**EDUCATION**

**IALE SCHOOL**  
(Spanish is not required)

IALE school was founded in 1967 and was the first school of the IALE-Elian Education Group. It is a private school and is situated just a few kilometers from Valencia. The school offers bilingual Spanish and English education at the pre-school and primary levels.

The intern will assist with one-on-one reading, oral presentations, individual group work, and teaching assistance with the subjects of cooking, art and sports. The intern will also support low ability students and supervision of specific students. Additionally, the intern will help with classroom administration assigned by the classroom teacher, such as photocopying and classroom decoration.

**AMERICAN SCHOOL OF VALENCIA**  
(Spanish is not required)

American School of Valencia prepares globally conscious, life-long learners in an innovative, collaborative and caring environment. Today’s world needs people who can identify and solve problems through flexible, reflective and critical thinking. We demonstrate our understanding when we can apply our knowledge to a novel situation or teach another person.

The intern will be assisting both Spanish classroom teachers and English classroom teachers at the elementary level. He or she will be working with small groups and large groups of students with classroom teachers.

**ESCUELA INFANTIL KINDER**  
(Spanish is not required)

For almost 40 years now, the Escuela Infantil Kinder preschool has been devoted to the care, education and overall development of children up to 3 years old. We know from experience that children are capable of learning their mother tongue plus more languages at the same time and at an early age.
Intern tasks: Establish daily routines: keeping an order of daily routines so that children are able to internalize the sequence of activities and predict what will come next. Meet the basic needs of children: helping during lunch time, taking care of them during their nap, surveillance during playground time, making sure they are clean and neat, etc. • Provide care and support to children, providing them with a secure environment to learn. • Help increase children’s self-sufficiency and independence, so that they gain self-esteem and confidence. • Teach how to use certain instruments that improve fine motor skills (paints, crayons, brushes, etc). • Support the development of children’s basic skills, including physical coordination, speech and communication.

ENGINEERING

AIR NOSTRUM
(Spanish is not required)

Air Nostrum leads regional aviation in Spain and is one of the largest regional airlines in Europe. With 100% private capital, it’s an exclusive franchise of Iberia’s group and belongs to the Oneworld Alliance. Currently, it has around 2,000 employees, operates more than 128,000 annual flights in more than 120 different routes, carries over 4.8 million passengers per year, has a turnover of more than 500 million euros per year and it’s the only Regional European Company that has been awarded “Airline of the Year” (Golden Category) five times, granted by ERA (European Regions Airline Association).

An intern’s main objective is to check the consistency of MRM/AMP/TRAX for both fleets and to establish the means for continuous oversight. They will assist with the scheduled maintenance performed on fleets CL600-2D24 and CL600-2E25 in Air Nostrum that follows the approved maintenance program (AMP) which is based on the maintenance program (MRM) provided by the manufacturer, Bombardier.

GD ENERGY SERVICES (GRUPO DOMINGUIS)
(Spanish is not required)

An international company and leader in industrial services in the following areas: surface treatments, industrial maintenance, renewable energies services, chemical cleaning and emergencies. Its degree of diversification positions the group as one of the companies with the most promising outlook in the energy market (nuclear, fossil and renewable, petrochemical and gas). Currently, Grupo Dominguis has a workforce of more than 1,400 professionals worldwide. This is a highly qualified customer-orientated team that provides added value solutions adapted to the specific needs of each project. It has a strong commitment to research, development and innovation. One of its main areas of growth is in technological development. The company aims to extend its operational field, continuously improving and supporting our clients.

The projects in which the student will be involved depends upon his/her field of study, experience and areas of interests. The intern will provide support to the technical office by elaborating on different procedures. The intern will also have the opportunity to take part supporting energy service projects.

GRUPO TICE
(Spanish is not required)

Grupo T.I.C.E Ingenieros came about by joining different engineering disciplines in order to offer the most complete service for our customers’ demands. **NGOs**

**FUNDACIÓN POR LA JUSTICIA**  
(Spanish is not required)

FxJ is an independent, non-profit, self-governing organization dedicated to defending, promoting and protecting human rights. Their goal is to contribute
influencing changes in attitudes and behavior in society by assessing the current situation of justice and promoting values such as peace, democracy and solidarity, both in Spain as well as in developing countries in Africa, Asia, and Latin America. FxJ provide tools and programs to people that are in a situation of inequality or at risk of social exclusion.

The intern will organise events, help design a plan to increase donors and work in the marketing and online platforms (campaigns through email, social media, ...)

