.

This course examines the historical roots of action learning, organizational learning, various experiential and action methodologies; and a thorough description of action learning including what it is, key elements, when it works, organizational applications, and how it benefits the organization. Prerequisites: [AHRD 540](#) or permission of the instructor.

**AHRD 670. American Higher Education.** 3 credits.

The objective and organization of prevalent types of institutions are studied. Current issues and problems in American higher education are explored.

**AHRD 671. Teaching and Learning Processes in Higher Education.** 3 credits.

Instructional practices and themes are studied in relationship to programs in higher education.

**AHRD 673. The Community College.** 3 credits.

The history, functions and personnel of the comprehensive community college in the American system of higher education are studied. Current issues facing the community college are explored.

**AHRD 680. Reading and Research.** 3-6 credits.

Designed to provide the opportunity for supervised reading and research in a special interest area of adult education/human resource development. Prerequisite: Approval from major adviser and completion of a basic research course.

**AHRD 690. Special Studies in Adult Education/Human Resource Development.** 3 credits.

Designed to provide learners the opportunity to explore topics of special interest that are more limited than the traditional three credit course. Prerequisite: Approval of major adviser.

**AHRD 695. Portfolio.**

The portfolio is a non-credit capstone course to demonstrate individual learning processes throughout the AHRD program. Students will construct their portfolios based on their professional and academic goals and experiences, from work completed in graduate courses. The portfolio will assist students, as professionals or advanced students, prove their expertise and academic preparation in the job market or in academia, and contribute to their comprehensive exam experience, allowing for reflection on the program and individual learning. Prerequisites: All core courses and/or concurrent with Reading and Research or Thesis Research.

**AHRD 698. Comprehensive Continuance.** 1 credit.

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

**AHRD 699. Thesis Continuance.** 2 credits.

Continued study, research and writing in the areas of thesis concentration. Course may be repeated as needed.

**AHRD 700. Thesis Research.** 3-6 credits.

Continued study, research and writing in the areas of thesis concentration. Course may be repeated as needed. This course is graded on a satisfactory/unsatisfactory/ incomplete (S/U/I) basis. Prerequisites: [EDUC 630](#) and approval of graduate adviser.

**Education****EDUC 620 Changing Contexts of American Schools.** 3 credits.

This course focuses on the nature of educational change in American schooling. Emphasis will be placed upon contemporary issues facing education, their historical and philosophical roots and the implementation of educational change.

**EDUC 625. Evaluation in Education.** 3 credits.

The course is designed to help practicing educators improve their development and use of assessment tools and techniques. Attention will also be given to analyzing and interpreting assessment results and investigating newer developments in the evaluation of learning and instructional programs. Prerequisite: An instructional methods course.

**EDUC 630 Inquiry in Education.** 3 credits.

Develop skills, insights and understandings which will enable the student to become an intelligent and critical consumer of educational inquiry and a productive participant in the inquiry process. Prerequisites: Appropriate technology skills or [EDUC 505](#).

**EDUC 641. Learning Theory and Instructional Models.** 3 credits.

This course focuses on the diverse nature of learners, the processes of learning and development, the role of the teacher, the design and delivery of instruction and the processes and strategies of teaching.

**EDUC 642. Curriculum Theory and Issues.** 3 credits.

The study of curriculum theories and issues that lead to a comprehensive understanding of the purposes and functions of schools in a democratic society.

(For a full listing of EDUC courses, see the [Early, Elementary and Reading Education section](#)).

**Educational Technology****EDTC 611. Multimedia and User-interface Design.** 3 credits.

Design and evaluation of effective user interfaces, beginning with principles for product design. Considers the process for user interface development as a separate process from software design and development including such topics as life cycle development, usability, prototyping, and formative user-based evaluation.

**EDTC 621. Technology Planning.** 3 credits.

This course introduces the process of building a technology plan for a school district or other unit. It explores the roles of the different stakeholders in the process and focuses on issues of funding, implementation and assessment. Prerequisite: [EDTC 510](#) recommended.

**EDTC 622. Staff Development in Educational Technology.** 3 credits.

This course will focus on instructional models, strategies and assessment of professional development activities among adult leaders of K-12 educational settings. Course will focus on research supported instructional strategies and techniques to meet educational technology learned society's guidelines for instructional personnel.

**EDTC 631. Imagery and Data Display.** 3 credits.

Detailed study of different data visualization tools, including image processing and geographic information systems. Clear and concise displays of data are emphasized, along with the research base supporting the use of these tools in inquiry-based learning. Prerequisite: [EDTC 510](#) recommended.

**EDTC 632. Simulation and Modeling.** 3 credits.

Exploration of simulation and modeling tools and their application to science and mathematics learning. Software addressing a variety of grade levels and content areas will be explored and assessed for its value in inquiry-based learning. Emphasis will be given to curricular design and implementation. Prerequisite: [EDTC 631](#).

## **Learning, Technology and Leadership Education**

### **LTLE 530. Principles of Instructional Design. 3 credits.**

Examines the overarching process of instructional design as it relates to the design, development, and implementation of technology-based instruction. Instructional design models will be compared and contrasted, and students will be challenged to develop their own model that is appropriate for the given workplace. Includes discussions on design methodologies, principles, and instructional strategies.

### **LTLE 560. Foundations of Educational Technology. 3 credits.**

The purpose of this course is to provide you with a critical framework with which to assess the impact of technology on education. We will be examining the meaning of technology, discourses that construct technology, and a variety of different social issues related to the use of educational technologies.

### **LTLE 570. Design and Development of Digital Media. 3 credits.**

The foundational skills course introduces the processes for the design, development, and distribution of digital media elements. Concepts introduced include technical terminology; file management; computer-based learning, distance learning, and blended learning; the use of collaborative tools for learning; and practical applications in K12 and business. This course provides skills for future digital media development.

### **LTLE 580. Developing and Critiquing Visual Literacy. 3 credits.**

This course will cultivate the ability to evaluate and create conceptual visual representations. Students will practice the necessary critical attitude, principles, tools and feedback to develop their own high-quality graphics for learning and performance. Topics also include the impact of visual literacy on the learning process related to instructional design, instructional technology, and information presentation.

### **LTLE 590. Clinical Practicum. 3 credits.**

This course represents a clinical approach to project development in which students are supervised during the integration and application of theories, practices, and skills in a variety of authentic work settings. Prerequisites: Student must be within six hours of completion of the program; approval of graduate adviser.

## **Teaching English as a Second Language**

### **TESL 4XX: Applied Linguistics for ESL/FL. 3 credits.**

### **TESL 425. Cross-Cultural Education. 3 credits.**

The course provides students with knowledge of the effects of socio-cultural variables in an instructional setting.

### **TESL 426. Concepts in First and Second Language Acquisition. 3 credits.**

This course is designed to help students gain familiarity with first and second language acquisition. In understanding the process of language acquisition, students will be better equipped to design instructional strategies that facilitate English Language Learners language acquisition, and to create supportive environments. Prerequisites: [EDUC 310](#).

### **TESL 428. Assessment for Curriculum Development in English as a Second Language. 3 credits.**

The course provides students with a variety of assessment practices for assessing English language learners' abilities. Students will examine ways to use assessment results in the development of appropriate curriculum. Prerequisites: [TESL 426](#).

### **TESL 470. Methods in Teaching English as a Second Language. 3 credits.**

This course is designed to provide pre-service ESL teachers with experiences in designing and implementing instructional strategies to meet the linguistic needs of English Language Learners and utilizing assessment instruments to evaluate student progress.

---

## Admission Criteria and Degree Requirements

All applicants must first satisfy the general application requirements of The Graduate School as described for prospective graduate students at <http://www.jmu.edu/grad>.

The School of Leadership Studies requires applicants to have a master's degree from an accredited institution. The school welcomes applicants from any area or discipline, but applicants should have completed an introductory statistics course and an undergraduate financial accounting course. Other background course work may be required depending upon the student's concentration, such as school leadership courses for the Educational (K-12) Leadership concentration.

### To Apply

For information about the application process, an online application form and application instructions, please go to <http://www.applyweb.com/apply/jmug/index.html>. All application materials are uploaded through this site.

### Required Materials

A master's degree from an accredited institution is required for all applicants. In addition, the School of Leadership Studies requires all prospective applicants to have and submit evidence of the following:

- GRE or GMAT scores;
- official transcripts from all colleges and universities attended;
- a brief (250 words) statement of purpose that identifies the applicant's reason for applying, intended field of concentration, and long-range career aspirations;
- three (five preferred) years of full-time equivalent work experience;
- three personal evaluations submitted according to instructions found at <http://www.jmu.edu/leadership>. At least one personal evaluation must be from a current or former direct supervisor; and,
- up to two scholarly samples that demonstrate an applicant's ability to conduct research.

Top candidates will be invited for a personal interview as part of the final admission decision.

### Application Deadlines

Review of applications is ongoing. Incomplete applications are not considered. Applicants are responsible for assuring all materials have been received. Students normally matriculate in the fall semester, but flexibility is allowed based upon prior course work and student work schedules.

### Mission

James Madison University offers an innovative doctoral program in Strategic Leadership Studies with three specialty concentrations:

- Educational (K-12) Leadership
- Higher Education
- Nonprofit and Community Leadership

This program emphasizes business principles, accountability, and leadership theory and applications, which are all areas of reform that national groups have touted as important for new educational, nonprofit and higher education administrators. Students will be instructed in management principles and in the broader visionary perspectives necessary for effective leadership. The program emphasizes practical applications grounded in sophisticated research skills needed for data-based, innovative decision-making in current and future practice.

The leadership course work encompasses models, theories and processes, which are tested through application to situations faced by practicing leaders. The capstone leadership course requires an externship. In addition to leadership course work, students enroll in clusters of courses centered on research methodology including: measurement, statistics, and accountability; business administration, managerial finance and accounting for decision-making and control; and, a specialty concentration of educational leadership, higher education, or nonprofit and community leadership. Students in all concentrations study strategic management, advocacy and volunteerism and advanced leadership dynamics.

## Ph.D. in Strategic Leadership

### Required Courses

Courses	Credit Hours
LEAD 600. Introduction to Leadership Studies and Ethics	3
LEAD 710. Advocacy and Volunteerism	3
LEAD 830. Advanced Leadership Dynamics	6
MBA 690. Strategic Management	3
Foundation courses: Research Methodology and Evaluation	12
Foundation courses: Business and Organizational Foundations	15
Concentration courses	12
Dissertation	12
	66

### Foundation Courses

Research Methodology and Evaluation	Credit Hours
PSYC 605. Intermediate Inferential Statistics	
PSYC 606. Measurement Theory	
PSYC 608. Multivariate Statistical Methods in Psychology	
PSYC 770. Assessment and Public Policy	
	12

### Concentrations

The strategic leadership program offers three concentrations:

- Educational (K-12) Leadership
- Higher Education
- Nonprofit and Community Leadership
- Educational (K-12) Leadership

The educational leadership concentration includes course work in learning theories and instructional models, curriculum development and evaluation, and advanced strategies for leading school organizations.

Required Courses	Credit Hours
LEAD/ADSU 730. Advanced Learning Theories & Instructional Models	3
LEAD/ADSU 735. Advanced Curriculum	3
LEAD/ADSU 741. Leading Educational Organizations	6
	12

### Higher Education Concentration

The Higher Education concentration utilizes a scholarly approach for graduates wishing to work in a variety of settings within postsecondary education.

Required Courses	Credit Hours
LEAD 780. Policy Development and Analysis in Postsecondary Education	3
LEAD 782. Entrepreneurship and Economic Development	3
LEAD 785. Proseminar in Postsecondary Education	3
LEAD 800. Research Practicum in Postsecondary Studies	3
<hr/>	
	12

### Nonprofit and Community Leadership Concentration

The Nonprofit and Community Leadership concentration includes course work in the civil society and the nonprofit sector, nonprofit organization issues, governance and nonprofit organizations, and philanthropy and resource development.

Required Courses	Credit Hours
PUAD 660. Nonprofit Organization Issues	3
PUAD 661. Civil Society and the Nonprofit Sector	3
PUAD 662. Governance and Nonprofit Organizations	3
PUAD 663. Philanthropy and Resource Development	3
<hr/>	
	12

## Course Offerings

### Strategic Leadership

#### **LEAD 600. Introduction to Leadership Studies and Ethics.** 3 credits.

A doctoral survey course covering the history, philosophy, theories and concepts of organizational leadership. This course will differentiate between the roles of the manager and the leader and provide the student with the foundations of organizational leadership. This course provides an opportunity to examine pertinent leadership theories, to develop a personal understanding of leadership and to explore the relations of leaders and followers.

#### **LEAD 710. Advocacy and Volunteerism.** 3 credits.

This course is designed to enable students to understand the distinction among civic participation organizations and political advocacy.

#### **LEAD/ADSU 730. Advanced Learning Theories and Instructional Models.** 3 credits.

This course focuses on the design, delivery, assessment and supervision of instruction in schools, across schools, throughout the school division and in the community. Prerequisite: Permission of instructor.

#### **LEAD/ADSU 735. Advanced Curriculum Theory and Instructional Issues.** 3 credits.

This course focuses on the determination, development, implementation, assessment and revision of curriculum and its relationship to the design, delivery, assessment and supervision of instruction in schools, across schools, throughout the school division and in the community. Prerequisite: Permission of instructor.

#### **LEAD/ADSU 741. Leading Educational Organizations.** 3 credits.

Analyze, apply study of ethics, values and leadership concepts. Apply four ethical paradigms of justice, care, critique and profession. Integrate and apply knowledge of educational laws, personnel supervision and education finance. Analyze change theory as related to cognitive and social processes and apply to school and organizational change. Analyze the impact of personnel motivation, work performance and evaluation on school culture. Evaluate sociopolitical influences on leadership in schools. Prerequisite: Permission of instructor.

**LEAD 780. Policy Development and Analysis in Postsecondary Education. 3 credits.**

Current issues of higher education are analyzed and future trends are discussed. Various approaches to policy development and their applications are examined from institutional, state, federal, legislative, and international perspectives. Prerequisite: Permission of instructor.

**LEAD 782. Innovation, Entrepreneurship and Economic Development. 3 credits.**

This course will introduce students to the role institutions of higher education play in fostering innovative discoveries. A focus will be applied to financial, budgetary and economic development practices as they pertain to institutions of higher learning. Students will develop the attitudes, skills and knowledge necessary to recognize effective leadership in a dynamic, ever-changing higher education environment.

**LEAD 785. Proseminar in Postsecondary Education. 3 credits.**

Encompasses the practice, theory, and empirical underpinnings of postsecondary education. Approaches may draw upon cultural, political, economic, historical, social and global aspects. Prerequisite: Permission of instructor.

**LEAD 800. Research Practicum in Postsecondary Studies. 3 credits.**

Focuses on principles of research design and planning in postsecondary education. Students will develop a defensible research topic, research plan, method of data collection, selection of methodology and implications. Prerequisite: Permission of instructor.

**LEAD 890. Advanced Leadership Dynamics. 6 credits.**

This course and work experience represents the final pre-dissertation stage for the leadership studies doctoral program. As a capstone course and experience, it is designed to integrate prior knowledge (both tacit and explicit) and current work experiences with more advanced leadership concepts and applications.

**LEAD 899. Dissertation Continuance. 1-2 credits.**

Continued study, research and writing in the area of dissertation concentration for students, who have registered for six hours of dissertation credit, but have not finished the dissertation. These students must be enrolled in this course each semester, including summer, until they complete the dissertation. This course does not count toward fulfilling the required hours for the degree and may be repeated as needed.

**LEAD 900. Doctoral Dissertation. 3-12 credits.**

Provides advanced research required of all doctoral candidates. Course is graded on an S/U/I basis. Prerequisites: Completion of all course work and permission of student's advisor and the Director of the School of Leadership Studies.

## Mission

The mission of the James Madison University professional education unit is to prepare caring, knowledgeable, skilled and reflective educators who believe that all students can learn and succeed. Our candidates and faculty are committed to lifelong learning and aspire to meet educational needs in a changing, pluralistic and democratic society. The personal and professional development of candidates is accomplished by emphasizing excellence and continuous innovation in quality undergraduate, graduate and professional programs.

James Madison University's College of Education is distinguished through faculty and candidate achievements, academic rigor, excellence in teaching, candidate and faculty interactions and relationships, technological innovations, and national recognitions. The college maintains relevance through active and growing interactions with other colleges within the university and with local, state, regional, national and international communities.

The college is committed to providing:

- graduate programs that emphasize advanced knowledge in a specialty area and the development of effective leadership and professional skills for addressing the needs of a changing society.
- continuing professional development and service programs in cooperation with public and private schools and agencies, other colleges, institutions, and businesses.
- The undergraduate and graduate teacher education programs are accredited by the National Council for Accreditation of Teacher Education and approved by the Virginia State Board of Education.

The basic philosophy of the college is reflected in the following goals:

- To educate men and women for the multiple professions included in the college at both the undergraduate and graduate levels, not merely by developing skills and knowledge but by stimulating creativity, developing cognitive abilities, and encouraging the testing of hypotheses and reinterpretation of the human experience.
- To encourage a balanced faculty orientation toward teaching, research, scholarship, community service and professionalism that recognizes individual strengths and preferences of the college's faculty.
- To create an environment that fosters an atmosphere of open communication among candidates, faculty members and community.
- To anticipate societal needs and provide necessary resources for implementing effective on- and off-campus programs now and in the future.

## Programs of Study

Middle, Secondary and Mathematics Education offers the following programs:

- Master of Art in Teaching (M.A.T) with a concentration in middle school education, a fifth-year continuation initial licensure program.

- The Master of Education (M.Ed.) in Education with a concentration in middle school education, an advanced program designed for candidates who already possess a teaching license. The M.Ed. program in middle education is not accepting new students at this time.
- The Master of Education (M.Ed.) in Education with a concentration in K-8 mathematics specialization. This program is offered in conjunction with the Department of Mathematics and Statistics.
- Master of Art in Teaching (M.A.T) with a concentration in secondary education, designed to allow candidates to meet requirements for a license to teach students of grades 6-12 in the public schools of Virginia.
- Master of Education (M.Ed.) in Education with a concentration in secondary education, designed to provide advanced preparation for teachers and other school personnel already eligible for or holding initial teaching licenses. The M.Ed. program in secondary education is not currently accepting new students.

## **Middle School Education**

### **M.A.T. with a concentration in Middle School Education (6-8)**

#### **Admission Criteria**

To be fully admitted to the M.A.T. degree program, candidates must have:

- Satisfied all requirements for admission to teacher education.
- Submitted passing Praxis II scores in two content areas to the JMU Education Support Center prior to beginning more than 12 hours of MAT graduate course work; submitted passing Praxis II scores for at least one content area to the JMU Education Support Center prior to beginning more than 6 hours of MAT graduate course work.
- Exhibited and demonstrated personal qualities and dispositions that reflect effective development as a professional educator.
- Satisfied all requirements for admission to The Graduate School, including:
  - completion of a baccalaureate degree in IDLS from JMU or the equivalent
  - an undergraduate cumulative GPA of 2.7 or higher (on a 4.0 scale)
  - passed all gateway products in the Middle Education undergraduate minor
  - taken the Graduate Record Examination and scored at the 25th percentile or above. Exception: Candidates completing their undergraduate degree and the appropriate teacher education pre-professional programs (majors and minors) at JMU are not required to take the Graduate Record Exam.

All candidates in the middle school education M.A.T. program must have an undergraduate major or the equivalent in interdisciplinary liberal studies (IDLS) from JMU. The IDLS program, with its expanded approach to the general education core, and its dual concentrations in English, social sciences, the natural sciences or mathematics, meets the licensure requirements for a two-subject endorsement for teachers licensed in middle school education.

#### **Program Mission and Outcomes**

The mission of the M.A.T. program in middle school education is to prepare highly qualified professionals for educational roles in middle schools through advanced course work and field experiences.

These school professionals will:

- design and deliver curricula that effectively impact student learning;
- integrate technology in learning settings;
- value diversity of faculty and students in the school;
- collaborate with colleagues, parents and others;
- be reflective practitioners who continually evaluate their actions; and
- value lifelong learning, engage in professional development and conduct educational research.

The Master of Arts in Teaching in middle school education is designed to lead to initial teacher licensure with endorsements in two content areas. The fifth-year format forms the last phase of the five-year teacher licensure programs. This format is designed to serve candidates who have completed the appropriate prerequisite requirements in an undergraduate education program at JMU. Candidates should check with their adviser frequently to be apprised of changes in the offerings and requirements listed that may affect them.

#### **Degree Requirements**

As an undergraduate, the candidate must first complete the 36 education credits along with the IDLS major. Then the candidate must apply and be admitted to the graduate school for the 6-8 M.A.T. Finally, the candidate must complete the 32 hours of graduate course work which includes student teaching and a final research project.

**Master of Arts in Teaching with a Concentration in Middle School Education (6-8)**

<b>Degree Requirements</b>	<b>Credit Hours</b>
Second Year	
GPSYC 160. Life Span Human Development	3
EDUC 360. Foundations of American Education	3
Third Year	
EDUC 310. Teaching in a Diverse Society	3
MIED 311. Field Experience in Middle Education	2
READ 312. Reading and Writing across the Curriculum in the Middle Grades (EDUC 310, MIED 311, and READ 312 are corequisites for middle education pre-professional students)	3
MSSE 370. General Instructional Methods for Grades 6-12	3
MSSE 371. Clinical Experience in Adolescent Education (MSSE 370 and MSSE 371 are corequisites for middle education pre-professional students)	1
Fourth Year	
Students complete two of the courses below (3 credits each):	6
MSSE 470E. Methods in English/Language Arts for the Middle School	
MSSE 470H. Methods in Social Studies for the Middle School	
MSSE 470S. Methods in Science for the Middle School	
MSSE 470M. Methods in Mathematics for the Middle School	
MSSE 471. Field Experience in Middle Education	6
Students complete this course twice in appropriate content areas (3 credits each)	
READ 472. Literacy, Assessment, and Instruction in Content Areas for the Middle Grades	3
EXED 460. Differentiation of Instruction	3
	36

<b>Graduate Course Requirements</b>	<b>Credit Hours</b>

MSSE 690. Internship in Middle and Secondary Education	8
Last Stage, Last Semester of MAT Program	
MIED 610. Collaborative Leadership in School	3
MIED 656. Seminar in Middle Education	3
Approved Graduate Level Elective	3
	32

### **The Post-Baccalaureate Entry Option**

This program is for candidates who hold a bachelor's and/or master's degree in an appropriate academic content area and wish to be licensed to teach in that area.

### **Additional Admission Criteria**

Candidates admitted to this program of study are expected to have completed an arts and sciences undergraduate major from an accredited college or university with a 2.7 grade-point average or above (on a 4.0 scale). Candidates are required to provide transcript evidence that they have completed liberal studies and specialty area courses comparable in content and total hours to those expected of an undergraduate major. Candidates in the middle education program must have the requisite content coursework in two areas (mathematics, sciences, language arts, social science). Those applicants not having such course work will be required to complete any specifically required undergraduate-level general education and/or subject matter content courses under terms of provisional admission to graduate study as a degree-seeking candidate.

Candidates must also apply for and be admitted to teacher education at JMU. Candidates must initiate their application by contacting the JMU Education Support Center. Criteria for admission are described in the Undergraduate Catalog.

Candidates must also take the GREs and meet all requirements of admission to graduate school. Candidates must also submit passing Praxis II scores to the Education Support Center prior to enrolling in MAT graduate course work.

### **M.Ed. with a Concentration in Middle School Education (4-8)**

The M.Ed. program in middle education is not accepting students at this time.

### **Admission Criteria**

All criteria are considered when reviewing the candidates for admission to this Master of Education degree program. No one criterion will be the sole reason for lack of admission to the program. Criteria include:

- GRE scores at the 25th percentile or higher for both verbal and quantitative sections.
- Undergraduate grade point average of 2.75 or higher.
- Baccalaureate degree from a regionally accredited college/university.
- Professional resume.
- A valid teaching license.

A two- to three-page written statement (double spaced) describing the applicant's professional background, the educational issues that the applicant would like to address in the master's program and the applicant's long-term professional goals.

An interview with one or more faculty in middle education to ensure the applicant understands the particular perspectives, goals and requirements of the middle education concentration.

The Master of Education degree with a concentration in middle education is designed as advanced preparation for teachers working with fourth- through eighth-grade students. All applicants must have an initial teacher's license. This program helps candidates create an intellectual framework as the basis for implementing new curricular programs as well as evaluating current curricular programs in middle education. Through examination and analysis of current theory and research, as well as completing school-based research projects, candidates become equipped to better manage educational changes, actively collaborate with professional peers and perform in a manner based on current research and standards of expert professional practice.

### Program Mission and Outcomes

The mission of the Master of Education degree with a middle education concentration is to prepare master teachers for roles in grades 4-8 school settings. These school professionals will possess the knowledge, skills and dispositions to:

- design and deliver curricula for diverse learners;
- create and maintain learning climates;
- use assessment strategies;
- be reflective practitioners who continually evaluate their actions;
- collaborate with colleagues, parents and others;
- engage in professional development; and
- perform field-based research.

### Master of Education with a Concentration in Middle School Education (4-8)

Degree Requirements	Credit Hours
EDUC 620. Changing Contexts of American Schools	3
EDUC 630. Inquiry in Education	3
EDUC 631. Seminar in Educational Inquiry <sup>1</sup>	1
EDUC 640. Teaching, Learning and Curriculum	5
MIED 610. Collaborative Leadership in Schools	3
MIED 620. Assessment in Middle Education	3
MIED 656. Seminar in Middle Education	3
Approved electives <sup>1</sup>	9

30

<sup>1</sup> Courses included as electives must be selected to develop the professional needs and interests of the candidate. Electives must be approved by the major adviser and selected from the graduate offerings of the university.

This program is designed to engage candidates in a sequence of courses that build upon theoretical bases in the areas of cognition, learning, development, teaching, assessment, collaboration and leadership. For the final project, consistent with prevailing literature and inquiry methods, the candidate conducts and presents the results of a field based research project directed toward a specific school-related issue.

### M.Ed. with a concentration in K-8 Mathematics Specialization

The K-8 mathematics specialist concentration at James Madison University leads to a Masters of Education (M.Ed.) with a concentration in K-8 Mathematics Specialization and allows candidates to meet the competencies required for the K-8 Mathematics Specialists endorsement through the Virginia Department of Education. The program consists of 36 hours: 15 hours of course work in mathematics, 15 hours of course work in mathematics education and 6 hours of an externship.

The Mathematics Specialist concentration at James Madison University is a cohort program. We will accept 25 students into the program. Those interested in applying should complete the graduate admission application provided by The Graduate School: [www.applyweb.com/apply/jmug](http://www.applyweb.com/apply/jmug). This program is offered jointly by the Department of Mathematics and Statistics and the Department of Middle, Secondary and Mathematics Education.

### Admission Criteria

All criteria are considered when reviewing the candidates for admission to this Master of Education degree program. Criteria include:

- Satisfaction of all requirements for admission to The Graduate School
- A minimum of three years of classroom teaching experience where mathematics instruction was a responsibility.
- Completion of a minimum of six hours of mathematics courses (graduate and/or undergraduate).
- Completion of the Praxis II for Middle School Math (code 0069; register at <http://www.ets.org>).
- Two letters of recommendation.
- A two- to three-page personal statement indicating the reasons for enrolling in the concentration.
- Applicants may also be asked to complete an interview with the mathematics education faculty.

### Degree Requirements

Course Requirements	Credit Hours
MATH 502. Number and Operations for K-8	3
MATH 503. Algebra and Functions for K-8	3
MATH 504. Rational Numbers for K-8	3
MATH 505. Probability and Statistics for K-8	3
MATH 506. Geometry for K-8	3

## Secondary Education

### M.A.T. with a Concentration in Secondary Education

#### Admission Criteria

To be fully admitted to the secondary education M.A.T. degree program, candidates must have:

- Satisfied all requirements for admission to teacher education.
- Submitted passing Praxis II scores to the JMU Education Support Center prior to beginning more than 12 hours of MAT graduate course work.
- Exhibited and demonstrated personal qualities and dispositions that reflect effective development as a professional educator.
- Satisfied all requirements for admission to The Graduate School, including:
  - completed requirements for a baccalaureate degree from an accredited college/university,
  - achieved an undergraduate cumulative GPA of 2.700 or higher (on a 4.0 scale), and
  - taken the Graduate Record Examination and scored at the 25th percentile or above. **Exception:** Candidates completing their undergraduate degree and the appropriate teacher education pre-professional programs (majors and minors) at JMU are not required to take the Graduate Record Exam.

#### Program Mission and Outcomes

The mission of the secondary education programs is to prepare teachers who are reflective decision makers. Teachers who are reflective decision makers are able to choose from among known educational alternatives to maximize student learning in a variety of instructional situations.

These school professionals will:

- design and deliver curricula that effectively impact student learning;
- integrate technology in learning settings;
- value diversity of faculty and students in the school;
- collaborate with colleagues, parents and others;
- be reflective practitioners who continually evaluate their actions; and
- value lifelong learning and engage in professional development.

## **Master of Arts in Teaching with a concentration in Secondary Education, 5th Year Format (Grades 6-12)**

This program is intended for JMU candidates continuing from the undergraduate pre-professional secondary education program. The secondary education Master of Arts in Teaching degree is designed to enable candidates to develop a strong professional education on a foundation of undergraduate preparation in General Education, an appropriate major and introductory professional education experiences.

### **Program Mission**

The secondary education Master of Arts in Teaching degree emphasizes the preparation of effective and reflective teachers who are knowledgeable in the content they are preparing to teach and cognizant of the characteristics of adolescents, ages 12-18. The licensure areas for which individuals are prepared include English, foreign language (PreK-12), mathematics, natural sciences (biology, chemistry, earth and space science, physics), and history and social sciences (includes licensure to teach history, economics, geography and political science).

Undergraduate candidates and post-baccalaureate candidates planning to teach at the secondary level (grades 6-12) should consult with a secondary education adviser to ensure completion of the required prerequisites. Candidates should come to the departmental office in 3200 Memorial Hall to be assigned a secondary education adviser. A specific arts and sciences major or equivalent course work and experiences may be required for admission to some programs of the M.A.T. and for licensure to teach in certain disciplines and grade levels. Candidates should check with their adviser frequently to be apprised of changes in the offerings and requirements listed that may affect them.

The fifth-year licensure programs build on the extensive foundational course work and experiences candidates have completed in their undergraduate programs. Candidates will have completed the prescribed course work to develop the knowledge, skills, attitudes and behaviors needed for successful completion of the M.A.T.

Candidates interested in the requirements for the M.A.T. program in physical and health education (PreK-12) should refer to the description for that program in the Department of Kinesiology.

The secondary education Master of Arts in Teaching prepares individuals for initial licensure to teach students of grades 6 through 12, in all the fields listed below except foreign language. Foreign language licensure is grades PreK-12.

### **Degree Requirements**

Although individual candidate's programs of study will vary depending upon major and licensure area, the following represents the breakdown of the required credits in a typical program of study.

The program of study for secondary education is as follows.

### **Undergraduate Requirements**

Undergraduate candidates in the secondary education pre-professional program must complete an arts and sciences major or the equivalent in a specific discipline related to the teacher licensure area of intent. Majors related to approved licensure areas at JMU include biology, chemistry, English, foreign languages, geology, history or political science, mathematics and physics. Candidates with majors in history or political science must also complete course work in the interdisciplinary social science minor. Students must receive grades of "C-" or better in all academic major content courses and secondary education pre-professional course work.

### **Secondary Education Master of Arts in Teaching Undergraduate Program of Study**

<b>Undergraduate Prerequisites</b>	<b>Credit Hours</b>
General Education	41-44
Major field of study	36-60
Undergraduate pre-professional studies	22-24
	99-128

Minimum requirement is 120 credit hours.

### Secondary Education Master of Arts in Teaching Degree Requirements

Undergraduate Prerequisites – Second Year	Credit Hours
GPSYC 160. Life Span Human Development	3
MSSE 101. Introduction to the Profession (optional)	2
EDUC 360. Foundations of American Education	3

---

6-8

Undergraduate Prerequisites – Third and Fourth Years	Credit Hours
EDUC 310. Teaching in a Diverse Society	3
MSSE 370. General Instructional Methods for Grades 6-12	3
MSSE 371. Clinical Experience in Adolescent Education (EDUC 310, MSSE 370, and MSSE 371 are corequisites)	1
MSSE 470. Content Methods for the Middle School	3
MSSE 471. Field Experience in the Middle School	3
READ 440. Literacy-Based Learning in Secondary Education (MSSE 470, MSSE 471 and READ 440 are corequisites)	3

---

16

Graduate Course Requirements	Credit Hours
EDUC 540. Educational Technology	3
EXED 512. Behavior Management in the Classroom	3
EXED 520. Differentiation of Instruction and Academic Collaboration	3
MSSE 570. Content Methods Course for High School	3
MSSE 571. Content Area Field Experience in High School (MSSE 570 and MSSE 571 are corequisites)	3
MSSE 607. Middle and Secondary School Curriculum and Co-curriculum	3
MSSE 625. Assessment in Secondary Education	3
MSSE 630. Inquiry in the Classroom	3
MSSE 650. Internship Seminar	3
MSSE 675. Internship in Middle and Secondary Education 1 (MSSE 650 and MSSE 675 are corequisites)	8

---

35

1 Candidates pursuing a Foreign Language teaching license take EDUC 675M and EDUC 675S, Internship in Foreign Language.

### The Post-Baccalaureate Entry Option

This program is for candidates who hold a bachelor's and/or master's degree in an appropriate academic content area and wish to be licensed to teach in that area.

### Additional Admission Criteria

Candidates admitted to this program of study are expected to have completed an arts and sciences undergraduate major from an accredited college or university with a 2.7 grade-point average or above (on a 4.0 scale). Candidates are required to provide transcript evidence that they have completed liberal studies and specialty area courses comparable in content and total hours to those expected of an undergraduate major. Those applicants not having such

course work will be required to complete any specifically required undergraduate-level general education and/or subject matter content courses under terms of provisional admission to graduate study as a degree-seeking candidate.

Candidates must also apply for and be admitted to teacher education at JMU. Candidates must initiate their application by contacting the Education Support Center. Criteria for admission are described in the undergraduate catalog, available online at <http://www.jmu.edu/catalog/>. Candidates must also take the GREs and meet all requirements of admission to graduate school. Candidates must also submit passing Praxis II scores to the Education Support Center prior to enrolling in MAT graduate course work.

### **M.Ed. in Education with a Concentration in Secondary Education (6-12)**

This program is for candidates who hold a bachelor's degree in an approved academic subject area, are licensed to teach and wish to pursue advanced study in secondary education. This is not a licensure program. Candidates must already hold or meet eligibility requirements for a teacher license to pursue this degree.

The M.Ed. program in secondary education is not accepting new students at this time.

## **Master of Education in Mathematics Degree**

For information on the Master of Education in mathematics, see Page 143.

## **Graduation**

All requirements for the degree must be completed by the course work completion deadline in the semester in which the degree is conferred to receive a diploma dated the day of graduation. Applications for graduation should be completed early in the term in which the candidate plans to graduate. Candidates who will satisfy all degree requirements in the summer may participate in the spring commencement ceremony if they have completed an Application for Graduation form signed by their adviser and program coordinator, and they must be pre-registered for summer classes prior to the May commencement ceremony. Candidates must be enrolled during the semester in which the degree is to be conferred. It should be noted that applicants actually graduate and receive their degrees only when all requirements are satisfied. Candidates who do not satisfy all requirements for graduation will be notified of deficiencies and must re-apply for a later graduation date.

## **Course Offerings**

### **Mathematics Education**

#### **MAED 501. Special Topics in Mathematics Education. 1-3 credits.**

Designed to allow students to explore selected topics in mathematics education.

#### **MAED 600. Seminar in Mathematics Education. 3 credits.**

This survey course is designed to familiarize teachers with current research topics related to mathematics teaching and learning. Research topics include teacher professional development, mathematical reasoning (e.g., algebraic, geometric, multiplicative, proportional, arithmetical); implementation of standards-based curriculum, assessment of student learning, the role of representations, teaching for problem solving and theories that frame research.

#### **MAED 610. Curricular Trends in Mathematics Teaching and Learning. 3 credits.**

This course offers opportunities for teachers to explore curricular goals and implementations for various mathematical topics addressed in middle and secondary mathematics classrooms. Teachers will consider different curricula and how those curricula might be implemented to effectively support student learning. Mathematics topics addressed include algebra, proportional reasoning, geometry and advanced mathematics.

#### **MAED 620. Teaching Mathematics with Technology. 3 credits.**

This course offers opportunities for teachers to explore research-based applications of technology tools in secondary and middle school mathematics. Teachers will engage in advanced use of various technology tools for learning and teaching mathematics, including designing technology environments, appropriate investigation tasks, and professional developmental activities.

#### **MAED 626. Advanced Mathematics Instruction For K-8. 3 credits.**

This course will prepare teachers to engage in student-centered mathematics instruction in grades K-8. Instruction will focus on number and operations, algebra, geometry, measurement, data analysis, and probability. The Principles and Standards for School Mathematics will provide foundational ideas for the topics in the course, including the use of the five process standards and the use of technology in the teaching and learning of mathematics. Prerequisites: MATH 502.

**MAED 627. Assessment of Learners (Leadership I). 3 credits.**

This course is designed to help teachers create, implement, and evaluate both formal and informal assessment techniques. Teachers will construct instruments ranging from formative learning checks to summative tests and projects and the corresponding rubrics for evaluation purposes. Teachers will also learn to analyze assessment results in order to gauge student understanding and knowledge, and to use this information to modify instruction accordingly. Prerequisites: MATH 502 and MAED 626.

**MAED 628. Diverse Learners in The Mathematics Classroom. 3 credits.**

This course is designed to help teachers understand the learning characteristics of struggling and diverse learners in mathematics classrooms and to use the research-based instructional strategies which target these learning characteristics. The focus of the course will be learning to work effectively with students with learning disabilities in mathematics as well as English language learners. Prerequisites: MATH 502, MATH 503, MAED 626 and MAED 627.

