Credit Minimum = 60

* In the D.M.A. degree in voice, students are required to show competency in three languages in addition to English: French, German, and Italian. Transcripts of previous college study must show a minimum of 4 semesters of two of the languages and two semesters of the third language, or in other words, credit through the intermediate level of the languages in two languages, and through the beginning level in the third language. In cases where languages have been learned through means other than traditional college classes, competency equivalents can be shown by taking the JMU Foreign Language Placement tests for French, German and Italian and placing at the 300 level for two of the languages and at the 231 level for the third. If neither option applies, the languages must be taken at JMU as a remedial requirement. In this scenario, students take one credit of undergraduate language but enroll in MUS 690 (Special Studies) through their applied vocal professor. Students should communicate with their teachers about this process.