**JARIT ASSOCIACIÓ CIVIL**
(Spanish is not required)

Located in neighborhoods that have a large immigrant presence, the NGO works for and with migrants to offer tools for coexistence between different cultures. This is a joint partnership; we live and work respectfully with migrants and locals alike. We believe our innovative organizational model of integrative intervention is the best choice, as great value can be obtained from the experience. Jarit offers a level of autonomy and participation with volunteers, rooted in a philosophy of maximum transparency. Within this altruistic team, we highlight the presence of the migrants, which enhances their integration into society.

The intern will be working with a team on a new project to develop a Social Responsibility Cooperative Department. The intern will have the opportunity to discuss planning possibilities, implement strategies, create protocols and cooperate with other companies with the aim of integrating immigrants.

**ASOCIACIÓN ÀMBIT**
(Spanish is not required)

ÀMBIT has worked for 20 years for people at risk of social exclusion, offering the opportunity of a dignified life. Our mission is the conviction that the prison as an institution creates many more problems than it helps to solve them, and that it is an anti-pedagogical place, unable to develop a proposal for educational intervention from imprisonment. Our vision is creating ways for the at-risk population to more easily access progressive freedom, despite any disadvantages they have. Our values consist of dignity, freedom, justice, truth, honesty and respect (to the processes, diversity, decisions, etc.).

The intern will prepare articles for the website, work with social networks and translate articles to English. The intern will also take part in event organization by assisting with invitations, material preparation, presentations and publicity of the event.

**POLITICAL**

**PSPV**

Socialist Party of the Valencian Country or PSPV was a small nationalist and leftist Valencian party, mostly confined to the academic world within the University of Valencia. In 1978 they decided to merge with the much larger national Spanish Socialist Workers’ Party (PSOE), to which they integrated. The PSPV-PSOE was the ruling party in the Valencian Community from 1983 through 1995. The People’s Party (PP) won the elections since then until 2015.

The intern will follow the current political and social situation, prepare notes regarding the present issues and scenarios, follow the activity at the parliament, research statistical information and support the organization’s public events.

**REAL ESTATE**

**HOLA STAYS**
(Spanish is not required)

HolaStays is a company with a long experience in the vacational rentals sector. The “Hola” in our name is a
statement of intent: we want to welcome you to our accommodations and make you feel at home. Through our website, you can book your stay in more than 80 apartments in Valencia.

The intern will participate supporting our commercial department. From studying property listings, interviewing prospective clients, accompany clients, discuss conditions of sale, advise clients on market conditions and generate list of new properties.

**SPOT-A-HOME**  
(Spanish is not required)

Spotahome is a platform that allows people to book a home in another country for periods of one month or more. Unlike traditional property listing websites, we do visit every property, write our own detailed descriptions and take professional quality photos. We then allow you to directly book online.

The intern will experience the fast-paced nature of working in a start-up company and develop the skills needed to enter a competitive workforce with additional professional experience to succeed in the real-estate market.

**R&D**

**FAB LAB**  
(Spanish is not required)

Valencia Fab Lab works for the development of projects related to digital manufacturing and its applications. Also it is a center for training and research in the same field. It is equipped with software and manufacturing machines that allow professionals, staff, interns and university community, from entrepreneurs and students, to companies and organizations, to transform all the ideas and concepts into reality and to accelerate the development of digital manufacturing. Tasks include:

The intern will work and collaborate with the current projects of the company.

Also the intern will assist developing new projects. He/She will help elaborating plans, impressions of pieces in 3D, machining of pieces, assembly of different components, managing and solving issues, keeping tidy and clean the lab, etc.

**BIOTECH VANA**  
(Spanish is not required)

Biotech Vana is a spin-off of the University of Valencia that provides research products and services in Computational Biology and Bioinformatics. The company performs fundamental and applied research including NGS services, database design, research projects, and state-of-the-art software. The Biotechvana headquarterers are located at the European Business and Innovation Centre of Valencia (CEEI).

The intern will work in several tasks associated to the bioinformatics analysis and functional annotation of NGS omic data. This includes diverse jobs involving data mining, preprocessing and quality analysis, depending on the project to address de novo assembly or mapping and annotation, phylogenetic analysis etc.

**CEAM**  
(Spanish is not required)

Research, development and technological innovation center that works to improve the Mediterranean environment. We focus on offering comprehensive proposals for environmental management in the domain of the atmosphere, ecosystems, human activities and their interactions.

CEAM’s activities range from basic research, into finding solutions for priority environmental problems, to the development of new technologies and applications, which are set up as pilot projects where the advances made on
the management scale are demonstrated. Therefore, these activities are basically of the essentially pre-competitive R&D kind. R&D activity also leads to scientific counseling tasks in the areas that CEAM's competences cover, and it specifically contributes to environmental management policymaking at various levels, from the local level to that of the European Union. The intern will participate in experiments to be carried out in the high volume outdoor simulation chamber EUPHORE (European Photo Reactor).