**MAED 629. Professional Development of Adult Learners (Leadership II). 3 credits.**

This course is designed to help teachers build those skills, understandings and dispositions required to play optimal mathematics education leadership roles in elementary/middle schools. In particular, this course will help mathematics specialists create, implement, and evaluate a variety of professional development experiences for classroom teachers. Prerequisites: MATH 502, MATH 503, MATH 504, MATH 505, MAED 626, MAED 627, and MAED 628.

**MAED 630. Research in Mathematics Education (Leadership III). 3 credits.**

This course is designed to familiarize teachers with the body of research related to selected topics in mathematics education and will help teachers further their understanding of the relationships between research and practice. Teachers will use this course to begin to develop ideas for a final project for the program. Prerequisites: MATH 502, MATH 503, MATH 504, MATH 505, MAED 626, MAED 627, MAED 628, and MAED 629.

**MAED 631. Externship in Education I. 3 credits.**

This course is designed to support teachers in developing a final project for the mathematics specialists program. Projects should be developed in conjunction with the teacher's school or school division and should help prepare teachers for the role of a mathematics specialists in an elementary/middle school setting. Prerequisites: MATH 502, MATH 503, MATH 504, MATH 505, MAED 626, MAED 627, MAED 628, MAED 629, and MAED 630.

**MAED 632. Externship in Education II. 3 credits.****Mathematics****MATH 502. Numbers and Operations for K-8. 3 credits.**

This course will explore topics important to the mathematical experiences of students in K-8 classrooms including addition, subtraction, multiplication, division, place value, and properties of whole numbers. Relevant connections to the history of mathematics will also be included.

**MATH 503. Algebra and Functions for K-8. 3 credits.**

The course is designed to develop an understanding of topics from algebra: variables, patterns, and functions; modeling and interpreting graphs; linear and non-linear functions, connecting these ideas to underlying concepts in primary and middle grades mathematics. Attention will be given to interpreting and assessing students' work and learning. Relevant connections to the history of mathematics will also be included. Prerequisites: MATH 502, MAED 626, MAED 627.

**MATH 504. Rational Numbers for K-8. 3 credits.**

This course is designed to help participants develop understanding in: theoretical development of math and students' learning of math within content strands of rational numbers and proportional reasoning; development of pedagogical knowledge of rational numbers and proportional reasoning appropriate for K-8 Mathematics Teacher Specialists; and assessment of K-8 students' mathematical conceptions through interviews. Relevant connections to the history of mathematics will also be included. Prerequisites: MATH 502, MATH 503, MAED 626, MAED 627, MAED 628, MAED 629.

**MATH 505. Probability and Statistics for K-8. 3 credits.**

The course will develop students' understanding of probabilistic structures, reasoning, data analysis and exploration. These structures will be related to real world problem solving. Attention will also be given to children's thinking, how they learn this basic mathematics, their problem solving strategies, and how they construct their understanding of our number system and arithmetic. Relevant connections to the history of mathematics will also be included.

Prerequisites: MATH 502, MATH 503, MATH 504, MAED 626, MAED 627, MAED 628, MAED 629.

**MATH 506. Geometry for K-8. 3 credits.**

Explorations of foundations of informal measurement and geometry in one, two, and three dimensions. The van Hiele model for geometric learning is used as a framework for how children understand measurement and geometric relationships. Visualization, spatial reasoning, and geometric modeling are stressed. Transformational geometry, congruence, similarity, and geometric constructions will be discussed and relevant connections to history of mathematics will be included. Prerequisites: MATH 502, MATH 503, MATH 504, MATH 505, MAED 626, MAED 627, MAED 628, MAED 629, MAED 630 and MAED 631.

**MATH 510. Analysis for Teachers. 3 credits.**

A course to update and broaden secondary teachers' capability and point-of-view with respect to topics in analysis. Applications of concepts such as limits, continuity, differentiation and integration. May be taken for graduate credit and for certificate renewal by secondary school teachers. Prerequisite: Undergraduate analysis or permission of instructor.

**MATH 512. Discrete Mathematics for Teachers. 3 credits.**

A course to update and broaden secondary teachers' capability and point-of-view with respect to topics in discrete mathematics. May be taken for graduate credit for certificate renewal by secondary school teachers. Prerequisite: Undergraduate mathematics through linear algebra.

**MATH 514. Algebra for Teachers. 3 credits.**

From an advanced viewpoint, an investigation of topics in algebra from high school curriculum. Theory of equations, polynomial rings, rational functions and elementary number theory. Course may be taken for graduate credit and for certificate renewal by secondary school teachers. Prerequisite: Undergraduate algebra or permission of instructor.

**MATH 520. Geometry for Teachers. 3 credits.**

Topics in geometry of concern to secondary teachers in their work and provision for background and enrichment. Various approaches to study of geometry, including vector geometry, transformational geometry and axiomatics. Course may be taken for graduate credit and for certificate renewal by secondary teachers. Prerequisite: Undergraduate mathematics through linear algebra or undergraduate geometry.

**MATH 615. History of Mathematics. 3 credits.**

Topics in the history of mathematics of particular concern to secondary teachers in their work and provision for background and enrichment. Selected topics spanning ancient times to the present. Course may be taken for graduate credit and for certificate renewal by secondary teachers.

**MATH 618. Probability and Statistics for Teachers II. 3 credits.**

A course to update and broaden secondary teacher's capability and point-of-view with respect to selected topics in statistics and to prepare teachers to teach AP statistics. Course may be taken for graduate credit and for certificate renewal by secondary school teachers. Prerequisite: MATH 517.

**MATH 685. Selected Topics II. 3 credits.**

An in-depth study of selected topics not otherwise covered in the regular offerings of the department. May be repeated for credit when course content changes.

**Middle Education****MIED 501. Workshop in Middle Education. 1-3 credits.**

Designed to provide students with workshop experiences related to current needs evident in middle education. The topics considered will be determined by interest and demand. No more than six credit hours earned in workshops in education can be applied to a major program.

**MIED 530. Teaching Mathematics in the Elementary and Middle Grades. 3 credits.**

Individual and group study of content, methodology and instructional materials necessary to the design and implementation of instructional programs in modern mathematics. Attention is given to differentiation of instruction in terms of learning ability.

**MIED 610. Collaborative Leadership in Schools. 3 credits.**

Designed to provide students with research, theories and practices regarding teacher leadership and collaboration in school contexts and methods for addressing school-based improvement efforts and processes. Specific attention is given to collaboration and leadership toward community involvement and communication in middle schools.

**MIED 620. Assessment in Middle Education. 3 credits.**

The course is designed to help teacher education candidates develop competencies for designing and utilizing effective assessment strategies for determining student performance and progress in a variety of instructional situations and for making a range of instructional decisions, including how to integrate the curriculum to best serve middle school students' needs. Prerequisites: MSSE 370, and admission to the M.A.T. program in Middle Education.

**MIED 656. Seminar in Middle Education. 3 credits.**

An intensive study of selected problems in middle education. Research findings are reviewed and educational theory is explored.

**MIED 680. Reading and Research. 3 credits.**

Directed reading and research in areas of student interest. Reading and research may be done only in the major field of study. A plan for study must be submitted in prescribed form and approved prior to registration for the course. Prerequisites: Written permission of adviser and program coordinator.

**Middle and Secondary Education****MSSE 570 (E, H, M, or S) Content Methods Course for High School. 3 credits.**

Research findings about teaching in the content area will be used to identify the most effective instructional strategies for teaching that content to students in grades 9-12. Emphasis will be on developing plans for employing the strategies and making appropriate instructional decisions based on instructional goals, the learner and available resources. Prerequisites: MSSE 470, MSSE 471, READ 440, admission to teacher education, and admission to the M.A.T. program. Corequisite: MSSE 571.

**E. English Teaching Methods, Grades 9-12. 3 credits.****H. Social Studies Teaching Methods, Grades 9-12. 3 credits.****M. Mathematics Teaching Methods, Grades 9-12. 3 credits.****S. Natural Sciences Teaching Methods, Grades 9-12. 3 credits.**

MSSE 570F. Methods of Language Teaching. 3 credits.

Research findings about language teaching will be used to identify the most effective instructional strategies for teaching languages to students in grades preK-12. Emphasis will be on developing plans for employing the strategies and making appropriate instructional decisions based on instructional goals, the learner, and available resources. Prerequisites: MSSE 370, admission to Teacher Education and admission to the M.A.T. program for Fifth year M.A.T. foreign language students; ESL minors should have completed EDUC 422, EDUC 425 and EDUC 428. Corequisite: MSSE 571F for Fifth year M.A.T. foreign language students.

**MSSE 571 (E, H, M, S). Content Area Field Experience in High School. 3 credits.**

Provides practical classroom experience for teacher education candidates in the secondary education programs under the supervision of an in-service teacher and a clinical professor. Students engage in classroom activities that provide an opportunity for them to practice the strategies and concepts learned in the methods courses. Prerequisites: MSSE 470, MSSE 471, READ 440.

**E. Field experience in High School English, Practicum III. 3 credits.****H. Field Experience in High School Social Studies, Practicum III. 3 credits.****M. Field Experience in High School Mathematics, Practicum III. 3 credits.****S. Field Experience in High School Natural Science, Practicum III. 3 credits.****MSSE 571F. Field Experience in Foreign Language, Practicum III. 3 credits.**

Provides practical classroom experience in elementary, middle and high school settings to middle and secondary foreign language students under the supervision of an in-service teacher and a clinical professor. Students engage in classroom activities that provide an opportunity for them to practice the strategies and concepts learned in the methods courses.

**MSSE 607. Middle and Secondary Curriculum and Co-Curriculum. 3 credits.**

The course is designed to help prospective teachers develop the knowledge, skills and dispositions necessary for their role in curriculum development and delivery in a diverse school and classroom environment. Prerequisites: MSSE 370, admission to teacher education, and admission to the M.A.T. program.

**MSSE 625. Assessment in Secondary Education. 3 credits.**

This course is designed to prepare prospective teachers to create and evaluate both formal and informal assessment strategies. Candidates will construct instruments ranging from formative learning checks to summative tests and projects/rubrics. Candidates will also learn to analyze assessment results in order to gauge student progress and adjust instruction appropriately. Prerequisites:

MSSE 370, Admission to Teacher Education and the M.A.T. program.

**MSSE 630. Inquiry in the Classroom. 3 credits.**

Skills, methods, insights and understandings which will enable the beginning teacher to become an intelligent and critical consumer of educational inquiry and a productive participant in the process of classroom-based inquiry.

Prerequisites: Admission to teacher education and the M.A.T. program.

**MSSE 631. Inquiry Seminar. 1 credit.**

The course is designed to provide technical support and feedback for prospective teachers to successfully complete a classroom based inquiry project during their student teaching experience. Students will be graded on an S/U basis.

Prerequisites: MSSE 630, admission to the M.A.T. program, and admission to student teaching.

**MSSE 650. Internship Seminar. 3 credits.**

A seminar designed to promote reflective decision making among teacher candidates during their internship experience. During seminar sessions teacher candidates will engage in case analysis and Teacher Work Sample development. Corequisite: MSSE 690 for middle education students or MSSE 675 for secondary education students.

**MSSE 675. Internship in Middle and Secondary Education. 4 credits.**

Participants will experience the full range of conditions and tasks expected of a teacher for students in grades 6-12.

They will be expected to develop and demonstrate competencies in teaching with the supervision and support of experienced teachers. Students must register for two eight-week blocks during the same semester for a total of eight credits. Students will receive a grade of "S" for satisfactory performance or "U" for unsatisfactory performance.

Corequisite: MSSE 650.

**MSSE 680. Applied Research in Middle and Secondary Education. 3 credits.**

Provides students with the resources, skills, and knowledge required to conduct an individualized classroom-based inquiry project as a capstone activity in the M.A. T. program. Prerequisite: MSSE 630.

**MSSE 690. Internship in Middle Education. 4 credits.**

Participants will experience the full range of conditions and tasks expected of a teacher for students in grades 6-8.

They will be expected to develop and demonstrate competencies in teaching with the supervision and support of experienced teachers. Students must register for two eight-week blocks during the same semester for a total of eight credits. Students will receive a grade of "S" for satisfactory performance or "U" for unsatisfactory performance.

Intended for middle education minors. Corequisite: MSSE 650.

**Secondary Education****SEED 600. Secondary Education in America: Past, Present and Future. 3 credits.**

The changing face of the American secondary school will be studied and attention will be given to many of the philosophical, social, cultural, demographic and other factors impacting those changes. Emphasis will be placed on problems, current trends and future perspectives.

Prerequisite: EDUC 620.

**SEED 660. Instructional Development in the Secondary School. 3 credits.**

Effective teaching techniques and innovative forms of organization and instruction in secondary education will be studied. Emphasis will be on teaching strategies and behaviors and materials selection for serving secondary school students. Prerequisite: An instructional methods course.

**SEED 680. Reading and Research. 1-3 credits.**

Opportunities for directed reading and research in secondary English, foreign language, mathematics, science and/or social studies. Prerequisites: EDUC 630 or equivalent and written permission of the adviser and program coordinator.

# Music

## School of Music

Phone: (540) 568-6719  
<http://www.jmu.edu/music>

### Director

Dr. Jeffrey Showell

### Graduate Coordinator

Dr. Mary Jean Speare

### Professors

S. Bolstad, D. Cottrell, C. Dotas, J. Hilliard, J. Little, R. McCashin, C. W. Rice, G. Ritcher, E. Ruple, J. Showell, K. Stees

### Associate Professors

S. Barber, B. Chandler, B. Cockburn, A. Connell, G. Dobner, C. Donakowski, J. Gibson, J. Haney, W. Huang, M. Kirkdorffer, A. Lankford, D. Maddison, J. Minor, D. Pope, D. Rierison, M.J. Speare, C. Stevens

### Assistant Professors

P. Aponte, A. Azikiwe, C. Carrillo, V. Curry, W. Dabback, R. Hallahan, L. Maynard, K. McMillan, L. Piitz, P. Steinberg, J. Taylor, J. van der Vat-Chromy, P. Walders, R. Wheaton, Ian Zook

### Instructors

S. Ridders, D. Stringham

---

## Mission Statement

The School of Music mentors students in a community that supports and promotes music and musicians. Specifically, the school's mission is to:

- Select undergraduate and graduate majors and minors who have demonstrated a commitment to developing their musical skills and talents.
- Motivate music enthusiasts to explore musical concepts by exposing them to and including them in music performance, composition and education.
- Foster a sense of community that encourages intellectual curiosity, creative endeavor, cultural diversity and respect for various perspectives.
- Encourage excellence from faculty members as educators, researchers, performers, clinicians and supporters so that they develop students into motivated, competent professionals and outstanding world citizens.
- Provide music majors and non-music majors with knowledge of music and develop appropriate skill levels and musicianship.
- Offer curricula that prepare students to be professionals in music performance, composition, education or industry.
- Broaden students' understanding of music through innovative teaching, creative experiences and scholarly research.
- Provide a wide variety of cultural events for the JMU and Shenandoah Valley communities.
- Expose students to current technology employed in the music field, such as computers, music instruction software, electronic devices and advanced audio and visual equipment.
- Prepare D.M.A. students to teach, at the college level, not just in their principal areas, but also in many of the core curriculum classes, such as theory, music history, and music appreciation.

The School of Music is an accredited institutional member of the National Association of Schools of Music.

## Objectives

The nine major degree concentrations are each designed to establish a set of skills and a knowledge base necessary for success as a practitioner in specific career areas in the broad field of music. These objectives are achieved through School of Music classes.

- Through core music classes, to attain a general level of functional musicianship sufficient to begin and sustain a professional career in the music field.

- To gain awareness and basic competency in composition and analysis of the standard forms and styles of western music.
- To gain a broad historical perspective on the development of the forms and styles of western music, as well as diverse world musics. To develop a knowledge base enabling the placement of music within stylistic and chronological eras through cues that can be aurally identified.
- To develop a minimal ability to use a piano keyboard in the study, analysis and performance of music.
- To learn and practice the basic skills of conducting a musical ensemble and leading a rehearsal.
- Through attendance at musical performances, to gain awareness and acceptance of a broad variety of music, as well as of the traditional practices of concert musicians through listening to and watching others perform.
- Through specialized classes in each concentration, music students will attain skills and attitudes necessary for the establishment and maintenance of a career as a professional musician.
- Students in all concentrations will take weekly lessons in a primary instrument until they have mastered the skills of performing that instrument sufficiently well to pass the graduation level for the specific concentration and to successfully complete a senior recital in performance or composition.
- Students in all concentrations will perform regularly in both solo and ensemble situations, allowing them to gain a variety of professional-level performing experiences. At least one ensemble per semester is required of all music students until they have completed all the major requirements for the B.M. degree.
- Students in all concentrations will take specialized classes at the upper levels to learn the skills and more concentrated knowledge bases of the individual concentration areas. These classes may be aimed at developing a broad survey knowledge of music literature or history in a particular segment of the repertoire, or at the discovery and development of skills needed in the field but not necessarily to be mastered through individual practice and performance.
- In some major concentrations, internships are required that put the student into the work world in a supervised off-campus learning activity designed to give practical workplace experience in the field.

## Master of Music

### Admission Criteria and Degree Requirements

A student entering a graduate degree program in music is expected to have completed an undergraduate degree with a major in music or its equivalent and have a grade point average of 3.0 or better in music studies.

In addition to The Graduate School requirements (including successful completion of the GRE General Exam), the School of Music administers its own diagnostic examinations in written theory, ear training and music literature prior to the student's first semester. The school also requires successful completion of any deficiencies by the time 18 credit hours of study have been completed.

In addition to these general requirements, conducting majors must pass examinations in conducting, and those in choral conducting must pass tests in sight singing, keyboard skills and language diction. The faculty/student ratio also allows for a close relationship and provides the opportunity for individualized instruction in many areas.

The School of Music offers a Master of Music degree with concentration options in conducting, music education, performance and composition. The program seeks to provide an opportunity for the highest level of musical development and professional training for each student, appropriate for careers in teaching, performance and composition of music. Conducting majors will undertake a comprehensive study of the literature of their medium, develop advanced insights into the musical ideas and structure of the major works, and refine their conducting and rehearsal skills.

Performance majors will specialize in activities that develop the technical mastery and musical maturity essential to the art of making music involving their chosen instrument or voice. Student composers will immerse themselves in the techniques and aesthetics of musical creation and will become aware, through intensive examination, of the music and musical thought of all style periods, especially that of the present and immediate past. Music education students will examine the foundations and principles underlying the practices of their profession and will develop both scholarly and technical abilities essential to a continuing development as effective teachers and leaders.

All concentrations in the Master of Music degree program must complete a minimum requirement of 30-32 hours of graduate credit (30 for the music education concentration, 32 for other concentrations). In addition to opportunities to broaden and improve skills through music electives, music education majors have the option to pursue courses selected from programs in elementary, secondary or higher education. Graduate students who major in non-music programs may elect the graduate music minor, earning a minimum of 12 hours of graduate credit in courses approved by the music school's coordinator of graduate studies.

As per JMU graduate school requirements, successful completion of the Master of Music degree includes an oral comprehensive examination to be arranged at a date convenient for the master's candidate, adviser and comprehensive committee.

Students electing to minor in music are expected to have completed an undergraduate minor in music or must demonstrate acceptable competencies or skills appropriate to an undergraduate minor at JMU.

Post-baccalaureate, post-master's and other qualified students may enroll in certain courses on a limited basis. For details concerning requirements and deadlines, contact the coordinator of graduate studies for the School of Music.

## Assistantships

Teaching and non-teaching graduate assistantships in music are awarded each year on a competitive basis. Specific assignments in applied music, ensembles, music education, theory and literature, accompanying, and administration are based on students' qualifications and the School of Music's needs. In addition to an attractive stipend, all assistantships include tuition scholarship for nine graduate credit hours during each fall and spring semester. For more detailed information, procedures for application and deadlines, contact the coordinator of graduate studies for the School of Music.

## Master of Music Curriculum

The courses in each Master of Music degree concentration are to be distributed among courses in the major area, cognate courses in music, approved electives and a significant major project. Concentration projects are

- **Conducting** – a lecture recital
- **Music education** – a thesis, document or research project in MUED 691
- **Performance** – a recital or lecture recital
- **Composition** – a composition project

All entering students who apply for admission to the Master of Music degree program are required to complete a core curriculum comprised of 10-11 credits which will serve as a basis for designing their programs of study. The core curriculum is composed of the following: MUS 600, Research Methods (three credits); specified music history and literature courses; a theory course designated for the particular concentration (two-three credits); and MUAP, applied study or ensembles (two credits minimum).

All students are expected to complete the core curriculum at the earliest opportunity, in a sequence approved by their adviser.

Prior to the end of the first semester, or after completion of nine hours of credit in the Master of Music program, students will submit a program of study form to the graduate coordinator upon approval by their adviser.

At least one-third of the required credits in a program must be earned in the area of concentration. At least one-half (15-16 credits) of the required total credits must include courses from the 600 level and above. No more than six credits in workshops (501) may be used to meet minimum requirements for the degree.

## Concentrations

### Composition Concentration Requirements

Minimum Requirements	Credit Hours
MUS 600. Research Methods	3
MUS 701. Analytical Techniques I	3
MUS 551, MUS 552, MUS 651 or MUS 652. Music Composition	6
MUS 750, MUS 752, MUS 754 or MUS 756. Graduate Seminar	6
MUAP courses. Applied Studies and/or Ensemble	2
MUS 697. Composition Final Project and Recital	
Electives in music literature, performance, pedagogy, theory and additional composition	9

---

32

## Conducting Concentration Requirements

Minimum Requirements	Credit Hours
MUS 600. Research Methods	3
MUS 701. Analytical Techniques I	3
MUS 750, MUS 752, MUS 754 or MUS 756. Graduate Seminar	3
Music Literature	9
Choral track <sup>1</sup>	
MUS 556 and MUS 557. Choral Literature	
MUS 750, MUS 752, MUS 754 or MUS 756. Graduate Seminar (additional)	
Wind track <sup>2</sup>	
MUS 548. History and Literature of Wind Performance	
MUS 564. Symphonic Literature	
MUS 750, MUS 752, MUS 754 or MUS 756. Graduate Seminar (additional)	
Orchestral track <sup>2</sup>	
MUS 564. Symphonic Literature	
MUS 750, MUS 752, MUS 754 or MUS 756. Graduate Seminar (additional)	
MUAP 610. Applied Conducting <sup>3</sup> (three credits each term)	6
A minimum of six credits are to be earned in one of the courses below; any of the other courses may be taken as electives:	
MUAP 610A. Choral Conducting	
MUAP 610B. Orchestral Conducting	
MUAP 610C. Wind Conducting	
MUAP 696. Lecture Recital	2
Approved electives, 500-700 level	6
<hr/>	
	32

<sup>1</sup> Admission to the choral conducting concentration requires, in addition to the School of Music requirements in ear training, written theory and music history, successful completion of entrance examinations in conducting, keyboard skills, sight-singing, and French, Latin, German and Italian diction. Undergraduate or graduate credit in a course in vocal pedagogy must be presented for graduation.

<sup>2</sup> Admission to the instrumental concentration requires, in addition to the School of music requirements in ear training, written theory and music history, successful completion of entrance examinations in conducting, keyboard skills and orchestration.

<sup>3</sup> Lab in ensemble will be required each semester of enrollment in applied conducting.

### Music Education Concentration Requirements

Minimum Requirements	Credit Hours
MUS 548, 556, 557, 562, 563, 564, 578, 579, 750, 752, 754. or MUS 756. Music Literature	3
MUS 600. Research Methods	3
MUED 670. Principles and Practices in Music Education	3
MUED 671. Research in Music Education	2
Choose one of the following:	6
MUED 680 (3 credits) and Music education elective courses (3 credits) <sup>1</sup>	
MUED 700. Thesis (6 credits)	
Music courses (MUS) Theory, Arranging, Counterpoint, Analytical Studies in Music Literature or Music Theory Practices	2-3
Applied music study (MUAP) (may include two credit ensembles)	4
Approved electives <sup>1, 2</sup>	6-7

---

30

1 MUED 660 and 661 are strongly recommended as electives for students pursuing the degree during the summer.

2 A student may choose an option in elementary, secondary or higher education (eight credits) or may select approved courses in music, music education or applied music, and/or courses from the respective education minors.

### Performance Concentration Requirements <sup>1</sup>

Minimum Requirements	Credit Hours
MUS 600. Research Methods	3
MUS 701. Analytical Techniques I	3
MUS 750, MUS 752, MUS 754 or MUS 756. Graduate Seminar	6
MUAP 500 level. Ensembles <sup>2</sup>	2-4
MUAP 600 level. Applied major <sup>2</sup>	6-9
MUAP 695 or MUAP 696. Recital or Lecture Recital <sup>2</sup>	1-2
Music electives in theory, literature and pedagogy	3
Approved electives, 500-700 level	3-6

---

32

1 Voice majors must exhibit competence in French, German and Italian diction. Eight credits each of two languages (equivalent to the 101-102 level at JMU) are expected. Voice majors are also required to have completed at least one course in vocal pedagogy for graduation; courses taken at the undergraduate level may meet this requirement.

2 Minimum of 11 credits in the applied major, ensemble and recital credits.

## Music Minor

Minimum Requirements	Credit Hours
MUS courses	3
MUED 600-level Music Education courses	3
Electives	6
Music (MUS), Music Education (MUED) and Applied music (MUAP) courses	
Workshop courses, 501 and independent studies 680, 690 and 691 not to exceed a total of three credit hours applicable to the minor.	
Applied Music (MUAP) courses, lessons and/or ensembles, not to exceed three credits.	

12

## Doctor of Musical Arts

The Doctor of Musical Arts (D.M.A.) degree program is the most advanced course of study offered in the School of Music at James Madison University. The program has been designed to make graduates more marketable in higher education by emphasizing pedagogy and literature along with advanced performance or conducting skills. The program seeks candidates who have the potential to pursue the highest level of achievement in conducting/performance and teaching.

The degree requires completion of a minimum of ninety (90) credit hours, including 24 hours of Applied Instruction; 22 hours of Literature, Analysis, and Topical Seminars; 18 hours of Recitals, Documents, and Research Methods; 6 hours of Pedagogy and 20 hours of area-specific courses.

During the degree program, exceptionally qualified students may earn up to 30 credit hours by examination and/or transfer. After completion of all course work and three recitals, D.M.A. students must pass comprehensive written and oral examinations.

### Doctor of Musical Arts Admissions Requirements

- The Graduate School Application, available online
- D.M.A. Program Application (part of the graduate school application)
- Official transcripts of all undergraduate and graduate course work
- GRE test scores
- Written statement of future goals (professional and educational)
- Curriculum vita (C.V.)
- Three current letters of recommendation from professors, employers, and other professionals qualified to judge the applicant's ability to complete doctoral studies
- A live audition (or a high-quality audio/video recording for conditional admission)

### Additional Requirements for International Applicants

- TOEFL of at least 550\* (written test)
- A financial statement prior to application
- See the Office of International Programs Web site for other requirements and information for international students

### Assistantships

Financial Aid is administered by the Office of Financial Aid and Scholarships in Warren Hall. The chief source of aid for graduate study is through assistantships awarded by the school. Teaching assistantships are awarded each year on a competitive basis. In keeping with the pedagogical nature of the D.M.A. degree at James Madison University, all doctoral assistantships will include a variety of supervised teaching experiences; assisting professors in classes and/or being responsible for teaching a class, teaching applied lessons (for performers), and conducting ensembles (for conductors). In addition to a stipend, assistantships include a tuition award. Approximately seven doctoral teaching assistantships per year will be offered on a competitive basis.

### Entrance Examinations

Prior to the first week of classes, all applicants must take JMU School of Music diagnostic examinations in music history, written theory and ear training. The results are used for placement and advising. Applicants for assistantships in areas related directly to these examinations may be required to take them before assistantships are granted.

### Curriculum

Core Requirements	Credit Hours
MUAP. Applied Instruction	24
MUS 600. Research Methods	3
MUPED 704 and MUPED 705. Music Pedagogy in Higher Education I and II	6
MUS 701 and MUS 702. Analytical Techniques I and II	6
MUS 750, MUS 752, MUS 754 or MUS 756. Graduate Seminar (choose three)	9
MUS 751, MUS 753, MUS 755, MUS 757. Literature Labs	4
Approved electives in music theory or music history	3
MUS 761. Three Recitals	9
MUS 762. Lecture Recital	3
MUS 763. Doctor of Musical Arts Document	3
	70

Additional requirements, such as qualifying exams, will be in the Graduate Handbook of the School of Music.

### Concentrations

Concentrations require an additional 20 hours of course work.

### Brass Area

Requirements	Credit Hours
MUPED 760. Applied Brass Pedagogy	3
MUS 703T. Solo Brass Literature	3
MUS 758. Brass Ensemble Literature	3
MUAP 652. Brass Band	2
Approved Large Ensembles	2
Approved Electives	7
	20

### Conducting Area

Requirements	Credit Hours
MUS 707. A, B, or C. Score and Literature Survey I	3
MUS 708. A, B, or C. Score and Literature Survey II	3
MUS 730. Conductor Topics Seminar	4
MUAP 708. Doctoral Secondary Applied Conducting	2
MUS 703H, I or J. Seminar in Choral, Orchestral or Wind Literature for Conductors	2
Approved Electives	6
<hr/>	
	20

### Percussion Area

Requirements	Credit Hours
MUPED 750. Applied Percussion Pedagogy	3
MUS 703P. Solo Percussion Literature	3
MUS 704P. Percussion Ensemble Literature	2
MUS 706P. Percussion Ensemble Literature Lab <sup>1</sup>	1
MUAP 654. Percussion Ensemble	1
Approved Large Ensembles	7
Approved Electives	3
<hr/>	
	20

1 Must be taken the same semester as MUS 704P.

### Piano Area

Requirements	Credit Hours
MUPED 770, MUPED 771. Piano Pedagogy	3
MUS 703F. Seminar in Piano Literature	9
MUS 740. The German Lied for Pianists and Singers	4
MUAP 709. Graduate Piano Seminar	1
Approved Electives	3
<hr/>	
	20

### String Area

Requirements	Credit Hours
MUPED 725, MUPED 726. String Pedagogy	4
MUS 703D, MUS 703G. String Literature	6
MUAP 650. String Chamber Music Performance	2
MUAP 731. String Orchestral Excerpts	2
Approved Electives	6
To include MUPED 727, MUAP 699, additional MUAP 731	
<hr/>	
	20

## Vocal Area

Requirements	Credit Hours
MUPED 777, MUPED 778. Vocal Pedagogy	6
MUS 703A. Seminar in Solo Vocal Literature	4
MUS 703B. Opera Literature	3
Ensembles	
For students entering with a masters degree	2
1 semester choir, 1 semester opera	
For students entering without a masters degree	4
1 semester choir, 1 semester opera, 2 semesters chosen with the adviser	
Approved Electives	3-5
To include MUPED 779, MUS 740, MUAP 714	

---

20

Language Requirement: Students will be required to show competency in three languages: French, Italian and German. In two of the three languages they will be required to test into a competency of a 300-level language course at JMU and in the third language they will be required to test into a 231- level language course at JMU.

## Woodwind Area: Performance on a Solo Instrument Track

Requirements	Credit Hours
MUPED 772, MUPED 773. Woodwind Pedagogy	4
Approved Large Ensembles	8
MUAP 651. Woodwind Ensemble	4
Approved Electives	4
Residency Qualifying Recital: At the end of the first year, the student will play in a thirty minute recital for the woodwind faculty.	

---

20

## Woodwind Area: Multiple Woodwind Track

Requirements	Credit Hours
Applied instruction on a third instrument beyond the core applied instruction <sup>1</sup>	8
MUPED 672. Secondary Woodwind Instrumental Pedagogy	2
MUPED 772. Applied Woodwind Pedagogy	2
Approved Large Ensembles	8
Residency Qualifying Recital: At the end of the first year, the student will play in a thirty minute recital for the woodwind faculty.	

---

20

<sup>1</sup> This track requires 16 credits of the applied instruction in the core requirements to be on a primary instrument and 8 credits on a secondary instrument. Eight additional credits will be used in the 20 credit hours for a third instrument. It also requires two of the required recitals in the core to be on the primary instrument and the third recital to be divided between the second and third instruments (50% each).

## Course Offerings

### Music

#### **MUS 520. Piano Technology.** 1-2 credits.

The acoustical and mechanical design and history of the piano theory of tuning and temperaments; advanced procedures and techniques of regulating and voicing pianos. Additional hour of credit for tuning lab.

#### **MUS 540. Jazz Improvisation Laboratory II.** 1 credit.

Presents intermediate to advanced improvisation skills in the jazz idiom alone for graduate music majors. Emphasis is on the theoretical analysis of chord progression as well as creative musical application. a research paper dealing with advanced musical improvisation concepts is required. Prerequisite: Permission of instructor.

#### **MUS 541. Vocal Arranging.** 2 credits.

Students explore the art of arranging songs for solo and choral groups with or without accompaniment. Multiple styles and choral ensemble types are included. Those enrolled in 541 are responsible for rehearsing and leading performances sung by the class and university ensembles.

#### **MUS 542. Instrumental Arranging.** 2 credits.

Arranging for various instrumental ensembles, including techniques of orchestration. Class projects include orchestrating excerpts for brass, woodwind and string ensembles, and a complete arrangement for full wind ensemble or symphony orchestra.

#### **MUS 543-544. Counterpoint.** 2 credits each semester.

Modal and tonal counterpoint. Two, three and four voice forms, florid counterpoint. Study of imitative techniques and form analysis. Prerequisite: MUS 242 or equivalent.

#### **MUS 548. History and Literature of Wind Performance.** 3 credits.

A survey of the history of literature for wind and percussion ensembles from pre-Renaissance to the present. Emphasis on 20th-century literature including works of Husa, Holst, Vaughan Williams, Grainger, Hindemith and Schwanter.

#### **MUS 551-552. Music Composition.** 2-3 credits each semester.

Composition in 20th-century styles and techniques. individualized instruction for theory-composition majors. Prerequisite: Permission of instructor. Three credit hours for theory-composition majors only.

#### **MUS 556. Choral Literature I.** 3 credits.

An advanced survey of choral literature from the pre-Renaissance through the Classical period including a cappella and accompanied works. A thorough examination will be undertaken of the parallel trends in keyboard and instrumental music through the mature works of Beethoven.

#### **MUS 557. Choral Literature II.** 3 credits.

An advanced survey of choral literature from the Romantic period through the present, including small and large form repertoire and a cappella and accompanied works. A thorough examination will be undertaken of the parallel trends in keyboard and instrumental music.

#### **MUS 560. Piano Literature I.** 2 credits.

An advanced study of Baroque and Classical literature for the piano encompassing solo and concerto repertoire from literature for clavichord, harpsichord and pianoforte through the mature works of Beethoven.

#### **MUS 564. Symphonic Literature.** 3 credits.

An advanced study of symphonic literature concentrating primarily on major composers and compositions from the Baroque Era to the present.

#### **MUS 565. Opera History and Literature.** 3 credits.

An advanced study of the history of opera ca. 1600 through the 20th century.

#### **MUS 567. Solo Vocal Literature.** 3 credits.

An advanced survey of specific areas of vocal literature to include the early English air, classic Italian art songs, the German lied, the French art song and contemporary art song.

#### **MUS 570. Piano Literature II.** 2 credits.

An advanced study of Romantic, Impressionistic and 20th-century literature for the piano, including solo and concerto repertoire, with an emphasis on stylistic trends of the 20th century.

#### **MUS 576. Music Theory Practices.** 3 credits.

Common-practice music theory with an introduction to 20th-century analysis. Current theory texts are examined.

**MUS 598. Selected Topics in Music.** 1-4 credits.

Courses in music which are of a topical nature. May be repeated.

**MUS 600. Research Methods.** 3 credits.

Research as a discipline; current trends and types of research in music. Overview of bibliographical and other resources for music study. Research in bibliography and techniques culminating in a research paper in area of concentration. Normally taken in the first year of graduate study.

**MUS 603P/703P. Solo Percussion Literature.** 3 credits.

An in-depth study of solo percussion literature. The course will cover history, style, performance traditions and other pertinent issues related to the music and composers.

**MUS 604P/704P. Percussion Ensemble Literature.** 2 credits.

An in-depth study of percussion ensemble literature. Class participants will study history, style, development, performance traditions and other pertinent issues related to the music and composers.

**MUS 606P. Percussion Ensemble Literature Lab.** 1 credit.

A laboratory study of percussion ensemble literature. the course will be taken the same semester as MUS 604P and will focus on the study of scores, the historical importance of the music and conducting the music studied.

**MUS 651-652. Music Composition.** 2-3 credits each semester.

Advanced original composition utilizing various 20th-century styles and techniques. Prerequisite: MUS 551-552. Three credit hours for theory-composition majors only.

**MUS 680. Document in Music Theory.** 3 credits.

Final research project for theory/composition majors specializing in theory, who choose three credits of course work and a smaller document rather than the thesis. Follows thesis procedures.

**MUS 690. Special Studies in Music.** 1-3 credits.

Opportunity for supervised independent study in areas of special interest to the student. May be repeated for credit.

**MUS 697. Composition Final Project and Recital.** 3 credits.

Project shall be a work for large ensemble. Instrumentation and scope to be determined in consultation with the composition instructor. in addition, students will present a recital of their original works, the majority of which must have been composed during the student's graduate course of study in the School of Music.

**MUS 698. Comprehensive Continuance.** 1 credit.

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

**MUS 699. Thesis Continuance.** 2 credits.

Continued study, research and writing in the area of thesis concentration. Course may be repeated as needed.

**MUS 700. Thesis Research.** 1-6 credits.

This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis.

