

STUDY ABROAD

For many students, the time spent studying abroad is one of the most significant periods in their academic studies.

SEMESTER IN ANTWERP*

The Semester in Antwerp is an experience-based program, blending classroom theory with field trips to actual European businesses and sites of historic and cultural interest. The totality of the experience will result in a deep understanding of European business practices.

While in Antwerp, students attend classes at the University of Antwerp with business faculty who specialize in European integration and the effects of economic and monetary union.
