

Majors and MATH Requirements

The chart below shows math requirements by major. Any of the courses listed in **bold font fulfill the Calculus or Statistics requirement** for the major. Math courses not in bold indicate a lower level preparatory course. Enrollment in your first math course is based on your MPE score. The MyMadison system will not permit you to enroll in a course higher than the recommendation for your math score. In some cases, score parameters may overlap allowing students to enroll in either course. Additional courses may be required by the major.