**MUS 701. Analytical Techniques I.** 3 credits.

Analysis of representative works from the nineteenth and twentieth centuries. Consideration will be given to melody, rhythm, harmony, texture, and form. Prerequisite: Placement by diagnostic examination or MUS 576.

**MUS 702. Analytical Techniques II.** 3 credits.

Schenker, set theory, and other contemporary analytical systems. Prerequisite MUS 701 or permission of the instructor.

**MUS 703A. Seminar in Vocal Literature.** 2 credits.

in-depth study of selected topics related to the standard solo vocal literature. Requires research papers, bibliographies and class presentations. Topics presented on a rotating basis per semester will include German Lied, French Mélodie, Anglo-American Song and other National Schools of Singing. May be repeated for credit when the topic changes. Doctoral students are required to take two semesters. Prerequisite: Undergraduate course or equivalency examination in MUS 467.

**MUS 703B. Opera History and Literature.** 3 credits.

Opera History and Literature is a study of Western European operatic genres from the seventeenth century to the present. It will include such genres as Masque, Opera Seria, Opera Buffa, Singspiel, French Vaudeville, Ballad Opera, Grand Opera, Zarzuela and Operetta. Prerequisite: Permission of the instructor.

**MUS 703F. Seminar in Piano Literature.** 3 credits.

This seminar will be dedicated to the intensive study of a single topic related to the literature written for the piano. The

topics would change each semester, and could focus on the piano literature associated with a particular country, composer or period, or could trace the development of a specific genre, such as the sonata, concerto, suite or variation set. the seminar could also focus on a detailed study of selected masterworks of the piano repertoire. May be repeated for credit when course content changes.

**MUS 703G. String Chamber Music Literature. 3 credits.**

Study of string chamber music literature from its origins to the present.

**MUS 703H. Seminar in Choral Literature for Conductors. 2 credits.**

A one-hour per week seminar designed for in-depth score study of selected major works. The course instructor, in consultation with the student, will determine three to five compositions to be studied. Students will do an in-depth analysis of selected works, with the goal of creating an informed musical interpretation.

**MUS 703I. Seminar in Orchestral Literature for Conductors. 2 credits.**

A one-hour per week seminar designed for in-depth score study of selected major works. The course instructor, in consultation with the student, will determine three to five compositions to be studied. Students will do an in-depth analysis of selected works, with the goal of creating an informed musical interpretation.

**MUS 703J. Seminar in Wind Literature for Conductors. 2 credits.**

A one-hour per week seminar designed for in-depth score study of selected major works. The course instructor, in consultation with the student, will determine three to five compositions to be studied. Students will do an in-depth analysis of selected works, with the goal of creating an informed musical interpretation.

**MUS 703P/603P. Solo Percussion Literature. 3 credits.**

An in-depth study of solo percussion literature. The course will cover history, style, performance traditions and other pertinent issues related to the music and composers.

**MUS 703T. Solo Brass Literature. 3 credits.**

Study of brass solo literature. Emphasis upon historical perspectives, aspects of performance practice techniques, performances of representative works and score analysis. Prerequisite: Permission of the instructor.

**MUS 704P/604P. Percussion Ensemble Literature. 2 credits.**

An in-depth study of percussion ensemble literature. Class participants will study history, style, development, performance traditions and other pertinent issues related to the music and composers.

**MUS 706P. Percussion Ensemble Literature Lab. 1 credit.**

A laboratory study of percussion ensemble literature. The course will be taken the same semester as MUS 704P and will focus on the study of scores, the historical importance of the music and conducting the music studied.

**MUS 707. Score and Literature Survey I. 3 credits.**

This course has been designed to give an overview of choral, orchestral or wind literature both from an historical perspective (musical period, genre, composers, performance practice, style) and a more practical review of pieces suggested for performance at the senior high school, college and adult levels. While standard composers and works will be studied, the instructors may include lesser-known works and contemporary literature of interest. The literature will be studied by reading through scores and listening to recordings of significant works. The instructor and guest lecturers will present ideas about the pieces, successful programming and appropriate selection of literature for specific levels.

**MUS 707A. Score and Literature Survey for Choral Conductors I.**

**MUS 707B. Score and Literature Survey for Orchestral Conductors I.**

**MUS 707C. Score and Literature Survey for Wind Conductors I.**

**MUS 708. Score and Literature Survey II. 3 credits.**

This course functions as the continuation of MUS 707 A, B or C. It is designed to give an overview of choral, orchestral or wind literature both from an historical perspective (musical period, genre, composers, performance practice, style) and a more practical review of pieces suggested for performance at the senior high school, college and adult levels. While standard composers and works will be studied, the instructors may include lesser-known works and contemporary literature of interest. The literature will be studied by reading through scores and listening to recordings of significant works. The instructor and guest lecturers will present ideas about the pieces, successful programming and appropriate selection of literature for specific levels. Prerequisite: MUS 707 A, B or C.

**MUS 708A. Score and Literature Survey for Choral Conductors II.**

**MUS 708B. Score and Literature Survey for Orchestral Conductors II.**

**MUS 708C. Score and Literature Survey for Wind Conductors II.**

**MUS 730. Conductor Topics Seminar. 1 credit.**

This course has been designed to offer graduate conductors valuable perspectives, opinions, advice and discussion about various conducting topics, both musical and non-musical. Topics will include, but not be limited to: organizational skills, rehearsal techniques, gesture, programming, professional development, collaboration with other areas, pedagogy, presenting workshops and writing syllabi. The course will be taught by ensemble faculty and guest lecturers. May be repeated for credit.

**MUS 740. The German Lied for Pianists and Singers. 2 credits.**

A seminar devoted to the study and performance of the German Lied. Topics will change each time the course is offered. Enrollment limited to graduate pianists and vocalists.

**MUS 750. Graduate Seminar I. 3 credits.**

An advanced topical seminar in Early Music (to c. 1750). Topic and professor may change with each offering. Prerequisite: Placement by diagnostic examination and MUS 600 or permission of the instructor.

**MUS 751. Literature Lab I. 1 credit.**

Survey of Early Music Repertoire (to 1750). Normally taken in the same semester with Graduate Seminar I.

**MUS 752. Graduate Seminar II. 3 credits.**

An advanced topical seminar in Classical and early Romantic music. Topic and professor may change with each offering. Prerequisite: Placement by diagnostic examination and MUS 600 or permission of the instructor.

**MUS 753. Literature Lab II. 1 credit.**

Survey of Classical and Early Romantic Repertoire. Normally taken in the same semester with Graduate Seminar II.

**MUS 754. Graduate Seminar III. 3 credits.**

An advanced topical seminar in music from the late Romantic era to the present. Topic and professor may change with each offering. Prerequisite: Placement by diagnostic examination and MUS 600 or permission of the instructor.

**MUS 755. Literature Lab II. 1 credit.**

Survey of repertoire from the late romantic era to the present. Normally taken in the same semester with Graduate Seminar III.

**MUS 756. Graduate Seminar IV. 3 credits.**

An advanced topical seminar in Ethnomusicology, Popular Music and Jazz. Topic and professor may change with each offering. Prerequisite: Placement by diagnostic examination and MUS 600 or permission of the instructor.

**MUS 757. Literature Lab IV. 1 credit.**

Survey of jazz and popular repertoire as well as selected world music. Normally taken in the same semester with Graduate Seminar IV.

**MUS 758. Brass Ensemble Literature. 3 credits.**

Study of brass ensemble literature. Emphasis upon works for brass quintet and large brass ensemble, historical perspectives, aspects of performance practice techniques, performance of representative works and score analysis.

**MUS 759. Aspects of Wind Performance. 2 credits.**

topics of interest related to wind performance; may include performance anxiety, performance health, Alexander technique, and performance practices specific to the student's primary instrument of study which may include topics in baroque and classical ornamentation, jazz style and interpretation, and contemporary, extended performance techniques. Prerequisite: Permission of the instructor.

**MUS 761. Doctoral Recital. 3 credits.**

A public performance of doctoral level repertoire. Will be repeated for credit. Prerequisite: Instructor consent required.

**MUS 762. Doctor of Musical Arts Lecture Recital. 3 credits.**

A public lecture recital in which the candidate reports the results of graduate-level research in lecture format and performs music from the topic of research. Topics might be analytical, historical or pedagogical in nature. One semester prior to the lecture recital semester, the student must submit a proposal stating the nature of the research to be approved by the students advisory committee. Prerequisite: MUS 600.

**MUS 763. Doctor of Musical Arts Document. 1-3 credits. May be repeated until 3 credits are completed.**

A thesis that is an expansion of the lecture-recital research (MUS 762). Graded on a satisfactory/unsatisfactory (S/U) basis. Prerequisite: MUS 600.

## **Applied Music**

Applied music instruction is offered in conducting, piano, voice, organ, harpsichord or an orchestral instrument. Permission to register for applied music must be granted by the appropriate applied division. Students in a performance concentration are expected to continue major study each semester enrolled.

### **MUAP 510. Applied Conducting. 1-2 credits.**

(Minor study and elective.)

Applied study, with limited ensemble assignment. May be required of conducting applicants not meeting all requirements for major study. Prerequisite: Permission of instructor.

### **MUAP 511. Applied Voice. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

### **MUAP 512. Applied Piano. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

### **MUAP 514. Ensembles. 0 credits.**

Any of the MUAP 500-level ensembles may be taken under this number for 0 credits if needed and with the adviser's recommendation. Most ensembles require an audition. May be repeated.

### **MUAP 516. Applied Viola. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

### **MUAP 517. Applied Violoncello. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

### **MUAP 518. Applied String Bass. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

### **MUAP 520. Applied Flute. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

### **MUAP 521. Applied Oboe. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

### **MUAP 522. Applied Clarinet. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

### **MUAP 523. Applied Bassoon. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

### **MUAP 524. Applied Saxophone. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

### **MUAP 525. Applied Trumpet. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

### **MUAP 526. Applied Horn. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

### **MUAP 527. Applied Trombone. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

**MUAP 528. Applied Euphonium. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

**MUAP 529. Applied Tuba. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

**MUAP 530. Applied Percussion. 1-2 credits.**

Private applied study in minor area for non-degree students. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

**MUAP 535. Treble Chamber Choir. 1 credit.**

This is an advanced level chamber chorus for women and male countertenors interested in a small choral ensemble experience. Open to all majors, and auditioned at the beginning of every semester, this choir frequently performs off campus as well. Contact the director of choral activities for more information.

**MUAP 538. Concert Band. 1 credit.**

Ensembles are required in performance tracks and recommended as electives in other programs. In consultation with the adviser, students may elect this ensemble, which requires an audition. May be repeated.

**MUAP 564. Camerata Strings. 1 credit.**

Camerata Strings is a selected instrumental string ensemble that performs a broad range of string ensemble literature from the 1600s to the present. The ensemble is open to any student of the university through competitive auditions held at the start of each spring semester.

**MUAP 580/680. Collegium Musicum. 1 credit.**

The Collegium Musicum is a select vocal/instrumental ensemble dedicated to the historically-informed performance of early music (music composed before ca. 1700). Repertoire includes major works primarily of the Renaissance and early Baroque era. Membership is by audition or invitation. May be repeated for credit.

**MUAP 600-level. Applied Music. 1-3 credits.**

(Major area for Master of Music students.)

**MUAP 610. Applied Conducting. (Major study.) 3 credits.**

Limited to advanced conductors. Applied study, with assignment to one or more ensembles.

**MUAP 610A. Choral Conducting.**

See course description for MUAP 610. Entrance based on demonstration of advanced competence in conducting and meeting entrance requirements in sight-singing, keyboard skills, and French, Latin, Italian and German diction.

**MUAP 610B. Orchestral Conducting.**

See course description for MUAP 610. Entrance to major instrumental study based on demonstration of advanced competence in conducting and meeting the entrance requirements in keyboard score reading skills and orchestration.

**MUAP 610C. Wind Conducting.**

See course description for MUAP 610. Entrance to major instrumental study based on demonstration of advanced competence in conducting and meeting the entrance requirements in keyboard score reading skills and orchestration.

**MUAP 650. String Chamber Music Performance. 2 credits.**

Preparation and performance of string chamber music.

**MUAP 680/580. Collegium Musicum. 1 credit.**

The Collegium Musicum is a select vocal/instrumental ensemble dedicated to the historically-informed performance of early music (music composed before ca. 1700). Repertoire includes major works primarily of the Renaissance and early Baroque era. Membership is by audition or invitation. May be repeated for credit.

**MUAP 695. Graduate Recital. 1 credit.**

A public performance including advanced repertoire in a variety of styles. MUAP 695 or MUAP 696 is required of all students with a major in performance in the Master of Music degree program. Prerequisite: Permission of major applied division.

**MUAP 696. Graduate Lecture Recital. 2 credits.**

A public lecture/performance demonstrating knowledge of advance repertoire in a variety of styles. Recital must be

accompanied by a formal document. MUAP 695 or MUAP 696 is required of all students with a major in performance in the Master of Music degree program. MUAP 696 is required of all majors in conducting. Prerequisite: Permission of major applied division.

**MUAP 699. Applied Lessons on Secondary String Instrument. 1 credit.**

Applied lessons on a secondary string instrument. This allows string players to take applied lessons on another instrument in their category (upper or lower).

**MUAP 700. Applied Music. 1-4 credits.**

Major area for Doctor of Musical Arts students. May be repeated for credit. Prerequisite: Permission of instructor.

**MUAP 701-705. Secondary Applied Woodwind Lessons. 1-4 credits.**

One hour private lesson per week on secondary instrument. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

**MUAP 701. Doctoral Secondary Applied Flute**

**MUAP 702. Doctoral Secondary Applied Oboe**

**MUAP 703. Doctoral Secondary Applied Clarinet**

**MUAP 704. Doctoral Secondary Applied Bassoon**

**MUAP 705. Doctoral Secondary Applied Saxophone**

**MUAP 708. Doctoral Secondary Applied Conducting. 2 credits.**

Course consists of a one-hour private lesson per week in a secondary applied conducting medium. Lessons are arranged on an individual basis. DMA conducting students will be required to study and prepare repertoire in the secondary medium and may be offered opportunities to conduct in the area in rehearsal and in performance.

Prerequisite: Permission of instructor.

**MUAP 708A. Doctoral Secondary Applied Conducting – Choral**

**MUAP 708B. Doctoral Secondary Applied Conducting – Orchestral**

**MUAP 708C. Doctoral Secondary Applied Conducting – Wind Band**

**MUAP 709. Graduate Piano Seminar. 0-1 credits.**

This course is intended for all graduate piano majors. MUAP 709 will serve as a seminar for any topic related to performance, performance issues, career guidance, guest appearances, practice teaching, and preparation for public speaking and performing. Specific topics covered in MUAP 709 will change each semester, and the class is a requirement for all graduate piano majors in each semester of residence. May be taken for zero or one credit.

Prerequisite: Graduate Piano Performance major or permission of the instructor.

**MUAP 710. Doctoral Primary Applied Conducting. 4 credits.**

Course consists of a one-hour private lesson per week in the primary applied conducting medium. Lessons are arranged on an individual basis. DMA conducting students will be required to study and prepare significant levels of repertoire and will be expected to conduct a variety of ensembles both in rehearsal and in performance. Prerequisite: Permission of instructor.

**MUAP 710A. Doctoral Primary Applied Conducting – Choral**

**MUAP 710B. Doctoral Primary Applied Conducting – Orchestral**

**MUAP 710C. Doctoral Primary Applied Conducting – Wind Band**

**MUAP 711. Applied Voice. 2-4 credits.**

One hour private applied voice lesson per week. Emphasis on vocal technique through repertoire. Student is expected to practice independently outside of the lessons. Higher credit option equates to increased practice expectation accompanied by larger completion of repertoire. Prerequisite: Permission of instructor.

## **MUAP 712-730. Doctoral Applied Lessons. 1-4 credits.**

One hour private lesson per week on primary instrument. Lessons are arranged on an individual basis. May be repeated. Prerequisite: Permission of instructor.

**MUAP 712. Doctoral Applied Piano**

**MUAP 715. Doctoral Applied Violin**

**MUAP 716. Doctoral Applied Viola**

**MUAP 717. Doctoral Applied Violoncello**

**MUAP 718. Doctoral Applied String Bass**

**MUAP 720. Doctoral Applied Flute**

**MUAP 721. Doctoral Applied Oboe**

**MUAP 722. Doctoral Applied Clarinet**

**MUAP 723. Doctoral Applied Bassoon**

**MUAP 724. Doctoral Applied Saxophone**

**MUAP 725. Doctoral Applied Trumpet**

**MUAP 726. Doctoral Applied Horn**

**MUAP 727. Doctoral Applied Trombone**

**MUAP 728. Doctoral Applied Euphonium**

**MUAP 729. Doctoral Applied Tuba**

**MUAP 730. Doctoral Applied Percussion**

## **Music Ensembles**

### **MUAP 500-level Ensembles. 1 credit.**

Ensembles are required in performance tracks and recommended as electives in other programs. In consultation with the adviser, students may elect the following ensembles, most of which require an audition. May be repeated.

**MUAP 535. Chorus**

**MUAP 537. Marching Band**

**MUAP 540. Chorale**

**MUAP 541. Madison Singers**

**MUAP 543. Opera Theater (1-2 credits)**

**MUAP 544. Chamber Orchestra**

**MUAP 545. Symphony Orchestra**

**MUAP 546. Wind Symphony**

**MUAP 547. Jazz Ensemble**

**MUAP 548. Jazz Band**

**MUAP 550. String Ensemble**

**MUAP 551. Woodwind Chamber Ensemble**

**MUAP 552. Brass Band.**

**MUAP 553. Guitar Ensemble**

**MUAP 554. Percussion Ensemble**

**MUAP 556. Flute Choir**

**MUAP 557. Piano Accompanying and Ensemble**

**MUAP 559. Keyboard Performance Practicum – Organ**

### **MUAP 538. Concert Band. 1 credit.**

Ensembles are required in performance tracks and recommended as electives in other programs. In consultation with the adviser, students may elect this ensemble, which requires an audition. May be repeated.

**MUAP 564 Camerata Strings. 1 credit.**

Camerata Strings is a selected instrumental string ensemble that performs a broad range of string ensemble literature from the 1600s to the present. The ensemble is open to any student of the university through competitive auditions held at the start of each spring semester.

**MUAP 600-level Ensembles. 0-1 credits.**

In consultation with the adviser, students may elect the following ensembles, most of which require an audition. May be repeated. Any of the MUAP 600-level ensembles may be taken for 0 credits if needed and with the adviser's recommendation.

**MUAP 635. Chorus**

**MUAP 637. Marching Band**

**MUAP 638. Concert Band**

**MUAP 640. Chorale**

**MUAP 641. Madison Singers**

**MUAP 643. Opera Theater**

**MUAP 644. Chamber Orchestra**

**MUAP 645. Symphony Orchestra**

**MUAP 646. Wind Symphony**

**MUAP 647. Jazz Ensemble**

**MUAP 648. Jazz Band.**

**MUAP 651. Woodwind Chambers Ensemble**

**MUAP 652. Brass Band**

**MUAP 654. Percussion Ensemble**

**MUAP 656. Flute Choir**

**MUAP 657. Piano Accompanying and Ensemble**

**MUAP 664. Camerata Strings**

**Music Education****MUED 501. Workshops in Music Education. 1-3 credits.**

Designed to provide a variety of workshop experiences; many workshops are particularly appropriate for teachers in elementary and secondary schools. The content of each will be determined by interest and demand.

**MUED 570. Marching Band Procedures. 2 credits.**

Skills and knowledge needed to organize, administer, plan and teach marching band shows including shows for various competitions, parades, football, basketball and festival events; techniques for developing both marching and playing style through a functional method of fundamental drills.

**MUED 571. Jazz and Show Choir Procedures. 2 credits.**

Skills and concepts needed to organize, administer, plan, teach and perform in jazz or show choirs will be taught. Techniques of commercial vocal style and choreography for the show choir will be covered.

**MUED 598. Selected Topics in Music Education. 1-4 credits.**

Courses in music education which are of a topical nature. May be repeated.

**MUED 660. Introduction to Graduate Study in Music Education. 1 credit.**

This course provides an overview of the goals and guiding principles for the Master of Music with a concentration in music education. the required portfolio project will be begun in this course.

**MUED 661. The Professional Portfolio. 1 credit.**

This course provides the opportunity to draw together the strands of the Master of Music with a concentration in music education in the form of a professional portfolio and in preparation for the comprehensive exam and the thesis/document.

**MUED 670. Principles and Practices in Music Education. 3 credits.**

The foundations underlying music education programs and practices found in the history of music education, philosophy with special emphasis on aesthetics, sociology, social psychology and psychology. Practices in music education are examined from the perspective of these foundation studies.

**MUED 671. Research in Music Education. 2 credits.**

Understanding the principles and techniques of historical, descriptive, experimental and conceptual research. Planning original research. A thesis proposal is the final class requirement.

**MUED 680. Document in Music Education. 3 credits.**

Final research project for music education majors who choose three credits of course work and a smaller document, rather than the thesis. Follows thesis procedure.

**MUED 690. Special Studies in Music Education. 1-3 credits.**

Opportunity for supervised independent study in areas of special interest to the student. May be repeated for credit.

**MUED 698. Comprehensive Continuance. 1 credit.**

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

**MUED 699. Thesis Continuance. 2 credits.**

Continued study, research and writing in the area of thesis concentration. Course may be repeated as needed.

**MUED 700. Thesis Research. 1-6 credits.**

This course is graded on a satisfactory/unsatisfactory/incomplete (S/U/I) basis.

**Music Pedagogy****MUPED 573. Projects in Private Piano Pedagogy. 2 credits.**

topics of special interest to the private piano teacher: overview of current methods, materials and repertoire for teaching beginning, intermediate and advanced students; teaching techniques and strategies; preparing students for college level piano study; business procedures for maintaining a private studio; electronic and computer aids in the piano studio.

**MUPED 577. Vocal Pedagogy. 2 credits.**

An advanced survey of scientific and empirical approaches to vocal pedagogy.

**MUPED 672. Secondary Woodwind Instrumental Pedagogy. 1 credit.**

Secondary Woodwind Instrumental Pedagogy will examine selected woodwind instruments and related pedagogical materials in the Multiple Woodwind Doctor of Musical Arts concentration. Topics will include historical development, solo and instructional literature, private instructional approaches and techniques, and career development. The course may be repeated for credit.

**MUPED 704. Music Pedagogy in Higher Education I. 3 credits.**

Presents research related to learning theory, developmental characteristics of students in higher education, and instructional and motivational strategies for both classroom and individual applied instruction in music. Covers planning, assessment, professional behavior and instructional technology available at JMU. Normally taken in the first semester of study for the D.M.A.

**MUPED 705. Music Pedagogy in Higher Education II. 3 credits.**

Students apply the knowledge gained in MUS 704 and become acquainted with specific techniques and teaching resources in three areas: music theory, music history and general education. Team taught by music education faculty and specialists from each of the three areas listed. Normally taken in the first year of study for the D.M.A.  
Prerequisites: MUS 576 or equivalent, MUPED 704.

**MUPED 725. String Pedagogy for Major Instrument I. 2 credits.**

Teaching of the applied major instrument from the beginning level to intermediate level. Includes an overview of repertoire at each level and various schools of teaching. Detailed investigation into bow and left hand technique, technique rehabilitation, stylistic interpretation, hands-on opportunities for teaching students from beginning to intermediate levels.

**MUPED 726. String Pedagogy for Major Instrument II. 2 credits.**

Teaching the applied major instrument from the college to advanced levels. Includes an overview of repertoire at each level and various schools of teaching. Detailed investigation into bow and left hand technique, technique rehabilitation, stylistic interpretation, hands-on opportunities for teaching students from beginning to intermediate levels. Prerequisite: MUPED 725.

**MUPED 727. Pedagogy and Materials for Secondary String instruments. 1 credit.**

Provides pedagogy and literature materials for a secondary string instrument within the student's own instrument category (upper or lower strings).

**MUPED 750. Applied Percussion Pedagogy. 3 credits.**

Teaching applied percussion from college to advanced levels. includes an overview of repertoire at each level and various schools of technique. Detailed investigation into hand and body techniques in performing on snare drum, timpani and keyboard percussion instruments. Hands-on opportunities for teaching students of various levels.

**MUPED 760. Applied Brass Pedagogy. 3 credits.**

Teaching of applied brass from college to advanced levels. includes an overview of pedagogical methods, historical material, and other materials and resources related to brass instruments.

**MUPED 770. Group Piano Pedagogy Seminar. 0-1 credits.**

Teaching strategies, materials and techniques for teaching class piano. Topics include testing and evaluation of skills, pacing, motivation and solving problems commonly encountered teaching keyboard skills in the group setting.

Required for all class piano teaching assistants. Open to any graduate music major with permission of instructor.

Prerequisite: Permission of instructor.

**MUPED 771. Graduate Applied Piano Pedagogy. 2 credits.**

Piano teaching at the college level. Includes an overview of goals and expectations for the college level piano student; pedagogical considerations in teaching undergraduate repertoire; learning theory and application to teaching. Provides opportunities for investigating specific topics pertaining to technique, musicianship, repertoire, stylistic interpretation, practice strategies, performing. Prerequisite: MUS 371 or equivalent course or experience.

**MUPED 772. Applied Woodwind Pedagogy. 2 credits.**

Presentations of instrumental methods, solo and ensemble literature related to the woodwind performer's own major area. Private instruction approaches and techniques, student management, and chamber music coaching are also considered, with particular reference to the college-level student.

**MUPED 773. Woodwind Pedagogy Practicum. 2 credits.**

includes supervision of applied teaching at the college level, with emphasis on solidifying pedagogical concepts, individual lesson planning, masterclass presentation concepts and curriculum/course of study development.

Addresses developing an applied studio/program at the college level, for a wide variety of higher education contexts.

Prepares student for job search in higher education, including development of application materials and audition/interview preparation. Prerequisite: MUPED 772.

**MUPED 777. Vocal Pedagogy I. 3 credits.**

Detailed review of anatomical and physiological components of vocal production. Comparative study of various approaches to vocal pedagogy from 1700 to the present. Studio observation is a required component of this course.

Prerequisite: MUS 477 or equivalent.

**MUPED 778. Vocal Pedagogy II. 3 credits.**

A comprehensive study of vocal development and disorders in children, adult and aging voices as it relates to singing. Traditional and non-traditional approaches to training and working with varying vocal conditions which arise during the life cycle will be covered. An attempt will be made to include modern technological approaches to vocal diagnosis and training. Prerequisite: MUPED 777 or equivalent.

**MUPED 779. Vocal Pedagogy Practicum. 1-2 credits.**

This practicum provides experience in individual and group applied voice lessons under the supervision of a faculty instructor. May be repeated once for a maximum of three credits. Prerequisite or corequisite: MUPED 777 or permission of instructor.

# Nursing

## Nursing

(540) 568-6314

<http://www.nursing.jmu.edu/>

## Department Head

Dr. Merle Mast

## Graduate Program Coordinator

Dr. Patty Hale

## Professors

P. Hale, M. Mast, J. Rocchiccioli

## Associate Professors

L. Hulton, V. Martin, L. Sobel

## Assistant Professor

S. Strang

## Instructors

S. Conaty-Buck, D. Gochenour, C. Rubenstein

---

## Admission

To be considered for admission to the program prospective students must:

- Complete the online application for The Graduate School (<http://www.jmu.edu/grad/>).
- Be admitted to The Graduate School.
- Hold a Bachelor of Science in Nursing (B.S.N.) or a baccalaureate degree in another field with a cumulative GPA of 2.8.
- Hold a current Registered Nurse license.
- Provide official MAT or GRE scores.
- Have relevant clinical experience.
- Have taken undergraduate courses in statistics and health assessment with a grade of "C" or higher.
- Meet the department's disability accommodation standards.
- Complete an interview upon request.
- Have health documentation and CPR certification.
- Foreign school graduates: Pass CGFNS Exam, R.N. License, TOEFL (550).

Additional documentation will be required upon admission.

## Application Deadline

Applications are processed on a rolling admission basis until the class fills. Applicants who apply prior to **April 1** will be given first consideration. Full and part-time students will enter the program in the fall or spring semester of each year.

## Application Evaluation Criteria

Evaluation criteria includes previous academic and scholarly work, professional experience, MAT or GRE standardized test results, personal and professional goal statement and their relationship to the mission of the Department of Nursing. Professional references will be reviewed and an interview may be required.

## Mission

The primary mission of the nursing department is to provide quality, professional undergraduate and graduate nursing education that prepares nursing leaders to influence a changing profession, society, health care system and global health needs.

## Purposes

In order to support and accomplish this mission the nursing faculty has identified the following purposes:

- Prepare nursing professionals who provide culturally competent, holistic, evidence-based nursing care to individuals, families, aggregates and communities in a wide variety of settings.
- Promote a community of learning that models professional values and lifelong professional development for both faculty and students.
- Promote service-learning activities that include collaborative, interdisciplinary initiatives and partnerships between nursing education and the practice arena to meet the future health needs of consumers.
- Conduct research and creative scholarship to generate nursing knowledge and disseminate that knowledge through collaboration, publication and presentations.

## Accreditation

The Masters of Science in Nursing Program is fully accredited by the Commission on Collegiate Nursing Education (CCNE).

## Program of Study

The James Madison University Department of Nursing offers a Master of Science in Nursing degree with concentrations offered as:

- Adult Nurse Practitioner (ANP)
- Clinical Nurse Leader (CNL)
- Geriatric Nurse Practitioner (GNP)
- Family Nurse Practitioner (FNP)
- Nurse Administrator (NA)
- Nurse Midwifery (in conjunction with Shenandoah University)

The Nurse Practitioner concentrations require 46 or 49 credits, varying by the population focus. Students are admitted for full-time or part-time study. Full-time students can complete the program in four full-time academic semesters. NP students complete an additional three-credit clinical management course to qualify for family nurse practitioner certification.

The ANP/GNP and FNP concentrations meet the competencies outlined by the National Organization of Nurse Practitioners (NONPF). Students complete more than 500 contact practicum hours required for certification in their specialty areas by the American Nurses Credentialing Center (ANCC).

The leadership options are either the Clinical Nurse Leader (CNL) or Nurse Administrator (NA) concentration. In the CNL role, students are prepared to provide leadership in providing direct clinical care. The Nurse Administrator concentration prepares graduates to assume management positions within health care organizations. Students are admitted for full-time or part-time study. Full-time students can complete the options in four full-time academic semesters. The CNL option is designed to meet the competencies established by the American Association of Colleges of Nursing (AACN); and the Nurse Administrator, the competencies established by the American Organization of Nurse Executives (AONE).

The Master of Science in Nurse Midwifery is offered in conjunction with Shenandoah University. Students complete their first year of study (22 credits) at James Madison University, and their second year of study at Shenandoah University (19 credits). The JMU credits may be taken part-time or full-time. The second year of nurse midwifery courses is taken in full-time study at Shenandoah University.

## Master of Science in Nursing

All M.S.N. students complete the graduate core courses.

Graduate Core Courses	Credit Hours
NSG 520. Advanced Health Assessment	3
NSG 521. Advanced Concepts in Pathophysiology	3
NSG 522. Advanced Clinical Pharmacotherapeutics	3
NSG 611. Research for the Advanced Health Professional	3
NSG 612. Theoretical Foundations of Advanced Nursing Practice	3
NSG 690. Epidemiology and Population Assessment	3
NSG 692. Health Policy for Practice and Advocacy	3
	21

## Nurse Midwifery Curriculum

Courses Taken at JMU	Credit Hours
Nursing Core Courses	21
NSG 634. Role of the Advanced Practice Nurse	1

## Post-Master's Certificate Programs

### Admission

To be considered for admission to the program prospective students must have:

- Master of Science in Nursing degree.
- GPA of 3.0 on 4.0 scale for master's level course work.
- Current R.N. license.
- Evidence of personal and professional qualifications in the form of two professional recommendations.
- Personal interview upon request.

### Post-Master's Certificate Program – Nurse Practitioner

The Post-Master's Nurse Practitioner Certificate program totals 26-35 credit hours, depending on courses previously taken. Students complete nine credits of practicum.

#### Post-Master's Nurse Practitioner Certificate Requirements

Fall Semester	Credit Hours
NSG 520. Advanced Health Assessment	3
NSG 521. Advanced Concepts in Pathophysiology	3
NSG 634. Role of the Advanced Practice Nurse	1

Spring Semester	Credit Hours
NSG 522. Advanced Clinical Pharmacotherapeutics	3
NSG 630. Care Delivery and Coordination I	4
NSG 671. Practicum I	3

Summer (Optional – for FNP only)	Credit Hours
NSG 635. Family Centered Care Delivery	3
NSG 696. Advanced Practicum	3-6
(required for post-masters FNP students; optional for dual certification)	

Fall Semester	Credit Hours
NSG 631. Care Delivery and Coordination II	4
NSG 672. Practicum II	5

Spring Semester	Credit Hours
NSG 632. Coordinated Care of the Elderly	3
NSG 673. Practicum III	5

### Post-Master's Certificate Program - Clinical Nurse Leader

The Post-Master's Certificate program in clinical nurse leader (CNL) totals 17 credit hours and can be completed in three semesters. Students complete eight credits of practicum.

#### Post-Master's CNL Certificate Requirements

Spring Semester	Credit Hours
NSG 650. Organizational Behavior	3

NSG 651. Leadership Development	3
---------------------------------	---

Fall Semester	Credit Hours
NSG 653. Educational Methodologies	3
NSG 676. CNL Practicum I	4

Spring Semester	Credit Hours
NSG 677. CNL Practicum II	4

## Post-Master's Certificate Program - Nurse Administrator

The Post-Master's certificate program in nurse administrator totals 17 credit hours and can be completed in three semesters. Students complete eight credits of practicum.

### Post-Master's Nurse Administrator Certificate Requirements

Spring Semester	Credit Hours
NSG 650. Organizational Behavior	3
NSG 651. Leadership Development	3

Fall Semester	Credit Hours
NSG 655. Concepts in Nursing Administration	3
NSG 678. Nurse Administrator Practicum I	4

Spring Semester	Credit Hours
NSG 679. Nurse Administrator Practicum II	4

## Course Offerings

### Nursing Department

#### NSG 520. Advanced Health Assessment. 3 credits.

This course provides advanced knowledge and health assessment skills. Emphasis is placed on interviewing, history taking, physical assessment and diagnosis based on clinical findings. Normal and abnormal health assessment findings are emphasized. Characteristics of clients from diverse ethnic and cultural backgrounds and age groups are considered. Considerations for the aging client are emphasized. Classroom activities focus primarily on assessments that require history-taking skills and utilize organizing theory and frameworks. Labs focus on the knowledge and skills for history-taking and physical examination.

#### NSG 521. Advanced Concepts in Pathophysiology. 3 credits.

An advanced, clinically-oriented study of human physiology and the alterations in body functions that underlie diseases in humans. Prerequisite: Admission to the Graduate Nursing program.

#### NSG 522. Advanced Clinical Pharmacotherapeutics. 3 credits.

Building upon the knowledge of pharmacology learned at the undergraduate level, this course examines concepts in pharmacotherapeutics necessary for advanced nursing practice. Emphasis will be placed on pharmacokinetics and pharmacodynamics of important classes of drugs. Considerations for the aging client will be highlighted. Case studies will provide an opportunity for critical thinking, clinical application and care coordination.

#### NSG 524. Health Care Environments. 3 credits.

Health care environments provides a conceptual model of the American health care system and an overview of the component parts of that system. The course will focus particularly on the context of health care management and delivery and emphasize available services for adult and elder Americans. This includes a theoretical framework for the current system as well as a delineation of the functions and roles of the major sectors of the U.S. health care system.

#### NSG 611. Research for the Advanced Health Professional. 3 credits.

This course will provide a foundation for examination of components of the nursing research process. Integrative

review methodologies and evidence-based practice models will be emphasized. Skills needed to build and assimilate knowledge for improving practice outcomes will be highlighted.

**NSG 612. Theoretical Foundations of Advanced Practice Nursing. 3 credits.**

This course provides students with an opportunity to analyze and utilize nursing models and theories to explain advanced nursing practice. Students will explore advanced practice nursing from a theoretical standpoint and identify strategies for evaluating selected models and theories.

**NSG 630. Care Delivery and Coordination I. 4 credits.**

This course focuses on the evaluation, management and care coordination for clients with common acute health deviations across the adult lifespan within a variety of contexts. The course builds on knowledge and skills from health systems management, advanced health assessment, pathophysiology and pharmacology. Emphasis is placed on formulating diagnoses and plans of care that encompass client, family and coordinated systems of care. Prerequisites: NSG 520, NSG 521. Corequisite: NSG 522.

**NSG 631. Care Delivery and Coordination II. 4 credits.**

This course focuses on the evaluation, management and coordination of care for adolescent and adult clients with common chronic health deviations within a variety of contexts. The course builds on knowledge and skills from advanced health assessment, pathophysiology, and pharmacology and ethics. Emphasis is placed on formulating diagnoses and developing plans of care that encompass clients, families and community resources. Prerequisites: NSG 520, NSG 521 and NSG 522.

**NSG 632. Coordinated Care of the Elderly. 3 credits.**

This course focuses on the health issues and needs of older adults and principles for evaluating, managing, and coordinating their care. Students will differentiate normal changes and symptoms of aging from disease-related symptoms, focusing on the achievement of optimal health and function for older adults. Emphasis is on the collaborative role of advanced practice nurses in assisting older adults and family caregivers from diverse ethnic and cultural backgrounds to negotiate health care delivery systems. Prerequisites or corequisites: NSG 520, NSG 521 and NSG 522.

**NSG 634. Role of the Advanced Practice Nurse. 1 credit.**

This course will focus on historical and developmental aspects and competencies of advance practice nursing (APN), and the continuing evolution of the APN role. Students will explore the varied roles that APNs assume in the health care system and the legal and ethical considerations for advanced practice.