**GREEN MOLECULAR**
(Spanish is not required)

Green Molecular is a spin-off company promoted by CRB Inverbio and the University of Valencia. Our aim is focused on discovering and developing properties of natural polyphenols that can benefit human health.

Intern tasks: - Collaborate in experimental research (Molecular Oncology), both in vitro and in vivo. - Training in different Molecular Biology-related techniques will be an essential part of the tasks where the student will be involved.

**TECH/START-UPS**

**EXPORTORY**
(Spanish is not required)

Exportory is a technological start-up, we have developed an algorithm that by using Big Data and Artificial Intelligence it calculates the risk of marketing a product in a specific country. To summarize, we are developing a new way of understanding international marketing based on data analysis.

The intern will participate in the definition and design at strategic and operational level of the projects, with the aim of attracting end users (Spanish companies that want to export their products). New product design: using the lean startup and design thinking methodology we participate in the design and creation of a completely new product, aimed at companies outside Spain that are willing to export their products from their countries to Spain.

**STARTUPXPLORE**
(Spanish is not required)

Startuxplore is the startup funding community platform. With over 12,000 startups in their data base, the company gathers information critical for investor funding.

The intern will develop and implement a scalable business model and compare with current businesses. Manage relationships with local supermarkets and chains to have the best collaboration in day-to-day operations, control and recruit “Shoppers” in the city of Valencia.

**TRANSLATION LANGUAGES**

**BIG TRANSLATION**
(Spanish is not required)

Big Translation is a translation agency that ensures that your text is translated to the highest quality. We will adapt fully to your needs, in every sense. Our in-house team will be happy to advise you on the service that is best suited to your text and requirements, and our project managers and professional native translators will ensure that your text is accurate, reliable and effective.
The intern’s main roles would be to translate texts, (depending on their language knowledges), and he/she will learn new techniques to translate faster. Our team is formed by more than 50 professionals from different countries.

**LANGUING**
(Spanish is not required)

With Languing users have fun, meet people and learn with natives through videoconference. Use our applications to enhance your learning. Why don’t you study while having fun with Languing? You can find your ideal language partner among all the Languers similar to you. You have a whole world to explore!

**TOURISM**

**URBAN YOUTH HOSTEL**
(Spanish is not required)

Located on one of the most important avenues of Valencia, Urban Youth Hostel is very close to the Marina, the Royal Navy and the impressive City of Arts and Sciences. Its elegant green facade, which maintains the original design, reflects over 100 years of history. This is a completely renovated building.

Specific tasks include, but are not limited to: • Daily promotional work through marketing, social networks and communications, which includes: Press Notes, Blog, Mail Marketing, and Social Network Management. • Analysis and statistical reports on the occupancy rate, income and revenue of the two businesses (the Hostel—the accommodation aspect, and the restaurant—“The Youth Bar”), reservations through and reviews of portals like booking.com, and the software used by the company (HOSTELSYSTEM) • Progress evaluations and reports, including proposals for suggested improvements

**HOWLANDERS**
(Spanish is not required)

We are an e-comerce for tours an touristic activities in developing countries, specially LATAM. We work in collaboration with selected local agencies, offering an amazing experience, unbettable prices and all the confidence our travelers requires.

The intern’s main tasks are to explore the new key markets and test our services by developing a fast marketing and sales strategy. To do so, the intern will elaborate linkbuilding actions, create social media buzz, liase with local bloggers and influencers to promote our services and communicate with the clients.

**ARAVOLO**
(Spanish is not required)

We are currently focused on providing better solutions for the mobility of tourists in Europe, and have started the pilot project in Valencia, which is where our headquarters is based. We are an ethical company and we constantly strive to be the most efficient in order to offer standard prices and exceptional quality; yes, the combination is possible! We hope you use our service, supporting a social company whose goal is to reduce pollution in European cities through the development of services and products. Our goal is to rethink the way we move within the cities in order to effectively reduce pollution and enjoy better rides. Our company reinvests 95% of its profit in R&D in order to improve the quality of life in our cities. Our team is formed by motivated and joyful people, with an incredible spirit of making a better world and better society.

The intern will assist with bike deliveries and define the bike delivery process. Flow charts, process timing and estimated costs must be defined. The intern will also assist with the bike rental process. The current bike rental process should be redefined in order to reach the standards we want to achieve and to be more effective in processes. The intern will promote markets by working with social media and digital platforms.
