

Leading Change Conference Parking Instructions

Friday, February 24th, 2023

Check in on the 2nd floor of Hartman Hall, room 2021.

JMU's digital parking pass system allows visitors to park in any lot on campus for the duration of the pass. Please complete the form linked below to receive your digital parking pass, valid from 7:00 am on February 24th until 10:00pm on February 25th. Once you've reserved your digital pass, you will not need to display a paper pass in your vehicle. Virtual passes permit you to park in any university-owned lot, the closest of which to Hartman Hall is P-lot.

Please note: Parking enforcement will continue Friday, February 24th until 3:00pm. A virtual pass will not be necessary Friday after 3:00pm or any time Saturday, as university-owned parking areas are open for public use.

Visitor's passes are available for guests of the university but may not be reserved by actively enrolled students or employees. If you are a current student or employee of JMU and wish to reserve a single-day parking pass, please visit [the Parking Services webpage](#).

To redeem your virtual permits, go to <https://jmu.aimsparking.com> and click on "Redeem Event Permit." You will be prompted to select your event, enter the event code, and enter your vehicle information. Upon confirming the transaction, you will receive an email receipt. Directions for redeeming visitor permits can be found online at https://jmu.edu/parking/event-parking/event_redemptions.pdf.