**NSG 635. Family Centered Care Delivery. 3 credits.**

This course focuses on care given to the family unit, as well as individuals within the family unit. Family theory, assessment and management will be emphasized. Emphasis will be placed on assessment and care of the childbearing family and the family with young children. Individual care will focus on the pregnant woman, the newborn, infant, toddler, preschool and school age child (up to adolescence). This course builds on knowledge and skills from advanced health assessment, pathophysiology and pharmacology. Prerequisites: NSG 520, NSG 521 and NSG 522.

**NSG 641. Curriculum Evaluation. 3 credits.**

This course focuses on theory and practical application of the evaluation process for nursing education programs and health care systems. Test construction and measurement are featured and an emphasis is placed on evaluation of program goals, outcomes and evidence-based practice. Methods and processes in developing specific instruments for program evaluation data collection and data analysis will be discussed. Prerequisite: NSG 640.

**NSG 646. Role of the Nurse Educator. 3 credits.**

Provides students with educational concepts, theories and strategies central to the role of nurse educator in academic, staff development and/or client centered settings. Students will examine and explore role concepts critical to education and will apply theory to predict and explain behavior in a variety of educational and clinical settings.

**NSG 650. Organizational Behavior in Health Care. 3 credits.**

This course focuses on theories, research, and frameworks that enhance the advanced practice nurse's understanding of behavior, leadership, and management in health care teams and organizations. Emphasis is on "micro" and "macro" level issues and their implications for behavior management and change in health care systems.

**NSG 651. Leadership Development. 3 credits.**

This course focuses on developing knowledge and understanding of nurse leader roles. Leadership theory and interdisciplinary team decision making in culturally diverse healthcare settings are reviewed. Aspects of leadership in relation to the utilization of current research-based information to plan for the design, implementation and evaluation of client-centered care will be examined.

**NSG 653. Educational Methodologies for Nurse Leaders. 3 credits.**

This course will investigate the uses of appropriate teaching/learning principles and strategies for a variety of diverse populations. Current information, materials and technologies will be reviewed to facilitate and evaluate the learning of clients, groups, and health care professionals.

**NSG 655. Concepts for Nurse Administrators. 3 credits.**

This course provides a synthesis of concepts used for effective performance of the nurse administrator's role in organizations. The use of human and financial resources is examined within an organizational framework and the strategic management of organizational goals, culture and diversity is highlighted. Corequisites: NSG 650 and NSG 651.

**NSG 671. Practicum I. 3 credits.**

Emphasizes advanced practice role development, complex and holistic client/family care, health promotion/maintenance and care coordination. Practicum is individualized and will highlight the advanced practice roles of clinician, manager, consultant, educator and researcher. Clinical competencies will be emphasized to prepare the student for nurse practitioner certification. Prerequisites: NSG 520, NSG 521 and NSG 630. Corequisite: NSG 522.

**NSG 672. Practicum II. 5 credits.**

Emphasis will be placed upon the application of clinical skills, theories, concepts, issues and research findings to the clinical care of children, adolescents, adults and/or older adults. Care coordination issues will be addressed as they specifically impact diverse populations in all care settings. Clinical competencies will be emphasized to prepare the student for nurse practitioner certification. Prerequisites: NSG 630 and NSG 671.

**NSG 673. Practicum III. 5 credits.**

Continues emphasis on the application of clinical skills, theories, concepts, issues and research findings to the clinical care of children, adolescents, adults and/or older adults. Care coordination issues will be addressed as they specifically impact the selected population. Clinical competencies will be emphasized to prepare the student for nurse practitioner certification. Prerequisites: NSG 631 and NSG 672.

**NSG 675. Education Residency II. 3 credits.**

Students demonstrate successful integration of theory with practice and synthesis of knowledge and skills in a selected teaching practice setting under faculty and preceptor guidance. Students practice and develop competence with a variety of advanced teaching methods. Students will engage in various forms of educational evaluation. Corequisites: NSG 641. Prerequisites: NSG 674.

**NSG 676. Clinical Nurse Leader Practicum I. 4 credits.**

This course provides opportunities to apply and integrate leadership knowledge and concepts through an immersion experience. Emphasis is on improving outcomes for patients and/or a clinical area as an information manager. Interventions for health care/education, disease prevention, and risk reduction will be implemented that promote safe, quality care. Prerequisites: NSG 650 and NSG 651. Corequisites: NSG 653.

**NSG 677. Clinical Nurse Leader Practicum II. 4 credits.**

This course provides opportunities to apply and integrate knowledge and concepts through an immersion experience. Emphasis is on delivery systems and functions that impact patient safety and quality of care. System analysis/risk anticipation, technology utilization, and/or resource management are explored. Prerequisites: NSG 650 and NSG 651. Corequisites: NSG 653.

**NSG 678. Nursing Administration Practicum I. 4 credits.**

This practicum course is designed to provide opportunities to apply administrative principles in a health care setting. Emphasis is placed on the effective use of resources to improve client health outcomes. Prerequisites: NSG 650 and NSG 651. Corequisites: NSG 655.

**NSG 679. Nursing Administration Practicum II. 4 credits.**

This practicum course is designed to provide opportunities to apply administrative principles in a health care setting. Emphasis is placed on the organizational environment, and interface with governmental and non-governmental organizations. Prerequisites: NSG 650 and NSG 651. Corequisites: NSG 655.

**NSG 680. Independent Study in Nursing. 1-3 credits.**

This course provides the opportunity for independent study in a specialized area of concentration. It is conducted under the supervision of a faculty member. Prerequisites: Approval of graduate program coordinator and department head.

**NSG 690. Epidemiology and Population Assessment. 3 credits.**

This course focuses on the distribution of health-related conditions within human populations and factors influencing their distribution. Emphasis is on measurement of the health of populations, the natural history of diseases, study design and assessment of data sources. It addresses health systems that focus on health promotion and disease prevention.

**NSG 692. Health Policy for Practice and Advocacy. 3 credits.**

This course addresses the foundation of health policymaking. It emphasizes policy analysis for practitioners in leadership roles. Federal and state policy-making and the mechanisms for health policy change are emphasized. Policy issues impacting health delivery will form the basis for the development of critical understanding of policy development.

**NSG 696. Advanced Practicum. 3 or 6 credits.**

Emphasis on the application of skills, theories, concepts, issues and research findings to the clinical care of selected populations in age ranges appropriate for the selected track. Clinical competency for a specific population is emphasized. This course will use clinical preceptors as well as faculty. Prerequisite: NSG 673 or permission of the instructor. For FNP students, corequisite: NSG 635.

## Admission Criteria and Degree Requirements

The JMU graduate school requires that prospective students submit official transcripts of all undergraduate and graduate course work and GRE test scores. International students must achieve a TOEFL score of at least 550. The Department of Political Science requires that students submit a written statement of educational and professional goals, GRE writing examination scores, curriculum vita or resume, and two current letters of recommendation from professors, employers and other professionals qualified to judge the applicant's ability to complete graduate studies. Students must also submit a statement of language proficiency and a statement of policy interest.

Once admitted to the program, to remain in good academic standing students must comply with the requirements of the JMU graduate school and those imposed by the Political Science program. Students must complete the EU Policy Studies (EUPS) concentration in a consecutive 11-month period. Students withdrawing from the EUPS concentration may be permitted to re-enter the program at the same point in subsequent years. Students must meet the JMU graduate school requirement of a 3.0 GPA or higher to qualify for graduation.

## Mission

The Master of Arts in Political Science program focuses on comparative and international politics. This program is designed to directly engage students in comparative and international politics via studies abroad and practical experience.

## Learning Objectives

When students complete the Master of Arts in Political Science program, they should have:

- Comprehensive knowledge of the relevant subfields of political science that pertain to their area of concentration in the program.
- Comprehensive knowledge of the processes that shape politics and policies and the complex interrelationships of political, economic, cultural and ideological interests that influence them in their concentration area.
- Expertise in contemporary policy issues in political science in their concentration area including international security, immigration, human rights, environmental protection, welfare provision, health and human services, and information technology and their underlying political philosophies.

- Analytic and language skills, the ability to express themselves in written and verbal form, the ability to formulate and execute a final in-depth project or apply their learning and skills in a practical situation, and broad intercultural competence.

## European Union Policy Studies Concentration

This concentration involves an intellectually rigorous program with a theoretical and practical orientation. It provides students with a comprehensive understanding of the Political Science literature on the European Union in general (its historical development, current institutions, and practices and future prospects).

The European Union policy studies concentration also places particular emphasis on public policy in two domains: economic and social policy, and foreign policy and internal security. Students will focus their studies on one of these policy areas. The concentration is designed as a one-year residential program based in Florence, Italy.

This concentration is intended:

- to improve understanding of the European Union as a system of governance and as a multinational actor;
- to promote awareness and understanding of the growing importance and expanding scope of the transatlantic partnership between the European Union and the United States; and
- to train students to be effective future participants in this partnership.

Concentration Requirements <sup>1</sup>	Credit Hours
POSC 602. The Politics of European Culture and Identity	3
POSC 603. The Political Institutions of the European Union	3
POSC 604. Policy-Making Processes and Lobbying in the European Union	3
POSC 620. The EU: Contemporary Issues and Controversies	3
POSC 640. Seminar in EU Policy Analysis	6
POSC 641. Topics in Economic and Social Policy <sup>1</sup>	3
POSC 642. Topics in Foreign Policy and Internal Security <sup>1</sup>	3
POSC 690. Tutorial in EU Policy Studies	6
POSC 692. EU Seminar	3
	33

<sup>1</sup> In their area of policy specialization, students will take one course twice (with different topics) for a total of six credits.

## Typical Curriculum for European Union Policy Studies

Fall Semester <sup>1</sup>	Credit Hours
POSC 602. The Politics of European Culture and Identity	3
POSC 603. The Political Institutions of the European Union	3
POSC 604. Policy-Making Processes and Lobbying in the European Union	3
POSC 620. The EU: Contemporary Issues and Controversies	3
	12
Spring Semester	Credit Hours
POSC 640. Seminar in EU Policy Analysis	6
POSC 641. Topics in Economic and Social Policy <sup>1</sup>	3-6
POSC 642. Topics in Foreign Policy and Internal Security <sup>1</sup>	3-6
	12

Summer Semester	Credit Hours
POSC 690. Tutorial in EU Policy Studies	6
POSC 692. EU Seminar	3
	9

1 In their area of policy specialization, students will take one course twice (with different topics) for a total of six credits.

## Course Offerings

### **POSC 601. Theories of European Integration. 3 credits.**

This course is a comprehensive introduction to normative and empirical theories of European integration. It covers the "European visions" of historical figures and the history of European integration since World War II. The course requires intensive analysis of twentieth and twenty-first century empirical theories of integration, including neofunctionalism, intergovernmentalism, historical institutionalism, multi-level governance, constructivism and Europeanization.

### **POSC 602. The Politics of European Culture and Identity. 3 credits.**

This course examines the dynamics of cultural identity in Europe. It canvasses alternative theoretical approaches to identity (primordialism, instrumentalism, constructivism) and addresses the interplay among sub-national, national, and supranational identities in various European states. The course also considers the ways that political actors express and modify identities in an enlarging and increasing multi-cultural Europe.

### **POSC 603. The Political Institutions of the European Union. 3 credits.**

This course is a comprehensive consideration of the EU's institutions and the relationships among them. It analyzes the roles of the EU's institutions and advisory bodies and considers the ways that executive, legislative, judicial, and advisory institutions interact. The course also engages debates about the "democratic deficit" in Europe and considers whether changes in the Union's institutional structure might increase the quality of European democracy.

### **POSC 604. Policy-Making Processes and Lobbying in the European Union. 3 credits.**

This course examines the range of policy-making processes that characterize EU decision-making and focuses on the ways that groups beyond the EU's formal institutions influence EU policies. The course analyzes the ways that the EU's policy regimes affect extra-institutional actors' strategies. It focuses on the strategies of interest groups, media outlets, states from outside of the EU, social movements, international organizations, and other extra-institutional actors.

### **POSC 620. The EU: Contemporary Issues and Controversies. 3 credits.**

This course offers a deep look into contemporary issues and debates in EU politics. The particular subject matter changes from semester to semester; contemporary issues include the EU Constitutional Treaty, enlargement to eastern Europe, relations with Turkey and EU foreign policy. Regardless of its specific focus, this course considers the historical background of the debate, the positions of different member-states and policy players, and the likely future of the issue. The course involves guest lectures from involved policy players and requires active engagement with contemporary media coverage and scholarly literature.

### **POSC 640. Seminar in EU Policy Analysis. 6 credits.**

This course offers an intensive immersion into the methods and concepts of EU policy analysis. It introduces students to policy-analysis techniques, requires students to apply those techniques in case-based projects, and allows students to present and defend policy analyses to public audiences.

### **POSC 641. Topics in Economic and Social Policy. 3 credits.**

In-depth exploration of specialized topics in EU economic and social policy. The topics for each semester will vary and may include the single market, economic and monetary union, competition policy, social policy, agricultural policy, regional policy, environmental policy, energy policy, and research and development policy.

### **POSC 642. Topics in Foreign Policy and Internal Security. 3 credits.**

In-depth exploration of specialized topics in EU foreign policy and internal security policies. The topics for each semester will vary and may include European Union foreign policy, security and defense policy, anti-terrorism policy, immigration policy, asylum policy, human rights promotion, efforts against human trafficking, and policies regarding the protection of personal data.

### **POSC 665. Governance and Stabilization. 3 credits.**

This course will apply political science research and theory to the role of counterinsurgency and post-conflict operations in providing governance and stabilization. It will examine current military and political strategies in light of lessons learned from past operations.

**POSC 690. Tutorial in EU Policy Studies. 6 credits.**

A tutorial requiring students to pursue one of the following: a service learning project, a practicum or internship, or in-depth original research. Students integrate prior coursework and knowledge as they serve in government, NGO or business settings or develop a thesis in their policy specialization area. They are further exposed to and directly maneuver within specific EU policies and procedures.

**POSC 692. EU Seminar. 3 credits.**

This is the capstone seminar for the program designed to address students' professional development. The course will integrate individual students' experiences and give further consideration to topical issues in the European Union. It seeks to build students' professional networks and to aid their transition into the professional realm. Course work includes speakers, roundtable discussions, research colloquia and study tours.

## Application Dates

Refer to individual programs for application requirements. Programs may require a criminal history check as part of the final admissions process.

### Counseling: College Student Personnel Administration

The application date for the fall semester is March 1. All application forms and supporting materials are due at this time. The program begins reviewing applications February 1 and will give preference to applications received by that date.

### Counseling: Clinical Mental Health and School Counseling

The application date for the fall semester is January 15. The program will give preference to applications received by that date. The committee conducts screening interviews in late February and early March.

### Psychological Sciences

The application date for the fall semester is January 20. All application forms and supporting materials are due at this time. The program begins reviewing completed applications in February.

### School Psychology

The application date for the fall semester is February 15. The program will give preference to applications received by that date. The committee conducts screening interviews during March.

## Mission

Our mission is to transform students into outstanding practitioners and scholars of psychology. We work to create a community that celebrates diversity and creativity, and that values learning, scholarship and service to others.

## Overview

James Madison University offers seven graduate masters-level programs designed for individuals who want to pursue advanced training in psychology and counseling. These programs share the goals of academic enrichment, refinement of research skills, development of applied skills, and personal and professional growth.

## Programs

- Assessment and Measurement (Ph.D.)
- Clinical and School Psychology (Psy.D.)
- Counseling: College Student Personnel Administration (M.Ed.), 36 credits
- Counseling: Clinical Mental Health (M.Ed.), 60 credits
- Counseling: School Counseling (M.Ed.), 48 credits
- Psychological Sciences (M.A.), 36 credits
- School Psychology (M.A. and Ed.S.), 78 credits

## Counseling Programs

The Graduate Psychology Department offers M.Ed. and M.A./Ed.S. degrees in counseling with three available concentrations:

- Clinical Mental Health Counseling
- College Student Personnel Administration
- School Counseling

## Clinical Mental Health Counseling Program

Dr. Renee Staton, Program Director

### Admission Requirements

Minimum admissions requirements for entry to the clinical mental health counseling program include the following:

- Completion of a baccalaureate degree with a satisfactory grade point average.
- Satisfactory scores on the general portion of the Graduate Record Examination.
- A personal statement.
- Three completed reference forms from individuals familiar with the student's potential for graduate education.
- A minimum of 18 credit hours of undergraduate preparation in psychology or related behavioral sciences.
- A personal interview and a screening session with the program committee.
- As a part of the final admissions process, applicants must complete a criminal history check.

### Mission

As members of the clinical mental health counseling program of James Madison University, we have formed our own special community of faculty, staff and students. We vary in abilities, age, class, gender, ethnicity, race, religion, sexual orientation and place of birth, but we share a common vision of achieving a vitally important mission – transforming students into successful community counselors.

Our alumni are dedicated to providing competent, caring and ethical services to diverse clients in public agencies, community programs and private practices. Putting our principles into practice, we strive to create a caring community in which we can thrive personally and grow professionally. While many of our graduates work in rural communities in Virginia's Shenandoah Valley or among the mountains of West Virginia, many more have moved on to serve in other communities throughout the mid-Atlantic region and across the nation. We invite our students to embark on a life-long journey of exploring new possibilities, refining their skills and staying fresh throughout their careers. We encourage them to support one another in the formidable task of facilitating the change process in individuals, couples, families, groups, and communities as licensed professional counselors. Finally, we challenge our graduates to advance the clinical mental health counseling profession through service, research, innovation, advocacy and training.

The program requires the completion of a minimum of 60 credit hours.

The Master of Arts degree is awarded only after completion of all educational specialist degree requirements. This program provides the academic and applied training necessary for individuals seeking employment as counselors in clinical mental health agencies, psychiatric facilities or private practice.

The community counseling program, which was offered until fall 2010, is approved by the Council for the Accreditation of Counseling and Related Educational Programs, an affiliate of the American Counseling Association. During the upcoming accreditation process JMU will seek accreditation of the clinical mental health counseling program. The JMU

transcript endorses students as graduates of an accredited program and as being eligible to take the National Board for Certified Counselors examination leading to recognition as a National Certified Counselor. Students also take all courses required for licensure as professional counselors in the Commonwealth of Virginia. A comprehensive examination including oral, written and applied components is required prior to internship.

### **Clinical Mental Health Educational Specialist Degree Requirements**

<b>Minimum Requirements</b>	<b>Credit Hours</b>
PSYC 600. Introduction to Measurement and Statistics	3
PSYC 607. Assessment Procedures in Counseling	3
PSYC 614. Advanced Developmental Psychology	3
PSYC 630. Clinical Mental Health Counseling	3
PSYC 660. Counseling Theories	3
PSYC 661. Counseling Techniques	3
PSYC 663. Substance Abuse Counseling	3
PSYC 664. Counseling Process	3
PSYC 665. Group Counseling	3
PSYC 668. Couple and Family Systems	3
PSYC 669. Career Development	3
PSYC 685. Psychopathology: Diagnosis and Intervention Planning	3
PSYC 695. Practicum in Counseling	3
PSYC 710. Counseling Strategies	3
PSYC 749. Multicultural Perspectives of Intervention	3
PSYC 760. Supervision and Consultation for Counselors	3
PSYC 790. Internship	6
Research Project/Thesis	3
<b>Choose one of the following:</b>	
PSYC 800. Educational Specialist Research Project <sup>1</sup>	
PSYC 700. Thesis Research	
(Note: Thesis option requires an additional 3 credit hours)	
Elective course (adviser approval required)	3
<hr/>	
	60

<sup>1</sup> Only three credit hours of PSYC 800 may be used to satisfy program requirements for the educational specialist degree. If the research project is not completed after three credit hours, then the student must continuously enroll (each semester including summer) in PSYC 799 until the project is completed.

## **College Student Personnel Administration Program**

Dr. James McConnel, Program Co-Director  
Ms. Donna Harper, Program Co-Director

### **Admission Requirements**

Minimum admissions requirements for entry to the college student personnel administration program include the following:

- Completion of a baccalaureate degree with a satisfactory grade point average
- Satisfactory scores on the general portion of the Graduate Record Examination
- A personal statement and resume
- Three completed reference forms from individuals familiar with the student's potential for graduate education
- A minimum of 18 credit hours of undergraduate preparation in behavioral sciences
- An on-campus interview day with program faculty and staff

## Mission

The mission of the college student personnel administration program is to prepare students to be educated and enlightened professionals who will lead productive and meaningful careers and to advance the profession of student personnel administration.

The Master of Education degree in college student personnel administration is designed to provide professional preparation for college, university and community college administrative positions. Preparation for college student personnel careers involves participation in learning experiences designed to provide an understanding of the college student, counseling theories, various collegiate subcultures and the nature of higher education as an institution in the United States. The program's link with counseling psychology provides opportunities for personal growth and the development of interpersonal relationship skills.

### College Student Personnel Administration Master of Education Degree Requirements

Minimum Requirements	Credit Hours
AHRD 670. American Higher Education	3
PSYC 600. Introduction to Measurement and Statistics	3
PSYC 645. Student Personnel Services	3
PSYC 646. The American College Student	3
PSYC 649. Multiculturalism, Diversity and Difference: Theory Research and Practice in Student Affairs	3
PSYC 650. Organization and Administration of Student Services	3
PSYC 651. Supervision and Consultation Processes in Student Personnel	3
PSYC 660. Counseling Theories	3

PSYC 695. Field Practicum in Student Personnel Administration	3
PSYC 669. Career Development	3
	36

## College Student Personnel Certificate Program

This professional development program accepts students who have earned a master's degree in a discipline other than higher education/student personnel services. Students admitted to the program are required to complete four courses. Upon completion of four higher education/student personnel courses (chosen in concert with an adviser), a student will receive a certificate of completion.

Students must complete four courses (12 credit hours) from the list of existing courses:

PSYC 645. Student Personnel Services  
PSYC 646. The American College Student  
PSYC 649. Multiculturalism, Diversity and Difference: Theory, Research and Practice in Student Affairs  
PSYC 650. Organization and Administration of Student Services  
PSYC 661. Counseling Techniques  
AHRD 670. American Higher Education

## School Counseling Program

Dr. Renee Staton, Program Director

### Admission Requirements

Minimum admission requirements for entry to the school counseling program include the following:

- Completion of a baccalaureate degree with a satisfactory grade point average.
- Satisfactory scores on the general portion of the Graduate Record Examination.
- A personal statement.
- Three completed reference forms from individuals familiar with the student's potential for graduate education.
- A minimum of 18 credit hours of undergraduate preparation in education, psychology or related behavioral sciences.

- A personal interview and a screening session with the program committee.
- As a part of the final admissions process, applicants must complete a criminal history check.

## Mission

The school counseling program of James Madison University is a learning community of faculty, staff and students who vary in abilities, age, class, gender, ethnicity, race, religion and sexual orientation. Coming together from a variety of geographic areas, we share a common vision of achieving a vitally important mission – training students to become successful school counselors.

Our alumni are dedicated to providing competent, caring and ethical services to diverse students in public and private schools. Putting our principles of school counseling into practice, we strive to create an academic community in which our students can thrive personally and grow professionally. While many of our graduates play vital roles in schools along Virginia's Shenandoah Valley or among the mountains of West Virginia, many more have moved on to serve in rural, suburban and urban schools throughout the mid-Atlantic region and across the nation. We invite our students to embark on a life-long journey of exploring new possibilities, refining their skills and staying fresh throughout their careers. We encourage them to support one another in the formidable task of making a difference in students' lives by meeting their emotional, social, educational and career development needs as licensed or certified school counselors. Finally, we challenge our graduates to advance the school counseling profession through service, research, innovation, advocacy and training.

The school counseling program prepares students to be school counselors in elementary, middle or secondary school settings. Program graduates enter the field with the knowledge and competencies essential to provide quality developmental school counseling services.

The master of education degree in school counseling is in compliance with the 2001 Virginia State Board of Education licensure regulations for school counselors. The school counseling program is accredited by the Council for the Accreditation of Counseling and Related Educational Programs, an affiliate of the American Counseling Association. A comprehensive examination including oral, written and applied components is required prior to internship.

## School Counseling Master of Education Degree Requirements

Minimum Requirements	Credit Hours
PSYC 600. Introduction to Measurement and Statistics	3
PSYC 607. Assessment Procedures in Counseling	3
PSYC 614. Advanced Developmental Psychology	3
PSYC 660. Counseling Theories	3
PSYC 661. Counseling Techniques	3
PSYC 663. Substance Abuse Counseling	3
PSYC 664. Counseling Process	3
PSYC 665 Group Counseling	3
PSYC 685. Psychopathology: Diagnosis and Intervention Planning	3
PSYC 669. Career Development	3
PSYC 685. Psychopathology: Diagnosis and Intervention Planning	3
PSYC 695. Practicum in Counseling	3
PSYC 710. Counseling Strategies	3
PSYC 749. Multicultural Perspectives of Intervention	3
PSYC 790. Internship	6
	48

## School Psychology Program

Dr. Patricia J. Warner, Program Director

### Admission Requirements

The minimum admission requirements for the school psychology program include:

- Completion of a baccalaureate degree with a satisfactory grade point average.
- 18 hours of undergraduate psychology including three hours of statistics.

- Satisfactory scores on the general portion of the GRE.
- A personal interview with faculty and students.
- A personal statement.
- Three letters of recommendation from professionals familiar with the applicant's potential for graduate education including at least two from their academic institution.
- Transcripts from all undergraduate and graduate programs attended.

Minimum admission requirements for the educational specialist degree in school psychology include a 3.5 grade point average and satisfactory review by the School Psychology Program Committee. Students applying to the program with a related master's degree from another institution will be required to provide three references and to participate in the interview process.

## Mission

The school psychology program at James Madison University, housed within the Department of Graduate Psychology, resides within the College of Integrated Science and Technology (CISAT) and is fully accredited by the National Association of School Psychologists (NASP). The program emphasizes the role of the culturally competent school psychologist as that of a facilitator of an individual's overall well-being and potential. Within an integrated theoretical framework, students are prepared to be culturally competent, interpersonally skilled, data-oriented problem solvers. Central to the program focus is the understanding of children within a systems context, including the family, the school and the socio-cultural environment. Students are prepared in assessment for intervention, prevention, and promotion of well being, counseling, educational and mental health consultation, behavioral and cognitive interventions, and applied research. They are prepared to be applied child and adolescent psychologists in diverse educational and mental health settings. The program expects students to have a commitment to academic excellence, personal growth, professional responsibility, sensitivity to and understanding of human diversity, and effective interpersonal relationships.

A Master of Arts (M.A.) degree is awarded at the completion of Level I of the program and a comprehensive examination.

### School Psychology Educational Specialist Degree Requirements – Level I

Minimum Requirements	Credit Hours
PSYC 525. Role and Function of the School Psychologist	3
PSYC 527. Psychological Foundations of Education	3
PSYC 605. Intermediate Inferential Statistics	3
PSYC 606. Measurement Theory	3
PSYC 618. Social and Emotional Development	3
PSYC 626. Advanced Developmental Psychopathology	3
PSYC 661. Counseling Techniques	3
PSYC 674. Assessment I	3
PSYC 695 Practicum in School Psychology	3
PSYC 749. Multicultural Perspectives of Intervention	3
PSYC 777. Assessment II	3
	33

### School Psychology Educational Specialist Degree Requirements – Level II

Minimum Requirements	Credit Hours
PSYC 609. Applied Research Methods	3
PSYC 750. Consultation and Intervention Techniques	3
PSYC 751. Psychotherapy with Children and Adolescents	3
PSYC 755. Cognitive and Behavioral Interventions	3
PSYC 778. Advanced Practicum in School Psychology	6
PSYC 779. Assessment III	3

PSYC 790. Internship in School Psychology	9
PSYC 800. Educational Specialist Research Project	6
PSYC 880. Introduction to Child and Adolescent Neuropsychology	3
EXED 512. Behavior Management in the Classroom	3
READ 658. Principles, Practices and Applications of Reading Assessment	3

---

45

Students must complete all program requirements to be recommended for certification or licensure. Certain courses may be waived or substituted with adviser approval. Only six credit hours of PSYC 800 may be used to satisfy program requirements for the educational specialist degree. If the research project is not completed by the end of the internship year, then the student must continuously enroll (each semester including summers) until the project is completed.

## Psychological Sciences Program

Dr. Sherry L. Serdikoff, Program Director

E-mail: [serdiksl@jmu.edu](mailto:serdiksl@jmu.edu)

Web site: <http://www.psyc.jmu.edu/psycsciences/>

### Admission Requirements

- Completion of a baccalaureate degree with a satisfactory grade point average.
- Undergraduate course work in psychology, including at least one statistics and one psychological research methods course.
- Satisfactory scores on the general GRE; subject area GRE desirable (official score reports required).
- Three letters of recommendation from faculty members familiar with previous academic performance and potential for graduate work.
- Transcripts from all undergraduate and graduate programs attended.
- Completed application forms, including a statement of research interests, goals for graduate study and beyond, and how the Psychological Sciences program will help achieve these goals.

### Mission

The mission of our program is to provide students advanced empirical research training in the psychological sciences.

### Description

The psychological sciences program at James Madison University fosters the development of students interested in becoming research scientists by providing rigorous training to produce graduates who are well versed in substantive content areas in psychological science and who are highly trained to independently conduct, critique, and report psychological research. Students who complete our program earn a Master of Arts degree in psychology and are prepared for further training at the doctoral level or for immediate employment in research settings.

At the core of the program is course work in multiple content areas within psychology; course work in statistics, measurement, and research design; a research apprenticeship; and a thesis. Students develop expertise in a specialty area through selected course work and closely mentored research experiences with a faculty adviser. Faculty advisers provide regular support and consultation regarding progress in the program and preparation for applying to doctoral programs.

### Master of Arts Degree Requirements

Minimum Requirements <sup>1</sup>	Credit Hours
<b>Methodology and Research Core</b>	15
PSYC 605. Intermediate Inferential Statistics (3 credits)	
PSYC 606. Measurement Theory (3 credits)	
PSYC 608. Multivariate Statistical Methods in Psychology (3 credits)	
PSYC 700. Thesis Research (6 credits)	
<b>Content Courses (choose three of the following):</b>	9
PSYC 610. Applied Behavior Analysis (3 credits)	
PSYC 613. Cognitive Science (3 credits)	

PSYC 616. Social Psychology (3 credits)

PSYC 624. Neuroscience (3 credits)

Concentration and elective courses (adviser approval required)

12

---

36

1 Before the Department of Graduate Psychology recommends students for graduation, they must have a successful review by the Master of Arts in Psychological Sciences Program Committee.

In addition to course work, all students in the psychological sciences program are required to complete a Research Apprenticeship during the first two semesters, attend the weekly Research Roundtable series all four semesters and present their thesis work at the Department of Graduate Psychology Student Symposium in Research and Practice (or approved substitute). The Research Apprenticeship, Research Roundtable and presentation requirements do not carry course credit but expose students to a range of research topics and methodologies in psychological science and expose students to activities that are an integral part of being a productive member of a scientific community early in their graduate training, which facilitates successful development and completion of the thesis. Throughout their tenure in the psychological sciences program, students are strongly encouraged to both present their research at conferences and submit manuscripts for publication.

Only six credit hours of PSYC 700 may be used to satisfy the program's credit hour requirements. In addition to a written thesis, students are required to pass a comprehensive examination consisting of an oral presentation and defense of the thesis research.

Once accepted into the program the student must continue to enroll in at least one credit hour each semester until the comprehensive examination has been passed and the thesis has been accepted by the student's faculty committee and The Graduate School.

## **Behavior Analysis Concentration**

Dr. Sherry L. Serdikoff, Concentration Coordinator

### **Purpose**

The concentration in behavior analysis is for students interested in pursuing a doctoral degree in behavior analysis or related disciplines (e.g., behavioral pharmacology, behavioral neuroscience). Although not a focus of this concentration, the course work may be able to be arranged to meet the requirements necessary to sit for the Board Certified Behavior Analysis (BCBA®) national certification examination.

### **Overview**

In this concentration, students will complete course work and conduct research designed to facilitate mastery of major concepts, principles, practices and theories in the experimental analysis of behavior, applied behavior analysis and the philosophy of radical behaviorism. Students in this concentration are required to complete their research apprenticeship and thesis requirements through collaborative research activities with faculty who approach the scientific study of behavior from a behavior analytic conceptual and theoretical framework.

### **Methodology and Research Core (15 credits)**

PSYC 605. Intermediate Inferential Statistics (3 credits)

PSYC 606. Measurement Theory (3 credits)

PSYC 608. Multivariate Statistical Methods in Psychology (3 credits)

PSYC 700. Thesis Research (6 credits) <sup>1</sup>

### **Content Courses (9 credits)**

PSYC 610. Applied Behavior Analysis (3 credits)

PSYC 624. Neuroscience (3 credits)

PSYC 613. Cognitive Science (3 credits)

or PSYC 616. Social Psychology (3 credits)

### **Concentration Courses (6 credits)**

PSYC 690. Experimental Analysis of Behavior (3 credits)

PSYC 805. Single Case Experimentation (3 credits)

### **Concentration Electives (6 credits; approved by adviser)**

1 For students in this concentration, the thesis must be an empirical study that in either the experimental analysis of behavior or applied behavior analysis.

### **Other Experiences**

In addition to course work and other requirements of the psychological sciences program (e.g., Apprenticeship, Research Roundtable), students participate in a monthly concentration meeting where faculty and students discuss published research and professional issues related to behavior analysis. Additionally, students in the behavior analysis concentration are required to participate in the activities of various local, regional, national, and international agencies, groups, and professional organizations that advance the scientific study of behavior and its humane application to solve practical problems.

## **Clinical Research Concentration**

Dr. Trevor Stokes, Concentration Coordinator

### **Purpose**

The concentration in clinical research is designed for students interested in pursuing a doctoral degree in clinical or school psychology.

### **Overview**

Students working on this concentration will learn a scientist-practitioner orientation to the field of behavioral health. Empirical approaches to treatment are emphasized and methods of studying treatment outcome and other clinical research are taught. Students work throughout their two years on research focusing on clinical issues and many work directly with clinical populations.

### **Methodology and Research Core (15 credits)**

PSYC 605. Intermediate Inferential Statistics (3 credits)

PSYC 606. Measurement Theory (3 credits)

PSYC 608. Multivariate Statistical Methods in Psychology (3 credits)

PSYC 700. Thesis Research (6 credits)

### **Content Courses (9 credits chosen from the following)**

PSYC 610. Applied Behavior Analysis (3 credits)

PSYC 613. Cognitive Science (3 credits)

PSYC 616. Social Psychology (3 credits)

PSYC 624. Neuroscience (3 credits)

### **Concentration Courses (9 credits)**

PSYC 661. Counseling Techniques (3 credits)

PSYC 695. Practicum: Clinical (3 credits)

PSYC 830. Structural Equation Modeling (3 credits)

or PSYC 836. Hierarchical Linear Models (3 credits)

or PSYC 805. Single-Case Experimentation (3 credits)

### **Concentration Electives (3 credits; approved by adviser)**

### **Other Experiences**

In addition to course work and other requirements of the psychological sciences program (e.g., Apprenticeship, Research Roundtable), students participate in a monthly concentration meeting where faculty and students discuss published research and professional issues related to clinical psychology, covering such topics as prescription privileges, mediators and moderators of treatment outcome, treatment manuals, and managed care. Many students in the clinical research concentration receive graduate assistantships to work on funded research projects and students graduating from this concentration have an excellent record of being accepted into clinical Ph.D. programs.

## **Cognitive Science Concentration**

Dr. Michael Hall, Concentration Coordinator

### **Purpose**

The concentration in cognitive science is designed for students interested in pursuing a Ph.D. in cognitive science or one of the disciplines that it encompasses (e.g., cognitive psychology, sensation and perception, experimental psychology, neuroscience, etc.).

### **Overview**

Cognitive Science is an interdisciplinary field that studies the nature of thinking and the mind. It encompasses the efforts of researchers from several disciplines, including Psychology, Neuroscience, Computer Science, Philosophy,

Linguistics, Biology and a variety of social sciences. Cognitive science seeks to identify and understand the structures and processes that underlie cognition and examines topics such as sensation, perception, vision, attention, consciousness, learning, memory, language, problem solving, reasoning and decision making. Students will work throughout their two years of course work, scholarly studies and research in the cognitive science area.

#### **Methodology and Research Core (15 credits)**

PSYC 605. Intermediate Inferential Statistics (3 credits)

PSYC 606. Measurement Theory (3 credits)

PSYC 608. Multivariate Statistical Methods in Psychology (3 credits)

PSYC 700. Thesis Research (6 credits)

#### **Content Courses (9 credits)**

PSYC 613. Cognitive Science (3 credits)

PSYC 624. Neuroscience (3 credits)

PSYC 610. Applied Behavior Analysis (3 credits)

or PSYC 616. Social Psychology (3 credits)

#### **Concentration Electives (12 credits; approved by adviser)**

#### **Other Experiences**

In addition to course work and other requirements of the psychological sciences program (e.g., Apprenticeship, Research Roundtable), students participate in a monthly concentration meeting where faculty and students discuss published research and professional issues related to cognitive science.

### **Quantitative Psychology Concentration**

Dr. Sara J. Finney, Concentration Coordinator

#### **Purpose**

The quantitative methods concentration within the psychological sciences M.A. program has two basic purposes.

First, the concentration will prepare students for a number of master's-level careers involving applied measurement, applied statistics, program evaluation and assessment within a variety of settings (e.g., colleges and universities, corporations, testing companies, state departments of education and school districts).

Second, completion of this concentration will prepare students for doctoral study in quantitative methods (e.g., assessment, measurement, statistics, program evaluation).

#### **Overview**

In this concentration, students will expand their study of quantitative methods (statistics, measurement and assessment) while extending their understanding of psychological theories and principles. Students in this concentration are required to complete their research apprenticeship and thesis requirements through collaborative research activities with faculty who are studying or using sophisticated methodology.

