

## College of Education Vision Statement

The vision of the College of Education is to be recognized as a global leader in facilitating *Learning across the Lifespan* through the practical application of best practices. The College prepares professionals to knowledgeably integrate diverse perspectives and positively impact the lives of all they serve.

These ideals are embodied through:

- Educated and enlightened Professionals who value civic responsibility and social justice and who demonstrate leadership for positive cultural transformation. These professionals inspire others to improve schools, agencies and organizations and to engage all learners in reflection, discovery, renewal and transformation.
- Performance-focused Programs grounded in inquiry and evidence-based methodologies that leverage educational technologies for learning.
- Collaborative Partner Relationships that enhance programs and practice and develop and inform policy.
- Informed Participants who value the diversity in people and perspectives.
