

COUNSELING CENTER

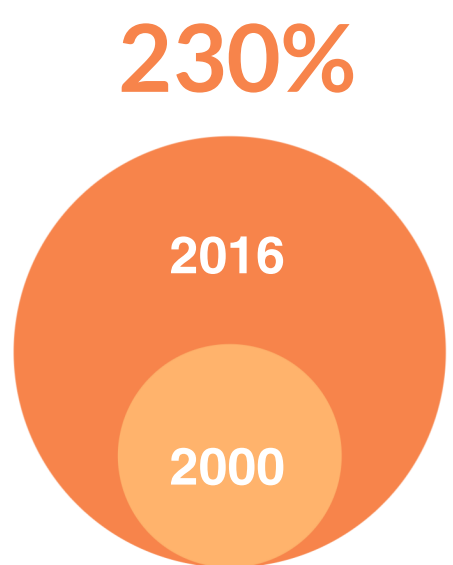

Statistics you should know

1

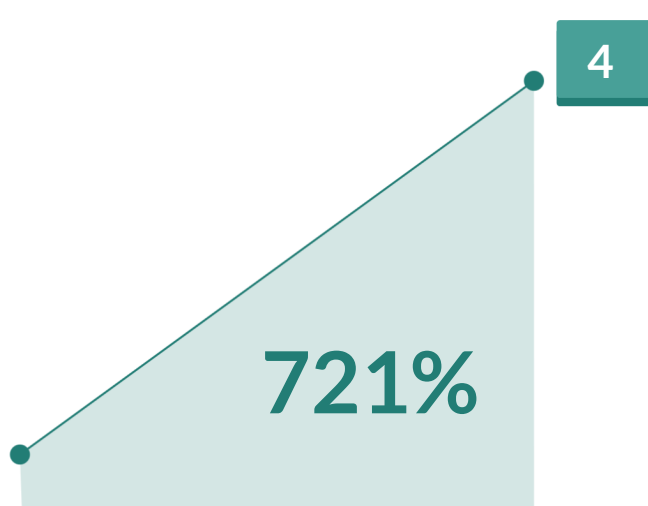

Percentage growth 2000-2016

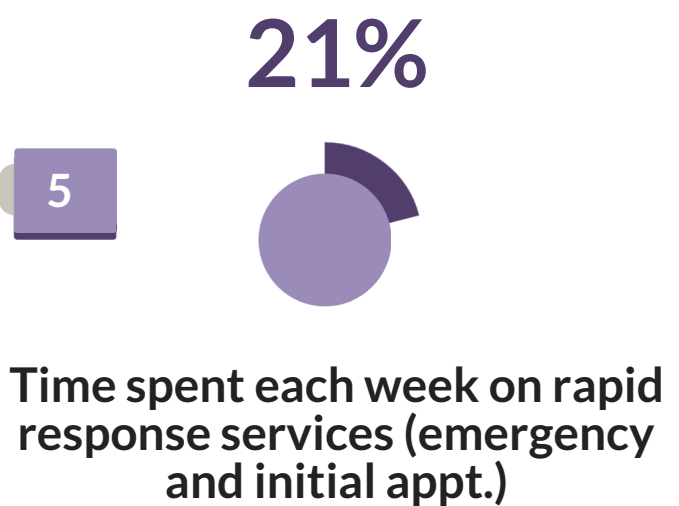

Increase in sessions per CC clinician.