#### **Methodology and Research Core (15 credits)**

PSYC 605. Intermediate Inferential Statistics (3 credits)

PSYC 606. Measurement Theory (3 credits)

PSYC 608. Multivariate Statistical Methods in Psychology (3 credits)

PSYC 700. Thesis Research (6 credits) <sup>2</sup>

#### **Content Courses (9 credits chosen from the following)**

PSYC 610. Applied Behavior Analysis (3 credits)

PSYC 613. Cognitive Science (3 credits)

PSYC 616. Social Psychology (3 credits)

PSYC 624. Neuroscience (3 credits)

#### **Concentration Courses (6 credits)**

PSYC 695. Practicum: Quantitative (3 credits)

PSYC 812. Assessment Methods and Instrument Design (3 credits)

#### **Concentration Electives (6 credits; approved by adviser)**

<sup>2</sup> For students in this concentration, the thesis must be an empirical study that either (a) focuses on an assessment, measurement, or statistical issue or (b) demonstrates the application of sophisticated statistics or measurement techniques.

**Other Experiences**

In addition to course work and other requirements of the psychological sciences program (e.g., Apprenticeship, Research Roundtable), students participate in a monthly concentration meeting where faculty and students discuss published research and professional issues related to quantitative methods in psychology. Additionally, students in the quantitative methods concentration will become acquainted with and involved in the activities of the Center for Assessment and Research Studies (CARS). Many students in the quantitative methods concentration receive graduate assistantships to work at CARS, and students graduating from this concentration have an excellent record of being accepted into Ph.D. programs in quantitative psychology and in assessment and measurement.

---

# Assessment and Measurement Doctoral Program

## Assessment and Measurement Doctoral Program

(540) 568-7132

<http://www.jmu.edu/assessment/graduate/PhdOverview.htm>

### Program Director

Dr. Deborah Bandalos

---

## Application Date

The application date for the fall semester is February 1. All application forms and support materials are due at this time for applicants seeking assistantship funding. Programs may require a criminal history check as part of the final admissions process.

## Admission Requirements

- Completion of an advanced degree (M.A./M.S. or Ed.S.) in psychology, education, statistics or a related field.
- General GRE scores (verbal, quantitative and analytic writing).
- Statement of interest in the program and professional goals.
- Three letters of recommendation from professionals familiar with the applicant's academic work and relevant professional experiences.
- Transcripts from all undergraduate and graduate programs attended.
- A current professional vita or resume.
- Representative samples of professional writing.
- Personal interview.

## Mission

The vision of the Doctor of Philosophy program in assessment and measurement at JMU is to establish and maintain a national reputation as a valuable resource in educational outcomes assessment and applied measurement. As such, the program will help meet the growing demand for quality assurance and program accountability. To attain this vision, the mission of the doctoral program is to:

- Provide training for its graduate students that combines rigorous, theory-based course work in assessment and measurement with extensive real-world assessment experiences. This training will prepare students to address the increasing external pressures for assessment data as well as the need for formative feedback for program development.
- Conduct high-quality scholarship that will significantly advance knowledge in the fields of assessment and applied measurement and promote more effective assessment methods.
- Provide, both for JMU and outside constituencies, valuable service activities that promote effective assessment practice and contribute to the professional well-being of the fields of assessment and measurement.

The focus of the assessment training in the Ph.D. program is on the design of program assessment strategies, identification of appropriate existing and/or construction of new assessment measures/methods, empirical analysis of aggregate data, appropriate use of assessment results, and effective communication of assessment to a variety of audiences. Moreover, with the extensive background in measurement theory provided, the graduates of this Ph.D. program are trained as experts in assessment, enabling them to enter the field equipped with a knowledge base that extends far beyond the pragmatic aspects of implementing assessment strategies. Although the program focuses on applications of assessment and measurement in higher education, students can apply many of the skills and knowledge gained in the program to assessment and measurement in K-12 education as well as to the health care and business sectors. Students are not trained to perform psychological assessment of individuals for clinical diagnostic or therapeutic purposes, as training in this concentration revolves around the design and improvement of methods to measure program effectiveness.

The Ph.D. program in assessment and measurement adheres to a practitioner-scientist, applied model of graduate training, built on a solid theoretical base in scientific psychology. The program integrates selected, major pedagogical foundations of psychology, assessment and applied experience. The training model is further designed to capitalize on the previous educational and professional experiences and training of incoming students to expand, strengthen and supplement these skills.

## Curriculum

The program for a given student will consist of the 57 required hours plus any additional course work that the program faculty deems is needed to fulfill the foundational course work expectations.

### Assessment and Measurement Doctoral Program Degree Requirements

Students complete course work in the following areas:

- Foundational graduate course work in psychology
- Research and inferential statistics
- Measurement theory
- Course work in at least two of the following areas: social psychology, cognitive psychology or student development.

Required Courses	Credit Hours
PSYC 604. Computer-Assisted Data Management	3
PSYC 608. Multivariate Statistics	3
PSYC 770. Assessment and Public Policy	3
PSYC 812. Assessment Methods and Instrument Design	3
PSYC 814. Performance Assessment	3
PSYC 816. Classical Test Theory and Generalizability Theory	3
PSYC 825. Doctoral Seminar (3 occasions; 1 credit hour per offering)	6
PSYC 855. Assessment and Consultation Practice	3
Two of the following four courses:	6
PSYC 830. Structural Equation Modeling	
PSYC 832. Item Response Theory	
PSYC 834. Computers and Testing	
PSYC 836. Hierarchical Linear Modeling	
Approved Electives	12
Required Research Experiences:	
PSYC 879. Doctoral Assessment Practicum	3
PSYC 900. Doctoral Dissertation	9
	57

# Combined-Integrated (C-I) Doctoral Program in Clinical and School Psychology

## Program Director

Dr. Gregg R. Henriques  
Phone: (540) 568-7857  
<http://www.psyc.jmu.edu/cipsyd/>

---

## Application Date

The application date for the fall semester is February 1. Programs may require a criminal history check as part of the final admissions process.

## Admission Requirements

Admission to the C-I doctoral program requires that applicants:

- have completed an advanced degree (M.A./M.S. or Ed.S.) in clinical, school, or counseling psychology or a related field.
- provide general GRE scores (verbal, quantitative and analytic) and advanced Psychology GRE scores (previous GRE scores may be accepted).
- submit a typed statement of professional goals.
- submit three letters of recommendation from professionals familiar with their academic work and any relevant professional experiences.
- submit transcripts from all undergraduate and graduate programs attended.
- submit a representative work sample of current skills (e.g., test reports, counseling summaries, etc.).

The program is typically initiated at a post-masters degree level. However, in some rare cases students may be admitted without a master's degree. Any exceptions to these admission requirements must be approved by the core faculty of the combined-integrated program.

Five to seven full-time students are admitted each year. Priority will be given to application materials received by February 1 in anticipation of fall admission. Group and individual interviews with both faculty and current students to assess abilities, characteristics and readiness for the program are scheduled in February and March. All applicants are notified of admission decisions no later than March 15. Students offered admission are expected to reply no later than April 1.

## Mission

The mission of the C-I Doctoral Program is to produce leading professional psychologists who are broadly trained in the science and practice of psychology, actively self-reflective, optimally prepared to work in a wide variety of settings with diverse clientele, and demonstrably committed to an ethic of personal responsibility, social awareness, and global engagement.

Combined-Integrated training is an innovative concept that merges the traditional professional areas of clinical, counseling and school psychology into a generalist approach that provides students with a broad foundation from which to operate. A generalist orientation opens up pathways to draw from each of the three practice areas in a manner that is complementary and synergistic. The rationale for C-I training stems from the fact that there is a) tremendous overlap in the basic training of the three specialty areas of clinical, counseling and school psychology; b) there is a need to define the core competencies of professional psychologists; and c) there are emerging trends for greater unity within the field.

In regards to training objectives, we work to graduate C-I psychologists to serve as general practitioners, primary care providers and health service psychologists who can:

- understand and integrate contributions and perspectives from three major areas of applied activity in our larger field (i.e., clinical, counseling and school psychology);

- develop conceptualizations of human behavior that integrate biological, psychological and social dimensions of analysis;
- integrate various theoretical perspectives into a coherent whole; and
- work effectively in an interprofessional context.

In addition to the foundational course work listed in the CI handbook, the following are required courses that must be taken at JMU; any exceptions to this curriculum must be approved by the Core Faculty.

Required Courses	Credit Hours
PSYC 668. Couple and Family Systems	3
PSYC 826. Advanced Seminar in Developmental Psychopathology	3
PSYC 852. Advanced Consultation and Supervision	3
PSYC 864. Processes of Psychotherapy	3
PSYC 865. Integrative Psychotherapy for Adults	3
PSYC 878. Integrative Doctoral Practicum	16
One course in psychological assessment	3
One course in psychotherapeutic interventions	3
PSYC 825. Seminar in C-I Psychology	8
PSYC 881. Issues and Techniques in Research and Evaluation	3
PSYC 895. Practicum in College Teaching	2
PSYC 890. Predoctoral Internship	3
PSYC 900. Doctoral Dissertation	6

---

59

A limited number of full-time students are admitted each year. All students receive a full-time teaching or graduate assistantship that includes tuition.

- The C-I program exhibits strong commitment to diversity through:
- A required course specific to multicultural issues
- Multicultural/gender issues covered in course work throughout the curriculum
- Practical experiences with clients from a variety of cultures and backgrounds
- Faculty with interests in international issues

## Curriculum

An individualized doctoral plan of study is developed for each student consisting of courses in psychological foundations as well as courses and field experiences in the required core curriculum. Academic progress is monitored throughout the program and feedback is provided to each student periodically.

Previous graduate course work may be accepted to meet the psychological foundations courses. A minimum of 59 credit hours of doctoral core courses, however, must be taken at JMU.

All students must complete a 12-month internship and a scholarly dissertation. Internships must be approved by the American Psychological Association or meet the standards set forth by APA. In addition, students completing the doctoral dissertation will be required to pay an additional fee (approximately \$55.00) for the electronic presentation of their research.

---

# Course Offerings

## Psychology

### **PSYC 501. Workshop in Psychology.** 1-3 credits.

Designed to provide a study of a particular topic of interest in psychology. Prerequisite: Permission of department head.

### **PSYC 515. Basic Counseling Skills.** 3 credits.

A basic counseling skills course designed for human services and mental health professionals without graduate training in counseling and for students from related disciplines who wish to acquire counseling skills.

### **PSYC 525. Role and Function of the School Psychologist.** 3 credits.

Provides an understanding of the organization and operation of public schools and the educational and mental health practice settings as well as legal and ethical issues and responsibilities with which a school psychologist must deal.

### **PSYC 527. Psychological Foundations of Education.** 3 credits.

Psychological theories and research applied to classroom and school settings.

### **PSYC 530. The Psychology of Child Abuse and Neglect.** 3 credits.

Review of current psychological literature on child abuse and neglect including identification, etiology, treatment, prevention and legal aspects. Family violence issues are also discussed.

### **PSYC 600. Introduction to Measurement and Statistics.** 3 credits.

An introduction to measurement and statistical tools used in conducting research. Specific topics include: reliability and validity; research methods and statistical analysis; quantitative and qualitative methods; needs assessment and program evaluation; use of technology; and legal and ethical issues of research.

### **PSYC 601. Special Topics in Psychology.** 1-3 credits.

In-depth study of current topics in the field of psychology. Content varies depending on the topic and instructor. May be repeated for different Special Topics. Prerequisite: Permission of instructor.

### **PSYC 604. Computer Assisted Data Management and Analysis.** 3 credits.

Provides an introduction to the management and analysis of data using statistical software packages. Emphasis is placed on planning data files, performing basic data transformations and statistical analyses, and transferring data across software programs. Prerequisites: Completion of an undergraduate or graduate introductory statistics course and permission of instructor.

### **PSYC 605. Intermediate Inferential Statistics.** 3 credits.

Provides an understanding of types of research, inferential statistics, and research report development. Special emphasis on experimental designs, power analysis, analysis of variance, multiple comparisons, and effect sizes. Prerequisite: Permission of instructor.

### **PSYC 606. Measurement Theory.** 3 credits.

Measurement applications of classical test score theory, generalizability measurement theory, scale construction concepts, test bias, standard setting techniques and item response theory. Prerequisite: PSYC 605.

### **PSYC 607. Assessment Procedures in Counseling.** 3 credits.

A study of individual and group approaches to assessment and evaluation. Activities include administering, scoring, and interpreting tests of ability, interest, personality, and achievement for both children and adults. Students also assess case studies, perform a self-analysis, and review selected assessment procedures. Computer-assisted assessment and ethical issues are addressed. Prerequisite: PSYC 600 or permission of instructor.

### **PSYC 608. Multivariate Statistical Methods in Psychology.** 3 credits.

Continuation of PSYC 605, with emphasis on multivariate analyses, including multiple regression, discriminant analysis and MANOVA. Prerequisite: PSYC 605.

### **PSYC 609. Applied Research Methods.** 3 credits.

Provides an understanding of applied research methods, including Qualitative Research, Quasi-Experimental designs, and program evaluation. Prerequisite: PSYC 605.

### **PSYC 610. Applied Behavior Analysis.** 3 credits.

This course examines the science and practice of applied behavior analysis, which focuses on how environmental events influence the development and change of behavior repertoires, emphasizing the knowledge and skills

necessary to plan, implement and assess interventions for behavior problems in a variety of settings including health and human services, education, business and industry, and with individuals from diverse populations. Prerequisite: Permission of instructor.

**PSYC 611. Comparative Psychology. 3 credits.**

Introduces graduate students to basic concepts, methods and theories in the study of animal behavior. Topics covered include the evolution of behavior, communication, sensory processes, reproductive behavior, parental behavior, sociality, aggression, territoriality and feeding behavior.

**PSYC 612. Personality Theories. 3 credits.**

Major theories of personality, including historical and philosophical assumptions underlying them, with a consideration of research stimulated by these theories.

**PSYC 613. Cognitive Science. 3 credits.**

Examines a wide range of human cognitive processes including pattern recognition, attention, memory, language and decision making. The course emphasizes research methods, empirical findings and applications in selected areas.

**PSYC 614. Advanced Developmental Psychology. 3 credits.**

An overview of the theories, research, and applications relevant to the development of behavior and mental processes throughout the life span.

**PSYC 616. Social Psychology. 3 credits.**

An advanced study of the research and theory of the way an individual's social behavior is influenced by the behavior and attitudes of other individuals.

**PSYC 617. History of Psychology. 3 credits.**

The history of psychology as depicted through the development of American psychology. Consideration of the history of schools of psychology as well as the historical development of areas such as clinical, physiological, developmental, industrial, cognitive and social psychology.

**PSYC 618. Social and Emotional Development. 3 credits.**

An examination of how developmental psychologists collect and interpret data; how theory guides research and practice. Topics include: early determinants of behavior; identity development; prosocial and antisocial behavior; family, peers, and schools. Exemplars, such as attachment, are used to show how research, theory, culture, and clinical practice shape a topical area. Prerequisite: Permission of the instructor.

**PSYC 619. Cognitive Development. 3 credits.**

This course examines the characteristics of and processes through which thinking changes with development. Important research paradigms and theoretical perspectives, as well as various practical implications of related research will be explored. Topics include perception, memory, language, reasoning, individual differences, academic skills and selected applied topics.

**PSYC 622. Abnormal Psychology. 3 credits.**

A critical review of the issues, research and etiological aspects of the mental disorders, as well as the general concepts used in the area of psychopathology. Topics include models of pathology and wellness, mind and body problems, and interprofessional relationships.

**PSYC 624. Neuroscience. 3 credits.**

An analysis of brain/behavior relationships with an emphasis on neurological and biochemical mechanisms. Neuropsychological theory and psychopharmacology will be emphasized.

**PSYC 626. Advanced Developmental Psychopathology. 3 credits.**

An overview of child and adolescent behavior disorders and psychopathology with an emphasis on diagnostic and treatment issues.

**PSYC 630. Clinical Mental Health Counseling. 3 credits.**

An introduction to the history, profession, and practice of clinical mental health counseling. Specific topics include: intervening with individuals, groups, families; developing and evaluating programs; consulting with other professional helpers; promoting personal and systemic well-being; dealing with diverse clients; and addressing legal, ethical, and professional identity issues.

**PSYC 640. School Counseling. 3 credits.**

An introduction to the history, theory, philosophy, principles, organization, and personnel practices of school counseling. Specific topics include: developing and evaluating programs; intervening with individuals, groups, parents and schools; dealing with diverse students; and addressing legal, ethical and professional identity issues.

**PSYC 643. Advanced School Counseling. 3 credits.**

A study of the role of the counselor in elementary, middle, and secondary schools with an emphasis on the function of counseling, consultation and coordination. Techniques and materials used with children, teachers and parents will also be examined. Prerequisite: PSYC 640 or permission of instructor.

**PSYC 645. Student Personnel Services. 3 credits.**

A detailed study of student services offered in colleges and universities. Legal, ethical and professional identity issues are also examined.

**PSYC 646. The American College Student. 3 credits.**

An examination of developmental theory and review of the literature and research related to the American college student.

**PSYC 649. Multiculturalism, Diversity and Difference: Theory, Research and Practice in Student Affairs. 3 credits.**

An environment for students to cognitively and experientially explore issues of multiculturalism, diversity and differences as it relates to work in student affairs, student services and higher education through assignments, exercises, discussions, readings and reflection.

**PSYC 650. Organization and Administration of Student Services. 3 credits.**

A study of organizational and management theory/practice in higher education. Upon completion of the course, students will have an understanding of the college/university as an organization and the role that student service programs play in the mission of the institution. Prerequisite: PSYC 645.

**PSYC 651. Supervision and Consultation Processes in Student Personnel. 3 credits.**

This course will focus on the processes of supervision and consultation as they apply to student personnel management. Opportunities will be provided to make practical application of management knowledge and organization theories to personnel issues. Prerequisite: PSYC 650.

**PSYC 660. Counseling Theories. 3 credits.**

A study of the philosophy and principles of various schools of counseling, and the techniques employed in the counseling process by practitioners in each of these schools.

**PSYC 661. Counseling Techniques. 3 credits.**

An opportunity to learn fundamental counseling skills that form the foundations of successful counseling practice. Students develop these skills through experiential learning activities, directed reading assignments, discussions and lectures, practice in small groups, and participation in critiques of videotaped microcounseling sessions. Prerequisite: Permission of instructor.

**PSYC 663. Substance Abuse Counseling. 3 credits.**

A study of substance abuse to include related personal, social and physiological factors, and methods of rehabilitation and counseling for the chemically dependent. Prerequisite: PSYC 515 or equivalent.

**PSYC 664. Counseling Process. 3 credits.**

An experiential study of the relationship between counselor and client. Explores the phases of relationship from initiation to termination, including predictable crises and issues which normally arise. Analysis of resistance, transference and counter transference, dependency, and termination issues will be discussed. Attention will also be given to gender and diversity issues. Prerequisite: PSYC 660, PSYC 661 or permission of instructor.

**PSYC 665. Group Counseling. 3 credits.**

A study of the theories, techniques, dynamics, process and practice of group counseling. Students become members of a laboratory group and also conduct research into issues of group counseling. Each student pairs with a partner, creates an intervention plan, and facilitates the group process. Prerequisites: PSYC 660 and PSYC 661 or permission of instructor.

**PSYC 668. Couple and Family Systems. 3 credits.**

A study of the dynamics of couple and family living, focusing on social change, social stratification, mate selection, marriage, divorce, child rearing, sexuality and individual behavior, and its effect on the family structure. Prerequisite: Permission of instructor.

**PSYC 669. Career Development. 3 credits.**

The impact of career choice throughout the life span is explored. Vocational theories and a variety of approaches to career decision-making will be introduced. Several career-related assessment instruments will be used to help students develop skills in administration and interpretation.

**PSYC 674. Assessment I. 3 credits.**

Students develop proficiency with administration, interpretation and reporting results of current cognitive ability measures and the issues in nondiscriminatory multicultural assessment. Prerequisite: Permission of instructor.

**PSYC 680. Independent Study. 1-3 credits.**

An opportunity for independent study or research in an area of special interest. Prerequisite: A written plan must be submitted and approved by a faculty supervisor, the student's program director and the department head prior to registration.

**PSYC 685. Psychopathology: Diagnosis and Intervention Planning. 3 credits.**

Training and practice in the following: making reliable and valid diagnoses of mental disorders; appropriately addressing the ethical and cultural issues involved; performing collaborative diagnostic interviews; participating in effective case conferences; and planning interventions to achieve therapeutic goals. Prerequisite: PSYC 600, PSYC 661 or permission of instructor.

**PSYC 690. Experimental Analysis of Behavior. 3 credits.**

The experimental analysis of behavior (EAB) involves identifying functional relations between behavior and its controlling variables, primarily in individual organisms, and typically under rigorous laboratory conditions. Focus will be on the findings from empirical research with some attention to extensions of the fundamental principles of behavior to applied behavior analysis (ABA) and to the underlying philosophy for both EAB and ABA, radical behaviorism.

**PSYC 695. Practicum. 1-6 credits.**

Provides a variety of supervised field, laboratory or school experiences. Course will be graded on an S/U basis. Prerequisite: Permission of instructor.

**PSYC 698. Comprehensive Continuance. 1 credit.**

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

**PSYC 699. Thesis Continuance. 1-2 credits.**

Continued study, research and writing in the area of thesis concentration. (This course does not count towards fulfilling the required hours for the degree; it may be repeated as needed. Students who have registered for six hours of thesis credit but have not finished the thesis must be enrolled in this course each semester until they complete the thesis.)

**PSYC 700. Thesis Research. 3-6 credits.**

This course is graded on a satisfactory/unsatisfactory/in progress (S/U/I) basis.

**PSYC 710. Counseling Strategies: Special Topics. 1 credit.**

Training and practice in the use of a specific counseling method. Prerequisite: PSYC 660, PSYC 661 or permission of instructor.

**PSYC 710A. Counseling Strategies: Crisis Intervention. 1 credit.**

Training and practice in crisis intervention with individuals, groups, and communities. Specific techniques include suicide prevention, telephone intervention, psychiatric emergency work, outreach strategies, traumatic stress counseling, and disaster intervention. Prerequisite: PSYC 660, PSYC 661 or permission of instructor.

**PSYC 710B. Counseling Strategies: Brief Counseling. 1 credit.**

An introduction to time-limited counseling. Solution-focused, narrative, and constructivist approaches to counseling are discussed. Students practice the micro-skills involved in goal-directed, efficient counseling strategies. Prerequisite: PSYC 660, PSYC 661 or permission of instructor.

**PSYC 710C. Counseling Strategies: Theory and Techniques of Play Therapy. 1 credit.**

Overview of the principles of play therapy. Training and practice in basic play therapy techniques. Prerequisite: PSYC 660, PSYC 661 or permission of instructor.

**PSYC 710D. Counseling Strategies: Relaxation and Hypnotic Techniques. 1 credit.**

Training and practice in the use of relaxation and hypnotic techniques to reduce anxiety, manage pain, envision goals, enhance personal efficacy, and facilitate behavioral change. Specific topics include mind/body interaction, indications and counter-indications, and ethical issues. Prerequisite: PSYC 660, PSYC 661 or permission of instructor.

**PSYC 727. Instructional Interventions: Science and Practice. 3 credits.**

Principles and research relevant to teaching and learning in schools. Emphasis will be placed on the culture/organization of the schools, curriculum and interprofessional collaborations. The psychology of reading will be highlighted, including assessment, interventions, and work with English Language Learners. Prerequisite: Permission of instructor.

**PSYC 748. Gender Issues in Counseling. 3 credits.**

An exploration of gender issues as they relate to counseling theories and techniques. The social construction of gender roles as well as the gendered nature of society are discussed. Implications for working with women, men, gay/lesbian/bisexual, and transgendered individuals are addressed. Prerequisite: PSYC 660, PSYC 661 or permission of instructor.

**PSYC 749. Multicultural Perspectives of Intervention. 3 credits.**

Offers a cognitive and experiential study of sociological and psychological variables, such as race, gender and socioeconomic status, that influence the professional helping relationship. Culturally relevant models of counseling theory and practice are presented. Prerequisite: Permission of instructor.

**PSYC 750. Consultation and Intervention Techniques. 3 credits.**

Provides the knowledge and skills necessary to engage in consultation and systems level intervention within educational and mental health settings. Prerequisite: Permission of the instructor.

**PSYC 751. Psychotherapy with Children and Adolescents. 3 credits.**

Theoretical and cognitive bases for understanding frequently used therapeutic strategies and techniques. Specific sections will focus on general practices and procedures in psychotherapy, and on therapeutic strategies for children, adolescents and families.

**PSYC 752. Theory and Practice of Play Therapy. 3 credits.**

An introduction to the historical and contemporary context of play therapy including an overview of play therapy theories and methods. Examination of cultural influences, ethical issues, and outcome research in play therapy. Prerequisite: PSYC 660, PSYC 661 or permission of instructor.

**PSYC 755. Cognitive and Behavioral Interventions. 3 credits.**

An overview of the theoretical and applied aspects of operant behavior modification and cognitive behavior therapy. The course focuses on applications with children, adolescents, and their families in educational and mental health settings.

**PSYC 760. Supervision and Consultation for Counselors. 3 credits.**

The course includes an introduction to concepts, processes, and styles of supervision. It offers students the opportunity to gain experience in providing supervision to other counselors in training. The course also provides students with the knowledge and skills necessary to engage in consultation, negotiation/mediation, and systems level intervention in mental health and education settings. Prerequisite: PSYC 660, PSYC 661, PSYC 664 or permission of instructor.

**PSYC 768. Couple and Family Counseling. 3 credits.**

A study of the various approaches to couple and family counseling, focusing on theory, techniques and research that relate to the counseling process. Prerequisites: PSYC 661 and PSYC 668 or permission of instructor.

**PSYC 770. Assessment and Public Policy. 3 credits.**

Delineates and compares the history and role of assessment, accountability, and quality assurance to the governance, funding, and purposes of higher education; describes an implementation process of assessment for educational programs and services. Prerequisite: PSYC 600.

**PSYC 777. Assessment II. 3 credits.**

An advanced laboratory course for students in school psychology. Covers comprehensive evaluation of domains and abilities which relate to academic success. Enrollment is limited to allow individual instruction and supervision. Prerequisite: PSYC 674 or permission of instructor.

**PSYC 778. Advanced Practicum. 1-6 credits.**

Provides a variety of supervised field experiences in schools and other settings. The student may re-enroll in this course for different types of practicum experiences. Course is graded on an S/U basis. Prerequisite: Permission of instructor.

**PSYC 779. Assessment III. 3 credits.**

Advanced students achieve basic understanding and competency in the administration and interpretation of personality assessment procedures most frequently used in school settings with children and adolescents. Enrollment is limited to allow individualized instruction and supervision. Prerequisites: PSYC 606, PSYC 674, and PSYC 777 or permission of instructor.

**PSYC 790. Internship. 3-6 credits.**

Provides a student with a supervised field experience. Students should contact their program director for specifics

concerning the internship experience. Course will be graded on an S/U basis. Prerequisite: Permission of program director.

**PSYC 799. Educational Specialist Research Project Continuance.** 1-2 credits.

Continued study, research and writing in the area of Educational Specialist research project. Course may be repeated as needed but does not count toward fulfilling the required hours for the degree. (Students who have registered for the maximum hours of PSYC 800, Educational Specialist Research Project, but have not finished the project must be enrolled in this course each semester until they complete the research project.)

**PSYC 800. Educational Specialist Research Project.** 1-3 credits.

Opportunity for advanced applied research in an area of special interest to a school psychology or community counseling student in an Educational Specialist program. Specific course requirements are listed in the separate research project guidelines for school psychology and community counseling students. Course is graded on an S/U basis. Successful completion of the research project fulfills the comprehensive examination requirement for the School of Psychology educational specialist degree. Prerequisite: Permission of program director.

**PSYC 805. Single Case Experimentation.** 3 credits.

This course examines the logic and practical considerations of experimentation in research using small numbers of subjects, as it relates to single case experimental designs, which demonstrate functional relationships between adjustments in independent variables and their effects upon dependent variables in repeated measures behavioral research.

**PSYC 812. Assessment Methods and Instrument Design.** 3 credits.

This course covers reliability and validity issues associated with instrument and methodology design. Delineation of goals and objectives, assessment purposes, test and task specification, item/task development, pilot, review, and maintenance procedures will be applied. Consideration of multifaceted validity and validation issues will be stressed throughout the process. Prerequisite: PSYC 605, PSYC 606 or permission of instructor.

**PSYC 814. Performance Assessment.** 3 credits.

The optimal use of tools that assess products and processes is explored within a variety of assessment contexts. This course focuses on the design, development and implementation of performance-based assessment. Task analysis and design, scoring rubric development and use, and assessment deployment are covered through critique and practice. Potential benefits offered by computer-based administration of performance assessments are introduced. Particular emphasis is given to validity issues throughout the course. Prerequisite: PSYC 606.

**PSYC 816. Classical Test Theory and Generalizability Theory.** 3 credits.

This course examines classical test theory and generalizability theory and their application to the practice of assessment. As a foundational level, model assumptions are explored and used to understand the development of different notions of reliability and dependability. At a practical level, statistical techniques developed from these two theories will be applied to develop and/or improve assessment practices. Prerequisite: PSYC 606.

**PSYC 822. Assessment in Early Childhood Special Education.** 3 credits.

(Cross-listed as EXED 622.)

This course provides the student with exposure to screening assessment and diagnostic procedures utilized in the identification of handicapped students ages 0-5. A case study approach to diagnostics is emphasized. Family assessment is also an integral part of the course. Prerequisites: Permission of the instructor and EXED 621 or equivalent.

**PSYC 825. Doctoral Seminar in Professional Psychology.** 1-3 credits.

This course covers issues and content designed to foster the development of the student's identity as a doctoral-level professional psychologist. Course is graded on S/U basis.

**PSYC 826. Advanced Seminar in Developmental Psychopathology.** 3 credits.

This course reviews at the doctoral level current research and theory regarding childhood disorders, their origins, their consequences for life span development, and the factors that mitigate against them. Specific topics include theories of development and psychopathology; taxonomy and diagnosis; longitudinal studies of continuity and change; development of depression, aggression, and anxiety; and resilience.

**PSYC 830. Structural Equation Modeling.** 3 credits.

Exploratory and confirmatory factor analysis, path analysis and relevant aspects of measurement theory are introduced. In this context, several mathematical and technical issues about model fitting are presented: the statistical requirements for a model, estimators and estimation, model evaluation, model modification, software use, and pertinent troubleshooting strategies. Prerequisites: PSYC 606 and PSYC 608.

**PSYC 832. Item Response Theory. 3 credits.**

This examines the use of Item Response Theory models for test construction and ability estimation. Models for tests with dichotomous and polytomous items will be covered. Other topics for discussion include advantages and disadvantages of IRT relative to Classical Test Theory, the detection of differential item functioning (or item bias), and the role of IRT in Computer Adaptive Testing. Prerequisite: PSYC 606.

**PSYC 834. Computers and Testing. 3 credits.**

This course focuses on the computer as a medium for the administration and scoring of achievement tests. Strengths and limitations of current computerized testing methods are addressed, as well as future issues and challenges. Topics to be discussed include linear and adaptive tests, problem simulations, performance assessment, and expert systems. Prerequisites: PSYC 606 and PSYC 832.

**PSYC 836. Hierarchical Linear Models. 3 credits.**

This course will illustrate how to use Hierarchical Linear Models (HLMs) to answer research questions in education and the social sciences. Students will learn HLM through applied experiences with a variety of different hierarchical data structures (e.g., students within schools, patients within clinics), including longitudinal and met-analytic data. Prerequisite: PSYC 608.

**PSYC 840. Qualitative Research Design and Analysis. 3 credits.**

This course is designed to give students an introduction to the philosophical, conceptual, and practical basis of qualitative research. Provides an introduction to all phases of qualitative research design, developing research questions, doing data collection and analysis and writing a qualitative research proposal. Prerequisite: Permission of instructor.

**PSYC 850. Special Topics in Assessment and Measurement. 3 credits.**

In-depth study of current topics in the field of assessment and measurement. Content will vary depending on the topic and instructor. May be repeated for different special topics. Prerequisite: Permission of instructor.

**PSYC 852. Advanced Consultation and Supervision. 3 credits.**

An advanced course in models of consultation; supervision and leadership/management. Prerequisite: Permission of instructor.

**PSYC 855. Assessment Consultation and Practice. 3 credits.**

This course provides guided opportunities for supervised application of sets of assessment skills and competencies with the development of professional self as an assessment practitioner. Students join with center faculty members to engage in ongoing assessment projects concerning at-risk students, alumni surveys, academic undergraduate and graduate degree programs, general education, academic program reviews, and distance education programs. Ethics will be emphasized, spanning the continua of assessment practice from establishing consultation relationships, assessment design, data collection, analysis, maintenance and archiving of data, and report writing to presentation of findings.

**PSYC 864. Processes of Psychotherapy. 3 credits.**

This class is a laboratory experience which explores the phases of the therapeutic relationship between therapist and client. The framework for conceptualizing psychotherapy will be the integration of the interpersonal approach with a multi-model, systems orientation. Topics such as diversity, resistance, transference and countertransference will be discussed.

**PSYC 865. Integrative Psychotherapy for Adults. 3 credits.**

An advanced course surveying the major approaches to psychotherapy (e.g., psychodynamic, cognitive, behavioral, and humanistic) in a manner designed to provide students with ways of integrating these approaches into a coherent theoretical model that can guide conceptualizations and interventions during the therapeutic process.

**PSYC 874. Cognitive Assessment. 3 credits.**

Students achieve basic understanding and competency in the administration and interpretation of intellectual and academic assessment procedures for children, adolescents and adults across a variety of settings and clinical areas. Issues of nondiscriminatory multicultural assessment will also be addressed. Students are also enrolled in a lab (PSYC 878) as part of this course. Prerequisite: Permission of instructor.

**PSYC 876. Personality Assessment. 3 credits.**

Students achieve a basic understanding and competency in the administration and interpretation of personality assessment procedures for children, adolescents and adults across a variety of settings. Issues of nondiscriminatory multicultural assessment will also be addressed. Prerequisite: Permission of instructor.

**PSYC 877. Advanced Seminar In Child and Family Assessment. 3 credits.**

This doctoral-level course reviews advanced methods for the assessment of children and families, and focuses on the development of a case formulation that integrates test findings and informs intervention efforts.

**PSYC 878. Doctoral Practicum. 1-6 credits.**

Provides a variety of supervised field experiences for advanced, applied psychology doctoral students. Students may enroll for several types of practicum experiences (e.g., clinic, school, HDC). Course is graded on an S/U basis.

Prerequisite: Permission of instructor.

**PSYC 879. Doctoral Assessment Practicum. 3 credits.**

This course provides guided opportunities for supervised application of sets of assessment skills and competencies with the development of professional self as an assessment practitioner. Students join with center faculty members to engage in ongoing assessment projects concerning at-risk students, alumni surveys, academic undergraduate and graduate degree programs, general education, academic program reviews, and distance education programs. Ethics will be emphasized, spanning the continua of assessment practice from establishing consultation relationships, assessment design, data collection and analysis, maintenance and archiving of data, and report writing to presentation of findings. Course will be graded on an S/U basis.

**PSYC 880. Introduction to Child and Adolescent Neuropsychology. 3 credits.**

This course will include a review of central nervous system (CNS) anatomy and physiology as it pertains to brain/behavior relationships and neuropsychological assessment. Emphasis is on providing a foundation for more intensive further evaluation and remediation within the school setting of children and adolescents surviving traumatic brain injury. Prerequisite: Permission of the instructor.

**PSYC 881. Issues and Techniques in Research and Evaluation. 1-3 credits.**

Opportunity for applied research and/or program evaluation in areas of special interest. Students will participate as full members of a research team and assist with the design of a study. This course will serve as a basis for preparing students to develop the proposal for their doctoral research project. Course is graded on an S/U basis. Prerequisites: PSYC 605 and PSYC 608 or equivalent, or permission of the instructor.

**PSYC 889. Advanced Personality Assessment. 3 credits.**

Critical review of theory, practice and research with regard to personality assessment techniques. Emphasis will be placed on teaching the Rorschach and MMPI, and using these and other assessment procedures to answer specific diagnostic questions (e.g., depression, psychosis, personality disorders, etc.). Prerequisite: PSYC 779 or equivalent.

**PSYC 890. Doctoral Internship. 6 credits.**

Supervised internship in a school and/or community agency approved by the Program Coordinator. Designed to meet APA internship guidelines. Course is graded on an S/U basis. Prerequisites: Completion of all course work and permission of program committee.

**PSYC 891. Doctoral Assessment Internship. 3 credits (can be taken for a second semester).**

Supervised assessment internship in a higher education, kindergarten through 12th-grade, business or health care setting that has been approved by the program coordinator. Typically involves the design and implementation of assessment strategies to meet the needs of the institution or agency. Course will be graded on an S/U basis. Prerequisites: Completion of all doctoral program course work, PSYC 878 and permission of the program committee.

**PSYC 895. Doctoral Practicum in College Teaching. 1-3 credits.**

This practicum course provides instruction, modeling, and supervision in teaching college or professional level learners. Students will teach undergraduate courses in psychology and/or make professional presentations, receiving feedback and supervision from the instructor. Prerequisites: Master's degree and permission of instructor.

**PSYC 899. Dissertation Continuance. 1-2 credits.**

Continued study, research and writing in the area of dissertation concentration. (This course does not count toward fulfilling the required hours for the degree; it may be repeated as needed. Students who have registered for six hours of dissertation credit but have not finished the dissertation must be enrolled in this course each semester, including summer, until they complete the dissertation.)

**PSYC 900. Doctoral Dissertation. 6-12 credits.**

Provides advanced research required of all doctoral candidates. Course is graded on an S/U basis. Prerequisites: completion of all course work and permission of program coordinator.

