HOSTING COMPANY: EXPORTORY

BUSINESS SECTOR: Technology

COMPANY DESCRIPTION:

Exportory is a technological start-up that have developed an algorithm that by using Big Data and Artificial Intelligence it calculates the risk of marketing a product in a specific country.

Big Data and our Algorithms are the Core to assess your international success and risk factors. Thanks to our competitive intelligence software we manage to reduce time and costs. We evaluate your international risks to help you sell abroad, but not in any way, at low cost.

We have developed an algorithm capable of determining the risk of the product of a company in a country. We study the product, analyze the market in which you want to enter and voilà: our algorithm calculates the risk of your company's product in that country, which means objective information to decide whether to invest in that market or not.

We also find and analyze the success and failure factors for your product in the country you are interested in: market, competition, opportunities…

In essence: we assess the risks of exporting SMEs, but always, at a cost of SMEs.

EXPERTISE AREAS:
Marketing
*   Business
*   Technology
*   IT / Computer Science (Artificial Intelligence)

EUROACE

HOSTING COMPANY: PROYECTO A

BUSINESS SECTOR: Education

COMPANY DESCRIPTION:

Development of electronics educational materials and programs for kids.

In Project A, our goal is to bring all technologies closer together and promote STEAM vocations. That's why we are creating educational materials, training programs and special courses that will demonstrate that it's not too difficult to learn about electronics, programming, nor design. All you have to do is learn how to approach each one in the right way.

We have our own methodology that has been designed over years of experience in this field. It is called "Resilience based learning". Resilience, applied to learning, is the ability to overcome mistakes considering them as experiences rather than failures. Project A considers all the possible mistakes that could make the road an obstacle course and solves them for the user.

EXPERTISE AREAS:

- Design and programming of web pages (Wordpress)
- Content Developer for social networks (videos, animations, images, pictures)
- Development of workshops and courses about virtual reality or video games for kids

COMPANY WEBSITE: https://www.proyectoa.es/

EUROACE

HOSTING COMPANY: SMARTABLE

BUSINESS SECTOR: IT and Telecommunications

COMPANY DESCRIPTION:

Smartable was founded in 2013. The reason was the presence in the market of new gadgets and its capacity to be connected to the internet.

We have been incorporating products and services, new and innovative, to bring unique and modern products to our clients.

Today, we carry on searching for agreements with manufacturers, distributors and collaborators, ready to join our network: we are the nexus between the quality product and those that decide to sell our products in their physical stores.

Our e-commerce, apart from being a showcase, emerges as a support tool to our clients and firms.

In our extensive portfolio, we have customizable products for companies and ideal tools for modern marketing.

Products for consumption like a smartwatch that helps you to count your steps and your pulse, while you talk on the phone or take photos; mini telephones to ensure your connection when you do sport.

We offer services like charging stations (customizable), a marketing-wifi service for your establishment, or even number redirections.

But that's not all, at Smartable we work every day to make ourselves a known brand and help clients to resolve their problems, with the most innovative technology. Because of this we have attended a series of events and fairs around the whole of Spain. In each event, we have acquired new knowledge about the market and our clients, and we proceed to apply this to our products.

Our effort and the enthusiasm of our team are starting to bear fruit, with new ideas that we launch to the market with excitement, transformed into new products.

EXPERTISE AREAS:

- IT and Computer Science
- Telecommunications
- Journalism and Communications
- Business
- Tourism

COMPANY WEBSITE: https://smartable.es/en/