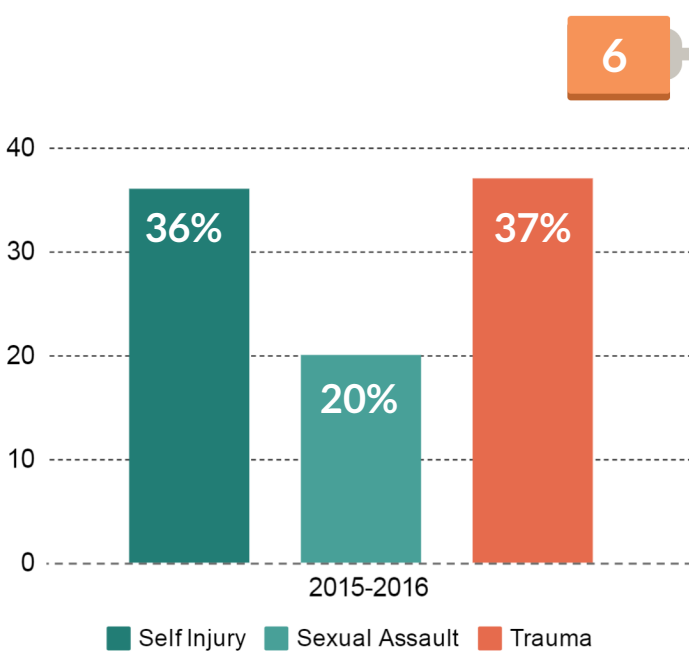

Increase in individual counseling sessions

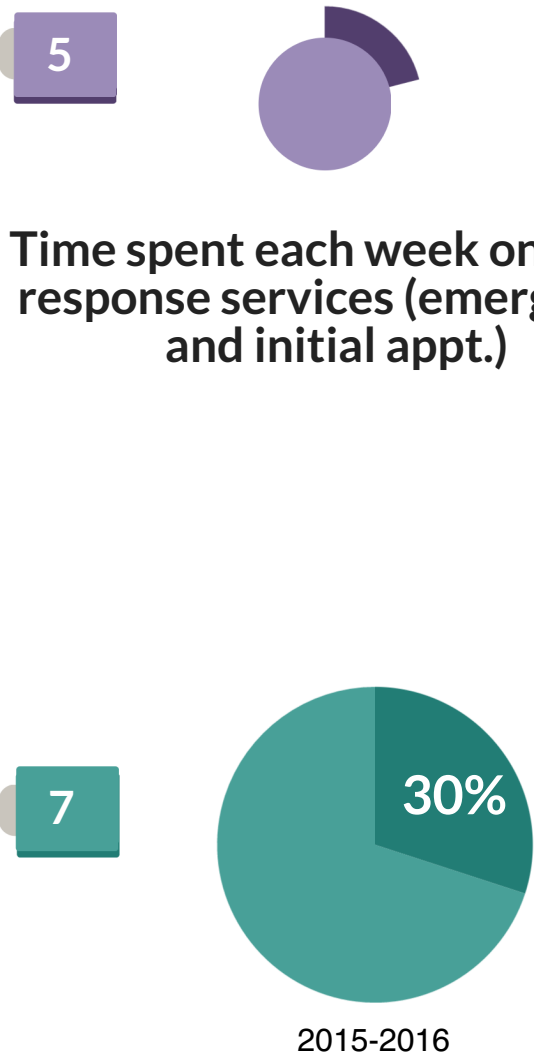

Increase in crisis appointments in the last 10 years

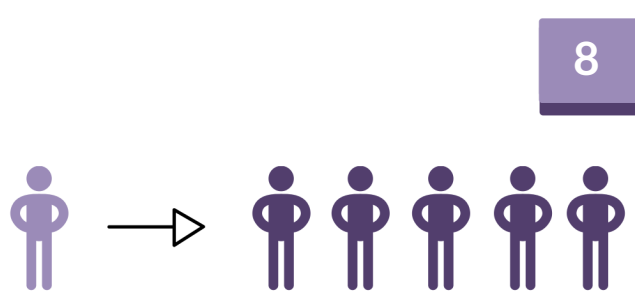

Time spent each week on rapid response services (emergency and initial appt.)

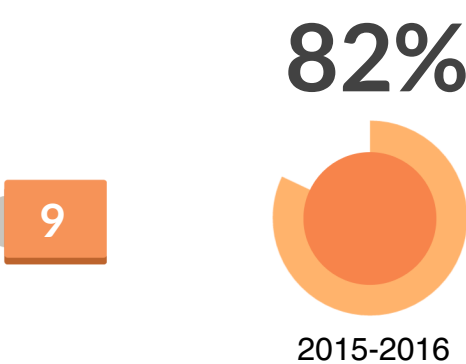

Students who came to the CC reported these experiences

Students who came to the CC had considered suicide

National data shows that every 1% increase in JMU enrollment will result in a 5% increase in CC clients

Students who came to the CC & received ongoing CC clinical services. This will decrease as demand increases.