## Assistant Professors

A. Cleveland, G. Kirk, C. Koski, L. Peaslee, N. Swartz

---

## Admission

The MPA degree is the recognized professional degree in public administration and is appropriate for students pursuing public service careers in government, nonprofit organizations, and private sector firms providing services to governments. The MPA program welcomes applications from recent undergraduates and experienced professionals seeking to develop and strengthen a broad set of administrative skills.

To apply, applicants must submit:

- Recent scores from the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT).
- A statement of purpose, outlining professional goals and motivation for pursuing the MPA degree.
- A professional resume summarizing education, work, and volunteer experiences.
- Transcripts of all previous undergraduate and graduate work.
- Evidence of successful completion of previous coursework in U.S. government and statistics.

## Mission

The MPA Program promotes engaged citizenship and responsible public service. The curriculum cultivates effective and ethical analysts, managers, and leaders for work in local, national, and global contexts.

## Goals

- To offer a curriculum that allows public administration students to develop and strengthen technical competencies in the following areas: program design, implementation, and evaluation; human resources; budgeting and financial processes; information interpretation via quantitative and qualitative methods; and managerial strategies.
- To improve student understanding of institutional dynamics in the following areas: legal; economical; social; organizational behavior; and political.
- To strengthen student capacity for success in complex and rapidly-changing organizations.
- To promote the exercise of responsible leadership.
- To cultivate cultural competency for work in diverse settings.
- To provide outreach activities that engage students in regional communities and organizations.
- To establish the MPA program as a community resource for current and emerging leaders of public service organizations.
- To contribute to the fields of public policy and administration and the effective operation of public service organizations.
- To develop a faculty that is prepared to meet the needs of an evolving and diverse student body and community.

- To maximize the resources of the MPA program by demonstrating high levels of faculty involvement, stakeholder participation, innovative problem-solving, and adaptability.

## Master of Public Administration

The Master of Public Administration degree requires 42 credit hours of course work including six credits of internship. The internship can be waived for "in-service" students, those presently employed or recently employed in a substantive position in the public sector. The curriculum consists of a common component, a concentration and a capstone course. The common curriculum enables students to function effectively in the public and nonprofit sectors. Students will learn concepts of organization, public management, human resource administration, program and policy evaluation, budgeting, and administrative law.

There are four defined concentrations: public and nonprofit management, management in international nongovernmental organization, strategic planning for international stabilization and recovery, and public sector communication. In addition, students may design an individualized concentration in consultation with the coordinator. The individualized concentration may draw upon courses in other graduate programs at JMU and graduate courses offered by other accredited institutions.

In addition to a concentration, students who do not have a significant professional work background in administration are expected to complete a supervised internship with a public or nonprofit agency. The internship will support the student's concentration. All students must take the program capstone course in their final spring semester of study. The capstone emphasizes professional and ethical application and documentation of core public management competencies.

Students admitted to the program must seek advice from the program coordinator before registering for classes. The coordinator will also assist students in planning a program of study.

### Master of Public Administration Degree Requirements

Core Curriculum	Credit Hours
PUAD 573. Public Financial Management	3
PUAD 605. Research Design for Policy Evaluation	3
PUAD 606. Program Evaluation in Public Administration	3
PUAD 615. Legal Environment of Public Administration	3
PUAD 620. Seminar in the Politics of the Administrative Process	3
PUAD 625. Public Organizational Behavior	3
PUAD 630. Seminar in Public Personnel Administration	3
PUAD 641. Public Budgeting	3
<b>Internship (choose one):</b>	6
PUAD 696. Internship in Public Administration	
PUAD 697. Internship in NGO Management	
<b>Concentration course work</b>	9
<b>Choose one (details below):</b>	
Public and Nonprofit Management	
Management in International Nongovernmental Organizations 1	
Strategic Planning for International Stabilization and Recovery	
Public Sector Communication	
Individualized Concentration	
<b>Capstone Course</b>	3
PUAD 692. Public Administration Capstone	
<b>Total Credit Hours</b>	42

## Concentration (choose one)

### Public and Nonprofit Management

Required Courses	Credit Hours
<b>Choose three:</b>	9
PUAD 512. Intergovernmental Relations	
PUAD 560. Regionalism and Urban Policy	
PUAD 573. Economic and Community Development	
PUAD 574. Tools for Public Management	
PUAD 662. Governance and Nonprofit Organizations	

---

9

### Management in International Nongovernmental Organizations <sup>1</sup>

Required Courses	Credit Hours
<b>Choose three:</b>	9
PUAD 650. Management in International Nongovernmental Organizations	
MBA/PUAD 651. The International Non-Profit Sector	
PUAD 652. The Politics of International NGO Management	
PUAD 653. Ethics and International NGOs	

---

9

<sup>1</sup> This concentration is only available in summer session as part of the Management in International Nongovernmental Organizations Certificate Program. Students wishing to qualify for a certificate must complete all four courses and, if they have no experience working in nongovernmental organizations, PUAD 697.

### Strategic Planning for International Stabilization and Recovery Concentration

Required Courses	Credit Hours
<b>Choose three:</b>	9
POSC 660. Strategic Planning in World Affairs	
POSC 665. Governance and Stabilization	
SCOM 630. Cultural Communication	
PUAD 573. Community & Economic Development	

---

9

### Public Sector Communication Concentration

Required Courses	Credit Hours
WRTC 510. Seminar in Technical and Scientific Communication	3
WRTC 530. Research Methods in Technical and Scientific Communication	3
Choose one of four:	3
WRTC 540. Technical and Scientific Editing	
WRTC 625. Government Writing	
WRTC 640. Proposal and Grant Writing	
WRTC 650. Electronic and Online Publication	

## Individualized Concentration

Required Courses	Credit Hours
Three graduate courses selected in consultation with the M.P.A. coordinator	9
	9

## Five-Year Degree Program

JMU undergraduates may complete their undergraduate degree and the MPA program in five years by meeting admissions requirements of the MPA program and carefully planning their program of study with the MPA coordinator. The five-year MPA program requires 33 graduate credits in academic course work and a professional internship. Students interested in the five-year MPA should meet with the MPA coordinator early in the sophomore year to officially declare their intent to pursue the program.

Students entering the five-year MPA program are not required to major in public administration as undergraduates; they may major in any field. However, they are required to complete the public administration courses listed below while undergraduates and will be required to complete nine hours of graduate credit while still undergraduates. Simultaneous enrollment in both undergraduate and graduate classes may have consequences for financial aid awards. Students are advised to seek guidance from all sources of financial aid prior to enrolling in graduate-level courses.

Students must formally apply to the graduate MPA program during spring of the junior year. As such, interested students must prepare for and plan to take the GRE in the fall of the junior year. Admission to the graduate program is based on meeting the same criteria as students to the regular, two-year MPA program. Acceptance into the five-year program is conditioned on successful completion of all undergraduate degree requirements and earning a grade of B or better in all graduate coursework taken prior to completion of the undergraduate degree.

## Five-Year Recommended Schedule

Undergraduate Curriculum	Credit Hours
<b>First or Sophomore Year:</b>	
GPOSC 225. U.S. Government	4
PPA 265. Public Administration	3
<b>Sophomore Year:</b>	
POSC 295. Research Methods	4
<b>Sophomore or Junior Year:</b>	
POSC 302. State and Local Government	3
PPA 381. Public Budgeting	3
<b>Junior Year:</b>	
MGT 365. Human Resource Management	3
<b>Junior or Senior Year:</b>	
PPA 415. Legal Environment of Public Administration	3
Total Undergraduate Credits	23

## Taking Graduate Courses as an Undergraduate

Graduate credits taken prior to completion of the undergraduate degree do not count toward the undergraduate degree or toward any undergraduate major or minor. Thus, the student must earn at least 120 credit hours in addition to graduate coursework taken while still an undergraduate. Written permission to take graduate courses must be obtained from the MPA coordinator and the dean of the Graduate School prior to enrollment. The student should apply for permission during the junior year. The student should complete the following three courses.

## Graduate Credit Requirements

Fourth Year Graduate Credit	Credit Hours
<b>Fall of Senior Year:</b>	
PUAD 620. Seminar in the Politics of the Administrative Process	3
PUAD 625. Public Organizational Behavior	3
<b>Spring of Senior Year:</b>	
PUAD 571. Public Financial Management	3
	9

Students must complete the following courses during the fifth year, followed by an internship in the summer.

Fifth Year Graduate Credit	Credit Hours
<b>Fall of Fifth Year:</b>	
PUAD 605. Research Design for Policy Evaluation	3
PUAD 630. Seminar in Public Personnel Administration	3
Two graduate courses in the student's concentration	6
<b>Spring of Fifth Year</b>	
PUAD 606. Program Evaluation in Public Administration	3
PUAD 641. Public Budgeting	3
PUAD 692. Public Administration Capstone	3
One graduate course in the student's concentration	3
<b>Summer of Fifth Year</b>	
PUAD 696. Internship in Public Administration	6
	30

## Certificate in the Management of International Non-Governmental Organizations

Globalization has prompted a rapid expansion in the number of international non-governmental organizations (NGOs) committed to economic development, relief, environmental issues, human rights and the advocacy of a variety of political and social causes. This growth creates employment opportunities for students trained in a variety of fields including social work, health sciences, business, political science, international affairs, education and applied technologies. Those attracted to employment in international NGOs have seldom had exposure to their distinctive work environments or training in the management of such organizations. In particular, students tend to be trained in job-specific and transferable skills in courses that assume work is conducted within the United States. The Certificate in the Management of International Non-Governmental Organizations, an innovative and intensive course of study, offers students the opportunity to examine how international NGOs are affected by changes in the operating context. Over

the course of this program, students will become more familiar with the distinctive features of these organizations, their managerial challenges, their social and political environments, their economic dynamics, and the values they seek to realize.

An intensive summer curriculum involves students in a case-based pedagogy requiring them to apply various principles in scenarios central to international non-governmental management. This focused program of 40 weekly contact hours delivers 12 credit hours of instruction in four weeks during JMU's first four-week summer session (mid-May to mid-June). This course work will be followed by a six-credit internship with an international non-governmental organization, thus generating an 18-credit certificate delivered entirely over the summer.

Internships are conducted from mid-June through mid-August and require 300 hours of work. Prior to the summer, the programs internship coordinator assists students with identifying internship opportunities and approves proposed internships. Because internships will not be available in Harrisonburg, students must be prepared to move to cities elsewhere in the U.S. and abroad to do the internship. Approved internships may be paid or unpaid. The NGO internship combines experiential learning with directed readings and research in which students explore issues from the earlier four courses in more detail and in a manner relevant to the nature of the internship. The internship is not required of students presently employed or recently employed by an international NGO in a substantive position.

## Certificate in Strategic Planning for International Stabilization and Recovery

The graduate certificate in Strategic Planning for International Stabilization and Recovery is designed to prepare personnel to effectively and ethically assist civilian populations and government entities affected by peacekeeping and combat operations. The program provides graduate-level instruction in areas of international relations, stability operations, strategic communications, and recovery planning. The program is offered via a combination of formats. Courses may be offered during the summer and in compressed format.

## Financial Assistance

A limited number of graduate assistantships are available on a competitive basis. Assistantships are limited to nine paid graduate hours of tuition each fall and spring semester. Students must pay for any additional hours each semester at the tuition rate based on residency status.

All relevant regulations in the undergraduate and graduate catalogs are applicable.

## Course Offerings

### Public Administration

#### **PUAD 512. Seminar in Intergovernmental Relations. 3 credits.**

Intensive examination of the dynamics of the federal system including the political, administrative and fiscal relationships among the various American governments. Grant writing will be addressed.

#### **PUAD 560. Regionalism and Urban Policy. 3 credits.**

A study of the problems of urbanization and inter-jurisdictional externalities from a regional perspective. Regionalism will be examined as an approach to generating public policy to solve these problems.

#### **PUAD 561. Education and Social Policy. 3 credits.**

A study of the development and implementation of education policy in the United States at the national, state, and local levels. Students will be introduced to major issues in contemporary education policy and the evaluation of alternative policies advanced by subgroups of the population. Educational equity and its links to social and economic goals will be examined.

#### **PUAD 562. Social Welfare and Local Government Policy. 3 credits.**

A study of the interaction of social welfare policy and local governance in theory and in practice. Students examine state and local government and community-based responses to urban problems from a policy and management perspective. Particular attention is paid to interagency and community collaboration as a way to enhance social service delivery.

#### **PUAD 571. Public Financial Management. 3 credits.**

Explores financial management in public and nonprofit organizations by examining cash, debt, and investment management; risk assessment; capital projects and budgeting. Financial reporting, financial statements, and auditing will also be considered as accountability and internal control mechanisms.

#### **PUAD 573. Economic and Community Development. 3 credits.**

Study of the theory and practice of economic development and community planning. Topics include human capital development, infrastructure development, regionalism, public-private partnerships.

#### **PUAD 574. Tools for Public Management. 3 credits.**

This course is designed to introduce students to the practical tools that will enable them to deal with the challenges managers face in the nonprofit and public sector environment. The course is designed around a set of modules that public administrators must address on a regular basis.

**PUAD 583. Emerging Issues in Public Administration. 3 credits.**

A detailed, research-oriented study of an emerging issue in public administration. The course will examine new or emerging topics in the public administration profession with extensive readings and research focused on the contemporary academic and professional literatures. The course may be repeated for credit with a change in subject matter. Prerequisite: Permission of instructor.

**PUAD 584. Environmental Regulatory Policy and Politics. 3 credits.**

A study of environmental politics and the policies that environmental advocacy has produced. Topics include the dynamics of policy construction, various substantive policy issues, and the prospects for environmental justice and sustainability.

**PUAD 605. Research Design for Policy Evaluation. 3 credits.**

Application of social science methodology to program and policy evaluation. Research design and data collection, as well as planning techniques, are covered.

**PUAD 606. Program Evaluation in Public Administration. 3 credits.**

Application of systematic analysis to program and policy evaluation. Students will complete a computer-assisted research project. Prerequisite: PUAD 505 or permission of instructor.

**PUAD 615. Legal Environment of Public Administration. 3 credits.**

Study of the constraints imposed on public administrators by law and judicial oversight. The course will address federal and state constitutions, judicial review, organizational and personal legal accountability, personnel law, and procurement law.

**PUAD 620. Seminar in the Politics of the Administrative Process. 3 credits.**

A study of public administration as part of the political process. Includes administration and politics, organizational structure and behavior, and patterns of management and decision making. Serves as the introductory course to the Master of Public Administration program.

**PUAD 625. Public Organizational Behavior. 3 credits.**

A study of contemporary issues and problems facing the public manager. Contemporary management systems, techniques and devices will be discussed and case studies will be extensively used.

**PUAD 626. Strategic Planning and Management. 3 credits.**

Advanced study of the strategic planning process, including mission and vision development, subordinate planning efforts, and integration with management and operational planning. Coverage of performance measurement, assessment systems, monitoring and evaluation, and program modification.

**PUAD 630. Seminar in Public Personnel Administration. 3 credits.**

An inquiry to systems of employment found in United States governments and nonprofit organizations, the issues these systems raise for democracy, and the Constitutional and legal framework within which they operate.

**PUAD 641. Public Budgeting. 3 credits.**

Public budgeting practices and skills with an emphasis on the federal budget process. Topics include politics of the budget process, budget types and analytic techniques for budgeting.

**PUAD 650. Management of International Nongovernmental Organizations. 3 credits.**

Study of management of non-governmental (NGO) organizations in international settings. Through readings, case studies and exercises, the course explores NGO governance, acquisition and management of resources, program management, performance measurement and accountability. Prerequisite: Permission of instructor.

**PUAD/MBA 651. The International Non-Profit Sector. 3 credits.**

Introduces the non-economics graduate student to an economic perspective on non-profit organizations with regard to diverse international systemic environments. The conjunction of economics with political, institutional, ethical and sociological elements will provide the student with a comprehensive understanding of the central nature of economics to development. Prerequisite: Permission of instructor.

**PUAD 652. Politics of International NGOs. 3 credits.**

An examination of how changes in the political context provide distinctive challenges to international non-governmental organizations. The emphasis is on improving the ability of managers and service providers to adjust their organizations decisions and operations in response to differences in national and subnational political dynamics. Prerequisite: Permission of instructor.

**PUAD 653. Ethics and International NGOs. 3 credits.**

This course studies the ethical issues posed by international non-governmental organizations (NGOs) in both theory

and practice. Emphasis will be placed on the contemporary humanitarian enterprise, on the ethical considerations it raises, and on analytical and normative tools for addressing these concerns. Prerequisite: Permission of instructor.

**PUAD 662. Governance and Nonprofit Organizations. 3 credits.**

Study of the structure, functions and composition of nonprofit boards and their relationship to organization management and performance. Explore the fiduciary, strategic and generative governance roles of boards and common problems associated with nonprofit governance. Assess proposals to improve board performance and accountability.

**PUAD 680. Reading and Research. 3 credits.**

Under faculty supervision, independent study of a specialized area of public administration. Prerequisite: Permission of instructor.

**PUAD 683. Special Topics in Public Administration. 3 credits.**

A detailed study of a selected area in public administration. May be repeated with a change in subject matter. Prerequisite: Permission of instructor.

**PUAD 692. Public Administration Capstone. 3 credits.**

This capstone course, required of all graduate public administration students in their final spring semester, emphasizes professional and ethical application of core public management competencies. Course work includes a structured, individualized practicum project demonstrating technical knowledge and understanding of organizational, political and social contexts. Prerequisite: Open to students who have completed 24 graduate credit hours or are entering their final spring semester in the MPA program.

**PUAD 696. Internship in Public Administration. 3-6 credits.**

Supervised professional administrative experience with a public or non-profit agency. Credit for 200 or 400 hours of work is three or six credits. Assigned readings, reports and a research paper are required. Prerequisite: Permission of instructor.

**PUAD 697. Internship in NGO Management. 3 credits.**

A supervised professional administrative experience with a non-governmental organization. Requires 300 hours of work. Assigned readings, reports and a research paper are also required. Prerequisite: Permission of instructor.

**PUAD 698. Comprehensive Continuance. 1 credit.**

Continued preparation in anticipation of the comprehensive examination. Course may be repeated as needed.

## **Political Science**

**POSC 561/HIST 561. Seminar in Marxist-Leninist Theory. 3 credits.**

A study of the most significant ideas concerning politics, society, economics and philosophy which have shaped Communism and Marxist varieties of socialism.

**POSC 665. Governance and Stabilization. 3 credits.**

This course will apply political science research and theory to the role of counterinsurgency and post-conflict operations in providing governance and stabilization. It will examine current military and political strategies in light of lessons learned from past operations.

**POSC 680. Reading and Research. 3 credits.**

This course offers the individual student the opportunity for reading and research under faculty supervision in the areas of public and non-profit administration that are of special interest to the student.

## **Communication Studies**

**SCOM 630. Culture and Conflict Resolution. 3 credits.**

The course explores the relations between culture and conflict that emerge when competing worldviews become conflicted regarding power, control, and influence. Emphasis is on communication and conflict resolution theory with application to skill competencies required for facilitation, negotiation, and mediation. Integration of cross-cultural reconstruction teams into distress communities considered.

### Director

Dr. Larry Burton

### Graduate Coordinator

Dr. Pavel Zemliansky

### Professors

L. Burton, M. Hawthorne, A. Philbin

### Associate Professors

S. Aley, K. Kessler, M. Moghtader, E. Pass, K. Schick, K. Wright, P. Zemliansky, J. Zimmerman, T. Zimmerman

### Assistant Professors

L. Bednar, B. Jones, S. Lunsford, M. Klein

---

## Admission

In addition to satisfying all admission requirements of The JMU graduate school, applicants must submit to the graduate coordinator an application dossier that includes the following documents:

- A background and goals statement that explains how the Master of Arts or Master of Science program relates to The applicant's prior experience and how it fits into his or her long-range professional goals.
- Three letters of recommendation from people who can comment on the applicant's academic preparation and professional experience.
- 20-30 pages of writing samples from academia or the professions.

Nonnative speakers of English must take the Test of English as a Foreign Language and receive a score of at least 550. Applicants may use the letters of recommendation and writing samples to support an application for financial aid.

Admission may begin the fall semester. To receive full consideration for admission into the programs as well as for financial aid, students should submit their application packages to The Graduate School by May 31 for fall semester.

Students may apply online to The Graduate School and apply for assistantships through <https://joblink.jmu.edu/>.

## Mission

The School of Writing, Rhetoric and Technical Communication seeks to equip students for academic and professional success as communicators in print and electronic media.

## Goals

The goals of WRTC are to help students:

- Develop into accomplished writers and editors.
- Evaluate the effectiveness of communication based upon the principles of rhetoric.
- Develop proficiency in critical thinking, technological and analytical skills.
- Create for themselves an area of expertise applicable to work as professional communicators.

The specific goals of the Master of Arts and Master of Science degrees are to help students to

- define what effective communication means in writing, rhetoric and technical communication environments.
- enhance their understanding of how and why communication works.
- learn how to identify and eliminate barriers to effective communication.
- improve the efficiency and effectiveness of their communication management.

- develop research skills.
- create for themselves a cognate area of study within the scientific or technical field in which they intend to work as professional technical communicators.

To achieve these goals, the programs combine work in theory, writing, text design, and analysis of communication systems and contexts to help students to acquire the knowledge and skills needed to begin careers in writing, rhetoric and technical communication. The programs emphasize scholarly, humanistic and social scientific perspectives on the function and application of writing, rhetoric and technical communication.

Consequently, the programs provide students with not only the knowledge and skills required for careers in industry, business or government but also the research skills and communication theory that will prepare them for doctoral study in communication and rhetoric. The long-range goal of the Master of Arts and Master of Science degrees, then, is to enable program graduates to grow as professionals and, ultimately, to contribute to the developing field of writing, rhetoric and technical communication.

While studies in both programs provide students with a sound foundation in writing, editing and document production, the Master of Arts degree typically attracts students with undergraduate work centered in The humanities. Although these students often supplement their WRTC degree plan with courses in the sciences, they are primarily interested in gaining extensive knowledge and practice in writing and editing skills that are not tied to a single writing, rhetoric and technical communication field but, rather, are applicable to multiple areas.

Conversely, the Master of Science degree plan of study typically proves attractive to students who want to complement their undergraduate degrees in the sciences with advanced training in communication within their fields. Such complementary training in writing, rhetoric and technical communication enables Master of Science graduates not only to perform more effectively as technicians or scientists but also to move laterally into writing, editing or production positions or vertically into management positions.

Degree candidates must successfully complete a minimum of 36 credit hours of graduate course work, which includes a minimum of two semesters of course work completed at JMU. Students work with school advisers to design a program that fits their unique educational needs and career aspirations. Depending on their backgrounds and options they might choose to pursue while in the degree program, students may decide to take course work beyond the required 36 hours to obtain additional knowledge or skills in specialized areas. For example, students may choose to take extra course work to enhance their skills in communication technologies or to deepen their academic training in the writing, rhetoric and technical communication content areas in which they intend to work as professional writers or editors.

## Language Requirement

The Master of Arts and Master of Science programs require that the candidate demonstrate graduate-level proficiency in foreign language, statistics or computer programming in one of following ways:

- Completing the second year of a college course in a modern foreign language with a grade of "C" or above, or completion of the foreign language placement exam administered by the Department of Foreign Languages, Literatures and Cultures with a placement into the junior level of the language.
- Completing an approved graduate statistics or computer programming course (or equivalent) with a grade of "B" or better.
- Receiving a waiver from the department of its foreign language examination or the required statistics or computing course work based on the student's extensive language background in one of those areas.

A student should state in his or her plan of study the means by which he or she has already satisfied or plans to satisfy the language requirement. A degree candidate must complete the language requirement before taking the comprehensive exams.

## Degree Requirements

Students in the Master of Arts program must successfully complete three core courses (nine credit hours), a writing, rhetoric and technical communication internship (three credit hours), two courses of thesis or practicum hours (six credit hours), and six courses of WRTC electives (18 credit hours).

Students in the Master of Science program must successfully complete three core courses (nine credit hours), a writing, rhetoric and technical communication internship (three credit hours), two courses of thesis or practicum hours (six credit hours), three courses in an approved technical or scientific cognate discipline (nine credit hours), and three courses of WRTC electives (nine credit hours).

At least half of the students' elective credit hours must come from course work at the 600 level or above. Up to six of those hours may be WRTC 700, Thesis or WRTC 701, Practicum. Students may take courses at the 700 level to satisfy the remainder of their electives requirement. Students who have obtained substantial work-world experience in

designing, writing or producing documentation in writing, rhetoric or technical fields may request credit for and waiver of course work, the internship, the thesis or The practicum.

The WRTC graduate program encourages applicants with diverse academic and professional backgrounds, including (but certainly not limited to) biology, business, computer science, education, English, geography, mathematics, philosophy, political science, psychology, rhetoric and composition, or writing.

## **Concentrations**

### **Technical and Scientific Communication Concentration**

The concentration in technical and scientific communication offers instruction in the study of communication in fields traditionally associated with technical or scientific content. The program also provides instruction in components of professional communication that are applicable to technical and scientific communication, such as document design and production, Web design, publications management, knowledge management, organizational and managerial communication, instructional design and training.

### **Writing and Rhetoric Concentration**

The concentration in writing and rhetoric is designed for students who wish to extend, enrich and formalize their education as writers or teachers of writing. Courses offered as part of the concentration cover a range of topics, including literacy studies, rhetorical history and theory, writing pedagogy, and cultural rhetoric.

## **Cognate Disciplines**

To be competitive in many of today's writing, rhetoric or technical disciplines, communicators must possess substantial knowledge of the field in which they are working. Through the WRTC Master of Science program, students have the opportunity to gain that background while refining their skills as professional, rhetorical, and technical communicators.

All Master of Science candidates must successfully complete at least nine credit hours of course work at the graduate level in an approved cognate discipline, which will be determined in consultation with and approved by their adviser. These cognates can come from a number of graduate programs at James Madison University, including the humanities and the arts.

Students who want to take course work in a cognate discipline that does not currently offer graduate studies may do so through independent studies with graduate faculty in the chosen field or through distance learning with graduate programs at other accredited colleges or universities. Independent studies with faculty in a cognate discipline program must be approved by the graduate coordinator of the cognate program and by the WRTC graduate coordinator. When transferring credit from other universities or receiving studies through distance learning, students should remember that The Graduate School allows up to nine credit hours of transferred course work from institutions other than JMU to count toward a student's graduate degree at JMU.

## **Thesis/Practicum**

Degree candidates have two options for satisfying the thesis/practicum requirement for the Master of Arts or Master of Science degree:

- Complete a traditional research-based master's thesis on a relevant topic.
- Complete a practicum that results in a work-world document.

It is important that the student understand that he/she is solely responsible for the success of the thesis/practicum. The student needs to be in charge of completing all paperwork for the school, The Graduate School, registrar, etc., and for meeting all deadlines to matriculate successfully. The student will need to contact these offices well ahead of the semester in which he/she plans to graduate to ensure that all deadlines can and will be met.

## **Language Requirement**

The Master of Arts and Master of Science programs require that the candidate demonstrate graduate-level proficiency in foreign language, statistics or computer programming in one of following ways:

Completing the second year of a college course in a modern foreign language with a grade of "C" or above, or completion of the foreign language placement exam administered by the Department of Foreign Languages, Literatures and Cultures with a placement into the junior level of the language.

Completing an approved graduate statistics or computer programming course (or equivalent) with a grade of "B" or better.

Receiving a waiver from the department of its foreign language examination or the required statistics or computing course work based on the student's extensive language background in one of those areas.

A student should state in his or her plan of study the means by which he or she has already satisfied or plans to satisfy the language requirement. A degree candidate must complete the language requirement before taking the comprehensive exams.

## Course Offerings

### Writing, Rhetoric and Technical Communication

#### **WRTC 510. Seminar in Technical and Scientific Communication. 3 credits.**

a foundations course. The study of the theories and history of technical and scientific communication and its major figures and issues. Introduces students to foundational texts in the field.

#### **WRTC 511. Seminar in Writing and Rhetoric Studies. 3 credits.**

a foundations course. The study of the theories and histories of the discipline and its major figures and issues. Introduces students to foundational texts in the field.

#### **WRTC 521. Web Design. 3 credits.**

Web design study, emphasizing theories of evaluation, developing, revising, and maintaining Web sites; negotiating single-source documentation; and learning the various technological tools communicators use on the job. Students will learn to analyze audiences design needs, establish effective components of a Web site and justify design decision when working with clients. Students will learn to work through a professional and legal project cycle, and create and revise various genres of Web sites.

#### **WRTC 530. Research Methods in Writing, Rhetoric and Technical Communication.**

3 credits.

Advanced study of research methodology used in technical and scientific communication, covering techniques for collecting information or data through primary and secondary research. Emphasizes extended bibliographic research through projects that employ conventional bound texts as well as electronic texts, including CD-ROM and the Internet.

Prerequisite or corequisite: WRTC 510 or WRTC 511.

#### **WRTC 535. Genre Theory. 3 credits.**

This course examines the history of genre theory as well as the intersections of genre, critical theory, and social practices. Students will conduct extended analyses of texts within their own academic and professional contexts.

#### **WRTC 540. Professional Editing. 3 credits.**

Advanced study of and practice in the central editorial duties of managing a document through the editorial process, including establishing the need, purpose and scope of a document; developing levels of edit; copyediting; substantive editing; determining document design; editing graphic aids; collaborating with authors; and proofreading. Prerequisite: WRTC 510 or WRTC 511.

#### **WRTC 542. Tutoring Writing. 3 credits.**

This writing-intensive course integrates the theory and practice of tutoring writing in academic settings and is suited for preparing students and teachers who will use writing across the disciplines. The course includes an internship in a campus writing center and provides students opportunities to develop as writers, scholars, and professionals. Students will be eligible for, but not guaranteed, employment in a university writing center.

#### **WRTC 545. Ethical and Legal Issues in Writing, Rhetoric and Technical Communication. 3 credits.**

Advanced study of the ethical and legal issues confronted by technical communicators in a range of fields. Examines the role of ethics in the field, the nexus of ethics and the law, ethical theories and critical thinking in moral reasoning, falsification of information or data in written or graphic form, ownership of information, confidentiality, copyright and trademark laws, conflicts of interest, and causes of unethical behavior. Prerequisite: WRTC 530 or permission of instructor.

#### **WRTC 550. Organizational Communication. 3 credits.**

Advanced study of the structure of communication in organizations by exploring formal and informal communication systems in government, industry and business. Examines the role of communication in The social construction of organizations with hierarchical and nontraditional structures.

Prerequisite: WRTC 530 or permission of instructor.

#### **WRTC 555. Managerial Communication. 3 credits.**

Advanced study of how managers communicate in organizations by examining the various forms, contexts and functions of managerial written and verbal communication. Emphasizes the role of communication in management and the rhetorical guidelines followed by effective managers to design, write, revise and produce clear, concise and persuasive documents. Prerequisite: WRTC 530 or permission of instructor.

**WRTC 560. Scientific Rhetoric. 3 credits.**

Study of how writers and editors in technical and scientific communication structure language in communicating scientific knowledge and in presenting and defending a position. Examines theoretical approaches to the uses of language in science and technology within specialized disciplines, industrial organizations, and social and cultural settings as well as critical approaches to the works of figures such as Isaac Newton, Charles Darwin, James D. Watson, Francis Crick and Stephen Jay Gould. Prerequisite: WRTC 530 or permission of instructor.

**WRTC 565. Digital Rhetoric. 3 credits.**

This course examines the influence of new media and modern digital technologies on persuasion and communication. Students will critique digital media texts and design their own digital projects.

**WRTC 570. Rhetorical Theory: Classical Through Contemporary. 3 credits.**

Study of the history of rhetoric with an emphasis on the use of language as a means of generating knowledge and of understanding, establishing and maintaining human communities. The course examines the rhetorical theories of major figures from the Classical Period through the present day. Prerequisite: WRTC 530 or permission of instructor.

**WRTC 581. Hypertext Theory. 3 credits.**

Study of the history of hypertext, its theories and applications. Students will learn the characteristics and the structures of hypertext and navigational approaches to hypertext. The major theorists and designers of hypertext fiction and non-fiction will be explored and discussed. As well as learning about hypertext, students will apply their knowledge to create hypertext. They will also be encouraged to research and explore/create in other online environments (e.g., blogs, wikis, Second Life).

**WRTC 590. Intercultural Technical and Scientific Communication. 3 credits.**

Study of technical and scientific communication in a variety of cultural and international settings and contexts. Emphasizes strategies for understanding and developing analytical skills needed to collaborate with or communicate to people with varied racial, ethnic or cultural backgrounds in both domestic and international settings. Prerequisite: WRTC 530 or permission of instructor.

**WRTC 595. Issues in Writing, Rhetoric and Technical Communication. 1-3 credits.**

Writing and research in a variety of writing, rhetoric and technical communication genres. Examines special and timely issues currently being explored in the field not addressed in sufficient depth in regularly scheduled WRTC courses. May be repeated with different course content and permission of director. Prerequisites: WRTC 530 and WRTC 540.

**WRTC 610. Publication Management. 3 credits.**

Advanced study of the management and editorial policy of academic and professional publications. Examines such managerial and editorial responsibilities as defining editorial policy, choosing a management hierarchy, defining management roles, reviewing and editing submissions for publication, and collaborating with authors. Prerequisites: WRTC 530 and WRTC 540, or permission of instructor.

**WRTC 615. Document Design. 3 credits.**

Advanced study of the document production process, including such design and production processes as creating publication designs, determining publication format and layout for a range of documents (e.g., brochures, newsletters, journals, and books), manipulating text and graphics using desktop publishing software, proofreading galley and page proofs, and submitting final drafts through electronic prepress to printer. Prerequisites: WRTC 530 and WRTC 540, or permission of instructor.

**WRTC 620. Science Writing. 3 credits.**

Advanced writing course that examines the writing, editing and producing of scientific documents including manuals, research reports, conference papers and journal articles. Emphasizes the process of submitting manuscripts for publication to professional and academic science journals, magazines and newspapers and also reviews methods for creating finished, publishable articles about new research, theories, projects, trends and personalities in science and technology.

Prerequisites: WRTC 530 and WRTC 540, or permission of instructor.

**WRTC 625. Government Writing. 3 credits.**

Advanced study of writing genres from a variety of fields within government. Examines the purposes, audiences and formats unique to government publications. Directs students in writing original and editing existing government documents. Prerequisites: WRTC 530 and WRTC 540, or permission of instructor.

**WRTC 630. Legal Writing. 3 credits.**

Advanced study of central components of legal writing such as legal analysis, representation of facts and evidence, reasoning, logic, and argumentation. Addresses such key rhetorical elements of legal documents as clarity and conciseness of style, level of diction, jargon, passive voice and errors in person. Prerequisites: WRTC 530 and WRTC 540, or permission of instructor.

**WRTC 635. Medical Writing. 3 credits.**

Advanced study of the theory and practice of writing in medical/health-related fields. Examines the kinds of documentation written about medical practices for nontechnical audiences (patients and their families). Emphasizes communication between medical professionals and patients. Prerequisites: WRTC 530 and WRTC 540, or permission of instructor.

**WRTC 640. Proposal and Grant Writing. 3 credits.**

Advanced study of the planning and writing of proposals and grants with emphasis on research proposals and grants seeking funding from industry and government. Covers key proposal components including the executive summary, purpose and scope, problem definition, need, methodology, project feasibility, facility requirements, personnel qualifications, cost, and proposal presentation. Prerequisites: WRTC 530 and WRTC 540, or permission of instructor.

**WRTC 645. Documentation of Computer Technologies. 3 credits.**

Advanced study of theory and practice in designing, writing and producing computer documentation for end users. Emphasizes documentation design and production, online documentation, usability testing, and writing of user's guide for computer hardware and software. Prerequisites: WRTC 530 and WRTC 540, or permission of instructor.

**WRTC 650. Electronic and Online Publication. 3 credits.**

Advanced study of electronic and online publications, including World Wide Web pages, electronic newsletters and magazines, and online help. Emphasizes principles in designing, writing and producing publications using such current authoring tools as the hypertext mark-up language, HTML. Prerequisites: WRTC 530 and WRTC 540, or permission of instructor.

**WRTC 655. Electronic Graphic Design. 3 credits.**

Advanced study of the theoretical and practical use of computer graphics as a form of visual communication in scientific or technical documents. Examines topics such as visual perception, design theory, formatted text and graphics, color and design concepts, animation, and video. Emphasizes the development of technical skills in manipulating electronically generated text and graphics.

Prerequisites: WRTC 530 and WRTC 540, or permission of instructor.

**WRTC 670. Teaching Writing. 3 credits.**

Preparation of WRTC teaching assistants in rhetorical theory and teaching methodologies. Emphasizes pedagogical strategies central to teaching effective written and oral communication in the field and provides practice in course development and assessment under the guidance of a faculty mentor in actual course situations. Required of all teaching assistants before their first semester teaching. Prerequisites: WRTC 530 and WRTC 540, or permission of instructor.

**WRTC 680. Readings in Writing, Rhetoric and Technical Communication. 3 credits.**

Faculty-supervised reading, research and writing on advanced writing, rhetoric and technical communication projects not covered in regularly scheduled courses. Prerequisites: WRTC 530 and WRTC 540, or permission of instructor, and completion of 18 or more credit hours in the major. May be repeated with different content and permission of director.

**WRTC 690. Special Issues in Writing, Rhetoric and Technical Communication. 3 credits.**

Advanced writing and research in a variety of writing, rhetoric and technical communication genres, including government writing, medical writing, legal writing, and proposal and grant writing. Examines special and timely issues currently being explored in WRTC that are not addressed in sufficient depth in regularly scheduled WRTC courses.

Prerequisites: WRTC 530 and WRTC 540, or permission of instructor. May be repeated with different course content and permission of director.

**WRTC 695. Internship in Writing, Rhetoric and Technical Communication. 3 credits.**

Work-world experience within business, industry, government or academia in writing, rhetoric and technical communication. Designed to allow students to incorporate field experience with WRTC course work and to observe communication processes and apply effective written, interpersonal and public communication skills. May not be repeated. Prerequisites: WRTC 530 and WRTC 540 and permission of internship coordinator.

