

Many courses offered in JMU's Study Abroad programs fulfill General Education requirements. Most apply only to area requirements in Cluster Two (the Arts and Humanities), but courses that meet requirements in other clusters are increasingly available through the Short Term Summer programs. Please note that course offerings can differ between Fall/Spring semester and Summer (this is usually the case for Semester Programs) and can also differ from summer to summer. The General Education program works closely with the Office of International Programs to be sure we have identical information regarding courses approved for GenEd credit. Students considering study abroad should consult BOTH the OIP Study Abroad website and the tables below. Courses NOT listed on this site do not have approval for GenEd requirements.

If you want to go abroad with a different college or university and transfer credit to JMU, then you will need to get approval using the Permission to Take Transfer Credit form and procedures.

Semester Program Courses currently approved for Cluster 2 credit:

	Group 1	Group 2	Group 3
