

Fall 2023 Student Teaching:

Fall Intern fingerprinting will be performed June 15th to June 30th to ensure that we have received background check results prior to the start of the internship placement. Per CCPS policy, no interns can begin their placement until we have a “clear/approved” background check. In efforts to mitigate "pending background checks," CCPS will be performing background checks as early as June to allow enough time for results to come back. We would like all background checks to be in by late July to prevent any challenges with late starts or not meeting internship hours.