**WRTC 699. Thesis/Practicum Continuance. 2 credits.**

Individual reading, research and writing associated with completion of major's thesis/practicum portfolio. Directed by the chair of The student's thesis/practicum committee and required for graduation. Prerequisites: WRTC 510, WRTC 530, WRTC 540, successful completion of the comprehensive exam, and permission of thesis/practicum committee director. Students who have registered for six hours of thesis/practicum credit but have not finished the thesis/practicum must be enrolled in this course each semester until the thesis/practicum is completed. This course is graded on a satisfactory/unsatisfactory (NC) basis.

**WRTC 700. Thesis Research. 6 credits.**

Individual reading, research and writing associated with completion of major's thesis. Supervised by the director of the student's thesis committee. Student must complete six hours of thesis research to graduate. Prerequisites: WRTC 530, WRTC 540 and permission of thesis committee director. Credit hours may be taken over one or two semesters. This course is graded on a satisfactory / unsatisfactory/incomplete (S/U/I) basis.

**WRTC 701. Practicum. 6 credits.**

Individual reading, research and writing associated with completion of major's practicum. Supervised by the director of the student's practicum committee. Student must complete six hours of practicum research to graduate. Prerequisites: WRTC 530, WRTC 540 and permission of practicum committee director. Credit hours may be taken over one or two semesters.

---

# Non-major Graduate Courses

The following academic units do not offer graduate major programs. However, they offer graduate courses which are designed to broaden a student's knowledge and are appropriate for use as electives for those pursuing the Master of Education degree in a specific discipline. Interested students should consult directly with the academic unit involved.

## Center for Geographic Information Science

Dr. Steven Frysinger, Director  
Phone: (540) 568-2710  
E-mail: [frysinsp@jmu.edu](mailto:frysinsp@jmu.edu)

### Course Offering

#### **GEOG 501. Topics in Geography.** 1-3 credits.

A course providing study of specific topics in geography or workshop experiences relating to recent developments in the teaching of geography. May be repeated for credit as course content changes.

## Center for Economic Education

Dr. William C. Wood, Director  
Phone: (540) 568-3243  
E-mail: [woodwc@jmu.edu](mailto:woodwc@jmu.edu)

### Course Offering

#### **ECON 501. Workshop in Economics.** 3 credits.

Normally offered in summer session. See e-campus.

Provides detailed study of economics topics. Designed primarily for elementary and secondary teachers. Prerequisite: Permission of instructor. May be repeated for credit when content is different.

## Communication Studies

Dr. William Kimsey, Interim Director  
Phone: (540) 568-6496  
E-mail: [kimseywd@jmu.edu](mailto:kimseywd@jmu.edu)

### Course Offering

#### **SCOM 500. Introduction to Advocacy Studies.** 3 credits.

A survey of advocacy inquiry as a practice of communication by a number of professional and academic fields and disciplines. Students will examine and debate important theoretical, ideological, ethical and moral implications of advocacy practiced in politically, socially and culturally diverse societies. Emphasis will be placed on a multi-disciplinary approach to advocacy studies.

#### **SCOM 501. Foundations in Health Communication Advocacy and Research.** 3 credits.

This course overviews health and environmental communication. It surveys health/risk communication perspectives, as well as environmental quality and public health issues. Students will develop an in-depth knowledge of these perspectives to grasp how extant theory informs health and environmental communication research and advocacy practices. Students will evaluate this body of research, with far-reaching implications for quality of life levels, especially among disenfranchised individuals.

#### **SCOM 502. Introduction to Teaching Fundamental Human Communication.** 3 credits.

This course introduces students to the issues, methods and materials for teaching communication in the setting of higher education. Students will examine pedagogical and communication theory, analyze research in communication education/instructional communication, study learning theories and styles, and work to develop a competency in teaching communication skills and concepts to others. This course is required only of all those awarded Assistantships.

#### **SCOM 520. Interpersonal Communication as Advocacy.** 3 credits.

This course explores theoretical approaches to interpersonal communication as advocacy. After reviewing theory and research related to interpersonal message strategies and designs, students will examine how interpersonal communication functions as advocacy in environmental, health and relational contexts. Students will also discuss the ethics of interpersonal advocacy.

**SCOM 540. Seminar in Communication Theory. 3 credits.**

A survey of major communication theories. Historicizes the major theoretical perspectives and debates in Communication Studies. Focuses on application of communication theory toward advocacy.

**SCOM 541. Seminar in Rhetorical Theory and Advocacy. 3 credits.**

A survey of classical, modern and contemporary theories of rhetoric. The course examines the historical circumstances, situated practices of advocacy, and mediums of delivery that have influenced differing iterations of rhetorical theory; its influence upon historical and contemporary practices of advocacy; and the invention, arrangement and styles of theoretical disputes related to rhetorical theory.

**SCOM 550. Applied Organizational Communication. 3 credits.**

Examines organizational communication theory and research in applied organizational contexts using a case study approach. Attends to analysis of small group and organizational decision making processes, team functioning, and strategic communication among diverse stakeholders. Focus on organizational communication practice in non-profit advocacy groups.

**SCOM 551. Fundamentals in Environmental Communication and Advocacy. 3 credits.**

This course traces the history of environmental communication. It examines the symbolic and cultural dimensions of conceptions of nature and environment; surveys topics, theories and methods associated with the study of environmental communication; and explores relationships between environmental and health communication. Students will understand and appreciate how extant theory informs health and environmental communication research, community-based interventions, and advocacy practices.

**SCOM 610. Strategic Communication. 3 credits.**

An advanced seminar focusing on persuasion theory and communication methodology relevant to strategic communication in diverse cultural settings. Emphasis upon message analysis in cross-cultural contexts at various communication levels including interpersonal, small group, organizational, and public. Consideration of communication strategies and tactics embedded in adversarial belief systems. This seminar will use lecture-discussion, case studies, guest speakers, and team projects.

**SCOM 620. Advocacy Communication Management. 3 credits.**

This seminar examines principles, methods, theory, practices, and cases central to the development and strategic management of communication advocacy campaigns. Focus is on designing, planning, implementing, and evaluating ethical persuasive communication programs, with emphasis on behavioral change as well as mutual understanding and support. Best professional practices, including case studies, will be utilized to extract and articulate pragmatic lessons.

**SCOM 630. Culture and Conflict Resolution. 3 credits.**

The course explores the relations between culture and conflict that emerge when competing worldviews become conflicted regarding power, control, and influence. Emphasis is on communication and conflict resolution theory with application to skill competencies required for facilitation, negotiation, and mediation. Integration of cross-cultural reconstruction teams into distress communities considered.

**SCOM 680. Reading and Research. 3 credits.**

Opportunity for directed reading and research in areas of professional interest and goals. Must be done in a declared field of study. Investigation research and reporting.  
Prerequisite: Permission of director.

**SCOM 720. Practicum in Influence Campaigns. 6 credits.**

This capstone practicum provides opportunity for the integration and pragmatic application of relevant theory, research and methods in diverse settings. Prior experiential learning may be considered. A research paper synthesizing knowledge from both prior studies and field experience along with a formal presentation developed under faculty direction are required. Prerequisites: Recommendation of the instructor and 15 hours of relevant courses.

## **Continued Enrollment and Continuing Education**

### **The Graduate School**

#### **Course Offering**

**GRAD 597. Continuance. 1 credit.**

To remain in good standing in their program, all graduate students must maintain continuous enrollment each semester in their program from entry until graduation. This course allows those students who are not intending to register for any other courses during the current semester to continue in their program in good standing. Course may be repeated as needed.

**CE 650. Graduate Internship. 1-5 credits.**

Master's level part-time or full-time internship (as indicated through the variable credit option) with primary supervision provided by clinical faculty/employers in the field. Prerequisites: Completion of all course work and/or permission of the instructor.

**CE 850. Professional Internship. 1-5 credits.**

Doctoral level part-time or full-time internship (as indicated through variable credit option) with primary supervision provided by clinical faculty/employers in the field.

**Institute for Innovation in Health and Human Services**

Emily Akerson, Associate Director

Phone: (540) 568-6120

E-mail: akersoek@jmu.edu

**Course Offering****HHS 590. Special Topics in Health and Human Services. 0-4 credits.**

This course involves topics of special interest in the area of health and human services but is open to all students. The focus of specific courses is identified for specific offerings. Courses are offered based on faculty and student interests.

**Mathematics**

Dr. David Carothers, Head

Phone: (540) 568-6184

E-mail: carothdc@jmu.edu

**Course Offering****MATH 501. Workshop in Mathematics. 1-3 credits.**

Topics in modern elementary mathematics which are of interest primarily to intermediate and secondary mathematics teachers. May not be used to satisfy minor requirements in mathematics. May be repeated for credit when course content changes.

**MATH 522. Statistics for Researchers. 3 credits.**

Introduction to statistics and statistical methods, including descriptive techniques, normal distribution, tests of hypotheses, confidence intervals, regression and analysis of variance. Does not satisfy requirements for the minor in mathematics of the Master of Education degree.

**MATH 585. Selected Topics I. 3 credits.**

Study of selected topics not otherwise covered in the regular offerings of the department. May be repeated for credit when course content changes.

**Physics**

Dr. C. Steven Whisnant, Head

Phone: (540) 568-6338

E-mail: whisnacs@jmu.edu

**Course Offering****PHYS 501. Workshop in Physics. 1-3 credits.**

Concentrated study in particular areas of physics.

**PHYS 510. Topics in Theoretical Physics. 3 credits.**

Study at an advanced level of a specific area of theoretical physics (such as advanced mechanics, electrodynamics, quantum mechanics or mathematical physics). Topics will be selected according to student needs and interests, and staff availability. May be repeated for up to nine credits.

**PHYS 515. Topics in Experimental Physics. 3 credits.**

Study at an advanced level of a specific area of experimental physics (such as optics, electronics or nuclear physics). Topics will be selected according to student needs and interests and staff availability. May be repeated for up to nine credits.

## Science

### Course Offering

#### **SCI 501. Workshop in the Teaching of Science.** 3 credits.

A course providing workshop experiences relating to recent developments in the teaching of science in the schools. Course title will vary with discipline. Course may be repeated when content changes and may only be used by departments which do not have graduate-level science offerings. This course may not be used as transfer credit.

## Sociology and Anthropology

Dr. Timothy Carter, Department Head

Phone: (540) 568-6213

E-mail: [cartertj@jmu.edu](mailto:cartertj@jmu.edu)

### Course Offering

#### **ANTH 500. Anthropological Research.** 3 credits.

This course studies techniques and procedures of anthropological field research and data interpretation. Each student participates in research in progress under direct professional supervision.

#### **ANTH 544. Graduate Work in Field Archaeology.** 3-8 credits.

This course is directed at providing graduate level students with the opportunity to apply advanced procedures of archaeology in a field situation. Efforts will be on the development and implementation of archaeological research designs. Historic and prehistoric interests are accommodated.

#### **ANTH 550. Archaeological Site Science.** 4 credits.

This course is a survey of the factors affecting the preservation of archaeological sites and artifacts before, during and after excavation. Field and laboratory situations will offer students immediate practical experience.

#### **SOCI 680. Reading and Research.** 3 credits.

Opportunity is offered for reading and research in the areas of sociology which are of special interest to the student.  
*Prerequisite: Approval of department head.*

## Theatre

William J. Buck, Director

Phone: (540) 568-6342

E-mail: [buckwj@jmu.edu](mailto:buckwj@jmu.edu)

### Course Offering

#### **THEA 501. Teachers' Workshop in Theatre.** 3 credits.

Offered summer.

An intensive study of the teaching and practice of theatre, specifically in intermediate and secondary schools. Opportunities for practical work within summer productions offered in the school.

#### **THEA 540. Seminar in Theatre.** 3 credits.

Studies of topics in academic and professional theatre. Emphasis on research methods unique to theatre studies. Consideration of topics in both theoretical and practical aspects of theatre.

#### **THEA 585. American Theatre History.** 3 credits.

Study and analysis of the American theatre experience as presented in the dramatic literature of the country. Emphasis on basic American themes. Consideration of playwrights and performers significant to the development of American theatre.

#### **THEA 588. Experimental Theatre.** 3 credits.

Study of avant-garde theatre. Emphasis on motivating and guiding advanced students to a higher degree of aesthetic appreciation. Consideration of the relationship of experimental theatre to the traditional theatre. *Prerequisite: Permission of instructor.*

---

# Graduate Faculty

**Mohamed Aboutabl, Assistant Professor.**

B.S., University of Alexandria; M.S., University of Alexandria; Ph.D., University of Maryland.

**Craig E. Abrahamson, Professor.**

B.A., Western Washington University; M.S.W., Arizona State University; Ph.D., Union Institute and University.

**Mary Elizabeth Cancienne Acgtblu, Assistant Professor.**

B.A., Louisiana State University; M.Ed., Louisiana State University; Ph.D., University of Virginia.

**Jessica R. Adolino, Professor.**

B.A., Fairfield University; Ph.D., The Ohio State University.

**Ehsan Ahmed, Professor.**

B.A., Punjab University (Lahore, Pakistan); M.A., Government College (Lahore, Pakistan); M.A., Roosevelt University; Ph.D., Michigan State University.

**Jeremy D. Akers, Assistant Professor.**

B.S., Radford University; M.S., James Madison University; Ph.D., Virginia Polytechnic Institute and State University.

**Ralph A. Alberico, Dean of Libraries and Educational Technologies.**

B.A., State University of New York at Buffalo; M.L.S., University of Alabama.

**Joseph D. Albert, Professor.**

A.A., Hillsborough Community College; B.A., University of South Florida; Ph.D., Georgia State University.

**Melissa W. Aleman, Assistant Professor.**

B.S., New York University; M.A., University of South Florida; Ph.D., University of Iowa.

**Carlos G. Aleman, Assistant Professor.**

B.A., California State University at Fresno; M.A., California State University at Fresno; Ph.D., University of Iowa.

**Shelley B. Aleay, Associate Professor.**

B.S., Ed., Southwest Missouri State University; M.A., Southwest Missouri State University; Ph.D., Texas Christian University.

**Karim Altai, Professor.**

B.S., University of Baghdad; M.E., The City College of the City University of New York; M.Phil., The City College of the City University of New York; Ph.D., The City University of New York.

**Robin D. Anderson, Assistant Professor.**

B.A., College of William & Mary; M.A., Ed.S.; James Madison University; Psy.D., James Madison University.

**Jeffrey T. Andre, Associate Professor.**

B.A., Muhlenberg College; M.S., The Pennsylvania State University; Ph.D., The Pennsylvania State University.

**Pedro R. Aponte, Assistant Professor.**

B.M., Instituto Universitario de Estudios Musicales (Caracas, Venezuela); M.M., James Madison University; M.A., University of Pittsburgh.

**Kevin J. Apple, Associate Professor.**

B.A., Ohio University; M.S., Ohio University; Ph.D., Ohio University.

**J. Christopher Arndt, Professor.**

B.A., Gettysburg College; M.A., Auburn University; Ph.D., Florida State University.

**Sharon Kay Babcock, Associate Professor.**

B.S., University of Oklahoma; Ph.D., Duke University.

**Christopher G. Bachmann, Assistant Professor.**

B.S., Rutgers College of Engineering; M.S., The Pennsylvania State University; Ph.D., University of Virginia.

**Kenneth D. Bahn, Professor.**

B.S., California State University; M.S., California State University; Ph.D., Business Administration University of Utah.

**Pamela D. Bailey, Assistant Professor.**

B.S., Howard University; B.H.S. & P.A., Duke University; M.H.S., Duke University.

**Marianne I. Baker, Assistant Professor.**

B.A., Lynchburg College; M.Ed., University of Virginia; Ph.D., University of Virginia.

**George H. Baker, Associate Professor.**

B.A., Western Maryland College; M.S., University of Virginia; Ph.D., U.S. Air Force Institute of Technology.

**Timothy C. Ball, Assistant Professor.**

B.A., Iowa State University; M.S., Eastern Washington University; Ph.D., Washington State University.

**Dabney Anderson Bankert, Associate Professor.**

B.S., Michigan State University; M.A., Western Washington University; Ph.D., University of Illinois.

**Diane Banks, Assistant Professor.**

B.F.A., Syracuse University; M.F.A., Syracuse University.

**Alexandra Bannigan, Assistant Professor.**

B.S., University of Sydney, Australia; Ph.D., University of Sydney, Australia.

**Charles P. Baril, Professor.**

A.B., College of William & Mary; M.B.A., College of William & Mary; Ph.D., University of Florida.

**James L. Barnes, Professor.**

M.Ed., Virginia State University; M.S., Virginia Polytechnic Institute and State University; Ed.D., Virginia Polytechnic Institute and State University.

**David A. Barnes, Administrative Faculty.**

B.S., Bowling Green State University; M.A., Bowling Green State University Ed.D. Virginia Polytechnic Institute and State University.

**Kenneth E. Barron, Associate Professor.**

B.A., Bucknell University; Ph.D., University of Wisconsin – Madison.

**Christine Bartholomew, Assistant Professor.**

B.A., Longwood University; M.Ed., Longwood University; Ph.D., Virginia Commonwealth University.

**Marta K. Bechtel, Assistant Professor.**

B.S., California State University, Long Beach; Ph.D., University of Southern California.

**Leslie M. Bellavance, Professor.**

B.F.A., Tyler School of Art of Temple University; M.F.A., University of Chicago.

**A. Jerry Benson, Professor.**

B.A., Concord College; M.A., George Peabody College for Teachers; Ph.D., George Peabody College for Teachers.

**Morgan C. Benton, Assistant Professor.**

B.A., University of Richmond; M.S., New Jersey Institute of technology; Ph.D., New Jersey Institute of Technology.

**Thomas R. Benzing, Associate Professor.**

B.A., Franklin & Marshall College; M.S., University of Pittsburgh; Ph.D., Michigan State University.

**David H. Bernstein, Associate Professor.**

B.A., State University of New York at Binghamton; M.P.A., Princeton University; Ph.D., University of Pennsylvania.

**Luis Betancourt, Assistant Professor.**

B.S., Salisbury State University; M.B.A., University of Maryland; Ph.D., University of Central Florida.

**Cheryl Lea Beverly, Associate Professor.**

B.A., University of South Florida M.Ed., University of Georgia; Ph.D., University of Florida.

**Paul E. Bierly, III, Associate Professor.**

B.A.S. University of Pennsylvania; B.S., University of Pennsylvania; M.B.A., Rutgers University; Ph.D., Rutgers University.

**Charles H. Blake, II, Professor.**

A.B., Davidson College; M.A., Duke University; Ph.D., Duke University.

**Sidney R. Bland, Professor.**

B.A., Furman University; M.A., University of Maryland; Ph.D., George Washington University.

**Sharon L. Blatz, Assistant Professor.**

B.A., Florida Atlantic University; M.Ed., Florida Atlantic University; Ph.D., University of Florida.

**Timothy A. Bloss, Assistant Professor.**

B.A., Carleton College; Ph.D., University of Wisconsin–Madison.

**Anthony E. Bopp, Professor.**

B.A., University of Missouri at Columbia; M.A., University of Missouri; Ph.D., University of Missouri.

**Kevin L. Borg, Assistant Professor.**

B.A., University of California; M.A., University of Delaware; Ph.D., University of Delaware.

**Zachary J. Bortolot, Assistant Professor.**

B.S., Brown University; M.S., University of British Columbia; Ph.D., Virginia Polytechnic Institute and State University.

**Carmen Ruth Bosch, Assistant Professor.**

B.A., University of Detroit; M.A., University of Detroit; Ph.D., Wayne State University.

**Dorothy A. Boyd-Bragg, Professor.**

B.A., Temple University; M.A., The Ohio State University; Ph.D., Temple University.

**Patricia Lynn Brady, Professor.**

B.A., B.M., Rhodes College; M.M., Memphis State University; D.M., Indiana University.

**David F. Brakke, Professor.**

B.A., College of St. Thomas; M.S., University of North Dakota; Ph.D., Indiana University.

**Patricia B. Brevard, Professor.**

B.S., B.A., Western Carolina University; M.S., University of North Carolina at Greensboro; Ph.D., University of North Carolina at Greensboro.

**JoAnne A. Brewster, Professor.**

B.A., State University of New York at Buffalo; Ph.D., McMaster University.

**John W. Briggs, Assistant Professor.**

B.S., College of William & Mary; M.S., Virginia Polytechnic Institute and State University; Ph.D., Virginia Polytechnic Institute and State University.

**Michele K. Briggs, Assistant Professor.**

B.A., James Madison University; M.A., Ed. Wake forest University; Ph.D., University of North Carolina at Greensboro.

**Christie-Joy Brodrick, Assistant Professor.**

B.S., California Polytechnic State University; M.S., University of California; Ph.D., University of California – Davis.

**Sarah T. Brooks, Assistant Professor.**

B.A., Dartmouth College; M.A., New York University; Ph.D., New York University.

**Justin W. Brown, Assistant Professor.**

B.S., Eastern Mennonite University; Ph.D., East Carolina University–The Brody School of Medicine.

**Douglas T. Brown, Professor.**

B.A., Monmouth College; M.A., George Peabody College; Ph.D., Indiana University.

**Hugh H. Brown, Instructor.**

B.S., The Ohio State University; M.A., The Ohio State University.

**Nathan D. Brubaker, Assistant Professor.**

B.S., University of Vermont M.Ed., Montclair State University; Ed.D., Montclair State University.

**Florian P. Buchholz, Assistant Professor.**

Diplom Informatik, Technische Universität Braunschweig (Germany); M.S., Purdue University; Ph.D., Purdue University.

**Maggie C. Burkhardt-Evans, Instructor.**

B.A., Bowling Green State University; M.A., The Ohio State University.

**Michael E. Busing, Associate Professor.**

B.S., Ball State University; M.S., Ball State University; Ph.D., Clemson University.

**John J. Butt, Professor.**

A.B., Rutgers College; B.Phil, St. Andrews University (Scotland); Ph.D., Rutgers University.

**Cynthia P. Cadieux, Assistant Professor.**

B.S., James Madison University; M.S., James Madison University; Ph.D., Old Dominion University.

**Maria Odette Canivell, Assistant Professor.**

B.A., Universidad Rafael Landívar (Guatemala); M.A., Universidad Francisco Marroquín (Guatemala); M.A. Florida Atlantic University; Ph.D., Universidad Rafael Landívar; Ph.D., Florida Atlantic University.

**David C. Carothers, Professor.**

B.S., Westminster College; M.S., Purdue University; Ph.D., Purdue University.

**Julia Wallace Carr, Associate Professor.**

B.S., West Virginia University; M.S., James Madison University; Ed.D., George Washington University.

**Benjamin H. Carr, Jr., Assistant Professor.**

B.S., James Madison University; J.D. George Mason University.

**Christopher J. Carrillo, Assistant Professor.**

B.M., The University of Memphis; M.M., The University of Texas at Austin; D.M.A., The University of Texas at Austin.

**Deborah F. Carrington, Associate Professor.**

B.A., Longwood College; M.Ed., University of Virginia; Ph.D., University of Virginia.

**Arlene Casiple, Instructor.**

B.S., University of the Philippines; M.S.T., University of Florida.

**Katey M. Castellano, Assistant Professor.**

B.A., Lebanon Valley College of Pennsylvania; M.A., Bucknell University; Ph.D., Duke University.

**David E. Cavazos, Assistant Professor.**

B.A., Texas Tech University; M.P.A., Texas Tech University; Ph.D., Texas Tech University.

**Sandra J. Cereola, Assistant Professor.**

B.S., Southern New Hampshire University; M.B.A., James Madison University; Ph.D., Virginia Commonwealth University.

**Beth E. Chandler, Associate Professor.**

B.M., Baylor University; M.M., New England Conservatory.

**Stephen Chappell, Assistant Professor.**

B.A., University of California – Los Angeles; M.A., University of California – Santa Barbara; Ph.D., University of California – Los Angeles.

**Tony D. Chen, Associate Professor.**

B.S., Chung Yuan Christian University; M.S., University of Iowa; Ph.D., Mechanical Engineering.

**Sukjin Choi, Assistant Professor.**

B.F.A., Ewha Womans University (Seoul, South Korea); M.F.A., Ewha Womans University; M.F.A., Cranbrook Academy of Art.

**Irvine Clarke, III, Associate Professor.**

B.B.A., University of Richmond; M.B.A., Old Dominion University; Ph.D., Old Dominion University.

**Corey L. Cleland, Associate Professor.**

B.A., Amherst College; Ph.D., Northwestern University.

**Richard G. Clemens, Assistant Professor.**

B.A., Goshen College; M.Ed., Lehigh University; Ed.D., University of Virginia.

**Harriet C. Cobb, Professor.**

B.S., Indiana University; M.S., Indiana University; Ed.D. University of Virginia.

**Brian A. Cockburn, Associate Professor.**

B.M., Texas A&M University; M.M., University of Arizona at Tucson; M.L.S., University of Arizona at Tucson.

**David E. Cockley, Associate Professor.**

B.S., Juniata College; M.S., The Pennsylvania State University; Dr.P.H., University of North Carolina at Chapel Hill.

**George L. Coffman, Associate Professor.**

B.S., Bob Jones University; M.S., Clemson University; Ph.D., University of Alabama in Birmingham.

**Susan Conaty-Buck, Instructor.**

B.S.N., James Madison University; M.S.N., University of Virginia; F.N.P., University of Virginia.

**Andrew M. Connell, Associate Professor.**

B.M., San José State University; M.A., The University of Michigan; M.M., The University of Michigan; Ph.D., University of California – Los Angeles.

**Jennifer L. Connerley, Assistant Professor.**

B.A., Centre College of Kentucky; M.A., University of North Carolina at Chapel Hill; Ph.D., University of North Carolina at Chapel Hill.

**Paul A. Copley, Professor.**

B.B.A., College of William & Mary; M.A., University of Alabama; Ph.D., University of Alabama; C.P.A.

**Sharon A. Cote, Associate Professor.**

B.A., State University of New York at Binghamton; M.A., New York University; Ph.D., University of Pennsylvania.

**Eric W. Cowan, Associate Professor.**

B.S., James Madison University; Psy.D., California School of Professional Psychology.

**Steven G. Cresawn, Assistant Professor.**

B.S., James Madison University; Ph.D., University of Florida.

**Samuel G. Cross, Professor.**

B.M., University of Texas; M.M., University of Texas.

**Michelle D. Cude, Assistant Professor.**

B.A., University of California; M.A., College of William & Mary; Ph.D., University of Virginia.

**Vicki L. Curry, Assistant Professor.**

B.M., Butler University; M.A., University of Denver; Ph.D., University of Utah.

**Pauline K. Cushman, Associate Professor.**

B.A., Davis and Elkins College; M.S.; M.A., West Virginia College of Graduate Studies/West Virginia University; Ph.D., University of Louisville.

**William M. Dabback, Assistant Professor.**

B.S., West Chester University; M.M. University of Rochester; Ph.D., University of Rochester.

**Janet Chen Daniel, Assistant Professor.**

B.S., Cornell University; Ph.D., University of Chicago.

**David B. Daniel, Associate Professor.**

B.S., San Diego State University; M.A., West Virginia University; Ph.D., West Virginia University.

**Hugh Tazewell Daughtrey, Jr., Instructor.**

B.S., University of Virginia; M.Ed., University of Virginia.

**Jessica B. Davidson, Assistant Professor.**

B.A., Trinity College; Ph.D., Brandeis University.

**Michael K. Davis, Assistant Professor.**

B.A., Syracuse University; M.A., Syracuse University; Ph.D., University of Georgia.

**Michael L. Deaton Professor.**

B.S., David Lipscomb University; M.S., Memphis State University; Ph.D., Virginia Polytechnic Institute and State University.

**Christine E. DeMars, Assistant Professor.**

B.A., Wichita State University M.Ed., Arizona State University; Ph.D., Michigan State University.

**James E. Dendinger Professor.**

B.S., California State University; M.A., California State University; Ph.D., University of Massachusetts.

**Rory A. DePaolis, Associate Professor.**

B.S., Northeastern University; M.S., Pennsylvania State; Ph.D., Pennsylvania State.

**Laura Desportes, Associate Professor.**

B.A., Mary Baldwin College; M.Ed., James Madison University; Ph.D., University of Virginia.

**B. Kent Diduch, Associate Professor.**  
B.S., College of William & Mary; M.D., University of Virginia School of Medicine.

**Philip D. Dillard, Associate Professor.**  
B.A., University of Georgia; M.A., University of Georgia; Ph.D., Rice University.

**Thomas W. Dillon, Associate Professor.**  
B.S., Ed. Shippensburg University; M.Ed., Shippensburg University; Ph.D., University of Maryland, Baltimore County.

**Judith A. Dilts, Professor.**  
B.A., Indiana University; M.A., Indiana University; Ph.D., Indiana University.

**Corinne J. Diop, Professor.**  
B.S., James Madison University; M.F.A., University of Washington.

**Gabrielle T. Dobner, Associate Professor.**  
B.M., Chicago Musical College of Roosevelt University; M.M., Indiana University; D.M., Indiana University.

**Elizabeth A. Doyle, Instructor.**  
B.A., Macalester College; Ph.D., University of Illinois.

**Pamela P. Drake, Professor.**  
B.S., Miami University of Ohio; Ph.D. University of North Carolina at Chapel Hill.

**Carol C. Dudding, Assistant Professor.**  
B.S., University of Virginia; M.A., University of Massachusetts; Ph.D., University of Virginia.

**Sandra C. Duvivier, Assistant Professor.**  
B.A., Queens College; M.A., University of Massachusetts – Amherst; Ph.D., University of Massachusetts – Amherst.

**Lennis G. Echterling, Professor.**  
B.A., Rockhurst College; M.S., Purdue University; Ph.D., Purdue University.

**Okechi Geoffrey Egekwu, Associate Professor.**  
B.S., University of Nebraska; M.S., and; M.B.A., University of Nebraska – Lincoln; Ph.D., University of Nebraska – Lincoln.

**David H. Ehrenpreis, Associate Professor.**  
B.A., Hamilton College; M.A., Boston University Graduate School; Ph.D., Boston University Graduate School.

**T. Dary Erwin, Professor.**  
B.S., University of Tennessee; M.S., University of Tennessee; Ph.D., University of Iowa.

**Michele D. Estes, Assistant Professor.**  
B.F.A., Valdosta State University; M.Ed., Valdosta State University; Ph.D., University of Georgia.

**William F. Evans, Assistant Professor.**  
B.A., Wofford College; M.Div., Duke University; Ph.D., Ed.S., University of South Carolina.

**Steven W. Evans, Associate Professor.**  
B.S., Bowling Green State University; M.A., Ball State University; Ph.D., Case Western Reserve University.

**Mark A.R. Facknitz, Professor.**  
B.A., Lawrence University; M.F.A., University of Iowa; Ph.D., University of New Mexico.

**Marina C. Favila, Associate Professor.**  
B.A., University of Maryland – College Park; M.L.A., Johns Hopkins University; Ph.D., University of Massachusetts – Amherst.

**Annette R. Federico, Professor.**  
B.A., Ohio University; M.A., Case Western Reserve University; Ph.D., Case Western Reserve University.

**Joy K. Ferenbaugh, Assistant Professor.**  
B.S., University of California – Davis; M.S., University of Minnesota; Ph.D., Texas Tech University.

**Eric M. Fife, Associate Professor.**  
B.S., James Madison University; M.A., University of Maryland; Ph.D., Purdue University.

**Sara J. Finney, Assistant Professor.**  
B.A., University of Wisconsin – Eau Claire; M.A., University of Nebraska – Lincoln; Ph.D., University of Nebraska – Lincoln.

**Theresa B. Flaherty, Associate Professor.**  
B.S., University of Louisville; M.S., California University of Pennsylvania; Ph.D., University of Kentucky.

**Judith A. Flohr, Professor.**  
B.S., University of California; M.A., University of California – Davis.

**Kathryn L. Floyd, Instructor.**  
B.S.N., Radford University; M.S.N., University of Virginia; F.N.P., University of Virginia.

**Brenda E. Fogus, Instructor.**  
B.A., University of Virginia; M.A.T., University of Virginia.

**George Font, Associate Professor.**  
B.S., University of Central Florida; M.Ed., University of Central Florida; Ph.D., University of Georgia.

**Karen A. Ford, Professor.**  
B.A., Emory & Henry College; M.S.W., Virginia Commonwealth University; D.S.W., Howard University.

**David R. Fordham, Associate Professor.**

B.S., Jones College; M.B.A., University of North Florida; Ph.D., Florida State University.

**Diane L. Foucar-Szocki, Associate Professor.**

B.A., San Diego University; M.S., State University of New York at Buffalo; Ph.D., Syracuse University.

**Christopher J. Fox, Professor.**

B.A., M.A., Michigan State University; M.S., Syracuse University; Ph.D., Syracuse University.

**Chapman H. Frazier, Professor.**

B.A., West Virginia University; M.A., West Virginia University; Ph.D., University of Virginia.

**Joan Frederick, Professor.**

B.A., Mary Washington College; M.A., University of Tennessee; Ph.D., University of Tennessee.

**Gary L. Freeburg, Assistant, Professor.**

B.F.A., Minnesota State University; M.A., Minnesota State University; M.F.A., The University of Iowa.

**Jamie L. Frye, Assistant Professor.**

B.A., Coe College; M.S., Indiana State University; Ph.D., University of Virginia.

**Steven P. Frysinger, Professor.**

B.A., William Paterson College; M.S., Stevens Institute of Technology; Ph.D., Rutgers University.

**Keston H. Fulcher, Assistant Professor.**

B.A., University of Virginia; Ed.S., University of Kansas; Ph.D., James Madison University.

**Alexander L. Gabbin, Professor.**

B.A., Howard University; M.B.A., University of Chicago; Ph.D., CPA Temple University.

**Joanne V. Gabbin, Professor.**

B.A., Morgan State College; M.A., University of Chicago; Ph.D., University of Chicago.

**Barbra L. Gabriel, Professor.**

B.S., Elmhurst College; Ph.D., University of Chicago.

**Mark L. Gabriele, Assistant Professor.**

B.S., James Madison University; Ph.D., Wake Forest University School of Medicine.

**Michael J. Galgano, Professor.**

B.A., University of Virginia; M.A., University of Virginia; Ph.D., Vanderbilt University.

**Scott R. Gallagher, Associate Professor.**

B.B.A., University of Texas; M.P.A., Harvard University; Ph.D., Rutgers University.

**Daniel G. Gallagher, Professor.**

B.A., University of Massachusetts – Boston; M.A., University of Illinois at Urbana-Champaign; Ph.D., University of Illinois at Urbana-Champaign.

**Mary K. Gayne, Assistant Professor.**

B.A., Portland State University; M.A., Cornell University; Ph.D., Cornell University.

**H. Michael Gelfand, Assistant Professor.**

A.B., The University of Georgia; M.A., The University of Georgia; Ph.D., The University of Arizona.

**John R. Gentile, Professor.**

B.A., Edinboro State College; M.S., Oregon State University; Ph.D., Oregon State University.

**Susan R. Ghiaciuc, Assistant Professor.**

B.A., University of Iowa; M.F.A., University of Texas at El Paso; Ph.D., University of Louisville.

**Jonathan B. Gibson, Assistant Professor.**

B.M., University of Richmond; A.M., Duke University; Ph.D., Duke University.

**Pamela R. Gibson, Professor.**

B.A., Cleveland State University; M.A., Cleveland State University; Ph.D., University of Rhode Island.

**Tammy D. Gilligan, Associate Professor.**

B.A., Clemson University; M.A., University of South Carolina; Ph.D., University of South Carolina.

**Janet W. Gloeckner, Associate Professor.**

B.S., University of Illinois; M.S., Colorado State University; Ph.D., The Ohio State University.

**Katrina E. Gobetz, Assistant Professor.**

B.A., Colgate University; M.S., Indiana University; Ph.D., University of Kansas.

**Denise A. Gochenour, Instructor.**

B.S.N., James Madison University; M.S.N., Old Dominion University; F.N.P., Old Dominion University.

**Michael S. Goldberger, Professor.**

B.S., State University of New York at Cortland; M.Ed., University of Pittsburgh; Ph.D., University of Pittsburgh.

**Teresa A. Gonzalez, Professor.**

B.A., Molloy College; M.Ed., Ohio University; Ph.D., Ohio University.

**Dawn M. Goode, Assistant Professor.**

B.A., Trinity University-San Antonio; M.A., University of Connecticut-Storrs; Ph.D., University of Connecticut-Storrs.

**Joshua T. Goodman, Assistant Professor.**

B.A., University of Delaware; M.S., University of North Carolina at Greensboro; Ph.D., University of North Carolina at Greensboro.

**Lincoln C. Gray, Professor.**

B.A., Carleton College; M.N., Carleton College; Ph.D., Michigan State University.

**Joann Hess Grayson, Professor.**

B.A., Gettysburg College; Ph.D., Washington University.

**Ginger L. Griffin, Administrative Faculty.**

B.S., Bridgewater College; M.A., James Madison University; Ed.S., James Madison University.

**Oris T. Griffin, Professor.**

B.A., Winston-Salem State University; M.A. Western Michigan University; Ed.D., Western Michigan University.

**Heather P. Griscom, Assistant Professor.**

B.A., Smith College; M.S., Yale University; Ph.D., Yale University.

**Ralph F. Grove, Associate Professor.**

B.S., Purdue University; M.S., University of Louisville; Ph.D., University of Louisville.

**Michael D. Gubser, Assistant Professor.**

B.A., College of William & Mary; M.A., University of South Carolina; Ph.D., University of California – Berkeley.

**Steven W. Guerrier, Associate Professor.**

B.A., Wayne State University; M.A., University of Michigan; Ph.D., University of Michigan.

**Tracy N. Hakala, Administrative Faculty.**

B.S., James Madison University; M.Ed., James Madison University.

