4. **Why was March 10, 2024, selected as the cutoff employment date for the 3% merit increase?**

    For 10-month faculty, the order of the increases is:
    - 3% merit increase first (effective June 10, 2024)
    - Promotion and tenure increase next (effective August 25, 2024)

12. **For employees separating effective June 10, 2024, will the June 10, 2024 merit increase apply to their leave payments or other benefits?**

Effect on Employees' Compensation

1. **When will I see the merit increase in my paycheck?**
   For eligible full-time employees, the June 10, 2024 merit increase will first appear in the July 1, 2024 pay advice.

   For eligible wage employees, the June 16, 2024 merit increase will first appear in the July 16, 2024 pay advice.

   Eligible classified and A&P faculty who work a less-than 12-month contract and are in their rest months on June 10, 2024, will receive the 3% merit increase upon return to active working status.

2. **Is the June 10, 2024 merit increase applied on base pay or total state pay?**
   The merit increase is applied to base state salary only.

3. **Is the June 10, 2024 merit increase applied to temporary pay?**
   No. Temporary pay is additional compensation above the employee's base salary that is paid when an agency assigns an employee to perform different key (essential) duties on an interim basis, for critical assignments associated with a special time-limited project, or for employees serving in an acting capacity in a higher-level position. Because these assignments are temporary, the additional pay
associated with them is not creditable for retirement purposes. Therefore, these amounts will not be automatically adjusted effective June 10, 2024.

4. **What happens to employees on leave?**

   Otherwise-qualified employees who are on short-term disability or other paid medical leave will receive the merit increase on June 10, 2024.

   Employees on long-term disability working will also have the merit increase applied to their current rate of pay. The adjustment does not apply to individuals who are on long-term disability-non-working.

   Instructional faculty on educational leave with full pay, partial pay, or without pay will receive the merit increase when they return to active working status.

   Employees on leave without pay are not eligible for the merit increase until they return to work or paid leave.

   Military supplements of eligible employees on leave without pay-military will be adjusted to reflect the merit increase.