**Patty W. Hale, Professor.**

B.S.N., University of Wisconsin – Milwaukee; M.S.N., University of Virginia; Ph.D., University of Maryland –Baltimore.

**Michael D. Hall, Assistant Professor.**

B.S., University of New Mexico; M.A., State University of New York at Binghamton; Ph.D., State University of New York at Binghamton.

**Dan C. Halling, Associate Professor.**

B.S., Utah State University; M.A., University of Northern Colorado; Ph.D., Indiana University.

**Linda Cabe Halpern, Professor.**

B.A., University of North Carolina at Chapel Hill; M.A., Yale University; Ph.D., Yale University.

**Susan R. Halsell, Assistant Professor.**

B.A., University of Texas; M.A., University of Texas; Ph.D., California Institute of Technology.

**Lawrence L. Ham, Associate Professor.**

B.S., Central Washington University; M.Ed., Temple University Ed.D. Temple University.

**James B. Hammond, Professor.**

B.A., St. Francis Seminary; B.S.M., Western Michigan University; M.A., Western Michigan University.

**Mary Kathryn Handley, Associate Professor.**

B.S., Cornell University; M.S., Cornell University; Ph.D., University of California.

**Jason Haney, Assistant Professor.**

B.A., Austin College; M.M., Indiana University.

**Shah Mahmoud Hanifi, Assistant Professor.**

B.A., University of Wisconsin–Madison; Ph.D., University of Michigan.

**Kevin R. Hardwick, Associate Professor.**

B.A., Swarthmore College; M.A., University of Maryland; Ph.D., University of Maryland.

Christine J. Harnes, Assistant Professor.

Ph.D., University of South Florida.

**Donna Lynn Harper, Administrative Faculty.**

B.S., James Madison University; M.Ed., James Madison University; Ed.S., James Madison University.

**Steven R. Harper, Assistant Professor.**

B.S., University of California; M.S., University of Illinois; Ph.D., University of Illinois.

**Reid N. Harris, Professor.**

B.S., Duke University; M.S., University of Maryland; Ph.D., Duke University.

**Teresa T. Harris, Professor.**

B.A., University of North Carolina at Greensboro; M.S., Radford University; Ph.D., Virginia Polytechnic Institute and State University.

**Mark D. Hawthorne, Professor.**

B.A., Wake Forest College; M.A., University of Florida; Ph.D., University of Florida.

**David C. Hayes, Assistant Professor.**

B.S., B.A., University of Arkansas; M.B.A., University of West Florida; Ph.D., University of South Florida.

**Hui He, Assistant Professor.**

B.A., China Foreign Affairs University (Beijing, China); M.A., The George Washington University; Ph.D., The George Washington University.

**Brooks E. Hefner, Assistant Professor.**  
B.A., Transylvania University; Ph.D., University of New York.

**Laura Henigman, Associate Professor.**  
M.A., Columbia University; M. Phil., Columbia University; Ph.D., Columbia University.

**Anne D. Henriksen, Professor.**  
B.A., University of North Carolina at Charlotte; M.B.A., University of New Mexico; Ph.D., University of Virginia.

**Gregg Henriques, Assistant Professor.**  
B.S., James Madison University; M.A., University of North Carolina at Charlotte; Ph.D., University of Vermont.

**David E. Herr, Professor.**  
B.A., Bowling Green State University; M.A., Eastern Michigan University; Ed.D., University of Virginia.

**James B. Herrick, Associate Professor.**  
B.S., Brigham Young University; M.S., Brigham Young University; Ph.D., Cornell University.

**M. Hossain Heydari, Professor.**  
B.S., Karaj School of Mathematics and Economic Management; M.S., Jackson State University; Ph.D., University of Texas at Dallas.

**Corey A. Hickerson, Assistant Professor.**  
B.A., University of Memphis; M.A., University of Alabama; Ph.D., University of Virginia.

**Patricia E. Higgins, AP Faculty.**  
B.A., State University of New York; M.S., James Madison University.

**John S. Hilliard, Professor.**  
B.M., Ouachita University; M.M., Virginia Commonwealth University; D.M.A., Cornell University at Ithaca.

**Hugh A. Hobson, Professor.**  
B.S., West Georgia College; M.B.A., University of Georgia; Ph.D., University of Georgia.

**Wanchi Huang, Associate Professor.**  
B.M., The Curtis Institute of Music; M.M., The Juilliard School; D.M., Indiana University.

**Kyle A. Huggins, Assistant Professor.**  
B.S., Union University; M.B.A., Union University; Ph.D., University of Arkansas.

**Michelle A. Hughes, Assistant Professor.**  
B.A., State University of New York; M.S., Nazareth College; Ph.D., University of Virginia.

**Chris S. Hulleman, Assistant Professor.**  
B.A., Central College – Pella, Iowa; M.S., University of Wisconsin–Madison; Ph.D., University of Wisconsin–Madison.

**Linda J. Hulton, Associate Professor.**  
B.S.N., Roberts Wesleyan College; M.S.N., University of Virginia; Ph.D., University of Virginia.

**Carol A. Hurney, Assistant Professor.**  
B.A., University of Rochester; Ph.D., University of Virginia.

**Raymond M. Hyser, Jr. Professor.**  
B.S.Ed., Georgia Southern College; M.A., Georgia Southern College; Ph.D., Florida State University.

**Susan B. Ingram, Instructor.**  
B.S., James Madison University; M.S., James Madison University.

**Jessica G. Irons, Assistant Professor.**  
B.A., Augusta State University; M.S., Augusta State University; Ph.D., Auburn University.

**M. Gay Ivey, Associate Professor.**  
B.A., College of William & Mary; M.Ed., University of Virginia; Ph.D., University of Georgia.

**Ming Ivory, Associate Professor.**  
B.S., Tufts University; M.A., University of Pennsylvania; Ph.D., Massachusetts Institute of Technology.

**Claire A. Jacobson, Clinical, Instructor.**  
B.S., University of Utah; M.Ed., Dalhousie University; Au.D., University of Arizona.

**C. David D. Jaynes, Assistant Professor.**  
B.S., Appalachian State University; M.S., Appalachian State University; Ph.D., Wake Forest University.

**David K. Jeffrey, Professor.**  
B.A., Hobart College; M.A., University of Virginia; Ph.D., University of North Carolina at Chapel Hill.

**Robert T. Jerome, Jr., Associate Professor.**  
B.A., Texas Christian University; Ph.D., University of Virginia.

**Kia N. Johnson, Assistant Professor.**  
B.M., Truman State University; M.S., Howard University; Ph.D., Vanderbilt University.

**Bruce A. Johnson, Associate Professor.**  
B.A., Greenville College; M.A., Indiana University; Ph.D., University of Illinois.

**Marilou M. Johnson, Professor.**  
B.S., James Madison University; M.S.M.C., Arkansas State University; Ph.D., University of Tennessee – Knoxville.

**Sarah L. Jones, Assistant Professor.**

B.S., James Madison University; M.Ed., Virginia Commonwealth University; Psy.D., James Madison University.

**Billie J. Jones, Assistant Professor.**

B.A., University of Findlay; M.A., Bowling Green State University; Ph.D., Bowling Green State University.

**Arnold S. Kahn, Professor.**

B.A., University of Missouri at Kansas City; M.A., Southern Illinois University; Ph.D., Southern Illinois University.

**Frank B. Kalupa, Professor.**

B.S., University of Wisconsin; M.A., University of Southern California; Ph.D., University of Southern California.

**Erika M. Kancler, Instructor.**

B.S., The Pennsylvania State University; M.D. Virginia Commonwealth University.

**Ronald G. Kander, Professor.**

B.S., Carnegie-Mellon; Ph.D., University of Delaware.

**Shin Ji Kang, Assistant Professor.**

B.A., Duksung Women's University; M.Ed., Vanderbilt University; Ph.D., Vanderbilt University.

**Jon E. Kastendiek, Associate Professor.**

B.A., University of California – Los Angeles; Ph.D., University of California – Los Angeles.

**Laura R. Katzman, Associate Professor.**

B.A., New York University; M.A., Yale University; M.Phil., Yale University; Ph.D., Yale University.

**Steven L. Keffer, Associate Professor.**

B.A., Bennington College; M.A., State University of New York at Buffalo; Ph.D., Southern Illinois University.

**Peggy Kellers, Associate Professor.**

B.S., Southern Connecticut State University; M.S., University of Bridgeport; Ed.D., University of Virginia.

**Karen F. Kellison, Assistant Professor.**

B.A., Virginia Commonwealth University; M.Ed., Virginia Commonwealth University; Ed.D., University of Virginia.

**Alden R. Kent, Assistant Professor.**

B.A., Randolph-Macon College; M.S.W., University of Connecticut.

**Daniel Kerr, Assistant, Professor.**

B.A., Carleton College; M.A., Case Western Reserve; Ph.D., Case Western Reserve University.

**Katherine J. Kessler, Associate Professor.**

B.S., Shippensburg University; M.A., Shippensburg University; Ph.D., Indiana University of Pennsylvania.

**William D. Kimsey, Professor.**

B.S., East Tennessee State University; M.A., Arizona State University; Ph.D., Southern Illinois University.

**Joan S. Kindig, Associate Professor.**

B.A., Hofstra University; M.Ed., University of Virginia; Ed.D., University of Virginia.

**Lamont D. King, Assistant Professor.**

B.A., The Pennsylvania State University; M.A., Temple University; Ph.D., Temple University.

**Deborah Kipps-Vaughan, Assistant Professor.**

B.S., Virginia Polytechnic Institute and State University; Ed.S./M.Ed., James Madison University; Psy.D., James Madison University.

**Gary R. Kirk, Assistant Professor.**

B.A., New College of Florida; M.A., Virginia Polytechnic Institute and State University; Ph.D., Virginia Polytechnic Institute and State University.

**Michele M. Kirkdorffer, Associate Professor.**

B.M., University of Northern Iowa; M.M., University of Northern Iowa; Ph.D., University of Cincinnati College.

**Michael J. Klein, Assistant Professor.**

B.A., University of Arizona; M.A., University of Arizona; M.S., Rensselaer Polytechnic Institute; Ph.D., Virginia Polytechnic Institute and State University.

**Cynthia A. Klevickis, Associate Professor.**

B.S., University of Wisconsin–Madison; M.S., University of Wisconsin–Madison; Ph.D., University of Virginia.

**Robert W. Kolodinsky, Associate Professor.**

B.A., Albright College; M.S./Ed.S., Florida State University; Ph.D., Florida State University.

**Robert A. Kolvoord, Professor.**

B.A., University of Virginia; M.S., University of Virginia; Ph.D., Cornell University.

**Chris J. Koski, Assistant Professor.**

B.A., Carroll College; M.A., University of Washington; Ph.D., University of Washington.

**Robert E. Koslow, Professor.**

B.A., William Paterson College; M.S., Indiana University; Ph.D., Indiana University.

**Helmut Kraenzle, Professor.**

Diploma in Geography, Ludwig-Maximilian University of Munich (Germany); Ph.D., Ludwig-Maximilian University of Munich.

**Allison Kretlow, Assistant Professor.**

B.A., Furman University; M.A.T., University of North Carolina at Charlotte; Ph.D., University of North Carolina at Charlotte.

**Susan E. Kruck, Associate Professor.**

B.B.A., James Madison University; M.B.A., James Madison University; Ph.D., Virginia Polytechnic Institute and State University.

**Laurie L. Kutchins, Associate Professor.**

B.A., Carleton College; M.F.A., University of Massachusetts.

**Margaret M. Kyger, Assistant Professor.**

B.A., Bridgewater College; M.Ed., James Madison University; Ph.D., University of Virginia.

**Malcom G. Lane, Professor.**

B.S., Davidson College; M.A., Duke University; Ph.D., Duke University.

**Gabrielle M. Lanier, Associate Professor.**

B.A., University of Pennsylvania; M.A., University of Delaware; Ph.D., University of Delaware.

**Andrew B. Lankford, Associate Professor.**

B.M., University of North Carolina at Greensboro; M.M., University of Kansas; D.M.A., University of North Carolina at Greensboro.

**Chris S. Lantz, Associate Professor.**

A.A.S., Blue Ridge Community College; B.S., James Madison University; Ph.D., Medical College of Virginia.

**Richard R. Lawler, Assistant Professor.**

B.A., University of Illinois; M.A., Southern Illinois University; Ph.D., Yale University.

**Robert E. Lee, Associate Professor.**

B.A., Berea College; M.A., Appalachian State University; Ph.D., University of South Carolina.

**Matthew R. Lee, Assistant Professor.**

B.A., Rutgers College; M.A., University of Illinois at Urbana-Champaign; Ph.D., University of Illinois at Urbana-Champaign.

**Kristi L. Lewis, Assistant Professor.**

B.S., Virginia Commonwealth University; M.P.H., Medical College of Virginia; Ph.D., Virginia Commonwealth University.

**Laura A. Lewis, Professor.**

B.A., State University of New York at Stony Brook; M.A., University of Chicago; Ph.D., University of Chicago.

**G. Kenneth Lewis, Jr., Associate Professor.**

B.S., University of Wisconsin; M.S., University of Illinois; Ph.D., University of Illinois.

**Reid J. Linn, Professor.**

B.S., East Carolina University; M.Ed., University of Virginia; Ph.D., University of Florida.

**John A. Little, Professor.**

B.S., State University of New York at Fredonia; M.M., Southern Illinois University; D.M.A., University of Illinois.

**Qingfeng "Wilson" Liu, Associate Professor.**

B.A., Shenzhen University; M.B.A., University of Kansas; Ph.D., University of Oklahoma.

**Mary Louise Loe, Professor.**

B.A., University of Wisconsin; M.A., Columbia University; Ph.D., Columbia University.

**Solange A. Lopes-Murphy, Associate Professor.**

B.A., Faculdade Ibero-Americana de Letras e Ciências Humanas; M.S., Radford University; Ph.D., Virginia Polytechnic Institute and State University.

**Timothy J. Louwers, Professor.**

B.S., The Citadel; M.B.A., The Citadel; Ph.D., Florida State University.

**Jeffrey D. Loveland, Associate Professor.**

B.S., Wayne State University; M.S., Wayne State University; O.T.D., University of St. Augustine.

**Sharon E. Lovell, Associate Professor.**

B.S., James Madison University; M.A., Bowling Green State University; Ph.D., Bowling Green State University.

**LouAnn A. Lovin, Assistant Professor.**

B.A., Cameron University; M.S., Western Carolina University; Ph.D., University of Georgia.

**Nicholas D. Luden, Assistant Professor.**

B.S., Slippery Rock University of Pennsylvania; M.S., James Madison University; Ph.D., Ball State University.

**Christy L. Ludlow, Professor.**

B.S., McGill University; M.S., McGill University; Ph.D., New York University.

**Remy M. Luerksen, AP Faculty.**

B.S., James Madison University; M.S., University of Maine.

**Steven S. Lunsford, Assistant Professor.**

B.A., University of Texas of the Permian Basin; M.A., DePaul University; Ph.D., University of Texas at El Paso.

**Ian K. Macgillivray, Assistant Professor.**

B.A., University of Northern Colorado; M.S., University of Colorado; Ph.D., University of Colorado at Boulder.

**Dorothy Maddison, Associate Professor.**

B.S., St. Olaf College; M.S., Arizona State University; D.M.A., Arizona State University.

**Sharon F. Maiewski, Assistant Professor.**

B.S., College of Charleston; B.S., George Washington University; M.S., Nova Southwestern University.

**Robert Inman Majors, Assistant Professor.**

B.A., Vanderbilt University; M.F.A., University of Alabama.

**Joseph H. Marchal, Professor.**

B.A., Michigan State University; M.S., University of Missouri-Rolla; Ph.D., Washington University.

**Ina S. Markham, Professor.**

B.A., Calcutta University; M.A., Calcutta University; M.B.A., Virginia Polytechnic Institute and State University; Ph.D., Virginia Polytechnic Institute and State University.

**Doris M. Martin, Professor.**

B.A., Ed. Millersville University M.Ed., University of North Carolina at Greensboro; Ph.D., Virginia Polytechnic Institute and State University.

**Jeanne Martino-McAllister, Associate Professor.**

B.A., Slippery Rock University; M.A., Indiana University of Pennsylvania; Ph.D., University of Virginia.

**Merle E. Mast, Professor.**

B.A., B.S., Eastern Mennonite University; Ph.D., University of Virginia.

**Ramon A. Mata-Toledo, Professor.**

B.S., Instituto Pedagógico de Caracas (Venezuela); M.S., Florida Institute of Technology; M.B.A., Florida Institute of Technology; Ph.D., Kansas State University.

**Richard G. Mathieu, Professor.**

B.S., C.E., University of Delaware; M.S., University of Virginia; Ph.D., University of Virginia.

**Paula J. Maxwell, Associate Professor.**

B.S., Houghton College; M.S., Indiana State University; Ph.D., State University of New York at Buffalo.

**Christine L. May, Faculty Research Associate.**

B.S., Humboldt State University; M.S., Oregon State University; Ph.D., Oregon State University.

**Lisa M. Maynard, Assistant Professor.**

B.M., University of Queensland; M.M., University of Texas at Austin; Ph.D., University of Texas.

**Sharon R. Mazzearella, Professor.**

B.S., Northwestern University; Ph.D., University of Illinois.

**Robert D. McCashin, Professor.**

B.M., Louisiana State University; M.M., Louisiana State University; D.M.A., University of Arizona.

**Kristen McCleary, Assistant Professor.**

B.A., University of California – San Diego; M.A., University of California – Los Angeles; Ph.D., University of California – Los Angeles.

**James W. McConnel, Assistant Professor.**

B.A., University of South Florida; M.A., University of South Florida; Ed.D., University of Virginia.

**James J. McGowan, Assistant Professor.**

B.M., University of Toronto; M.M., University of Toronto; University of North Texas; Ph.D., University of Rochester.

**David K. McGraw, Associate Professor.**

B.A., Toccoa Falls College; M.S., University of Pittsburgh; J.D., Georgetown University.

**John E. McKee, Professor.**

B.S.E., Kansas State Teachers College; M.S., Kansas State Teachers College; Ed.D., Indiana University.

**Robert L. McKown, Professor.**

B.S., University of California; Ph.D., University of California.

**Kevin J. McMillan, Assistant Professor.**

B.M., University of Western Ontario; M.M., The Juilliard School.

**Conley K. McMullen, Assistant Professor.**

B.S., Eastern Mennonite University; M.S., James Madison University; Ph.D., University of Maryland.

**Cara Meixner, Assistant Professor.**

B.S., James Madison University; M.A., University of Maryland – College Park; Ph.D., Antioch University.

**Richard B. Meixsel, Associate Professor.**

B.A., Kansas State University; M.A., University of Georgia; Ph.D., The Ohio State University.

**Amber S. Messersmith, Assistant Professor.**

B.S., University of Nebraska at Kearney; M.A., University of Kansas; Ph.D., University of Kansas.

**Thomas G. Metzinger, AP Faculty.**

B.S., Bluefield College; M.Ed., James Madison University.

**Jonathan J. Miles, Professor.**

B.A., Clark University; Ph.D., University of Massachusetts at Amherst.

**Scott R. Milliman, Associate Professor.**

B.A., University of California – Santa Cruz; M.A., University of Wisconsin–Madison; Ph.D., University of Wisconsin–Madison

**Janice L. Minor, Associate Professor.**  
B.F.A., State University of New York at Purchase; M.M., Northwestern University; D.M.A., University of Cincinnati College.

**Randy L. Mitchell, Instructor.**  
B.A., University of Northern Colorado; M.Ed., Colorado State University; Ed.D., Nova Southeastern University.

**Michael M. Moghtader, Assistant Professor.**  
B.A., The Pennsylvania State University; M.A., James Madison University; Ph.D., University of New Mexico.

**Kathryn E. Monger, Assistant Professor.**  
B.S., James Madison University; M.A., James Madison University; Ph.D., Virginia Commonwealth University.

**Jonathan D. Monroe, Professor.**  
B.S., University of Michigan; Ph.D., Cornell University.

**Debali Mookerjee-Leonard, Assistant Professor.**  
B.A., Jadavpur University (India); M.A., Jadavpur University; Ph.D., University of Chicago.

**Thomas E. Moran, Assistant Professor.**  
B.S., State University of New York at Cortland; M.S., State University of New York at Cortland; Ph.D., University of Virginia.

**Margaret M. Mulrooney, Associate Professor.**  
B.A., University of Delaware; M.A., College of William & Mary; Ph.D., College of William & Mary.

**Christopher G. Murphy, Associate Professor.**  
B.S., University of Illinois; Ph.D., Cornell University.

**Henry A. Myers, Professor.**  
B.A., Swarthmore College; M.A., Boston University; Ph.D., Brandeis University.

**C. Leigh Nelson, Assistant Professor.**  
B.A., Washington State University; M.A., Washington State University; Ph.D., Purdue University.

**Kenneth F. Newbold, Jr., Instructor.**  
B.S., Bridgewater College; M.P.A., James Madison University.

**Nancy B. Nichols, Associate Professor.**  
B.A., University of South Florida; M.S., University of North Texas; Ph.D., University of North Texas.

**John B. Noftsinger, Jr., Associate Professor.**  
B.S., James Madison University; M.A., The Ohio State University; Ed.D., University of Virginia.

**Michael L. Norton, Assistant Professor.**  
B.M., James Madison University; M.A., The Ohio State University; Ph.D., The Ohio State University.

**Susan B. Nye, Assistant Professor.**  
B.S., Roanoke College; M.A., The Ohio State University; Ph.D., The Ohio State University.

**Cynthia R. O'Donoghue, Associate Professor.**  
B.A., Clemson University; M.Ed., University of Virginia; Ph.D., University of Virginia.

**Jung Duk Ohn, Assistant Professor.**  
B.A., Ewha Womans University; M.A., Ewha Womans University; Ph.D., The University of Iowa.

**Ramenga M. Osotsi, Associate Professor.**  
B.A., University of Nairobi (Kenya); M.A., University of Nairobi; Ph.D., Indiana University at Bloomington.

**John W. Ott, Assistant Professor.**  
B.A., Stanford University; M.A., University of California – Los Angeles; Ph.D., University of California – Los Angeles.

**David Owusu-Ansah, Professor.**  
B.A., University of Cape Coast, Ghana; M.A., McGill University; Ph.D., Northwestern University.

**Raktim Pal, Assistant Professor.**  
B.Tech, Indian Institute of Technology; M.S., Purdue University; Ph.D., Purdue University.

**Susan W. Palocsay, Professor.**  
B.S., James Madison University; M.S., George Washington University; D.Sc., George Washington University.

**Maria Papadakis, Associate Professor.**  
B.A., Virginia Polytechnic Institute and State University; M.A., Indiana University; Ph.D., Indiana University.

**Mark L. Parker, Head, English Department.**  
B.A., University of Alabama; Ph.D., Harvard University.

**Elizabeth R. Pass, Associate Professor.**  
B.A., Texas A&M University; M.A., Texas Tech University; Ph.D., Texas Tech University.

**Dena A. Pastor, Assistant Professor.**  
B.A., University of Texas at Austin; Ph.D., University of Texas at Austin.

**Liliokanaio Peaslee, Assistant Professor.**  
B.A., University of Vermont; M.A., Brandeis University; Ph.D., Brandeis University.

**Holly M. Pence, Assistant Professor.**  
B.S., James Madison University; M.Ed., James Madison University; Ph.D., University of Virginia.

**Denise A. Perritt, Assistant Professor.**

B.A., Emory and Henry College; M.Ed., University of Richmond.

**Connie L. Peterson, Assistant Professor.**

B.S., Indiana University; M.S., Ithaca College; Ph.D., University of Georgia.

**J. Peter Pham, Assistant Professor.**

B.A., University of Chicago; Ph.D., Gregorian University (Rome, Italy)

**Alice I. Philbin, Professor.**

B.A., Le Moyne College; M.A., Southern Illinois University at Carbondale; Ph.D., Southern Illinois University at Carbondale.

**Olga Pierrakos, Assistant Professor.**

B.S., Virginia Polytechnic Institute and State University; M.S., Virginia Polytechnic Institute and State University; Ph.D., Virginia Polytechnic Institute and State University.

**Lori E. Plitz, Assistant Professor.**

B.M., University of Ottawa, Canada; M.M., Indiana University; D.M., Indiana University.

**Georgia N. L. J. Polacek, Associate Professor.**

B.S., Boise State University; M.S., Boise State University; Ph.D., University of Texas at Austin.

**Jack H. Presbury, Professor.**

B.S., Ed. Central Missouri State University; M.Ed., University of Pittsburgh; Ph.D., University of Pittsburgh.

**Steven L. Purcell, Assistant Professor.**

B.S., Virginia Polytechnic Institute and State University; M.S.Ed., Virginia Polytechnic Institute and State University; Ph.D., Virginia Polytechnic Institute and State University.

**Jim L. Query, Jr., Professor.**

B.A., Indiana University Purdue University; M.A., Ohio University; Ph.D., Ohio University.

**Brianna S. Quinn, Instructor.**

B.S., James Madison University; M.A., T. James Madison University.

**Ronald W. Raab, Associate Professor.**

B.A., University of California – Santa Barbara; M.A., University of California – Santa Barbara; Ph.D., Texas A&M University.

**Nicole M. Radziwill, Assistant Professor.**

B.S., The Pennsylvania State University M.S., South Dakota School of Mines & Technology; M.B.A., Regis University; Ph.D., Indiana State University.

**Mark C. Rankin, Assistant Professor.**

B.S., Ohio University; M.A., Ohio University; Ph.D., The Ohio State University.

**Matthew E. Rebhorn, Assistant Professor.**

B.A., University of Chicago; M.A., University of Virginia; M.Phil., Columbia University; Ph.D., Columbia University.

**Vicki A. Reed, Professor.**

B.S., Northwestern University; M.A., University of Denver; Ed.D., University of Northern Colorado.

**Steven A. Reich, Assistant Professor.**

B.A., Lawrence University; Ph.D., Northwestern University.

**Robert D. Reid, Professor.**

B.S., University of Wisconsin-Stout; M.S., University of Wisconsin-Stout; Ed.D., Virginia Polytechnic Institute and State University.

**Harry L. Reif, Associate Professor.**

B.S., Michigan State University; M.B.A., Michigan State University; Ph.D., Virginia Commonwealth University.

**Monica J. Reis-Bergan, Associate Professor.**

B.S., Iowa State University; M.S., Iowa State University; Ph.D., Iowa State University.

**Michael H. Renfroe, Professor.**

B.S., North Carolina State University; M.S., The Ohio State University; Ph.D., M.Phil., Yale University.

**C. William Rice, Professor.**

B.A., Central Michigan University; M.A., Western Illinois University.

**Robert C. Richardson, Assistant Professor.**

B.A., Clemson University; M.S., Virginia Polytechnic Institute and State University; Ph.D., Virginia Polytechnic Institute and State University.

**Don G. Rierson, Assistant Professor.**

B.A., University of North Carolina at Chapel Hill; M.M., Florida State University; Ph.D., Florida State University.

**Lina Rifai, Visiting Assistant Professor.**

B.S., Jordan University of Science and Technology; M.S., Jordan University of Science and Technology; Ph.D., University of Louisville.

**Terrie K. Rife, Assistant Professor.**

B.S., Michigan State University; Ph.D., The Ohio State University.

**Diane A. Riordan, Professor.**

B.S., University of Rhode Island; M.Acct., Virginia Polytechnic Institute and State University; Ph.D., Virginia Polytechnic Institute and State University.

**Michael P. Riordan, Professor.**

B.S., American International College; M.S., University of Rhode Island; Ph.D., Virginia Polytechnic Institute and State University.

**Gary K. Ritcher, Professor.**

B.S., University of Illinois at Urbana-Champaign; M.A., The Ohio State University; Ed.D., University of Illinois at Urbana-Champaign.

**Melissa A. Rittenhouse, Assistant Professor.**

B.S., University of Dayton; M.S., Georgia State University; Ph.D., Kent State University.

**Robert N. Roberts, Professor.**

B.A., J.D., Syracuse University; M.P.A., Syracuse University; Ph.D., Syracuse University.

**Judith T. Rocchiccioli, Professor.**

B.S.N., Virginia Commonwealth University; M.S.N., Virginia Commonwealth University; Ph.D., Virginia Commonwealth University.

**Sheena J. Rogers, Professor.**

B.S., University of Southampton (U.K.); Ph.D., Royal College of Art (U.K.).

**Mark D. Rooker, Assistant Professor.**

B.F.A., University of Illinois at Urbana-Champaign; M.F.A., University of Illinois at Urbana-Champaign.

**Christopher S. Rose, Associate Professor.**

B.S., McMaster University; M.S., University of Victoria; A.M., Harvard University; Ph.D., Harvard University.

**Martha K. Ross, Professor.**

B.A., Florida State University; M.S., Florida State University; Ph.D., Florida State University.

**Marina V. Rosser, Professor.**

M.A., Moscow State University; Ph.D., Moscow State University.

**Ayaskanta Rout, Assistant Professor.**

B.S., University of Bombay (India); M.S., All India Institute of Speech and Hearing; Ph.D., Purdue University.

**Cynthia D. Rubenstein, Instructor.**

B.S.N., University of Virginia; M.S.N., Virginia Commonwealth University.

**Charles M. Runyan, Professor.**

A.B., Grove City College; M.A., University of Kentucky; Ph.D., Purdue University.

**Eric K. Ruple, Professor.**

B.M., Arizona State University; M.M., Arizona State University; D.M.A., University of Michigan.

**Brenda M. Ryals, Professor.**

B.S., East Carolina University; M.A., University of Tennessee; Ph.D., University of Virginia.

**Emil H. Salib, Professor.**

B.S., Cairo University (Egypt); M.S., Cairo University; Ph.D., University of Wollongong (Australia).

**Alison D. Sandman, Assistant Professor.**

B.A., Harvard University; M.A., University of Wisconsin–Madison; Ph.D., University of Wisconsin–Madison.

**Karen E. Santos, Professor.**

B.S., Northwestern University; M.Ed., University of Virginia; Ph.D., University of Virginia.

**Michael J. Saunders, Associate Professor.**

B.S., East Tennessee State University; M.A., East Tennessee State University; Ph.D., University of Georgia.

**Bryan K. Saville, Assistant Professor.**

B.A., University of Minnesota; M.S., Saint Cloud State University; Ph.D., Auburn University.

**Elena A. Savina, Assistant Professor.**

Specialist Diploma, Moscow State Pedagogical University; Ph.D., Moscow State Pedagogical University; Ph.D., University of Central Arkansas.

**John A. Scherpereel, Assistant Professor.**

B.A., University of Notre Dame; M.A., University of Wisconsin–Madison; Ph.D., University of Wisconsin–Madison.

**Kurt Schick, Associate Professor.**

B.A., University of Virginia; M.A., Mary Baldwin College; Ph.D., Texas Christian University.

**Timothy J. Schulte, Assistant Professor.**

M.A., University of Illinois; Ed.S./M.A., James Madison University; Psy.D., James Madison University.

**Katherine A. Schwartz, Associate Professor.**

B.S., Radford University; M.S., Florida State University; Ph.D., The University of Arizona.

**Abigail Schweber, Assistant Professor.**

B.Sc.E. University of Pennsylvania; M.A., Harvard University; Ph.D., Harvard University.

**Kyle Seifert, Assistant Professor.**

B.A., Augustana College; Ph.D., University of Florida.

**Sherry L. Serdikoff, Associate Professor.**

B.A., Temple University; M.A., West Virginia University; Ph.D., West Virginia University.

**Michael J. Seth, Assistant Professor.**

B.A., State University of New York at Binghamton; M.A., State University of New York at Binghamton; Ph.D., University of Hawaii.

**Kristi L. Shackelford Graduate, Instructor.**

B.A., James Madison University; M.A., James Madison University.

**Margaret B. Shaeffer, Associate Dean.**

B.S., University of North Dakota; M.S., University of North Dakota; Ph.D., University of North Dakota.

**Maureen G. Shanahan, Associate Professor.**

B.A., Duke University; M.A., University of Michigan; Ph.D., University of Michigan.

**Craig N. Shealy, Associate Professor.**

B.S., Southwest Missouri State University; M.A., Hollins College; Ph.D., Auburn University.

**David J. Shonk, Assistant Professor.**

B.S., Virginia Polytechnic Institute and State University; M.S., University of Maryland University College; Ph.D., The Ohio State University.

**Jeffrey A. Showell, Professor.**

B.M., Eastman School of Music; M.M., Eastman School of Music; D.M.A., Yale University.

**Rebecca A. Silberman, Assistant Professor.**

B.F.A., Longwood College; M.F.A., Bowling Green State University.

**Jessica R. Sitcovsky, Assistant Professor.**

B.A., University of Connecticut; M.S., James Madison University; Ph.D., James Madison University.

**B. Douglas Skelley, Professor.**

A.B., University of South Carolina; M.A., American University; Ph.D., University of Georgia.

**Mary S. Slade, Associate Professor.**

B.S., Longwood College; M.Ed., University of Virginia; Ph.D., University of Virginia.

**Margaret M. Slattery, Assistant Professor.**

B.S., Trenton State College; M.Ed., West Chester University; Ed.D., Temple University.

**Kimberly H. Slekar, Professor.**

B.S., The Pennsylvania State University; Ph.D., Carnegie Mellon University.

**Dorothy J. Sluss, Associate Professor.**

B.S., University of Virginia College at Wise; M.A., Virginia Polytechnic Institute and State University; Ph.D., Virginia Polytechnic Institute and State University.

**David A. Slykhuis, Assistant Professor.**

B.A., University of Northern Iowa; M.Ed., Eastern Illinois University; Ph.D., North Carolina State University.

**Michelle A. Smith-Bermiss, Assistant Professor.**

B.A., Queens College; M.A., Queens College; Ph.D., University of Virginia.

**Randell S. Snow, Instructor.**

B.S., Eastern Mennonite University; M.S., James Madison University.

**James S. Sochacki, Professor.**

B.S., University of Michigan; M.S., University of Michigan; Ph.D., University of Wyoming.

**Mary Jeanne Speare, Associate Professor.**

B.M., Eastern New Mexico University; M.M., Southern Methodist University; Ph.D., Washington University.

**Eric M. Stark, Assistant Professor.**

B.B.A., Ohio University; M.B.A., Wright State University; Ph.D., University of Arkansas.

**Angela Renee Staton, Associate Professor.**

B.S., James Madison University; M.Ed., James Madison University; Ph.D., University of Virginia.

**Paulo R. Steinberg Grikis, Assistant Professor.**

B.M., Universidade de São Paulo; M.M., Arizona State University; D.M., Indiana University.

**Barbara Slater Stern, Associate Professor.**

B.S., University of Rhode Island; M.A., University of Louisville; Ed.D., University of Central Florida.

**Lee Sternberger, Assistant Professor.**

B.A., University of Missouri Honors College; M.S., Washington State University; Ph.D., Washington State University.

**Scott P. Stevens, Associate Professor.**

B.S., The Pennsylvania State University; Ph.D., The Pennsylvania State University.

**Carrie L. Stevens, Associate Professor.**

B.M., University of Wisconsin; M.M., Boston University; D.M.A., University of Minnesota – Minneapolis.

**Gregory K. Stewart, Assistant Professor.**

B.F.A., State University of New York at Brockport; M.F.A., Ohio University.

**Anne L. Stewart, Professor.**

B.A., Purdue University; M.A.T., DePauw University; Ph.D., University of Virginia.

**Trevor F. Stokes, Professor.**

B.A., University of Western Australia; M.A., University of Kansas; Ph.D., University of Kansas.

**Michael L. Stoloff, Professor.**

B.A., State University of New York at Binghamton; M.A., Johns Hopkins University; Ph.D., Johns Hopkins University.

**Sharon L. Strang, Assistant Professor.**

B.S.N., Duquesne University; M.S.N., Edinboro University of Pennsylvania; F.N.P., Old Dominion University.

**Pamela M. Sullivan, Instructor.**

B.A., Bryn Mawr College; M.A./Ed.S., University of South Florida; Ph.D., University of Virginia.

**Donna L. Sundre, Professor.**

B.A., California State University; M.A., California State University; Ed.D., University of North Carolina at Greensboro.

**Debra L. Sutton, Associate Professor.**

B.S., Ball State University; M.A., Ball State University; Ph.D., The Pennsylvania State University.

**Nicholas J. Swartz, Assistant Professor.**

B.A., University of North Carolina at Wilmington; M.P.A., University of North Carolina at Wilmington; Ph.D., University of North Carolina at Charlotte.

**Kenneth Allen Szmagaj, Professor.**

B.F.A., Wayne State University; M.A., University of Iowa; M.F.A., University of Iowa.

**Jeffrey D. Tang, Visiting Assistant Professor.**

B.A., Northwestern University; M.A., University of Pennsylvania; Ph.D., University of Pennsylvania.

**Allyson Mellberg Taylor, Assistant Professor.**

B.F.A., Milwaukee Institute of Art and Design; M.F.A., University of North Carolina at Chapel Hill.

**Anthony A. Teate, Professor.**

B.S., Morehouse College; M.S., University of Michigan; Ph.D., University of South Florida.

**Wayne S. Teel, Associate Professor.**

B.S., Seattle Pacific University; M.S., Cornell University; Ph.D., Cornell University.

**Timothy G. Thomas, Assistant Professor.**

B.A., University of North Carolina at Chapel Hill; M.A., University of Virginia; Ph.D., University of Virginia.

**Mary Thompson, Assistant Professor.**

B.A., University of Vermont; M.A., University of Vermont; Ph.D., Bowling Green State University.

**Jon M. Thompson, Professor.**

B.A., Florida State University; M.S.P. Florida State University; Ph.D., Virginia Commonwealth University.

**Sharlene R. Thompson, Assistant Professor.**

B.A., George Mason University; M.A., George Mason University; Ph.D., University of Oklahoma.

**Brett C. Tjaden, Assistant Professor.**

B.S., Haverford College; Ph.D., University of Virginia.
